The Academy of Design Australia specialises in tertiary-level art, design and digital media. The Academy is an independent not-for-profit institution established in 1998 to meet the demand for innovative education programs in creative, design-based studies. By graduating with a Bachelor of Design Arts and joining the ranks of the Academy alumni, graduates become part of a group that includes members of some of the country's top creative studios, Oscar-winning graphic designers, buyers for fashion houses, artists represented by major galleries, arts administrators, as well as freelance professionals.

Programs are offered in the areas of Communication Design, Fashion & Costume Design, Filmmaking & Photography, Graphic & Digital Design, and Visual Arts. More class time and smaller class sizes offer students the opportunity of individualised attention. Located close to public transport in Port Melbourne, the Academy's state-of-the-art facilities are designed to encourage students to reach their full creative potential. The Academy has purpose-built studios, theatre, computer labs and a gallery that houses regular exhibitions of professional artists, illustrators, designers and graduating students. The Academy has exchange agreements with top international colleges and universities in Europe and was the first independent Australian tertiary provider accepted as a member of the prestigious global art and design education organization Cumulus.

The unique Bachelor of Design Arts degree (BDA), the first of its kind in Australia, was developed in consultation with leading art and design professionals and educators. The structure of the BDA is reviewed by design professionals and is shaped by industry advice about contemporary creative practice: specifically that to be competitive, design graduates need skills in more than one major area of study. To assist students to build their cross-discipline creative skills, the Academy provides integrated major study streams such as Communication Design - Graphic & Digital Design, Fashion & Costume Design - Graphic & Digital Design, Filmmaking & Photography - Graphic & Digital Design, Graphic & Digital Design - Filmmaking & Photography and Visual Arts - Filmmaking & Photography. The end result for Academy students is an expanded professional skill-set providing increased career options.

The teaching staff at the Academy are integral to its success. Our academic mentors/tutors are from industry and highly respected and reputable artists or designers; their professional skills and experience are important factors in the high-quality and innovative work being produced by students at the Academy of Design.

The Academy and the degree of difference it offers are fully accredited and recognised by both Victorian and Australian education authorities. The Academy is registered to offer courses to international students (CRICOS No.02201G) and is AUSTUDY and FEE-HELP approved.

Open Day Activities

If you are the creative type consider visiting the Academy of Design's Open Day on Sunday 11 August. Try your hand at practical activities, speak with experts in the design industry, hear from Academy alumni and get advice on what to include in your tertiary entrance folio. For more information: http://www.designacademy.edu.au
Selection Procedure
The Selection and Enrolment Officer and Coordinator of Studies are responsible for initially assessing applications for admission submitted by prospective students. If either person is in doubt of the equivalence of a State or overseas qualification they will refer to various guidelines such as AEI-NOOSR to help establish equivalence. The Academy considers completion of the International Baccalaureate Diploma program equivalent to senior secondary matriculation. For more information: http://www.designacademy.edu.au/admission_selection_procedure.html

Credit Transfer and Mutual Recognition
The Academy of Design recognises the qualifications and statements of attainment issued by other registered training organizations and higher education providers, offering credit to applicants who have already successfully completed modules/units in relevant courses at other institutions at degree or diploma level.

In addition TAFE students who successfully complete a one-year certificate course or two-year diploma course are eligible for entry with credit into degree level courses at the Academy. The Academy has Pathway Programs to make the transfer from diploma to degree studies simple.

Refer to the Academy of Design website for further information. For more information: http://www.designacademy.edu.au/courses_credit_transfer.html

Deferment
The Academy's policy is to allow, in special circumstances, a one-year deferment of study for all new undergraduate students. For further information refer to the Academy website.

For more information: http://www.designacademy.edu.au/admission_deferment.html

FEE-HELP assistance
The Academy is an approved higher education provider able to offer FEE-HELP to students in the Bachelor of Design Arts course. FEE-HELP is an Australian Government scheme that assists eligible fee-paying students with their tuition fees. Through FEE-HELP, the government provides a loan to eligible fee-paying students to cover all or part of the cost of tuition. Students repay their loans either at any time voluntarily, or compulsorily when the student's income reaches a set repayment threshold (for full details see www.studyassist.gov.au).

For more information: http://www.designacademy.edu.au/support_fee_help.html

Scholarships
The Academy of Design's Scholarships and Awards are structured to uphold the Academy's principles of academic excellence, equity in access to quality education and recognition of student achievement. For more information: www.designacademy.edu.au/support_scholarships.html

Services
Student Counseling
Students experiencing difficulties that are affecting their studies can access confidential personal counselling funded or subsidised by the Academy. These difficulties may relate to personal, health, relationship or academic issues.

For more information: http://www.designacademy.edu.au/support_personal_help.html

**Personal Help**

The Academy of Design offers a supportive, friendly learning environment. Class sizes are kept small to facilitate optimum learning. Our tutors get to know each student and are readily able to monitor class attendance and academic progress, intervening promptly with remedial measures to get students back on track should problems arise.

When necessary, students experiencing difficulties that are affecting their studies can access confidential personal counselling funded or subsidised by the Academy.

For further information refer to the Academy website. For more information: http://www.designacademy.edu.au/support_personal_help.html

**Communication Design (HE)**

**Academy of Design Australia**

- Melbourne: 9150291572 (DFP) full-time/part-time  
- Apply: Through VTAC main round mid-year

- Melbourne: 9150291573 (IFP) full-time/part-time  
- Apply: Through VTAC main round mid-year

- Bachelor of Design Arts - major in Communication Design: 3 years full time study

**About the course:** Focused on creative solutions for clients and their brands, students in the Communication Design program develop a deep and strategic understanding of consumer behaviour and the motivations and emotion surrounding brand engagement. Students develop and refine planning and craft skills, such as art direction and copywriting. Progressing their ability to conceptualise and manage a campaign, from brief to channel delivery, students are enriched via agency engagement and industry mentoring. Academy graduates can capitalise on the mobility and global opportunities the communication design industry now offers. Professional placement and international exchange opportunities are also available to assist in building industry experience and professional networks. The course consists of five units of study per semester. Students undertaking the Communication Design major can elect a sub-major from either the Graphic & Digital Design stream or one of the other creative disciplines.

**Major studies:** Advertising, Advertising campaigns, Advertising design, Advertising media planning, Advertising production, Art direction, Branding and identity design, Computer graphic design, Contextual and cultural studies, Copywriting, Design, Design theory, Digital media, Digital photography, Graphic design, Interactive multimedia, Storyboard illustration, Video, Visual communication, Web design.

**Prerequisites:** None

**Middle-band:** None

**Selection Mode:** CY12 : ATAR, Supplementary form (All), Folio (All), Interview (All). See extra requirements for more information.

NY12 : Educational History including GPA, Supplementary form (All), Folio (All), Interview (All). See extra requirements for more information.

**Extra requirements:**

Supplementary form (CY12-All, NY12-All) : Applicants applying through VTAC must also send an application form direct to the Academy. To access the Academy of Design's application form go to www.designacademy.edu.au/admission_making_an_application.html

Folio (CY12-All, NY12-All) : All applicants for Academy courses are required to present a folio of recent creative work. While not expected to be of professional quality, the folio should demonstrate a range of creative and technical skills relevant to the course(s) applied for.
Interview (CY12-All, NY12-All): All applicants for Academy courses are required to attend an individual interview. Interviews usually are an informal, friendly discussion about the applicant's work, ambitions and interests. The interview panel consists of no more than two people who will ask questions relating to the Academy's selection criteria. Further details on the selection criteria can be accessed at www.designacademy.edu.au/files/selectioncriteria.html

**Fashion & Costume Design (HE)**

**Academy of Design Australia**

Melbourne: 9150291502 (DFP) full-time/part-time  Apply: Through VTAC main round mid-year

Melbourne: 9150291503 (IFP) full-time/part-time  Apply: Through VTAC main round mid-year

- Bachelor of Design Arts - major in Fashion & Costume Design: 3 years full time study

**About the course:** Graduating with a major in Fashion & Costume Design helps students hone their individual creative directions and develop the skills necessary to make their own mark on this exciting industry. Design principles are central to the program. Students create garments through applied design processes, from idea generation to mood boards and storyboards that address design briefs and trend forecasts, textile selection and practical garment construction. Students gain an understanding of commercial manufacturing, logistics and distribution, supported by an insight into the power of marketing and the importance of branding and fashion productions. Graduates can launch their own fashion label, enter fashion retail or marketing, or design and handle production for boutique or large-scale manufacturers. Professional placement and international exchange opportunities are also available to assist in building experience and professional networks. The course consists of five units of study per semester. Students undertaking the Fashion & Costume Design major can elect a sub-major from either the Graphic & Digital Design stream or one of the other creative disciplines.

**Major studies:** Art history, Business management and industry practices, Contextual and cultural studies, Design (Clothing and Fashion), Design drawing, Design history, Design influences and concepts (textiles), Design theory, Drawing and illustration, Dressmaking, Fashion, Fashion (design concepts), Fashion (design), Fashion (illustration), Fashion (pattern grading), Fashion photography, History (design), Product design (textiles), Visual communication.

**Prerequisites:** None

**Middle-band:** None

**Selection Mode:** CY12: ATAR, Supplementary form (All), Folio (All), Interview (All). See extra requirements for more information.

NY12: Educational History including GPA, Supplementary form (All), Folio (All), Interview (All). See extra requirements for more information.

**Extra requirements:**

Supplementary form (CY12-All, NY12-All): Applicants applying through VTAC must also send an application form direct to the Academy. To access the Academy of Design's application form go to www.designacademy.edu.au/admission_making_an_application.html

Folio (CY12-All, NY12-All): All applicants for Academy courses are required to attend an individual interview and present a folio of recent creative work. While not expected to be of professional quality, the folio should demonstrate a range of creative and technical skills relevant to the course(s) applied for.

Interview (CY12-All, NY12-All): Interviews usually are an informal, friendly discussion about the applicant's work, ambitions and interests. The interview panel consists of no more than two people who will ask questions relating to the Academy's selection criteria. **Filmmaking & Photography (HE)**

**Academy of Design Australia**

Melbourne: 9150291532 (DFP) full-time/part-time  Apply: Through VTAC main round mid-year

Melbourne: 9150291533 (IFP) full-time/part-time  Apply: Through VTAC main round mid-year
• Bachelor of Design Arts - major in Filmmaking & Photography: 3 years full time study

**About the course:** For those with a developed eye for detail, the Filmmaking & Photography program provides a focus for students interested in both still and dynamic photo imagery. With both historical and contemporary photographic and filmmaking methods considered, the program provides a springboard for students to develop creative and innovative visuals. Imagery is developed using the latest digital technologies and workflow processes, and allows students to merge their ideas and skills to complete their concepts with finesse and a critical appraisal. This mix of skills and knowledge offers graduates the flexibility to progress their career, from traditional forms of filmmaking and photography to newer models, in a variety of employment opportunities, either freelance or within a studio. Professional placement and international exchange opportunities are also available to assist in building industry experience and professional networks. The course consists of five units of study per semester. Students undertaking the Filmmaking & Photography major can elect a sub-major from either the Graphic & Digital Design stream or one of the other creative disciplines.

**Major studies:** Animation software, Art and photography (history), Art direction, Cinema studies, Computer graphics, Digital art and design, Digital media, Digital photography, Digital video, Film and media studies, Image processing, Interactive multimedia, Media communication, Media studies, Multimedia presentation, Photographic art direction, Photography (visual and conceptual development), Photomedia, Video, Visual communication.

**Prerequisites:** None

**Middle-band:** None

**Selection Mode:** CY12 : ATAR, Supplementary form (All), Folio (All), Interview (All). See extra requirements for more information.
NY12 : Educational History including GPA, Supplementary form (All), Folio (All), Interview (All). See extra requirements for more information.

• Bachelor of Design Arts - major in Graphic & Digital Design: 3 years full time study

**About the course:** The Graphic & Digital Design program provides graduates with a broad range of specialisations, such as print and collateral, brand, packaging, or digital design. Whatever direction they take, students can conceive, develop and produce technically refined designs through a consultative process, and against objectives and outcomes outlined within the briefing procedure. Students engage in professional creativity and extend their skills within studio workplace environments, both simulated and actual. Technical features within the program provide students with detailed knowledge of leading edge digital tools allowing them to realise their designs. The Graphic & Digital Design program advances visual literacy skills and cultivates an enhanced design aesthetic leading to dynamic and rewarding career outcomes. Professional placement and international exchange opportunities are also available to assist in building industry experience and professional networks. The course consists of five units of study per semester. Students undertaking the Graphic & Digital Design major can elect a sub-major from either Communication Design or Filmmaking & Photography stream or one of the other creative disciplines.
**Major studies:** Business management and industry practices, Cinema studies, Computer graphics, Computer software, Contextual and cultural studies, Design and business strategy, Design history, Design principles, Digital media, Graphic arts, Graphic design, Image manipulation (printing industry), Interactive multimedia, Media arts, Multimedia analysis and design, New media development, Photomedia, Reprographics and pre-press, Typography, Web design.

**Prerequisites:** None

main round mid-year

Melbourne: 9150291523 (IFP) full-time/part-time  
Apply: Through VTAC  
main round mid-year

- Bachelor of Design Arts - major in Visual Arts: 3 years full time study

**About the course:** For those with creative flair and an artistic leaning, the Visual Arts program allows students to explore and experiment with their expressive nature. Entwined with theory, the program drives students towards realising their creative vision through research, art history, traditional practice methods, and contemporary approaches to art in materials and process. Students garner foundational skills in life and observational drawing and learn techniques to enable the manifestation of their art production. Advanced knowledge of national and international artists and their practice provides a framework and context for students to locate their own emerging practice. Graduating with a major in Visual Arts offers wide-ranging professional opportunities: for example, practising as an exhibiting artist, commercial illustration, teaching, or working in gallery and museum collections. Professional placement and international exchange opportunities are also available to assist in building industry experience and professional networks. The course consists of five units of study per semester. Students undertaking the Visual Arts major can elect a sub-major from either the Filmmaking & Photography stream or one of the other creative disciplines.

**Major studies:** Art history, Arts (contemporary), Cinema studies, Computer software, Creative arts, Design drawing, Drawing, Drawing and digital art, Drawing and illustration, Fine art, Illustration, Interactive media, Painting, Photography, Visual arts, Visual communication, Visual culture, Visual language, Visual media, Visual theory.

**Prerequisites:** None

**Middle-band:** None

**Selection Mode:** CY12 : ATAR, Supplementary form (All), Folio (All), Interview (All). See extra requirements for more information.

NY12 : Educational History including GPA, Supplementary form (All), Folio (All), Interview (All). See extra requirements for more information.
**Extra requirements:**

www.designacademy.edu.au/admission_making_an_application.html

Folio (CY12-All, NY12-All): All applicants for Academy courses are required to attend an individual interview and present a folio of recent creative work. While not expected to be of professional quality, the folio should demonstrate a range of creative and technical skills relevant to the course(s) applied for.

Interview (CY12-All, NY12-All) : Interviews usually are an informal, friendly discussion about the applicant's work, ambitions and interests. The interview panel consists of no more than two people who will ask questions relating to the Academy's selection criteria. Further details on the selection criteria can be accessed at
The Academy of Interactive Entertainment (AIE) was established from the digital games industry as a not-for-profit organisation in 1996. AIE offers both part-time and full-time courses from Certificate II through to Advanced Diploma, Vocational Graduate Certificate and Bachelor degree. All AIE qualifications are nationally accredited under the Australian Qualifications Framework.

As the first specialist educational centre in Australia, AIE was funded to stimulate growth in the games development, 3D animation and digital entertainment industries. Since its establishment, AIE has won Australia's Small Training Provider of the year at the 2007 National Training Awards whilst achieving many other state and national accolades and achievements. AIE has earned much recognition throughout various entertainment industries as Australia's leading educator for Computer Games Development, 3D Digital Animation and Visual Effects.

AIE is a founding member of the Games Development Association of Australia (GDAA) and has continued contributing to the development of the games, screens and the interactive industries in Australia. This is evident by our graduate destinations which are a variety of leading Australian studios such as 2K Australia (ACT), THQ/Blue Tongue (VIC), Team Bondi (NSW) and internationally renowned game developers such as the Bioware (USA), Sony Computer Entertainment (UK), UbiSoft (Canada), and Sidhe Interactive (NZ). AIE has consistently achieved high employment rates for its graduates throughout the three campuses in Australia Sydney, Melbourne and Canberra.

In 2011, the Academy of Interactive Entertainment has opened two new campuses in Seattle, Washington and Lafayette, Louisiana in the U.S.A. This has created opportunities such as exchange programs for current AIE students and overseas job prospects for AIE graduates.

AIE delivers a unique brand of project-based learning, with a blend of hands-on training and knowledge-support lectures. This delivery methodology equips students with the tools and capabilities to be productive in the workplace. Meanwhile, AIE uses cutting-edge technology like multiple screens and the latest industry-led production software in all courses. As a result, AIE graduates are ensured industry ready and capable of being innovative and creative in a working environment.

Since 2012, AIE has launched the Scholarship Incubator Program as a post-graduate program, which assists Games and Screen graduates creating their own independent interactive businesses and commercialising their innovative digital media content. In addition, AIE has cooperated with Canberra Institute of Technology offering the Bachelor of Games and Virtual Worlds (Programming). This unique degree provides professional game programmers with the skills and knowledge of a computer science degree contextualised by gaming applications.

Entrance Requirements

For all AIE Advanced Diploma programs, there is no pre-requisite. Applicants will be required to attend an interview in person on campus, online or over the phone if the applicant is located in Victoria's regional areas or interstate. For the Bachelor of Games and Virtual Worlds (Programming), applicants need to have demonstrated a
completion in Year 12 or equivalent and with a minimum pass grade in English and mathematics (which includes Calculus) or an approved bridging program and/or skills assessment in mathematics and English.

Credit transfer, pathways and recognition of prior learning

Credit Transfer
AIE does not offer credit transfer and articulation arrangements with universities and other providers for the Game Art and Screen courses. The AIE Advanced Diploma qualification is nationally accredited and will be able to gain credits if graduates would like to further their studies with universities. For students enrolled in the Advanced Diploma of Professional Game Development (Specialising in Software Development), an articulation is available with Canberra Institute of Technology for the Bachelor of Games and Virtual Worlds (Programming).

For more information: [http://www.aie.edu.au/Melbourne/CampusOverview](http://www.aie.edu.au/Melbourne/CampusOverview)

Pathways or Articulation Statement
The Certificate II and III pathways are offered to applicants who do not meet the current criteria and wish to undertake the AIE Advanced Diploma programs or the Bachelor of Games and Virtual Worlds (Programming). The Certificate II in Creative Industries (CUF20107) and the Certificate III in Media (CUF30107) provide a pathway to the Advanced Diploma courses in Game Art and Screen, while the Certificate II in Information, Digital Media and Technology (ICA20111) offers a pathway to the Advanced Diploma Software Development stream and the Bachelor of Games and Virtual Worlds (Programming).

For more information: [http://www.aie.edu.au/Melbourne/CampusOverview](http://www.aie.edu.au/Melbourne/CampusOverview)

Recognition of Prior Learning
Students who have previous knowledge in Maya or C++, may apply for the Recognition of Prior Learning upon interviews to gain credits for the first year of the Advanced Diploma programs. These students may be considered a direct entry into the second year of the Advanced Diploma program.

Special consideration

Special Entry Access Scheme
AIE values and celebrates the diversity of the AIE community. It is committed to equal educational opportunity for all students and believes that all prospective students should be treated with fairness, equality and justice. No student at AIE is discriminated against because of race, colour, origin, nationality, gender, sexual preference, religious beliefs and/or any other circumstance, characteristic, appearance or belief. All prospective students will be assessed for entry to study through the same published entry requirements and through the same process, regardless of background, circumstance or eligibility for funding. AIE actively promotes equity in access to, and participation in, vocational education and training. The special entry access scheme (SEAS) enables our selection officer to grant extra consideration for individual applicants and provide support in accordance with the principle of 'reasonable accommodation'. Consideration of SEAS is provided on an individual, case by case basis, and may relax some aspects of the specific requirements but not exempt them.

Fees and Financial Assistance

Eligible students may apply for government subsidised funding. This may or may not cover the overall tuition fees. All AIE Advanced Diploma courses are VET FEE-HELP approved while the Bachelor degree offers FEE-HELP option. For more information on fees and financial assistance, please contact Melbourne office at 03 9820 8201 or email melbourne@aie.edu.au. For more information: http://www.aie.edu.au/StudentInformation/VetFee

Enrolment and Deferment

All successful applicants must follow the enrolment steps indicated in the Offer Letter which has listed details such as the enrolment date, time and location. All AIE students are required to complete enrolment in person on campus and bring their VTAC Offer letter, a photo identification, Tax File Number and evidence of Australian residency or Australian citizenship. VET FEE-HELP or FEE-HELP applications will be completed upon enrolment. Students will need to bring evidence of their eligibility. AIE does not offer deferment for the 2014 application.

For more information: www.aie.edu.au/Studentinformation/VetFee

Services

Student Accommodation

AIE does not provide student accommodation, but offers housing referral service. For more information: http://www.aie.edu.au/Melbourne/AccommodationInMelb

Game and Screen Studio Management (VET)

Academy of Interactive Entertainment

Melbourne: Domestic fee-paying places full-time Apply: Direct to institution

- Vocational Graduate Diploma of Management (Learning) : 1 year full time study

About the course: The Incubator Program provides graduates with the opportunity to create their own digital media businesses and supports them to create new companies, digital content and job opportunities. The program content covers business planning and development, as well as marketing, publishing and community engagement. It addresses the gaps between what it takes to create digital games and film and the skills and knowledge required to be a successful independent studio.

Prerequisites: Advanced Diploma Professional Game Development / Screen and Media.

Middle-band: None

Selection Mode: NY12: Folio (All), Interview (All). See extra requirements for more information. SEAS is considered.

Extra requirements:

Folio (NY12-All): Please contact AIE Melbourne for more information via phone 03 9820 8201 or email melbourne@aie.edu.au.

Interview (NY12-All): Applicants will need to contact the AIE Melbourne office to arrange an interview. Please call 03 9820 8201 directly, or EMAIL melbourne@aie.edu.au with the subject line: AIE Interview for Incubator Program 2014. Please be aware that early interview will give the applicant a better chance to secure a place in the course.
**Game Art (Animation) (VET)**

**Academy of Interactive Entertainment**
Melbourne: 9550195152 (DFP) full-time  
**Apply:** Through VTAC  
main round

- Advanced Diploma of Professional Game Development: 2 years full time study

**About the course:** The Advanced Diploma covers all facets of the game art industry. Students will learn from a beginners level to an advanced level of 3D animation including character creation and modeling, building environments and using the latest industry standard 3D software development tools. Students also learn the key aspects of game design and game development. During the second year of study, Game Art students will be placed in teams with the Game Programming students to undertake a final project. Both cohorts of students have the opportunity to cooperate with each other in a simulated professional studio environment to develop an independent game project. July mid-year intensive program is delivered at an accelerated pace allowing students to progress into year 2 the following February.

**Major studies:** 3D Animation, 3D Foundation, Advanced 3D Modeling, Aesthetics, Character Design, Concept Art, Environment Creation, Industry Overview, Project and Workflow Management, Rigging and Rendering, Show Reel Development and Presentation to Industry, Texturing and Lighting, Vertex Shading.

**Prerequisites:** None

**Middle-band:** None

**Selection Mode:** CY12 : Folio (All), Interview (All). See extra requirements for more information.
NY12 : VTAC Personal Statement (All), Folio (All), Interview (All). See extra requirements for more information.
SEAS is considered.

**Extra requirements:**
VTAC Personal Statement (NY12-All)
Folio (CY12-All, NY12-All) : The folio should contain 6 or more items that give the best indication of the standard and potential of the applicant's work. AIE accepts anything creative in the folio. The artwork could be in traditional art form such as sketches, paintings, sculpture, life drawing and photography, or in digital format such as video clips, animation, multimedia,and graphic design work. Applicants can bring in a physical portfolio or digitally, have the folio on CD, DVD, USB flash drive or laptop.

Interview (CY12-All, NY12-All) : Applicants will need to contact the Melbourne office to arrange an interview. Please call 03 9820 8201 directly, or EMAIL melbourne@aie.edu.au with the subject line: AIE Interview for Game Art 2014. Please be aware that early interview will give the applicant a better chance to secure a place in the course.

---

**Game Programming (VET)**

**Academy of Interactive Entertainment**
Melbourne: 9550195162 (DFP) full-time  
**Apply:** Through VTAC  
main round

- Advanced Diploma of Professional Game Development: 2 years full time study

**About the course:** In this Advanced Diploma, students will learn specific game programming languages and technologies such as C++, C#, DirectX, SDL and how to develop a game using an industry standard game engine. Students will also gain experience in 3D graphics, artificial intelligence, networking, physics and collision, console hardware, profiling and managing medium to large scale software projects. During the second year of study, Game Programming students will be placed in teams with the Game Art students to undertake a major final project. Both cohorts of students have the opportunity to cooperate with each other in a simulated professional studio environment to develop an independent game project.

*July mid-year intensive program is delivered at an accelerated pace allowing students to progress into Year 2 the following February.*
**Major studies:** C++ game programming language to advanced levels, Core Game Algorithms, Game Development, Industry Overview, Object oriented programming methodologies, Physics and Collision, Software Engineering and Game Design, Vector Mathematics and Trigonometry.

**Prerequisites:** None

**Middle-band:** None

**Selection Mode:** CY12 : Folio (All), Interview (All). See extra requirements for more information.
NY12 : VTAC Personal Statement (All), Folio (All), Interview (All). See extra requirements for more information.
SEAS is considered.

**Extra requirements:**
VTAC Personal Statement (CY12-All, NY12-All)
Folio (CY12-All, NY12-All) : The folio may contain actual code samples in any programming or script language, or the compiled working application such as Visual Basic projects, Flash/ActionScript files, custom databases, iPhone and Java apps, multi-media projects and game models. Applicants can bring in the folio on CD, DVD, USB flash drive or laptop.
Interview (CY12-All, NY12-All) : Applicants will need to contact the Melbourne office to arrange an interview. Please call 03 9820 8201 directly, or EMAIL melbourne@aie.edu.au with the subject line: AIE Interview for Game Programming 2014. Please be aware that early interview will give the applicant a better chance to secure a place in the course.

### Games and Virtual Worlds (Programming) (HE)

**Academy of Interactive Entertainment**

Melbourne: 9550195232 (DFP) full-time/part-time  
Apply: Through VTAC main round

- Bachelor of Games and Virtual Worlds (Programming): 3 years full time study

**About the course:** The Bachelor of Games and Virtual Worlds (Programming) is a 3 year degree focused on producing graduates for the simulation, virtual worlds and games industries.

The degree program is designed to provide professional game programmers with the skills and knowledge of a computer science degree contextualized by gaming applications plus core skills in programming and game design.

Students will create interactive 2D and 3D computer games for entertainment and serious real life scenario visualization (virtual worlds) and learn how to research the market, develop business concepts and manage computer game and simulation projects.

**Prerequisites:** Units 3 and 4: a study score of at least 20 in any English; and a study score of at least 20 in any Mathematics.

**Middle-band:** None

**Selection Mode:** CY12 : VTAC Personal Statement (All), Folio (All), Interview (All). See extra requirements for more information.
NY12 : Educational History including GPA, VTAC Personal Statement (All), Folio (All), Interview (All). See extra requirements for more information.

**Extra requirements:**
VTAC Personal Statement (CY12-All, NY12-All)
Folio (CY12-All, NY12-All) : The folio may contain actual code samples in any programming or script language, or the compiled working application such as Visual Basic projects, Flash/ActionScript files, custom databases, iPhone and
Screen Art (Animation) (VET)

Academy of Interactive Entertainment
Melbourne: 9550195142 (DFP) full-time Apply: Through VTAC main round

- Advanced Diploma of Screen and Media: 2 years full time study

**About the course:** In this Advanced Diploma students gain knowledge and skills to work as professional animators in film and television or other related 3D industries. Students learn the process of creating a film/television product from the basics of developing a script, story-boarding, modelling characters and building environments, to the more advanced levels of animating characters, sound editing and digital composition. Students will undertake projects such as team and independent productions, and the development of their own show-reels. *July mid-year intensive program is delivered at an accelerated pace allowing students to progress into year 2 the following February.*

**Major studies:** 3D Animation, 3D Foundation, 3D Modelling, Aesthetics, Character Design, Concept Art, Digital Composition, Environment Creation, Film Editing, Pre-Production, Project Management, Rendering and post-production, Show Reel Development, Texturing and Lighting, Visual Effects.

**Prerequisites:** None

**Middle-band:** None

**Selection Mode:** CY12: Folio (All), Interview (All). See extra requirements for more information.
NY12: VTAC Personal Statement (All), Folio (All), Interview (All). See extra requirements for more information.
SEAS is considered.

**Extra requirements:**
VTAC Personal Statement (NY12-All)
Folio (CY12-All, NY12-All): The folio should contain 6 or more items that give the best indication of the standard and potential of the applicant's work. AIE accepts anything creative in the folio. The artwork could be in traditional art form such as sketches, paintings, sculpture, life drawing and photography, or in digital format such as video clips, animation, multimedia, and graphic design work. Applicants can bring in a physical portfolio or digitally, have the folio on CD, DVD, USB flash drive or laptop.

Interview (CY12-All, NY12-All): Applicants will need to contact the Melbourne office to arrange an interview. Please call 03 9820 8201 directly, or EMAIL melbourne@aie.edu.au with the subject line: AIE Interview for Screen Art 2014. Please be aware that early interview will give the applicant a better chance to secure a place in the course.
Advance TAFE delivers a wide range of tertiary and vocational courses in Victoria's eastern region and across Victoria. A variety of study modes are available to support students on their career pathway with full-time, part-time and flexible study through remote / off-campus options.

Diploma-level qualifications with guaranteed entry into degree programs with Advance TAFE's Higher Education partners are popular with local students. Our partnerships with leading universities such as Monash University, the University of Ballarat and Deakin University mean that you do not have to pack up your life and head to the city to get your degree! Students can choose from key disciplines such as marketing, tourism, accounting, human resources and management for their Bachelor degree. Alternatively, the Deakin Associate Degree in Arts, Business and Sciences enables students to study on-campus with classroom video links to other Associate Degree classes around the state, and a local lecturer for face-to-face discussion. On completion, they will have an Advance TAFE Diploma of their choice and guaranteed entry in, and up to 18 months credit towards, a Deakin degree.

The settings of some of Advance TAFE's specialist education centres give an immersive environment for studying Agriculture, Organic Farming and Conservation and Land Management, taking advantage of our natural links to the Gippsland Lakes, State Forests and our working farm.

The newly developed, state-of-the-art facilities in the regional centres of Sale and Bairnsdale, as well as strong regional links with local hospitals and other care providers make our Nursing and other care courses highly sought after. We offer many qualifications to meet the growing demand for Community Services graduates in areas such as children's services, disability and aged care, mental health and nursing, with intakes now at both Sale and Bairnsdale.

Our teachers are passionate and professional with strong relationships and contacts in the industry they teach. Our teaching is flexible and geared towards your learning needs and styles.

At Advance TAFE we look forward to welcoming you to "Dream Study & Achieve" in your chosen profession with us.

Fees

For Diploma or Advanced Diploma courses, tuition fees should be either paid in full or deferred through VET FEE-HELP before the administration date for your course. Note that service and materials fees cannot be deferred through VET FEE-HELP and must be paid in full by the student.

If your chosen course requires you to study Certificate III or IV prerequisite units, Advance TAFE offers student instalment arrangement by direct debit or Centrepay deductions (subject to eligibility). A non-refundable charge of $50.00 is payable to sign up for an instalment payment plan. Students can also pay course fees on enrolment.

For more information: http://advancetafe.edu.au/pages/courses/fees_and_charges.htm

Special consideration
Special Entry Access Scheme (SEAS)

Advance TAFE is committed to inclusive enrolment, information and procedures for prospective students. We are dedicated to improve the participation for groups experiencing institutional disadvantage and unequal educational outcomes.

Scholarships

Advance TAFE offers access and equity scholarships for youth, students with disabilities, and indigenous students to assist with tuition and other costs associated with study. We can also assist applicants with sourcing other external scholarships and grants (including our own Community Engagement Scholarships for students experiencing financial hardship).

For more information: http://www.advancetafe.edu.au/pages/achieve/scholarships.htm

Credit transfer and Articulation

Advance TAFE recognises qualifications and statements of attainment gained from other Vocational (VET) providers in Australia. Credit transfers may be available to make your chosen course shorter and cheaper.

Students can also use their qualifications from Advance TAFE to articulate into Higher Education at a partner University.

For more information: http://www.advancetafe.edu.au/pages/achieve/degree_pathways.htm

Higher Education Articulation

Several Advance TAFE courses have recognised study pathways that can link you into the degree of your choice with credit that helps you to complete your degree faster.

For more information: http://advancetafe.edu.au/pages/achieve/degree_pathways.htm

Student services

Accommodation Options

Advance TAFE offers most of its Diploma courses by blended / distance delivery - so class attendance is limited to short-term residential dates (no more than 5 consecutive days).

Various accommodation options are available in Sale, Bairnsdale and Lakes Entrance to suit every budget - contact Advance TAFE for details.

Indigenous Services

The Koori Unit at Advance TAFE provides support, study and course information to all Koori students enrolled at the Institute.

The Unit also provides training and educational courses designed for Koori people in a friendly environment for study and cultural interaction. These courses build skills suitable for relevant employment opportunities in both Koori and mainstream communities. Many are delivered at local Koori community organisations and venues.

For more information: http://www.advancetafe.edu.au/pages/achieve/koori.htm

Disability Services

Disability support at Advance TAFE provides a range of
academic accommodations to assist students with a disability, medical or mental health condition. Support may include a Support Worker in class to assist with note taking or reading class materials, the use of equipment such as ergonomic chairs; recording devices; or assistive software.

To contact the Disability Liaison Officer email disabilitysupport@advancetafe.edu.au.

For more information: http://www.advancetafe.edu.au/pages/achieve/support.htm

**Counselling and Welfare**

Advance TAFE counselling and welfare staff provide a confidential service to keep you engaged in study. They are available to assist with any situation or problem that is preventing a student from attaining the maximum benefit from study.

Issues that counselling may assist with include accommodation, transport, discrimination, bullying, legal rights, and personal problems.

For more information: http://advancetafe.edu.au/pages/achieve/support.htm

### Accounting (VET)

#### Advance TAFE

Bairnsdale: 5600156024 (Fee type determined by provider)  
full-time/part-time  
Apply: Through VTAC main round

- Diploma of Accounting: 1 year full time study

**About the course:** The Diploma of Accounting gives you a great introduction to being an accountant. You will develop practical skills in financial accounting, budgeting, auditing, management accounting, financial forecasting and taxation. The training gives you high-level accounting skills which allow you to become qualified as assistant accountants. Delivery is on-line, with short-term (one week) block teaching / residential requirements.

Students may be required to enrol in the Certificate IV in Accounting to complete all prerequisite competencies before commencing at Diploma level.

This Diploma can be undertaken with other Diploma-level courses such as Business and Human Resources. If you are a Gippsland student wanting a Degree, but do not want to "pack up your life" to move to university, this Diploma can be studied in conjunction with the Deakin University Associate Degree in Arts, Business and Sciences at the Bairnsdale Campus. You can study locally towards your degree! There is also a pathway from this qualification to the Bachelor of Applied Management offered through The University of Ballarat.

**Major studies:** Accounting, Accounting (small business), Auditing, Bookkeeping, Business (accounting), Business (administration), Business (management), Business (marketing), Business practice, Company accounting, Computer accounting, Financial accounting, Human resource management, Law (taxation), Management (financial), Taxation and auditing.

**Prerequisites:** None

### Nursing (VET)

[Participating institution](http://www.wss8.vtac.edu.au/courses-inst/institutions/topdf/advance.html)
Diploma of Nursing (Enrolled/Division 2 nursing): 1.5 year full time study

About the course: This qualification teaches the nursing skills and knowledge required to be eligible for enrolment with state/territory nursing and midwifery regulatory authorities or registration as a Division 2 Nurse in Victoria. Nursing is an exciting career choice and suited to anyone who cares about health care and helping people. This course prepares you to become an Enrolled Nurse to work in the modern health care environment.

Universities offer recognition for this Diploma course, generally 6-12 months of the 3 year undergraduate degree course is credited.

Monash University offers graduates of the Diploma of Nursing the opportunity to apply for entry to the second year of the Bachelor of Nursing, which is delivered at the East Gippsland Clinical School in Bairnsdale.

Major studies: Aged care, Anatomy and physiology, Clinical assessment, Communications, Health sciences, Infection control, Mental health, Nursing, Primary health care, Public health, Research methods, Wound management.

Prerequisites: None

Middle-band: None

Selection Mode: CY12 : ATAR, Interview (All), Nursing Selection Entrance Test (All). See extra requirements for more information.

SEAS is considered.

Extra requirements:

Interview (CY12-All, NY12-All) : Applicants who have successfully passed the Nursing Selection Entrance Test will be contacted to attend a group interview on Tuesday 2 December 2013.

Nursing Selection Entrance Test (CY12-All, NY12-All) : Tests will be held between 21-25 October 2013 at either our Bairnsdale or Fulham (Sale) campus. A $10 fee applies for this test.

Organic Farming (VET)

Diploma of Agriculture: 2 years full time study

About the course: This course can be applied to a broad range of rural production settings including pasture based enterprises like beef, sheep and dairy, vegetable growing and all forms of horticulture. Consumers in local and export markets are increasingly turning to organic products. This growing global demand for organic agriculture provides an opportunity for farmers wanting to specialise. If you would like to tap into this future direction of produce production then a Diploma of Agriculture specialising in Organics is for you. Learn about organic certification, sustainable production, clean food production and/or making a contribution to reducing carbon dioxide emissions.

Subject areas include the organic approach to building soils, developing livestock strategies, pest and disease control, crops and pasture, water management and organic certification and management. Graduates will develop a wide range of organic agriculture techniques, such as organic soil improvement, long-term weed and pest control and how to develop an organic management plan.

Major studies: Farm planning and management, Livestock health and animal welfare strategies, Natural resource management, Organic soil improvement, Organic weed control, Pest and disease control.
Prerequisites: None

Middle-band: None

Selection Mode: CY12: ATAR.
NY12: Educational History including GPA.
SEAS is considered.

Extra requirements:
None
ACU has six campuses based in Ballarat, Melbourne; Brisbane; Sydney (North Sydney and Strathfield) and Canberra and offers programs in five faculties throughout Australia and overseas.

Completing a degree at ACU involves much more than lectures and essays; it involves learning to think critically and be guided by social justice principles. It involves gaining the skills and being inspired to bring about change in community; profession and industry. It involves making a difference. ACU has more than 24,000 students and is recognised for its supportive and nurturing learning environment and close links with industry, giving students the chance to gain hands-on experience in the workplace.

Our staff are leading figures in their fields and passionate about giving students the best possible experience during their time with us. On campus, students will find an extensive range of support services including academic, careers and Indigenous advisers and counselling services. Student associations organise a calendar of social events and encourage students to experience everything university life has to offer. Activities such as annual balls, cultural and sporting events give students the opportunity to become involved with their peers and form friendships, study and support networks.

ACU offers programs in arts; education; exercise science; social work; theology; visual arts and design; nursing; business; information systems; paramedicine; physiotherapy; occupational therapy; environmental science and law.

Special consideration
accessACU

ACU will award bonus points to applicants under the accessACU scheme - accessACU subject bonuses act as middle band. Refer to http://www.acu.edu.au/study_at_acu/alternate_entry/accessacu

Special Entry Access Scheme

Australian Catholic University (ACU) has a fundamental concern for justice and equity and for the dignity of all human beings. ACU recognises people can be adversely affected by circumstances outside their control which in turn can prevent them from achieving their academic potential. ACU will therefore consider applications under all SEAS categories. For more information: http://www.acu.edu.au/study_at_acu/alternate_entry/accessacu

Admissions Tests

Applicants applying for any course at Australian Catholic University under the Category 1: Mature Age consideration for Special Entry Access Scheme are required to sit the STAT Multiple Choice. For further information refer to the SEAS section of this guide.

Pathways

ACU Pathway Programs are designed to enable you to develop your skills and to make the transition to university study as easy as possible. There are a number of different options you can pursue. Successful completion of these programs can lead to entry to degree level courses. For more information: http://www.acu.edu.au/courses/2013/other_courses/pathway
Scholarships

Any new, current or former Australian Catholic University students can apply for ACU scholarships. The scholarships available to you may depend on the following factors: what campus you attend, your year level, your faculty, academic merit, if you are from a rural or regional area or if you are experiencing financial hardship.

For more information: http://www.acu.edu.au/study_at_acu/courses/scholarships_and_financial_support

Enrolment and deferment

Enrolment

Successful applicants will receive confirmation of an offer to ACU, via an Notice of Offer email from ACU. Your Notice of Offer will include a Username and Password for login to the "My Offer" page, ACU;s online application and enrolment system. For more information: http://www.acu.edu.au/study_at_acu/courses/applying_to_acu/respond_to_an_offer_at_acu2

Deferment

If you have been offered an undergraduate place at ACU you can apply to defer commencement of your course, for up to two years, at the time of responding to your offer. Deferment is not available for postgraduate programs. For more information: http://www.acu.edu.au/study_at_acu/courses/applying_to_acu/deferment

Services

Melbourne Student Accommodation

Student residences are furnished rooms in shared or self contained apartments in residential buildings. These residence are privately owned and run independently from the University. For more information: http://students.acu.edu.au/services/accommodation

Ballarat Student Accommodation

The Ballarat Campus is committed to our regional and rural students, in particular our first year students who are making the transition from school or work to tertiary education. Assisting our students with affordable accommodation options is an important part of our pledge to support our students in making this change.

Currently the University assists over 200 students with accommodation, all within an 8 km radius of the Campus.

For more information: http://students.acu.edu.au/services/accommodation/ballarat_residential_services

Equity and Disability Unit

Disability services are provided by the Equity and Disability Unit. ACU is committed to promoting access and equity for students with disabilities or long-term medical conditions, and aims to provide an environment in which all students can participate fully in the life of the University. In support of this aim, Disability Advisers provide an assessment and planning service and coordinate adjustments to meet the needs of students with disabilities and advise and liaise with the staff of the University concerning students with a disability.

Office of Student Success

The Office of Student Success (OSS) incorporates the Academic Skills Unit, Career Development Service, Counselling Service, Equity & Disability Unit and Campus...
Life.

International Students

The Office of Student Success provides international students with assistance to develop academic skills, career development and counselling services, as well as support for people with special needs or disabilities on each campus.

Campus Life Coordinators and the ACU National Student Association (ACUNSA) ensure international students have the resources they need to achieve a healthy study/life balance.

For more information: http://www.acu.edu.au/international

Indigenous Services

Our Indigenous Higher Education Units (IHEU) provides personal, social, cultural and academic support for students. Staff provide a cultural and supportive environment to help you excel in your student experience.

Across the University we celebrate significant dates on the "Indigenous calendar" to help reinforce our strong spiritual connections. Staff also provide details on community event information outside of Australian Catholic University. Staff keep in regular contact with students, building a good rapport to encourage positive self-esteem.

- Bachelor of Applied Public Health: 3 years full time study

**About the course:** Public health is the science and art of preventing disease, prolonging life and promoting health via sustainable improvements to social and political systems. The Bachelor of Applied Public Health is an entry qualification giving graduates the skills and insight to improve population health by applying a rigorous evidence-based approach to understand disease determinants and plan effective solutions through policy and legislation, advocacy, and the development and management of health programs for populations, communities and individuals. Graduates may work in national and international health agencies, state and federal government health departments, non-government aid and advocacy organisations as health advocates, health educators or policy advisors. Work can involve a diverse range of programs including physical activity promotion, drugs and alcohol, refugee support, or food and nutrition.

**Major studies:** Public Health.

**Prerequisites:** Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL.

**Middle-band:** A study score of 45 in Biology, Chemistry, any English, Health And Human Development, Maths: Mathematical Methods (CAS), Maths: Specialist Mathematics or Psychology equals 5 aggregate points per study. A study score of 40 in Biology, Chemistry, any English, Health And Human Development, Maths: Mathematical Methods (CAS), Maths: Specialist Mathematics or Psychology equals 3 aggregate points per study. Overall maximum of 5 points.

**Selection Mode:** CY12: ATAR and middle-band.

NY12: Educational History including GPA, STAT (Some). See extra requirements for more information.

SEAS is considered.

**Extra requirements:**

STAT (NY12-Some): NY12 applicants 21 years of age or older with no formal qualification applying under SEAS Category 1 must sit STAT Multiple Choice. Refer to the STAT section for further information.

**Australian Catholic University**

Melbourne: 1200217431 (CSP) full-time/part-time

Melbourne: 1200217433 (IFP) full-time/part-time

**Apply:** Through VTAC main round

- Bachelor of Applied Public Health/Global Studies (dual): 4 years full time study

**About the course:** This dual degree focuses on the role of public health entrepreneurship, the importance of national and multi-national communication, the scientific basis of public health through the study of relevant case-based issues and practical problems. The Bachelor of Applied Public Health core content delivers a background in factors that determine health at the community and population level, and how these can be shaped to effect improvements in health.

The Bachelor of Global Studies core content investigates the social, political, cultural, legal, environmental and economic influences and changes shaping our world. Students will undertake international study, exchange or an internship in the third year of the course. Graduates may work in national and international health agencies; state
and federal government health departments; and non-government aid and advocacy organisations.

Career options for graduates include: public health project officer, public health advocate, epidemiologist, health educator, health communications specialist, academic policy advisor, legislative policy advisor, management policy advisor.

**Major studies:** Global studies, Public Health.

**Prerequisites:** Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL.

**Middle-band:** A study score of 40 in Biology, Chemistry, any English, Health And Human Development, Maths: Mathematical Methods (CAS), Maths: Specialist Mathematics or Psychology equals 3 aggregate points per study. A study score of 45 in Biology, Chemistry, any English, Health And Human Development, Maths: Mathematical Methods (CAS), Maths: Specialist Mathematics or Psychology equals 5 aggregate points per study. Overall maximum of 5 points.

**Selection Mode:** NY12 : Educational History including GPA, STAT (Some). See extra requirements for more information.

SEAS is considered.

**Extra requirements:**

STAT (NY12-Some) : applicants 21 years of age or older with no formal qualification applying under SEAS Category 1 must sit STAT Multiple Choice. Refer to the STAT section for further information.

- Bachelor of Arts (Psychology): 3 years full time study

**About the course:** The Psychology sequence (accredited by the Australian Psychology Accreditation Council - APAC) can be taken as part of the Bachelor of Arts. The Bachelor of Arts (Psychology) prepares graduates to work in a wide range of settings including education and training, human services and welfare, counselling, marketing and advertising, human resource management, business, and in research. The program also provides the necessary knowledge and skills to enable graduates to progress to honours and professional programs that are required for careers in health, counselling, and private consultancy. The Psychology sequence provides a comprehensive coverage of psychology, with more in-depth study in lifespan development, biological psychology, social psychology, abnormal psychology, individual differences, and research methods.

A minor study in an Arts discipline is also completed. The Bachelor of Arts (Psychology) is recognised by the Australian Psychology Accreditation Council as an accredited three year undergraduate sequence in Psychology.

**Major studies:** Psychology.

**Prerequisites:** Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL.

**Middle-band:** A study score of 35 in any English, Maths: Mathematical Methods (CAS), Maths: Specialist Mathematics or Psychology equals 1 aggregate point per study. - Bachelor of Arts/Laws (dual): 5 years full time study

**About the course:** This dual degree provides the legal knowledge and practical skills to handle the demands of 21st Century legal practice coupled with an understanding of the humanities and social sciences.

Your studies will focus on developing practical commercial legal knowledge and an awareness of the international dimensions of law, while promoting critical thinking, ethical decision-making and social justice principles, coupled with a broader understanding of the humanities and social sciences.

The degree aims to develop ethical and professionally skilled graduates with a breadth of knowledge in areas relevant to legal practice and an appreciation of the law's interaction with other disciplines as well as its international dimensions. The core content is built around themes of commercial legal practice, international and human rights law and ethical practice, with a commitment to social justice and engagement with the community through a pro bono practical placement program.

The course provides students with a 5-year pathway to a nationally recognised qualification that meets the academic requirements for admission to legal practice. This course will commence with an intensive law induction program conducted over several days in the week prior to Orientation Week 2014.

**Major studies:** Business Studies, Drama, Economics, History, Laws, Literature, Mathematics, Media, Music, Philosophy, Politics, Psychology, Sociology, Study of Religions/Theological Studies, Visual Arts.

**Prerequisites:** Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL.

**Middle-band:** A study score of 35 in Biology, any Business, Classical Studies, Chemistry, Environmental Science, any English, Geography, Health And Human Development, any History, any Information Technology, any LOTE, Media, any Music, Maths: Mathematical Methods (CAS), Maths: Specialist Mathematics, Outdoor And Environmental Studies, Physics, Philosophy, Psychology, Religion And Society, Sociology or Texts And Traditions equals 1 aggregate point per study. - Bachelor of Business Administration: 3 years full time study

**About the course:** The Bachelor of Business Administration is an interdisciplinary course which prepares graduates for a career in business management without specialisation in a particular field of business. The course is structured around 15 core units (including two University core units), the first eight of which constitutes a common first year for all ACU Faculty of Business undergraduate students. Of the nine elective units, six must be taken from units offered by the Faculty of Business, and three may be taken from any other Faculty. Students who wish to concentrate on a specific discipline are permitted to do so, with subject areas offered in Accounting, Commercial Law, International Business, Marketing, Human Resource Management, Management, Supply Chain Management and Occupational Health, Safety and Environment. Professional Experience: Students must accumulate 15 days volunteer experience in a community organisation and may choose to do an additional 4-8 weeks of professional experience in a business context.

**Major studies:** Business Administration.

**Prerequisites:** Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL.

**Middle-band:** A study score of 35 in Accounting, Business Management, Economics, any English, Maths: Mathematical Methods (CAS) or Maths: Specialist Mathematics equals 1 aggregate point per study. A study score of 40 in Accounting, Business Management, Economics, any English, Maths: Mathematical Methods (CAS) or Maths: Specialist Mathematics equals 2 aggregate points per study. - Bachelor of Business Administration/Global Studies (dual): 4 years full time study
About the course: The Bachelor of Global Studies is designed to provide high-achieving students with an informed international perspective that will be valued in the global workplace. Students enrolling in a Global Studies dual degree will have the opportunity to learn about the social, political, cultural, environmental and economic changes that are shaping the world and combine this knowledge with a semester of study at one of 60 partner institutions around the world. As an alternative to studying abroad, selected students may have the opportunity to do an approved internship which would provide international work experience. Students will also study Business Administration which is designed to provide knowledge in all areas of business management including accounting; commercial law; finance; marketing; human resource management; business information systems, international business, management, supply chain management and occupational health, safety and environment.

Major studies: Business Administration, Global Studies.

Prerequisites: Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL.

Middle-band: A study score of 35 in Accounting, Business Management, Economics, any English, Maths: Mathematical Methods (CAS) or Maths: Specialist Mathematics equals 1 aggregate point per study. A study score of 40 in Accounting, Business Management, Economics, any English, Maths: Mathematical Methods (CAS) or Maths: Specialist Mathematics equals 2 aggregate points per study. Overall maximum of 5 points.

**Commerce/Global Studies (HE)**

**Australian Catholic University**

**About the course:** The Bachelor of Global Studies is designed to provide high-achieving students with an informed international perspective that will be valued in the global workplace. Students enrolling in a Global Studies dual degree will have the opportunity to learn about the social, political, cultural, environmental and economic changes that are shaping the world and combine this knowledge with a period of study at one of 60 partner institutions around the world. As an alternative to studying abroad, selected students may have the opportunity to do an approved internship which would provide international work experience. Students will also gain essential...
management skills by studying core business competencies; leadership and the ethics of values-based management and have the opportunity to focus on a major area of commerce. Students must accumulate voluntary experience and may choose to do professional work experience through the Commerce program.

**Major studies:** Accounting, Commercial Law, Global Studies, Human Resource Management, International Business, Management, Marketing.

**Prerequisites:** Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL.

**Middle-band:** A study score of 35 in Accounting, Business Management, Economics, any English, Maths: Mathematical Methods (CAS) or Maths: Specialist Mathematics equals 1 aggregate point per study. A study score of 40 in Accounting, Business Management, Economics, any English, Maths: Mathematical Methods (CAS) or Maths: Specialist Mathematics equals 2 aggregate points per study. Overall maximum of 5 points.

**Selection Mode:** CY12 : ATAR and middle-band.

NY12 : Educational History including GPA, STAT (Some). See extra requirements for more information.

SEAS is considered.

**Extra requirements:**

STAT (NY12-Some) : NY12 applicants 21 years of age or older with no formal qualification applying under SEAS Category 1 must sit STAT Multiple Choice. Refer to the STAT section for further information.

- Bachelor of Commerce/Laws (dual): 5 years full time study

**About the course:** This dual degree provides the legal knowledge and practical skills to handle the demands of 21st Century legal practice as well as offering an insight into the frameworks, institutions and rule-making processes of everyday commercial activity. Dual qualifications in commerce and law are recognised as attractive graduate attributes by law firms and organisations in both public and private sectors.

Your studies will focus on developing practical commercial legal knowledge and an awareness of the international dimensions of law, while promoting critical thinking, ethical decision-making and social justice principles, coupled with an understanding of the modern commercial and business environment.

The degree aims to develop ethical and professionally skilled graduates with a breadth of knowledge in areas relevant to legal practice and an appreciation of the law’s interaction with other disciplines as well as its international dimensions. The core content is built around themes of commercial legal practice, international and human rights law and ethical practice, with a commitment to social justice and engagement with the community through a pro bono practical placement program.

The course provides students with a 5-year pathway to a nationally recognised qualification that meets the academic requirements for admission to legal practice.

Those students that complete an Accounting major will also satisfy the academic requirements for entry into professional associations including CPA Australia and The Institute of Chartered Accountants in Australia.

This course will commence with an intensive law induction program conducted over several days in the week prior to Orientation Week 2014.

**Prerequisites:** Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL.
**Middle-band:** A study score of 40 in Biology, any Business, Classical Studies, Chemistry, Environmental Science, any English, Geography, History: Australian History, Health And Human Development, any Information Technology, any LOTE, Media, Maths: Mathematical Methods (CAS), Maths: Specialist Mathematics, Outdoor And Environmental Studies, Physics, Philosophy, Psychology, Religion And Society, Sociology or Texts And Traditions equals 1 aggregate point per study. A study score of 45 in Biology, any Business, Classical Studies, Chemistry, Environmental Science, any English, Geography, History: Australian History, Health And Human Development, any Information Technology, any LOTE, Media, Maths: Mathematical Methods (CAS), Maths: Specialist Mathematics, Outdoor And Environmental Studies, Physics, Philosophy, Psychology, Religion And Society, Sociology or Texts And Traditions equals 3 aggregate points per study. Overall maximum of 5 points.

- Bachelor of Creative Arts: 3 years full time study

About the course: The Bachelor of Creative Arts prepares students to fill key creative roles in industries such as the performing arts, communication, music, film and multi-media, drama, visual arts and related fields of education. Students complete major studies in drama, literature, media, music, or the visual arts and may choose a minor study in communication. The Arts Advantage and Learning in the Community units are also completed. Students are encouraged to actively engage with the community through the creative arts so that they enter the workforce with documented experience and evidence of their creative capabilities and achievements.

For students wishing to make music one of their sequences: Units 3 and 4 music, AMEB or Trinity College London Grade 6 Practical or Grade 5 Theory of Music or equivalent.

For students wishing to make visual arts one of their sequences: Units 3 and 4 Art (any).

Major studies: Drama, Literature, Media, Music, Visual arts.

Prerequisites: Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL.

Middle-band: A study score of 35 in Art, Drama, any English, Media, any Music or Visual Communication Design equals 1 aggregate point per study. A study score of 40 in Art, Drama, any English, Media, any Music or Visual Communication Design equals 2 aggregate points per study. Overall maximum of 5 points.

Selection Mode: CY12: ATAR and middle-band.

NY12: Educational History including GPA, STAT (Some). See extra requirements for more information.

SEAS is considered.

Extra requirements:

STAT (NY12-Some): NY12 applicants 21 years of age or older with no formal qualification applying under SEAS Category 1 must sit STAT Multiple Choice. Refer to the STAT section for further information.

Education (Secondary) (GET)

Australian Catholic University
Melbourne: 1200291211 (CSP) full-time  Apply: Through VTAC main round

Melbourne: 1205291211 (CSP) part-time  Apply: Through VTAC main round

- Graduate Diploma of Education (Secondary): 1 year full time study

About the course: This course is for applicants who wish to become teachers in secondary schools. Graduates are eligible for employment in both government and non-government schools.

Core units encompass learning and learning technologies, human development and special needs, teaching and classroom management. Teaching studies consist of a selection of two single methods or a double method.

Professional practice: a minimum of 45 days of supervised teaching in secondary schools.

All offers are provisional pending sighting of an original/certified copy of your undergraduate degree course completion statement. This must be presented at the appropriate Orientation session.
Single teaching areas
113: Commerce and Business Studies 1, 3
121: English 1
122: English as a Second Language 1
162: Health 1
133: History 1
134: Humanities 1, 6
141: Languages Other Than English (LOTE) 1, 5
178: Mathematics 1
105: Music 1
164: Physical Education 1
165: Psychology 1
137: Religious Education 1, 2
182: Science 1, 4
107: Visual Arts 1

Double teaching areas
213: Commerce and Business Studies 1, 3
278: Mathematics 1
205: Music 1
237: Religious Education 1, 2
282: Science 1, 4
207: Visual Arts 1

Notes
1: Availability depends on viable class size.
2: Religious Education: applicants require undergraduate theological studies equivalent to studies e.g Biblical Studies.
3: Commerce and Business Studies - includes accounting; business management; legal studies; economics.
4: Science - includes biology; chemistry; environmental science; general science; physics.
5: Languages available are Chinese, French, German, Indonesian, Italian, Latin, Japanese, Vietnamese and Greek. Other languages available on request.
6: Humanities - includes Asian studies; economics; history; geography; political science; classical societies and cultures; philosophy; sociology.

Prerequisites: Bachelor Degree

Middle-band: None

Selection Mode: NY12: Educational History including GPA, VTAC Personal Statement (Some), English language test (Some). See extra requirements for more information.
Extra requirements:
VTAC Personal Statement (NY12-Some): NY12 applicants who have completed a bachelor degree more than 10 years ago detail current relevancy and work experience.
English language test (NY12-Some): Exemption condition: Applicant has IELTS results undertaken since 2011 and the following minimum scores: Applicants with a TOEFL result undertaken since 2011 and the following results: (Minimum scores required for IELTS academic are Speaking=7.5, Writing=7.5, Reading=7.5, Listening=7.5, and Overall=7.5 or for TOEFL are Speaking=25.0, Writing=25.0, Reading=25.0, Listening=25.0, and Overall=100.0) SUCCESSFUL APPLICANTS Special government policies apply - read "Working with children check/police record check".
Graduate Diploma of Education (Secondary)/Graduate Certificate in Religious Education:
1 year full time study

About the course: This combined course is offered for applicants who wish to become Religious Education teachers in secondary schools, but who do not have formal qualifications in theology. Graduates are eligible for employment in both government and non-government schools.

Core units encompass theology, learning technologies, human development and special needs, teaching and classroom management. Teaching studies consist of a Religious Education method and a selection of one other method. At enrolment, applicants may be able to select an additional single method or a double method. Professional practice: a minimum of 45 days of supervised teaching in secondary schools.

Deferment is not available. It is important to note that this course commences on Monday, 24 February 2014.

All offers are provisional pending sighting of an original/certified copy of your undergraduate degree course completion statement. This must be presented at the appropriate Orientation session.

Single teaching areas
113: Commerce and Business Studies 1, 3
121: English 1
122: English as a Second Language 1
162: Health 1

Bachelor of Laws: 4 years full time study

About the course: This Law program will equip you with the legal knowledge and practical experience to meet the challenges of 21st century legal practice.

Your studies will focus on developing practical commercial legal knowledge and an awareness of the international dimensions of law, while promoting critical thinking, ethical decision-making and social justice principles.

The degree aims to develop ethical and professionally skilled graduates with a breadth of knowledge in areas relevant to legal practice and an appreciation of the law's interaction with other disciplines as well as its international dimensions. The core content is built around themes of commercial legal practice, international and human rights law and ethical practice, with a commitment to social justice and engagement with the community through a pro bono practical placement program.

The course provides students with a 4-year pathway into the legal profession satisfying the requirements for admission to practice in Victoria. This course will commence with an intensive law induction program conducted over several days in the week prior to Orientation Week 2014.

Major studies: Law.

Prerequisites: Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL.

Middle-band: A study score of 40 in Biology, any Business, Chemistry, Environmental Science, any English, any Humanities, any Information Technology, any LOTE, any Music, Maths: Mathematical Methods (CAS), Maths: Specialist Mathematics, Outdoor And Environmental Studies, Physics, Psychology or Religion And Society equals 1 aggregate point per study. A study score of 45 in Biology, any Business, Chemistry, Environmental Science, any English, any Humanities, any Information Technology, any LOTE, any Music, Maths: Mathematical Methods (CAS), Maths: Specialist Mathematics, Outdoor And Environmental Studies, Physics, Psychology or Religion And Society equals 3 aggregate points per study. Overall maximum of 5 points.

Selection Mode: CY12 : ATAR and middle-band.
NY12 : Educational History including GPA, STAT (Some). See extra requirements for more information.
SEAS is considered.

Extra requirements:
STAT (NY12-Some) : NY12 applicants 21 years of age or older with no formal qualification applying under SEAS Category 1 must sit STAT Multiple Choice. Refer to the STAT section for further information.

Bachelor of Laws/Global Studies (dual): 5 years full time study

About the course: This dual degree provides the legal knowledge and practical skills to handle the demands of 21st Century legal practice coupled with an awareness of current global issues involving economics, politics, societal change and development, health and environmental sustainability.

Your studies will focus on developing practical commercial legal knowledge and an awareness of the international
dimensions of Law, while promoting critical thinking, ethical decision-making and social justice principles, coupled with an understanding of current global issues.

The degree aims to develop ethical and professionally skilled graduates with a breadth of knowledge in areas relevant to legal practice and an appreciation of the law’s interaction with other disciplines as well as its international dimensions. The core content is built around the themes of commercial legal practice, international and human rights law and ethical practice, with a commitment to social justice and engagement with the community through a pro bono practical placement program.

Students will explore the current great global challenges and examine how Australia is seeking to maintain peace, build prosperity and enhance sustainability in the world. The course will develop students’ knowledge, skills, values and attitudes needed to address some of the biggest challenges facing humankind. A semester of study overseas with one of 60 partner universities is undertaken.

The course provides students with a 5-year pathway into the legal profession satisfying the requirements for admission to practice in Victoria. This course will commence with an intensive law induction program conducted over several days in the week prior to Orientation Week 2014.

**Major studies**: Global Studies, Law.

- Bachelor of Media Communication: 3 years full time study

About the course: This course is a practice and work oriented program that provides theoretical and practical skills in a range of communication media: video, radio, print, film and television and online environments. A key aspect of the course is the emphasis on practical streams which include multiple studio-based units on audio/radio and screen production. The course explores the development of new media, such as social media and new forms of journalism. Electives are chosen from drama, history, literature, marketing, music, politics and visual arts. Students undertake a Media Internship at third year to gain professional experience in the industry. The course prepares for employment in film, television, radio, alternative media, marketing, media research and policy, public relations and communication for NGOs government and industry. Graduates play an active part in shaping discussion and debate; they are ethically informed in all aspects of practice and provide communication that is socially aware and considerate of a culturally diverse audience.

Major studies: Communications, Media.

Prerequisites: Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL.

Middle-band: A study score of 35 in any English, Media, Religion And Society or Visual Communication Design equals 1 aggregate point per study. A study score of 40 in any English, Media, Religion And Society or Visual Communication Design equals 2 aggregate points per study. Overall maximum of 5 points.

Selection Mode: CY12 : ATAR and middle-band.
NY12 : Educational History including GPA, STAT (Some). See extra requirements for more information.
SEAS is considered.

Extra requirements:
STAT (NY12-Some) : NY12 applicants 21 years of age or older with no formal qualification applying under SEAS Category 1 must sit STAT Multiple Choice. Refer to the STAT section for further information.

- Bachelor of Nursing/Business Administration (dual): 4.5 years full time study

*About the course:* The Bachelor of Nursing/Bachelor of Business Administration will prepare graduates to meet the evolving business management expectations of our health services. The health industry is changing at a great pace and the role of the registered nurse with it. Registered nurses are increasingly moving from bedside practice into middle management roles early in their careers and are expected to take leadership roles in multi-disciplinary teams. In the wide range of practice settings from hospitals to aged care, general practice, private practice and the community, health is increasingly seen as a business, and nurses are required to contribute to the success of that business through effective management of staff and financial resources.

Students will complete 360 credit points consisting of 210 credit points of Bachelor of Nursing units and 150 credit points of Bachelor of Business Administration units.

Graduates are eligible for apply for registration as a registered nurse with the Australian Health Practitioner Regulation Agency (AHPRA).

*Major studies:* Business Administration, Nursing.

*Prerequisites:* Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL.

*Middle-band:* A study score of 40 in Biology, Chemistry, any English, Health And Human Development, Maths: Mathematical Methods (CAS), Maths: Specialist Mathematics or Psychology equals 3 aggregate points per study. A study score of 45 in Biology, Chemistry, any English, Health And Human Development, Maths: Mathematical Methods (CAS), Maths: Specialist Mathematics or Psychology equals 5 aggregate points per study. Overall maximum of 5 points.

*Selection Mode:* CY12 : ATAR and middle-band.

NY12 : Educational History including GPA, STAT (Some). See extra requirements for more information.

SEAS is considered.

*Extra requirements:*

STAT (NY12-Some) : NY12 applicants 21 years of age or older with no formal qualification applying under SEAS Category 1 must sit STAT Multiple Choice. Refer to the STAT section for further information.

- Bachelor of Nursing/Paramedicine (dual): 4 years full time study
About the course: This dual degree aims to develop a proactive and adaptable graduate who, at a beginning level, will be a competent, ethical clinician, a creative and critical thinker, an independent lifelong learner and a professional nurse and paramedic. The course uses learner-centred approaches including inquiry and situation-based learning to enhance students experiences during the course as well as their readiness for the workplace. Graduates will be well prepared to meet the health needs of the community in both nursing and paramedicine settings. Graduates are eligible to apply for registration as a registered nurse with the Australian Health Practitioner Regulation Agency (AHPRA). Graduates are also eligible for membership of Paramedics Australasia.

Students will be required to undertake a medical and physical capacity test prior to commencing clinical placement with an Australian Ambulance Service. This is an ambulance service mandatory requirement. Students will also be required to provide evidence of a current National Police Check and Working with Children Check.

Major studies: Nursing, Paramedical Sciences.

Prerequisites: Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL.

Middle-band: A study score of 40 in Biology, Chemistry, any English, Health And Human Development, Maths: Mathematical Methods (CAS), Maths: Specialist Mathematics or Psychology equals 3 aggregate points per study. - Bachelor of Occupational Therapy: 4 years full time study

About the course: Occupational therapists promote health and wellbeing through engagement and re-engagement in daily occupations, including all those things that people need to, want to or have to do. Students will gain the skills and knowledge to enhance the ability of people with impairments to body structure or function, and who experience physical, emotional or social disability, to adapt to and cope with the demands, tasks and activities of their daily lives. Up to 1000 hours of fieldwork and clinical placements are undertaken throughout the course.

The honours program is integrated across the third and fourth years of the program. A place in the honours program is offered to students based on academic merit. Honours is awarded on the basis of successful completion of coursework and preparation of a paper for publication.

Major studies: Occupational Therapy.

Prerequisites: Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL; and a study score of at least 25 in one of Biology, Chemistry, Health And Human Development, Physical Education or Physics.
**Middle-band:** A study score of 40 in Biology, Chemistry, any English, Health And Human Development, Maths: Mathematical Methods (CAS), Maths: Specialist Mathematics or Psychology equals 3 aggregate points per study. A study score of 45 in Biology, Chemistry, any English, Health And Human Development, Maths: Mathematical Methods (CAS), Maths: Specialist Mathematics or Psychology equals 5 aggregate points per study. Overall maximum of 5 points.

- Bachelor of Paramedicine: 3 years full time study

**About the course:** This course will equip students with the skills to be able to analyse situations using the appropriate assessment techniques, and to examine patients whilst considering their particular needs. Reasoning and problem-solving skills will also be taught, enabling students to cope in high-pressure environments. Students are required to undertake eight units of paramedic practice in a variety of health care settings. Graduates will be eligible for employment as a paramedic within an Australian ambulance service and in some international ambulance or health organisations.

Graduates will be eligible for membership of Paramedics Australasia. Students will be required to satisfy the Ambulance Victoria medical and physical capacity assessment prior to undertaking clinical placement in an emergency pre-hospital care setting. Students will also be required to provide evidence of a current National Police Check and Working with Children Check.

**Major studies:** Paramedical Sciences.

**Prerequisites:** Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL.

- Bachelor of Psychological Science: 3 years full time study

**About the course:** The Bachelor of Psychological Science (accredited by the Australian Psychology Accreditation Council --APAC) prepares graduates to work in a wide range of settings including education and training, human services and welfare, counselling, human resource management, business, and in research. The program also provides the necessary knowledge and skills to enable graduates to progress to honours and professional programs that are required for careers in health, counselling, and private consultancy. The Psychology sequence provides a comprehensive coverage of psychology, with more in-depth study in counselling, lifespan development, biological psychology, social psychology, abnormal psychology, individual differences, psychology of organisations, cross-cultural psychology, family studies, and research methods.

**Major studies:** Psychology.

**Prerequisites:** Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL.

**Middle-band:** A study score of 35 in any English, Maths: Mathematical Methods (CAS), Maths: Specialist Mathematics or Psychology equals 1 aggregate point per study. A study score of 40 in any English, Maths: Mathematical Methods (CAS), Maths: Specialist Mathematics or Psychology equals 2 aggregate points per study. Overall maximum of 5 points.

**Selection Mode:** CY12: ATAR and middle-band.

NY12: Educational History including GPA, STAT (Some). See extra requirements for more information.

SEAS is considered.

**Extra requirements:**

STAT (NY12-Some): NY12 applicants 21 years of age or older with no formal qualification applying under SEAS Category 1 must sit STAT Multiple Choice. Refer to the STAT section for further information.

- Bachelor of Teaching/Arts (Humanities) (dual): 4 years full time study

About the course: This course provides the professional preparation for teachers in secondary schools in the Catholic, government and independent sectors.

Students complete a total of 32 units, including community engagement, and professional teaching practice in schools. Students select an Arts Major and Minor sequence from a list of approved discipline areas. An Education Studies sequence covers the key areas in learning and educational theory, as well as curriculum and teaching units in their selected specialist areas.

Applicants who wish to study a major in Mathematics will require Units 3 and 4 in either mathematical methods (CAS) or specialist mathematics.

Prerequisites: Units 1 and 2: satisfactory completion in two units (any study combination) of General Mathematics or Mathematical Methods or Units 3 and 4: any Mathematics; and a study score of at least 30 in English (EAL) or 25 in English other than EAL.

Middle-band: A study score of 35 in any English, any History, Maths: Mathematical Methods (CAS), Maths: Specialist Mathematics, Philosophy, Psychology, Religion And Society or Sociology equals 1 aggregate point per study. A study score of 40 in any English, any History, Maths: Mathematical Methods (CAS), Maths: Specialist Mathematics, Philosophy, Psychology, Religion And Society or Sociology equals 2 aggregate points per study. Overall maximum of 5 points.

Selection Mode: CY12 : ATAR and middle-band.
NY12 : Educational History including GPA, STAT (Some). See extra requirements for more information.
SEAS is considered.

Extra requirements:
STAT (NY12-Some) : NY12 applicants 21 years of age or older with no formal qualification applying under SEAS Category 1 must sit STAT Multiple Choice. Refer to the STAT section for further information.

Theology (HE)

Australian Catholic University

Bachelor of Theology: 3 years full time study

About the course: Students can pursue an in-depth program of studies in scripture, theology and philosophy, or choose a broader-based program that also includes studies in other disciplines, such as liberal arts, business or psychology. They undertake a critical and detailed examination of Christian thought, practice and philosophy, gaining insight into the history of Christianity, as well as the breadth of current theological scholarship. Students also undertake a unit of Christian Community Experience, which involves active engagement in a context of service. The course consists of 24 semester units; at least 16 units are drawn from Biblical Studies, Christian Thought, Christian Practice, Philosophy and Study of Religions. The remaining eight units can be in theology and philosophy or any approved units offered by other faculties.

Prerequisites: Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL.

Middle-band: A study score of 35 in any English, any LOTE, Philosophy, Religion And Society or Texts And Traditions equals 1 aggregate point per study. A study score of 40 in any English, any LOTE, Philosophy, Religion And Society or Texts And Traditions equals 2 aggregate points per study. Overall maximum of 5 points.

Selection Mode: CY12 : ATAR and middle-band.
NY12 : Educational History including GPA, VTAC Personal Statement (Some). See extra requirements for more information.
SEAS is considered.

Extra requirements:
VTAC Personal Statement (NY12-Some) : NY12 applicants 21 years of age or older with no formal qualification applying under SEAS Category 1 must sit STAT Multiple Choice. Refer to the STAT section for further information.

- Bachelor of Theology/Global Studies (dual): 4 years full time study

About the course: The Bachelor of Global Studies is designed to provide high-achieving students with an informed international perspective that will be valued in the global workplace. Students enrolling in a Global Studies dual degree will have the opportunity to learn about the social, political, cultural, environmental and economic changes that are shaping the world and combine this knowledge with a period of study at one of 60 partner institutions around the world. As an alternative to studying abroad, selected students may have the opportunity to do an approved internship which would provide international work experience. Students will also study the Catholic theological tradition enriched by ecumenical and inter-faith perspective and its potential for responding to the demands of the present and the future.

Prerequisites: Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL.

Middle-band: A study score of 35 in any English, any LOTE, Philosophy, Religion And Society or Texts And Traditions equals 1 aggregate point per study. A study score of 40 in any English, any LOTE, Philosophy, Religion And Society or Texts And Traditions equals 2 aggregate points per study. Overall maximum of 5 points.

Selection Mode: CY12 : ATAR and middle-band.
NY12 : Educational History including GPA, VTAC Personal Statement (Some). See extra requirements for more information.
SEAS is considered.

Extra requirements:
VTAC Personal Statement (NY12-Some) : NY12 applicants 21 years of age or older with no formal qualification applying under SEAS Category 1 must sit STAT Multiple Choice. Refer to the STAT section for further information.

- Bachelor of Theology/Laws (dual): 5 years full time study

**About the course:** This unique dual degree will provide an education in law and theology informed by the values of the Christian tradition and oriented to the professional values and practice of law.

This course has a focus on ethical behaviour, social justice and the common good to produce professionally skilled graduates prepared for legal practice with an appreciation of the law's interaction with theology.

The degree aims to develop ethical and professionally skilled graduates with a breadth of knowledge in areas relevant to legal practice and an appreciation of the law's interaction with other disciplines as well as its international dimensions. The core content is built around themes of commercial legal practice, international and human rights law and ethical practice, with a commitment to social justice and engagement with the community through a pro bono legal placement program.

The course provides students with a 5-year pathway into the legal profession satisfying the requirements for admission to practice in Victoria. This course will commence with an intensive law induction program conducted over several days in the week prior to Orientation Week 2014.

**Major studies:** Biblical Studies, Christian Practice, Christian Thought, Law, Liberal Arts.

**Prerequisites:** Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL.

**Middle-band:** A study score of 40 in Biology, any Business, Chemistry, Environmental Science, any English, any Humanities, any Information Technology, any LOTE, Maths: Mathematical Methods (CAS), Maths: Specialist Mathematics, Outdoor And Environmental Studies or Psychology equals 1 aggregate point per study. A study score of 45 in Biology, any Business, Chemistry, Environmental Science, any English, any Humanities, any Information Technology, any LOTE, Maths: Mathematical Methods (CAS), Maths: Specialist Mathematics, Outdoor And Environmental Studies or Psychology equals 3 aggregate points per study. Overall maximum of 5 points.

**Selection Mode:** CY12 : ATAR and middle-band.

- Bachelor of Youth Work: 3 years full time study

**About the course:** This course responds to community need for highly trained and skilled youth workers to work with young people. It is an inclusive program that provides students with theoretical insights and practical competencies in youth work. The key focus of the course is on social justice and human rights. Graduates are employed in the areas of counselling and case work, community development, crisis work and policy and research in local and international contexts. They work as youth workers in dealing with the needs, problems and aspirations of young people in a variety of public and community-based settings.

The areas of study include: case management, building relationships and supporting young people, youth work in community settings, ethical principles and practices of young people as well as health and wellbeing. A main component of the course is the two supported six week placements undertaken in selected areas of the youth work industry. Students choose from electives in global and international studies, sociology, drama, the arts, psychology and theology. Committed to ethical practice and serving the common good, graduates are able to work with homeless youth, indigenous young people, refugee young people, young people with disabilities, youth in schools and training institutions, youth in prison and juvenile justice settings, youth in sport and the arts, regional and rural youth and with international students. Lecturers are highly skilled youth workers and academics who are able to provide insight and knowledge based on practice in the youth sector. This allows for a dynamic educational setting.

**Major studies:** Counselling, Sociology, Youth Work.
**Prerequisites:** Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL.

**Middle-band:** A study score of 35 in any English, Health And Human Development or Psychology equals 1 aggregate point per study. A study score of 40 in any English, Health And Human Development or Psychology equals 2 aggregate points per study. Overall maximum of 5 points.

**Selection Mode:** CY12 : ATAR and middle-band.
NY12 : Educational History including GPA, STAT (Some). See extra requirements for more information.
SEAS is considered.

**Extra requirements:**
STAT (NY12-Some) : NY12 applicants 21 years of age or older with no formal qualification applying under SEAS Category 1 must sit STAT Multiple Choice. Refer to the STAT section for further information.
The Australian College of Applied Psychology (ACAP) has been a leader in applied psychology education in Australia for more than 30 years. We deliver high quality higher education (undergraduate and postgraduate) and Vocational Education and Training (VET) courses. In Melbourne we offer courses in Counselling, Psychology, Coaching and Case Management.

ACAP is a registered higher education provider (HEP) and nationally registered training organisation (RTO). Our students can select to study on-campus, flexible online learning or a combination of both. Our higher education counselling degree is accredited by the Psychotherapy and Counselling Federation of Australia (PACFA). Our higher education Psychology degree has conditional accreditation by the Australian Psychology Accreditation Council (APAC).

Small class sizes give students individual attention and encourage students to actively participate and practise the skills they learn in class. Our teaching staff have academic research and professional experience that enables them to apply theoretical knowledge, research-informed perspectives, real life experience and up-to-date industry knowledge into the classrooms.

Our Bachelor of Applied Social Science course includes work placements in organisations related to the student's field of study. Placements allow students to apply knowledge and practice skills in the work environment and develop networks of professional contacts. Students gain valuable work experience and referees to add to their resumes before they graduate.

Graduates of our programs can work in a variety of specialisations and in a range of organisations including counselling services, crisis support services, children's services, youth work, mental health services, community welfare agencies, policy and research programs, consulting firms, government support services, immigration and refugee services.

Graduates of our programs can continue on to further specialised studies at ACAP and other tertiary institutions.

CRICOS Provider codes: 02829E (VIC), 01328A (NSW), 02565B (QLD)

RTO 0500

Entry Assessment

Students applying for the Diploma of Counselling or the Diploma of Community Services (Case Management) that have not completed either a Certificate IV qualification (or at least one unit of competency at AQF level 4) OR their VCE or equivalent will be required to undertake a VET Entry Assessment prior to enrolment. For more information: http://www.acap.edu.au/how-to-apply.html

Industry-based learning

Student placements are periods of unpaid work experience in supervised organisations that provide counselling, coaching, management and community services where students have an opportunity to put theory into practice. Student placements are also an excellent opportunity for students to develop networks and explore career options and professional pathways. All Bachelor of Applied Social Science students are required to complete 2 student placements totalling 400 hours. For more information:
Scholarships
Australian College of Applied Psychology offers a number of access and equity, and academic merit scholarships to commencing students to assist with the cost of study. For more information: http://www.acap.edu.au/Scholarships.html

Student Services
ACAP's interactive approach to teaching as well as our small class sizes build a community atmosphere in the classroom, which is reinforced through the support services we provide. ACAP is committed to supporting our students and provides advice and services to assist students both academically and personally. Academic Skills workshops are offered to all new students to help them develop the skills they need including essay writing, referencing and study skills. Students are further supported by Student Support Counsellors who offer personal, confidential support and referral to the student counselling service. For more information: http://currentstudents.acap.edu.au/student-services/

Applied Social Science (HE)

Australian College of Applied Psychology
Melbourne: 9210190012 (DFP) full-time/part-time Apply: Through VTAC main round

### Psychological Science (HE)

**Australian College of Applied Psychology**

Melbourne: 9210190032 (DFP) full-time/part-time  
Apply: [Through VTAC](http://www.wss8.vtac.edu.au/courses-inst/institutions/topdf/acap.html) main round
• Bachelor of Psychological Science: 3 years full time study

About the course: The Bachelor of Psychological Science provides the first step in preparing you for a career in psychology and for further study. The course consists of an Australian Psychology Accreditation Council (APAC) three year psychology sequence and includes 13 core psychology units, a minimum 3 psychology electives, and 8 non-psychology electives.

Students will be involved in research activities and projects, data analysis, and laboratory experiments as essential elements through which students develop an understanding of psychology principles and their applications to real-world problems and contexts.

As part of this course you will take electives from ACAP's applied psychology subjects in counselling. These will help you put the theory you learn during your psychology course into a practical context. On completion, you will have the basic requirements needed for further study as a psychologist or for working in a range of areas.

Major studies: Psychology.

Prerequisites: None

Middle-band: None

Selection Mode: CY12: ATAR.
NY12: Educational History including GPA.
SEAS is considered.

Extra requirements:
None
The Australian College of Sports Therapy is Australia's leading private educational institution offering professional qualifications in Sports Therapy, Fitness, Myotherapy and Remedial Therapy.

The College provides pathways to exciting and rewarding professions in workplaces that are stimulating and interesting. Sports Therapy is all about treatment and rehabilitation of sports related injuries and optimising athletic performance. Myotherapists assess and treat conditions of the muscles and joints providing care during injury and rehabilitation as well as addressing injury prevention, health and fitness.

Personal Trainers will be well equipped with the knowledge and skill to begin their career in: gymnasiums, health centres, working with sporting teams, or; can become self-employed Personal Trainers.

Remedial therapies are among the most popular and fastest growing areas of health care in the world today. Remedial therapists work by stimulating the body's own healing mechanisms through 'hands on' therapies and complementary techniques.

The Australian College of Sports Therapy offers the most comprehensive courses in Sports Therapy and Myotherapy (musculo-skeletal assessment and treatment), as well as Remedial Therapy in Australia. All courses are government accredited and nationally recognised. Located in the heart of Melbourne, convenient to public transport, the Australian College of Sports Therapy is dedicated to education, research and the promotion of health in the rapidly growing areas of sports medicine and complementary therapies.

Practitioner programs of training include Sports Therapy (Advanced Diploma of Sports Therapy); Myotherapy (Advanced Diploma of Remedial Massage [Myotherapy]) and Remedial Therapy (Diploma of Remedial Massage).

The educational environment at the Australian College of Sports Therapy is one that stimulates and encourages inquiry, reflection and self-directed, independent learning. A careful balance is kept between the theoretical, the practical and the clinical content of the courses. Our modern facilities are fully equipped to provide state of the art training using traditional methods and the latest technology.

To meet the growing demand for qualified practitioners, the College is committed to providing quality educational programs based on medically accepted therapeutic techniques in a supportive and academically challenging environment.

**Principles of Selection**

The Australian College of Sports Therapy (ACST) adheres to VTAC rules and regulations on prerequisites and entry into ACST courses. The standards of the college in regards to prerequisites are outlined in our Student engagement before enrolment policy see [www.sportstherapy.edu.au/downloads/student_selection_admission_policy.pdf](http://www.sportstherapy.edu.au/downloads/student_selection_admission_policy.pdf). ACST has prescribed entry requirements for each of its courses to ensure that students have appropriate vocational experience, academic and English language skills to undertake the requirements of the course. For more information: [http://www.sportstherapy.edu.au/downloads](http://www.sportstherapy.edu.au/downloads)
Mature age students

Mature age students will be considered individually on merit but we will be looking for those candidates who have or can be expected to achieve a good academic standard. We aim to be as flexible as possible in order to widen access and therefore will consider a wide range of qualifications. If you have any queries regarding eligibility for the course please contact us for advice. For more information: http://www.sportstherapy.edu.au/courses/how_to_apply.html

Credit transfer, pathways and recognition of prior learning

Articulation

The College has established articulation arrangements with Victorian universities which enable graduates of our Diploma and Advanced Diploma programs to pursue Higher Education Degrees in related fields. For more information, please refer to our website. For more information: http://www.sportstherapy.edu.au/courses/articulation.html

Course Credit

Course Credit provides our students with recognition of already accumulated skills and knowledge through formal, informal and non formal education and workplace experience. Applicants are advised to apply for course credit prior to the Census Date in any given semester. Please contact the College for more information: (03) 9670 3735. For more information: http://www.sportstherapy.edu.au

Fees

VET FEE-HELP (Study Assist)

VET FEE HELP (Study Assist) is available to assist eligible students studying our Diploma and Advanced Diploma qualifications to pay their tuition fees. VET FEE HELP (Study Assist) is not available for certificate level courses. VET FEE HELP (Study Assist) can be used to pay all or part of your tuition fees, but cannot be used for additional study costs such as accommodation or text books. Please refer to the VET FEE HELP (Study Assist) website for eligibility criteria. Conditions apply. For more information: http://studyassist.gov.au/sites/studyassist/helpayingmyfees/vet-fee-help/pages/

Government-subsidised Training Places

Eligible students may be offered a government-subsidised training Place. Training places are offered at the discretion of the College.

The funding is reviewed by the Victorian Government and as a result some courses currently listed may be cancelled or have their fee structure changed from government subsidised to include a fee to be determined. *Conditions apply. For more information: http://www.education.vic.gov.au/training/learners/vet/Pages/funding.aspx

Scholarships

Your education is one of the most important investments you will make in your lifetime.

The Australian College of Sports Therapy ‘Sports Therapy Scholarship’ was developed to support exceptional applicants to the College in meeting their training needs. If you're a high achiever, ACST wants to reward and
acknowledge your efforts via the Scholarship in 2014.
For more information: http://www.sportstherapy.edu.au/courses/scholarships.html

**Enrolment and deferment**

**Enrolment**
Complete the Supplemental Form and return it to ACST as soon as possible. This form may be downloaded and printed from this site or obtained by contacting the College.

We invite you to contact the College to learn more about our courses, facilities and have the opportunity to ask any questions you may have.

For more information: http://www.sportstherapy.edu.au/courses/how_to_apply.html

**Deferrment**
Please refer deferrment queries to the College on: (03) 9670 3735. For more information: http://www.sportstherapy.edu.au

**Services**

**Student Accommodation**
ACST has undertaken a thorough investigation into accommodation providers in and around Melbourne and has established relationships with several quality providers to better support our new and continuing students through their educational journey.

The 'Student Accommodation brochure' can be downloaded from: www.sportstherapy.edu.au/contact/downloads.html For more information: http://www.sportstherapy.edu.au/contact/downloads.html

**Change of Preference**
Applicants should call the College on: (03) 9670 3735 for Change of Preference information. For more information: http://www.sportstherapy.edu.au

**Disability Services**
The College can provide information and support to people with a disability, mental health issue or ongoing medical condition.

Applicants should ensure that they are aware of the physical components and location requirements of all courses for which they wish to apply. If an applicant has concerns about issues that may affect their potential participation, they should contact the Student Services Officer to discuss any possible course modifications. For more information: http://www.sportstherapy.edu.au

**Indigenous Australians**
The College has a rich history of Indigenous participation and leadership and welcomes applications from Indigenous Australians. For further information please contact the Student Services Officer on (03) 9670 3735.

For more information: http://www.sportstherapy.edu.au

**Myotherapy (Advanced Diploma) (VET)**

**Australian College of Sports Therapy**

**City:** 9170192102 (DFP) full-time  
**Apply:** Through VTAC main round mid-year

**City:** 9175192102 (DFP) part-time  
**Apply:** Through VTAC main round mid-year

- Advanced Diploma of Remedial Massage (Myotherapy): 2.5 years full time study

**About the course:** Graduates qualify as professional health practitioners who specialise in musculo-skeletal therapy. They may enter private practice with the practical skills and relevant scientific knowledge required to deliver Myotherapy (applied musculo-skeletal techniques) in a variety of clinical situations including primary patient contact.

The course incorporates theoretical study and clinical training in the classroom environment, through field work in private clinics and The College Clinic where clients are assessed and treated under professional supervision. This two and a half year professional program of training covers a wide range of subjects, techniques and practical skills. Foundation sciences, clinical knowledge, practice management and therapeutic skills are presented. Therapeutic skills taught include trigger point therapy, corrective exercises, first aid, sports massage, using heat and cold therapy and joint mobilisation.

Students will be admitted into the lowest level qualification and will progress, subject to satisfactory academic progress, to the higher qualification levels.

**Major studies:** Anatomy, Anatomy and physiology, Biomechanics, Clinical studies, Dietary and nutritional studies, Exercise physiology, Exercise rehabilitation, Health sciences, Kinesiology, Massage therapy, Myofascial and advanced massage techniques, Myofascial dry needling, Myotherapy, Pathophysiology, Rehabilitation, Remedial massage, Remedial therapy, Sports therapy, Therapeutic massage.

**Prerequisites:** Diploma Remedial Massage.

- **Apply:** Through VTAC

- Certificate IV in Massage Therapy Practice: 6 months full time study

**About the course:** Graduates qualify as professional health practitioners who specialise in musculo-skeletal therapy. They may enter private practice with the practical skills and relevant scientific knowledge required to deliver Myotherapy (applied musculo-skeletal techniques) in a variety of clinical situations including primary patient contact.

The course incorporates theoretical study and clinical training in the classroom environment, through field work in private clinics and The College Clinic where clients are assessed and treated under professional supervision. This two and a half year professional program of training covers a wide range of subjects, techniques and practical skills. Foundation sciences, clinical knowledge, practice management and therapeutic skills are presented. Therapeutic skills taught include trigger point therapy, corrective exercises, first aid, sports massage, using heat and cold therapy and joint mobilisation.

Students will be admitted into the lowest level qualification and will progress, subject to satisfactory academic progress, to the higher qualification levels.

**Major studies:** Anatomy, Anatomy and physiology, Biomechanics, Clinical studies, Dietary and nutritional studies, Exercise physiology, Exercise rehabilitation, Health sciences, Kinesiology, Massage therapy, Myofascial and advanced massage techniques, Myofascial dry needling, Myotherapy, Pathophysiology, Rehabilitation, Remedial massage, Remedial therapy, Sports therapy, Therapeutic massage.

**Prerequisites:** None

**Middle-band:** None

**Selection Mode:** CY12 : ATAR, Supplementary form (All). See extra requirements for more information.

NY12 : Educational History including GPA, Supplementary form (All). See extra requirements for more information.

**Extra requirements:**

Supplementary form (CY12-All, NY12-All) : All applicants must submit the supplementary form. A copy of the form is available from www.sportstherapy.edu.au

All applicants must attend their allocated Enrolment Information Day and Orientation Day. Please refer to the College website for more information www.sportstherapy.edu.au or call (03) 9670 3735.

### Australian College of Sports Therapy

**About the course:** Sports therapists assess, treat and prevent disorders in human movement caused by injury. They also assist athletes to perform at their peak. Sports therapists are professional healthcare practitioners who work in private practice, with sporting clubs, in sports medicine clinics and fitness centres, and with athletic clubs and teams. They provide treatment and rehabilitation, improve performance, increase mobility and fitness, as well as utilising injury prevention techniques.

They select, modify and re-evaluate their approaches to treatment on an ongoing basis according to the needs of the athlete. This Nationally Accredited three-year program will give students all the academic, theoretical, clinical and personal skills you need to become a qualified professional Sports Therapist.

The course is presented in a logical integrated sequence that helps students to build knowledge and skills within our program. The course has four components: foundation sciences, practical skills, clinical application and client and practice management. On successful completion of the Advanced Diploma of Sports Therapy you are fully qualified to set up and operate your own clinic or be employed in existing sports medicine centres.

**Major studies:** Anatomy and kinesiology, Biological sciences, Biomechanics, Exercise physiology, Exercise rehabilitation, Exercise science, Functional anatomy, Health and human movement, Health sciences, Kinesiology, Myofascial and advanced massage techniques, Myotherapy, Nutrition and dietetics, Nutrition and exercise,

Supplementary form (CY12-All, NY12-All): All applicants should submit the supplementary form. A copy of the form is available from www.sportstherapy.edu.au.
Interview (CY12-Some, NY12-Some): Applicants may be asked to attend an interview where further information about their study history is required.
All applicants must attend their allocated Enrolment Information Day and Orientation Day. Please refer to the College website for more information www.sportstherapy.edu.au or call (03) 9670 3735.
Prepare for an exciting career in the contemporary music industry at this dynamic institution. The Australian College of Arts (Collarts) provides high-quality, professional training for musicians, audio production specialists and industry music business leaders. Build a career of note with a qualification from Collarts.

What Collarts Offers

Students can enrol in a Bachelor of Arts in contemporary music performance, audio production or creative industries management. Regardless of which course you take, you will receive the best training available. You will put your coursework, both practical and theoretical, to use collaborating with other students and industry professionals.

The Collarts Mission

Collarts provides high-quality, professional arts and entertainment education combined with training in an integrated, socially inclusive environment that allows for a diversity of voices and collaboration between individuals. Students are encouraged to pursue excellence and innovation through creativity, critical reflection, individual endeavour, exploration and experimentation, unconstrained by style or genre and informed by scholarship and best practice. Collarts values its artistic and academic integrity, as well as its engagement with the entertainment industry and the resultant currency of its programs.

Collarts People

Collarts staff comprises highly experienced musicians, audio producers, music industry professionals and academics, all of whom have extensive experience as educators and trainers.

State Of The Art Facilities

Collarts offers students a state of the art learning environment using industry standard equipment from the world’s leading makers of audio, AV and musical products including Avid Audio, Apple, Soundcraft, Ableton, Kurzweil, Fender, Roland, Mackie, Rode, Sony, Yamaha, Kawai, Zildjian and Canon. Collarts has two recording studios, an auditorium and computer labs in addition to standard teaching rooms, lecture theatres and rehearsal studios.

History Of Collarts

Initially funded by the Commonwealth Government, Collarts first opened under the name Ausmusic in 1988. It was created to provide training for the contemporary music industry. Since then, Ausmusic has worked with the Australian music industry to provide high-quality teaching and training to students aspiring to a career in the music and entertainment industries. In 2010, Ausmusic was renamed The Australian College of the Arts (Collarts) and the course offering expanded to include degree programs as part of its continued commitment to Australian contemporary music, arts and the creative industries.

Scholarships

Collarts offers three students the chance to win scholarships that will cover their degree fees for two of the six trimesters. One partial scholarship is provided to each of the Bachelor of Arts degrees in Music, Audio Production and Creative Industries Management.
Audio Production Scholarship - To apply for the Bachelor of Arts (Audio Production) scholarship, submit a three-to-five minute sound design piece and meet us for a formal Audio Production scholarship interview.

Music Scholarship - To apply for the Bachelor of Arts (Music) scholarship, you will need to perform two contrasting pieces of your choice within a combined total duration of ten minutes, and meet us for a formal Music Scholarship Interview. Instrumentalists, vocalists and singer/instrumentalist songwriters are invited to apply.

Creative Industries Management Scholarship - To apply for the Bachelor of Arts (Creative Industries Management) scholarship, submit a Music Industry Profile on a music industry leader or event, and meet us for a formal Creative Industries Management Scholarship. Your submission should be between 1,000-1,500 words.

How To Apply - Applications open on August 5th 2013 and close at 5pm on January 17th 2014. Winners will be announced and advised in February 2014. Go to www.collarts.edu.au for more information or contact Collarts on 1300 818 777 to schedule an interview time.

Audio Production (HE)

Australian College of the Arts
South Melbourne: 8640186482 (DFP) full-time/part-time Apply: Through VTAC main round

- Bachelor of Arts (Audio Production): 2 years full time study

About the course: Start your career as an audio production professional with this degree at Collarts. This course is offered over six trimesters and can be completed in two years of full-time study. Students undertake a combination of foundation subjects, professional studies and electives that develop the technical, creative, organisational and personal skills required for a career as an audio production professional. Upon completion of this degree, you will have participated in industry events, gained valuable experience, developed a top-quality portfolio and acquired the skills and knowledge necessary to pursue your career in the audio production and entertainment industries.

Audio Production students work alongside our performance and creative industries management students. You will be guided by highly qualified and experienced educators using industry-standard production facilities, tools and equipment. You will learn to create professional quality recordings, collaborate with musicians and industry professionals, gain post-production knowledge and explore all related aspects of the music industry. In the final trimester, students engage in a 12 week industry placement program.

Prerequisites: None

Middle-band: None

Selection Mode: CY12: ATAR, Supplementary form (All), Interview (All). See extra requirements for more information.
NY12: Educational History including GPA, Supplementary form (All), Interview (All). See extra requirements for more information.

Extra requirements:

Supplementary form (CY12-All, NY12-All): Applicants must contact the College on 1300 818 777 or apply online via www.collarts.edu.au/enrolment to arrange an interview.

Interview (CY12-All, NY12-All): Applicants will be interviewed by the head of the degree. Please bring along to the
interview any recordings or audio projects with which you have been involved. The degree head will discuss with you your personal aspirations and will provide more information about the course.

Creative Industries Management (HE)

Australian College of the Arts
South Melbourne: 8640186492 (DFP) full-time/part-time

Apply: [Through VTAC] main round

- Bachelor of Arts (Creative Industries Management): 2 years full time study

About the course: Start your career in creative industries management with this degree at Collarts. This course is offered over six trimesters and can be completed in two years of full-time study. Students undertake a combination of foundation subjects, professional studies and electives that develop the technical, managerial and personal skills necessary to pursue a career in creative industries management. Upon completion of this degree, you will have participated in industry events, gained valuable experience, developed a top-quality portfolio and acquired the skills and knowledge necessary to pursue your career.

Creative Industries Management students work alongside our audio production and performance students. You will acquire the skills and knowledge necessary to forge your career through studies in artist and event management, entertainment law, licencing, marketing and communications, public relations and entrepreneurship. You will undertake a series of industry projects while being guided by highly qualified and experienced educators who have extensive experience in the music, entertainment and creative arts industries. In the final trimester, students engage in a 12 week industry placement program.

Prerequisites: None

Middle-band: None

Selection Mode: CY12: ATAR, Supplementary form (All), Interview (All). See extra requirements for more information.

NY12: Educational History including GPA, Supplementary form (All), Interview (All), Work experience (All). See extra requirements for more information.

Extra requirements:
Supplementary form (CY12-All, NY12-All): Applicants must contact the College on 1300 818 777 or apply online via [www.collarts.edu.au/enrolment](http://www.collarts.edu.au/enrolment) to arrange an interview.

Interview (CY12-All, NY12-All): Interviews will be conducted by the head of the degree. All applicants are encouraged to bring a resume and/or any evidence of their engagement with the creative arts industries that may support their application.

Work experience (NY12-All): Please provide any evidence of voluntary or paid work experience in the creative industries.

Music Performance (Contemporary) (HE)

Australian College of the Arts
South Melbourne: 8640186472 (DFP) full-time/part-time

Apply: [Through VTAC] main round

- Bachelor of Arts (Music): 2 years full time study

About the course: Start your career as a musician, songwriter or music producer with this degree at Collarts. This course is offered over six trimesters and can be completed in two years of full-time study. Students undertake a combination of foundation subjects, professional studies and electives that develop the musical, technical, creative
and personal skills necessary for your career in the music and entertainment industries. Upon completion of this
degree, you will have participated in industry events, gained valuable performance experience, and acquired the
skills and knowledge necessary to pursue your career as a music industry professional.

interview your resume and /or any recordings of performances with which you have been involved. The degree
head will discuss with you your personal aspirations and will provide more information about the course.

Audition (CY12-All, NY12-All) : The audition requires the applicant to prepare and perform at least two pieces of
their choice. The use backing tracks or accompanists is optional.

---

The Australian Guild of Music is a nonprofit organisation providing Distance Education solely in the field of Music Education. This means all fees go into providing quality resources to deliver high quality courses that will enable students go onto the career of their choice in the music industry. Our aim is to provide students with skills/knowledge that they can use in any Music industry related career (Music Teaching, Live Performance, Composing/Arranging, Recording, Examination, Music Retail, Music Computer software and multimedia, Music publishing, and many other Music careers). Students gain a wide range of knowledge in all subjects; this prepares students when choosing to develop on any one single skill plus use another skill in music to gain income in the music industry.

The Guild also holds live lectures at the Kooyong campus allowing students to have more involvement with lecturers/students. Distance students are able to contact lecturers via Skype/phone and email regarding any questions in business hours.

Lecturers/tutors contact or discuss in person with students any concerns they may have regarding subjects and always work with the student on ways to strengthen any weaknesses. The Guild has always maintained a high percentage rate of passing students. All lecturers are musicians and educators of high standing in their field of expertise. The Australian Guild of Music Education offer career-focused training in a whole range of courses from Certificate I, II, III and IV through to diploma, advanced diploma, and bachelor degrees.

The Kooyong campus is undertaking renovations for 2012 yet courses are still underway. The new sections/rooms will increase resources available to students plus enable an increase in delivery options.

The courses we teach, and the ways we teach them, are practical and in step with current industry practice. We develop the courses for the in-demand jobs, in close collaboration with industry, and we give you the qualities and qualifications employers seek. So, you can be sure that we'll give you the qualities and qualifications that your future employers seek.

Our teachers are highly qualified and experienced in their fields.

Our facilities are extensive and advanced. Our class sizes are small, so you will enjoy the benefits of quality contact with your teachers and fellow students. Distance students are to maintain weekly contact via MOODLE e-learning through chats, forums and messaging.

Our teaching is flexible, so you can find the mode of study that suits you best. Our qualifications are accredited nationally and recognised internationally, so wherever your life takes you, your qualification will be behind you and our graduates are living, working proof.
Certificate IV in Music: 1 year full time study

The Australian Institute of Fitness is the largest fitness training organisation in Australia, with its programs providing the most popular pathways for those wanting to embark on a fitness career. There are seven locations in Victoria, and many more around Australia.

The Institute offers courses for those wanting to become Personal Trainers, Fitness Instructors, and Fitness Business Managers. Courses are conducted full-time, part-time or online to suit even the time-poor students or those living in rural areas. The online program uses the eCampus platform, which makes distance education an enjoyable, stimulating, and achievable experience.

The Institute is proud to have a large faculty of experts dedicated to training professionals for the fitness industry. As a Registered Training Organisation it is a requirement that all Course Coaches are qualified in the subjects taught. However, the Institute ensures Course Coaches also have current and relevant qualifications and experience in the fitness industry, so students can be confident they are learning from someone who is walking the talk.

A strong association with the fitness industry is important to the Institute, which is why they have dedicated Career Scouts focused on preparing graduates for the workplace and connecting them with their vast number of Career Partners and the latest job vacancies.

By entering into a fitness career students can not only turn their own lives around embarking on a career they're passionate about, but everyday they will be making a difference by helping their clients lead healthier and fitter lives.

Fees
For more information: http://www.fitness.edu.au/fees

Deferment & Transfer Policy
For more information: http://www.fitness.edu.au/important-info
About the course: Encompassing both the Certificates III and IV in Fitness, this course provides students with all the skills and knowledge - plus more - to become a world class Exercise Therapist. Your Course will also include qualifications in Small Business Management, Business Sales and Vocational Preparation as well our Trainer Experience Programme giving you valuable on the job experience. The internationally-renowned Australian Maritime College (AMC) is Australia's national institute for maritime and maritime-related education, training and research. It is one of seven founding members of the International Association of Maritime Universities (IAMU) and is a specialist institute of the University of Tasmania.

Boasting a multi-million dollar suite of specialist teaching and learning facilities, these include:

**Centre For Maritime Simulations:**
Real-time maritime simulation technology that includes a full-scale ship's bridge and a tug simulator.

**Suite of Training Vessels, Including the 35m Bluefin:**
Capable of cruising all Australian waters, the Bluefin can accommodate up to 18 students, two lecturers, and a crew of five on training voyages, varying in length from day trips to three weeks.

**Australasia's Largest Hydrodynamic Towing Tank:**
Designed to investigate the behaviour of ship's hulls in different conditions and to find ways to reduce fuel costs and environmental damage.

**Marine Environment Research Laboratories:**
Combining temperature-controlled storage facilities, a processing laboratory, food preparation kitchen with sensory assessment and analytical laboratories.

**Emergency Response Centre:**
Includes the Survival Centre, Marine Firefighting Centre, Damage Control Centre Unit and Fast Rescue Boat

**Model Test Basin:**
With a wavemaker featuring 16 computer-controlled paddles producing a wide variety of wave forms, it's used to conduct studies into port design and operation; particularly regarding ship interaction in confined waters. The Model Test Basin has also been used to test innovative wave energy technology and the development of man-made surfing facilities.

AMC prides itself on having strong links with industry and high graduate employment rates. With a focus on hands-on learning and flexible course delivery (including opportunities for part-time and online distance study), AMC attracts students from around the world studying at all levels; from vocational training through to postgraduate degrees.

Whether you want to captain a large vessel, safeguard the world's marine environments or design super structures on the ocean, there's a wide range of study areas to choose from, including: maritime engineering (marine and offshore engineering, ocean engineering and naval architecture); marine environment (aquaculture, fisheries management, marine conservation and aquatic animal health); international and coastal seafaring; and maritime business, international logistics and maritime technology management.

AMC's main campus is in Launceston, a city that is large enough to offer a city experience but small enough to retain a strong sense of community and just a quick direct flight from Melbourne, Sydney or Brisbane. AMC offers a personal educational experience and a relaxed campus lifestyle in an island environment often described as one of...
the most beautiful places on earth.

Credit transfer

Students who have successfully completed a vocational course at AMC or at a recognised TAFE institute may seek advanced standing or credit for studies already completed. Exemptions will be evaluated on a case-by-case basis, with consideration given to prior learning and/or relevant professional experience. For more information:
http://www.futurestudents.utas.edu.au/tafe-polytech

Special consideration

Special Entry Access Scheme (SEAS)

The Australian Maritime College (AMC) recognises that applicants may experience educational disadvantage as a result of life circumstances during their schooling and in particular during year 12. Special Entry and Access Scheme (SEAS) is for applicants with sound academic potential who have experienced severe educational disadvantage. The SEAS process enables selection officers to grant extra consideration to applicants for course entry. A SEAS application will not replace the normal course entry requirements, including any stated extra requirements. Consideration of SEAS may relax some aspects of the specific course requirements but not exempt them. Applicants to AMC are eligible to apply for SEAS under all categories* on the condition that the eligibility requirements are satisfied and appropriate supporting evidence provides details of any factors or circumstances which may have limited their opportunities for education or access to a university. Applicants will be considered individually and any consideration given will be at the discretion of AMC. Information supplied will only be used for the purpose of selecting and making an offer to an applicant and will be treated in accordance with relevant privacy policies. *Applicants from under-represented schools are not considered by AMC. For more information:
www.amc.edu.au/enquiry

Scholarships

AMC's Scholarships Program provides students with significant financial and academic support to study at the Australian Maritime College, a specialist institute of the University of Tasmania. For more information:
http://www.amc.edu.au/scholarships

Enrolment and deferment

Enrolment policy

VTAC does not administer the enrolment process for individual institutions. AMC will forward successful applicants offer and enrolment correspondence. Details on how to accept your offer will be included in your offer correspondence. If you have any queries regarding your offer contact the Student Centre on 1300 363 864 or email student.centre@utas.edu.au For more information:

Deferrment policy

If you have received an offer of a place and wish to delay commencing your undergraduate course until 2015, you may be eligible to apply for a deferral. Deferrals will only be granted to students who meet one of the following criteria: an Australian Tertiary Admission Rank (ATAR) of at least 75; or a completed International Baccalaureate Diploma with a score of at least 26; or a University Grade Point Average (GPA) of at least 5. For more information:
http://www.studentcentre.utas.edu.au/admissions
Student services

Disability services

Applicants with disabilities are advised to call AMC on 1300 363 864 to facilitate the meeting of special needs. Students in seafaring courses should be aware of Australian Maritime Safety Authority (AMSA) statutory health and fitness requirement for such courses. For more information: http://www.utas.edu.au/students/disability

Accommodation

AMC has on-campus single bedroom accommodation. Each room is heated, carpeted and furnished for student needs. Toilet and shower facilities are shared. Full meal service is available on weekdays, with self-catering facilities provided at weekends. Commencing students are strongly recommended to consider on-campus accommodation and are advised to submit an application early to secure a place. For online applications, visit www.utas.edu.au/accommodation/ For more information email Accommodation Services on enquires@accommodation.utas.edu.au For more information: www.accommodation.utas.edu.au

Launceston:1900119093 (IFP) full-time/part-time  Apply: Through VTAC main round

- Associate Degree in Applied Science (Marine Environment): 2 years full time study

About the course: This course provides an innovative, multi-disciplinary and applied science approach to learning about the marine environment in Australia. Students gain broad introductory exposure to the areas of natural sciences, social sciences, technology and environmental management; alongside electives including environmental economics, policy and law. It also provides an alternative pathway to university for those who do not satisfy the entry requirements of the Bachelor of Applied Science (Marine Environment). Students complete a combination of foundation units and a range of introductory and intermediate units selected from two of five specialisations: aquaculture; marine conservation; fisheries management; aquatic science; and aquatic biology.

Major studies: aquaculture, aquatic biology, aquatic science, fisheries management, marine conservation.

Prerequisites: None

Middle-band: None
**Selection Mode:** CY12 : ATAR.
NY12 : Educational History including GPA.
SEAS is considered.

**Applied Science (Marine Environment)(Advanced) (Grad)**

**Australian Maritime College**

Launceston: Commonwealth-supported places full-time/part-time  
Apply: [Direct to institution]

Launceston: International fee-paying places full-time/part-time  
Apply: [Direct to institution]

- Graduate Diploma of Applied Science (Marine Environment): 1 year full time study
- Master of Applied Science (Marine Environment): 1.5 year full time study
- Masters (Honours) of Applied Science (Marine Environment): 2 years full time study
- Graduate Certificate in Applied Science (Marine Environment): 0.5 year full time study

**About the course:** Provides graduates with advanced skills and expertise in the collection, analysis and translation of scientific information; and research into achieving industry best-practice outcomes and optimal policy development and implementation.

Graduates will demonstrate maximum value to employers in industry, government and non-government organisations across all areas of marine resource and environmental management, science policy for all levels of government, and technical management across a range of marine and maritime industries.

Participants may specialise in one of four disciplines: aquaculture; aquatic animal health; fisheries management; marine conservation.

Additionally, the Master of Applied Science with Honours provides specific training in all facets of research, giving graduates the necessary background for admission to higher degree by research programs. Postgraduate qualification in Applied Science (Marine Environment) are accredited (in part or full) as meeting the further learning requirements for registration as a chartered marine scientist by the Institute of Marine Engineering, Science and Technology (IMarEST).

**Major studies:** aquaculture, aquatic animal health, fisheries management, marine conservation.

**Prerequisites:** Bachelor Degree Australian bachelor degree or equivalent in an approved discipline.

**Middle-band:** None

**Selection Mode:** CY12 : ATAR.
NY12 : Educational History including GPA.

**Extra requirements:**

- Associate Degree in Aquaculture: 2 years full time study

**About the course:** This program has been designed to meet industry needs and provide practical education and training in aquaculture. It prepares students for the workplace through a combination of vocational, scientific and technological training complemented with industry placements. Graduates can work in all facets of aquaculture production as well as in hatcheries. In addition to introductory theoretical units covering biology, chemistry and mathematics, students develop skills and understanding across all facets of aquaculture production. These subject areas include aquaculture technology, hatchery production techniques, fish health management, and seafood quality and safety. Students who achieve a credit average in first year can transfer with full credit into the Bachelor of Applied Science (Marine Environment) majoring in aquaculture. For more information visit AMC’s website.

**Major studies:** Aquaculture, Aquaculture (Biology), Aquaculture (Chemistry), Aquaculture (Crustacean), Aquaculture (Finfish), Aquaculture (Shellfish), Fish breeding, Fisheries and aquaculture, Physical sciences (food industry).

**Prerequisites:** None

**Middle-band:** None

**Selection Mode:** CY12: ATAR.
NY12: Educational History including GPA.
SEAS is considered.

- Bachelor of Engineering (Marine and Offshore Engineering): 4 years full time study

**About the course:** This degree focuses upon the design, deployment and commissioning of systems associated with the marine and offshore oil and gas industries. It is suited to students interested in mechanical and mechanical-electrical equipment, such as huge fuel injected engines, large gas turbine generators or massive oil and gas rigs. Graduates can get involved in engineering alternative marine power systems or improving crude oil extraction to reduce emissions while maximizing yield.

There are three specialisations available:

- Offshore Systems - focuses on the selection, deployment and commissioning of machinery, machinery systems and operational systems designed and manufactured in support of the offshore oil and gas industry.
- Marine Systems - focuses on the selection, deployment and commissioning of machinery, machinery systems and operational systems designed and manufactured in support of the ship and underwater vehicle industry.
- Sustainable Design and Risk - develops practical understanding of environmental, safety and risk issues related to ocean, marine and offshore production systems. The enhanced understanding of these issues will ensure sustainable design from the onset and effective management throughout the life cycle of the system.

**Practical Experience:** minimum of twelve weeks.
**Major studies:** Ancillary systems engineering design, Auxiliary vessel operations, Integrated process/production systems engineering design, marine systems, Maritime/mechanical/electrical systems engineering design, offshore systems, power generating machinery design/options, power plant systems engineering design, ships and offshore structures.

**Prerequisites:** Units 3 and 4: a study score of at least 20 in any English; and a study score of at least 20 in one of Maths: Mathematical Methods (CAS) or Maths: Specialist Mathematics; and a study score of at least 20 in any Science.

**Middle-band:** None

**Selection Mode:** CY12 : ATAR.
NY12 : Educational History including GPA.
SEAS is considered.

- Bachelor of Engineering (Naval Architecture): 4 years full time study

**About the course:** This course combines a core set of fundamental engineering units with a focus on marine craft design and technology. Naval architects are responsible for the design and construction of marine craft such as high-speed ferries, submarines, racing yachts, cargo ships, cruise liners, naval vessels and offshore floating systems.

There are two specialisations available:

Ships and Underwater Vehicles focuses on the design and construction of ships ranging from high-speed ferries to naval frigates, as well as underwater vehicles and submarines.

Yachts and Small Craft comprises a similar set of units but focuses on the design and construction of small craft ranging from recreational craft to luxury cruisers and sailing yachts.

Experience: minimum of twelve weeks.

**Major studies:** Offshore floating systems design, Ship design and construction, Submarine and underwater vehicle design, Yacht and small craft design.

**Prerequisites:** Units 3 and 4: a study score of at least 20 in any English; and a study score of at least 20 in one of Maths: Mathematical Methods (CAS) or Maths: Specialist Mathematics; and a study score of at least 20 in any Science.

**Middle-band:** None

**Selection Mode:** CY12 : ATAR.
NY12 : Educational History including GPA.
SEAS is considered.

- Bachelor of Engineering (Ocean Engineering): 4 years full time study

**About the course:** This degree prepares students for work in the design, construction, installation and management of offshore fixed, floating, subsea and coastal structures. The degree integrates a core set of fundamental engineering units which focus on wave mechanics, hydrodynamics, structural mechanics and dynamics of offshore and subsea structures and coastal technologies.

There are three specialisations available:

- Ocean & Subsea Structures - focuses on the design, construction, installation and management of offshore, subsea and coastal structure.
- Marine Aquaculture - equips students with the skills needed to work in the design and construction of marine aquaculture infrastructure.
- Sustainable Design and Risk - develops a practical understanding of environmental, safety and risk issues related to ocean, marine and offshore production systems. The enhanced understanding of these issues will ensure sustainable design from the onset and effective management throughout the life cycle of the system.

Practical Experience: minimum of twelve weeks.

**Major studies:** Design and construction, Hydrodynamics, Offshore and coastal structures, Offshore operations, Subsea operations engineering, Underwater vehicles.

**Prerequisites:** Units 3 and 4: a study score of at least 20 in any English; and a study score of at least 20 in one of Maths: Mathematical Methods (CAS) or Maths: Specialist Mathematics; and a study score of at least 20 in any Science.

**Middle-band:** None

Participating institution
Bachelor of International Logistics (Freight Forwarding): 3 years full time study

About the course: This degree provides students with knowledge of critical elements of the international logistics and freight forwarding industries. Logistics and freight forwarding are fundamental components of international trade.

The course will appeal to students planning and developing careers in organisations and government departments involved with freight forwarding and international business, both in Australian and overseas. Students will learn to identify problems and provide solutions in a range of fields such as customs broking, cargo regulatory systems, freight forwarding, logistics management and global procurement. This applied learning style is essential for a sound understanding of the issues facing such specialised industries.

Major studies: Air Transport, global procurement, international business management, Land Transport, logistics, Sea Freight Transport, trade and border controls, warehousing and distribution.

