studies by choosing a minor or major. Majors include computational science, systems development, decision support, mathematics, and other sciences, such as biology and physics. An optional honours year for high performing students includes a research thesis of substantial size. Local students can apply for a place in the Industry Based Learning program in which they complete a 22-week industry placement and receive a scholarship. Placements are part of the curriculum and are formally assessed and credited towards the degree. Selection for IBL is based on academic merit and an interview conducted by industry partners prior to entry to the program. Further IBL places will be made available at the completion of the first year of the course. The IBL program is available to CSP applicants only.

An Industry Based Learning (IBL) Information Evening will be held on 27 August 2013 at the Clayton campus.

**Major studies:** Algorithms and data structures, Computational science, Computer graphics, Computer programming, Computer science, Databases, Decision support, Distributed systems and applications, Information and communication technology, Information technology, Mathematics, Programming, Software development, Software engineering, Systems development.

**Prerequisites:** Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL; and a study score of at least 25 in one of Maths: Mathematical Methods (CAS) or Maths: Specialist Mathematics or 35 in Maths: Further Mathematics.

**Middle-band:** A study score of 35 in English (EAL) equals 2 aggregate points. A study score of 40 in English (EAL) equals 4 aggregate points. A study score of 30 in one but no more than one of English other than EAL equals 2 aggregate points per study. A study score of 35 in one but no more than one of English other than EAL equals 4 aggregate points per study. A study score of 25 in Maths: Specialist Mathematics equals 2 aggregate points. A study score of 30 in Maths: Mathematical Methods (CAS) equals 2 aggregate points. A study score of 35 in Maths: Mathematical Methods (CAS) equals 4 aggregate points. A study score of 40 in Maths: Further Mathematics equals 2 aggregate points. Overall maximum of 8 points.

**Selection Mode:** CY12: ATAR and middle-band, Supplementary form (Some), Interview (Some). See extra requirements for more information.

**NY12:** Educational History including GPA, STAT (Some). See extra requirements for more information.

**SEAS is considered.**

**Extra requirements:**

Supplementary form (CY12-Some) : Applicants who wish to apply for the Industry Based Learning Program should submit an application online at http://www.infotech.monash.edu.au/ibl by 2 December 2013.

Interview (CY12-Some) : Industry Based Learning Program applicants must attend an interview on 11 December 2013.

STAT (NY12-Some) : NY12 applicants described under the Admissions Test section are required to sit STAT Multiple Choice.

main round

- Bachelor of Computer Systems Engineering (Honours): 4 years full time study

**About the course:** Teaches the fundamentals of computer science and electrical and computer systems engineering and is designed to prepare students for professional careers that span these areas. Core engineering, mathematics and computer science material is presented in first year. Later years cover topics in computer architecture, electrical engineering and computer science. Elective subjects can be undertaken in international
studies including languages and studies through and involving overseas universities. Vacation employment: twelve weeks during one or more long vacations between years of study, in approved engineering work.

**Major studies:** Computer applications, Computer engineering, Computer hardware, Computer programming, Computer science, Digital and analogue electronics, Electronic systems, Engineering, Engineering (computer systems), Mathematics, Physics, Systems and software engineering, Telecommunications.

**Prerequisites:** Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL; and a study score of at least 25 in each of Maths: Mathematical Methods (CAS) and Physics.

**Selection Mode:** CY12: ATAR.

NY12: Educational History including GPA, VTAC Personal Statement (All).

SEAS is considered.

**Extra requirements:**
VTAC Personal Statement (NY12-All)

---

**Counselling (HE)**

**Monash University**

**Berwick: 2800110231 (CSP) full-time**  Apply: Through VTAC main round

- Bachelor of Bachelor of Counselling: 3 years full time study

**About the course:** Psychological health, or wellness, is increasingly considered as a scale, ranging from severe and debilitating mental illness at one end, to existing in something like a state of one-ness with the world at the other. In an increasingly time-pressured society, and a world that is increasingly competitive and uncertain, many people at different points of the scale are looking for help. This course provides students with a solid psychological background as well as in-field placement to prepare competent counsellors that can utilise a range of techniques to assist clients with a wide variety of issues. The course is practical, research-informed, and responds to contemporary issues such as the mental health implications of an increasingly online world. Graduates will have skills and knowledge valuable to a wide range of careers both in Australia and internationally, in what is a strongly growing industry.

**Major studies:** Australian Indigenous studies, Community welfare and counselling, Criminal justice, Psychological studies, Sociology.

**Prerequisites:** Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL.

**Middle-band:** Satisfactory completion in one but no more than three of Classical Studies, Drama, Environmental Science, Geography, any History, Literature, any LOTE, Media, any Music, Philosophy, Australian Politics, Global Politics, Religion And Society, Sociology, Theatre Studies or Texts And Traditions equals 2 aggregate points per study. Overall maximum of 6 points.

**Selection Mode:** CY12: ATAR and middle-band.

NY12: Educational History including GPA.

SEAS is considered.

**Extra requirements:**
None

---

**Counter -Terrorism Studies (Grad)**

**Monash University**
Clayton: Domestic fee-paying places full-time/part-time  Apply: Direct to institution

Clayton: International fee-paying places full-time  Apply: Direct to institution

- Master of Counter-Terrorism Studies: 1.5 year full time study

**About the course:** The September 11 attacks, Bali bombings, home-grown operations in London and those thwarted in Australia, have increased the importance of understanding terrorism and political violence. This course provides students with an understanding of what terrorism is and how it is constructed and reproduced. It also addresses the diverse and multifaceted actors involved in enacting and preventing terrorism and other security concerns. Students explore terrorisms (state, religious, revolutionary and right wing); the political, theological and intellectual bases of terrorism; political violence and political movements; and country and regional studies.

**Major studies:** Counter-terrorism studies, Criminology, Humanities, Politics, Sociology.

**Prerequisites:** Bachelor Degree with a credit average or a Graduate Diploma with a credit average.

**Middle-band:** None

**Selection Mode:** NY12: Educational History including GPA.

**Extra requirements:** None

Gippsland: 2800430453 (IFP) full-time  Apply: Through VTAC main round

- Bachelor of Arts (Criminal Justice): 3 years full time study

**About the course:** This course opens up many opportunities to make a difference to the lives of people caught up in the criminal justice system and to influence the way the community views crime. Students learn why crime occurs, why it varies in nature and rate across geographical areas and how to evaluate the effectiveness of crime prevention policies. They also gain expertise in forensic psychology, causes of deviant behaviour, and public safety and security. Students will graduate with the ability to evaluate the criminal justice process and consider new and radical alternatives for dealing with crime - skills which employers such as the police, courts, government departments and law commissions regard very highly.

**Major studies:** Australian Indigenous studies, Communications, Community studies, Criminal justice, English, History-politics, Psychological studies, Psychology (off campus only), Sociology, Writing.

**Prerequisites:** To be confirmed

**Middle-band:** Satisfactory completion in one but no more than three of Classical Studies, Drama, Environmental Science, Geography, any History, Literature, any LOTE, Media, any Music, Philosophy, Australian Politics, Global Politics, Religion And Society, Sociology, Theatre Studies or Texts And Traditions equals 2 aggregate points per study. Overall maximum of 6 points.

**Selection Mode:** CY12: ATAR and middle-band.

NY12: Educational History including GPA, VTAC Personal Statement (All).

SEAS is considered.
Criminal Justice and Criminology (Grad)

Monash University

Gippsland: Domestic fee-paying places full-time/part-time  
Apply: Direct to institution

Gippsland: International fee-paying places full-time  
Apply: Direct to institution

- Master of Criminal Justice and Criminology: 1.5 year full time study

About the course: This course provides an overview of local, national and international issues in criminal justice and engages students in criminal justice research. It examines issues such as criminal justice practice and reform, security and risk management, crime prevention, and criminal behaviours and enterprises. The course places criminal justice issues in historical and contemporary social and political contexts. It also recognises that a whole-of-government, whole-of-criminal justice approach to many workplace issues is needed. In addition to completing coursework units, students may choose to pursue independent criminal justice research.

Major studies: Criminal justice, Criminology.

Prerequisites: Bachelor Degree with a credit average or a Graduate Diploma with a credit average.

Middle-band: None

Selection Mode: NY12: Educational History including GPA.

Extra requirements: None

Design (Grad)

Monash University

Caulfield: Commonwealth-supported places full-time/part-time  
Apply: Direct to institution

Caulfield: International fee-paying places full-time  
Apply: Direct to institution

- Master of Design: 1.5 year full time study

About the course: This program allows designers to sharpen their professional practice and further their marketing, business and analytical skills at an advanced level. Graduates of the Master of Design will have enhanced, highly developed capabilities. Through the completion of sustained design projects, students are required to demonstrate high-level planning, resourcing, implementation, completion and evaluation, culminating in an expert understanding of the professional design process. The program consists of three units of design studio and seven coursework units. Students hone their skills in planning, conducting and evaluating innovative design projects; relating technical excellence to conceptual aspirations; business processes relevant to design practice; and contemporary issues relevant to their chosen field of design. Students select from the following streams: industrial design, visual communication, interior architecture, multimedia design, or multidisciplinary design.

Major studies: Industrial design, Interior architecture, Multidisciplinary design, Multimedia design, Visual communication.

Prerequisites: Bachelor Degree

Middle-band: None

Selection Mode: NY12: Educational History including GPA, Folio (All).

- Diploma of Tertiary Studies: 1 year full time study

About the course: This course is an alternative entry pathway that is equivalent to the first year of an Arts degree at Monash. It is designed for students who didn't get the ATAR they were expecting. It is also suited to students who are returning to study and are seeking an alternative pathway to tertiary education.

Students complete six units in Arts combined with two units focused on effective university study skills, developing critical thinking skills, and exploring knowledge in higher education and professional contexts. These units provide a solid foundation for tertiary level education. The six Arts units completed in the DOTS course are first year undergraduate units, which means DOTS students gain exposure to University level studies from the very beginning.

The DOTS course provides the choice, flexibility and the support you need to gain entry into a Monash degree. On completion of DOTS, students who have successfully obtained a required published average score are then eligible to apply for entry into the second year of an approved range of Monash courses. Details of which courses students can articulate into are available at: http://arts.monash.edu.au/samss/dots/streams.php

The structure of the DOTS course means that students will usually complete their bachelor degree in Arts in as little as three years.

Prerequisites: Minimum ATAR of 50.00. Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL.

Middle-band: None

Selection Mode: CY12: ATAR, Supplementary form (All). See extra requirements for more information.
NY12: Educational History including GPA, Supplementary form (All). See extra requirements for more information. SEAS is considered.
Extra requirements:
Supplementary form (CY12-All, NY12-All): All applicants must submit the Monash University Supplementary Information form by 21 December. The form is available from www.adm.monash.edu.au/admissions/vtac/index.html

Applicants who have missed this deadline may contact the Faculty of Education on 99047167.

- Bachelor of Economics: 3 years full time study

About the course: Providing a broad education in the field of economics, with a strong emphasis on developing analytical and technical skills, this course will prepare you to operate at the top of your chosen profession. As part of your degree you will study specialisations in actuarial studies, economics, econometrics or financial and insurance mathematics. With your 12 electives you can elect to study a second commerce major, study units outside of the Faculty of Business and Economics, which gives you the opportunity to study a language or other social science or humanities subjects, or undertake a second major in philosophy and politics. The basic course structure consists of eight subjects per year for three years on a full-time basis, including six core economics and statistics units, a major specialisation and elective subjects. Students studying this course also have additional opportunities such as internships, overseas study, study tours and leadership programs. Graduates are expected to find employment in corporate, government and professional organisations as diplomats, economists, policy advisors or politicians.

Major studies: Actuarial studies, Econometrics and business statistics, Economics, Financial and insurance mathematics, Philosophy and politics.

Prerequisites: Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL; and a study score of at least 25 in one of Maths: Mathematical Methods (CAS) or Maths: Specialist Mathematics.

Middle-band: None

Selection Mode: CY12: ATAR.

NY12: Educational History including GPA, VTAC Personal Statement (All). See extra requirements for more information.
SEAS is considered.
Extra requirements:
VTAC Personal Statement (NY12-All): All applicants must complete a VTAC Personal Statement. Information on the statement receives equal weighting with academic results in deciding the ranking.

- Bachelor of Economics Advanced with Honours: 4 years full time study

**About the course:** Aimed at high-achieving students, this specialist degree provides a solid education in the field of economics, combined with the possibility of industry placements. You will study specialisations in actuarial studies, economics, econometrics or financial and insurance mathematics with an emphasis on developing their analytical and technical skills. Graduates from this degree are expected to find work as professional economists within state and federal governments and in the corporate sector, banking and finance sectors or pursue postgraduate study in economics.

The course is restricted to a limited number of CY12 students. Applicants must be permanent residents.

**Major studies:** Actuarial studies, Econometrics and business statistics, Economics, Financial and insurance mathematics.

**Prerequisites:** Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL; and a study score of at least 25 in one of Maths: Mathematical Methods (CAS) or Maths: Specialist Mathematics.

- Bachelor of Education (Early Childhood): 4 years full time study

**About the course:** The Bachelor of Education (Early Childhood) program will prepare you for a successful career as an early childhood educator and will qualify you to teach children from birth to eight years of age. You will learn how to help children develop their creative, physical, personal, intellectual and social capabilities. You will also learn how to foster their literacy and numeracy skills and will develop skills and knowledge in early years music, arts, health and well-being, science, technology, new media and the environment.

The program provides deep understanding of childhood development, educational theories and practice and how to engage children in innovative, engaging and purposeful learning. Students complete a major in education and
curriculum. Education units include: contemporary child development theories and practices and innovation in curriculum and pedagogy in schools. Curriculum units include: Literacy, creative learning, numeracy, health, science, technology and environment and sustainability. Students also complete an early childhood education leadership major.

Students complete a minimum of 80 days of supervised teaching placement in kindergartens, primary schools, child-care and other pre-school settings. These placements give students vital teaching experience and connect the theoretical components of their studies with the practical aspects of teaching.

This course is (pending) accredited by the Australian Childrens Education and Care Quality Authority (ACECQA). Graduates will be qualified to teach in early childhood settings.

For details on optional course information session dates, times and venues visit www.edu.monash.edu/vtac

**Major studies:** Early childhood education, Education, Education studies, Educational leadership, Teaching (early childhood).

**Prerequisites:** Units 1 and 2: satisfactory completion in two units (any study combination) of General Mathematics or Mathematical Methods or Units 3 and 4: any Mathematics; and a study score of at least 30 in English (EAL) or 25 in English other than EAL.

**Middle-band:** A study score of 40 in English (EAL) equals 1.5 aggregate points. A study score of 35 in English other than EAL equals 1.5 aggregate points per study. Overall maximum of 1.5 points.

**Selection Mode:** CY12: ATAR and middle-band.
NY12: Educational History including GPA, VTAC Personal Statement (All). See extra requirements for more information.
SEAS is considered.

**Extra requirements:**
VTAC Personal Statement (NY12-All) : NY12 applicants must detail relevant work experience, community involvement and evidence of how they have fulfilled the equivalent of the listed Maths requirement.

All: SUCCESSFUL APPLICANTS Working With Children Check: Students will be required to complete a Working With Children Check (WWCC).

- Bachelor of Education (Early Childhood/Primary): 4 years full time study

**About the course:** This program prepares students for careers in early childhood and primary teaching. Graduates of this course will be qualified to teach children from birth to 12 years of age.

You will learn how to help children develop their creative, physical, personal, intellectual and social capabilities. You will also learn how to foster their literacy and numeracy skills and will develop skills and knowledge in early years music, arts, health and well-being, science, technology, new media and the environment.

The program provides deep understanding of childhood development, educational theories and practice and how to engage children in innovative, engaging and purposeful learning. Students complete a major in education and curriculum. Education units include: contemporary child development theories and practices and innovation in curriculum and pedagogy in schools. Curriculum units include: Literacy, creative learning, numeracy, health, science, technology and environment and sustainability. Students also complete an early childhood education leadership major.

Students complete a minimum of 80 days of supervised teaching placement in kindergartens, primary schools,
child-care and other pre-school settings. These placements give students vital teaching experience and connect the theoretical components of their studies with the practical aspects of teaching.

This course is (pending) accredited by the Australian Childrens Education and Care Quality Authority (ACECQA) and the Victorian Institute of Teaching (VIT). Graduates will be qualified to teach in early childhood and primary settings.

**Major studies:** Education, Education studies, Educational leadership, Teaching, Teaching (early childhood), Teaching (primary).

**Prerequisites:** Units 1 and 2: satisfactory completion in two units (any study combination) of General Mathematics or Mathematical Methods or Units 3 and 4: any Mathematics; and a study score of at least 30 in English (EAL) or 25 in English other than EAL.

**Middle-band:** A study score of 40 in English (EAL) equals 1.5 aggregate points. A study score of 35 in English other than EAL equals 1.5 aggregate points per study. Overall maximum of 1.5 points.

**Selection Mode:** CY12: ATAR and middle-band.

NY12: Educational History including GPA, VTAC Personal Statement (All). See extra requirements for more information.

SEAS is considered.

**Extra requirements:**

VTAC Personal Statement (NY12-All) : NY12 applicants must detail relevant work experience, community involvement and evidence of how they have fulfilled the equivalent of the listed Maths requirement.

All: SUCCESSFUL APPLICANTS Working With Children Check: Students will be required to complete a Working With Children Check (WWCC).

- Bachelor of Education (P-10): 4 years full time study

**About the course:** The Bachelor of Education (P-10) offers students the unique opportunity to pursue a rewarding teaching career spanning the primary and secondary years. This specialised 4 year program covers all aspects of the curriculum from Prep through to Year 10. It prepares you for broad career opportunities in the teaching profession.