Prerequisites: None

Middle-band: None

Selection Mode: CY12 : ATAR.
NY12 : Educational History including GPA.
SEAS is considered.

Extra requirements:
None

Marine Environment (HE)

Australian Maritime College

Bachelor of Applied Science (Marine Environment): 3 years full time study

About the course: This degree offers students a choice of three major specialisation disciplines: aquaculture; fisheries management; marine conservation. Students gain broad exposure across natural and biological sciences, economics, management, social science, policy and law with a flexible degree structure. This applied science degree enables graduates to pursue a variety of career pathways specific to marine-related research, sustainable resource use and environmental management.
Students gain hands-on experience in field research techniques, laboratory methods and opportunities to undertake work placement in industry, government and non-government organisations relevant to their chosen major. These core units provide students with a strong foundation in understanding the natural science of the marine environment.

**Major studies:** Aquaculture, Fisheries management, Marine conservation.

**Prerequisites:** Units 3 and 4: a study score of at least 20 in any English; and a study score of at least 20 in any Mathematics; and a study score of at least 20 in any Science.

**Middle-band:** None

**Selection Mode:** CY12 : ATAR.

- Graduate Diploma of Maritime and Logistics Management: 1 year full time study
- Master of Business Administration (Maritime and Logistics Management): 1.5 year full time study
- Graduate Certificate in Maritime and Logistics Management: 0.5 year full time study

**About the course:** This program includes the elements of a classic MBA, but the addition of a strong maritime and logistics focus provides students with an excellent level of understanding of these industries. As a result, graduates will be equipped for senior management positions in the sector.

The Graduate Certificate and Graduate Diploma are also available as standalone courses for those who wish to receive a highly regarded management qualification in a shorter timeframe.

**Major studies:** None.

**Prerequisites:** Bachelor Degree Australian bachelor degree or equivalent in an approved discipline.

Participating institution  
Associate Degree in Maritime and Logistics Management: 2 years full time study

About the course: This course prepares students for management careers in the dynamic and internationally-focused maritime and logistics industries and related areas. It combines the core business principles of finance, marketing, economics, international business management and law with more specific maritime industry units, including international transport systems and ship operations management. These are studied in combination with logistics-based units to provide the necessary focus and an appreciation of the issues confronting the logistics and maritime industries.

This Associate Degree covers the first two years of the Bachelor of Business (Maritime and Logistics Management). Graduates will gain credit for the equivalent of two years full-time study (16 units) if they wish to progress to the Bachelor of Business (Maritime and Logistics Management).

Major studies: finance, international business management, international transport, logistics, marketing, ship operations management.

Prerequisites: None

Middle-band: None

Selection Mode: CY12: ATAR.
NY12: Educational History including GPA.
SEAS is considered.

Extra requirements: None

Maritime and Logistics Management (Degree) (HE)

Australian Maritime College

Bachelor of Business (Maritime and Logistics Management): 3 years full time study

About the course: This course combines the core business principles of finance, marketing, economics, business law and strategic management with more specific maritime industry units, including port and terminal management, ship operations management and maritime economics. These are studied in combination with logistics-based units to provide the necessary focus and an in-depth appreciation of the issues confronting the logistics and maritime industries. The course culminates with the Transport Research Project which requires students to apply business
research techniques to contemporary issues in the maritime and logistics industries. This degree has professional recognition by The Chartered Institute of Logistics and Transport; The Institute of Chartered Shipbrokers; and The Australian Institute of Export.

**Major studies:** Administration, Business (administration), Business (law), Business (logistics), Business (management), Business (operations), Economics, Importing and exporting, Logistics, Maritime finance, Maritime law, Project management, Shipping (commercial), Shipping (terminal operations), Supply chain management, Transport and logistics.

**Prerequisites:** None

**Middle-band:** None

**Selection Mode:** CY12 : ATAR.
NY12 : Educational History including GPA.
SEAS is considered.

**Extra requirements:**
None

### Maritime Engineering (Specialisation) (Grad)

**Australian Maritime College**

Launceston: Domestic fee-paying places full-time/part-time **Apply:** [Direct to institution](#)

Launceston: International fee-paying places full-time/part-time **Apply:** [Direct to institution](#)

- Graduate Diploma of Maritime Engineering (Specialisation): 1 year full time study
- Master of Maritime Engineering (Specialisation): 1.5 year full time study
- Graduate Certificate in Maritime Engineering (Specialisation): 0.5 year full time study

**About the course:** Provides engineering professionals with in-depth exposure to a wide range of subjects relevant to the development and procurement of marine systems. These programs are aimed at engineering professionals already in the workforce but with limited exposure to the maritime engineering sector, and who wish to continue working while studying to gain a relevant professional qualification.

To help busy professional engineers balance their work, study and family commitments, all units have been specifically designed to provide a flexible learning approach through innovative on-line/distance study programs. Students may specialise in one of two majors, Technology Management or Naval Engineering, while retaining some flexibility to combine units from across either major.

**Major studies:** None.

**Prerequisites:** Bachelor Degree Australian bachelor degree or equivalent in an approved discipline.

**Middle-band:** None

**Selection Mode:** CY12 : ATAR.
NY12 : Educational History including GPA.

**Extra requirements:**
None

Apply: Direct to institution

- Graduate Diploma of Maritime Studies: 1 year full time study
- Master of Maritime Studies: 1.5 year full time study
- Graduate Certificate in Maritime Studies: 0.5 year full time study

About the course: This program has been developed for people with a strong interest in maritime issues and affairs to undertake further study. It has a professional development focus and will enable students to explore topics within the context of their professional work or own particular interest. There are a choice of units drawn from a number of maritime fields including: maritime operations, maritime safety, maritime policy and marine environment.

Major studies: fisheries management, maritime policy, maritime safety.

Prerequisites: Bachelor Degree Australian bachelor degree or equivalent in an approved discipline.

Middle-band: None

Selection Mode: CY12: ATAR.
NY12: Educational History including GPA.

Extra requirements: None

Apply: Through VTAC main round

- Bachelor of Applied Science (Maritime Technology Management): 3 years full time study

About the course: A combination of studies in engineering and technology management with logistics and business, gives students specialised skills to work in project management roles in the maritime sector and other industries such as construction, ports and terminal management, shipping, logistics and international trade.

Students are required to complete 24 units covering core business areas including communication, economics, and law together with engineering and technology studies including design and production. This course is also complemented with maritime and logistics management units including logistics management, ship operations management and ports and terminals management.

Major studies: Administration, Business (law), Economics, Engineering, Engineering (marine engineering), Logistics, Management, Maritime design, Maritime finance, Maritime law, Naval architecture, Project management, Shipping (commercial), Shipping (terminal operations).

Prerequisites: Units 3 and 4: a study score of at least 20 in any English; and a study score of at least 20 in any Mathematics.

Middle-band: None

Selection Mode: CY12: ATAR.
NY12: Educational History including GPA.
SEAS is considered.
Extra requirements:
None
Experience the benefits of learning in a supportive environment in one of Central Victoria's largest training providers when you enrol at Bendigo TAFE.

With a diverse range of courses, students, campuses and delivery methods, the common characteristic of all our passionate and dedicated staff is their commitment to providing top outcomes for students and clients.

Our education, training and assessment services support a wide range of study areas and programs including traditional trades, vocational and pre-employment programs and emerging skill areas delivered in quality facilities. Central to the core of these study areas are industry relevance and engaging students in practical and relevant training.

A number of our courses have articulation agreements with universities providing you with either credits or direct entry towards your selected Bachelor program.

**Credit Transfer**

If you already hold a unit which is the same as, or sufficiently similar to the one you need for your chosen course, Bendigo TAFE may transfer your credit in that unit. You must be able to provide evidence that you have successfully completed any units of study and you must identify any potential credit transfers prior to enrolment. If it is a significant length of time since you completed the units, you may be required to undertake gap training. This will be discussed with you during selection or enrolment. For more information: [http://www.bendigotafe.edu.au/courses/study-options-in-detail/Pages/default.aspx](http://www.bendigotafe.edu.au/courses/study-options-in-detail/Pages/default.aspx)

**Recognition of Prior Learning**

Through Recognition of Prior Learning, Bendigo TAFE can award you complete units towards a qualification or a complete qualification without further study. For more information: [http://www.bendigotafe.edu.au/courses/study-options-in-detail/Pages/default.aspx](http://www.bendigotafe.edu.au/courses/study-options-in-detail/Pages/default.aspx)

**Building Design (Architectural) (VET)**

**Charleston Road**

6300263164 (Fee type determined by provider)  
**Apply:**  
[VTAC](http://www.wss8.vtac.edu.au/courses-inst/institutions/topdf/bendigo.html) main round

- Advanced Diploma of Building Design (Architectural): 1.5 year full time study

**About the course:** The Advanced Diploma of Building Design (Architectural) course provides participants with the skills and knowledge required to work in the architectural building design and drafting industry. This course uses a project based delivery method and focuses on 2D and 3D CAD software skills, environmentally sustainable design (ESD), innovative design solutions to residential and commercial design as well as construction methods, project management and administration.

The course is typically delivered over a three year period with the third year on a part time basis. Successful completion of this course meets the minimum academic requirements for registration with the Building Practitioners Board as building designer. For more information on this course, please visit the Bendigo TAFE website [www.bendigotafe.edu.au](http://www.bendigotafe.edu.au)

**Major studies:** Architecture, Building, Building (Construction Methods), Building (Design), Building (Technology), Building Codes and Standards (Low Rise), Building Codes and Standards (Medium Rise), Building Information Modelling, Building Practice, Computer-Aided Drafting (CAD), Construction Technology, Design (3D), Design Process, Digital Applications (CAD), Environmental Sustainability, History (Architecture), Project Administration, Project Management, Structural Technology, Sustainability, Sustainable Design, Working Drawings (architecture).
**Conservation and Land Management (VET)**

**Bendigo TAFE**

Charleston 6300263754 (Fee type determined by provider) Apply: Through main round

- Certificate IV in Conservation and Land Management: 1 year full time study
- Diploma of Conservation and Land Management: 1 year full time study

**About the course:** Bendigo TAFE’s courses in Conservation and Land Management provide students with the opportunity to develop an understanding of key environmental issues and management.

This practical hands-on course provides students with a solid grounding in environmental management. Students gain specialised skills and knowledge, with an emphasis on technical and practical skills for field work. Conservation and Land Management courses can lead to a diverse range of employment opportunities. For more information on either of these courses, please visit the Bendigo TAFE website [www.bendigotafe.edu.au](http://www.bendigotafe.edu.au).

**Prerequisites:** None

**Middle-band:** None

**Selection Mode:** CY12: Supplementary form (All), Interview (All). See extra requirements for more information.

NY12: Supplementary form (All), Interview (All). See extra requirements for more information.

**Extra requirements:**

Supplementary form (CY12-All, NY12-All): Applicants must complete and submit a Supplementary Application Form([www.bendigotafe.edu.au/aboutbendigotafe/documentlibrary/Pages/VTAC-Forms.aspx](http://www.bendigotafe.edu.au/aboutbendigotafe/documentlibrary/Pages/VTAC-Forms.aspx)) by 1 November.

Interview (CY12-All, NY12-All): Applicants must attend an interview in November/December. Interview details will be provided by 30 October.

---

**Engineering - Technical (VET)**

**Bendigo TAFE**

Charleston 6300263174 (Fee type determined by provider) Apply: Through main round

- Diploma of Engineering (Technical): 1 year full time study
About the course: Diploma of Engineering-Technical trains engineering technicians in research and development, design, planning, production, operations, and maintenance.

On successfully completing this course you will be eligible for employment as an engineering technician, providing technical support in the engineering field, working under the direction of engineers, technologists and other associates.

The successful completion of the Diploma of Engineering-Technical can lead to the Advanced Diploma of Engineering, which in turn can lead to engineering studies at degree level.

Major studies: None.

Prerequisites: None

Middle-band: None

Selection Mode: CY12 : Supplementary form (All), Interview (All). See extra requirements for more information.
NY12 : Supplementary form (All), Interview (All). See extra requirements for more information.

Extra requirements:
Supplementary form (CY12-All, NY12-All) : Applicants must complete and submit a Supplementary Application Form(www.bendigotafe.edu.au/aboutbendigotafe/documentlibrary/Pages/VTAC-Forms.aspx) by 1 November.
Interview (CY12-All, NY12-All) : Applicants must attend an interview in November/December. Interview details will be provided by 30 October.

---

Interactive Digital Media (VET)

Bendigo TAFE
Bendigo: 6300163074 (Fee type determined by provider) full-time  Apply: Through VTAC main round

- Certificate IV in Interactive Digital Media: 1 year full time study

About the course: The Certificate IV in Interactive Digital Media qualification consists of one year of full-time study. This course is for people who want to acquire knowledge and skills to pursue employment and/or further training in animation, visual effects, gaming, media archiving, camera/lighting, digital art and production coordination. The qualification reflects the role of individuals who use well developed skills and a broad knowledge base in a wide variety of contexts in the digital content industry. Job roles for graduates may include digital artist, interactive media author, media asset producer and web designer.

Pathways to further education are established, with successful completion being recognised for entry to the Diploma of Interactive Digital Media at Bendigo TAFE and other TAFE institutes.

Future employment opportunities are in interactive CD and game development, web design construction, videography or print media.

Major studies: 2D animation, Digital Imagery, Drawing and script development, DVD development, Elements of planning and production, Introduction to content creation, Multimedia and Web authoring, Principles of visual design communication, Video production.

Prerequisites: None

Middle-band: None

Selection Mode: CY12 : Supplementary form (All), Interview (All). See extra requirements for more information.
NY12 : Supplementary form (All), Interview (All). See extra requirements for more information.

Extra requirements:
Supplementary form (CY12-All, NY12-All) : Applicants must complete and submit a Supplementary Application Form(www.bendigotafe.edu.au/aboutbendigotafe/documentlibrary/Pages/VTAC-Forms.aspx) by 1 November.
Interview (CY12-All, NY12-All) : Applicants must attend an interview in November/December. Interview details will be provided by 30 October.
Sound Production (VET)

Bendigo TAFE
Bendigo: 6300163134 (Fee type determined by provider) full-time Application: Through VTAC main round

- Certificate IV in Sound Production: 1 year full time study

About the course: If you want to establish a career as a professional audio technician, sound designer or audio engineer, then this course will set you on your path. You will learn about studio operations, digital audio production and PA assembly for live shows while developing your own creativity and business acumen. Explore the world of live events, studio recording, sound mixing, copyright law and essential music industry business skills. Take the opportunity to produce music tracks for bands and artists or soundtracks for film, TV and multimedia.

Major studies: Creative collaboration in the music industry, Digital audio production, Digital audio sampling, Fundamentals of sound recording, Introduction to composing music using electronic media, Managing Live Sound.

Prerequisites: None

Middle-band: None

Selection Mode: CY12: Supplementary form (All), Interview (All). See extra requirements for more information. NY12: Supplementary form (All), Interview (All). See extra requirements for more information.

Extra requirements:
Supplementary form (CY12-All, NY12-All): Applicants must complete and submit a Supplementary Application Form (www.bendigotafe.edu.au/aboutbendigotafe/documentlibrary/Pages/VTAC-Forms.aspx) by 1 November.
Interview (CY12-All, NY12-All): Applicants must attend an interview in November/December. Interview details will be provided by 30 October.
The Billy Blue design College is named after William (Billy) Blue who played a colourful role in Australian colonial history. He pioneered Sydney Harbour's first ferry service and was, in effect, the nation's first official tour operator. Billy Blue is thought to have been born in Jamaica in 1767 and, after being arrested for stealing sugar in London, found himself on board the Minorca arriving in Botany Bay at the age of 34. After serving out the remainder of his sentence in Sydney, Billy began a rowing boat service crossing the harbour, married the wife he would go on to have six children. He lived with his family in The Rocks. Eventually, in 1811, he was appointed Harbour Watchman and Constable. As a consequence of these titles, Billy was granted a home overlooking Sydney Harbour and the land on which it sat came to be known as Billy Blue's Point.

Billy Blue died in 1834 in North Sydney where streets are now named after him and the site of his northern ferry terminus remains known as Blues Point.

Billy Blue has a proud tradition in design education and engagement with Industry. We choose to operate on a personal scale to preserve a sense of community. We care about our students, the way we interact with them and how the students interact with each other. We also care about our customers, industry partners, academic partners and 'live' clients.

Our values define the expectations of staff and students at Billy Blue. Our values apply equally to teaching, learning and working. We reflect our commitment to the college by the continual improvement and assessment of the quality of our educational products and services.

Our values for student and staff are:

- Personal care and development
- Learning and leadership
- Diversity and unity
- Open communication and team work
- Innovation and creativity
- Social and global responsibility
- Integrity and fairness
- Initiative and accountability
- Economy and efficiency
- Customer service and client relationships

Billy Blue students gain valuable industry exposure and make lasting industry contacts through working on a campus with a strong creative culture and industry expert lecturers. They have opportunities to create a professional portfolio, personal business card and letterhead and to attend the graduation exhibition.
About the course: The Bachelor of Applied Design (Branded Fashion) focuses on the design, production and marketing of garments. You learn how to create and market a range of design solutions, and use the latest software to communicate your product design ideas.

Discover how to produce clothing designs according to project budgets and timelines, and find out how to manage the integrity and positioning of a brand. Investigate the theory behind design and marketing, evaluate communication and brand fashion strategies, and scrutinise current, present and future fashion trends. You'll enhance your forecasting, project-management and drawing skills, and discover the difference between fashion and clothing, and brand label and designer label.

The design work you do throughout your study contributes to your professional portfolio your passport to a serious design career.

Major studies: Branded Fashion.

Prerequisites: None

Middle-band: None

Selection Mode: CY12 : ATAR.
NY12 : Educational History including GPA.

Extra requirements: None

**Billy Blue College of Design**

Melbourne: Commonwealth-supported places full-time  Apply: Direct to institution
Melbourne: Domestic fee-paying places full-time  Apply: Direct to institution
Melbourne: International fee-paying places full-time  Apply: Direct to institution

- Bachelor of Applied Design (Communication Design): 3 years full time study

About the course: This design course is structured to prepare you for careers in which information is conveyed visually. These include graphic design, advertising, publishing, packaging, print media and digital media. You'll learn about design usability, typography, ideas generation, digital media, design research and more. You'll also learn how to use Photoshop and Illustrator.

Major studies: Communication Design.

Prerequisites: None

Middle-band: None

Selection Mode: CY12 : ATAR.
NY12 : Educational History including GPA.

Extra requirements: None
Blue Mountains International Hotel Management School

Since 1991, Blue Mountains International Hotel Management School has gained a strong reputation for delivering industry relevant hotel and event management programs. In a recent survey of international hiring managers, Blue Mountains ranked number 1 among international hospitality management schools in Asia Pacific and Australia for an international career (TNS Survey 2010).

Undergraduate Programs offered include:

- Bachelor of Business in International Hotel & Resort Management (2.5 years)
- Bachelor of Business in International Event Management (2.5 years)

There are two campuses—Leura and downtown Sydney.

Undergraduate students live on campus in Leura during the first 2 years of their degree and learn in a simulated hotel environment—students get the opportunity to be both guest and staff. In the final year students complete their undergraduate studies at the Sydney campus.

FEE-HELP is also available for Australian Citizens.

Event Management

Diploma of Business - Event Management: 1 year full time study
Associate Degree in Business - Event Management: 2 years full time study
Bachelor of Business - Event Management: 2.5 years full time study

About the course: This is a business focused degree with a major in International Event Management. It gives students a broad business-focused education and training in all key aspects of event management. The program prepares students for supervisory and management trainee positions on graduation in the hospitality and tourism sectors.

This degree is a three year program that is fast tracked and completed in 2.5 years. This will allow students to start their careers earlier while receiving a recognised and accredited university level education. It also includes two industry placements of paid employment and training in industry with employers in Australia or abroad including major event management companies, hotel brands and groups, boutique and stand-alone hotels as well as
serviced apartments.

**Prerequisites:** None

**Middle-band:** None

**Selection Mode:** CY12 : ATAR, Interview (All). See extra requirements for more information.

NY12 : Educational History including GPA, Interview (All). See extra requirements for more information.

**Extra requirements:**

Interview (CY12-All, NY12-All) : As a requirement of entry, applicants must go through an interview process after submitting their application for review. This interview can be conducted in person, telephone or Skype. For further information please email enquiry@bluemountains.edu.au

Box Hill Institute of TAFE

Studying at Box Hill Institute, won't just help you get a job, it will help you build the career you want!

Box Hill Institute offers career-focused training across a range of courses from certificate, diploma, advanced diploma, associate degree to degree level. The Institute is one of Australia's largest and most progressive TAFE institutes delivering over 400 courses across its Melbourne and international extended campuses.

Study areas are diverse, and range from health, arts, music, hospitality, science, information technology to business. Courses are suitable for school leavers, mature-aged or international learners.

In partnership with the Centre for Adult Education (CAE), the Institute is in the unique position of offering life-long learning through its adult education network of courses. Learners are taught by teachers with real industry experience. With a friendly, supportive environment, the Institute welcomes students of all ages and cultures. Being the first choice for learners, our graduates are the first choice for many employers. Courses are delivered with an emphasis on practical learning, aimed at meeting industry demand.

The Institute offers flexible study options for nationally accredited and recognised qualifications. Courses are structured in conjunction with the Institute's industry partners to produce work-ready graduates.

Working collaboratively with industry and community partners is paramount in delivering quality vocational education. It is through these important working relationships that Box Hill Institute continues to excel.

Study abroad

Learners have the opportunity to participate in study tours and short-term exchanges with Box Hill Institute's Global Education Network (GEN) partners in Canada, Singapore and the USA. Scholarship opportunities to other destinations are also available.

Fees

A range of fee rates apply depending on your eligibility for a government-subsidized place. Tuition fee concessions may be available to commonwealth concession card holders at the Certificate IV level and lower, along with Payment Plans. VET FEE-HELP Loans are available to eligible Diploma/Advanced Diploma level students, and FEE-HELP Loans available to eligible degree-level students. This enables deferment all or part of your tuition fees. Fees are then repaid via the Australian Taxation system, once your income reaches a certain threshold. For more information: http://www.bhtafe.edu.au/courses/Pages/how-much-will-cost.aspx

Credit transfer, pathways and recognition of prior learning

RPL and Credit Transfer

Recognition of prior learning and credit transfer enable you to receive credit in TAFE-level courses, for past studies or extended work or life experience you may have, that are able to be deemed equivalent to the studies you would have otherwise undertaken. Box Hill Institute has a dedicated Skills Assessment Centre to guide and assist you through the application process. For more information:
**Health & Community Services Information Session:**
- 17 September 2013, Time: 6pm - 8pm
- 19 September 2013, Time: 5pm - 6.30pm
- 15 October 2013, Time: 6pm
- 15 October 2013, Time: 6pm - 8pm
- 31 October 2013, Time: 5pm - 6.30pm
- 11 November 2013, Time: 7pm
- 14 November 2013, Time: 6pm-8pm
- 17 December 2013, Time: 6pm-8pm

**Pathways into courses**
For more information: [http://www.bhtafe.edu.au/courses/Pages/pathways.aspx](http://www.bhtafe.edu.au/courses/Pages/pathways.aspx)

**Pathways to a Degree**
The Institute currently offers a range of 'pathways to a degree' opportunities. These pathways include the opportunity to gain two qualifications, a degree from Box Hill Institute (or through one of the Institute's partner universities); and a TAFE qualification from Box Hill Institute. For further information, visit: [boxhill.edu.au/degreepathways](http://boxhill.edu.au/degreepathways)

**Special consideration**

**Special Entry Access Scheme (SEAS)**
Box Hill Institute is committed to providing all applicants with a fair and equitable selection process that includes the consideration of extenuating circumstances associated with the full range of SEAS categories, including difficult circumstances, disadvantage associated with identity and location, non-English speaking background, extenuating financial circumstances, disability, and medical conditions. Whatever pathways are leading you to further education, you are welcome at Box Hill Institute.

The Institute has a long and proud history of providing support to learners accessing its vocational education and higher education programs, and is committed to providing equity and consideration where needed in the selection of learners into Box Hill Institute courses. The Institute also works within its established Disability Action Plan to better support learners with disabilities. Please refer to the Box Hill Institute Student Support Services web page, should you require further information in regard to support services available, [www.bhtafe.edu.au/students/services/Pages/Student-support.aspx](http://www.bhtafe.edu.au/students/services/Pages/Student-support.aspx).

The special entry access scheme (SEAS) enables extra consideration to be granted in the selection of students for course entry at Box Hill Institute. Consideration of SEAS may relax some aspects of the specific requirements but not exempt them. The information submitted on the SEAS application will be considered by the course selection staff in conjunction with all other course selection requirements. If you are applying for SEAS, you must still complete any Extra Requirements for a course as detailed in the VTAC guide. For more information: [http://www.bhtafe.edu.au/students/services/Pages/Student-support.aspx](http://www.bhtafe.edu.au/students/services/Pages/Student-support.aspx)

**Scholarships**
Box Hill Institute has developed an annual Scholarships and Awards program with industry and community partners to not only recognise the academic achievement of students but to support those who through circumstance require financial support.

The Scholarships and Awards program aims to minimise course costs so that students can concentrate on what's really important - their studies!

Scholarships and awards contribute towards tuition and materials fees for one year of study. Scholarship and award winners not only benefit from financial support, but also career and personal development opportunities, recognition from peers and potential employers.

Please view our website [http://www.bhtafe.edu.au/students/scholarships/Pages/default.aspx](http://www.bhtafe.edu.au/students/scholarships/Pages/default.aspx) for the list of scholarships available. For more information: [http://www.bhtafe.edu.au](http://www.bhtafe.edu.au)
Enrolment and deferment

**Enrolment**

Once you have applied and been accepted, you receive a Letter of Offer for a place in a course with details about how and when to enrol. You will also find details about what to bring to your enrolment session on our website. For more information: [http://www.bhtafe.edu.au/courses/Pages/how-much-will-cost.aspx](http://www.bhtafe.edu.au/courses/Pages/how-much-will-cost.aspx)

**Deferment**

Once you have been accepted into a course, for certain courses you may decide not to take up the place until the following year. Where a course allows deferral, your place in the course will be held for up to one year. For more information: [http://www.bhtafe.edu.au/services/Pages/defer.aspx](http://www.bhtafe.edu.au/services/Pages/defer.aspx)

Student services

**Disability Liaison Service**

The Institute is committed to providing equal access to learning opportunities for any students with a disability and ensuring that reasonable adjustments are made through consultation and negotiation. For more information: [http://www.bhtafe.edu.au/students/services/Pages/disability-liaison-service.aspx](http://www.bhtafe.edu.au/students/services/Pages/disability-liaison-service.aspx)

**Indigenous Student Support**

Box Hill Institute has a dedicated Koori Liaison Officer to provide support to our indigenous students. The Institute also has special programs designed to meet the needs of Indigenous students, such as the eight-week 'Stepping Up and Forward' program. For more information: [http://www.bhtafe.edu.au/students/services/Pages/indigenous-support.aspx](http://www.bhtafe.edu.au/students/services/Pages/indigenous-support.aspx)

**Counselling**

Career counselling, educational and personal counselling services are available. The counselling service operates across all campuses, where counsellors work with students individually or through group programs to help them perform at their best and make the most of their studies. E-counselling via an online service is also available. For more information: [http://www.bhtafe.edu.au/students/services/Pages/Counselling.aspx](http://www.bhtafe.edu.au/students/services/Pages/Counselling.aspx)

Further information

**Application**

Application for a course is usually either via VTAC, or direct to Box Hill Institute. For courses in the VTAC guide, application is via VTAC for February course commencement, however for course commencement at other times of the year, application is directly with Box Hill Institute. There are also many courses not listed in the VTAC Guide for which you may wish to apply (i.e. apprenticeships or other part or full-time courses). Where the course is not in the VTAC Guide, you simply apply directly to Box Hill Institute. Further course details are on our website at [www.boxhill.edu.au](http://www.boxhill.edu.au).

For courses in the VTAC Guide, some will have extra application requirements to complete along with the VTAC application. (i.e. auditions for music/performance courses, folio submission for art/design courses, interviews, or simply attend an information session).

Refer to the specific course entry, visit our website, or just contact us directly on 1300 269 445 for further
Semester Dates
Semester dates vary between sectors, and can also vary between courses. The semester dates advertised are the standard indicative dates only. Students should check with their course coordinator at enrollment for final course dates for 2014.
A small number of Diploma/Advanced Diploma courses may run over 3 Trimesters in 2014.

Accounting (VET)

Box Hill Institute of TAFE
Elgar:5100251204 (Fee type determined by provider) full-time  Apply: Through VTAC main round

- Certificate IV in Accounting: 0.5 year full time study
- Diploma of Accounting: 1 year full time study
- Advanced Diploma of Accounting: 1.5 year full time study

About the course: Program comprises the Certificate IV, Diploma and Advanced Diploma of Accounting, equipping graduates with skills to work in the accounting sector in various roles within accounting classifications. As you progress through the three qualifications, skills learnt at the lower levels are built upon to higher grades.

Generic business skills are also developed. A practical approach is taken to assessment with students participating in either simulated work environment or practical placement.

Graduates can become a budget assistant, costing clerk, asset and inventory clerk and accounts assistant, an assistant for company financial reporting or financial management projects, internal control or a costing projects officer, middle-level management tasks in financial analysis, financial accounting officer, corporation law assistant or costing projects manager. Possible entry into Bachelor of Commerce (Applied) with 18 months advanced standard is an option for all Advanced Diploma graduates.

Each qualification comprises core competencies and a selection of electives. Pathways to the Advanced Diploma will incorporate the Certificate IV and the Diploma.

Major studies: Accounting, Accounting (small business), Auditing, Bookkeeping, Company accounting, Computer accounting, Financial accounting, Law (corporate), Law (taxation), Management (financial), Taxation and auditing.

Prerequisites: None

Middle-band: None

Selection Mode: CY12 : ATAR.
NY12 : Educational History including GPA, VTAC Personal Statement (All). See extra requirements for more information.
SEAS is considered.

Extra requirements:
VTAC Personal Statement (NY12-All) : NY12 applicants must complete a VTAC Personal Statement.

Animal Studies (VET)

Box Hill Institute of TAFE
Elgar:5100252164 (Fee type determined by provider) full-time  Apply: Through VTAC main round

- Certificate IV in Animal Studies: 1 year full time study

About the course: The Certificate IV in Companion Animal Services is an industry recognised qualification for persons undertaking animal attendant functions in companion animal environments; for example an animal shelter, a grooming salon, an animal training facility, a boarding kennel, a pet store, local councils etc. Students will learn to recognise and handle a range of pets as well as monitor their health and provide appropriate food and housing.
Course delivery includes classroom training sessions and two weeks work placement in an animal care work place. Work placement is arranged by the course coordinator. Classroom delivery includes practical activities as well as written work. Elective streams are available in animal behaviour and training or dog grooming. Student orientation takes place in late January or early February. The course provides credits towards animal technology, captive animal studies and electives in vet nursing. This course requires students to possess the communication skills and physical ability to successfully perform practical work placement in industry.

**Major studies:** Animal Behaviour, Animal Care.

**Prerequisites:** None

**Middle-band:** None

**Selection Mode:** CY12 : ATAR.
NY12 : Educational History including GPA. See extra requirements for more information.
SEAS is considered.

**Extra requirements:**
SUCCESSFUL APPLICANTS: Work Experience & Vaccination: Successful applicants must have previously completed 2 weeks work experience in the animal industry & provide proof of tetanus vaccination at the time of enrolment. This course requires students to possess the communication skills and physical ability to successfully perform practical work placement in industry. Successful applicants must also attend a student orientation program in late January prior to course commencement in early February.

---

**Animal Technology (VET)**

**Box Hill Institute of TAFE**

**Elgar:** 5100251974 (Fee type determined by provider) full-time/part-time  
**Apply:** Through VTAC main round

- Diploma of Animal Technology: 2 years full time study

**About the course:** The Diploma of Animal Technology is an industry qualification for persons undertaking animal technology functions within a scientific research environment. The research industry is one of the leading employers of animal care workers. Course delivery is focused on students attaining the required animal husbandry skills through industry visits, work placement, guest speakers, and practical experiences including handling animals in classroom training sessions. Work placement in an animal research facility is arranged by the course coordinator. The course is two years long, with the first year being full time and giving eligibility for a Certificate III when completed. The second year is part time in the evenings to allow students to combine study and employment. Student orientation takes place during the last week of January. This course provides credits towards Latrobe University Bachelor of Animal and Veterinary Biosciences and electives in vet nursing and captive animals. This course requires students to possess the communication skills and physical ability to successfully perform practical work placement in industry.

**Major studies:** Anatomy and physiology, Animal behaviour, Animal breeding, Animal health, Animal husbandry, Biological sciences, Case management, Chemistry (laboratory), Communications, Database management, Genetics, Laboratory computing, Laboratory operations, Nutrition, Occupational health and safety.

**Prerequisites:** None

**Middle-band:** None

**Selection Mode:** CY12 : ATAR.
NY12 : Educational History including GPA. See extra requirements for more information.
SEAS is considered.

**Extra requirements:**
SUCCESSFUL APPLICANTS: Aptitude & Vaccination: This course requires students to possess the communication skills and physical ability to successfully perform practical work placement in industry. Successful applicants must provide proof of tetanus vaccination at time of enrolment and attend a student orientation program in late January prior to course commencement in early February.
**Beauty Therapy (VET)**

**Box Hill Institute of TAFE**
Elgar:5100251674 (Fee type determined by provider) full-time  
Apply: Through VTAC main round

- Diploma of Beauty Therapy: 1 year full time study

**About the course:** Provides students with the initial vocational training in the beauty therapy field, including integrated salon placement. It incorporates customer service and retail skills in addition to technical skills and knowledge required in beauty therapy.

Applicants are required to attend an information session at the Box Hill Institute Elgar Campus, Building 5, Main Reception at 6pm on Tuesday 15 October 2013.

**Major studies:** Anatomy and physiology, Aromatherapy, Biology, Business (operations), Chemistry (cosmetic), Communications, Customer service, Facial treatments, Make-up, Management, Manicure and pedicure, Massage, Nutrition, Occupational health and safety, Retail sales, Skin science, Temporary hair removal.

**Prerequisites:** None

**Middle-band:** None

**Selection Mode:** CY12 : ATAR, Supplementary form (All), Interview (All). See extra requirements for more information.

NY12 : Educational History including GPA, Supplementary form (All), Interview (All). See extra requirements for more information.

SEAS is considered.

**Extra requirements:**
Supplementary form (CY12-All, NY12-All) : All applicants must complete and submit a supplementary form by Tuesday 19 November. Please call 9286 9606 or email b.morton@boxhill.edu.au for more information.

Interview (CY12-All, NY12-All) : All applicants must book an interview by calling or emailing Barbara Morton: (9286 9606 or b.morton@boxhill.edu.au). Interviews will be held between Monday 2 December and Wednesday 4 December.

**Biotechnology (Associate Degree) (HE)**

**Box Hill Institute of TAFE**
Elgar:5100251292 (DFP) full-time/part-time  
Apply: Through VTAC main round

- Associate Degree in Biotechnology: 2 years full time study

**About the course:** This two year course will build a solid platform to launch your career in the science and biotechnology industry. You will develop highly tuned practical skills in state of the art laboratories. With class sizes of no more than 20 students, you will receive highly personalised training in a warm supportive environment.

Building on a strong foundation of Biology and Chemistry in first year, you will gain theoretical and hands-on experience in critical science areas such as Biochemistry, Genetics and Microbiology. Expand your horizons in new and exciting areas such as Nanotechnology and Bioprocessing.

After completion, you may wish to continue into the final year of the Bachelor Degree of Biotechnology and Innovation to gain access to our highly successful work placement program. Please see www.boxhill.edu.au for further information.

**Major studies:** Biochemistry, Biology, Bioprocessing, Biotechnology, Chemistry, Genetics, Microbiology, Molecular Biology.

**Prerequisites:** Units 3 and 4: a study score of at least 20 in any English; and a study score of at least 20 in any Mathematics.
Middle-band: None

Selection Mode: CY12 : ATAR.
NY12 : Educational History including GPA, VTAC Personal Statement (All), Work experience (All). See extra requirements for more information.
SEAS is considered.

Extra requirements:
VTAC Personal Statement (NY12-All) : NY12 applicants must complete a VTAC Personal Statement.
Work experience (NY12-All) : NY12 applicants with relevant work experience must include the details on your VTAC Personal Statement.

Biotechnology and Innovation (Degree) (HE)

Box Hill Institute of TAFE
Elgar:5100251052 (DFP) full-time/part-time  Apply: Through VTAC main round

- Bachelor of Biotechnology and Innovation: 3 years full time study

About the course: This three year course has a strong practical focus in modern laboratories with small class sizes and personalised training in a supportive environment. Biology and Chemistry are foundation subjects enhanced by studies in Biochemistry, Molecular Genetics and Microbiology in the second year. The final year of the course focuses on disciplines such as Bioprocessing, Reproductive Technology and Pharmacology that are complemented by the business subjects Strategic Project Management and Entrepreneurship. You will undertake industry placement for two months in the final year where you can apply your knowledge and skills in the workplace and establish workplace contacts. This degree is equivalent to any university degree and focuses on theoretical, practical and employability skills for the Biotechnology industry. Please see www.boxhill.edu.au for further information.

Major studies: Biochemistry, Biology, Bioprocessing, Biotechnology, Entrepreneurship, Genetics, Microbiology, Project management.

Prerequisites: Units 3 and 4: a study score of at least 20 in any English; and a study score of at least 20 in any Mathematics.

Middle-band: None

Selection Mode: CY12 : ATAR.
NY12 : Educational History including GPA, VTAC Personal Statement (All), Work experience (All). See extra requirements for more information.
SEAS is considered.

Extra requirements:
VTAC Personal Statement (NY12-All) : NY12 applicants must complete a VTAC Personal Statement.
Work experience (NY12-All) : NY12 applicants with relevant work experience must include the details on your VTAC Personal Statement.

Bookkeeping (VET)

Box Hill Institute of TAFE
Elgar:5100210014 (Fee type determined by provider) full-time/part-time  Apply: Through VTAC main round

- Certificate IV in Bookkeeping: 0.5 year full time study

About the course: Develop the knowledge and skills to work as a Bookkeeper using MYOB Software. You will learn how to maintain asset inventory records, prepare financial statements and establish and maintain a payroll system.
Graduates can seek opportunities as a contract bookkeeper (working under the direction of a tax agent or public accountant for a bookkeeping business), working as an employed bookkeeper or running your own bookkeeping business.

Further study options include Diploma and Advanced Diploma of accounting which can lead to Box Hill Institute Bachelor of Commerce.

**Major studies:** Accounting, Bookkeeping.

**Prerequisites:** None

**Middle-band:** None

**Selection Mode:**
- CY12: ATAR, VTAC Personal Statement (All), Interview (Some). See extra requirements for more information.
- NY12: Educational History including GPA, VTAC Personal Statement (All), Interview (Some), Work experience (All). See extra requirements for more information.

SEAS is considered.

**Extra requirements:**
- VTAC Personal Statement (CY12-All, NY12-All): All applicants must complete and submit a VTAC Personal Statement detailing experience in basic accounting.
- Interview (CY12-Some, NY12-Some): Some applicants will be contacted for an interview.
- Work experience (NY12-All): NY12 applicants with relevant work experience must include the details on your VTAC Personal Statement.

---

**Building and Construction (VET)**

**Box Hill Institute of TAFE**

Elgar: 5100251014 (Fee type determined by provider) full-time  **Apply:** Through VTAC main round

- Diploma of Building and Construction (Building): 2 years full time study

**About the course:** The Diploma of Building and Construction (Building) provides an educational basis and practical training for a career at middle management level within the building and construction industry, specifically medium-building businesses. The program provides para-professional skills and knowledge needed to plan and coordinate the construction of medium-rise residential and commercial buildings, with subjects including monitoring, costing systems, scheduling, contractor selection, managing risk and quality assurance.

Box Hill Institute offers opportunities for building design students to participate in international study tours to Canada, USA and Singapore offering valued experience in a variety of locations.

**Major studies:** Building, Building (construction methods), Building (estimating), Building (law), Building (surveying), Building (technology), Building codes and standards (medium rise).

**Prerequisites:** None

**Middle-band:** None

**Selection Mode:**
- CY12: ATAR, Supplementary form (All). See extra requirements for more information.
- NY12: Educational History including GPA, Supplementary form (All), other. See extra requirements for more information.

SEAS is considered.

**Extra requirements:**
- Supplementary form (CY12-All, NY12-All): All applicants must complete and submit the Box Hill Supplementary form by no later than 31 October. To obtain a copy of the form telephone Lisa Muller on 03 9286 9205.

SUCCESSFUL APPLICANTS - Laptop requirements: Students are required to provide their own laptop for this course. Details of minimum laptop requirements are available on our website at www.bhtafe.edu.au/courses/local
Building Design (VET)

Box Hill Institute of TAFE
Elgar:5100251034 (Fee type determined by provider) full-time  Apply: Through VTAC  main round

- Advanced Diploma of Building Design (Architectural): 2 years full time study

About the course: The Advanced Diploma of Building Design (Architectural) is delivered over 2.5 years and provides participants with para-professional skills and knowledge needed for the design and CAD drafting of residential, industrial and commercial buildings. The course is delivered through integrated projects using a variety of digital applications providing real work simulated experiences. Box Hill Institute offers opportunities for building design students to participate in international study tours to Canada, USA and Singapore, offering valued experience in a variety of locations.

Major studies: Architecture, Building, Building (construction methods), Building (design), Building (technology), Computer-aided drafting (CAD).

Prerequisites: None

Middle-band: None

Selection Mode: CY12 : ATAR, Supplementary form (All). See extra requirements for more information.
NY12 : Educational History including GPA, Supplementary form (All), other. See extra requirements for more information.
SEAS is considered.

Extra requirements:
Supplementary form (CY12-All, NY12-All) : All applicants must complete and submit the Box Hill Supplementary form by no later than 31 October. To obtain a copy of the form telephone Lisa Muller on 03 9286 9205.
SUCCESSFUL APPLICANTS - Laptop requirements: Students are required to provide their own laptop for this course. Details of minimum laptop requirements are available on our website at www.bhtafe.edu.au/courses/local/Pages/ABD04.aspx.

Business (VET)

Box Hill Institute of TAFE
Elgar:5100251194 (Fee type determined by provider) full-time  Apply: Through VTAC  main round

- Certificate IV in Business: 0.5 year full time study
- Diploma of Business: 1 year full time study

About the course: You will learn essential business skills which will provide you the opportunity to gain employment at entry or mid-range levels within a vast range for industries or progress to further study. Generic business skills will also be developed. A practical approach is taken to assessment, with students participating in either a simulated work environment or practical placement.

These courses may provide you with employment opportunities as an administrator or project officer. Relevant job titles include administrative officer, marketing or sales assistant, project officer, executive officer, program consultant or program coordinator.

Prerequisites: None

Middle-band: None
Selection Mode: CY12 : ATAR.
NY12 : Educational History including GPA, VTAC Personal Statement (All), Work experience (All). See extra requirements for more information.
SEAS is considered.

Extra requirements:
VTAC Personal Statement (NY12-All) : All NY12 applicants must complete a VTAC Personal Statement.
Work experience (NY12-All) : NY12 applicants with relevant work experience must include the details on your VTAC Personal Statement.

Children's Services (Early Childhood Education and Care) (VET)

Box Hill Institute of TAFE
Elgar:5100251314 (Fee type determined by provider) full-time    Apply: Through VTAC main round

- Diploma of Children's Services (Early Childhood Education and Care): 2 years full time study

About the course: This course will give you the ability to design and implement engaging programs for infants to pre-school aged children in a range of children services including long, occasional or family day care, pre-schools, kindergartens, and early intervention services. You learn about children's social emotional and psychological development, how to work with families and meet service requirements.

The course is designed to provide you with opportunities to practice what you have learnt through continuous industry experience. The Diploma in Children’s Services ECE&C incorporates the Certificate III in Children’s Services. Students will be required to enrol in the Certificate III and complete all prerequisite competencies before commencing the next level. At the completion of the Certificate III units will be an opportunity for employment in the industry, and option to undertake training in the evenings, one or two nights per week.

Applicants are encouraged to attend one of the information sessions held at Elgar Campus, Building 3, Level 4 Room 04 (E3.404) at 465 Elgar Rd Box Hill:
Tuesday 17 September 6-8pm
Tuesday 14 November 6-8pm
Tuesday 17 December 6-8pm

Major studies: Child care, Childhood development, Early childhood education, Family and diversity, Health studies, Legislation, Play and curriculum studies, Professional practice and reflection, Professional theory, Program planning.

Prerequisites: None

Middle-band: None

Selection Mode: CY12 : ATAR, Supplementary form (All). See extra requirements for more information.
NY12 : Educational History including GPA, Supplementary form (All). See extra requirements for more information.
SEAS is considered.

Extra requirements:
Supplementary form (CY12-All, NY12-All) : All applicants must complete a supplementary form. A copy of the form is available from www.bhtafe.edu.au/HACS. The form must be submitted by 27 September or 11 November (late applicants) or 21 December (very late and change of preference applicants).

Commerce (Applied) (HE)

Box Hill Institute of TAFE
Elgar:5100251302 (DFP) full-time/part-time    Apply: Through VTAC main round

• Associate Degree in Commerce (Applied): 2 years full time study
• Bachelor of Commerce (Applied): 3 years full time study

About the course: Graduates will have the opportunity to gain essential practical business focused capabilities and skills that make them job ready. You will be developed into a commerce graduate who can competently use technology, technical skills and business knowledge to support ways of thinking, working and living in a rapidly evolving global workplace. Graduate decision-making in commerce is supported by student choice of major streams of Accounting or International Business. Subjects provide skills in marketing, law, finance, accounting, management, economics, communication, strategy, and statistics. The focus is on graduate employability and competitive advantage with all subjects relevant, practical, functional, industry-informed, and engaging. Graduates of the Bachelor of Commerce (Applied) could find positions in public and private sectors with specializations in accounting and finance, management, auditing, taxation and international trade. CPA Australia and Institute of Chartered Accountants accredited.

Major studies: Accounting and International Business.

Prerequisites: Units 3 and 4; a study score of at least 20 in any English.

Middle-band: None

Selection Mode: CY12 : ATAR.

NY12 : Educational History including GPA, VTAC Personal Statement (All), Interview (Some), Work experience (Some). See extra requirements for more information.

SEAS is considered.

Extra requirements:

VTAC Personal Statement (NY12-All) : NY12 applicants must complete and submit a VTAC Personal Statement providing evidence of an ability to successfully complete the course.

Interview (NY12-Some) : NY12 applicants required to attend an interview will be contacted prior to 29 November. Interview will take place in the week commencing 2 December.

Work experience (NY12-Some) : NY12 applicants with relevant work experience must include the details on your VTAC Personal Statement.

---

Commercial Cookery (VET)

Box Hill Institute of TAFE

Elgar:5100251874 (Fee type determined by provider) full-time  Apply: Through VTAC  main round

• Diploma of Hospitality: 2 years full time study

About the course: The pathway to the Diploma will incorporate the Certificate III (or competencies from these qualifications). This 2 year course enables students to develop the practical skills necessary to become a commercial chef, as well as management skills. On completion students may elect to do an Advanced Diploma of Hospitality Management (6 months). Students complete a range of operational and managerial subjects that focus on kitchen operations, customer service, financial management and people management. The key focus is on practical learning and assessment tasks. Students use their workplace and growing industry knowledge as a basis for project based assessment. The Institute has a number of international partners that provide students with opportunities to study overseas.

Major studies: Cookery, Customer service, Financial management, Food handling, Food quality management, Kitchen operations, People management.

Prerequisites: None

Middle-band: None

Selection Mode: CY12 : ATAR.

NY12 : Educational History including GPA, VTAC Personal Statement (All). See extra requirements for more information.

SEAS is considered.
Extra requirements:
VTAC Personal Statement (NY12-All) : All NY12 applicants must complete a VTAC Personal Statement.

Computer Systems (VET)

Box Hill Institute of TAFE
Nelson: 5100351344 (Fee type determined by provider) full-time  Apply: Through VTAC  main round

- Certificate IV in Computer Systems Technology: 1 year full time study
- Advanced Diploma of Computer Systems Technology: 2 years full time study

About the course: Certificate IV has been developed for employment involving the installation of computer equipment, computer networks, operating systems and computer networks. This course leads into the second year of the Advanced Diploma of Computer Systems Technology. The Advanced Diploma provides students with high level training in the management of computer systems and networks, Internet and intranet infrastructure, design, and programming. It provides the opportunity to gain knowledge and skills towards numerous industry certifications that are highly valued by employers. This course develops complex testing and evaluation capability, develops hands-on skills in Cisco Certified Network Associate, Wireless LANs, Call Manager, Cisco Security, Microsoft certification, VmWare, Citrix, ITIL, Linux Administration and Apple client and server. The structure of the programs may change due to revision of the training package. Preference will be given to applicants with a Certificate III level in IT.

An information session will be held on November 11, 2013 for the Centre of Information and Communication Technologies. For details, applicants can telephone 03 9286 9830.

Prerequisites: None

Middle-band: None

NY12 : Educational History including GPA, VTAC Personal Statement (All). See extra requirements for more information.
SEAS is considered.

Extra requirements:
VTAC Personal Statement (CY12-All, NY12-All) : All applicants must complete and submit a VTAC Personal Statement.

Computer Systems (Networking) (HE)

Box Hill Institute of TAFE
Nelson: 5100351092 (DFP) full-time/part-time  Apply: Through VTAC  main round

- Associate Degree in Computer Systems (Networking): 2 years full time study
- Bachelor of Computer Systems (Networking): 3 years full time study

About the course: This is a three year degree heavily focused on networking. It draws on fundamental studies in computer hardware and software, networking, operating systems, network security, emerging computer technologies, programming for web applications, business and communication skills and entrepreneurship and innovations skills. Virtualisation is a new developing area which is included. This program is intended to produce adaptable graduates who are as comfortable presenting ideas in the boardroom as they are in the workshop.
As Box Hill Institute is a Cisco Training Centre for AsiaPac the course may lead to certifications in Cisco (CCNA and CCNP). It may also lead to other certifications such as CompTIA, Linux LPI, Microsoft (MCTS), VMWare VCP and Oracle OCA. There are 24 subjects in total, including 22 core subjects and 2 final year electives. In the final year of study students will undertake one industry based project and one network design project.

An information session will be held on November 11, 2013 for the Centre of Information and Communication Technologies. For details, applicants can telephone 03 9286 9830.

**Major studies:** Business management and industry practices, Communication systems, Computer hardware, Database and information retrieval, Emerging technologies, Entrepreneurship and innovation, Industrial project, Internetworking, Mathematics, Network design, Network security, Object-oriented programming, Operating systems, Virtualisation, Wireless network security.

**Prerequisites:** Units 3 and 4: a study score of at least 20 in any English; and a study score of at least 20 in any Mathematics.

**Middle-band:** Satisfactory completion in Chemistry, any Information Technology, any Mathematics or Physics is considered in addition to prerequisites met.

**Selection Mode:**
- CY12: ATAR and middle-band, VTAC Personal Statement (All), Interview (All). See extra requirements for more information.
- NY12: Educational History including GPA, VTAC Personal Statement (All), Interview (All). See extra requirements for more information.
- SEAS is considered.

**Extra requirements:**
- VTAC Personal Statement (CY12-All, NY12-All): All applicants must complete and submit a VTAC Personal Statement.
- Interview (CY12-All, NY12-All): All applicants must call 03 9286 9830 to book by 12 November.

---

### Computer Systems (pre-Bachelor) (VET)

**Box Hill Institute of TAFE**

Nelson: 5100352242 (DFP) full-time/part-time  
**Apply:** Through VTAC main round

- Diploma of Computer Systems: 1 year full time study

**About the course:** The Diploma of Computer Systems aims to produce graduates who will be employed in the computer systems industry in diverse areas such as networking, computer systems, systems analysis, database and programming. Networking based on Cisco Academy courseware is a major component of the course, while elective choices will allow graduates to improve their skills in selected areas. The course directly articulates into the second year of the Bachelor of Computer Systems (Networking) at Box Hill, and into the second year of degrees at several universities.

An information session will be held on November 11, 2013 for the Centre of Information and Communication Technologies. For details, applicants can telephone 03 9286 9830.

**Major studies:** Database, Electives, Networks, Programming, Routing switching and WAN, System analysis.

**Prerequisites:** Units 3 and 4: a study score of at least 20 in any English; and a study score of at least 20 in any Mathematics.

**Middle-band:** None

**Selection Mode:**
- CY12: ATAR, Interview (All). See extra requirements for more information.
- NY12: Educational History including GPA, Interview (All). See extra requirements for more information.
- SEAS is considered.

**Extra requirements:**
- Interview (CY12-All, NY12-All): All applicants must call 03 9286 9830 to book by 12 November.
Dance Teaching and Management (VET)

Box Hill Institute of TAFE

Whitehorse: 5100451104 (Fee type determined by provider) full-time  Apply: Through VTAC  main round

- Diploma of Dance (Teaching and Management): 2 years full time study

About the course: Prepares dancers for a teaching profession in the private sector. The course is suited to those who are perhaps already teaching in their local dance school and are seeking a qualification. The course is designed to cover three main areas: dance styles (including ballet, jazz and contemporary), dance teaching especially with young children, and small business management, particularly related to running dance schools and productions. Particular emphasis is placed on preparation for studio teaching and students should expect an equal distribution of effort across dance, business management and teaching skills. This course incorporates foundation skills from Certificate IV in Dance (Teaching & Management)

Major studies: Anatomy, Childhood development, Choreography, Dance, Dance teaching, Kinesiology, Management, Physiology, Practical dance in three styles, Production planning, Small business management.

Prerequisites: None

Middle-band: None

Selection Mode: CY12: Supplementary form (All), Interview (All), Audition (All). See extra requirements for more information.

NY12: VTAC Personal Statement (All), Supplementary form (All), Interview (All), Audition (All). See extra requirements for more information.

SEAS is considered.

Extra requirements:

VTAC Personal Statement (NY12-All): NONY12 applicants must complete and submit a VTAC Personal History online including details of relevant employment or evidence of ability to successfully complete the course.

Supplementary form (CY12-All, NY12-All): All applicants must complete and submit the Supplementary information form by 25 October. To obtain a copy of the form go to www.bhtafe.edu.au/CI or email creativeindustries@boxhill.edu.au or telephone (03) 9286 9746

Interview (CY12-All, NY12-All): After the supplementary form is submitted applicants will be contacted to arrange a date and time for interview in November. An information pack will be mailed to applicants to assist with their preparation for the interview, audition, folio and test. A $35.00 fee for each interview applies.

Audition (CY12-All, NY12-All)

Design (VET)

Box Hill Institute of TAFE

Whitehorse: 5100451934 (Fee type determined by provider) full-time  Apply: Through VTAC  main round

- Certificate IV in Design: 1 year full time study

About the course: This one year course provides the opportunity to develop and enhance skills in graphic art, graphic design, industrial design, product design, and related design studies. It will focus on design concepts, and selection of the appropriate techniques and media to communicate ideas. Graphic design techniques, drawing, colour application, typography, design history, 2D and 3D design, digital drawing and digital production are covered in this course. Folio information session on September 16th.

Major studies: 2D Design, Colour theory, Creative thinking, Design (3D), Design history, Design process, Design theory, Drawing, Graphic design, Illustration, Typography.

Prerequisites: None

Middle-band: None
Selection Mode: CY12: Supplementary form (All), Folio (All), Interview (All). See extra requirements for more information.

NY12: Supplementary form (All), Folio (All), Interview (All). See extra requirements for more information.

SEAS is considered.

Extra requirements:

Supplementary form (CY12-All, NY12-All): All applicants must complete and submit the Supplementary information form by 25 October. To obtain a copy of the form go to [www.bhtafe.edu.au/CI](http://www.bhtafe.edu.au/CI) or email creativeindustries@boxhill.edu.au or telephone (03) 9286 9746

Folio (CY12-All, NY12-All)

Interview (CY12-All, NY12-All): All applicants are required to attend an interview. Interviews will be held in late November and early December. Applicants will present a folio at interview containing work demonstrating concept development.

---

**Disability (VET)**

**Box Hill Institute of TAFE**

Elgar: 5100251334 (Fee type determined by provider) full-time   **Apply:** Through VTAC main round

- Certificate IV in Disability: 1 year full time study

**About the course:** This course will improve your prospects of finding direct care roles with people with disabilities in residential or community settings.

You will develop skills for disability support workers to work in residential group homes, day respite centres, open employment services, and client homes. Studies cover a broad range of disabilities including physical, sensory, and intellectual.

You will receive an introduction to disability work and learn how to provide services and empower people with disabilities. You will develop your communication, advocacy and networking skills, and learn how to support older people with disabilities.

Applicants are encouraged to attend information sessions at the Elgar Campus on 19 September (5-6:30pm) or 31 October (5-6:30pm), located at Building 3, Level 3 Room 13 (E3.313).

**Major studies:** Advocacy, Assessment, Case management, Client Assessment, Client services, Communication skills, Community services, Disability care, Disability studies, Health and safety, Interpersonal skills, Teaching and learning.

**Prerequisites:** None

**Middle-band:** None

**Selection Mode:** CY12: ATAR, Supplementary form (All), Information kit (All). See extra requirements for more information.

NY12: Educational History including GPA, Supplementary form (All), Information kit (All). See extra requirements for more information.

SEAS is considered.

**Extra requirements:**

Supplementary form (CY12-All, NY12-All): All applicants must complete a supplementary form. A copy of the form is available from [www.bhtafe.edu.au/HACS](http://www.bhtafe.edu.au/HACS). The form must be submitted by 27 September or 11 November (late applicants) or 21 December (very late and change of preference applicants).

Information kit (CY12-All, NY12-All): An information kit is available to all applicants. To obtain the kit telephone (03) 9286 9106 or email hacs@bhtafe.edu.au with your name, contact number, course code and postal address.

---

**Engineering-Civil (VET)**
Box Hill Institute of TAFE
Elgar:5100251414 (Fee type determined by provider) full-time  Apply: Through VTAC main round

- Diploma of Engineering Technology: 1 year full time study
- Advanced Diploma of Engineering Technology: 2 years full time study

About the course: Prepares students for a range of para-professional occupations in the civil/structural engineering field. The course is designed to provide students with the knowledge and skills to apply engineering and scientific principles to civil/structural engineering applications. They will be able to assist in managing projects, analyse, diagnose, design and execute judgments with respect to civil engineering activities. A general knowledge in mathematics to a Year 11 standard is preferable but not essential.

The qualification comprises core competencies and a selection of electives. Possible job outcomes include: Civil draftsman, Laboratory technician, Research assistant, Construction supervisor, Urban planning assistant.

Major studies: Civil design, Civil drafting, Computer-aided drafting (CAD), Computing, Construction, Engineering (civil materials), Engineering (civil), Engineering (environmental), Engineering (measurement), Engineering (road drawing), Engineering (structural analysis and design), Engineering (survey), Management, Project management, Structural design, Structural drafting.

Prerequisites: None

Middle-band: None

Selection Mode: CY12 : ATAR, Interview (Some). See extra requirements for more information.
NY12 : Educational History including GPA, Interview (Some). See extra requirements for more information.
SEAS is considered.

Extra requirements:
Interview (CY12-Some, NY12-Some) : Applicants required for the interview or test will be contacted by telephone or mail in December for attendance in January 2014.

Engineering-Mechanical/Manufacturing (VET)

Box Hill Institute of TAFE
Elgar:5100251444 (Fee type determined by provider) full-time  Apply: Through VTAC main round

- Diploma of Engineering Technology: 1 year full time study
- Advanced Diploma of Engineering Technology: 2 years full time study

About the course: These courses provide students with the knowledge and skills to apply engineering and scientific principles to mechanical and manufacturing engineering applications. They will be able to analyse, diagnose, design and execute judgements with respect to mechanical and manufacturing engineering activities. A general knowledge in mathematics at Year 11 standard is preferable but not essential. Possible job outcomes include: Mechanical draftsman, Mechanical Designer, Production supervisor, Engineering technician.

Major studies: Computer-aided design (CAD), Computer-aided drafting (CAD), Design (engineering systems), Design (mechanical machines), Design (tooling), Drafting, Engineering (energy and heat), Engineering (fluid power), Engineering (manufacturing), Engineering (materials), Engineering (mechanical), Engineering (metallurgical), Engineering (process engineering), Engineering mathematics, Engineering principles, Industrial engineering, Machine dynamics, Manufacturing processes, Mechanical design, Mechanics (applied).

Prerequisites: None

Middle-band: None

Selection Mode: CY12 : ATAR, Interview (Some). See extra requirements for more information.
NY12 : Educational History including GPA, Interview (Some). See extra requirements for more information.
SEAS is considered.
### Extra requirements:

- **Interview (CY12-Some, NY12-Some)**: Applicants required for the interview will be contacted by telephone or mail in December/January for attendance in January 2014.

---

**Fashion Design (VET)**

**Box Hill Institute of TAFE**

*Whitehorse: 5100451714 (Fee type determined by provider) full-time*  

text: Apply: **Through VTAC** main round

- Diploma of Applied Fashion Design and Technology: 2 years full time study
- Advanced Diploma of Applied Fashion Design and Technology: 2 years full time study

**About the course**: This two year course, comprising the Diploma and Advanced Diploma, focuses on developing skills in design, advanced pattern making, production, quality control and knowledge of all operations of the Australian and global fashion industry. The Advanced Diploma specifically provides high-level skills in managing the fashion design process and evaluating commercial designs. It also provides opportunities to refine pattern making skills using specialist methodologies, swimwear and lingerie design and construction, manage design and product development processes, and fashion design systems. Students also have numerous opportunities to participate in industry based design projects and competitions as well as undertake extensive work experience with high profile fashion companies. Delivery of this course includes a combination of classroom/workshop, industry placement and/or workplace and work-based training and assessment. Folio information session on September 16th.

**Major studies**: Fabric technology, Fashion (design concepts), Fashion (design), Fashion (illustration), Fashion (pattern grading), Marketing research, Marketing strategy, Product development, Production planning.

**Prerequisites**: None

**Middle-band**: None

**Selection Mode**: CY12: Supplementary form (All), Folio (All), Interview (All). See extra requirements for more information.

NY12: Supplementary form (All), Folio (All), Interview (All). See extra requirements for more information.

SEAS is considered.

**Extra requirements**:

- Supplementary form (CY12-All, NY12-All): All applicants must complete and submit the Supplementary information form by 25 October. To obtain a copy of the form go to www.bhtafe.edu.au/CI or email creativeindustries@boxhill.edu.au or telephone (03) 9286 9746

- Folio (CY12-All, NY12-All): Interviews will be held in late-November and early-December. Applicants will present a folio at interview containing work demonstrating concept development and ability to work with design briefs, as well as 1-2 garments showing creativity and technical skills.

**Interview (CY12-All, NY12-All)**

---

**Fashion Design (Degree) (HE)**

**Box Hill Institute of TAFE**

*Whitehorse: 5100451822 (DFP) full-time*  

text: Apply: **Through VTAC** main round

- Bachelor of Fashion: 3 years full time study

**About the course**: This course covers the technical and creative knowledge required to be responsive and responsible fashion designers of the future. It explores fashion theory, the elements and principles of design, garment and pattern construction and their application in the industry combined with fashion business studies. The challenges of sustainable design and global sourcing are included in this course. Students use industry specific software programs for design realization. The technicalities of bespoke garment construction and mass production are combined with knowledge of fabric and refined pattern construction methodologies to provide a deeper understanding of how style, shape and structure combine to create fashion. In the final year, students explore the theme of entrepreneurship and innovation. They will undertake a major design project focusing on a showcase...
collection. Students also have the opportunity to undertake a workplace internship in the final semester.

**Major studies:** Bespoke and mass manufacturing, Business planning, Design foundations, Design history, Design influences and concepts (textiles), Design principles, Design process, Entrepreneurship and Innovation, Garment construction techniques, Global Market, Internship, Managing production flow, Marketing, Pattern-making, Special Events Management.

**Prerequisites:** Units 3 and 4: a study score of at least 20 in any English; and a study score of at least 30 in one of Product Design And Technology, Studio Arts or Visual Communication Design.

**Middle-band:** None

**Selection Mode:** CY12 : Supplementary form (All), Folio (All). See extra requirements for more information.  
NY12 : Supplementary form (All), Folio (All). See extra requirements for more information.

**SEAS is considered.**

**Extra requirements:**  
Supplementary form (CY12-All, NY12-All) : All applicants must complete and submit the Supplementary information form by 25 October. To obtain a copy of the form go to www.bhtafe.edu.au/CI or email creativeindustries@boxhill.edu.au or telephone (03) 9286 9746  
Folio (CY12-All, NY12-All) : Interviews will be held in late November and early December. Applicants will present a folio at interview containing work demonstrating concept development, working with design briefs and evaluation as well as 2-4 garments showing creativity and technical skills.

---

**Fitness (VET)**

**Box Hill Institute of TAFE**

Whitehorse: 5100451474 (Fee type determined by provider) full-time  
Apply: Through VTAC main round

- Certificate IV in Fitness: 0.5 year full time study

**About the course:** This course develops instructional and fitness-specific skills to develop fitness with a variety of clients, as a personal trainer, leading exercise in a community venue, working with challenging clients or with medical professionals in rehabilitation. Upon completion of the program students will be eligible for registration with key industry bodies including Fitness Australia and Physical Activity Australia. This course has a work experience focus and equips students with the necessary business and fitness skills to work. Articulation to the Diploma of Sport (Development) with advanced standing is possible for all students. Certificate III is also included and must be completed before commencing the Certificate IV. Students will have a genuine interest in personal fitness and be familiar with standard gym. It is recommended that applicants attend an information session on 13 November. For details, email j.gillard@boxhill.edu.au.

**Major studies:** Anatomy and physiology, Exercise physiology, First aid, Fitness, Nutrition and exercise, Personal training, Rehabilitation, Sports (science).

**Prerequisites:** None

**Middle-band:** None

**Selection Mode:** CY12 : ATAR.  
NY12 : Educational History including GPA.  
SEAS is considered.

**Extra requirements:** None

---

**Graphic Design (VET)**

**Box Hill Institute of TAFE**

---
Whitehorse: 5100451114 (Fee type determined by provider) full-time  
Apply: Through VTAC  
main round

- Advanced Diploma of Graphic Design: 2 years full-time study

**About the course:** The Advanced Diploma of Graphic Design is a 2 year course that incorporates the Diploma of Graphic Design and the Certificate IV in Design. This course addresses the specific knowledge and skills to work as a Graphic Designer. The study areas include design principles and elements, development of technical drawings and digital images, illustration and design for print and web environments. This course is designed to develop skills in applying the design process when responding to briefs, developing basic design concepts and gaining an understanding of graphics prepress. The course also covers sustainable work practices and developing finished art. Students also have numerous opportunities to participate in competitions as well as undertake extensive work experience with design companies. Delivery of this course includes a combination of classroom/workshop, industry placement and/or workplace and work-based training and assessment. Folio information session on September 16.

**Major studies:** Advanced Digital Production, Design History and Practices, Design theory (2D), Design theory (3D), Digital Production (Advanced), Illustration, Interactive interface design, Practical placement, Project management, Studio Practice, Web design, Web Design, Work placement.

**Prerequisites:** None

**Middle-band:** None

**Selection Mode:** 
CY12: Supplementary form (All), Folio (All). See extra requirements for more information.

NY12: Supplementary form (All), Folio (All). See extra requirements for more information.

SEAS is considered.

**Extra requirements:**
Supplementary form (CY12-All, NY12-All): All applicants must complete and submit the Supplementary information form by 25 October. To obtain a copy of the form go to www.bhtafe.edu.au/C1 or email creativeindustries@boxhill.edu.au or telephone (03) 9286 9746

Folio (CY12-All, NY12-All): Interviews will be held in late November and early December. Applicants will present a folio at interview containing work demonstrating concept development.

---

**Hospitality (VET)**

**Box Hill Institute of TAFE**

Elgar: 5100251574 (Fee type determined by provider) full-time  
Apply: Through VTAC  
main round

- Certificate IV in Hospitality: 0.5 year full-time study
- Diploma of Hospitality: 1 year full-time study

**About the course:** This course is a 12 month practical course. Students develop skills undertaking extensive practical experience in the Institute's restaurant bar and barista for operational roles in the hospitality industry. The Diploma is designed to give students the skills to work in supervisory and management roles in the hospitality industry. Students complete a range of operational and managerial subjects that focus on hotel operations, financial and people management. Students use their workplace and growing industry knowledge as a basis for project based assessment. The Institute has a number of international partners, providing students the opportunity to study overseas.

The course allows for a pathway into the Bachelor of Hospitality Management; optional Degree units are delivered within this course duration providing additional credits to the Degree program. On completion students may elect to do to undertake the Bachelor of Hospitality Management.

**Major studies:** Budgeting, Business (accounting), Customer service, Food and beverage knowledge, Food and beverage service, Food handling, Food safety and regulation, Hospitality management, Hospitality operations and management, Inventory control, Leadership, Marketing, Occupational health and safety, People management, Restaurant operations.

**Prerequisites:** None

**Middle-band:** None
**Selection Mode:** CY12 : ATAR.
NY12 : Educational History including GPA, VTAC Personal Statement (All). See extra requirements for more information.
SEAS is considered.

**Extra requirements:**
VTAC Personal Statement (NY12-All) : All NY12 applicants must complete a VTAC Personal Statement.

---

**Hospitality Management (Degree) (HE)**

**Box Hill Institute of TAFE**

Elgar:5100251512 (DFP) full-time/part-time  
Apply: Through VTAC  main round

- Associate Degree in Hospitality Management: 2 years full time study
- Bachelor of Hospitality Management: 3 years full time study

**About the course:** This three year course develops the theoretical and practical skills necessary for managerial roles in the dynamic hospitality industry. It prepares graduates for work in a variety of organisations including hotels, resorts, conference and convention centres.

Students are required to complete a common core of business and management subjects, specialist hospitality and event subjects and hospitality electives, where they are encouraged to apply theory to practical contexts. For Associate Degree students, upon successful completion of the two-year course, students may be permitted to transfer to the Bachelor of Hospitality Management. Third year includes extensive project management work enabling students to apply their learning to practical contexts.

**Major studies:** Financial management, Hospitality management, Human resource management, Marketing.

**Prerequisites:** Units 3 and 4: a study score of at least 20 in any English.

**Middle-band:** None

**Selection Mode:** CY12 : ATAR.
NY12 : Educational History including GPA, VTAC Personal Statement (All), Work experience (All). See extra requirements for more information.
SEAS is considered.

**Extra requirements:**
VTAC Personal Statement (NY12-All) : All NY12 applicants must complete a VTAC Personal Statement and include evidence of ability to successfully complete the course.
Work experience (NY12-All) : NY12 applicants with relevant work experience must include this on their VTAC Personal Statement.

---

**Information Technology (VET)**

**Box Hill Institute of TAFE**

Nelson:5100351324 (Fee type determined by provider) full-time  
Apply: Through VTAC  main round

- Certificate IV in Information Technology: 1 year full time study

**About the course:** The Certificate IV provides foundation skills for the Diploma of IT. It includes a broad range of topics such as introductory programming, computer networks, operating systems, hardware maintenance, web page design, server configuration, business communication, technical documentation and training towards Microsoft and Cisco (CCNA) certifications. This qualification provides the foundation that allows students to stream into networking, systems administration or programming in their second stage of studies, leading to relevant Diploma level qualifications.

An information session will be held on November 11, 2013 for the Centre of Information and Communication.
Technologies. For details, applicants can telephone 03 9286 9830.

**Major studies:** Computer hardware, Content management systems, Database design and management, Information systems management, Information technology, Interface design, IT (client support), Mobile applications development, Multimedia, Network management and network systems, Programming, Project management, Software applications, Systems design and development, Systems software, Systems testing, Technical support, Virtualisation, Web development.

**Prerequisites:** None

**Middle-band:** None

**Selection Mode:** CY12 : ATAR, VTAC Personal Statement (All). See extra requirements for more information. NY12 : Educational History including GPA, VTAC Personal Statement (All). See extra requirements for more information.

SEAS is considered.

**Extra requirements:**
VTAC Personal Statement (CY12-All, NY12-All) : All applicants must complete and submit a VTAC Personal Statement.

**Information Technology (Database Design and Development) (VET)**

**Box Hill Institute of TAFE**

Nelson: 5100351184 (Fee type determined by provider) full-time  

**Apply:** Through VTAC

- Diploma of information technology (database Design and Development): 2 years full time study

**About the course:** This course provides realistic practical training with a focus on design and construction of Oracle databases and database access programming, Microsoft Visual Studio and Java, and the utilisation of technology such as VB.NET and Java GUI applications. Gathering information to identify business requirements, translating business needs into appropriate table designs are key features. Industry standard vendor certification in Oracle is also available. The course incorporates the Certificate IV in Information Technology. Students may be required to enrol in the Certificate IV to complete all prerequisite competencies before commencing the Diploma level.

Please note that the content may change due to new releases of the Training Package.

An information session will be held on November 11, 2013 for the Centre of Information and Communication Technologies. For details, applicants can telephone 03 9286 9830.

**Major studies:** Content management systems, Database connectivity, Database design and implementation, Database programming, Databases, Networking, Networks, Object-orientated programming, Programming, Programming (.NET), Programming (Java), Project Management, Software applications, Software development, Software engineering, Software systems, System analysis and design, Systems process improvement, Systems software, Systems testing, Web applications programming, Web design, Web development.

**Prerequisites:** None

**Middle-band:** None

**Selection Mode:** CY12 : ATAR, VTAC Personal Statement (All). See extra requirements for more information. NY12 : Educational History including GPA, VTAC Personal Statement (All). See extra requirements for more information.

SEAS is considered.

**Extra requirements:**
VTAC Personal Statement (CY12-All, NY12-All) : All applicants must complete and submit a VTAC Personal Statement.
Information Technology (Network Security) (VET)

Box Hill Institute of TAFE
Nelson: 5100351224 (Fee type determined by provider) full-time  Apply: Through VTAC main round

- Advanced Diploma of Information Technology (Network Security): 2.5 years full time study

About the course: The Advanced Diploma of information technology (Network Security) incorporates the Diploma of Information technology (Networking). The qualifications provide high level ICT, E-security and business skills and knowledge to enable graduates to be effective in senior security roles within organisations. Students may be required to enrol in the Diploma to complete all prerequisite competencies before commencing the next level.

An information session will be held on November 11, 2013 for the Centre of Information and Communication Technologies. For details, applicants can telephone 03 9286 9830.

Major studies: Encryption technologies, Network administration, Network security, Operating systems, Project management, Risk analysis and management, Security and management, System security and controls.

Prerequisites: None

Middle-band: None

NY12: Educational History including GPA, VTAC Personal Statement (All). See extra requirements for more information.
SEAS is considered.

Extra requirements:
VTAC Personal Statement (CY12-All, NY12-All): All applicants must complete and submit a VTAC Personal Statement.

Information Technology (Networking) (VET)

Box Hill Institute of TAFE
Nelson: 5100351164 (Fee type determined by provider) full-time  Apply: Through VTAC main round

- Diploma of Information Technology (Networking): 2 years full time study

About the course: This course focuses on the provision of practical training to build and manage network systems in a business environment. It involves systems administration training and introduces networking concepts. ICT topics such as Microsoft and Linux operating systems, security, project management, databases and programming are covered. Installation and management of complex networks, building Internet infrastructure and management of system security are a feature, as well as preparing disaster recovery and contingency plans, translating business needs into technical requirements and managing complex projects. Training towards industry standard vendor certification in Microsoft and Cisco (CCNA) are also available. This course incorporates the Certificate IV in Information Technology. Students may be required to enrol in the Certificate IV to complete all prerequisite competencies before commencing the Diploma level.

An information session will be held on November 11, 2013 for the Centre of Information and Communication Technologies. For details, applicants can telephone 03 9286 9830.

Prerequisites: None

Middle-band: None
NY12 : Educational History including GPA, VTAC Personal Statement (All). See extra requirements for more information.
SEAS is considered.

Extra requirements:
VTAC Personal Statement (CY12-All, NY12-All) : All applicants must complete and submit a VTAC Personal Statement.

Information Technology (Software Development) (VET)

Box Hill Institute of TAFE
Nelson:5100351234 (Fee type determined by provider) full-time  Apply: Through VTAC main round

- Diploma of Information Technology (Software Development): 2 years full time study

About the course: This course provides realistic practical training with a focus on programming for commercial strength databases, Microsoft Visual Studio and Java, and the utilisation of technology such as VB.Net and Java GUI applications. Gathering information to identify business requirements, translating business needs into technical requirements and building software using rapid application development are a key feature. The course incorporates the Certificate IV in Information Technology. Students may be required to enrol in the Certificate IV to complete all prerequisite competencies before commencing the Diploma level study.

An information session will be held on November 11, 2013 for the Centre of Information and Communication Technologies. For details, applicants can telephone 03 9286 9830.

Major studies: Content management systems, Database connectivity, Database design and implementation, Database programming, Databases, Games programming, Human resource management, Networking, Networks, Object-oriented programming, Programming, Programming (.NET), Programming (Java), Project management, Software applications, Software development, Software engineering, Software systems, System analysis and design, Systems process improvement, Systems software, Systems testing, Web applications programming, Web design, Web development.

Prerequisites: None

Middle-band: None

NY12 : Educational History including GPA, VTAC Personal Statement (All). See extra requirements for more information.
SEAS is considered.

Extra requirements:
VTAC Personal Statement (CY12-All, NY12-All) : All applicants must complete and submit a VTAC Personal Statement.

Information Technology (Systems Administration) (VET)

Box Hill Institute of TAFE
Nelson:5100351254 (Fee type determined by provider) full-time  Apply: Through VTAC main round

- Diploma of Information Technology (Systems Administration): 2 years full time study

About the course: These courses have been developed with industry assistance to provide skills for the management and maintenance of computer systems. This offering provides practical training to build and manage network systems in a business environment, and focuses on the introduction of networking concepts, Microsoft and Linux operating systems, system testing, security, project management, databases and programming. Management of complex projects, preparation of disaster recovery and contingency plans and the support of system software are
also included. Training towards industry standard vendor certification in Microsoft and Cisco (CCNA) is also available as part of this offering. This course incorporates the Certificate IV in Information Technology. Students may be required to enrol in the Certificate IV to complete all prerequisite competencies before commencing Diploma level study.

An information session will be held on November 11, 2013 for the Centre of Information and Communication Technologies. For details, applicants can telephone 03 9286 9830.

Middle-band: None

NY12 : Educational History including GPA, VTAC Personal Statement (All). See extra requirements for more information.

SEAS is considered.

Extra requirements:

VTAC Personal Statement (CY12-All, NY12-All) : All applicants must complete and submit a VTAC Personal Statement.

Information Technology (Website Development) (VET)

Box Hill Institute of TAFE

Nelson:5100351614 (Fee type determined by provider) full-time  Apply: Through VTAC main round

- Diploma of Information Technology (Website Development): 2 years full time study

About the course: These courses have been developed with industry assistance to provide skills in website design and development, site performance, database integration, implementation and acceptance testing. This course provides practical training in website development and computer applications programming. It focuses on programming for industrial strength databases, Microsoft Visual Studio and Java, and as well as technologies such as ASP.NET (C#) Java web applications (JSPs and servlets) and PHP. The development of essential communication skills, management of complex projects, and the design of dynamic web pages are also included.

An information session will be held on November 11, 2013 for the Centre of Information and Communication Technologies. For details, applicants can telephone 03 9286 9830.

Major studies: Content management systems, Database design and development, Databases, E-business, Encryption technologies, Project management, Web applications programming, Website design and strategies, Website development, Website security.

Prerequisites: None

Middle-band: None

NY12 : Educational History including GPA, VTAC Personal Statement (All). See extra requirements for more information.

SEAS is considered.

Extra requirements:

VTAC Personal Statement (CY12-All, NY12-All) : All applicants must complete and submit a VTAC Personal Statement.
Interactive and Digital Games (VET)

Box Hill Institute of TAFE

Nelson: 510032254 (Fee type determined by provider) full-time  Apply: Through VTAC main round

- Certificate IV in Digital and Interactive Games: 1 year full time study

About the course: This course allows students to work in the programming and art streams - both distinctly different disciplines. This unique approach gives each student first hand insight into each discipline and what is required to succeed in this exciting industry.

Students undertaking this course will study 2 core areas: Art and Programming. Art: Starting with simple low polygon models, students will develop a wide range of game assets, including props, environments, vehicles and games characters utilizing industry standard 3D software to design and animate their creations. Programming: Students will develop an understanding of in-game objects and how to manipulate the game environment. This allows the students to see how objects in games relate to each other and a broader understanding of how to build fully functional games featuring collision detection, physical interactions with game objects, re-spawning characters and 'death' through game interactions.

An information session will be held on November 11, 2013 for the Centre of Information and Communication Technologies. For details, applicants can telephone 03 9286 9830.

Major studies: 3D Modelling and Animation, Game programming, Project Management.

Prerequisites: None

Middle-band: None

Selection Mode: CY12 : ATAR, VTAC Personal Statement (All), See extra requirements for more information.
NY12 : Educational History including GPA, VTAC Personal Statement (All). See extra requirements for more information.
SEAS is considered.

Extra requirements:
VTAC Personal Statement (CY12-All, NY12-All) : All applicants must complete and submit a VTAC Personal Statement.

Interior Design and Decoration (VET)

Box Hill Institute of TAFE

Whitehorse: 5100451554 (Fee type determined by provider) full-time  Apply: Through VTAC main round

- Diploma of Interior Design and Decoration: 1.5 year full time study

About the course: This course provides for the development of skills and aptitudes required for the creation of interior spaces to industry standards. It deals with the development of complete decorative schemes for the effective use of residential and commercial or institutional interior spaces, working with a client brief and within project parameters. There is a particular emphasis on the aesthetic application of furnishings, finishes to meet the form, function and efficiency of the space using environmentally sustainable methods. Folio information session on September 16.

Prerequisites: None

Middle-band: None

Selection Mode: CY12 : Supplementary form (All), Folio (All), Interview (All). See extra requirements for more information.
NY12: Supplementary form (All), Folio (All), Interview (All). See extra requirements for more information.

SEAS is considered.

**Extra requirements:**

Supplementary form (CY12-All, NY12-All): All applicants must complete and submit the Supplementary information form by 25 October. To obtain a copy of the form go to [www.bhtafe.edu.au/CI](http://www.bhtafe.edu.au/CI) or email creatieveindustries@boxhill.edu.au or telephone (03) 9286 9746

Folio (CY12-All, NY12-All)

Interview (CY12-All, NY12-All): Interviews will be held in late November and early December. Applicants will present a folio at interview containing work demonstrating concept.

## Laboratory Technology (VET)

**Box Hill Institute of TAFE**

Elgar: 5100251024 (Fee type determined by provider) full-time **Apply:** Through VTAC main round

- Diploma of Laboratory Technology: 2 years full time study

**About the course:** Provides broad based vocational training for technical officers, analysts and other job roles in biotechnology, biological and environmental testing, medical research, diagnostic pathology or other scientific laboratories; or chemical analysis and testing. Comprises of core units considered essential for all technical officers plus testing, sampling and technical electives relevant to specialisation. This course is a nationally accredited course and was developed with industry input.

Students undertaking the Diploma of Laboratory Technology at Box Hill Institute will focus on developing skills related to molecular biology (recombinant DNA technologies), microbiology, chemical testing and tissue culture. The use of scientific instrumentation in modern laboratories encourages a practical hands-on experience for small groups of students. Students will undertake work placement in the second year of the course. Please see [www.boxhill.edu.au](http://www.boxhill.edu.au) for further information.

**Major studies:** Biochemistry, Biological testing, Biotechnology, Chemical testing, Electrophoresis, Environmental and Chemical testing, Histology, Laboratory Technology, Microbiology, Molecular Biology, Occupational Health and Safety, Pathology Testing.

**Prerequisites:** None

**Middle-band:** None

**Selection Mode:** CY12: ATAR, VTAC Personal Statement (All). See extra requirements for more information.

NY12: Educational History including GPA, VTAC Personal Statement (All), Interview (Some). See extra requirements for more information.

SEAS is considered.

**Extra requirements:**

Interview (NY12-Some): Details of the interview will be provided by telephone or mail by early-December. Applicants contacted must attend in December.

## Library Information and Cultural Services (VET)

**Box Hill Institute of TAFE**

Nelson: 5100351804 (Fee type determined by provider) full-time **Apply:** Through VTAC main round

- Certificate III in Information and Cultural Services: 1 year full time study
- Certificate IV in Library Information and Cultural Services: 1 year full time study
- Diploma of Library and Information Services: 1.5 year full time study
About the course: Study library and information services for a dynamic and challenging career. Courses prepare students for a range of work in technical and customer service positions in the library and information industry. Certificate III is an entry pathway leading to work in a variety of environments while the Certificate IV and Diploma focus on the Library and Information industry. The Certificate IV develops practical skills in reference work, database searching, IT and providing quality customer service. The Diploma will extend technical library skills, develop team, leadership and IT skills, teaches how to train small groups, and plan and deliver activities and events. Work placement is provided at each year level of the course. A strong emphasis is placed on developing skills in working with people.

Completing a Diploma qualifies students for Library Technician membership with the Australian Library and Information Association.

An information session will be held on November 11, 2013 for the Center of Information and Communication Technologies. For details, applicants can telephone 03 9286 9830.

Major studies: Cataloguing and classification, Customer Service, Information systems management, Occupational health and safety, Organising library materials, Research skills, Social Media Tools.

Prerequisites: None

Middle-band: None

NY12 : Educational History including GPA, VTAC Personal Statement (All). See extra requirements for more information.
SEAS is considered.

Extra requirements:
VTAC Personal Statement (CY12-All, NY12-All) : All applicants must complete and submit a VTAC Personal Statement.

Live Production, Theatre and Events (VET)

Box Hill Institute of TAFE

Whitehorse:5100451064 (Fee type determined by provider) full-time Apply: Through VTAC main round

- Diploma of Live Production, Theatre and Events (Technical Production): 1 year full time study

About the course: Prepares students to work as technical operators in specialist areas in a range of live entertainment fields such as theatre, corporate and major events. Students will undertake studies in Theatrical Lighting, Sound and Stage Management. Students work in teams on projects, real events and complete a substantial practical work placement component in a range of industries. Develop your professional profile through industry placements that will expose you to potential employment opportunities in many forms of live theatre, film, trade shows, exhibitions, concerts and events. Past graduates are successfully employed with key events organisations.

Major studies: Lighting, OHS, Sound, Stage management, Theatre (theatre technology).

Prerequisites: None

Middle-band: None

Selection Mode: CY12 : VTAC Personal Statement (All), Supplementary form (All), Interview (All). See extra requirements for more information.
NY12 : VTAC Personal Statement (All), Supplementary form (All), Interview (All). See extra requirements for more information.
SEAS is considered.

Extra requirements:
VTAC Personal Statement (CY12-All, NY12-All) : NONY12 Applicants must also complete and submit a VTAC Personal History online including details of relevant employment or evidence of ability to successfully complete the course.
Supplementary form (CY12-All, NY12-All) : All applicants must complete and submit the Supplementary information form by 25 October. To obtain a copy of the form go to www.bhtafe.edu.au/CI or email creativeindustries@boxhill.edu.au or telephone (03) 9286 9746

Interview (CY12-All, NY12-All) : Applicants will be contacted by Box Hill to arrange a date and time for interview in November. An information pack will be supplied to applicants to assist with their preparation for the interview, audition, folio and test.Refer to www.bhtafe.edu.au/courses/CI/Pages/auditions-interviews.aspx for further information.

Management (VET)

Box Hill Institute of TAFE

Elgar:5100251914 (Fee type determined by provider) full-time Apply: Through VTAC main round

- Certificate IV in Business: 0.5 year full time study
- Diploma of Business: 1 year full time study
- Advanced Diploma of Management: 1.5 year full time study

About the course: You will learn essential business skills which will provide you the opportunity to gain employment at entry or mid-range levels within a vast range for industries or progress to further study. Generic business skills will also be developed. A practical approach is taken to assessment with students participating in either a simulated work environment or practical placement

These courses may provide you with employment opportunities as an administrator, project officer supervisory or management roles. Relevant job titles include administrative officer, marketing or sales assistant, project officer, executive officer, program consultant or program coordinator or other supervisor or manager.

Possible entry into the Bachelor of Commerce (Applied) with some advanced standing is an option for all Advanced Diploma graduates.

Extra requirements:

Supplementary form (CY12-All, NY12-All) : All applicants must complete and submit a supplementary form by 28 September or 11 November (late applicants) or 21 December (very late or change of preference). To obtain the form go to www.bhtafe.edu.au/HACS
Charles Sturt University (CSU) is a national university with an international reputation for excellence. As a university for the professions, CSU prides itself on providing practical hands on courses developed in collaboration with industry representatives. Our professional placement opportunities available in all courses result in highly sought after, employment-ready graduates.

CSU has specialised teaching facilities such as industry standard radio and television studio, podiatry and nutrition clinics, audiometry and exercise physiology laboratories.

CSU has an extensive network of campuses located across NSW and the ACT, offering a unique study experience. With more than 38,000 students, CSU is the largest inland university in Australia. Lower cost of living, clean air, an increased sense of safety, and a wide range of services and activities are just some of the advantages of living in our cities.

The Albury-Wodonga campus is situated on 84 hectares and is serviced by public transport and is only a ten minute drive from the Albury city centre. On campus student accommodation is comfortable and affordable, and the lifestyle is relaxed and friendly. Students experience small class sizes, easy access to staff and support services, and excellent facilities such as computer centres, networked libraries and state of the art laboratories.

Admissions is normally based on ATAR or equivalent. Students may also be admitted on the basis of strong subject performance in subjects that are relevant to the course they wish to study. Applicants should check the extra requirements in the Course entries for additional entry requirements.

The University will admit applicants to an undergraduate course, subject to a place being available, if it believes they have reasonable prospect of completing the course. In determining students prospects of success, CSU will consider previous studies and/or other attainments as evidenced by test results and GPA. CSU will also consider relevant experience as outlined in the Pi form. Examples of these attainments and experience include:

- Grade Point Average from previous tertiary studies
- Competitive results in the Special Tertiary Admissions Test (STAT Multiple Choice), Scholastic Aptitude Test (SAT), or the General Achievement Test (GAT)
- Performance in exams conducted by professional bodies
- Nursing qualifications gained by hospital-based training
- Vocational experience closely related to the course you wish to study
- Voluntary or paid work experience

All applicants must meet the English Language Proficiency Requirements of the University to be eligible for an offer. These requirements can be found at http://www.csu.edu.au/apply/english-language-proficiency

Campus tours

CSUs open day every day campus tour program lets students take a personalised tour of a CSU campus at a time that suits them, any working day of the year*. Prospective students will be guided around the campus by a current student who will show them on campus.
accommodation options, student amenities, learning facilities and more. *Three working days notice is required for booking. For more information: www.csu.edu.au/oncampus/campus-life/tour

Principles of selection

The University will admit applicants to an undergraduate course, subject to a place being available, if it believes they have a reasonable prospect of completing the course. In determining applicants prospects of success in the course, CSU will consider previous studies and/or other attainments and experience. For additional selection criteria please refer to the individual course descriptions. Charles Sturt University will consider GAT results as part of middle band selection.

Policy on the use of prerequisite studies

The prerequisites for Education (Early Childhood and Primary) and Education (K-12) are in place to satisfy the NSW and Victorian Teaching Institutes. Applicants who do not meet prerequisites but still have a relevant ATAR may be considered for an offer. The course structure for Education (Early Childhood and Primary) and Education (K-12) allows for additional study to be completed to meet the requirements of the NSW Institute of Teachers and the Victorian Institute of Teaching.

Extra requirement policies

Applicants who are required to supply any additional information will be required to demonstrate a range of attributes, e.g. personal motivation, relevant work and voluntary experience, previous study and an understanding of the course and potential employment opportunities. Refer to extra requirements under each course entry for further information.

Admissions tests

Non-Standard Year 12 - Applicants may be required to sit a STAT Multiple Choice for all courses (excluding Physiotherapy) if they are currently studying a non-standard Year 12 qualification, e.g. Waldorf class 12, Accelerated Christian School, Foundation Year Program. A student's STAT result will help to assess their likelihood of success at university. For more information on STAT, telephone: 1800 334 733.

Special consideration

Special Entry Access Scheme (SEAS)

Charles Sturt University gives special consideration for current Year 12 students who have experienced short-term disadvantage impacting their Year 12 results. Disadvantages include: disrupted schooling; financial hardship; home environment (including excessive family responsibilities / care of self); English language difficulties; personal illness, disability or death of family member / close friend; refugee status; and disruptions to school environment. Applicants applying to CSU via VTAC are encouraged to apply under SEAS if they are from a non-English speaking background, have experienced difficult circumstances, suffered financial disadvantage, live or study in a rural or isolated area; have been disadvantaged as a result of disability, medical condition or illness. An alternative program called Darrambal is offered for students from an Indigenous background. For more information: www.csu.edu.au/oncampus/getting-to-uni/special-consideration

Regional bonus

Under the University's Regional Bonus Scheme (RBS)
students are eligible for an automatic increase of 5 ATAR points if they are a current Year 12 student attending a school or a TAFE in regional Australia or a Non-Year 12 applicant living in regional Australia. For more information: www.csu.edu.au/oncampus/getting-to-uni/regional-bonus

Scholarships

Charles Sturt University recognises that accessing tertiary education can be an expensive undertaking and in response, offers a comprehensive range of equity and merit scholarships across courses at all levels for commencing and continuing students. We are committed to increasing access to higher education for students who are experiencing economic, social or geographical disadvantages by offering a broad range of Equity Scholarships. For more information: www.csu.edu.au/scholarships

Institutional Access and Equity Scholarships

Charles Sturt University accepts Australian citizens, holders of an Australian permanent residency visa, and people with a Humanitarian visa. Will not accept New Zealand citizens and holders of an Australian / temporary student residency visa. Other special consideration and bonus schemes include: CSU Regional Bonus Points scheme, CSU Special Consideration for Admission, CSU Special Consideration for Admission for Elite Athletes and CSU Darrambal Skills Assessment Program (Indigenous Students). For more information: www.csu.edu.au/distance-education/getting-to-uni

Credit transfer, pathways and recognition of prior learning

Credit transfer

When students apply to study at CSU, they may be eligible to receive credit (or recognition of prior learning) for previous study and/or work experience. Depending on the credit that is awarded, students may be able to complete their chosen course in less time, and at a lesser cost. For more information: www.csu.edu.au/apply/credit

Pathways - Diploma of General Studies

CSU's Diploma of General Studies is a pathway program that provides guaranteed entry to many CSU courses, providing a wide range of opportunities and choices to graduates. For more information: www.csu.edu.au/courses/undergraduate/general_studies

Pathways - TAFE

TAFE is an excellent pathway to university. CSU highly values students from TAFE and has developed many options to support and encourage students to further their study at university. For more information: www.csu.edu.au/for/tafe-students

Student services

CSU offers a range of services for students including student counselling, learning skills, sporting clubs, student committees and representation. CSU also provides health information, equity and diversity support, scholarships and loans, disability services, student insurance, academic advice (extensions, appeals etc.) and spiritual support. There are dedicated Indigenous Student Support centres in Albury-Wodonga, Bathurst, Dubbo and Wagga Wagga. Students on other campuses or distance education students can access information and support by phone or email. For more information: www.csu.edu.au/division/studserv

STUDYLINK
CSU's STUDY LINK program will kick-start students' studies and prepare them for success at university. STUDY LINK subjects are available to future students seeking to gain or renew skills and knowledge in areas like essay writing, study skills, online learning, mathematics, physics and chemistry and will also help students to understand the expectations of tertiary study. STUDY LINK subjects are short, self-paced subjects and are free for Commonwealth supported students, so if students haven't studied for a while or just want to brush up on their skills STUDY LINK is perfect for them. For more information: www.csu.edu.au/student/studylink

Internet access

At Charles Sturt University it is assumed that all students have computer access to the internet as the online environment is now integrated into all aspects of student life and the learning experience. Internet access is available at computer centres on each campus.

Applying for accommodation

CSU offers a range of affordable accommodation options to suit the lifestyle and budget of students, including catered and self-catered residences. CSU's Albury-Wodonga Campus offers eco-friendly semi-catered accommodation in a park-like environment. With single, fully furnished bedrooms with private telephone and internet access, CSU offers a range of affordable accommodation to suit the lifestyle and budget of students.

For more information: www.csu.edu.au/oncampus/accommodation

Further information

The University prospectus and course brochures are available free of charge via any of the contacts listed in the beginning of this section. Visit the CSU website at www.csu.edu.au. Call 1800 334 733 for more information on courses or to speak to a Course Coordinator, or find additional information on the online course brochure on the University's website at www.csu.edu.au/courses and the CSU Handbook at www.csu.edu.au/handbook

Bachelor of Computing Studies (Business): 3 years full time study

About the course: Provides students with knowledge and skills in information technology and prepares students for leadership in computing and business careers. This course has Australian Computer Society accreditation at the highest professional level. The course combines first, second and third year core Business and Information Technology subjects with a major in one of the following areas: Software Design and Development, Network Engineering, Systems Administration and Online Systems.

Major studies: Business and technical communications, Business computing, Business strategy, Database design and management, Information security, Network engineering, Organisations and management, Systems analysis.

Prerequisites: None

Middle-band: None

NY12 : Educational History including GPA, VTAC Personal Statement (All), STAT (All). See extra requirements for more information.

SEAS is considered.

Extra requirements:

VTAC Personal Statement (CY12-All, NY12-All) : Applicants must complete and submit the VTAC Personal Statement.

STAT (NY12-All) : Non-standard Year 12 applicants are required to sit the STAT Multiple Choice (see Admissions tests).

---

Bachelor of Education (Early Childhood and Primary): 4 years full time study

About the course: Prepares students to teach in a wide range of settings with preschool and primary age children (birth - 12 yrs). Career opportunities: Teaching in government and non-government primary schools, preschools, childcare centres and other children's services in Australia and overseas. Professional recognition: Meets national accreditation requirements for a four year trained early childhood/primary teacher and the Australian Institute for Teaching and School Leadership (AITSL) professional standards for teachers. Accreditation will also be sought from the Australian Children's Education and Care Quality Authority (ACECQA). Practical experience: Extensive professional experience teaching in a variety of primary schools, preschools, childcare centres and other children's services in rural, regional and/or urban settings. Students are given the option of concurrently enrolling in a Graduate Certificate of their choice in areas such as Classroom Technology, Child and Family Services, Indigenous Education, Inclusive Education, Literacy, Literacy and Numeracy (Early Years) or Numeracy. Course duration: Standard progression involves four calendar years and uses all three sessions. Alternatively study can be undertaken over five calendar years using only two sessions (Sessions 1 and 2). Entry requirements: Where students do not meet prerequisite requirements, CSU offers concurrent study in English and Maths.
**Major studies:** Teaching (early childhood), Teaching (primary).

**Prerequisites:** Units 1 and 2: satisfactory completion in two units (any study combination) of General Mathematics or Mathematical Methods or Units 3 and 4: any Mathematics; and a study score of at least 30 in any English.

**Middle-band:** None

**Selection Mode:** CY12 : ATAR, VTAC Personal Statement (All), Work experience (All), English language test (All). See extra requirements for more information.

NY12 : Educational History including GPA, VTAC Personal Statement (All), STAT (All), Work experience (All), English language test (All). See extra requirements for more information.

SEAS is considered.

**Extra requirements:**

VTAC Personal Statement (CY12-All, NY12-All) : Applicants must complete and submit the VTAC Personal Statement.

STAT (NY12-All) : Non-standard Year 12 applicants are required to sit the STAT Multiple Choice (see Admissions tests).

Work experience (CY12-All, NY12-All) : Details of work experience must be included on the VTAC Personal Statement.

English language test (CY12-All, NY12-All)

(Minimum scores required for IELTS academic are Speaking=7.5, Writing=6.5, Reading=6.5, Listening=7.5.)

- Bachelor of Health and Rehabilitation Science: 3 years full time study

About the course: Provides a foundation for those wishing to pursue a career in a range of health fields. Graduates will have a diversity of skills and knowledge in health and rehabilitation leading to employment in both the public and private sector. Clinical experience: This course will include a practical experience component.

This degree provides a pathway to graduate entry courses in health disciplines (e.g., Medicine, Physiotherapy, Podiatry, Occupational Therapy and Speech Pathology). Students may choose to exit from the course with the University Certificate in Health and Rehabilitation Science or Associate Degree in Health and Rehabilitation Science. Career opportunities: This course serves a range of career pathways, including inter-professional positions that support allied health professionals in private and public health facilities and in organisations that serve people with disabilities, and working with community rehabilitation service providers. Additional information: Travel, accommodation and related expenses for practical placements are the responsibility of the student. Credit packages may be available for students who have completed AQF approved Certificate IV qualifications in certain health areas.

Major studies: Health sciences, Human biology, Rehabilitation.

Prerequisites: None

Middle-band: None

Selection Mode: CY12: ATAR.
NY12: Educational History including GPA, STAT (All). See extra requirements for more information.

STAT (NY12-All) : Non-standard Year 12 applicants are required to sit the STAT Multiple Choice (see Admissions tests).

Oral Health (Therapy/Hygiene) (HE)

Charles Sturt University
Holmesglen (Chadstone): 1300213211 (CSP) full-time Apply: Through VTAC main round
Holmesglen (Chadstone): 1300213213 (IFP) full-time Apply: Through VTAC

- Bachelor of Oral Health (Therapy/Hygiene): 3 years full time study

About the course: As a graduate of CSU's Bachelor of Oral Health (Therapy/Hygiene), you will contribute to combating the chronic shortage and increasing demand for oral health professionals Australia-wide, while also significantly impacting the health of our local communities. Students will undertake intense clinical practice sessions using state-of-the-art simulation and clinic equipment in new purpose-built facilities in Melbourne and Wagga Wagga. Students will be required to attend external clinical placements in their third year. Professional recognition: This degree has been accredited by the Australian Dental Council as a new program. Career opportunities: clinical practice in dental hygiene or dental therapy, public dental services, dental and health administration, education, industry or university-based research and consumer advocacy.

Prerequisites: None

Middle-band: None

Selection Mode: CY12 : ATAR.
NY12 : Educational History including GPA.
SEAS is considered.

- Bachelor of Applied Science (Parks, Recreation and Heritage): 3 years full time study

About the course: Our program provides you with the in-depth knowledge and skills required to manage Australia's National Reserve System, including how to conserve these unique landscapes and the plants and animals they contain for future generations. Graduates are employed by park agencies and in local governments as park rangers, wildlife officers undertaking specific wildlife conservation programs, interpretive officers conducting outdoor education programs or as specialists in cultural and Indigenous heritage. A number of graduates are also employed by local governments to manage parks, grounds and ovals. Practical experience: Six weeks professional experience in a national park or related industry. There are many opportunities to participate in voluntary and paid field expeditions across Australia and overseas.

Bachelor of Physiotherapy: 4 years full time study

About the course: The Bachelor of Physiotherapy qualifies students for professional registration and to practice as physiotherapists. Students graduate with the knowledge to formulate physiotherapeutic diagnoses and provide appropriate programs of therapeutic exercise and treatments to those primarily with physical conditions. Studies in behavioural and biomedical science, as well as clinical experience will prepare you for employment as entry-level physiotherapists in a variety of health care settings, such as hospitals, community health centres, rehabilitation centres, and private practices. Practical experience: Approximately 1,000 hours of supervised clinical practice in a range of rural and metropolitan settings. Professional recognition: The course has full accreditation with the Australian Physiotherapy Council (APC). Graduates are eligible to register and work throughout Australia and internationally. Additional information: Travel, accommodation and related expenses are the responsibility of the students.

Major studies: Behavioural science, Biomedical science, Physiotherapy.

Prerequisites: None

• Bachelor of Podiatry: 4 years full time study

About the course: Qualifies students for professional registration as podiatrists. The course has a strong emphasis on the clinical practices associated with podiatry and this is complemented with studies in anatomy, physiology, biomechanics, diagnostic imaging, health promotion and the social sciences. Practical experience: Students will be required to complete over 1,000 hours of clinical practice in a range of health and community settings, including the on campus podiatry clinic where students treat patients directly. Types of patients seen include those with sports injuries, paediatrics, high risk patients and older adults. Professional recognition: Course approved by all Australian and New Zealand podiatry registration boards. This qualification allows graduates to apply for S4 drug rights in Victoria and NSW and is also recognised in the UK. Career opportunities: Private practice, hospital, community services, rehabilitation, sporting clubs, research and footwear consultancy.

Major studies: Anatomy, Biomechanics, Footware design, Health sciences, High risk foot care, Physiology, Podiatry, Podiatry medicine, Sports medicine.

Prerequisites: None

Middle-band: None
Selection Mode: CY12 : ATAR, VTAC Personal Statement (All), Work experience (All). See extra requirements for more information.

- Bachelor of Health Science (Speech Pathology): 4 years full time study

About the course: CSU's course qualifies students for professional practice as speech pathologists. This program focuses on the assessment, diagnosis and treatment / rehabilitation of human communication disorders, e.g. speech and hearing, voice, language, fluency and swallowing disorders. Linguistics, biomedical sciences and theoretical subjects provide a base on which to build the knowledge and skills for speech pathology practice. Basic and clinical sciences also provide an understanding of human communication. This knowledge is then applied to diagnostics, treatment planning and intervention in a variety of contexts for individuals of all ages with communication and swallowing disorders. Students are also required to participate in clinical training with clients. The opportunity to gain real life experience begins in the first year of the course through participation in a community engagement project, and clinical training continues through each year of the course.

Major studies: Behavioural science, Biomedical science, Communications, Linguistics.

Prerequisites: None

Middle-band: None

Selection Mode: CY12 : ATAR, VTAC Personal Statement (All), Work experience (All). See extra requirements for more information.

NY12 : Educational History including GPA, VTAC Personal Statement (All), STAT (All), Work experience (All). See extra requirements for more information.

SEAS is considered.

Extra requirements:

VTAC Personal Statement (CY12-All, NY12-All) : Applicants must complete and submit the VTAC Personal Statement.

STAT (NY12-All) : Non-standard Year 12 applicants are required to sit the STAT Multiple Choice (see Admissions tests).

Work experience (CY12-All, NY12-All) : Details of work experience must be included on the VTAC Personal Statement. This includes details of any relevant experience in education, disability, health, learning languages and
previous studies.
By choosing to study at Chisholm, you'll be giving your career the best possible chance of success.

From certificates to degrees, our courses are nationally accredited and recognised by industry throughout Australia. Choose from six campuses - Bass Coast, Berwick, Cranbourne, Dandenong, Frankston and Mornington Peninsula.

Our trainers are award-winning, practising professionals who maintain a solid understanding of changes in the industry and advancements in technology. This ensures your skills are current and in demand by employers.

We offer a broad range of programs including VCAL, VCE, certificates, diplomas, bachelor degrees and graduate certificates. Small class sizes mean you get personal attention and individual assessment of your progress.

Many of our courses give you experience in the workplace, simulated workplace training and the opportunity to participate in leading industry events, competitions and exhibitions where you can network with industry. All of our courses are developed with industry consultation and assistance.

We have modern training facilities at Bass Coast, Berwick, Cranbourne, Dandenong, Frankston and Mornington Peninsula as well as other facilities in Melbourne CBD and Dandenong CBD.

Part-time and mid-year applications are not required through VTAC. For more information, check the Chisholm website at chisholm.edu.au or contact us on: 1300 244 746, email enquiries@chisholm.edu.au.

Credit transfer, pathways and recognition of prior learning

Get credit for skills you already have

Our Recognition of Prior Learning (RPL) assessment process evaluates your existing skills, knowledge and experience against recognised qualifications. This means that you could be granted a full or part qualification. For more information: www.chisholm.edu.au/skillsrecognition

Chisholm’s Pathway Guarantee

The Chisholm Pathway Guarantee means you’re guaranteed a pathway into any other Chisholm qualification after you graduate. It also applies if you want to move from a Chisholm qualification to our partner universities or institutes where we have an articulation arrangement (entry requirements must be met). For more information: www.chisholm.edu.au/pathways

Special consideration

Special Entry Access Scheme (SEAS)

Chisholm is committed to realising the full learning potential of each student. Applications will be considered in conjunction with other nominated criteria to determine eligibility for course entry.

Fees

We have a range of options to assist students in paying course fees. These include VET FEE-HELP, FEE-HELP, staged payment plans and scholarships. For more information: www.chisholm.edu.au/fees
Scholarships

The Caroline Chisholm Education Foundation offers scholarships that provide financial assistance for fees and associated study costs to students who are facing financial hardship. For more information: www.carolinechisholm.org.au

Services

Learning and Support Services

At Chisholm, we are committed to providing a diverse range of learning and support programs and supportive one-on-one confidential services to enable you to maximise your potential. We offer careers and employment services, access to 'myJobs' - our online employment website, learning skills support, personal counselling and assistance for students with disabilities. For more information: www.chisholm.edu.au/studentservices

Disability Support

Disability support assists students with diagnosed disabilities to access a full range of educational opportunities. For more information: www.chisholm.edu.au/studentservices

Koorie services

The Koorie Liaison Unit offers specialised support for Indigenous students, from course enrolment to completion. Support includes course advice and information, study and cultural support, ABSTUDY assistance, and advocacy for most academic matters. For more information: www.chisholm.edu.au/studentservices

Accounting (VET)

- Certificate IV in Accounting: 6 months full time study
- Diploma of Accounting: 1 year full time study
- Advanced Diploma of Accounting: 1.5 year full time study

About the course: Certificate IV, Diploma and Advanced Diploma provides students with the knowledge and skills to work as bookkeepers/account clerks. The Diploma provides students with training in accounting skills to become qualified as assistant accountants. Advanced Diploma provides vocational training in advanced accounting skills to become qualified in the accounting field. The pathway to the Diploma of Accounting includes competencies from the Certificate IV in Financial Accounting. Facilities are modern and blended learning models apply throughout the course. Graduates will be academically qualified to seek professional membership into the Institute of Public Accountants and qualify for Tax Agent registration and BAS agent registration after completing the required work experience. This course has industry affiliations with the Association of Accounting Technicians Australia and the Institute of Public Accountants. This is a pathways program. You will be enrolled in the lowest level qualification and will progress, subject to satisfactory academic progress to the higher qualification levels. The pathway to the Bachelor of Accounting degree offered at Chisholm is a partnership between Chisholm and La Trobe University. This three year degree program combines a first year TAFE qualification with a further two years to complete the university qualification.

Major studies: Accounting, Accounting (small business), Auditing, Bookkeeping, Company accounting, Computer accounting, Financial accounting, Law (taxation), Management (financial), Taxation and auditing.

Prerequisites: None

Middle-band: None
**Selection Mode:** CY12 : ATAR.
NY12 : Educational History including GPA.

Frankston: 5700458334 (Fee type determined by provider) full-time  
Apply: Through VTAC main round

- Diploma of Beauty Therapy: 2 years full time study

**About the course:** Provides students with the initial vocational training in the beauty therapy field. Includes integrated salon placement. Incorporates customer service and retail skills in addition to technical skills and knowledge required in beauty therapy. Beauty therapy studies equips graduates with a range of advanced facial and body treatments, including the specialist electives of permanent epilation and spa therapies. It is recommended applicants attend an intake session at Berwick campus, Building A, Auditorium, 6.00 pm 16 October, or Frankston campus, Building A, Auditorium, Room A215, 6.00 pm 15 October.

**Major studies:** Anatomy and physiology, Apply safe work practices, Aromatherapy, Biology, Body massage, Business relationships, Chemistry (cosmetic), Communications, Customer service, Facial treatments, Indian head massage, Lymph drainage massage, Maintain infection control, Make-up, Manicure and pedicare,
Building and Construction (VET)

### Chisholm Institute

**Frankston:** 5700458014 (Fee type determined by provider) full-time  
Apply: [Through VTAC](http://www.wss8.vtac.edu.au/courses-inst/institutions/topdf/chisholm.html) main round

- Diploma of Building and Construction (Building): 2 years full time study

**About the course:** The Diploma of Building and Construction (Building) provides an educational basis and practical training for a career at middle management level within the building and construction industry, specifically commercial-building businesses. The program provides para-professional skills and knowledge needed to plan and coordinate construction of medium-rise commercial buildings including monitoring, costing systems, scheduling, contractor selection, managing risk and quality assurance. This course is suitable for students completing VCE, mature age students, qualified trades people and practicing building designers wishing to upgrade their qualifications.

**Major studies:** Building codes and standards (medium rise), Building contract administration, Building regulations, Building surveying, Building technology, Commercial building construction methods, Contracts and tenders.

**Prerequisites:** None

**Middle-band:** None

**Selection Mode:** CY12 : ATAR, Interview (Some). See extra requirements for more information.

NY12 : Educational History including GPA, VTAC Personal Statement (All), Interview (Some). See extra requirements for more information.

SEAS is considered.

**Extra requirements:**

VTAC Personal Statement (NY12-All) : NY12 applicants must complete and submit a VTAC Personal Statement.

Interview (CY12-All, NY12-All) : Some applicants are required to attend an interview in November/December (December/January, late applicants). Applicants required to attend will be contacted by telephone or mail by 14 December.

Building Design (VET)

### Chisholm Institute

**Frankston:** 5700458304 (Fee type determined by provider) full-time  
Apply: [Through VTAC](http://www.wss8.vtac.edu.au/courses-inst/institutions/topdf/chisholm.html) main round

- Advanced Diploma of Building Design (Architectural): 2.5 years full time study

**About the course:** The Advanced Diploma of Building Design (Architectural) is designed for students who wish to gain expertise in the field of building design. The program focuses on the application of architectural principles to the design and construction of buildings. Students will develop skills in design, documentation, and the integration of technology in the building industry. This course is suitable for students with a background in architecture or related fields who wish to advance their professional qualifications.

**Prerequisites:** None

**Middle-band:** None

**Selection Mode:** CY12 : ATAR, Interview (Some). See extra requirements for more information.

NY12 : Educational History including GPA, VTAC Personal Statement (All), Interview (Some). See extra requirements for more information.

SEAS is considered.

**Extra requirements:**

VTAC Personal Statement (NY12-All) : NY12 applicants must complete and submit a VTAC Personal Statement.

Interview (CY12-All, NY12-All) : Some applicants are required to attend an interview in November/December (December/January, late applicants). Applicants required to attend will be contacted by telephone or mail by 14 December.
**About the course:** Provides participants with para-professional skills and knowledge needed for the design and CAD drafting of residential, industrial and commercial buildings. This course focuses on sustainable design, building information, modelling and the use of digital applications in a project based environment. This course is suitable for students completing VCE, mature age students, qualified trades people and practicing building designers wishing to upgrade their qualifications.

**Major studies:** 3D modelling and digital applications, Architectural administration, Architecture, Building codes and standards (low rise and medium rise), Building construction methods, Building practice, Building technology, Business planning, Computer-aided drafting (CAD), Construction technology, Design information, Materials selection including for bushfire, Safe building design.

**Prerequisites:** None

**Middle-band:** None

**Selection Mode:** CY12 : ATAR, Interview (Some). See extra requirements for more information.

NY12 : Educational History including GPA, VTAC Personal Statement (All), Interview (Some). See extra requirements for more information.

SEAS is considered.

**Creative Product Development (VET)**

**Chisholm Institute**

Frankston: 5700458544 (Fee type determined by provider) full-time  
Apply: Through VTAC main round

- Advanced Diploma of Creative Product Development: 1 year full time study

**About the course:** This broad based visual art, illustration and design course appeals to graduates from art and design diploma courses interested in extending areas of expertise into an independent practice based year with emphasis on improving practical, conceptual and research skills. At the centre of this course is a creative project driven by the student. Students will propose, plan, make and present their creative project in an industry level forum for assessment by a panel of educational and industry professionals. The course provides access to specialist classrooms, drawing classes, specialist workshops, the visiting artist program and a number of contributions from industry professionals with specific skills relevant to the Advanced Diploma. Students will be guided and mentored via personal and group tutorials and informal exchanges of ideas in an environment of creative endeavour, collegiate familiarity and mutual support. The program will encourage interaction and exchange across a range of creative disciplines.

**Major studies:** Applied drawing, Critical enquiry, Develop the project, Independent studio practice, Present the project, Research the concept.

**Prerequisites:** None

**Middle-band:** None

**Selection Mode:** CY12 : ATAR, VTAC Personal Statement (All), Folio (All). See extra requirements for more information.

NY12 : Educational History including GPA, VTAC Personal Statement (All), Folio (All). See extra requirements for more information.

SEAS is considered.

**Extra requirements:**

VTAC Personal Statement (CY12-All, NY12-All) : All applicants must complete and submit a VTAC Personal Statement.

Folio (CY12-All, NY12-All) : All applicants must attend a folio presentation with a brief outline of their creative project proposal in November/December. Telephone (03)9238 8216 in October to book and obtain further information.
Digital Media Technologies Game Development (Digital Media Technologies/Information Technology) (VET)

Chisholm Institute
Dandenong: 5700354364 (Fee type determined by provider) full-time  
Apply: Through VTAC main round

- Certificate IV in Information Technology: 1 year full time study
- Certificate IV in Digital Media Technologies: 1 year full time study
- Diploma of Digital Media Technologies: 1 year full time study

About the course: This course has been developed with industry assistance to provide a broad range of skills required for entry into the interactive digital media and 3D games development industry. The course provides knowledge for an individual to be competent in supporting the design, development and programming of 3D games and other digital media as part of a larger development team. Areas covered include multimedia project management, 3D modelling, game design, web development and programming. This course offers learning opportunities via a blended approach. This incorporates traditional delivery, tutorials, e-learning, practical industry simulated workplace delivery and self-paced learning. This is a pathways program. You will be enrolled in the lowest level qualification and will progress, subject to satisfactory academic progress to the higher qualification levels.

Major studies: 2D Animation, 3D Animation, 3D Games development, Audio and sound editing, Design, Digital Imaging, Digital media development, Graphic/media design, Interactive media development, PC games programming, Programming, Video production, Visual design, Web design.

Prerequisites: None

Extra requirements:
VTAC Personal Statement (CY12-All, NY12-All) : All applicants must complete and submit a VTAC Personal Statement.
Interview (CY12-Some, NY12-Some) : Some applicants are required to attend an interview in November/December (December/January, late applicants). Applicants required to attend will be contacted by telephone or mail by 15 December.

Electronics (VET)

Chisholm Institute
Dandenong: 5700354144 (Fee type determined by provider) full-time  
Apply: Through VTAC main round

- Certificate IV in Electronics and Communications: 1 year full time study
- Advanced Diploma of Electronics and Communications Engineering: 2 years full time study

About the course: This qualification provides students with the skills required to work in the electronics and communications industry at technician and para-professional level. It prepares students to design and evaluate electronic and communications equipment and systems, and to provide technical advice and support. The course specialises in electronic controllers, communications and domestic electronic systems. There is an emphasis on project work integrated with academic studies in a simulated industry environment. Our modern facilities, combined with qualified and experienced staff, provide an excellent environment for progressive training in this rapidly evolving industry.
Major studies: Analogue integrated circuit design, Circuit simulation, Computer-aided design (CAD), Data communications, Digital and analogue electronics, Electronic systems, Electronics interfacing, Gate array technologies, Instrumentation, Microcontrollers, Microelectronics, Microprocessor control systems, Printed circuit board design, Programming (C), Technical leadership skills.

Prerequisites: None

Middle-band: None

Selection Mode: CY12 : ATAR.
NY12 : Educational History including GPA.
SEAS is considered.

Extra requirements: None

Engineering - Mechanical and Manufacturing (HE)

Chisholm Institute
Dandenong: 5700354812 (DFP) full-time/part-time Apply: Through VTAC main round

- Bachelor of Engineering Technology: 3 years full time study

About the course: This course has been developed in close association with, and supported by, the South East Melbourne Manufacturers' Alliance (SEMMA) to produce graduates with advanced engineering technology skills relevant to modern industry. With an emphasis on industry experiential project/problem based learning, it includes a 'first year experience' involving a group industry design and build project; an industry practicum; an industry capstone project for every student; industry project based learning and industry centred subjects that supplement and reinforce the traditional engineering technology mechanical engineering knowledge base. Career opportunities include roles such as technical supervisor, production manager, maintenance engineer, systems engineer, technical team leader, commissioning engineer, plant engineer and project engineer. Applications will also be accepted from those able to demonstrate equivalent educational or workplace experience. This may include completion of a relevant diploma or advanced diploma. This degree program has Engineers Australia accreditation at the level of engineering technologist and is accepted by the council of the worldwide CDIO initiative in engineering education led by the Massachusetts Institute of Technology. Advanced standing into an Engineers Australia accredited master degree program is also available for graduates of this program.

Prerequisites: Units 3 and 4: a study score of at least 25 in English (EAL) or 20 in English other than EAL; and a study score of at least 20 in any Mathematics.

Middle-band: None

Selection Mode: CY12 : ATAR, VTAC Personal Statement (All), Interview (Some). See extra requirements for more information.
NY12 : Educational History including GPA, VTAC Personal Statement (All), Interview (Some). See extra requirements for more information.

Extra requirements:
VTAC Personal Statement (CY12-All, NY12-All) : All applicants must complete and submit a VTAC Personal Statement.
Interview (CY12-Some, NY12-Some) : Some applicants are required to attend an interview in November/December (December/January, late applicants). Applicants required to attend will be contacted by telephone or mail by 15 December.

Engineering - Mechatronics (HE)
Chisholm Institute
Dandenong: 5700354822 (DFP) full-time/part-time  Apply: Through VTAC main round

- Bachelor of Engineering Technology: 3 years full time study

About the course: Mechatronics integrates mechanics, electronics, control theory and computer science to optimise high technology product design and manufacture. Developed with and supported by the South East Melbourne Manufacturers Alliance, this course involves industry based experiential learning. It includes: a first year experience involving a group industry design and build project; an industry practicum; an industry capstone project for every student; industry project based learning and industry centred subjects that supplement and reinforce the traditional engineering technology mechanical engineering knowledge base. Career opportunities include technical supervisor, production manager, maintenance engineer, systems engineer, technical team leader, commissioning engineer, plant engineer and project engineer. Applications will also be accepted from those able to demonstrate equivalent educational or workplace experience. This may include completion of a relevant diploma or advanced diploma. This degree program has Engineers Australia accreditation at the level of engineering technologist and is accepted by the council of the worldwide CDIO initiative in engineering education led by the Massachusetts Institute of Technology. Advanced standing into an Engineers Australia accredited master degree program is also available for graduates of this program.

Major studies: Acquisition systems, Advanced manufacturing technologies, Computer aided design (CAD), Engineering design, Engineering management, Engineering mathematics, Fluid power fluid mechanics, Industrial process control, Manufacturing processes, Materials science, Strength of materials.

Prerequisites: Units 3 and 4: a study score of at least 25 in English (EAL) or 20 in English other than EAL; and a study score of at least 20 in any Mathematics.

Middle-band: None

Selection Mode: CY12 : ATAR, VTAC Personal Statement (All), Interview (Some). See extra requirements for more information.
NY12 : Educational History including GPA, VTAC Personal Statement (All), Interview (Some). See extra requirements for more information.

Extra requirements:
VTAC Personal Statement (CY12-All, NY12-All) : All applicants must complete and submit a VTAC Personal Statement.
Interview (CY12-Some, NY12-Some) : Some applicants are required to attend an interview in November/December (December/January, late applicants). Applicants required to attend will be contacted by telephone or mail by 15 December.

---

Chisholm Institute
Dandenong: 5700354664 (Fee type determined by provider) full-time  Apply: Through VTAC main round

- Diploma of Engineering Technology: 2 years full time study
- Advanced Diploma of Engineering Technology: 2 years full time study

About the course: This course provides the opportunity to develop practical and theoretical skills and knowledge which can be applied in a modern metal manufacturing industry. Specialisation includes conventional machine tool operation, computer numerical controlled (CNC) programming, setting and operating, computer aided drafting (CAD), computer aided manufacturing (CAM), metrology and production planning. The Advanced Diploma of Engineering Technology is a direct pathway to the Bachelor of Engineering Technology.

Major studies: Advanced manufacturing systems, Computer-aided drafting (CAD), Computer-aided manufacturing (CAM), Engineering (manufacturing), Materials science, Quality assurance.

Prerequisites: None

Middle-band: None
### Engineering-Mechanical Design (VET)

**Chisholm Institute**

Dandenong: 5700358514 (Fee type determined by provider) full-time  
Apply: Through VTAC main round

Frankston: 5700458514 (Fee type determined by provider) full-time  
Apply: Through VTAC main round

- Diploma of Engineering Technology: 1 year full time study
- Advanced Diploma of Engineering Technology: 2 years full time study

**About the course:** Computer aided design and drafting is an important part of the program, complemented by mechanical design units. Completion of this program also provides opportunities in higher technician and engineering management careers. The Advanced Diploma of Engineering Technology is a direct pathway to the Bachelor of Engineering Technology.

**Major studies:**  
- Computer-aided design (CAD),  
- Engineering maths,  
- Engineering science,  
- Material science,  
- Mechanical elements design,  
- Practical workshop studies,  
- Project management and communications,  
- Strength of materials.

**Prerequisites:** None

**Middle-band:** None

### Engineering-Mechatronics Robotics (VET)

**Chisholm Institute**

Dandenong: 5700354034 (Fee type determined by provider) full-time  
Apply: Through VTAC main round

- Diploma of Engineering Technology: 1 year full time study
- Advanced Diploma of Engineering Technology: 2 years full time study

**About the course:** Mechatronics is a combination of mechanical and electronic engineering technology and was developed to respond to industry's demand for a new breed of well trained paraprofessional technologists who can contribute to an increasingly automated industrial environment. This course provides a high level of training in a range of topics to equip the student with the skills and knowledge to be able to design, fabricate, assemble, install, commission, troubleshoot and maintain automated industrial manufacturing equipment and related control and communication systems. Modern manufacturing enterprises require highly skilled and innovative technologists to design, install and maintain automated manufacturing systems. Graduates may seek employment as: production technicians, sales engineers, diagnostic technicians, commissioning technicians and system designers as well as enhance their relevant trade qualifications. The Advanced Diploma of Engineering Technology is a direct pathway to the Bachelor of Engineering Technology.

**Major studies:**  
- Computer-aided drafting (CAD),  
- Engineering (fluid power),  
- Industrial engineering (PLC control),  
- Industry-based engineering projects,  
- Materials science,  
- Mechatronics,  
- Process control,  
- Robotics.
Prerequisites: None

Middle-band: None

Selection Mode: CY12 : ATAR.
NY12 : Educational History including GPA.
SEAS is considered.

Extra requirements: None

Fitness (VET)

Chisholm Institute

Berwick: 5700158024 (Fee type determined by provider) full-time  Apply: Through VTAC main round
Frankston: 5700458024 (Fee type determined by provider) full-time  Apply: Through VTAC main round

- Certificate IV in Fitness: 1 year full time study

About the course: Encompassing both Certificate III and IV in Fitness, this course provides students with skills and knowledge to become a proficient gym instructor and personal trainer. Students will develop instructional skills to develop individualised fitness programs with a variety of clients, as a personal trainer and leading exercise programs in a community venue. Upon completion of the program students will be eligible for registration with key industry bodies including Fitness Australia and Physical Activity Australia (Kinect).

Major studies: Anatomy and physiology, Client orientation and testing, Communication and professional practice, Exercise for older adults and children, Exercise physiology, Exercise science, Fitness programming, Human movement, Nutrition and exercise, Personal training, Resistance training, Small business management.

Prerequisites: None

Middle-band: None

NY12 : Educational History including GPA, VTAC Personal Statement (All). See extra requirements for more information.
SEAS is considered.

Extra requirements:
VTAC Personal Statement (CY12-All, NY12-All) : All applicants must complete and submit a VTAC Personal Statement.

Graphic Design (VET)

Chisholm Institute

Dandenong: 5700354114 (Fee type determined by provider) full-time  Apply: Through VTAC main round

- Certificate IV in Design: 1 year full time study
- Diploma of Graphic Design: 1 year full time study

About the course: The Diploma of Graphic Design provides the specific knowledge and skills required to undertake work as a graphic designer within graphic design studio/agency or independently. Artwork produced will include corporate identity, company brochures, booklets, packaging, posters, web page design and development, illustration and digital photography. While the course is predominantly print based, an understanding of interactive and web based outcomes in line with industry expectations are included. Students will work in a high end Macintosh environment with large format colour printers, scanners and digital cameras. Students will work with relevant industry software including the Adobe Creative Suite. Upon completion of the Diploma of Graphic Design students
have the opportunity to continue into the Advanced Diploma of Graphic Design and/or the Bachelor of Interactive Media Design. The Certificate IV in Design provides a direct pathway into the Diploma of Graphic Design.

**Major studies:** Business skills, Communication, Design, Design theory, Digital art, Illustration, Multimedia, Photography.

**Prerequisites:** None

**Middle-band:** None

**Selection Mode:** CY12 : ATAR, VTAC Personal Statement (All), Folio (All). See extra requirements for more information.
NY12 : Educational History including GPA, VTAC Personal Statement (All), Folio (All). See extra requirements for more information.
SEAS is considered.

**Extra requirements:**
VTAC Personal Statement (CY12-All, NY12-All) : All applicants must complete and submit a VTAC Personal Statement.
Folio (CY12-All, NY12-All) : All applicants must attend a folio presentation in November/December. Telephone (03)9212 5250 in October to book and obtain further information.

---

**Illustration (VET)**

**Chisholm Institute**
Frankston: 5700458584 (Fee type determined by provider) full-time   **Apply:** Through VTAC   main round

- Certificate IV in Visual Arts: 1 year full time study
- Diploma of Visual Arts: 1 year full time study

**About the course:** This course focuses on the exploration or drawing/rendring techniques and mediums in both traditional and digital formats, as a way of determining a solution through directable design brief. Students are encouraged to develop an individual style that sets them apart in a competitive and diverse industry. Professional illustrators are involved in providing student and course feedback in order to maintain currency and to define the scope of the industry. This course provides students with specific skills to engage in the illustration industry and enable them to work in such fields as advertising, publishing, children's books, technical and editorial illustration. They will be involved in interpreting the design brief, researching client needs, developing the concept, exploring the technical solution and presenting a highly resolved piece of work. Interaction with practicing artists and illustrators through industry visits and workshops, is also a strong feature of this course.

**Major studies:** Computer based illustration, Drawing, History and contemporary studies, Illustration, Introduction to industry, Painting and printmaking, Rendering.

**Prerequisites:** None

**Middle-band:** None

**Selection Mode:** CY12 : ATAR, VTAC Personal Statement (All), Folio (All). See extra requirements for more information.
NY12 : Educational History including GPA, VTAC Personal Statement (All), Folio (All). See extra requirements for more information.
SEAS is considered.

**Extra requirements:**
VTAC Personal Statement (CY12-All, NY12-All) : All applicants must complete and submit a VTAC Personal Statement.
Folio (CY12-All, NY12-All) : All applicants must attend a folio presentation in November/December. Telephone (03)9212 5250 in October to book and obtain further information.
### Information Technology (VET)

**Chisholm Institute**

Dandenong: 5700354324 (Fee type determined by provider) full-time  
Apply: Through VTAC main round

- Certificate IV in Web-Based Technologies: 1 year full time study
- Certificate IV in Programming: 1 year full time study
- Diploma of Software Development: 2 years full time study
- Advanced Diploma of Information Technology: 2 years full time study

**About the course:** Provides a breadth and depth of knowledge and skills in information technology as well as the opportunity for students to specialise and attain a high level of expertise in specific ICT areas such as e-business, website architecture, change management, database management and gaming. This qualification focuses on the development of high level strategic planning and evaluation skills, which underpin ICT technical decision making in the development and execution of web, database and related systems technology solutions for business. This course offers learning opportunities via a blended approach. This incorporates traditional delivery, tutorials, e-learning, practical industry project based learning, simulated workplace delivery and self-paced learning. You will be admitted into the highest qualification level and can choose to exit with a lower listed qualification upon the successful completion of the required courses (subjects).

**Major studies:** Animation (2D), Computer hardware, Computing, Databases, E-business, Games development, Interface design, Object-oriented design, Object-oriented programming, Project management, Sustainability, Systems analysis, Systems design and development, Web programming.

**Prerequisites:** None

**Middle-band:** None

**Selection Mode:** CY12: ATAR, VTAC Personal Statement (All), Interview (Some). See extra requirements for more information.

NY12: Educational History including GPA, VTAC Personal Statement (All), Interview (Some). See extra requirements for more information.

SEAS is considered.

**Extra requirements:**

VTAC Personal Statement (CY12-All, NY12-All): All applicants must complete and submit a VTAC Personal Statement.

Interview (CY12-Some, NY12-Some): Some applicants are required to attend an interview in November/December (December/January, late applicants). Applicants required to attend will be contacted by telephone or mail by 15 December.

---

### Information Technology (Software Development) (VET)

**Chisholm Institute**

Dandenong: 5700354224 (Fee type determined by provider) full-time  
Apply: Through VTAC main round

- Certificate IV in Web-Based Technologies: 1 year full time study
- Certificate IV in Programming: 1 year full time study
- Diploma of Software Development: 2 years full time study

**About the course:** This course is focused on games development and has been developed with industry assistance to provide skills and knowledge in computer programming, software development, graphical design and games development. Furthermore students will learn key analysis skills including client needs analysis, scope projects and user documentation. The course offers learning opportunities via a blended approach, incorporating traditional delivery, tutorials, e-learning, practical industry simulated workplace delivery and self-paced learning.

**Major studies:** Animation (2D), Animation and video editing, Applications development, Applications programming, Copyright, Copywriting, Database programming, Games development, Mobile applications development, Object-oriented design, Object-oriented development, Object-oriented programming, Programming, Software development,
Systems analysis, Web programming.

**Prerequisites:** None

**Middle-band:** None

**Selection Mode:** CY12 : ATAR, VTAC Personal Statement (All), Interview (Some). See extra requirements for more information.

NY12 : Educational History including GPA, VTAC Personal Statement (All), Interview (Some). See extra requirements for more information.

SEAS is considered.

**Extra requirements:**

VTAC Personal Statement (CY12-All, NY12-All) : All applicants must complete and submit a VTAC Personal Statement.

Interview (CY12-Some, NY12-Some) : Some applicants are required to attend an interview in November/December (December/January, late applicants). Applicants required to attend will be contacted by telephone or mail by 15 December.

---

**Information Technology (Website Development/Networking) (VET)**

**Chisholm Institute**

Frankston: 5700458324 (Fee type determined by provider) full-time  **Apply:** Through VTAC main round

- Certificate IV in Information Technology Networking: 1 year full time study
- Certificate IV in Web-Based Technologies: 1 year full time study
- Diploma of Information Technology Networking: 2 years full time study
- Diploma of Website Development: 2 years full time study

**About the course:** These qualifications have been developed with industry assistance to provide the skills and knowledge for an individual to be competent in high level network management, website development and administration. The qualifications have an ICT networking base including a broad ICT internetworking, security, website development and e-business focus. Furthermore the qualifications provide the skills and knowledge for an individual to be competent as a senior ICT professional with responsibilities spanning systems design, web development, programming, site performance, database integration, internet traffic management, e-security through to implementation and acceptance testing. The course offers learning opportunities via a blended approach incorporating traditional delivery, tutorials, e-learning, practical industry simulated workplace delivery and self-paced learning. This is a pathways program. You will be enrolled in the lowest level qualification and will progress, subject to satisfactory academic progress to the higher qualification levels.

**Major studies:** Computer applications, Computer engineering, Computer networks, Computer operating systems, Computing (management), Computing for the cloud, Databases, Internet development, LAN installation and management, Local area networks, Multimedia, Network security, Network testing, Operating systems, Programming, Project management, Web administration, Web development, Web programming, Website management.

**Prerequisites:** None

**Middle-band:** None

**Selection Mode:** CY12 : ATAR, VTAC Personal Statement (All), Interview (Some). See extra requirements for more information.

NY12 : Educational History including GPA, VTAC Personal Statement (All), Interview (Some). See extra requirements for more information.

SEAS is considered.

**Extra requirements:**

VTAC Personal Statement (CY12-All, NY12-All) : All applicants must complete and submit a VTAC Personal Statement.

Interview (CY12-Some, NY12-Some) : Some applicants are required to attend an interview in November/December.
(December/January, late applicants). Applicants required to attend will be contacted by telephone or mail by 15 December.

**Information Technology Network Security (VET)**

**Chisholm Institute**

**Berwick:** 5700154054 (Fee type determined by provider) full-time

**Dandenong:** 5700354054 (Fee type determined by provider) full-time

**Frankston:** 5700454054 (Fee type determined by provider) full-time

Apply: Through VTAC main round

- Certificate IV in Information Technology Networking: 1 year full time study
- Diploma of Information Technology Networking: 1.5 year full time study
- Advanced Diploma of Network Security: 2 years full time study

**About the course:** These qualifications have been developed with industry assistance to provide skills in managing network security. The qualifications provide high level ICT, e-security and business skills and knowledge to enable graduates to be effective in senior security roles. Students obtain a high level of expertise in designing, implementing, managing and securing complex networks including global networks. Embedded in this course is a virtual enterprise program supported by our industry sponsor, Network Neighborhood. This program uses the sponsor's case studies as it simulates the real IT business environment, exposing the students to sought after employability skills. Work placement is offered, sometimes resulting in employment for many students. The advanced diploma course is conducted part time with four hours a week attendance and the rest online delivery. This course includes Cisco CCNP and security, risk management, sustainability, encryption technologies and advanced server based security.

**Major studies:** E-business, Encryption technologies, Network administration, Network security, Operating systems, Project management, Risk analysis and management, Security and management, System security and controls.

**Prerequisites:** None

**Middle-band:** None

**Selection Mode:** CY12: ATAR, VTAC Personal Statement (All), Interview (Some). See extra requirements for more information.

NY12: Educational History including GPA, VTAC Personal Statement (All), Interview (Some). See extra requirements for more information.

SEAS is considered.

**Extra requirements:**

VTAC Personal Statement (CY12-All, NY12-All): All applicants must complete and submit a VTAC Personal Statement.

Interview (CY12-Some, NY12-Some): Some applicants are required to attend an interview in November/December (December/January, late applicants). Applicants required to attend will be contacted by telephone or mail by 15 December.

---

**Information Technology Web-Based Technologies (VET)**

**Chisholm Institute**

**Dandenong:** 5700358524 (Fee type determined by provider) full-time

**Frankston:** 5700458524 (Fee type determined by provider)

- Certificate IV in Web-Based Technologies: 1 year full time study

Apply: Through VTAC main round

- Full-time/part-time
About the course: This course has been developed with industry assistance to provide skills in website development and design, site performance, database integration, implementation, acceptance testing, web programming, networks, security and project management. Learning is via a blended approach, incorporating traditional delivery, tutorials, e-learning, practical industry simulated workplace delivery and self paced learning. At Dandenong campus students also undertake the Certificate IV in Programming; at Frankston campus students also undertake the Certificate IV in Information Technology Networking.

Major studies: Animation (2D), Animation (3D), Digital imaging, Interactive media, Programming, Technical writing, Web coding, Web design, Web development, Website administration, Website coordination.

Prerequisites: None

Middle-band: None

Selection Mode: CY12 : ATAR, VTAC Personal Statement (All), Interview (Some). See extra requirements for more information.

NY12 : Educational History including GPA, VTAC Personal Statement (All), Interview (Some). See extra requirements for more information.

SEAS is considered.

Extra requirements:

VTAC Personal Statement (CY12-All, NY12-All) : All applicants must complete and submit a VTAC Personal Statement.

Interview (CY12-Some, NY12-Some) : Some applicants are required to attend an interview in November/December (December/January, late applicants). Applicants required to attend will be contacted by telephone or mail by 15 December.

Interactive Media Design (HE)

Chisholm Institute
Chisholm at 311:570054722 (DFP) full-time/part-time  Apply: Through VTAC main round

- Bachelor of Interactive Multimedia Design: 3 years full time study

About the course: This course aims to produce graduates who not only possess the ever expanding suite of technical skills expected of the contemporary design practitioner, but an understanding of the process of conceptualisation and creativity that will serve to distinguish them as artists of unique vision and innovation in visual communication, design and interactive media. A fun, stimulating and industry driven course delivered within an open studio learning environment. Graduate expertise will provide access to career positions in, but not confined to, design, graphic design, publishing, web, multimedia, film and video, marketing, animation and advertising industries. This course is suitable for year 12 applicants or mature age applicants with industry experience. Ideally, students will have completed Media, VCD or Studio Arts at year 11 or 12.

Major studies: 2D Animation, 3D Visualisation, Contemporary design, Creative processes, Creative space, Creative visual history, Design in the world, Design process, Future technologies, Global culture and design, Graphic design, Illustration, Interface design and interface functionality, Motion graphics, Narrative framework, Professional self, Static media design, Time based media design, Video production and photography, Web fundamentals.

Prerequisites: None

Middle-band: None

Selection Mode: CY12 : ATAR, VTAC Personal Statement (All), Folio (All). See extra requirements for more information.

NY12 : Educational History including GPA, VTAC Personal Statement (All), Folio (All). See extra requirements for more information.

Extra requirements:

VTAC Personal Statement (CY12-All, NY12-All) : All applicants must complete and submit a VTAC Personal Statement.
Folio (CY12-All, NY12-All) : All applicants must attend a folio presentation in November/December. Telephone (03) 9238 8216 in October to book and obtain further information.

### Justice (VET)

**Chisholm Institute**

Dandenong: 5700358814 (Fee type determined by provider) full-time  
Apply: Through VTAC main round

Frankston: 5700458814 (Fee type determined by provider) full-time  
Apply: Through VTAC main round

- Advanced Diploma of Justice: 2 years full time study

**About the course:** Provides a pathway to enter, develop skills or pursue a career within the community justice industry; including the police, both state and federal, customs services, sheriff department, local government authorities, correctional services, courts, juvenile justice, community corrections, non-government bodies and support agencies. The course comprises approximately 18-20 hours of study per week run over three days. A range of delivery modes allow for flexibility in learning, but predominately include classroom delivery. A component of the course involves practical placement where students are given work experience within the criminal justice system. This is a pathways program. You will be enrolled in the lowest level qualification and will progress, subject to satisfactory academic progress to the higher qualification levels.

**Major studies:** Case management, Community law, Corrections, Criminal justice studies, Criminology, Human rights, Legal process, Mediation, Policing and investigations, Psychology, Youth justice.

**Prerequisites:** None

**Middle-band:** None

**Selection Mode:** CY12 : ATAR, VTAC Personal Statement (All), Interview (Some). See extra requirements for more information.

NY12 : Educational History including GPA, VTAC Personal Statement (All), Interview (Some). See extra requirements for more information.

SEAS is considered.

**Extra requirements:**

VTAC Personal Statement (CY12-All, NY12-All) : All applicants must complete and submit a VTAC Personal Statement.

Interview (CY12-Some, NY12-Some) : Some applicants are required to attend an interview and test in November/December (December/January, late applicants). Applicants required to attend will be contacted by telephone or mail by 15 December.

### Laboratory Techniques (VET)

**Chisholm Institute**

Frankston: 5700458124 (Fee type determined by provider) full-time  
Apply: Through VTAC main round

- Certificate IV in Laboratory Techniques: 1 year full time study

**About the course:** Provides broad based vocational training for technical assistants undertaking a wide range of sampling and testing that requires the application of a broad range of technical skills and some scientific knowledge. Comprises core units considered essential for technical/laboratory assistants and elective studies that may apply to personnel according to the size and scope of the operations of the enterprise and laboratory. This course allows you to gain hands-on experience so you are work-ready at the completion of the course, or you can go on to diploma or degree courses with a wealth of practical experience. For related programs refer to Biological/Chemical/Medical Sciences. Practical placement in industry is an integral part of the course. Our teachers keep in touch with the latest developments and work closely with local and emerging industries. This enables us to place students in a variety of fields for work placement, often leading to employment opportunities.
Major studies: Aseptic techniques, Biological and environmental testing, Biological procedures, Biology, Chemistry (forensic and analytical), Chemistry (laboratory), Chemistry (medical), Communication skills, Data processes, Environmental testing, Laboratory computing, Laboratory instrumentation, Laboratory technology, Occupational health and safety, Sustainability.

Prerequisites: None

Middle-band: None

Selection Mode: CY12 : ATAR.
    NY12 : Educational History including GPA.
    SEAS is considered.

Extra requirements:
None

Laboratory Technology (Biological and Chemical Testing, Environmental Monitoring) (VET)

Chisholm Institute
Frankston: 5700458144 (Fee type determined by provider) full-time  Apply: Through VTAC main round

- Diploma of Laboratory Technology: 2 years full time study

About the course: Provides broad based vocational training for technical officers, analysts and other job roles in biotechnology, biological and environmental testing, medical research, diagnostic pathology or other scientific laboratories; or chemical analysis and testing. Comprises core units essential for technical officers plus testing, sampling and technical electives relevant to specialisation. Our course allows you to gain hands-on experience so you are work-ready, or you can go on to degrees at university with a wealth of practical experience. Practical placement in industry is an integral part of the course and is offered during the first year. Our teachers keep in touch with the latest developments and work closely with local and emerging industries. This enables us to place students in a wide variety of fields for work placement, often leading to employment opportunities. After successful completion of the first year, students can obtain the Certificate IV in Laboratory Techniques.

Major studies: Aseptic techniques and microscopy, Biological and environmental testing, Biotechnology, Chemistry (forensic and analytical), Chemistry (laboratory), Chemistry (medical), Communications, Data processes, Environmental testing, Laboratory computing, Laboratory instrumentation, Laboratory technology, Microbiology, Occupational health and safety, Sustainability.

Prerequisites: None

Middle-band: None

Selection Mode: CY12 : ATAR.
    NY12 : Educational History including GPA.
    SEAS is considered.

Extra requirements:
None

Library, Information and Cultural Services (VET)

Chisholm Institute
Cranbourne: 5700254164 (Fee type determined by provider) full-time  Apply: Through VTAC main round

- Certificate IV in Library, Information and Cultural Services: 1 year full time study
- Diploma of Library and Information Services: 2 years full time study
About the course: Prepares graduates for work in a variety of technical and customer service positions in the library and ICT information sector. This course offers learning opportunities via a blended approach. This incorporates traditional delivery, tutorials, e-learning, practical industry experiences, simulated workplace delivery and self-paced learning. This is a pathways program. You will be enrolled in the lowest level qualification and will progress, subject to satisfactory academic progress to the higher qualification levels.

Major studies: Access services, Administration, Cataloguing and classification, Communication and professional practice, Digital media, Electronic systems, Information management, Information services, IT skills, Library (collection management and development), Library (customer service), Library (information services), Library (reference and research skills), Library activities (training), Library studies, Metadata administrator, Technical services administration.

Prerequisites: None

Middle-band: None

Selection Mode: CY12 : ATAR, VTAC Personal Statement (All), Interview (Some). See extra requirements for more information.

NY12 : Educational History including GPA, VTAC Personal Statement (All), Interview (Some). See extra requirements for more information.

SEAS is considered.

Extra requirements:

VTAC Personal Statement (CY12-All, NY12-All) : All applicants must complete and submit a VTAC Personal Statement.

Interview (CY12-All, NY12-All) : All applicants are required to attend an interview in November/December (December/January, late applicants). Details will be provided by telephone or mail by 15 December.

---

Make-up (VET)

Chisholm Institute

Dandenong:5700354524 (Fee type determined by provider) full-time Apply: Through VTAC main round

- Diploma of Specialist Make-up Services: 1 year full time study

SEAS is considered.

**Extra requirements:** None

---

**Multimedia/Web Design (VET)**

**Chisholm Institute**
Dandenong: 5700310014 (Fee type determined by provider) full-time  
Apply: Through VTAC main round

- Certificate IV in Digital and Interactive Games: 1 year full time study
- Diploma of Digital and Interactive Games: 1 year full time study

**About the course:** Students are trained in design, graphic/digital media and programming skills that are required in the development of digital games briefs, either as a small independent specialist or as part of a larger team. The three main roles as a games designer/developer are: games designer - comes up with the game play ideas, and sometimes the story line; games programmer - constructs the game code; games artist - creates all the art assets for the game. Students will gain skills and knowledge in the Certificate IV and Diploma of Digital and Interactive Games which enables them to choose their own work focus. The course includes animation and game design using Unreal development engine, video editing, multimedia web development, Java programming, Android mobile development, project management and sustainability. Graduates will gain opportunities to work in new and emerging games genres, such as online game development, mobile device gaming, interactive internet and TV game development. This is a pathways program. You will be enrolled in the lowest level qualification and will progress, subject to satisfactory academic progress to the higher qualification levels.

**Major studies:** Build a database to support a computer game, Design of 2D and 3D games, Digital editing, Programming techniques.

**Prerequisites:** None
### Outdoor Leadership (VET)

**Chisholm Institute**

Frankston: 5700458184 (Fee type determined by provider) full-time  
**Apply:** Through VTAC main round

- Certificate III in Outdoor Recreation: 0.5 year full time study
- Certificate IV in Outdoor Recreation: 1 year full time study
- Diploma of Outdoor Recreation: 2 years full time study

**About the course:** Over this two year course, students will develop into outdoor leaders capable of safely planning and delivering camps and expeditions. The course has a strong practical focus underpinned by complementary theoretical classes. First year offers a broad and comprehensive range of adventure activity areas, delivered by specialist instructors. In second year students consolidate their instruction and facilitation skills, and develop the big picture thinking required to manage outdoor programs. Students are actively involved in the course design, planning and participating in an extended expedition. Practical placement is an integral part of the training. Chisholm students benefit from excellent industry contacts, providing them with opportunities to experience diverse programs throughout Victoria and Australia. The Diploma of Outdoor Recreation incorporates the Certificate III in Outdoor Recreation and Certificate IV in Outdoor Recreation. Students may be required to enrol in the Certificate III to complete all prerequisite competencies before commencing the Certificate IV and Diploma.

**Major studies:** Bushwalking, Mountain biking, Outdoor leadership and guiding, Rock climbing and abseiling, Sailing, SCUBA diving and snorkelling, Sea kayaking, Search and rescue, Snowboarding, White water rafting, Youthwork.

**Prerequisites:** None

**Middle-band:** None

**Selection Mode:** CY12: ATAR, VTAC Personal Statement (All), Interview (All). See extra requirements for more information.

NY12: Educational History including GPA, VTAC Personal Statement (All), Interview (All), Intake session. See extra requirements for more information.

SEAS is considered.

**Extra requirements:**

VTAC Personal Statement (CY12-All, NY12-All): All applicants must complete and submit a VTAC Personal Statement.

Interview (CY12-All, NY12-All): All applicants are required to attend an interview between October and December. Telephone (03) 9238 8403 for details.

Intake session (CY12-All, NY12-All): Applicants must also attend an intake session on 20 August or 25 October at 7.00 pm in Room A215 at Frankston campus. Applicants please call (03) 9238 8403 if unable to attend.

NY12: Educational History including GPA.
SEAS is considered.
Extra requirements:
None

**Science (VET)**

**Chisholm Institute**

Frankston: 5700458384 (Fee type determined by provider) full-time   Apply: **Through VTAC** main round

- Certificate IV in Science: 1 year full time study

**About the course:** This is a preliminary general science program which provides training for students wishing to enter and succeed in a tertiary course which requires science prerequisites. If you have not studied science previously you can gain a very good understanding of the basics by starting with this course. On completion of the course students may wish to enter a number of diploma and degree courses such as nursing, science, engineering, science/education and laboratory technology. For related programs refer to Biological/Medical Sciences. The course comprises core competencies and some electives. After successful completion of the first semester, students can obtain the Certificate III in Science qualification.

**Major studies:** Biology, Chemistry, Communication, Computing, Mathematics, Physics.

**Prerequisites:** None

**Middle-band:** None

**Selection Mode:** CY12: ATAR.
NY12: Educational History including GPA.
SEAS is considered.

**Extra requirements:**
None

**Screen and Media (Video/Animation) (VET)**

**Chisholm Institute**

Chisholm at 311: 5700558284 (Fee type determined by provider) full-time   Apply: **Through VTAC** main round

- Certificate IV in Screen and Media: 1 year full time study
- Advanced Diploma of Screen and Media: 2 years full time study

**About the course:** This course provides training in an integrated program of electronic design, interactive media, computer animation, three dimensional modelling, 2D animation, digital video, digital imaging and sound/editing. Students will work in a high-end Macintosh environment, using relevant industry software to develop the skills and knowledge to meet the current standards of industry. The second year focuses on a major project allowing students to define and explore their own area of specialisation. This course includes industry visits and guest speakers who are leading practitioners within their field of expertise. The Certificate IV in Screen and Media provides training in animation, graphics, editing, developing web sites and CD ROMs, testing games and designing interfaces and is considered a pathway into the Advanced Diploma of Screen and Media.

**Major studies:** Animation (3D and 2D), Animation design and production, Design, Digital video editing/sound, Multimedia analysis and design, Multimedia communications, Multimedia technology, Product design and development, Project management, Writing (media).

**Prerequisites:** None

**Middle-band:** None

**Selection Mode:** CY12: ATAR, VTAC Personal Statement (All), Folio (All). See extra requirements for more information.
NY12: Educational History including GPA, VTAC Personal Statement (All), Folio (All). See extra requirements for more information.

SEAS is considered.

Extra requirements:
VTAC Personal Statement (CY12-All, NY12-All): All applicants must complete and submit a VTAC Personal Statement.
Folio (CY12-All, NY12-All): All applicants must attend a folio presentation in November/December. Telephone (03)9238 8216 in October to book and obtain further information.

**Sport and Recreation Management/Sport Development (VET)**

**Chisholm Institute**

Berwick: 5700154764 (Fee type determined by provider) full-time  
Apply: [Through VTAC](http://www.wss8.vtac.edu.au/courses-inst/institutions/topdf/chisholm.html) main round

- Diploma of Sport and Recreation Management/Diploma of Sport Development: 1 year full time study

**About the course:** The dual Diploma of Sport and Recreation Management/Sport Development offers a blended delivery model with part time on-campus attendance and part time on-line study over one year. This course is designed to prepare students for further tertiary studies and employment in the sport and recreation industry. Students will participate in specialisation areas including sport and recreation programs, facilities, events, coaching and instruction, sports sciences and education. Through both theory and practical application, students will design, develop and implement a range of sport and recreational programs, events, clinics and camps, simulating real industry practice. Study areas include business communication, client services, industry knowledge, OH&S, IT, first aid, facilities, events, officiating, coaching and instruction, sustainability, working with groups, sports psychology, nutrition, recovery programs, sports trainer, and long term training programs, camps, AFL, basketball, netball, aquatics and fitness. This course has an articulation agreement with Monash University's Bachelor of Sport and Outdoor Recreation.

**Major studies:** Administration, Coaching, Facilities and events, Officiating, Sport, Sport and recreation, Sports management.

**Prerequisites:** None

**Middle-band:** None

**Selection Mode:** CY12: ATAR, VTAC Personal Statement (All), See extra requirements for more information.
NY12: Educational History including GPA, VTAC Personal Statement (All). See extra requirements for more information.
SEAS is considered.

**Extra requirements:**
VTAC Personal Statement (CY12-All, NY12-All): All applicants must complete and submit a VTAC Personal Statement.

**Tourism (VET)**

**Chisholm Institute**

Dandenong: 5700358354 (Fee type determined by provider) full-time  
Apply: [Through VTAC](http://www.wss8.vtac.edu.au/courses-inst/institutions/topdf/chisholm.html) main round

- Diploma of Tourism: 1.5 year full time study

**About the course:** This course provides the skills and knowledge for an individual to be competent in a range of well-developed tourism sales, operational and tour delivery skills. Work would be undertaken in an office environment or in the field where tourism products are delivered, for example, local or regional area, destination, tourist precinct, site, attraction or onboard transportation. Graduates seek entry into a variety of roles as skilled
operators providing technical advice and support to a team. Possible jobs include: guide and salesperson at a cultural centre, winery cellar door salesperson and guide, attendant or senior ride operator in an attraction or theme park, operations consultant or reservation sales agent for a tour operator. This is a pathways program. You will be enrolled in the Certificate III qualification and will progress, subject to satisfactory academic progress to the higher qualification levels.

**Major studies:** Access and interpret product information, Food and beverage tourism, Sell tourism products and services, Tourism industry knowledge, Visitor information.

**Prerequisites:** None

**Middle-band:** None

**Selection Mode:** CY12 : ATAR, Interview (All). See extra requirements for more information.
NY12 : Educational History including GPA, Interview (All). See extra requirements for more information.
SEAS is considered.

**Extra requirements:**
Interview (CY12-All, NY12-All) : All applicants are required to attend an interview and intake session on 5 September at 6.00pm at Birches Restaurant, Building P, Dandenong Campus. Late applicants and applicants who cannot attend must contact (03) 9212 5409 to make alternative arrangements.

---

**Visual Art (VET)**

**Chisholm Institute**
Frankston: 5700 458344 (Fee type determined by provider) full-time  Apply: Through VTAC main round

- Certificate IV in Visual Arts: 1 year full time study
- Diploma of Visual Arts: 1 year full time study

**About the course:** Students are trained to perceive and analyse complex information, to adapt and incorporate it within various visual arts disciplines. They are also trained to explore and be confident in a broad range of mediums and materials as a means of defining an individual style and personal narrative. Students apply visual art skills in such disciplines as painting, printmaking, digital media, public art and sculpture. In the second year, students select a major and minor study in a specific discipline and have allocated individual studio spaces in which to work. There is a strong relationship with practicing artists and the industry, who not only teach within the program, but are invited to assess student work and provide feedback on the course structure. A large number of specialist studios are provided, which includes areas for printmaking, painting and drawing, computer laboratories, sculpture and a bronze casting foundry.

**Major studies:** Art history, Arts business, Digital media, Drawing, Painting, Printmaking, Public art, Sculpture.

**Prerequisites:** None

**Middle-band:** None

**Selection Mode:** CY12 : ATAR, VTAC Personal Statement (All), Folio (All). See extra requirements for more information.
NY12 : Educational History including GPA, VTAC Personal Statement (All), Folio (All). See extra requirements for more information.
SEAS is considered.

**Extra requirements:**
VTAC Personal Statement (CY12-All, NY12-All) : All applicants must complete and submit a VTAC Personal Statement.

Folio (CY12-All, NY12-All) : All applicants must attend a folio presentation in November/December. Telephone (03) 9238 8216 in October to book and obtain further information.
CQUniversity Australia offers over 100 different programs; access, undergraduate, postgraduate and research degrees across 11 locations. We are committed to helping you be what you want to be. Our degrees open the door to career opportunities in Australia and overseas, preparing you with the skills and knowledge to ensure you are work-ready when you graduate. Because we understand everyone's circumstances are different, CQUniversity Australia is committed to making study fit with your personal commitments and learning style.

- We offer the flexibility of studying part-time, full-time, on-campus or by distance education with the option to fast-track your degree by studying during Term 3.*
- We've built strong and ongoing relationships with local industry to design up-to-date and real-world relevant courses.
- Our teaching professionals are widely experienced with varied backgrounds stretching from local to global communities.
- CQUniversity ranks highly for graduate starting salaries and for graduate employment/enrolment in further study. Our industry ties and workplace integrated learning play a major role in this achievement. (Source: The Good Universities Guide)
- CQUniversity is widely renowned as one of the most accessible and inclusive universities in Australia. We believe that tertiary education can be for everyone. Our student body is diverse and comes from all over the world.
- We are committed to providing specialist academic support and a range of career-orientated services to ensure our graduates are successful. Most of all, as a CQUniversity student we will help you succeed in being what you want to be.

Regional bonus
CQUniversity recognises that applicants from regional Australia may not always have the same opportunities as applicants from capital cities. All eligible VTAC applicants with a preference to CQUniversity will receive an automatic adjustment equivalent to 2 Tertiary Entrance Ranks (TER).

Accounting (VET)

CQUniversity
Melbourne: 1700210022 (DFP) full-time/part-time
Apply: Through VTAC main round mid-year

- Certificate IV in Accounting: 5 months full time study

About the course: A direct entry dual offer program that leads to direct entry into a comparable CQUniversity degree. Students who have not met the entry requirements for an undergraduate program, or who are seeking a return to study with a view to undertaking a future degree program, will find this dual offer program an ideal transition or re-entry course.

- Bachelor of Medical Sonography: 3 years full time study
- Graduate Diploma of Medical Sonography: 1 year full time study

About the course: This four year combined program consists of a three year degree in Medical Sonography linked with a Graduate Diploma in Medical Sonography. First year provides foundation knowledge in sciences, human body systems, study and research skills and health professional practice. Second and third year focus on pathophysiology, the physics of ultrasound, clinical ultrasonography procedures, and developing skills in communication during clinical placement. Learning is facilitated by state of the art on-campus digital laboratories. Sixty-two weeks of clinical placement designed to develop practical skills in a realistic clinical environment, increase in duration throughout the program and comprise the majority of the final year. The program incorporates reflective learning with each clinical course reflecting the skills and knowledge taught in the preceding term. The final, graduate diploma contains advanced level sonography courses together with clinical courses leading to full competency. Applicants are required to meet English Language Proficiency. For more information please see the extra requirements section below.

Major studies: None.

Prerequisites: None

Middle-band: None

Selection Mode: CY12 : ATAR.
NY12 : Educational History including GPA, English proficiency. See extra requirements for more information.

Extra requirements:

English proficiency: Applicants are required to satisfy minimum English Language Proficiency requirements to be eligible to be considered for entry to this program; www.cqu.edu.au/eapdirectory

Multimedia Studies (HE)
Bachelor of Multimedia Studies: 3 years full time study

About the course: This program prepares students for a career in the digital content industries which include digital media, games, animation, Web development and multimedia. It provides a combination of creative and technical knowledge focused on innovation necessary for digital developers, creators, evaluators, researchers and producers. Students apply and manage digital content tools and technologies and can specialise in digital production, information technology or a combination of both areas.

Major studies: Digital Production, General Major, Information Technology.

Prerequisites: Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL.

Middle-band: None

Selection Mode: CY12 : ATAR.
NY12 : Educational History including GPA.

Extra requirements: None

Nursing (VET)

Diploma of Nursing: 2.5 years full time study

About the course: This is a part-time course held two days per week in the classroom. Mandatory clinical placements are held in five two week blocks and a one single week block where Monday to Friday attendance is required.

This course is designed to provide broad based training that will enable students to prepare for registration as an enrolled nurse who provide support to a registered nurse Division 1 and/or hospital medical personnel in hospitals, medical, aged or community care health facilities.

Clinical placement hours are embedded into the unit competencies, therefore most units of competence cannot be carefully assessed until the relevant placement has occurred. This combination of core and elective units meets the requirements for registration as an enrolled nurse with the endorsement for medication administration.

Completion of this qualification will enable students to apply for registration as an enrolled nurse with the Nursing and Midwifery Council of Australia. There are 21 compulsory and five elective units of competence.

Major studies: None.

Prerequisites: Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL.

Middle-band: None
Selection Mode: CY12: ATAR.
NY12: Educational History including GPA.

Extra requirements:
None

### Professional Communication (HE)

- Bachelor of Professional Communication: 3 years full time study

**About the course:** This degree aims to produce graduates who can communicate effectively within an organisational environment, specifically within a corporate communication or public affairs context. Public relations is fundamental to modern management practice. It is as relative to community, non-profit, and government sectors as it is to the corporate and private sector. Organisations depend on public relations professionals to devise and implement strategies for effective creation and maintenance of an appropriate public profile, employee relations, reputation and crisis management. This three year degree is designed so that graduates will be able to write, analyse, research and evaluate results within a public relations context. Our professional communication program also incorporates journalism courses and many of our graduates also find employment as journalists or media professionals.

**Major studies:** Digital media production, Human resource management, Journalism, Management, Marketing.

**Prerequisites:** Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL.

**Middle-band:** None

**Selection Mode:** CY12: ATAR.
NY12: Educational History including GPA.

**Extra requirements:**
None

### Project Management (VET)

**CQU University**  
Melbourne: 1700210072 (DFP) part-time  
Apply: Through VTAC main round mid-year

- Certificate IV in Project Management: 9 months full time study
- Diploma of Project Management: 9 months full time study

**About the course:** The dual offer program is offered over 2.5 days per week for two semesters of 18 weeks per semester. Part time opportunities are available for people currently working but wanting to further their management training by using an online and intense workshop delivery method. Students who have not met the entry requirement for an undergraduate program, or who are seeking a return to studies with a view to undertaking a degree program in the future will find this dual offer program an ideal transition or re-entry program.

**Major studies:** None.
Psychology (HE)

CQUniversity
Distance Education: 1700110011 (CSP) full-time/part-time  Apply: Through VTAC  main round  mid-year

- Bachelor of Psychology: 4 years full time study

About the course: This program prepares graduates for conditional registration as psychologists in Queensland and for higher degree studies in psychology. It also serves as an initial qualification for those interested in people-oriented vocations. Students gain a broad knowledge of psychology and its applications, including major theoretical perspectives within the discipline. They gain knowledge of the range of core research areas that make up the discipline and the research methodologies and statistical techniques commonly used for information gathering and analysis. Third and fourth year students acquire knowledge of research and professional ethics in psychology and an appreciation of the social and cultural contexts of psychological research and professional practice. Students complete a major sequence in a second discipline area.

Major studies: None.

Prerequisites: Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL.

Middle-band: None

Selection Mode: None

Extra requirements: None
Deakin University offers a truly worldly education. Worldly, is about understanding the bigger picture, as well as the finer detail. It's about recognising other points of view, before making up your own mind. It's about learning how to find the answers, when you don't already have them.

We offer you genuine choice about how and when you learn. You can choose the pace of your study, with many courses offering part-time and full-time options, as well as the chance to fast-track your degree by studying additional units in Trimester 3, so that you may graduate sooner.

You can choose how you study. Off-campus study gives true flexibility. Can't get to lectures? It's really not a problem. We're harnessing new and emerging technologies to offer you innovative, media-rich learning experiences regardless of whether you study on or off campus.

Traditional lectures and tutorials are still a core part of university study at Deakin. However, learning via the cloud is integral to all our courses, as such all students require access to a computer and the internet.

We understand that learning takes place in diverse settings around the world and across the community. That's why we offer programs to help you broaden your education - be it through international exchange, or by gaining real industry experience as part of your studies. Many courses provide opportunities to gain discipline-specific work experience through Work Integrated Learning programs. Courses offering practicum placements and internships are highly sought-after by employers and students alike, as they play a critical role in developing the employability and job readiness of graduates.

Our close links with industry, government departments, professional associations and other educational providers ensure our courses have industry and professional input. This means you can be confident that what you learn at university will be relevant to your working life.

We offer scholarships in the categories of academic excellence, access and equity (including financial disadvantage, rural and regional backgrounds, students with a disability and mature-age students), accommodation and Aboriginal and Torres Strait Islander students to ensure higher education is accessible and achievable for all members of the community.

Deakin provides excellent student support services, including a year-long Transition Program, careers and employment advice, counselling, disability support, medical centres, sport and recreation facilities and study skills assistance.

**Principles of selection**

At Deakin, selection will be based primarily on academic merit as indicated by the applicant's previous academic
Trimester 3:
10 November 2014 - 20 February 2015

record. Applicants must satisfy relevant pre-requisite studies and other specific entry requirements for their course of preference. The University has set an academic standard for each course at each campus. Each course has a minimum ATAR that an applicant must achieve to be considered for selection into the course at a particular campus.

For more information: www.deakin.edu.au/theguide

Grade point average (GPA)

Applicants to courses that list Grade Point Average should note that that GPA will be based on Bachelor level and postgraduate studies from courses undertaken during or after 2004 - please ensure you check the requirements for your preferred courses.

For more information: www.deakin.edu.au/study-at-deakin

Extra requirements

Interviews and additional information

Applicants required to attend an interview or supply additional information should demonstrate a range of attributes, eg personal motivation, relevant experience or previous study, an understanding of the course and potential employment opportunities.

VTAC Personal Statement

NONGY12 applicants must submit a VTAC Personal Statement if listed in the Selection Mode for their course, when they do not have any secondary or post-secondary academic results or they feel that they have relevant information for selection officers.

Other Supplementary forms

Some courses require completion of the relevant Faculty's information form in addition to a VTAC application. Please ensure that you check the extra requirements entries for your preferred courses.

Special consideration

Regional bonus

Deakin's Rural and Regional Bonus will be automatically applied to all current year 12 applicants who reside and/or study in rural and regional and low socio-economic status postcodes as outlined on our website.

For more information: www.deakin.edu.au/study-at-deakin/apply/apply-for-a-course-undergraduate/access-and-equity-program

Special Entry Access Scheme

Deakin University is committed to true access and genuine equity. The Deakin Access and Equity Program offers generous scholarships and special entry conditions to enable people from a diverse range of backgrounds to enjoy the benefits of higher education. There is a wide selection of student support services available on each of our campuses to help you on your path to higher education, and to meet your needs once you become a Deakin University student. For further information visit www.deakin.edu.au/study-at-deakin/apply/apply-for-a-course-undergraduate/access-and-equity-program

For more information: www.deakin.edu.au/study-at-deakin/apply/apply-for-a-course-undergraduate/access-and-equity-program

Admissions tests

Australian Law Schools Entrance Test (ALSET)
Applicants who have completed a minimum of one trimester/semester of full time university studies (minimum Bachelor degree level) or who have completed an Australian Year 12 qualification (or equivalent) within the last 10 years are not required to sit the ALSET. Where an applicant chooses to sit the ALSET these results will be considered along with their other results in determining the admission outcome. Applicants are required to complete the ALSET if they:

- have not completed any previous tertiary studies
- have completed previous tertiary studies that are more than 10 years old
- have a completed year 12 qualification that is more than 10 years old

You would not be required to re-sit the ALSET if you completed it in 2010, 2011 or 2012 and intend to use the result for 2014 applications.

If you are unsure whether or not you should sit the ALSET for Deakin Law courses email bl-llb@deakin.edu.au outlining why you believe you should be exempt.

**Special Tertiary Admissions Test (STAT)**

STAT Multiple Choice is a requirement for some NONY12 applicants in particular courses. Please check the course entry carefully to determine which courses require the test.

All Faculty of Health courses, require a STAT Multiple Choice where the applicant has not completed Year 12 (or equivalent) or has not undertaken any tertiary study within the last five years. Applicants for Nursing courses who are registered or eligible to register as an enrolled nurse are not required to sit the STAT.

**Recognition of prior learning**

Credit for prior learning is granted by the relevant Faculty and must be consistent with the relevant course regulations and rules. For more information go to the website.

For more information: www.deakin.edu.au/future-students/applications-enrolments/applications/credit

**Industry based learning**

Many Deakin courses provide opportunities to gain work experience through Work-Integrated Learning programs.

For more information: www.deakin.edu.au/study-at-deakin/study-options-and-pathways/work-experience

**Requirements to undertake industry placement**

Students may be required to obtain a successful Police Check, Working with Children Check and/or receive specific immunisations and/or health screenings in order to participate in the work experience/industry placement component of some courses.

For more information: www.deakin.edu.au/study-at-deakin

**Course transfers**

Current Deakin students who wish to transfer to another course within the University must apply directly to their Faculty, not through VTAC.

For more information: www.deakin.edu.au/study-at-deakin/apply/enrol-defer-withdraw-or-transfer

**Course fees**
Information about 2014 course fees (including fees for international students) is available on the website.
For more information: www.deakin.edu.au/study-at-deakin/fees

Scholarships

You could be eligible for one of Deakin University's scholarships. We offer a wide range of academic excellence (merit) and access and equity (needs-based) scholarships.

We have a strong commitment to broadening access to higher education demonstrated through our comprehensive range of Academic Excellence and Access and Equity Scholarships.

Scholarships can cover all or part of your student contribution fee. Some provide cash payments to assist with the costs associated with studying, some incorporate work-integrated learning opportunities and some offer a mentoring component. We also have scholarships that cover the costs of living on-campus at one of the Deakin Residences at Burwood, Warrnambool or Geelong.

- Academic Excellence Scholarships: Our Academic Excellence Scholarships aim to recognise people with outstanding academic abilities and assist them in achieving their potential.
- Access and Equity Scholarships: Access to higher education can have a profound impact on your future potential. We believe education is the key to social, cultural and economic prosperity. At Deakin we are committed to increasing access to higher education for students who are experiencing economic, social or geographical disadvantage.

Selected scholarships offered by Deakin are available through the VTAC Scholarship Application. For a full list of Deakin scholarships on offer for 2014 and the application process visit our website.

For more information: www.deakin.edu.au/study-at-deakin/scholarships-and-awards

Graduate entry teaching courses

For information about eligibility requirements for graduate entry teaching courses visit our website.

For more information: www.deakin.edu.au/arts-ed/education/courses/grad-entry

Participation in VTAC offer rounds

Deakin University courses may participate in the early offer round through VTAC. For further information refer to the VTAC website in November.

Deferment policy

Deferment for a maximum of 24 months is possible in all courses for regular offers only. For further information visit the website.

For more information: www.deakin.edu.au/study-at-deakin/apply/enrol-defer-withdraw-or-transfer

Student services

Support services

For a comprehensive list of Deakin's support services including childcare, medical centres and sport and recreation facilities please visit the website.

For more information: www.deakin.edu.au/campus-
life/services-and-facilities

Accommodation
For further information: Email: du.residence@deakin.edu.au Phone: Geelong Waurn Ponds Campus - 03 5227 1158 Melbourne Burwood Campus - 03 9251 7671 Warrnambool Campus - 03 5563 3111

For more information: www.deakin.edu.au/studentlife/residences

Disability services
If you have a disability or long term medical condition which impacts on your study, you are strongly advised to discuss any services you might require with the student advisers in the Disability Resource Centre.

For more information: www.deakin.edu.au/current-students/services/disability

Indigenous services
Deakin's Institute of Koorie Education has a community-based learning model that provides a holistic approach to education. It involves a combination of both on-and off-campus teaching which is complemented by local tutors at the regional study centres.

For more information: www.deakin.edu.au/ike

International student services
For all information regarding international student services please visit the website.

For more information: www.deakin.edu.au/study-at-deakin/international-students

Animation and Motion Capture (HE)

- Bachelor of Creative Arts (Animation and Motion Capture): 3 years full time study

About the course: Animation and Motion Capture prepares students for careers as animators for the animation, games, arts, education, TV, and film industries with opportunities for internships and postgraduate and industry led research. Students develop practical skills and study animation and motion capture history and theory. The course gives all students access to two core specialist strands: (1) 2D camera and computer animation including 3D animation support, or (2) 3D computer graphic animation focusing on motion capture technologies and character animation in Deakin's world class Motion Lab facility. Students can specialise in either strand or undertake studies across both areas. The course offers further flexibility for combining specialist animation skills with other creative arts disciplines including Visual Arts, Drama, Dance, Film & Television, Visual Communication Design and Photography. Comprises 24 credit points over three years, including 14 core units when completing both strands.

Major studies: 2D animation, 3D animation, Animation, Audio and visual effects, Audio visual studies, Character design and rigging, Compositing, Creative arts, Dance, Documentary and experimental filmmaking, Drama, Film and television, Film studies, Film titling, Fine arts, Interactive art, Media, Motion capture, Narrative, Photography,
Project management, Quality management, Screen production, Screen studies, Stereoscopy, Stop motion animation, Storyboarding, Television studio production, Verbal communication, Visual arts, Visual arts and crafts, Visual communication design, Written communication.

**Prerequisites:** Units 3 and 4: a study score of at least 25 in English (EAL) or 20 in English other than EAL.

**Middle-band:** Satisfactory completion in Art, any English, Media, Interactive Digital Media C, Studio Arts or Visual Communication Design is considered.

**Selection Mode:** CY12: ATAR and middle-band.
NY12: Educational History including GPA.
SEAS is considered.

- Bachelor of Architectural Technology: 3 years full time study

**About the course:** Provides students with a theoretical and practical grounding in Architectural Technology, which is a discipline that examines the current and future structures, the development of architecture documents, and the procurement of architecture and its technologies in order to maximise value in the construction process. The course produces specialists in the application of technology to architecture, building design and construction services and solutions.
This is a 24 credit point course studied through Deakin and The Gordon. Ten credit points of studies are undertaken at Deakin concurrently with the equivalent of 14 credit points at The Gordon (under the TAFE fee arrangements). Students commence their studies at The Gordon in early February. Under normal, full-time progression, second year studies are undertaken jointly at The Gordon and Deakin, and third year studies at Deakin. As the course is delivered by two institutions, start and end dates for study periods will vary.

**Major studies:** Architecture, Building (science and technology), Building control and legislation, Building information modelling, Building surveying procedures (compliance), Computer applications, Computer-aided drafting (CAD), Economics, Environment and sustainability, Project administration, Project management, Quantity surveying.

**Prerequisites:** Units 3 and 4: a study score of at least 25 in English (EAL) or 20 in English other than EAL.

**Middle-band:** Satisfactory completion in Product Design And Technology, Economics, any English, any Mathematics or any Science is considered.

**Selection Mode:** CY12: ATAR and middle-band.
NY12: Educational History including GPA, VTAC Personal Statement (All), Supplementary form (All). See extra requirements for more information.
SEAS is considered.

**Extra requirements:**
VTAC Personal Statement (NY12-All) : NY12 applicants must complete and submit a VTAC Personal Statement.
Supplementary form (NY12-All) : NY12 applicants must complete and submit a School of Architecture and Built Environment Personal Particulars Form by email to ab-info@deakin.edu.au by 20 December 2013. The form is available from [http://www.deakin.edu.au/study-at-deakin/apply/apply-for-a-course-undergraduate/entry-requirements-undergraduate](http://www.deakin.edu.au/study-at-deakin/apply/apply-for-a-course-undergraduate/entry-requirements-undergraduate)

- Bachelor of Design (Architecture): 3 years full time study

**About the course:** At Deakin you study architecture from day one, learning to explore ideas imaginatively and develop your own potential to design stimulating environments for private and public living. Architecture is a professional discipline that embodies all creative fields concerning the design of our physical environment, whether residential, cultural, commercial or industrial. Students will have the opportunity to study a wide range of areas. Sustainable approaches to architecture are essential for cities to provide for the future and the program is supported by our special research in this area. Deakin's Architecture program comprises two degrees taken over five years; the three-year Bachelor of Design (Architecture) followed by the two-year Master of Architecture. The two-tiered architecture course is accredited by the Australian Institute of Architects and fulfils the academic requirements for subsequent registration as an architect.

Twenty four credit points over three years.

**Major studies:** Building (technology), Design architecture, Environment and sustainability, History (architecture), Professional practice, Visual communication.

**Prerequisites:** Units 3 and 4: a study score of at least 25 in English (EAL) or 20 in English other than EAL.
Middle-band: Satisfactory completion in Product Design And Technology, any English, any History, Studio Arts, any Science or Visual Communication Design is considered.

Selection Mode: CY12: ATAR and middle-band.
NY12: Educational History including GPA, VTAC Personal Statement (All), Supplementary form (All). See extra requirements for more information.
SEAS is considered.

Extra requirements:
VTAC Personal Statement (NY12-All) : NY12 applicants must complete and submit a VTAC Personal Statement.
Supplementary form (NY12-All) : NY12 applicants must complete and submit a School of Architecture and Built Environment Particulars Form by 20 December. The form is available from http://www.deakin.edu.au/study-at-deakin/apply/apply-for-a-course-undergraduate/entry-requirements-undergraduate

### Architecture (Grad)

**Deakin University**

- Geelong Waterfront: Commonwealth-supported places full-time/part-time
- Geelong Waterfront: Domestic fee-paying places full-time/part-time
- Geelong Waterfront: International fee-paying places full-time/part-time

- Master of Architecture: 2 years full time study

**About the course:** The Master of Architecture provides students with specialist education, building upon an established background in architecture and built environment studies. It offers advanced studies in cultural, technological, design, and theoretical knowledge, and develops the ethical, evaluative and research frameworks which underpin the architecture field. The Master of Architecture degree has been designed to allow incorporation of the final units required to fulfil the academic requirements required for professional accreditation and registration of graduates.

**Major studies:** Architecture, Building (technology), Environment and sustainability, History and theory (architecture), Professional practice, Visual communication.

**Prerequisites:** Bachelor Degree in architecture comprising at least three years of study in the area.

**Middle-band:** None

**Selection Mode:** NY12: Educational History including GPA, Folio (All), Work experience (All). See extra requirements for more information.

**Extra requirements:**
- Folio (NY12-All) : Please refer to www.deakin.edu.au/sebe/ab for details
- Work experience (NY12-All) : Please refer to www.deakin.edu.au/sebe/ab for details

Bachelor of Design (Architecture)/Construction Management: 5 years full time study

**About the course:** Deakin offers a distinctive five year Bachelor of Design (Architecture)/Bachelor of Construction Management combined degree which provides students with an extensive knowledge of building design and project management, opening up new opportunities in the holistic design and development of our physical environment. Study architecture and construction management from day one with an emphasis on real applications set in a global perspective. Students also have the flexibility to exit early with either degree or continuing studies in the combined degree. An accelerated program can be completed in four years, utilising the three trimester periods. This combined degree is also designed to meet the needs of students who wish to continue on to the one year Master of Architecture (Design). This six year combination is an accredited award which makes you both eligible to join the Australian Institute of Architects and to subsequently register as an architect. Forty credit points over five years.

**Major studies:** Architecture, Building (technology), Economics, Environment and sustainability, History (architecture), Management, Professional practice, Quantity surveying, Visual communication.

**Prerequisites:** Units 3 and 4: a study score of at least 25 in English (EAL) or 20 in English other than EAL.

**Middle-band:** Satisfactory completion in Business Management, Product Design And Technology, Economics, any English, any History, Studio Arts, any Science or Visual Communication Design is considered.

**Selection Mode:** CY12: ATAR and middle-band. NY12: Educational History including GPA, VTAC Personal Statement (All), Supplementary form (All). See extra requirements for more information.

**SEAS** is considered.

main round

- Bachelor of Arts: 3 years full time study

**About the course:** Provides students with the skills, knowledge and flexibility to pursue new and evolving career paths in a range of organisational settings.

Students will gain a sound and broad knowledge of contemporary understandings of social sciences, arts and humanities and can choose from a wide range of subjects. Our work integrated learning units ensure our students have an opportunity to develop their skills prior to employment and gain practical as well as academic knowledge. Our graduates can work in a variety of cutting edge, rapidly growing fields, such as new media, film and animation, as well as the more traditional corporate, government and educational settings.

Students will experience practical learning in areas such as teamwork, critical thinking, research and creative problem solving and may choose elective studies as part of a second major sequence either from within the Faculty's large offering, or from another faculty. Twenty-four credit points over three years.

**Major studies:** Animation (Melbourne), Anthropology (Geelong; Off-campus), Arabic (Geelong; Melbourne; Off-campus), Australian studies (all campuses; Off-campus), Children's literature, Chinese (Geelong; Melbourne), Criminology (Geelong; Off-campus), Drama (Melbourne), Film studies (Melbourne), History (Geelong; Melbourne; Off-campus), Indonesian (Geelong; Melbourne; Off-campus), International Relations (Geelong; Melbourne; Off-campus), Journalism (all campuses; Off-campus), Language and culture (Geelong; Melbourne; Off-campus), Literary studies (Geelong; Melbourne; Off-campus), Media and communication (all campuses; Off-campus), Middle East studies (Geelong; Melbourne; Off-campus), Philosophy (Geelong; Melbourne; Off-campus), Photography (Melbourne), Politics and policy studies (all campuses; Off-campus), Professional and Creative Writing (Geelong; Melbourne), Public relations (Geelong; Warrnambool; Off-campus), Sociology (all campuses; Off-campus), Visual arts (Geelong Waterfront; Melbourne; Warrnambool).

**Prerequisites:** Units 3 and 4: a study score of at least 25 in English (EAL) or 20 in English other than EAL.

**Middle-band:** Satisfactory completion in any English, any Humanities or any LOTE is considered.

**Selection Mode:** CY12: ATAR and middle-band.
NY12: Educational History including GPA.
SEAS is considered.

**Extra requirements:**
None

Bachelor of Arts (Psychology): 3 years full time study

**About the course:** The course combines research-based and professional studies in psychology with broad studies in the liberal and creative arts, and provides opportunities to develop skills of critical and systematic thinking; an imaginative understanding and appreciation of the theory and practice of the social sciences, the humanities or the arts; and enhanced cultural sensitivity and understanding.

The course develops capabilities for interpreting sources of knowledge, and develops the capacity for quantitative and qualitative analysis, and the capacity for critique and creative thinking. Students will develop an understanding of psychology as a scientific discipline and appreciate the role it plays within society as a whole.

The psychology and arts sequences seek to develop in students the skills required to integrate, evaluate, and communicate knowledge; produce new knowledge through research and analysis; and apply knowledge of theory and methodology into professional situations.

**Major studies:** Animation (Melbourne), Anthropology (Geelong; Off-campus), Arabic (Geelong; Melbourne; Off-campus), Australian studies (all campuses; Off-campus), Children's literature (all campuses; Off-campus), Chinese (Geelong; Melbourne), Criminology (Geelong; Off-campus), Drama (Melbourne), Film Studies (Melbourne), History (Geelong; Melbourne; Off-campus), Indonesian (Geelong; Melbourne; Off-campus), International relations (Geelong; Melbourne; Off-campus), Journalism (all campuses; Off-campus), Language and culture studies (Geelong; Melb; Off-campus), Literary studies (Geelong; Melbourne; Off-campus), Media and communication (all campuses; Off-campus), Middle East studies (Geelong; Melbourne; Off-campus), Philosophy (Geelong; Melbourne; Off-campus), Photography (Melbourne), Politics and policy studies (all campuses; Off-campus), Professional and creative writing (Geelong; Melbourne), Psychology (all campuses; Off-campus), Public relations (Geelong; Warrnambool; Off-campus), Sociology (all campuses; Off-campus), Visual arts (Geelong Waterfront; Melbourne; Warrnambool).

**Prerequisites:** Units 3 and 4: a study score of at least 25 in English (EAL) or 20 in English other than EAL.

**Middle-band:** Satisfactory completion in Biology, any English, Health And Human Development, any Humanities or any Mathematics is considered.

**Selection Mode:** CY12: ATAR and middle-band.
NY12: Educational History including GPA.
SEAS is considered.

**Extra requirements:**
None
Bachelor of Arts/Commerce: 4 years full time study

About the course: Provides an opportunity to pursue complementary areas of study in commerce and arts such as journalism/finance, public relations/marketing, economics/sociology, politics and policy studies/management.

Students complete 32 credit points over 4 years, comprising 16 arts credit points and 16 commerce credit points. The 16 credit points required for commerce must include 10 credit points of core units. In addition students must complete a prescribed commerce major sequence. Within the 16 arts credit points students are required to complete a minimum of 4 credit points at level 3 and a prescribed arts major sequence.

Students enrolled at the Geelong Waurn Ponds Campus will be required to undertake commerce and some arts units at the Geelong Waterfront Campus. Listed commerce major sequences may involve one or two units being undertaken in off-campus/online mode- refer to the University handbook for further details: www.deakin.edu.au/handbook.

Major studies: Accounting, Accounting information systems (Geelong; Melbourne), Animation (Melbourne only), Anthropology (Geelong only), Arabic (Geelong; Melbourne), Australian studies, Business (information systems) (Geelong; Melbourne), Business analytics (Geelong; Melbourne), Children's literature, Chinese (Geelong; Melbourne), Commerce, Criminology (Geelong only), Drama (Melbourne only), E-business (Geelong; Melbourne), Economics (Geelong; Melbourne), Film studies (Melbourne only), Finance, History (Geelong; Melbourne), Human resource management (Geelong; Melbourne), Indonesian (Geelong; Melbourne), Interactive marketing (Geelong; Melbourne), International business (Melbourne only), International management (Geelong; Melbourne), International relations (Geelong; Melbourne), International trade and economic policy (Geelong; Melbourne), Journalism, Language and culture studies (Geelong; Melbourne), Law (commercial) (Geelong; Melbourne), Literary studies (Geelong; Melbourne), Management (Geelong; Melbourne), Marketing (Geelong; Melbourne), Media and communication, Middle East studies (Geelong; Melbourne), Philosophy (Geelong; Melbourne), Photography (Melbourne only), Politics and policy studies, Professional and creative writing (Geelong; Melbourne), Public relations (Geelong; Warrnambool), Quantitative business analysis (Geelong; Melbourne), Sociology, Supply chain management (Geelong; Melbourne), Visual arts.

Prerequisites: Units 3 and 4: a study score of at least 25 in English (EAL) or 20 in English other than EAL.

Middle-band: Satisfactory completion in any Business, any English, any Humanities, any Information Technology or Maths: Mathematical Methods (CAS) is considered.

Selection Mode: CY12: ATAR and middle-band.
NY12: Educational History including GPA.
SEAS is considered.

- Bachelor of Arts/Laws: 5 years full time study

**About the course:** Combining an arts degree with a law degree enhances students’ understanding of the context in which the law operates. Arts/Law students can study areas such as sociology, philosophy, politics or literature in addition to studies in law. This course satisfies the academic requirements for admission to practise law in Victoria and has a commercial law focus. Students complete 40 credit points over 5 years, comprising 16 arts credit points and 24 law credit points. Within the 24 law credit points there are 21 core units and 3 law elective units. In addition, students must complete the professional experience requirements. Within the 16 arts credit points students complete a prescribed Arts major sequence (Visual arts at Geelong is taken at Waterfront campus). Note: The Warrnambool Campus offering is for the first three years only. Students will then transfer to the Geelong Waterfront Campus or off campus.

Students enrolled at the Geelong Waterfront Campus will be required to undertake some Arts units at the Geelong Waurn Ponds Campus and at the Geelong Waterfront Campus.

Selection for non current year 12 is ALSET (100%), or ALSET (50%) combined with a GPA (50%). GPA from Bachelor level and postgraduate studies from courses undertaken during or after 2004.

**Major studies:** Animation (Melbourne), Anthropology (Geelong only), Arabic (Geelong; Melbourne), Australian studies, Children's literature, Chinese (Geelong; Melbourne), Criminology (Geelong only), Drama (Melbourne), Film studies (Melbourne), History (Geelong; Melbourne), Indonesian (Geelong; Melbourne), International relations (Geelong; Melbourne), Journalism, Language and culture studies (Geelong; Melbourne), Law, Law (administrative), Law (business), Law (commercial), Law (constitutional), Law (consumer), Law (contract), Law (copyright), Law (corporate), Law (court processes), Law (criminal), Law (e-commerce), Law (environmental), Law (evidence), Law (family), Law (financial institutions and securities), Law (health), Law (industrial relations), Law (international), Law (legal theory), Law (litigation), Law (marketing), Law (probate), Law (property), Law (taxation), Law (torts), Literary studies (Geelong; Melbourne), Media and communication, Middle East studies (Geelong; Melbourne), Philosophy (Geelong; Melbourne), Photography (Melbourne), Politics and policy studies, Professional and creative writing (Geelong; Melbourne), Public relations (Geelong only), Public relations (Geelong; Warrnambool), Sociology, Visual arts.
**Prerequisites:** Units 3 and 4: a study score of at least 35 in English (EAL) or 30 in English other than EAL.

**Middle-band:** Satisfactory completion in any English, any History, Legal Studies, Australian Politics or Global Politics is considered.

**Selection Mode:** CY12: ATAR and middle-band.
NY12: Educational History including GPA, VTAC Personal Statement (Some), ALSET (Some). See extra requirements for more information.
SEAS is considered.

**Extra requirements:**

VTAC Personal Statement (NY12-Some): NY12 applicants who wish experience to be considered must include this information on their VTAC Personal Statement.
ALSET (NY12-Some): NY12 applicants must complete the ALSET (see Admissions Tests). Refer to [insert web address] for exemptions.

- Bachelor of Biological Science: 3 years full time study

About the course: Biological Science at Deakin teaches advanced critical thinking and practical skills where you will study the structure, function, behaviour and evolution of living organisms, ranging from the simplest of microbes to the most complex communities of large plants and animals - including humans. The course gives students relevant and wide-ranging practical experience in both the laboratory and in the field. Students will have the opportunity to conduct research projects in cell and molecular biology, genetics, physiology, zoology or ecology to gain real life experience in their profession. Students are taught by lecturers who are active researchers in their chosen field of biology. Graduates may undertake a career in areas such as animal health, agriculture and food industry, biotechnology, ecology and natural resources, education, health and medical industries.

Twenty four credit points over three years.

Major studies: Anatomy and physiology, Animal and plant biology, Animal diversity, Australian invertebrates, Biochemistry, Biological sciences, Biology, Botany, Cell biology, Cell physiology, Conservation biology/ecology, Ecological studies, Environmental science, Evolutionary biology, Genetics, Human biology, Immunology, Microbiology, Molecular and cell biology, Palaeontology, Physiology, Plant sciences, Science, Zoology.

Prerequisites: Units 3 and 4: a study score of at least 25 in English (EAL) or 20 in English other than EAL.

Middle-band: Satisfactory completion in any English, any Mathematics or any Science is considered.

Selection Mode: CY12: ATAR and middle-band.
NY12: Educational History including GPA.
SEAS is considered.

Bachelor of Biomedical Science: 3 years full time study

About the course: Biomedical Science at Deakin covers the science underpinning medical applications, from basic biology to specific disease processes. Students gain the theoretical foundation and scientific skills to expand and apply their knowledge of human biology and health, with an emphasis on causes, diagnosis and treatment of disease at the molecular, cellular and system levels. The course gives students relevant and wide-ranging practical experience, ensuring students have both theoretical knowledge and practical skills required for a diverse range of careers or further study. Graduates may be able to enter a range of health-related industries including medical research, laboratory technology, genetic engineering, pharmaceutical/medical sales, teaching, government positions and health organisations. Graduates may also be eligible to apply for entry to Deakin's Bachelor of Medicine/Bachelor of Surgery degree.

Twenty four credit points over three years.

Major studies: Anatomy, Biochemistry, Bioinformatics, Biology, Biomedical science, Bioscience, Cell biology, Environmental Health (Melbourne only), Genetics, Human biology, Immunology (Melbourne only), Infection and Immunology (Geelong only), Medical Biotechnology (Geelong only), Medical Microbiology, Medical research, Medical science, Microbiology, Molecular and cell biology, Molecular and human genetics, Molecular biology, Pathophysiology, Physiology.

Prerequisites: Units 3 and 4: a study score of at least 25 in English (EAL) or 20 in English other than EAL.

Middle-band: Satisfactory completion in any English, any Mathematics or any Science is considered. Satisfactory completion in Biology, Chemistry or Physics equals 1 aggregate point per study.

Selection Mode: CY12: ATAR and middle-band.

NY12: Educational History including GPA.

SEAS is considered.

Warrnambool: 1400716303 (IFP) full-time

- Business Scholars Program: 4 years full time study
About the course: The Business Scholars Program is for high achieving students undertaking a business degree (excluding law) in the Faculty of Business and Law. The scholarship provides financial assistance, academic mentoring, opportunities for acceleration and preparation for Honours work. Graduates may be eligible to apply for professional membership to a range of organisations depending on the degree completed. Refer to specific course entries from the list of Deakin University Business (Sport Management), Information Systems, Commerce, Management, Property and Real Estate and Sport Development courses. The duration of the Business Scholars Program depends on the degree selected. Refer also to the Campus of offer for each course within specific course entries. For CY12 students only.

Applicants expecting an ATAR of 90 or more are encouraged to apply. Listed major sequences may involve one or two units being undertaken in off-campus/online mode - refer to the University handbook for further details: www.deakin.edu.au/handbook. This course is restricted to a limited number of CY12 students with a high ATAR. Business Scholars Program applicants should make a separate VTAC application for their preferred course. Preferences listed in the Business Scholars Program Supplementary Preference Form are used solely for this program.

Major studies: Accounting, Accounting information systems (Geelong; Melb; Off-campus), Business (information systems), Business (Sport Management) (Melbourne; Off-campus), Business analytics (Geelong; Melbourne; Off-campus), Business security management (Geelong; Melb; Off-campus), Commerce, E-business (Geelong; Melbourne; Off-campus), Economics, Finance, Financial planning, Human resource management (Geelong; Melbourne; Off-campus), Interactive marketing (Geelong; Melbourne; Off-campus), International business (Geelong; Melbourne; Off-campus), International management (Geelong; Melbourne; Off-campus), International trade and economic policy (Geel; Melb; Off), Law (commercial) (Geelong; Melbourne; Off-campus), Management (Geelong; Melbourne; Off-campus), Marketing (Geelong; Melbourne; Off-campus), Professional practice (Geelong; Melbourne; Off-campus), Property (Melbourne; Off-campus), Property (Valuation) (Melbourne; Off-campus), Property and Real Estate (Geelong; Melbourne; Off-campus), Quantitative business analysis (Geelong; Melb; Off-campus), Sport (Development) (Melbourne; Off-campus), Sport (Management) (Melbourne; Off-campus), Supply chain management (Geelong; Melbourne; Off-campus), Sustainability (Geelong; Melbourne; Off-campus), Technology management(Geelong; Melbourne; Off-campus).

Prerequisites: Units 3 and 4: a study score of at least 35 in English (EAL) or 30 in English other than EAL.

Middle-band: None

Selection Mode: CY12: ATAR, Supplementary form (All). See extra requirements for more information.

SEAS is considered.

Extra requirements:

Supplementary form (CY12-All): All applicants must complete and submit a Business Scholars Program Supplementary Preference Form by email to bl-scholarships@deakin.edu.au by 20 December. The form is available from http://www.deakin.edu.au/study-at-deakin/apply/apply-for-a-course-undergraduate/entry-requirements-undergraduate

- Bachelor of Arts(Chinese)/Commerce: 4 years full time study

About the course: Provides an opportunity to combine an arts degree in a specialist language and cultural studies with a commerce degree. Graduates of the course will have acquired functional competence in the Chinese language for business and related professional purposes and cultural competence to complement linguistic skills. They will develop an understanding of the cultural factors influencing Chinese attitudes and trading strategies, an
understanding of the Australian and international economic systems. Graduates will also gain a basic understanding of accounting, economics, finance, marketing, commercial law, management, business information systems and business statistics. Students complete 32 credit points over 4 years, comprising 16 arts credit points and 16 commerce credit points. Within the 16 credit points required for arts students must complete a Chinese language major sequence and 4 credit points of core Chinese units.

Listed commerce major sequences may involve one or two units being undertaken in off-campus/online mode—refer to the University handbook for further details: [www.deakin.edu.au/handbook](http://www.deakin.edu.au/handbook).

**Major studies:** Accounting, Accounting information systems, Arabic, Business (information systems), Business analytics, Chinese, Commerce, E-business, Economics, Finance, Human resource management, Indonesian, Interactive marketing, International business, International management, International relations, International trade and economic policy, Language and culture studies, Law (commercial), Management, Marketing, Middle East studies, Philosophy, Politics and policy studies, Quantitative business analysis, Supply chain management.

**Prerequisites:** Units 3 and 4: a study score of at least 25 in English (EAL) or 20 in English other than EAL.

**Middle-band:** Satisfactory completion in any Business, any English, any Humanities, any Information Technology, any LOTE or Maths: Mathematical Methods (CAS) is considered.

**Selection Mode:**

- CY12: ATAR and middle-band.
- NY12: Educational History including GPA, VTAC Personal Statement (Some). See extra requirements for more information.
- SEAS is considered.

**Extra requirements:**

VTAC Personal Statement (NY12-Some): NY12 applicants who wish experience to be considered must include this information on their VTAC Personal Statement.

**Commerce (HE)**
Bachelor of Commerce: 3 years full-time study

About the course: Broad-based business degree with a solid foundation in business studies, the flexibility to choose from 17 major sequences and the option to specialise in two disciplines. Study common first year units, then choose and combine areas of study as you progress. Commerce enables you to tailor your degree for maximum employment opportunities and provides a foundation for a variety of career opportunities in virtually every area of business and government, domestically and internationally. Graduates find careers such as professional accountant, financial analyst, manager, IT consultant, economic analyst, financial planner, business analyst, human resources officer, and marketing assistant/manager. Depending on units completed, graduates may apply for membership with CPA Australia, Institute of Chartered Accountants in Australia (ICAA), the Association of Chartered Certified Accountants (ACCA) and/or the Institute of Public Accountants (IPA). The course consists of 24 credit points over 3 years, 16 commerce credit points, including 10 core credit points and at least one commerce major sequence.

Listed major sequences may involve one or two units being undertaken in off-campus/online mode - refer to the University handbook for further details: www.deakin.edu.au/handbook.
Off-campus), International trade and economic policy (Geel; Melb; Off), Law (commercial) (Geelong; Melbourne; Off-campus), Management (Geelong; Melbourne; Off-campus), Marketing (Geelong; Melbourne; Off-campus), Quantitative business analysis (Geelong; Melb; Off-campus), Supply chain management (Geelong; Melbourne; Off-campus).

**Prerequisites:** Units 3 and 4: a study score of at least 25 in English (EAL) or 20 in English other than EAL.

**Middle-band:** Satisfactory completion in any Business, any Information Technology or Maths: Mathematical Methods (CAS) is considered.

Bachelor of Commerce/Laws: 5 years full time study

About the course: Commerce/Laws (BCom and LLB) provides students with a sound understanding of business principles and how the law operates in the business world. The BCom provides a foundation in virtually every area of business and government, domestically and internationally. The LLB satisfies the academic requirements for admission to practise law in Victoria and has a commercial law focus. Practical training and professional work experience are supported by one BCom major sequence. Students complete 40 credit points over 5 years, comprising 16 credit points from the BCom, including 10 credit points of core units and students must complete a prescribed BCom major sequence. Students also complete 24 credit points from the LLB, 21 core credit points and 3 credit points LLB elective units. Note: The Warrnambool Campus offering is for the first 3 years only. Students will then transfer to the Geelong Waterfront Campus or off campus.

Listed commerce major sequences may involve one or two units being undertaken in off-campus/online mode- refer to the University handbook for further details: www.deakin.edu.au/handbook.

Selection for non current year 12 is ALSET (100%), or ALSET (50%) combined with a GPA (50%). GPA from Bachelor level and postgraduate studies from courses undertaken during or after 2004.

Major studies:
- Accounting
- Accounting information systems (Geelong; Melbourne; Off-campus)
- Business (information systems) (Geelong; Melbourne)
- Business analytics (Geelong; Melbourne; Off-campus)
- Commerce, E-business (Geelong; Melbourne)
- Economics (Geelong; Melbourne; Off-campus)
- Finance
- Human resource management (Geelong; Melbourne)
- Interactive marketing (Geelong; Melbourne)
- International business (Melbourne only)
- International management (Geelong; Melbourne)
- International trade and economic policy (Geelong; Melbourne)
- Law, Law (administrative), Law (business), Law (constitutional), Law (consumer), Law (contract), Law (copyright), Law (corporate), Law (court processes), Law (criminal), Law (e-commerce), Law (environmental), Law (evidence), Law (family), Law (financial institutions and securities), Law (health), Law (industrial relations), Law (international), Law (legal theory), Law (litigation), Law (marketing), Law (probate), Law (property), Law (taxation), Law (torts), Management (Geelong; Melbourne)
- Marketing (Geelong; Melbourne)
- Quantitative business analysis (Geelong; Melbourne)
- Supply chain management (Geelong; Melbourne)

Prerequisites: Units 3 and 4: a study score of at least 35 in English (EAL) or 30 in English other than EAL.

Middle-band: Satisfactory completion in any English, any History, Legal Studies, Australian Politics or Global Politics is considered.

Selection Mode: CY12: ATAR and middle-band.
NY12: Educational History including GPA, VTAC Personal Statement (Some), ALSET (Some). See extra requirements for more information.
SEAS is considered.

Extra requirements:
- VTAC Personal Statement (NY12- Some): NY12 applicants who wish experience to be considered must include this information on their VTAC Personal Statement.
- ALSET (NY12- Some): NY12 applicants must complete the ALSET (see Admissions Tests). Refer to [insert web address] for exemptions.
Bachelor of Commerce/Science: 4 years full time study

**About the course:** Gain skills in commerce studies in areas such as accounting, economics, management or business information systems, together with skills in a relevant science stream such as biological chemistry, biology, chemistry, environmental science, mathematical modelling or zoology. You will gain a broad knowledge of contemporary science, giving you the potential to work in a wide range of fields, including agriculture, medicine and human health, pharmaceuticals, forensics and food technology. 32 credit points over 4 years, comprising 16 commerce credit points and 16 science credit points. The 16 credit points required for commerce must include 10 credit points of core units. In addition students must complete a prescribed commerce major sequence. Within the 16 credit points required for science, students must complete at least one major sequence.

Students enrolled at the Geelong Waterfront Campus will be required to undertake Science units at the Geelong Waurn Ponds Campus. Listed commerce major sequences may involve one or two units being undertaken in off-campus/online mode- refer to the University handbook for further details: [www.deakin.edu.au/handbook](http://www.deakin.edu.au/handbook)

**Major studies:** Accounting, Accounting information systems, Biochemistry, Biological chemistry, Biology, Business (information systems), Business analytics, Chemistry, Commerce, E-business, Economics, Environmental science (Melbourne only), Finance, Human resource management, Interactive marketing, International business (Melbourne only), International management, International trade and economic policy, Law (commercial), Management, Marketing, Mathematics, Mathematics (modelling), Quantitative business analysis, Science, Supply chain management, Zoology (Geelong only).

**Prerequisites:** Units 3 and 4: a study score of at least 25 in English (EAL) or 20 in English other than EAL.

**Middle-band:** Satisfactory completion in any Business, any Information Technology, any Mathematics or any Science is considered.

**Selection Mode:** CY12: ATAR and middle-band.

NY12: Educational History including GPA, VTAC Personal Statement (Some). See extra requirements for more information.

SEAS is considered.

**Extra requirements:**

VTAC Personal Statement (NY12-Some): NY12 applicants who wish experience to be considered must include this information on their VTAC Personal Statement.
Off-campus: Domestic fee-paying places full-time/part-time  
Apply: Direct to institution

Off-campus: International fee-paying places full-time/part-time  
Apply: Direct to institution

- Master of Communication: 1.5 year full time study

About the course: The course advances students communication skills, and is designed for those wanting to enter the professional communication industry and those already in the industry wanting to gain or add to their qualifications for career advancement prospects.

Major studies: Advertising, Journalism, Media and communication, Professional writing, Public relations.

Prerequisites: None

Middle-band: None

Selection Mode: NY12: Educational History including GPA.

Extra requirements: None

- Bachelor of Information Technology (Computer Science and Software Development): 3 years full time study

About the course: Students will study in a field that is constantly evolving and changing the way we live. This course focuses on the technological aspects of IT, including the development of analytical skills and an understanding of computer programming and software engineering to build a wide range of applications to solve today's problems. Students will learn about the technology on which systems are built, and how to develop both system level and application level software on a range of platforms and end devices. Graduates will be able to develop and maintain complex software systems, databases and web systems in a range of distributed and service oriented environments. Students will have access to specialised computer laboratories and the opportunity to study for industry certifications. Graduates can gain employment in a range of roles such as software developer, system analyst, business analyst, database developer, new technology researcher, project manager, solution architect and systems programmer. All students will have the opportunity to apply for internships and industry based learning placements as part of their course. Twenty-four credit points over three years.

Major studies: Computer applications, Computer programming, Computer science, Computer software, Computer systems, Computing, Database systems, Distributed systems and applications, Information and communication technology, Information technology, Internet and World Wide Web, Object-oriented design, Object-oriented modelling, Object-oriented programming, Operating systems, Programming, Programming (.NET), Programming...
Prerequisites: Units 3 and 4: a study score of at least 25 in English (EAL) or 20 in English other than EAL.

Middle-band: Satisfactory completion in any English, any Information Technology or any Mathematics is considered.

Selection Mode: CY12: ATAR and middle-band.
NY12: Educational History including GPA, VTAC Personal Statement (All). See extra requirements for more information.
SEAS is considered.

Extra requirements:
VTAC Personal Statement (NY12-All) : NY12 applicants must complete and submit a VTAC Personal Statement.

**Construction Management (Grad)**

**Deakin University**

Off-campus: Domestic fee-paying places full-time/part-time  
Apply: [Direct to institution](#)

Off-campus: International fee-paying places full-time/part-time  
Apply: [Direct to institution](#)

- Master of Construction Management: 1.5 year full time study

About the course: The course provides you with understanding, knowledge and skills in construction technology and processes, resource management, law, information technology, environmental management and construction economics. It is suitable for personnel involved in the procurement of built facilities as project managers, design managers, construction managers or quantity surveyors as well as people in government departments and commercial organisations who are responsible for the procurement of such facilities. The course provides the specialist skills related to the theoretical, policy, evaluative and research frameworks that underpin the construction professions. The course is delivered in off-campus mode, providing flexibility to fit your studies in with work and personal commitments. It brings together a range of built environment disciplines to look at issues of true international significance in terms of procurement and contractual options, project financing and sustainability economics.

Major studies: Building, Building (construction methods), Building (economics), Building (estimating), Building Construction Management, Building contract administration, Building law and building practice, Construction, Construction management, Quantity surveying.

Prerequisites: Bachelor Degree in construction management or demonstrable professional experience.

Middle-band: None

Selection Mode: NY12: Educational History including GPA, Work experience (Some). See extra requirements for more information.

Extra requirements:
Work experience (NY12-Some) : Applicants who do not meet the prerequisites may be selected based on demonstrable professional experience, comprising at least five years of professional experience in a quantity surveying environment. Please refer to the following website for further details: [www.deakin.edu.au/sebe/ab](http://www.deakin.edu.au/sebe/ab).

- Bachelor of Construction Management: 4 years full time study

About the course: The Bachelor of Construction Management is internationally recognised for practice in the construction industry. Students learn about construction and are not limited to one specialisation. Units have an industry focus that allows students to explore career options and develop professional networks. Students learn about the management of small to large projects which requires knowledge in construction technology and processes, resource management, building law, information technology, environmental management and construction economics. This course is accredited by professional institutions and provides a global passport for work in this field in Australia and overseas.

Thirty two credit points over four years. By taking selected units in Trimester 3, the course may be completed in three years.

Major studies: Building (economics), Building (surveying), Building (technology), Building contract administration, Construction, Construction management, Contracts and tenders, Professional practice, Project management, Quantity surveying.

Prerequisites: Units 3 and 4: a study score of at least 25 in English (EAL) or 20 in English other than EAL.

Middle-band: Satisfactory completion in Business Management, Economics, any English, any Mathematics or any Science is considered.

Selection Mode: CY12: ATAR and middle-band.
NY12: Educational History including GPA, VTAC Personal Statement (All), Supplementary form (All). See extra requirements for more information.
SEAS is considered.

Extra requirements:
VTAC Personal Statement (NY12-All) : NY12 applicants must complete and submit a VTAC Personal Statement.
Supplementary form (NY12-All) : NY12 applicants must complete and submit a School of Architecture and Built Environment Personal Particulars Form by 20 December. The form is available from http://www.deakin.edu.au/study-at-deakin/apply/apply-for-a-course-undergraduate/entry-requirements-undergraduate

Bachelor of Criminology: 3 years full time study

**About the course:** The course covers a wide range of topics concerning the meaning of crime; different forms, causes and consequences of crime; and the different institutions and processes developed for preventing and controlling crime. Students are provided with broad theoretical and applied knowledge and skills in relation to policy development, policing and security, and related fields. Students will have career opportunities in areas such as government agencies, state and federal police, security and intelligence agencies, research and policy development, correctional services, community services, and private security and consultative industries. Students complete twenty-four credit points over three years, including twelve credit points of Criminology and twelve credit points of general electives, where students are encouraged to complete an additional major sequence.

**Major studies:** Crime, Crime prevention, Criminal justice, Criminal justice administration, Criminology, Criminology research methods, Criminology theory, Ethics, Justice, Legal studies, Media and crime, Organised crime, Policing, Psychology, Punishment, Risk, Security, Surveillance, Terrorism, Transnational crime, Victimology, Violence.

**Prerequisites:** Units 3 and 4: a study score of at least 25 in English (EAL) or 20 in English other than EAL.

**Middle-band:** Satisfactory completion in any English or any Humanities is considered.

**Selection Mode:** CY12: ATAR and middle-band.
NY12: Educational History including GPA.
SEAS is considered.

Criminology/IT Security (HE)

**Deakin University**

Geelong: 1400310031 (CSP) full-time/part-time Apply: [Through VTAC](main round)

Off-campus: 1400610031 (CSP) full-time/part-time Apply: [Through VTAC](main round)

Bachelor of Criminology/Information Technology (IT Security): 4 years full time study

**About the course:** The course provides students with skills in securing data and data communications as well as investigating, analysing and providing solutions to computer crime. Students will gain programming and technical skills, including the design, development and management of IT security systems, risk analysis/management and forensic IT. Students will also learn about the legal, regulatory and ethical contexts in which these skills are used. Content relates to computer crime, cryptography, digital evidence and forensic IT investigation, communication and mobile security, system security and security management. The course assists students in attaining the knowledge required to become a Certified Information Systems Security Professional. Combining IT Security with Criminology covers a wide range of topics concerning the meaning of crime; different forms, causes and consequences of crime; and the different institutions and processes developed for preventing and controlling crime. Students are provided with broad theoretical and applied knowledge and skills in relation to policy development, policing and security, and related fields. Students will have career opportunities in areas such as government agencies, state and federal police, security and intelligence agencies, research and policy development, correctional services, community services, and private security and consultative industries, as well as more technical roles of a security analyst, security systems manager, security system developer/programmer, anti-virus software developer, or computer forensic specialist. Students complete thirty-two credit points over four years, comprising sixteen Criminology credit points and sixteen IT Security credit points.

**Major studies:** Computer and network security, Computer programming, Computing, Crime, Crime prevention, Criminal justice, Criminal justice administration, Criminology, Criminology research methods, Criminology theory, Cryptography, Database management, Database programming, E-security, Electronic systems, Ethics, Forensic computing, Information and communication technology, Information technology, Internet and World Wide Web, Internet technology, Justice, Legal studies, Media and crime, Mobile computing, Network management and

**Prerequisites:** Units 3 and 4: a study score of at least 25 in English (EAL) or 20 in English other than EAL.

**Middle-band:** Satisfactory completion in any English, any Humanities, any Information Technology or any Mathematics is considered.

**Selection Mode:** CY12: ATAR and middle-band.
NY12: Educational History including GPA, VTAC Personal Statement (All). See extra requirements for more information.

- Bachelor of Criminology/Laws: 5 years full time study

**About the course:** The course covers all the areas of knowledge to satisfy the academic requirements for admission to practise law in Victoria. It has a commercial law focus with an emphasis on practical training and professional work experience. Combining law with criminology provides students with broad theoretical and applied knowledge and skills concerning the meaning of crime; the forms, causes and consequences of crime; and the different institutions and processes involved in preventing and controlling crime. Students are provided with broad theoretical and applied knowledge and skills in relation to policy development, policing and security, and related fields. Students will have career opportunities in the traditional areas of legal practise as well as government agencies, state and federal police, security and intelligence agencies, research and policy development, correctional services, community services, and private security and consultative industries. Students complete 40 credit points over 5 years, comprising 16 criminology credit points and 24 law credit points. Within the 16 credit points required for criminology, students are required to undertake 12 credit points of core units and 4 credit points as elective units. Within the 24 credit points required for law, 21 credit points are core and 3 credit points are taken as elective units. In addition, students are required to complete the professional experience requirements.

Students enrolled at the Geelong Waterfront Campus will be required to undertake criminology units at the Geelong Waurn Ponds Campus.

Selection for non current year 12 is ALSET (100%), or ALSET (50%) combined with a GPA (50%). GPA from Bachelor level and postgraduate studies from courses undertaken during or after 2004.

**Major studies:** Crime, Crime prevention, Criminal justice, Criminal justice administration, Criminology, Criminology research methods, Criminology theory, Ethics, Justice, Law, Law (administrative), Law (business), Law (commercial), Law (constitutional), Law (consumer), Law (contract), Law (copyright), Law (corporate), Law (court processes), Law (criminal), Law (e-commerce), Law (environmental), Law (evidence), Law (family), Law (financial institutions and securities), Law (health), Law (industrial relations), Law (international), Law (legal theory), Law (litigation), Law (marketing), Law (probate), Law (property), Law (taxation), Law (torts), Legal studies, Media and crime, Organised crime, Policing, Punishment, Risk, Security, Surveillance, Terrorism, Transnational crime, Victimology, Violence.

**Prerequisites:** Units 3 and 4: a study score of at least 35 in English (EAL) or 30 in English other than EAL.
**Middle-band:** Satisfactory completion in any English, any History, Legal Studies, Australian Politics or Global Politics is considered.

**Selection Mode:** CY12: ATAR and middle-band.

NY12: Educational History including GPA, VTAC Personal Statement (Some), ALSET (Some). See extra requirements for more information.

SEAS is considered.

**Extra requirements:**

VTAC Personal Statement (NY12-Some) : NY12 applicants who wish experience to be considered must include this information on their VTAC Personal Statement.

ALSET (NY12-Some) : NY12 applicants must complete the ALSET (see Admissions Tests). Refer to [insert web address] for exemptions.

**Criminology/Psychological Science (HE)**

**Deakin University**

Geelong: 1400310041 (CSP) full-time/part-time  
Apply: [Through VTAC] main round

Off-campus: 1400610041 (CSP) full-time/part-time  
Apply: [Through VTAC] main round

- Bachelor of Criminology/Psychological Science: 4 years full time study

**About the course:** The course provides an accredited three-year undergraduate sequence in Psychology and includes complementary studies in individual and group counselling, health, and behaviour change. The course also offers students supervised work experience in psychology, careers counselling, and transition-to-work skills. Combining Psychology with Criminology provides students with broad theoretical and applied knowledge and skills concerning the meaning of crime; the forms, causes and consequences of crime; and the different institutions and processes involved in preventing and controlling crime. Students are provided with broad theoretical and applied knowledge and skills in relation to policy development, policing and security, and related fields. The course aims to produce graduates with an understanding and appreciation of the intersections between the disciplines of Criminology and Psychology, and substantive knowledge of each discipline. Students will have career opportunities in areas such as government agencies, state and federal police, security and intelligence agencies, research and policy development, correctional services, community services, and private security and consultative industries, as well as the many fields open to traditional psychology graduates. Students complete thirty-two credit points over four years, comprising sixteen Criminology credit points and sixteen Psychology credit points.

**Major studies:** Behavioural science, Crime, Crime prevention, Criminal justice, Criminal justice administration, Criminology, Criminology research methods, Criminology theory, Ethics, Justice, Policing, Psychology, Psychology (biological), Psychology (child and adolescent), Psychology (cognitive), Psychology (forensic), Psychology (health), Psychology (personality), Psychology (psychopathology), Psychology (social), Punishment, Risk, Security, Surveillance, Terrorism, Transnational crime, Victimology, Violence.

**Prerequisites:** Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL.

**Middle-band:** Satisfactory completion in Biology, any English, Health And Human Development, any Humanities or any Mathematics is considered.

**Selection Mode:** CY12: ATAR and middle-band.

NY12: Educational History including GPA, VTAC Personal Statement (Some), STAT (Some). See extra requirements for more information.

SEAS is considered.

**Extra requirements:**

VTAC Personal Statement (NY12-Some) : NY12 applicants who wish experience to be considered must include this information on their VTAC Personal Statement.

STAT (NY12-Some) : NY12 applicants described in the STAT section are required to sit STAT Multiple Choice.

Warrnambool: 1400710023 (IFP) full-time/part-time  Apply: Through VTAC main round

- Bachelor of Early Childhood Education: 4 years full time study

About the course: Enrolment in Deakin's Bachelor of Early Childhood Education is available to Year 12 and Non Year 12 applicants. The course has been adapted to meet new national standards in early childhood education, and includes a primary teaching component, allowing graduates to teach children up to age 8 years. The course meets the requirements of the relevant accrediting authorities for working in early childhood educational settings and
primary school settings.

The course teaches students to apply an understanding of curriculum theories and pedagogies in designing and implementing child-centred, play-based, developmentally appropriate programs in early childhood and primary school contexts. Students also learn to identify and respond positively to contemporary issues and the changing work context within early childhood education.

This course is offered in flexible study modes over 4 years and can be fast-tracked by studying under Deakin's 3-trimester system, enabling completion in 9 trimesters.

**Major studies:** Education, Literacy, Numeracy, Professional practice, Teaching.

**Prerequisites:** Units 1 and 2: satisfactory completion in two units (any study combination) of General Mathematics or Mathematical Methods or Units 3 and 4: any Mathematics; and a study score of at least 30 in English (EAL) or 25 in English other than EAL.

**Middle-band:** Satisfactory completion in any English, any LOTE or any Mathematics is considered.

**Selection Mode:** CY12: ATAR and middle-band.

NY12: Educational History including GPA, STAT (Some). See extra requirements for more information.

SEAS is considered.

**Extra requirements:**

STAT (NY12-Some): Applicants who do not meet the Mathematics and English VCE prerequisites, or who have not completed Year 12 or not undertaken study within the last 5 years must complete the STAT Multiple Choice

**Apply:** [Direct to institution](http://www.wss8.vtac.edu.au/courses-inst/institutions/topdf/deakin.html)

- Master of Education: 1 year full time study

**About the course:** The Master of Education is offered to professional educators. Students can choose to do coursework only, or combine coursework with a research paper (which offers a pathway to a PhD).

**Major studies:** Applied learning, Classroom management, Curriculum studies, Education, Language and culture studies, Literacy, Numeracy, Social behaviour, Teaching.

**Prerequisites:** Bachelor Degree in teaching or equivalent.

**Middle-band:** None

**Selection Mode:** NY12: Educational History including GPA.

**Extra requirements:**

None

### Engineering (Civil) (HE)

**Deakin University**
Bachelor of Engineering: 4 years full-time study

About the course: Civil Engineers are responsible for the design, construction and project management of roads, airports and railways; water supply and sewerage systems; water resources management; and buildings and other infrastructures. This course covers the broad range of civil engineering disciplines including engineering materials, structural, water, geotechnical, and transport engineering. Students are involved in planning and analysis requiring real-life community considerations, and gain relevant industry knowledge through site visits and field trips. Civil engineering graduates can expect to gain employment in construction companies, water authorities, government bodies, public works departments and as consulting engineers. Engineering students undertake common subjects in their first year, providing a broad knowledge base, before specialising in civil, electrical and electronics, mechanical or mechatronics and robotics engineering. This course is continuously being accredited by Engineers Australia giving it international recognition in accordance with the Washington Accord, International Engineering Alliance. Thirty two credit points over four years.

Major studies: Civil engineering management, Computer-aided design (CAD), Construction, Engineering (civil), Engineering (fluid), Engineering design, Geotechnical engineering, Materials engineering, Structural engineering, Transportation, Water resources engineering.

Prerequisites: Units 3 and 4: a study score of at least 25 in English (EAL) or 20 in English other than EAL; and a study score of at least 20 in one of Maths: Mathematical Methods (CAS) or Maths: Specialist Mathematics.

Middle-band: Satisfactory completion in any English, Maths: Mathematical Methods (CAS) or Physics is considered.

Selection Mode: CY12: ATAR and middle-band.
NY12: Educational History including GPA, VTAC Personal Statement (All). See extra requirements for more information.
SEAS is considered.

Extra requirements:
VTAC Personal Statement (NY12-All): NY12 applicants must complete and submit a VTAC Personal Statement. Applicants without the mathematics equivalent must be able to demonstrate a mathematical background equivalent to a year 12 level.
Bachelor of Engineering: 4 years full time study

About the course: Electrical and electronics engineers are highly depended on by society as they are involved in designing reliable power, communications and electronic systems, and design the equipment and systems that provide these essential services. This course covers the broad areas of Electrical and Electronic Engineering disciplines including renewable electrical power generation, smart distribution, materials science, urban, industrial, rural and regional power usage, the role of energy production and efficiency in climate change adaptation, Very Large Scale Integration (VLSI), control systems and electronic device design. Students undertake common subjects in their first year, providing a broad knowledge base, before specialising in civil, electrical and electronics, mechanical or mechatronics and robotics engineering. This course is continuously being accredited by Engineers Australia giving it international recognition in accordance with the Washington Accord, International Engineering Alliance. Thirty-two credit points over four years.

Major studies: Circuits and electronics, Computer-aided design (CAD), Control systems, Data communications, Electrical and electronic engineering and technology, Electrical engineering, Electronic engineering, Modern power systems, Renewable energy, Smart systems.

Prerequisites: Units 3 and 4: a study score of at least 25 in English (EAL) or 20 in English other than EAL; and a study score of at least 20 in one of Maths: Mathematical Methods (CAS) or Maths: Specialist Mathematics.

Middle-band: Satisfactory completion in any English, Maths: Mathematical Methods (CAS) or Physics is considered.

Selection Mode: CY12: ATAR and middle-band.
NY12: Educational History including GPA, VTAC Personal Statement (All). See extra requirements for more information.
SEAS is considered.

Extra requirements:
VTAC Personal Statement (NY12-All) : NY12 applicants must complete and submit a VTAC Personal Statement. Applicants without the mathematics equivalent must be able to demonstrate a mathematical background equivalent to a year 12 level.
Bachelor of Engineering: 4 years full time study

About the course: Mechanical engineering is the application of technology and science to the design, production and operation of systems, mechanical devices and machinery, and is associated with many fields of interest. Mechanical engineers are involved with almost every design imaginable, especially complex items like cars, robots and aeroplanes. The degree draws heavily on Deakin's world-class research teams in automotive engineering and advanced materials. Along the way, students will develop project management, communication and financial management skills, as well as a solid understanding of product and process modelling and designing for sustainability. Students undertake common subjects in their first year, providing a broad knowledge base, before specialising in civil, electrical and electronics, mechanical or mechatronics and robotics engineering. This course is continuously being accredited by Engineers Australia giving it international recognition in accordance with the Washington Accord, International Engineering Alliance. Thirty two credit points over four years.

Major studies: Automotive design, Computer-aided design (CAD), Control systems, Engineering (fluid), Engineering (mechanical), Materials engineering, Mechanical design.

Prerequisites: Units 3 and 4: a study score of at least 25 in English (EAL) or 20 in English other than EAL; and a study score of at least 20 in one of Maths: Mathematical Methods (CAS) or Maths: Specialist Mathematics.

Middle-band: Satisfactory completion in any English, Maths: Mathematical Methods (CAS) or Physics is considered.

Selection Mode: CY12: ATAR and middle-band.
NY12: Educational History including GPA, VTAC Personal Statement (All). See extra requirements for more information.
SEAS is considered.

Extra requirements:
VTAC Personal Statement (NY12-All) : NY12 applicants must complete and submit a VTAC Personal Statement. Applicants without the mathematics equivalent must be able to demonstrate a mathematical background equivalent to a year 12 level.

Geelong: 1400314793 (IFP) full-time/part-time  Apply: Through VTAC  main round
Bachelor of Engineering: 4 years full time study

**About the course:** Mechatronics and robotics engineers integrate electronic devices with mechanical design and information technology and design mechanical systems such as chassis stabilising systems, cameras, anti-lock brakes, engine control units, disk drives, service and surgical robots, and artificial hearts. This course combines electronic, mechanical and robotic engineering, with mechanical engineering and robotics featuring more strongly than in other degree programs. It offers studies in autonomous systems, robotic system design and industrial communication design. Graduates can be employed as electronic control systems engineers or robotics engineers, and work in areas including factory control, automation, and control system design. Students undertake common subjects in their first year, providing a broad knowledge base, before specialising in civil, electrical and electronics, mechanical or mechatronics and robotics engineering. This course is continuously being accredited by Engineers Australia giving it international recognition in accordance with the Washington Accord, International Engineering Alliance. Thirty two credit points over four years.

**Major studies:** Artificial intelligence, Automotive design, Circuits and electronics, Computer-aided design (CAD), Control systems, Data communications, Electrical and electronic engineering and technology, Electrical engineering, Electronic engineering, Engineering (mechanical), Engineering (mechatronic), Mechanical design, Mechatronics design, Robotics.

**Prerequisites:** Units 3 and 4: a study score of at least 25 in English (EAL) or 20 in English other than EAL; and a study score of at least 20 in one of Maths: Mathematical Methods (CAS) or Maths: Specialist Mathematics.

**Middle-band:** Satisfactory completion in any English, Maths: Mathematical Methods (CAS) or Physics is considered.

**Selection Mode:** CY12: ATAR and middle-band.

NY12: Educational History including GPA, VTAC Personal Statement (All). See extra requirements for more information.

SEAS is considered.

**Extra requirements:**

VTAC Personal Statement (NY12-All) : NY12 applicants must complete and submit a VTAC Personal Statement. Applicants without the mathematics equivalent must be able to demonstrate a mathematical background equivalent to a year 12 level.

- Bachelor of Engineering Science: 3 years full time study
About the course: This course is designed to develop technology-focused scientists capable of creating engineering solutions to medical problems. The course provides students with the theoretical foundation, technical skills and expertise needed to plan and design medical and physiological instrumentation, prosthetics, and other healthcare devices. The course is designed for technically-minded students who are not interested in traditional engineering programs. Students have the opportunity to take part in industry-based learning, internships and a final-year project to help them gain workplace experience and develop valuable networks. The subjects are mostly prescribed, with engineering and science subjects studied at each level. Graduates find careers in areas including medical research, medical instrumentation, prosthetics and health organisations. Graduating students have the opportunity to undertake further studies in honours (research) and PhD programs. Twenty-four credit points over three years.

Major studies: Anatomy and physiology, Biomedical engineering, Biomedical systems, Biophysics, Engineering (biomedical), Engineering (Mechanical), Human biology, Human movement, Laboratory instrumentation, Medical instrumentation, Medical science, Physiology, Technology.

Prerequisites: Units 3 and 4: a study score of at least 25 in English (EAL) or 20 in English other than EAL.

Middle-band: Satisfactory completion in any English, any Mathematics or any Science is considered.

Selection Mode: CY12: ATAR and middle-band.
NY12: Educational History including GPA, VTAC Personal Statement (All). See extra requirements for more information.
SEAS is considered.

Extra requirements:
VTAC Personal Statement (NY12-All) : NY12 applicants must complete and submit a VTAC Personal Statement.

- Bachelor of Engineering Science: 3 years full time study

About the course: This course is designed to develop technology-focused scientists capable of creating engineering solutions to sport related problems. The course provides students with the theoretical foundation, technical skills and expertise needed to design and develop sports equipment, instrumentation and other sports related products. Designed for technically-minded students who are not interested in traditional engineering programs. Students have the opportunity to take part in industry-based learning, internships and a final-year project to help them gain workplace experience and develop valuable networks. The subjects are mostly prescribed, with engineering, physiology and exercise and sport science subjects studied at each level. Students specialise in mechanical or electrical engineering studies. Graduates will be able to work in a wide range of industries, such as equipment manufacturers, professional sports associations and research institutions. Twenty-four credit points over three years.

Major studies: Analogue and Digital, Biomechanics and kinesiology, Biophysics, Electronic technology and instrumentation, Engineering (electronics), Engineering (mechanical), Engineering (mechatronic), Exercise Science, Human movement, Laboratory instrumentation, Medical biophysics, Physiology, Technology.

Prerequisites: Units 3 and 4: a study score of at least 25 in English (EAL) or 20 in English other than EAL.

Middle-band: Satisfactory completion in any English, any Mathematics or any Science is considered.
Selection Mode: CY12: ATAR and middle-band.

NY12: Educational History including GPA, VTAC Personal Statement (All). See extra requirements for more information.

- Bachelor of Environmental Science (Environmental Management and Sustainability): 3 years full time study

About the course: This course gives students the knowledge and skills to work towards a more sustainable future by combining an understanding of environmental systems and the communities that depend on them. Students learn about the complex interactions between the biological, physical, social, economic and political worlds. They gain the skills required to monitor environmental health as well as learn how to plan activities and develop policy to achieve the best outcome for the environment and our society. Practical skills are gained through fieldwork and industry experience, in practical classes, site visits and overnight field courses. Graduates may find work as an environmental sustainability officer, environmental consultant, environmental planner, environmental protection officer, catchment manager, marine and coastal manager, park and reserve manager, landcare facilitator, environmental researcher, water resource manager or environmental educator. Twenty-four credit points over three years.

Prerequisites: Units 3 and 4: a study score of at least 25 in English (EAL) or 20 in English other than EAL.

Middle-band: Satisfactory completion in any English, any Mathematics or any Science is considered.

Selection Mode: CY12: ATAR and middle-band.

NY12: Educational History including GPA, VTAC Personal Statement (All). See extra requirements for more information.

SEAS is considered.

Extra requirements:
VTAC Personal Statement (NY12-All) : NY12 applicants must complete and submit a VTAC Personal Statement.

- Bachelor of Exercise and Sport Science: 3 years full time study

About the course: Provides professional preparation in exercise and sports science, including the ability to advise, interact and coach individuals in sound exercise behaviour, for employment in the exercise, sport and health industries. Core units provide a sound understanding of the sciences underpinning competitive sport and recreational physical activity and the relationship between physical activity and health. Students also have the opportunity to take an elective sequence from the areas of applied advanced exercise and sport science (ie exercise physiology, sport coaching, sports nutrition, physical activity and health) or from any faculty at Deakin. Twenty-four credit points over three years.

Major studies: Anatomy and physiology, Behavioural science, Biomechanics, Exercise physiology, Exercise prescription, Exercise science, Health promotion, Human biology, Human movement, Kinesiology, Motor development and behaviour, Motor learning, Motor learning and performance, Nutrition and exercise, Physical education and health, Physiology, Practicum, Psychology (sports), Sports (coaching), Sports (management), Sports (science).

Prerequisites: Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL.

Middle-band: Satisfactory completion in Health And Human Development or Physical Education is considered.

Selection Mode: CY12: ATAR and middle-band.

NY12: Educational History including GPA, VTAC Personal Statement (Some), STAT (Some). See extra requirements for more information.

SEAS is considered.

Extra requirements:

VTAC Personal Statement (NY12-Some): NY12 applicants who wish experience to be considered must include this information on their VTAC Personal Statement.

STAT (NY12-Some): NY12 applicants described in the STAT section are required to sit STAT Multiple Choice.

Exercise and Sport Science/Business (Sport Management) (HE)

Deakin University

Melbourne: 1400514681 (CSP) full-time/part-time  Apply: Through VTAC  main round
Bachelor of Exercise and Sport Science/Business (Sport Management): 4 years full time study

About the course: This course is for students wishing to gain expertise in exercise science and business (sport management).

The Exercise and Sport Science aspect will equip you with the skills, understanding and attitudes to pursue professional careers in the exercise and sport fields. Core units provide a sound understanding of the sciences underpinning competitive sport, recreational physical activity and the relationship between physical activity and health. Electives can be taken in applied and advanced exercise and sport sciences. The Business (Sport Management) aspect will give you a solid foundation in business studies and the knowledge and specialist skills required by sport managers in Australian organisations.

Employment may be available in education, the fitness industry, sports administration, coaching, community health, and sport science. Potential workplaces include: government agencies, sporting bodies, hospitals, medical clinics, fitness and aquatic centres, private health and recreation centres.

Major studies: Anatomy and physiology, Behavioural science, Biomechanics, Business (sport management), Exercise physiology, Exercise science, Health, Health and physical education, Health promotion, Human biology, Human movement, Kinesiology, Management, Motor development and behaviour, Motor learning, Motor learning and performance, Nutrition and exercise, Physical education and health, Physiology, Practicum, Psychology (sports), Sport, Sport (management), Sports (coaching), Sports (science).