Students undertake a major in education and curriculum. You will acquire skills in: learning and educational policy & practice, child & adolescent development, classroom practice, inclusive education, curriculum, assessment and evaluation, professional ethics, and advanced pedagogy.

Major curriculum studies focus on English and mathematics education. You will also study other curriculum areas including: creative arts, science, history, health and physical education, Indigenous studies and social education.

Students will also undertake in-depth studies in 2 discipline areas. These can be chosen from areas including: accounting, economics, health, IT/computing, workplace training and assessment, legal studies, media studies and psychology. The discipline study pathways provide you with the skills and knowledge required to teach your chosen discipline areas in the middle years up to Year 10. Discipline studies may be completed at other campuses. To view a complete list of discipline areas available, visit: www.education.monash.edu.au/units/bached-p-10-discipline-studies.html
Throughout the course, you will complete a minimum 80 days of supervised teaching placement in primary and secondary school settings. Professional placements give students vital teaching experience and connect the theoretical components of their studies with the practical aspects of teaching.

This course is accredited by the Victorian Institute of Teaching (VIT). Graduates can seek registration with the VIT to start their teaching career. For details on optional course information session dates, times and venues visit www.edu.monash.edu/vtac

**Major studies:** Accounting, Anthropology, Astronomy and astrophysics, Atmospheric science, Australia in the world, Behavioural studies, Biochemistry, Biochemistry and molecular biology, Business law, Chemistry, Chinese studies, Communications, Creative writing, Criminology, Data design and development, Developmental biology, Ecology and conservation biology, Ecology and environmental management, Economics, Education, Education studies, Film and screen studies, French studies, Genetics, Geography climate and physical environments, Geoscience, German studies, Health, History, Holocaust and genocide studies, Indonesian studies, Information technology, International relations, Italian studies, Japanese studies, Jewish studies, Journalism studies, Linguistics, Literary studies, Management, Marine and freshwater biology, Mathematics, Microbiology, Multimedia design and development, Music, Outdoor education, Philosophy, Physical education, Physics, Physiology, Plant sciences, Politics, Psychology, Society cities and sustainability, Sociology, Spanish and Latin American studies, Teaching, Teaching (primary), Teaching (secondary), Theatre, Visual culture, Workplace training and assessment, Zoology.

**Prerequisites:** Units 1 and 2: satisfactory completion in two units (any study combination) of General Mathematics or Mathematical Methods or Units 3 and 4: any Mathematics; and a study score of at least 30 in English (EAL) or 25 in English other than EAL.

**Middle-band:** A study score of 40 in English (EAL) equals 1.5 aggregate points. A study score of 35 in English other than EAL equals 1.5 aggregate points per study. Overall maximum of 1.5 points.

**Selection Mode:** CY12: ATAR and middle-band.

**Education (Primary) (HE)**

**Monash University**

Peninsula: 2800710031 (CSP) full-time  [Apply: Through VTAC](http://www.wss8.vtac.edu.au/courses-inst/institutions/topdf/monash.html) main round

- Bachelor of Education (Primary): 4 years full time study

**About the course:** This course prepares students for careers in primary education. You will learn how to help children develop their creative, physical, personal, intellectual and social capabilities. You will also learn how to foster their literacy and numeracy skills in learning areas such as: arts, English, mathematics, information and communication technologies, physical education, science and humanities.

The program will immerse you in teaching and learning theories for primary school-aged children and will teach you how to develop and implement primary curriculum across the learning areas. You will also learn to critically reflect on contemporary education issues.

Students complete a major in education and curriculum. Education units include: child and adolescent development, curriculum, assessment and evaluation, and professional identity, leadership and engagement. Curriculum units include: English and literacies, mathematics and numeracy, arts education, humanities and social education, science, health, and environment and sustainability. Students also complete an education priorities sequence, specialist electives or a discipline sequence. Priority units include: special needs education, health and well-being...
and active citizenship and community connections. Discipline sequences include: leadership in English and literacy, leadership in mathematics and numeracy, health and physical education and LOTE. Specialist electives include: visual arts, performing arts, studies of Asia and civics and citizenship.

Students complete a minimum 80 days of supervised teaching placement in primary school settings. Professional placements give students vital teaching experience and connect the theoretical components of their studies with the practical aspects of teaching.

This course is (pending) accredited by the Victorian Institute of Teaching (VIT). Graduates can seek registration with the VIT to start their teaching career.

**Major studies:** Education, Education studies, Educational leadership, Teaching (primary).

- Bachelor of Education (Special Education): 4 years full time study

**About the course:** The Bachelor of Education (Special Education) is a specialised four year program that covers all aspects of the curriculum from Prep through to Year 10. It also includes a special education discipline sequence that provides graduates with specialist teaching skills and knowledge in inclusive and special education.

Students undertake a major in education and curriculum. You will acquire skills in: learning and educational policy and practice, child and adolescent development, classroom practice, inclusive education, curriculum, assessment and evaluation, professional ethics, and advanced pedagogy. Major curriculum studies are focused on English and mathematics education. You will also study other curriculum areas including: creative arts, science, history, health and physical education, Indigenous studies and social education.

Students undertake in-depth studies in two discipline areas. One discipline area will focus on inclusive and special education. Specialist units include: inclusive and special education, effective instruction in special education and positive behaviour support. The other discipline area can be chosen from a range of approved areas. To view the list of discipline areas, visit: www.education.monash.edu.au/units/bached-p-10-discipline-studies.html. Discipline studies may be completed at other campuses.
This specialist program prepares graduates to teach and guide children with diverse needs. You will also be qualified to teach in primary and secondary settings up to Year 10.

Students complete a minimum 80 days of supervised teaching placement in primary and secondary school settings. Professional placements give students vital teaching experience and connect the theoretical components of their studies with the practical aspects of teaching.

This course is accredited by the Victorian Institute of Teaching (VIT). Graduates can seek registration with the VIT to start their teaching career.

- Bachelor of Emergency Health (Paramedic): 3 years full time study

**About the course:** A degree in emergency health prepares the graduate for potential employment as a paramedic in ambulance and community health settings. Students study four units per semester for six semesters (three years). The course is based on the following themes: Professional, Evidence based practice, Reflective, Clinically competent and Patient focused. Clinical experience includes placements with ambulance services and other health agencies. Travel to metropolitan and rural off-campus locations for clinical placements will be required. Some
Clinical placements will occur during one or more vacation periods (ie. summer semester) between years of study. For further information refer to http://www.monash.edu.au/study/coursefinder/course/3445/

**Major studies:** Paramedical sciences.

**Prerequisites:** Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL; and a study score of at least 25 in any Mathematics.

**Middle-band:** None

**Selection Mode:** CY12: ATAR.

NY12: Educational History including GPA. See extra requirements for more information.

SEAS is considered.

**Extra requirements:**
SUCCESSFUL APPLICANTS must complete a National Police Records Check and hold a Working With Children Check before undertaking clinical placements. Health check: Students must comply with the Monash University Department of Community Emergency Health and Paramedic Practice Health Requirements Policy before undertaking clinical placements (see Health Requirements for Clinical Placements at www.med.monash.edu.au/beh/entry.html). Failure to hold satisfactory checks may result in students being unable to complete this course.

- Bachelor of Engineering (Honours): 4 years full time study

**About the course:** Builds on foundation sciences to prepare graduates for professional practice in one of five branches of engineering. For mechatronics please refer to the course entry for Mechatronics Engineering. First year includes introductory subjects in engineering and the foundation sciences. The program allows students to keep their options open and select from a range of engineering disciplines. After first year, subject to academic merit and any quotas, students move into their preferred engineering branch. Students pursue one of five branches: chemical, civil, electrical and computer systems, materials or mechanical engineering. Vacation employment: twelve weeks during one or more long vacations between years of study, in approved engineering work.

**Major studies:** Engineering, Engineering (chemical), Engineering (civil), Engineering (computer systems), Engineering (electrical), Engineering (materials), Engineering (mechanical).

**Prerequisites:** Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL; and a study score of at least 25 in Maths: Mathematical Methods (CAS); and a study score of at least 25 in one of Chemistry or Physics.

**Middle-band:** A study score of 25 in Maths: Specialist Mathematics equals 3 aggregate points. A study score of 25 in each of Chemistry and Physics equals 1 aggregate point per study. Overall maximum of 5 points.

**Selection Mode:** CY12: ATAR and middle-band.

NY12: Educational History including GPA, VTAC Personal Statement (All).

SEAS is considered.

- Bachelor of Engineering (Honours) and Bachelor of Architectural Design: 5 years full time study

**About the course:** This double degree program is designed for students who are interested in civil engineering with a thorough understanding of how buildings function. The architectural design component enables students to express their building design in an innovative way whereas the civil engineering component enables students to understand the load path and design safety issues associated with the architectural design.

The Bachelor of Architectural Design component offers a program of education in the discipline of architecture and provides the first of two degrees required for professional registration. The engineering component of the program is only available to students in the discipline of civil engineering.

Graduates will be able to provide solutions to a wide variety of engineering and social problems through creative thinking and realistic applications to building in a sustainable way. Graduates will be equipped with contemporary knowledge and technological skills to critically analyse problems and research solutions.

Graduates from this program, while not eligible for architecture registration, will be qualified engineers. Graduates will be highly skilled designers and design thinkers able to provide leadership in the design and construction of the built environment, collaborating with clients, builders and other design professionals.

Vacation employment: twelve weeks during one or more long vacations between years of study, in approved engineering work.

**Major studies:** Architectural communication, Architectural design, Architecture, Building design, Building technologies, Built environment, Computer-aided design (CAD), Design, Design theory, Digital design and fabrication, Engineering (civil), History (architecture), Landscape studies, Sustainable architecture, Urban design, Urban studies.

**Prerequisites:** Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL; and a study score of at least 25 in Maths: Mathematical Methods (CAS); and a study score of at least 25 in one of Chemistry or Physics.

**Middle-band:** A study score of 25 in Maths: Specialist Mathematics equals 3 aggregate points. A study score of 25 in each of Chemistry and Physics equals 1 aggregate point per study. Overall maximum of 5 points.

**Selection Mode:** CY12: ATAR and middle-band, Supplementary form (All), Interview (Some). See extra requirements for more information.

NY12: Educational History including GPA, Supplementary form (All), Folio (Some), Interview (Some). See extra requirements for more information.

SEAS is considered.

**Extra requirements:**
Supplementary form (CY12-All, NY12-All): The supplementary form consists of 2 steps. Step 1: All applicants must complete the online Art Design and Architecture registration form by no later than 11 October. To register go to: www.monash.edu/mada/study/apply. Step 2: (CY12-All, NY12-Some): Applicants with no previous studies in architecture need to complete the pre-selection activity. Applicants will receive details of the pre-selection activity after registration.
Folio (NY12-Some) : Applicants with a background in Architecture will need to present their folio during the interview process. Submission of a digital copy is also required.

Interview (CY12-Some, NY12-Some) : Shortlisted applicants will be contacted by 12 November with details of the interview process. Interviews will be hosted from late November to early December. Advisory letters will be sent to applicants by 13 December. Each applicant's final ranking is based on their interview score, pre-selection activity or folio, and ATAR or GPA.

For further information regarding pre-selection activity, folio or interview process, or to confirm if you are an applicant with a background in architecture, contact: mada@monash.edu

- Bachelor of Engineering (Honours) and Bachelor of Arts: 5 years full time study

**About the course:** This course enables engineering students to complement their program by selecting units from the very wide range of disciplines in the humanities, social sciences and communications offered by the Faculty of Arts. The program allows students to keep their options open and select from a range of engineering disciplines. After first year, subject to academic merit and any quotas, students move into their preferred engineering branch. Students pursue one of five branches: chemical, civil, electrical and computer systems, materials or mechanical engineering. Students undertake a mix of engineering and arts subjects over the five years. Vacation employment: twelve weeks during one or more long vacations between years of study, in approved engineering work.

**Major studies:** Ancient cultures, Anthropology, Australia in the world, Behavioural studies, Bioethics, Chinese studies, Communications, Criminology, Engineering, Engineering (chemical), Engineering (civil), Engineering (computer systems), Engineering (electrical), Engineering (materials), Engineering (mechanical), English as an international language, Film and screen studies, French studies, Geography climate and physical environments, German studies, History, Holocaust and genocide studies, Human rights, Indigenous cultures and histories, Indonesian studies, International relations, International studies, Islamic studies, Italian studies, Japanese studies, Jewish studies, Journalism practice, Journalism studies, Korean studies, Linguistics, Literary studies, Music, Philosophy, Politics, Psychology, Religion and theology, Society cities and sustainability, Sociology, Spanish and Latin American studies, Theatre, Ukrainian studies, Visual culture.

**Prerequisites:** Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL; and a study score of at least 25 in Maths: Mathematical Methods (CAS); and a study score of at least 25 in one of Chemistry or Physics.

**Middle-band:** A study score of 25 in Maths: Specialist Mathematics equals 2.5 aggregate points. A study score of 25 in each of Chemistry and Physics equals 1 aggregate point per study. A study score of 25 in any LOTE equals 1 aggregate point per study. Overall maximum of 4 points.

**Selection Mode:** CY12: ATAR and middle-band.  
NY12: Educational History including GPA, VTAC Personal Statement (All).  
SEAS is considered.

**Extra requirements:**

- Bachelor of Engineering (Honours) and Bachelor of Design (Industrial Design): 5 years full time study

About the course: Enables creative students to pursue their interest in both engineering design and industrial design with a focus on high-technology consumer product design. Only available in the branch of Mechanical Engineering. Vacation employment: twelve weeks during one or more long vacations between years of study, in approved engineering work. Travel between Clayton and Caulfield campuses will be required.

Major studies: Engineering, Engineering (mechanical), Industrial design, Mechanical design.

Prerequisites: Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL; and a study score of at least 25 in Maths: Mathematical Methods (CAS); and a study score of at least 25 in one of Chemistry or Physics.

Middle-band: None

Selection Mode: CY12: Information kit (All), Folio (All), Interview (All). See extra requirements for more information. NY12: Information kit (All), Folio (All), Interview (All). See extra requirements for more information.

SEAS is considered.

Extra requirements:
Information kit (CY12-All, NY12-All) : All applicants must complete the online Art Design and Architecture registration form by no later than 11 October. To register go to: www.monash.edu/mada/study/apply
Folio (CY12-All, NY12-All) : All applicants will be required to submit a digital copy of their folio.
Interview (CY12-All, NY12-All) : All applicants are required to attend an interview, where they will present their folios. Details about the interview process will be sent to applicants by 12 November. Interviews will be hosted from late November to early December. Advisory letters will be sent to applicants by 13 December. Each applicant's final ranking is based on their interview score; applicants must also achieve a minimum ATAR or GPA

- Bachelor of Engineering (Honours) and Bachelor of Laws: 6 years full time study
About the course: The Laws component of this double degree provides an accredited education in law for applicants without a tertiary qualification. The degree offers students an in-depth understanding of the concepts, procedures and reasoning upon which the Australian legal system is founded. Students gain an understanding of basic legal concepts, principles, rules and methods used in legal argument and develop oral and written skills in legal argument, legal research and critical analysis.

The Bachelor of Laws course consists of 12 compulsory units which must be completed by all students enrolled in an LLB program plus a further six 'quasi-compulsory' units which must be completed by students who wish to qualify for admission to practice as a barrister or solicitor in Victoria. The remainder of the program consists of law elective units chosen by the student in areas of interest.

The Bachelor of Engineering degree builds on foundation sciences to prepare graduates for professional practice in one of five branches of engineering. For mechatronics please refer to the course entry for Mechatronics Engineering. First year includes introductory subjects in engineering. After first year, subject to academic merit and any quotas, students move into their preferred engineering branch. Students pursue one of five branches: chemical, civil, electrical and computer systems, materials or mechanical engineering. Vacation employment: twelve weeks during one or more long vacations between years of study, in approved engineering work.

Major studies: Administrative law, Civil procedure, Constitutional law, Contract, Corporations law, Criminal law & procedure, Engineering, Engineering (chemical), Engineering (civil), Engineering (computer systems), Engineering (electrical), Engineering (materials), Engineering (mechanical), Equity, Evidence, Human rights, Intellectual property, Lawyers ethics and society, Professional practice, Property, Taxation, Torts, Trusts.

Prerequisites: Units 3 and 4: a study score of at least 35 in English (EAL) or 30 in English other than EAL; and a study score of at least 25 in Maths: Mathematical Methods (CAS); and a study score of at least 25 in one of Chemistry or Physics.

Middle-band: A study score of 45 in any English equals 2 aggregate points per study. A study score of 40 in any English equals 1 aggregate point per study. A study score of 40 in Classical Studies, Economics, Geography, any History, Legal Studies, Philosophy, Australian Politics, Global Politics or Psychology equals 1 aggregate point per study. Overall maximum of 5 points.

Selection Mode: CY12: ATAR and middle-band. NY12: Educational History including GPA, VTAC Personal Statement (All). SEAS is considered.

Extra requirements: VTAC Personal Statement (NY12-All)

- Bachelor of Engineering (Honours) and Bachelor of Pharmaceutical Science: 5 years full time study

About the course: This course prepares graduates to work in the pharmaceutical industry, filling a range of roles in therapeutic drug development, delivery and manufacture. Graduates will also be able to apply their knowledge and skills in a range of allied industries. Students will gain the technical knowledge and skills to develop products on the laboratory bench and to set up and run pilot and full-scale manufacturing facilities for them. Students undertake units in pharmaceutical science at the Parkville campus (1st and 3rd years); topics include formulation chemistry, chemistry, physiology, product development, biochemistry and microbiology, and pharmacology. The chemical engineering component is studied at the Clayton campus (2nd, 4th and 5th years); topics include mathematics, heat
and mass transfer, thermodynamics, fluid mechanics, sustainable processing, process design and control, bioprocess technology, biochemical engineering and projects. Vacation employment: twelve weeks during one or more long vacations between years of study, in approved engineering work.