Prerequisites: Units 3 and 4; a study score of at least 30 in English (EAL) or 25 in English other than EAL.

Middle-band: Satisfactory completion in any Business, Health And Human Development, any Information Technology, Maths: Mathematical Methods (CAS), Maths: Specialist Mathematics or Physical Education is considered.

Selection Mode: CY12: ATAR and middle-band.

NY12: Educational History including GPA, VTAC Personal Statement (Some), STAT (Some). See extra requirements for more information.

SEAS is considered.

Extra requirements:

VTAC Personal Statement (NY12-Some) : NY12 applicants who wish experience to be considered must include this information on their VTAC Personal Statement.

STAT (NY12-Some) : NY12 applicants described in the STAT section are required to sit STAT Multiple Choice.

Facilities Management (Grad)

Deakin University

Off-campus: Domestic fee-paying places full-time/part-time Apply: Direct to institution

Off-campus: International fee-paying places full-time/part-time Apply: Direct to institution

- Master of Facilities Management: 1.5 year full time study

About the course: Facilities management is an emerging discipline that centres around the management of existing facilities and the strategic alignment of physical infrastructure to an organisation's core business goals, and the important health and safety needs of its workforce and customers.

Deakin's Master of Facilities Management will equip you to be able to work across traditional professional boundaries, from property investment and development through to space management and workplace logistics,
using key project management skills to ensure optimum value for money is attained at all stages of the property life cycle. The course is provided in off-campus mode, providing you with greater flexibility to fit your studies in with work and personal commitments.

**Major studies:** Building, Building (construction methods), Building (economics), Building (estimating), Building construction management, Building contract administration, Building law and building practice, Construction, Construction management, Facilities management.

**Prerequisites:** Bachelor Degree in facilities management or demonstrable professional experience.

**Middle-band:** None

**Selection Mode:** NY12: Educational History including GPA, Work experience (Some). See extra requirements for more information.

**Extra requirements:**
Work experience (NY12-Some) : Applicants who do not meet the prerequisites may be selected based on demonstrable professional experience, comprising at least five years of professional experience in facilities management or an equivalent role. Please refer to the following website for further details: www.deakin.edu.au/sebe/ab

- Bachelor of Creative Arts (Film and Digital Media): 3 years full time study

**About the course:** A study of the history, theory, technique and practice of Animation, Photography or Film and Television. Students complete 12 core units in one discipline and may take a second sequence or electives from others. Prior experience in media production is not required before entry into this course. Animation and Motion Capture prepares students for opportunities in the expanding digital domain. Film and Television provides grounding in production and film studies, Photography is focused on creative and critical and practice in the artistic, academic and commercial fields. International study tours and industry internships together with studies in the arts and other creative arts are available within this course. The course prepares students for postgraduate and industry led research and for work in a wide range of industries, enterprises, corporations and institutions in the media arts, education, entertainment, multimedia and government.

**Major studies:** 2D animation, 3D animation, Animation, Audio and visual effects, Audio visual studies, Character design and rigging, Compositing, Creative arts, Directing, Documentary and experimental genres, Editing, Film and Television, Film studies, Film titling, Fine art and fashion photography, Fine arts, Industry internships, Interactive art, Lighting and cinematography, Media, Motion capture, Motion graphics, Narrative, Photography, Portraiture, Producing, Project management, Quality management, Screen production, Script writing and storyboarding, Social and interpersonal skills, Social skills, Sound recording and editing, Soundtrack design and mixing, Stop motion animation, Teamwork, Television studio production, Verbal communication, Visual arts and crafts, Visual communication design, Written communication.

**Prerequisites:** Units 3 and 4: a study score of at least 25 in English (EAL) or 20 in English other than EAL.

**Middle-band:** Satisfactory completion in any English, Media, Philosophy or Studio Arts is considered.
**Selection Mode:** CY12: ATAR and middle-band.
NY12: Educational History including GPA.
SEAS is considered.

**Extra requirements:**
None

- Bachelor of Creative Arts (Film and Television): 3 years full time study

**About the course:** This course prepares students for careers in film and television industries. Students develop knowledge and creative skill through production, film analysis and history and the theory and practice of teamwork. Narrative, documentary and experimental forms are explored in workshops, seminars, lectures, tutorials and screenings, on location and in Deakin's HDTV broadcast-quality studio. Student teams also operate this studio for industry and community clients and for their own projects broadcast on Channel 31.

There is access to technical support, a range of online resources, industry internships, guest speakers, international film study tours and studies in complementary Arts and Creative Arts areas.

Students experiment and develop their own approaches to film and television while achieving high levels of production skill and critical awareness. Further studies in critical and creative research are also available at honours and postgraduate level.

**Major studies:** Animation and motion capture, Dance, Directing, Documentary and experimental filmmaking, Drama, Editing, Film, Film studies, Fine Arts, Genre, Industry internships, International film study tour, Lighting and cinematography, Media, Narrative, Photography, Producing, Project management, Quality Management, Screen production, Script writing and storyboarding, Sound recording and editing, Soundtrack design and mixing, Television, Television studio production, Verbal communication, Visual Arts, Visual communication design.

**Prerequisites:** Units 3 and 4: a study score of at least 25 in English (EAL) or 20 in English other than EAL.

**Middle-band:** Satisfactory completion in any English, Media, Philosophy or Studio Arts is considered.

**Selection Mode:** CY12: ATAR and middle-band.
NY12: Educational History including GPA.
SEAS is considered.

**Extra requirements:**
None

---

**Fisheries and Aquaculture (HE)**

**Deakin University**
Bachelor of Fisheries and Aquaculture: 3 years full time study

About the course: This course provides students with comprehensive training in fisheries resource management, aquaculture management, and fisheries biology, with a focus on environmental sustainability, particularly renewable resource exploitation and culture of marine and freshwater species. Students will learn about fisheries and aquaculture from a global perspective, including topics such as fish markets, nutrition and farm certification processes, fisheries methods and impacts of fishing. Fieldtrips and professional practice activities provide students with the opportunity to gain practical, hands-on skills. In addition to employment in the fisheries and aquaculture fields, graduates may also find career opportunities in areas such as food and agriculture-based industries, especially linked to aquaculture, quarantine, and as fisheries scientists or managers. Graduates have the opportunity to undertake further studies in honours and PhD programs. Twenty-four credit points over three years.

Major studies: Aquaculture, Aquaculture environmental management, Ecology, Environmental chemistry, Fisheries, Fisheries and aquaculture, Geographic information systems, Research methods.

Prerequisites: Units 3 and 4: a study score of at least 25 in English (EAL) or 20 in English other than EAL.

Middle-band: Satisfactory completion in any English, any Mathematics or any Science is considered.

Selection Mode: CY12: ATAR and middle-band.
NY12: Educational History including GPA, VTAC Personal Statement (All). See extra requirements for more information.
SEAS is considered.

Extra requirements:
VTAC Personal Statement (NY12-All) : NY12 applicants must complete and submit a VTAC Personal Statement.

Food and Nutrition Sciences (HE)

Deakin University

Bachelor of Food and Nutrition Sciences: 3 years full time study

About the course: Provides students with knowledge and skills in human nutrition and food science for employment in the health and food industries. Students gain a broad understanding of food, including food choice and its relationship to health, as well as the role of nutrition in human health and disease prevention. Major sequences are available including in Food Science which provides knowledge and skills for employment as a food scientist in the food industry.
Major studies: Food (consumer aspects and safety), Food (Culture), Food (Science), Health, Nutrition, Nutrition (diet and disease), Nutrition (fundamentals), Nutrition (prevention/public health), Nutrition and dietetics, Nutrition and exercise, Nutrition and food science, Nutrition food and science.

Prerequisites: Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL.

Middle-band: Satisfactory completion in Chemistry or Food And Technology is considered.

Selection Mode: CY12: ATAR and middle-band.
NY12: Educational History including GPA, VTAC Personal Statement (Some), STAT (Some). See extra requirements for more information.

Extra requirements:
VTAC Personal Statement (NY12-Some): NY12 applicants who wish experience to be considered must include this information on their VTAC Personal Statement.
STAT (NY12-Some): NY12 applicants described in the STAT section are required to sit STAT Multiple Choice.

- Bachelor of Forensic Science: 3 years full time study

About the course: This course teaches students to apply scientific knowledge to legal problems through the analysis of physical evidence. The course covers many aspects of chemical and biochemical analysis and molecular biology. Students learn about the examination and interpretation of evidence and use the latest technology to convert clues collected from a crime scene into evidence admissible in a court of law. They will gain insight into the day-to-day reality of forensic science and will have the opportunity to develop networks through Deakin's strong links with the local and Australian forensic community. Subjects in the forensic science course are heavily drawn from chemistry and molecular biology disciplines, preparation for a career as a forensic scientist within the criminal justice system, involved in insurance investigation, risk analysis, accident investigation or education or as an analytical scientist in a chemical or biological laboratory. Twenty-four credit points over three years.

Major studies: Analytical chemistry, Biochemistry, Chemistry, Chemistry (analytical), Chemistry (forensic), Chemistry (medical), Chemistry (organic), Criminology, Forensic analysis, Forensic biology, Forensic chemistry, Forensic investigation, Forensic science, Genetics, Hazardous materials and processes, Molecular and cell biology.

Prerequisites: Units 3 and 4: a study score of at least 25 in English (EAL) or 20 in English other than EAL.

Middle-band: Satisfactory completion in any English, any Mathematics or any Science is considered.

Selection Mode: CY12: ATAR and middle-band.
NY12: Educational History including GPA, VTAC Personal Statement (All). See extra requirements for more information.

SEAS is considered.
Extra requirements:
VTAC Personal Statement (NY12-All): NY12 applicants must complete and submit a VTAC Personal Statement.

- Bachelor of Forensic Science/Criminology: 4 years full time study

About the course: The course provides the opportunity to study forensic science and criminology as a combined course. Combining Forensic Science with Criminology enables students to learn both arts and science traditions, giving them a broad appreciation of the professional, social, economic and cultural contexts of the forensic science and criminology disciplines. Students will have the opportunity to learn skills and techniques essential to modern forensic science, including the examination and presentation of scientific evidence. Students are provided with broad theoretical and applied knowledge and skills in relation to policy development, policing and security, and related fields. Students will have career opportunities in areas such as the forensic science industry, science-based industries, government agencies, state and federal police, security and intelligence agencies, research and policy development, correctional services, community services, and private security and consultative industries. Students complete thirty-two credit points over four years, comprising sixteen Forensic Science credit points and sixteen Criminology credit points.

Major studies: Analytical chemistry, Biochemistry, Chemistry, Chemistry (analytical), Chemistry (forensic), Chemistry (medical), Crime, Crime prevention, Criminal justice, Criminal justice administration, Criminology, Criminology research methods, Criminology theory, Ethics, Forensic analysis, Forensic investigation, Forensic science, Hazardous materials and processes, Justice, Legal studies, Media and crime, Molecular and cell biology, Organised crime, Policing, Psychology, Punishment, Research methods, Risk, Security, Surveillance, Terrorism, Transnational crime, Victimology, Violence.

Prerequisites: Units 3 and 4: a study score of at least 25 in English (EAL) or 20 in English other than EAL.

Middle-band: Satisfactory completion in any English, any Mathematics or any Science is considered.

Selection Mode: CY12: ATAR and middle-band.
NY12: Educational History including GPA.
SEAS is considered.

Bachelor of Information Technology (Games Design and Development): 3 years full time study

About the course: Deakin's Games Design and Development course provides students with skills and knowledge to thrive in this fast-growing field. Students learn about game simulation and modelling, software engineering, human/computer interaction, game production, graphic design and music/sound effects through theoretical and hands-on teaching. Students have the ability to build computer games and games engines, through learning about concepts in software development; scientific concepts from computer science; and art and design principles for games including software engineering. Students learn about games in an interactive studio environment where they can develop team-based projects or test their own skills on the latest gaming technology. This course equips students for careers in a variety of IT roles, including game designer, component integrator, game programmer, game developer or multimedia system designer and developer. All students will have the opportunity to apply for internships and industry based learning placements as part of their course. Twenty-four credit points over three years.

Major studies: Animation (3D), Animation (games), Animation design and production, Animation software, Artificial intelligence, Computer animation, Computer graphics, Computer programming, Games design, Games development, Games programming, Information and communication technology, Interactive multimedia, Internet and multimedia, Networking, Networks and multimedia, Object-oriented design, Programming, Software development, Web design.

Prerequisites: Units 3 and 4: a study score of at least 25 in English (EAL) or 20 in English other than EAL.

Middle-band: Satisfactory completion in any English, any Information Technology or any Mathematics is considered.

Selection Mode: CY12: ATAR and middle-band.

NY12: Educational History including GPA, VTAC Personal Statement (All). See extra requirements for more information.

SEAS is considered.

Extra requirements:
VTAC Personal Statement (NY12-All): NY12 applicants must complete and submit a VTAC Personal Statement.

Global Science and Technology Program (HE)
Global Science and Technology Program: 5 years full time study

About the course: The Global Science and Technology Program aims to recognise, reward and nurture high achieving students who want to conduct part of their studies overseas through an exchange or study abroad program. Successful applicants will be offered a scholarship of $3,000 to assist with travel costs and will participate in the Deakin Global Citizenship program.

Students are able to select any one of the undergraduate degrees offered by the Faculty of Science, Engineering and Built Environment through a single VTAC preference. These are:

Geelong - Engineering, Information Technology, Science, Biomedical Science, Forensic Science, Zoology and Animal Science
Geelong Waterfront - Architecture, Construction Management
Melbourne - Environmental Science, Information Technology, Science, Biomedical Science, Biological Science
Warrnambool - Environmental Science, Fisheries and Aquaculture

Course duration will vary from three to five years depending upon the area of study chosen.

Major studies: Architecture, Biological sciences, Biomedical science, Computer science, Construction management, Engineering (civil), Engineering (electrical and electronics), Engineering (mechanical), Engineering (mechatronics and robotics), Environmental health, Environmental management, Forensic science, Freshwater resources and environmental management, Games programming, Information technology, IT security, Marine biology, Mathematics (modelling), Multimedia technology, Science, Wildlife conservation and ecology.

Prerequisites: Minimum ATAR of 80.00. Units 3 and 4: a study score of at least 25 in English (EAL) or 20 in English other than EAL.

Middle-band: None

Selection Mode: CY12: ATAR, Supplementary form (All). See extra requirements for more information.

SEAS is considered.

Extra requirements:
Supplementary form (CY12-All): All applicants must complete and submit a Global Science and Technology Program Supplementary Information form by email to yvonne.berry@deakin.edu.au by 20 December. The form is available from http://www.deakin.edu.au/study-at-deakin/apply/apply-for-a-course-undergraduate/entry-requirements-undergraduate

Health and Human Services Management (Grad)

Deakin University
Melbourne: Domestic fee-paying places full-time/part-time Apply: Direct to institution
Melbourne: International fee-paying places full-time/part-time Apply: Direct to institution

About the course: The Master of Health and Human Services Management will prepare you to be an effective manager and leader and is particularly well suited to those interested in working in the health and human services sector as well as those who currently hold senior positions in this industry.
The course will provide students with opportunities to develop core competencies required for leadership and strategic planning, evidence-based decision making, health needs assessment and evaluation, program planning and monitoring, resource and project management, communication and negotiation.

The course focuses on evidence-based decision making and health service delivery outcomes and allows you to choose elective study options that align with your career aspirations and interest areas. Elective units can be chosen from specialty areas such as health economics, public health research, health promotion and business administration. There is also flexibility of choice between research and coursework - enabling you to construct a study program that best meets your interests and career aspirations.

Applications must be made directly to the University through the Applicant Portal (www.deakin.edu.au/future-students)

**Major studies:** Epidemiology, Health promotion, Health sciences, Professional practice, Program planning, Public health.

**Prerequisites:** Bachelor Degree

**Middle-band:** None

**Selection Mode:** NY12: Educational History including GPA, Work experience (Some). See extra requirements for more information.

**Extra requirements:**
Work experience (NY12-Some) : Applicants with work experience in Health

- Bachelor of Health and Physical Education: 4 years full time study

**About the course:** Provides students with a discipline base in health, exercise science and physical education skills for teaching Years 7 to 12 as well as discipline and teaching skills for a second teaching method.

Students complete thirty-two credit points over four years, comprising ten credit points of exercise science studies, six credit points of health and physical education studies, four credit points of discipline studies for a second teaching method and twelve credit points of education and curriculum studies. A minimum of eighty days experience in schools possibly outside the university academic year is undertaken. A satisfactory level of teaching competence is required for award of the degree.

**Major studies:** Anatomy and kinesiology, Anatomy and physiology, Australian studies, Biological chemistry, Biology, Chemistry, Curriculum studies, Dance (Melbourne only), Drama (Melbourne only), Education studies, English, Exercise science, Health, Health and physical education, History, Literary studies, Mathematics, Physical education, Professional practice, Sexuality education, Teaching (secondary).

**Prerequisites:** Units 1 and 2: satisfactory completion in two units (any study combination) of General Mathematics or Mathematical Methods or Units 3 and 4: any Mathematics; and a study score of at least 30 in English (EAL) or 25 in English other than EAL.
**Middle-band:** Satisfactory completion in Biology, Chemistry, any English, Health And Human Development or Physical Education is considered.

**Selection Mode:** CY12: ATAR and middle-band.
NY12: Educational History including GPA, Supplementary form (All). See extra requirements for more information. SEAS is considered.

**Extra requirements:**
Supplementary form (NY12-All) : NY12 applicants must complete and submit a Bachelor of Health and Physical Education Personal Particulars form by 23 December. The form is available from [http://www.deakin.edu.au/study-at-deakin/apply/apply-for-a-course-undergraduate/entry-requirements-undergraduate](http://www.deakin.edu.au/study-at-deakin/apply/apply-for-a-course-undergraduate/entry-requirements-undergraduate)

- **Melbourne:** Domestic fee-paying places full-time/part-time [Apply: Direct to institution](#)
- **Melbourne:** International fee-paying places full-time/part-time [Apply: Direct to institution](#)
- **Off-campus:** Domestic fee-paying places full-time/part-time [Apply: Direct to institution](#)
- **Off-campus:** International fee-paying places full-time/part-time [Apply: Direct to institution](#)

- Master of Health Promotion: 1.5 year full time study

**About the course:** This course provides students with the knowledge and skills for developing appropriate approaches to evidence-based health promotion programs.

Preventing illness and promoting health are major aspects of the work of health agencies in all developed and developing countries. Deakin's Master of Health Promotion is designed to enable students from varying backgrounds to acquire the knowledge and skills necessary to develop appropriate and evidence-based health promotion programs. You will obtain a broad-based understanding of the determinants of health in populations and of the range of strategies that practitioners and organisations can implement to make a difference in creating healthier communities. The course addresses strategies that seek to help people take action about their own health to strengthen community action and to create environments that are more supportive of health - policy environments, physical environments, social environments and economic environments.

The Master of Health Promotion provides you with the opportunity to extend your study of health promotion by undertaking a major or minor project. These projects allow you to apply the knowledge and skills developed in the coursework component of the degree to a significant health issue by undertaking a comprehensive literature review, industry-linked project or a research project.

Applicants are required to have an approved tertiary qualification and are required to have a minimum of two years work experience in a health field.

**Major studies:** Health promotion, Health sciences, Professional practice, Program planning, Public health.

**Prerequisites:** Bachelor Degree

**Middle-band:** None

**Selection Mode:** NY12: Educational History including GPA.

**Extra requirements:** None

---

**Health Sciences (HE)**

**Deakin University**
Bachelor of Health Sciences: 3 years full time study

**About the course:** The Bachelor of Health Sciences provides students with the opportunity to structure their own health focused course by combining subjects from a wide range of health related units. The three year (twenty four credit point) course is structured around students completing two core units of study and selecting at least two health majors from environmental health, exercise science, family society and health, food studies, health promotion, health and sustainability, medical biotechnology, nutrition, people society and disability, physical activity and health, psychology and sport coaching. Not all major sequences are available on all campuses. Students also have the opportunity to undertake up to eight elective units offered by any faculty within the university to complement their areas of interest.

**Major studies:** Environmental health, Exercise science, Family studies, Food studies, Health and sustainability, Health promotion, Human services, Medical biotechnology, Nutrition, People society and disability, Physical activity and health, Psychology, Society and health, Sport coaching.

**Prerequisites:** Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL.

**Middle-band:** Satisfactory completion in Biology, any English or Health And Human Development is considered.

**Selection Mode:** CY12: ATAR and middle-band.

NY12: Educational History including GPA, VTAC Personal Statement (Some), STAT (Some). See extra requirements for more information.

SEAS is considered.

**Extra requirements:**

VTAC Personal Statement (NY12-Some): NY12 applicants who wish experience to be considered must include this information on their VTAC Personal Statement.

STAT (NY12-Some): NY12 applicants described in the STAT section are required to sit STAT Multiple Choice.

- Bachelor of Health Sciences/Arts: 4 years full time study

About the course: The Bachelor of Health Sciences/Bachelor of Arts provides students with the opportunity to structure their own course by combining subjects from a wide range of health and arts related units. Students complete thirty-two credit points over four years comprising sixteen health sciences units and sixteen arts units. Within the sixteen health sciences units students complete two core units of study and select two health majors from environmental health, exercise science, family society and health, food studies, health promotion, health and sustainability, medical biotechnology, nutrition, people society and disability, physical activity and health, psychology and sport coaching. Within the sixteen arts units, students must complete at least one art major such as politics and policy, public relations, and journalism. With over twenty art major sequences available, students can elect to study a major that complements their health focus or alternatively provides additional career prospects.

Major studies: Animation, Arabic, Australian studies, Behavioural science, Chinese, Disability studies, Drama, Environmental health, Exercise science, Family studies, Film studies, Food studies, Health and sustainability, Health promotion, Health sciences, History, Indonesian, International relations, Journalism, Language and culture studies, Literary studies, Media and communication, Medical biotechnology, Middle East studies, Nutrition, People society and disability, Philosophy, Photography, Physical activity and health, Politics and policy studies, Psychology, Public health, Society and health, Sociology, Sport Coaching, Visual arts.

Prerequisites: Units 3 and 4: a study score of at least 25 in English (EAL) or 20 in English other than EAL.

Middle-band: Satisfactory completion in Biology, any English or any Humanities is considered.

Selection Mode: CY12: ATAR and middle-band.

NY12: Educational History including GPA, VTAC Personal Statement (Some), STAT (Some). See extra requirements for more information.

SEAS is considered.

- Bachelor of Information Systems: 3 years full time study

**About the course:** This course aims to produce graduates with the knowledge, understanding and skills required to build a career as an information systems professional in an industry sector of their choosing. It provides a broad understanding of all aspects of information systems, a significant component of work integrated learning and an 'Industry on campus' program to ensure graduates get their careers off to a great start.

The course focuses on the capture, management and use of information, and the technologies and approaches that enable them. Students will learn about how organisations can improve their strategic and operational performance with information systems as well as the role of information systems in the lives of individuals.

The course allows students to undertake major studies chosen from a range of disciplines outside of information systems so they gain expertise in two discipline areas. The BIS requires 24 credit points studied over 3 years,
consisting of 14 credit points of core information systems units, 2 credit points of Work Integrated Learning units, and 8 credit points of electives.

Guaranteed entry for students with an ATAR of 80 or above.

**Major studies:** Accounting, Accounting information systems, Business (information systems), Business analytics, Business security management, Economics, Finance, Financial planning, Health informatics, Human resource management, Interactive marketing, International business (Melbourne only), International trade, International trade and economic policy, Law (commercial), Management, Marketing, Professional practice, Quantitative business analysis, Supply chain management.

**Prerequisites:** Units 3 and 4: a study score of at least 25 in English (EAL) or 20 in English other than EAL.

**Middle-band:** Satisfactory completion in any English is considered.

**Selection Mode:** CY12: ATAR and middle-band.
NY12: Educational History including GPA, VTAC Personal Statement (Some). See extra requirements for more information.
SEAS is considered.

**Extra requirements:**
VTAC Personal Statement (NY12-Some): NY12 applicants who wish experience to be considered must include this information on their VTAC Personal Statement.

- Bachelor of Information Systems/Arts: 4 years full time study
About the course: Information Systems/Arts is a flexible degree that allows students to combine generalist studies in arts with studies in information systems. Students can gain an understanding of the role and effects that information systems have on a range of areas of study such as media and communication, international relations, politics and policy studies, languages, visual and creative arts, journalism or sociology.

Students complete 32 credit points over four years, comprising 16 information systems credit points (including 2 credit points of work integrated learning) and 16 arts credit points.

Students enrolled at the Geelong Waterfront Campus will be required to undertake arts units at the Geelong Waurn Ponds Campus.

Guaranteed entry for students with ATAR of 80 or above.

Major studies: Anthropology (Geelong; Off campus), Arabic, Australian studies, Business (information systems), Children's literature, Chinese (Geelong; Melbourne), Criminology (Geelong; Off-campus), History, Indonesian, Information systems, International relations, Journalism, Language and culture studies, Literary studies, Media and communication, Middle East studies, Philosophy, Politics and policy studies, Professional and creative writing (Geelong; Melbourne), Public relations, Sociology, Visual arts (Geelong; Melbourne).

Prerequisites: Units 3 and 4: a study score of at least 25 in English (EAL) or 20 in English other than EAL.

Middle-band: Satisfactory completion in any English or any Humanities is considered.

Selection Mode: CY12: ATAR and middle-band.

NY12: Educational History including GPA, VTAC Personal Statement (Some). See extra requirements for more information.

SEAS is considered.

- Bachelor of Information Systems/Health Sciences: 4 years full time study

About the course: The Information Systems/Health Sciences program enables students to structure their own health focused course by combining subjects from a wide range of health related units whilst undertaking studies in information systems. Combining information systems with health sciences prepares students for a role in the health sector in the 'Information Age' where technological innovation is changing the way many health professionals work.
The course requires 32 credit points over four years, comprising 16 information systems credit points (including 2 credit points of Work Integrated Learning) and 16 health sciences credit points. Within the 16 credit points required for health sciences, students must complete 2 credit points of core units, and two prescribed health sciences major sequences.

Students enrolled at the Geelong Waterfront Campus will be required to undertake health sciences units at the Geelong Waurn Ponds Campus.

Guaranteed entry for students with ATAR of 80 or above.

Major studies: Business (information systems), Environmental health, Exercise science, Family - society and health, Food studies, Health and sustainability, Health promotion, Information systems, Medical biotechnology, Nutrition, People - society and disability, Physical activity and health, Psychology, Sport coaching.

Prerequisites: Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL.

Middle-band: Satisfactory completion in any English is considered.

Selection Mode: CY12: ATAR and middle-band.
NY12: Educational History including GPA, VTAC Personal Statement (Some). See extra requirements for more information.
SEAS is considered.

Extra requirements:

- Bachelor of Information Systems/Information Technology: 4 years full time study

About the course: The course offers studies in IT and information systems, producing graduates with practical and theoretical knowledge in ICT leading to a spectrum of highly sought after graduate roles. This course will provide students with a thorough grounding in software development, web design, database, networking and project management. Graduates work in roles such as business analyst, computer systems designer, systems analyst, systems programmer, information security officer, games designer, games programmer, security specialist, network manager, project manager and multimedia technology developer. The course comprises 32 credit points over four years with 16 credit points of studies in information systems (including 2 credit points of Work Integrated Learning) and 16 credit points in information technology.

Guaranteed entry for students with ATAR of 80 or above.

Prerequisites: Units 3 and 4: a study score of at least 25 in English (EAL) or 20 in English other than EAL.

Middle-band: Satisfactory completion in any English is considered.

Selection Mode: CY12: ATAR and middle-band.
NY12: Educational History including GPA, VTAC Personal Statement (Some). See extra requirements for more information.
SEAS is considered.

Extra requirements:
VTAC Personal Statement (NY12-Some): NY12 applicants who wish experience to be considered must include this information on their VTAC Personal Statement.

- Bachelor of Information Systems: 3 years full time study
- Diploma of Language: 0.5 year full time study

About the course: This course allows students to combine studies in information systems with studies in Arabic, Chinese or Indonesian with the option to undertake some in-country units in Oman, China, Indonesia or Malaysia giving a unique opportunity to practice the language with native speakers in its natural environment. The Bachelor of Information Systems/Diploma of Language is a 28-credit-point program, comprising 16 credit points of information systems units, 8 credit points from the Faculty of Arts and Education, and 4 credit points of general electives.

Guaranteed entry for students with ATAR of 80 or above.

Major studies: Arabic, Chinese (Geelong; Melbourne), Indonesian, Information systems, Language and literature.

Prerequisites: Units 3 and 4: a study score of at least 25 in English (EAL) or 20 in English other than EAL.

Middle-band: Satisfactory completion in any English is considered.

Selection Mode: CY12: ATAR and middle-band.
NY12: Educational History including GPA, VTAC Personal Statement (Some). See extra requirements for more information.
SEAS is considered.

Extra requirements:

- Bachelor of Information Systems/Laws: 5 years full time study

**About the course:** Combining information systems with law prepares students for the practice of law in the 'Information Age' where information is easily captured and used by organisations and individuals and technological innovation is challenging the boundaries of privacy and security. The course prepares graduates for new cutting edge careers in legal practice brought about by one of the greatest periods of innovation driven by technology.

This course satisfies the academic requirements for admission to practise law in Victoria and has a commercial law focus. Students complete 40 credit points over five years, comprising 16 information systems credit points (including 2 credit points of Work Integrated Learning) and 24 law credit points. Within the 24 law credit points there are 21 core units and 3 law elective units. In addition, students must complete the professional experience requirements.

Selection for non current year 12 is ALSET (100%), or ALSET (50%) combined with a GPA (50%). GPA from Bachelor level and postgraduate studies from courses undertaken during or after 2004.

**Major studies:** Law, Law (administrative), Law (business), Law (commercial), Law (constitutional), Law (consumer), Law (contract), Law (copyright), Law (corporate), Law (court processes), Law (criminal), Law (e-commerce), Law (environmental), Law (evidence), Law (family), Law (financial institutions and securities), Law (health), Law (industrial relations), Law (international), Law (legal theory), Law (litigation), Law (marketing), Law (probate), Law (property), Law (taxation), Law (torts).

**Prerequisites:** Units 3 and 4: a study score of at least 35 in English (EAL) or 30 in English other than EAL.

**Middle-band:** Satisfactory completion in any English, any History, Legal Studies, Australian Politics or Global Politics is considered.

**Selection Mode:** CY12: ATAR and middle-band.

NY12: Educational History including GPA, VTAC Personal Statement (Some), ALSET (Some). See extra
requirements for more information.
SEAS is considered.

Extra requirements:

VTAC Personal Statement (NY12(Some)) : NY12 applicants who wish experience to be considered must include this information on their VTAC Personal Statement.

ALSET (NY12(Some)) : NY12 applicants must complete the ALSET (see Admissions Tests). Refer to [insert web address] for exemptions.

- Bachelor of Information Systems/Science: 4 years full time study

**About the course:** This course allows students to combine studies in information systems with studies in a science stream such as biology, biological chemistry, environmental science or mathematical modelling. Students will gain a broad knowledge of contemporary science and information systems, giving you the potential to work in a wide range of fields, including agriculture, medicine and human health, pharmaceuticals and food technology. The BIS/BSc requires 32 credit points over 4 years, comprising 16 information systems credit points (including 2 credit points of Work Integrated Learning) and 16 science credit points. Within the 16 credit points required for science, students must complete at least one major sequence.

Guaranteed entry for students with ATAR of 80 or above.

**Major studies:** Accounting, Accounting information systems, Biological chemistry, Business (information systems), Business security management, Chemistry, Economics, Environmental science, Finance, Financial planning, Health informatics, Human resource management, Interactive marketing, International business, International trade, International trade and economic policy, Law (commercial), Management, Marketing, Mathematical modelling, Professional practice, Quantitative business analysis, Supply chain management, Zoology.

**Prerequisites:** Units 3 and 4: a study score of at least 25 in English (EAL) or 20 in English other than EAL.

**Middle-band:** Satisfactory completion in any English is considered.

**Selection Mode:** CY12: ATAR and middle-band.

NY12: Educational History including GPA, VTAC Personal Statement (All). See extra requirements for more information.

SEAS is considered.

**Extra requirements:**

VTAC Personal Statement (NY12(All)) : NY12 applicants who wish experience to be considered must include this information on their VTAC Personal Statement.

---

### Information Technology (HE)

**Deakin University**

Bachelor of Information Technology: 3 years full time study

**About the course:** This course provides a thorough grounding in the basic skills of information technology. Students have the flexibility to shape their degree by combining a broad foundation in IT with majors and electives that suit their interests. Students choose from the following majors: Networking, Security, Computer Science, Software Development, Interactive Media Design, Game Development or Mathematical Modelling. Students can also select a pathway into one of Deakin's specialised courses. Students studying on-campus will have access to fully-equipped computer laboratories and an opportunity to study for CISCO certification. The Work Integrated Learning program enables students to include industry based learning as part of their degree. Deakin's IT courses can be taken on or off campus, giving students flexibility and choice to make their learning experience suit their lifestyle, work and personal commitments. All students will have the opportunity to apply for internships and industry based learning placements as part of their course. Twenty-four credit points over three years.

**Major studies:** Animation (games), Computer and network security, Computer networks, Computer programming, Computer science, Databases, Distributed systems and applications, Games development, Games programming, Information technology, Internet and World Wide Web, Mathematics (modelling), Multimedia, Network security, Networking, Networking (CISCO curriculum), Object-oriented design, Object-oriented programming, Operating systems, Programming, Security, Security and management, Software development, Software engineering, Systems analysis and design, Systems and networks, Web applications programming, Web design.

**Prerequisites:** Units 3 and 4: a study score of at least 25 in English (EAL) or 20 in English other than EAL.

**Middle-band:** Satisfactory completion in any English, any Information Technology or any Mathematics is considered.

**Selection Mode:** CY12: ATAR and middle-band.

NY12: Educational History including GPA, VTAC Personal Statement (All). See extra requirements for more information.

SEAS is considered.

**Extra requirements:**

VTAC Personal Statement (NY12-All): NY12 applicants must complete and submit a VTAC Personal Statement detailing their work experience and motivation to study by 15 November. Personal statements submitted after this
date may not be considered.

- Bachelor of Information Technology (Honours): 4 years full time study

About the course: The Bachelor of Information Technology (Honours) has been designed for high achieving students with an interest in articulating into a research degree in IT after completing their undergraduate studies. Successful completion of the Bachelor of Information Technology (Honours) will enable you to apply to undertake a PhD in the field. Students will be assigned an academic mentor for the duration of their study to guide, enrich and extend their experience. The course also provides opportunities for students to attend research seminars to broaden their knowledge in IT and experience at first-hand the IT research program at Deakin and in the wider research community.

Thirty-two credit points over four years.

Prerequisites: Minimum ATAR of 80.00. Units 3 and 4: a study score of at least 25 in English (EAL) or 20 in English other than EAL.

Middle-band: Satisfactory completion in any English, any Information Technology or any Mathematics is considered.

Selection Mode: CY12: ATAR and middle-band.

NY12: Educational History including GPA, VTAC Personal Statement (All). See extra requirements for more information.

SEAS is considered.

Extra requirements:

VTAC Personal Statement (NY12-All): NY12 applicants must complete and submit a VTAC Personal Statement.

Melbourne: 1400514643 (IFP) full-time/part-time  Apply: Through VTAC  main round

- Bachelor of Information Technology (Professional Practice): 3 years full time study

About the course: This course is designed to recognise, reward and nurture high achieving students. The course enables students to experience full-time work in the IT industry as part of their degree. Students are required to include between 6 and 12 months of Industry-Based Learning (IBL). Students will be assigned a mentor and offered professional development opportunities through their course.

IBL gives students the opportunity to experience first-hand the day-to-day work environment as an IT professional, learn about the wide range of career outcomes available to IT graduates and apply what they learnt in the classroom to an actual working environment, making them job-ready when they graduate.

Twenty-four credit point, the course can be completed in a minimum of three years or, for students taking the option to complete a longer industry placement, the course can be completed in four years.

Prerequisites: Minimum ATAR of 80.00. Units 3 and 4: a study score of at least 25 in English (EAL) or 20 in English other than EAL.

Middle-band: Satisfactory completion in any English, any Information Technology or any Mathematics is considered.

Selection Mode: CY12: ATAR and middle-band.

NY12: Educational History including GPA, VTAC Personal Statement (All). See extra requirements for more information.

SEAS is considered.

Extra requirements:

VTAC Personal Statement (NY12-All): NY12 applicants must complete and submit a VTAC Personal Statement.

International Finance (Grad)
Deakin University

Melbourne: Domestic fee-paying places full-time/part-time  Apply: Direct to institution
Melbourne: International fee-paying places full-time/part-time  Apply: Direct to institution
Off-campus: Domestic fee-paying places full-time/part-time  Apply: Direct to institution
Off-campus: International fee-paying places full-time/part-time  Apply: Direct to institution

- Master of International Finance: 1.5 year full time study

About the course: A professional qualification in finance, with emphasis on international trade and associated financial markets. Provides knowledge of finance issues and research methodologies leading to improved professional practice in a range of finance domains. Applicants may be eligible for Credit for Prior Learning for appropriate units of completed postgraduate study. For entry completion of a tertiary program equivalent to not less than 3 years of full-time study at a university or other approved educational institution, or for those without a degree, a master's degree may be accepted in lieu of a 3-year bachelor degree, or a graduate certificate in a cognate area plus 5 years minimum relevant work experience. Applications must be made directly to the University through the Applicant Portal (www.deakin.edu.au/future-students). Graduate Certificate and Graduate Diploma also available - refer to the University handbook for further details: www.deakin.edu.au/handbook

Prerequisites: Bachelor Degree

Middle-band: None

Selection Mode: CY12: ATAR.
NY12: Educational History including GPA.

Bachelor of International Studies: 3 years full time study

**About the course:** This course enables students to develop a systematic understanding of contemporary international forces shaping government, business and community life. Alongside a strong focus on regional and global arenas, students have the opportunity to develop expertise in particular countries and societies, as well as cross-cultural competencies, through an internationally oriented curriculum. An important component of the course involves undertaking some form of international experience, which may involve study at an overseas institution; and in country summer language program; or an internship with an overseas organisation. Students must complete 24 credit points of study, including six (6) specified core units, an approved major, and an approved international study experience.

**Major studies:** Anthropology (Geelong; Off-Campus), Arabic, Chinese (Geelong; Melbourne), Indonesian, International relations, Middle East studies, Politics and policy studies.

**Prerequisites:** Units 3 and 4: a study score of at least 25 in English (EAL) or 20 in English other than EAL.

**Middle-band:** Satisfactory completion in any English, any Humanities or any LOTE is considered.

**Selection Mode:** CY12: ATAR and middle-band.
NY12: Educational History including GPA.
SEAS is considered.

**Extra requirements:**
None

Melbourne: 1400514473 (IFP) full-time/part-time

**Bachelor of International Studies/Commerce: 4 years full time study**
About the course: In this specialist degree students combine highly complementary major sequences in international studies and commerce. Students develop an understanding of the contemporary international forces shaping government, business and community life, along with skills in the analysis and interpretation of these. They will also establish a grounding in business disciplines and develop cross-cultural competencies through an internationally oriented curriculum and participation in overseas study or an international internship. Students complete thirty-two credit points over four years. Within the requirements for international studies students must complete 16 credit points of study, including six (6) specified core units, an approved major and an approved international experience. The 16 credit points required for commerce must include 10 credit points of core units. In addition students must complete a prescribed commerce major sequence.

Students enrolled at the Geelong Waurn Ponds Campus will be required to undertake commerce units at the Geelong Waterfront Campus. Listed commerce major sequences may involve one or two units being undertaken in off-campus/online mode- refer to the University handbook for further details: www.deakin.edu.au/handbook.

Major studies: Accounting, Accounting information systems, Anthropology (Geelong only), Arabic, Business (information systems), Business analytics, Chinese, Commerce, E-business, Economics, Finance, Human resource management, Indonesian, Interactive marketing, International business (Melbourne only), International management, International relations, International trade and economic policy, Language and culture studies, Law (commercial), Management, Marketing, Middle East studies, Politics and policy studies, Quantitative business analysis, Supply chain management.

Prerequisites: Units 3 and 4: a study score of at least 25 in English (EAL) or 20 in English other than EAL.

Middle-band: Satisfactory completion in any Business, any English, any Humanities, any Information Technology, any LOTE or Maths: Mathematical Methods (CAS) is considered.

Selection Mode: CY12: ATAR and middle-band.
NY12: Educational History including GPA.
SEAS is considered.

Bachelor of Information Technology (IT Security): 3 years full time study

About the course: Deakin’s IT Security course provides students with skills in securing data and data communications as well as investigating, analysing and providing solutions to computer crime. Students will gain programming and technical skills, including the design, development and management of IT security systems, risk analysis/management and digital forensics. Students will also learn about the legal, regulatory and ethical contexts in which these skills are used. Content relates to computer crime, cryptography, digital evidence and forensic IT investigation, communication and mobile security, system security and security management. The course assists students in attaining the knowledge required to become a Certified Information Systems Security Professional. Students can gain employment in roles such as a security analyst, security systems manager, security system developer/programmer, anti-virus software developer, or computer forensic specialist. All students will have the opportunity to apply for internships and industry based learning placements as part of their course. Twenty-four credit points over three years.

Prerequisites: Units 3 and 4: a study score of at least 25 in English (EAL) or 20 in English other than EAL.

Middle-band: Satisfactory completion in any English, any Information Technology or any Mathematics is considered.

Selection Mode: CY12: ATAR and middle-band.
NY12: Educational History including GPA, VTAC Personal Statement (All). See extra requirements for more information.
SEAS is considered.

Extra requirements:
VTAC Personal Statement (NY12-All) : NY12 applicants must complete and submit a VTAC Personal Statement.

Landscape Architecture (Grad)

Deakin University

Geelong Waterfront: Commonwealth-supported places full-time/part-time  Apply: Direct to institution
Geelong Waterfront: Domestic fee-paying places full-time/part-time  Apply: Direct to institution
Geelong Waterfront: International fee-paying places full-time/part-time  Apply: Direct to institution

Master of Landscape Architecture: 2 years full time study

About the course: The Master of Landscape Architecture has been developed for people who want to practise as a landscape architect and who have a passion to improve the quality and development of our towns, cityscapes and regional landscapes. Focused upon sustainability and its economic, social and environmental underpinnings, the course addresses the creation of quality places in response to current and future environmental and lifestyle challenges, and enables opportunities for you to specialise in project management, public art curatorship and management, cultural heritage, urban design, and change management planning. Distinguishing characteristics of this course include its engagement with ecology, spirit of place, people, Indigenous thought and urban design to inform and craft places of renewal, stimulation, healing and respect.

Major studies: Architecture, Cultural heritage, Design ecology, Landscape architecture, Landscape design and planning, Project management, Sustainability, Theory of design, Urban design.
Prerequisites: Bachelor Degree in architecture, design, planning or demonstrable professional experience in landscape architecture.

Middle-band: None

Selection Mode: NY12: Educational History including GPA, Folio (Some), Work experience (Some). See extra requirements for more information.

Extra requirements:
Folio (NY12-Some): Applicants who do not meet the prerequisites may be considered on the basis of 5 years demonstrable professional experience in landscape architecture. Applicants may also be considered on the basis of their submission of a portfolio of their work to the School of Architecture and Built Environment. Please refer to the following website for further details: www.deakin.edu.au/sebe/ab.

Work experience (NY12-Some): Applicants who do not meet the prerequisites may be considered on the basis of 5 years demonstrable professional experience in landscape architecture. Applicants may also be considered on the basis of their submission of a portfolio of their work to the School of Architecture and Built Environment. Please refer to the following website for further details: www.deakin.edu.au/sebe/ab.

Off-campus: 1400614671 (CSP) part-time Apply: Through VTAC main round

- Diploma of Language: 3 years full time study

About the course: The Diploma of Language provides a systematic study of languages and assumes no prior language study. Students complete a major study in a language choice, comprising eight credit points of language units. Different entry points to the major are available, depending on students' prior language study.

As language units must be studied sequentially, the award can only be completed part-time in up to three years, with students taking one language unit per trimester. All Deakin's language programs include 'in-country units' with highly internationalised curriculum, allowing students to develop intercultural perspective and experience while shortening the course duration.

The Diploma of Language can be taken as a stand-alone course or may be undertaken concurrently with an approved undergraduate degree program at Deakin University or other institutions.

Major studies: Arabic, Chinese (Geelong; Melbourne), Indonesian, Language and literature.

Prerequisites: Units 3 and 4: a study score of at least 25 in English (EAL) or 20 in English other than EAL.

Middle-band: Satisfactory completion in any English or any LOTE is considered.

Selection Mode: CY12: ATAR and middle-band.

NY12: Educational History including GPA.

SEAS is considered.

Extra requirements:
None

- Bachelor of Laws: 4 years full time study

**About the course:** Deakin’s Bachelor of Laws (LLB) is designed to produce first-class commercial lawyers. It provides studies in each of the major areas of legal practice together with an emphasis on practical legal skills. The course satisfies the academic requirements for admission to practise law in Victoria. For most students, obtaining a law degree is often the first step towards becoming a barrister or solicitor; however, law graduates may also find employment in a diverse range of fields including: corporate lawyer, business manager, government service; industrial relations, law reform; and public administration, research officer, or diplomat legal aide. Deakin’s LLB is one of the few in Australia with a commercial focus. Students engage in legal reasoning and legal skills, including negotiation, mediation, court appearances, legal drafting, statutory interpretation, professional work experience and law clinics. Deakin has an international reputation for its arbitration skills. The LLB has 32 credit points, 21 core units, 3 LLB elective units and a further 8 credit points with four of these being non-law. Students must also complete the professional experience requirements. Note: The Warrnambool Campus offering is for the first 3 years only. Students will then transfer to the Geelong Waterfront Campus or off-campus.

Selection for non-current year 12 is ALSET (100%), or ALSET (50%) combined with a GPA (50%). GPA from Bachelor level and postgraduate studies from courses undertaken during or after 2004.
**Major studies:** Law, Law (administrative), Law (business), Law (commercial), Law (constitutional), Law (consumer), Law (contract), Law (copyright), Law (corporate), Law (court processes), Law (criminal), Law (e-commerce), Law (environmental), Law (evidence), Law (family), Law (financial institutions and securities), Law (health), Law (industrial relations), Law (international), Law (legal theory), Law (litigation), Law (marketing), Law (probate), Law (property), Law (taxation), Law (torts).

**Prerequisites:** Units 3 and 4: a study score of at least 35 in English (EAL) or 30 in English other than EAL.

**Middle-band:** Satisfactory completion in any English, any History, Legal Studies, Australian Politics or Global Politics is considered.

**Selection Mode:** CY12: ATAR and middle-band.

NY12: Educational History including GPA, VTAC Personal Statement (Some), ALSET (Some). See extra requirements for more information.

SEAS is considered.

**Extra requirements:**

VTAC Personal Statement (NY12-Some) : NY12 applicants who wish experience to be considered must include this information on their VTAC Personal Statement.

ALSET (NY12-Some) : NY12 applicants must complete the ALSET (see Admissions Tests). Refer to [insert web address] for exemptions.

- Bachelor of Laws/International Studies: 5 years full time study

**About the course:** Combining international studies with law enhances students' understanding of the context in which the law operates internationally. This course enables students to develop cross-cultural competencies through an internationally oriented curriculum; participate in an international study experience; and learn the principles of ‘the internationalisation of the law’. This course satisfies the academic requirements for admission to practise law in Victoria and has a commercial law focus. Students complete 40 credit points over 5 years, comprising 16 international studies credit points and 24 law credit points. Within the international studies component there are six (6) specified core units, an approved major and an approved international study experience. Within the law component there are 21 core units and three law elective units. In addition, students must complete the professional experience requirements.

Students enrolled at the Geelong Waterfront Campus will be required to undertake international studies units at the Geelong Waurn Ponds Campus.
Selection for non current year 12 is ALSET (100%), or ALSET (50%) combined with a GPA (50%). GPA from Bachelor level and postgraduate studies from courses undertaken during or after 2004.

Major studies: Anthropology (Geelong only), Arabic, Chinese, Indonesian, International relations, Language and culture studies, Law, Law (administrative), Law (business), Law (commercial), Law (constitutional), Law (consumer), Law (contract), Law (copyright), Law (corporate), Law (court processes), Law (criminal), Law (e-commerce), Law (environmental), Law (evidence), Law (family), Law (financial institutions and securities), Law (health), Law (industrial relations), Law (international), Law (legal theory), Law (litigation), Law (marketing), Law (probate), Law (property), Law (taxation), Law (torts), Middle East studies, Politics and policy studies.

Prerequisites: Units 3 and 4: a study score of at least 35 in English (EAL) or 30 in English other than EAL.

Middle-band: Satisfactory completion in any English, any History, Legal Studies, Australian Politics or Global Politics is considered.

Selection Mode: CY12: ATAR and middle-band.
NY12: Educational History including GPA, VTAC Personal Statement (Some), ALSET (Some). See extra requirements for more information.
SEAS is considered.

Extra requirements:
VTAC Personal Statement (NY12-Some) : NY12 applicants who wish experience to be considered must include this information on their VTAC Personal Statement.

ALSET (NY12-Some) : NY12 applicants must complete the ALSET (see Admissions Tests). Refer to [insert web address] for exemptions

- Bachelor of Laws/Science: 5 years full time study

About the course: Combining another degree with a Bachelor of Laws is an excellent way to enhance understanding of the context in which the law operates. In this combined course, studies in law are combined with a major study in science to give you a broad knowledge of contemporary science. This will give you the potential to work in a wide range of fields, including agriculture, medicine and human health, pharmaceuticals, forensics and food technology. This course covers all of the areas of knowledge to satisfy the academic requirements for admission to practise law in Victoria. 40 credit points over 5 years comprising 16 credit points from science and 24 credit points from law (students are required to complete the professional experience requirements).
Students enrolled at the Geelong Waterfront Campus will be required to undertake science units at the Geelong Waurn Ponds Campus.

Selection for non current year 12 is ALSET (100%), or ALSET (50%) combined with a GPA (50%). GPA from Bachelor level and postgraduate studies from courses undertaken during or after 2004.

**Major studies:** Biochemistry, Biological chemistry, Biology, Chemistry, Environmental geology (Melbourne only), Environmental science (Melbourne only), Law, Law (administrative), Law (business), Law (commercial), Law (constitutional), Law (consumer), Law (contract), Law (copyright), Law (corporate), Law (court processes), Law (criminal), Law (e-commerce), Law (environmental), Law (evidence), Law (family), Law (financial institutions and securities), Law (health), Law (industrial relations), Law (international), Law (legal theory), Law (litigation), Law (marketing), Law (probate), Law (property), Law (taxation), Law (torts), Mathematics, Mathematics (modelling), Science, Zoology.

**Prerequisites:** Units 3 and 4: a study score of at least 35 in English (EAL) or 30 in English other than EAL.

**Middle-band:** Satisfactory completion in any English, any History, Legal Studies, Australian Politics or Global Politics is considered.

**Selection Mode:** CY12: ATAR and middle-band.

 Bachelor of Management: 3 years full time study

About the course: Deakin's new Bachelor of Management is a unique business degree aimed at developing the 'whole person'. Students will learn how to manage business and be an effective leader, and gain skills in communication, problem solving, planning and change management. As the course has a strong emphasis on work integrated learning, students learn on the job. Graduates will be grounded, global citizens with strong business management skills. This is a qualification that can lead to careers in virtually every area of business and government in Australia and overseas.

Listed major sequences may involve one or two units being undertaken in off-campus/online mode- refer to the University handbook for further details: www.deakin.edu.au/handbook.

Major studies: Construction management, Event management, Financial planning, Organisational psychology, Property and real estate, Property management, Sustainable business management.

Prerequisites: Units 3 and 4: a study score of at least 25 in English (EAL) or 20 in English other than EAL.

Middle-band: Satisfactory completion in any Business, any Information Technology or Maths: Mathematical Methods (CAS) is considered.

Selection Mode: CY12: ATAR and middle-band.
NY12: Educational History including GPA, VTAC Personal Statement (Some). See extra requirements for more information.
SEAS is considered.

Extra requirements:
VTAC Personal Statement (NY12-Some) : NY12 applicants who wish experience to be considered must include this information on their VTAC Personal Statement.

- Bachelor of Environmental Science (Marine Biology): 3 years full time study

About the course: Deakin's Bachelor of Environmental Science (Marine Biology) will provide you with a unique opportunity to study temperate marine biology, in a marine environment that has some of the highest biological diversity in Australia. You will study how marine organisms interact with their environments, how marine ecosystems function, how humans impact the marine environment and how marine resources can be managed. Intensive blocks of fieldwork provide an exciting marine biology experience and absorbing methods of learning. Students have access to state-of-the-art facilities and equipment, including a range of vessels, aquarium systems and remotely operated underwater vehicles. Graduates may find work as a marine conservation officer, marine biologist, marine ecologist, marine environmental assessment officer, marine and coastal manager, estuarine manager, ecotourism operator, marine education office or research officer. Twenty-four credit points over three years.

Major studies: Animal and plant biology, Aquaculture, Aquatic resource management, Aquatic science, Biology, Coastal management, Ecological studies, Ecology (sustainability), Ecosystem management, Environmental science, Fisheries, Freshwater ecology, Geographic information systems, Land and water management, Marine

**Prerequisites:** Units 3 and 4: a study score of at least 25 in English (EAL) or 20 in English other than EAL.

**Middle-band:** Satisfactory completion in any English, any Mathematics or any Science is considered.

**Selection Mode:** CY12: ATAR and middle-band.
NY12: Educational History including GPA, VTAC Personal Statement (All).
SEAS is considered.

- Bachelor of Information Technology (Mobile and Apps Development): 3 years full time study

About the course: This course focuses on theories, technologies and skills required to design and develop apps on modern mobile platforms, providing you with skills and knowledge to help you thrive in this fast-growing field. It is designed for students who are interested in the broad aspects of mobile apps design and development - from frontend mobile devices all the way to the backend systems that support mobile apps. The course provides you with suitable foundation training in key IT skills, specialised skills in mobile application design and development, as well as generic professional skills such as writing, communication, and ethical skills. It covers key mobile apps technologies from two major platforms: Android and iOS (Apple’s mobile operating system). In addition to technology specific skills, you will also learn cross-platform development skills through the latest HTML5, backend cloud computing services (e.g. maps) and frontend JavaScript frameworks. All students will have the opportunity to apply for internships and industry based learning placements as part of their course.

Major studies: Algorithms, Animation, Applications, Business and management, Computer graphics, Computer programming, Computer studies, Database management, Decision support systems, Information and communication technology, Information systems, Interactive multimedia, Internet and multimedia, Media, Programming, Software development, Web design, Web development.

Prerequisites: Units 3 and 4: a study score of at least 25 in English (EAL) or 20 in English other than EAL.

Middle-band: Satisfactory completion in any English, any Information Technology or any Mathematics is considered.

Selection Mode: CY12: ATAR and middle-band.

NY12: Educational History including GPA, VTAC Personal Statement (All). See extra requirements for more information.

SEAS is considered.

Extra requirements:

VTAC Personal Statement (NY12-All) : NY12 applicants must complete and submit a VTAC Personal Statement.

Bachelor of Nursing: 3 years full time study

About the course: The course will provide you with the opportunity to develop the knowledge, skills and ethical behaviours that enable you to practice as a competent and caring nurse clinician and gain employment in a range of health care contexts.

Twenty four credit points over three years, including experiential learning in the clinical simulation centre and compulsory clinical practicum experiences. Students are provided with choices for clinical placements including different clinical modules at major teaching hospitals in the public and private sectors. Students enrolled at the Geelong Waterfront Campus will need to take some units at the Geelong Waurn Ponds Campus.

Note: Prior to commencing clinical placements, students are required to complete a National Police Check each academic year, a Working with Children Check at the commencement of their course and have current immunisation status. There is an expectation that students be available to undertake clinical practicum outside of university calendar dates.

Major studies: Acute care, Aged care, Anatomy and physiology, Behavioural science, Child and adolescent health, Clinical practice, Community health, Mental health, Professional studies.

Prerequisites: Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL.

Middle-band: Satisfactory completion in Biology, any English, Health And Human Development or any Mathematics is considered.

Selection Mode: CY12: ATAR and middle-band.
NY12: Educational History including GPA, VTAC Personal Statement (Some), STAT (Some). See extra requirements for more information.
SEAS is considered.

Extra requirements:
VTAC Personal Statement (NY12-Some) : NY12 applicants who wish experience to be considered must include this information on their VTAC Personal Statement.
STAT (NY12-Some) : NY12 applicants described in the STAT section are required to sit STAT Multiple Choice.
### Bachelor of Nursing/Midwifery: 4 years full time study

**About the course:** The course will provide you with the opportunity to develop the specialist skills related to midwifery in addition to those of a Registered Nurse. Graduates are highly sought-after for their ability to provide person-centred, evidence-based care of high quality, focused toward improving client outcomes. Thirty-two credit points over four years, including practical components of both clinical simulation sessions and compulsory clinical practicum. Students are provided with choices for clinical placement including different clinical models at major teaching hospitals in the public and private sectors.

Note: Prior to commencing clinical placements, students are required to complete a National Police Check each academic year, a Working with Children check at the commencement of their course and have current immunisation status. There is an expectation that students be available to undertake clinical practicum outside of University calendar dates.

Students enrolled at Warrnambool Campus may be required to attend some classes at Geelong Waterfront Campus.

**Major studies:** Acute care, Aged care, Anatomy and physiology, Behavioural science, Child and adolescent health, Clinical practice, Community health, Mental health, Midwifery, Professional studies, Women's health.

**Prerequisites:** Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL.

**Middle-band:** Satisfactory completion in Biology, any English, Health And Human Development or any Mathematics is considered.

**Selection Mode:** CY12: ATAR and middle-band.

NY12: Educational History including GPA, VTAC Personal Statement (Some), STAT (Some). See extra...
requirements for more information.
SEAS is considered.

**Extra requirements:**

VTAC Personal Statement (NY12-Some) : NY12 applicants who wish experience to be considered must include this information on their VTAC Personal Statement.

STAT (NY12-Some) : NY12 applicants described in the STAT section are required to sit STAT Multiple Choice.

- Bachelor of Nursing/Psychological Science: 4 years full time study

**About the course:** The course will develop your ability to utilise evidence and achieve the core competencies expected of nurse clinicians in a variety of contexts and to complete a three year undergraduate sequence in psychology. Thirty-two credit points over four years, including practical components of both clinical simulation sessions and compulsory clinical practicum. Students are provided with choices for clinical placement including different clinical models at major teaching hospitals in the public and private sectors. Students enrolled at the Geelong Waterfront Campus will need to take some units at the Geelong Waurn Ponds Campus.

Note: Prior to commencing clinical placements, students are required to complete a National Police Check each academic year, a Working with Children Check at the commencement of their course and have current immunisation status. There is an expectation that students be available to undertake clinical practicum outside of university calendar dates. Students must fulfil the requirements of each of the two degrees in their course of study.

**Major studies:** Acute care, Aged care, Anatomy and physiology, Behavioural science, Child and adolescent health, Clinical practice, Community health, Mental health, Professional studies, Psychology, Psychology (child and adolescent), Psychology (cognitive), Psychology (forensic), Psychology (health), Psychology (personality), Psychology (physiological), Psychology (psychopathology), Psychology (social).

**Prerequisites:** Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL.

**Middle-band:** Satisfactory completion in Biology, any English, Health And Human Development or any Mathematics is considered.
Selection Mode: CY12: ATAR and middle-band.
NY12: Educational History including GPA, VTAC Personal Statement (Some), STAT (Some). See extra requirements for more information.
SEAS is considered.

Extra requirements:
VTAC Personal Statement (NY12-Some): NY12 applicants who wish experience to be considered must include this information on their VTAC Personal Statement.
STAT (NY12-Some): NY12 applicants described in the STAT section are required to sit STAT Multiple Choice.

- Bachelor of Nursing/Public Health and Health Promotion: 4 years full time study

About the course: The course will develop your ability to utilise evidence and achieve the core competencies expected of nurse clinicians in a variety of contexts. Additional knowledge and skills are developed in the health promotion services and public health. Thirty-two credit points over four years, including compulsory clinical simulation sessions and clinical practicum. Students are provided with choices for clinical placement including different clinical models at major teaching hospitals in the public and private sector. Students enrolled at the Geelong Waterfront Campus will need to take some units at the Geelong Waurn Ponds Campus.

Note: Prior to commencing clinical placements, students are required to complete a Police Record Check each academic year, a Working with Children Check at the commencement of their course and have current immunisation status. There is an expectation that students be available to undertake clinical practicum outside of university calendar dates. Students must fulfil the requirements of each of the two degrees in their course of study. Studying a combined course enables you to acquire two degrees with only one additional year of study.

Major studies: Acute care, Aged care, Anatomy and physiology, Behavioural science, Child and adolescent health, Clinical practice, Communications, Community health, Environmental health, Epidemiology, Health promotion, Health sciences, Mental health, Professional studies, Program planning, Public health.

Prerequisites: Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL.

Middle-band: Satisfactory completion in Biology, any English, Health And Human Development or any Mathematics is considered.

Selection Mode: CY12: ATAR and middle-band.
NY12: Educational History including GPA, VTAC Personal Statement (Some), STAT (Some). See extra requirements for more information.
SEAS is considered.

Extra requirements:
VTAC Personal Statement (NY12-Some): NY12 applicants who wish experience to be considered must include this information on their VTAC Personal Statement.
STAT (NY12-Some): NY12 applicants described in the STAT section are required to sit STAT Multiple Choice.

- Bachelor of Occupational Therapy: 4 years full time study

About the course: This course prepares graduates with the knowledge and skills to promote health and wellbeing through linking occupation and work in areas of practice such as acute care, aged care, paediatrics, mental health, occupational rehabilitation, community health, and disability support. Accreditation by Occupational Therapy Australia and the World Federation of Occupational Therapists, allows graduates to practise in Australia and apply to work overseas. During each of their four years of study students undertake work integrated learning with occupational therapists in a range of health settings to develop and integrate knowledge applied to practice. Placement settings include hospitals, community health and rehabilitation centres, schools, private practice and industry. The course includes elective units offered by any faculty within the university including study abroad opportunities.

Major studies: Anatomy and physiology, Behavioural science, Disability studies, Health sciences, Interprofessional education, Mental health, Occupational sciences, Occupational therapy, Rehabilitation, Rural health.

Prerequisites: Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL.

Middle-band: Satisfactory completion in Biology, Health And Human Development or any Mathematics is considered.

Selection Mode: CY12: ATAR and middle-band.

- Bachelor of Vision Science: 2 years full time study
**About the course:** The Bachelor of Vision Science produces graduates with knowledge of the biological and physical bases of vision and an understanding of the practice of Optometry. Graduates are prepared for further study in the Master of Optometry, which leads to qualification as an Optometrist. Students will develop skills that equip them for lifelong learning and prepare them for research training. They will also gain an understanding of visual health issues, impacting on communities in both regional and rural Australia, particularly those contributing to the health gap between these communities and urban population centres. Graduates of the course will have an understanding of the Optometric profession and how optometrists operate within the health system.

The course comprises 24 credit points over two years, six sequential trimesters (2 years) of study.

Graduation makes students eligible for admission to the Master of Optometry, the completion of which allows application for registration as an Optometrist. On successful completion of the Bachelor of Vision Science there will be a limited number of Commonwealth Supported Places available for the Master of Optometry. If you are unsuccessful in obtaining a Commonwealth Supported Place in the Master of Optometry you will be offered a Fee-Paying place in that course.

**Major studies:** Vision sciences.

**Prerequisites:** Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL.

**Middle-band:** Satisfactory completion in any English is considered.

**Selection Mode:** CY12: ATAR and middle-band.

NY12: Educational History including GPA, VTAC Personal Statement (Some), STAT (Some). See extra requirements for more information.

SEAS is considered.

**Extra requirements:**

VTAC Personal Statement (NY12-Some): NY12 applicants who wish experience to be considered must include this information on their VTAC Personal Statement.

STAT (NY12-Some): NY12 applicants who have not studied in the past five years are required to sit STAT Multiple Choice. Refer to the STAT section for more information.

- Bachelor of Creative Arts (Photography): 3 years full time study

**About the course:** The course prepares students for careers in industry and as fine artists. Students develop practical skills and undertake studies in photographic history and theory. Through creative practice and research they develop their own personal style and professional portfolio.

The learning experience is structured around a series of lectures, tutorials, online training and resources, workshops, studio and fieldwork. Guest speakers, gallery visits, collaborative projects, international study tours, student exhibitions and industry work experience placements.

Students experiment and develop their own creative approaches to fine art and commercial photography with an emphasis on achieving high levels of production. The core sequence of study in photography allows students the flexibility to undertake studies in complimentary creative arts areas and other fields, thus providing an excellent basis for professional careers in photography and further studies at honours and postgraduate levels.
Major studies: Animation and motion capture, Art and Science, Dance, Darkroom and studio practice, Digital and analogue imaging and production, Documentary, Documentary and experimental filmmaking, Drama, Fashion and experimental photography, Film and television, Film studies, Fine arts, Industry work place internships, International study tour, Narrative, Photography, Portraiture, Product and fine art, Project management, Quality management, Television studio production, Verbal communication, Visual arts, Visual arts and crafts, Visual communication design, Written communication.

Prerequisites: Units 3 and 4: a study score of at least 25 in English (EAL) or 20 in English other than EAL.

Middle-band: Satisfactory completion in any English or any Humanities is considered.

Selection Mode: CY12: ATAR and middle-band.
NY12: Educational History including GPA.
SEAS is considered.

Extra requirements: None

  - Apply: [Direct to institution](#)

- Master of Planning (Professional): 2 years full time study

**About the course:** The Master of Planning (Professional) has been designed to meet the challenges of an ever-changing urban, regional and rural environment and to produce professionally qualified graduates who are analytical, informed and committed to improving the quality of the urban environment. The course offers the opportunity of specialisation in six key areas which are central to facilitating strategic change on complex planning issues locally, regionally and globally. As a graduate of the course, you will be able to grasp the complexity of projects and understand the broad range of participants that need to work together to achieve sound and effective planning outcomes. You will have a developed understanding of planning across a range of disciplines and will be equipped to collaborate on projects and on processes that deliver integrated solutions for both the public and private sectors.

**Major studies:** Community development, Economics, Environmental management, Policy studies, Property, Regional planning, Research methods, Social research methods, Sustainable development, Urban design, Urban planning.

**Prerequisites:** Bachelor Degree or demonstrable professional experience in planning or an equivalent role.

**Middle-band:** None

**Selection Mode:** NY12: Educational History including GPA, Work experience (Some). See extra requirements for more information.

**Extra requirements:**

Work experience (NY12-Some): Applicants who do not meet the prerequisites may be selected based on demonstrable professional experience, comprising at least five years experience in planning or an equivalent role. Please refer to the following website for further details: [www.deakin.edu.au/sebe/ab](http://www.deakin.edu.au/sebe/ab).
Politics and Policy (Grad)

Deakin University

Off-campus: Domestic fee-paying places full-time/part-time  Apply: Direct to institution
Off-campus: International fee-paying places full-time/part-time  Apply: Direct to institution

- Master of Politics and Policy: 1.5 year full time study

About the course: The course emphasises a dual focus on politics and public policy and offers a wide range of core units and elective units to appeal to public sector, business, NGO and community sector managers and leaders, and those wishing to acquire new skills. A combined course - Master of Politics and Policy/ Master of Business Administration is available.

Major studies: Community development, Governance and accountability, Leadership, Management, Policy analysis, Politics, Program evaluation, Strategic planning.

Prerequisites: None

Middle-band: None

Selection Mode: NY12: Educational History including GPA.

Extra requirements: None

Politics and Policy/Business Administration (Grad)

Deakin University

Off-campus: Domestic fee-paying places full-time/part-time  Apply: Direct to institution
Off-campus: International fee-paying places full-time/part-time  Apply: Direct to institution

- Master of Politics and Policy/Business Administration: 2 years full time study

About the course: With more fluid labour markets and career patterns, and governance models increasingly characterised by public-private partnerships and other cross-sectoral arrangements, the combined Master of Politics and Policy/Master of Business Administration provides a unique opportunity to acquire a broad range of knowledge and skills applicable in many sectors of the economy.

The course provides a strong grounding in the development, implementation and analysis of public policy. Interrelationships between government, the private sector and community organisations, as well as between different levels of government (municipal, state, national and international) will also be studied. More broadly the course addresses the problems of governance within democratic political systems, at the same time aiming to impart knowledge and business skills in areas such as strategic management, finance, economics and marketing.

Prerequisites: Bachelor Degree or graduate certificate or master's in a similar area with a specified amount of relevant work exp.

Middle-band: None

Selection Mode: NY12: Educational History including GPA.
Extra requirements:
None

Selection Mode: CY12: ATAR and middle-band.
NY12: Educational History including GPA, VTAC Personal Statement (Some). See extra requirements for more information.
SEAS is considered.

Extra requirements:
VTAC Personal Statement (NY12-Some) : NY12 applicants who wish experience to be considered must include this information on their VTAC Personal Statement.

Property and Real Estate/Laws (HE)

Deakin University
Melbourne: 1400510101 (CSP) full-time/part-time Apply: Through VTAC main round
Off-campus:1400610101 (CSP) full-time/part-time Apply: Through VTAC main round

- Bachelor of Property and Real Estate/Laws: 5 years full time study

About the course: The Bachelor of Property and Real Estate/Bachelor of Laws will provide you with a thorough understanding of the law and property and real estate disciplines, as well as building on the strong synergy between each discipline in a five year program of study. The course opens up opportunities in business law as one of the most prestigious and highly regarded areas of legal practice, as well as property and real estate which has broad global recognition and is widely sought-after.

The law component of the course provides innovative and distinctive legal education, emphasises a case study approach and has a strong practical legal skills component. Property and real estate is an established discipline in Australia and the course is designed to produce highly skilled property professionals who are able to enter the workforce with a qualification fully recognised by employers, government and professional organisations. Combining the two courses will facilitate practical experience and project work that relates theory with practice, providing a broad business educational experience.

The course comprises 40 credit points over five years with 16 credit points of studies in property and real estate and 24 credit points in law. Within the 24 law credit points there are 21 core units and 3 law elective units. In addition, students must complete the professional experience requirements.

Selection in to Law for non current year 12 is ALSET (100%), or ALSET (50%) combined with a GPA (50%). GPA from ATAR, Bachelor level and postgraduate studies from courses undertaken during or after 2004.

Major studies: Law, Law (administrative), Law (business), Law (commercial), Law (constitutional), Law (consumer), Law (contract), Law (copyright), Law (corporate), Law (court processes), Law (criminal), Law (e-commerce), Law (environmental), Law (evidence), Law (family), Law (financial institutions and securities), Law (health), Law (industrial relations), Law (international), Law (legal theory), Law (litigation), Law (marketing), Law (probate), Law (property), Law (taxation), Law (torts), Management, Marketing, Property, Property (valuation), Property and real estate, Sustainability (Melbourne campus only).

Prerequisites: Units 3 and 4: a study score of at least 35 in English (EAL) or 30 in English other than EAL.

Middle-band: Satisfactory completion in Business Management, Economics, any English, any History, Legal Studies, any Mathematics, Australian Politics, Politics: The National Citizen, Global Politics or any Science is considered.
Selection Mode: CY12: ATAR and middle-band.
NY12: Educational History including GPA, VTAC Personal Statement (All), ALSET (Some). See extra requirements for more information.
SEAS is considered.

Extra requirements:
VTAC Personal Statement (NY12-All): applicants who wish experience to be considered must include this information on their VTAC Personal Statement

Bachelor of Psychological Science: 3 years full time study

About the course: The course provides a three-year undergraduate sequence in psychology and includes complementary studies in individual and group counselling, health, and behaviour change. The course also offers students supervised work experience in psychology, careers counselling, and transition-to-work skills. A major from another faculty can also be incorporated. Classes in psychology, including lectures, tutorials, and discussions, are available to students face-to-face and online. The trimester system also allows students to fast track the course over two years of full time study.

After completing the three year degree, graduates are able to apply their knowledge and skills to a wide range of careers in management, public service, marketing and human resources. Students who aim to become an accredited clinical psychologist are required to complete an Honours year and postgraduate degree or work-based internship.

Major studies: Behavioural science, Psychology, Psychology (biological), Psychology (child and adolescent), Psychology (cognitive), Psychology (forensic), Psychology (health), Psychology (personality), Psychology (psychopathology), Psychology (social).

Prerequisites: Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL.

Middle-band: Satisfactory completion in Biology, Health And Human Development or any Mathematics is considered.

Selection Mode: CY12: ATAR and middle-band.

NY12: Educational History including GPA, VTAC Personal Statement (Some), STAT (Some). See extra requirements for more information.
SEAS is considered.

**Extra requirements:**

VTAC Personal Statement (NY12-Some): NY12 applicants who wish experience to be considered must include this information on their VTAC Personal Statement.

STAT (NY12-Some): NY12 applicants described in the STAT section are required to sit STAT Multiple Choice.

- Bachelor of Psychology: 4 years full time study

About the course: This course provides a four year undergraduate sequence in psychology and includes complementary studies in individual and group counselling, health, and behaviour change. The course also offers students supervised work experience in psychology, careers counselling, and transition-to-work skills. A major from another faculty can also be incorporated. Classes in psychology within the first three years of the course, including lectures, tutorials, and discussions, are available to students face-to-face and also online. The trimester system also allows students to fast track the first three years of the course or spread their study load over three trimesters. The fourth year is an Honours year in which students complete an individual research project and undertake advanced studies in counselling, psychological assessment, ethics and research methods. After completing the four year degree graduates are able to apply for provisional registration as a psychologist and may elect to continue into postgraduate studies in order to become a fully endorsed psychologist.

Major studies: Psychology (child and adolescent), Psychology (cognitive), Psychology (forensic), Psychology (health), Psychology (personality), Psychology (physiological), Psychology (psychopathology), Psychology (social).

Prerequisites: Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL.

Middle-band: Satisfactory completion in Biology, Health And Human Development or any Mathematics is considered.

Selection Mode: CY12: ATAR and middle-band.

NY12: Educational History including GPA, VTAC Personal Statement (Some), STAT (Some). See extra requirements for more information.

SEAS is considered.

Extra requirements:

VTAC Personal Statement (NY12-Some): NY12 applicants who wish experience to be considered must include this information on their VTAC Personal Statement.

- Master of Public Health: 1.5 year full time study

About the course: The Master of Public Health focuses on improving existing health-promoting environments, identifying public health priorities, generating initiatives for policy and action, and developing strategies and interventions to ensure equity in the health system. It aims to assist students to appreciate the historical foundations of public health and lessons learned from history. You will develop a broad-based understanding of the determinants of health in populations, develop knowledge, skills and understanding of broad public health endeavours. The course will provide opportunity to develop the knowledge and skills necessary to maintain and improve upon existing health-promoting environments and develop critical thinking about efforts to promote health and prevent disease. You will carry out research to identify public health priorities and generate initiatives for policy and action, public health program planning and evaluation.

You will develop strategies to ensure equity in the health system and interventions to promote the health of disadvantaged groups and develop an appreciation of the complex challenges in public health and the need for multidimensional solutions.

The course will provide the opportunity to develop the necessary skills to generate and use research data related to public health issues, endeavours and interventions.

Applications must be made directly to the University through the Applicant Portal (www.deakin.edu.au/future-students). Please refer to www.deakin.edu.au/handbook for further information.

Major studies: Epidemiology, Health promotion, Health sciences, Professional practice, Program planning, Public health.

Prerequisites: Bachelor Degree plus two years relevant professional practice.

Middle-band: None

Selection Mode: CY12: ATAR.
NY12: Educational History including GPA.

Extra requirements:
None

Public Health and Health Promotion (HE)

Deakin University
Melbourne: 1400514321 (CSP) full-time/part-time  Apply: Through VTAC main round
Melbourne: 1400514323 (IFP) full-time/part-time  Apply: Through VTAC main round

- Bachelor of Public Health and Health Promotion: 3 years full time study

About the course: Public health and health promotion students seek to understand and act on the social and environmental factors that cause poor health as well as those factors that create and sustain good health. Students examine how health is created or influenced in our society and the wide range of approaches to improving the
population's health such as community engagement, program planning and evaluation, capability building, research, policy development and health communication. These approaches reflect professional practice and are applied to a range of settings and population groups. During the Practicum unit in your final year you will consolidate your knowledge and further develop your skills through realistic field experience which assists you to be work ready after graduation and prepares you for a rewarding future in the health sector. An honours year is available at the end of this degree, which can provide you with a competitive edge in the job market or a pathway to a higher degree.

**Major studies:** Environmental health, Epidemiology, Health promotion, Health sciences, Professional practice, Program planning, Public health.

**Prerequisites:** Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL.

**Middle-band:** Satisfactory completion in Biology, any English, Health And Human Development or any Mathematics is considered.

**Selection Mode:** CY12: ATAR and middle-band.

- Bachelor of Science: 3 years full time study

**About the course:** The Bachelor of Science provides students with the skills, knowledge and flexibility to pursue new and evolving career paths in research organisations and science related industries, as well as into traditional areas such as teaching, government and universities. Professional practice units have been designed to enable students to develop job skills and an understanding of future workplaces. Students will gain a sound broad knowledge of contemporary science. Our graduates have the opportunity to work in a wide range of cutting-edge, rapidly growing fields, including human health, environmental remediation, chemical technology and natural resource management. While undertaking their generalist degree, students will experience practical learning in areas including teamwork, critical thinking and problem solving and enjoy the advantage of small class sizes and personal contact with lecturing staff. Twenty-four credit points over three years and completion of at least one major sequence.

**Major studies:** Biochemistry, Biological chemistry, Biology, Botany, Cell biology, Chemistry, Environmental geology (Melbourne campus only), Environmental science (Melbourne campus only), Genetics, Mathematics, Mathematics (modelling), Microbiology, Physiology, Science, Zoology (Geelong campus only).

**Prerequisites:** Units 3 and 4: a study score of at least 25 in English (EAL) or 20 in English other than EAL.

**Middle-band:** Satisfactory completion in any English, any Mathematics or any Science is considered.

**Selection Mode:** CY12: ATAR and middle-band.

NY12: Educational History including GPA, VTAC Personal Statement (All). See extra requirements for more information.

SEAS is considered.

**Extra requirements:**
VTAC Personal Statement (NY12-All): NY12 applicants must complete and submit a VTAC Personal Statement.

- Bachelor of Social Work: 4 years full time study
About the course: The four-year Bachelor of Social Work course provides an approach to social work which emphasises the need for personal, community and social development in urban/rural and local/global contexts. It engages with the interplay between diversity, power and social inequality through anti-oppressive, empowerment and critically-reflective approaches to social work practice and social policy. Two 70 day field education placements in years 3 and 4 provide an opportunity for students to learn from experience under the supervision of qualified social work practitioners. The course content includes knowledge, skills, and commitment to core values, ideals and beliefs that is developed in various ways in different units that comprise the social work programme. Professional aims that include social justice, enhancement of quality of life, and development of the full potential of each individual, family, group and community are the focus of the course and are covered in different ways in each unit.

Major studies: Behavioural science, Case management, Community development.

Prerequisites: Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL.

Middle-band: Satisfactory completion in any Humanities or any LOTE is considered.

Selection Mode: CY12: ATAR and middle-band.
NY12: Educational History including GPA, VTAC Personal Statement (Some), STAT (Some). See extra requirements for more information.
SEAS is considered.

Extra requirements:
VTAC Personal Statement (NY12-Some) : NY12 applicants who wish experience to be considered must include this information on their VTAC Personal Statement.
STAT (NY12-Some) : NY12 applicants described in the STAT section are required to sit STAT Multiple Choice.

Social Work (Grad)
Deakin University
Off-campus: Domestic fee-paying places full-time/part-time  
Apply: Direct to institution

• Master of Social Work: 3 years full time study

About the course: The Master of Social Work has an emphasis on rural and regional communities; race and gender issues; equity, power and diversity issues; social and community development; and anti-oppressive and empowerment approaches to social work practice and social policy. As a student in this course, you will develop knowledge and skills for critical, competent and effective professional social work practice both within the local social and community services industry and the broader national and international context. The program has a strong emphasis on practical experience and skills gained through practicum placements. Applicants must have a recognised university qualification with at least two units in a study of the human behaviour and two units in the study of society. Preference may be given to applicants with relevant work experience. Selection criteria will also be based on undergraduate academic results. Applications must be made directly to the University through the Applicant Portal (www.deakin.edu.au/future-students).

Major studies: Behavioural science, Case management, Community development.

Prerequisites: Bachelor Degree with at least units in human behaviour and two in studies of society.

Middle-band: None

Selection Mode: CY12: ATAR.
NY12: Educational History including GPA.

- Bachelor of Sport Development: 3 years full time study

About the course: Sport development is distinctive due to its unique focus on sport management and marketing, sport coaching, and sport and exercise science. It also focuses on the development of sport, and community development through sport. This specialist field is concerned with increasing participation in sport through the design of sport systems and pathways in order to attract, retain and nurture participants. Work experience enables graduates to hit the ground running. Elective units include sport coaching, nutrition, marketing, psychology, management, and health promotion. Sport development involves building sport systems and pathways to promote community/elite sport participation and providing coaching support. Graduates’ roles include athlete welfare officer; coach development manager; community recreation officer; recreation development officer; recreation programs officer; sport coach; and sport development officer. 24 credit points over 3 years, comprising 10 credit points of Business and Law units, 10 credit points of Health units and 4 credit points of elective units.

Major studies: Sport (development).

Prerequisites: Units 3 and 4: a study score of at least 25 in English (EAL) or 20 in English other than EAL.

Middle-band: Satisfactory completion in any Business, Health And Human Development or Physical Education is considered.

Selection Mode: CY12: ATAR and middle-band.
NY12: Educational History including GPA, VTAC Personal Statement (Some). See extra requirements for more information.
SEAS is considered.

Extra requirements:
VTAC Personal Statement (NY12-Some) : NY12 applicants who wish experience to be considered must include this information on their VTAC Personal Statement.

- Master of Teaching: 2 years full time study

About the course: Offered at Melbourne as on-campus delivery or at Geelong by community based delivery (combination of on-campus intensive classes and on-line). The Master of Teaching is a pre-service, postgraduate teacher education course for applicants who wish to become qualified as Early Childhood teachers. The sixteen credit point course is taken over four trimesters or students may exit the course after three trimesters with a Graduate Diploma of Teaching. The full time course may be completed in 1.5 years by undertaking studies in
Trimesters 1, 2, 3 and one in the following year, or students may complete the course in two calendar years without undertaking Trimester 3 studies. Students complement their Early Childhood studies by selecting one from a number of optional pathways research (subject to meeting requirements), leadership, or internship. There is a dual strand option which includes Early Childhood and Primary Education. The dual strand combination is only available over 2 calendar years.

**Double teaching areas**

212: Early Childhood

**Prerequisites:** Bachelor Degree in any discipline other than teaching.

**Middle-band:** None

**Selection Mode:** NY12: Educational History including GPA, English language test (Some). See extra requirements for more information.

**Extra requirements:**

- English language test (NY12-Some): for those applicants without a previous qualification in English from Australia, New Zealand, the United Kingdom, United States of America, Canada or the Republic of Ireland; or who cannot provide evidence that their first or primary language is English

(Minimum scores required for IELTS academic are Speaking=7.5, Writing=7.5, Reading=7.0, Listening=7.0, and Overall=7.0 or for TOEFL are Speaking=25.0, Writing=25.0, Reading=22.0, Listening=22.0, and Overall=100.0)

  **Apply:** Through VTAC main round

- **Off-campus:** 1405692122 (DFP) part-time  
  **Apply:** Through VTAC main round

- Master of Teaching: 2 years full time study

**About the course:** The Master of Teaching is a pre-service, postgraduate teacher preparation course for applicants who wish to become qualified as primary teachers. The sixteen credit course is taken over four trimesters or students may exit the course after three trimesters with a Graduate Diploma of Teaching.

The full-time on campus course, can be completed in 1.5 years by undertaking studies in Trimesters 1, 2 and 3 and 1 in the following year, or students may complete the course in 2 calendar years without undertaking Trimester 3 studies.

Off campus studies are offered in part-time mode only and normally takes 3-4 years to complete.

Subject to meeting certain requirements, students may complete their studies by choosing to study a second strand. Early Childhood is delivered at the Melbourne campus and by Community Based Delivery (intensive on campus delivery) through the Geelong campus for those studying off campus. Secondary teaching is taught on campus Melbourne or off campus. You may also undertake a research pathway, a four-credit point internship Subject to meeting certain requirements, students complete their studies by choosing to study a second strand (either Early Childhood or Secondary), or undertaking a research pathway, or a four-credit point internship or a four-credit point Leadership of Teaching pathway. The dual strand combinations are only available over 2 calendar years (or part time equivalent).

All offers are provisional pending sighting of an original/certified copy of your undergraduate degree stating completion. This must be presented at the time of enrolment. Interstate applicants who intend to teach in a State other than Victoria should seek confirmation from the relevant employing authority that the content and structure of their initial degree will qualify them for employment in their State on satisfactory completion of this course.

---

**Double teaching areas**

210: Primary

**Prerequisites:** Bachelor Degree in any discipline other than teaching.
Selection Mode: NY12: Educational History including GPA, English language test (Some). See extra requirements for more information.

Extra requirements:

English language test (NY12-Some): for those applicants without a previous qualification in English from Australia, New Zealand, the United Kingdom, United States of America, Canada or the Republic of Ireland; or who cannot provide evidence that their first or primary language is English.

(Minimum scores required for IELTS academic are Speaking=7.5, Writing=7.5, Reading=7.0, Listening=7.0, and Overall=7.0 or for TOEFL are Speaking=25.0, Writing=25.0, Reading=22.0, Listening=22.0, and Overall=100.0)

Teaching (Secondary) (GET)

Deakin University

Melbourne: 1400592141 (CSP) full-time Apply: Through VTAC main round
Melbourne: 1400592142 (DFP) full-time Apply: Through VTAC main round

Off-campus: 1405692142 (DFP) part-time Apply: Through VTAC main round

- Master of Teaching: 2 years full time study

About the course: The Master of Teaching is a pre-service, postgraduate teacher preparation course for applicants who wish to become qualified as secondary teachers. The sixteen credit point course is taken over four trimesters or students may exit the course after three trimesters with a Graduate Diploma of Teaching. The full-time course can be completed in 1.5 years by undertaking studies in Trimesters 1, 2, 3 and 1 in the following year, or students may complete the course in 2 calendar years without undertaking Trimester 3 studies. Off campus studies are taken in part-time mode; on campus studies are usually full-time.

Subject to meeting certain requirements, students may complement their Master of Teaching by selecting one from a number of optional pathways including studies in primary education, or Applied Learning, or research, or an internship or a four credit point Leadership of Teaching pathway. The dual strand (secondary and primary) and Applied Learning options are only available over 2 calendar years.

All offers are provisional pending sighting of an original/certified copy of your undergraduate degree stating completion. This must be presented at the time of enrolment. Interstate applicants who intend to teach in a State other than Victoria should seek confirmation from the relevant employing authority that the content and structure of their initial degree will qualify them for employment in their State on satisfactory completion of this course. Please refer to www.deakin.edu.au/arts-ed/education for further information.

Selection will be based on GPA applicant background, and will require prior studies from disciplines that enable students to qualify for two single teaching method subjects or one double method. Methods usually require a background of study in a discipline for at least two years. A double method requires at least three years of study in the discipline.

Single teaching areas

172: Biology
173: Chemistry
113: Commerce and Business Studies
102: Dance
103: Drama
121: English
122: English as a Second Language

Bachelor of Education (Primary): 4 years full time study

About the course: The 4 year Bachelor of Education (Primary) meets the demand for primary teachers with compulsory units in education, curriculum and discipline studies. Six elective units are also available and provide a great opportunity for students to develop breadth and depth in their studies including a Middle Years option enabling students to teach Prep to Year 10. Electives should be based on personal interest, existing expertise, obtaining a broader tertiary education, or developing a sequence of units in a discipline area. Elective choices include: Arts Education; Literature; Mathematics; Performing Arts Education; Health and Physical Education; Visual Arts, Humanities; LOTE and Social Sciences. Practical experience: a minimum of 80 days in schools is required. Students may be required to complete their practical experience outside the university academic year as part of their studies. A satisfactory level of teaching competence is required for award of the degree.

Prerequisites: Units 1 and 2: satisfactory completion in two units (any study combination) of General Mathematics or Mathematical Methods or Units 3 and 4: any Mathematics; and a study score of at least 30 in English (EAL) or 25 in English other than EAL.

Middle-band: Satisfactory completion in any English, any LOTE or any Mathematics is considered.

Selection Mode: CY12: ATAR and middle-band.
NY12: Educational History including GPA, VTAC Personal Statement (Some), STAT (Some). See extra requirements for more information.
SEAS is considered.

Extra requirements:
VTAC Personal Statement (NY12-Some) : NY12 applicants who wish experience to be considered must include this information on their VTAC Personal Statement.
STAT (NY12-Some) : NY12 applicants who do not meet the mathematics and English prerequisites or have not completed year 12 or studied in the last five years must sit STAT Multiple Choice.

SUCCESSFUL APPLICANTSThe Department of Education and Training (Victoria) requires all pre-service teachers to hold a current Working With Children Check (WWCC) before being allowed to undertake practicum in schools in Victoria.

- Bachelor of Teaching (Science)/Science: 4 years full time study
About the course: The course is a 32 credit point, four year degree, comprising sixteen in each of science and teaching, providing graduates with a full science degree and a complete secondary teaching qualification. The flexible structure gives students the opportunity to pursue two major study areas in a variety of teaching fields. Students need to complete at least one unit of study in each of the main science disciplines and mathematics and to undertake a science related community project and a unit that explores the way science is communicated to the world. There is emphasis on industry experience and innovative teaching practices, and a strong focus on integrating its disciplines with vocational education and training. Practical experience begins in Year 1 of the course allowing students to build their teaching skills over four years - a minimum of 80 days. Students may be required to complete their practical experience outside the university academic year as part of their studies in teaching.

Major studies: Biological chemistry, Biology, Curriculum studies, Education, Environmental science, Mathematics (modelling), Professional practice, Science, Teaching (secondary).

Prerequisites: Units 1 and 2: satisfactory completion in two units (any study combination) of General Mathematics or Mathematical Methods; and Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL; and a study score of at least 20 in one of Biology, Chemistry, Environmental Science or any Mathematics.

Middle-band: Satisfactory completion in any English, any LOTE, any Mathematics or any Science is considered.

Selection Mode: CY12: ATAR and middle-band.
NY12: Educational History including GPA, VTAC Personal Statement (Some). See extra requirements for more information.
SEAS is considered.

Extra requirements:
VTAC Personal Statement (NY12-Some) : NY12 applicants who wish experience to be considered must include this information on their VTAC Personal Statement.

Urban Design (Grad)

Deakin University

Geelong Waterfront: Domestic fee-paying places full-time/part-time  Apply: Direct to institution
Geelong Waterfront: International fee-paying places full-time/part-time  Apply: Direct to institution

- Master of Urban Design: 1.5 year full time study

About the course: The Master of Urban Design aims to provide a postgraduate pathway that promotes a high standard of skill and knowledge acquisition in developing innovative sustainable design solutions for the urban environment. The course promotes a high level of strategic thinking for implementing effective change management practices and is designed for graduates who wish to practice as an urban designer in order to improve the quality and development of our towns and cityscapes. As a student you will evaluate theory and practice within contemporary international contexts; critique historical and current practices through inquiry and rigorous analytical methods; and integrate and apply theory and practice-based knowledge and skills within a collaborative design studio.

Major studies: Community development, Environmental management, Policy studies, Property, Regional planning, Research methods, Sustainable development, Urban design, Urban planning.

Prerequisites: Bachelor Degree in built environment or design related area or demonstrable professional experience.

Middle-band: None

Selection Mode: NY12: Educational History including GPA, Work experience (Some). See extra requirements for more information.

Extra requirements:
Work experience (NY12-Some): Applicants who do not meet the prerequisites may be selected based on demonstrable professional experience, comprising at least five years of professional experience in a built environment or design related area. Please refer to the following website for further details: www.deakin.edu.au/sebe/ab

- Bachelor of Environmental Science (Wildlife and Conservation Biology): 3 years full time study

About the course: This was the first course offered in Victoria with an emphasis on real-world problem solving and applied solutions to wildlife and conservation issues. Students gain theoretical and practical experience in wildlife ecology, landscape and vegetation management, biodiversity, sustainability and conservation, animal biology, physical geography, park management and wildlife research. They gain hands-on experience with the strong focus on fieldwork, including a field studies camp at each year and a professional work placement with a relevant agency of their choice. They have access to first-class facilities and infrastructure including the Geographic Information Systems lab, remote cameras and wildlife trapping and tracking technology. Teaching staff draw on the latest
research on wildlife and its conservation, and are experts in the field. Graduates may find careers as wildlife managers, wildlife and conservation biologists, landscape ecologists, conservation officers, climate change adaption practitioners, park rangers and researchers. Twenty-four credit points over three years.

**Major studies:** Agricultural Environmental and related studies, Animal and plant biology, Animal diversity, Animal husbandry, Biology, Botany, Conservation biology/ecology, Ecological studies, Ecosystem management, Environmental science, Land and water management, Landscape ecology, Natural resource management, Park and wilderness management, Plant ecology, Science, Vegetation and wildlife management, Wildlife conservation and ecology, Wildlife management, Zoology.

**Prerequisites:** Units 3 and 4: a study score of at least 25 in English (EAL) or 20 in English other than EAL.

**Middle-band:** Satisfactory completion in any English, any Mathematics or any Science is considered.

**Selection Mode:** CY12: ATAR and middle-band.

NY12: Educational History including GPA, VTAC Personal Statement (All). See extra requirements for more information.

**Extra requirements:**
VTAC Personal Statement (NY12-All): NY12 applicants must complete and submit a VTAC Personal Statement.

- Bachelor of Zoology and Animal Science: 3 years full time study

**About the course:** This course provides a practical and theoretical understanding of modern zoology, with an emphasis on real-world problems and their solutions. Taught by world leading zoologists experienced in research with all the major biomes of the world, students learn about the diversity, ecology, behaviour, physiology, biochemistry, genetics and the welfare of animals. Learning involves practical and field based experiences. The effects climate and other global change processes may have on animals are comprehensively addressed. Graduates may find careers from conservation and environmental management to academia, museums, the food industry, agricultural, and biomedical industries. Roles you would be ready to take up include research scientist, project officer, environmental officer, park ranger, wildlife disease officer, zoologist, ecologist, animal scientist, and animal welfare officer. Successful completion can also lead to entry to veterinary science (subject to entry requirements), further study and research in Australia and overseas. Twenty four credit points over three years.

**Prerequisites:** Units 3 and 4: a study score of at least 25 in English (EAL) or 20 in English other than EAL.

**Middle-band:** Satisfactory completion in any English, any Mathematics or any Science is considered.

**Selection Mode:** CY12: ATAR and middle-band.

NY12: Educational History including GPA, VTAC Personal Statement (All). See extra requirements for more information.
SEAS is considered.

**Extra requirements:**

VTAC Personal Statement (NY12-All) : NY12 applicants must complete and submit a VTAC Personal Statement.
Established in 1954, the Elly Lukas Beauty Therapy College is a specialist centre for beauty, spa and wellbeing therapies offering beauty, massage and spa therapy courses including the highest beauty therapy qualification available in Australia, the Diploma of Beauty Therapy. The College is also, accredited by the prestigious Swiss beauty therapy organisation CIDESCO and the English examining bodies - ITEC & CIBTAC which enable our graduates to obtain internationally recognised qualifications. As an independent tertiary institution specialising in nationally and internationally accredited beauty, spa & massage therapy career education to a professional industry level, the qualifications that you will receive from the College are both recognised and respected throughout the world.

Working closely with industry, the College maintains relevant training and is able to assist you with employment and traineeship placement (See www.ellylukas.edu.au/traineeships.html for further information) in spa/beauty salons and resorts both during your training and upon graduation. Many of our students now obtain employment prior to commencing their training, the majority of our students obtain employment during their training, with almost all of the remaining students obtaining employment or continuing onto further study immediately after graduating. Our graduates are highly sought after by the industry because of their job ready skills and thorough training obtained at the College. We approach teaching and learning by providing you with relevant underpinning knowledge combined with the confidence to apply your newly obtained skills in the workplace. Our training spa and salon facility allows you to practice your skills in a real life salon/spa environment whilst you learn. The College's new Melbourne City campus, is a purpose built facility featuring modern equipment and state-of-the-art facilities including specialist day spa, wet tables, vichy shower, aromatherapy and steam areas designed to give students valuable knowledge and experience with up-to-date salon/spa treatments as they become available in the industry.

Available study tours include a Spa industry tour to leading Spas/Resorts in London, Paris and the USA and a Queensland Island Spa industry tour. You may also apply for the partnership program with Steiner (London) to work onboard luxury spas globally or a number of internship programs with leading employers such as Hayman Island. The College is registered to offer courses to international students (CRICOS 01867G), is AUSTUDY and VET FEE-HELP approved.

Students are required to maintain a high standard of personal grooming and presentation in accordance with industry requirements in order to maximise job opportunities and career potential.

Successful applicants

All successful applicants must complete the required medical report and consent form as a condition of enrolment.

Beauty Therapy (VET)

Elly Lukas Beauty Therapy College

City: 9600 196052 (DFP) full-time/part-time Apply: Through VTAC main round mid-year

City: 9600 196053 (IFP) full-time/part-time Apply: Through VTAC nbsp; main round mid-year

- Certificate IV in Beauty Therapy: 1.5 year full time study
  - Diploma of Beauty Therapy: 1.5 year full time study

About the course: The course provides the practical skills required of professionals in the beauty, spa & massage therapy industry to provide quality services across a wide range of industry applications. These include salons, day & resort spas, clinics, retreats, aesthetic practices & luxury cruise liners. The business & salon components provides graduates with the knowledge to operate salon or spa franchises or establish their own business. Students use a vast array of spa and beauty therapy equipment at the College's new state of the art campus. These include Vichy shower, steam infusion, hydrotherapy tubs & microcurrent. Electives include ear candling, eyelash extensions, spray tan & Brazilian waxing. All Diploma students participate in a unique industry tour to the North Queensland Spa Resorts and a Sydney Leadership Conference. Graduates can seek specialisation in cosmetic skin care, Laser, IPL and microdermabrasion - with a pathway to the Bachelor of Health Science (Dermal Therapies) or Associate Degree in Dermal Therapies in which graduates can receive up to 1 year credit or the Vocational Graduate Certificate in Intense Pulsed Light and Laser Hair Reduction. Students wishing to obtain
management qualifications can also obtain specialisation with pathway entry to the Diploma of Salon Management or the ITEC accredited Diploma of Salon and Spa Management which provides internationally recognised Spa Management qualifications.

Major studies: Anatomy and physiology, Aromatherapy, Beauty therapy, Biology, Eyelash and eyebrow tinting, Facial treatments, First aid, Full body waxing (hot and strip), Hot stone massage, Hygiene, Make-up, Manicure and pedicure, Massage therapy, Nail technology, Nutrition and exercise, Spa therapy.

Prerequisites: None

Middle-band: Satisfactory completion in Biology, Health And Human Development or Physical Education is considered.

Selection Mode: CY12: ATAR and middle-band, Information kit (All), Interview (All). See extra requirements for more information.

NY12: Educational History including GPA, Information kit (All), Interview (All). See extra requirements for more information.

SEAS is considered.

Extra requirements:
Information kit (CY12-All, NY12-All): Request a course guide/info kit via the College website.
Interview (CY12-All, NY12-All): Timeframe: February to December (Late applicants may have interviews in early January) Booking Contact: study@ellylukas.edu.au

Course observation: All applicants are required to attend 1 x day of course observation in current classes (or 1 x Spa Taster day in January), in which you will be able to understand the course content & employment opportunities and experience the course delivery in order to make an informed decision. Applicants are required to be well groomed / presented in accordance with industry standards. We suggest that you dress in all black clothing, with hair up and wearing closed toe shoes. Successful Applicants must complete the required medical report & consent form as a condition of enrolment.

Management (Spa) (VET)
Elly Lukas Beauty Therapy College
City: 9600196062 (DFP) full-time/part-time  Apply: Through VTAC

About the course: The course combines the practical skills required of professionals in the resort and day spa industry with underpinning tourism and hospitality management knowledge enabling graduates to plan, evaluate and provide quality services and management across a wide range of industry applications. These include resort and destination spas, wellness retreats, hotel spas and spas onboard luxury cruise liners. The tourism hospitality and business management components are delivered by William Angliss Institute 2 days per week. The spa, beauty and massage therapy subjects are delivered by Elly Lukas 2 days per week and provide the relevant practical training enabling students to deliver ‘hands on’ practical treatments. Students use a vast array of spa and beauty therapy equipment at the College's new state of the art city campus. These include Vichy shower, steam infusion capsules, hydrotherapy tubs, microcurrent (non-surgical facelift), galvanic, faradic, G5 and body contouring.

Major studies: Management.

Prerequisites: None

Middle-band: None

Selection Mode: CY12: ATAR.

NY12: Educational History including GPA.

SEAS is considered.

Endeavour College of Natural Health

Endeavour College of Natural Health, the largest provider of natural health Higher Education degrees and VET courses in the Southern Hemisphere.

Whether you plan to study for interest or pursue a career in the natural health sector you will find the best possible education at Endeavour College.

Endeavour College is part of the Endeavour Learning Group and has earned a reputation as the pre-eminent provider of education to the complementary health industry in Australia and New Zealand since its inception in 1975.

Today the College is known as a centre of excellence for natural medicine and is respected for its internationally recognised teaching staff and high calibre graduates.

At Endeavour College of Natural Health, formerly known as the Australian College of Natural Medicine, we pride ourselves on nurturing our students throughout their educational journey as they discover the future of wellbeing.

We support our students with published lecturers from the forefront of the industry, cutting edge curriculum and Australia's largest choice of Health Science degrees specialising in natural medicine modalities.

It is an exciting time to become more involved in the dynamic and booming natural health industry. There's never been such high demand in Australia for natural health practitioners and the range of industries employing our professionals continues to grow.

The recognition of complementary health services as part of many private health policies also demonstrates increasing acceptance of our industry.

We are committed to advancing the future of natural medicine by ensuring our graduates are equipped with a competitive edge to become leaders in their chosen fields of practice.

Acupuncture (HE)

Endeavour College of Natural Health

City: Domestic fee-paying places full-time/part-time  Apply: Direct to institution
City: International fee-paying places full-time/part-time  Apply: Direct to institution

- Bachelor of Health Science (Acupuncture): 4 years full time study

About the course: Acupuncture is a branch of Chinese medicine that stimulates special points on the body in order to regulate the flow of Qi (vital force) to balance the functions of the body, mind and spirit and restore health. Chinese medicine combines theory (philosophy and principles) and practices such as acupuncture, Chinese herbs, medicinal diet, Qi Gong, exercise and massage (tui na).

Bachelor level training provides a solid foundation in biomedical and clinical sciences, as is standard in most health science degrees. Students are also trained in communication and management skills including an appreciation of legal and ethical issues that may arise in a clinical setting.

Point stimulation and diagnostic skills are core to acupuncture, and are developed throughout the course, enabling students to diagnose and treat pathology according to Chinese medical theory.

Acupuncture students gain clinical practice under the supervision of qualified instructors in a variety of settings.

Major studies: Acupuncture, Biomedical science, Health sciences, Moxibustion, Professional practice, Public health, Research methods, Small business management, Tui Na (TCM massage).

Prerequisites: None

Middle-band: None

Selection Mode: CY12 : ATAR.
NY12 : Educational History including GPA.

Extra requirements:

None
Homeopathy (VET)

Endeavour College of Natural Health

City: Domestic fee-paying places full-time/part-time  Apply: Direct to institution

- Advanced Diploma of Homeopathy: 2 years full time study

About the course: This course equips students to practice in the dynamic field of homeopathic health care. Homeopathy is the second most used medical system in the world with over 550 million users. Grounded in the classical principles of homeopathy and supported by the latest in homeopathic research, students learn to holistically understand an individual’s reason for illness. They develop the skills and knowledge to naturally and sustainably support the health of whole families. Endeavour students graduate as confident and resourceful practitioners, equipped to enter clinical practice, join an integrative health practice, or specialise in homeopathic pharmacy and medicines.

Major studies: Anatomy and physiology, clinical examination and assessment, communication and counselling, conducting a practice, effective workplace relationships, homeopathic case management, homeopathic research, Managing Work in the Homeopathic Framework, planning treatment strategy, preparation and dispensing of homeopathic medicine, the homeopathic diagnostic framework.

Prerequisites: None

Middle-band: None

Selection Mode: CY12 : Interview (All). See extra requirements for more information.
NY12 : Interview (All). See extra requirements for more information.

Extra requirements:
Interview (CY12-All, NY12-All) : Applicants must contact the college directly to arrange an interview.

Homoeopathy (HE)

Endeavour College of Natural Health

City: Domestic fee-paying places full-time/part-time  Apply: Direct to institution
City: International fee-paying places full-time/part-time  Apply: Direct to institution

- Bachelor of Health Science (Homoeopathy): 3.5 years full time study

About the course: Homeopathy is a whole medical system combining theory (philosophy and principles) and practice to support healing and treat a wide range of conditions whether physical, emotional or mental. Homeopathy’s core principle of Similarity guides the homeopath to match the overall symptom pattern of a specific homeopathic medicine to the overall symptom picture of the patient. Homeopathy may be used as a preventative, palliative, or curative treatment. It can be used for acute or chronic conditions, for children, adults and elderly people. While the exact mechanism of homeopathy is not widely understood, its philosophy is truly holistic. Remedies act to trigger an innate healing process to take place.

Prerequisites: None

Middle-band: None

Selection Mode: CY12 : ATAR.
NY12 : Educational History including GPA.
### Musculoskeletal Therapy (HE)

**Endeavour College of Natural Health**

**City:** Domestic fee-paying places full-time/part-time  
**Apply:** Direct to institution

**City:** International fee-paying places full-time/part-time  
**Apply:** Direct to institution

- Bachelor of Health Science (Musculoskeletal Therapy): 3 years full time study

**About the course:** Manual skills are core to MST training and are used in the exploration and evaluation of joint restriction and the contractile state of specific muscles. Students learn to isolate specific musculoskeletal structures and evaluate their integrity, allowing for the application of soft tissue and joint mobilisation to be used both diagnostically and therapeutically.

Massage and soft tissue mobilisation; passive stretching and joint mobilisation; myofascial dry-needling, myofascial release techniques; thermo-therapies; electro-stimulation; pain management techniques and prescriptive exercises, are also covered in the course.

MST students gain clinical practice under supervision of qualified instructors in a variety of settings.

**Major studies:** None.

**Prerequisites:** None

**Middle-band:** None

**Selection Mode:** CY12 : ATAR.  
NY12 : Educational History including GPA.

**Extra requirements:** None

### Naturopathy (HE)

**Endeavour College of Natural Health**

**City:** Domestic fee-paying places full-time/part-time  
**Apply:** Direct to institution

**City:** International fee-paying places full-time/part-time  
**Apply:** Direct to institution

- Bachelor of Health Science (Naturopathy): 4 years full time study

**About the course:** Naturopathy is a whole medical system combining theory (philosophy and principles) and practice that uses an array of natural therapies to support healing and maintain health. Its core principle, “the healing power of nature” guides the naturopath through the use of nutrition, dietary counselling, herbal medicine, manual therapies, flower essences, lifestyle education, homeopathy and other modalities to treat illness and restore health.

Naturopathic practitioners stimulate the body’s innate self-healing ability through therapies such as homeopathy and hydrotherapy, or through physical or creative activities that stimulate the vital force. Physiological systems are then evaluated and weak systems are strengthened using botanical medicines, nutritional supplements and other modalities in order to gradually bring the body back into balance.

**Major studies:** Anatomy and physiology, Biochemistry, Chemistry (organic), Dietary and nutritional studies, Health promotion, Health sciences, Herbal medicine, Homeopathy, Iridology, Massage, Natural medicine, Naturopathy, Pathophysiology, Psychology (counselling), Public health, Research methods, Small business management.

**Prerequisites:** None
**Nutritional Medicine (HE)**

**Endeavour College of Natural Health**

City: Domestic fee-paying places full-time/part-time  
Apply: [Direct to institution](#)

City: International fee-paying places full-time/part-time  
Apply: [Direct to institution](#)

- Bachelor of Health Science (Nutritional Medicine): 3 years full time study

**About the course:** Nutritional Medicine considers food and nutrients in relation to health and disease. It looks at the quality of food that is harvested as well as its preparation, and the balance of macro- and micro-nutrients needed by an individual at various stages of life. Nutrition primarily focuses on modifying a person's consumption patterns to promote the building of healthier tissues, the release of excess fat, or the release of toxins from the body.

This training provides a solid foundation in biomedical and clinical sciences, as is standard in most health science degrees. The nutritional consultant is also trained in communication and management skills including an appreciation of legal and ethical issues that may arise in a clinical setting.

Nutrition students gain clinical practice under the supervision of qualified instructors in Endeavour College of Natural Health’s Teaching Clinics.

**Major studies:** Anatomy and physiology, Biochemistry, Chemistry (organic), Dietary and nutritional studies, Health promotion, Health sciences, Herbal medicine, Natural medicine, Nutrition, Pathophysiology, Professional practice, Small business management.

**Prerequisites:** None

**Middle-band:** None

**Selection Mode:** CY12 : ATAR.
NY12 : Educational History including GPA.

**Extra requirements:** None

---

**Remedial Massage (VET)**

**Endeavour College of Natural Health**

City: Domestic fee-paying places full-time/part-time  
Apply: [Direct to institution](#)

City: International fee-paying places full-time/part-time  
Apply: [Direct to institution](#)

- Diploma of Remedial Massage: 1 year full time study

**About the course:** The Diploma provides students with a more detailed understanding of anatomy and physiology as well as equipping them to physically assess, treat and manage clients and interact with other health care practitioners. Remedial massage is effective for a range of conditions, and patients with a limited range of motion, pain and soft tissue problems are most likely to benefit from this type of treatment.
Diploma level graduates use their additional skills and knowledge to offer more advanced manual treatment, for example to those suffering from sports or work related injuries.

**Major studies:** Anatomy and physiology, Functional anatomy, Health promotion, Massage, Myofascial and advanced massage techniques, Natural medicine, Pathophysiology, Professional practice, Rehabilitation, Remedial massage.

**Prerequisites:** None

**Middle-band:** None

**Selection Mode:** CY12 : ATAR.
NY12 : Educational History including GPA.

**Extra requirements:**
None

---

**Traditional Chinese Medicine Remedial Massage (An Mo Tui Na) (VET)**

**Endeavour College of Natural Health**

City: Commonwealth-supported places full-time/part-time  
Apply: [Direct to institution](http://www.wss8.vtac.edu.au/courses-inst/institutions/topdf/endeavour...)

- Diploma of Traditional Chinese Medicine Remedial Massage (An Mo Tui Na): 1 year full time study

**About the course:** The course explores the history, tradition and global practice of Tui Na and provides students with specialised skills to assess conditions and trauma commonly experienced in the community. Students will develop knowledge and skill in assessment and treatment of acute and chronic conditions resulting from activities related to sport, work and lifestyle. Range of motion, special tests and orthopaedic testing are developed to assist diagnosis of specific musculoskeletal conditions. Traditional pulse and tongue assessment is linked to treatment protocols including acupressure point stimulation and acupuncture meridian massage techniques to open the channels and move the Qi.

**Major studies:** Anatomy and physiology, communication and counselling, TCM case management and practice, TCM point location and assessment, TCM Remedial Massage theory and clinical practice.

**Prerequisites:** None

**Middle-band:** None

**Selection Mode:** CY12 : Interview (All). See extra requirements for more information.
NY12 : Interview (All). See extra requirements for more information.

**Extra requirements:**
Interview (CY12-All, NY12-All) : Applicants must contact the college directly to arrange an interview.
Footscray City Films / Footscray City College

At Footscray City Films we teach you how to become Independent Film Makers as well as helping you to build your career in the Film and Television Industry in an intimate environment which is tailored to individual needs. Class sizes are kept small to ensure personal tuition. Whether you're a school student, a school leaver or mature age we hope that you will join us in 2014 and gain the qualifications you need to further your career. At Footscray City Films we are known for our 'hands on approach' to film making. Our reputation is based on the fact that we practice the art of film making by making films. Footscray City Film School is an independent tertiary institution providing courses which vary from one to three years and are based on National Industry Training Packages in Certificate 1V, Diploma and Advanced Diploma of Screen and Media. Students are provided with hands on tuition in short film production on up to 20 films per year, on Canon 5D Mk111 DSLR PRODUCTION on Rigs, Sony EX3, iphone 4, Super 16mm, and High Definition Digital Equipment and MacOSX for Editing on Final Cut Pro 7 - taking them from the concept to the marketing of their films. First Semester involves a one week location Film Camp at Somers where every student shoots their own film. This represents world’s best practice. In Semester 2, all students shoot a major film for one week, anywhere throughout Victoria using state of the art equipment. There are Industry links and attachments. Students are taught by Industry professionals in all aspects of Film Making. It is also highly regarded for giving students direct access to employment in the Film and Television Industry. Our many award winning Graduates are a testimony to our success.

Open day information

Tour of the facilities and information regarding application process through VTAC and explanation of extra requirements

For more information: http://footscrayfilms.com.au

Credit transfer, pathways and recognition of prior learning

The interview process gives you an opportunity to explain why you would be a suitable candidate for the course you are applying for. At the interview you will be asked to present a folio of work, which you have produced, written, directed, shot and edited. If you are applying for credit transfer you will be required to supply academic transcripts or evidence of documents, to support your claims.

Recognition of Prior Learning

The interview process gives you an opportunity to explain why you would be a suitable candidate for the course you are applying for. At the interview you will be asked to present a folio of work, which you have produced, written, directed, shot and edited. If you are applying for Recognition of Prior Learning you will be required to supply academic transcripts or evidence of documents, to support your claims.

Extra requirements
Applicants can download the Supplementary Application Form from the website or they can call the Admissions Officer, Cleo Constantinou on: 03 8387 1511 and request a form. The process for selection is based on the interview and folio. However to qualify for an interview you must first complete the written and/or visual application. Short listed Applicants will be contacted and asked to attend an interview. At the interview Applicants must bring in a Folio of Film(s) they have Directed and Produced plus Script(s) they have written. For more information: http://footscrayfilms.com.au/tvfilm/enrolment-procedure

Special consideration

Access and equity
To ensure that all curricula developed by FCF are inclusive of a range of student needs, FCF: Considers issues relating to access and equity when specifying course entry requirements and prerequisites. Offers flexible course design that provides pathways through the course, including credit transfer and recognition of prior learning. Takes into account the requirements of students with a disability when designing courses. Provides inclusive and non-discriminatory learning materials in the case of vocational courses, language, literacy and numeracy requirements are consistent.

Special Entry Access Scheme
To ensure that the student recruitment and admission process is bias-free and nondiscriminatory, FCF uses the same recruitment and admission process for all applicants. We do not discriminate. For more information: http://footscrayfilms.com.au/tvfilm/enrolment-procedure

Fees
The Fee structure for 2014 is as follows:

- Certificate IV in Screen and Media = Materials Charges $2600; Admin Fee $200; Refundable Bond $200; TOTAL $3000.00
- Diploma of Screen and Media = Materials Charges $2600; Admin Fee $200; Refundable Bond $200; TOTAL $3000.00 Advanced
- Diploma of Screen and Media = Materials Charges $3600; Admin Fee $200; Refundable Bond $200; TOTAL $4000.00

Breakdown of Materials Charges are based on the core and elective units undertaken and should be paid on commencement. $2000.00 deposit is due on Registration day. Payment plans are available. For more information: http://footscrayfilms.com.au/tvfilm/enrolment-procedure

Scholarships
We offer scholarships to students who have completed one year of study with the institution. The scholarship contributes to all or part of the Materials Charges for the year.

The course structure will be explained as well as the dates, fees and Austudy. The success of your interview will determine whether you get accepted or not. If you are applying for RPL you will be asked for all original qualifications together with evidence of completion of assessments and results.
Creating success for people is what GippsTAFE has been doing for more than 80 years. Since 1928, the Institute has provided high-quality education and practical training programs aimed at delivering positive employment outcomes for students.

GippsTAFE provides extensive training across five regional campuses, one metropolitan campus and has a growing online and international presence. The Institute’s international offerings range from Certificate II to Diploma level programs across a range of study areas throughout South East Asia, particularly in Malaysia, Papua New Guinea and the Philippines.

At GippsTAFE, the focus is on developing courses that provide for the unique needs of our students. Many courses are delivered through flexible study modes, both on and off campus, to make access to further education easier.

One strength of the organisation is the relationship GippsTAFE has with industry and employers. Courses are tailored to meet the needs of the workplace and, as a result, maximise career opportunities for the students.

The Gippsland region, with its rich industry base and wealth of natural resources, provides a vibrant training environment for students. The region is an easy drive from Melbourne and offers a vast range of cultural, sporting and leisure activities.

Visit www.gippstafe.edu.au and discover how GippsTAFE can help you achieve your goals.

Part-time courses

Applicants are not able to apply for part-time courses through VTAC. To find out more about these courses and the application process go to www.gippstafe.edu.au

Children's Services (VET)

GippsTAFE - Central Gippsland Institute of TAFE

Diploma of Childrens Services (Early Childhood Education): 1.5 year full time study

**About the course:** Enjoy being around children? Then this course will give you the ability to design and implement engaging programs for infants, pre-schoolers and school-age children. Enhance your employment prospects in an Early Childhood Education by enrolling in this course with GippsTAFE.