**Major studies:** Chemistry, Engineering, Engineering (chemical), Formulation chemistry.

**Prerequisites:** Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL; and a study score of at least 25 in each of Chemistry and Maths: Mathematical Methods (CAS); and a study score of at least 25 in one of Biology, Maths: Specialist Mathematics or Physics.

**Middle-band:** A study score of 30 in each of Biology, Maths: Specialist Mathematics and Physics equals 2 aggregate points per study. A study score of 30 in each of Maths: Specialist Mathematics and Physics equals 1.5 aggregate points per study. A study score of 30 in each of Biology and Physics equals 1 aggregate point per study. Overall maximum of 5 points.

**Selection Mode:** CY12: ATAR and middle-band.

NY12: Educational History including GPA, VTAC Personal Statement (All).

SEAS is considered.

- Bachelor of Arts (English Language): 3 years full time study

**About the course:** This course provides students with a deeper understanding of the English language as they investigate how it has developed and changed in the hands of the multiple people and societies who use it. Students develop skills in analytical and critical thinking, along with advanced verbal and professional writing skills. They examine how language is acquired and connected to thought by assessing texts from a structural, historical, sociocultural and developmental perspective. The course offers three study pathways, each including a linguistics major and a choice of a major in either literary studies or English as an international language.

**Major studies:** Ancient cultures, Anthropology, Australia in the world, Behavioural studies, Bioethics, Chinese studies, Communications, Criminology, English, English as an international language, Film and screen studies, French studies, Geography climate and physical environments, German studies, History, Holocaust and genocide studies, Human rights, Indigenous cultures and histories, Indonesian studies, International relations, International studies, Islamic studies, Italian studies, Japanese studies, Jewish studies, Journalism practice, Journalism studies, Korean studies, Linguistics, Literary studies, Music, Philosophy, Politics, Psychology, Religion and theology, Society cities and sustainability, Sociology, Spanish and Latin American studies, Theatre, Ukrainian studies, Visual culture.

**Prerequisites:** Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL.

**Middle-band:** Satisfactory completion in one but no more than three of Classical Studies, Drama, Environmental Science, Geography, any History, Literature, any LOTE, Media, any Music, Philosophy, Australian Politics, Global Politics, Religion And Society, Sociology, Theatre Studies or Texts And Traditions equals 2 aggregate points per study. Overall maximum of 6 points.
Selection Mode: CY12: ATAR and middle-band.
NY12: Educational History including GPA, VTAC Personal Statement (All).
SEAS is considered.

- Bachelor of Information Technology and Systems: 3 years full time study

About the course: This course provides a foundation in IT, with a focus on the management and use of information. Core units cover basic concepts underlying all studies in IT. The enterprise information management major focuses on the nature of information and information needs, and the types of IT-based systems which organisations and individuals use to meet them. Topics include information and knowledge management, information system capabilities and information architectures. A final year industry experience project enables students to put their knowledge and skills into practice. Electives can be used to deepen knowledge of IT, or to give more breadth to studies by taking units in areas such as business, arts or science.

Local students can apply for a place in the Industry Based Learning program in which they complete a 22-week industry placement and receive a generous scholarship. Placements are part of the curriculum and are formally assessed and credited towards the degree. Selection for IBL is based on academic merit and an interview conducted by industry partners prior to entry to the program. Further IBL places will be made available at the completion of the first year of the course. The IBL program is available to CSP applicants only.

An Industry Based Learning (IBL) Information Evening will be held on 27 August 2013 at the Clayton campus.

Prerequisites: Units 1 and 2: satisfactory completion in two units (any study combination) of General Mathematics or Mathematical Methods or Units 3 and 4: any Mathematics; and a study score of at least 30 in English (EAL) or 25 in English other than EAL.

Middle-band: A study score of 35 in English (EAL) equals 2 aggregate points. A study score of 40 in English (EAL) equals 4 aggregate points. A study score of 30 in one but no more than one of English other than EAL equals 2 aggregate points per study. A study score of 35 in one but no more than one of English other than EAL equals 4 aggregate points per study. A study score of 25 in Maths: Specialist Mathematics equals 2 aggregate points. A study score of 30 in Maths: Specialist Mathematics equals 4 aggregate points. A study score of 30 in Maths: Mathematical Methods (CAS) equals 2 aggregate points. A study score of 35 in Maths: Mathematical Methods (CAS) equals 4 aggregate points. A study score of 40 in Maths: Further Mathematics equals 2 aggregate points. Overall maximum of 8 points.

Selection Mode: CY12: ATAR and middle-band, Supplementary form (Some), Interview (Some). See extra requirements for more information.

NY12: Educational History including GPA, STAT (Some). See extra requirements for more information.
SEAS is considered.
Extra requirements:

Supplementary form (CY12-Some) : Applicants who wish to apply for the Industry Based Learning Program should submit an application online at http://www.infotech.monash.edu.au/ibl by 2 December 2013.

Interview (CY12-Some) : Industry Based Learning Program applicants must attend an interview on 11 December 2013.

STAT (NY12-Some) : NY12 applicants described under Admissions Tests are required to sit STAT Multiple Choice.

- Bachelor of Environmental Engineering (Honours): 4 years full time study

About the course: Explores the implementation and management of engineering solutions and programs that accord with the principles of sustainable development. Students undertake core subjects in first and second years and then choose one major or two minor elective streams from water and land management, environmental process engineering or transport and the built environment. Project: final year. Vacation employment: twelve weeks during one or more long vacations between years of study, in approved engineering work.

Prerequisites: Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL; and a study score of at least 25 in Maths: Mathematical Methods (CAS); and a study score of at least 25 in one of Chemistry or Physics.

Middle-band: A study score of 25 in Maths: Specialist Mathematics equals 3 aggregate points. A study score of 25 in each of Chemistry and Physics equals 1 aggregate point per study. Overall maximum of 5 points.

Selection Mode: CY12: ATAR and middle-band.

NY12: Educational History including GPA, VTAC Personal Statement (All).

SEAS is considered.

- Bachelor of Environmental Engineering (Honours) and Bachelor of Commerce: 5 years full time study

About the course: This course provides students with the broad-based capability for the solution, implementation and management of engineering in an environmental context. On completion of this course, graduates will have...
developed a detailed knowledge of environmental engineering and in one of the commerce areas of study. This course enables engineering students to complement their program by selecting units from the very wide range of disciplines offered by the Faculty of Business and Economics. The course provides professional education in a range of commerce disciplines, with a strong emphasis on developing analytical skills, constructing conceptual frameworks and using these to analyse complex issues in the corporate sector, government and the professions. The Faculty of Business and Economics component includes introductory units in the primary disciplines, and a major specialisation in a commerce discipline. Vacation employment: twelve weeks during vacation between study periods, in approved engineering work.

**Prerequisites:** Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL; and a study score of at least 25 in Maths: Mathematical Methods (CAS); and a study score of at least 25 in one of Chemistry or Physics.

**Middle-band:** A study score of 25 in Maths: Specialist Mathematics equals 3 aggregate points. A study score of 25 in each of Chemistry and Physics equals 1 aggregate point per study. Overall maximum of 5 points.

- Bachelor of Environmental Science: 3 years full time study

**About the course:** The course provides a solid foundation in traditional areas of science (biological sciences, chemistry, geosciences, geography, mathematics) together with a range of units specifically targeting environmental issues including environmental policy and planning, environmental risk and impact assessment, sampling and monitoring methods for air, surface water, groundwater, soils and biological communities. Students complete six core subjects in environmental science and two major sequences chosen from: atmospheric science, biology/ecology, chemistry, geography and geosciences. Upon completion of this course, students will have skills and knowledge in a traditional area of science and an understanding of the multidisciplinary and interdisciplinary nature of science in the environment. See the Faculty of Science website at [http://www.monash.edu.au/science/future/](http://www.monash.edu.au/science/future/) for further details on course structure and areas of study.

**Major studies:** Atmospheric science, Biological sciences, Chemistry, Environmental science, Geography, Geosciences.

**Prerequisites:** Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL.

**Middle-band:** A study score of 25 in two but no more than three of Biology, Chemistry, Environmental Science, Geography, Maths: Mathematical Methods (CAS), Maths: Specialist Mathematics or Physics equals 2 aggregate points per study.

**Selection Mode:** CY12: ATAR and middle-band.
NY12: Educational History including GPA, VTAC Personal Statement (All). SEAS is considered.

- Master of European and International Studies: 1.5 year full time study

About the course: This course is an interdisciplinary program which explores the significance of the European Union (EU) in the world. It investigates its political, legal, economic, social, humanitarian, environmental and security implications for the international system. The course aims to provide professionals, or future professionals with a particular interest in the European region, with a broad and deep understanding of the institutional framework and policy-making processes of the EU, and its relations with non-EU countries, regions and organisations.

Major studies: European and international studies.

Prerequisites: Bachelor Degree with a credit average or a Graduate Diploma with a credit average.

Middle-band: None

Selection Mode: NY12: Educational History including GPA.

Extra requirements:
None

Finance and Investment (HE)

Monash University

Gippsland: 2800410171 (CSP) full-time/part-time  
Apply: Through VTAC main round

- Bachelor of Business and Commerce (Finance and Investment): 3 years full time study

About the course: This degree is designed to provide breadth of knowledge in core business areas such as accounting, economics, management, marketing and business law, as well as depth of knowledge in specific areas related to finance and investments. This will enable students to actively pursue careers in a range of finance-related fields, including investment management, financial services and financial planning. Students gain valuable practical experience through taking a compulsory work placement or business case study unit.

The degree is delivered adopting a blended learning approach when students choose to study on-campus at Gippsland, study online by distance education, or select a combination of the two learning approaches.

Major studies: Finance and Investment.

Prerequisites: To be confirmed

Middle-band: A study score of 25 in Accounting, Business Management, Economics or any Mathematics equals 3 aggregate points per study. Overall maximum of 6 points.

Selection Mode:
SEAS is considered.

Extra requirements:
None

Fine Art (Grad)

Monash University
Honours degree of Bachelor of Fine Art: 1 year full time study

About the course: This course offers a program of education in the discipline and practice of contemporary art and provides students with the opportunity to intensively study an area of specialisation of their own choice. Students have dedicated studios and exhibition space, and access to a range of workshops and interdisciplinary electives. Students who complete the honours degree of the Bachelor of Fine Art will, in addition to having met the objectives of the pass degree, have acquired: the capability to practise at a professional level in their studio medium; an understanding of research issues and concepts and their application in contemporary art; an advanced understanding of the discipline of contemporary art and the ability to position their studio practice critically within it. Graduates can work as an artist, in education, academia, curating or administration in museums and galleries, art and design consultancies, manufacturing industries, community arts organisations and conservation organisations.

Major studies: Drawing, Painting, Photography, Printmaking, Sculpture.

Prerequisites: Bachelor degree (3 year) or equivalent in an Art and Design field.

Middle-band: None

Selection Mode: NY12: Educational History including GPA, Folio (All), Interview (All). See extra requirements for more information.

Extra requirements:
Folio (NY12-All): See website for more information: http://www.artdes.monash.edu/study/apply/honours-local.html
Interview (NY12-All): See website for more information: http://www.artdes.monash.edu/study/apply/honours-local.html

Bachelor of Fine Art: 3 years full time study

About the course: This course focuses on the innovative, creative and critical analysis required to pursue a vocation as a practising artist and can lead to careers as an artist, a teacher or working in museums, galleries, community arts programs, art and design consultancies or conservation organisations.

In first year, students study a major studio, plus drawing, digital processes and art theory. In second and third years, students continue in their major study and art theory, undertake professional practice and choose from a broad range of electives.

Major studies: Art theory, Creative arts, Drawing, Fine art, Painting, Photography, Photomedia, Printmaking, Printmedia, Sculpture.

Prerequisites: Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL.

Middle-band: None
Selection Mode: CY12: ATAR, Supplementary form (All), Folio (All), Interview (All). See extra requirements for more information.

NY12: Educational History including GPA, Supplementary form (All), Folio (All), Interview (All). See extra requirements for more information.

SEAS is considered.

Extra requirements:

Supplementary form (CY12-All, NY12-All) : All applicants must complete the online Art Design and Architecture registration form by no later than 11 October. To register go to: www.monash.edu/mada/study/apply

Folio (CY12-All, NY12-All) : All applicants will be required to submit a digital copy of their folio.

Interview (CY12-All, NY12-All) : All applicants are required to attend an interview, where they will present their folios. Details about the interview process will be sent to applicants by 12 November. Interviews will be hosted from late November to early December. Advisory letters will be sent to applicants by 13 December. Each applicant's final ranking is based on their interview score; applicants must also achieve a minimum ATAR or GPA.

Games Development (HE)

Monash University

Caulfield: 2800227691 (CSP) full-time/part-time  Apply: Through VTAC main round

Caulfield: 2800227693 (IFP) full-time  Apply: Through VTAC main round

- Bachelor of Information Technology and Systems: 3 years full time study

About the course: This course provides a foundation in IT, with a focus on developing games. A set of core units covers basic concepts underlying all studies in IT. The games development major focuses on game creation, and game and interactive software development with complex concepts such as game artificial intelligence, level design and testing and current and emerging games technologies. A final year studio project enables students to put their knowledge and skills into practice as members of a team, building a large game. Electives can be used to deepen knowledge of IT, or to give more breadth to studies by taking units in areas such as business, arts or science.

Local students can apply for a place in the Industry Based Learning program in which they complete a 22-week industry placement and receive a generous scholarship. Placements are part of the curriculum and are formally assessed and credited towards the degree. Selection for IBL is based on academic merit and an interview conducted by industry partners prior to entry to the program. Further IBL places will be made available at the completion of the first year of the course. The IBL program is available to CSP applicants only.

An Industry Based Learning (IBL) Information Evening will be held on 27 August 2013 at the Clayton campus.

Major studies: Computer animation, Computer games, Computer graphics, Computer studies, Computing, Digital video, Games development, Games programming, Games technology, Information technology, Postproduction for film and video, Programming, Programming (C++)

Prerequisites: Units 1 and 2: satisfactory completion in two units (any study combination) of General Mathematics or Mathematical Methods or Units 3 and 4: any Mathematics; and a study score of at least 30 in English (EAL) or 25 in English other than EAL.

Middle-band: A study score of 35 in English (EAL) equals 2 aggregate points. A study score of 40 in English (EAL) equals 4 aggregate points. A study score of 30 in one but no more than one of English other than EAL equals 2 aggregate points per study. A study score of 35 in one but no more than one of English other than EAL equals 4 aggregate points per study. A study score of 20 in Maths: Mathematical Methods (CAS) or Maths: Specialist Mathematics equals 4 aggregate points per study. A study score of 20 in Maths: Further Mathematics equals 2 aggregate points. Overall maximum of 8 points.
Selection Mode: CY12: ATAR and middle-band, Supplementary form (Some), Interview (Some). See extra requirements for more information.

NY12: Educational History including GPA, STAT (Some). See extra requirements for more information.

SEAS is considered.

Extra requirements:

Supplementary form (CY12-Some): Applicants who wish to apply for the Industry Based Learning Program should submit an application online at http://www.infotech.monash.edu.au/ibl by 2 December 2013.

Interview (CY12-Some): Industry Based Learning Program applicants must attend an interview on 11 December 2013.

STAT (NY12-Some): NY12 applicants described under Admissions Test are required to sit STAT Multiple Choice.

Caulfield: 2800227063 (IFP) full-time  Apply: Through VTAC  main round

- Bachelor of Health Science: 3 years full time study

About the course: The course focuses on the knowledge and skills required for graduates to find employment in public health in many different kinds of health organisations, or continue on to postgraduate study in research, health policy, international/global health or clinical professions. The course has a global orientation, examining Australian and international health challenges. The course is a multidisciplinary, flexible degree which provides opportunities to choose pathways leading to roles as public health practitioners or to move into clinical or public health research. The course offers a foundation for those seeking entry to a graduate clinical degree, or wanting to specialise in research or international health. Students have opportunities to take electives from other courses and Faculties. For further information refer to: http://monash.edu/study/coursefinder/course/3882/

Major studies: Public Health.

Prerequisites: Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL.

Middle-band: A study score of 25 in Biology, Chemistry, Environmental Science, Geography, Health And Human Development, any History, any LOTE, Legal Studies, Media, any Mathematics, Physics, Philosophy, Australian Politics, Global Politics, Psychology or Sociology equals 2 aggregate points per study. Overall maximum of 6 points.

Selection Mode: CY12: ATAR and middle-band.

NY12: Educational History including GPA.

SEAS is considered.

Extra requirements:

None

---

Health Science/Business (HE)

Monash University
Bachelor of Health Science and Bachelor of Business: 4 years full time study

About the course: This course combines studies in business theory and skills with learning about health systems, programs and policies. By combining a business degree with health sciences, graduates will acquire a broad base of commercial knowledge, making them attractive to employers in these environments, and strengthening career options. For further information refer to www.med.monash.edu.au/healthsci. This course combines studies in business theory and skills with learning about health systems, programs and policies.

For further information refer to http://monash.edu/study/coursefinder/course/4503/

Major studies: Accounting, Banking and finance, Business (law), Econometrics, Economics, Human resource management, Management, Marketing, Public health.

Prerequisites: Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL; and a study score of at least 25 in any Mathematics.

Middle-band: A study score of 25 in Accounting, Biology, Business Management, Chemistry, Economics, Environmental Science, Geography, Geography, Health And Human Development, any History, International Studies, Literature, any LOTE, Legal Studies, Media, Physics, Philosophy, Australian Politics, Global Politics, Psychology or Sociology equals 2 aggregate points per study. A study score of 30 in any Mathematics equals 6 aggregate points per study. Overall maximum of 6 points.

Selection Mode: CY12: ATAR and middle-band.

NY12: Educational History including GPA.

SEAS is considered.

Extra requirements:

None
For further information refer to http://monash.edu/study/coursefinder/course/3870/

**Major studies:** Public health, Social Work.

**Prerequisites:** Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL.

**Middle-band:** A study score of 25 in two of Biology, Chemistry, Environmental Science, Geography, Health And Human Development, any History, Literature, any LOTE, Legal Studies, Media, Philosophy, Australian Politics, Global Politics, Psychology or Sociology equals 2 aggregate points per study. Overall maximum of 6 points.

**Selection Mode:** CY12: ATAR and middle-band.
NY12: Educational History including GPA. See extra requirements for more information.
SEAS is considered.

**Extra requirements:**
SUCCESSFUL APPLICANTS must complete a National Police Records Check and hold a Working With Children Check before undertaking fieldwork placements. Failure to hold satisfactory checks may result in students being unable to complete this course.

---

**Human Services Management (Grad)**

**Monash University**

*Gippsland: Domestic fee-paying places full-time/part-time*  
Apply: [Direct to institution](http://monash.edu/study/coursefinder/course/3870/)

- Master of Human Services Management: 1.5 year full time study

**About the course:** This course is designed to meet the needs of professionals in the social, community and human services sectors who have moved, or wish to move, from direct practice into a managerial role. The curriculum includes program planning and evaluation, management and leadership, strategic planning, development of best-practice models, human resource management, organisational culture and environment analysis. It offers a unique focus on exploring human services organisations in rural, regional and urban environments.

**Major studies:** Human services management.

**Prerequisites:** Bachelor Degree with a credit average or a Graduate Diploma with a credit average.

**Middle-band:** None

**Selection Mode:** NY12: Educational History including GPA.

**Extra requirements:**
None

Bachelor of Industrial Design: 4 years full time study

About the course: This course offers a program of education and training in the discipline and professional practice of industrial design. Industrial design is focused upon the creation of objects in response to their function, how they are made and their place in culture. It is intended for students who wish to seek professional employment in the field of industrial design and related areas of design or industry and commerce.

This professionally focused course is awarded with a level of honours related to the grades achieved during the course. The major industrial design studies are supported by a cluster of relevant modules that include drawing, ergonomics, materials and manufacturing, digital imaging and technology. A range of elective units allow students to extend their education into specialist industrial activities or other art and design disciplines.

Major studies: Automotive design, Computer-aided design (CAD), Design, Design (3D), Design drawing, Design theory, Engineering drawing, Ergonomics, Exhibition design, Furniture design, Industrial design, Materials technology, Product design and development, Transportation design.

Prerequisites: Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL; and a study score of at least 25 in any Mathematics.

Middle-band: None

Selection Mode: CY12: ATAR, Supplementary form (All), Folio (All), Interview (All). See extra requirements for more information.
NY12: Educational History including GPA, Supplementary form (All), Folio (All), Interview (All). See extra requirements for more information.
SEAS is considered.

Extra requirements:
Supplementary form (CY12-All, NY12-All) : All applicants must complete the online Art Design and Architecture registration form by no later than 11 October. To register go to: www.monash.edu/mada/study/apply
Folio (CY12-All, NY12-All) : All applicants will be required to submit a digital copy of their folio.
Interview (CY12-All, NY12-All) : All applicants are required to attend an interview, where they will present their folios. Details about the interview process will be sent to applicants by 12 November. Interviews will be hosted from late November to early December. Advisory letters will be sent to applicants by 13 December. Each applicant’s final ranking is based on their interview score; applicants must also achieve a minimum ATAR or GPA.

Informatics and Computation Advanced (Honours) (HE)

Monash University
Clayton: 2800317411 (CSP) full-time/part-time  Apply: Through VTAC main round
Clayton: 2800317413 (IFP) full-time  Apply: Through VTAC main round

Bachelor of Informatics and Computation Advanced (Honours): 4 years full time study

About the course: This course is intended for high-achieving students who expect to pursue postgraduate study or employment requiring research and advanced IT development skills.

The course provides a strong foundation in information technology leading to advanced studies in a chosen IT specialisation. These include computer science, computing technology, business information systems, and information management.

The course features a stream of hands on project-based work that gives students the opportunity to be involved in research from the start through to the completion of the degree. In the third year of the course students receive a scholarship while undertaking either a 22-week research placement in a research group or work unit of a participating company or organisation or an Industry Based Learning (IBL) placement, and in the fourth year, undertake a substantial individual research project. Placements are part of the curriculum and are formally assessed and credited towards the degree.

Selection for IBL is based on academic merit and an interview conducted by industry partners prior to entry to the program.
An Industry Based Learning (IBL) Information Evening will be held on 27 August 2013 at the Clayton campus.

**Major studies:** Algorithms and data structures, Applications development, Artificial intelligence, Business analytics, Business information systems, Business modelling, Computational science, Computer graphics, Computer programming, Computer science, Databases, Information and communication technology, Information management, Information technology, Internet technology, Mathematics, Networks and data communications, Programming, Software development, Software engineering, Systems analysis and development.

**Prerequisites:** Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL; and a study score of at least 25 in one of Maths: Mathematical Methods (CAS) or Maths: Specialist Mathematics or 35 in Maths: Further Mathematics.

**Middle-band:** A study score of 35 in English (EAL) equals 2 aggregate points. A study score of 40 in English (EAL) equals 4 aggregate points. A study score of 30 in one but no more than one of English other than EAL equals 2 aggregate points per study. A study score of 35 in one but no more than one of English other than EAL equals 4 aggregate points per study. A study score of 25 in Maths: Specialist Mathematics equals 2 aggregate points. A study score of 35 in Maths: Specialist Mathematics equals 4 aggregate points. A study score of 30 in Maths: Mathematical Methods (CAS) equals 2 aggregate points. A study score of 35 in Maths: Mathematical Methods (CAS) equals 4 aggregate points. A study score of 40 in Maths: Further Mathematics equals 2 aggregate points. Overall maximum of 8 points.

**Selection Mode:**
- CY12: ATAR and middle-band, Supplementary form (Some), Interview (Some). See extra requirements for more information.
- NY12: Educational History including GPA.
- SEAS is considered.

**Extra requirements:**
- Supplementary form (CY12-Some): Applicants who wish to apply for the Industry Based Learning Program should submit an application online at http://www.infotech.monash.edu.au/ibl by 2 December 2013.
- Interview (CY12-Some): Industry Based Learning Program applicants must attend an interview on 11 December 2013.

---

### Information and Communication Technologies (HE)

- Bachelor of Information Technology and Systems: 3 years full time study

**About the course:** This course provides a foundation in IT, with a focus on hardware and network technologies. A set of core units covers basic concepts underlying all studies in IT. The information and communication technologies major focuses on the hardware and network infrastructure on which computer systems are run. Units cover topics such as networks and data communications, web-based technologies, database, security, and IT infrastructure management. A final year industry experience project enables students to put their knowledge and skills into practice on a real-life problem. Electives can be used to deepen knowledge of IT, or to give more breadth to studies by taking units in areas such as business, arts or science.

Local students can apply for a place in the Industry Based Learning Program in which they complete a 22-week industry placement and receive a generous scholarship. Placements are part of the curriculum and are formally assessed and credited towards the degree. Selection for IBL is based on academic merit and an interview conducted by industry partners prior to entry to the program. Further IBL places will be made available at the completion of the first year of the course. The IBL program is available to CSP applicants only.
An Industry Based Learning (IBL) Information Evening will be held on 27 August 2013 at the Clayton campus.

**Major studies:** Computer hardware, Computer programming, Computer studies, Computing, Information and communications technologies, Information technology, Networks and data communications, Programming, Security.

**Prerequisites:** Units 1 and 2: satisfactory completion in two units (any study combination) of General Mathematics or Mathematical Methods or Units 3 and 4: any Mathematics; and a study score of at least 30 in English (EAL) or 25 in English other than EAL.

**Middle-band:** A study score of 35 in English (EAL) equals 2 aggregate points. A study score of 40 in English (EAL) equals 4 aggregate points. A study score of 30 in one but no more than one of English other than EAL equals 2 aggregate points per study. A study score of 35 in one but no more than one of English other than EAL equals 4 aggregate points per study. A study score of 20 in Maths; Mathematical Methods (CAS) or Maths: Specialist Mathematics equals 4 aggregate points per study. A study score of 20 in Maths: Further Mathematics equals 2 aggregate points. Overall maximum of 8 points.

**Selection Mode:** CY12: ATAR and middle-band, Supplementary form (Some), Interview (Some). See extra requirements for more information.

NY12: Educational History including GPA, STAT (Some). See extra requirements for more information.

SEAS is considered.

**Extra requirements:**

Supplementary form (CY12-Some) : Applicants who wish to apply for the Industry Based Learning Program should submit an application online at http://www.infotech.monash.edu.au/ibl by 2 December 2013.

Interview (CY12-Some) : Industry Based Learning Program applicants must attend an interview on 11 December 2013.

STAT (NY12-Some) : Applicants described under Admissions Test are required to sit STAT Multiple Choice.

- Bachelor of Information Technology and Systems: 3 years full time study

**About the course:** This course enables students to gain the knowledge and skills needed to use IT effectively and to use, develop and manage IT-based systems. It covers a wide range of aspects of IT, from technical computing to information and business-related themes. The structure offers maximum flexibility to allow study across these aspects of IT. A set of core units covers basic concepts in IT. Students select further IT units to build a program specific to suit their own interests and skills. A final year industry experience or studio project puts knowledge and skills into practice on a real-life problem. Electives can be used to deepen knowledge of IT, or to give more breadth to studies by taking units in areas such as business, arts or science.

Local students can apply for a place in the Industry Based Learning program in which they complete a 22-week industry placement and receive a scholarship. Placements are part of the curriculum and are formally assessed and credited towards the degree. Selection for IBL is based on academic merit and an interview conducted by industry partners prior to entry to the program. Further IBL places will be made available at the completion of the first year of the course. The IBL program is available to CSP applicants only.

An Industry Based Learning (IBL) Information Evening will be held on 27 August 2013 at the Clayton campus.
Major studies: Animation (3D), Application development, Artificial intelligence, Business information systems, Business systems, Computer animation, Computer applications, Computer games, Computer graphics, Computer hardware, Computer programming, Computer studies, Computing, Digital media, Digital video, Enterprise information management, Games development, Games programming, Games technology, Information and communications technologies, Information management, Information systems, Information technology, Multimedia, Multimedia authoring, Multimedia design, Multimedia development, Postproduction for film and video, Programming, Programming (C++), Security, Software development, Systems analysis and design, Systems design and development.

Prerequisites: Units 1 and 2: satisfactory completion in two units (any study combination) of General Mathematics or Mathematical Methods or Units 3 and 4: any Mathematics; and a study score of at least 30 in English (EAL) or 25 in English other than EAL.

Middle-band: A study score of 35 in English (EAL) equals 2 aggregate points. A study score of 40 in English (EAL) equals 4 aggregate points. A study score of 30 in one but no more than one of English other than EAL equals 2 aggregate points per study. A study score of 35 in one but no more than one of English other than EAL equals 4 aggregate points per study. - Bachelor of Interior Architecture: 4 years full time study

**About the course:** This course offers a program of education in the discipline and professional practice of interior architecture. It is intended for students who wish to seek professional or executive employment in the field of interior design or related areas of design activity.

This four year degree is concerned with the range of commercial and domestic interiors ranging from the hospitality, entertainment, retail, health and transport industries to offices and domestic environments. The interior architecture studios are supported by specialist studies in structures and services, building construction and materials, communication methods and media, furniture design, computer-aided design and professional practice. The course also includes studies in history and theory of art, design and architecture. In fourth year, students undertake a major studio project which will demonstrate their academic and professional attainment in the discipline and professional practice of interior architecture.
**Major studies:** Architecture, Computer-aided design (CAD), Design, Design (3D), Design drawing, Design theory, Digital imaging and computer studies, Exhibition design, Furniture design, Interior architecture, Interior design, Retail design, Technology and communications.

**Prerequisites:** Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL.

**Middle-band:** None

**Selection Mode:** CY12: ATAR, Supplementary form (All), Folio (All), Interview (All). See extra requirements for more information.

- Bachelor of Arts (International): 3 years full time study

**About the course:** This course allows students with an international interest to specialise in the study of languages, international relations and intercultural communication. Students must study overseas for at least one semester of the course, but may do so for up to three semesters, at either the Monash University Sunway campus, Monash South Africa or an approved partner university anywhere in the world. Students graduate with a high level of proficiency in the language they specialised in and are adept at managing intercultural communication among groups. Languages on offer include Chinese, French, German, Indonesian, Italian, Japanese, Korean, Spanish and Ukrainian.

**Major studies:** Chinese studies, French studies, German studies, Indonesian studies, International studies, Italian studies, Japanese studies, Korean studies, Spanish and Latin American studies, Ukrainian studies.
**Prerequisites:** Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL.

**Middle-band:** Satisfactory completion in one but no more than three of Classical Studies, Drama, Environmental Science, Geography, any History, Literature, any LOTE, Media, any Music, Philosophy, Australian Politics, Global Politics, Religion And Society, Sociology, Theatre Studies or Texts And Traditions equals 2 aggregate points per study. Overall maximum of 6 points.

**Selection Mode:** CY12: ATAR and middle-band.
NY12: Educational History including GPA, VTAC Personal Statement (All).
SEAS is considered.

**Extra requirements:**
VTAC Personal Statement (NY12-All)

- Master of International Crisis Management: 1.5 year full time study

**About the course:** This course aims to develop the required knowledge, skills and competencies for professionals responding to complex emergencies and post-crisis management. It has been designed to meet the need for academic training in the currently neglected field of complex crisis management, including issues of human security, conflict and natural disasters. The course introduces students to the principles of multidisciplinary crisis management through evidence-based case studies, and stresses the importance of a people-centred approach and a sound understanding of human rights, vulnerable groups and sustainability. A special feature of this course is its interdisciplinary nature, allowing students to tailor the course to suit their professional and educational aspirations, be they in areas such as medicine, business, engineering, law or the humanities.

**Major studies:** International crisis management.

**Prerequisites:** Bachelor Degree with a credit average or a Graduate Diploma with a credit average.

**Middle-band:** None

**Selection Mode:** NY12: Educational History including GPA.

**Extra requirements:** None

- Master of International Development Practice: 2 years full time study

**About the course:** Equitable and environmentally sustainable development remains a pressing concern. Complex political, economic, cultural and ecological challenges contribute to extreme poverty, reduced health, environmental vulnerability and fragile governance, affecting the well-being of millions of people worldwide. These multidimensional challenges require professionals with the practical skills and analytical capacity to help build resilience to economic, political and environmental vulnerabilities both nationally and at the community level.

This course offers a multidisciplinary approach to the theory and practice of sustainable development. Students can specialise in one of four streams: democracy, justice and governance; gender, conflict and society; crisis, change and management; and sustainable resource management.

Graduates may go on to work in human rights advocacy, aid agencies in government and non-government sectors, the Fair Trade business sector, community organisations, and international institutions such as the United Nations and the World Bank.

**Major studies:** International development practice.

**Prerequisites:** Bachelor Degree with a credit average.

**Middle-band:** None

**Selection Mode:** NY12: Educational History including GPA.

**Extra requirements:** None

### International Relations (Grad)

**Monash University**

- *Clayton: Domestic fee-paying places full-time/part-time*  
  Apply: [Direct to institution](http://www.wss8.vtac.edu.au/courses-inst/institutions/topdf/monash.html)

- *Clayton: International fee-paying places full-time*  
  Apply: [Direct to institution](http://www.wss8.vtac.edu.au/courses-inst/institutions/topdf/monash.html)

- Master of International Relations: 1.5 year full time study

**About the course:** This course explores the nature of international politics and some of the key issues in this field. It is designed to enable graduates in politics and related disciplines to explore the many issues raised by the rapidly changing nature of the contemporary international system. It pays particular attention to relationships among major powers and to developments in Australia’s regions. Units covering areas including international security and regional politics provide a thorough grounding in the principal theoretical approaches in international relations and the ways in which these approaches may be used to analyse issues.

**Major studies:** International relations, Politics.

**Prerequisites:** Bachelor Degree with a credit average or a Graduate Diploma with a credit average.

**Middle-band:** None

**Selection Mode:** NY12: Educational History including GPA.

**Extra requirements:** None

---

### International Sustainable Tourism Management (Grad)

**Monash University**
Caulfield: Domestic fee-paying places full-time/part-time  Apply: Direct to institution
Caulfield: International fee-paying places full-time Apply: Direct to institution

- Master of International Sustainable Tourism Management: 2 years full time study

About the course: Sustainability represents an increasingly influential facet of tourism planning, development, governance and management, encompassing a diversity of sectors as the industry continues to globally expand. This course draws on best practices within the broad realm of the tourism industry, policy governance and research, to develop a critical understanding of the relationships between tourism and sustainable development with a particular emphasis on emerging economies and the development of small and medium sized enterprises within them. It addresses tourism's potential to be compatible with the achievement of a range of objectives, including developing sustainable organisations, urban and rural development/regeneration, natural resource management and wildlife conservation. Students will obtain skills and techniques to develop tourism policies and practices in a global setting and to manage tourism development and enterprises in the direction of more sustainable practice. The course also includes a field-school to study the patterns of development within an emerging economy in the Asia-Pacific region.