You will study the complex skills and knowledge required to develop and evaluate care programs and learning opportunities for children. This course combines face to face practical classes and work placements.

This program is part of our unique offering which provides guaranteed entry into the Bachelor of Teaching/Early Childhood Education with the University of Ballarat with credit.

For Pathways information please see the GippsTAFE website.
**Major studies:** Childcare, Education, Emotional Support, Family Studies, Learning, Physical Development, Psychological Development, Social Development.

**Prerequisites:** None

**Middle-band:** None

**Selection Mode:** CY12: Interview (All), Test (All). See extra requirements for more information. NY12: Interview (All), Test (All). See extra requirements for more information.

**Extra requirements:**
Interview (CY12-All, NY12-All): Students are required to undertake an interview. For interview information please contact Wendy Foord on (03) 51270 269.
Test (CY12-All, NY12-All): Literacy and Numeracy Test. For test information please contact Wendy Foord on (03) 51270 269.

**Disability (VET)**

**GippsTAFE - Central Gippsland Institute of TAFE**

*Warragul: 5500755314 (Fee type determined by provider) full-time Apply: Through VTAC main round*

- Certificate IV in Disability: 1 year full time study

**About the course:** This qualification addresses work in residential group homes, training resource centres, day respite centres and open employment services, other community settings and clients' homes. Workers in the area provide support to people with disabilities with the aim of them achieving greater levels of independence, self-reliance and community participation. Practical placement is part of GippsTAFE's work ready training. Skills Building and Autism.

**Major studies:** Behavioural support, Community sector, Empowerment, Legalities and Ethics, OH&S, Planning.

**Prerequisites:** None

**Middle-band:** None

**Selection Mode:** CY12: ATAR, Interview (All). See extra requirements for more information. NY12: Educational History including GPA, Interview (All). See extra requirements for more information.

**Extra requirements:**
Interview (CY12-All, NY12-All): Applicants must ring (03) 5622 8500 to book interview date and time.

---

**Education Support (VET)**

**GippsTAFE - Central Gippsland Institute of TAFE**

*Leongatha: 5500210044 (Fee type determined by provider) part-time Apply: Through VTAC main round*

- Diploma of Education Support: 1 year full time study

**About the course:** This qualification covers workers in a range of education and school settings who provide assistance and support in the classroom to facilitate learning in collaboration with teachers, working with students under broad based supervision. The qualification provides opportunity for education workers to broaden their skills and knowledge base in the field of education support work in order to obtain work as an Integration Aid.

Pathways information on this course please see the GippsTAFE website [www.gippstafe.edu.au](http://www.gippstafe.edu.au)
Engineering (VET)

GippsTAFE - Central Gippsland Institute of TAFE
Yallourn: 5500810014 (Fee type determined by provider) full-time  
Apply: Through VTAC main round

- Certificate IV in Engineering: 2 years full time study
- Diploma of Engineering Technology: 6.5 months full time study

About the course: The Certificate IV in Engineering Technology is a course which will provide you with broad-based foundation competencies in a range of engineering skills such as basic machining, fabrication and use of hand and power tools. You will gain experience and knowledge of a range of occupations at engineering trade level which will enable you to make more informed choices in the selection of vocational career paths. This course will also allow you to gain a recognised credential and credits for further training.

The Diploma of Engineering Technology develops technician level knowledge and skills in the engineering field. Typically, mechanical engineering has the widest application of the engineering fields and has increasingly been complimented with computer software tools for design and analysis. On completion, graduates will be able to practically apply their skills in a wide range of contexts within the engineering industry, for example - mechanical systems, mechanical design, robotic programming, industrial automation, control technologies, advanced manufacturing technology and 2D/3D CAD drafting. This program provides an articulated pathway of up to one year credit towards each stream within the University of Ballarat Bachelor of Engineering programs.

This course is part of the unique Engineering Degree program offered at GippsTAFE, with guaranteed entry pathways via the Certificate IV and Diploma programs into the Bachelor of Engineering with the University of Ballarat.

Prerequisites: None

Middle-band: None

Selection Mode: CY12 : Interview (Some). See extra requirements for more information.
NY12 : Interview (Some). See extra requirements for more information.

Extra requirements:
Interview (CY12-Some, NY12-Some) : Applicants with an ATAR score of under 65 may be accepted subject to interview.

Health Science (VET)

GippsTAFE - Central Gippsland Institute of TAFE
Morwell: 5500655174 (Fee type determined by provider) full-time  
Apply: Through VTAC main round

- Certificate IV in Health Science Foundations: 0.5 year full time study
**About the course:** Provides a bridge into nursing and other health related courses by developing skills in basic biology and other sciences relative to the health sector.

**Major studies:** Communication, Human biology, Infection control, Mathematics, Population health, Science, Sociology.

**Prerequisites:** None

**Middle-band:** None

**Selection Mode:** CY12 : ATAR, Supplementary form (All), VETASSESS (All). See extra requirements for more information.

NY12 : Educational History including GPA, Supplementary form (All), VETASSESS (All). See extra requirements for more information.

**Extra requirements:**
- Supplementary form (CY12-All, NY12-All) : Application Form: Telephone (03) 5622 8529 for advice on the supplementary application process including the written application.
- VETASSESS (CY12-All, NY12-All) : Applicants must apply to sit the VETASSESS test, a booking fee applies. For VETASSESS test information please contact Cathrine Righton on (03) 5622 8529

---

**Hospitality (VET)**

GippsTAFE - Central Gippsland Institute of TAFE

Morwell: 550065574 (Fee type determined by provider) full-time

**Apply:** Through VTAC main round

- Certificate IV in Hospitality: 1 year full time study

**About the course:** This course prepares students for employment in the operational, supervisory and management aspects of the hospitality industry. This course focuses on the hands on practical skills required for supervisory/management areas of the hospitality industry, concentrating on food and beverage service and hospitality leadership. Students undertaking this course have the opportunity to complete a dual qualification in Certificate IV in Tourism and Certificate IV in Hospitality.

**Major studies:** Accommodation management, Administration, Bar management, Business (accounting), Communications, Cookery, Customer Service, Food and beverage management, Food and beverage production, Food and beverage service, Food handling, Food safety and regulation, Hospitality management, Hospitality sales and marketing, Housekeeping, Leadership, Marketing, Restaurant operations.

**Prerequisites:** None

**Middle-band:** None

**Selection Mode:** CY12 : ATAR, Supplementary form (All), Interview (All). See extra requirements for more information.

NY12 : Educational History including GPA, Supplementary form (All), Interview (All). See extra requirements for more information.

**Extra requirements:**
- Supplementary form (CY12-All, NY12-All) : A pre-selection form will be sent to applicants by 9 November. Applicants must complete and submit the form by 26 November. Contact Adele Mangano on 51204 553 for Pre-selection form.
- Interview (CY12-All, NY12-All) : Details will be sent to applicants by 5 December. Applicants must attend in December.

---

**Human Resources (VET)**

GippsTAFE - Central Gippsland Institute of TAFE
Diploma of Diploma of Human Resources: 10 months full time study

About the course: In a workshop based format you'll learn about human resource services, workforce planning and performance management systems. You attend one workshop per month for ten months.

In this course you will learn how to: Manage human resource services, Manage performance management systems, Manage workforce planning, Manage remuneration and employee benefits, Manage recruitment, selection and induction processes, Manage rehabilitation or return to work programs, Manage mediation processes, Manage industrial relations.

This qualification reflects the role of individuals who are required to possess a sound theoretical knowledge base in human resources management and demonstrate a range of managerial skills to ensure that human resources functions are effectively conducted in an organisation or business area.

This program is part of the unique guaranteed business disciplines entry program offered at GippsTAFE which incorporates entry into the 2nd year of Bachelor of Business with University of Ballarat via the Diploma qualification.

Pathways Information on this course please see the GippsTAFE website www.gippstafe.vic.edu.au

Major studies: Develop a workplace learning environment, Manage Human Resources services, Manage industrial relations, Manage mediation processes, Manage people performance, Manage performance management systems, Manage recruitment selection and induction processes, Manage workforce planning.

Prerequisites: None

Middle-band: None

Selection Mode: CY12 : ATAR, Interview (Some). See extra requirements for more information.
NY12 : Educational History including GPA, Interview (Some). See extra requirements for more information.

Extra requirements:
Interview (CY12-Some, NY12-Some) : Applicants with an ATAR less than 50 must attend an Interview.

Management (VET)

GippsTAFE - Central Gippsland Institute of TAFE

Diploma of Management: 6 months full time study

About the course: This qualification is suitable for those who wish to work in a leadership or management role within an organisation. The qualification is suitable to a wide range of business settings and functions.

You will learn how to: Manage an operational plan, Manage budgets and financial plans, Ensure a safe workplace, Manage workplace planning, Develop a workforce learning environment, Ensure team effectiveness, Manage people performance, Manage recruitment selection and induction processes.

Some preferred pathways for candidates considering this qualification include: Certificate IV Frontline Management
Major studies: Develop a workforce learning environment, Ensure a safe workplace, Ensure team effectiveness, Manage an operational plan, Manage budgets and financial plans, Manage people performance, Manage recruitment selection and induction processes, Manage workforce planning.

Prerequisites: None

Middle-band: None

Selection Mode: CY12: ATAR, Interview (Some). See extra requirements for more information. NY12: Educational History including GPA, Interview (Some). See extra requirements for more information.

Extra requirements:
Interview (CY12-Some, NY12-Some): Applicants with an ATAR less than 50 must attend an Interview.

---

**Nursing (VET)**

**GippsTAFE - Central Gippsland Institute of TAFE**

Churchill: 5500555144 (Fee type determined by provider) full-time Apply: Through VTAC main round

Leongatha: 5500255144 (Fee type determined by provider) full-time Apply: Through VTAC main round

Warragul: 5500755144 (Fee type determined by provider) full-time Apply: Through VTAC main round

- Diploma of Nursing (Enrolled/Division 2 nursing): 1.5 year full time study

**About the course:** This course will provide graduates with the opportunity to apply for registration to practise as an enrolled nurse with the Nursing and Midwifery Board Australia which sits within the Australian Health Practitioners Regulation Agency. During the course students will have the opportunity to undertake 10 weeks of clinical placement across a range of nursing environments as well as engage in simulated laboratory practice and online learning. GippsTAFE offers well equipped facilities across three locations and excellent employment outcomes. Successful completion of the Diploma of Nursing provides one year credit towards a Bachelor of Nursing Practice.

Information session is highly recommended. Please contact (03) 5622 8529 for details.

Major studies: Acute / Chronic Disorders, Anatomy and physiology, Clinical assessment, Cultural awareness, Medications, Nursing care, Professional practice, Research skills.

Prerequisites: None

Middle-band: None

Selection Mode: CY12: ATAR, Supplementary form (All), Interview (Some), VETASSESS (All). See extra requirements for more information.

NY12: Educational History including GPA, Supplementary form (All), Interview (Some), VETASSESS (All). See extra requirements for more information.

Extra requirements:
Supplementary form (CY12-All, NY12-All): Applicants must download and complete the application form from the GippsTAFE website under the heading Diploma of Nursing, alternatively telephone (03) 5622 8529 for advice on the supplementary application process.

Interview (CY12-Some, NY12-Some): Applicants successful in the VETASSESS entrance test must attend an interview.

VETASSESS (CY12-All, NY12-All): All applicants must apply to sit the VETASSESS entrance test, a booking fee applies. Call (03) 5622 8529 to book a date and time for the test.

---

**Tourism (VET)**
Certificate IV in Tourism: 1 year full time study

About the course: This course is designed for applicants seeking supervisory and management roles in the tourism industry. Career pathways include visitor centre management, tour operations and retail travel.

This course focuses on the hands-on practical skills required for supervisory/management areas of the tourism industry, covering the operational areas of the industry. Students undertaking this course have the opportunity to complete a dual qualification in Certificate IV in Hospitality and Certificate IV in Tourism.

Major studies: Adventure, Attractions and theme parks, Customer service, Ecotourism, Natural & cultural heritage, Tour wholesaling, Tourism, Travel and tourism management, Visitor information services.

Prerequisites: None

Middle-band: None

Selection Mode: CY12 : ATAR, Supplementary form (All), Interview (All). See extra requirements for more information.

NY12 : Educational History including GPA, Supplementary form (All), Interview (All). See extra requirements for more information.

Extra requirements:

Supplementary form (CY12-All, NY12-All) : pre-selection form will be sent to applicants by 9 November. Applicants must complete and submit the form by 26 November. Contact Adele Mangano on 51204 553 for Pre-selection form

Interview (CY12-All, NY12-All) : Details will be sent to applicants by 5 December. Applicants must attend in December.
As Victoria's largest regional stand-alone TAFE, The Gordon has been helping people gain real skills for real jobs for 125 years. We pride ourselves on delivering a great range of options in vocational 'hands-on' training with one of the most comprehensive suites of courses in Western Victoria.

Students can choose from hundreds of short courses and nationally accredited qualifications across apprenticeships, traineeships, certificates, diplomas, and advanced diplomas, which can lead you to a great career or create a pathway to University.

From Geelong, Victoria, around Australia and overseas, thousands choose to study with us each year via flexible options including on-campus, full and part-time, off campus, online, and in the workplace. All have one thing in common: to offer students the very best in job-ready skills for their chosen career path.

How do we do it? We've built solid partnerships with employers and industry which underpin and inform the design of our courses. We continually consult our partners in the real world to research latest trends and industry skills. The result is range of courses designed to take you where you want to go.

The Gordon is located in Geelong, the gateway to the Bellarine Peninsula, Surf Coast and Otway regions, which also offers an attractive lifestyle choice whilst still close to Melbourne City and Ballarat - only one hour's drive away.

The Gordon's two main campuses are in Geelong City and East Geelong, and we are also the primary training provider at the new Colac Trade Training Centre. Our training facilities are state-of-the-art and are continually being upgraded to reflect industry standards, with almost $20 million spent in the last three years on redevelopments, infrastructure and equipment upgrades across a number of areas.

Check out everything The Gordon has to offer at www.thegordon.edu.au.

Pathways

The Gordon provides excellent pathways from diplomas and advanced diplomas into degree programs at both universities and TAFEs. In particular we currently articulate more than 20 advanced qualifications into more than 40 degree programs at Deakin University. For more information call Customer Service on (03) 5225 0500. Not only can a diploma or advanced diploma lead you into a University degree, but you could also be eligible for credits for the first year, which quite often means you can straight into the second year of your degree.

For more information: http://www.thegordon.edu.au/Courses/Pathway

Special consideration

Special Entry Access Scheme

The Gordon will make fair and equitable course selections based on both the selection criteria for that course, as well as the consideration of special circumstances through the Special Entry Access Scheme

For more information: http://www.thegordon.edu.au
Fees
For further information about fees for these courses go to: www.thegordon.edu.au/Courses/FeesandCharges
For more information: http://www.thegordon.edu.au/Courses/FeesandCharges

Services
Accommodation
The Gordon offers an affordable student residence for students living away from home, located at the East Geelong Campus (ten minutes from City Campus). The residence comprises 50 furnished bedrooms with a queen-sized bed, and fully-equipped kitchen and bathroom areas shared between four residents. Living areas are centrally-located with couches, TV and DVD facilities. The residence also offers many support services, activities and opportunities to meet new friends and build independent living skills. For more information regarding please contact the Residence Manager on (03) 5246 6132. For more information: http://www.thegordon.edu.au/StudentSupport/LearnerSupport/Accomodation

Accounting (VET)
Gordon (The)
City (Geelong): 5900259204 (Fee type determined by provider) full-time  Apply: Through VTAC main round

- Associate Diploma of Accounting: 1.5 year full time study

About the course: This course develops the skills and knowledge for an entry level career in Accounting or as a pathway to higher education. This course is structured with exit points at various levels throughout the 18 month program, with the option to exit with a Certificate IV in Accounting after six months, a Diploma of Accounting after 12 months, and the Advanced Diploma after 18 months. The Certificate IV covers tasks such as office tax, BAS, operational reporting, compiling budget information and data for job costing and relevant legal requirements, preparing students to work as bookkeepers/account clerks. Diploma and Advanced Diploma covers preparing tax returns, reporting on business performance, introducing and maintaining accounting systems and internal control.

Selection Mode: CY12: ATAR, Supplementary form (All), Interview (All). See extra requirements for more information.
NY12: Educational History including GPA, Supplementary form (All), Interview (All). See extra requirements for more information.

Extra requirements:
Supplementary form (CY12-All, NY12-All): All applicants must complete and submit the Supplementary form at the information session. To obtain a copy of the form go to www.thegordon.edu.au/vtacsuppappform
Interview (CY12-All, NY12-All): All applicants must attend one of the following information sessions: 11 August at 11.30am, Room G2.34, City Campus; 18 November at 6.00pm, Room G2.34, City Campus; 9 December at 6.00pm Room G2.34, City Campus.

Building and Construction (VET)

Gordon (The)
East Geelong: 5900159014 (Fee type determined by provider) full-time

- Diploma of Building and Construction (Building): 1.5 year full time study

About the course: The Diploma of Building and Construction (Building) equips students with the academic requirements and training for a career at a supervision/management level within the construction industry, specifically medium-sized construction companies. The course provides students with para-professional skills and knowledge in order to plan and coordinate the construction of medium-rise residential and commercial buildings, and is structured to simulate workplace environments and industry expectations. Subjects offered range from supervision skills, contract administration, quality and risk, and construction theory, developing a variety of techniques to fully prepare you for working in residential and commercial construction. The course is delivered over a two year period. Successful completion of this course meets the minimum academic requirements for registration with the Building Practitioners Board as a domestic builder (unlimited) and commercial builder.

General information session: 11 August 2013 (Open Day), 1.00pm, Room E1.06 (Theatrette), East Campus

Major studies: Building (construction methods), Building control and legislation, Building surveying procedures (compliance), Computer applications, Contracts and tenders, Site surveying.

Prerequisites: None

Middle-band: None

Selection Mode: CY12: ATAR, Supplementary form (All), Interview (All). See extra requirements for more information.
NY12: Educational History including GPA, Supplementary form (All), Interview (All). See extra requirements for
Extra requirements:
Supplementary form (CY12-All, NY12-All): All applicants must complete the Supplementary form by 27 September (8 November, late applicants and 6 December, very late applicants). To obtain a copy of the form go to www.thegordon.edu.au/vtacsuppapplform
Interview (CY12-All, NY12-All): All applicants must attend an information session on the 16 October at 6.30pm, Room E1.06 (Theatrette), East Campus.

---

**Building Design (VET)**

**Gordon (The)**
East Geelong: 5900159034 (Fee type determined by provider) full-time  
Apply: Through VTAC main round

- Advanced Diploma of Building Design (Architectural): 2.5 years full time study

**About the course:** The Advanced Diploma of Building Design (Architectural) provides the academic requirements and training for a career as a building designer. This course equips students with skills and knowledge in residential and commercial design, construction methods and techniques, site surveying, scheduling and documentation management. The course is structured for students to simulate workplace environments and industry expectations, covering a range of techniques to fully equip them to operate in residential and commercial construction sector. Subjects offered include design techniques, environmentally sustainable design principles, 2D and 3D software skills, graphic presentation, project management and administration. The course is typically delivered over two and a half years. Successful completion of this course meets the minimum academic requirements for registration with the Building Practitioners Board as building designer.

General information session: 11 August 2013 (Open Day), 1.00pm, Room E1.06 (Theatrette), East Campus

**Major studies:** Architecture, Building (construction methods), Building information modelling, Computer-aided drafting (CAD), Design process, Project administration, Project management.

**Prerequisites:** None

**Middle-band:** None

**Selection Mode:** CY12 : ATAR, Supplementary form (All), Interview (All). See extra requirements for more information.
NY12 : Educational History including GPA, Supplementary form (All), Interview (All). See extra requirements for more information.

**Extra requirements:**
Supplementary form (CY12-All, NY12-All): All applicants must complete the Supplementary form by 27 September (8 November, late applicants and 6 December, very late applicants). To obtain a copy of the form go to www.thegordon.edu.au/vtacsuppapplform
Interview (CY12-All, NY12-All): All applicants must attend an information session on the 16 October at 6.30pm, Room E1.06 (Theatrette), East Campus.

---

**Building Surveying (VET)**

**Gordon (The)**
East Geelong: 5900159024 (Fee type determined by provider) full-time  
Apply: Through VTAC main round

- Diploma of Building Surveying: 1 year full time study

**About the course:** The Diploma of Building Surveying provides the academic requirements and training for a career in the Building Surveying (Building Inspector) industry. This course equips students with para-professional skills and knowledge to carry out building inspection work and building surveying specifically related to residential construction. The course is structured to simulate workplace environments and industry expectations, where students learn a range of techniques to fully prepare them to operate in the residential construction sector. Subjects...
offered range from building regulations, building surveying procedures and construction theory. The course is delivered over a one year period. Successful completion of this course meets the minimum academic requirements for registration with the Building Practitioners Board as Building Inspector.

General Information Session: 11 August 2013 (Open Day), 1.00pm, Room E1.06 (Theatrette), East Campus.

**Major studies:** Building, Building (construction methods), Building control and legislation, Building surveying procedures (compliance), Computer applications, Site surveying.

**Prerequisites:** None

**Middle-band:** None

**Selection Mode:** CY12 : ATAR, Supplementary form (All), Interview (All). See extra requirements for more information.

**Commercial Cookery (VET)**

**Gordon (The)**

City (Geelong): 5900259534 (Fee type determined by provider) full-time   
Apply: [Through VTAC](http://www.wss8.vtac.edu.au/courses-inst/institutions/topdf/gordon.html)

- Certificate IV in Hospitality: 1.5 year full time study

**About the course:**

**Major studies:** None.

**Prerequisites:** None

**Middle-band:** None

**Selection Mode:** CY12 : ATAR, Supplementary form (All).

NY12 : Educational History including GPA, Supplementary form (All), Information session. See extra requirements for more information.

**Extra requirements:**
Supplementary form (CY12-All, NY12-All)

Compulsory Information Session (CY12-All, NY12-All): All applicants are required to attend the information session on 5 December 2013, 10.00am, Cafe on Track, City Campus. Interviews will be held at the information session.

---

**Computer Systems (VET)**

**Gordon (The)**

East Geelong: 5900159344 (Fee type determined by provider) full-time   
Apply: [Through VTAC](http://www.wss8.vtac.edu.au/courses-inst/institutions/topdf/gordon.html) main round

- Advanced Diploma of Computer Systems Engineering: 2 years full time study
About the course: This course provides students with advanced skills and knowledge in the design, installation and maintenance of Local and Wide Area Networks, Wireless Networking, Client-Server Software, Enterprise Network Administration, Computer Hardware Maintenance, Cloud Computing, Virtualisation and Desktop Deployment. The course includes extensive practical laboratory tasks incorporating design, construction, systems commissioning and maintenance. The Gordon has a strong Industry partnership with key IT vendors including CISCO networking academy, Microsoft IT Academy and Oracle, and graduates may also achieve vendor accreditations which are highly regarded in industry including CISCO CCNA, Microsoft MCITP, Linux+, Comp TIA A+ and Security+. These provide students with current and relevant skills and knowledge required for their future career. Students can expect approximately 24 hours of class attendance each week.

Applicants are encouraged to attend an information session, where informal interviews will also be held. Please bring two forms of ID with you.

10 December 2013, 10.00am, Room E2.20, East Campus
28 January 2014, 10.00am, Room E2.20, East Campus
7 February 2014, 10.00am, Room E2.20, East Campus

Applicants may be required to undertake an informal interview after applications have been received.

Major studies: Computer and network security, Computer engineering, Computer hardware, Computer hardware/software, Computer operating systems, Engineering (computer systems), Network design, Network management and network systems, Network systems, Operating systems, Programming, Project management, Server-side programming, Website development, Wireless network security.

Prerequisites: None

Middle-band: None

Selection Mode: CY12 : ATAR, Interview (Some). See extra requirements for more information.
NY12 : Educational History including GPA, Interview (Some). See extra requirements for more information.

Extra requirements:
Interview (CY12-Some, NY12-Some) : Some applicants. Applicants may be required to undertake an informal interview after applications have been received.

Conservation and Land Management (VET)

Gordon (The)
East Geelong: 5900159754 (Fee type determined by provider) full-time Apply: Through VTAC main round

- Diploma of Conservation and Land Management: 2 years full time study

About the course: This practical, hands-on course provides students with a solid grounding in environmental management. Students gain specialised skills and knowledge in natural resource management, with an emphasis on technical and practical skills for field work. This course has a strong industry focus, offering a range of units designed to enable students to confidently work in the area of natural resource management upon completion of the course. The units include natural area restoration, wildlife management, plant and animal identification, community engagement and pest plant and animal management. The Gordon is conveniently located close to many State and National Parks, coastal environments and catchment areas, which are regularly used for field work. Students can complete the Course in Coastal Management and Dual Diploma in Sustainability while studying this course. Upon completion of this Diploma students may use this qualification to progress towards a Bachelor Degree in a related area.

Interview-Applicants will be contacted to arrange an interview.

Information Session- Applicants are encouraged to attend an information session on 14 October 2013, 6pm-7pm, Room G2.01, East Geelong Campus.

Major studies: Aquatic science, Coastal management, Community engagement, Conservation biology/ecology, Conservation management ( revegetation), Ecological studies, Ecotourism, Environmental management, Environmental science, Forest ecology, Freshwater ecosystems, Land and water management, Mapping systems, Marine environment, Natural resource management, Park and wilderness management, Parks and recreation management, Parks and wildlife reserve management, Soil science, Vegetation and wildlife management, Wildlife
conservation and ecology.

**Prerequisites:** None

**Middle-band:** None

**Selection Mode:** CY12: ATAR, Supplementary form (All), Interview (All). See extra requirements for more information.

NY12: Educational History including GPA, Supplementary form (All), Interview (All). See extra requirements for more information.

**Extra requirements:**
Supplementary form (CY12-All, NY12-All)
Interview (CY12-All, NY12-All): All applicants will be contacted to arrange an interview, after all applications are received.

---

**Engineering-Mechanical/Manufacturing (VET)**

**Gordon (The)**

East Geelong: 5900159234 (Fee type determined by provider) full-time  
Apply: [Through VTAC](http://www.wss8.vtac.edu.au/courses-inst/institutions/topdf/gordon.html) main round

- Diploma of Engineering Technology: 1 year full time study
- Advanced Diploma of Engineering Technology: 2 years full time study

**About the course:** This course provides students with the knowledge and skills to apply engineering and scientific principles to mechanical and manufacturing engineering applications with applicability to both the public and private sectors across all engineering streams, and to small, medium and large enterprises. Students will learn to analyse, diagnose, design and execute judgments with respect to the mechanical and manufacturing engineering solutions, for careers in mechanical and plant design, production supervision and manufacturing planning. This course includes a practical workshop component of 200 hours

Applicants are encouraged to attend an information session scheduled for December 2013. See the website for details. **Major studies:** Computer-aided design (CAD), Computer-aided drafting (CAD), Design (tooling), Drafting, Engineering (fluid power), Engineering (manufacturing), Engineering (materials), Engineering (mechanical), Engineering (process engineering), Industrial engineering, Machine dynamics, Mechanical design, Mechanics (applied). **Prerequisites:** None  
**Middle-band:** None  
**Selection Mode:** CY12: ATAR.

NY12: Educational History including GPA. **Extra requirements:**

- None

---

**Events (VET)**

**Gordon (The)**

City (Geelong): 5900259254 (Fee type determined by provider) full-time  
Apply: [Through VTAC](http://www.wss8.vtac.edu.au/courses-inst/institutions/topdf/gordon.html) main round

- Advanced Diploma of Events: 1 year full time study

**About the course:** The Advanced Diploma of Events develops high level business and management skills which enable students to develop a career across several industries in areas such as marketing, hospitality, community development, tourism, or in welfare/community organisations. Students will develop their skills over two years, gaining theory and practical skills in advanced event management including legal, leadership, venue and site planning, and sustainability. This course continues the focus on providing hands-on and real-life experience, and includes a significant internship program.

**Major studies:** Business (management), Conferences, Conventions and exhibitions, Event registration, Event staging, Financial accounting, Human resource management, Leadership, Legal requirements, Marketing, Obtaining bids and managing sponsorship, Sustainability, Venue and site planning (CAD).

**Prerequisites:** None

**Middle-band:** None
Selection Mode: CY12 : ATAR, Supplementary form (All), Interview (All). See extra requirements for more information.

NY12 : Educational History including GPA, Supplementary form (All), Interview (All). See extra requirements for more information.

Extra requirements:

Supplementary form (CY12-All, NY12-All) : All applicants must complete the Supplementary form by 27 September (8 November, late applicants and 6 December, very late applicants). To obtain a copy of the form go to www.thegordon.edu.au/vtacsuppappform

Interview (CY12-All, NY12-All) : All applicants are required to attend an information session on 12 December at 10.00am, Cafe on Track, City Campus. Interviews will be scheduled for the New Year with applicants.

Events/Sustainability (VET)

Gordon (The)
City (Geelong): 5900259554 (Fee type determined by provider) full-time  Apply: Through VTAC

- Diploma of Events/Sustainability: 1.5 year full time study

About the course: The Event industry is recognised in Australia and world-wide as a rapidly developing area. The Diploma of Events incorporates competencies from a range of Certificate III qualifications, and aims to provide students with a life-long foundation of skills and knowledge to build a career in this exciting growth industry. With specialist teachers and strong industry partnerships, students will gain both theory and practical skills, covering core areas of event and project management, research, finance, and human resources, as well as completing a Diploma of Sustainability to increase their employability prospects. The course focuses on providing hands-on and real-life experience, and students gain the benefit of working with our highly experienced staff, undertaking industry visits, volunteering and practical opportunities to develop their job-ready skills.

Major studies: Conferences, Conventions and exhibitions, Event registration, Event staging, Finances, Human resources management, Leadership, Legal, Project management, Sustainability, Venue and site planning.

Prerequisites: None

Middle-band: None

Selection Mode: CY12 : ATAR, Supplementary form (All). See extra requirements for more information.

NY12 : Educational History Including GPA, Supplementary form (All), Information session. See extra requirements for more information.

Extra requirements:

Supplementary form (CY12-All, NY12-All) : All applicants must complete the Supplementary form by 27 September (8 November, late applicants and 6 December, very late applicants). To obtain a copy of the form go to www.thegordon.edu.au/vtacsuppappform

Information session (CY12-All, NY12-All): All applicants are required to attend the following information sessions: 12 December at 10.00am, Cafe on Track, City Campus. Some applicants may be contacted to arrange an interview.

Fashion and Textile Merchandising (VET)

Gordon (The)
City (Geelong): 5900259594 (Fee type determined by provider) full-time  Apply: Through VTAC main round

- Advanced Diploma of Fashion and Textiles Merchandising: 2 years full time study

About the course: The Advanced Diploma of Fashion and Textile Merchandising is a new fashion course that will equip you with the industry skills and knowledge to start your own range of fashion or textile products. Students will develop basic sewing, patternmaking and textile skills to assist in the development of fashion and textile ranges. Real-world projects with industry partners give students an insight into the Australian and International markets, with opportunities for internships and study tours. Students will research future trends and directions to develop
their ranges, as well as cover marketing, merchandising and global operations as advanced skills in importing and product sales. The comprehensive and well-rounded skills developed through this course are highly sort after by today's industry, and provide the opportunities to develop your own business in the future.

Applicants are encouraged to attend an information session. Please bring pen and paper.
11 August 2013 (Open Day), 10.30am and 1.00pm, Room G2.10, City Campus
8 October 2013, 7.00pm, Room G2.10, City Campus

**Major studies:** Fashion, Global operations, Product development, Range/product development, Textile and fashion merchandising.

**Prerequisites:** None

**Middle-band:** None

**Selection Mode:** CY12 : ATAR, Supplementary form (All), Folio (All), Interview (All). See extra requirements for more information. NY12 : Educational History including GPA, Supplementary form (All), Folio (All), Interview (All). See extra requirements for more information.

**Extra requirements:**
Supplementary form (CY12-All, NY12-All) : All applicants must complete the Supplementary form by 27 September (8 November, late applicants and 6 December, very late applicants). To obtain a copy of the form go to www.thegordon.edu.au/vtacsuppappform
Folio (CY12-All, NY12-All) : All applicants Resume with photographs of design work and garments (sent with application form)
Interview (CY12-All, NY12-All) : All applicants are required to attend an interview and will be contacted by The Gordon to arrange a date and time. Interviews will be conducted from September.

**Fashion Design (VET)**

**Gordon (The)**

City (Geelong): 5900259174 (Fee type determined by provider) full-time  **Apply:** Through VTAC main round

- Certificate IV in Applied Fashion Design and Technology: 1 year full time study
- Diploma of Applied Fashion Design and Technology: 2 years full time study
- Advanced Diploma of Applied Fashion Design and Technology: 3 years full time study

**About the course:** This course incorporates four qualification levels, to equip students with the skills and knowledge to work in the fashion industry as a designer, merchandiser or quality assurance officer. In the first year (including Certificate III) students develop foundation skills across core disciplines in pattern making, fibres and fabrics, illustration, range development, garment construction and quality assurance. The second year increases students' awareness of the complementary and integrated roles of design, pattern making, construction and associated technologies; developing, investigating and creating skills related to current and future directions of the fashion industry. In the final year students enhance their skills in design, marketing and global operations to work within the fast-paced fashion world from designers through to manufacturers. Students also undertake an internship with a fashion enterprise, and have the opportunity to participate in an international study tour.

Applicants are encouraged to attend an information session. Please bring pen and paper.
11 August 2013 (Open Day), 10.30am and 1.00pm, Room G2.10, City Campus
8 October 2013, 7.00pm, Room G2.10, City Campus

**Major studies:** Fabric technology, Fashion (design concepts), Fashion (design), Fashion (illustration), Fashion (pattern grading), Marketing research, Marketing strategy, Networking.

**Prerequisites:** None

**Middle-band:** None
**Selection Mode:** CY12 : ATAR, Supplementary form (All), Folio (All), Interview (All). See extra requirements for more information.

NY12 : Educational History including GPA, Supplementary form (All), Folio (All), Interview (All). See extra requirements for more information.

**Extra requirements:**
Supplementary form (CY12-All, NY12-All) : All applicants must complete the Supplementary form by 27 September (8 November, late applicants and 6 December, very late applicants). To obtain a copy of the form go to [www.thegordon.edu.au/vtacsuppappform](http://www.thegordon.edu.au/vtacsuppappform)

Folio (CY12-All, NY12-All) : All applicants Folio. Resume with photographs of design work and garments (sent with application form)

Interview (CY12-All, NY12-All) : All applicants are required to attend an interview and will be contacted by The Gordon to arrange a date and time. Interviews will be conducted from September.

**Graphic Design (VET)**

**Gordon (The)**
City (Geelong): 5900259004 (Fee type determined by provider) full-time  
Apply: Through VTAC main round

- Diploma of Graphic Design: 1 year full time study

**About the course:** The Diploma of Graphic Design will equip students with comprehensive skills and knowledge to enter the graphic design industry. The course is taught by industry professionals and covers conceptual skills, techniques and the use of resources required for the development of effective visual communications. The course includes a practical placement component and many real work opportunities. Graduates will be prepared to work as Graphic Designers and follow careers in corporate design, illustration, freelance design, printing and graphic design. This is a one-year full-time course with approximately 28 hours of class attendance a week. Graduates also have the opportunity to complete the Advanced Diploma of Graphic Design with a further year of study.

Applicants are encouraged to attend an information session on Sunday 11 August 2013 (Open Day), 12.00pm, T Building, Level 3 Foyer, City Campus. Another information session will be scheduled for October 2013. Visit the website for details.

**Major studies:** Drawing, Graphic design, Pre-press, Publication design, Typography.

**Prerequisites:** None

**Middle-band:** None

**Selection Mode:** CY12 : ATAR, Folio (All), Interview (All). See extra requirements for more information.

NY12 : Educational History including GPA, Folio (All), Interview (All). See extra requirements for more information.

**Extra requirements:**
Folio (CY12-All, NY12-All) : All applicants your folio should contain a variety of work to demonstrate your potential to work in the creative industries, and is preferably presented in a hard copy format, or alternatively as PDF or PowerPoint.

Interview (CY12-All, NY12-All) : All applicants will be required to attend an interview, that includes presentation of their folio and a drawing exercise. Interviews are scheduled over several days in October and November 2013. Applicants need to call 03 5225 0745 for further information and/or to arrange a convenient interview date and time.

**Hospitality (VET)**

**Gordon (The)**
City (Geelong): 5900259574 (Fee type determined by provider) full-time  
Apply: Through VTAC

- Diploma of Hospitality: 1.5 year full time study
- Advanced Diploma of Hospitality: 2 years full time study
About the course: The Advanced Diploma of Hospitality incorporates three qualification levels. In the first year, the Certificate IV covers fundamental skills to work in a Hospitality supervisory role, including responsible service of alcohol, hygiene, espresso coffee, customer service, food and beverage knowledge and service. In the second year students cover areas of management including human resources, leadership, legal, business planning, finance, and small business operations. Students will have the opportunity to participate in an industry placement and work at highly regarded hospitality businesses, as well as optional participation on an interstate study tour. Students experience working in The Gordon’s two operational venues; Cafe on Track and the Davidson Restaurant, and may exit with a Certificate IV in Hospitality after the first year or with a Diploma of Hospitality after 18 months. Possible career outcomes include Food and Beverage Manager, management in hotels, or small business owners.

Major studies: Business planning, Business skills, Business Technology, Customer service, Financial management, Food and beverage management, Food and beverage service, Hospitality sales and marketing, Human resource management, Legal knowledge, Occupational health and safety, Stock control, Sustainability, Wine and beer knowledge.

Prerequisites: None

Middle-band: None

Selection Mode: CY12 : ATAR, Supplementary form (All). See extra requirements for more information.
NY12 : Educational History including GPA, Supplementary form (All), Information Session. See extra requirements for more information.

Extra requirements:
Supplementary form (CY12-All, NY12-All) : All applicants must complete the Supplementary form by 27 September (8 November, late applicants and 6 December, very late applicants). To obtain a copy of the form go to www.thegordon.edu.au/vtacsuppappform
Information session (CY12-All, NY12-All): All applicants are required to attend the following information sessions: 12 December at 10.00am, Cafe on Track, City Campus. Some applicants may be contacted to arrange an interview.

Hospitality/Events (VET)

Gordon (The)
City (Geelong); 5900259504 (Fee type determined by provider) full-time Apply: Through VTAC

- Diploma of Hospitality/Events: 1.5 year full time study

About the course: Students studying a dual qualification in Hospitality and Event Management at The Gordon will meet a clear industry demand for management staff who can combine hospitality knowledge with event management skills. This new dual qualification is designed to meet the industry trend focused on event development in hospitality (in produce, wine, regional produce, food and wine festivals), adding supporting knowledge and experience to the traditional skill sets across functions, catering and food and beverage management, conferences and weddings. The course covers core skills in event and project management, research, finance, human resource management as well as food and beverage service and management, catering logistics, OHS and stock control. With an increasing demand and industry growth in this area, students can enjoy a range of career options from function and event manager, to catering company supervisor.

Prerequisites: None

Middle-band: None

Selection Mode: CY12 : ATAR, Supplementary form (All). See extra requirements for more information.
NY12 : Educational History including GPA, Supplementary form (All), Information session. See extra requirements for more information.
Extra requirements:
Supplementary form (CY12-All, NY12-All): All applicants must complete the Supplementary form by 27 September (8 November, late applicants and 6 December, very late applicants). To obtain a copy of the form go to www.thegordon.edu.au/vtacsuppappform

Information session (CY12-All, NY12-All): All applicants are required to attend the following information sessions:
12 December at 10.00am, Cafe on Track, City Campus. Some applicants may be contacted to arrange an interview.

---

**Information Technology (VET)**

**Gordon (The)**
East Geelong: 5900159334 (Fee type determined by provider) full-time  
Apply: Through VTAC main round

- Advanced Diploma of Information Technology (General): 2 years full time study

**About the course:** The Advanced Diploma of Information Technology will equip you with a broad range of information and communication technology (ICT) skills and knowledge to prepare you for a career in the ICT industry. It incorporates four qualifications: Certificate III in Information, Digital Media and Technology, Certificate IV in Information Technology and Diploma of Information Technology. Over two years, this practical and hands-on course covers many aspects of ICT including knowledge management, business analysis, cloud computing, programming, mobile applications, team project management, web systems, data warehouse and wireless network security. Graduates may articulate into higher education with credit points towards a degree at Deakin University. Students can expect approximately 20 hours of class attendance each week.

Applicants are encouraged to attend an information session, where informal interviews will also be held. Please bring two forms of ID with you.

Applicants may be required to undertake an informal interview after applications have been received.

Applicants are encouraged to attend an information session, where informal interviews will also be held. Please bring two forms of ID with you.

10 December 2013, 10.00am, Room E2.20, East Campus
28 January 2014, 10.00am, Room E2.20, East Campus
7 February 2014, 10.00am, Room E2.20, East Campus

**Major studies:** Computer programming, Database design and management, Hardware tools, Networks, Operating systems, Software applications, Systems analysis and design, Web development, Workplace skills.

**Prerequisites:** None

**Middle-band:** None

**Selection Mode:** CY12 : ATAR, Interview (Some). See extra requirements for more information.
NY12 : Educational History including GPA, Interview (Some). See extra requirements for more information.

**Extra requirements:**
Interview (CY12- Some, NY12- Some): Some applicants Applicants may be required to undertake an informal interview after applications have been received.

---

**Information Technology (Networking) (VET)**

**Gordon (The)**
East Geelong: 5900159194 (Fee type determined by provider) full-time  
Apply: Through VTAC main round

- Diploma of Information Technology (Networking): 2 years full time study

**About the course:** This course develops advanced skills and knowledge in the design, installation and maintenance of local and wide area networks, wireless networking, client-server software, enterprise network administration, computer hardware maintenance and desktop deployment. The course incorporates the Certificate III in Information, Digital Media and Technology and the Certificate IV in Information Technology Networking as the
first year of study, and students also complete extensive practical laboratory tasks throughout the course. The Gordon also has strong industry partnerships with key ICT vendors including CISCO networking academy, and Microsoft’s IT Academy. Graduates may also achieve vendor accreditations that are highly regarded in the networking and information technology industry, some of which are internationally recognised including CISCO CCNA, Microsoft MCITP, CompTIA A+ and Server+. Students can expect approximately 20 hours of class attendance each week.

Applicants are encouraged to attend an information session, where informal interviews will also be held. Please bring two forms of ID with you.

10 December 2013, 10.00am, Room E2.20, East Campus
28 January 2014, 10.00am, Room E2.20, East Campus
7 February 2014, 10.00am, Room E2.20, East Campus

**Major studies:** Network applications, Network design, Network infrastructure, Network server administration, Networking, Operating systems, Project management, Project planning, Security and wireless, Server side web programming, Systems analysis, Wireless network security, Workplace skills.

**Prerequisites:** None

**Middle-band:** None

**Selection Mode:** CY12 : ATAR, Interview (Some). See extra requirements for more information.
NY12 : Educational History including GPA, Interview (Some). See extra requirements for more information.

**Extra requirements:**
Interview (CY12-Some, NY12-Some) : Some applicants Applicants may be required to undertake an informal interview after applications have been received.

---

**Information Technology (Website Development) (VET)**

**Gordon (The)**

East Geelong: 5900159084 (Fee type determined by provider) full-time  Apply: Through VTAC

- Diploma of Information Technology (Website Development): 2 years full time study

**About the course:** This course incorporates the Certificate IV as its first year of study, and equips students with advanced skills in the widely expanding field of Internet and Intranet website development and design. The course has been developed with industry assistance and covers all aspects of website management including design and development, site performance, security fundamentals, database design and integrity, advanced Java programming, platform testing and monitoring. Students can expect around 20 hours of class per week, which includes a website project to encourage students to integrate their skills to produce a web solution for a real business. Graduates will have the skills to enable them to enter careers in web programming, website management and e-commerce, or work as web architects or designers. Students successfully completing the first year of the Diploma of Information Technology (Website Develop.) will receive a Certificate IV in Information Technology.

**Major studies:** Database design and management, Hardware tools, Operating systems, Software applications, Systems analysis and design, Web applications programming, Website design and strategies, Website development, Workplace skills.

**Prerequisites:** None

**Middle-band:** None

**Selection Mode:** CY12 : ATAR.
NY12 : Educational History including GPA.

**Extra requirements:**
None
**Interior Design and Decoration (VET)**

**Gordon (The)**

East Geelong: 5900159054 (Fee type determined by provider) full-time  
Apply: Through VTAC main round

- Certificate IV in Interior Decoration: 1 year full time study
- Diploma of Interior Design and Decoration: 2 years full time study

**About the course:** These two courses provide the skills and knowledge to design and document interiors for residential and commercial buildings, for a career as an interiors consultant in the retail sector (Certificate IV) or an interior designer (consultant) in the residential and commercial construction industry (Diploma). The course is structured to simulate workplace environments and industry expectations, with subjects offered across a range of techniques including colour and fabric selection, residential construction methods, 2D and 3D software skills, and graphic presentation. The Certificate IV is delivered over a one year period, and the Diploma is delivered over a further year of study (completion of Certificate IV is pre-requisite to undertaking Diploma). Successful completion of this course meets minimum industry requirements to work as an interior designer decorator (consultant).

General Information Session: 11 August 2013 (Open Day), 1.00pm, Room E1.06 (Theatrette), East Campus
Compulsory Information Session: 16 October 2013, 6.30pm, Room E1.06 (Theatrette), East Campus

**Major studies:** Colour studies, Computer-aided design (CAD), Construction, Digital applications (photoshop), Drawing, Furnishings, Interior design, Lighting, Materials, Purchasing.

**Prerequisites:** None

**Middle-band:** None

**Selection Mode:** CY12: ATAR, Supplementary form (All), Interview (All). See extra requirements for more information.
NY12: Educational History including GPA, Supplementary form (All), Interview (All). See extra requirements for more information.

**Extra requirements:**
Supplementary form (CY12-All, NY12-All): All applicants must complete the Supplementary form by 27 September (8 November, late applicants and 6 December, very late applicants). To obtain a copy of the form go to www.thegordon.edu.au/vtacsuppappform
Interview (CY12-All, NY12-All): All applicants must attend an information session on the 16 October at 6.30pm, Room E1.06 (Theatrette), East Campus.

**Laboratory Technology (Biological and Environmental Testing) (VET)**

**Gordon (The)**

City (Geelong): 5900259184 (Fee type determined by provider) full-time  
Apply: Through VTAC main round

- Diploma of Laboratory Technology: 2 years full time study

**About the course:** This course provides broad based training for technical officers, analysts and other job roles in biotechnology, biological and environmental testing, chemical analysis and testing, and pathology of other scientific laboratories. The course comprises nine core units to develop essential skills required for technical officers plus testing, sampling, biology and chemistry, microscopy and calibrations, and other specialist units. The course is recommended for anyone interested in science within any laboratory environment and is delivered with a hands-on approach in a simulated laboratory, offering elective streams in Pathology Testing, Biological and Environmental Testing, and Biotechnology. Students have the opportunity to use and maintain a range of equipment, as well as undertaking mandatory work placement.

Students will be selected based on their applications. If there are more applications than course vacancies then selection will be based on an interview, where preference will be given to applicants with a demonstrated interest and understanding of the requirements of the industry and an appropriate level of skills and knowledge to work in this industry.
Major studies: Biological and environmental testing, Biotechnology, Chemistry (forensic and analytical), Chemistry (medical), Environmental testing, Laboratory technology, Occupational health and safety, Pathology.

Prerequisites: None

Middle-band: None

Selection Mode: CY12 : ATAR.

NY12 : Educational History including GPA.

Extra requirements: None

Laboratory Technology (Biotechnology) (VET)

Gordon (The)
City (Geelong): 5900259294 (Fee type determined by provider) full-time  Apply: Through VTAC  main round

- Diploma of Laboratory Technology: 2 years full time study

**Make-up (VET)**

**Gordon (The)**

City (Geelong): 5900259374 (Fee type determined by provider) full-time  
Apply: [Through VTAC](http://www.wss8.vtac.edu.au/courses-inst/institutions/topdf/gordon.html) main round

- Diploma of Specialist Make-up Services: 1 year full time study

**About the course:** The Diploma of Specialist Makeup allows students to study the world of makeup artistry applicable to the screen and media sectors. Students will learn basic skin analysis, safety issues, product and tool knowledge to incorporate into a design for film, television and theatre. A variety of application techniques are studied along with resourcing and researching to replicate historical and period design applications for their respective medium. Students will gain knowledge of script interpretation and apply safe work procedures when applying special effects products. Graduates could establish a career as a freelance film and television makeup artist, session stylist and makeup artist for fashion, makeup designer for retail cosmetic house or a wedding makeup specialist.

Students should bring additional documentation to the information session/interview which supports their chosen study. Documentation may be in the form of a portfolio of their work using photographs and illustrated designs. Other evidence could be a document outlining an inspirational artist whom they aspire to.

General Information Session: 11 August 2013 (Open Day), 11.00am, Room G.26.

**Major studies:** Apply and remove makeup, Continuity, Design, Hair styling and wig applications, Occupational health and safety, Specialised makeup effects.

**Prerequisites:** None

**Middle-band:** None

**Selection Mode:** CY12 : ATAR, Supplementary form (All), Interview (All). See extra requirements for more information.
NY12 : Educational History including GPA, Supplementary form (All), Interview (All). See extra requirements for more information.

**Extra requirements:**

- Supplementary form (CY12-All, NY12-All) : All applicants must complete the Supplementary form by 27 September (8 November, late applicants and 6 December, very late applicants). To obtain a copy of the form go to [www.thegordon.edu.au/vtacsuppappform](http://www.thegordon.edu.au/vtacsuppappform)
- Interview (CY12-All, NY12-All) : All applicants must attend one of the following information sessions: 19 November 2013 at 6.00pm, Room G2.26, City Campus; 10 December at 4.00pm, Room G2.26, City Campus
Outdoor Recreation (VET)

Gordon (The)
East Geelong: 5900159064 (Fee type determined by provider) full-time  Apply: Through VTAC

- Diploma of Outdoor Recreation: 2 years full time study

About the course: This course develops skills and knowledge in outdoor recreation and immerses students in specific activity fields. The course includes Bushwalking, Climbing, Abseiling, Challenge Ropes Course, Wilderness First Aid and Adventure Based Learning. Students also select one major water activity: Sea Kayaking/Canoe or Scuba Diving/snorkeling. Students will gain the skills and knowledge to plan, implement and evaluate outdoor recreation programs and activities which include complex and non-routine situations. Graduates could expect to perform work in and for varied field locations requiring contingency planning, and would be equipped with the skills to undertake work independently with responsibility for management, leadership of others and maintenance of resources. There is a significant lifestyle and financial commitment to successfully complete the requirements of this qualification. Students have an option to exit at the end of the first year with a Certificate IV in Outdoor Recreation.

Major studies: Adventure based learning, Bushwalking, Challenge ropes course, Client services, Law (sports), Occupational health and safety, Outdoor leadership and guiding, Recreation (community recreation), Risk analysis and management, Rock climbing and abseiling, Scuba diving, Sea kayaking, Snorkelling, Wilderness first aid.

Prerequisites: None

Middle-band: None

Selection Mode: CY12: ATAR.
NY12: Educational History including GPA.

Extra requirements: None

Sport (Sport Development) (VET)

Gordon (The)
East Geelong: 5900159074 (Fee type determined by provider) full-time  Apply: Through VTAC

- Diploma of Sport (Development): 1 year full time study

About the course: This course is a dual qualification including the Diploma of Sport Development and Certificate IV in Fitness. It includes industry qualifications in Pool Bronze, Austswim teaching, Level 2 First Aid, Level 1 Sports Trainer and experience in event management, personal training, coaching, and exercise science and nutrition. Students studies have been designed to offer hands-on experience in the local region, via schools, sporting facilities and major Geelong events. The course includes mandatory work placement to a minimum of 160 hours which can be undertaken in an area of students choice. Some hours are completed as structured class, and the majority must be completed outside of class hours. Graduates from the Diploma of Sport Development could expect to gain employment in a range of sports and fitness settings including gym instructor, swim teacher, personal trainer, sports coaches and facility/event management type roles.

Audition (CY12-All, NY12-All): Applicants must telephone 1300 468233 for audition time and date.

Agriculture (VET)
**Goulburn Ovens Institute of TAFE**

Shepparton: 8300382014 (Fee type determined by provider) full-time  
Apply: Through VTAC main round

- Diploma of Agriculture: 2 years full time study
- Advanced Diploma of Agriculture: 2.5 years full time study

**About the course:** Both Diploma and Advanced Diploma of Agriculture qualifications are designed to enable current and future farm/service business managers to develop an integrated, strategic approach to management of the whole production system.

These qualifications develop participants’ skills, knowledge and aspirations in the following areas:

The principles of soils, pasture, animal health/nutrition management, effective crop/stock cropping production systems, with emphasis on integrated pest, disease/risk management. Both qualifications combine these skills with the key business principles with outcomes linked to productivity gains (on farm) or through improved business viability. The Advanced Diploma has a greater emphasis on business management.

Training offered engages recognized industry specialists to deliver subject material in a short course format that provides learners relevant skills and knowledge needed to deal with challenges and opportunities in their particular field of endeavour.

**Major studies:** Agribusiness, Agricultural marketing, Agricultural technology, Animal management, Crop management, Farm planning and management, Farming practices, Irrigation and water management, Land development, Resource management.

**Prerequisites:** None

**Middle-band:** None

**Selection Mode:** CY12: Interview (All). See extra requirements for more information.

Grenadi School of Design

Grenadi School of Design is uniquely positioned to help you launch your career in Graphic Design, Interior Design, Web Design or Multimedia.

Established in 1995 Grenadi School of Design is a specialist design college where design is not just a career choice but rather a way of life. Grenadi provides qualifications up to Advanced Diploma level that are Government accredited. In addition, Grenadi is the only Australian design school accredited to provide the exclusive and internationally sought after City & Guilds qualifications. With these qualifications Grenadi truly does open the doors to a world of design opportunities.

At Grenadi, you learn from friendly, supportive, industry-trained and experienced tutors, people who know the industry for which you are aiming and are committed to your success. Your courses are based on practical, hands-on training, with the latest versions of industry-standard software and current technologies to support your new knowledge base and enable you to move straight into your chosen industry, confidently and well prepared.

Graduate Student surveys have shown that the top 5 reasons students choose Grenadi School of Design are:

1. Friendly environment where I am part of the family not just a number.
2. Small focussed classes (on average 10) where I received heaps of attention from my tutors.
3. Teachers work in the design industry so I learnt things that are up to date and relevant in the industry today, not just theory.
4. Grenadi provides me ongoing job support, even once I have finished the course.
5. I found a job in the design industry once I finished my course.

So if you love creativity, then a career as a designer, graphic designer, interior designer, web designer or multimedia professional may be for you. Grenadi School of Design is well positioned in the design industry to assist you to launch your career. As Grenadi is positioned within the industry and our teachers work within the industry you will gain the contacts and experience to launch your career with skills, experience and confidence.

Grenadi School of Beauty is a seperate speciality college within the Grenadi group. With a focus on excellence in Beauty Therapy, Grenadi School of Beauty is uniquely placed to equip students for an exciting career as a Beauty Therapist or technician.

Open Days & Campus Tours

The majority of students tell us that the number one event that assisted them in deciding what institute to study with was attending an Open Day or Campus Tour. At an Open Day or Campus Tour you will meet teachers and students. You will view and inspect gradute student work which will give you a strong picture of the results that you can expect to develop if you achieve a place with Grenadi School of Design. Open Days and Campus Tours are held at our purpose built design studios. This will enable you to tour the studios including design studios, photography studios, computer labs, drawing labs and student support facilities. Come along and see why Grenadi School of Design is uniquely placed to launch your design career. For more information: www.grenadi.edu.au
Special consideration

Regional bonus

Grenadi School of Design has a strong regional support base. Grenadi has established a campus in Bairnsdale, Gippsland. This gives regional students an exciting opportunity to study without having to shift to the city. In addition, Grenadi has a long history of supporting regional students. Many of our regional students enjoy studying with Grenadi due to small classes and the caring culture. Grenadi School of Design offers a regional bonus to all regional students applying for its courses. For more information: www.grenadi.edu.au

Special Entry Access Scheme

Grenadi School of Design prides itself in being an equal access and equity provider. For more information please refer to our student handbook on our website www.grenadi.edu.au

Semester dates

Semester start and finish and holiday dates can vary for each student group. Students will be issued a timetable upon enrolment setting out these dates.

For more information: www.grenadi.edu.au

- Certificate III in Design Fundamentals: 0.5 year full time study
- Certificate IV in Design: 1 year full time study
- Diploma of Graphic Design: 1.5 year full time study
- Advanced Diploma of Graphic Design: 2 years full time study

About the course: This course is designed to produce graduates with an in-depth knowledge of commercial practices in Graphic Design and Advertising industries with a special focus on design skills. Broadening studies in illustration, history of design, photography, design studio, multimedia, web design and business management will enable the graduate to work in a supervisory or self employed capacity. Students study in small focused classes (average class size 10). All teachers are industry professionals who continue to work within the field in which they teach ensuring students receive tuition which models current and emerging trends. Over the duration of the course students will complete various briefs, presentations and exhibitions resulting in a folio of work to position the student for a career as a Graphic Design Professional.

This course will equip the student through development of drawing, photography, design studio, multimedia, web design, computer skills, concepts, experimentation and the use of various forms of traditional and future media. Student work on industry developed briefs with client interaction incorporating constraints such as client needs and timelines, promotional strategies, visual presentation and merchandising and environmental issues.

Students gain valuable experience through varied learning techniques such as professional delivery of their own exhibition of work, attending exhibitions and professional meets, attending oversees study tours and photo shoots through Grenadi Care. These varied opportunities deepen the student experience and broaden the skills developed.

Upon completion of the course students will have the opportunity to further develop their skills through speciality degree pathways.

- Certificate II in Retail Make-up and Skin Care: 3 months full time study
- Certificate II in Nail Technology: 3 months full time study
- Diploma of Beauty Therapy: 1 year full time study

**About the course:** The course combines practical skills with theoretical delivery to create the ability for graduates to excel in delivering quality services within the beauty industry. Students will study professional practice, nail services, lash and brow treatments, body structures, nutrition, make-up, waxing, facials, massage and body treatments, aromatherapy, stone therapy and Indian head massage. Graduates will be able to choose to work in salons, day spas, resorts as well as cruise ships. All teachers are industry professionals with extensive experience and a desire to help students achieve the outcome of rewarding employment upon graduation. As part of the course, students receive a professional tunic, linen, make-up brush kit and a manicure and pedicure kit. Community day spas are organised for students to be able to practice certain skills on a wide range of people, thus ensuring graduates are well prepared to enter the beauty industry upon completion of the course.

**Major studies:** Aromatherapy, Beauty Professional and Business Practice, Body Massage and Treatments, Body Structures and Skin Biology, Cosmetic Compositions, Facial Treatments, Healthy Nutrition Options, Indian Head Massage, Lash and Eyebrow treatments, Make-up Studies, Manicure and Pedicare Services, Microdermabrasion, Stone Therapy, Waxing Treatments.

Health Skills Australia is one of the country's leading private providers of specialist health care and community services training. We offer nationally accredited qualifications ranging from Certificate III through to Diploma level, as well as short courses and in-services training.

We are driven by our mission of making a positive difference to the lives of students and the people in their care by providing excellence in health care training. Our tailored courses have been developed in close consultation with industry groups and health care professionals to ensure they meet the needs of the sector and community they serve.

Fields of study include Aged Care, Alcohol and Other Drugs, Business Administration, Community Services, Health Administration, Health Support, Health Supervision, Home and Community Care, Leisure & Health, Medical Reception, Mental Health and Nursing.

When you're working with medical patients, the elderly, people with disabilities or mental health issues, there are essential practical skills you need, as well as a strong foundation in theoretical knowledge.

Our training programs are constantly updated to include the latest training methods and content to provide students with the most relevant knowledge and skills for entry into the workforce. Most courses include clinical and practical placements, where students are introduced to an employer and have the opportunity to gain experience working in organisations related to their study. All of our programs are also taught by practicing health care professionals who share their real life experience and insights into the latest tools and industry requirements.

Our smaller class sizes also enable students to really get to know one another, as well as their educator. Each student is given specialised individual attention during classes and through the organisation of clinical and practical placements.

Health Skills Australia's campuses are located in Blackburn and Melbourne CBD, with purpose built state-of-the-art classrooms, nursing and medication labs. We also operate out of several training facilities in and around Melbourne.

At Health Skills Australia we pride ourselves on providing students with an education of the highest quality. Our nationally accredited courses can lead into new learning pathways, including degree programs, or help you fast-track your career.

Undertaking work experience/industry placement

Some courses require students to obtain a successful Police Check and Working With Children Check, as well as specific immunisations and/or health screenings in order to participate in clinical and practical placements.

Credit transfer

Additional services and policies are also available to prospective applicants for: Credit transfer For more information: http://www.vtac.edu.au/courses-inst/credit-transfer.html

Student services
Health Skills Australia is committed to ensuring students have all the support they need while studying. Counselling services are provided for all students via the educators, course coordinators and College Director. These staff members are qualified nurses and health care professionals who can assist students with issues, and if required will refer them on as deemed appropriate. Further details are available at [http://healthskills.com.au/Student-Services.html](http://healthskills.com.au/Student-Services.html). Nursing (VET)

Health Skills Australia

Blackburn: Commonwealth-supported places full-time/part-time  Apply: Direct to institution
Melbourne: Commonwealth-supported places full-time/part-time  Apply: Direct to institution

- Diploma of Nursing (Enrolled/Division 2 nursing): 1.5 year full time study
About the course: This nationally accredited qualification provides students with the skills and knowledge to work as an Enrolled Nurse in a variety of acute and non-acute health care settings. Using industry best practise, specialist training in the latest methods is delivered through theory based classroom learning and practical, hands-on sessions in nursing labs. Classes are taught by highly skilled Nurses who draw on their depth of experience and are smaller in size to allow for individual attention and support. During the course students put their learning into practise through supervised clinical placements and are exposed to different health care environments including aged care, rehabilitation, mental health, palliative and acute. Students also learn how to work and communicate effectively with patients and other health care professionals, as well as how to administer and monitor medications. On successful course completion students are eligible to apply to AHPRA for registration.

Major studies: Acute care, Aged care, Australian health care system, Care plans, Client assessments, Complex care, Critical thinking, Cultural diversity, Diabetic nursing, Effective communication, First aid, Indigenous health, Infection control, Legal and ethical practices, Medications, Mental health, Occupational health and safety, Palliative care, Physical health, Wound management.

Prerequisites: None

Middle-band: None

Selection Mode: CY12 : ATAR, Supplementary form (All), VETASSESS, Literacy and Numeracy (Some). See extra requirements for more information.

NY12 : Educational History including GPA, Supplementary form (All), VETASSESS, Literacy and Numeracy (Some), Literacy & Numeracy. See extra requirements for more information.

Extra requirements:
Supplementary form (CY12-All, NY12-All) : Applicants must complete and submit a Health Skills Australia application form via the website at www.healthskills.com.au or obtain one by calling 1300 306 886.

VETASSESS, Literacy and Numeracy (CY12-Some, NY12-Some) : Applicants who have not passed Year 12 Mathematics (any) and English (any) within the last two years must complete an HSA Literacy and Numeracy Assessment or sit VETASSESS. Assessments can be booked through Health Skills Australia or via the VETASSESS website (www.vetassess.com.au). VETASSESS applicants are required to provide evidence of results.

SUCCESSFUL APPLICANTS: Students must complete a National Police Records check and a Working With Children Check.
Holmes Institute has been a leading provider of business education and training at tertiary level since 1963. In that time we have seen thousands of successful graduates from our 5 campuses across the East Coast of Australia.

At Holmes Institute we are committed to quality education and extensive student support. Holmes graduates around the world are enjoying rewarding careers or have utilised their qualification as a pathway to further study.

With programs from Certificate to Masters, the Holmes philosophy of training focuses on a balance between theory and practice. Courses are developed in conjunction with industry bodies and experts in the relevant fields. The emphasis of all Holmes programs is on the relevance in today’s changing business world, developing the skills required by employers or as a pathway to further advanced training.

What we offer:

With a multitude of courses across multiple educational sectors and study areas, Holmes Institute is the ideal place to further your study.

Study Areas:
- Accounting
- Business
- CELTA
- Fashion
- Hair and Beauty
- Hospitality
- Information Technology
- Languages

Students learn in a modern city based campus where the focus is on the individual. All Holmes programs offer students the opportunity to make a smooth transition to the business world or further study.

The Holmes pathway offers eligible students entry into a range of qualifications to suit their study goals: Certificate, Diploma, Bachelor, Masters.

Fashion and Business (HE)

Holmes Institute
City:9700197342 (DFP) full-time/part-time  Apply: Through VTAC main round mid-year
City:9700197343 (IFP) full-time/part-time  Apply: Through VTAC main round mid-year

- Bachelor of Fashion and Business: 3 years full time study

About the course: The course covers all aspects of the international fashion industry with studies that will develop creative, technical, organisational and business knowledge and skills. Places emphasis on the business and commerce at the heart of the fashion industry and examines how fashion ideas become fashion products and how these concepts reach their consumer. It explores the enterprises and businesses involved in this creative process along with the associated selling and promotion fields of the fashion industry.

Students gain the confidence and skills to create, communicate and thrive in the highly competitive fashion business environment. The broad based skills in the design and creation of fashion objects along with the study of commercial business management ensure that graduates will acquire a clear and comprehensive understanding of the fashion industry what makes it such a global force. It also examines future fashion production and promotion methods where students will develop the skills to manage costs, timelines and ethical issues.

At Holmesglen, we know what's happening out there in industry and are ready to educate you for careers in today's world. Since 1982 Holmesglen has been working with industry to develop qualifications that combine theory, industry experience and practical skills, getting you job ready!

Holmesglen is the largest provider of vocational and higher education courses in Victoria, offering programs at our Chadstone, City, Moorabbin and Waverley campuses.

With over 600 courses on offer across 10 study areas, courses include graduate diplomas and certificates, degrees, diplomas, certificates, pre-apprenticeships, apprenticeships, short courses and an alternative to VCE offered by the Vocational College. We understand the need for your studies to fit into your life, so study options include full time, part time (day, evening and weekend options), online, mixed delivery (on campus and online), apprenticeship training, distance education and workplace training.

But studying at Holmesglen is not just about gaining a qualification; it's about gaining a quality education where you will become equipped with the confidence and skills to work in today's fast paced world.

Holmesglen has a highly regarded reputation for high quality teaching staff. You will receive hands on relevant experience from leading industry professionals. Teachers are from industry (with many still working in their fields!) so they know what they're talking about.

Our small class sizes also mean that at Holmesglen, you're more than just a student number. Our staff provide you with a supportive and quality educational environment to help you successfully graduate work ready.

Holmesglen also works closely with many organisations to ensure you have access to industry relevant training. We give you the confidence, knowledge and skills you need to land your dream job, but more importantly we can help you network with industry professionals and your potential future employer! Holmesglen offers you real world experience and practical work placements so you're work ready, sooner.

When studying at Holmesglen, you'll get the chance to study in high quality simulated work environments to ensure you gain the hands on skills to be successful in your career. In the last five years Holmesglen has invested $95 million in new facilities and equipment upgrades across all our campuses. When you graduate, you'll step out into your chosen field confident that your experience at Holmesglen has prepared you for today's business needs.

At Holmesglen we also understand that in the new world there are different ways of getting where you want to go with your career. Everyone's journey is different, so whether you are a school leaver or mature age student aiming for a degree; changing career direction or looking to build on existing experience and qualifications, we will help you find the best pathway to your career destination.

At Holmesglen we have a course designed for you!

**Animation-Screen Production (Degree) (HE)**

**Holmesglen**

Waverley: 6100461282 (DFP) full-time  
Apply: Through VTAC main round

- Bachelor of Screen Production (Animation): 3 years full time study

**About the course:** The Bachelor of Screen Production (Animation) is a three year course which provides students with the skills required for employment in screen production. The course offers a blend of practical skills and theory, providing substantial opportunities for students to experience the working conditions of the Australian screen industry. The course is organised into two major areas of study; animation and live action. The first semester subjects are common to both animation and live action streams, from semester two onward the streams begin study in their specialist subject areas but will continue to come together for some common units. The course covers areas such as the history of film, scripting and pre-production skills, production techniques and crew roles, industry organisations and legal requirements of the industry, computer editing techniques, and promotion of films. The course includes production of high definition animated video programs and entails collaborative projects which provide the teamwork skills which are required to work successfully in the screen industry.

**Major studies:** Animation (2D), Animation (3D), Animation (modelling), Animation and video editing, Audio production, Cinema studies, Computer animation, Editing, Film and video, Lighting, Production planning, Production processes, Screen and media production, Scriptwriting, Sound recording and production, Special effects, Video content creation, Video production.

Bookkeeping (VET)

Holmesglen
Moorabbin: 6100310014 (Fee type determined by provider) part-time

Apply: Through VTAC main round

Certificate IV in Bookkeeping: 1 year full time study

About the course: This part time course provides and prepares students with the necessary skills to becoming a qualified bookkeeper, who may work as contractors or employees, for a variety of industries.

The course comprises of underpinning accounting knowledge, as well as skills and knowledge required to work as a BAS Agent, which entail the preparation, lodgement of Business Activity Statements (BAS), as well as giving the taxpayer advice regarding BAS taxation provisions and learning how to liaise with the Australian Taxation Office.

This course meets the criterion to becoming a registered BAS Agent with the Tax Practitioner's Board.

The primary pathway from this qualification is employment in a bookkeeping job role with functions that include establishing and maintaining manual and computerised accounting systems, completing Business Activity Statements (BAS), Instalment Activity Statements (IAS) and other office financial statements, developing bookkeeping management systems for organisations and general administration.

A further learning pathway utilising this qualification would be to undertake the Diploma of Accounting which would aid career progression, a typical example being a fully qualified Accountant.

**Events/Management (VET)**

**Holmesglen**

Moorabbin: 6100361524 (Fee type determined by provider) full-time  
Apply: Through VTAC main round

Waverley: 6100461524 (Fee type determined by provider) full-time  
Apply: Through VTAC main round

- Certificate IV in Small Business Management/Diploma of Events: 1 year full time study
- Advanced Diploma of Events: 1.5 year full time study

**About the course:** If you enjoy the excitement of organising a special event, whether it is a 21st birthday, a music festival or a wedding in an exotic location, you will learn the skills required to create, develop and stage events, while managing your team in an efficient and productive manner.

An Event Manager has the overall responsibility for the creation, organisation and management of conferences, festivals and special events, either within a venue such as a convention centre, sporting venue, hotel, or theatre.

The Special Events industry requires flexibility, creativity, and excellent organisational skills.

Your client has given you a brief, their vision for the event, now it's up to you to 'make it happen'. You have some great ideas and they work within your budget. The intimate planning and attention to detail are what makes you a great and successful events industry professional and that's why the client has asked for you to be in charge of their event.

During the course you will be involved in the operational aspects of staging an event, from the initial creative idea, including lighting and sound, to the final review debrief. Customer service and events management are just some of the subjects covered, as well as exploring the business essentials of people management, finances and business relationships, together with the ability to manage projects while ensuring OH&S guidelines are followed for successful outcomes.

Assessments are presented in varying formats including reports, presentations and practical experiences as aligned within the special events industry.

**Major studies:** Administration, Business (accounting), Communications, Conventions and exhibitions, Environmental management, Event management, Event management (festivals), Human resource management, Leadership, Management, Marketing, Meetings and conventions management, Meetings and event management, Project management, Tourism.

**Prerequisites:** None

**Middle-band:** None

**Selection Mode:** CY12: VTAC Personal Statement (All).  
NY12: VTAC Personal Statement (All).  
SEAS is considered.

**Extra requirements:**

### Fashion Design (Degree) (HE)

**Holmesglen**  
City: 6100261802 (DFP) full-time  
Apply: [Through VTAC](#)  
main round

- Bachelor of Fashion (Apparel Engineering and Design): 3 years full time study

**About the course:** The Bachelor of Fashion (Apparel Engineering and Design) aims to produce graduates with a thorough understanding of the areas of design innovation, pattern engineering, manufacturing and pre-production, and professional industry practice in order to create, engineer and innovate fashion garments appropriate to the requirements of an industry relevant brief.

The course will provide students with a depth of patterning and design knowledge and skills, both manually and electronically, through the use of computer aided design technology, illustration, block making and garment construction. This will provide graduates with a strong skill set with which to enter the fashion industry, both nationally and internationally. Graduates are also equipped with the business and communication skills necessary to convey their creative ideas to others and develop them into commercial products. Students work on industry standard facilities and equipment and utilise the Institute industry partnerships. They take opportunities to engage with industry to initiate networks.

**Major studies:** Design innovation, Manufacturing and pre-production, Pattern engineering, Professional practice and industry issues.

**Prerequisites:** None

**Middle-band:** None

**Selection Mode:** CY12 : Supplementary form (All), Folio (All), Interview (All). See extra requirements for more information.

Folio (CY12-All, NY12-All) : Applicants must present a folio at their interview.

Interview (CY12-All, NY12-All) : Applicants must telephone (03) 9564 1602 to arrange an interview. Interviews are held in November and December.

### Fitness (VET)

**Holmesglen**  
Waverley: 6100461704 (Fee type determined by provider) full-time  
Apply: [Through VTAC](#)  
main round

- Certificate IV in Fitness/Allied Health Assistance: 1 year full time study
- Diploma of Fitness/Facility Management: 2 years full time study

**About the course:** This course develops both the fitness-specific and rehabilitation skills required to undertake a career in the Health & Fitness industry as a Personal Trainer/Exercise Consultant. You will develop the necessary skills enabling you to work in a variety of settings including sports conditioning, within an allied health rehabilitation framework and with clients with special needs. Technical skills will be developed in advanced resistance training, functional client assessment and applied exercise programming.

Upon completion of this program successful graduates will be eligible for registration with either Fitness Australia or
Physical Activity Australia as a gym instructor, personal trainer and exercise specialist. On completion students may pursue employment opportunities within personal training studios, fitness centres or become self employed. Graduates will also be given the opportunity to complete the American Council on Exercise assessment enabling them to achieve international recognition.

It is recommended that applicants attend an information session at Waverley campus on 16 October at 6.00pm. Late and Change of Preference information session at Waverley campus on 18 December at 5.00pm. For more information please call (03) 9564 1699.

**Major studies:** Allied Health, Exercise physiology, Exercise prescription and risk analysis, Exercise science, First aid, Fitness testing and evaluation, Functional anatomy, Musculoskeletal Rehabilitation, Nutrition, Nutrition and exercise, Resistance training, Sports conditioning.

**Prerequisites:** None

**Food Science and Technology (VET)**

**Holmesglen**

Moorabbin: 6100366544 (Fee type determined by provider) full-time  
Apply: Through VTAC

- Certificate IV in Food Science and Technology: 1.5 year full time study

**About the course:** This course prepares students for employment in the technical area of the food processing industry. You will learn the technical skills of food production, distribution and storage as well as the environmental factors surrounding the food industry.

The course offers those that are looking to commence a career in food at a technical level a good foundation to enter into an industry employing thousands of people across Australia. The course could also complement prior trade or practical study in bakery, cookery or patisserie. There is a need for people that have both the practical and technical application of food and food science.

The course is also a pathway for those that are considering a career as a food safety auditor. Job titles upon successful completion may include food technologist, product development team member, production manager, food safety officer, quality control officer or technical salesperson.

**Major studies:** Cookery, Cultural diversity, Customer service, Food and beverage production, Food handling, Food hygiene, Food law, Food processing technology, Food safety and regulation, Food science and biotechnology, Inventory control, Laboratory technology (food), Leadership, Manufacturing engineering (food), Marketing, Occupational health and safety, Purchasing and inventory, Quality control, Stock control, Supervisory skills.

**Prerequisites:** None

**Middle-band:** None

**Selection Mode:** CY12 : ATAR.
NY12 : Educational History including GPA.
SEAS is considered.

**Extra requirements:** None
Furniture Design and Technology (VET)

Holmesglen
Chadstone: 6100161684 (Fee type determined by provider) full-time Apply: Through VTAC main round

- Certificate IV in Furniture Design and Technology: 1 year full time study
- Diploma of Furniture Design and Technology: 1.5 year full time study
- Advanced Diploma of Furniture Design and Technology: 2 years full time study

About the course: This qualification covers employment outcomes where the design of furniture and the application of the design into a finished furniture product is the main focus. The course emphasises furniture for volume production as Holmesglen has an established relationship with the manufacturing and retail sectors of the furniture industry. Students learn design analysis, problem solving and research skills applied to original furniture concepts. Design disciplines are taught at Holmesglen with emphasis on professional presentation and documentation of ideas. Manual and CAD drawing skills are taught along with underpinning knowledge of furniture design, ergonomics, materials and technology and sustainable manufacturing. The Advanced Diploma of Furniture Design and Technology contains 35 units of competency. Early exit points include the Certificate IV in Furniture Design and Technology and the Diploma of Furniture Design and Technology and offer a variety of options to tailor individual career paths.

This is a Pathway Program. You will be enrolled in the lowest level qualification and progress to higher qualification levels on satisfactory academic progress.

Major studies: Ergonomics, Furniture design, Materials technology, Modelling (3D), Prototyping.

Prerequisites: None

Middle-band: None

Selection Mode: CY12 : VTAC Personal Statement (All).
NY12 : VTAC Personal Statement (All).
SEAS is considered.

Extra requirements:
VTAC Personal Statement (CY12-All, NY12-All)

Graphic Design (VET)

Holmesglen
Chadstone: 6100161384 (Fee type determined by provider) full-time Apply: Through VTAC main round

- Advanced Diploma of Graphic Design: 1 year full time study

About the course: The Advanced Diploma of Graphic Design develops highly specialised technical, creative and conceptual skills and knowledge in visual communication across both print and digital media. This course introduces more complex design projects and provides students with problem solving, conceptual thinking and advanced design skills whilst refining their design process.

Major studies: Design, Design (product design), Design drawing, Design process, Design theory, Digital art and design, Graphic arts, Graphic design, Graphic design (2D), Graphic design (3D), Professional practice, Typography.

Prerequisites: Diploma Graphic Design.

Selection Mode: CY12 : Supplementary form (All), Folio (All), Interview (All). See extra requirements for more information.
NY12 : Supplementary form (All), Folio (All), Interview (All). See extra requirements for more information.
SEAS is considered.
Graphic Design (VET)

Holmesglen
Chadstone: 6100161134 (Fee type determined by provider) full-time

- Diploma of Graphic Design: 1 year full time study

About the course: The Diploma of Graphic Design addresses the specific knowledge and skills required to work across a wide range of Graphic Design industry occupations. Students are given the opportunity to develop skills using a range of current industry standard software and hardware in outstanding facilities. Problem solving and the use of the design process to think conceptually form an important part of student learning. Students work on briefs that reflect industry needs, delivered by staff drawn from the design industry. Access to live industry jobs provides students with valuable experience and direct access to industry expertise and employment.

The Diploma of Graphic Design is a prerequisite to the Advanced Diploma of Graphic Design.

Major studies: Design, Design (product design), Design drawing, Design process, Design theory, Digital art and design, Graphic arts, Graphic design, Graphic design (2D), Graphic design (3D), Professional practice, Typography.

Hospitality Management (Degree) (HE)

Holmesglen
Waverley: 6100461762 (DFP) full-time Apply: Through VTAC main round

- Bachelor of Hospitality Management: 3 years full time study

About the course: The Holmesglen Bachelor of Hospitality Management (BHM) is a three year degree for those who aspire to a career in hospitality management. The course provides a solid operational base as well as higher level management skills that are contextualised for hospitality, but transferrable across a range of businesses. There is a strong focus on integrated online support and course content, creating a true 21st Century learning environment. Students are challenged to collaborate and integrate technology, producing graduates who are versatile, adaptable and confident in today's dynamic workplace - both in Australia and internationally.

Students get the opportunity to connect with well-respected industry partners throughout their studies, as well as, having the opportunity to put their learning into practice with two Practicum Placement semesters in the final year of study. The range of opportunities open to our graduates is enormous, from positions in major hotels, resorts, commercial catering operations, to restaurants and events management organisations. There are also abundant opportunities for graduates to establish their own businesses. Hospitality is a world-wide industry; it is increasing its professionalism, requiring higher level qualifications from its workforce. It is also an industry that is open to new ideas and changing rapidly.

Our Bachelor of Hospitality Management creates graduates ready to take on tomorrow's jobs. Graduates of the Diploma or Advanced Diploma in Hospitality can receive advanced standing of 33% or 50% respectively.

**Information Technology Networking (VET)**

**Holmesglen**

Chadstone: 6100161194 (Fee type determined by provider) full-time  
Apply:  

- Certificate IV in Information Technology Networking: 1 year full time study  
- Diploma of Information Technology Networking: 1.5 year full time study

**About the course:** This course has been developed with industry assistance to provide skills in managing, configuring and administering LANs and WANs. This course provides a strong networking base, including Network Design, Management and Security, Operating Systems, Virtualisation and Unified Communication. Students design LANs and implement these, using supplied devices.

Students install a number of operating systems, implement business policies and security requirements. Much of the work undertaken with Operating Systems is done in a Virtual environment, using VMWare software.

The course culminates in an industry-based project where students develop and implement a networking project for a client. Students participate in a group environment, document progress using appropriate communication tools, and implement a functioning system that solves a business communication problem and supports requirements.

**Major studies:** Network management and network systems, Network security, Network technology, Networking, Networks, Networks and data communications, Standard Operating environments, Virtualisation, Wireless LANS Network design.

**Prerequisites:** None

**Middle-band:** None

**International Business (VET)**

*Holmesglen*

Chadstone: 6100161224 (Fee type determined by provider) full-time  
Apply: Through VTAC main round

- Certificate IV in International Trade: 1 year full time study
- Diploma of International Business: 1.5 year full time study

**About the course:** This course encompasses the Certificate III in International Trade which gives students basic skills required for employment prospects in the international trade area. Students work on case studies and assignments that require knowledge of Government, Customs and Legislative requirements for organising imports and exports. Students will also receive training in high level of computer skills, basic accounting and numeracy skills, considerable research and marketing skills and gain a sound knowledge of Australian commercial law.

In the Diploma of International Business students will acquire deeper skills in the areas of international finance, economics, accounting, marketing, law and management.

Certificate and Diploma courses are timetabled for 3-4 days attendance.

Graduates from the Diploma are guaranteed direct entry with up to 1 year advanced standing credits into Holmesglen business degrees: Bachelor of Business (Executive Administration), Bachelor of Business (Accounting), Bachelor of Business (Marketing Management) and Bachelor of Business Administration.

This is a Pathway Program. You will be enrolled in the lowest level qualification and will progress, subject to satisfactory academic progress, to the higher qualification levels.

**Prerequisites:** None

**Justice (VET)**

*Holmesglen*

Waverley: 6100461674 (Fee type determined by provider) full-time  
Apply: Through VTAC main round

- Certificate IV in Justice: 0.5 year full time study
- Diploma of Justice: 1 year full time study
- Advanced Diploma of Justice: 2 years full time study

**About the course:** This course is for people wishing to enter, develop additional skills or pursue a career within the justice field and its related areas. Employment opportunities will include the police (both state and federal), customs, sheriff's department, local government authorities, correctional services, courts, juvenile justice, community corrections, non-government bodies and support agencies.
The first year of the course is designed to provide you with an overview of the criminal justice system. Your second year gives an in-depth focus on specific justice areas such as criminology, psychology and criminal law. This course will be delivered with a mix of classroom, practical placement, off-campus and on-line components. Our qualified teachers come with a wealth of industry experience and offer a hands on personalised approach to engage you; including taking you on excursions to prisons, courts and Parliament. As part of the partnership with Victoria Police you will have an opportunity to be a part of the role player program at the Victorian Police Academy. You will be working with the Academy instructors and recruits, playing the roles of offenders, victims and witnesses. This will give you an insight into the facilities at the Academy and the training processes that the recruits go through. In your final year, our team of placement officers source practical placements in industry for you. This is designed to assist you in securing a job in the field upon completion of the course.

This is a pathway program. You will be enrolled in the lowest level qualification and will progress, subject to satisfactory academic progress, to the higher qualification levels.

Applicants are requested to attend an information session on 16 October between 6-8pm. Please check website for details.

### Screen and Media (Live Action) (VET)

**Holmesglen**

Waverley: 6100461294 (Fee type determined by provider) full-time  [Apply: Through VTAC main round]

- Diploma of Screen and Media: 1 year full time study
- Advanced Diploma of Screen and Media: 2 years full time study

**About the course:** The Advanced Diploma of Screen and Media focuses on providing a range of industry relevant skills in all stages of pre-production, production and post-production. The course offers a blend of film theory, HD video production, documentation and planning processes, equipment handling procedures, computer post production skills and special effects. The course also provides training in legal, copyright and commercial requirements of the industry. Students are trained in scriptwriting, and guided through the processes of developing the script into a screen production. Students work in groups to produce several video productions over the duration of the course and are given access to a range of professional level HD cameras, lighting and audio equipment. The course has industry relevant script writing, theoretical and business units to provide a well rounded skill-set targeted at employment in the field.

This is a Pathway Program. You will be enrolled in the lowest level qualification and will progress, subject to satisfactory academic progress, to the higher qualification level.

**Major studies:** Audio production, Editing, Film and television (production), Film and video, Lighting, Media, Media studies, Production planning, Production processes, Recording/mixing processes, Screen and media production, Scriptwriting, Sound recording and production, Special effects, Television/studio production, Video, Video content creation, Video production.

### Screen and Media (Radio and TV) (VET)

**Holmesglen**

Chadstone: 6100161644 (Fee type determined by provider) full-time  [Apply: Through VTAC main round]
About the course: The Diploma of Screen and Media (Radio and TV) offers a comprehensive introduction to the industry skills required to produce and present radio and television programs. Students engage in practical studies relevant to both mediums such as researching and writing content, conducting interviews, creating and co-ordinating schedules and rundowns and presenting information on air. Students also study core theoretical content such as media law, establishing networks, managing and promoting projects.

Students also learn specialist skills for radio by creating and producing regular radio shows and segments - including audio production and mixing, panelling and live presentation.

As well, students learn specialist skills for television by creating and producing episodes of HIT TV for Channel 31 where they film and edit a wide range content, participate in multi-cam studio shoots and deliver a broadcast standard online edit to a deadline.

Major studies: Audio production, Broadcasting (radio), Broadcasting (television), Editing, Film and television (production), Film and video, Media, Media studies, Production planning, Production processes, Radio production, Recording/mixing processes, Screen and media production, Sound recording and production, Television and broadcasting, Television/studio production, Video, Video content creation, Video production.

**Travel and Tourism (Guiding) (VET)**

**Holmesglen**

Moorabbin: 6100361514 (Fee type determined by provider) full-time **Apply:** Through VTAC main round
Waverley: 6100461514 (Fee type determined by provider) full-time **Apply:** Through VTAC main round

- Certificate III in Guiding: 0.5 year full time study
- Diploma of Travel and Tourism: 1 year full time study
- Advanced Diploma of Travel and Tourism: 1.5 year full time study

**About the course:** The exciting tourism industry continues to grow, with more and more people travelling around the world experiencing varied cultures and discovering new destinations. This course will provide you with a range of skills and knowledge required to be fully engaged in this vibrant industry with a specific focus on the tour guiding sector.

Whilst updating your knowledge of local and international travel destinations, you will learn how to develop and run your own tour. Initially looking at the behind the scenes operational side of coordinating a tour, the course will then focus on developing your personal skills that will assist you in confidently leading small and large groups.

In the second semester you will look more closely at the marketing and development of tourism within a specific region. You will have the opportunity of working with industry representatives researching growth opportunities and creating marketing materials, including a website, to maximise tourism potential to the area. Creating and promoting a tour within the region may be the perfect solution to increasing visitor numbers.

Experiencing destinations and products first hand is as important as the theoretical aspect of the course. Therefore, you will participate in a number of travel opportunities locally and interstate. An opportunity to travel to an international destination will also be offered to students to enhance overall learning.

Holmesglen has built a Simulated Travel Office, which provides live access to the latest industry reservations software. Additionally students will spend time at Holmesglen's Rural Learning Centre. This five star regional property forms the perfect base to explore some of the best natural attractions in Victoria.

The Advanced Diploma of Tourism will further develop sophisticated business management skills, in leadership, planning and strategic thinking, which will enable you to start your own business or develop a solid career within the travel and tourism industry.

**Major studies:** Business (accounting), Customer service, E-commerce, Ecotourism, Environmental management, Event management, Guiding, Human resource management, International Travel and Tourism, Marketing, Meetings and conventions management, Natural resource management, Project management, Tourism, Tourism (attractions and theme parks), Tourism (tour guiding), Tourism (tour wholesaling), Tourism (visitor information services), Tourism management, Travel and tourism management, Travel Industry, Travel sales (domestic and international).
**Prerequisites:** None

**Middle-band:** None

**Selection Mode:** CY12 : VTAC Personal Statement (All).
NY12 : VTAC Personal Statement (All).
SEAS is considered.

**Extra requirements:**
VTAC Personal Statement (CY12-All, NY12-All)

Moorabbin: 6100310044 (Fee type determined by provider) full-time  
Apply: Through VTAC main round

Waverley: 6100410044 (Fee type determined by provider) full-time  
Apply: Through VTAC main round

- Certificate III in Travel: 0.5 year full time study
- Diploma of Travel and Tourism: 1 year full time study
- Advanced Diploma of Travel and Tourism: 1.5 year full time study

**About the course:** The exciting tourism industry continues to grow, with more people travelling around the world experiencing varied cultures and discovering new destinations. This course will provide you with a range of skills and knowledge to step straight into this vibrant industry with a specific focus on the retail and outbound travel sector.

Retail travel agents require a vast knowledge of all aspects of the industry therefore students will complete extensive local and international destination studies along with an overview of the enormous range of tourism products available to potential travellers.

Holmesglen’s Simulated Tourism Office contains the latest industry software to complete studies in live airline reservations and fares & ticketing using Amadeus & Galileo. Units in sales & customer service will ensure students are fully prepared & highly sought after by industry.

In second semester your focus is on marketing & promotions within a specific environment. You will have the opportunity of working with industry representatives researching growth opportunities and creating marketing materials, including a website, to maximise tourism potential. Your sales & product knowledge with assist you in creating the ideal tourism plan.

First hand experience is as important as the theoretical aspect of the course. Therefore, you will participate in a number of travel opportunities locally and interstate. An opportunity to travel to an international destination will also be offered to students to enhance overall learning.

Additionally students will spend time at Holmesglen’s Rural Learning Centre. This five star regional property forms the perfect base to explore some of the best natural attractions in Victoria.

The Advanced Diploma of Tourism will further develop sophisticated business management skills, in leadership, planning and strategic thinking, which will enable you to start your own business or develop a solid career within the travel and tourism industry.

**Major studies:** Business (accounting), Customer service, E-commerce, Ecotourism, Environmental management, Event management, Guiding, Human resource management, International Travel and Tourism, Marketing, Meetings and conventions management, Natural resource management, Project management, Tourism, Tourism (attractions and theme parks), Tourism (tour guiding), Tourism (tour wholesaling), Tourism (visitor information services), Tourism management, Travel and tourism management, Travel Industry, Travel sales (domestic and international).

Apply: Through VTAC main round

- Certificate IV in Small Business Management/Certificate III in Travel: 1 year full time study
- Diploma of Travel and Tourism/Events: 1.5 year full time study

**About the course:** The dynamic tourism & events industry continues to grow, with people travelling the world, experiencing varied cultures and enjoying leisure destinations. Together with the vibrant world of special events this course will provide you with a range of skills and knowledge required to be fully engaged in these exciting professions.

Developing your personal experience and skill is as important as the theoretical aspect of the course. You will participate in a number of travel experiences and take part in creating real events. Educational trips range from regional to interstate and even international destinations.

The Special Events industry requires flexibility, creativity, and excellent organisational skills. Your client may ask you to organise a special event on an exotic island in the Bahamas. Therefore, you will need to know the logistics of getting your guests to the destination, accommodation options and then coordinate the event itself, covering all operational aspects of staging the event from initial creative idea to final debrief.

Tour guiding, customer service and web design are just some of the subjects covered as well as exploring the business essentials of people management, finances and marketing. Your ability to apply sustainability practices, while managing projects and ensuring OH&S guidelines are followed will ensure successful outcomes.

Holmesglen has built a special Simulated Travel Office, where you are taught how to use internationally recognised global reservations systems.

**Major studies:** Business (accounting), Customer service, E-commerce, Ecotourism, Environmental management, Event management, Human resource management, Marketing, Meetings and conventions management, Natural resource management, Project management, Tourism, Tourism (attractions and theme parks), Tourism (tour wholesaling), Tourism (visitor information services), Tourism (wine), Tourism management, Travel and tourism management, Travel sales (domestic & international).

### Youth Work (VET)

**Holmesglen**

Moorabbin: 6100366004 (Fee type determined by provider) full-time  
Apply: Through VTAC main round

- Certificate IV in Youth Work: 0.5 year full time study
- Diploma of Youth Work: 1.5 year full time study

**About the course:** This qualification is designed to develop youth workers and managers who will design, develop and facilitate programs for young people. Students will study a variety of modules to develop competencies in: alcohol and other drugs issues; case management; services for young people; supporting youth programs; planning and conducting group activities; service response to young people in crisis; the rights and safety of children and young people and legal and ethical work practice.

Graduates of the Diploma may seek employment in variety of occupations including: case manager; coordinator youth and family services; coordinator youth services; program manager; case worker; youth worker or youth work team leader.

Students applying to the Diploma of Youth Work will be required to enrol into the Certificate IV in Youth Work (prerequisite units) and complete all competencies before commencing the Diploma of Youth Work. Youth Work students will also be provided with an option to complete the Certificate IV in AOD through concurrent study.

While studying for the Diploma, students will be involved in a hands-on youth based project in semester 1, which provides a safe environment where classroom skills can be put into practice. In Semester 2 of the Diploma, students will be expected to undertake a practical industry placement of 200 hours. Holmesglen will facilitate the placement through the Social Science Placement office taking into account student interest areas. This placement will allow students to experience the youth work industry, increase their confidence and develop networks while they demonstrate their competencies as a youth worker.

This is a pathway program. You will be enrolled in the lowest level qualification and will progress, subject to satisfactory academic progress, to the higher qualification levels.

Applicants are requested to attend an information session on 16 October between 6-8pm. Please check website for details.

**Major studies:** Community studies, Youth work.

**Prerequisites:** None

**Middle-band:** None
Selection Mode: CY12 : Interview (All). See extra requirements for more information.
NY12 : Interview (All). See extra requirements for more information.
SEAS is considered.

Extra requirements:
Interview (CY12-All, NY12-All) : Interviews will be held on Tuesday 3 December. Applicants will be contacted by mail or email with further details.
Successful applicants: A current Police Check and Working with Children Check will be required prior to commencement of practical placement.
Institute of Health and Nursing Australia

Are you looking to kick start your career in aged care, disability, health services assistance or nursing?

The Institute of Health and Nursing Australia is one of the leading providers of health and nursing education. We offer accredited and nationally recognised qualifications in the following fields: Aged Care, Health and Community Services, Disability, Nursing and Health Services Assistance. Our courses have helped many students launch successful careers in the healthcare industry.

Most of our courses are delivered via classes and online which assist students deepen their industry knowledge. Our curriculum has a strong focus on both theory and practical skills. Our programs include the latest in industry trends and practices and are taught by qualified and experienced educators. Classroom practicals and work experience placement, where students are introduced to potential employers to gain practical experience, help our students understand what it's like to work with medical patients, the elderly and people with disabilities. A clinical development nurse from Calvary John James Hospital had this to say about one of our students: "She displays professional friendly behaviour, has a high level of critical thinking and adapts her practice to provide individualised holistic care for her patients. We would gladly welcome her back as a permanent member of our team."

Our values of innovation, excellence and caring are reflected in our curriculum as well as the ongoing support we provide to our students and alumni. Our administrative staff and course coordinators are there to serve you. In addition, our online learning platform is backed by round the clock technical and educational support.

Our campus is located in Heidelberg Heights. Off street parking and local transport makes this an ideal location for those wishing to have easy access to high quality education in the north eastern suburbs of Melbourne. Our campus is equipped with modern facilities including state-of-the-art nursing and computer laboratories, library, classrooms and student break out areas.

If you want an amazing career in the health care industry, the Institute of Health and Nursing Australia can help you build your career.

Access and Equity

IHNA is committed to providing and promoting non-discriminatory, inclusive practices and processes to provide equal opportunities for all students to achieve their learning outcomes and strives to ensure that its decision-making processes reflect a commitment to access and equity and treats all students or prospective students fairly. For more information: http://www.ihna.edu.au/policies/Access-and-Equity-Policy.pdf

Credit transfer and recognition of prior learning

Credit Transfer

This describes the certification, issuing and recognition of qualifications & statements of attainment policy and procedure for IHNA. This includes credit transfer and national recognition procedures.

For more information: http://www.ihna.edu.au/policies/disability_policy.pdf

Aged Care (VET)

Institute of Health and Nursing Australia

Heidelberg Heights: Commonwealth-supported places full-time Apply: Direct to institution

Online: Commonwealth-supported places full-time Apply: Direct to institution

- Certificate III in Aged Care: 3.5 months full time study
- Certificate IV in Aged Care: 4 months full time study

About the course: Our Certificate III in Aged Care is a course designed to give the student entry into the aged care sector as a personal care assistant. The course modules are structured to provide a balanced program of theory and practice, relevant to career opportunities across the aged care industry. Students may do this course as an entry pathway into the aged care industry. The Aged Care Program is directed towards developing multi-skilled workers for the broad range of services supporting aged people in residential and community settings.

Our Certificate IV in Aged Care is suitable for people who are employed in aged care work or have prior experience in aged care work who want to upgrade their knowledge and skills in this area. Workers at this advanced level may provide services to people with complex needs, assist in program development and delivery, or may be required to supervise and coordinate a limited number of other service providers. The Certificate IV in Aged Care enables graduates to be more efficient in assessing the service needs of the older people with complex needs, planning and
monitoring service delivery, undertaking relevant administrative work, planning and conducting group activities, implementing and monitoring OH&S policies and procedures, conducting recreational programs for older people and organising an effective work environment. In order to be considered for Certificate IV in Aged Care, applicants need to meet the competencies of the Certificate III in Aged Care.

Both online and campus courses require the student to attend practical sessions at the Heidelberg Heights campus and work experience placement.

**Major studies:** Aged Care, First Aid.

**Prerequisites:** None

**Middle-band:** None

**Selection Mode:** CY12 : Interview (All), English language test (All). See extra requirements for more information.

NY12 : Interview (All), English language test (All), other. See extra requirements for more information.

**Extra requirements:**

Interview (CY12-All, NY12-All) : Applicants will be required to attend an interview as part of the enrolment process.

English language test (CY12-All, NY12-All) : Applicants are required to successfully complete a Language, Literacy and Numeracy (LN) test as part of the admissions process.

Successful applicants: Applicants must obtain a satisfactory National Police Clearance Certificate, Working with Children check, Vaccination/Immunization Certificate and Proof of Immunity (e.g. serology test results).

---

**Disability (VET)**

**Institute of Health and Nursing Australia**

**Online:** Commonwealth-supported places full-time  **Apply:** Direct to institution

- Certificate IV in Disability: 5 months full time study

**About the course:** Our Certificate IV in Disability will give you the essential grounding to provide valuable care for people with disabilities. Through this disability course you will be well equipped with the skills and knowledge to accurately respond to difficult or challenging situations in the healthcare industry. You will gain the practical experience necessary to make informed decisions in order to enhance the independence of people with disabilities.

Both online and campus courses require the student to attend practical sessions at the Heidelberg Heights campus and work experience placement.

**Major studies:** Aged Care, Disability work, First Aid.

**Prerequisites:** None

**Middle-band:** None

**Selection Mode:** CY12 : Interview (All), English language test (All). See extra requirements for more information.

Located in Adelaide ICHM combines over 100 years of Swiss hotel management knowledge with a contemporary world class education with strong focus on international business studies and extensive paid industry placements as part of the course. ICHM is the only Swiss Hotel Association school outside Europe; and its students can undertake a unique one program - two degrees, meaning that at the completion of studies they receive a Bachelor of International Hotel Management (Swiss Hotel Association) and a Bachelor of Business (Hospitality Management)

Students may choose to finish their studies after completing the Bachelor of Business. During the academic on campus semesters students cover all aspects of hotel operations and management. Worldwide industry placements are possible each year with locations depending on the student's preferences, passport and language skills. Specialist industry placement managers ensure quality positions for ICHM students and also provide ongoing career counselling and job placement assistance. ICHM graduates are working as supervisors and specialists through to senior and general managers. Their employers range from boutique establishments to large multinational hotels and resorts and other hospitality related organisations. Others have established their own hospitality industry businesses and consultancies. ICHM students have access to some of the most modern and extensive facilities in Australia. Teaching facilities include tutorial rooms, public restaurant and function centre, simulated hotel front office and guest rooms, computer labs, wine appreciation labs, full equipped teaching kitchens and bars.

Supplementary form (CY12-All, NY12-All) : Application form from Prospectus or website www.ichm.edu.au
Welcome to IBIBS, Investment Banking Institute Business School, a leading Investment Banking advisory education provider.

IBIBS delivers the Bachelor of Investment Banking, the only 3 year degree focused exclusively on investment banking. IBIBS's collaboration with Investment Banking professionals, associations and institutions ensures our graduates secure highly sought after skills and learning outcomes.

IBIBS is not just a business school experience, it is a life experience. The intensity and focus on investment banking disciplines from a strategic, transactional, as well as academic perspective, forge a very strong intellectual and social bond between classmates. These networks and relationships set the foundation for a successful career in Investment Banking.

IBIBS is exclusively focused on investment banking education and is committed to providing a practical and personal learning environment. IBIBS has developed high quality courses that meet current and future needs of professional associations, industry and the community. IBIBS has implemented an experiential learning framework which distinguishes academic learning from experiential learning and the added benefit it provides graduates. That is, students focus on learning transactional real world learning rather than emphasizing academic endeavors.

IBIBS courses are developed, reviewed and delivered by industry professionals underpinned and supported by academic principles to ensure that the learning resources reflect industry best practice that are practical and relevant to the real business world.

Our hands on approach to higher education immerse students in the experience of their learning. IBIBS makes this happen by:

- establishing strong links with professional organisations
- researching and participating in global initiatives and best practice
- engaging world-class practicing professionals with strong teaching skills to participate in course delivery

IBIBS offers Australia's only Bachelor of Investment Banking degree allowing our graduates to stand out from the pack to enjoy a rewarding career in investment banking. After graduating IBIBS secure graduates a 12 month full-time internship within the industry, graduates will continue to access a wide range of development opportunities and benefits from on-the-job practical coaching.

IBIBS is committed to early and rapid development and students will be given as much responsibility as they feel they can handle, and to develop as fast as their ambitions allow. Alongside the formal education provided, students and graduates will benefit from specialised business specific development via internal and global seminars by experts in their field.

Celebrating 32 years of education and training in the creative industries, JMC Academy offers certificates, diplomas and degrees in Audio Engineering and Sound Production, 3D Animation, Game Design, Contemporary Music Performance, Film and Television Production and Entertainment Business Management. JMC Academy students benefit from interdisciplinary collaboration on projects, giving them a real perspective when applying their skills to industry.

With advanced-design campuses in Sydney, Melbourne and Brisbane, ongoing technology upgrades and a dedicated team of academics and industry professionals, JMC Academy is committed to ensuring graduates make their own indelible mark on industry. By nurturing, supporting and mentoring students who share a true passion and dedication for the Creative industries, JMC Academy is able to guide them into rewarding careers.

Principles of selection

Entry Requirements: Non Year 12 applicants

Diploma level students are selected to study at JMC on the basis of:
- Written application
- Minimum of 17 years of age
- Interview
- Audition (for Music students only)
- Plus Year 12 study (no ATAR or OP score required) OR Certificate III qualification or above OR Relevant experience equivalent to at least a Certificate III in the field of study
- OR - Over 21 Students who successfully complete the Diploma can articulate into the Bachelor Degree with two trimesters of advanced standing.

Entry Requirements: Current Year 12 students

Evidence of academic achievement, such as reports & school assessments of potential VCE results may be brought to an interview or audition (for music performance students only). Pre-selection interviews must meet the requirements outlines in "Academic Performance" above. For more information: http://www.jmcacademy.edu.au/Admissions/Application-and-Enrolment-Procedure/Entry-Requirements.cfm

Entrance Requirements: Academic Performance

A minimum ATAR of 65.00 or above is a factor in the selection process for JMC Academy's Bachelor courses. An ATAR of below 65.00 qualifies a student for entry into the Diploma program and may articulate into the Bachelor Degree upon successful completion. An interview or audition (for music performance students only) is also required.

For more information: http://www.jmcacademy.edu.au/Admissions/Application-and-Enrolment-Procedure/Entry-Requirements.cfm

Interviews and auditions (music performance students only) are required for all JMC Academy courses and should demonstrate a range of attributes, e.g. personal motivation, relevant experience or previous study, and an understanding of the course. For more information: http://www.jmcacademy.edu.au/Admissions/Application-and-Enrolment-Procedure.cfm

Entrance Requirements

Interview and Audition requirements

Interviews and auditions (music performance students only) are required for all JMC Academy courses and should demonstrate a range of attributes, e.g. personal
motivation, relevant experience or previous study, and an understanding of the course. For more information: http://www.jmcacademy.edu.au/Admissions/Application-and-Enrolment-Procedure.cfm

Folio requirements

Applicants are encouraged to present a folio which best demonstrates skills in the areas of intended specialisation or other art forms. Folios are not mandatory. For more information: http://www.jmcacademy.edu.au/Admissions/Application-and-Enrolment-Procedure.cfm

Credit transfer, pathways and recognition of prior learning

Pathways

Alternative admission gives applicants the opportunity to apply for a Diploma which articulates into a Bachelor Degree upon successful completion. For more information: www.jmcacademy.edu.au/Admissions/Alternative-Entry-Admission-to-Higher-Education-at-JMC-Academy.cfm

Recognition of Prior Learning

All prospective students have the option of submitting any relevant prior learning to be recognised by completing an RPL Application, which must be provided with the enrolment form. RPL applications can be made on the basis of work experience or other accredited training completed. For more information: www.jmcacademy.edu.au/Admissions/Application-and-Enrolment-Procedure/Recognition-of-Prior-Learning.cfm

Internal transfers

JMC Academy students have the option of transferring between campuses during their course where relevant.

For more information: http://www.jmcacademy.edu.au/About/Campus-Locations.cfm

Fees

All of JMC Academy's higher education courses are FEE-HELP approved. Information about 2014 course fees (including international student fees) is available at www.jmcacademy.edu.au/Admissions/Fee-Schedules.cfm

For more information: www.jmcacademy.edu.au/Admissions/Fee-Schedules.cfm

Scholarships

To ensure passionate prospective students have every opportunity to enhance their technical ability and pursue their talent to the highest possible level, JMC Academy offers a total of 18 scholarships each academic year (6 in Sydney, 6 in Melbourne and 6 in Brisbane). JMC Academy's scholarships cover the tuition fees for the first year of study in one of the JMC Academy's six Bachelor Degree courses. This first year is also commensurate with a one year complete Diploma course. For further information regarding eligibility and application criteria, and to apply for a scholarship please click on one of the relevant files below. Applications for 2014 Scholarships close at 5.00pm e.s.t. on Friday the 6th of December 2013. Scholarships are only available to Australian citizens and residents. For more information: http://www.jmcacademy.edu.au/Admissions/Undergraduate-Scholarships.cfm

Enrolment and deferment

Enrolment Policy
To accept an offer of enrolment, successful applicants must complete an enrolment form, which includes information on JMC Academy's Terms & Conditions. For more information: http://www.jmcacademy.edu.au/Admissions/Application-and-Enrolment-Procedure.cfm

Deferment policy

JMC Academy may grant up to one year deferment for commencing full time students.

Student Services

JMC Academy offers a comprehensive range of student support services including academic support, counselling, student workshops, orientation and a peer mentor program designed to assist incoming students with the transition into higher education.

- Academic support workshops: These workshops are designed to provide general study skills needed for the transition to higher education learning.
- Student counselling: Student counselling is available to assist with any personal issues that may impact on a student's studies.
- Mentor program: JMC Academy's mentoring program aims to support and assist students in adapting to tertiary education by providing opportunities to foster integration into the JMC Academy community.

For more information: http://www.jmcacademy.edu.au/

Student counselling

Student counselling is available to assist with any personal issues that may impact on a student's studies. For more information: http://www.jmcacademy.edu.au/About/About-the-JMC-Academy.cfm

- Bachelor of Creative Arts (3D Animation): 2 years full time study
- Diploma of Creative Arts (3D Animation): 8 months full time study

About the course: The Diploma course equips students with the technical skills, underlying theory, and deep critical and creative thinking needed to excel in this dramatically expanding area. Once equipped with the tools necessary to explore ideas and stories through words and drawings, students are then able to develop those elements into sophisticated outcomes. The course culminates in a practical production of an animated character. (Two academic trimesters).

The Bachelor course is a professional digital animation degree providing advanced expertise in concept visualisation and cross-disciplinary applications including storytelling, character and interface design for interactive games and special FX. Sophisticated skills are developed including character rigging, application scripting & motion capture, modelling, texturing, storyboarding and lighting as well as the creation and integration of sound and vision for the web, DVD and portable devices. Students Executive Produce a final project, a high quality 3D animated film. Students from all JMC Academy programs collaborate on several projects, providing unique learning experiences and networking opportunities. Students graduate with a show reel that showcases their unique skills to employers. (Two academic years).
Major studies: Animation (2D), Animation (3D), Animation (modelling), Animation design and production, Animation software, Animation techniques, Character modelling, Character rigging, Digital art and design, Digital media, Digital television production, Film and media studies, Graphic design (3D), Interactive media, Interactive multimedia, Motion capture, Rendering, Scriptwriting, Software scripting, Sound recording and production, Special effects, Storyboard illustration, Traditional Animation.

Prerequisites: None

Middle-band: None

Selection Mode: CY12: ATAR, Interview (All). See extra requirements for more information.

Kangan Institute offers an extensive range of accredited vocational education and training courses over six campuses.

With more than 40,000 enrolments each year, we are a major training provider for the automotive, aerospace, health and nursing sectors and Indigenous education. We have also built a strong presence in a range of industries such as fashion, business as well as justice and legal.

As one of the state's largest providers of apprenticeship and traineeship training, we have strong relationships with many businesses and cater for students seeking industry-relevant training in a wide range of disciplines and on-site training options to suit the unique needs of the individual learner or organisation.

Our courses range from basic certificate to diploma and advanced diploma levels, with pathways to over 25 university degrees. Our Skills Recognition program assesses prior knowledge and experience, awarding students with the credits or qualification to match their existing skills.

We are a flexible, innovative and dynamic place of learning with a rich multicultural atmosphere. Our campuses are located in Broadmeadows, Docklands, Essendon, Melbourne CBD, Moonee Ponds and Richmond.

Kangan Institute offers well-equipped, purpose-built training facilities that reflect industry needs and practices. They include the Aviation Industry Training Centre (with our own Boeing 737), Centre for Fashion and Creative Industries, Centre for Health and Nursing and Indigenous Education Centre for Indigenous Australian studies. The renowned Automotive Centre of Excellence in Melbourne's Docklands is the largest automotive training facility in the country.

Each student enrolled at Kangan Institute can access an extensive range of support services designed to make your study experience a memorable and rewarding one. Our services include personal counselling, career counselling, learning support, financial counselling and assistance, language support, disability support, Indigenous support, child care as well as employment services.

Students also have access to our student association which runs social, sporting and recreation activities.

  07 August 2013, Time: 5.30pm-8.30pm
- **Centre for Health and Nursing:**
  10 August 2013, Time: 10am-2pm

Semester dates

### Accounting (VET)
Certificate III in Accounts Administration: 0.5 year full time study
Certificate IV in Accounting: 1 year full time study
Diploma of Accounting: 1.5 year full time study
Advanced Diploma of Accounting: 2 years full time study

About the course: This course is designed to help prepare individuals for job roles in a range of accounting, bookkeeping and/or clerical functions. The Certificate III in Accounts administration reflects job roles of individuals who will work in accounts payable/receivable or payroll. The Certificate IV in Accounting reflects job roles of individuals who supervise the operation of a computerised accounting system, compile budget information, process business transactions and extract financial and other reports, including job costing reports and Business Activity Statements (BAS). The Diploma of Accounting reflects the job roles of individuals who implement and maintain controls over accounting information systems, prepare financial statements and performance reports for management, and prepare income tax returns. The Advanced Diploma of Accounting reflects job roles of individuals working in the accounting industry and seeking alignment with the requirements of professional bodies. Each qualification comprises core and elective competencies and the pathway to the advanced diploma will incorporate competencies from each of the certificate III, certificate IV and diploma qualifications.

Major studies: Accounting, Accounting (small business), Accounting and finance, Accounting information systems, Auditing, Auditing and taxation, Banking and finance, Bookkeeping, Budgeting, Business (accounting), Business (administration), Business (management), Business (marketing), Business Activity Statement (BAS), Business practice, Business statistics, Communication skills, Company accounting, Corporate accountability, Corporate governance, Economics, Financial accounting, Financial management, Financial planning, Financial reports, Management (finance), Management (financial), Management accounting, Spreadsheets and databases, Taxation, Taxation and auditing, Word processing, Workplace safety.

Prerequisites: None

Middle-band: None

Selection Mode: CY12 : ATAR, Supplementary form (All). See extra requirements for more information.
NY12 : Educational History including GPA, Supplementary form (All). See extra requirements for more information.

Extra requirements:
Supplementary form (CY12-All, NY12-All) : All applicants must complete and submit a Supplementary Form by 4 November. A copy of the form can be obtained by phoning (03) 9279 2470 or email accounting@kangan.edu.au.

Building and Construction (VET)

Kangan Institute

Certificate IV in Building and Construction (Building): 1 year full time study
Diploma of Building and Construction (Building): 2 years full time study

About the course: This course aims to provide students with the technical knowledge and skills to monitor and oversee all the quality aspects related to the construction of domestic, industrial and commercial buildings of medium rise to a maximum height of three stories. The first year of study includes training in site levelling and surveying, construction methods for domestic, medium, and high-rise buildings, structural principles and simple sketches and drawing. The second year of study includes training in identifying services and construction faults, building surveying and legal obligations of building contracts. Upon completion of this course students could apply for employment opportunities as a building estimator, building manager, building contract administrator, building consultant, registered builder/domestic/commercial, building site supervisor.

Major studies: Building, Building (construction methods), Building (estimating), Building (law), Building (management), Building (surveying), Building (technology), Building codes and standards (low rise), Building codes and standards (medium rise), Building contract administration, Building law and building practice, Building regulations, Contracts and tenders, Environmental sustainability management, Estimating, Law, Occupational Health and Safety, Occupational health and safety, Occupational health and safety risk management, Project management, Quality systems, Structural principles.
### Building and Construction/Sustainability (VET)

**Kangan Institute**

Broadmeadows: 5300153334 (Fee type determined by provider)

- Diploma of Building and Construction (Building)/Sustainability: 2 years full time study

**About the course:** This course aims to provide students with the technical knowledge and skills to monitor and oversee all the quality aspects related to the construction of domestic, industrial and commercial buildings of medium rise to a maximum height of three stories. The first year of study includes training in site levelling and surveying, construction methods for domestic, medium, and high-rise buildings, structural principles and simple sketches and drawing. The second year of study includes training in identifying services and construction faults, building surveying and legal obligations of building contracts. Students undertaking the Diploma of Building and Construction course will have the option of taking up the dual diploma of Sustainability, giving the course participant the opportunity of attaining employment not only in Building and construction fields, but also the chance to have additional specialised skills and qualifications.

**Major studies:** Building, Building (construction methods), Building (estimating), Building (law), Building (surveying), Building (technology), Building regulations, Contracts and Tender, Occupational Health and Safety, Sustainability, Sustainability concepts, Sustainable business practices, Sustainable development, Sustainable production and consumption.

**Prerequisites:** None

**Middle-band:** None

**Selection Mode:** CY12: ATAR.
NY12: Educational History including GPA.

**Extra requirements:** None

### Business Administration (VET)

**Kangan Institute**

Broadmeadows: 5300153024 (Fee type determined by provider)

- Certificate II in Business: 0.5 year full time study
- Certificate III in Business Administration: 0.5 year full time study
- Certificate IV in Business: 1 year full time study
- Diploma of Business Administration: 2 years full time study

**About the course:** This course is designed to develop the required skills and knowledge to work effectively in an office environment, either in an administrative or management position. Each qualification comprises core competencies and a selection of electives designed to give skills and knowledge required for a career in Business Administration. The pathway to the Diploma will incorporate the Certificates III and IV (or competencies from the...
Certificates III and IV).

**Major studies:** Accounting (MYOB), Business Technology (Microsoft Office), Communication, Management, Structured Workplace Learning, Workplace Health and Safety, Workplace Skills.

**Prerequisites:** None

**Middle-band:** None

**Selection Mode:** CY12 : ATAR.
NY12 : Educational History including GPA.

**Extra requirements:**
None

---

**Kangan Institute**

**Computer Systems Engineering (VET)**

**Certificate II in Computer Assembly and Repair:** 0.5 year full time study

**Advanced Diploma of Computer Systems Engineering:** 2 years full time study

**About the course:** This course provides students with high-level training in the management of computer systems, computer networks, Internet and intranet infrastructure, design and development, programming and maintenance. The hands-on practical activities are designed to provide students with the opportunity to gain skills in IT essentials and CISCO vendor qualifications.