Major studies: International sustainable tourism management.

Prerequisites: Bachelor Degree with a credit average.

Middle-band: None

Selection Mode: NY12: Educational History including GPA.

Extra requirements: None

Interpreting and Translation Studies (Grad)

Monash University

Clayton: Commonwealth-supported places full-time/part-time  Apply: Direct to institution
Clayton: Domestic fee-paying places full-time/part-time  Apply: Direct to institution
Clayton: International fee-paying places full-time  Apply: Direct to institution

- Master of Interpreting and Translation Studies: 1.5 year full time study

About the course: This course is aimed at students with advanced bilingual proficiency and seeks to develop their skills in translation and interpreting, and their awareness of practical and theoretical approaches to translation/interpreting practice. Students gain a solid foundation of theories of translation and interpreting and receive training in research in the field. The course has three streams: combined interpreting and translation; translation-only; conference interpreting and translation. The core units provide intensive language-specific practice in written and oral transfer skills to the National Accreditation Authority for Translators and Interpreters (NAATI) Professional level, or Conference level for students in the conference interpreting/translation stream. The main languages available are: Arabic, Chinese, French, German, Indonesian, Italian, Japanese, Korean, Russian and Spanish. Other languages may be available depending on student numbers.

Major studies: Interpreting, Translation.

Prerequisites: Bachelor Degree Please see the Course Finder entry: http://monash.edu/study/coursefinder/course /3921/ .

Middle-band: None

Selection Mode: NY12: Educational History including GPA.

Extra requirements: None
Journalism (Grad)

Monash University

Caulfield: Domestic fee-paying places full-time/part-time  Apply: [Direct to institution]
Caulfield: International fee-paying places full-time  Apply: [Direct to institution]

- Master of Journalism: 1.5 year full time study

About the course: This course is both an entry-level qualification for a professional journalism career and a mid-career course for working journalists seeking to extend their expertise. It emphasises high-level skills in research and reporting for all media - print, video, radio and online - combined with critical analysis of the role of the media in contemporary society. The program has strong links with industry and other leading universities in journalism education, both nationally and internationally.

Major studies: Communications, Journalism, Media, Writing.

Prerequisites: Bachelor Degree with a credit average or a Graduate Diploma with a credit average.

Middle-band: None

Selection Mode: NY12: Educational History including GPA.

Extra requirements: None

- Bachelor of Journalism and Bachelor of Business: 4 years full time study

**About the course:** The combination of journalism and business skills equips you with broader career options across the spectrum of both fields. The business degree has a flexible structure that allows you to combine core business subjects with a major area of study. The course also provides added flexibility by allowing you to wait until your second year before selecting a major, which means you’re not locked in. And as part of your journalism degree you will study a journalism major and a journalism studies specialisation, as well as additional units from the broad selection of subjects offered within the Faculty of Arts.

Students studying this course also have additional opportunities such as internships, overseas study, study tours and leadership programs. Graduates are likely to find employment in the communications sector, working as business journalists or communications advisors or within business in roles where high-level communication skills are beneficial.

**Major studies:** Accounting, Banking and finance, Business law, Econometrics, Economics, Human resource management, Journalism, Journalism studies, Management, Marketing.

**Prerequisites:** Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL; and a study score of at least 25 in any Mathematics.

**Middle-band:** A study score of 25 in Accounting, Business Management, Economics, Geography, Health And Human Development or Psychology equals 2 aggregate points per study. A study score of 30 in any Mathematics equals 6 aggregate points per study. Overall maximum of 8 points.

**Selection Mode:** CY12: ATAR and middle-band.
NY12: Educational History including GPA, Supplementary form (All). See extra requirements for more information. SEAS is considered.

**Extra requirements:**
Supplementary form (NY12-All): NY12 applicants must submit the Business and Economics Employment and Supplementary Information form by 20 December. The form is available from www.buseco.monash.edu.au/student/forms/index.html. Information on the statement receives equal weighting with academic results in deciding the ranking.

- Bachelor of Journalism and Bachelor of Commerce: 4 years full time study

About the course: By combining studies in commerce and journalism, you can prepare yourself for a career at the top of your profession. Your commerce degree will give you a solid education in business, while your journalism degree will give you strong communication and writing skills. The commerce degree has a flexible structure that allows you to wait until your second year before selecting a major, which means you're not locked in to a particular area of study. Within the journalism degree, you will study a major in journalism and a journalism studies specialisation, as well as additional units from the broad selection of subjects offered within the Faculty of Arts. Students studying this course also have additional opportunities such as internships, overseas study, study tours and leadership programs. Graduates are likely to find employment in the communications sector, working as technical journalists or communications advisors or within business sectors in roles where high-level communication skills are beneficial. Journalism units are offered at Caulfield Campus.

Prerequisites: Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL; and a study score of at least 25 in one of Maths: Mathematical Methods (CAS) or Maths: Specialist Mathematics.
Middle-band: None

**Selection Mode**: CY12: ATAR.
NY12: Educational History including GPA, VTAC Personal Statement (All). See extra requirements for more information.
SEAS is considered.

**Extra requirements**: 
VTAC Personal Statement (NY12-All): All applicants must complete a VTAC Personal Statement. Information on the statement receives equal weighting with academic results in deciding the ranking.

- Bachelor of Journalism and Bachelor of Science: 4 years full time study

**About the course:** This double degree recognises the value of scientific discoveries to society and the important role the media performs in highlighting and explaining the significance of these discoveries. Students complete studies in two specialised areas of science and two specialised areas of journalism. At level one students gain an insight into a range of science and arts areas by taking a range of subjects. The choice of science specialisation can be made at level two. Students must also study two science core subjects. See the Faculty of Science website at [http://www.monash.edu.au/science/future/](http://www.monash.edu.au/science/future/) for further details on course structure and areas of study.

**Major studies:** Ancient cultures, Anthropology, Applied mathematics, Astronomy and astrophysics, Atmospheric science, Australia in the world, Behavioural studies, Biochemistry and molecular biology, Bioethics, Chemistry, Chinese studies, Communications, Computational mathematics, Computer science, Criminology, Developmental biology, Ecology and conservation biology, English as an international language, Film and screen studies, Financial and Insurance mathematics, French studies, Genetics, Geographical science, Geography climate and physical environments, Geosciences, German studies, History, Holocaust and genocide studies, Human pathology, Human rights, Immunology, Indigenous cultures and histories, Indonesian studies, International relations, International studies, Islamic studies, Italian studies, Japanese studies, Jewish studies, Journalism, Journalism studies, Korean studies, Linguistics, Literary studies, Marine and freshwater biology, Materials science, Mathematics and statistics, Microbiology, Music, Pharmacology, Philosophy, Physics, Physiology, Plant sciences, Politics, Psychology, Pure mathematics, Religion and theology, Society cities and sustainability, Sociology, Spanish and Latin American studies, Statistics, Theatre, Ukrainian studies, Visual culture, Zoology.

**Prerequisites:** Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL; and a study score of at least 25 in one of Biology, Chemistry, Geography, Maths: Mathematical Methods (CAS), Maths: Specialist Mathematics, Physics or Psychology.

**Middle-band:** A study score of 25 in two but no more than three of Biology, Chemistry, Geography, Maths: Mathematical Methods (CAS), Maths: Specialist Mathematics, Physics or Psychology equals 2 aggregate points per study. A study score of 25 in one but no more than one of Classical Studies, any History, Literature, any LOTE, Media, Australian Politics or Global Politics equals 2 aggregate points per study. Overall maximum of 8 points.

- Bachelor of Laws: 4 years full time study

**About the course:** The Bachelor of Laws provides an accredited education in law for applicants without a tertiary qualification. The degree offers students an in-depth understanding of the concepts, procedures and reasoning upon which the Australian legal system is founded. Students gain an understanding of basic legal concepts, principles, rules and methods used in legal argument and develop oral and written skills in legal argument, legal research and critical analysis.

The course consists of 12 compulsory units which must be completed by all students enrolled in an LLB program plus a further six ‘quasi-compulsory’ units which must be completed by students who wish to qualify for admission to practice as a barrister or solicitor in Victoria. The remainder of the program consists of law elective units chosen by the student in areas of interest.

**Major studies:** Administrative law, Civil procedure, Constitutional law, Contract, Corporations law, Criminal law & procedure, Equity, Evidence, Human rights, Intellectual property, Lawyers ethics and society, Professional practice, Property, Taxation, Torts, Trusts.

**Prerequisites:** Units 3 and 4: a study score of at least 35 in English (EAL) or 30 in English other than EAL.

**Middle-band:** A study score of 45 in any English equals 2 aggregate points per study. A study score of 40 in any English equals 1 aggregate point per study. A study score of 40 in Classical Studies, Economics, Geography, any History, Legal Studies, Philosophy, Australian Politics, Global Politics or Psychology equals 1 aggregate point per study. Overall maximum of 5 points.

**Selection Mode:** CY12: ATAR and middle-band.

- Bachelor of Business (Management) and Bachelor of Business (Marketing): 4 years full time study

About the course: Management and marketing professionals are responsible for the identity of a business and the way it relates to its customers and its staff. This course equips you with high-level skills across both areas, and combines them with core business subjects, to give you greater career options in your chosen profession. You will study units including organisational behaviour, strategic management, international business, brand management, buyer behaviour and strategic marketing. You may also have additional opportunities such as internships, overseas study, study tours and leadership programs. This degree enables you to pursue careers within the management and marketing industries in roles such as brand management, marketing management and general management.

Major studies: Management, Marketing.

Prerequisites: Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL; and a study score of at least 25 in any Mathematics.

Middle-band: A study score of 25 in Accounting, Business Management, Economics, Geography, Health And Human Development or Psychology equals 2 aggregate points per study. A study score of 30 in any Mathematics equals 6 aggregate points per study. Overall maximum of 8 points.

Selection Mode: CY12: ATAR and middle-band.
NY12: Educational History including GPA, Supplementary form (All). See extra requirements for more information. SEAS is considered.

Extra requirements:
Supplementary form (NY12-All): NY12 applicants must submit the Business and Economics Employment and Supplementary Information form by 20 December. The form is available from www.buseco.monash.edu.au/student/forms/index.html. Information on the statement receives equal weighting with academic results in deciding the ranking.

- Bachelor of Business (Marketing): 3 years full time study
About the course: Marketing plays an important role in society, and there are very specific principles and practices that marketers use in their work. This degree has a flexible structure that allows you to combine core business subjects with a major in marketing. As part of your major you can study units such as principles of marketing, not-for-profit marketing, brand management, buyer behaviour, marketing communications, marketing research, services marketing and strategic marketing, which will give you a solid basis for a future career in marketing. Students studying this course also have additional opportunities such as internships, overseas study, study tours and leadership programs. Graduates are likely to pursue careers in marketing, advertising, public relations, market research, brand management, social media, media strategy, media buying and sales across a wide range of industries.

Major studies: Marketing.

Prerequisites: Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL; and a study score of at least 25 in any Mathematics.

Middle-band: A study score of 25 in Accounting, Business Management, Economics, Geography, Health And Human Development or Psychology equals 2 aggregate points per study. A study score of 30 in any Mathematics equals 6 aggregate points per study. Overall maximum of 8 points.

Selection Mode: CY12: ATAR and middle-band.

NY12: Educational History including GPA, Supplementary form (All). See extra requirements for more information. SEAS is considered.

Extra requirements:

Supplementary form (NY12-All) : NY12 applicants must submit the Business and Economics Employment and Supplementary Information form by 20 December to be considered for Round 1. The form is available from www.buseco.monash.edu.au/student/forms/index.html. The form receives equal weighting with the academic results in deciding the ranking. Information on the form receives equal weighting with academic results in deciding the ranking.

- Bachelor of Mechatronics Engineering (Honours): 4 years full time study

About the course: Students undertake studies in the core discipline areas of mechatronics: thermodynamics, fluid mechanics, electronics, mechanics, programming and digital electronics. First year includes introductory subjects in engineering and foundation sciences. At level two, units focus on the practice of engineering and the engineering sciences. During level three, the units on mechatronics engineering practice and mechanical engineering sciences are taken to a professional level. The final year allows for some specialisation in the areas of fluids/energy, design and mechatronics and students also undertake a substantial independent investigation. Vacation employment: Twelve weeks during one or more long vacations between years of study, in approved engineering work.

Major studies: Engineering, Engineering (computer systems), Engineering (electrical), Engineering (mechanical), Engineering (mechatronic), Mechatronics.

Prerequisites: Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL; and a study score of at least 25 in Maths: Mathematical Methods (CAS); and a study score of at least 25 in one of Chemistry or Physics.
**Middle-band:** A study score of 25 in Maths: Specialist Mathematics equals 3 aggregate points. A study score of 25 in each of Chemistry and Physics equals 1 aggregate point per study. Overall maximum of 5 points.

**Selection Mode:** CY12: ATAR and middle-band.
NY12: Educational History including GPA, VTAC Personal Statement (All).
SEAS is considered.

**Extra requirements:**
VTAC Personal Statement (NY12-All)

Clayton: 2800328763 (IFP) full-time  Apply: Through VTAC main round

- Bachelor of Mechatronics Engineering (Honours) and Bachelor of Arts: 5 years full time study

**About the course:** This course enables students to complement their mechatronics studies (in the core discipline areas of thermodynamics, fluid mechanics, electronics, mechanics, programming and digital electronics) by selecting units from the extensive range of disciplines in the humanities, social sciences and communications offered by the Faculty of Arts. Students undertake a mix of mechatronics engineering and arts subjects over the five years. Vacation employment: Twelve weeks during one or more long vacations between years of study, in approved engineering work.

**Major studies:** Ancient cultures, Anthropology, Australia in the world, Behavioural studies, Bioethics, Chinese studies, Communications, Criminology, Engineering, Engineering (chemical), Engineering (civil), Engineering (computer systems), Engineering (electrical), Engineering (materials), Engineering (mechanical), English as an international language, Film and screen studies, French studies, Geography climate and physical environments, German studies, History, Holocaust and genocide studies, Human rights, Indigenous cultures and histories, Indonesian studies, International relations, International studies, Islamic studies, Italian studies, Japanese studies, Jewish studies, Journalism practice, Journalism studies, Korean studies, Linguistics, Literary studies, Music, Philosophy, Politics, Psychology, Religion and theology, Society cities and sustainability, Sociology, Spanish and Latin American studies, Theatre, Ukrainian studies, Visual culture.

**Prerequisites:** Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL; and a study score of at least 25 in Maths: Mathematical Methods (CAS); and a study score of at least 25 in one of Chemistry or Physics.

**Middle-band:** A study score of 25 in Maths: Specialist Mathematics equals 2.5 aggregate points. A study score of 25 in each of Chemistry and Physics equals 1 aggregate point per study. A study score of 25 in any LOTE equals 1 aggregate point per study. Overall maximum of 4 points.

**Selection Mode:** CY12: ATAR and middle-band.
NY12: Educational History including GPA, VTAC Personal Statement (All).
SEAS is considered.

- Bachelor of Mechatronics Engineering (Honours) and Bachelor of Science: 5 years full time study

**About the course:** This course enables students to complement their mechatronics studies (in the core discipline areas of thermodynamics, fluid mechanics, electronics, mechanics, programming and digital electronics) with an appropriate selection of units from a range of disciplines offered by the Faculty of Science. First year studies: core engineering subjects and mathematics, and two of biology, chemistry, earth sciences, physics, computer science, astrophysics or additional mathematics. Students undertake a mix of mechatronics engineering and science subjects over the five years. Vacation employment: Twelve weeks during one or more long vacations between years of study, in approved engineering work.

**Major studies:** Astronomy and astrophysics, Astrophysics, Atmospheric science, Biochemistry and molecular biology, Chemistry, Computer science, Developmental biology, Ecology and conservation biology, Engineering, Engineering (computer systems), Engineering (electrical), Engineering (mechanical), Engineering (mechatronic), Genetics, Geographical science, Geosciences, Immunology, Marine and freshwater biology, Materials science, Mathematics, Mathematics and statistics, Mechatronics, Microbiology, Pharmacology, Physics, Physiology, Plant sciences, Psychology, Zoology.

**Prerequisites:** Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL; and a study score of at least 25 in Maths: Mathematical Methods (CAS); and a study score of at least 25 in one of Chemistry or Physics.

**Middle-band:** A study score of 25 in Maths: Specialist Mathematics equals 3 aggregate points. A study score of 25 in each of Chemistry and Physics equals 1 aggregate point per study. Overall maximum of 5 points.

**Selection Mode:** CY12: ATAR and middle-band.

- Bachelor of Science (Medical Bioscience): 3 years full time study
About the course: This course provides students with specialist training for a career in the health care industry, biomedical research or progression into medicine. Students will study a wide range of subjects that cover the breadth of skills required to work in this highly technical biomedical field. Career opportunities exist in management, research, education, and specialised laboratory work. Graduates can work in clinical, diagnostic, pharmaceutical, and forensic laboratories.

Major studies: Biomedical science, Medical bioscience.

Prerequisites: To be confirmed

Middle-band: A study score of 25 in two but no more than three of Biology, Chemistry, Geography, Maths: Mathematical Methods (CAS), Maths: Specialist Mathematics, Physics or Psychology equals 2 aggregate points per study. Overall maximum of 6 points.

Selection Mode: CY12: ATAR and middle-band.

NY12: Educational History including GPA, VTAC Personal Statement (All).

SEAS is considered.

VTAC Personal Statement (NY12-All)

Medical Radiations (Radiation Therapy) (Grad)

Monash University

Off-campus: Commonwealth-supported places full-time  Apply: Direct to institution

• Master of Medical Radiations: 2 years full time study

About the course: This is a graduate entry-to-practice course in Radiation Therapy. The professional Masters degree provides graduates interested in becoming a radiation therapist with the academic, clinical and professional knowledge and experience that will enable them to be eligible for registration and employment in both the public and private health sector at the completion of the course, without the need for an additional period of supervised professional practice. This is the only graduate entry course offered in Australia by distance learning, and it may be available for interstate students to study in their home state (subject to clinical placements). Monash has clinical placement agreements and is therefore able to secure clinical placements for radiation therapy in Western Australia, Tasmania, Queensland and Victoria. As an intensive course it will accelerate entry into the radiation therapy profession. The course includes 63 weeks of clinical practice/experience and is designed to be completed in two years.

For further information refer to http://www.monash.edu.au/study/coursefinder/course/3889/

Major studies: None.

Prerequisites: Bachelor Degree Full details at http://www.monash.edu.au/study/coursefinder/course/3889/domestic-requirements.html.

Middle-band: None

Selection Mode: NY12: Educational History including GPA, Supplementary form (All), Interview (Some). See extra requirements for more information.

Extra requirements:

Supplementary form (NY12-All) : All applicants must complete and submit the Supplementary Information form by 2 December. The form is available from http://www.med.monash.edu.au/radiography/postgrad/index.html

Interview (NY12-Some) : Victorian applicants successful in being shortlisted for an interview will be contacted in the third week of December 2013 via email to attend an interview between 14 & 15 January 2014. Interstate applicants will be contacted 2nd week of March 2014 (or earlier depending on when the application is submitted) to attend an interview in the last 2 weeks of March 2014.

SUCCESSFUL APPLICANTS must complete a National Police Records Check and hold a Working With Children Check before undertaking clinical placements. Immunisations policy: Students must comply with the Faculty of
Medicine, Nursing and Health Sciences Immunisation Policy (http://www.med.monash.edu.au/current/immunisation/). Failure to hold satisfactory checks or meet the immunisation policy may result in students being unable to complete this course.

Clayton: 2800328253 (IFP) full-time  Apply: Through VTAC  main round

- Bachelor of Medicine and Bachelor of Surgery: 5 years full time study

About the course: This course is only offered to CY12 applicants who have completed Year 12 studies (or VCE equivalent) no more than two years prior, and have not undertaken other studies at a tertiary level during that time. The course is structured around 4 themes. Theme I: Personal and Professional Development. Theme II: Society, Population, Health and Illness. Theme III: Scientific Basis of Clinical Practice. Theme IV: Clinical Skills. Within Theme III, the basic medical sciences are mostly represented in the first two years, in interdisciplinary blocks based on a body systems model. The clinical disciplines are more significant in years 3 and 4 in a mixture of discipline-based and integrated subjects. Fifth year comprises seven rotations where students obtain further clinical experience in a number of different disciplines or specialities and includes an elective rotation of the student's choice that may be completed in Australia or overseas. International students are not eligible to apply for 28003228251.

Applicants may apply to be considered for a place in the course via the Dean's Rural List (DRL). To be deemed eligible you must have spent at least 5 years cumulatively from the beginning of primary school, in an area or areas with a Remoteness Area (RA) classification of 2-5 (see www.health.gov.au/internet/otd/Publishing.nsf/Content/locator for eligible localities). Eligibility requirements will be made available to all VTAC applicants by email and via the MBBS website (www.med.monash.edu.au/medical/central/entry-schemes.html#drl). Aboriginal and Torres Strait Islander applicants are eligible to apply for the Dean's Indigenous List (DIL). More information will be made available to all applicants who apply for the course. For further information visit http://www.med.monash.edu.au/medical/central/prospective-students.html. Applicants under 17 years of age at the time of commencement require approval from the Dean to enrol, and may have additional enrolment requirements imposed.

Major studies: Medicine, Surgery.

Prerequisites: Units 3 and 4: a study score of at least 35 in English (EAL) or 30 in English other than EAL; and a study score of at least 30 in Chemistry.

Middle-band: None

Selection Mode: CY12: ATAR, Interview (Some), UMAT/ISAT (All). See extra requirements for more information. NY12: Educational History including GPA, Interview (Some), UMAT/ISAT (Some). See extra requirements for more information. SEAS is considered.

Extra requirements:

Interview (CY12-Some, NY12-Some) : Domestic applicants - Interviews will be held between Jan 3-10, 2014 (including the weekend) for eligible Victorian VCE & IB applicants, DRL and DIL applicants; and between Jan 20-24, 2014 for eligible interstate Yr12 & IB applicants, and any additional DRL & DIL applicants.International applicants (2800328253) will be conducted between November 21 -22. Interview times will be allocated at Faculty discretion and changes will not be permitted.

UMAT/ISAT (CY12-All, NY12-Some) : Applicants to course codes ending in ‘1’ must have completed the UMAT (see Admissions Tests). Applicants to course codes ending in ‘3’ must complete the ISAT (http://isat.acer.edu.au) and apply by 27 Sept 2013. International applicants expecting to change to Australian permanent residency prior to
January 2014 must complete the UMAT. Only applicants who have listed at least one of the MBBS course codes (2800328151, 2800328251, 2800328691) by 8 November 2013 will be considered.

SUCCESSFUL APPLICANTS Students must satisfy the immunisation requirements specified by the Faculty, complete a National Police Records Check each year before undertaking clinical placements and hold a valid Working with Children Check. It is highly recommended that students hold or attain by the end of first semester of the MBBS course, a current registered level 2 or senior first aid certificate.

Apply: [Direct to institution](#)

Gippsland: International fee-paying places full-time  
Apply: [Direct to institution](#)

- Bachelor of Medicine and Bachelor of Surgery: 4 years full time study

**About the course:** The four year graduate-entry MBBS curriculum is designed as an integrated structure incorporating four themes: Theme I: Personal and Professional Development. Theme II: Society, Population, Health and Illness. Theme III: Scientific Basis of Clinical Practice. Theme IV: Clinical Skills. Within Theme III, the basic medical sciences are mostly represented in the first year, in interdisciplinary blocks based on a body systems model. The clinical disciplines are more significant in years 2 and 3 in a mixture of discipline-based and integrated subjects. The final year comprises seven rotations where students obtain further clinical experience in a number of different disciplines or specialities and includes an elective rotation of the student's choice that may be completed in Australia or overseas.

Applications for this course are via the Graduate Entry Medical School Admissions System (GEMSAS)  

Domestic enquiries: Office of Future Students via email future@monash.edu or telephone 1800 181 838 or +61 3 9903 4788.

International enquiries via email: study@monash.edu or telephone +61 3 99034788.

**Major studies:** Medicine, Surgery.

**Prerequisites:** Bachelor Degree with a weighted GPA of at least 5.0 out of 7.0.

**Middle-band:** None

**Selection Mode:** NY12: Educational History including GPA, Interview (Some), GAMSAT (All). See extra requirements for more information.

**Extra requirements:**

Interview (NY12-Some) : Applicants must be available for the Multiple Mini Interview (MMI) process in September/October.

GAMSAT (NY12-All) : The GAMSAT is held once a year in March. All applicants must register for and sit the GAMSAT to be eligible to apply for this course. [http://gamsat.acer.edu.au/gamsat-australia](http://gamsat.acer.edu.au/gamsat-australia)

SUCCESSFUL APPLICANTS Students must satisfy the immunisation requirements specified by the Faculty. Students must complete a National Police Records Check each year before undertaking clinical placements. Students must hold a valid Working with Children Check before undertaking clinical placements. Failure to hold satisfactory checks may result in students being unable to complete this course.

---

**Mining Engineering (Honours) (HE)**

**Monash University**

Clayton: 2800329581 (CSP) full-time/part-time  
Apply: [Through VTAC](#) main round
Bachelor of Mining Engineering (Honours): 4 years full-time study

About the course: This course provides students with a broad-based education in mine design and operation, both surface and underground, ventilation systems, mineral processing, mine feasibility and environmental aspects. This requires a wide range of skills relating to technology, finance, people and the environment. The emphasis of the course is on sustainable development so that the environmental footprint of mining is minimised. On completion of this course, graduates will have developed a detailed knowledge of how to utilise mathematics, computer applications, physical sciences including geoscience, and economics to be able to manage mining operations from exploration to the final processing stage. Work experience: twelve weeks during vacation between study periods, in approved engineering work.

Major studies: Civil Engineering, Engineering Technology, Environmental Engineering, Geotechnical Engineering, Mining Engineering, Sustainability.

Prerequisites: Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL; and a study score of at least 25 in Maths: Mathematical Methods (CAS); and a study score of at least 25 in one of Chemistry or Physics.

Middle-band: A study score of 25 in Maths: Specialist Mathematics equals 3 aggregate points. A study score of 25 in each of Chemistry and Physics equals 1 aggregate point per study. Overall maximum of 5 points.

Selection Mode: CY12: ATAR and middle-band.
NY12: Educational History including GPA, VTAC Personal Statement (All).
SEAS is considered.

Extra requirements:
VTAC Personal Statement (NY12-All)

Multimedia Design (Grad)

Monash University

Caulfield: Commonwealth-supported places full-time/part-time Apply: Direct to institution
Caulfield: International fee-paying places full-time Apply: Direct to institution

- Master of Multimedia Design: 2 years full-time study

About the course: This course enables students to customise their own program by choosing from a range of design, information technology and digital media subjects. The degree places emphasis on studio practice in which students develop collaborative projects and self-determined individual assignments. Working with staff, students are able to achieve their multimedia goals and push the boundaries of their professional work. Students gain a sound working knowledge of multimedia elements including text, image, sound, animation and video. Graduates will emerge as skilled practitioners in the area and should also be able to critically assess and contribute to the future of multimedia design.

Major studies: Digital audio video, Digital media, Information technology, Multimedia, Multimedia design, Multimedia imaging, Website authoring.

Prerequisites: Bachelor Degree

Middle-band: None
Selection Mode: NY12: Educational History including GPA.

Extra requirements:
None

Multimedia Development (HE)

Monash University

Caulfield: 2800227733 (IFP) full-time  Apply: Through VTAC main round

- Bachelor of Information Technology and Systems: 3 years full-time study

About the course: This course provides a foundation in IT, with a focus on developing computer-based multimedia. Core units cover basic concepts underlying all studies in IT. The multimedia development major focuses on the knowledge and skills needed for the analysis, design and implementation of computer-based multimedia products, services and systems. Key topics covered include imaging, sound and video, animation, 3-D modelling and emerging multimedia technologies. A final year studio project enables students to put their knowledge and skills into practice on a real-life problem. Electives can be used to deepen knowledge of IT, or to give more breadth to studies by taking units in areas such as business, arts or science.

Local students can apply for a place in the Industry Based Learning program in which they complete a 22-week industry placement and receive a generous scholarship. Placements are part of the curriculum and are formally assessed and credited towards the degree. Selection for IBL is based on academic merit and an interview conducted by industry partners prior to entry to the program. Further IBL places will be made available at the completion of the first year of the course. The IBL program is available to CSP applicants only.

An Industry Based Learning (IBL) Information Evening will be held on 27 August 2013 at the Clayton campus.

Major studies: Computer animation, Computer graphics, Computer studies, Computing, Digital media, Digital video, Information technology, Multimedia, Multimedia authoring, Multimedia design, Multimedia development, Postproduction for film and video, Web design, Web development.

Prerequisites: Units 1 and 2: satisfactory completion in two units (any study combination) of General Mathematics or Mathematical Methods or Units 3 and 4: any Mathematics; and a study score of at least 30 in English (EAL) or 25 in English other than EAL.

Middle-band: A study score of 35 in English (EAL) equals 2 aggregate points. A study score of 40 in English (EAL) equals 4 aggregate points. A study score of 30 in one but no more than one of English other than EAL equals 2 aggregate points per study. A study score of 35 in one but no more than one of English other than EAL equals 4 aggregate points per study. A study score of 20 in Maths: Mathematical Methods (CAS) or Maths: Specialist Mathematics equals 4 aggregate points per study. A study score of 20 in Maths: Further Mathematics equals 2 aggregate points. Overall maximum of 8 points.

Selection Mode: CY12: ATAR and middle-band, Supplementary form (Some), Interview (Some). See extra requirements for more information.

NY12: Educational History including GPA, STAT (Some). See extra requirements for more information.

SEAS is considered.

Extra requirements:
Supplementary form (CY12-Some): Applicants who wish to apply for the Industry Based Learning Program should submit an application online at http://www.infotech.monash.edu.au/ibl by 2 December 2013.

Interview (CY12-Some): Industry Based Learning Program applicants must attend an interview on 11 December 2013.
STAT (NY12-Some): NY12 applicants described under the Admissions Test section are required to sit STAT Multiple Choice.

Clayton: 2800328103 (IFP) full-time

Apply: Through VTAC main round

- Bachelor of Music: 3 years full time study

**About the course:** Monash's Sir Zelman Cowen School of Music attracts some of the finest professionals in their fields, many of whom have international reputations. Students in this course receive one-on-one instrumental teaching to develop their solo and ensemble performance skills, and explore the academic side of music, music of different cultures, creative music technology and composition. There are international study tours to New York and Italy where students are privileged to perform with and learn from world-renowned musicians.

**Major studies:** Composition, Creative music technology, Ethnomusicology, Musicology, Performance (Classical), Performance (Jazz and Popular studies).

**Prerequisites:** Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL.

**Middle-band:** Satisfactory completion in one but no more than three of Classical Studies, Drama, Environmental Science, Geography, any History, Literature, any LOTE, Media, any Music, Philosophy, Australian Politics, Global Politics, Religion And Society, Sociology, Theatre Studies or Texts And Traditions equals 2 aggregate points per study. Overall maximum of 6 points.

**Selection Mode:** CY12: ATAR and middle-band, Supplementary form (All), Audition (All). See extra requirements for more information.

NY12: Educational History including GPA, Supplementary form (All), Audition (All), other. See extra requirements for more information.

SEAS is considered.

**Extra requirements:**

Supplementary form (CY12-All, NY12-All): Applicants must complete the online Music performance audition/composition submission form available at www.arts.monash.edu.au/auditions/music.php and pay the audition/composition fee of $70 (inc. GST) by 30 September 2013 (Note: early registration is strongly recommended). Applicants must provide their VTAC ID and email address as part of the registration process.

Audition (CY12-All, NY12-All): Performance auditions will be held 30 September - 4 October and 2 - 13 December 2013; a detailed schedule will be available from the Music Auditions webpage (www.arts.monash.edu.au/auditions/music.php) after Open Day (4 August 2013). Composition Submissions must be submitted by 11 October and will be considered between 11 - 21 November. The main venue for the auditions is Monash Clayton Campus; a small number of auditions will also be held in Canberra and Sydney.

Applicants must achieve a satisfactory result in the performance audition/composition submission to be considered for selection, as well as meeting the ATAR or GPA requirement.

**Music/Commerce (HE)**

**Monash University**

Bachelor of Music and Bachelor of Commerce: 4 years full time study

About the course: This course allows students to pursue specialist studies in music while exploring a range of business disciplines. It is aimed at students with musical abilities who are interested in developing expertise in the business sector. Students receive one-on-one instrumental teaching to develop their performance skills, and explore the academic side of music, music of different cultures, composition, creative music technology, and a range of commerce disciplines. Graduates of this double degree can pursue careers in the music industry or in business, or can choose to combine their skills and work in the business side of the entertainment industry.

Major studies: Accounting, Actuarial studies, Business modelling, Composition, Creative music technology, Econometrics and business statistics, Economics, Ethnomusicology, Finance, Human resource management, International commerce, Management studies, Marketing, Musicology, Performance (Classical), Performance (Jazz and Popular Studies), Sustainability.

Prerequisites: Minimum ATAR of 80.00. Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL; and a study score of at least 25 in one of Maths: Mathematical Methods (CAS) or Maths: Specialist Mathematics.

Middle-band: None

Selection Mode: CY12: ATAR, Supplementary form (All), Audition (All). See extra requirements for more information.

NY12: Educational History including GPA, Supplementary form (All), Audition (All), other. See extra requirements for more information.

SEAS is considered.

Extra requirements:

Supplementary form (CY12-All, NY12-All): Applicants must complete the online Music performance audition/composition form available at www.arts.monash.edu.au/auditions/music.php and pay the audition/composition fee of $70 (inc. GST) by 30 September 2013 (Note: early registration is strongly recommended). Applicants must provide their VTAC ID and email address as part of the registration process.

Audition (CY12-All, NY12-All): Performance auditions will be held 30 September - 4 October and 2 - 13 December 2013; a detailed schedule will be available from the Music Auditions webpage (www.arts.monash.edu.au/auditions/music.php) after Open Day (4 August 2013). Composition Submissions must be submitted by 11 October and will be considered between 11 - 21 November. The main venue for the auditions is Monash Clayton Campus; a small number of auditions will also be held in Canberra and Sydney.

Applicants must achieve a satisfactory result in the performance audition/composition submission to be considered for selection, as well as meeting the ATAR or GPA requirement.
About the course: This double degree is suited to those interested in a secondary teaching career and in broadening their knowledge in music disciplines. The course will enhance your career options and deepen your understanding in the music related areas you intend to teach in schools.

The program provides a deep understanding of teaching and learning as well as curriculum and assessment, professional engagement and adolescent development and learning. Education units include: adolescent development and learning, professional engagement and leadership, and local and global perspectives in education. Curriculum units include: becoming a specialist teacher, curriculum development and innovative practice.

Studies in music and education are taken concurrently. In the music component of the course, students complete a three year chief music study major in one of composition, ethnomusicology/musicology or performance along with other approved combinations of music units. This course qualifies students for the double music teaching specialist area. For more information visit: www.education.monash.edu.au/units/secondary-specialisms.html.