**Prerequisites:** None

**Middle-band:** None

**Selection Mode:** CY12 : ATAR.
NY12 : Educational History including GPA.

**Extra requirements:**
None

---

**Kangan Institute**

**Computer Systems Technology (VET)**

**Certificate IV in Computer Systems Technology:** 1 year full time study

**Advanced Diploma of Computer Systems Technology:** 2 years full time study

**About the course:** This course is for students to develop skills and knowledge with information and communications technology (ICT) systems and network development. Within the classroom students will learn to install and administer simple networks, servers, and client desktop deployments and troubleshoot issues with them. Working individually and in small teams, students will plan and implement solutions to a wide range of problems. The classroom activities are practical based and students will also have the opportunity to gain skills in IT Essentials and Cisco vendor qualifications.
**Fashion and Textiles Merchandising (Fashion Buyer) (VET)**

**Kangan Institute**
Richmond: 5300453064 (Fee type determined by provider) full-time  
**Apply:** Through VTAC main round

- Certificate IV in Fashion and Textiles Merchandising: 1 year full time study
- Diploma of Fashion and Textiles Merchandising: 1.5 year full time study
- Advanced Diploma of Fashion and Textiles Merchandising: 2.5 years full time study

**About the course:** The Diploma of Fashion and Textiles Merchandising covers occupations such as those involved in the development and implementation of fashion products, fashion forecasting, fashion buying, marketing and merchandising and supply chain strategies within the fashion and textiles industries. This is an entry-level program with 35 core and specialist units. Delivery of this course may include a combination of classroom/workshop, industry placement and/or workplace and work-based training and assessment. The Advanced Diploma of Fashion and Textiles Merchandising builds onto the Diploma and consists of a further 10 Units of study.

**Major studies:** Advertising and Promotions, Cost estimation, Design influences and concepts (textiles), Fabric and fibre technology, Fashion trend analysis, Human resource management, International trade, Management, Marketing research, Marketing strategy, Merchandising, Networking, Online brand management, Production Planning, Purchasing, Quality control, Risk analysis and management, Sales and marketing, Strategic marketing, Supply chain management, Textile product knowledge, Visual Merchandising, Warehousing and distribution.

**Prerequisites:** None

**Middle-band:** None

**Selection Mode:** CY12: Interview (All). See extra requirements for more information.
NY12: Interview (All), English language test (All). See extra requirements for more information.

**Extra requirements:**
Interview (CY12-All, NY12-All): All applicants are required to attend an interview by no later than 6 November (2 December late applicants only). To book an interview go to www.kangan.edu.au/departments/centre-for-fashion/vtacinterview.All applicants will be required to submit a copy of their resume at the interview.

English language test (NY12-All): Applicants will be required to sit an English literacy and numeracy test at the interview.
Certificate III in Applied Fashion Design and Technology: 1 year full time study
Certificate IV in Applied Fashion Design and Technology: 1 year full time study
Diploma of Applied Fashion Design and Technology: 2 years full time study
Advanced Diploma of Applied Fashion Design and Technology: 3 years full time study

**About the course:** The Diploma of Applied Fashion Design and Technology prepares you for occupations such as fashion design, support roles, advanced pattern making, merchandising, marketing, retail buying and supply chain management. The Advanced Diploma builds on the skills within the Diploma and prepares you for the higher technical levels of additional occupations such as fashion design, design and production management, advanced pattern making, product development and management of fashion design systems. Both qualifications are entry-level programs with 35 and 45 core and elective units respectively. Delivery of this course may include a combination of classroom/workshop, industry placement and/or workplace and work-based training and assessment. Each qualification comprises core competencies and a selection of electives and the pathway to the diploma will incorporate the certificate III (or competencies from these qualifications).

**Major studies:** Computer-aided design (CAD), Fabric and fibre technology, Fabric technology, Fashion, Fashion (design concepts), Fashion (design), Fashion (illustration), Fashion (pattern grading), Garment construction techniques, Marketing research, Marketing strategy, Networking, Pattern-making, Pattern-making (computer), Quality assurance, Quality control.

**Prerequisites:** None

**Middle-band:** None

**Selection Mode:** CY12 : Folio (All), Interview (All), See extra requirements for more information.
NY12 : Folio (All), Interview (All), English language test (All). See extra requirements for more information.

**Extra requirements:**
Folio (CY12-All, NY12-All) : Applicants will be required to bring their folio to the interview.
Interview (CY12-All, NY12-All) : Applicants will be required to attend an interview. Applicants should also bring a resume to the interview. Applicants must attend an interview by 6 November (late applicants by 4 December) and must book a time at www.kangan.edu.au/departments/centre-for-fashion/vtacinterview.
English language test (NY12-All) : Applicants will be required to sit an English language test at the interview.

**Hospitality (Commercial Cookery) (VET)**

*Kangan Institute*

**Broadmeadows: 5300153374 (Fee type determined by provider)**

- Certificate IV in Hospitality (Commercial Cookery): 1 year full time study

**About the course:** This course is designed for people with a passion for cookery in a commercial environment. It covers a range of content from introductory knife skills, basic methods of cookery, preparing stocks, sauces and soups, and cooking seafood, poultry and meats. It also includes more advanced studies such as menu planning, cost control, dietary and cultural needs, nutrition and food safety. Work would be undertaken in various hospitality settings such as restaurants, hotels, motels, clubs, pubs, cafes and coffee shops.

**Major studies:** Communication Skills, Cookery, Culinary Arts, Dietary and cultural needs, Food handling, Food health, Food safety and hygiene, Health, Hospitality.

**Prerequisites:** None

**Middle-band:** None

**Selection Mode:** CY12 : ATAR.
NY12 : Educational History including GPA.

**Extra requirements:** None
Information Technology Networking (VET)

Kangan Institute

Certificate IV in Information Technology Networking: 1 year full time study
Diploma of Information Technology Networking: 2 years full time study
Advanced Diploma of Computer Systems Technology: 3 years full time study

About the course: This qualification provides high-level ICT, e-security and business skills and knowledge to enable graduates to be effective in senior security roles. This course focuses on security design, management and evaluation of networking systems in businesses, VoIP, RFID and other NGN technologies. Students gain experience in setting up secure networks and modifying security systems. Students learn to configure and troubleshoot hardware, network, operating systems, services and protocols, provide risk management and control, backups and disaster recovery. Students will study towards a number of industry recognised and highly valued vendor certifications such as CompTIA A+, CISCO (CCNA), Server 2008 Administrator and Linux (LPIC). This course may lead to employment opportunities as a database security expert, lead security analyst, ICT security specialist, IT security administrator, e-security specialist, network and systems manager, security administrator or security engineer.

Prerequisites: None

Selection Mode: CY12 : ATAR.
NY12 : Educational History including GPA.

Extra requirements: None

Information Technology Testing (VET)

Kangan Institute

Certificate IV in Information Technology Testing: 1 year full time study

About the course: This course is for students wanting to develop skills and knowledge in system testing. Using various testing methodologies, students will learn to develop, perform and manage hardware and software testing. The students will also learn integrity testing, integration testing, diagnostic testing, unit testing, application testing, client acceptance testing and load testing processes. Classroom work is practical based and students will work individually and in small teams to complete a range of projects based on different design briefs. Project development skills as well as creative design skills are also learned to help the student create professional looking test plans.

Major studies: Creating test plans, Information technology, Manage testing processes, Perform testing.

Prerequisites: None

Middle-band: None
Selection Mode: CY12 : ATAR.
NY12 : Educational History including GPA.

Extra requirements:
None

### Information, Digital Media and Technology (VET)

**Kangan Institute**

- **Broadmeadows:** 5300153444 (Fee type determined by provider)
  - full-time
  - Apply: Through VTAC main round

- **Richmond:** 5300453444 (Fee type determined by provider)
  - full-time
  - Apply: Through VTAC main round

- Certificate II in Information, Digital Media and Technology: 0.5 year full time study
- Certificate III in Information, Digital Media and Technology: 0.5 year full time study

**About the course:** This course is for students who would like to start developing the skills to use Information Technologies within any industry. The skills and knowledge will assist in developing confidence with using a computer to complete a range of tasks. Classroom time is practical based with tasks that develop the required skills creating work that is relevant to many industries.

**Major studies:** Accounting, Database applications, Operating systems, Project management, Software installation, Software systems.

**Prerequisites:** None

**Middle-band:** None

**Selection Mode:** CY12 : ATAR.
NY12 : Educational History including GPA.

**Extra requirements:**
None

### Justice (VET)

**Kangan Institute**

- **Broadmeadows:** 5300153114 (Fee type determined by provider)
  - full-time
  - Apply: Through VTAC main round

- **Essendon:** 5300253114 (Fee type determined by provider)
  - full-time
  - Apply: Through VTAC main round

- Certificate IV in Justice: 0.5 year full time study
- Diploma of Justice: 1 year full time study
- Advanced Diploma of Justice: 2 years full time study

**About the course:** The Advanced Diploma of Justice provides the major vocational education and training pathway for students wishing to enter, develop additional skills or pursue a long-term career within the justice sector and related areas. This may include the police (both state and federal), customs, sheriff’s department, local government, correctional services, courts, youth justice and community corrections. Students will also participate in a crime scene investigation camp as part of their practical learning component. Each qualification comprises core competencies and a selection of electives and the pathway to the Advanced Diploma will incorporate the Certificates IV in Justice and Diploma of Justice.
Major studies: Conflict resolution, Corrections, Courts, Crime, Criminal justice systems, Criminal Law, Criminology, Customs, Ethics, Human rights, Investigative processes, Justice, Legal, Policing, Psychology, Sociology, Youth justice.

Prerequisites: None

Middle-band: None

Selection Mode: CY12: ATAR.
NY12: Educational History including GPA.

Extra requirements:
None

Logistics / Supply Chain (VET)

**Kangan Institute**

Broadmeadows: 5300110014 (Fee type determined by provider) full-time

Richmond: 5300410014 (Fee type determined by provider) full-time

Apply: Through main round

---

About the course: This course addresses the needs of the growing supply chain and logistics industries, which require increasing number of skilled and knowledgeable professionals. This course is therefore designed for those students wishing to pursue a career in logistics and supply management in a supervisory or management role.

Students will gain the management skills and knowledge required to successfully manage the increasingly sophisticated and complex supply chain and logistics management functions. The pathway to the logistics diploma will incorporate the Certificate IV in Logistics.

Kangan Institute has a purpose-built distribution centre at the Broadmeadows campus which will support some of the earlier logistics training.

Major studies: Export logistics, Facility design and management, inventory management, People management, Purchasing, Workplace health and safety.

Prerequisites: None

Middle-band: None

Selection Mode: CY12: ATAR, Interview (All). See extra requirements for more information.
NY12: Educational History including GPA, Interview (All), Information Session. See extra requirements for more information.

Extra requirements:
Interview (CY12-All, NY12-All): Applicants will be required to attend an interview. Details will be provided to applicant via mail.

Applicants will be required to attend an Information Session. Details will be provided by mail.

Management - Human Resources (VET)

**Kangan Institute**

Broadmeadows: 5300153074 (Fee type determined by provider) full-time

Apply: Through main round
Certificate IV in Frontline Management/Human Resources: 1 year full time study

**Screen and Media (VET)**

**Kangan Institute**

Broadmeadows: 5300153424 (Fee type determined by provider)

- **Apply Through VTAC**
- **main round**

- Certificate III in Media: 0.5 year full time study
- Certificate IV in Screen and Media: 1 year full time study

**About the course:** This course has two streams that students can develop skills in, 3D Modelling or Film.

The 3D modelling stream will allow students to develop skills with concept development and media creation for animation and games projects in both 2D and 3D. In the classroom students will work individually and in small teams to develop practical skills through various projects. Software used includes Autodesk, Adobe Suite, Maya, Photoshop, After Effects and Mudbox.

The film stream has a focus on learning the skills to create short films; this includes pre production skills, scriptwriting, and lighting as well as post production which incorporates editing and adding other elements to projects for final output. The classroom work consists of practical based learning with lots of hands on tasks and using industry standard software.

**Major studies:** 2D Animation, 3D Animation, 3d Animation, Animation creation, Concept design, Graphics, Lighting, Pre-production, Script writing.

**Prerequisites:** None

**Middle-band:** None

Selection Mode: CY12: ATAR. NY12: Educational History including GPA.

**Extra requirements:** None

**Tourism (VET)**

**Kangan Institute**

Broadmeadows: 5300153594 (Fee type determined by provider)

- **Apply Through VTAC**
- **main round**

Richmond: 5300453594 (Fee type determined by provider)

- **Apply Through VTAC**
- **main round**

- Certificate IV in Travel and Tourism: 1 year full time study
- Diploma of Travel and Tourism: 1 year full time study
- Advanced Diploma of Travel and Tourism: 1.5 year full time study

**About the course:** The Certificates III and IV in Tourism will be completed as part of the Diploma in the first year, and this equips students with operational skills in retail travel, meeting and events, and visitor information services. Subject areas in the first year include marketing, destination studies, airfares and ticketing, travel agency operations, Galileo airline reservations, visitor information services and managerial studies. Hands-on activities will be incorporated throughout the course. The Diploma equips students to perform in a supervisory or management role, or in running their own tourism business. The advanced diploma includes a specialist stream in marketing studies. In the Advanced Diploma students are required to design their own tourism business and write a business plan as part of their management and marketing studies.

**Major studies:** Australian Destinations, Business planning, Customer service, E-commerce, Environmental management, Finance, Galileo, Human resource management, International Destinations, Management, Marketing, Outdoor leadership and guiding, Sustainability.

**Prerequisites:** None
Visual Merchandising (VET)

Kangan Institute
Richmond: 5300453134 (Fee type determined by provider) full-time  
Apply: Through VTAC main round

- Diploma of Visual Merchandising: 1.5 year full time study

About the course: Equips students with the skills and knowledge necessary to establish a career in the visual merchandising and photographic styling industries. Students will have access to a VM studio environment and gain practical and theoretical skills in visual merchandising, display, creating a theme, styling, design, colour theory, illustration and multi media. A strong emphasis is placed on hands-on experience and industry standards. Industry placement is a key component of the course commencing in the first year.

Major studies: Design, Digital art and design, Drafting, Drawing and illustration, Graphic design, History (design), Illustration, Marketing, Merchandising, Multimedia, Occupational health and safety, Photo styling, Professional practice, Visual merchandising.

Prerequisites: None

Middle-band: None

Selection Mode: CY12 : Folio (All), Interview (All). See extra requirements for more information.
NY12 : Folio (All), Interview (All), English language test (All). See extra requirements for more information.

Extra requirements:
Folio (CY12-All, NY12-All) : Applicants are required to bring a folio to the interview.
Interview (CY12-All, NY12-All) : Applicants are required to attend an interview by 6 November (late applicants by 2 December). Applicants can book for an interview time at www.kangan.edu.au/departments/centre-for-fashion /vtacinterview.
English language test (NY12-All) : Applicants will be required to sit an English language test at the interview.

Web-Based Technologies (VET)

Kangan Institute
Broadmeadows: 5300153454 (Fee type determined by provider) full-time  
Apply: Through VTAC main round

- Certificate IV in Web-Based Technologies: 1 year full time study
- Diploma of Website Development: 2 years full time study

About the course: This course is for students to develop skills and knowledge in web design. Using various software packages like Dreamweaver, students will learn to design, build and administer websites for a variety of purposes. Classroom work is practical based and students will work individually and in small teams to complete a range of projects based on different design briefs. Project development skills as well as creative design skills are also learned to help the student create professional looking websites.
**Major studies:** Creating design briefs, HTML, Project management, Scripting, Web creation, Web design, Web layout.

**Prerequisites:** None

**Middle-band:** None

**Selection Mode:** CY12 : ATAR.

**Extra requirements:** None
La Trobe Melbourne

La Trobe Melbourne is your pathway to a degree from La Trobe University.

La Trobe Melbourne is a part of the global Navitas group, an internationally recognised education provider with the knowledge and resources of staff in more than 50 different colleges and campuses worldwide. Our diploma programs in the areas of Business, IT, Mass Media and Communication, Bioscience and Health Science are moderated and quality assured by La Trobe University.

The diploma programs are equivalent to the first year of a University degree program, but with smaller class sizes and increased academic contact. After you've completed the Diploma, you progress into second year of a range of Bachelor degrees at La Trobe University.

La Trobe Melbourne is located at the picturesque La Trobe University Melbourne campus, and from mid-2014 will be in a brand-new building right in the heart of the campus. The college offers a supportive learning environment with small class sizes designed to enhance the success rate of our students, as well as using the latest learning and teaching technologies.

Special Entry Access Scheme (SEAS)

La Trobe Melbourne is committed to equality and will support applications from students of all backgrounds.

Bioscience (VET)

Bundoora: 9540195192 (DFP) full-time/part-time  
Apply: Through VTAC main round

Bundoora: 9540195193 (IFP) full-time  
Apply: Through VTAC main round

- Diploma of Bioscience: 8 months full time study

About the course: Bioscience is the study of living organisms. It focuses on the structure, functions, interactions and other aspects of organisms in relation to biology, physiology and ecology.

La Trobe University has research strengths across the broad field of bioscience and has identified bioscience as one of its major growth areas. The university has developed a solid reputation for its bioscience research and development activities, which have commercial, agricultural and medical applications.

La Trobe Melbourne’s Diploma of Bioscience provides an introduction to university studies in the sciences and offers an alternative pathway to a science degree. You will study first-year undergraduate subjects and, after successfully completing the diploma, you will be eligible for direct entry to second year of your chosen degree.

Major studies: Biology, Chemistry, Data-based critical thinking, Genetics, Psychology.

Prerequisites: Units 3 and 4: a study score of at least 25 in English (EAL) or 20 in English other than EAL; and a study score of at least 20 in any Mathematics.

Middle-band: None
**Selection Mode:** CY12 : ATAR.
NY12 : Educational History including GPA.

**Extra requirements:**
None

---

## Business (VET)

### La Trobe Melbourne

**Bundoora: 9540195182 (DFP) full-time/part-time**

- Apply: Through VTAC main round

**Bundoora: 9540195183 (IFP) full-time**

- Apply: Through VTAC main round

- Diploma of Business: 8 months full time study

**About the course:** Provides an introduction to University studies for further specific studies in Accounting, Management, Marketing, Tourism/Hospitality, Sports Management and Economics. The course offers an alternative pathway to La Trobe University’s undergraduate business programs with successful completion of the Diploma of Business.

**Major studies:** Accounting, Business Law, Economics, Management, Management Information Systems, Marketing, Statistics.

**Prerequisites:** Units 3 and 4: a study score of at least 20 in any English.

**Middle-band:** None

**Selection Mode:** CY12 : ATAR.
NY12 : Educational History including GPA.

**Extra requirements:**
None

## Health Sciences (VET)

### La Trobe Melbourne

**Bundoora: 9540195212 (DFP) full-time/part-time**

- Apply: Through VTAC main round

**Bundoora: 9540195213 (IFP) full-time**

- Apply: Through VTAC main round

- Diploma of Health Sciences: 8 months full time study

**About the course:** This course is your introduction to an understanding of health and disability, and how best to improve health considering our bodies, communities, environment and our workplaces. This diploma program is your pathway to second year of Bachelor of Health Sciences.

The diploma program is based on the common first year of La Trobe University’s Bachelor of Health Sciences. During the program you will study six units from the common first year along with two new units that are designed to help you develop the academic skills needed for further study in health sciences. The Diploma of Health Sciences is your introduction to the rapidly expanding and growing health sector. By choosing to study health sciences you will develop an understanding of health and disability, and how they are affected by our workplaces and environment. This will allow you to make a real difference to the health and wellbeing of communities around the world.

Successful completion of the Diploma leads to second year of the following courses at La Trobe University:

- Bachelor of Health Sciences (majors in: Environmental Health, Human Physiology and Anatomy, Public Health, Rehabilitation or Counselling)

- Bachelor of Nursing

(Please note international students to receive a package offer for a Diploma of Health Sciences leading to Bachelor...
of Nursing requires an IELTS of 7.0 with no band below 6.5 or English ESL 30. This English language level needs to be achieved before entering the Diploma of Health Sciences.

Limited places are available for entry into:

- Bachelor of Health Information Management*
- Bachelor of Health Sciences and Master of Podiatry*
- Bachelor of Health Sciences and Master of Physiotherapy*
- Bachelor of Health Sciences and Master of Speech Therapy*
- Bachelor of Health Sciences and Master of Occupational Therapy*

*average marks applicable and subject to ranking

**Major studies:** Communication Skills, Human Bioscience, Interprofessional Communication, Public and Individual Health Issues.

**Prerequisites:** Units 3 and 4: a study score of at least 28 in English (EAL) or 20 in English other than EAL; and a study score of at least 20 in one of Biology, Chemistry, any Mathematics, Physical Education or Physics.

**Middle-band:** None

**Selection Mode:** CY12 : ATAR.

NY12 : Educational History including GPA.

**Extra requirements:**

None

**Mass Media and Communications (VET)**

**La Trobe Melbourne**
Diploma of Mass Media and Communications: 8 months full time study

**About the course:** The diploma offers an introduction to university studies in mass media and communications. You will explore how we communicate in film, television, radio, publishing and digital media, and media arts. You will also be introduced to the historical, political and cultural aspects of media to understand developments and debates in the media and communication industries. On successful completion of the diploma you will be eligible for direct entry to second year of La Trobe University media studies or journalism degree.

**Major studies:** Cinema Studies, Print Journalism, Television News.

**Prerequisites:** Units 3 and 4: a study score of at least 28 in English (EAL) or 20 in English other than EAL.

**Middle-band:** None

**Selection Mode:** CY12 : ATAR.
NY12 : Educational History including GPA.

**Extra requirements:**
None
La Trobe University

For nearly 50 years La Trobe University has sought knowledge, challenged convention and changed the way people think.

We offer more than 340 undergraduate and postgraduate courses, and accommodate 34,500 students including over 9,000 international students from countries such as China, Vietnam, India, Singapore, the USA, France and Saudi Arabia.

La Trobe was recently ranked among the top 50 universities in the world under the age of 50 (QS World University Rankings 2012) and we are one of Australia's leaders in research recognised as Australia's best university for research in Microbiology and equal best in Biochemistry and Cell Biology, and Veterinary Science (Excellence in Research for Australia 2012).

Our main campus is in the Melbourne suburb of Bundoora, approximately 14km from the CBD, and we have campuses across Victoria in Albury-Wodonga, Bendigo, Collins Street (CBD), Franklin Street (CBD), Mildura and Shepparton. La Trobe has the largest share of regional higher education students in Victoria at least one in five of the state's regional higher education students studies with us.

We take great pride in producing graduates with the theoretical and practical insights to make meaningful contributions in their chosen fields. Almost 77 per cent of our Bachelor's degree graduates find full-time employment within four months of course completion and among our alumni are some of the most influential people their generations have produced.

A high-quality education is globally relevant. We offer among the highest number of student exchange programs in Australia with more than 100 partner universities in over 30 countries in Asia, Europe, and North and South America.

We have more than $500 million of new research facilities under construction or recently launched. Among these are the new $100 million La Trobe Institute for Molecular Science (LIMS) complex and the $288 million AgriBio, Centre for AgriBioscience.

Launched in February 2013, LIMS is set to position La Trobe as an international research leader in molecular science, biotechnology and nanotechnology. AgriBio will contribute significantly to the protection of Victoria's $11.8 billion agricultural sector from disease threats and address some of our most significant challenges including climate change and drought.

Historically, we have focused on creating opportunity for all who seek higher education. In 2012, we became the first Australian university to offer free promotional courses on Apple's iTunesU, joining an impressive group that includes Oxford, Stanford and Yale universities. To date, we have attracted more than 400,000 subscribers and over 12 million downloads of our lectures and materials.

Principles of selection

Admission to University courses is competitive, with selection based on a combination of academic merit and assessment of an applicant's ability to complete a course. Applicants must meet the University's basic admission requirements, prerequisite studies and any extra...
Summer Semester:
06 January 2014 - 14 February 2014

Semester 1:
03 March 2014 - 30 May 2014

Winter Semester:
30 June 2014 - 11 July 2014

Semester 2:
28 July 2014 - 24 October 2014

requirements for the course.

Current Year 12 students

Current Year 12 applicants to La Trobe courses are usually selected on the basis of their academic performance in Year 12 including the completion of prerequisite studies. Some courses specify other special entry requirements which also inform selection. For more information: latrobe.edu.au/school/apply/six-steps

Policy on the use of prerequisite studies

Applicants for admission to courses at La Trobe University must meet the general entry requirements prescribed by the University's Admissions Policy and Procedures, including any course prerequisites. Students who apply on the basis of current VCE studies are required to meet the VCE prerequisites. However, provision is made for students applying on the basis of other educational backgrounds to demonstrate that they have attained an equivalent level of knowledge and skill through means other than the completion of the prerequisite studies. These may include: - successful application through a Special Entry and Access Scheme (SEAS) - successful completion of a relevant bridging, enabling or preparatory program - an appropriate level of attainment in a relevant admissions test - completion, at the appropriate level, of an alternative Year 12, interstate or overseas programs recognised as equivalent to the VCE - successful tertiary study in a relevant area - relevant work experience.

General Achievement Test (GAT)

All La Trobe University courses selecting primarily on the basis of ATAR give consideration to GAT results for applicants with ATARs in the middle band. For more information: latrobe.edu.au/school/apply/general-achievement-test

Non-year 12 applicants

Non-year 12 applicants are selected primarily on academic merit as indicated by the applicant's previous academic record including the completion of prerequisite studies. Some courses specify other special entry requirements which also inform selection. For more information: latrobe.edu.au/mature-age/apply/before-you-apply

Grade Point Average (GPA)

Courses which list Grade Point Average (GPA) in the selection mode for Non-year 12 applicants, consider GPAs in combination with the other selection criteria listed in the course entry. For more information: latrobe.edu.au/policy/documents/admission-courses-requiring-grade-point-average.pdf

Interviews and folios

Applicants who are required to attend an interview or present a folio must be aware of their requirements and the assistance the University can provide to them. For more information: latrobe.edu.au/mature-age/apply/extra-requirements

Guaranteed Entry

Guaranteed entry for some courses is offered to applicants who achieve the required ATAR and meet any prerequisites and extra requirements. Applicants with ATARs below the guaranteed ATAR will still be considered for each of these courses, as part of the normal selection process. For more information: latrobe.edu.au/school/apply/atar

Special consideration

Regional bonus
The Rural and Regional Student Access Scheme (RRSAS) encourages rural and regional applicants to apply to study at La Trobe University. Applicants do not need to apply to be eligible for consideration under this scheme. Applicants will automatically be awarded bonus points, if their home postcode is classified as rural or regional (does not apply for Graduate Entry Teaching (GET) courses). For more information: www.latrobe.edu.au/school/apply/special-entry/victorian-applicants

Special Entry Access Scheme (SEAS)
La Trobe University has a long tradition of providing access to higher education. The University's vision is to transform the lives of students and communities through learning and knowledge creation. La Trobe University provides students with a supportive and challenging learning environment. For more information: www.latrobe.edu.au/school/apply/special-entry

ASPIRE - Early Entry Program (AEEP)
La Trobe University's ASPIRE- Early Entry Program (AEEP) is open to Melbourne (Bundoora) applicants who are current Year 12 school leavers as well as those who may have taken a gap year and have not completed further education (VTAC Categories V16, E16, V22 & E22). This program considers the contribution you have made to your community through your school or workplace, local community organisation, cultural, sporting or a religious group. If your AEEP application is successful, you will be advised in early November that you will be offered a place within the Bachelor of Nursing at La Trobe University as long as you meet 'minimum eligibility' requirements. For more information: latrobe.edu.au/health/aspire

Admissions tests
La Trobe University considers STAT Multiple Choice results from some Non-Year 12 applicants and all applicants applying for Mature-Age Special Entry (see Principles of Selection). Refer to the Extra requirements section under the course in CourseSearch on the VTAC website. Non-year 12 applicants may choose to supplement their educational history by sitting the STAT if they have an ATAR attained in 2012, or earlier, which is below the 2013 clearly-in ATAR for the course; have TAFE or other qualifications with ungraded assessment (only pass/fail results rather than actual grades); have TAFE or university qualifications, obtained in 2012 or before, not deemed competitive for entry. Please contact the relevant faculty for further advice. Applicants applying through Category 1 of the Special Entry Access Schemes (SEAS) for mature age consideration must sit the STAT Multiple Choice.

Bridging courses and programs
The University offers a number of bridging courses and programs to assist applicants in meeting tertiary entrance requirements. These include a Tertiary Enabling Program (TEP). For more information: latrobe.edu.au/mature-age/choose-la-trobe/help-to-get-in/bridging-courses-and-programs

Advanced standing, credit and pathways
Advanced Standing and credit
Each faculty has different policies regarding the number and type of subjects and any work experience it is willing to accept for credit purposes. Students should apply for credit after they have been offered a place and at the time of enrolment.
Pathways
La Trobe's TAFE Diploma pathways program enables some applicants who have studied at TAFE to enter related degree courses with a significant level of credit. Completion of individual university units (subjects) can lead to credit(s); refer to Advanced Standing and Credit. For more information: latrobe.edu.au/mature-age/apply/pathways

Course transfers
La Trobe University may accept students who wish to transfer to another course either from another institution or within the University prior to the completion of their current course. For more information: latrobe.edu.au/mature-age/apply/pathways

Clinical placement
Some courses require students to undertake clinical and professional placements. In courses where students are required to undertake such placements, students may come into contact with vulnerable people. For more information: latrobe.edu.au/health/study/placements

Scholarships
La Trobe University undertakes activities that recognise and encourage students with outstanding academic abilities, assist in removing barriers to access for disadvantaged students and promote equality of opportunity in higher education. La Trobe University offers a range of excellence and access scholarships across all campuses of the University. These scholarships are offered based on applicants' demonstrated academic excellence and/or financial need and educational disadvantage in their VTAC scholarship application. For more information: www.latrobe.edu.au/scholarships

Participation in offer rounds
La Trobe University has a number of courses which only participate in Early Round in November. Please refer to course entry for further information.

Enrolment and deferment

Enrolment
All successful applicants will receive an offer message from VTAC. The message contains important information about your enrolment. For more information: latrobe.edu.au/school/apply/six-steps

Deferment
A two year deferral may be granted to commencing undergraduate students commencing in 2014 on request, unless otherwise stated in the course entry in this guide. Information on how to defer will be sent to successful applicants as part of their enrolment package. For more information: latrobe.edu.au/students/new-students/accept/defer

Student services
La Trobe University provides a comprehensive suite of services to cater for student needs including the Children's Centre and the Sports Centre. For more information: latrobe.edu.au/student-services

Accommodation
Our accommodation is more than just a place to live; it's a way of life. We have a range of housing options at our Melbourne and regional campuses. For more information:
Disability Services

La Trobe welcomes students with a disability. The Equality and Diversity Centre can provide information and support to people with a disability, mental health issue or ongoing medical condition. For more information: latrobe.edu.au/students/equality/disability

Indigenous applicants

Future Indigenous students are welcome to contact Indigenous Student Services for advice about courses, application procedures, scholarships and other aspects of studying at La Trobe University. For more information, send an email to indigenous_enquiries@latrobe.edu.au For more information: latrobe.edu.au/indigenous

International student services

La Trobe University provides many specialised support services to help international students adjust to living in Australia. Our staff will ensure that you don’t have to cope with this all on your own. For more information: latrobe.edu.au/international/life

Fees and financial assistance

We offer a range of services to help you through university, including financial aid to help with unexpected expenses. For more information: latrobe.edu.au/students/fees

Further information

Course Information

La Trobe University course information is found online at www.latrobe.edu.au/coursefinder or in the 2014 Undergraduate Course Guide available from each campus. For more information: latrobe.edu.au/study

Course Information sessions

Course information sessions for courses are not compulsory but attendance is recommended. Information on all courses is available at Open Day and other events for future students. For information on dates and times, contact the Future Students Centre on 1300 135 045. For more information: latrobe.edu.au/ask

- Bachelor of Accounting: 3 years full time study

About the course: This professional accounting degree offers learning in career-specific areas including accounting, auditing, finance, business law and taxation. In addition to fulfilling requirements for membership of CPA Australia and the Institute of Chartered Accountants in Australia, students can select advanced subjects in management, marketing, finance and economics as well as having an opportunity to participate in an accounting work placement. The first year framework comprises four business foundation subjects, two discipline-specific subjects and two elective subjects. The four business foundation subjects offer students a broad introduction into the key disciplines and work-ready skills of business, while the two discipline specific subjects introduce students to accounting principles and accounting information systems. The two elective subjects broaden the students’ learning
experience by offering them the opportunity to study subjects chosen from across the Faculty and the University.

Commencing with the two discipline-specific subjects in first year, students complete ten core subjects which define the major and are designed to provide them direct entry into the CPA and CA professional program.

The degree also includes at least two accounting elective subjects which may include a work integrated learning subject only available to students enrolled in the Bachelor of Accounting and related double degree programs, and two elective subjects drawn from either accounting or other disciplines of the Faculty, including economics, finance, law, management and marketing.

The degree also allows no more than six elective subjects drawn from any faculty of the University which would for instance allow a student to study overseas for one semester, or to undertake an exciting international accounting and finance study tour, or to complete a language via enrolment in a language subject in each semester of their degree program.

**Major studies:** Accounting, Business economics, Financial management, Financial planning, Human resource management, International management, Macroeconomics, Management, Management Information Systems, Marketing, Sport Management.

**Prerequisites:** Units 3 and 4: a study score of at least 25 in English (EAL) or 20 in English other than EAL.

**Middle-band:** None

**Selection Mode:** CY12 : ATAR.

NY12 : Educational History including GPA, VTAC Personal Statement (All), STAT (Some), English language test (Some). See extra requirements for more information.

SEAS is considered.

**Extra requirements:**

VTAC Personal Statement (NY12-All) : Applicants must complete and submit a VTAC Personal Statement if they wish other information to be considered during the selection process. This may include information such as work experience or reason for applying. Applicants may wish to provide other documentation in support of their application.

STAT (NY12-Some) : Applicants described in the VTAC Admissions tests section must sit the STAT Multiple Choice test.

English language test (NY12-Some) : Applicants who do not meet the English language requirement must achieve the required scores in the IELTS (Academic) or equivalent test.

(Minimum scores required for IELTS academic are Speaking=6.0, Writing=6.0, Reading=6.0, Listening=6.0, and Overall=6.0)

Bachelor of Business (Accounting): 3 years full time study

About the course: This business degree provides an accounting specialization in a broader business context and offers learning in career-specific areas including accounting, auditing, business law, finance, forensic accounting, public sector accounting and taxation. In addition to fulfilling requirements for membership of CPA Australia and the Institute of Chartered Accountants in Australia, students can select advanced subjects in management, marketing, finance and economics. The first year framework comprises four business foundation subjects, two discipline-specific subjects and two elective subjects. The four business foundation subjects offer students a broad introduction into the key disciplines and work-ready skills of business, while the two discipline specific subjects introduce students to accounting principles and accounting information systems. The two elective subjects broaden the students' learning experience by offering them the opportunity to study subjects chosen from across the Faculty and the University.

Commencing with the two discipline-specific subjects in first year, students complete ten core subjects, which define the major and are designed to provide them direct entry into the CPA and CA professional year. The degree includes four second and third year elective subjects, drawn from either accounting or the other disciplines of the faculty, including economics, finance, law, management and marketing.

The degree also allows up to six elective subjects to be drawn from any faculty of the university, which would for instance allow a student to study overseas for one semester, or to complete a language via enrolment in a language subject in each semester of their degree program. As an alternative to a language or randomly chosen electives subjects, the degree is also designed to allow for an optional eight-subject major or four-subject minor.

Prerequisites: Units 3 and 4: a study score of at least 25 in English (EAL) or 20 in English other than EAL.
Middle-band: None

Selection Mode: CY12: ATAR.

Melbourne: 2100322553 (IFP) full-time Apply: Through VTAC main round

- Bachelor of Business (Accounting and Finance): 3 years full time study

About the course: This accredited degree provides education relevant for a career in accounting and finance. The course provides students with foundation knowledge and skills required to practice both finance and accounting and is accredited by both CPA Australia and the Institute of Chartered Accountants in Australia. The first year comprises four business foundation subjects, three discipline-specific subjects and one elective subject, with a second elective subject offered in second year. The four business foundation subjects offer students a broad introduction into the key disciplines and work-ready skills of business, while the three discipline specific subjects introduce students to the principles of accounting and finance and accounting information systems.

The two elective subjects broaden the students learning experience by offering them the opportunity to study subjects chosen from across the Faculty and the University.

Commencing with the three discipline-specific subjects in first year, students complete seventeen core subjects, which define the double major and are designed to provide them direct entry into the CPA and CA professional year.

Major studies: Accounting, Finance.

Prerequisites: Units 3 and 4: a study score of at least 25 in English (EAL) or 20 in English other than EAL; and a study score of at least 20 in any Mathematics.

Middle-band: Satisfactory completion in Economics equals 1 aggregate point.

Selection Mode: CY12: ATAR and middle-band.

NY12: Educational History including GPA, VTAC Personal Statement (All), STAT (Some), English language test (Some). See extra requirements for more information.
SEAS is considered.

Extra requirements:

- Bachelor of Accounting/Economics: 4 years full time study

About the course: This double degree allows students to complement a professional accounting qualification with the study of economic theory and practice. The accounting qualification covers various career-specific areas, including accounting, auditing, finance, business law and taxation. Students also study core areas of economics, and its application to particular areas and policy issues. Students undertake majors in accounting and economics, with the option of a third major. Successful completion of the appropriate choice of subjects qualifies graduates for membership of the following professional accounting bodies: CPA Australia, Institute of Chartered Accountants in Australia (ICAA), National Institute of Public Accountants (IPA) and the Association of Chartered Certified Accountants (ACCA). By completing approved subjects, graduates may also satisfy the educational requirements of the Financial Services Institute of Australasia (FINSIA).

Prerequisites: Units 3 and 4: a study score of at least 25 in English (EAL) or 20 in English other than EAL; and a study score of at least 20 in any Mathematics.

Middle-band: Satisfactory completion in Economics equals 1 aggregate point. Satisfactory completion in any Business or any unscored VET Business is considered.

Selection Mode: CY12 : ATAR and middle-band.

NY12 : Educational History including GPA, VTAC Personal Statement (All), STAT (Some), English language test (Some). See extra requirements for more information.

SEAS is considered.

Extra requirements:

Melbourne: 210032113 (IFP) full-time  
Apply: Through VTAC main round

- Bachelor of Accounting/Finance: 4 years full time study

**About the course:** This degree allows students to undertake complementary studies from accounting and finance. The accounting component offers students subjects from career-specific areas including accounting, auditing, business law and taxation while attaining professional accreditation as an accountant. The finance component is specifically designed to meet academic and vocational requirements for a career in the finance industry. This course is structured to meet the accreditation requirements of CPA Australia. In order to meet the accreditation requirements of the Institute of Chartered Accountants in Australia (ICAA), Taxation and Auditing must be completed. Graduates may also qualify for membership in National Institution of Public Accountants (IPA), and the Association of Chartered Certified Accountants (ACCA).

**Major studies:** Accounting, Finance.

**Prerequisites:** Units 3 and 4: a study score of at least 25 in English (EAL) or 20 in English other than EAL; and a study score of at least 20 in any Mathematics.

**Middle-band:** Satisfactory completion in Economics equals 1 aggregate point.

**Selection Mode:** CY12 : ATAR and middle-band.

NY12 : Educational History including GPA, VTAC Personal Statement (All), STAT (Some), English language test (Some). See extra requirements for more information.

SEAS is considered.

**Extra requirements:**

VTAC Personal Statement (NY12-All) : Applicants must complete and submit a VTAC Personal Statement if they wish other information to be considered during the selection process. This may include information such as work experience or reason for applying. Applicants may wish to provide other documentation in support of their application.

STAT (NY12-Some) : Applicants described in the VTAC Admissions tests section must sit the STAT Multiple Choice test.

English language test (NY12-Some) : Applicants who do not meet the English language requirement must achieve the required scores in the IELTS (Academic) or equivalent test.

(Minimum scores required for IELTS academic are Speaking=6.0, Writing=6.0, Reading=6.0, Listening=6.0, and Overall=6.0)

- Bachelor of Accounting/Information Technology: 4 years full time study

**About the course:** This double-degree program combines the Bachelor of Accounting with the Bachelor of Information Technology and is designed to meet the needs of industry by providing graduates with professional accreditation in Accounting and Information Technology. Students will have vocational choices in both discipline areas as well as options that require expertise in both areas.

The Accounting component of the course is made up of seven core business subjects, eight specialist commerce subjects and three elective School of Business subjects. The Information Technology component is made up of nine core IT subjects, seven elective IT subjects and two elective subjects from IT or other discipline.

The curriculum fulfills the requirements for membership in CPA Australia and the Institute of Chartered Accountants.

**Major studies:** Accounting, Auditing, Financial accounting, Information systems, Information systems management, Information technology, Management, Object-oriented development, Programming.

**Prerequisites:** Minimum ATAR of 70.00. Units 3 and 4: a study score of at least 25 in English (EAL) or 20 in English other than EAL.

**Middle-band:** Satisfactory completion in any Business equals 1.5 aggregate points per study. Overall maximum of 1.5 points.

**Selection Mode:** CY12: ATAR and middle-band.

NY12: Educational History including GPA, VTAC Personal Statement (Some), STAT (Some). See extra requirements for more information.

SEAS is considered.

**Extra requirements:**

VTAC Personal Statement (NY12-Some): Applicants must complete and submit a VTAC Personal statement if they wish other information to be considered during the selection process. This may include information such as work or community experience or reasons for applying. Applicants may wish to provide other documentation in support of their application.

STAT (NY12-Some): Applicants described in the VTAC 'Admissions Tests' section must sit the STAT Multiple Choice test.

Bachelor of Agricultural Sciences: 3 years full time study

About the course: This degree covers sciences such as soil productivity, sustainable plant and animal production, environmental management, marketing and supply chain management. This broad degree will equip students to work directly in agricultural industries as well as in government and business that develop and support this sector. First-year studies introduce agricultural systems and cover underpinning sciences concerning cells and organisms, genetics and human biology, chemistry, plant science, physics, and statistics. Second- and third-year studies include land and soil management, plant and animal nutrition, physiology and protection from diseases and pests, marketing, landscape management using GIS and remote sensing, and climate, sustainability and society. In third year, students undertake case studies in agricultural science, experimental design, and a major research project. Only the first year of the course is available at the Albury-Wodonga campus, with students transferring to Melbourne to complete their degree.

Major studies: Agribusiness, Agricultural biotechnology, Agricultural marketing, Agricultural science, Agriculture, Animal and plant biology, Plant and animal production, Soil science.

Prerequisites: Units 3 and 4: a study score of at least 25 in English (EAL) or 20 in English other than EAL.

Middle-band: Satisfactory completion in Agricultural & Horticultural Studies, Biology, Chemistry, Maths: Mathematical Methods (CAS), Maths: Specialist Mathematics or Physics is considered. Overall maximum of 3 points.

Selection Mode: CY12: ATAR and middle-band.

NY12: Educational History including GPA, VTAC Personal Statement (Some), STAT (Some). See extra requirements for more information.

SEAS is considered.

Extra requirements:

VTAC Personal Statement (NY12-Some): Applicants must complete and submit a VTAC Personal statement if they wish other information to be considered during the selection process. This may include information such as work or community experience or reasons for applying. Applicants may wish to provide other documentation in support of their application.

STAT (NY12-Some): Applicants described in the VTAC 'Admissions Tests' section must sit the STAT Multiple Choice test.
Melbourne: 2100321483 (IFP) full-time 
Apply: Through VTAC main round

- Bachelor of Agricultural Science/Business: 4 years full time study

**About the course:** Combines the practical career orientated science of the Bachelor of Agricultural Science with the business and management skills of the Bachelor of Business.

This program includes science units that focus on soil productivity and sustainable plant and animal production. Case studies involving problem-solving analyses of real-life agricultural businesses integrate disciplinary knowledge for different production systems. The business units studied involve specialist studies in marketing, management, financial management or business economics.

**Major studies:** Agricultural economics, Agricultural science, Agriculture, Animal and plant biology, Business, Business (economics), Economics, Finance, Management, Management (financial), Marketing, Plant and animal production, Soil science.

**Prerequisites:** Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL.

**Middle-band:** Satisfactory completion in Agricultural & Horticultural Studies, Biology, Chemistry, Maths: Mathematical Methods (CAS), Maths: Specialist Mathematics or Physics equals 1 aggregate point per study. Overall maximum of 3 points.

**Selection Mode:** CY12 : ATAR and middle-band.

NY12 : Educational History including GPA, VTAC Personal Statement (Some), STAT (Some). See extra requirements for more information.

SEAS is considered.

**Extra requirements:**

VTAC Personal Statement (NY12-Some) : Applicants must complete and submit a VTAC Personal statement if they wish other information to be considered during the selection process. This may include information such as work or community experience or reasons for applying. Applicants may wish to provide other documentation in support of their application.

STAT (NY12-Some) : Applicants described in the VTAC 'Admissions Tests' section must sit the STAT Multiple Choice test.

- Bachelor of Agricultural Sciences/International Development: 4 years full time study

**About the course:** Combines the scientific understanding of sustainable soil, plant and animal production, with an understanding of programs for social and economic change, instituted by government and non-government organisations, in developing areas of Africa, Latin America and Asia.

This program includes science units that focus on soil productivity and sustainable plant and animal production systems. Case studies involving problem-solving analysis of real-life problems integrate knowledge of the production system. The non-science units are from the disciplines of anthropology, history, politics and sociology.

**Major studies:** Agricultural science, Agriculture, Anthropology, Development studies, International agribusiness, International development, Plant and animal production, Sociology, Soil science.
Prerequisites: Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL.

Middle-band: Satisfactory completion in Agricultural & Horticultural Studies, Biology, Chemistry, Maths: Mathematical Methods (CAS), Maths: Specialist Mathematics or Physics equals 1 aggregate point per study. Overall maximum of 3 points.

- Bachelor of Animal and Veterinary Bioscience: 3 years full time study

About the course: Provides a general education in animal science designed to equip graduates for further study in veterinary sciences or employment in animal research, animal care and welfare, and the animal health, agricultural or biotechnology industries.

The first year provides a foundation in chemistry, physics, biology and training in animal handling and behaviour. Later years allow for specialisations in animal ecology or physiology, animal genetics, animal health or animal biotechnology.

Major studies: Animal and plant biology, Animal breeding, Animal health, Biochemistry, Biology, Genetics, Microbiology, Molecular and cell biology, Nutrition and feed production, Plant and animal production, Zoology.

Prerequisites: Units 3 and 4: a study score of at least 25 in English (EAL) or 20 in English other than EAL.

Middle-band: Satisfactory completion in Biology, Chemistry, Maths: Mathematical Methods (CAS), Maths: Specialist Mathematics or Physics equals 1.5 aggregate points per study. Overall maximum of 3 points.

Selection Mode: CY12 : ATAR and middle-band.

- Bachelor of Archaeology: 3 years full time study

About the course: Want to explore the lifestyles and cultures of past communities? No other course in Australia offers a better grounding in the techniques and fundamental knowledge required for careers in archaeology and heritage preservation. Through a strong focus on theoretical and practical aspects of archaeology you'll experience extensive fieldwork, and professional training in archaeological and heritage management practices. You'll also get to work on a simulated archaeological site in the grounds of La Trobe's Melbourne Campus. We're known for our work in Indigenous archaeology and the archaeology of European settlement and society in Australia, and have close links with government heritage agencies and many other universities in Australia and overseas.

Domestic year 12 students only: with an ATAR of 80 or more will be guaranteed a place in this course.

Major studies: Archaeology.

Prerequisites: Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL.

Middle-band: A study score of 30 in one but no more than four of any Humanities, any LOTE, Legal Studies or Psychology equals 3 aggregate points per study. A study score of 40 in one but no more than one of any English equals 1 aggregate point per study. Overall maximum of 12 points.

Selection Mode: CY12: ATAR and middle-band.
NY12: Educational History including GPA, VTAC Personal Statement (Some), STAT (Some). See extra requirements for more information.
SEAS is considered.

Extra requirements:

VTAC Personal Statement (NY12-Some): Applicants who have no tertiary studies and have graduated secondary school more than 3 years ago should complete and submit a VTAC personal statement of at least 1000 characters explaining why they wish to study at La Trobe. This may include information such as work experience or reason for applying. Applicants may wish to provide other documentation in support of their application. Preference is given to applicants who submit the statement.

STAT (NY12-Some): Applicants who are 21 years or older, have not engaged in secondary or tertiary studies and want to be considered for mature age entry must sit the STAT multiple-choice test.

Arts (HE)

La Trobe University
Albury-Wodonga: 2100120101 (CSP) full-time/part-time Apply: Through VTAC main round

Bachelor of Arts: 3 years full time study

About the course: Today's graduates can expect to change careers up to 10 times over the course of their working life. Our Bachelor of Arts has been redesigned with this in mind. During your studies, you won't just learn to prepare for one career, you'll create new opportunities by developing skills in strong communication, flexible and innovative thinking, and the ability to analyse complex bodies of knowledge in order to build a career in a range of industries. This degree is an ideal choice if you want flexibility in your studies. With a choice of subject specialisations, some of which are ranked in the top 100 worldwide, you can tailor your degree to support your interests and career goals, whether you want to concentrate on a single subject area or combine a couple of areas. The integrated Work Ready program helps you get a head start on your career through additional subjects in career skills and extensive opportunities for voluntary work placements and internships.

Domestic year 12 students only: with an ATAR of 60 or more will be guaranteed a place in this course.

- Bachelor of Arts: 3 years full time study

Major studies: Community Development (Bendigo only), English (Albury Wodonga Bendigo Mildura Shepparton only), Graphic Design (Bendigo and Mildura only), History (Albury Wodonga and Bendigo only), Indonesian (Bendigo only), Psychology (Bendigo only), Sociology (Bendigo - Mildura - Shepparton only), Strategic Communication (Bendigo only), Sustainable Development (Bendigo only), Urban Rural and Environmental Planning (Bendigo only), Visual Arts (Bendigo and Mildura only).

Prerequisites: Units 3 and 4: a study score of at least 25 in English (EAL) or 20 in English other than EAL.
Middle-band: A study score of 25 in one but no more than four of Drama, any Humanities, any LOTE, Legal Studies, Psychology or Theatre Studies equals 3 aggregate points per study. A study score of 35 in one but no more than one of any English equals 1 aggregate point per study. Overall maximum of 12 points.

- Bachelor of Arts/Accounting: 4 years full time study

**About the course:** This double degree allows students to undertake complementary studies from humanities, social sciences and accounting. The professionally-accredited accounting component offers subjects from career-specific areas including financial and management accounting, auditing, finance, business law and taxation. The arts component allows students to pursue an area of intellectual interest, such as a language, politics, or the social context in which students may choose to practice as an accountant. Students must complete the compulsory and elective subjects required for each degree, including at least one arts major. This course is structured to meet the accreditation requirements of CPA Australia. To meet the accreditation requirements of the Institute of Chartered Accountants in Australia (ICAA), Taxation and Auditing must be completed. Graduates may also qualify for membership in National Institution of Public Accountants (IPA), and the Association of Chartered Certified Accountants (ACCA).
Major studies: Accounting, Anthropology, Archaeology, Asian studies, Chinese, Creative and Professional Writing, Creative Arts, English, French, History, Indonesian, Italian studies, Japanese, Journalism, Latin American studies, Media: Screen Sound, Modern Greek Studies, Philosophy, Politics, Sociology, Spanish, Strategic Communication, Theatre and Drama.

Prerequisites: Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL.

Middle-band: None

Selection Mode: CY12 : ATAR.

NY12 : Educational History including GPA, VTAC Personal Statement (All), STAT (Some), English language test (Some). See extra requirements for more information.

SEAS is considered.

Extra requirements:

VTAC Personal Statement (NY12-All) : Applicants must complete and submit a VTAC Personal Statement if they wish other information to be considered during the selection process. This may include information such as work experience or reason for applying. Applicants may wish to provide other documentation in support of their application.

STAT (NY12-Some) : Applicants applying for Mature-Age Special Entry must sit the STAT Multiple Choice.

English language test (NY12-Some) : Applicants who do not meet the English language requirement must achieve the required scores in the IELTS (Academic) or equivalent test.

(Minimum scores required for IELTS academic are Speaking=6.0, Writing=6.0, Reading=6.0, Listening=6.0, and Overall=6.0)

- Bachelor of Arts/Arts Education: 4 years full time study

About the course: This double degree allows you to complete an arts degree and a qualification for secondary teaching at the same time. You'll complete sequences in two separate arts disciplines which link to specific teaching methods (drama, English, TESOL, history, LOTE, media: Screen + Sound or Humanities) as part of your arts degree. You'll undertake teaching methods and theory subjects as well as practical teaching placements as part of your education studies beginning in the second year of the course.

Major studies: Anthropology, Archaeology, Asian studies, Chinese, Education, English, French, Greek studies, History, Indonesian, Italian studies, Japanese, Legal studies, Media: Screen Sound, Philosophy, Politics, Sociology, Spanish, Theatre and Drama.

Prerequisites: Units 1 and 2: satisfactory completion in two units (any study combination) of General Mathematics or Mathematical Methods; and Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL.

Middle-band: A study score of 30 in one but no more than four of Drama, any Humanities, any History, any LOTE, Legal Studies, Philosophy, Psychology or Theatre Studies equals 3 aggregate points per study. A study score of 40 in one but no more than one of any English equals 1 aggregate point per study. Overall maximum of 12 points.

Selection Mode: CY12 : ATAR and middle-band.

NY12 : Educational History including GPA, VTAC Personal Statement (Some), STAT (Some). See extra requirements for more information.
SEAS is considered.

Extra requirements:

VTAC Personal Statement (NY12-Some) : Applicants who have no tertiary studies and have graduated secondary school more than 3 years ago should complete and submit a VTAC personal statement of at least 1000 characters explaining why they wish to study at La Trobe. This may include information such as work experience or reason for applying. Applicants may wish to provide other documentation in support of their application. Preference is given to applicants who submit the statement.

STAT (NY12-Some) : Applicants who are 21 years or older, have not engaged in secondary or tertiary studies and want to be considered for mature age entry must sit the STAT multiple-choice test.

- Bachelor of Arts/Economics: 4 years full time study

**About the course:** This degree offers complementary studies from humanities, social sciences and economics, developing the knowledge and skills students need in order to analyse and solve business problems, and providing training in core areas of economics and their application to particular areas and policy issues. Students can design a course that suits their interests or enhances other studies. For example, they might combine business, economics or international trade and finance with an Asian language, politics or sociology. Economics specialisations include macroeconomics and microeconomics analysis and policy, business economics, international trade and finance, business models and forecasting, and resource and environmental economics. Students must complete compulsory and elective subjects required for each degree, including at least one major in an arts discipline.

**Prerequisites:** Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL; and a study score of at least 20 in any Mathematics.

**Middle-band:** Satisfactory completion in Economics equals 1 aggregate point.

**Selection Mode:** CY12 : ATAR and middle-band.

NY12 : Educational History including GPA, VTAC Personal Statement (All), STAT (Some), English language test (Some). See extra requirements for more information.

SEAS is considered.

**Extra requirements:**

VTAC Personal Statement (NY12-All) : Applicants must complete and submit a VTAC Personal Statement if they wish other information to be considered during the selection process. This may include information such as work experience or reason for applying. Applicants may wish to provide other documentation in support of their application.

STAT (NY12-Some) : Applicants described in the VTAC Admissions tests section must sit the STAT Multiple Choice test.
English language test (NY12-Some) : Applicants who do not meet the English language requirement must achieve the required scores in the IELTS (Academic) or equivalent test.

(Minimum scores required for IELTS academic are Speaking=6.0, Writing=6.0, Reading=6.0, Listening=6.0, and Overall=6.0)

- Bachelor of Arts/Health Sciences: 4 years full time study

**About the course:** La Trobe's Bachelor Arts/Health Sciences flexible course gives you the opportunity to develop a broad understanding of health science fields including human biosciences, rehabilitation counselling or public health domains and combines studies from humanities and social sciences. In first year you'll enrol in subjects with peers in the Faculty of Health Sciences. You'll focus on basic human biosciences and factors influencing health, and develop an understanding of the roles of health professionals in the health and welfare sectors. In the second year, you'll select a major from the following areas: Human Physiology and Anatomy; Public Health; Rehabilitation Counselling.

This course gives you the opportunity to develop a broad understanding of the field of health sciences including human biosciences or public health domains, combined with studies in humanities and social sciences. Possible subject combinations you can choose include: health promotion and gender studies, anthropology and public health, philosophy and the experience of health and illness, public health and Asian studies/languages, human biosciences and philosophy of science.

**Major studies:** Anthropology, Archaeology, Asian studies, Chinese, Creative and Professional Writing, Creative Arts, English, French, Greek studies, History, Human physiology and anatomy, Indonesian, International Development, International Relations, Italian studies, Japanese, Journalism, Legal studies, Media: Screen Sound, Philosophy, Politics, Public health, Rehabilitation counselling, Sociology, Spanish, Strategic Communication, Sustainable Development, Theatre and Drama.

**Prerequisites:** Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL; and a study score of at least 20 in one of Biology, Chemistry, any Mathematics, Physical Education or Physics.

**Middle-band:** A study score of 30 in one but no more than four of Drama, any History, any LOTE, Legal Studies, any Mathematics, Physical Education, any Science or Theatre Studies equals 3 aggregate points per study. A study score of 40 in any English equals 1 aggregate point per study. Overall maximum of 12 points.

**Selection Mode:** CY12: ATAR and middle-band.

NY12: Educational History including GPA, VTAC Personal Statement (Some), STAT (Some). See extra requirements for more information.

SEAS is considered.

**Extra requirements:**

VTAC Personal Statement (NY12-Some): Applicants who have no tertiary studies and have graduated secondary school more than 3 years ago should complete and submit a VTAC personal statement of at least 1000 characters explaining why they wish to study at La Trobe. This may include information such as work experience or reason for applying. Applicants may wish to provide other documentation in support of their application. Preference is given to applicants who submit the statement.

STAT (NY12-Some): Applicants who are 21 years or older, have not engaged in secondary or tertiary studies and want to be considered for mature age entry must sit the STAT multiple-choice test.
Bachelor of Arts/Science: 4 years full-time study

About the course: This four-year course allows students to pursue interests in both science and arts disciplines, with a wide range of options. The discipline areas from the Faculty of Science, Technology and Engineering and the Faculty of Humanities and Social Sciences, are divided equally, allowing students to follow two distinct major studies. Applicants should explore their options carefully as the potential study combinations are extensive, and they are advised to talk to University staff.

An Arts degree enables students to understand and contribute to the beauty, insights and values of humanity, from in-depth studies of languages to literature, history to philosophy and anthropology among many other areas.

Studying science allows students to develop the skills and knowledge required to become part of new solutions and to explore new territory. The extent of climate change; the best medicines to treat cancer; the most effective ways to protect endangered animals and many other challenges all require answers from science.

Major studies: Aboriginal studies, Anthropology, Archaeology, Art history, Asian languages, Asian studies, Australian studies, Biochemistry, Botany, Chemistry, Chinese, Cinema studies, Computer science, Creative writing, Drama, Electronics, English, Environmental science, European studies, French, Gender studies, Genetics, Hindi, History, Indonesian, International development, Italian studies, Japanese, Latin American studies, Legal studies, Linguistics, Mathematics, Media studies, Microbiology, Photojournalism, Physics, Psychology, Religious studies, Science, Sociology, Space science, Spanish, Theatre studies, Zoology.

Prerequisites: Units 3 and 4: a study score of at least 25 in English (EAL) or 20 in English other than EAL; and a study score of at least 20 in one of Maths: Mathematical Methods (CAS) or Maths: Specialist Mathematics.

Middle-band: Satisfactory completion in Chemistry, Maths: Specialist Mathematics or Physics equals 1.5 aggregate points per study. Overall maximum of 3 points.

Selection Mode: CY12: ATAR and middle-band.
NY12: Educational History including GPA, VTAC Personal Statement (Some), STAT (Some). See extra requirements for more information.
SEAS is considered.

Extra requirements:
VTAC Personal Statement (NY12-Some): Applicants must complete and submit a VTAC Personal statement if they wish other information to be considered during the selection process. This may include information such as work or community experience or reasons for applying. Applicants may wish to provide other documentation in support of their application.
STAT (NY12-Some): Applicants described in the VTAC 'Admissions Tests' section must sit the STAT Multiple Choice test.

- Bachelor of Biological Sciences (Advanced Science): 3 years full time study

**About the course:** Provides training in biology for those students wishing to pursue a career in biological research. Students are involved in specialised laboratory and field research under the supervision of leading researchers in all years of the course.

The first year includes introductory biology and chemistry. In later years, students choose two major areas of study from biochemistry, botany, genetics, microbiology, zoology, ecology, human biology or cell and molecular biology.

**Major studies:** Biochemistry, Biological sciences, Biology, Biotechnology, Botany, Cell biology, Chemistry, Ecological studies, Genetics, Human biology, Microbiology, Molecular biology, Physiology, Zoology.

**Prerequisites:** Minimum ATAR of 85.00. Units 3 and 4: a study score of at least 25 in English (EAL) or 20 in English other than EAL.

**Middle-band:** Satisfactory completion in Biology, Chemistry, Maths: Mathematical Methods (CAS), Maths: Specialist Mathematics or Physics equals 1.5 aggregate points per study. Overall maximum of 3 points.

**Selection Mode:** CY12 : ATAR and middle-band.

NY12 : Educational History including GPA, VTAC Personal Statement (Some), STAT (Some). See extra requirements for more information.

- Bachelor of Biomedical Science: 3 years full time study

**About the course:** Biomedical science is the study of health and disease and plays an important role in modern medical care. This course gives students a thorough understanding of human disorders and their underlying molecular basis. Students can gain skills in a range of biomedical techniques and the ability to understand, critically analyse and interpret scientific and biomedical data. They will learn how to read and research scientific publications and also develop written skills to convey scientific and biomedical information.
Graduates can find opportunities in medical research institutes, government and private sector laboratories, administration, education and postgraduate health professional programs.

**Major studies:** Anatomy, Biochemistry, Biomedical science, Biosciences, Genetics, Medical research, Medical science, Microbiology, Molecular and cell biology, Molecular and human genetics, Physiology.

**Prerequisites:** Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL; and a study score of at least 25 in Chemistry.

**Middle-band:** Satisfactory completion in Maths: Mathematical Methods (CAS), Maths: Specialist Mathematics or Physics equals 1.5 aggregate points per study. Overall maximum of 3 points.

**Selection Mode:** CY12 : ATAR and middle-band.

- Bachelor of Bioscience: 3 years full time study

**About the course:** This three year course is designed for students who want to pursue a career in the biological sciences. The course includes foundation studies in the first year which introduce students to a wide range of discipline areas in biology. In years two and three, students specialise in their areas of interest by choosing specialized biological majors or the broader multidisciplinary areas of ecology and molecular biology. This course is designed to be flexible, allowing students to specialise in several areas of biology, or combine biology with other science subjects. Students will have the opportunity to attend a full range of practical classes to support lectures, conduct laboratory-based experiments and participate in field trips to the La Trobe Wildlife Sanctuary (Melbourne campus) as well as remote locations across Victoria. Students can choose an optional Work-Ready Science program which includes career development workshops and subjects that can count towards their course.
Major studies: Animal and plant biology, Biochemistry, Biological Sciences, Biology, Biotechnology, Botany, Environmental Management, Genetics, Human Biology, Microbiology, Molecular Biology, Physiology, Zoology.

Prerequisites: Units 1 and 2: satisfactory completion in two units (any study combination) of Geography, Health And Human Development, Information Technology, any Mathematics, Physical Education or any Science or Units 3 and 4: a study score of at least 20 in one of Geography, Health And Human Development, any Information Technology, any Mathematics, Physical Education or any Science; and a study score of at least 25 in English (EAL) or 20 in English other than EAL.

Middle-band: Satisfactory completion in Maths: Mathematical Methods (CAS), Maths: Specialist Mathematics or Physics equals 1.5 aggregate points per study. Overall maximum of 3 points.

Selection Mode: CY12: ATAR and middle-band.
NY12: Educational History including GPA, VTAC Personal Statement (Some), STAT (Some). See extra requirements for more information.

Melbourne: 2100320003 (IFP) full-time Apply: Through VTAC main round
Bachelor of Business: 3 years full time study

About the course: This degree helps students to build the knowledge and skills necessary for a career in a wide range of areas within the private and public sectors. The program adopts a problem-focused approach that helps students to develop important problem-solving and decision-making skills relevant to any business. Graduates are prepared for careers in the management of large, medium and small businesses, in government and private sectors, both domestically and internationally. The first year framework comprises four business foundation subjects, two discipline-specific subjects and two elective subjects. The four business foundation subjects, offer students a broad introduction into the key disciplines and work-ready skills of business, while the two discipline specific subjects allow the student either to commence study towards their chosen major(s) or to further sample in greater depth a range of majors. The two elective subjects broaden the student's learning experience by offering them the opportunity to study subjects chosen from across the Faculty and the University.

Second and third year are defined by the student's choice of major(s) and minor(s) or elective subjects. Twelve of the second and third year subjects must be chosen from amongst the Faculty disciplines and four may either be chosen from within the Faculty of from other faculties of the University. The structure allows a student to study overseas for one semester, or to complete a language via enrolment in a language subject in each semester of their degree program.

Prerequisites: Units 3 and 4: a study score of at least 25 in English (EAL) or 20 in English other than EAL.

Middle-band: Satisfactory completion in Accounting, Business Management or Economics equals 1 aggregate point per study. Satisfactory completion in any Business or any unscored VET Business is considered. Overall maximum of 2 points.

Selection Mode: CY12 : ATAR and middle-band.

NY12 : Educational History including GPA, VTAC Personal Statement (All), STAT (Some), English language test (Some). See extra requirements for more information.

SEAS is considered.

Extra requirements:

VTAC Personal Statement (NY12-All) : Applicants must complete and submit a VTAC Personal Statement if they wish other information to be considered during the selection process. This may include information such as work experience or reason for applying. Applicants may wish to provide other documentation in support of their application.

STAT (NY12-Some) : Applicants described in the VTAC Admissions tests section must sit the STAT Multiple Choice test.

English language test (NY12-Some) : Applicants who do not meet the English language requirement must achieve
the required scores in the IELTS (Academic) or equivalent test.  
(Minimum scores required for IELTS academic are Speaking=6.0, Writing=6.0, Reading=6.0, Listening=6.0, and Overall=6.0)

- Bachelor of Business (Sport Development and Management): 3 years full time study

**About the course:** The first year framework comprises four business foundation subjects, two discipline-specific subjects and two elective subjects. The four business foundation subjects, offer students a broad introduction into the key disciplines and work-ready skills of business. The two discipline-specific subjects introduce students to the principles of sport management and marketing, while the two elective subjects broaden the student's learning experience by offering them the opportunity to study subjects chosen from across the Faculty and the University.

Commencing with the two discipline-specific subjects in first year, students complete thirteen core subjects, which define the major. The degree includes two second and third year faculty elective subjects, drawn from any discipline of the Faculty, including economics, finance, law, management and marketing, and two elective subjects, which may be drawn from any faculty of the University. This allows students the opportunity to specialise in three additional streams, Public Health, Physical and Outdoor Education and Management. A special feature is the program's dedicated, year long, work place subject which is compulsory during the final year.

**Major studies:** Sport Development and Management.

**Prerequisites:** Units 3 and 4: a study score of at least 25 in English (EAL) or 20 in English other than EAL.

**Middle-band:** Satisfactory completion in any Business, any LOTE or any Mathematics is considered.

**Selection Mode:** CY12 : ATAR and middle-band.
NY12 : Educational History including GPA, VTAC Personal Statement (All), STAT (Some), English language test (Some). See extra requirements for more information.

- Bachelor of Business/Information Technology: 4 years full time study

**About the course:** Combines a degree in Business specialising in economics, marketing or management, with a degree in Information Technology. The Information Technology degree also features an optional industry-based scholarship component.

**Major studies:** Business (management), Computer applications, Computer networks, Database programming, Database systems, Economics, Finance, Human resource management, Industrial collaboration and experience,
Information systems, Information systems management, Marketing, Object-oriented development, Web development.

**Prerequisites:** Units 3 and 4: a study score of at least 25 in English (EAL) or 20 in English other than EAL.

**Middle-band:** Satisfactory completion in any Business equals 1.5 aggregate points per study. Overall maximum of 1.5 points.

**Selection Mode:** CY12 : ATAR and middle-band.
NY12 : Educational History including GPA, VTAC Personal Statement (Some), STAT (Some). See extra requirements for more information.
SEAS is considered.

**Extra requirements:**
VTAC Personal Statement (NY12-Some) : Applicants must complete and submit a VTAC Personal statement if they wish other information to be considered during the selection process. This may include information such as work or community experience or reasons for applying. Applicants may wish to provide other documentation in support of their application.
STAT (NY12-Some) : Applicants described in the VTAC 'Admissions Tests' section must sit the STAT Multiple Choice test.

- Bachelor Degree (Honours) in Civil Engineering (Honours): 4 years full time study

**About the course:** This course continues a 100 year old tradition of professional engineering in Bendigo, and provides professional education, practical experience and the option of combining with either science or business courses. Students study civil engineering analysis, design, management and practice. They can also choose from either twenty weeks or one year of paid industry-based learning. This course is accredited by Engineers Australia.

**Major studies:** Building (construction methods), Building (design), Building (technology), Construction, Construction management, Engineering, Engineering (civil), Environmental engineering management, Hydraulics and hydrology, Sustainability.

**Prerequisites:** Units 3 and 4: a study score of at least 25 in English (EAL) or 20 in English other than EAL; and a study score of at least 20 in Maths: Mathematical Methods (CAS); and a study score of at least 20 in each of Maths: Specialist Mathematics and Physics.

**Middle-band:** Satisfactory completion in two but no more than two of Maths: Specialist Mathematics and Physics equals 1.5 aggregate points per study. Overall maximum of 3 points.

**Selection Mode:** CY12 : ATAR and middle-band.
NY12 : Educational History including GPA, VTAC Personal Statement (Some), STAT (Some). See extra requirements for more information.
SEAS is considered.

- Bachelor Degree (Honours) in Civil Engineering (Honours)/Business: 5 years full time study

**About the course:** This double degree combines the strengths of civil engineering with specialised studies in recognised business disciplines. The course aims to produce multi-skilled graduates capable to meet educational entry requirements of appropriate professional associations in engineering and business. Students can also choose from either twenty weeks or one year of paid industry-based learning.

**Major studies:** Building (construction methods), Building (design), Building (technology), Business, Construction, Construction management, Economics, Engineering, Engineering (civil), Environmental engineering management, Human resource management, Hydraulics and hydrology, Sustainability.

**Prerequisites:** Units 3 and 4: a study score of at least 25 in English (EAL) or 20 in English other than EAL; and a study score of at least 20 in Maths: Mathematical Methods (CAS); and a study score of at least 20 in one of Maths: Specialist Mathematics or Physics.

**Middle-band:** Satisfactory completion in two but no more than two of Maths: Specialist Mathematics and Physics is considered. Satisfactory completion in any Business equals 1.5 aggregate points per study. Overall maximum of 3 points.

**Selection Mode:** CY12: ATAR and middle-band.

NY12: Educational History including GPA, VTAC Personal Statement (Some), STAT (Some). See extra requirements for more information.

SEAS is considered.

**Extra requirements:**

VTAC Personal Statement (NY12-Some): Applicants must complete and submit a VTAC Personal statement if they wish other information to be considered during the selection process. This may include information such as work or community experience or reasons for applying. Applicants may wish to provide other documentation in support of their application.

STAT (NY12-Some): Applicants described in the VTAC 'Admissions Tests' section must sit the STAT Multiple Choice test.

**Civil Engineering (Honours)/Science (HE)**

**La Trobe University**

[Participating institution](http://www.wss8.vtac.edu.au/courses-inst/institutions/topdf/latrobe.html)
Bachelor Degree (Honours) in Civil Engineering (Honours)/Science: 5 years full time study

About the course: This course aims to make available, especially to residents of central and northern Victoria, a qualification combining the strengths of civil engineering and science. This program provides professional education and practical experience – aiming to produce multi-skilled graduates, capable of applying their knowledge and abilities to the analysis and solution of issues concerning civil engineering and science. Students can also choose from either twenty weeks or one year of paid industry-based learning.

Major studies: Biomedical science, Biotechnology, Building (construction methods), Building (design), Building (technology), Chemistry, Construction, Construction management, Engineering, Engineering (civil), Environmental engineering management, Hydraulics and hydrology, Information technology, Mathematics/statistics, Psychology, Science, Sustainability.

Prerequisites: Units 3 and 4: a study score of at least 25 in English (EAL) or 20 in English other than EAL; and a study score of at least 20 in Maths: Mathematical Methods (CAS); and a study score of at least 20 in one of Maths: Specialist Mathematics or Physics.

Middle-band: Satisfactory completion in two but no more than two of Maths: Specialist Mathematics and Physics equals 1.5 aggregate points per study. Overall maximum of 3 points.

Selection Mode: CY12 : ATAR and middle-band.
NY12 : Educational History including GPA, VTAC Personal Statement (Some), STAT (Some). See extra requirements for more information.
SEAS is considered.

Extra requirements:
VTAC Personal Statement (NY12-Some) : Applicants must complete and submit a VTAC Personal statement if they wish other information to be considered during the selection process. This may include information such as work or community experience or reasons for applying. Applicants may wish to provide other documentation in support of their application.
STAT (NY12-Some) : Applicants described in the VTAC 'Admissions Tests' section must sit the STAT Multiple Choice test.

Master of Clinical Prosthetics and Orthotics: 2 years full time study

About the course: The Master of Clinical Prosthetics and Orthotics is a two-year, full time program that will enable the students with a relevant first degree to obtain a professional qualification in prosthetics and orthotics. Prosthetics and orthotics is the clinical discipline related to the provision of prostheses (artificial limbs) to people with amputations or orthoses (supportive devices) to people with musculoskeletal weakness or neurological disorders. The responsibilities of the prosthetist-orthotist include: assessment of the client, the design, fabrication, fitting and alignment of prostheses and orthoses, and the monitoring and review of the devices used by their clients. The prosthetist-orthotist is an integral member of the health care team with a clinical, technical, advisory and educational role. The prosthetist-orthotist aims to maximise the function and comfort of the client by providing the most appropriate prosthetic or orthotic treatment. Students complete 240 credit points over 2 years of full time study. During the first year, students will expand on their theoretical knowledge of anatomy, physiology, biomechanics, and prosthetic and orthotic practice. This is enhanced by strong practical skills in research methodology, clinical assessment, and the application of prosthetic and orthotic techniques. In second year, students will be able to apply their knowledge and practical skills to the management of disorders across the life span using care based learning techniques. Clinical activities include working with volunteer patients, and placements at prosthetic and orthotic facilities in the final year. Deferral is not available for this course.

Major studies: Prosthetics and Orthotics.

Prerequisites: Bachelor Degree normally completed within the last 7 years, in a relevant field of study.

Middle-band: None

Selection Mode: NY12 : Educational History including GPA, VTAC Personal Statement (All), Bridging studies. See extra requirements for more information.

SEAS is considered.

Extra requirements:
VTAC Personal Statement (NY12-All) : All applicants must complete a VTAC Personal Statement.

Students may be required to undertake bridging studies (short 'summer' course of one week duration prior to the start of semester 1), depending on the content of their previous degree. See our website for current information: www.latrobe.edu.au/health

- Bachelor of Computer Science: 3 years full time study

About the course: A specialised computer science degree offering a comprehensive range of subjects in computer software analysis and design, databases, artificial intelligence, computer architecture, networks, multi-media systems and games technology. This course produces highly-skilled graduates who are able to design, implement, and maintain complex software systems; develop effective solutions to problems in areas such as data storage, computer networks, and computer security; and readily adapt to new technologies and new ideas.
In third year students undertake a software engineering project. The course provides the opportunity for an industry based learning (IBL program) involving supervised work experience.

**Major studies:** Algorithms and data structures, Artificial intelligence, Computer architecture, Computer programming, Database programming, Databases, Industrial collaboration and experience, Multimedia systems, Network security, Networks, Operating systems, Software engineering, Wireless technologies.

**Prerequisites:** Units 3 and 4: a study score of at least 25 in English (EAL) or 20 in English other than EAL; and a study score of at least 20 in one of Maths: Mathematical Methods (CAS) or Maths: Specialist Mathematics.

**Middle-band:** Satisfactory completion in Maths: Specialist Mathematics equals 1.5 aggregate points.

**Selection Mode:** CY12 : ATAR and middle-band. NY12 : Educational History including GPA, VTAC Personal Statement (Some), STAT (Some). See extra requirements for more information. SEAS is considered.

**Extra requirements:**

VTAC Personal Statement (NY12- Some) : Applicants must complete and submit a VTAC Personal statement if they wish other information to be considered during the selection process. This may include information such as work or community experience or reasons for applying. Applicants may wish to provide other documentation in support of their application.

STAT (NY12-Some) : Applicants described in the VTAC 'Admissions Tests' section must sit the STAT Multiple Choice test.

**Melbourne:2100321233 (IFP) full-time**

- Bachelor Degree (Honours) in Computer Science (Honours)/Electronic Engineering (Honours): 5 years full time study

**About the course:** Provides a sound base in both hardware and software aspects of computer systems combined with advanced training in electronic engineering.

In the first three years, students undertake core units in computer science, mathematics, electronics and physics. Honours work in computer science is undertaken over the final two years. Students complete a computer science project in fourth year and an engineering project in fifth year. Progression to the honours year in Computer Science is dependent on satisfactory performance in the first three years. Practical experience: twelve weeks approved work experience is an integral part of the program.

**Major studies:** Algorithms and data structures, Computer and network security, Computer hardware, Computer science, Databases (advanced programming), Digital and analogue electronics, Digital and microprocessor systems, Electronics, Engineering, Engineering (biomedical), Engineering (communication), Engineering (electronics), Engineering (optical), Java and C++ software development, Microprocessor control systems, Mobile communications, Network applications, Networks and data communications, Telecommunications, Wireless technologies.

**Prerequisites:** Units 3 and 4: a study score of at least 25 in English (EAL) or 20 in English other than EAL; and a study score of at least 25 in Maths: Mathematical Methods (CAS) or 20 in Maths: Specialist Mathematics.
Middle-band: Satisfactory completion in Maths: Specialist Mathematics or Physics equals 1.5 aggregate points per study. Overall maximum of 3 points.

Selection Mode: CY12 : ATAR and middle-band.
NY12 : Educational History including GPA, VTAC Personal Statement (Some), STAT (Some). See extra requirements for more information.
SEAS is considered.

Extra requirements:
VTAC Personal Statement (NY12- Some) : Applicants must complete and submit a VTAC Personal statement if they wish other information to be considered during the selection process. This may include information such as work or community experience or reasons for applying. Applicants may wish to provide other documentation in support of their application.
STAT (NY12-Some) : Applicants described in the VTAC 'Admissions Tests' section must sit the STAT Multiple Choice test.

- Bachelor of Computer Science in Games Technology: 3 years full time study

About the course: This course provides theoretical and practical training in the design and development of computer games, and equips graduates for a career as a computing professional in the vibrant and rapidly transforming computer games industry. Graduates possess exceptionally highly-developed programming skills; a sound theoretical basis in game design; specialist knowledge and skills in areas such as graphics, artificial intelligence, software development, multimedia programming, and operating systems; and a solid grounding in the physics and mathematics necessary for producing increasingly realistic computer games.

Students undertake a major industry-sponsored games technology project during third year.

Major studies: Algorithms and data structures, Computer animation, Computer graphics, Digital animation (games), Games development, Games programming, Games technology, Object-oriented programming, Operating systems, Professional practice, Systems and software engineering.

Prerequisites: Units 3 and 4: a study score of at least 25 in English (EAL) or 20 in English other than EAL; and a study score of at least 20 in one of Maths: Mathematical Methods (CAS) or Maths: Specialist Mathematics.

Middle-band: Satisfactory completion in Maths: Specialist Mathematics equals 1.5 aggregate points.

Selection Mode: CY12 : ATAR and middle-band.
NY12 : Educational History including GPA, VTAC Personal Statement (Some), STAT (Some). See extra requirements for more information.
SEAS is considered.

Extra requirements:
VTAC Personal Statement (NY12-Some) : Applicants must complete and submit a VTAC Personal statement if they wish other information to be considered during the selection process. This may include information such as work or community experience or reasons for applying. Applicants may wish to provide other documentation in support of their application.
STAT (NY12-Some) : Applicants described in the VTAC 'Admissions Tests' section must sit the STAT Multiple Choice test.

Melbourne: 2100321413 (IFP) full-time  
Apply: Through VTAC  
main round

- Bachelor of Computer Science/Accounting: 4 years full time study

**About the course:** Provides training in computer science and accountancy, leading to professional qualifications in both areas. The curriculum fulfills the requirements for membership in CPA Australia and the Institute of Chartered Accountants.

Core units in computer science, accounting, mathematics, economics and legal studies are undertaken in the first three years. In fourth year, students combine a software engineering project with business electives. The workload is equivalent to twelve-and-a-half percent per year more than that required in either single degree. Electives constitute approximately thirty percent of the final two years.

**Major studies:** Accounting, Algorithms and data structures, Artificial intelligence, Communication systems, Computer architecture, Computer networks, Computer programming, Computer science, Data communications, Electronic commerce, Finance, Games technology, Information systems, Internet technology, Java and C++ software development, Management information systems, Multimedia systems, Network engineering, Object-oriented programming, Software engineering, Taxation and auditing.

**Prerequisites:** Units 3 and 4: a study score of at least 25 in English (EAL) or 20 in English other than EAL; and a study score of at least 25 in Maths: Mathematical Methods (CAS) or 20 in Maths: Specialist Mathematics.

**Middle-band:** Satisfactory completion in two but no more than two of Maths: Mathematical Methods (CAS) and Maths: Specialist Mathematics equals 1.5 aggregate points per study. Overall maximum of 3 points.

**Selection Mode:** CY12 : ATAR and middle-band.

NY12 : Educational History including GPA, VTAC Personal Statement (All), STAT (Some). See extra requirements for more information.

SEAS is considered.

**Extra requirements:**

VTAC Personal Statement (NY12-All) : Applicants must complete and submit a VTAC Personal statement if they wish other information to be considered during the selection process. This may include information such as work or community experience or reasons for applying. Applicants may wish to provide other documentation in support of their application.

STAT (NY12-Some) : Applicants described in the VTAC 'Admissions Tests' section must sit the STAT Multiple Choice test.

### Computer Systems Engineering (Honours) (HE)

**La Trobe University**

Melbourne: 2100321251 (CSP) full-time/part-time  
Apply: Through VTAC  
main round

About the course: This course trains specialist who can provide a totally integrated solution for the design, installation and operation of complex computer systems. Allowing students to study computer systems engineering, or choose streams in network engineering or software engineering. The course equips students with strong technical skills, but also places an emphasis on practical and transferable skills, such as presentation and communications skills, management techniques and entrepreneurship.

The course includes twelve weeks of approved work experience, and also provides the opportunity for further work experience under the industry based learning (IBL) program.

Major studies: Algorithms and data structures, Computer and network security, Computer engineering, Databases (advanced programming), Engineering, Engineering (computer systems), Engineering (software systems), Industrial collaboration and experience, Java and C++ software development, Mobile communications, Mobile computing, Network engineering, Network security, Networks and data communications, Project management, Software engineering, Software systems, Systems design and development, Usability and project management, Wireless technologies.

Prerequisites: Units 3 and 4: a study score of at least 25 in English (EAL) or 20 in English other than EAL; and a study score of at least 20 in one of Maths: Mathematical Methods (CAS) or Maths: Specialist Mathematics.

Middle-band: Satisfactory completion in Maths: Specialist Mathematics or Physics equals 1.5 aggregate points per study. Overall maximum of 3 points.

Selection Mode: CY12 : ATAR and middle-band.
NY12 : Educational History including GPA, VTAC Personal Statement (Some), STAT (Some). See extra requirements for more information.
SEAS is considered.

Extra requirements:
VTAC Personal Statement (NY12-Some) : Applicants must complete and submit a VTAC Personal statement if they wish other information to be considered during the selection process. This may include information such as work or community experience or reasons for applying. Applicants may wish to provide other documentation in support of their application.
STAT (NY12-Some) : Applicants described in the VTAC 'Admissions Tests' section must sit the STAT Multiple Choice test.
About the course: Careers in theatre, media and creative writing don't just happen. They demand extensive study that meshes theoretical knowledge, critical thinking and creative practice. If you're passionate about art, performance, media, creative writing or teaching, this course can give you a solid start in the creative arts, offering a breadth of subject choices that sets it apart. Alongside a multi-disciplinary set of core subjects, we offer a flexible curriculum that allows you to study in the individual areas of writing, theatre and performance, and media arts and production - or a combination of subjects from these different areas. You'll have access to outstanding media production and visual arts facilities, theatres and rehearsal spaces to explore how the creative arts are formed and re-figured by cultural and technological developments.

Domestic year 12 students only: with an ATAR of 75 or more will be guaranteed a place in this course.

Major studies: Creative arts.

Prerequisites: Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL.

Middle-band: A study score of 30 in one but no more than three of Drama, any Humanities, any LOTE, Legal Studies, Psychology or Theatre Studies equals 3 aggregate points per study. A study score of 40 in one but no more than one of Drama, any English, Media or Theatre Studies equals 1 aggregate point per study. Overall maximum of 12 points.

Selection Mode: CY12 : ATAR and middle-band.
NY12 : Educational History including GPA, VTAC Personal Statement (Some), STAT (Some). See extra requirements for more information.
SEAS is considered.

Extra requirements:
VTAC Personal Statement (NY12-Some) : Applicants who have no tertiary studies and have graduated secondary school more than 3 years ago should complete and submit a VTAC personal statement of at least 1000 characters explaining why they wish to study at La Trobe. This may include information such as work experience or reason for applying. Applicants may wish to provide other documentation in support of their application. Preference is given to applicants who submit the statement.

STAT (NY12-Some) : Applicants who are 21 years or older, have not engaged in secondary or tertiary studies and want to be considered for mature age entry must sit the STAT multiple-choice test.

- Bachelor of Early Childhood Education: 4 years full time study

About the course: Prepares you for a career as a pre-school teacher, Primary teacher and childcare professional. You may choose specialist studies that will enable you to teach to year 6 in primary schools or in Special Education and Early Intervention focusing on children 0-8 years. You complete 100 days of practical experience in pre-school settings, childcare centres, primary schools and special education settings (according to your area of specialisation) and gain teaching experience in each of the four years of the course.

Applicants with a Diploma of Children's Services gain accelerated entry to a reduced program.

Major studies: Childhood development, Curriculum studies, Early childhood education, Early childhood studies, Education, Inclusive education, Special education, Teaching (early childhood), Teaching (primary).
**Prerequisites:** Units 1 and 2: satisfactory completion in two units (any study combination) of General Mathematics or Mathematical Methods or Units 3 and 4: any Mathematics; and a study score of at least 30 in English (EAL) or 25 in English other than EAL.

**Middle-band:** None

**Selection Mode:** CY12: ATAR, VTAC Personal Statement (Some). See extra requirements for more information.
NY12: Educational History including GPA, VTAC Personal Statement (Some), STAT (Some). See extra requirements for more information.
SEAS is considered.

**Extra requirements:**
VTAC Personal Statement (CY12-Some, NY12-Some): Applicants must complete and submit a VTAC Personal statement if they wish other information to be considered during the selection process. This may include information such as work or community experience or reasons for applying. Applicants may wish to provide other documentation in support of their application.
STAT (NY12-Some): Some applicants as described in the Admissions Test Section must sit STAT Multiple Choice.
SUCCESSFUL APPLICANTS - WWC Check: Students must complete a Working With Children Check form prior to commencing the course. Students must hold a valid Working With Children card prior to undertaking teaching placements.

- Bachelor of Economics: 3 years full time study

**About the course:** This course aims to give students a thorough grounding in economic theory while developing skills in quantitative analysis and logical thought, giving graduates the tools needed to analyse and solve business problems. Content covers microeconomics (the study of households, firms and markets), macroeconomics (the study of growth, unemployment and inflation) and economic history, as well as the application of economics to policy issues. Specialisations are available in: business economics, international trade and finance, macroeconomic analysis and policy, microeconomics analysis and policy, and resource and environmental economics.

**Prerequisites:** Units 3 and 4: a study score of at least 25 in English (EAL) or 20 in English other than EAL; and a study score of at least 20 in any Mathematics.

**Middle-band:** Satisfactory completion in Economics equals 1 aggregate point.

**Selection Mode:** CY12: ATAR and middle-band.
NY12: Educational History including GPA, VTAC Personal Statement (All), STAT (Some), English language test (Some). See extra requirements for more information.
SEAS is considered.
Extra requirements:

VTAC Personal Statement (NY12-All) : Applicants must complete and submit a VTAC Personal Statement if they wish other information to be considered during the selection process. This may include information such as work experience or reason for applying. Applicants may wish to provide other documentation in support of their application.

STAT (NY12-Some) : Applicants described in the VTAC Admissions tests section must sit the STAT Multiple Choice test.

English language test (NY12-Some) : Applicants who do not meet the English language requirement must achieve the required scores in the IELTS (Academic) or equivalent test.

(Minimum scores required for IELTS academic are Speaking=6.0, Writing=6.0, Reading=6.0, Listening=6.0, and Overall=6.0)

- Bachelor of Education: 4 years full time study

About the course: Prepares you for a career in primary and secondary teaching in Australia or overseas. The course consists of core professional studies in education and the key curriculum areas along with elective and discipline studies. At Bendigo campus you may undertake specialist studies that will enable you to teach in Primary, in Primary and Secondary, or in Primary and Special Education settings. At Mildura campus you specialise in Primary teaching. You gain a minimum of 80 days teaching experience across the four years of the course.

Major studies: Curriculum studies, Education, Inclusive education, LOTE, Physical education, Special education, Teaching (primary), Teaching (secondary).

Prerequisites: Units 1 and 2: satisfactory completion in two units (any study combination) of General Mathematics or Mathematical Methods or Units 3 and 4: any Mathematics; and a study score of at least 30 in English (EAL) or 25 in English other than EAL.

Middle-band: A study score of 20 in any LOTE equals 3 aggregate points per study. Overall maximum of 3 points.

Selection Mode: CY12 : ATAR and middle-band, VTAC Personal Statement (Some). See extra requirements for more information.

NY12 : Educational History including GPA, VTAC Personal Statement (Some), STAT (Some). See extra requirements for more information.

SEAS is considered.

Extra requirements:

VTAC Personal Statement (CY12-Some, NY12-Some) : Applicants must complete and submit a VTAC Personal
statement if they wish other information to be considered during the selection process. This may include information such as work or community experience or reasons for applying. Applicants may wish to provide other documentation in support of their application.

STAT (NY12-Some): Some applicants as described in the Admissions Test Section must sit STAT Multiple Choice.
SUCCESSFUL APPLICANTS: WWC Check - Students must complete a Working With Children Check form prior to commencing the course. Students must hold a valid Working With Children card prior to undertaking teaching placements.

**Education (Middle Years) (GET)**

**La Trobe University**

Shepparton: 2100593421 (CSP) full-time  
*Apply:* Through VTAC main round

Shepparton: 2100593422 (DFP) full-time  
*Apply:* Through VTAC main round

- Graduate Diploma of Education (Middle Years): 1 year full time study

**About the course:** This course prepares you for a teaching career specialising in the Middle Years (Years 5 to 10). You gain practical and intellectually rigorous teacher education delivered through five weeks of face to face classes in three blocks and supported by online distance learning throughout the year. On completion you will be qualified to teach in primary and secondary schools but will be a specialist in the middle years. The course includes theoretical studies in teaching, learning and classroom management, and methodology studies in curriculum areas relevant to primary and lower to middle years of secondary schooling. You will also focus on teaching and learning approaches for the needs of adolescents and disengaged youth. You gain 45 days of supervised teaching experience plus 20 days observation in schools.

Deferment is not available.

**Single teaching areas**

- 115: Accounting
- 172: Biology
- 112: Business Management
- 173: Chemistry
- 113: Commerce and Business Studies
- 102: Dance
- 103: Drama
- 114: Economics
- 121: English
- 177: Environmental Science
- 199: General
- 132: Geography
- 162: Health
- 133: History
- 192: Home Economics
- 134: Humanities
- 130: Humanities (Additional)
- 174: Information Technology/Computing
- 141: Languages Other Than English (LOTE)
- 116: Legal Studies
- 178: Mathematics
- 135: Media Studies
- 105: Music
- 163: Outdoor Education
- 164: Physical Education
- 181: Physics
- 165: Psychology
- 182: Science
- 184: Science (Additional)
- 118: Technology
- 107: Visual Arts

**Double teaching areas**
Languages Other Than English (LOTE)

Mathematics

Visual Arts

Notes

1: Select two single methods or one double method. If you are eligible for only one secondary method, select generic method 199 as your second method.

Prerequisites: Bachelor Degree with major or sub-major sequences in discipline studies relevant to the post-Primary curriculum.

Middle-band: None

Selection Mode: NY12: Educational History including GPA, Supplementary form (Some), English language test (Some). See extra requirements for more information.

Extra requirements:

Supplementary form (NY12-Some): To apply for LOTE teaching method you must contact the course administrator at education.sh@latrobe.edu.au or (03) 5820 8633 to obtain an additional form and further information. The completed form must be returned to the LOTE Coordinator, Education Course Administration Office, La Trobe University, Victoria 3086 by 6 December, as you need to provide evidence of your LOTE qualification to be selected into this method.

English language test (NY12-Some): Applicants who do not meet the English language requirement must achieve the required scores in the IELTS (Academic) test.

(Minimum scores required for IELTS academic are Speaking=8.0, Writing=7.0, Reading=7.0, Listening=8.0, and Overall=7.5)

SUCCESSFUL APPLICANTS: WWC Check - Students must complete a Working With Children Check form prior to commencing the course. Students must hold a valid Working With Children card prior to undertaking teaching placements.

- Bachelor Degree (Honours) in Electronic Engineering (Honours): 4 years full time study

**About the course:** Provides accredited engineering training in the specialist fields of biomedical, communication, electronic systems and optical engineering.

The first two years comprise core studies in electronics, mathematics, physics, programming and engineering management. Students specialise in their engineering stream in the final two years of the course, and complete a major engineering project in the fourth year. Practical experience: twelve weeks of approved work experience is an integral part of the program.

**Major studies:** Digital and analogue electronics, Digital and microprocessor systems, Digital electronics, Digital signal processing, Digital systems, Electronic systems, Electronics, Engineering, Engineering (biomedical), Engineering (communication), Engineering (electronics), Engineering (optical), Industrial collaboration and experience, Microcomputers, Microprocessor control systems, Microprocessors, Mobile communications, Signal processing, Telecommunications, Wireless technologies.

**Prerequisites:** Units 3 and 4: a study score of at least 25 in English (EAL) or 20 in English other than EAL; and a study score of at least 20 in one of Maths: Mathematical Methods (CAS) or Maths: Specialist Mathematics.

**Middle-band:** Satisfactory completion in Maths: Specialist Mathematics or Physics equals 1.5 aggregate points per study. Overall maximum of 3 points.

**Selection Mode:** CY12 : ATAR and middle-band.

NY12 : Educational History including GPA, VTAC Personal Statement (Some), STAT (Some). See extra requirements for more information.

SEAS is considered.

**Extra requirements:**

VTAC Personal Statement (NY12-Some) : Applicants must complete and submit a VTAC Personal statement if they wish other information to be considered during the selection process. This may include information such as work or community experience or reasons for applying. Applicants may wish to provide other documentation in support of their application.

STAT (NY12-Some) : Applicants described in the VTAC 'Admissions' Tests section must sit the STAT Multiple Choice test.

Bachelor of Business (Event Management): 3 years full time study

About the course: This degree is designed to produce future leaders for the special events sector. It emphasises the application of theoretical knowledge and practical skills needed for the effective management of events. It provides students with many career options by combining a solid business degree - encompassing areas such as accounting, marketing, business law, entrepreneurship and economics - with specialised professional studies related to the management and delivery of special events such as project management, arts and community festivals, meetings, conferences and tradeshows as well as the opportunity to plan, deliver and evaluate student lead events. Industry/community participation is actively encouraged.

Major studies: Event Management.

Prerequisites: Units 3 and 4: a study score of at least 25 in English (EAL) or 20 in English other than EAL.
**Middle-band:** Satisfactory completion in Business Management equals 1 aggregate point.

**Selection Mode:** CY12 : ATAR and middle-band.

NY12 : Educational History including GPA, VTAC Personal Statement (All), STAT (Some), English language test (Some). See extra requirements for more information.

SEAS is considered.

**Extra requirements:**

- Bachelor of Business (Event Management/Marketing): 3 years full time study

**About the course:** This degree combines marketing fundamentals with a much sought after background in event management. Students graduate with a solid degree of business essentials such as accounting, marketing, business law, tourism and project management, entrepreneurship and economics. The specialised areas of the course ensure students develop competencies and skills in marketing, advertising, brand and product management coupled with the conceptual and practical skills necessary for effective management of events.

First year comprises four business foundation subjects, three discipline-specific subjects and one elective subject, with a second elective subject in the second year of the degree. The four business foundation subjects offer students a broad introduction into the key disciplines and work-ready skills of business while the three discipline-specific subjects introduce students to the principles of marketing and event management. The two elective subjects in first and second year broaden the student's learning experience by offering them the opportunity to study subjects chosen from across the Faculty and the University.

Commencing with three discipline specific subjects in first year, students complete seventeen core subjects. The degree includes one open elective subject in third year, which may be drawn from any faculty of the University.

**Major studies:** Business, Event management, Marketing.

**Prerequisites:** Units 3 and 4: a study score of at least 25 in English (EAL) or 20 in English other than EAL.

**Middle-band:** Satisfactory completion in Business Management equals 1 aggregate point.
Selection Mode: CY12 : ATAR and middle-band.

- Bachelor of Business (Event Management/Tourism Management): 3 years full time study

About the course: The Bachelor of Business (Event Management/Tourism Management) is grounded in business studies, but specifically designed for future leaders in careers where events and tourism management intersect. The distinguishing feature of this course is the blend of theory and practical work where students are offered the opportunity to plan, stage and evaluate an event within a tourism context. Also, a triple-bottom line approach is adopted where economic, social and environmental impacts of events and tourism are examined.

Major studies: Business, Event management, Tourism management.

Prerequisites: Units 3 and 4: a study score of at least 25 in English (EAL) or 20 in English other than EAL.

Middle-band: Satisfactory completion in Business Management equals 1 aggregate point.

Selection Mode: CY12 : ATAR and middle-band.
NY12 : Educational History including GPA, VTAC Personal Statement (All), STAT (Some), English language test (Some). See extra requirements for more information.
SEAS is considered.

Extra requirements:

- Bachelor of Exercise Science: 3 years full time study

**About the course:** This course explores the principles of human movement in the context of physical activity, sport, exercise and health. You will apply an understanding of key biological, social and health sciences with core knowledge in motor control, behavioural psychology, exercise physiology, function anatomy and biomechanics to relevant applications in health-related exercise, recreational activity and elite sports.

In addition to gaining transferable core graduate attributes, you will develop practical skills and work-related experience in preparation for employment as an exercise scientist. After completing this course, graduates will be eligible to apply for the Master of Exercise Physiology from 2015.

Graduates can apply for accreditation with Exercise and Sports Science Australia as an Exercise Scientist. Exercise Scientists work in prevention, corporate health and wellness, community health, and sporting environments developing and monitoring exercise programs for low-risk clientele.

**Major studies:** Health sciences, Human movement, Human physiology and anatomy.

**Prerequisites:** Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL; and a study score of at least 20 in two of Biology, Chemistry, any Mathematics, Physical Education or Physics.

**Middle-band:** None

**Selection Mode:** CY12: ATAR, VTAC Personal Statement (All). See extra requirements for more information.

NY12: Educational History including GPA, VTAC Personal Statement (All), STAT (Some). See extra requirements for more information.

SEAS is considered.

**Extra requirements:**

VTAC Personal Statement (CY12-All, NY12-All): Applicants must complete and submit a VTAC Personal Statement if they wish other information to be considered during the selection process. This may include information such as work experience or reason for applying. Applicants may wish to provide other documentation in support of their application.

STAT (NY12-Some): Applicants described in the VTAC Admissions tests section must sit the STAT Multiple Choice test.

</table>

- Bachelor of Exercise Science: 2.5 years full time study
- Master of Exercise Physiology: 1.5 year full time study

**About the course:** This course explores the principles of human movement in the context of physical activity, sport, exercise and health. You will apply an understanding of key biological, social and health sciences with core knowledge in motor control, behavioural psychology, exercise physiology, function anatomy and biomechanics to relevant applications in health-related exercise, recreational activity and elite sports. In addition to gaining transferable core graduate attributes, you will develop practical skills and work-related experience in preparation for
employment as an exercise scientist.

This course aims to give you the skills and knowledge to design and implement exercise programs for a wide range of people. Recent research has made us aware of the important role exercise plays in public health. Integrating theory and practice, it provides pre-clinical studies in exercise science and combines this with clinical knowledge and supervised clinical practice. Exercise physiologists specialise in designing and delivering exercise, lifestyle and behavioural modification programs for people throughout the community, including those with chronic illnesses and health conditions such as heart disease, diabetes, and arthritis.

**Major studies:** Health sciences, Human movement, Human physiology and anatomy.

**Prerequisites:** Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL; and a study score of at least 20 in two of Biology, Chemistry, any Mathematics, Physical Education or Physics.

**Middle-band:** None

**Selection Mode:** CY12 : ATAR, VTAC Personal Statement (All). See extra requirements for more information.

NY12 : Educational History including GPA, VTAC Personal Statement (All), STAT (Some). See extra requirements for more information.

SEAS is considered.

**Extra requirements:**

VTAC Personal Statement (CY12-All, NY12-All) : Applicants must complete and submit a VTAC Personal Statement if they wish other information to be considered during the selection process. This may include information such as work experience or reason for applying. Applicants may wish to provide other documentation in support of their application.

STAT (NY12-Some) : Applicants described in the VTAC Admissions tests section must sit the STAT Multiple Choice test.

- Bachelor of Finance: 3 years full time study

**About the course:** This course is designed to meet academic and vocational requirements for a career in the finance industry. It provides a comprehensive understanding of all areas of finance and develops a thorough grasp of issues faced when working for a finance-related organisation - such as a listed trading bank, stockbroking firm, insurance or financial planning company, financial consulting organisation or the Reserve Bank of Australia.

Students train in corporate and international finance, investment and portfolio management, and risk management. The course also covers financial and estate planning, derivative securities, mergers and acquisitions, and security and firm valuation.

**Major studies:** Finance.

**Prerequisites:** Units 3 and 4: a study score of at least 25 in English (EAL) or 20 in English other than EAL; and a study score of at least 20 in any Mathematics.

**Middle-band:** Satisfactory completion in Economics equals 1 aggregate point.
**Selection Mode:** CY12: ATAR and middle-band.

NY12: Educational History including GPA, VTAC Personal Statement (All), STAT (Some), English language test (Some). See extra requirements for more information.

SEAS is considered.

**Extra requirements:**

VTAC Personal Statement (NY12-All): Applicants must complete and submit a VTAC Personal Statement if they wish other information to be considered during the selection process. This may include information such as work experience or reason for applying. Applicants may wish to provide other documentation in support of their application.

STAT (NY12-Some): Applicants described in the VTAC Admissions tests section must sit the STAT Multiple Choice test.

English language test (NY12-Some): Applicants who do not meet the English language requirement must achieve the required scores in the IELTS (Academic) or equivalent test.

(Minimum scores required for IELTS academic are Speaking=6.0, Writing=6.0, Reading=6.0, Listening=6.0, and Overall=6.0)

- Bachelor of Business (Financial Services): 3 years full time study

**About the course:** This course is designed to provide students with an introduction to the financial services industry. Its aim is to provide students with a set of skills, abilities and broad technical knowledge in financial services and enable students to sample a wide range of financial disciplines such as wealth management, investments, financial risk management, banking, international banking and finance, and corporate finance.

The curriculum covers the theory and the practical knowledge base required of a professional within financial services but also seeks to develop important problem-solving and decision-making skills relevant to any business professional. The course consists of a general business core and subjects across a broad range of financial services discipline areas leading to possible careers in corporate finance, banking, financial planning, superannuation, funds management and stockbroking.

**Major studies:** Financial Services.

**Prerequisites:** Units 3 and 4: a study score of at least 25 in English (EAL) or 20 in English other than EAL.

**Middle-band:** Satisfactory completion in Accounting, Business Management or Economics equals 1 aggregate point per study. Satisfactory completion in any Business or any unscored VET Business is considered. Overall maximum of 2 points.

**Selection Mode:** CY12: ATAR and middle-band.

NY12: Educational History including GPA, VTAC Personal Statement (Some), STAT (Some), English language test (Some). See extra requirements for more information.

SEAS is considered.

**Extra requirements:**

- Bachelor of Graphic Design: 3 years full time study

**About the course**: This course provides a strong grounding in brand management, advertising, print management, commercial illustration and photography. It's designed to prepare you for the professional world and focuses on developing your skills for jobs in diverse areas of the design industry. You'll explore design practices in advertising, publishing, editorial and information design, and the realisation of visual concepts through theoretical consideration of design elements: composition, spatial layout, scale, placement and structure. Our graphic design facilities include well-equipped design studios, darkrooms and photography studios with access to industry standard image formats. Our graphics and digital design laboratories are furnished with 40 high-end Apple computers running continually updated software, Wacom drawing tablets and scanners with output to full-colour laser and large-format Epson inkjet printing. You'll graduate with professional-level skills in computer-based programs required to work in the design industry. Mildura applicants: Graphic Design subjects will be offered based on sufficient enrolments, you may need to transfer to Bendigo to complete the course.

**Major studies**: Graphic design.

**Prerequisites**: Units 3 and 4: a study score of at least 25 in English (EAL) or 20 in English other than EAL.

**Middle-band**: None

**Selection Mode**: CY12 : ATAR, Folio (All), Interview (All). See extra requirements for more information.

NY12 : Educational History including GPA, Folio (All), Interview (All). See extra requirements for more information.

SEAS is considered.

**Extra requirements**:

Folio (CY12-All, NY12-All) : Applicants with multimedia components in their folios must submit the multimedia components to: BENDIGO - visualarts@latrobe.edu.au; MILDURA - k.haggblom@latrobe.edu.au. Deadline date for
submission is the 22 November 2013.

Interview (CY12-All, NY12-All) : Interview and folio review: Held between Monday 25 and Friday 29 November 2013, applicants must contact La Trobe Visual Arts and Design either in writing or email by the 22 November 2013 to arrange an interview time. Please include the course name, applicant postal address and preferred date for interview. BENDIGO - visualarts@latrobe.edu.au (late applicants must telephone (03) 5444 7969 or (03) 5444 7217) MILDURA - k.haggblom@latrobe.edu.au (late applicants must telephone (03) 5051 4030)

- Master of Health Information Management: 2 years full time study

**About the course:** This specialist course enables students with a first degree other than health information management to obtain a professional Health Information Management qualification at postgraduate level. The course provides a comprehensive program of specialist knowledge and skills in management of health information systems, professional practice, health informatics, clinical coding, casemix and health data analysis, providing students with expert knowledge and skills to take leading roles in activity-based health care systems and other critical functions. Students undertake placements throughout the healthcare sector in hospitals, government health departments, disease screening and health research centres, cancer and other special health registries, health software and systems development firms, and other organisations that produce or use health information. The course is especially suitable for graduates of medical and health disciplines. Graduates of non-health disciplines may also apply. There is a huge demand for graduate Health Information Managers throughout the healthcare industry. Deferral is not available for this course.

**Major studies:** Clinical coding, Health administration, Health data analysis and management, Health informatics, Health information management, Health information privacy and security, Medical/Health classification.

**Prerequisites:** Bachelor Degree or subsequent postgraduate study with a GPA of at least 70% in the most recently completed award.

**Middle-band:** None

**Selection Mode:** NY12 : Educational History including GPA, VTAC Personal Statement (All), Bridging Studies. See extra requirements for more information.

SEAS is considered.

**Extra requirements:**

VTAC Personal Statement (NY12-All) : Applicants must complete and submit a VTAC personal statement if they wish other information to be considered during the selection process. This may include information such as work experience or reason for applying. Applicants may wish to provide other documentation in support of their application.

Students will be required to undertake bridging studies (short ‘summer’ course/s in February), depending on the content of their previous degree. See our website for current information [www.latrobe.edu.au/health](http://www.latrobe.edu.au/health)
Bachelor of Health Sciences: 3 years full time study

About the course: This flexible course provides students with the opportunity to develop a broad understanding of the field of health sciences while pursuing areas of interest within the human biosciences, public health or rehabilitation counselling domains.

In first year, students will undertake an interdisciplinary common year in which students enrol in subjects with their peers who are enrolled in the full range of health sciences courses. The focus is on basic human biosciences and factors influencing health and on developing an understanding of the roles of health professionals in the health and welfare sectors. In the second year, students select a major from the available campus major studies (see Major studies below) In third year, students continue to study subjects from their chosen major. The course also allows for some elective choice from elsewhere in the University at both second and third year. Please note, not all majors are available at both campuses.

Major studies: Human physiology and anatomy, Public health, Rehabilitation counselling.

Prerequisites: Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL; and a study score of at least 20 in one of Biology, Chemistry, any Mathematics, Physical Education or Physics.

Middle-band: None

Selection Mode: CY12 : ATAR, VTAC Personal Statement (Some), Work experience (All). See extra requirements for more information.

NY12 : Educational History including GPA, VTAC Personal Statement (All), STAT (Some), Work experience (All). See extra requirements for more information.

SEAS is considered.

Extra requirements:

VTAC Personal Statement (CY12-Some, NY12-All) : CY12 Applicants with work experience must complete and submit a VTAC Personal Statement. NY12 Applicants must complete and submit a VTAC personal statement if they wish other information to be considered during the selection process. This may include information such as work experience or reason for applying. Applicants may wish to provide other documentation in support of their application.

STAT (NY12-Some) : Applicants described in the VTAC Admissions tests section must sit the STAT Multiple Choice test.

Work experience (CY12-All, NY12-All) : Applicants who outline relevant work experience as part of their VTAC
Health Sciences (Medical Classification)/Health Information Management (HE)

La Trobe University
Melbourne: 2100327711 (CSP) full-time/part-time  Apply: Through VTAC  main round

- Bachelor of Health Sciences (Medical Classification)/Health Information Management: 4 years full time study

About the course: This new double Bachelor degree course provides students with the high-level skills required to manage and analyse patients' health information and systems. Providing specialist knowledge and skills to equip graduates to meet national Health Information Management workforce shortages, the course combines classroom and hands-on (professional practice) study in the disciplines of health, management, disease classification, health research and health informatics. Students complete 480 credit points within 4 years to achieve both degrees. First year is an interdisciplinary common year, in which students study subjects with peers across the Faculty. The focus is on basic human biosciences, factors influencing health, and developing an understanding of the roles of health professionals, including Health Information Managers, in the health workforce. In second year students begin to develop specialist professional skills in medical classification, health informatics, data analysis and management of health information and systems. In third and fourth years, students are offered extensive opportunities to apply their HIM knowledge and professional practice skills through placements and field visits. Students are allocated to Professional Practice placements in health agencies (both public and private), government departments, research units, private health software/systems companies, and cancer and special disease registries. Students may exit with the Bachelor of Health Sciences (Medical Classification) after successful completion of third year. This degree qualifies graduates in the field of medical/clinical coding for work in small hospitals and health centres. There is a great demand for Medical/Clinical Coders throughout Australia. In order to qualify as a Health Information Manager, students must successfully complete all four years of the double degree program.

Major studies: Health data analysis and management, Health informatics, Health information management, Health information privacy and security, Medical/clinical coding and casemix systems.

Prerequisites: Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL; and a study score of at least 20 in one of Biology, Chemistry, any Mathematics, Physical Education or Physics.

Middle-band: None

Selection Mode: CY12 : ATAR, VTAC Personal Statement (Some), Work experience (All). See extra requirements for more information.
NY12 : Educational History including GPA, VTAC Personal Statement (All), STAT (Some), Work experience (All). See extra requirements for more information.
SEAS is considered.

Extra requirements:
VTAC Personal Statement (CY12(Some), NY12(All)) : CY12 Applicants with work experience must complete and submit a VTAC Personal Statement. NY12 Applicants must complete and submit a VTAC personal statement if they wish other information to be considered during the selection process. This may include information such as work experience or reason for applying. Applicants may wish to provide other documentation in support of their application.
STAT (NY12(Some)) : Applicants described in the VTAC Admissions tests section must sit the STAT Multiple Choice test.
Work experience (CY12(All), NY12(All)) : Applicants who outline relevant work experience as part of their VTAC Personal Statement, may be eligible for extra consideration during the selection process.

Health Sciences in Dentistry/Dentistry

La Trobe University
Bendigo: 210024191 (CSP) full-time  Apply: Through VTAC  main round

Bachelor of Health Sciences in Dentistry: 3 years full time study
Master of Dentistry: 2 years full time study

About the course: This course, which is accredited by the Australian Dental Council and enables graduates to register as a dentist. Dentists practice the prevention, diagnosis and treatment of diseases, injuries and malformations of the teeth, jaws and associated structures. The majority of practising dentists in Australia work in the private sector, predominantly as general practitioners. There is an increasing demand for dentists across Australia and job opportunities in both metropolitan and rural Victoria are available. Clinical experience involves placements in regional and rural public dental health agencies. Travel to, and residence, in metropolitan, rural and regional locations, for the clinical placements will be required. Clinical placements will occur in both semester time and vacation periods in years 3, 4 and 5. The Bachelor of Health Sciences in Dentistry is a three year pre registration degree that prepares students for entry into the Master of Dentistry. The Masters component is a two year program focused on clinical education. Subjects in basic sciences, public health, pre-clinical practice and clinical practice are studied. Deferral is not available for this course.

Major studies: Dentistry.

Prerequisites: Units 3 and 4: a study score of at least 35 in any English; and a study score of at least 25 in each of Biology and Chemistry.

Middle-band: None

NY12: Educational History including GPA, VTAC Personal Statement (All), Interview (Some), UMAT/ISAT (All). See extra requirements for more information.
SEAS is considered.

Extra requirements:
VTAC Personal Statement (CY12-All, NY12-All): Applicants must complete and submit a VTAC personal statement and provide evidence of residence in a regional or rural area if applicable and if they wish other information to be considered during the selection process. This may include information such as work experience or reason for applying. Applicants may wish to provide other documentation in support of their application.
Interview (NY12-Some): Details will be provided by telephone or mail to applicants required to attend. These applicants must attend in November/December.
UMAT/ISAT (NY12-All): All applicants must have completed the UMAT.

• Bachelor of Health Sciences/Business: 4 years full time study
About the course: This double degree provides a comprehensive foundation in business studies with a health specialisation and provides graduates with a close understanding of the technologies, institutions, professions and funding systems associated with health care. Students are required to complete 270 credit points each from both the business and the health sciences disciplines. To fulfil the requirements for the Bachelor of Business, students must complete core subjects and one business major (see Major studies below). The Bachelor of Health Sciences requires students to complete core first year subjects and then complete studies relevant to their chosen major (see Major studies below) in second and third year. First year health sciences subjects are part of an interdisciplinary common year in which students will enrol in subjects with peers across the Faculty of Health Sciences. The course also allows for some elective choice from elsewhere in the University from second year, subject to timetable restrictions and subject prerequisites. Fieldwork placement may be available in specified third year public health subjects.

Major studies: Business (economics), Business (information systems), Financial management, Financial planning, Human physiology and anatomy, Human resource management, Macroeconomics, Management, Marketing, Public health, Rehabilitation counselling.

Prerequisites: Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL; and a study score of at least 20 in one of Biology, Chemistry, any Mathematics, Physical Education or Physics.

Middle-band: None

Selection Mode: CY12 : ATAR, VTAC Personal Statement (Some), Work experience (All). See extra requirements for more information.

NY12 : Educational History including GPA, VTAC Personal Statement (All), STAT (Some), Work experience (All). See extra requirements for more information.

Extra requirements:
VTAC Personal Statement (CY12-Some, NY12-All) : CY12 Applicants with work experience must complete and submit a VTAC Personal Statement. NY12 Applicants must complete and submit a VTAC personal statement if they wish other information to be considered during the selection process. This may include information such as work experience or reason for applying. Applicants may wish to provide other documentation in support of their application.

STAT (NY12-Some) : Applicants described in the VTAC Admissions tests section must sit the STAT Multiple Choice test.

Work experience (CY12-All, NY12-All) : Applicants who outline relevant work experience as part of their VTAC Personal Statement, may be eligible for extra consideration during the selection process.

Health Sciences/Clinical Audiology

La Trobe University

Melbourne:2100322331 (CSP) full-time  Apply: Through VTAC  main round
Melbourne:2100322333 (IFP) full-time  Apply: Through VTAC  main round

- Bachelor of Health Sciences: 2.5 years full time study
- Master of Clinical Audiology: 1.5 year full time study

About the course: This course prepares students to become competent Audiologists with strong interdisciplinary and practice experience, well prepared for the required Audiology intern year. The course includes theoretical, pre-clinical and clinical subjects covering clinical practice and community health, with equal emphasis on adult and paediatric populations, from both a diagnostic and rehabilitative viewpoint. The course will strongly focus on interdisciplinary activities with peers across the Faculty of Health Sciences, as well as on clinical rural practice. Students undertaking this Bachelor of Health Sciences and Master of Clinical Audiology pathway are required to successfully complete the Bachelor of Health Sciences before commencing the Master of Clinical Audiology. Students who successfully complete the Bachelor degree are guaranteed entry into the Masters degree.