Students complete a minimum 80 days of supervised teaching placement in primary and secondary school settings. Professional placements give students vital teaching experience and connect the theoretical components of their studies with the practical aspects of teaching.

This course is accredited by the Victorian Institute of Teaching (VIT). Graduates can seek registration with the VIT to start their teaching career. In addition, graduates can pursue careers in music related fields such as composition or music performance.

This course is equivalent to 4.5 years of full time study but is completed in 4 calendar years. For details on optional course information session dates, times and venues visit www.edu.monash.edu/vtac.

Major studies: Composition, Education, Education studies, Ethnomusicology, Music, Musicology, Performance, Teaching (secondary).

Prerequisites: Units 1 and 2: satisfactory completion in two units (any study combination) of General Mathematics or Mathematical Methods or Units 3 and 4: any Mathematics; and a study score of at least 30 in English (EAL) or 25 in English other than EAL.

Middle-band: A study score of 25 in one but no more than three of Classical Studies, Drama, Geography, any History, Literature, any LOTE, Media, any Music, Australian Politics, Global Politics, Religion And Society, Sociology or Texts And Traditions equals 2 aggregate points per study. A study score of 35 in English other than EAL equals 1.5 aggregate points per study. A study score of 40 in English (EAL) equals 1.5 aggregate points. Overall maximum of 7.5 points.

Selection Mode: CY12: ATAR and middle-band, Supplementary form (All), Audition (All). See extra requirements for more information.

NY12: Educational History including GPA, Supplementary form (All), Audition (All). See extra requirements for more information.

SEAS is considered.

Extra requirements:
Supplementary form (CY12-All, NY12-All) : Applicants must complete the online Music performance audition/composition submission form available at www.arts.monash.edu.au/auditions/music.php and pay the audition/composition fee of $70 (inc. GST) by 30 September 2013 (Note: early registration is strongly recommended). Applicants must provide their VTAC ID and email address as part of the registration process.

Audition (CY12-All, NY12-All) : Performance auditions will be held 30 September - 4 October and 2 - 13 December 2013; a detailed schedule will be available from the Music Auditions webpage (www.arts.monash.edu.au/auditions/music.php) after Open Day (4 August 2013). Composition submission must be submitted by 11 October and will be considered between 11 and 21 November. The main venue for the auditions is Monash Clayton Campus; a small number of auditions will also be held in Canberra and Sydney.

Applicants must achieve a satisfactory result in the performance audition/composition submission to be considered for selection, which is entirely on the basis of their ATAR or GPA.
SUCCESSFUL APPLICANTS:
Working With Children Check: Students will be required to complete a Working With Children Check (WWCC).

- Bachelor of Music and Bachelor of Laws: 5 years full time study

**About the course:** The Laws component of this double degree provides an accredited education in law for applicants without a tertiary qualification. The degree offers students an in-depth understanding of the concepts, procedures and reasoning upon which the Australian legal system is founded. Students gain an understanding of basic legal concepts, principles, rules and methods used in legal argument and develop oral and written skills in legal argument, legal research and critical analysis.

The Bachelor of Laws course consists of 12 compulsory units which must be completed by all students enrolled in an LLB program plus a further six 'quasi-compulsory' units which must be completed by students who wish to qualify for admission to practice as a barrister or solicitor in Victoria. The remainder of the program consists of law elective units chosen by the student in areas of interest.

The Bachelor of Music course provides a comprehensive and balanced education in music practice and theory and prepares students for careers in many areas of the music industry. Students complete a three year chief music study major in composition, ethnomusicology/musicology or performance along with other approved combinations of music units.

**Major studies:** Administrative law, Civil procedure, Composition, Constitutional law, Contract, Corporations law, Creative music technology, Criminal law & procedure, Equity, Ethnomusicology, Evidence, Human rights, Intellectual property, Lawyers ethics and society, Musicology, Performance (classical), Performance (jazz and popular), Professional practice, Property, Taxation, Trusts, Torts.

**Prerequisites:** Units 3 and 4: a study score of at least 35 in English (EAL) or 30 in English other than EAL.

**Middle-band:** A study score of 45 in any English equals 2 aggregate points per study. A study score of 40 in any English equals 1 aggregate point per study. A study score of 40 in any Classical Studies, Economics, Geography, any History, Legal Studies, Philosophy, Australian Politics, Global Politics or Psychology equals 1 aggregate point per study. Overall maximum of 5 points.

**Selection Mode:** CY12: ATAR and middle-band, Supplementary form (All), Audition (All). See extra requirements for more information.

NY12: Educational History including GPA, VTAC Personal Statement (All), Supplementary form (All), Audition (All), other. See extra requirements for more information.

SEAS is considered.

**Extra requirements:**

VTAC Personal Statement (NY12-All)

Supplementary form (CY12-All, NY12-All): Applicants must complete the online Music performance audition/composition submission form available at www.arts.monash.edu.au/auditions/music.php and pay the audition/composition fee of $70 (inc. GST) by 30 September 2013 (Note: early registration is strongly encouraged).
recommended). Applicants must provide their VTAC ID and email address as part of the registration process.

Audition (CY12-All, NY12-All) : Performance auditions will be held 30 September - 4 October and 2 - 13 December 2013; a detailed schedule will be available from the Music Auditions webpage (www.arts.monash.edu.au/auditions/music.php) after Open Day (4 August 2013). Composition submission must be submitted by 11 October and will be considered between 11 - 21 November. The main venue for the auditions is Monash Clayton Campus; a small number of auditions will also be held in Canberra and Sydney.

Applicants must achieve a satisfactory result in the performance audition/composition submission as well as meeting the ATAR or GPA requirements.

- Bachelor of Music and Bachelor of Performing Arts: 4 years full time study

**About the course:** This course provides students with the opportunity to develop their performance skills and academic knowledge of music, while expanding their analytical and critical knowledge of other performing arts disciplines. It is particularly appropriate for students who wish to pursue creative enterprises that cross genres and disciplines, such as musical theatre and multimedia performance. In the music component of the course, students receive one-on-one instrumental teaching to develop their performance skills, and explore the academic side of music, music of different cultures, composition and creative music technology. The performing arts component provides a balance of practical, theoretical, critical and contextual studies, preparing students for a broad range of performing arts careers. Graduates of this double degree are well qualified for a range of interesting careers in performing, directing, writing, producing, composing and conducting, teaching and music technology.

**Major studies:** Composition, Creative music technology, Ethnomusicology, Musicology, Performance (Classical), Performance (Jazz and Popular Studies), Theatre.

**Prerequisites:** Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL.

**Middle-band:** Satisfactory completion in one but no more than three of Classical Studies, Dance, Drama, Geography, any History, Literature, any LOTE, Media, any Music, Philosophy, Australian Politics, Global Politics, Religion And Society, Sociology, Theatre Studies or Texts And Traditions equals 2 aggregate points per study. Overall maximum of 6 points.

**Selection Mode:** CY12: ATAR and middle-band, Supplementary form (All), Audition (All). See extra requirements for more information.

NY12: Educational History including GPA, Supplementary form (All), Audition (All), other. See extra requirements for more information.

SEAS is considered.

**Extra requirements:**

Supplementary form (CY12-All, NY12-All) : Applicants must complete the online Music performance audition/composition submission form available at www.arts.monash.edu.au/auditions/music.php and pay the audition/composition fee of $70 (inc. GST) by 30 September 2013 (Note: early registration is strongly recommended). For Performing Arts all applicants must complete the online BPA audition form available at www.arts.monash.edu.au/auditions/performing-arts.php and pay the audition fee by 19 October 2013.

Audition (CY12-All, NY12-All) : Music Performance auditions will be held 30 September - 4 October and 2 - 13 December 2013; a detailed schedule will be available from the Music Auditions webpage (www.arts.monash.edu.au/auditions/music.php) after Open Day (4 August 2013). Composition Submissions must be submitted by 11 October and will be considered between 11 - 21 November. Performing Arts auditions will be
held in the week beginning 25 November 2013. An audition fee of $40.00 (inc. GST) applies.
The main venue for Music auditions is Monash Clayton Campus; a small number of auditions will be held in Canberra and Sydney. Applicants must provide their VTAC ID and email address as part of the registration process. For further information, contact Arts Student Services on (03) 9902 6011. Applicants must achieve a satisfactory result in both auditions processes to be considered for selection, as well as meeting the ATAR or GPA requirement.

About the course: The course produces highly capable individuals, dual badged as a nurse and midwife who are able to work in partnership with the interdisciplinary teams in both general nursing and midwifery practice settings. The course consists of eight semesters of equivalent full-time study. Clinical nursing and midwifery experience will be undertaken in years 1-4. This clinical experience comprises a major component of the course and requires placement in a variety of health care settings. Travel to clinical placements will be required.

For further information refer to http://www.monash.edu.au/study/coursefinder/course/3953/

Major studies: Behavioural science, Biosciences, Clinical studies, Midwifery, Nursing.

Prerequisites: To be confirmed

Middle-band: A study score of 25 in two of Biology, Chemistry, Health And Human Development, Physics or Psychology equals 1 aggregate point per study. A study score of 25 in any Mathematics equals 1 aggregate point per study. Overall maximum of 2 points.

Selection Mode: CY12: ATAR and middle-band.

NY12: Educational History including GPA. See extra requirements for more information.

SEAS is considered.

Extra requirements:
SUCCESSFUL APPLICANTS must complete a National Police Records Check and must hold a valid Working With Children Check before undertaking clinical placements. Students must comply with the Monash University School of Nursing and Midwifery Immunisation Policy (see www.med.monash.edu.au/nursing/current.html). Failure to hold satisfactory checks may result in students being unable to complete this course.

Nursing/Emergency Health (HE)

Monash University
Peninsula: 2800729081 (CSP) full-time Apply: Through VTAC main round

| Jan | 91.05 | 22.22 | 45 | 67 |
About the course: An interprofessional, multidisciplinary double degree that prepares the graduate for a career that spans both nursing and emergency health. Graduates will be qualified for careers as either a registered nurse or a paramedic. Graduates will undertake a key role in community-based triage, pre-hospital and in-hospital emergency care and retrieval and will have an essential role in multi-victim disaster response. Students undertake eight semesters. Clinical nursing and paramedic experience comprise compulsory major components of the course and require placement in a variety of health care settings, ambulance services and other health agencies. Travel to metropolitan and rural off-campus locations for clinical placement will be required.

For further information refer to http://www.monash.edu.au/study/coursefinder/course/3892/

Major studies: Behavioural science, Biosciences, Clinical studies, Nursing, Paramedical sciences.

Prerequisites: Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL; and a study score of at least 25 in any Mathematics.

Middle-band: A study score of 25 in two of Biology, Chemistry, Health And Human Development, any Mathematics or Physics equals 2 aggregate points per study. Overall maximum of 4 points.

Selection Mode: CY12: ATAR and middle-band.
NY12: Educational History including GPA. See extra requirements for more information.
SEAS is considered.

Extra requirements:
SUCCESSFUL APPLICANTS must complete a National Police Records Check and must hold a valid Working With Children check before undertaking clinical placements. Students must comply with the Monash University School of Nursing and Midwifery Immunisation Policy (see www.med.monash.edu.au/nursing/current.html). Failure to hold satisfactory checks may result in students being unable to complete this course.

---

About the course: This course prepares students to graduate both as a nurse and as a midwife, enabling them to work in a variety of settings to provide a valued service in communities in the provision of health care, the promotion of health and well-being and maternity care. Graduates of the course will be eligible to register as a nurse and as a midwife with the Nursing and Midwifery Board of Australia. The course consists of eight semesters, each with four units (or equivalent). Clinical midwifery and nursing experience make up 50% of the course and require placement in a variety of practice settings. Travel to clinical placements will be required.

For further information refer to http://www.monash.edu.au/study/coursefinder/course/4514/

Major studies: Anatomy and physiology, Behavioural science, Biosciences, Midwifery, Nursing.
**Prerequisites:** Units 1 and 2: satisfactory completion in two units (any study combination) of General Mathematics or Mathematical Methods or Units 3 and 4: any Mathematics; and a study score of at least 30 in English (EAL) or 25 in English other than EAL.

**Middle-band:** A study score of 25 in two of Biology, Chemistry, Health And Human Development or Physics equals 2 aggregate points per study. A study score of 25 in any Mathematics equals 2 aggregate points per study. Overall maximum of 4 points.

**Selection Mode:** CY12: ATAR and middle-band.
NY12: Educational History including GPA. See extra requirements for more information.
SEAS is considered.

**Extra requirements:**
SUCCESSFUL APPLICANTS must complete a National Police Records Check and must hold a valid Working With Children Check before undertaking clinical placements. Students must comply with the Monash University School of Nursing and Midwifery Immunisation Policy (see www.med.monash.edu.au/nursing/current.html). Failure to hold satisfactory checks may result in students being unable to complete this course.

- Bachelor of Nutrition and Dietetics: 4 years full time study

**About the course:** The Bachelor of Nutrition and Dietetics prepares students to graduate as entry level Dietitians with competencies to support practice in a variety of workplace settings including a career in healthcare services, the government sector, the education sector and the food industry sector. The course has a strong nutrition and science foundation in the early years as students discover the scientific basis of nutrient requirements and healthy eating intertwined with practical elements such as assessing dietary intake, food chemistry and food composition, food skills and the food regulatory requirements that influence the food you eat every day. There is an emphasis on professional placement and development of professional competencies in the third and fourth years of the course. Students may be required to undertake placement in a rural setting.

For further information refer to www.med.monash.edu.au/nutrition-dietetics.

**Major studies:** Nutrition and dietetics.

**Prerequisites:** Units 3 and 4: a study score of at least 35 in English (EAL) or 30 in English other than EAL; and a study score of at least 30 in Chemistry.

**Middle-band:** A study score of 35 in Chemistry or English other than EAL equals 1 aggregate point per study. A study score of 40 in English (EAL) equals 1 aggregate point. Overall maximum of 2 points.

**Selection Mode:** CY12: ATAR and middle-band.
NY12: Educational History including GPA, Supplementary form (All), Interview (Some). See extra requirements for more information.
SEAS is considered.
Extra requirements:
Supplementary form (NY12-All) : NY12 applicants must complete and submit the Monash University Supplementary Form by no later than 27 September. Applications will not be accepted after this date. A copy of the form is available from www.adm.monash.edu.au/admissions/vtac
Interview (NY12-Some) : NY12 applicants (short-listed)Short-listed applicants will be contacted by the University via phone or email for an interview in early December.
SUCCESSFUL APPLICANTS must complete a National Police Records Check and Working with Children Check before undertaking professional practice. Failure to hold satisfactory checks may result in students being unable to complete this course. Students must comply with the Monash University Faculty of Medicine Nursing and Health Sciences Immunisation Policy (see www.med.monash.edu.au/nutrition-dietetics/student-info.html)

**Clayton:** 2800329353 (IFP) full-time  [Apply: Through VTAC](main round)

- Bachelor of Nutrition Science: 3 years full time study

**About the course:** The Bachelor of Nutrition Science provides students with the knowledge and expertise in the area of human nutrition to equip them for potential employment within the food industry, nutrition research, government and non-government agencies and public health. The course has a strong scientific and nutrition foundation in the first two years as students discover the scientific basis of nutrient requirements and healthy eating intertwined with practical elements such as assessing dietary intake, food chemistry and food composition, food skills and the food regulatory requirements that influence the food you eat every day. The final year focuses on developing research skills culminating in a nutrition-related research project encouraging the student to apply their principles of scientific inquiry. A choice of electives in year three will enable the student to tailor the degree to their relevant interests.

**Major studies:** Nutrition Science.

**Prerequisites:** Units 3 and 4: a study score of at least 35 in English (EAL) or 30 in English other than EAL; and a study score of at least 25 in Chemistry.

**Middle-band:** A study score of 30 in Chemistry equals 1 aggregate point. A study score of 35 in English other than EAL equals 1 aggregate point per study. A study score of 40 in English (EAL) equals 1 aggregate point. Overall maximum of 2 points.

**Selection Mode:** CY12: ATAR and middle-band.

NY12: Educational History including GPA.

SEAS is considered.

**Extra requirements:**
None

---

**Occupational Therapy (HE)**

**Monash University**

---
## Bachelor of Occupational Therapy: 4 years full time study

**About the course:** This program prepares graduates to work in a wide range of health, community, education and human services settings. Occupational therapy is concerned with enabling people to participate in everyday life activities and occupations. The goal of an occupational therapist is to promote independence, health, and wellbeing among individuals presenting with physical, mental, and/or developmental problems. During the latter three years of the course, students also learn in clinical and community environments while completing fieldwork placements. The Monash Bachelor of Occupational Therapy course is accredited by both Occupational Therapy Australia and the World Federation of Occupational Therapists. For further information refer to www.med.monash.edu.au/occupationaltherapy.

Additional information: Travel to hospitals and other locations will be required including one rural placement. Students will be responsible for the costs associated with travel, accommodation and living expenses when completing clinical fieldwork placements (including rural placements). It is highly recommended that students complete a Safe Food Handling course before undertaking clinical placements.

**Major studies:** Occupational therapy.

**Prerequisites:** Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL.

**Middle-band:** A study score of 30 in two of Biology, Chemistry, Geography, Health And Human Development, Physical Education or Psychology equals 2 aggregate points per study. Overall maximum of 4 points.

**Selection Mode:** CY12: ATAR and middle-band.

NY12: Educational History including GPA, other. See extra requirements for more information.

SEAS is considered.

**Extra requirements:**

SUCCESSFUL APPLICANTS must complete a National Police Records Check and hold a current Working With Children Check before undertaking clinical placements. Immunisation: Students must satisfy the immunisation requirements specified by the Faculty (www.med.monash.edu.au/current/immunisation). Failure to hold satisfactory checks may result in students being unable to complete this course.