Major studies: Audiology.

Prerequisites: Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL; and a study score of at least 25 in two of Biology, Chemistry, any Mathematics, Physical Education or Physics.
**Selection Mode:** CY12: ATAR, VTAC Personal Statement (All). See extra requirements for more information.

NY12: Educational History including GPA, VTAC Personal Statement (All), STAT (Some). See extra requirements for more information.

SEAS is considered.

**Extra requirements:**

VTAC Personal Statement (CY12-All, NY12-All): Applicants must complete and submit a VTAC Personal Statement if they wish other information to be considered during the selection process. This may include information such as work experience or reason for applying. Applicants may wish to provide other documentation in support of their application.

STAT (NY12-Some): Applicants described in the VTAC Admissions tests section must sit the STAT Multiple Choice test.

- Bachelor of Health Sciences: 2.5 years full time study
- Master of Clinical Prosthetics and Orthotics: 1.5 year full time study

**About the course:** This course is designed to provide the specialist skills and training required for those seeking a professional career in Prosthetics and Orthotics. Prosthetics and orthotics is the clinical discipline related to the provision of prostheses (artificial limbs) to people with amputations and orthoses (supportive devices) to people with musculoskeletal weakness or neurological disorders. The 1st year of this program is an interdisciplinary common year in which students enrol in subjects with peers across the Faculty of Health Sciences. The focus of this year is on basic human biosciences, factors influencing health and on developing an understanding of the roles of health professionals in the health sector. In the 2nd year, students begin to develop skills specific to the discipline and further explore the underpinning human biosciences and public health aspects. During the 3rd year, students will expand on their theoretical knowledge of anatomy, physiology, biomechanics, and prosthetic and orthotic practice. This is enhanced by strong practical skills in research methodology, clinical assessment, and the application of prosthetic and orthotic techniques. By 4th year, students will be able to apply their knowledge and practical skills to the management of disorders across the life span using case based learning techniques. Clinical activities include working with volunteer patients in years 3 and 4, and placements at prosthetic and orthotic facilities in year 4.

**Major studies:** Orthotics, Prosthetics.

**Prerequisites:** Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL; and a study score of at least 25 in two of Biology, Chemistry, any Mathematics, Physical Education or Physics.

**Middle-band:** None

**Selection Mode:** CY12: ATAR, VTAC Personal Statement (All), Work experience (All). See extra requirements for more information.

NY12: Educational History including GPA, VTAC Personal Statement (All), STAT (Some), Work experience (All). See extra requirements for more information.

SEAS is considered.
Extra requirements:

VTAC Personal Statement (CY12-All, NY12-All) : Applicants must complete and submit a VTAC Personal Statement if they wish other information to be considered during the selection process. This may include information such as work experience or reason for applying. Applicants may wish to provide other documentation in support of their application.

STAT (NY12-Some) : Applicants described in the VTAC Admissions tests section must sit the STAT Multiple Choice test.

Work experience (CY12-All, NY12-All) : Applicants who outline relevant work experience of at least 12 months at a prosthetic and orthotic facility as part of their VTAC Personal Statement, may be eligible for extra consideration during the selection process.

Melbourne: 2100322213 (IFP) full-time  Apply: Through VTAC main round

- Bachelor of Health Sciences: 2.5 years full time study
- Master of Dietetic Practice: 1.5 year full time study

About the course: This course is designed to provide the specialist skills and training required for those seeking a professional career as a dietitian. It incorporates clinical practice, community health and food service and a focus on interdisciplinary work with health sciences peers. The course is undergoing accreditation by the Dietitians Association of Australia (DAA). Once finalised, graduates will be eligible for full membership of DAA and the Accredited Practising Dietitian program. Students complete 480 credit points. Graduates work in all areas of dietetics, including public and private health services, private practice and food service. The first year is an interdisciplinary core year in which students focus on human biosciences, factors influencing health and the roles of health professionals. The first year also includes studies in chemistry and food chemistry. In second year, students study physiology and biochemistry as well as develop skills in human nutrition and evidence-based dietetic practice. In third and fourth years, students apply their knowledge of food, food science and nutrition and learn practical skills of dietetic management of health and disease, through a curriculum centered model using case based learning techniques. Students will undertake 100 days of professional practice placements during the final two years of the course. This will include 60 days of individual dietetic case management (medical nutrition therapy), 20 days of community care and 20 days of food service management.

Major studies: Biochemistry, Dietetics, Food science, Nutritional sciences, Physiology, Public health nutrition.

Prerequisites: Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL; and a study score of at least 25 in two of Biology, Chemistry, any Mathematics, Physical Education or Physics.

Middle-band: None

Selection Mode: CY12 : ATAR, VTAC Personal Statement (Some), Work experience (All). See extra requirements for more information.

NY12 : Educational History including GPA, VTAC Personal Statement (All), STAT (Some), Work experience (All). See extra requirements for more information.

SEAS is considered.

Extra requirements:

VTAC Personal Statement (CY12-Some, NY12-All) : CY12 Applicants with work experience must complete and submit a VTAC Personal Statement. NY12 Applicants must complete and submit a VTAC Personal Statement if they wish other information to be considered during the selection process. This may include information such as work experience or reason for applying. Applicants may wish to provide other documentation in support of their application.
application.

STAT (NY12-Some) : Applicants described in the VTAC Admissions tests section must sit the STAT Multiple Choice test.

Work experience (CY12-All, NY12-All) : Applicants who outline relevant work experience as part of their VTAC Personal Statement, may be eligible for extra consideration during the selection process.

- Bachelor of Health Sciences/International Development: 4 years full time study

**About the course:** This course provides an integrated study and approach in both health sciences and international development. Students gain specific skills in health administration, health policy and health services management, as well as an understanding of the issues involved in social, economic and political development in developing areas. As a result, students acquire the knowledge and skills relevant to planning and delivery of health services in developing nations. Students are required to complete 270 credit points each from both the international development and the health sciences disciplines. The Bachelor of Health Sciences requires students to complete core first year subjects with the remaining studies focused on their chosen major (see Major studies below). First year health sciences subjects are part of an interdisciplinary common year in which students will enrol in subjects with peers across the Faculty of Health Sciences. Fieldwork placement may be available in specified third year public health subjects.

**Major studies:** Anthropology, Chinese, French, History, Human physiology and anatomy, Indonesian, International development, Politics, Public health, Rehabilitation counselling, Sociology, Spanish.

**Prerequisites:** Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL; and a study score of at least 20 in one of Biology, Chemistry, any Mathematics, Physical Education or Physics.

**Middle-band:** None

**Selection Mode:** CY12 : ATAR, VTAC Personal Statement (Some), Work experience (All). See extra requirements for more information.

NY12 : Educational History including GPA, VTAC Personal Statement (All), STAT (Some), Work experience (All). See extra requirements for more information.

SEAS is considered.

**Extra requirements:**

VTAC Personal Statement (CY12-Some, NY12-All) : CY12 Applicants with work experience must complete and submit a VTAC Personal Statement. NY12 Applicants must complete and submit a VTAC Personal Statement if they wish other information to be considered during the selection process. This may include information such as work experience or reason for applying. Applicants may wish to provide other documentation in support of their application.

STAT (NY12-Some) : Applicants described in the VTAC Admissions tests section must sit the STAT Multiple Choice test.

Work experience (CY12-All, NY12-All) : Applicants who outline relevant work experience as part of their VTAC Personal Statement, may be eligible for extra consideration during the selection process.

- Bachelor of Health Sciences: 2.5 years full time study
- Master of Occupational Therapy Practice: 1.5 year full time study

**About the course:** This course provides students with the skills and knowledge to assess and treat people who are limited in their ability to undertake activities of everyday life. The double degree combines pre-clinical and clinical study, integrating theory and practice. The first year of this program is an interdisciplinary core year in which students enrol in subjects with peers across the Faculty of Health Sciences. The focus of first year is on basic human biosciences and factors that influence health, students also learn to develop an understanding of the roles of health professionals in the health and welfare sectors. In second year, students build knowledge and skills in anatomy, using evidence in practice, health related sociology and psychology. In years three and four, students study occupational therapy through a curriculum centred on a hybrid model of problem-based learning, an instructional strategy in which students learn through contextualized problems and strive to find meaningful
solutions to the range of complex human problems that manifest in health care settings. During these two years, students will undertake placement in clinical settings. Please note that the 1st year of Albury-Wodonga, Mildura and Shepparton courses will be conducted at the Albury-Wodonga, Mildura and Shepparton campuses respectively, whilst the 2nd, 3rd and 4th years will be conducted at the Bendigo campus.

**Major studies:** Occupational therapy.

**Prerequisites:** Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL; and a study score of at least 25 in one of Biology, Chemistry, any Mathematics, Physical Education or Physics.

**Middle-band:** None

**Selection Mode:**
- CY12: ATAR, VTAC Personal Statement (Some), Work experience (All). See extra requirements for more information.
- NY12: Educational History including GPA, VTAC Personal Statement (All), STAT (Some), Work experience (All). See extra requirements for more information.

**Extra requirements:**
- VTAC Personal Statement (CY12-Some, NY12-All): CY12 Applicants with work experience must complete and submit a VTAC Personal Statement including details of relevance. NY12 Applicants must complete and submit a VTAC Personal Statement if they wish other information to be considered during the selection process. This may include information such as relevant work experience, reason for applying or knowledge of the occupational therapy profession. Applicants may wish to provide other documentation in support of their application.
- STAT (NY12-Some): Applicants described in the VTAC Admissions tests section must sit the STAT Multiple Choice test.
- Work experience (CY12-All, NY12-All): Applicants who outline relevant work experience as part of their VTAC Personal Statement, may be eligible for extra consideration during the selection process.

Melbourne: 2100321893 (IFP) full-time

Apply: Through VTAC main round

- Bachelor of Health Sciences: 2.5 years full time study
- Master of Orthoptics: 1.5 year full time study

**About the course:** This course prepares graduates to provide specialist clinical investigations for the detection, diagnosis and treatment of vision and eye disorders. The first year of this program is an interdisciplinary common year in which students enroll in subjects with peers across the Faculty of Health Sciences. The focus of this year is on basic human biosciences and factors influencing health and on developing an understanding of the roles of health professionals in the health and welfare sectors. In second year, students begin to develop an understanding of orthoptic theory and skills and explore the underpinning areas of anatomy and physiology of the eye including refraction and binocular vision and the effect of ocular pathology on structure and function. The third and fourth years of the course integrate knowledge of eye disease and the visual system with orthoptic practice, with an increased emphasis on application in the clinical setting. Clinical education leading to entry level competency will be the focus of the last 18 months, where students will learn to practice under the supervision of a clinician. Students will attend and experience clinical placements within the Eye and Ear Hospital clinical school network, which includes private ophthalmology practices and a variety of public hospitals, including the Royal Children's Hospital, with the opportunity for rural, interstate or international placements.

**Major studies:** Ophthalmology, Orthoptics, Vision sciences.
**Prerequisites:** Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL; and a study score of at least 25 in two of Biology, Chemistry, any Mathematics, Physical Education or Physics.

**Middle-band:** None

**Selection Mode:** CY12: ATAR, VTAC Personal Statement (Some), Work experience (All). See extra requirements for more information.

NY12: Educational History including GPA, VTAC Personal Statement (All), STAT (Some), Work experience (All). See extra requirements for more information.

SEAS is considered.

**Extra requirements:**

VTAC Personal Statement (CY12-Some, NY12-All): CY12 Applicants with work experience must complete and submit a VTAC Personal Statement. NY12 Applicants must complete and submit a VTAC Personal Statement if they wish other information to be considered during the selection process. This may include information such as work experience or reason for applying. Applicants may wish to provide other documentation in support of their application.

STAT (NY12-Some): Applicants described in the VTAC Admissions tests section must sit the STAT Multiple Choice test.

Work experience (CY12-All, NY12-All): Applicants who outline relevant work experience of at least 3 months as part of their VTAC Personal Statement, may be eligible for extra consideration during the selection process.

Bachelor of Health Sciences: 2.5 years full time study
Master of Physiotherapy Practice: 1.5 year full time study

About the course: This course enables students to obtain a professional qualification in Physiotherapy. First year students undertake an interdisciplinary year with peers across the Faculty. Second year students begin to develop physiotherapy skills and further explore the human biosciences. In the final two years, students apply their knowledge and practical skills to the physiotherapy management of disorders across the life span in the core areas: cardiorespiratory, musculoskeletal and neurological. In the pre-clinical semesters, students develop practical aspects of physiotherapy by practicing on each other. For the final 18 months students are allocated to a clinical school and complete clinical placements at healthcare sites. Placements may occur outside normal university semesters. This course is offered on a full-time basis only. Bendigo/Melbourne students undertake all years at the campus they are enrolled at. Albury-Wodonga/Mildura/Shepparton students undertake their first year only at their respective campuses and the remainder at the Bendigo campus.

Major studies: Physiotherapy.

Prerequisites: Units 3 and 4; a study score of at least 30 in English (EAL) or 25 in English other than EAL; and a study score of at least 25 in two of Biology, Chemistry, any Mathematics, Physical Education or Physics.

Middle-band: None

Selection Mode: CY12: ATAR, VTAC Personal Statement (All), See extra requirements for more information.
NY12: Educational History including GPA, VTAC Personal Statement (All), Interview (Some), STAT (Some), FAQ Flyer. See extra requirements for more information.
SEAS is considered.

Extra requirements:
VTAC Personal Statement (CY12-All, NY12-All): Applicants must complete and submit a VTAC Personal Statement if they wish other information to be considered during the selection process. This may include information such as work experience or reason for applying. Applicants may wish to provide other documentation in support of their application.
Interview (NY12-Some): Applicants with STAT M results in the high 90s may be eligible for an interview. Details will be provided by telephone or mail/email to the applicants required to attend interviews to be held in January.
STAT (NY12-Some): Applicants described in the VTAC Admissions tests section must sit the STAT Multiple Choice test.

All applicants must refer to the FAQ flyer located via: www.latrobe.edu.au/health

Health Sciences/Podiatric Practice

La Trobe University
Albury-Wodonga: 2100120151 (CSP) full-time Apply: Through VTAC main round
Bachelor of Health Sciences: 2.5 years full time study
Master of Podiatric Practice: 1.5 year full time study

About the course: This course provides the skills and knowledge to prepare graduates for a career in Podiatry. It is focused on the prevention and treatment of disorders of the foot and ankle. Students are taught assessment and management skills used in podiatric practice, to treat patients with complex medical conditions (e.g. diabetes or rheumatoid arthritis) and to work in specialised areas of podiatry (e.g. sports injuries, paediatrics and surgery). In 1st year, students undertake an interdisciplinary common year in which students enrol in subjects with peers across the Faculty. The focus is on basic human biosciences and factors influencing health and on developing an understanding of the roles of health professionals. In 2nd year students begin to develop podiatric skills and further explore the underpinning human biosciences and public health aspects. In 3rd year, students undertake more extensive clinical placements in order to develop professional knowledge and skills and by 4th year, students will be able to apply their knowledge and practical skills to the management of disorders across the life span using case-based learning techniques. Clinical placement in hospitals and other clinical settings are completed under the supervision of a clinician in years 3 and 4. Please note that the 1st year of the Albury-Wodonga, Mildura and Shepparton courses will be conducted at their appropriate campuses respectively, whilst the 2nd, 3rd and 4th years will be conducted at the Bendigo Campus.

Major studies: Podiatry.
Prerequisites: Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL; and a study score of at least 25 in two of Biology, Chemistry, any Mathematics, Physical Education or Physics.

Middle-band: None

Selection Mode: CY12: ATAR, VTAC Personal Statement (Some), Work experience (All). See extra requirements for more information.

NY12: Educational History including GPA, VTAC Personal Statement (All), STAT (Some), Work experience (All). See extra requirements for more information.

SEAS is considered.

Extra requirements:

VTAC Personal Statement (CY12-Some, NY12-All): CY12 Applicants with work experience must complete and submit a VTAC Personal Statement. NY12 Applicants must complete and submit a VTAC Personal Statement if they wish other information to be considered during the selection process. This may include information such as work experience or reason for applying. Applicants may wish to provide other documentation in support of their application.

STAT (NY12-Some): Some applicants described in the Admissions Tests section must complete the STAT Multiple Choice.

Work experience (CY12-All, NY12-All): Applicants who outline relevant work experience with a Podiatrist or Podiatry department as part of their VTAC Personal Statement, may be eligible for extra consideration during the selection process.

Bachelor of Health Sciences: 2.5 years full time study

Master of Speech Pathology: 1.5 year full time study

About the course: This course prepares graduates for professional careers as Speech Pathologists who diagnose, treat and provide management for people of all ages with communication and/or swallowing disorders. Communication encompasses core areas such as speech, literacy, language, voice and fluency. These areas, hearing science and swallowing are studied across the lifespan. First year students undertake an interdisciplinary year with peers across the Faculty. The focus of first year is on basic human biosciences, factors influencing health and on developing an understanding of the roles of health professionals in the health and welfare sectors. In second year, students begin to develop skills specific to the discipline and further explore the underpinning human biosciences and public health aspects, which provides a broad-based knowledge of normal development, anatomy and function of the human body as well as causes and types of communication and swallowing disorders. In years three and four, the program utilises both Problem Based Learning (PBL) methods of teaching and learning as well as more traditional formats, and rich clinical learning experiences. Clinical experience is a major component of the program and is gained at the La Trobe Communication Clinical and through external clinical placements. Placements may occur outside normal university semesters. Problem Based Learning (PBL) relies on the use of actual speech pathology cases, presented in a variety of formats (e.g., printed case notes, computer-based examples, video or audio samples, simulated patients). Bendigo and Melbourne students undertake all years at the campus they are enrolled into. Albury-Wodonga, Mildura and Shepparton students undertake their first year only at their respective campuses and then transfer to Bendigo for the remainder of the program.

Major studies: Speech pathology.

Prerequisites: Units 3 and 4: a study score of at least 35 in English (EAL) or 30 in English other than EAL; and a study score of at least 25 in one of Biology, Chemistry, any Mathematics, Physical Education or Physics.

Middle-band: None

Selection Mode: CY12 : ATAR, VTAC Personal Statement (Some), Work experience (All). See extra requirements for more information.

NY12 : Educational History including GPA, VTAC Personal Statement (All), STAT (Some), Work experience (All). See extra requirements for more information.

SEAS is considered.

Extra requirements:

VTAC Personal Statement (CY12-Some, NY12-All) : CY12 Applicants with work experience must complete and submit a VTAC Personal Statement. NY12 Applicants must complete and submit a VTAC Personal Statement if they wish other information to be considered during the selection process. This may include information such as work experience or reason for applying. Applicants may wish to provide other documentation in support of their application.

STAT (NY12-Some) : Applicants described in the VTAC Admissions tests section must sit the STAT Multiple Choice test.

Work experience (CY12-All, NY12-All) : Applicants who outline relevant work experience as part of their VTAC Personal Statement, may be eligible for extra consideration during the selection process.
Bachelor of Human Nutrition: 3 years full time study

About the course: The aim of this course is to prepare graduates for careers in nutrition and public health, health promotion, government policy areas, food industry and other areas of nutrition and biosciences. This course provides the foundations in nutritional biosciences and pre-requisites for entry into graduate entry courses in dietetics and other allied health areas. This interdisciplinary program combines core subjects in human nutrition with basic science, biochemistry, physiology and public health disciplines. In the first and second years, subjects in biological sciences, chemistry, biochemistry, physiology, nutritional science, and the role of food and nutrition in human health and disease are studied. Third year subjects cover food science, nutrition research methods and the role of food and nutrition in human growth and development. Elective streams are available in public health, human physiology, biochemistry, microbiology and genetics.

Major studies: Biochemistry, Food science, Genetics, Microbiology, Nutritional sciences, Physiology, Public health nutrition.

Prerequisites: Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL; and a study score of at least 25 in two of Biology, Chemistry, any Mathematics, Physical Education or Physics.

Middle-band: None

Selection Mode: CY12 : ATAR, VTAC Personal Statement (Some), Work experience (All). See extra requirements for more information.

NY12 : Educational History including GPA, VTAC Personal Statement (All), STAT (Some), Work experience (All). See extra requirements for more information.

SEAS is considered.

Extra requirements:

VTAC Personal Statement (CY12-Some, NY12-All) : CY12 Applicants with work experience must complete and submit a VTAC Personal Statement. NY12 Applicants must complete and submit a VTAC Personal Statement if they wish other information to be considered during the selection process. This may include information such as work experience or reason for applying. Applicants may wish to provide other documentation in support of their application.

STAT (NY12-Some) : Applicants described in the VTAC Admissions tests section must sit the STAT Multiple Choice test.

Work experience (CY12-All, NY12-All) : Applicants who outline relevant work experience as part of their VTAC Personal Statement, may be eligible for extra consideration during the selection process.

Melbourne: 2100321423 (IFP) full-time

- Bachelor of Business (Human Resource Management): 3 years full time study

About the course: This degree equips students with the skills and knowledge integral to careers in human resource management (HRM). It is designed to develop the capabilities specified by the Australian Human Resource Institute (AHRI) whose Model of Excellence, governs the requirements for professional accreditation and provides internationally transferable competencies and skills. The course offers a wide range of business specialisations allowing students to develop individual interests and strengths. During their study, students will have the opportunity to undertake a semester of work-integrated-learning, and an International Human Resources Study Tour, which exposes students to experiences of applied human resource management in an international context.

Prerequisites: Units 3 and 4: a study score of at least 25 in English (EAL) or 20 in English other than EAL.

Middle-band: Satisfactory completion in Business Management equals 1 aggregate point.

Selection Mode: CY12: ATAR and middle-band.
NY12: Educational History including GPA, VTAC Personal Statement (Some), STAT (Some), English language test (Some). See extra requirements for more information.
SEAS is considered.

Extra requirements:
VTAC Personal Statement (NY12-Some): Applicants must complete and submit a VTAC Personal Statement if they wish other information to be considered during the selection process. This may include information such as work experience or reason for applying. Applicants may wish to provide other documentation in support of their application.
STAT (NY12-Some): Applicants described in the VTAC Admissions tests section must sit the STAT Multiple Choice test.
English language test (NY12-Some): Applicants who do not meet the English language requirement must achieve the required scores in the IELTS (Academic) or equivalent test.
(Minimum scores required for IELTS academic are Speaking=6.0, Writing=6.0, Reading=6.0, Listening=6.0, and Overall=6.0)

Bachelor of Human Services: 2.5 years full time study
Master of Social Work: 1.5 year full time study

About the course: This course prepares graduates for professional careers in specialised areas of Human Services and Social Work who will be reflective, responsive, flexible and excel in the constantly changing social care sector. Students complete 540 credit points (equivalent to 4.5 years of full time study) over 4 years. In first year, students undertake part of an interdisciplinary core year in which students enrol in subjects with peers across the Faculty of Health Sciences. The focus is on factors influencing social wellbeing and health and on developing an understanding of the roles of human services and health professionals in the health and welfare sectors. In second year, students continue to develop skills and knowledge specific to their discipline. Students will explore the underpinning social work theories and develop an understanding of welfare agencies and the welfare needs of individuals, families and groups. The third and fourth years of the course will prepare students to take a critical analytic approach to social problems and to practice through case-based study. Students will learn how to address the changes in the social work practice environment and work within an environment characterised by complexity. A key feature of the course is the practical placement component in each of the last two years of the course which allows students to gain practical skills in the field. This course is an AASW accredited qualification. It is an entry qualification into the social work profession and has been determined to meet the Australian Social Work Education and Accreditation Standards (ASWEAS).

Major studies: Human services, Social work.

Prerequisites: Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL.

Middle-band: None

Selection Mode: CY12 : ATAR, VTAC Personal Statement (Some), Work experience (All). See extra requirements for more information.

NY12 : Educational History including GPA, VTAC Personal Statement (All), STAT (Some), Work experience (All). See extra requirements for more information.

SEAS is considered.

Extra requirements:

VTAC Personal Statement (CY12-Some, NY12-All) : CY12 Applicants with work experience must complete and submit a VTAC Personal Statement. NY12 Applicants must complete and submit a VTAC Personal Statement if they wish other information to be considered during the selection process. This may include information such as work experience or reason for applying. Applicants may wish to provide other documentation in support of their application.

STAT (NY12-Some) : Applicants described in the VTAC Admissions tests section must sit the STAT Multiple Choice test.
Work experience (CY12-All, NY12-All): Applicants who outline relevant work experience as part of their VTAC Personal Statement, may be eligible for extra consideration during the selection process.

- Bachelor of Information Technology: 3 years full time study

About the course: This course provides a professional qualification in preparation for a career as IT professional working in a variety of industries. After two years of foundation study encompassing web and software development, information systems analysis and design, computer networks and database subjects, it includes the opportunity to gain professional experience in an industry-based learning (IBL) scholarship year.

Typical careers for graduates reflect the diversity of IT professions, and range from business system analysis, business process modelling, project planning and management to database administration and management, web application design and development, IT services and systems.

Major studies: Computer applications, Computer networks, Database systems, Information systems, Information systems management, Multimedia authoring, Object-oriented development, Project management, Software development, Software engineering, Systems and software engineering, Systems design and development, Web applications programming, Website development.

Prerequisites: Units 3 and 4: a study score of at least 25 in English (EAL) or 20 in English other than EAL.

Middle-band: Satisfactory completion in any Mathematics equals 1.5 aggregate points per study. Overall maximum of 1.5 points.

Selection Mode: CY12: ATAR and middle-band.

NY12: Educational History including GPA, VTAC Personal Statement (Some), STAT (Some). See extra requirements for more information.

SEAS is considered.

Extra requirements:

VTAC Personal Statement (NY12-Some): Applicants must complete and submit a VTAC Personal statement if they wish other information to be considered during the selection process. This may include information such as work or community experience or reasons for applying. Applicants may wish to provide other documentation in support of their application.

STAT (NY12-Some): Applicants described in the VTAC 'Admissions Tests' section must sit the STAT Multiple Choice test.
Bachelor of Information Technology (Professional): 3.5 years full time study

About the course: The course is a scholarship program designed in consultation with the IT industry and incorporating a professional experience year.

The emphasis in this course is on information technology and its application to business and business processes. All subjects studied in the course relate to IT, business and IT professions. Fifteen subjects are information technology subjects, four subjects are industry and professional experience assessment, and the remaining five are business subjects. Graduates from this course gain significant benefit from the opportunity to gain insight into the range of IT professions while on work placements. Careers open to graduates include areas such as information and business system analysis, business process modelling, project planning and management, database administration and management, web application design and development, IT services and systems.

Major studies: Computer applications, Computer networks, Database systems, Industrial collaboration and experience, Information systems, Information systems management, Multimedia authoring, Object-oriented development, Project management, Web development.

Prerequisites: Minimum ATAR of 80.00. Units 3 and 4: a study score of at least 25 in English (EAL) or 20 in English other than EAL; and a study score of at least 20 in any Mathematics.

Middle-band: A study score of 25 in Maths: Mathematical Methods (CAS) or Maths: Specialist Mathematics equals 1.5 aggregate points per study. Overall maximum of 3 points.

Selection Mode: CY12 : ATAR and middle-band.

NY12 : Educational History including GPA, VTAC Personal Statement (Some), STAT (Some). See extra requirements for more information.

SEAS is considered.

Extra requirements:

VTAC Personal Statement (NY12-Some) : Applicants must complete and submit a VTAC Personal statement if they wish other information to be considered during the selection process. This may include information such as work or community experience or reasons for applying. Applicants may wish to provide other documentation in support of their application.

STAT (NY12-Some) : Applicants described in the VTAC 'Admissions Tests' section must sit the STAT Multiple Choice test.

• Bachelor of International Business: 3 years full time study

About the course: Recently revised, this business degree offers an introduction to business in the international context. Following a first year of foundation business subjects and an introduction to international business, students can select business electives to complement their interests and are invited to explore studies in a foreign language and culture. The course aims to provide students with an overall perspective of the international business environment, develop the skills that help them understand how businesses operate in that environment, and be able to plan and manage business operations in the globalised economy.

Prerequisites: Units 1 and 2: satisfactory completion in two units (any study combination) of General Mathematics or Mathematical Methods; and Units 3 and 4: a study score of at least 25 in English (EAL) or 20 in English other than EAL.

Middle-band: Satisfactory completion in Accounting, Business Management or Economics equals 1 aggregate point per study.

Selection Mode: CY12: ATAR and middle-band.

NY12: Educational History including GPA, VTAC Personal Statement (All), STAT (Some), English language test (Some). See extra requirements for more information.

SEAS is considered.

Extra requirements:

VTAC Personal Statement (NY12-All): Applicants must complete and submit a VTAC Personal Statement if they wish other information to be considered during the selection process. This may include information such as work experience or reason for applying. Applicants may wish to provide other documentation in support of their application.

STAT (NY12-Some): Applicants described in the VTAC Admissions tests section must sit the STAT Multiple Choice test.

English language test (NY12-Some): Applicants who do not meet the English language requirement must achieve the required scores in the IELTS (Academic) or equivalent test.

(Minimum scores required for IELTS academic are Speaking=6.0, Writing=6.0, Reading=6.0, Listening=6.0, and Overall=6.0)

International Development (HE)

La Trobe University
Melbourne: 2100321501 (CSP) full-time/part-time
Apply: Through VTAC main round
Bachelor of International Development: 3 years full time study

About the course: Poverty and disadvantage, environmental and community sustainability, social justice and the preservation of human rights represent some of the world's most complex challenges. This makes international development a fascinating and vital discipline. Taught by renowned international development practitioners, you'll become familiar with debates about how development happens and how it can be usefully supported, as well as gaining practical experience. You'll have the opportunity to study abroad at one of our partner universities, or do a supervised international internship with a development organisation. The skills developed in this course can be used in a number of settings - not only in development agencies but also in communications, teaching and many different public service roles.

Domestic applicants with an ATAR of 70 or more will be guaranteed a place in this course.

Major studies: International development.

Prerequisites: Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL.

Middle-band: A study score of 30 in one but no more than three of any Humanities, any LOTE, Legal Studies or Psychology equals 3 aggregate points per study. A study score of 40 in one but no more than one of any English, Australian Politics or Global Politics equals 1 aggregate point per study. Overall maximum of 12 points.

Selection Mode: CY12: ATAR and middle-band.
NY12: Educational History including GPA, VTAC Personal Statement (Some), STAT (Some). See extra requirements for more information.
SEAS is considered.

Extra requirements:
VTAC Personal Statement (NY12-Some): Applicants who have no tertiary studies and have graduated secondary school more than 3 years ago should complete and submit a VTAC personal statement of at least 1000 characters explaining why they wish to study at La Trobe. This may include information such as work experience or reason for applying. Applicants may wish to provide other documentation in support of their application. Preference is given to applicants who submit the statement.

STAT (NY12-Some): Applicants who are 21 years or older, have not engaged in secondary or tertiary studies and want to be considered for mature age entry must sit the STAT multiple-choice test.

International Relations (HE)

La Trobe University

Bachelor of International Relations: 3 years full time study

About the course: One of the leading international relations programs in Australia, with expert staff who are experienced in international policy development. This degree offers a comprehensive survey of political, strategic, economic, legal, social, cultural and organisational trends. You'll gain a thorough understanding of the key dynamics
that shape international affairs. A flexible curriculum means you'll have the opportunity to specialise in specific geographic region (such as Asia or Europe) or a particular field (such as diplomacy or economics). You can also choose from a range of language studies to complement your specialisation. Graduates are likely to find diverse opportunities in government departments and agencies such as Foreign Affairs and Trade, Defence, Prime Minister and Cabinet, Austrade and AusAID. They are also well-suited to roles in specialised inter-governmental agencies such as the UN system, World Health Organisation, international courts and tribunals.

Domestic applicants with an ATAR of 90 or more will be guaranteed a place in this course.

**Major studies:** International Relations.

**Prerequisites:** Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL.

**Middle-band:** A study score of 30 in one but no more than three of any Humanities, any LOTE, Legal Studies or Psychology equals 3 aggregate points per study. A study score of 40 in one but no more than one of any English, Australian Politics or Global Politics equals 1 aggregate point per study. Overall maximum of 12 points.

**Selection Mode:** CY12 : ATAR and middle-band.
NY12 : Educational History including GPA, VTAC Personal Statement (Some), STAT (Some). See extra requirements for more information.

**Extra requirements:**

VTAC Personal Statement (NY12-Some) : Applicants who have no tertiary studies and have graduated secondary school more than 3 years ago should complete and submit a VTAC personal statement of at least 1000 characters explaining why they wish to study at La Trobe. This may include information such as work experience or reason for applying. Applicants may wish to provide other documentation in support of their application. Preference is given to applicants who submit the statement.

STAT (NY12-Some) : Applicants who are 21 years or older, have not engaged in secondary or tertiary studies and want to be considered for mature age entry must sit the STAT multiple-choice test.

- Bachelor of Journalism: 3 years full time study

**About the course:** Social media and the internet have revolutionised the practice and distribution of journalism around the world. They've also heightened the demand for outstanding reportage and commentary across all media platforms. This degree covers print, broadcasting and online journalism, and the social, political and economic role of the media. Every component of this degree is grounded in industry-based education, and you can gain academic credit by doing internships in the media industry. We have a dedicated online journalism laboratory, a fully equipped three-camera television studio, an audio recording studio, portable audio and video recording equipment, and digital editing suites. Our editing suites are accessible around the clock, seven days a week.

Domestic applicants with an ATAR of 85 or more will be guaranteed a place in this course.

**Major studies:** Journalism.

**Prerequisites:** Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL.
**Middle-band:** A study score of 30 in one but no more than three of any Humanities, any LOTE, Legal Studies or Psychology equals 3 aggregate points per study. A study score of 40 in one but no more than one of any English, Media or Interactive Digital Media C equals 1 aggregate point per study. Overall maximum of 12 points.

**Selection Mode:** CY12 : ATAR and middle-band.

NY12 : Educational History including GPA, VTAC Personal Statement (Some), STAT (Some). See extra requirements for more information.

- Bachelor of Journalism (Sport): 3 years full time study

**About the course:** Sport journalists need a highly specific set of skills in order to deliver accurate, rapid and well-informed assessments of sports news and events. This vocationally oriented degree is the only one of its kind in Australia, covering sport management, reporting and media production. You'll gain a thorough grounding in the media's role and operation with practical research, writing, communication and production skills. This degree has a strong emphasis on practical tasks such as participating in press conferences with sports identities, writing match reports and learning the basics of sports broadcasting. Well-known industry figures regularly give guest lectures, and you'll complete an internship.

Domestic applicants with an ATAR of 90 or more will be guaranteed a place in this course.

**Major studies:** Journalism (sport).

**Prerequisites:** Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL.

**Middle-band:** A study score of 30 in one but no more than three of any Humanities, any LOTE, Legal Studies or Psychology equals 3 aggregate points per study. A study score of 40 in one but no more than one of any English, Media, Interactive Digital Media C or Physical Education equals 1 aggregate point per study. Overall maximum of 12 points.

**Selection Mode:** CY12 : ATAR and middle-band.

NY12 : Educational History including GPA, VTAC Personal Statement (Some), STAT (Some). See extra requirements for more information.

SEAS is considered.

**Extra requirements:**

VTAC Personal Statement (NY12-Some) : Applicants who have no tertiary studies and have graduated secondary school more than 3 years ago should complete and submit a VTAC personal statement of at least 1000 characters
explaining why they wish to study at La Trobe. This may include information such as work experience or reason for applying. Applicants may wish to provide other documentation in support of their application. Preference is given to applicants who submit the statement.

STAT (NY12-Some) : Applicants who are 21 years or older, have not engaged in secondary or tertiary studies and want to be considered for mature age entry must sit the STAT multiple-choice test.

- Bachelor of Laws: 3 years full time study

**About the course:** Designed for those with existing degrees, the Bachelor of Laws (Graduate Entry) is a three-year degree which provides an accredited professional qualification in law with a strong global and social justice perspective and a real emphasis on practical hands-on skills. It includes all the compulsory subjects required by the Council of Legal Education for admission to legal practice in Victoria, as well as a broad range of electives, many with a skills component, such as clinical legal education, international advocacy, mediation and negotiation. You can also access electives from the Master of Laws in Global Business Law taught by some of the world's leading scholars and practitioners. If you commence your studies at Bendigo campus, you will normally transfer to Melbourne after one year of full-time study but you can elect to complete your law studies in Bendigo by e-learning.

**Major studies:** Law.

**Prerequisites:** Bachelor Degree

**Middle-band:** None

**Selection Mode:** NY12 : Educational History including GPA, VTAC Personal Statement (All), STAT (Some), English language test (Some). See extra requirements for more information.

SEAS is considered.

**Extra requirements:**

VTAC Personal Statement (NY12-All) : Applicants must complete and submit a VTAC Personal Statement if they wish other information to be considered during the selection process. This may include information such as work experience or reason for applying. Applicants may wish to provide other documentation in support of their application.

STAT (NY12-Some) : Applicants described in the VTAC Admissions tests section must sit the STAT Multiple Choice test.

English language test (NY12-Some) : Applicants who do not meet the English language requirement must achieve the required scores in the IELTS (Academic) or equivalent test. Applicants who have completed a degree in a language other than English must submit a certified hardcopy or their IELTS (or equivalent) test result to VTAC.

- Bachelor of Laws: 4 years full time study

About the course: Designed for school leavers and tertiary students who have not yet completed an undergraduate degree, this four-year degree provides an accredited professional qualification in law, but also requires students to complete subjects in another non-law discipline of choice such as science, media, politics or marketing, without having to complete a separate degree in that discipline. The program offers an innovative, high quality legal education with a strong global and social justice perspective and a real emphasis on hands-on experiences. It includes all the compulsory law subjects required by the Council of Legal Education for admission to practice in Victoria and a wide range of law electives, many with a practical skills component such as clinical legal education, international advocacy, mediation and negotiation. Students commencing their studies at Bendigo normally transfer to Melbourne after two years of full-time study, where they complete the remainder of their course but can elect to complete their law studies in Bendigo by e-learning.

Major studies: Law.

Prerequisites: Units 3 and 4: a study score of at least 35 in English (EAL) or 30 in English other than EAL.

Middle-band: Satisfactory completion in any Humanities or any unscored VET Humanities is considered.

Selection Mode: CY12: ATAR and middle-band, VTAC Personal Statement (All). See extra requirements for more information.

NY12: VTAC Personal Statement (All), STAT (Some), English language test (Some). See extra requirements for more information.

SEAS is considered.

Extra requirements:

VTAC Personal Statement (CY12-All, NY12-All): Applicants must complete and submit a VTAC Personal Statement if they wish other information to be considered during the selection process. This may include information such as work experience or reason for applying. Applicants may wish to provide other documentation in support of their application.

STAT (NY12-Some): Applicants described in the VTAC Admissions tests section must sit the STAT Multiple Choice test.

English language test (NY12-Some): Applicants who do not meet the English language requirement must achieve the required scores in the IELTS (Academic) or equivalent test.
Bachelor of Laws/Accounting: 5 years full time study

About the course: Combining accredited professional qualifications in both law and accounting, this program offers an innovative, high quality legal education with a strong global and social justice perspective and a real emphasis on hands-on experiences. It includes all the compulsory law subjects required by the Council of Legal Education for admission to practice in Victoria and a wide range of electives, many with a practical skills component such as clinical legal education, international advocacy, mediation and negotiation. It also includes compulsory specialised subjects relevant to business such as Banking and Finance Law, Competition Policy and Law or an approved subject from the Master of Laws in Global Business Law. The accounting component meets the membership requirements of the key professional accounting organisations and provides the skills and knowledge for professional accounting practice and management of large and small enterprises in the government and private sectors. Electives are available from a range of areas including financial management, financial planning, and management and may include a work-integrated learning subject. This degree also shares a business foundation and first year framework with all other undergraduate degrees offered by the La Trobe Business School which enhances the flexibility available to students.

Major studies: Accounting, Law.

Prerequisites: Units 3 and 4: a study score of at least 35 in English (EAL) or 30 in English other than EAL.

Middle-band: Satisfactory completion in any Business, any Humanities, any unscored VET Business or any unscored VET Humanities is considered.

Selection Mode: CY12: ATAR and middle-band.

NY12: Educational History including GPA, VTAC Personal Statement (All), STAT (Some), English language test (Some). See extra requirements for more information.

SEAS is considered.

Extra requirements:

VTAC Personal Statement (NY12-All): Applicants must complete and submit a VTAC Personal Statement if they wish other information to be considered during the selection process. This may include information such as work experience or reason for applying. Applicants may wish to provide other documentation in support of their application.

STAT (NY12-Some): Applicants described in the VTAC Admissions tests section must sit the STAT Multiple Choice test.

English language test (NY12-Some): Applicants who do not meet the English language requirement must achieve the required scores in the IELTS (Academic) or equivalent test.

(Minimum scores required for IELTS academic are Speaking=6.0, Writing=6.0, Reading=6.0, Listening=6.0, and Overall=6.5)

Melbourne: 2100321613 (IFP) full-time  Apply: Through VTAC main round

- Bachelor of Laws/Arts: 5 years full time study

About the course: Combining an accredited professional qualification in law with a degree in arts, this program offers an innovative, high quality legal education with a strong global and social justice perspective and a real emphasis on hands-on experiences. It includes all the compulsory law subjects required by the Council of Legal Education for admission to practice in Victoria and a wide range of law electives, many with a practical skills component such as clinical legal education, international advocacy, mediation and negotiation. Students can select a major from a wide range of disciplines offered by the Faculty of Humanities and Social Sciences and can also complete law electives which complement their arts specialisation. Students commencing their studies at Bendigo normally transfer to Melbourne after two full-time years of study, where they complete the remainder of their course, but can elect to complete their law studies in Bendigo by e-learning.

Prerequisites: Units 3 and 4: a study score of at least 35 in English (EAL) or 30 in English other than EAL.

Middle-band: Satisfactory completion in any Humanities or any unscored VET Humanities is considered.

Selection Mode: CY12: ATAR and middle-band.
NY12: Educational History including GPA, VTAC Personal Statement (All), STAT (Some), English language test (Some). See extra requirements for more information.

SEAS is considered.

Extra requirements:
VTAC Personal Statement (NY12-All): Applicants must complete and submit a VTAC Personal Statement if they wish other information to be considered during the selection process. This may include information such as work experience or reason for applying. Applicants may wish to provide other documentation in support of their application.

STAT (NY12-Some): Applicants described in the VTAC Admissions tests section must sit the STAT Multiple Choice test.

English language test (NY12-Some): Applicants who do not meet the English language requirement must achieve the required scores in the IELTS (Academic) or equivalent test.

(Minimum scores required for IELTS academic are Speaking=6.0, Writing=6.0, Reading=6.0, Listening=6.0, and Overall=6.5)
**About the course:** Combining an accredited professional qualification in law with a degree in business, this program offers an innovative, high quality legal education with a strong global and social justice perspective and a real emphasis on hands-on experiences. It includes all the compulsory law subjects required by the Council of Legal Education for admission to practice in Victoria and a wide range of law electives, including subjects complementary to business such as banking and finance law, income taxation law and global business law. Focused on problem-solving and decision-making skills, the business component offers more than ten majors including management, human resources, international and sport management, marketing and management information systems. Students commencing their studies at Bendigo normally transfer to Melbourne after two years of full-time study where they complete the remainder of their course but can elect to complete their law studies in Bendigo by e-learning.

**Prerequisites:** Units 3 and 4: a study score of at least 35 in English (EAL) or 30 in English other than EAL.

**Middle-band:** Satisfactory completion in any Business, any Humanities, any unscored VET Business or any unscored VET Humanities is considered.

**Selection Mode:** CY12: ATAR and middle-band.
NY12: Educational History including GPA, VTAC Personal Statement (All), STAT (Some), English language test (Some). See extra requirements for more information.
SEAS is considered.

**Extra requirements:**
VTAC Personal Statement (NY12-All): Applicants must complete and submit a VTAC Personal Statement if they wish other information to be considered during the selection process. This may include information such as work experience or reason for applying. Applicants may wish to provide other documentation in support of their application.
STAT (NY12-Some): Applicants described in the VTAC Admissions tests section must sit the STAT Multiple Choice test.
English language test (NY12-Some): Applicants who do not meet the English language requirement must achieve the required scores in the IELTS (Academic) or equivalent test.
(Minimum scores required for IELTS academic are Speaking=6.0, Writing=6.0, Reading=6.0, Listening=6.0, and Overall=6.5)
La Trobe University

Bachelor of Laws/Economics: 5 years full time study

About the course: Combining an accredited professional qualification in law with studies in economics, this double degree offers an innovative, high quality legal education with a strong global and social justice perspective and a thorough grounding in economic theory. It includes all the compulsory law subjects required by the Council of Legal Education for admission to practice in Victoria and a wide range of law electives, many with a practical skills component such as clinical legal education, international advocacy, mediation and negotiation. It also includes compulsory specialised subjects relevant to economics such as Banking and Finance Law, Competition Law and Policy, or an approved subject from the Master of Laws in Global Business. The flexible economics program offers a range of specialisations including Macroeconomics and Microeconomic Analysis and Policy, Business Economics, International Trade and Finance, Business Models and Forecasting and Resource and Environmental Economics.

Major studies: Economics, Law.

Prerequisites: Units 3 and 4: a study score of at least 35 in English (EAL) or 30 in English other than EAL; and a study score of at least 20 in any Mathematics.

Middle-band: Satisfactory completion in any Business, any Humanities, any unscored VET Business or any unscored VET Humanities is considered.

Selection Mode: CY12: ATAR and middle-band.

NY12: Educational History including GPA, VTAC Personal Statement (All), STAT (Some), English language test (Some). See extra requirements for more information.

SEAS is considered.

Extra requirements:

VTAC Personal Statement (NY12-All): Applicants must complete and submit a VTAC Personal Statement if they wish other information to be considered during the selection process. Law/Media (HE)

La Trobe University
Melbourne:2100321571 (CSP) full-time/part-time Apply: Through VTAC main round

- Bachelor of Laws/Bachelor of Media: 5 years full time study

About the course: Combining an accredited professional qualification in law with studies in media, this recently revised double degree offers an innovative, high quality legal education with a strong global and social justice perspective and a real emphasis on hands-on experience. It includes all the compulsory law subjects required by the Council of Legal Education for admission to practice in Victoria and compulsory specialised subjects relevant to media such as Intellectual Property Law. The Bachelor of Media offers students a flexible and forward-looking approach to the converging fields of film, radio, television and new media. In core subjects students develop strong foundations in the creative use of media, gain a critical understanding of the role of media in social and cultural life and knowledge of the operation and regulation of the media. Students develop skills in collaborative productions for small and big screens, radio and audio design and digital media. Opportunities are also available to gain skills in screenwriting, project development and the creative use of media technologies. The program recognises the diverse career paths open to graduates by preparing them for employment in law or a broad range of media-making, across different platforms and industries.

Major studies: Law, Media.

Prerequisites: Units 3 and 4: a study score of at least 35 in English (EAL) or 30 in English other than EAL.

Middle-band: Satisfactory completion in any Humanities or any unscored VET Humanities is considered.

Selection Mode: CY12 : ATAR and middle-band.

NY12 : Educational History including GPA, VTAC Personal Statement (All), STAT (Some), English language test (Some). See extra requirements for more information.

- Bachelor of Laws/Psychological Science: 5 years full time study

**About the course:** Combining an accredited professional qualification in law with a degree in psychology, this program includes all the compulsory law subjects required by the Council of Legal Education for admission to practice in Victoria and a wide range of law electives, many with a skills component, such as clinical legal education, international advocacy, mediation and negotiation. The Psychological Science component includes a focus on all of the core content areas of the discipline from biological foundations to social influences on affect, behaviour and cognition, as well as strong training in research methods and the opportunity for study in greater depth in specific areas where staff have research expertise. However, it does not qualify a graduate to work as a psychologist. Further education, training and supervised experience is required for registration as a professional psychologist with the Psychology Board of Australia and for membership of the Australian Psychological Society (APS). Students commencing their studies at Bendigo normally transfer to Melbourne after two years of full-time study where they complete the remainder of their course, but can elect to remain in Bendigo and complete their law studies by e-learning.

**Major studies:** Law, Psychology.

**Prerequisites**:

Units 3 and 4: a study score of at least 35 in English (EAL) or 30 in English other than EAL.

**Middle-band**:

Satisfactory completion in Biology, any Humanities, Psychology or any unscored VET Humanities is considered.
Selection Mode: CY12: ATAR and middle-band.
NY12: Educational History including GPA, VTAC Personal Statement (All), STAT (Some), English language test (Some). See extra requirements for more information.
SEAS is considered.

Extra requirements:
VTAC Personal Statement (NY12-All): Applicants must complete and submit a VTAC Personal Statement if they wish other information to be considered during the selection process. This may include information such as work experience or reason for applying. Applicants may wish to provide other documentation in support of their application.

- Bachelor of Legal Studies: 3 years full time study

**About the course:** The law plays a significant role in all aspects of our lives, from our relationships with each other to the way in which our system of government operates. This degree helps you understand the ways in which the law shapes people, and how people shape the law. It highlights the intricate connections between law and different social, economic and political contexts, helping you consider law as a dynamic process involving the negotiation of competing perspectives. You'll gain the knowledge and skills you need to analyse and assess the nature, operation, significance and effects of the law. Rather than preparing you to practice law, this degree prepares you for many careers relevant to legal issues.

Domestic year 12 students only: with an ATAR of 80 or more will be guaranteed a place in this course.

**Major studies:** Legal studies.

**Prerequisites:** Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL.

**Middle-band:** A study score of 30 in one but no more than four of any Humanities, any LOTE or Psychology equals 3 aggregate points per study. A study score of 40 in one but no more than one of Legal Studies equals 1 aggregate point. Overall maximum of 12 points.

**Selection Mode:** CY12: ATAR and middle-band.

NY12: Educational History including GPA, VTAC Personal Statement (Some), STAT (Some). See extra requirements for more information.

SEAS is considered.

**Extra requirements:**

VTAC Personal Statement (NY12-Some): Applicants who have no tertiary studies and have graduated secondary school more than 3 years ago should complete and submit a VTAC personal statement of at least 1000 characters explaining why they wish to study at La Trobe. This may include information such as work experience or reason for applying. Applicants may wish to provide other documentation in support of their application. Preference is given to applicants who submit the statement.

STAT (NY12-Some): Applicants who are 21 years or older, have not engaged in secondary or tertiary studies and want to be considered for mature age entry must sit the STAT multiple-choice test.

---

**Marketing (HE)**

**La Trobe University**
Bachelor of Business (Marketing): 3 years full time study

About the course: This specialist degree equips students with the skills and knowledge required for a career as a marketing manager or related marketing positions in fields like advertising, brand and product management. It provides internationally transferable competencies and skills. The curriculum covers marketing fundamentals, advertising and brand management, sustainable marketing, international marketing, market research, and strategic data analysis. A special feature is the program's experiential content, including a marketing practicum aimed at developing work-integrated learning, and an International marketing study tour which introduces students to the practical experience of marketing in an international context.

Major studies: Marketing.

Prerequisites: Units 3 and 4: a study score of at least 25 in English (EAL) or 20 in English other than EAL.

Middle-band: Satisfactory completion in Business Management equals 1 aggregate point. Satisfactory completion in any Business or any unscored VET Business is considered.

Selection Mode: CY12 : ATAR and middle-band.
NY12 : Educational History including GPA, VTAC Personal Statement (All), STAT (Some), English language test (Some). See extra requirements for more information.
SEAS is considered.

Extra requirements:
VTAC Personal Statement (NY12-All) : Applicants must complete and submit a VTAC Personal Statement if they wish other information to be considered during the selection process. This may include information such as work experience or reason for applying. Applicants may wish to provide other documentation in support of their application.
STAT (NY12-Some) : Applicants described in the VTAC Admissions tests section must sit the STAT Multiple Choice test.
English language test (NY12-Some) : Applicants who do not meet the English language requirement must achieve the required scores in the IELTS (Academic) or equivalent test.

(Minimum scores required for IELTS academic are Speaking=6.0, Writing=6.0, Reading=6.0, Listening=6.0, and Overall=6.0)

Mechatronic and Robotic Engineering (Honours) (HE)

La Trobe University

Bachelor Degree (Honours) in Mechatronic and Robotic Engineering (Honours): 4 years full time study

About the course: Mechatronic and robotic engineers design and integrate mechanical, electronic and software elements to engineer solutions to diverse real world problems from robotics and factory automation through to hard drive design and autonomous systems. This course provides accredited training for the rapidly growing fields related to integration and control of mechanical systems.

This course aims to give students an in-depth practical understanding of robotics and mechatronic systems. Students are taught with a wide scope including fabrication and programming of robots, development of mechatronic systems, software and firmware development for Field Programmable Gate Arrays (FPGA's) and microcontrollers, control systems, engineering management and communications. Underpinning these topics are
foundational physics and mathematics skills which are taught in the first two years. The first year of the course is an engineering common year, providing flexibility to swap to different engineering disciplines. Students complete projects in every year of study, culminating in a year-long project in 4th year which prepares them as engineers in industry.

**Prerequisites:** Units 3 and 4: a study score of at least 25 in English (EAL) or 20 in English other than EAL; and a study score of at least 20 in one of Maths: Mathematical Methods (CAS) or Maths: Specialist Mathematics.

**Middle-band:** Satisfactory completion in Physics equals 1.5 aggregate points. Satisfactory completion in Maths: Specialist Mathematics equals 1.5 aggregate points. Overall maximum of 3 points.

**Selection Mode:** CY12 : ATAR and middle-band.

NY12 : Educational History including GPA, VTAC Personal Statement (Some), STAT (Some). See extra requirements for more information.

SEAS is considered.

**Extra requirements:**

VTAC Personal Statement (NY12-Some) : Applicants must complete and submit a VTAC Personal statement if they wish other information to be considered during the selection process. This may include information such as work or community experience or reasons for applying. Applicants may wish to provide other documentation in support of their application.

STAT (NY12-Some) : Applicants described in the VTAC 'Admissions Tests' section must sit the STAT Multiple Choice test.

- Bachelor of Media: 3 years full time study

**About the course:** This course offers you a flexible and progressive approach to the converging fields of film, television, radio and new media. In this rapidly changing media landscape, you need a current and relevant media course to put you ahead of the game. You'll develop practical skills and a thorough understanding of the role the media plays in social, political and cultural life. A wide choice of electives ensures you can align your studies with your creative and career goals. You'll have access to outstanding on-campus media production facilities including portable audio and video recording equipment, a fully equipped three-camera television studio, state-of-the-art audio recording studio, and 24-hour digital editing suites.

Domestic applicants with an ATAR of 80 or more will be guaranteed a place in this course.

**Major studies:** Media.

**Prerequisites:** Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL.
**Middle-band:** A study score of 30 in one but no more than four of any Humanities, any LOTE, Legal Studies or Psychology equals 3 aggregate points per study. A study score of 40 in one but no more than one of any English or Media equals 1 aggregate point per study. Overall maximum of 12 points.

**Selection Mode:** CY12 : ATAR and middle-band.

NY12 : Educational History including GPA, VTAC Personal Statement (Some), STAT (Some). See extra requirements for more information.

SEAS is considered.

**Extra requirements:**

VTAC Personal Statement (NY12-Some) : Applicants who have no tertiary studies and have graduated secondary school more than 3 years ago should complete and submit a VTAC personal statement of at least 1000 characters explaining why they wish to study at La Trobe. This may include information such as work experience or reason for applying. Applicants may wish to provide other documentation in support of their application. Preference is given to applicants who submit the statement.

STAT (NY12-Some) : Applicants who are 21 years or older, have not engaged in secondary or tertiary studies and want to be considered for mature age entry must sit the STAT multiple-choice test.

- Bachelor of Medicinal Chemistry: 3 years full time study

**About the course:** Provides a multi-disciplinary primary qualification in aspects of medicinal chemistry. It is a field of science growing rapidly at the interface of organic chemistry, biochemistry, (molecular) biology and computational methods. This science degree, majoring in chemistry and biochemistry or chemistry and microbiology, with specialist studies in medicinal chemistry topics aims to equip students with the interdisciplinary skills necessary for a broad range of scientific careers in the biotechnology/pharmaceutical industries.

Core subjects in chemistry and electives, biochemistry or microbiology include specialised studies in medicinal chemistry. Second and third year studies focus on components of these core subjects including biological and medicinal chemistry, spectroscopy and molecular design.

**Major studies:** Biochemistry, Chemistry, Medicinal chemistry.

**Prerequisites:** Units 3 and 4: a study score of at least 25 in English (EAL) or 20 in English other than EAL; and a study score of at least 20 in Chemistry; and a study score of at least 20 in one of Maths: Mathematical Methods (CAS) or Maths: Specialist Mathematics.

**Middle-band:** Satisfactory completion in Maths: Specialist Mathematics equals 1.5 aggregate points. Overall maximum of 3 points.

**Selection Mode:** CY12 : ATAR and middle-band.

NY12 : Educational History including GPA, VTAC Personal Statement (Some), STAT (Some). See extra requirements for more information.

SEAS is considered.

**Extra requirements:**

VTAC Personal Statement (NY12-Some) : Applicants must complete and submit a VTAC Personal statement if they wish other information to be considered during the selection process. This may include information such as work or
community experience or reasons for applying. Applicants may wish to provide other documentation in support of their application.

STAT (NY12-Some) : Applicants described in the VTAC 'Admissions Tests' section must sit the STAT Multiple Choice test.

- Bachelor of Bachelor of Nanotechnology/Bachelor of Science: 3 years full time study

**About the course:** Nanotechnology is an emerging field in chemistry, physics and biology with sweeping implications for new technologies. Combining a degree in science, majoring in physics and chemistry or biochemistry, with specialist studies in nanotechnology; this course aims to equip students with interdisciplinary skills necessary for a broad range of careers in nanotechnology, science and industry.

Core subjects in physics, chemistry, biochemistry and mathematics are combined with specialised studies in nanotechnology and a nanotechnology seminar series featuring leading speakers. A nanotechnology based research project is undertaken in fourth year. Students may participate in an industry cadetship program on a competitive basis.

Applicants are encouraged to visit the following website for entrance scholarship and course information:  

**Major studies:** Biochemistry, Bionanotechnology, Chemistry, Mathematics, Nanostructured materials, Nanotechnology, Physics, Science.

**Prerequisites:** Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL; and a study score of at least 25 in Chemistry; and a study score of at least 25 in Maths: Mathematical Methods (CAS); and a study score of at least 20 in one of Maths: Specialist Mathematics or Physics.

**Middle-band:** Satisfactory completion in two but no more than two of Maths: Mathematical Methods (CAS) and Physics equals 1.5 aggregate points per study. Overall maximum of 3 points.

**Selection Mode:** CY12 : ATAR and middle-band.

NY12 : Educational History including GPA, VTAC Personal Statement (Some), STAT (Some). See extra requirements for more information.

SEAS is considered.

**Extra requirements:**

VTAC Personal Statement (NY12-Some) : Applicants must complete and submit a VTAC Personal statement if they wish other information to be considered during the selection process. This may include information such as work or community experience or reasons for applying. Applicants may wish to provide other documentation in support of their application.

STAT (NY12-Some) : Applicants described in the VTAC 'Admissions Tests' section must sit the STAT Multiple Choice test.

**Nursing (HE)**

**La Trobe University**

Bachelor of Nursing: 3 years full time study

About the course: The Bachelor of Nursing is a three-year full-time course that leads to registration as a Registered Nurse with the Australian Health Practitioners Registration Authority (AHPRA). The course is designed to foster intellectual development, critical thinking and continuing professional development. The Clinical Learning Unit enables students to practice and develop clinical skills using simulation learning methods in a supportive environment. Clinical experiences provided in each year of the course, integrate knowledge and skills through observation and practice. The clinical learning practicum occurs in hospitals and health care agencies within regional and metropolitan areas. Interstate placements may also be required. Clinical placements may be required outside of semester and normal business hours. Melbourne (Bundoora) applicants may be eligible to apply for an early conditional offer under the ASPIRE – Early Entry Program (AEEP). Conditional offers are based on academic achievements and community contributions. For detailed information including eligibility requirements and application process, please refer to the La Trobe University 'Special consideration' page.
Major studies: Nursing.

Prerequisites: Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL.

Middle-band: A study score of 20 in one but no more than two of Biology, Chemistry, Health & Human Development, any Mathematics, Physical Education, Physics or Psychology equals 1 aggregate point per study. Overall maximum of 2 points.

Selection Mode: CY12 : ATAR and middle-band, VTAC Personal Statement (All). See extra requirements for more information.

NY12 : Educational History including GPA, VTAC Personal Statement (All), Interview (Some), STAT (Some). See extra requirements for more information.

SEAS is considered.

Extra requirements:

VTAC Personal Statement (CY12-All, NY12-All) : Applicants must complete and submit a VTAC Personal Statement if they wish other information to be considered during the selection process. This may include information such as work experience or reason for applying. Applicants may wish to provide other documentation in support of their application.

Interview (NY12-Some) : Applicants required to attend will be provided with details by telephone or mail. These applicants must attend in November/December.

STAT (NY12-Some) : Applicants described in the VTAC Admissions tests section must sit the STAT Multiple Choice test.

Bachelor of Nursing: 2 years full time study

About the course: The Bachelor of Nursing (Division 2 Conversion) is a two-year full-time course that leads to registration as a Registered Nurse with the Australian Health Practitioners Registration Authority (AHPRA). This course is only available to applicants holding a current Enrolled Nurse Registration with AHPRA who wish to upgrade their qualification to a Bachelor of Nursing. This course is not available to CY12 applicants. The Clinical Learning Unit enables students to practice and develop clinical skills using simulation learning methods in a supportive environment. Clinical experiences provided in each year of the course integrate knowledge and skills through observation and practice. The clinical learning practicum occurs in hospitals and health care agencies within regional and metropolitan areas. Interstate placements may also be required. Clinical placements may be required outside of semester and normal business hours. Deferral is not available for this course.

Major studies: Nursing.

Prerequisites: Current Enrolled Nurse Registration with AHPRA

Middle-band: None

Selection Mode: NY12: Educational History including GPA, VTAC Personal Statement (All), Information kit (All), Interview (Some), Test (Some). See extra requirements for more information.

SEAS is considered.

Extra requirements:

VTAC Personal Statement (NY12-All): Applicants must complete and submit a VTAC Personal Statement if they wish other information to be considered during the selection process. This may include information such as work experience or reason for applying. Applicants may wish to provide other documentation in support of their application.

Information kit (NY12-All): Applicants must submit a certified copy of their Enrolled Nurse Registration to VTAC by the early application closing date

Interview (NY12-Some): Applicants required to attend will be provided with details by telephone or mail. These applicants must attend in November/December.

Test (NY12-Some): Test: Applicants to the Melbourne Campus must complete a selection examination set by La Trobe University in mid-October. A repeat of this test will be held in mid-December for late applicants. All applicants to the Melbourne Campus must refer to www.latrobe.edu.au/health to register their attendance.

Bridging Studies: Students with pre-2008 Registration must complete the online Physiology & Anatomy Bridging Course. All Students must complete the compulsory Cornerstone Transition Program conducted in February and prior to the course commencement.
Bachelor of Nursing: 2 years full time study

About the course: The Bachelor of Nursing (Graduate Entry) is a two year full time course that leads to registration as a Registered Nurse with the Australian Health Practitioners Registration Authority (AHPRA). This course is available to applicants who have completed an Australian bachelor degree (or equivalent), not available to CY12 students. The course is designed to foster intellectual development, critical thinking and continuing professional development. The Clinical Learning Unit enables students to practice and develop clinical skills using simulation learning methods in a supportive environment. Planned clinical experiences will be provided each year integrating knowledge and skills through observation and practice and they occur in hospitals and health care agencies within regional and metropolitan areas. Interstate placements may also be required. Clinical placements may be required outside of semester and normal business hours. Deferral is not available for this course.

Major studies: Nursing.

Prerequisites: Bachelor Degree

Middle-band: None

Selection Mode: NY12 : Educational History including GPA, VTAC Personal Statement (All), STAT (Some), Bridging Studies. See extra requirements for more information.
SEAS is considered.

Extra requirements:
VTAC Personal Statement (NY12-All) : Applicants must complete and submit a VTAC Personal Statement if they wish other information to be considered during the selection process. This may include information such as work experience or reason for applying. Applicants may wish to provide other documentation in support of their application.
STAT (NY12-Some) : Applicants described in the VTAC Admissions tests section must sit the STAT Multiple Choice test.
Students who do not have necessary Anatomy & Physiology requirements must complete the online Physiology & Anatomy Bridging course. Refer to www.latrobe.edu.au/health for more information. All students must complete the compulsory Cornerstone Transition Program conducted in February prior to the course commencement.

Nursing/Midwifery (HE)

La Trobe University
Bachelor of Nursing/Midwifery: 4 years full time study

**About the course:** This course prepares students for Registration as a Nurse and Midwife with the Australian Health Practitioners Registration Authority (AHPRA). The course is designed for students to integrate their learning across nursing and midwifery in each semester of the program. The course is designed to foster intellectual development, critical thinking and continuing professional development. Clinical experiences are provided in each year of the course and they are designed to integrate knowledge and skills through observation and practice in both nursing and midwifery. The clinical learning practicum occurs in hospitals and health care agencies within regional and metropolitan areas. Interstate placements may also be required. It is not possible for students to withdraw before the end of the four years and be eligible for registration with AHPRA. Clinical practice components may be outside of normal semester time.

**Major studies:** Midwifery, Nursing.

**Prerequisites:** Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL.

**Middle-band:** A study score of 20 in one but no more than two of Biology, Chemistry, Health And Human Development, any Mathematics, Physical Education, Physics or Psychology equals 1 aggregate point per study. Overall maximum of 2 points.

**Selection Mode:** CY12 : ATAR and middle-band, VTAC Personal Statement (All). See extra requirements for more information.
NY12 : Educational History including GPA, VTAC Personal Statement (All), STAT (Some). See extra requirements for more information.
SEAS is considered.

**Extra requirements:**
VTAC Personal Statement (CY12-All, NY12-All) : Applicants must complete and submit a VTAC Personal Statement if they wish other information to be considered during the selection process. This may include information such as work experience or reason for applying. Applicants may wish to provide other documentation in support of their application.
STAT (NY12-Some) : Applicants described in the VTAC Admissions tests section must sit the STAT Multiple Choice test.

---

**Oral Health Science (HE)**

**La Trobe University**

Bachelor of Oral Health Science: 2.5 years full time study

**About the course:** This course qualifies students to register as dental hygienists, dental therapists and Oral Health Therapists, who provide a wide range of dental care in a variety of settings. Students complete a number of common subjects as well as specific subjects in oral health and health sciences in the first two years, to underpin
the theoretical and clinical practice of oral health. Pre-clinical and clinical oral health subjects are undertaken over the six semesters of the course. Clinical experience, working with a wide variety of patients, will be completed in different (inter)disciplinary settings in mostly rural and/or regional areas. A summer semester is completed at the end of Year 2. During summer semester you will have the opportunity to elect an international placement of 2 weeks. The course offers you theoretical and practical experience in the complete scope of practice of the oral health therapist, including simple restorative procedures in adult patients.

**Major studies:** Dental hygiene, Dental therapy, Evidence based oral health practice, Oral health science, Preventive dentistry.

**Prerequisites:** Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL; and a study score of at least 25 in one of Biology, Chemistry or Physical Education.

**Middle-band:** None

**Selection Mode:** CY12: ATAR, VTAC Personal Statement (Some), Work experience (All). See extra requirements for more information.

NY12: Educational History including GPA, VTAC Personal Statement (All), Interview (Some), STAT (Some), UMAT/ISAT (Some), Work experience (All). See extra requirements for more information.

SEAS is considered.

**Extra requirements:**

VTAC Personal Statement (CY12-Some, NY12-All): CY12 Applicants with work experience must complete and submit a VTAC Personal Statement. NY12 Applicants must complete and submit a VTAC Personal Statement if they wish other information to be considered during the selection process. This may include information such as work experience or reason for applying. Applicants may wish to provide other documentation in support of their application.

Interview (NY12-Some): Details will be provided by telephone or email to the applicants required to attend. These applicants must attend in December.

STAT (NY12-Some): Applicants described in the VTAC Admissions tests section must sit the STAT Multiple Choice test.

UMAT/ISAT (NY12-Some): Some applicants described in the Admissions Tests section must complete the UMAT.

Work experience (CY12-All, NY12-All): Applicants who outline relevant work experience as part of their VTAC Personal Statement, may be eligible for extra consideration during the selection process.

- Master of Orthoptics: 2 years full time study
About the course: This course enables graduates in another discipline to obtain a professional qualification in Orthoptics, specialising in detection, diagnosis and treatment of vision and eye disorders. They work in specialist eye clinics and public hospitals, with ophthalmic surgeons to monitor eye disease and provide treatment, including prescribing of glasses. They also provide low vision rehabilitation, work in private practices and are employed in research centres. This 2 year program is based on an enquiry based learning (EBL) method. Theory of eye disease is integrated with orthoptic skills for the competent investigation, diagnosis and management of patients. In the final 18 months of the course, students attend clinical placements within the Eye and Ear Hospital clinical school network and other clinical settings, where they learn to further develop and refine their clinical and patient management skills. There is availability of rural, interstate or international clinical placement. Deferral is not available for this course.

Prerequisites: Bachelor Degree normally completed in the last 5 years in a relevant field of study.

Middle-band: None

Selection Mode: NY12 : Educational History including GPA, VTAC Personal Statement (All), Bridging Studies. See extra requirements for more information.

Extra requirements:

VTAC Personal Statement (NY12-All) : All applicants must complete and submit a VTAC Personal Statement. Students may be required to undertake bridging studies (short ‘summer’ or ‘winter’ courses), depending on the content of their previous degree. Refer to the following website for more information: www.latrobe.edu.au/health

- Bachelor of Outdoor Education: 3 years full time study

About the course: This course offers you choice of Major study sequence in Outdoor Education, in Environmental and Sustainability Education, or in Educational Nature Tourism. You complete studies in outdoor education, environmental studies, safety in outdoor environments, natural history, environmental education, leadership studies, education studies and between 80 and 130 days of practical experience (depending on chosen Major) with specializations preparing for careers in outdoor education, environmental education, sustainability education or eco-tourism. Practical electives include bushwalking, rock climbing, cross-country skiing, paddling, and naturalist studies developing knowledge of the Bendigo Region, Victorian Alps, Grampians and Murray River system.

Major studies: Catchment management, Cultural studies, Ecological studies, Ecosystem management, Environment and sustainability, Environmental management, Environmental studies, Geography, Land and water management, Land resource management, Natural resource management, Outdoor education, Outdoor leadership and guiding, Outdoor recreation, Parks and recreation management, Resource/environmental management.

Prerequisites: Units 3 and 4: a study score of at least 25 in English (EAL) or 20 in English other than EAL.

Middle-band: None

Selection Mode: CY12 : ATAR, VTAC Personal Statement (Some). See extra requirements for more information.

NY12 : Educational History including GPA, VTAC Personal Statement (Some), STAT (Some). See extra
requirements for more information.

SEAS is considered.

**Extra requirements:**

VTAC Personal Statement (CY12-Some, NY12-Some) : Applicants must complete and submit a VTAC Personal statement if they wish other information to be considered during the selection process. This may include information such as work or community experience or reasons for applying. Applicants may wish to provide other documentation in support of their application.

STAT (NY12-Some) : Some applicants as described in the Admissions Test Section must sit STAT Multiple Choice.

- Bachelor of Outdoor Recreation Education: 3 years full time study

**About the course:** This course offers you choice of Major study sequence in either Outdoor Recreation Education or Natural Resources Education. Outdoor Recreation Education combines a core of outdoor education, environmental studies, safety in outdoor environments, leadership studies, and 170 days of practical experience with specializations preparing you for careers in outdoor recreation and school camps. Natural Resources Education combines a core of environmental studies, natural history and 50 days of practical experience with specializations preparing you for careers as a park ranger, in community environmental education or with land management agencies. Practical electives include bushwalking, rock climbing, cross-country skiing and paddling, developing knowledge of the Bendigo Region, Victorian Alps, Grampians and Murray River system.

**Major studies:** Community work, Ecosystem management, Environmental and sustainability management, Environmental studies, Geography, Land and water management, Land resource management, Natural resource management, Outdoor education, Outdoor leadership and guiding, Outdoor recreation, Parks and recreation management, Recreation, Resource/environmental management.

**Prerequisites:** Units 3 and 4: a study score of at least 25 in English (EAL) or 20 in English other than EAL.

**Middle-band:** None

**Selection Mode:** CY12 : ATAR, VTAC Personal Statement (Some). See extra requirements for more information.

NY12 : Educational History including GPA, VTAC Personal Statement (Some), STAT (Some). See extra requirements for more information.

SEAS is considered.

**Extra requirements:**

VTAC Personal Statement (CY12-Some, NY12-Some) : Applicants must complete and submit a VTAC Personal statement if they wish other information to be considered during the selection process. This may include information such as work or community experience or reasons for applying. Applicants may wish to provide other documentation in support of their application.

STAT (NY12-Some) : Some applicants as described in the Admissions Test Section must sit STAT Multiple Choice.

---

**Paramedic Practice/Public Health Promotion (HE)**
La Trobe University

Bachelor of Paramedic Practice/Public Health Promotion: 4 years full time study

About the course: This unique double degree program in paramedic practice and public health promotion will provide students with the knowledge and skills to commence practice as entry-level paramedics throughout Australia and New Zealand, whilst also preparing them for future roles in public health promotion.

This program provides opportunities for students to gain skills and knowledge beyond that traditionally delivered to paramedic students. The emphasis on public and community health serves to broaden the student’s horizons and prepares graduates for multi-disciplinary, integrated practice within the community. In addition, alternate career pathways in the public health arena, including humanitarian aid work, becomes more accessible to the student should they wish to explore these areas further.

The curriculum is focussed on providing graduates with the knowledge and skills that they will require to practice as primary health care providers with strong emphasis on rural and remote practice. The public health component of the program prepares graduates for enhanced and flexible roles within communities and professional settings.

Major studies: Health promotion, Paramedicine, Public health.

Prerequisites: Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL; and a study score of at least 20 in two of Biology, Chemistry, Health & Human Development, any Mathematics, Physical Education, Physics or Psychology.

Middle-band: None

NY12 : Educational History including GPA, VTAC Personal Statement (All), STAT (Some). See extra requirements for more information.

SEAS is considered.

Extra requirements:

VTAC Personal Statement (CY12-All, NY12-All) : Applicants must complete and submit a VTAC Personal Statement if they wish other information to be considered during the selection process. This may include information such as work experience or reason for applying. Applicants may wish to provide other documentation in support of their application.

STAT (NY12-Some) : Applicants described in the VTAC Admissions tests section must sit the STAT Multiple Choice test.

---

Pharmacy (HE)

La Trobe University

Bachelor of Pharmacy: 4 years full time study

About the course: This course prepares students for practice in community and hospital pharmacies, emphasising the delivery of pharmacy services in regional communities. Students are trained to understand the effect of medicines on the body, which is essential to the safe provision of healthcare treatment. The course prepares students for a career in pharmacy, working at the interface between health professionals and patients, focussing on clinical services and reviewing medication for safety and effectiveness.

Students also prepare to deal with the public in Pharmacy training facilities on the Bendigo campus, and develop new skills in communication.

Work placements are integrated throughout the course, providing valuable work experience. Students must complete a one-year internship under the supervision of the Pharmacy Board of Australia to qualify as a professional pharmacist.

The Bachelor of Pharmacy degree at La Trobe University is accredited by the Australian Pharmacy Council.

Major studies: Chemistry (medicinal), Primary health care.

Prerequisites: Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL; and a study score of at least 25 in Chemistry; and a study score of at least 25 in Maths: Mathematical Methods (CAS).

Middle-band: None

Selection Mode: CY12 : ATAR, Supplementary form (All). See extra requirements for more information.

NY12 : Educational History including GPA, VTAC Personal Statement (Some), Supplementary form (All), Interview (Some), STAT (Some), Additional Info. See extra requirements for more information.

SEAS is considered.

Extra requirements:

VTAC Personal Statement (NY12-Some) : Applicants must complete and submit a VTAC Personal statement if they wish other information to be considered during the selection process. This may include information such as work or community experience or reasons for applying. Applicants may wish to provide other documentation in support of their application.

Supplementary form (CY12-All, NY12-All) : All applicants must complete the 'Pharmacy Personal Statement' form available at: www.latrobe.edu.au/pharmacy. To be considered, form must be submitted and received by 1 November 2013.

Interview (NY12-Some) : Applicants will be notified if they are required to attend an interview. Interviews will be held in January 2014. Booking Contact: (03) 5444 7412

STAT (NY12-Some) : Applicants described in the VTAC 'Admissions Tests' section must sit the STAT Multiple Choice test.

Graduates must complete a period of pre-registration employment under the supervision of the Australian Health Practitioner Regulation Agency, and pass a final AHPRA examination to qualify for professional registration.

- Bachelor of Physical and Health Education: 4 years full time study

About the course: Prepares you for a career as a generalist primary teacher and as a Prep to Year 12 Physical Education and Health teacher. You complete a sub-major in Welfare Studies that qualifies you for student welfare roles in both primary and secondary schools. Practical teaching experience is gained in each of the four years of the course. Physical Education practical experience may include: fundamental motor skills, ball handling, dance,
drama, games, fitness education, gymnastics, athletics and sport education.

**Major studies:** Anatomy and kinesiology, Curriculum studies, Education, Exercise physiology, Exercise science, Health, Health and physical education, Health and welfare, Health education, Health studies, Inclusive education, Physical education, Physical education and health, Special education, Student welfare, Teaching (primary), Teaching (secondary), Welfare studies.

**Prerequisites:** Units 1 and 2: satisfactory completion in two units (any study combination) of General Mathematics or Mathematical Methods or Units 3 and 4: any Mathematics; and a study score of at least 30 in English (EAL) or 25 in English other than EAL.

**Middle-band:** A study score of 25 in Health And Human Development or Physical Education equals 3 aggregate points per study.

**Selection Mode:** CY12 : ATAR and middle-band, VTAC Personal Statement (Some). See extra requirements for more information.

NY12 : Educational History including GPA, VTAC Personal Statement (Some), STAT (Some). See extra requirements for more information.

SEAS is considered.

**Extra requirements:**

VTAC Personal Statement (CY12-Some, NY12-Some) : Applicants must complete and submit a VTAC Personal statement if they wish other information to be considered during the selection process. This may include information such as work or community experience or reasons for applying. Applicants may wish to provide other documentation in support of their application.

STAT (NY12-Some) : Some applicants as described in the Admissions Test Section must sit STAT Multiple Choice.

SUCCESSFUL APPLICANTS : WWC Check - Students must complete a Working With Children Check form prior to commencing the course. Students must hold a valid Working With Children card prior to undertaking teaching placements.

- Bachelor of Physical and Outdoor Education: 4 years full time study

**About the course:** Physical and Outdoor Education combines specialist outdoor education studies with physical education and teacher education, including school-based practicum, leading to careers as a physical or outdoor education teacher in secondary schools. Outdoor education practical experience includes a selection of: bushwalking, rock climbing, cross-country skiing and paddling. Physical Education practical experience may include: fundamental motor skills, ball handling, dance, drama, games, fitness education, gymnastics, athletics, aquatics, sport education.

**Major studies:** Anatomy and kinesiology, Curriculum studies, Education, Environmental studies, Exercise physiology, Exercise science, Outdoor education, Outdoor leadership and guiding, Physical education, Teaching (secondary).

**Prerequisites:** Units 1 and 2: satisfactory completion in two units (any study combination) of General Mathematics or Mathematical Methods or Units 3 and 4: any Mathematics; and a study score of at least 30 in English (EAL) or 25 in English other than EAL.
Middle-band: A study score of 25 in Health And Human Development, Outdoor And Environmental Studies or Physical Education equals 3 aggregate points per study.

Selection Mode: CY12: ATAR and middle-band, VTAC Personal Statement (Some). See extra requirements for more information.

NY12: Educational History including GPA, VTAC Personal Statement (Some), STAT (Some). See extra requirements for more information.

SEAS is considered.

Extra requirements:

VTAC Personal Statement (CY12-Some, NY12-Some): Applicants must complete and submit a VTAC Personal statement if they wish other information to be considered during the selection process. This may include information such as work or community experience or reasons for applying. Applicants may wish to provide other documentation in support of their application.

- Bachelor of Politics, Philosophy and Economics: 3 years full time study

About the course: The premise that guides La Trobe University's Bachelor of Politics, Philosophy and Economics is the recognition that economic, political and philosophical dimensions lie at the heart of every issue that informs life and work in contemporary society. PPE offers students enhanced opportunities to apply their knowledge to practical policy problems through policy focused seminars associated with the economics. Employment opportunities for graduates include positions as economic and social analysts and decision makers in the public, private and not-for-profit sectors. Academically strong students are offered accelerated entry into PPE.

Major studies: Economics, Philosophy, Politics.

Prerequisites: Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL; and a study score of at least 25 in any Mathematics.

Middle-band: None

Selection Mode: CY12: ATAR.

NY12: Educational History including GPA, VTAC Personal Statement (All), Folio (All), STAT (Some), English language test (Some). See extra requirements for more information.

SEAS is considered.

Extra requirements:

VTAC Personal Statement (NY12-All): Applicants must complete and submit a VTAC Personal Statement if they wish other information to be considered during the selection process. This may include information such as work experience or reason for applying. Applicants may wish to provide other documentation in support of their application.
Folio (NY12-All): Applicants must provide a portfolio of written work and other relevant materials demonstrating their capacity to undertake the degree.

STAT (NY12-Some): Applicants described in the VTAC Admissions tests section must sit the STAT Multiple Choice test.

English language test (NY12-Some): Applicants who do not meet the English language requirement must achieve the required scores in the IELTS (Academic) or equivalent test.

(Minimum scores required for IELTS academic are Speaking=6.0, Writing=6.0, Reading=6.0, Listening=6.0, and Overall=6.0)

- Bachelor of Psychological Science: 3 years full time study

**About the course:** La Trobe students take thirteen specialised subjects covering the wide range of psychological knowledge with subjects focused on abnormal, clinical, and health psychology, social psychology, cognition, developmental psychology, and psychological interventions to name a few. Students can also choose from seven additional psychology electives including subjects on close relationships and clinical practice, neuroscience, autism, and cultural psychology. After completing the three year degree, graduates are able to apply their knowledge and skills to a wide range of careers in management, public service, marketing and human resources. Students who aim to become an accredited clinical psychologist are required to complete an Honours year and postgraduate degree or work-based internship.

This course is approved by the Australian Psychology Accreditation Council (APAC).

**Major studies:** Behavioural science, Neuroscience, Psychology, Psychology (abnormal), Psychology (cognitive), Psychology (developmental), Psychology (social).

**Prerequisites:** Units 3 and 4: a study score of at least 25 in English (EAL) or 20 in English other than EAL.
Middle-band: Satisfactory completion in Health And Human Development, any Information Technology, Maths: Mathematical Methods (CAS), Maths: Specialist Mathematics or any Science equals 1.5 aggregate points per study. Overall maximum of 3 points.

Selection Mode: CY12 : ATAR and middle-band. NY12 : Educational History including GPA, VTAC Personal Statement (Some), STAT (Some). See extra requirements for more information. SEAS is considered.

Extra requirements:
VTAC Personal Statement (NY12-Some) : Applicants must complete and submit a VTAC Personal statement if they wish other information to be considered during the selection process. This may include information such as work or community experience or reasons for applying. Applicants may wish to provide other documentation in support of their application.

STAT (NY12-Some) : Applicants described in the VTAC 'Admissions Tests' section must sit the STAT Multiple Choice test.

Public Health Promotion (HE)

La Trobe University
Bendigo:210022381 (CSP) full-time/part-time Apply: Through VTAC main round

- Bachelor of Public Health Promotion: 3 years full time study

About the course: The Bachelor of Public Health Promotion is a flexible course designed to prepare students for practical roles in a broad range of settings that work to promote and protect people's health. Rather than focussing on illness, health promotion emphasises working with people to be active in their own health and in developing environments that are conducive to the health of communities. Students will gain competencies in conducting and analysing community needs assessment, program planning and delivery, planning evidence-based strategies, evaluation and research, communication and technology, partnership building, as well as current and emerging knowledge in health promotion activities. This course provides students with an opportunity to include a minor study area, thus providing an opportunity to better tailor studies according to interests and career goals. In this growing field, graduates are able to work at individual, group, organisational, community and population levels, locally, nationally and internationally.

Major studies: Health promotion, Public health.

Prerequisites: Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL; and a study score of at least 20 in one of Biology, Chemistry, Health And Human Development, any Mathematics, Physical Education or Physics.

Middle-band: None

Selection Mode: CY12 : ATAR, VTAC Personal Statement (All). See extra requirements for more information. NY12 : Educational History including GPA, VTAC Personal Statement (All), STAT (Some). See extra requirements for more information. SEAS is considered.

Extra requirements:
VTAC Personal Statement (CY12-All, NY12-All) : Applicants must complete and submit a VTAC Personal Statement if they wish other information to be considered during the selection process. This may include information such as work experience or reason for applying. Applicants may wish to provide other documentation in support of their application.

STAT (NY12-Some) : Applicants described in the VTAC Admissions tests section must sit the STAT Multiple Choice test.
La Trobe University

Bachelor of Science: 3 years full time study

About the course: This degree offers a broad range of study including life, physical & mathematical sciences. Students will study a range of subjects in year one to foster breadth and further develop academic skills including quantitative literacy. By year three, students will normally specialise in two science disciplines.

This course prepares students for careers that require a thorough understanding of science such as regulation and product development. The course includes work placement opportunities through the Faculty cadetship program.

Albury-Wodonga applicants should note that only the first year of this course is available at the Albury-Wodonga campus. On completion of first year, students transfer to Bendigo or Bundoora to complete the degree.

Major studies: Biochemistry, Biomedical science, Biotechnology, Botany, Chemistry, Computer science, Electronics, Environmental science, Freshwater ecology, Genetics, Information technology, Mathematics, Mathematics/statistics, Microbiology, Physics, Psychology, Science, Space science, Viticultural science, Wine science, Winemaking, Zoology.

Prerequisites: Units 3 and 4: a study score of at least 25 in English (EAL) or 20 in English other than EAL; and a study score of at least 20 in one of Maths: Further Mathematics or Maths: Mathematical Methods (CAS); and a study score of at least 20 in one of Biology, Chemistry, Environmental Science, Maths: Specialist Mathematics, Physics or Psychology.

Middle-band: Satisfactory completion in Chemistry, Maths: Specialist Mathematics or Physics equals 1.5 aggregate points per study. Overall maximum of 3 points.

Selection Mode: CY12: ATAR and middle-band.

NY12: Educational History including GPA, VTAC Personal Statement (Some), STAT (Some). See extra requirements for more information.

SEAS is considered.
Extra requirements:

VTAC Personal Statement (NY12-Some): Applicants must complete and submit a VTAC Personal statement if they wish other information to be considered during the selection process. This may include information such as work or community experience or reasons for applying. Applicants may wish to provide other documentation in support of their application.

STAT (NY12-Some): Applicants described in the VTAC 'Admissions Tests' section must sit the STAT Multiple Choice test.

- Bachelor of Science (Applications in Society): 3 years full time study

About the course: This new degree puts science in context with a variety of study areas from partner Faculties. Students undertake a science major and graduate with one or two majors in science and a sub-major or a major from another faculty such as business, communications or social studies. Graduates from this course will be equipped to work at the interface of science with business, government or public interest activities.

The first year of the course gives students foundation studies in science and one external study area and also develops their academic skills. From second year, students will specialise via one or two majors in science and a complementary major or sub-major from a non-science study area linked through the curriculum.

Students in this degree undertake the Work-Ready Science program that includes career orientation and development workshops. Work-Ready Science helps students to find work experience opportunities, overseas study opportunities and cadetships in their areas of interest.

Prerequisites: Units 3 and 4: a study score of at least 25 in English (EAL) or 20 in English other than EAL.

Middle-band: Satisfactory completion in any Mathematics equals 1.5 aggregate points per study. Overall maximum of 1.5 points.

Selection Mode: CY12: ATAR and middle-band.
NY12: Educational History including GPA, VTAC Personal Statement (Some), STAT (Some). See extra requirements for more information.
SEAS is considered.

Extra requirements:
VTAC Personal Statement (NY12:Some): Applicants must complete and submit a VTAC Personal statement if they wish other information to be considered during the selection process. This may include information such as work or community experience or reasons for applying. Applicants may wish to provide other documentation in support of their application.
STAT (NY12:Some): Applicants described in the VTAC 'Admissions Tests' section must sit the STAT Multiple Choice test.

Melbourne: 2100321973 (IFP) full-time Apply: Through VTAC main round

- Bachelor Degree (Honours) in Science: 4 years full time study
- Master of Nanotechnology: 1 year full time study

About the course: Nanotechnology is an emerging field in chemistry, physics and biology with sweeping implications for new technologies.

Core subjects in physics, chemistry, biochemistry and mathematics are combined with specialised studies in nanotechnology and a nanotechnology seminar series featuring leading speakers. A nanotechnology based masters thesis project is undertaken in fifth year. Students may participate in an industry cadetship program on a competitive basis.

Applicants are encouraged to visit the following website for entrance scholarship and course information: www.latrobe.edu.au/nanotechnology.

Prerequisites: Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL; and a study score of at least 25 in Chemistry; and a study score of at least 25 in Maths: Mathematical Methods (CAS); and a study score of at least 20 in one of Maths: Specialist Mathematics or Physics.

Middle-band: Satisfactory completion in two but no more than two of Maths: Specialist Mathematics and Physics equals 1.5 aggregate points per study. Overall maximum of 3 points.

Selection Mode: CY12: ATAR and middle-band.
NY12: Educational History including GPA, VTAC Personal Statement (Some), STAT (Some). See extra requirements for more information.
SEAS is considered.
**Extra requirements:**

VTAC Personal Statement (NY12-Some) : Applicants must complete and submit a VTAC Personal statement if they wish other information to be considered during the selection process. This may include information such as work or community experience or reasons for applying. Applicants may wish to provide other documentation in support of their application.

STAT (NY12-Some) : Applicants described in the VTAC 'Admissions Tests' section must sit the STAT Multiple Choice test.

- Bachelor of Environmental Science (Wildlife and Conservation Biology): 3 years full time study

**About the course:** This course provides students with expert training in the science that underpins environmentally sustainable management of animals, plants and ecosystems. Students undertake field work in zoology, botany and conservation genetics both on the campus in the university wildlife reserve and also in a range of habitats in remote locations. This hands-on core training in wildlife biology and ecology is combined with instruction in earth science, quantitative methods and environmental law, to equip students for careers in wildlife and land management, research, conservation biology, and park management. Students enrolling at the Albury-Wodonga campus complete their first year of the course at the Albury-Wodonga campus and then transfer to Melbourne (Bundoora) to complete their degree. Subject to approval, the full three year program may be offered at the Albury-Wodonga campus for students commencing from 2014.

**Major studies:** Animal and plant biology, Biology, Botany, Conservation biology/ecology, Ecological studies, Ecology (sustainability), Environment and sustainability, Environmental management, Environmental science, Environmental studies, Fire management, Genetics, Wildlife conservation and ecology, Wildlife management, Zoology.

**Prerequisites:** Units 3 and 4: a study score of at least 25 in English (EAL) or 20 in English other than EAL.

**Middle-band:** Satisfactory completion in Biology, Chemistry, Maths: Mathematical Methods (CAS), Maths: Specialist Mathematics or Physics equals 1.5 aggregate points per study. Overall maximum of 3 points.

**Selection Mode:** CY12: ATAR and middle-band.

NY12: Educational History including GPA, VTAC Personal Statement (Some), STAT (Some). See extra requirements for more information.

- Bachelor of Science Double Degree : 4 years full time study

About the course: This double degree is designed for future scientists with multiple interests. Students can combine two eligible three-year programs within the Faculty of Science, Technology and Engineering, offering students the opportunity to graduate with three science specialisations.

This degree prepares students for research training and postgraduate specialist courses. It provides capacity for students to study in emerging areas and to construct novel combinations to take advantage of rapid changes in science.

You can choose from the following disciplines; but please note availability varies according to campus: animal and veterinary biosciences, biological science, biotechnology and cell biology, computer science, computer science in games technology, human nutrition, information systems, information technology, biomedical science, medicinal chemistry, psychological science, wildlife and conservation biology.

Major studies: Biochemistry, Bioinformatics, Biology, Biomedical science, Biotechnology, Botany, Chemistry, Cognitive science, Computer science, Environmental science, Genetics, Information technology, Mathematics, Mathematics/statistics, Medical science, Medicinal chemistry, Microbiology, Physics, Psychology, Science, Space science, Viticultural science, Zoology.

Prerequisites: Minimum ATAR of 80.00. Units 3 and 4: a study score of at least 20 in any English; and a study score of at least 20 in one of Maths: Mathematical Methods (CAS) or Maths: Specialist Mathematics.

Middle-band: Satisfactory completion in Chemistry, Maths: Specialist Mathematics or Physics equals 1.5 aggregate points per study. Overall maximum of 3 points.

Selection Mode: CY12 : ATAR and middle-band.
NY12 : Educational History including GPA, VTAC Personal Statement (Some), STAT (Some). See extra requirements for more information.
SEAS is considered.
Extra requirements:
VTAC Personal Statement (NY12-Some): Applicants must complete and submit a VTAC Personal statement if they wish other information to be considered during the selection process. This may include information such as work or community experience or reasons for applying. Applicants may wish to provide other documentation in support of their application.
STAT (NY12-Some): Applicants described in the VTAC 'Admissions Tests' section must sit the STAT Multiple Choice test.

- Bachelor of Science/Accounting: 4 years full time study

About the course: Provides students with the opportunity to undertake major studies in any area of science offered while simultaneously completing studies in commerce, economics and legal studies. Science studies can be chosen from the range of disciplines available and are combined with eighteen commerce, economics and legal studies units, prescribed to match professional accreditation requirements. The curriculum fulfils the requirements for membership in CPA Australia and the Institute of Chartered Accountants.

Prerequisites: Units 3 and 4: a study score of at least 25 in English (EAL) or 20 in English other than EAL; and a study score of at least 20 in one of Maths: Mathematical Methods (CAS) or Maths: Specialist Mathematics.

Middle-band: Satisfactory completion in Chemistry, Maths: Specialist Mathematics or Physics equals 1.5 aggregate points per study. Overall maximum of 3 points.

Selection Mode: CY12: ATAR and middle-band.
NY12: Educational History including GPA, VTAC Personal Statement (Some), STAT (Some). See extra requirements for more information.
SEAS is considered.
Extra requirements:

VTAC Personal Statement (NY12-Some) : Applicants must complete and submit a VTAC Personal statement if they wish other information to be considered during the selection process. This may include information such as work or community experience or reasons for applying. Applicants may wish to provide other documentation in support of their application.

STAT (NY12-Some) : Applicants described in the VTAC 'Admissions Tests' section must sit the STAT Multiple Choice test.

- Bachelor of Science/Science Education: 4 years full time study

**About the course:** This innovative double degree is designed to give you extensive skills and knowledge in teaching and science. It features core science studies in first year, combined education and science studies in second and third year, and education studies (including two teaching methods) in fourth year. School-based activities take place across three years, beginning in the second year with a mentoring program. This double degree includes a science major in mathematics, statistics, physics or chemistry with a teaching qualification. Students undertake foundation subjects year one, followed by combined studies in science and education in year two and three. Bendigo applicants who wish to major in Physics or Computer Science may need to transfer to the Bundoora campus for the second and third years of their degree.

**Major studies:** Chemistry, Computer science, Education, Information technology, Mathematics, Mathematics/statistics, Physics, Science, Teaching (secondary).

**Prerequisites:** Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL; and a study score of at least 20 in one of Maths: Mathematical Methods (CAS) or Maths: Specialist Mathematics.

**Middle-band:** Satisfactory completion in Chemistry, Maths: Specialist Mathematics or Physics equals 1.5 aggregate points per study. Overall maximum of 3 points.

**Selection Mode:** CY12 : ATAR and middle-band.

NY12 : Educational History including GPA, VTAC Personal Statement (Some), STAT (Some), WWC Check. See extra requirements for more information.

SEAS is considered.

**Extra requirements:**

VTAC Personal Statement (NY12-Some) : Applicants must complete and submit a VTAC Personal statement if they wish other information to be considered during the selection process. This may include information such as work or community experience or reasons for applying. Applicants may wish to provide other documentation in support of their application.

STAT (NY12-Some) : Applicants described in the VTAC Admissions Tests section must sit the STAT Multiple Choice test.

WWC Check: Successful applicants must complete a Working With Children's Check application form available from Australia Post. Students must be able to present their Working With Children's Check card before undertaking Work Integrated Learning / placements.

- Bachelor of Social Sciences: 3 years full time study

About the course: Learn about the social, political, legal and cultural factors that shape human behaviour. This degree helps you prepare for a wide range of roles in government and non-government organisations concerned with community welfare and development. Along with a solid academic grounding in sociology, anthropology, politics and legal studies, you'll develop comprehensive knowledge of the welfare sector and the policies and legislation that shape it. You'll develop academic skills such as critical thinking, analysis, written and oral communication, and through research methods and social policy subjects, you'll apply social sciences knowledge to real world situations.

Domestic applicants with an ATAR of 60 or more will be guaranteed a place in this course.

Major studies: Social Sciences.

Prerequisites: Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL.

Middle-band: A study score of 30 in one but no more than four of any Humanities, any LOTE, Legal Studies or Psychology equals 3 aggregate points per study. A study score of 40 in one but no more than one of any English, Legal Studies, Australian Politics, Global Politics or Sociology equals 1 aggregate point per study. Overall maximum of 12 points.

Selection Mode: CY12: ATAR and middle-band.
NY12: Educational History including GPA, VTAC Personal Statement (Some), STAT (Some). See extra requirements for more information.

SEAS is considered.

Extra requirements:
VTAC Personal Statement (NY12-Some): Applicants who have no tertiary studies and have graduated secondary school more than 3 years ago should complete and submit a VTAC personal statement of at least 1000 characters explaining why they wish to study at La Trobe. This may include information such as work experience or reason for applying. Applicants may wish to provide other documentation in support of their application. Preference is given to applicants who submit the statement.

STAT (NY12-Some): Applicants who are 21 years or older, have not engaged in secondary or tertiary studies and want to be considered for mature age entry must sit the STAT multiple-choice test.

- Master of Social Work: 2 years full time study
**About the course:** This course prepares students to be generalist social work practitioners who are able to respond to the complexity of human need and to integrate the different areas and skills of social work practice in any given work situation as required. Students complete 270 credit points (equivalent to 2.25 years of full time study) over 2 years (4 semesters). Graduates are equipped to undertake the following key social work roles: work with individuals, families and groups; community work; social policy; social research; and organisational planning and administration. The course includes 70 days of placement, in each of the two years, in a professional social work agency. This course is an AASW accredited qualification. It is an entry qualification into the social work profession and has been determined to meet the Australian Social Work Education and Accreditation Standards (ASWEAS). This course is not available to Year 12 students. Deferral is not available for this course.

**Major studies:** Social work.

**Prerequisites:** Bachelor Degree preferably with studies in arts, social sciences, psychology, teaching, nursing or business related.

**Middle-band:** None

**Selection Mode:** NY12 : Educational History including GPA, VTAC Personal Statement (All), Interview (Some). See extra requirements for more information.

SEAS is considered.

**Extra requirements:**

VTAC Personal Statement (NY12-All) : Applicants must complete and submit a VTAC Personal Statement if they wish other information to be considered during the selection process. This may include information such as work experience or reason for applying. Applicants may wish to provide other documentation in support of their application.

Interview (NY12-Some) : Details will be provided by telephone or mail to the applicants required to attend in November/December.

- Bachelor of Business (Sport Management): 3 years full time study

**About the course:** This course equips students with the broad-ranging knowledge and skills required for professional roles in a rapidly expanding global industry. It provides in-depth theoretical knowledge in the field, and develops practical management experience that not only strengthens students' understanding of the industry but enables them to form professional networks. The curriculum strongly emphasises the role of sport in forming cohesive communities and sports operations and industry.

**Major studies:** Sport Management.

**Prerequisites:** Units 3 and 4: a study score of at least 25 in English (EAL) or 20 in English other than EAL.

**Middle-band:** Satisfactory completion in any Business, any LOTE, any Mathematics or any unscored VET Business is considered.

**Selection Mode:** CY12 : ATAR and middle-band.

NY12 : Educational History including GPA, VTAC Personal Statement (All), STAT (Some), English language test
SEAS is considered.

Extra requirements:

VTAC Personal Statement (NY12-All): Applicants must complete and submit a VTAC Personal Statement if they wish other information to be considered during the selection process. This may include information such as work experience or reason for applying. Applicants may wish to provide other documentation in support of their application.

STAT (NY12-Some): Applicants described in the VTAC Admissions tests section must sit the STAT Multiple Choice test.

English language test (NY12-Some): Applicants who do not meet the English language requirement must achieve the required scores in the IELTS (Academic) or equivalent test.

(Minimum scores required for IELTS academic are Speaking=6.0, Writing=6.0, Reading=6.0, Listening=6.0, and Overall=6.0)

- Bachelor of Strategic Communication: 3 years full time study

**About the course**: How do organisations communicate their activities to the public? How do corporations build a brand and reputation - and protect that reputation in a crisis? The growth of internet and social media alongside traditional media has made communication strategy critically important for organisations around the world. Through a balance of academic studies and practical experience, this degree prepares you for key roles in strategic communication whether you intend to work in the corporate sector, help not-for-profit organisations reach out to local, national or global communities, or work for local, state or federal government. You can do internships in the public relations industry, and participate in a professional pitch at our on-campus communication agency, where you'll work in teams to present marketing campaigns to clients.

Domestic applicants with an ATAR of 75 or more will be guaranteed a place in this course.

**Major studies**: Strategic Communication.

**Prerequisites**: Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL.

**Middle-band**: A study score of 30 in one but no more than four of any Business, any Humanities, any LOTE or Psychology equals 3 aggregate points per study. A study score of 40 in one but no more than one of any English equals 1 aggregate point per study. Overall maximum of 12 points.
Selection Mode: CY12 : ATAR and middle-band.
NY12 : Educational History including GPA, VTAC Personal Statement (Some), STAT (Some). See extra requirements for more information.
SEAS is considered.

Extra requirements:
VTAC Personal Statement (NY12-Some) : Applicants who have no tertiary studies and have graduated secondary school more than 3 years ago should complete and submit a VTAC personal statement of at least 1000 characters explaining why they wish to study at La Trobe. This may include information such as work experience or reason for applying. Applicants may wish to provide other documentation in support of their application. Preference is given to applicants who submit the statement.
STAT (NY12-Some) : Applicants who are 21 years or older, have not engaged in secondary or tertiary studies and want to be considered for mature age entry must sit the STAT multiple-choice test.

- Bachelor of Teaching (Outreach and Community Education): 4 years full time study

About the course: This course prepares you for student wellbeing teaching roles in disadvantaged schools or in outreach and community education facilities. You complete studies that enable you to teach to year 6 in primary schools and as a secondary teacher in the areas of student wellbeing and one of English, ESL, drama, mathematics or science. You will be qualified for student wellbeing teaching roles in disadvantaged schools where increased participation and retention rates are required. You may also be employed in outreach and community education facilities where educational expertise is required, including drug rehabilitation programs, detention facilities for youth, council outreach programs and centres with programs for disengaged youth. You gain a minimum of 80 days teaching experience across the four years of the course.

Major studies: Community and public education, Community studies, Education, Education studies, Student welfare, Teaching (primary), Teaching (secondary).

Prerequisites: Units 1 and 2: satisfactory completion in two units (any study combination) of General Mathematics or Mathematical Methods or Units 3 and 4: any Mathematics; and a study score of at least 30 in English (EAL) or 25 in English other than EAL.

Middle-band: None

Selection Mode: CY12 : ATAR, VTAC Personal Statement (Some). See extra requirements for more information.
NY12 : Educational History including GPA, VTAC Personal Statement (All), STAT (Some). See extra requirements for more information.
SEAS is considered.

Extra requirements:
VTAC Personal Statement (CY12-Some, NY12-All) : Year 12 applicants must complete and submit a VTAC Personal Statement if they wish other information to be considered during the selection process. This may include information such as work or community experience or reasons for applying. Applicants may wish to provide other documentation in support of their application.

All NY12 applicants must complete a VTAC Personal Statement.
STAT (NY12-Some): Some applicants as described in the Admissions Test Section must sit STAT Multiple Choice.

SUCCESSFUL APPLICANTS: WWC Check - Students must complete a Working With Children Check form prior to commencing the course. Students must hold a valid Working With Children card prior to undertaking teaching placements.

- Master of Teaching (P-12): 1.5 year full time study

**About the course:** This Masters course is an accelerated program (2 years full-time equivalent) presented over an 18 month period. Part-time study is also available. The course prepares you to teach across the three Stages of Schooling: Early Years (Prep to Year 4), Middle Years (Year 5 to 9) and Later Years (Year 10 to 12) and is accredited with the Victorian Institute of Teaching (VIT). In the first year, the course is delivered through five weeks of face to face classes in three blocks, supported by online distance learning throughout the year. You gain 60 days of supervised teaching experience and 10 days of supervised fieldwork in a range of educational contexts. In the second year (final semester), you undertake a 45 day attachment to a school and complete a teacher research project.

You can elect to exit the course after completing 180 credit points (12 calendar months of full-time study) and take out a Graduate Diploma in Teaching (P-12) that also provides a teaching qualification.

**Single teaching areas**

Melbourne: 2100321153 (IFP) full-time  Apply: Through VTAC  main round

- Bachelor of Business (Tourism and Hospitality): 3 years full time study

About the course: This course covers a broad spectrum of issues across tourism and hospitality industries, and emphasises the practical skills and theoretical knowledge needed for effective tourism and hospitality management. It gives students the broadest possible career options by combining a solid business degree - encompassing areas such as accounting, marketing and economics - with specialised tourism and hospitality studies.

Major studies: Hospitality, Tourism.

Prerequisites: Units 3 and 4: a study score of at least 25 in English (EAL) or 20 in English other than EAL.

Middle-band: Satisfactory completion in any Business, any LOTE, any Mathematics or any unscored VET. Business is considered.

Selection Mode: CY12: ATAR and middle-band.
NY12: Educational History including GPA, VTAC Personal Statement (All), STAT (Some), English language test (Some). See extra requirements for more information.
SEAS is considered.

Extra requirements:
VTAC Personal Statement (NY12-All): Applicants must complete and submit a VTAC Personal Statement if they wish other information to be considered during the selection process. This may include information such as work experience or reason for applying. Applicants may wish to provide other documentation in support of their application.
STAT (NY12-Some): Applicants described in the VTAC Admissions tests section must sit the STAT Multiple Choice test.
English language test (NY12-Some): Applicants who do not meet the English language requirement must achieve the required scores in the IELTS (Academic) or equivalent test.
(Minimum scores required for IELTS academic are Speaking=6.0, Writing=6.0, Reading=6.0, Listening=6.0, and Overall=6.0)

Bachelor of Business (Tourism Management): 3 years full time study

About the course: This course provides students with first-hand knowledge of travel and tourism operations, equipping them with industry knowledge and core business management skills that can be applied to small, medium and large tourism businesses. It combines a solid business degree (encompassing areas such as accounting, marketing and economics) with specialised tourism subjects. Students study towards certificates in Responsible Service of Food and Responsible Service of Alcohol in first year, allowing them to undertake work in the industry while studying.

Major studies: Tourism management.

Prerequisites: Units 3 and 4: a study score of at least 25 in English (EAL) or 20 in English other than EAL.

Middle-band: Satisfactory completion in any Business, any LOTE, any Mathematics or any unscored VET Business is considered.

Selection Mode: CY12 : ATAR and middle-band.
NY12 : Educational History including GPA, VTAC Personal Statement (All), STAT (Some), English language test (Some). See extra requirements for more information.
SEAS is considered.

Extra requirements:
VTAC Personal Statement (NY12-All) : Applicants must complete and submit a VTAC Personal Statement if they wish other information to be considered during the selection process. This may include information such as work experience or reason for applying. Applicants may wish to provide other documentation in support of their application.
STAT (NY12-Some) : Applicants described in the VTAC Admissions tests section must sit the STAT Multiple Choice test.
English language test (NY12-Some) : Applicants who do not meet the English language requirement must achieve the required scores in the IELTS (Academic) or equivalent test.
(Minimum scores required for IELTS academic are Speaking=6.0, Writing=6.0, Reading=6.0, Listening=6.0, and Overall=6.0)
tour. A triple-bottom line approach is adopted in which students examine economic, social and environmental impacts of tourism.

Major studies: Marketing, Tourism management.

Prerequisites: Units 3 and 4: a study score of at least 25 in English (EAL) or 20 in English other than EAL.

Middle-band: Satisfactory completion in Business Management equals 1 aggregate point.

Selection Mode: CY12 : ATAR and middle-band.
NY12 : Educational History including GPA, VTAC Personal Statement (All), STAT (Some), English language test (Some). See extra requirements for more information.
SEAS is considered.

Extra requirements:
VTAC Personal Statement (NY12-All) : Applicants must complete and submit a VTAC Personal Statement if they wish other information to be considered during the selection process. This may include information such as work experience or reason for applying. Applicants may wish to provide other documentation in support of their application.
STAT (NY12-Some) : Applicants described in the VTAC Admissions tests section must sit the STAT Multiple Choice test.
English language test (NY12-Some) : Applicants who do not meet the English language requirement must achieve the required scores in the IELTS (Academic) or equivalent test.
(Minimum scores required for IELTS academic are Speaking=6.0, Writing=6.0, Reading=6.0, Listening=6.0, and Overall=6.0)

- Bachelor of Urban, Rural and Environmental Planning: 4 years full time study

About the course: The degree is one of only two undergraduate courses of its kind in Victoria. It offers an outstanding curriculum grounded in current planning issues (including sustainable development, climate change, Indigenous communities and water management), with a strong emphasis on practical skills. Our teaching staff all have extensive professional planning experience and significant links with industry. This means you'll have frequent contact with a wide range of highly experienced professionals. You'll have access to international field trips and extensive industry experience giving you opportunities to broaden your academic and career horizons.

Domestic applicants with an ATAR of 75 or more will be guaranteed a place in this course.

Major studies: Urban Rural and Environmental Planning.

Prerequisites: Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL.

Middle-band: A study score of 30 in one but no more than four of Business Management, any Humanities, Legal Studies or Psychology equals 3 aggregate points per study. A study score of 40 in one but no more than one of any English equals 1 aggregate point per study. Overall maximum of 12 points.
Selection Mode: CY12 : ATAR and middle-band.
NY12 : Educational History including GPA, VTAC Personal Statement (Some), STAT (Some). See extra requirements for more information.
SEAS is considered.

Extra requirements:
VTAC Personal Statement (NY12-Some) : Applicants who have no tertiary studies and have graduated secondary school more than 3 years ago should complete and submit a VTAC personal statement of at least 1000 characters explaining why they wish to study at La Trobe. This may include information such as work experience or reason for applying. Applicants may wish to provide other documentation in support of their application. Preference is given to applicants who submit the statement.
STAT (NY12-Some) : Applicants who are 21 years or older, have not engaged in secondary or tertiary studies and want to be considered for mature age entry must sit the STAT multiple-choice test.

- Bachelor of Visual Arts: 3 years full time study

About the course: Develop your aesthetics and extend your technical skills. Our facilities include specialist studios for ceramics (Bendigo campus only), painting and drawing, printmaking, graphic design, illustration, photography and photojournalism, and sculpture (Mildura campus only). Our academic staff are all practising artists, theorists and designers, active in publications and exhibitions, and successful in achieving major awards, commissions and research grants. The course gives you various opportunities for work experience, including group and solo exhibition of your work. The Professional Studies stream helps you develop an e-portfolio to showcase your work and skills, and gives you contact with the industry.

Major studies: Visual arts.

Prerequisites: Units 3 and 4: a study score of at least 25 in English (EAL) or 20 in English other than EAL.

Middle-band: None

Selection Mode: CY12 : ATAR, Folio (All), Interview (All). See extra requirements for more information.
NY12 : Educational History including GPA, Folio (All), Interview (All). See extra requirements for more information.
SEAS is considered.

Extra requirements:
Folio (CY12-All, NY12-All) : Applicants with multimedia components in their folios must submit the multimedia components to: BENDIGO - visualarts@latrobe.edu.au MILDURA - k.haggblom@latrobe.edu.au Deadline date for...
Submission is the 22 November 2013.

Interview (CY12-All, NY12-All): Interview and folio review: Held between Monday 25 and Friday 29 November 2013, applicants must contact La Trobe Visual Arts and Design either in writing or email by the 22 November 2013 to arrange an interview time. Please include the course name, applicant postal address and preferred date for interview. BENDIGO - visualarts@latrobe.edu.au (late applicants must telephone (03) 5444 7969 or (03) 5444 7217) MILDURA - k.haggblom@latrobe.edu.au (late applicants must telephone (03) 5051 4030)
LaTrobe College of Art and Design

LaTrobe College of Art & Design, established since 1995, is an independent college of Art & Design. Its philosophy has always been to equip students with the skills and knowledge to become outstanding practicing artists and designers. Students graduate with a developed, individual art practice as well as a comprehensive understanding of the industry. Many have gone on to successful careers in art and design, continued on to higher study, winning significant prizes, opening successful galleries, holding sell out shows of their artwork, working in graphic design and working in film.

The college is centrally located in the heart of the academic and gallery precinct of the city of Melbourne on LaTrobe Street between Queen and Elizabeth Streets.

This course is the nationally accredited Diploma of Visual Art, full-time over two years or equivalent part-time. The course suits beginners as well as those with experience. Students study both practical and theoretical subjects in studio, painting methods & techniques, sculpture, drawing, modernism & contemporary art history & theory, photography and digital imaging. Students are encouraged to pursue individual directions in their art whilst learning a range of both technical and theoretical strategies. Through small class sizes, concentrated one-on-one teaching, exposure to leading artists and innovative artwork, students gain intensive individual nurturing enabling them to rapidly develop their creative potential and identify their own independent individual direction. All staff are recognised art practitioners and acknowledged teachers in art and design.

Along with fully equipped digital and art studios the course is further enhanced with optional subject units that can be taken in New York or Venice, Italy. Students also exhibit in the LaTrobe Street Gallery. Students are able to elect alternative units of study if they wish to strengthen learning outcomes in particular disciplines such as Photography or Graphic Design.

Study Options

The college has both full-time and part-time courses, with daytime, weekend and evening study available as well as single subject enrolment. There is optional entry in February or mid year at the end of July. Students who are considering continuing on to university can apply for direct entry into second year at many universities on completion of the Diploma of Visual Arts.

Who Can Apply

New or inexperienced students are encouraged to apply. Applications are open to both year 12, non year 12 and mature applicants. All prospective students are asked to attend an interview with a folio, or examples, of their artwork or details of other past experience. Applications are through VTAC from August to December 9 after which applicants can apply directly to LaTrobe College. Please call 03 9606 0933 or email admin@latrobecollege.com.au for further information.

International students overseas can apply directly to the college through the above email address.

Visual Arts (VET)
Diploma of Visual Arts: 2 years full time study

**About the course:** Students study both practical and theoretical subjects in visual art and are encouraged to pursue individual directions whilst learning a wide range of both technical and conceptual strategies within painting, digital media, sculpture, drawing, installation, photography and mixed media. Through small class sizes, concentrated one-on-one teaching, exposure to leading artists, gallery experience at LaTrobe Street Gallery, options of taking units in New York and Venice, Italy, students are able to identify and develop an independent creative direction leading to their own practice as artists and designers. Flexible timetables are offered with optional sessions in the evening, daytime or weekend. Entry is the end of February or mid year at the end of July.

**Major studies:** Contemporary Art, Design, Drawing, Galleries Practice, Multimedia Imaging, Painting, Photography, Sculpture, Studio Art and Practice.

**Prerequisites:** None

**Middle-band:** None

**Selection Mode:** CY12 : Interview (All). See extra requirements for more information.
NY12 : Interview (All). See extra requirements for more information.

**Extra requirements:**
Interview (CY12-All, NY12-All) : Student needs to contact the college on 96060933 to arrange an brief interview. This can be conducted by phone and email if student is unable to come in to the college.

The world has to eat, so how about a career in agriculture?
Longerenong College has strong links to the agricultural world and continues to provide industry ready graduates. The courses offered at Longerenong College include the Advanced Diploma of Agriculture, Diploma of Agronomy, Certificate IV in Agriculture, Diploma of Agribusiness Management (flexible delivery), Wool Classing and Apprenticeships. A large percentage of graduates move directly into employment upon successful completion of their course.

Longerenong College is in the heart of the Wimmera, Western Victoria's broadacre agricultural region, renowned for its contrasting landscapes and people as well as its reputation as an international food bowl.

Longerenong College is a ten minute drive from the region's capital Horsham and dates back to 1889. The College incorporates a 1070ha working farm and produces a range of broadacre crops, wool, prime lambs, and cattle incorporating industry sustainable practices.

The College prides itself on providing courses that offer opportunities to learn through theoretical and hands-on training. One day you may be learning how to market grain internationally the next day you may be learning how to shear a sheep or operate a forklift.

The course structure at Longerenong College is targeted towards qualifying students for careers and the list of jobs Longerenong College graduates qualify for is lengthy. The door of opportunity swings freely in both private and public sectors, with employment outcomes including field agronomist, rural merchandise manager, agricultural teacher, farm manager, research assistant, livestock agent and loads more.

These examples only skim the surface of how Longerenong College courses can steer a young healthy mind on the path to success whether regionally, nationally or internationally.

The College strongly encourages students to strive for excellence, not only through studies but also independence. The college offers full-time or casual on-site accommodation, with recreational facilities including a swimming pool, gymnasium, squash courts, and student social areas. The College is all about the students and what it can do to make them feel happy, confident and successful while undertaking their studies.

**About the course:** Media and Communication is the world's fastest growing industry in the era of rapid and continuous technological, political, economic and social change. The Diploma of Media and Communication offers students a wide range of unit choice within a framework and leads into the relevant Deakin University second year degree in areas including media and communication, journalism, public relations, animation, film studies and photography. The course comprises of 8 units, a student can undertake the course over two or three trimesters. This information will be outlined in the MIBT Letter of Offer. Successful completion of the Diploma will enable students to transfer to the relevant second year undergraduate degree at Deakin University (conditions apply). Contact MIBT for further information.

**Major studies:** Animation, Film Studies, Journalism, Media and communications, Motion Capture, Photography, Public relations.

**Prerequisites:** Units 3 and 4: a study score of at least 20 in any English.

**Middle-band:** None

**Selection Mode:** CY12 : ATAR.

NY12 : Educational History including GPA.

**Extra requirements:**

None

Melbourne Institute of Technology

Established in the mid-nineties, MIT is one of Australia’s leading private Higher Education Institutions focusing on issues and challenges confronted by students from diverse backgrounds. We offer a range of programs in Business, Accounting, Management, Marketing, Information Technology, Computer Networking, and Telecommunications Engineering which range from undergraduate (University pathway diploma and Bachelor) to post graduate degrees.

MIT prides itself on providing students with small class sizes, access to highly qualified and caring teaching staff and a wide-range of support services allowing students to reach their full potential.

We also offer a wide range of student welfare and support programs including: personal counselling, peer to peer academic monitoring, study skills workshops and career counselling.

At MIT, we are committed to undergraduate and postgraduate degrees that lead to jobs in the field of business, information technology, Computer Networking and telecommunication engineering. All have been carefully researched and designed to deliver high quality, industry relevant qualifications.

MIT has three trimesters in one academic year, each trimester being equal to one traditional semester. This gives you an option to complete a degree faster than conventional semester systems at other universities, saving time and placing you ahead of your peers in the employment market. For example, you could complete a three-year bachelor degree (traditionally completed over six semesters) in just two years (completed over six trimesters). The trimester option also allows you to spread a traditional two-semester year over three trimesters doing fewer units in each, to allow for work commitments or family situations.

Our courses are accredited by professional bodies such as the CPA Australia, ICAA and ACS.

Special Entry Access Scheme (SEAS)

MIT recognises that people can be adversely affected by circumstances beyond their control which can prevent them from achieving their full potential and gives special consideration to applicants who have experienced educational disadvantage under the Special Entry Access Scheme (SEAS).

Credit transfer, pathways and articulation

TAFE/VET Credit Transfers/Articulation

MIT offers students with a TAFE Diploma a faster way to get a Bachelor degree. Students can get up to 1.5 years credit transfer for Advanced Diploma into a relevant Bachelor degree at MIT and fast track a degree in just 1 year. For more information: http://www.mit.edu.au/future-students/why-choose-mit/tafe-vet-diploma-to-degree

Articulation and pathways

If you missed out on University, or didn't meet the requirement for direct entry into a University degree, an MIT Diploma course can still get you in. Our Diploma courses take two trimesters (8 months) to complete and the units are equivalent to the first-year of relevant
Bachelor degrees at MIT and other Australian Universities. On successful completion of the MIT Diploma, you could enter the second-year of a relevant Bachelor degree at MIT or various other Australian Universities.

**Fees**

Australian students applying to study at MIT are eligible for FEE-HELP - Australian Government Loan scheme designed to assist Australian students undertaking tertiary education. FEE-HELP covers full or part of the student's tuition fees, with no upfront fees required.

**Deferment policies**

MIT may grant up to one academic year deferment for commencing students. If you wish to defer studies, you must do so before the offer acceptance and enrollment date specified in your offer letter. For more information, please contact the Admissions Team via email at enquiries@mit.edu.au or telephone 03 8600 6700.

**Student Services**

At MIT, we aim to provide exceptional student services. Our dedicated team works closely with students to ensure that they are guided throughout their studies. Students have free access on: Study Skills & Academic Services, Career, Vocational Counselling, Employment Services, Accommodation, Counselling, Community Support & Referral Networks.

- Diploma of Business: 1 year full time study

**About the course:** The Diploma of Business provides a comprehensive foundation in the breadth of business disciplines including marketing, information technology, economics, business law, management, marketing, organisation structure and effective participation at work. In addition to the body of theory and technical knowledge, the course emphasises the development of the employability skills in communication and analysis, cultural awareness and a commitment to ethical standards in the global context, thereby producing knowledgeable employees for entry level positions in business.

The course consists of 8 units and is equivalent to the first year of the relevant Bachelor degree at MIT and other Australian universities. On successful completion of the course, students could transfer to the second year of the Bachelor of Business at MIT. Alternatively, students could apply to second year of the relevant degree at Deakin University, or University of Ballarat at MIT Melbourne (conditions apply).

The course is delivered in a small-class environment through lectures, tutorials and individual consultation. Where possible, case-study analysis and problem-solving approaches are adopted to enhance learning experience.

**Major studies:** Business, Business (accounting), Business (communications), Business (computing), Business (economics), Business (law), Business (management), Business (marketing).

**Prerequisites:** None

**Middle-band:** None
Selection Mode: CY12 : ATAR.
NY12 : Educational History including GPA, VTAC Personal Statement (All). See extra requirements for more information.
SEAS is considered.

Extra requirements:
VTAC Personal Statement (NY12-All) : Non-year 12 applicants must complete a VTAC personal statement. The personal statement should outline your interest, motivation and reasons for selecting the course. You should also include details of your educational and any employment background.

- Bachelor of Business: 3 years full time study

About the course: The Bachelor of Business provides a comprehensive foundation in the breadth of business disciplines before proceeding to the in-depth study of the chosen major field of specialisation. In addition to the body of theory and technical knowledge, the course emphasises development of the MIT Graduate Attributes including critical employability skills in communication and analysis, cultural awareness and a commitment to ethical standards in the global context, which contribute to well-rounded graduates who are work ready and able to immediately add value to employers in any location world-wide.

The growth in international business and organisations which traverse national borders has been accompanied by the development of new business activities, new technologies, international outsourcing, trade agreements and the imposition of international standards. Business professionals must have knowledge and competency in a specialist field to be effective both locally and in the global context where departments and individuals are located in different nations and/or dealing with global organisations in diverse national locations. The Bachelor of Business graduates are equipped to stay up to date in knowledge and skills, who are commercially valuable professionals in Marketing or Accounting or Management in the global market.

The course comprises of common core units, suite of three majors: Accounting; Marketing and Management, and industry projects or elective units.

Graduates of the course have wide range of career opportunities including public service, government business, education, health, manufacturing, mining, banking and finance, service industries, e-commerce and the retail sector depending on the major specialisation undertaken.

The Bachelor of Business Accounting major is accredited by CPA Australia and ICAA.

Major studies: Accounting, Management, Marketing.

- Bachelor of Engineering Technology (Telecommunications): 3 years full time study

#### About the course:
The Bachelor of Engineering Technology (Telecommunications) provides both theoretical and practical foundations for the analysis, design, implementation, and management of wired and wireless telecommunications and networking technology. The course provides an opportunity to gain skills in analysis, critical evaluation and application in a professional setting. To this end, the course emphasises problem solving and rigorous thinking to develop skills in industry relevant technologies and to foster creativity and flexibility in the application of these knowledge and skills.

The course consists of core units in telecommunications and networks, and specialisation electives in network security, enterprise networks and system analysis.

The Bachelor of Engineering Technology (Telecommunications) prepares graduates to work on the rapidly growing area of telecommunications and networking such as network technician, network designer, network developer, network architect, network analyst and system analyst.

#### Major studies:

- Diploma of Information Technology: 1 year full time study

#### About the course:
The Diploma of Information Technology covers a broad range of computing topics such as web systems, operating systems, business information systems, multimedia systems, and hardware, basics of programming, and database management systems. The course prepares students for entry level careers in IT such as web designer, system administrator, help desk support, computer technician, database administrator, and IT sales consultant.

The key features of the course include practical experience with computer technologies and collaborative learning.
The course is equivalent to the first year of the relevant Bachelor degree at MIT and other Australian universities and can be completed in 8 months or 12 months. On successful completion of the course, students could transfer to the second year of the Bachelor of Networking at MIT. Alternatively, students could apply to second year of the relevant degree at Monash University or University of Ballarat at MIT Melbourne (conditions apply).

The course is delivered in a small-class environment through lectures, labs and individual consultation. Where possible, case-study analysis and problem-solving approaches are adopted to enhance learning experience.

**Major studies:** Business (information systems), Computer hardware, Databases, Information technology, Internet technology, Multimedia systems, Operating systems, Programming, Web 2.0 technologies.

**Prerequisites:** None

**Middle-band:** None

**Selection Mode:** CY12 : ATAR.

- Diploma of Networking: 1 year full time study

**About the course:** The Diploma of Networking emphasises the key areas of computer networking, including network technology, network protocols, and web technologies. The course prepares students for entry level careers in IT industry such as web designer, network technician, help desk support, computer technician, database administrator, and IT sales consultant.

The key features of the course include hands on practical experience with computer technologies and collaborative learning. The course is equivalent to the first year of the relevant Bachelor degree at MIT and other Australian universities and can be completed in 8 months or 12 months. On successful completion of the course, students could transfer to the second year of the Bachelor of Networking at MIT. Alternatively, students could apply to second year of the relevant degree at Monash University or University of Ballarat at MIT Melbourne (conditions apply).

The course is delivered in a small-class environment through lectures, labs and individual consultation. Where possible, case-study analysis and problem-solving approaches are adopted to enhance learning experience.

**Major studies:** Data communications, Multimedia systems, Network programming, Network technology, Operating systems, Web 2.0 technologies.

**Prerequisites:** None

Melbourne: 9470194723 (IFP) full-time  Apply: Through VTAC  main round  mid-year

- Bachelor of Networking: 3 years full study

**About the course:** The Bachelor of Networking prepares students for the planning, design, implementation, management and maintenance of wired and wireless computer networks. The course knowledge and skills include principles and concepts in networking, and the planning, analysis and application of the latest technologies to provide network services.

Due to the rapid advancement in technology in recent times, a new era of Internet facilities and mobile communications is emerging from networking technology. Enterprises, professionals and individuals are continuously, fully connected with each other and with the world, thus increasing the demand for network services, communication flexibility and mobility.

Consequently, there is a constant need for ready to work network professionals, who can contribute to this growth. Graduates of the course are able to apply their skills in networking and system administration. In addition to networking, the course also emphasises ICT and Systems Analysis skills, and offers a choice of electives in Security and Management.

The course is delivered as a mix of compulsory core units and electives that may make up a specialisation such as Systems Analysis or Network Security.

Graduates of the course may find employment in areas of network management, system administration, Network Manager, System Administrator, Sales Engineer, Network Engineer, Systems Engineer, Support Manager, Internet/Intranet Network Manager, Network Analyst, Network Design Engineer, Network Capacity Planner, Senior Network Solutions Architect, Network Security Specialist, Mobile Applications Developer, System Administrator, and Help Desk Manager and ICT services delivery and management within a wide range of public and private enterprises.

**Major studies:** Internetworking, Local area networks, Mobile computing and applications, Network administration, Network applications, Network design, Network management and network systems, Network programming, Network protocols, Network security, Network technology, Virtual networking, Wide area networks, Wireless technologies.

**Prerequisites:** None

**Middle-band:** None

**Selection Mode:** CY12 : ATAR.
NY12 : Educational History including GPA, VTAC Personal Statement (All). See extra requirements for more information.
SEAS is considered.

**Extra requirements:**
VTAC Personal Statement (NY12-All) : Non-year 12 applicants must complete a VTAC personal statement. The personal statement should outline your interest, motivation and reasons for selecting the course. You should also include details of your educational and any employment background.
Monash College has been preparing students for university for more than 20 years and we are proud of our international reputation as leaders in transition education. We specialise in academic and English pathway programs for students who aspire to study at Monash University or another leading Australian university and offer a suite of programs to support you at all stages of your chosen pathway. This includes English Language, Diploma and Foundation Year programs. Our programs assist you to develop key skills and knowledge that will equip you to succeed in your chosen degree and also in your future career.

A Monash College Diploma provides specialised preparation for direct entry to first or second year of specific Monash University degrees. Each Diploma has been developed in consultation with Monash University faculties and academic staff to prepare international students for success. Monash College offers four Diploma programs:

- Art & Design Studies
- Arts
- Business
- Engineering Studies

The Diploma program consists of two parts - Part 1 and Part 2 - each of eight months duration. Each eight month period is divided into two trimesters (except Engineering Part 2 which is delivered over three trimesters).

International students are eligible for entry into Part 1 or Part 2 of the Diploma programs, as dependant on existing qualifications and results. Domestic students are eligible for entry into all Part 2 Diploma Programs and Part 1 of the Diploma of Art and Design studies, as dependant on existing qualifications and results. There are three intakes throughout the year for maximum flexibility: February, June and October.

**Diploma Part 1**

Monash College Diploma Part 1 is designed for students entering with an Australian Year 11 qualification or a comparable qualification. Unlike a general Year 12 qualification, a Diploma enables you to specialise in the subjects that are most relevant to your chosen field and your destination degree. You develop strong skills in critical, analytical and creative thinking and a deep understanding of research techniques.

If you achieve excellent grades in Diploma Part 1, you may qualify for early entry into the first year of certain Monash University degree courses without needing to complete Diploma Part 2 (entry requirements vary depending on the chosen destination degree). A Diploma certificate will not be issued unless students complete Diploma Part 2 successfully.

**Diploma Part 2**

Students who successfully complete the Monash College Diploma Part 2 and satisfy the entry requirements are eligible to articulate into the second year of their chosen destination degree (entry requirements vary for each degree and campus location). The Diploma Part 2 further enhances the skills and knowledge developed in Diploma Part 1 and is designed to equip you to succeed in the second year of your University degree.
Principles of Selection

All applicants must meet the minimum entrance requirements, as approved by the Monash College Diplomas Board of Studies in consultation with Monash University. The Board of Studies may grant an exemption to the entrance requirements under the following circumstances: - VTAC Special Entry Access Scheme. For applicants with an ATAR, consideration will take the form of notional bonus points added to their aggregate score. - Where applicant's post-secondary study or other learning experiences have been assessed as equivalent to an Australian Year 12.

Special Entry Access Scheme (SEAS)

Monash College will consider SEAS applications for recognition as an Indigenous Australian, under-represented schools, applicants from regional or remote areas, difficult circumstances, financial disadvantage. SEAS consideration takes the form of a moderate bonus for re-ranking of applicants for selection.

Monash University

Named after engineer, military leader and public administrator Sir John Monash, Monash University was established in the Australian city of Melbourne in 1958. Today, Monash is Australia’s largest university, attracting students from more than 170 countries.

With more than 270,000 graduates across the world, campuses in Malaysia and South Africa, an education and research centre in Italy, a joint-research academy in India, the Southeast University-Monash University Joint Graduate School in Suzhou, China and a truly unique alliance with the University of Warwick in the UK, Monash is a global university with the ambition and ability to address momentous global challenges.

Monash is one of the world’s top 100 universities, renowned not only for its brilliant teaching, but for its transformative research and for the difference its students make in the world once they graduate.

The university consistently rates highly in three of the world's most prestigious ranking indices: The latest QS World University Rankings rated Monash 61st in the world and the Times Higher Education World University Rankings 2012/13 rated Monash 99th in the world.

The Academic Ranking of World Universities rated Monash in the 101-150 band (with an estimated placing of 137th in the world).

Monash offers the opportunity to study across both traditional and emerging disciplines, with courses delivered by ten faculties:

- Art Design & Architecture
- Arts
- Business and Economics
- Education
- Engineering
- Information Technology
- Law
- Medicine, Nursing and Health Sciences
- Pharmacy and Pharmaceutical Science
- Science

Monash University also offers one of the most comprehensive selections of double degrees in Australia.

Monash has an international reputation for cutting-edge research in stem cell science, nanotechnology, reproductive biology, drug development and discovery, injury prevention and road safety among many other disciplines.

At Monash, we equip our graduates with skills for the global workforce. Many Monash courses include an internship that gives students valuable workplace experience, so they are ready to step straight into work.

Monash has a strong track record of long-term, successful relationships with industry, government and the community. Its partnerships and engagement programs range from close links with immediate neighbours to groundbreaking collaborations with organisations across the world.

A Monash experience doesn't have to be confined to Australia.

Monash has exchange agreements with more than 100 universities in 25 different countries and one of the largest...
international study programs of any Australian university. With unlimited opportunities to study and undertake research throughout the world, we offer students a truly international learning experience.

For more information about courses and opportunities at Monash visit www.monash.edu/study

Age requirements

Generally an applicant must be at least 17 years of age at the time of enrolment in a course.

For more information: http://www.monash.edu/study/applications/undergraduate/entry/age.html

English Requirements

All applicants must meet the English language entry requirements of the University to be eligible for an offer.

For more information: http://www.adm.monash.edu.au/admissions/undergrad/entry-requirements/english-requirements.html

Eligibility scores

Monash University has set an eligibility score for courses (based on ATAR scores). Monash University also has a minimum ATAR score of 70.00 for all Bachelor degree courses, even for courses where middle-band is not used or where a range of selection criteria is used. Applicants who receive a special consideration bonus may be selected under the course eligibility score or the University's minimum ATAR score if the bonus lifts them above this score. A list of the University's eligibility scores can be found in the link below.

For more information: http://myuniversity.gov.au/CourseSearch

Admission Tests

Applicants for courses that list STAT as an Extra requirement must sit STAT if:

- they have no school, TAFE or university results that can be considered for entry. (Only Information Technology courses and the Nursing course at Gippsland will consider applicants on this basis), or
- they have TAFE or other tertiary qualifications with ungraded assessment and no other basis for entry, or
- they have VCAL or other secondary study with ungraded assessment but no other basis for entry.

Note: Ungraded assessment means assessment with pass/fail results rather than grades.

STAT results will not be considered for selection to Monash University courses if you:

- have gained VCE or an equivalent Year 12 qualification, or
- have gained a VET or TAFE certificate or diploma with graded assessment at level IV or above, or
- have passed two or more university subjects with graded assessment.

Credit transfer and pathways into courses

Credit Transfer

For more information: http://www.adm.monash.edu.au/admissions/credit.html

Admission Process and Pathways into courses

Admission to Monash is based on competitive selection. In order to assess, compare and differentiate between
candidates, scored or graded results are required. For example: (a) numerical results; (b) graded results such as High Distinction (HD), Distinction (D), Credit (C); or A, B, C etc. Where applicants provide assessment results in the form of pass/fail or competent/non-competent indicators only, they will not be selected. Where graded or scored results are not available, candidates should provide additional scored information that may enhance selection prospects. This should include previous Year 12 results or results of other post secondary studies. Some courses will consider ungraded results when the applicant also has STAT results: see section on ‘Admission Tests’.

You may not have the requirements you need for direct entry into Monash University. If not, pathway programs are another way to enter the University.

For more information: http://www.monash.edu.au/study/options/pathways.html

**Special consideration**

**Special Entry Access Scheme (SEAS)**

Monash University understands that for some people, the opportunity to demonstrate their potential for university study may have been restricted due to their financial, geographical, cultural or personal circumstances. We recognise that given the opportunity these people have the ability to succeed at university.

Monash offers a range of entry pathways and special admissions schemes to help you gain entry to your chosen degree.

You could be eligible for a guaranteed place at Monash, even if your ATAR is below the clearly-in rank. If you are financially disadvantaged, an Indigenous Australian, or completing Year 12 at a school on Monash University's under-represented schools list, complete your SEAS application to be considered for the Monash Guarantee. For a more information, eligibility criteria and a full list of courses included in the scheme go to http://www.monash.edu.au/study/options/guaranteed-entry/

High achieving students admitted through the Monash Guarantee may be invited to join the Vice-Chancellor's Access Monash Scholars. Benefits include $1000 UniStart Bursary and access to a range of special activities.

If you have applied for SEAS we will use the information provided to adjust your ATAR. The Monash SEAS estimate calculator provides an estimate of the adjusted ATAR by adding bonus points based on the type and level of difficulty experienced by SEAS applicants. See how SEAS can help you at Monash at http://www.monash.edu/SEAS

Applicants who are not close to course selection standards, or who possess no relevant previous qualifications, can find out about pathways to qualify for admission to Monash at http://www.monash.edu.au/study/pathways/

For more information: http://www.adm.monash.edu/admissions/special-admissions-scheme.html

**Enrolment and deferment**

**Enrolment dates**

- VTAC UG Round 1: 24-30 January 2014
- VTAC UG Round 2: 11-12 February 2014
- VTAC GET Round 1: 16 January 2014
- VTAC GET Round 2: 28-29 January 2014

For more information: http://www.monash.edu/enrolments/first-time/
**Fees**

**Scholarships**

Monash offers one of the most comprehensive scholarship programs in Australia, and celebrates the accomplishments of the country's highest achieving secondary school students.

The program has two main objectives: to reward academic excellence and to ensure we remain a truly inclusive institution.

We offer exceptional students both financial reward and a package of benefits which enables them to develop themselves further - academically, personally and professionally.

For some students the dream of studying at Monash or at university generally, may feel out of reach for financial, geographical, cultural or personal reasons. Understanding this, we’ve made a substantial number of Monash scholarships available to ensure students who have experienced difficult circumstances are able to participate and succeed at Monash. These scholarships and bursaries are available for students who are:

- experiencing financial hardship
- of Indigenous Australian descent
- experiencing difficult circumstances
- from regional and remote areas
- have a disability or long-term medical condition
- attended an under-represented school
- are a recent refugee.

Further information regarding Monash scholarships, including a list of merit scholarships you will be automatically assessed for when you submit a VTAC course application, is available at [www.monash.edu/scholarships](http://www.monash.edu/scholarships)

**Gippsland Campus Information**

Monash University Gippsland campus and the University of Ballarat are working to join together, to create an expanded regional University from 1 January 2014. This proposal is subject to government decisions which are anticipated early in the second half of 2013, in time for student applications to VTAC for commencement in 2014. Please check the VTAC course search system for up-to-date course offerings at the Gippsland campus.

Services

Applying for Accommodation

Monash Residential Services offers a great range of on-campus accommodation options for students, providing you with a convenient, safe and enjoyable living environment where you can create some truly unforgettable experiences. Students will benefit from the opportunity to create lifelong friendships with students from different backgrounds and join a large range of activities and groups within their hall and the greater MRS community. There is 24 hour, 7 days per week, residential support, pastoral care and advice available from staff and student leaders. We also offer a great range of services for those looking for off-campus accommodation to assist you in making an informed choice when moving out of home. Applications for on campus accommodation in 2014 open from 3 August, 2013. Apply early as spaces are limited.

Monash Residential Services is more than just a room.

For more information: http://www.mrs.monash.edu

Indigenous Services

Indigenous students can access a range of support services through the Yulendj Indigenous Engagement Unit, located on the Clayton campus.

Prospective students are supported through all aspects of the application process including course, scholarship and accommodation applications. Yulendj staff can also advise students on alternative entry pathways into their preferred course.

Services for current students include: academic support through individual tutoring; access to dedicated student lounges and computer laboratories with printing, internet and email access; an onsite wellbeing service including access to counseling, coaching and study skills sessions; mentoring and career transition programs. Yulendj hosts many social and cultural events throughout the year.

For more information: http://www.monash.edu.au/study/life/indigenous/

- Bachelor of Accounting: 3 years full time study

About the course: A specialised accounting degree, aimed at high-achieving students, this course will give you skills to become an accounting professional. As part of your degree, you will undertake 26 weeks of industry-based...
learning placements in major accounting firms and leading industrial organisations, and receive a $16,000 scholarship. Depending on your subject selection, this course qualifies you for associate membership of and entry to CPA Program of CPA Australia, entry into the Chartered Accountants Program of the Institute of Chartered Accountants in Australia (ICAA), and associate membership of the Institute of Public Accountants. This degree also provides you with the flexibility to study up to six electives in subject areas other than accounting. Typically, all Bachelor of Accounting students gain employment in accounting, most at major accounting firms, before they graduate. This course is only available to CY12 applicants.

**Major studies:** Accounting.

**Prerequisites:** Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL; and a study score of at least 25 in one of Maths: Mathematical Methods (CAS) or Maths: Specialist Mathematics.

**Middle-band:** None

**Selection Mode:** CY12: ATAR, Supplementary form (All), Interview (All). See extra requirements for more information.

SEAS is considered.

**Extra requirements:**

Supplementary form (CY12-All) : All applicants must submit the Accounting Supplementary form by 30 November. The form is available from [www.buseco.monash.edu.au/aaf/student/bacc-supplementary-html](http://www.buseco.monash.edu.au/aaf/student/bacc-supplementary-html)

Interview (CY12-All) : Applicants who complete the form to the required standards will be interviewed. Final ranking will be equally based on the ATAR and outcomes of the interview.

- Bachelor of Business (Accounting): 3 years full time study

**About the course:** Accounting is a sophisticated and important element of business. In this degree, you will develop a comprehensive understanding of the accounting discipline and be able to apply your knowledge in a range of business settings. As part of your degree you will study core business units that will give you a broad business perspective, as well as an accounting major, which will give you specialised skills in the field. The basic course structure consists of eight units per year for three years on a full-time basis, including introductory units, a major and elective units. The introductory units include accounting, commercial law, business statistics, microeconomics, management and marketing. Depending on your subject selection, this course qualifies you for associate membership of and entry to CPA Program of CPA Australia, entry into the Chartered Accountants Program of the Institute of Chartered Accountants in Australia (ICAA), and associate membership of the Institute of Public Accountants. You also have the flexibility to study a second major in another business field or from another faculty of the university, and the option to undertake an internship, study overseas or participate in Monash leadership programs. This degree equips you for a career as a professional accountant across the public, private and corporate sectors.

**Major studies:** Accounting.

**Prerequisites:** Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL; and a study score of at least 25 in any Mathematics.
Middle-band: A study score of 25 in Accounting, Business Management, Economics, Geography, Health And Human Development or Psychology equals 2 aggregate points per study. A study score of 30 in any Mathematics equals 6 aggregate points per study. Overall maximum of 8 points.

Selection Mode: CY12: ATAR and middle-band.
NY12: Educational History including GPA, Supplementary form (All). See extra requirements for more information. SEAS is considered.

Extra requirements:
Supplementary form (NY12-All) : NY12 applicants must submit the Business and Economics Employment and Supplementary Information form by 20 December. The form is available from www.buseco.monash.edu.au/student/forms/index.html. Information on the form receives equal weighting with academic results in deciding the ranking.

- Bachelor of Commerce (Accounting and Finance): 3 years full time study

About the course: This course is aimed at students who wish to work as accountants, or within the fields of investment and finance. This combination of accounting and finance majors offers you broader career options than studying either one in isolation. You will develop strong analytical skills and gain a solid grounding in all aspects of commerce, as well as developing managerial and decision-making skills, which will enable you to provide effective financial management in the continuously changing domestic and international financial markets. Depending on your subject selection, this course qualifies you for associate membership of and entry to CPA Program of CPA Australia, entry into the Chartered Accountants Program of the Institute of Chartered Accountants in Australia (ICAA), and associate membership of the Institute of Public Accountants. You also have the option to undertake an internship, study overseas or participate in Monash leadership programs. As a graduate you are likely to find employment in banks, private and public practice or within government. The basic course structure consists of eight units per year for three years on a full-time basis, including introductory units in commerce disciplines and two major specialisations - one in accounting and one in finance.

Major studies: Accounting, Finance.

Prerequisites: Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL; and a study score of at least 25 in one of Maths: Mathematical Methods (CAS) or Maths: Specialist Mathematics.

Middle-band: None

Selection Mode: CY12: ATAR.
NY12: Educational History including GPA, VTAC Personal Statement (All). See extra requirements for more information. SEAS is considered.

Extra requirements:
VTAC Personal Statement (NY12-All) : NY12 applicants must complete a VTAC Personal Statement. Information on the statement receives equal weighting with academic results in deciding the ranking.

- Bachelor of Business (Accounting) and Bachelor of Business (Banking and Finance): 4 years full time study

About the course: This double degree gives you the capacity to work in a wide variety of positions across the finance sector by providing you with a strong combination of business, accounting and finance skills. This combination of degrees offers broader career options than studying one degree by itself. Within the accounting degree you will develop high-level accounting skills, which will enable you to work as an accountant in public and private practice or in government organisations. Depending on your subject selection, this course qualifies you for associate membership of and entry to CPA Program of CPA Australia, entry into the Chartered Accountants Program of the Institute of Chartered Accountants in Australia (ICAA), and associate membership of the Institute of Public Accountants. Within the banking and finance degree, you will focus on corporate finance subjects including capital structures, investments, mergers and acquisitions, commercial and investment banking, stock markets, retail markets and capital markets.

The basic course structure consists of eight units per year for four years on a full-time basis, and includes introductory units and majors specialisations in accounting and banking and finance. Introductory units include accounting, commercial law, business statistics, economics, management and marketing. This degree also offers additional opportunities including internships, overseas study and leadership programs.

With this wide skill set, you are likely to find employment across the financial services sector, either as accountants or in corporate finance roles in banks and other institutions.

Major studies: Accounting, Banking and finance.

Prerequisites: Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL; and a study score of at least 25 in any Mathematics.

Middle-band: A study score of 25 in Accounting, Business Management, Economics, Geography, Health And Human Development or Psychology equals 2 aggregate points per study. A study score of 30 in any Mathematics equals 6 aggregate points per study. Overall maximum of 8 points.

Selection Mode: CY12: ATAR and middle-band.
NY12: Educational History including GPA, Supplementary form (All). See extra requirements for more information. SEAS is considered.

Extra requirements:
Supplementary form (NY12-All): NY12 applicants must submit the Business and Economics Employment and Supplementary Information form by 20 December. The form is available from www.buseco.monash.edu.au/student/forms/index.html. Information on the form receives equal weighting with academic results in deciding the ranking.

Bachelor of Business (Accounting) and Bachelor of Business (Management): 4 years full time study

**About the course:** This double degree provides a professional education in business, with specialisations in both accounting and management. The blend of accounting and management skills, combined with general business studies prepares you to be competitive in management accounting environments. Within the accounting degree you will develop high-level accounting skills, enabling you to work as an accountant in public and private practice or in government organisations. Depending on your subject selection, this course qualifies you for associate membership of and entry to CPA Program of CPA Australia, entry into the Chartered Accountants Program of the Institute of Chartered Accountants in Australia (ICAA), and associate membership of the Institute of Public Accountants. This is combined with a management degree that gives you a broad understanding of key business principles and management issues. This double degree also offers additional opportunities including internships, overseas study and leadership programs. The basic course structure consists of eight units per year for four years on a full-time basis, including introductory units and major specialisations in accounting and management. The introductory units include accounting, commercial law, business statistics, economics, management and marketing.

**Major studies:** Accounting, Management.

**Prerequisites:** Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL; and a study score of at least 25 in any Mathematics.

- Bachelor of Aerospace Engineering (Honours): 4 years full time study

**About the course:** Students undertake studies in the core discipline areas of aerodynamics, aerospace materials, aerospace structures, propulsion and aerospace instrumentation and control and design. Level one includes the basic sciences such as mathematics, physics and chemistry. In later years, the core discipline areas of aerodynamics, propulsion, materials, structures, avionics/control, design and dynamics/mechanics are introduced.
and developed, together with a sequence in control avionics/instrumentation and additional professional/management and project-based units. Vacation employment: twelve weeks during one or more long vacations between years of study, in approved engineering work.

**Major studies:** Aerodynamics, Aerospace engineering, Avionics, Engineering, Engineering design.

**Prerequisites:** Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL; and a study score of at least 25 in Maths: Mathematical Methods (CAS); and a study score of at least 25 in one of Chemistry or Physics.

**Middle-band:** A study score of 25 in Maths: Specialist Mathematics equals 3 aggregate points. A study score of 25 in each of Chemistry and Physics equals 1 aggregate point per study. Overall maximum of 5 points.

**Selection Mode:** CY12: ATAR and middle-band.
NY12: Educational History including GPA, VTAC Personal Statement (All).
SEAS is considered.

- Bachelor of Aerospace Engineering (Honours) and Bachelor of Arts: 5 years full time study

**About the course:** This course enables aerospace engineering students to complement their program by selecting units from the very wide range of disciplines in the humanities, social sciences and communications offered by the Faculty of Arts. Students undertake a mix of aerospace engineering and arts units over the 5 years. Vacation employment: twelve weeks during one or more long vacations between years of study, in approved engineering work.

**Major studies:** Ancient cultures, Anthropology, Australia in the world, Behavioural studies, Bioethics, Chinese studies, Communications, Criminology, Engineering, Engineering (chemical), Engineering (civil), Engineering (computer systems), Engineering (electrical), Engineering (materials), Engineering (mechanical), English as an international language, Film and screen studies, French studies, Geography climate and physical environments, German studies, History, Holocaust and genocide studies, Human rights, Indigenous cultures and histories, Indonesian studies, International relations, International studies, Islamic studies, Italian studies, Japanese studies, Jewish studies, Journalism practice, Journalism studies, Korean studies, Linguistics, Literary studies, Music, Philosophy, Politics, Psychology, Religion and theology, Society cities and sustainability, Sociology, Spanish and Latin American studies, Theatre, Ukrainian studies, Visual culture.

**Prerequisites:** Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL; and a study score of at least 25 in Maths: Mathematical Methods (CAS); and a study score of at least 25 in one of Chemistry or Physics.

**Middle-band:** A study score of 25 in Maths: Specialist Mathematics equals 2.5 aggregate points. A study score of 25 in each of Chemistry and Physics equals 1 aggregate point per study. A study score of 25 in any LOTE equals 1 aggregate point per study. Overall maximum of 4 points.

- Bachelor of Aerospace Engineering (Honours) and Bachelor of Laws: 6 years full time study

**About the course:** The Laws component of this double degree provides an accredited education in law for applicants without a tertiary qualification. The degree offers students an in-depth understanding of the concepts, procedures and reasoning upon which the Australian legal system is founded. Students gain an understanding of basic legal concepts, principles, rules and methods used in legal argument and develop oral and written skills in legal argument, legal research and critical analysis.

The Bachelor of Laws course consists of 12 compulsory units which must be completed by all students enrolled in an LLB program plus a further six 'quasi-compulsory' units which must be completed by students who wish to qualify for admission to practice as a barrister or solicitor in Victoria. The remainder of the program consists of law elective units chosen by the student in areas of interest.

The study of aerospace engineering will focus on aerodynamics, aerospace materials, structures, propulsion, instrumentation and control. This will be complemented by a major emphasis on design, which will be taught with a project-based focus. Current industry practice and guidance on professional issues such as ethics, legal, environmental and safety issues will also be covered. Vacation employment: twelve weeks during one or more long vacations between years of study, in approved engineering work.

**Prerequisites:** Units 3 and 4: a study score of at least 35 in English (EAL) or 30 in English other than EAL; and a study score of at least 25 in Maths: Mathematical Methods (CAS); and a study score of at least 25 in one of Chemistry or Physics.

**Middle-band:** A study score of 45 in any English equals 2 aggregate points per study. A study score of 40 in any English equals 1 aggregate point per study. A study score of 40 in Classical Studies, Economics, Geography, any History, Legal Studies, Philosophy, Australian Politics, Global Politics or Psychology equals 1 aggregate point per study. Overall maximum of 5 points.

**Selection Mode:** CY12: ATAR and middle-band.

NY12: Educational History including GPA, VTAC Personal Statement (All). See extra requirements for more information.

SEAS is considered.

About the course: This course provides a foundation in IT, with a focus on the technologies and techniques used to create computer-based systems and the development processes used in the construction of large-scale IT-based systems. A set of core units covers basic concepts underlying all studies in IT. The applications development major comprises units covering all aspects of the development process ranging from systems analysis and design to programming and implementation. A final year industry experience project enables students to put their knowledge and skills into practice on a real-life problem. Electives can be used to deepen knowledge of IT, or to give more breadth to studies by taking units in areas such as business, arts or science.

Local students can apply for a place in the Industry Based Learning program in which they complete a 22-week industry placement and receive a generous scholarship. Placements are part of the curriculum and are formally assessed and credited towards the degree. Selection for IBL is based on academic merit and an interview conducted by industry partners prior to entry to the program. Further IBL places will be made available at the completion of the first year of the course. The IBL program is available to CSP applicants only.

An Industry Based Learning (IBL) Information Evening will be held on 27 August 2013 at the Clayton campus.

Prerequisites: Units 1 and 2: satisfactory completion in two units (any study combination) of General Mathematics or Mathematical Methods or Units 3 and 4: any Mathematics; and a study score of at least 30 in English (EAL) or 25 in English other than EAL.

Middle-band: A study score of 35 in English (EAL) equals 2 aggregate points. A study score of 40 in English (EAL) equals 4 aggregate points. A study score of 30 in one but no more than one of English other than EAL equals 2 aggregate points per study. A study score of 35 in one but no more than one of English other than EAL equals 4 aggregate points per study. A study score of 20 in Maths: Mathematical Methods (CAS) or Maths: Specialist Mathematics equals 4 aggregate points per study. A study score of 20 in Maths: Further Mathematics equals 2 aggregate points. Overall maximum of 8 points.

Selection Mode: CY12: ATAR and middle-band, Supplementary form (Some), Interview (Some). See extra requirements for more information.

NY12: Educational History including GPA, STAT (Some). See extra requirements for more information.

SEAS is considered.

Extra requirements:
Supplementary form (CY12-Some) : Applicants who wish to apply for the Industry Based Learning Program should submit an application online at http://www.infotech.monash.edu.au/ibl by 2 December 2013.

Interview (CY12-Some) : Industry Based Learning Program applicants must attend an interview on 11 December 2013.

STAT (NY12-Some) : NY12 applicants described under the Admissions Test section are required to sit STAT Multiple Choice.

Applied Linguistics (Grad)

Monash University

Clayton: Domestic fee-paying places full-time/part-time  Apply: Direct to institution

Clayton: International fee-paying places full-time  Apply: Direct to institution

• Master of Applied Linguistics: 1.5 year full time study
About the course: Professionals who know how language works and how it can be utilised in a multitude of situations are highly-valued in the workplace. This course offers professionals in a wide range of disciplines the opportunity to expand their knowledge of how language works. Students gain a critical understanding of theoretical and practical issues relating to applied linguistics, including second/foreign language acquisition, language teaching, language contact and intercultural communication. The course is available in three streams: General applied linguistics; Japanese applied linguistics; and English as an international language.

Major studies: Cultures, English, English as an international language, General applied linguistics, Humanities, Japanese applied linguistics, Languages, Linguistics.

Prerequisites: Bachelor Degree with a credit average or a Graduate Diploma with a credit average.

Middle-band: None

Selection Mode: NY12: Educational History including GPA.

Extra requirements: None

- Bachelor of Architectural Design: 3 years full time study

About the course: This course offers a program of education in the discipline of architecture. The focus of this course is on the creative design process and professional requirements for the practice of architecture. It is the first in a two-degree program intended for students who wish to qualify for practice as an architect. Students who attain the Bachelors degree will automatically be offered a place in the Masters course.

The key component of studies is the Architecture Design Studio, which provides the opportunity to investigate ideas and experiment with different processes of design production. Throughout the course students develop abilities to critically observe, analyse and produce architecture. To support the development of design skills, students learn how technology and environment impacts on design, and the influence theory and history has on architecture as a discipline. Students will explore the professional practice of architecture and develop the communication skills to complement your architectural practice. The course develops architecture as a creative discipline alongside the Faculty's fine art and design courses.

Major studies: Architectural communication, Architectural design, Architecture, Building design, Building technologies, Built environment, Computer-aided design (CAD), Design, Design theory, Digital design and fabrication, History (architecture), Landscape studies, Sustainable architecture, Urban design, Urban studies.

Prerequisites: Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL.

Middle-band: A study score of 25 in any Mathematics equals 2 aggregate points per study. A study score of 30 in any Mathematics equals 6 aggregate points per study. Overall maximum of 8 points.

Selection Mode: CY12: ATAR and middle-band, Supplementary form (All), Interview (Some). See extra requirements for more information.

NY12: Educational History including GPA, Supplementary form (All), Folio (Some), Interview (Some). See extra requirements for more information.

SEAS is considered.
\textbf{Extra requirements:}

\textbf{Supplementary form (CY12-All, NY12-All)}: The supplementary form consists of 2 steps. Step 1: All applicants must complete the online Art Design and Architecture registration form by no later than 11 October. To register go to: www.monash.edu/mada/study/apply. Step 2: (CY12-All, NY12-Some): Applicants with no previous studies in architecture need to complete the pre-selection activity. Applicants will receive details of the pre-selection activity after registration.

\textbf{Folio (NY12-Some)}: Applicants with a background in Architecture will need to present their folio during the interview process. Submission of a digital copy is also required.

\textbf{Interview (CY12-Some, NY12-Some)}: Shortlisted applicants will be contacted by 12 November with details of the interview process. Interviews will be hosted from late November to early December. Advisory letters will be sent to applicants by 13 December. Each applicant's final ranking is based on their interview score, pre-selection activity or folio, and ATAR or GPA.

For further information regarding pre-selection activity, folio or interview process, or to confirm if you are an applicant with a background in architecture, contact: mada@monash.edu

**About the course**: This program is the second of two programs in the discipline of architecture required for professional registration. The Master of Architecture offers an accredited coursework postgraduate education in the discipline of architecture and meets the requirements for professional registration. The program of study will engage students with design, social, historical and theoretical contexts of architecture as well as providing knowledge of the professional requirements for the practice of architecture. Students who have successfully completed the Bachelor of Architectural Design at Monash University will automatically progress to the Master of Architecture. The course accepts additional intake of students with a bachelor degree in architecture from a recognised tertiary institution. Students are trained to combine creative vision with technical expertise to develop innovative solutions to the complex challenges facing our evolving built environments.

**Major studies**: Architectural Design, Architecture.

**Prerequisites**: Bachelor Degree Architecture.

**Middle-band**: None

**Selection Mode**: NY12: Educational History including GPA, Supplementary form (All). See extra requirements for more information.

Bachelor of Architectural Design Scholars Program: 3 years full time study

**About the course:** This course offers a program of education in the discipline of architecture for high achieving students. Dean's Scholars also gain access to a range of opportunities not available to other students. The select group of scholars will join the architecture course which focuses on the creative design process and professional requirements for the practice of architecture. It is the first in a two-degree program intended for students who wish to qualify for practice as an architect. Students who attain the Bachelors degree will automatically be offered a place in the Masters course.

The key component of studies is the Architecture Design Studio, which provides the opportunity to investigate ideas and experiment with different processes of design production. Throughout the course students develop abilities to critically observe, analyse and produce architecture. To support the development of design skills, students learn how technology and environment impacts on design, and the influence theory and history has on architecture as a discipline. Students will explore the professional practice of architecture and develop the communication skills to complement your architectural practice. The course develops architecture as a creative discipline alongside the Faculty's fine art and design courses.

**Major studies:** Architectural communication, Architectural design, Architecture, Building design, Building technologies, Built environment, Computer-aided design (CAD), Design, Design theory, Digital design and fabrication, History (architecture), Landscape studies, Sustainable architecture, Urban design, Urban studies.

**Prerequisites:** Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL.

**Middle-band:** A study score of 25 in any Mathematics equals 2 aggregate points per study. A study score of 30 in any Mathematics equals 6 aggregate points per study. Overall maximum of 8 points.

**Selection Mode:** CY12: ATAR and middle-band, Supplementary form (All), Interview (Some). See extra requirements for more information.

Bachelor of Arts: 3 years full time study

About the course: Monash Bachelor of Arts students learn about the diverse world in which we live, and how we might live in the future. They are encouraged to think about cultural, linguistic and geographical differences and to ask how and why these variations have occurred over time. Studying Arts encourages students to take an innovative approach in tackling world issues and fosters a global perspective. Arts students are self-reliant researchers, seeking out a variety of resources in order to answer complicated questions. They are expert communicators and resist easy answers or simplistic solutions. They strive to develop an ethical and intellectual framework within which they can understand what it means to be human.

Major studies: Ancient cultures, Anthropology, Australia in the world, Behavioural studies, Bioethics, Chinese studies, Communications, Criminology, English as an international language, Film and screen studies, French studies, Geography climate and physical environments, German studies, History, Holocaust and genocide studies, Human rights, Indigenous cultures and histories, Indonesian studies, International relations, International studies, Islamic studies, Italian studies, Japanese studies, Jewish studies, Journalism practice, Journalism studies, Korean studies, Linguistics, Literary studies, Music, Philosophy, Politics, Psychology, Religion and theology, Society cities and sustainability, Sociology, Spanish and Latin American studies, Theatre, Ukrainian studies, Visual culture.

Prerequisites: Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL.

Middle-band: Satisfactory completion in one but no more than three of Classical Studies, Drama, Environmental Science, Geography, any History, Literature, any LOTE, Media, any Music, Philosophy, Australian Politics, Global Politics, Religion And Society, Sociology, Theatre Studies or Texts And Traditions equals 2 aggregate points per study. Overall maximum of 6 points.

Selection Mode: CY12: ATAR and middle-band.
NY12: Educational History including GPA, VTAC Personal Statement (All).
SEAS is considered.

Extra requirements:
VTAC Personal Statement (NY12-All)
Bachelor of Arts (Global): 3 years full time study

About the course: In this course, students don't just study global culture; they experience it first-hand by studying up to three semesters overseas at either the Monash University Sunway campus, Monash South Africa or an approved partner university anywhere in the world. Students complete an international studies major focusing on the effect of globalisation and integration, including the benefits and the downsides. Graduates will be equipped for a global career in a wide range of established and emerging fields, including foreign affairs, diplomacy, intelligence and government.

Major studies: International studies.

Prerequisites: Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL.

Middle-band: Satisfactory completion in one but no more than three of Classical Studies, Drama, Environmental Science, Geography, any History, Literature, any LOTE, Media, any Music, Philosophy, Australian Politics, Global Politics, Religion And Society, Sociology, Theatre Studies or Texts And Traditions equals 2 aggregate points per study. Overall maximum of 6 points.

Selection Mode: CY12: ATAR and middle-band.
NY12: Educational History including GPA, VTAC Personal Statement (All).
SEAS is considered.

- Bachelor of Arts (Global) and Bachelor of Commerce: 4 years full time study

About the course: This double degree equips you for a career at the top of your profession, providing you with business skills as well as critical-thinking, communication and analytical skills. Within the commerce degree, you will combine core business and commerce subjects and a major area of study (specialisations) from commerce disciplines. Within the arts degree, you will study an international studies major, an arts minor, one compulsory global studies unit and arts elective units. An additional requirement within the Arts (Global) components of this course is a compulsory minimum period of one semester of overseas study. This degree also offers additional opportunities including internships and leadership programs.

**Prerequisites:** Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL; and a study score of at least 25 in one of Maths: Mathematical Methods (CAS) or Maths: Specialist Mathematics.

**Middle-band:** None

**Selection Mode:** CY12: ATAR. NY12: Educational History including GPA, VTAC Personal Statement (All). See extra requirements for more information. SEAS is considered.

**Extra requirements:**
VTAC Personal Statement (NY12-All): NY12 applicants must complete a VTAC Personal Statement. Information on the statement receives equal weighting with academic results in deciding the ranking.

- Bachelor of Arts (Global) and Bachelor of Science: 4 years full time study

**About the course:** Students complete studies in two specialised areas of Science and two specialised areas from Arts. Students complete an international studies major and a minor that complements the global theme. There is one core unit in global research. The international perspective and the highly developed scientific skills gained from this degree will help shape careers in international relations or trade, foreign affairs, diplomacy, politics and government, environmental research and planning and with international not-for-profit organisations, as well as in any of the traditional or emerging areas of science. An additional requirement within the Bachelor of Arts (Global)/Bachelor of Science is a compulsory minimum period of one semester of overseas study. See the Faculty of Science website at http://www.monash.edu.au/science/future/ for further details on course structure and areas of study.

**Major studies:** Ancient cultures, Anthropology, Applied mathematics, Astronomy and astrophysics, Atmospheric science, Australia in the world, Behavioural studies, Biochemistry and molecular biology, Bioethics, Chemistry, Chinese studies, Communications, Computational mathematics, Computer science, Criminology, Developmental biology, Ecology and conservation biology, English as an international language, Film and screen studies, Financial and Insurance mathematics, French studies, Genetics, Geographical science, Geography climate and physical environments, Geosciences, German studies, History, Holocaust and genocide studies, Human pathology, Human rights, Immunology, Indigenous cultures and histories, Indonesian studies, International relations, International studies, Islamic studies, Italian studies, Japanese studies, Jewish studies, Journalism practice, Journalism studies, Korean studies, Linguistics, Literary studies, Marine and freshwater biology, Materials science, Mathematics and statistics, Microbiology, Music, Pharmacology, Philosophy, Physics, Physiology, Plant sciences, Politics, Psychology, Pure mathematics, Religion and theology, Sociology, Spanish and Latin American studies, Statistics, Theatre, Ukrainian studies, Visual culture, Zoology.

**Prerequisites:** Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL; and a study score of at least 25 in one of Biology, Chemistry, Geography, Maths: Mathematical Methods (CAS), Maths: Specialist Mathematics, Physics or Psychology.

**Middle-band:** A study score of 25 in two but no more than four of Biology, Chemistry, Geography, Maths: Mathematical Methods (CAS), Maths: Specialist Mathematics, Physics or Psychology equals 2 aggregate points per study. A study score of 25 in one but no more than four of Classical Studies, any History, Literature, any LOTE, Australian Politics or Global Politics equals 2 aggregate points per study. Overall maximum of 8 points.
Selection Mode: CY12: ATAR and middle-band.
NY12: Educational History including GPA, VTAC Personal Statement (All).
SEAS is considered.

Bachelor of Arts and Social Sciences and Bachelor of Business and Commerce: 4 years full time study

About the course: The course provides a professional education in a range of business and commerce disciplines combined with a range of social science and humanities disciplines. Students will gain a comprehensive understanding of their discipline and be able to provide discipline based solutions relevant to their organisation. The basic course structure consists of eight units per year for four years on a full-time basis. The Faculty of Business and Economics component includes introductory units in the major disciplines and a major specialisation in a business and commerce discipline. The Faculty of Arts component of the course includes a major specialisation, a minor and elective units. Many units are also offered by off-campus mode.

Major studies: Accounting, Australian indigenous studies, Communications, Community studies, Economics, Finance and macroeconomics, History-Politics, Human resource management, Management, Marketing, Psychological studies, Psychology, Public relations, Sociology, Writing.

Prerequisites: To be confirmed

Middle-band: A study score of 25 in Accounting, Business Management, Economics or any Mathematics equals 3 aggregate points per study. Satisfactory completion in Classical Studies, Geography, any History, Literature, any LOTE, Media, Philosophy, Australian Politics, Global Politics, Religion And Society, Sociology or Texts And Traditions equals 2 aggregate points per study. Overall maximum of 8 points.

Selection Mode: CY12: ATAR and middle-band.
NY12: Educational History including GPA.
SEAS is considered.

Extra requirements: None

Bachelor of Arts and Social Sciences and Bachelor of Community Welfare and Counselling: 4 years full time study

About the course: Developed in response to industry demand, this course is designed to produce specialist community welfare graduates with the knowledge and tools to help raise the standard of work in the welfare area. Students gain a welfare and counselling qualification recognised by the Australian Community Workers Association (ACWA), while exploring arts and social science disciplines. Graduates are able to pursue careers in social and community services, counselling, social welfare or social research. The knowledge and skills gained from studying arts and social sciences also broadens students' career options.

Major studies: Australian Indigenous Studies, Communications, Community studies, Community welfare and counselling, English, History-politics, Psychological studies, Psychology (off campus only), Public relations, Sociology, Writing.
**Prerequisites:** To be confirmed

**Middle-band:** Satisfactory completion in one but no more than three of Classical Studies, Drama, Environmental Science, Geography, any History, Literature, any LOTE, Media, any Music, Philosophy, Australian Politics, Global Politics, Religion And Society, Sociology, Theatre Studies or Texts And Traditions equals 2 aggregate points per study. Overall maximum of 6 points.

**Selection Mode:** CY12: ATAR and middle-band.

- Bachelor of Arts and Social Sciences and Bachelor of Primary Education: 4 years full time study

**About the course:** This course is designed to prepare students for careers in arts and social science professions and primary teaching. Students combine studies of arts and social sciences with the theory and practice of teaching.

Students complete an Arts and Social Sciences major (three years) and an Arts and Social Sciences minor (two years) sequence, as well as primary education core units and practical teaching experience in primary education.

The program provides deep understanding of childhood development, educational theories and practice and how to engage children in innovative, engaging and purposeful learning in children from 5 to 12 years. Education units include: child and adolescent development; diversity; curriculum, assessment and evaluation; and leadership. Curriculum units include: literacy, numeracy, health, science, technology and environment in addition to researching innovative practice. Students also complete education priority unit sequence and can take a six unit sequence from a range of discipline options.

Students complete a minimum of 80 days of supervised teaching placement in schools or other appropriate settings, which may include overseas teaching placement. These placements give students vital teaching experience and connect the theoretical components of their studies with the practical aspects of teaching. By the end of the professional placements, students will be experienced teaching in front of a class and ready to start their teaching career.

This course is (pending) accredited by the Victorian Institute of Teaching (VIT). Graduates can seek registration with the VIT to start their teaching career. In addition, graduates can pursue careers in a range of areas related to their arts and social studies degree.

**Major studies:** Applied psychology, Australian Indigenous studies, Communications, Education, Education studies, English, History, Political studies, Psychology (off-campus only), Public relations, Rights and justice, Sociology, Teaching (primary).

**Prerequisites:** To be confirmed

**Middle-band:** A study score of 25 in one but no more than three of Classical Studies, Drama, Geography, any History, Literature, any LOTE, Media, any Music, Australian Politics, Global Politics, Religion And Society, Sociology or Texts And Traditions equals 2 aggregate points per study. A study score of 35 in English other than EAL equals
1.5 aggregate points per study. A study score of 40 in English (EAL) equals 1.5 aggregate points. Overall maximum of 7.5 points.

Selection Mode: CY12: ATAR and middle-band.
NY12: Educational History including GPA, VTAC Personal Statement (All), Work experience (Some). See extra requirements for more information.
SEAS is considered.

Extra requirements:
VTAC Personal Statement (NY12-All): NY12 applicants must complete a VTAC Personal Statement detailing community involvement and evidence of how they have fulfilled the equivalent mathematics prerequisite.
Work experience (NY12-Some): Details of any work experience must be included on your VTAC Personal Statement.

All: SUCCESSFUL APPLICANTS: Students will be required to complete a Working With Children Check (WWCC).

- Bachelor of Arts and Social Sciences and Bachelor of Visual and Media Arts: 4 years full time study

**About the course:** This course provides students with sound knowledge of the theories and practices required to work professionally in visual and media arts industries. There is a focus on developing a high standard of skills in research, analysis, communication and critical thinking. The arts and social sciences component of the course gives students the opportunity to add depth and diversity to their degree, thereby enhancing their career options. Graduates of this double degree are equipped for careers in a variety of visual and media arts roles such as curatorship, design or art criticism, as well as a range of interdisciplinary roles in art therapy, or cultural and community arts programs, drawing on students’ knowledge of the arts and social sciences.

**Major studies:** Art theory, Australian Indigenous studies, Communications, Community studies, Creative arts, Drawing, English, History-politics, Painting, Photography, Photomedia, Printmaking, Printmedia, Psychological studies, Psychology (off-campus only), Public relations, Sculpture, Sociology, Visual arts, Writing.

**Prerequisites:** To be confirmed

**Middle-band:** Satisfactory completion in one but no more than three of Classical Studies, Drama, Environmental Science, Geography, any History, Literature, any LOTE, Media, any Music, Philosophy, Australian Politics, Global Politics, Religion And Society, Sociology, Theatre Studies or Texts And Traditions equals 2 aggregate points per study. Overall maximum of 6 points.

**Selection Mode:** CY12: ATAR and middle-band, Interview (All). See extra requirements for more information.
NY12: Educational History including GPA, Interview (All). See extra requirements for more information.
SEAS is considered.

**Extra requirements:**

Interview (CY12-All, NY12-All) : All applicants must telephone (03) 5122 6261 or (03) 9902 6261 to register, by 4 October 2013. Details will be sent to applicants by 4 November 2013. Applicants must attend an interview in November. Advisory letters will be sent to applicants by 12 December 2013. Each applicant's final ranking is based on their interview score; applicants must also achieve a minimum ATAR or GPA.

- Bachelor of Arts and Bachelor of Commerce: 4 years full time study

About the course: This double degree prepares you for a career at the top of your profession by providing you with business skills as well as critical-thinking, communication and analytical skills. The combination of business and arts skills offers broader career options than studying one in isolation. Within the commerce degree you will combine key business units with a major area of study (specialisations) from our commerce disciplines. Within the arts degree you will study a major, a minor and elective units, selected from an impressive offering of subjects from within the Faculty of Arts. Students studying this course also have additional opportunities such as internships, overseas study, study tours and leadership programs.

Prerequisites: Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL; and a study score of at least 25 in one of Maths: Mathematical Methods (CAS) or Maths: Specialist Mathematics.

Middle-band: None

Selection Mode: CY12: ATAR.
NY12: Educational History including GPA, VTAC Personal Statement (All). See extra requirements for more information.
SEAS is considered.

**Extra requirements:**

VTAC Personal Statement (NY12-All): NY12 applicants must complete a VTAC Personal Statement. Information on the statement receives equal weighting with academic results in deciding the ranking.

Prerequisites: Units 3 and 4; a study score of at least 30 in English (EAL) or 25 in English other than EAL; and a study score of at least 25 in one of Maths: Mathematical Methods (CAS) or Maths: Specialist Mathematics.

Middle-band: Satisfactory completion in one but no more than three of Classical Studies, Drama, Environmental Science, Geography, any History, Literature, any LOTE, Media, any Music, Philosophy, Australian Politics, Global Politics, Religion And Society, Sociology, Theatre Studies or Texts And Traditions equals 2 aggregate points per study. Overall maximum of 6 points.

Selection Mode: CY12: ATAR and middle-band.
NY12: Educational History including GPA, VTAC Personal Statement (All).
SEAS is considered.

Extra requirements:
VTAC Personal Statement (NY12-All)
About the course: This double degree is suited to students interested in a primary teaching career and in broadening their knowledge in arts disciplines such as media, languages or history.

The program provides a deep understanding of teaching and learning as well as curriculum and assessment, professional engagement and the development of children aged from 5 - 12 years. Students complete a major in education and curriculum. Education units include: child and adolescent development, professional identity, leadership and engagement and curriculum, assessment and evaluation. Curriculum units include: literacy, numeracy, health, science, technology and environment. Students will also complete studies in Arts related disciplines such as media, languages or history.

Students complete a minimum 80 days of supervised teaching placement in primary school settings. Professional placements give students vital teaching experience and connect the theoretical components of their studies with the practical aspects of teaching.

This course is accredited by the Victorian Institute of Teaching (VIT). Graduates can seek registration with the VIT to start their teaching career. In addition, graduates can pursue careers in arts related fields such as media and journalism, translating, politics or international trade.

This course is equivalent to 4.25 years of full time study but is completed in 4 calendar years. Studies in Arts and Education are taken concurrently. Travel between campuses will be required. Arts units will be studied at Clayton. Year 1 of the course will be at Clayton, years 2 and 3 will be across Clayton and Peninsula, with year 4 taught solely at the Peninsula campus.

For details on optional course information session dates, times and venues visit www.edu.monash.edu/vtac

Major studies: Ancient cultures, Anthropology, Australia in the world, Behavioural studies, Bioethics, Chinese studies, Communications, Criminology, Education, Education studies, English as an international language, Film and screen studies, French studies, Geography climate and physical environments, German studies, History, Holocaust and genocide studies, Human rights theory, Indigenous cultures and histories, Indonesian studies, International relations, International studies, Islamic studies, Italian studies, Japanese studies, Jewish studies, Journalism practice, Journalism studies, Korean studies, Linguistics, Literary studies, Music, Philosophy, Politics, Psychology, Regional and international development, Religion and theology, Society cities and sustainability, Sociology, Spanish and Latin American studies, Teaching (primary), Theatre, Ukrainian, Visual culture.

Prerequisites: Units 1 and 2: satisfactory completion in two units (any study combination) of General Mathematics or Mathematical Methods or Units 3 and 4: any Mathematics; and a study score of at least 30 in English (EAL) or 25 in English other than EAL.

Middle-band: A study score of 25 in one but no more than three of Classical Studies, Drama, Geography, any History, Literature, any LOTE, Media, any Music, Australian Politics, Global Politics, Religion And Society, Sociology or Texts And Traditions equals 2 aggregate points per study. A study score of 35 in English other than EAL equals 1.5 aggregate points per study. A study score of 40 in English (EAL) equals 1.5 aggregate points. Overall maximum of 7.5 points.

Selection Mode: CY12: ATAR and middle-band.
NY12: Educational History including GPA, VTAC Personal Statement (All). See extra requirements for more information.
SEAS is considered.

Extra requirements:
VTAC Personal Statement (NY12-All) : NY12 applicants must complete a VTAC Personal Statement detailing community involvement and evidence of how they have fulfilled the equivalent mathematics prerequisite.

SUCCESSFUL APPLICANTS: Students will be required to complete a Working With Children Check (WWCC).
Bachelor of Arts and Bachelor of Education (Secondary): 4 years full-time study

About the course: This double degree is suited to those interested in a secondary teaching career and in broadening their knowledge in Arts disciplines. The course will enhance your career options and deepen your understanding in the arts and humanities areas you intend to teach in schools.

The program provides a deep understanding of teaching and learning as well as curriculum and assessment, professional engagement and adolescent development and learning. Education units include: adolescent development and learning, professional engagement and leadership, and local and global perspectives in education. Curriculum units include: becoming a specialist teacher, curriculum development and innovative practice.

Studies in arts disciplines and education are taken concurrently. Students must study a major, a minor and an additional minor or two first year sequences in Arts. Major and minor sequences in arts must be chosen from disciplines that lead to secondary teaching qualifications. For more information visit: www.education.monash.edu.au/units/secondary-specialisms.html

Students complete a minimum 80 days of supervised teaching placement in primary and secondary school settings. Professional placements give students vital teaching experience and connect the theoretical components of their studies with the practical aspects of teaching.

All: SUCCESSFUL APPLICANTS Students will be required to complete a Working With Children Check (WWCC).
Bachelor of Arts and Bachelor of Laws: 5 years full time study

About the course: The Laws component of this double degree provides an accredited education in law for applicants without a tertiary qualification. The degree offers students an in-depth understanding of the concepts, procedures and reasoning upon which the Australian legal system is founded. Students gain an understanding of basic legal concepts, principles, rules and methods used in legal argument and develop oral and written skills in legal argument, legal research and critical analysis.

The Bachelor of Laws course consists of 12 compulsory units which must be completed by all students enrolled in an LLB program plus a further six 'quasi-compulsory' units which must be completed by students who wish to qualify for admission to practice as a barrister or solicitor in Victoria. The remainder of the program consists of law elective units chosen by the student in areas of interest.

The Arts degree comprises studies in the humanities, social sciences, languages, communications, music and performing arts. Students develop general and transferable career skills such as research and analysis, communication and clear and critical thinking. The Bachelor of Arts course requires that students complete an arts major (studies in one arts area of study at first, second and third year level); an arts minor (studies in a second arts discipline normally at first and second year level); and additional arts elective units.

Major studies: Administrative law, Ancient cultures, Anthropology, Australia in the world, Behavioural studies, Bioethics, Chinese studies, Civil procedure, Communications, Constitutional law, Contract, Corporations law, Criminal law & procedure, Criminology, English as an international language, Equity, Evidence, Film and screen studies, French studies, Geography climate and physical environments, German studies, History, Holocaust and genocide studies, Human rights, Indigenous cultures and histories, Indonesian studies, Intellectual property, International relations, International studies, Islamic studies, Italian studies, Japanese studies, Jewish studies, Journalism practice, Journalism studies, Korean studies, Lawyers ethics and society, Linguistics, Literary studies, Music, Philosophy, Politics, Professional practice, Property, Psychology, Religion and theology, Society cities and sustainability, Sociology, Spanish and Latin American studies, Taxation, Theatre, Torts, Trusts, Ukrainian studies, Visual culture.

Prerequisites: Units 3 and 4: a study score of at least 35 in English (EAL) or 30 in English other than EAL.

Middle-band: A study score of 45 in any English equals 2 aggregate points per study. A study score of 40 in any English equals 1 aggregate point per study. A study score of 40 in Classical Studies, Economics, Geography, any History, Legal Studies, Philosophy, Australian Politics, Global Politics or Psychology equals 1 aggregate point per study. Overall maximum of 5 points.

Selection Mode: CY12: ATAR and middle-band.
NY12: Educational History including GPA, VTAC Personal Statement (All).
SEAS is considered.

Extra requirements:

- Bachelor of Arts and Bachelor of Music: 4.5 years full time study

About the course: This course allows students to pursue specialist studies in music while exploring a range of humanities and social science disciplines in an arts degree. In addition to developing practical music skills, students will explore composition, musicology, ethnomusicology and creative music technology, along with their chosen Arts areas of study.

Major studies: Ancient cultures, Anthropology, Australia in the world, Behavioural studies, Bioethics, Chinese studies, Communications, Composition, Creative music technology, Criminology, English as an international language, Ethnomusicology, Film and screen studies, French studies, Geography climate and physical environments, German studies, History, Holocaust and genocide studies, Human rights, Indigenous cultures and histories, Indonesian studies, International relations, International studies, Islamic studies, Italian studies, Japanese studies, Jewish studies, Journalism practice, Journalism studies, Korean studies, Linguistics, Literary studies, Music, Musicology, Performance (Classical), Performance (Jazz and Popular studies), Philosophy, Politics, Psychology, Religion and theology, Society cities and sustainability, Sociology, Spanish and Latin American studies, Theatre, Ukrainian studies, Visual culture.
Prerequisites: Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL.

Middle-band: Satisfactory completion in one but no more than three of Classical Studies, Drama, Environmental Science, Geography, any History, Literature, any LOTE, Media, any Music, Philosophy, Australian Politics, Global Politics, Religion And Society, Sociology, Theatre Studies or Texts And Traditions equals 2 aggregate points per study. Overall maximum of 6 points.

Selection Mode: CY12: ATAR and middle-band, Supplementary form (All), Audition (All). See extra requirements for more information.
NY12: Educational History including GPA, Supplementary form (All), Audition (All), other. See extra requirements for more information.
SEAS is considered.

Extra requirements:
Supplementary form (CY12-All, NY12-All) : Applicants must complete the online Music performance audition/composition submission form available at www.arts.monash.edu.au/auditions/music.php and pay the audition/composition fee of $70 (inc. GST) by 30 September 2013 (Note: early registration is strongly recommended). Applicants must provide their VTAC ID and email address as part of the registration process.

Audition (CY12-All, NY12-All) : Performance auditions will be held 30 September - 4 October and 2 - 13 December 2013; a detailed schedule will be available from the Music Auditions webpage (www.arts.monash.edu.au/auditions/music.php) after Open Day (4 August 2013). Composition Submissions must be submitted by 11 October and will be considered between 11 - 21 November. The main venue for the auditions is Monash Clayton Campus; a small number of auditions will also be held in Canberra and Sydney.

Applicants must achieve a satisfactory result in the performance audition/composition submission to be considered for selection, as well as meeting the ATAR or GPA requirement.

- Bachelor of Arts and Bachelor of Science: 4 years full time study

About the course: This double degree offers science students greater communication skills and arts students a strong technological or scientific base. Students complete studies in two specialised areas of Science and two specialised areas of Arts. Students must take at least four level one sequences, two from science and two from arts. Students must also study two science core subjects. See the Faculty of Science website at http://www.monash.edu.au/science/future/ for further details on course structure and areas of study.

**Prerequisites:** Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL; and a study score of at least 25 in one of Biology, Chemistry, Geography, Maths: Mathematical Methods (CAS), Maths: Specialist Mathematics, Physics or Psychology.

**Middle-band:** A study score of 25 in two but no more than four of Biology, Chemistry, Geography, Maths: Mathematical Methods (CAS), Maths: Specialist Mathematics, Physics or Psychology equals 2 aggregate points per study. A study score of 25 in one but no more than four of Classical Studies, any History, Literature, any LOTE, Australian Politics or Global Politics equals 2 aggregate points per study. Overall maximum of 8 points.

**Selection Mode:** CY12: ATAR and middle-band.
NY12: Educational History including GPA, VTAC Personal Statement (All).
SEAS is considered.

**Extra requirements:**
VTAC Personal Statement (NY12-All)

**Bachelor of Arts and Bachelor of Social Work:** 4 years full-time study

**About the course:** Provides education in critical analysis in Arts subjects with a degree in social work that provides graduates with membership of the Australian Association of Social Workers. Students undertake four units per semester in the first and second years of the course. The first year of the course is comprised of one social work unit and seven arts units. The second year is comprised of five arts units and three social work units. The third year includes three arts units (which complete the major and minor sequences) and four social work units (one of which is a field work placement). The final year is composed of social work units only, including a field work placement. Social work requires that within the arts major and minor sequences, students must complete two units of study of the individual (from psychology or behavioural studies) and two units of study of society (from sociology, anthropology, gender studies, philosophy, politics or Australian studies including at least one unit in Australian Indigenous studies). Travel between Caulfield and Clayton campuses may be required.

**Major studies:** Ancient cultures, Anthropology, Australia in the world, Behavioural studies, Bioethics, Chinese studies, Communications, Criminology, English as an international language, Film and screen studies, French studies, Geography climate and physical environments, German studies, History, Holocaust and genocide studies, Human rights, Indigenous cultures and histories, Indonesian studies, International relations, International studies, Islamic studies, Italian studies, Japanese studies, Jewish studies, Journalism, Journalism studies, Korean studies, Linguistics, Literary studies, Music, Philosophy, Politics, Psychology, Religion and theology, Social sciences, Social work, Society cities and sustainability, Sociology, Spanish and Latin American studies, Theatre, Ukrainian studies, Visual culture.

**Prerequisites:** Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL.

**Middle-band:** None
Selection Mode: CY12: ATAR.
NY12: Educational History including GPA. See extra requirements for more information.
SEAS is considered.

Extra requirements:
SUCCESSFUL APPLICANTS must complete a National Police Records Check and hold a Working With Children Check before undertaking clinical placements. Failure to hold satisfactory checks may result in students being unable to complete this course.

- Bachelor of Arts and Bachelor of Visual Arts: 4 years full time study

**About the course:** This course provides students with sound knowledge of the theories and practices required to work professionally in visual arts industries, along with excellent research, communication and critical thinking skills developed by exploring a range of Arts disciplines. Graduates of this double degree are equipped for careers in a variety of visual arts roles such as curatorship, design or art criticism, as well as a range of interdisciplinary roles in art therapy, cultural and community arts programs, or publishing, drawing on students' knowledge of the Arts.

**Major studies:** Ancient cultures, Anthropology, Art theory, Australia in the world, Behavioural studies, Bioethics, Chinese studies, Communications, Creative arts, Criminology, Drawing, English as an international language, Film and screen studies, Fine art, French studies, Geography climate and physical environments, German studies, History, Holocaust and genocide studies, Human rights, Indigenous cultures and histories, Indonesian studies, International relations, International studies, Islamic studies, Italian studies, Japanese studies, Jewish studies, Journalism practice, Journalism studies, Korean studies, Linguistics, Literary studies, Music, Painting, Philosophy, Photography, Politics, Printmaking, Printmedia, Psychology, Religion and theology, Sculpture, Society cities and sustainability, Sociology, Spanish and Latin American studies, Theatre, Ukrainian studies, Visual arts, Visual culture.

**Prerequisites:** Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL; and a study score of at least 30 in one of Art or Studio Arts.

**Middle-band:** Satisfactory completion in one but no more than three of Classical Studies, Drama, Environmental Science, Geography, any History, Literature, any LOTE, Media, any Music, Philosophy, Australian Politics, Global Politics, Religion And Society, Sociology, Theatre Studies or Texts And Traditions equals 2 aggregate points per study. Overall maximum of 6 points.

**Selection Mode:** CY12: ATAR and middle-band.

NY12: Educational History including GPA, Supplementary form (All), Folio (All), Interview (All). See extra requirements for more information.
SEAS is considered.

**Extra requirements:**
Supplementary form (NY12-All): Applicants must complete the online Monash Art Design and Architecture registration form by no later than October 11, 2013. To register go to: [www.monash.edu/mada/study/apply](http://www.monash.edu/mada/study/apply)

Folio (NY12-All): Applicants will be required to submit a digital copy of their folio.

Interview (NY12-All): Applicants are required to attend an interview, where they will present their folios. Details about the interview process will be sent to applicants by 12 November, 2013. Interviews will be hosted from late
November to early December, 2013. Advisory letters will be sent out to applicants by 13 December, 2013. Each applicant's final ranking is based on their interview score; applicants must also achieve a minimum ATAR or GPA.

- Bachelor of Business (Banking and Finance): 3 years full time study

**About the course:** This degree prepares you for a career in the financial services sector. You will learn about key business principles as well as focus on corporate finance subjects including capital structures, investments, mergers and acquisitions, commercial and investment banking, stock markets, retail markets and capital markets. Students studying this course also have additional opportunities such as internships, overseas study, study tours and leadership programs. Graduates are likely to find employment across the financial services sector in banks and other institutions. The basic course structure consists of eight units per year for three years on a full-time basis, including introductory units, a major specialisation in banking and finance and elective units. The introductory units include accounting, commercial law, business statistics, economics, management and marketing.

**Major studies:** Banking and finance.

**Prerequisites:** Units 3 and 4; a study score of at least 30 in English (EAL) or 25 in English other than EAL; and a study score of at least 25 in any Mathematics.

**Middle-band:** A study score of 25 in Accounting, Business Management, Economics, Geography, Health and Human Development or Psychology equals 2 aggregate points per study. A study score of 30 in any Mathematics equals 6 aggregate points per study. Overall maximum of 8 points.

**Selection Mode:** CY12: ATAR and middle-band.

NY12: Educational History including GPA, Supplementary form (All). See extra requirements for more information. SEAS is considered.

**Extra requirements:**
Supplementary form (NY12-All): NY12 applicants must submit the Business and Economics Employment and Supplementary Information form by 20 December. The form is available from www.buseco.monash.edu.au/student/forms/index.html. Information on the statement receives equal weighting with academic results in deciding the ranking.

Bachelor of Behavioural Science: 3 years full time study

About the course: This course looks at the biological, sociocultural and psychological bases of human behaviour, and is ideal for students who wish to complement studies in psychology with studies from a different area, such as arts, business or science. Students can elect to complete a major in psychology that is accredited by the Australian Psychology Accreditation Council (APAC), which in combination with an honours year and master's program in psychology, will gain them full registration to practice psychology in Australia.

Major studies: Australian Indigenous studies, Communications, Community studies, English, History-politics, Psychological studies, Psychology (off campus only), Sociology, Writing.

Prerequisites: To be confirmed

Middle-band: Satisfactory completion in one but no more than three of Classical Studies, Drama, Environmental Science, Geography, any History, Literature, any LOTE, Media, any Music, Philosophy, Australian Politics, Global Politics, Religion And Society, Sociology, Theatre Studies or Texts And Traditions equals 2 aggregate points per study. Overall maximum of 6 points.

Selection Mode: CY12: ATAR and middle-band.
NY12: Educational History including GPA, VTAC Personal Statement (All).
SEAS is considered.

Extra requirements: VTAC Personal Statement (NY12-All)

Bioethics (Grad)

Monash University

Clayton: Domestic fee-paying places full-time/part-time Apply: Direct to institution
Clayton: International fee-paying places full-time Apply: Direct to institution

Master of Bioethics: 1.5 year full time study

About the course: This course provides an interdisciplinary education that is concerned with the ethical issues raised by medicine and the biomedical sciences. It is particularly well-suited to health care professionals and scientists who face complex ethical issues in their working lives. It is also valuable for those involved in the development of public policy and law regarding these issues, as well as for anyone who simply wishes to explore issues of public concern in greater depth. Studies cover questions of life and death, ethical issues in patient care, legal issues in bioethics, and ethical issues in professional life. Students who have completed at least one semester of the course are eligible to apply for an annual fellowship of $9000 to work during the Australian summer as an intern at the World Health Organisation in Geneva.

Major studies: Biomedical sciences, Ethics, Health, Philosophy.

Prerequisites: Bachelor Degree or equivalent with a credit average.

Middle-band: None

Selection Mode: NY12: Educational History including GPA.

Extra requirements: None

- Bachelor of Biomedical Science: 3 years full time study

About the course: Offers a range of interdisciplinary core subjects to cover all areas of the modern biomedical sciences and human biology. Most core subjects in this course are multidisciplinary. In first and second year, three core subjects and one elective subject are studied each semester. In third year students study one core and three elective subjects each semester. Elective subjects may be chosen from the Faculty of Medicine, Nursing and Health Sciences or other faculties.

For further information refer to http://www.monash.edu.au/study/coursefinder/course/2230/

Major studies: Anatomy and physiology, Biochemistry, Bioinformatics, Biomedical science, Biophysics, Biotechnology, Genetics, Health sciences, Human biology, Human sciences, Microbiology, Molecular and cell biology, Molecular and human genetics, Neurobiology, Pathology, Pathophysiology, Physiology.

Prerequisites: Units 3 and 4: a study score of at least 35 in English (EAL) or 30 in English other than EAL; and a study score of at least 25 in Chemistry; and a study score of at least 25 in one of Maths: Mathematical Methods (CAS), Maths: Specialist Mathematics or Physics.

Middle-band: None

Selection Mode: CY12: ATAR.

- Bachelor of Biomedical Science and Bachelor of Commerce: 4 years full-time study

**About the course:** Provides a professional education in the disciplines of biomedical science and a range of commerce disciplines, with a strong emphasis on developing analytical skills. The basic course structure consists of eight units per year for four years on a full-time basis. The Faculty of Business and Economics component of the course includes introductory units in the primary disciplines and a major specialisation in a commerce discipline. The Faculty of Medicine, Nursing and Health Sciences component of the course includes a combination of core and elective units.

**Major studies:** Accounting, Actuarial studies, Anatomy and physiology, Biochemistry, Bioinformatics, Biomedical science, Biophysics, Biotechnology, Business modelling, Econometrics and business statistics, Economics, Finance, Financial and insurance mathematics, Genetics, Health sciences, Human biology, Human sciences, International commerce, Management studies, Marketing, Microbiology, Molecular and cell biology, Molecular and human genetics, Neurobiology, Pathology, Pathophysiology, Physiology, Sustainability.

**Prerequisites:** Units 3 and 4: a study score of at least 35 in English (EAL) or 30 in English other than EAL; and a study score of at least 25 in Chemistry; and a study score of at least 25 in one of Maths: Mathematical Methods (CAS) or Maths: Specialist Mathematics.

**Middle-band:** None

**Selection Mode:** CY12: ATAR.  
NY12: Educational History including GPA, VTAC Personal Statement (All). See extra requirements for more information.  
SEAS is considered.

**Extra requirements:**  
VTAC Personal Statement (NY12-All): NY12 applicants must complete a VTAC Personal Statement. Information on the statement receives equal weighting with academic results in deciding the ranking.

Bachelor of Biomedical Science and Bachelor of Engineering (Honours): 5 years full time study

**About the course:** This course enables students to complement their studies in the biomedical sciences and human biology with studies in one of chemical, civil, electrical and computer systems, materials and mechanical engineering.

Students undertake biomedical science subjects covering aspects of anatomy, biochemistry, clinical medicine, epidemiology and preventative medicine, genetics, immunology, microbiology, pharmacology and physiology. This is taken in combination with engineering studies in one of chemical, civil, electrical and computer systems, materials or mechanical engineering. Vacation employment: Twelve weeks during one or more long vacations between years of study, in approved engineering work.

For further information refer to http://www.monash.edu.au/study/coursefinder/course/3879/

**Major studies:** Biomedical science, Engineering, Engineering (biomedical), Engineering (chemical), Engineering (civil), Engineering (computer systems), Engineering (electrical), Engineering (materials), Engineering (mechanical).

**Prerequisites:** Units 3 and 4: a study score of at least 35 in English (EAL) or 30 in English other than EAL; and a study score of at least 25 in each of Chemistry and Maths: Mathematical Methods (CAS); and a study score of at least 25 in one of Maths: Specialist Mathematics or Physics.

**Middle-band:** A study score of 25 in each of Maths: Specialist Mathematics and Physics equals 1.5 aggregate points per study. Overall maximum of 3 points.

**Selection Mode:** CY12: ATAR and middle-band.

NY12: Educational History including GPA.

- Bachelor of Biomedical Science and Bachelor of Laws: 5 years full time study

**About the course:** The Laws component of this double degree provides an accredited education in law for applicants without a tertiary qualification. The degree offers students an in-depth understanding of the concepts, procedures and reasoning upon which the Australian legal system is founded. Students gain an understanding of basic legal concepts, principles, rules and methods used in legal argument and develop oral and written skills in legal argument, legal research and critical analysis.

The Bachelor of Laws course consists of 12 compulsory units which must be completed by all students enrolled in an LLB program plus a further six 'quasi-compulsory' units which must be completed by students who wish to qualify for admission to practice as a barrister or solicitor in Victoria. The remainder of the program consists of law elective units chosen by the student in areas of interest.

The Biomedical Science course offers a range of interdisciplinary core subjects to cover all areas of the modern biomedical sciences and human biology. Most core subjects in this course are multidisciplinary.
**Major studies:** Administrative law, Biomedical science, Civil procedure, Constitutional law, Contract, Corporations law, Criminal law & procedure, Equity, Evidence, Human rights, Intellectual property, Lawyers ethics and society, Professional practice, Property, Taxation, Torts, Trusts.

**Prerequisites:** Units 3 and 4: a study score of at least 35 in English (EAL) or 30 in English other than EAL; and a study score of at least 25 in Chemistry; and a study score of at least 25 in one of Maths: Mathematical Methods (CAS), Maths: Specialist Mathematics or Physics.

**Middle-band:** A study score of 45 in any English equals 2 aggregate points per study. A study score of 40 in any English equals 1 aggregate point per study. A study score of 40 in Classical Studies, Economics, Geography, any History, Legal Studies, Philosophy, Australian Politics, Global Politics or Psychology equals 1 aggregate point per study. Overall maximum of 5 points.

**Selection Mode:** CY12: ATAR and middle-band.

NY12: Educational History including GPA, VTAC Personal Statement (All).

SEAS is considered.

Apply: Through VTAC main round

- Bachelor of Biomedical Science and Bachelor of Science: 4 years full time study

**About the course:** This course provides students with an opportunity to combine studies in biomedical sciences, human biology and public health with studies in a number of areas of science. Students complete a minor and major sequence in science along with a specified number of core units in science and in biomedical science. See the Faculty of Science website at [http://www.monash.edu.au/science/future/](http://www.monash.edu.au/science/future/) for further details on course structure and areas of study.

**Major studies:** Biomedical Science, Chemistry, Developmental Biology, Ecology and conservation biology, Genetics, Immunology, Marine and freshwater biology, Mathematics, Pharmacology, Physics, physiology, Plant science, Zoology.

**Prerequisites:** Units 3 and 4: a study score of at least 35 in English (EAL) or 30 in English other than EAL; and a study score of at least 25 in Chemistry; and a study score of at least 25 in one of Maths: Mathematical Methods (CAS), Maths: Specialist Mathematics or Physics.

**Middle-band:** A study score of 25 in two but no more than three of Biology, Chemistry, Geography, Maths: Mathematical Methods (CAS), Maths: Specialist Mathematics, Physics or Psychology equals 2 aggregate points per study. Overall maximum of 6 points.

**Selection Mode:** CY12: ATAR and middle-band.

NY12: Educational History including GPA, VTAC Personal Statement (All).

SEAS is considered.

- Bachelor of Biotechnology: 3 years full time study

**About the course:** This course combines foundation studies in the scientific disciplines contributing to biotechnology as well as advanced studies in one area of biotechnology, with core studies at each level addressing business, regulatory and social and developmental industry needs. Students complete a core biotechnology unit at each year level and five or six units towards an approved scientific specialisation stream as well as up to four approved elective units over levels 1-3. Students have up until the end of first year to select their choice of specialist stream from Biomedical Technology, Biological Engineering and Nanotechnology, and Medicinal Chemistry. See the Faculty of Science website at http://www.monash.edu.au/science/future/ for further details on course structure and areas of study.

**Major studies:** Biomolecular processing, Chemical biotechnology, Materials and nanotechnology, Medical biotechnology, Pharmacological chemistry.

**Prerequisites:** Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL; and a study score of at least 25 in Chemistry; and a study score of at least 25 in one of Maths: Mathematical Methods (CAS) or Maths: Specialist Mathematics.

**Middle-band:** A study score of 25 in two but no more than three of Biology, Chemistry, Maths: Mathematical Methods (CAS), Maths: Specialist Mathematics or Physics equals 2 aggregate points per study.

**Selection Mode:** CY12: ATAR and middle-band.

NY12: Educational History including GPA, VTAC Personal Statement (All).

SEAS is considered.

- Bachelor of Business: 3 years full time study

**About the course:** Every industry requires people with business skills. This degree equips you for a career in business by giving you a broad skill set in a range of discipline areas, plus specialised knowledge in your particular area of interest. This degree has a flexible structure that allows you to combine core business subjects with up to two major areas of study (specialisations) from the following; accounting, banking and finance, business law, business strategy, economics, econometrics, finance, human resource management, international business, management, marketing, psychology and sports management. The course also provides added flexibility by allowing you to wait until your second year before selecting a major, which means you're not locked in when you enrol. Students studying this course also have additional opportunities such as internships, overseas study, study tours, and leadership programs. At the Peninsula campus this course is delivered through the Problem Based
Learning method, a unique way of learning that teaches you how to solve complex problems. It uses a small group approach, focusing on problems similar to those you will typically encounter in the workforce. Widely used in medical schools in Australia and internationally, PBL is now being adopted in business schools across Europe. Based on the success of these programs, Monash is the first of the ‘Group of Eight’ Australian universities to offer an undergraduate business degree where all core units are undertaken using a PBL approach. Graduates of this course are likely to find employment across the fields of accounting, marketing, human resources, economics and business.

Students wanting to complete a second major in psychology will need to undertake units at the Clayton campus.

**Major studies:** Accounting, Banking and finance, Business Law, Business strategy, Econometrics, Economics, Human resource management, International business, Management, Marketing, Marketing and Communication, Psychology, Sports management.

**Prerequisites:** Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL; and a study score of at least 25 in any Mathematics.

**Middle-band:** A study score of 25 in Accounting, Business Management, Economics, Geography, Health And Human Development or Psychology equals 2 aggregate points per study. A study score of 30 in any Mathematics equals 6 aggregate points per study. Overall maximum of 8 points.

**Selection Mode:** CY12: ATAR and middle-band. NY12: Educational History including GPA, Supplementary form (All). See extra requirements for more information. SEAS is considered.

**Extra requirements:**

Supplementary form (NY12-All) : NY12 applicants must submit the Business and Economics Employment and Supplementary Information form by 20 December. The form is available from www.buseco.monash.edu.au/student/forms/index.html. Information on the statement receives equal weighting with academic results in deciding the ranking.

- Bachelor of Business (Psychology): 3 years full time study

**About the course:** Combining psychology and business gives you the means to apply psychological principles in a business, and use this understanding to assist organisations to operate more effectively. This degree combines fundamental business studies with comprehensive studies in the field of psychology. Included in this degree are majors in management or marketing, as well as additional opportunities such as internships, overseas study, study tours and leadership programs. The basic course structure consists of eight units per year for three years on a full-time basis, including a ten unit specialisation in psychology and a further eight units in management or marketing. Graduates may pursue careers in the fields of human resource management, recruitment, change management and psychology. Psychology units are offered at Clayton Campus.

**Major studies:** Management, Marketing, Psychology.

**Prerequisites:** Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL; and a study score of at least 25 in any Mathematics.
Middle-band: A study score of 25 in Accounting, Business Management, Economics, Geography, Health And Human Development or Psychology equals 2 aggregate points per study. A study score of 30 in any Mathematics equals 6 aggregate points per study. Overall maximum of 8 points.

Selection Mode: CY12: ATAR and middle-band.
NY12: Educational History including GPA, Supplementary form (All). See extra requirements for more information. SEAS is considered.

Extra requirements:
Supplementary form (NY12-All) : All applicants must submit the Business and Economics Employment and Supplementary Information form by 20 December. The form is available from www.buseco.monash.edu.au/student/forms/index.html Information on the form receives equal weighting with academic results in deciding the ranking.

- Bachelor of Business Administration: 3 years full time study

About the course: This new degree offers you the chance to gain a business qualification from a world-class university, without requiring the year 12 maths prerequisite of our other business courses. Students in the Bachelor of Business Administration will complete 6 core business units and undertake an extended major of 10 units in accounting, finance and economics or marketing.

Students in this degree experience the same benefits as other Monash business students, including internships, overseas study opportunities and access to excellent facilities and teaching staff.

Major studies: Accounting, Finance and Economics, Marketing.

Prerequisites: Units 1 and 2: satisfactory completion in two units (any study combination) of General Mathematics or Mathematical Methods or Units 3 and 4: any Mathematics; and a study score of at least 30 in English (EAL) or 25 in English other than EAL.

Middle-band: A study score of 25 in one but no more than two of Accounting, Business Management or Economics equals 3 aggregate points per study.

Selection Mode: CY12: ATAR and middle-band.
NY12: Educational History including GPA, Supplementary form (All). See extra requirements for more information. SEAS is considered.

- Bachelor of Business Information Systems: 3 years full time study

About the course: This degree prepares students for management roles in IT and focuses on developing and applying information technology solutions to business problems. Graduates should be able to relate their university studies to the world of business and to offer employers a competitive advantage in business operations.

The course comprises eight units per year for three years on a full-time basis. It combines a broad-ranging core curriculum and a wide choice of electives. Topics include programming, business information systems, project management, business analysis, mobile applications development, data science, e-business and business decision making.

The degree offers both a coursework and an Industry Based Learning (IBL) stream. Students admitted to the IBL stream undertake two 22-week industry placements and receive a generous scholarship for the duration of the degree. Industry placements are part of the curriculum and are formally assessed and credited towards the degree.

Selection for IBL is based on academic merit and an interview conducted by industry partners prior to entry to the program. Further IBL places will be made available at the completion of the first year of the course. The IBL
program is available to CSP applicants only.

An IBL Information Evening will be held on 27 August 2013 at the Clayton campus.

**Major studies:** Accounting information systems, Business analytics, Business information systems, Business modelling, Business software applications, Business systems, E-business, e-commerce, Enterprise systems, Financial information systems, Information technology, Programming, Project management, Quantitative business analysis, Strategy and decision making.

**Prerequisites:** Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL; and a study score of at least 30 in Maths: Further Mathematics or 25 in one of Maths: Mathematical Methods (CAS) or Maths: Specialist Mathematics.

**Middle-band:** A study score of 35 in English (EAL) equals 2 aggregate points. A study score of 40 in English (EAL) equals 4 aggregate points. A study score of 30 in one but no more than one of English other than EAL equals 2 aggregate points per study. A study score of 35 in one but no more than one of English other than EAL equals 4 aggregate points per study. A study score of 30 in Maths: Mathematical Methods (CAS) or Maths: Specialist Mathematics equals 4 aggregate points per study. A study score of 35 in Maths: Further Mathematics equals 2 aggregate points. Overall maximum of 8 points.

**Selection Mode:** CY12: ATAR and middle-band, Supplementary form (Some), Interview (Some). See extra requirements for more information.

NY12: Educational History including GPA, STAT (Some). See extra requirements for more information.

SEAS is considered.

**Extra requirements:**

Supplementary form (CY12-Some) : Applicants who wish to apply for the Industry Based Learning Program should submit an application online at http://www.infotech.monash.edu.au/ibl by 2 December 2013.

Interview (CY12-Some) : Industry Based Learning Program applicants must attend an interview on 11 December 2013.

STAT (NY12-Some) : NY12 applicants described under the Admissions Test section are required to sit STAT Multiple Choice.

- Bachelor of Business (Law): 3 years full time study

**About the course:** The law is the backbone of business and this degree gives students an understanding of how the law operates in business contexts. Graduates are commonly employed as compliance officers, risk management consultants or contract analysts. Combining core business principles with a specialisation in business law issues, this degree focuses on areas including contracts, partnerships, trade practices, taxation, business regulation, international trade, employment law, e-commerce and cyber transactions. The basic course structure consists of eight units per year for three years on a full time basis, including introductory units, a major specialisation in business law and elective units. The introductory units include accounting, commercial law, business statistics, economics, management and marketing. Students are also able to undertake electives from other business disciplines or from other disciplines offered within the university. This degree also includes additional opportunities such as internships, overseas study, study tours and leadership programs.

**Major studies:** Business law.
**Prerequisites:** Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL; and a study score of at least 25 in any Mathematics.

**Middle-band:** A study score of 25 in Accounting, Business Management, Economics, Geography, Health And Human Development or Psychology equals 2 aggregate points per study. A study score of 30 in any Mathematics equals 6 aggregate points per study. Overall maximum of 8 points.

**Selection Mode:** CY12: ATAR and middle-band.

NY12: Educational History including GPA, Supplementary form (All). See extra requirements for more information.

- Bachelor of Business and Bachelor of Sport and Outdoor Recreation: 4 years full time study

**About the course:** This course is designed to prepare students for entry into the business profession, while providing them with the skills and knowledge across sport and outdoor recreation. This unique study area covers the relationship between sport, recreation, health, well-being and the outdoor environment. The course also has a focus on sustainability, leadership and sports and movement studies.

Students complete core units within the Bachelor of Business degree and complete a major and minor sequence. Core business units include business statistics, marketing theory and practice, managing people and organisations, introductory microeconomics, introductory accounting and business law. The major sequence can be selected from business strategy, sports management or tourism. Sport and outdoor recreation studies focus on adventure education, aquatic environments, coaching and biophysical foundations of physical activity.

Throughout the course, students undertake outdoor recreation fieldwork and placements in a variety of settings. Fieldwork placements include bushwalking and hiking, sea kayaking, aquatic activities and camp leadership. Students in the course have access to the new Monash Peninsula Activity and Recreation centre. Visit: http://www.monash.edu.au/campuses/peninsula/facilities/mawc.html for more information.

Graduates will have a unique set of skills in business, leadership and sport and outdoor recreation. They will be well placed to find employment in a range of business settings and in the growing sport and outdoor recreation industry. Graduates can work in areas such as sports management, event and tourism management, community recreation and health and well-being.

For details on optional course information session dates, times and venues visit www.edu.monash.edu/vtac

**Major studies:** Business, Business strategy, Human movement, Outdoor leadership and guiding, Outdoor recreation, Recreation, Sport, Sport and recreation, Sport development, Sports (coaching), Sports (management), Tourism.

**Prerequisites:** Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL; and a study score of at least 25 in any Mathematics.
**Middle-band:** A study score of 35 in one but no more than two of Outdoor And Environmental Studies or Physical Education equals 1.5 aggregate points per study. A study score of 25 in one but no more than three of Accounting, Business Management, Economics, Geography, Health And Human Development or Psychology equals 2 aggregate points per study. A study score of 35 in English other than EAL equals 1.5 aggregate points per study. A study score of 40 in English (EAL) equals 1.5 aggregate points. Overall maximum of 7.5 points.

**Selection Mode:** CY12: ATAR and middle-band.

NY12: Educational History including GPA, VTAC Personal Statement (All), Work experience (All). See extra requirements for more information.

**SEAS is considered.**

**Extra requirements:**

VTAC Personal Statement (NY12-All): NY12 applicants must complete a VTAC Personal Statement detailing community involvement and evidence of how they have fulfilled the equivalent mathematics prerequisite.

Work experience (NY12-All): NY12 applicants must include details of work experience your VTAC Personal Statement.

- Bachelor of Business and Bachelor of Visual Arts: 4 years full time study

**About the course:** This course provides professional education in business principles with both a business specialisation (from the Faculty of Business and Economics) and visual arts (from the Faculty of Art Design & Architecture).

The Visual Arts component focuses on the innovative, creative and critical analysis required to pursue a vocation as a practising artist and can lead to careers as an artist, a teacher or working in museums, galleries, community arts programs, art and design consultancies or conservation organisations. While a complementary specialisation study taken from the Faculty of Business and Economics may include: accounting, banking and finance, law (business), econometrics, economics, human resource management, management or marketing.

**Major studies:** Accounting, Art theory, Banking and finance, Business, Creative Arts, Drawing, Econometrics, Economics, Fine art, Human resource management, International business, Law (business), Management, Marketing, Painting, Photography, Printmaking, Printmedia, Sculpture, Visual arts.

**Prerequisites:** Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL; and a study score of at least 25 in any Mathematics; and a study score of at least 30 in one of Art or Studio Arts.

**Middle-band:** A study score of 25 in Accounting, Business Management, Economics, Geography, Health And Human Development or Psychology equals 2 aggregate points per study. A study score of 30 in any Mathematics equals 6 aggregate points per study. Overall maximum of 8 points.

**Selection Mode:** CY12: ATAR and middle-band.

NY12: Educational History including GPA, Supplementary form (All), Folio (All), Interview (All). See extra requirements for more information.

SEAS is considered.
Extra requirements:
Supplementary form (NY12-All): Applicants must complete the online Art Design and Architecture registration process by no later than 11 October. To register go to: www.monash.edu/mada/study/apply
Folio (NY12-All): Applicants will be required to submit a digital copy of their folio.
Interview (NY12-All): Applicants are required to attend an interview, where they will present their folio. Details about the interview process will be sent to applicants by 12 November. Interviews will be hosted from late November to early December. Advisory letters will be sent to applicants by 13 December. Each applicant’s final ranking is based on their interview score; applicants must also achieve a minimum ATAR or GPA.

- Bachelor of Civil and Environmental Engineering (Honours): 4 years full time study

**About the course:** Provides students with broad-based knowledge and skills in the sustainable implementation and management of civil engineering infrastructure and solutions in a manner that minimises adverse impacts on the environment. Level one includes basic sciences such as mathematics, physics and chemistry, as well as engineering units and an introduction to environmental science. At level two, students explore basic analysis techniques in civil and environmental engineering through significant project-based units, including geomechanics, transport, hydrology and water supply. Level three and four units further extend studies in environmental science, and civil and environmental engineering design and analysis but with increasingly complex tasks. Vacation employment: twelve weeks during one or more long vacations between years of study, in approved engineering work.

**Major studies:** Engineering, Engineering (civil), Engineering (environmental), Environmental impact assessments, Environmental management, Environmental science.

**Prerequisites:** To be confirmed

**Middle-band:** A study score of 25 in Maths: Specialist Mathematics equals 3 aggregate points. A study score of 25 in each of Chemistry and Physics equals 1 aggregate point per study. Overall maximum of 5 points.

**Selection Mode:** CY12: ATAR and middle-band.

Bachelor of Civil and Environmental Engineering (Honours) and Bachelor of Business and Commerce: 5 years full time study

About the course: The course provides a professional education in a range of business and commerce disciplines and skills in the sustainable implementation and management of civil engineering infrastructure and solutions in a manner that minimises adverse impacts on the environment. Students will be able to integrate knowledge from across the disciplines to create innovative applications. Students must complete sixteen units from the Faculty of Business and Economics including introductory units in the primary disciplines, a major in a business and commerce discipline, as well as twenty four units from the Faculties of Engineering and Science. Level one includes basic sciences, engineering units and an introduction to environmental science. At level two students will undertake studies mainly in the areas of civil and environmental engineering. Level three and four units further extend studies in civil and environmental engineering design and analysis with increasingly complex tasks and advanced studies in transport, environmental management and environmental technology. Work experience: Twelve weeks during one or more long vacation period between years of study, in approved engineering work.

Major studies: Accounting, Economics, Engineering (civil), Engineering (environmental), Environmental impact assessments, Environmental management, Environmental science, Finance and macroeconomics, Human resource management, Management, Marketing.

Prerequisites: To be confirmed

Middle-band: A study score of 25 in Accounting, Business Management, Economics or any Mathematics equals 3 aggregate points per study. Overall maximum of 6 points.

Selection Mode: CY12: ATAR and middle-band.
NY12: Educational History including GPA.
SEAS is considered.

Extra requirements: None

- Bachelor of Commerce: 3 years full time study

About the course: Providing a broad education in the field of commerce, with a strong emphasis on developing analytical and technical skills, this course will prepare you to operate at the top of your chosen profession. This degree has a flexible structure that allows you to combine core commerce subjects with up to two major areas of study (specialisations) from the following; accounting, actuarial studies, business modelling, econometrics and business statistics, economics, finance, financial and insurance mathematics, international commerce,
management studies, marketing, sustainability or philosophy and politics. The course also provides added flexibility by allowing you to wait until your second year before selecting a major, which means you're not locked in when you enrol. Students studying this course also have additional opportunities such as internships, overseas study, study tours and leadership programs. Graduates are likely to find employment in fields such as accounting, marketing, finance, politics and economics.

**Major studies:** Accounting, Actuarial studies, Business modelling, Econometrics and business statistics, Economics, Finance, Financial and insurance mathematics, International commerce, Management studies, Marketing, Philosophy and politics, Sustainability.

**Prerequisites:** Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL; and a study score of at least 25 in one of Maths: Mathematical Methods (CAS) or Maths: Specialist Mathematics.

**Middle-band:** None

**Selection Mode:** CY12: ATAR.

NY12: Educational History including GPA, VTAC Personal Statement (All). See extra requirements for more information.

SEAS is considered.

**Extra requirements:**

VTAC Personal Statement (NY12-All) : All applicants must complete a VTAC Personal Statement. Responses included on the statement receive equal weighting with the academic results in deciding ranking.

- Bachelor of Commerce Scholars Program: 3 years full time study

**About the course:** Aimed at high-achieving students, this course provides a professional education in the field of commerce and economics, supported by a three-year scholarship, mentoring by senior faculty staff and access to guest lecturers, workshops and seminars. You can choose up to two major areas of study (specialisations) from the following: accounting, actuarial studies, business modelling, econometrics and business statistics, economics, finance, financial and insurance mathematics, international commerce, management studies, marketing, sustainability or philosophy and politics. The course also provides added flexibility by allowing you to wait until your second year before selecting a major, which means you're not locked in when you enrol. Students studying this course also have additional opportunities such as internships, overseas study and leadership programs. Graduates are likely to find employment in fields such as accounting, finance, politics and economics. This course is restricted to a limited number of CY12 students. Applicants must be permanent residents.

**Major studies:** Accounting, Actuarial studies, Business modelling, Econometrics and business statistics, Economics, Finance, Financial and insurance mathematics, International commerce, Management studies, Marketing, Philosophy and politics, Sustainability.

**Prerequisites:** Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL; and a study score of at least 25 in one of Maths: Mathematical Methods (CAS) or Maths: Specialist Mathematics.

- Bachelor of Commerce Scholars Program and Bachelor of Economics: 4 years full time study

**About the course:** Aimed at high-achieving students, this course provides a professional education in the fields of commerce and economics, supported by a three-year scholarship, mentoring by senior faculty staff and access to guest lecturers, workshops and seminars. This double degree combination offers broader career options than studying one in isolation, by giving you analytical and technical skills in the fields of commerce and economics. You may opt to undertake electives from other faculties to enhance your studies. Students studying this course also have additional opportunities such as internships, overseas study, study tours and leadership programs. Graduates are likely to find employment across the spectrum of industries, particularly in corporate, government and professional organisations. This course is restricted to a limited number of CY12 students. Applicants must be permanent residents.

**Major studies:** Accounting, Actuarial studies, Business modelling, Econometrics and business statistics, Economics, Finance, Financial and insurance mathematics, International commerce, Management studies, Marketing, Sustainability.

**Prerequisites:** Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL; and a study score of at least 25 in one of Maths: Mathematical Methods (CAS) or Maths: Specialist Mathematics.

Bachelor of Commerce and Bachelor of Aerospace Engineering (Honours): 5 years full time study

About the course: Provides professional education in a range of commerce disciplines as well as in the core discipline areas of aerodynamics, aerospace materials, propulsion and aerospace instrumentation and control and design. This program intended for high achieving students, combines the advanced technology of aerospace engineering with modern management theory and practice, equipping graduates for leadership roles in the aerospace engineering industry. Faculty of Business and Economics subjects include six introductory subjects in the major disciplines and a major in a commerce discipline. The Faculty of Engineering component of the course involves subjects in the fields of Engineering and Aerospace Engineering. Vacation employment: twelve weeks during one or more long vacations between years of study, in approved engineering work.

Prerequisites: Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL; and a study score of at least 25 in Maths: Mathematical Methods (CAS); and a study score of at least 25 in one of Chemistry or Physics.

Middle-band: A study score of 25 in Maths: Specialist Mathematics equals 3 aggregate points. A study score of 25 in each of Chemistry and Physics equals 1 aggregate point per study. Overall maximum of 5 points.

Selection Mode: CY12: ATAR and middle-band.
NY12: Educational History including GPA, VTAC Personal Statement (All).
SEAS is considered.

Bachelor of Commerce and Bachelor of Business Information Systems: 4 years full time study

About the course: This double degree provides an education in commerce and specialist skills in business information systems, giving you broader career options across the spectrum of both fields. The commerce degree has a flexible structure that allows you to combine core commerce subjects with a major area of study. The course also provides added flexibility by allowing you to wait until your second year before selecting a major, which means you're not locked in. Within the business information systems degree, you will learn how to apply IT principles to the solution of business problems. High achieving students may also apply to participate in the Industry Based Learning (IBL) stream of the Bachelor of Business Information Systems. Students studying this course also have additional opportunities such as internships, overseas study, study tours and leadership programs. Graduates are likely to find employment in commerce and IT roles in a variety of organisations and industries.

The basic course structure consists of eight units per year for four years on a full-time basis. The Faculty of Business and Economics component includes introductory units in the primary disciplines and a major specialisation in a commerce discipline. The Faculty of Information Technology component comprises six introductory technology units plus eight further business information systems units.

- Bachelor of Commerce and Bachelor of Economics: 4 years full time study

About the course: This double degree combination offers you broad career options across the fields of commerce and economics. The commerce degree has a flexible structure that allows you to combine core commerce subjects with up to two major areas of study. The course also provides added flexibility by allowing you to wait until your second year before selecting a major, which means you're not locked in. The economics degree will give you a solid education in the field of economics with majors in actuarial studies, economics, econometrics or financial and insurance mathematics. This combination is designed to develop your critical-thinking and problem-solving skills, which are essential in complex business environments.

The basic course structure consists of eight units per year on a full-time basis. Students studying this course also have additional opportunities such as internships, overseas study, study tours and leadership programs. Graduates are likely to find employment in corporate, government or professional organisations.

Prerequisites: Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL; and a study score of at least 25 in one of Maths: Mathematical Methods (CAS) or Maths: Specialist Mathematics.

- Bachelor of Commerce and Bachelor of Education (Secondary): 4 years full time study

About the course: This double degree is suited to those interested in a secondary teaching career and in broadening their knowledge in commerce disciplines. The course will enhance your career options and deepen your understanding in the commerce related areas you intend to teach in schools.

The program provides a deep understanding of teaching and learning as well as curriculum and assessment, professional engagement and adolescent development and learning. Education units include: adolescent development and learning, professional engagement and leadership, and local and global perspectives in education. Curriculum units include: becoming a specialist teacher, curriculum development and innovative practice.

Studies in commerce and education are completed concurrently. Students will study a range of commerce units as well as a major and a minor sequence. Major and minor sequences in commerce must be chosen from teaching specialist areas that lead to secondary teaching qualifications. For more information visit: www.education.monash.edu.au/units/secondary-specialisms.html.

Students complete a minimum 80 days of supervised teaching placement in primary and secondary school settings. Professional placements give students vital teaching experience and connect the theoretical components of their studies with the practical aspects of teaching.

This course is accredited by the Victorian Institute of Teaching (VIT). Graduates can seek registration with the VIT to start their teaching career. In addition, graduates can pursue careers in commerce related fields such as economics, accounting or management.

The double degree is equivalent to 4.25 years of full time study but is completed in 4 calendar years.

**Major studies:** Accounting, Commerce, Economics, Education, Education studies, Management, Marketing, Teaching (secondary).

**Prerequisites:** Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL; and a study score of at least 25 in one of Maths: Mathematical Methods (CAS) or Maths: Specialist Mathematics.

**Middle-band:** A study score of 35 in Maths: Specialist Mathematics equals 1.5 aggregate points. A study score of 35 in one but no more than one of Accounting or Economics equals 1.5 aggregate points per study. A study score of 40 in English (EAL) equals 1.5 aggregate points. A study score of 35 in English other than EAL equals 1.5 aggregate points per study. Overall maximum of 4.5 points.

**Selection Mode:** CY12: ATAR and middle-band.

NY12: Educational History including GPA, VTAC Personal Statement (All). See extra requirements for more information.
SEAS is considered.

**Extra requirements:**

VTAC Personal Statement (NY12-All): NY12 applicants must complete a VTAC Personal Statement detailing community involvement and evidence of how they have fulfilled the equivalent mathematics prerequisite.

All: SUCCESSFUL APPLICANTS: Students will be required to complete a Working With Children Check (WWCC).

For details on optional course information session dates, times and venues visit www.edu.monash.edu/vtac

- Bachelor of Commerce and Bachelor of Engineering (Honours): 5 years full time study

**About the course:** The course provides professional education in a range of commerce disciplines, with a strong emphasis on developing analytical skills, and a degree in engineering. There is a strong emphasis on constructing conceptual frameworks and using these to analyse complex issues in the corporate sector, government and the professions. The Faculty of Business and Economics component includes introductory units in the primary disciplines, and a major specialisation in a commerce discipline. The program allows students to keep their options open and select from a range of engineering disciplines. After first year, subject to academic merit and any quotas, students move into their preferred engineering branch. Students pursue one of five branches: chemical, civil, electrical and computer systems, materials or mechanical engineering. Vacation employment: twelve weeks during vacation between study periods, in approved engineering work.

**Major studies:** Accounting, Actuarial studies, Business (law), Business (taxation), Business modelling, Business statistics, Commerce, Econometrics, Economics, Engineering, Engineering (chemical), Engineering (civil), Engineering (computer systems), Engineering (electrical), Engineering (materials), Engineering (mechanical), Finance, Human resource management, International commerce, Management, Marketing, Sustainability.

**Prerequisites:** Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL; and a study score of at least 25 in Maths: Mathematical Methods (CAS); and a study score of at least 25 in one of Chemistry or Physics.

**Middle-band:** A study score of 25 in Maths: Specialist Mathematics equals 3 aggregate points. A study score of 25 in each of Chemistry and Physics equals 1 aggregate point per study. Overall maximum of 5 points.

**Selection Mode:** CY12: ATAR and middle-band.

NY12: Educational History including GPA, VTAC Personal Statement (All).

SEAS is considered.

**Extra requirements:**

VTAC Personal Statement (NY12-All)

---

**Commerce/Law (HE)**

**Monash University**
Bachelor of Commerce and Bachelor of Laws: 5 years full time study

**About the course:** The Laws component of this double degree provides an accredited education in law for applicants without a tertiary qualification. The degree offers students an in-depth understanding of the concepts, procedures and reasoning upon which the Australian legal system is founded. Students gain an understanding of basic legal concepts, principles, rules and methods used in legal argument and develop oral and written skills in legal argument, legal research and critical analysis.

The Bachelor of Laws course consists of 12 compulsory units which must be completed by all students enrolled in an LLB program plus a further six 'quasi-compulsory' units which must be completed by students who wish to qualify for admission to practice as a barrister or solicitor in Victoria. The remainder of the program consists of law elective units chosen by the student in areas of interest.

The Bachelor of Commerce provides professional education in a range of commerce disciplines, with a strong emphasis on constructing conceptual frameworks to analyse complex issues in the corporate sector, government and the professions. The basic course structure consists of introductory units, a major specialisation in a commerce discipline, and commerce elective units.

**Prerequisites:** Units 3 and 4: a study score of at least 35 in English (EAL) or 30 in English other than EAL; and a study score of at least 25 in one of Maths: Mathematical Methods (CAS) or Maths: Specialist Mathematics.

**Middle-band:** A study score of 45 in any English equals 2 aggregate points per study. A study score of 40 in any English equals 1 aggregate point per study. A study score of 40 in Classical Studies, Economics, Geography, any History, Legal Studies, Philosophy, Australian Politics, Global Politics or Psychology equals 1 aggregate point per study. Overall maximum of 5 points.

**Selection Mode:** CY12: ATAR and middle-band.

NY12: Educational History including GPA, VTAC Personal Statement (All). See extra requirements for more information.

SEAS is considered.

**Extra requirements:**

Bachelor of Commerce and Bachelor of Mechatronics Engineering (Honours): 5 years full time study

About the course: Provides professional education in a range of commerce disciplines, with a strong emphasis on developing analytical skills and a degree in mechatronics engineering. Faculty of Business and Economics subjects include introductory subjects in the six major commerce disciplines and a major specialisation in a commerce discipline. The mechatronics engineering component of the course focuses on core discipline areas of thermodynamics, fluid mechanics, electronics, mechanics, programming and digital electronics. Vacation employment: Twelve weeks during one or more long vacations between years of study, in approved engineering work.

Prerequisites: Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL; and a study score of at least 25 in Maths: Mathematical Methods (CAS); and a study score of at least 25 in one of Chemistry or Physics.

Middle-band: A study score of 25 in Maths: Specialist Mathematics equals 3 aggregate points. A study score of 25 in each of Chemistry and Physics equals 1 aggregate point per study. Overall maximum of 5 points.

Apply: Through VTAC  
main round

- Bachelor of Communication Design: 3 years full time study

**About the course:** This three year course offers a program of education in the discipline of communication design. It is intended for students who wish to seek employment as a communication designer in the areas of graphic design, visual communication and digital media. The course involves studies in corporate identity, branding, interactive media, interaction design, information design, print and digital publishing, typography, environmental graphics, packaging, illustration, animation, and motion graphics.

The communication design studio is the principle area of study and is offered at every year and semester level. It is supported by design theory units and a range of electives that can be chosen from the discipline or across the faculty. The electives include, but are not limited to, advertising, interaction design, packaging, photography, digital font design, online publishing, digital audio and video, illustration, 3D design and animation.

**Prerequisites:** Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL.

**Middle-band: None**

**Selection Mode:** CY12: ATAR, Supplementary form (All), Folio (All), Interview (All). See extra requirements for more information.

NY12: Educational History including GPA, Supplementary form (All), Folio (All), Interview (All). See extra requirements for more information.
SEAS is considered.

**Extra requirements:**

Supplementary form (CY12-All, NY12-All): All applicants must complete the online Art Design and Architecture registration form by no later than 11 October. To register go to: www.monash.edu/mada/study/apply

Folio (CY12-All, NY12-All): All applicants will be required to submit a digital copy of their folio.

Interview (CY12-All, NY12-All): All applicants are required to attend an interview, where they will present their folios. Details about the interview process will be sent to applicants by 12 November. Interviews will be hosted from late November to early December. Advisory letters will be sent to applicants by 13 December. Each applicant’s final ranking is based on their interview score; applicants must also achieve a minimum ATAR or GPA.

### Communications and Media Studies (Grad)

**Monash University**

Caulfield: Domestic fee-paying places full-time/part-time  
Apply: [Direct to institution](#)

Caulfield: International fee-paying places full-time  
Apply: [Direct to institution](#)

- Master of Communications and Media Studies: 1.5 year full time study

**About the course:** This course explores the challenges posed by the emergence of digital media, globalisation and increasing levels of cross-cultural exchange. The last decade has been one of unprecedented change in communications and media content, forms, technology and policy with wide-ranging implications for business, politics, public administration and everyday life. Students examine these issues from an historical, political and theoretical perspective.

**Major studies:** Communications, English, Humanities, Journalism, Media.

**Prerequisites:** Bachelor Degree with a credit average or a Graduate Diploma with a credit average.

**Middle-band:** None

**Selection Mode:** NY12: Educational History including GPA.

**Extra requirements:** None

- Bachelor of Community Welfare and Counselling: 3 years full time study

**About the course:** Accredited by the Australian Community Workers Associated (ACWA), this course equips students for competent and ethical community welfare and counselling practice in an ever-changing social and political climate. It develops students’ skills and knowledge for intervention in different fields of practice, advanced theoretical analysis and application, and social welfare and human services practice from a management
perspective. Graduates are equipped for careers in a range of welfare areas including counselling, child protection, disability, family support, homelessness, youth justice, aged care, and research and policy analysis.

**Major studies:** Australian Indigenous studies, Communications, Community studies, Community welfare and counselling, English, History-politics, Psychological studies, Psychology (off campus only), Sociology, Writing.

**Prerequisites:** To be confirmed

- Bachelor of Community Welfare and Counselling/Diploma of Community Services Work (Alcohol, Other Drugs and Mental Health): 3 years full time study

**About the course:** This dual award course equips students for competent and ethical community welfare and counselling practice and provides them with a skill-based qualification in community services (alcohol, other drugs and mental health). The bachelor's degree is accredited by the Australian Community Workers Association (ACWA) and the diploma meets the professional requirements of the Victorian Department of Human Services for employees working in these fields of community service. Students complete the two awards concurrently.

**Major studies:** Community services, Community welfare and counselling.

**Prerequisites:** Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL.

**Middle-band:** Satisfactory completion in one but no more than three of Classical Studies, Drama, Environmental Science, Geography, any History, Literature, any LOTE, Media, any Music, Philosophy, Australian Politics, Global Politics, Religion And Society, Sociology, Theatre Studies or Texts And Traditions equals 2 aggregate points per study. Overall maximum of 6 points.

**Selection Mode:** CY12: ATAR and middle-band.