- Bachelor of Performing Arts: 3 years full time study
About the course: This course is designed for students who wish to focus on theoretical and practical studies in the performing arts. It provides a balance of practical, theoretical, critical and contextual studies, preparing students for a broad range of performing arts careers. Students take part in cooperative productions that work across two or more performing art forms, such as musical theatre and dance-drama productions. The broad nature of this degree allows students to pursue work on stage, behind the curtains or in arts management and administration.

Major studies: Performance, Theatre.

Prerequisites: Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL.

Middle-band: Satisfactory completion in one but no more than three of Classical Studies, Dance, Drama, Geography, any History, Literature, any LOTE, Media, any Music, Philosophy, Australian Politics, Global Politics, Religion And Society, Sociology, Theatre Studies or Texts And Traditions equals 2 aggregate points per study. Overall maximum of 6 points.

Selection Mode: CY12: ATAR and middle-band, Supplementary form (All), Audition (All). See extra requirements for more information.

NY12: Educational History including GPA, Supplementary form (All), Audition (All), other. See extra requirements for more information.

SEAS is considered.

Extra requirements:
Supplementary form (CY12-All, NY12-All): All applicants must complete the online BPA audition form (www.arts.monash.edu.au/auditions/performing-arts.php) and pay the audition fee by 19 October 2013. Applicants must indicate they have listed this course as a VTAC preference and complete the required questions. For further information, contact Arts Student Services on (03) 9902 6011.

Audition (CY12-All, NY12-All): All applicants must register via the website (www.arts.monash.edu.au/auditions/performing-arts.php). Auditions will be held in the week beginning 25 November 2013. An audition fee of $40.00 (inc. GST) applies.

Applicants must achieve a satisfactory result in the audition to be considered for selection, as well as meeting the ATAR or GPA requirement.

- Bachelor of Performing Arts and Bachelor of Laws: 5 years full time study

About the course: The Laws component of this double degree provides an accredited education in law for applicants without a tertiary qualification. The degree offers students an in-depth understanding of the concepts, procedures and reasoning upon which the Australian legal system is founded. Students gain an understanding of basic legal concepts, principles, rules and methods used in legal argument and develop oral and written skills in legal argument, legal research and critical analysis.

The Bachelor of Laws course consists of 12 compulsory units which must be completed by all students enrolled in an LLB program plus a further six ‘quasi-compulsory’ units which must be completed by students who wish to qualify for admission to practice as a barrister or solicitor in Victoria. The remainder of the program consists of law elective units chosen by the student in areas of interest.

The Bachelor of Performing Arts provides a balance of practical, theoretical, critical and contextual studies that prepare students for a broad range of careers in the performing arts and related industries. The basic course
structure contains a theatre and performance major.

**Major studies:** Administrative law, Civil procedure, Constitutional law, Contract, Corporations law, Criminal law & procedure, Equity, Evidence, Human rights, Intellectual property, Lawyers ethics and society, Performance, Professional practice, Property, Taxation, Theatre, Torts, Trusts.

**Prerequisites:** Units 3 and 4: a study score of at least 35 in English (EAL) or 30 in English other than EAL.

**Middle-band:** A study score of 45 in any English equals 2 aggregate points per study. A study score of 40 in any English equals 1 aggregate point per study. A study score of 40 in Classical Studies, Economics, Geography, any History, Legal Studies, Philosophy, Australian Politics, Global Politics or Psychology equals 1 aggregate point per study. Overall maximum of 5 points.

**Selection Mode:** CY12: ATAR and middle-band, Supplementary form (All), Audition (All). See extra requirements for more information.

NY12: Educational History including GPA, VTAC Personal Statement (All), Supplementary form (All), Audition (All), other. See extra requirements for more information.

**SEAS is considered.**

**Extra requirements:**

VTAC Personal Statement (NY12-All)

Supplementary form (CY12-All, NY12-All): All applicants must complete the online BPA audition form (www.arts.monash.edu.au/auditions/performing-arts.php) and pay the audition fee by 19 October 2013. Applicants must indicate they have listed this course as a VTAC preference and complete the required questions. For further information, contact Arts Student Services on (03) 9902 6011.

Audition (CY12-All, NY12-All): All applicants must register via the website (www.arts.monash.edu.au/auditions/performing-arts.php). Auditions will be held in the week beginning 25 November 2013. An audition fee of $40.00 (inc. GST) applies.

Applicants must achieve a satisfactory result in the audition as well as meeting the ATAR or GPA requirements.

- Bachelor of Pharmaceutical Science: 3 years full time study

**About the course:** Pharmaceutical science is the science of medicines. The course covers a multi-disciplinary chemical and biological science base used in researching and developing reliable, accessible and effective medicinal products for patients. It plays a core role in improving human health and wellbeing. This degree is carefully designed to equip students with the necessary skills and scientific knowledge to work in scientific, technical and management roles in the pharmaceutical as well as many other industries including the consumer product, cosmetic, chemical formulation and food industries.

The course has three specialty areas: formulation science, medicinal chemistry, and drug discovery biology. During the first year of the course, students gain a broad understanding of each area before selecting a specialisation in second year. Students have the opportunity to gain practical industry skills through either a research project or an industrial experience placement in their third year of study.

**Major studies:** Drug discovery biology, Formulation science, Medicinal chemistry.

- Bachelor of Pharmaceutical Science Advanced with Honours: 4 years full time study

**About the course:** A challenging course of study aimed at high achieving students, the Bachelor of Pharmaceutical Sciences Advanced with Honours prepares students for postgraduate study or a research career in the global biomedical and pharmaceutical industries.

The course provides a solid foundation in fundamental science and concentrates on the development of research skills. From first year, students have the opportunity to attend research seminars, meet with an academic mentor and develop leadership skills via the faculty's student ambassador program. From second year, students choose to major in drug discovery biology, formulation science or medicinal chemistry. Students will undertake three years of coursework followed by an honours project in fourth year within the Monash Institute of Pharmaceutical Sciences, home of Australia's leading pharmacology, pharmaceutical science and nanotechnology researchers.

**Major studies:** Drug discovery biology, Formulation science, Medicinal chemistry.

**Prerequisites:** Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL; and a study score of at least 25 in Chemistry; and a study score of at least 25 in one of Maths: Mathematical Methods (CAS) or Maths: Specialist Mathematics.

**Middle-band:** Satisfactory completion in Biology or Physics is considered.

**Selection Mode:** CY12: ATAR and middle-band.

NY12: Educational History including GPA.

SEAS is considered.

**Extra requirements:**

None

Pharmacy (HE)
Bachelor of Pharmacy: 4 years full time study

About the course: This course prepares students for a career as a pharmacist. Pharmacists are health professionals and medicine experts. Their primary concern is the health and wellbeing of people. They are actively involved in patient care, either in hospitals or in the community and work to ensure that patient treatment therapies are optimised. The course content will appeal to students who enjoy science but also enjoy communicating with people.

The course has four study streams: enabling knowledge base, integrated therapeutics, drug delivery and pharmacy practice. The curriculum includes a mix of lectures, tutorials and laboratories. Every student completes four Professional Experience Placements, and opportunities exist to complete a placement overseas. To become a practising pharmacist, the Pharmacy Board of Australia requires each Bachelor of Pharmacy graduate to undertake one year of internship followed by a registration examination. This course is accredited by the Australian Pharmacy Council.

Prerequisites: Units 3 and 4: a study score of at least 35 in English (EAL) or 30 in English other than EAL; and a study score of at least 25 in Chemistry; and a study score of at least 25 in one of Maths: Mathematical Methods (CAS) or Maths: Specialist Mathematics.

Middle-band: Satisfactory completion in Biology or Physics is considered.

Selection Mode: CY12: ATAR and middle-band, Supplementary form (All). See extra requirements for more information.
NY12: Educational History including GPA, Supplementary form (All). See extra requirements for more information. SEAS is considered.

Extra requirements:
Supplementary form (CY12-All, NY12-All) : Submission procedure: All applicants who wish to be eligible for an offer of admission in the VTAC main round must complete and submit the online Monash University Supplementary Information Form (www.adm.monash.edu.au/admissions/vtac) by 9 November 2013. Applicants who submit the form after this time will only be eligible for offers in later rounds.
• Bachelor of Pharmacy (Scholars Program): 4 years full time study

**About the course:** This course prepares students for a career as a pharmacist. Pharmacists are health professionals and medicine experts. Their primary concern is the health and wellbeing of people. They are actively involved in patient care, either in hospitals or in the community and work to ensure that patient treatment therapies are optimised. The course content will appeal to students who enjoy science but also enjoy communicating with people.

The course has four study streams: enabling knowledge base, integrated therapeutics, drug delivery and pharmacy practice. The curriculum includes a mix of lectures, tutorials and laboratories. Every student completes four Professional Experience Placements, and opportunities exist to complete a placement overseas. This course offers a scholarship, an academic and professional mentor, access to an international placement and leadership development activities. The course prepares students for a health care career as a pharmacist and will appeal to high achievers. To become a practising pharmacist, the Pharmacy Board of Australia requires each Bachelor of Pharmacy graduate to undertake one year of internship followed by a registration examination. This course is accredited by the Australian Pharmacy Council.

**Major studies:** Drug delivery, Health, Integrated therapeutics, Pharmacy practice.

• Bachelor of Pharmacy and Bachelor of Commerce: 6 years full time study

**About the course:** This course prepares students for a health care career as a pharmacist, as well as providing professional education in a range of commerce disciplines, with a strong emphasis on constructing conceptual frameworks to analyse complex issues in the corporate sector, government and the professions. The course gives students the opportunity to add valuable business skills to their pharmacy degree. The course content is designed to appeal to students who enjoy science, business and communication.

Pharmacists are medicine experts, who are actively involved in patient care, either in hospitals or in the community and work to ensure that patient treatment therapies are optimised.

Students complete the four years of the Bachelor of Pharmacy at the Parkville campus and then undertake two years of study (or part time equivalent) of the Bachelor of Commerce at the Clayton campus.
To become a practising pharmacist, the Pharmacy Board of Australia requires each Bachelor of Pharmacy graduate to undertake one year of internship followed by a registration examination. This course is accredited by the Australian Pharmacy Council.

**Prerequisites:** Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL; and a study score of at least 25 in Chemistry; and a study score of at least 25 in one of Maths: Mathematical Methods (CAS) or Maths: Specialist Mathematics.

- Bachelor of Physiotherapy: 4 years full time study

**About the course:** This program prepares students to graduate as physiotherapists and health care professionals who focus on prevention, assessment and treatment of physical disorders and the promotion of movement and health. This four year course is built around five themes delivered within a fully integrated curriculum. In the first two years, the curriculum is structured around conditions for which people typically seek physiotherapy. These provide the context for integrating learning about biomedical sciences and physiotherapy skills. In the last two years of the course, students also learn in a clinical environment under the supervision of expert clinicians. For further information refer to www.med.monash.edu.au/physio

Please note that applicants who are members of an Aboriginal or Torres Strait Islander community are eligible to apply for entry via the Dean's Indigenous List. See monash.edu/study/life/indigenous/

Travel to various metropolitan and rural locations during the course can be expected. Rural clinical education for up to 15 weeks in 3rd year and/or up to 10 weeks in 4th year may be scheduled for a proportion of students. Students will be responsible for costs associated with travel, accommodation and living expenses. Opportunities for interstate and overseas placements may arise.

Due to the interview requirement for NY12s and CY12s in November/December, this course cannot be added to preferences after the initial application to VTAC in September.

For further information refer to http://www.monash.edu.au/study/coursefinder/course/3868/

**Major studies:** Physiotherapy.
**Prerequisites:** Units 3 and 4: a study score of at least 35 in English (EAL) or 30 in English other than EAL; and a study score of at least 25 in two of Biology, Chemistry, Maths: Mathematical Methods (CAS), Maths: Specialist Mathematics or Physics.

**Middle-band:** None

**Selection Mode:** CY12: ATAR, Interview (Some), UMAT/ISAT (All). See extra requirements for more information. NY12: Educational History including GPA, Interview (Some), UMAT/ISAT (All). See extra requirements for more information.

SEAS is considered.

**Extra requirements:**
Interview (CY12-Some, NY12-Some): Applicants to 2800729011 must complete the UMAT (see Admissions Tests). Only some applicants will be shortlisted for interview based on their UMAT result. Notification to successful applicants regarding interviews will be sent by the end of October. Interviews will be held in late November-early December. Only those students who are shortlisted and attend an interview will be eligible for selection into the degree.

UMAT/ISAT (CY12-All, NY12-All)
Applicants to 2800729013 must complete the ISAT (see http://isat.acer.edu.au for more information). International applicants expecting to change to Australian permanent residency prior to January 2014 must also complete UMAT. SUCCESSFUL APPLICANTS must complete a National Police Records Check and hold a current Working With Children Check before undertaking clinical placements. Immunisation: Students must satisfy the immunisation requirements specified by the Faculty after enrolment. Failure to hold satisfactory checks may result in students being unable to complete this course.

- Bachelor of Primary Education: 4 years full time study

**About the course:** This course is designed to prepare students for careers as primary teachers. Students engage in units that provide them with essential understandings relating to learning and teaching covering the key learning areas of the primary school curriculum.

The program provides deep understanding of childhood development, educational theories and practice and how to engage children in innovative, engaging and purposeful learning in children from 5 to 12 years. Education units include: child and adolescent development; diversity; curriculum, assessment and evaluation; and leadership. Curriculum units include: Literacy, numeracy, health, science, technology and environment in addition to researching innovative practice. Students also complete education priority unit sequence and can take a six unit sequence from a range of discipline options.

Students complete a minimum of 80 days of supervised teaching placement in primary schools settings. Professional placements give students vital teaching experience and connect the theoretical components of their studies with the practical aspects of teaching.

This course is (pending) accredited by the Victorian Institute of Teaching (VIT). Graduates can seek registration with the VIT to start their teaching career.

**Major studies:** Education, Education studies, Teaching (primary).

- Bachelor of Professional Communication: 3 years full time study

About the course: This course explores the workings of the media, including the practical operations of the media, the social and cultural dimensions of mass communications, and the audiences, producers and policy-makers. Students learn to critically analyse the media while exploring the structure of communications industries and the relationships between media, culture and power. Graduates of this course are equipped with the skills and knowledge to work in a range of fields, including journalism, publishing and editing, writing, public relations, corporate communications, marketing and multimedia.

Major studies: Communications, Journalism, Public relations.

Prerequisites: Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL.

Middle-band: Satisfactory completion in one but no more than three of Classical Studies, Drama, Environmental Science, Geography, any History, Literature, any LOTE, Media, any Music, Philosophy, Australian Politics, Global Politics, Religion And Society, Sociology, Theatre Studies or Texts And Traditions equals 2 aggregate points per study. Overall maximum of 6 points.

Selection Mode: CY12: ATAR and middle-band.
NY12: Educational History including GPA, VTAC Personal Statement (All).
SEAS is considered.

- Bachelor of Arts (Professional Communication): 3 years full time study

About the course: This course equips students with skills and knowledge relevant to a range of communications and media professions, along with excellent research, analysis and critical thinking skills. Students learn to describe and analyse all forms of media, from print, radio, television and cinema, to emails and social media. While the course focuses on communication, students are able to study units from additional Arts disciplines. Graduates of this course are able to pursue careers in journalism, publishing and editing, writing, electronic media, public relations, corporate communications and marketing.

Major studies: Communications, Journalism, Management, Marketing, Public relations, Writing.

Prerequisites: To be confirmed

Middle-band: Satisfactory completion in one but no more than three of Classical Studies, Drama, Environmental Science, Geography, any History, Literature, any LOTE, Media, any Music, Philosophy, Australian Politics, Global Politics, Religion And Society, Sociology, Theatre Studies or Texts And Traditions equals 2 aggregate points per study. Overall maximum of 6 points.

Selection Mode: CY12: ATAR and middle-band.
NY12: Educational History including GPA, VTAC Personal Statement (All).
SEAS is considered.

- Bachelor of Arts (Psychology): 3 years full time study

About the course: Psychology covers a wide range of phenomena including remembering and forgetting, thinking, learning and problem solving, how we communicate, our emotions and our social interactions. This course provides students with powerful insights into the human mind and behaviour opening up a variety of employment opportunities in counselling, psychology, human resources, management, and social and community services. Students can elect to complete a major in psychology that is accredited by the Australian Psychology Accreditation Council (APAC), which in combination with an honours year and master's program in psychology, will gain them full registration to practice psychology in Australia.
Major studies: Australian Indigenous Studies, Communications, Community studies, English, History-politics, Psychological studies, Psychology (off campus only), Sociology, Writing.

Prerequisites: To be confirmed

Middle-band: Satisfactory completion in one but no more than three of Classical Studies, Drama, Environmental Science, Geography, any History, Literature, any LOTE, Media, any Music, Philosophy, Australian Politics, Global Politics, Psychology, Religion And Society, Sociology, Theatre Studies or Texts And Traditions equals 2 aggregate points per study. Overall maximum of 6 points.

Selection Mode: CY12: ATAR and middle-band.
NY12: Educational History including GPA, VTAC Personal Statement (All).
SEAS is considered.

- Bachelor of Psychology (with Honours): 4 years full time study

About the course: A four-year course designed for students who wish to study psychology intensively with a view to pursuing a career as a research or professional psychologist. In Years 1 to 3 students study nine core psychology subjects which form part of the Australian Psychological Accreditation Council accredited sequence in psychology; seven psychology elective subjects; and eight subjects from a range of recommended non-psychology elective subjects. In order to proceed to Year 4, the Honours program, students must achieve at least the minimum entry requirement that is standard for all Honours programs in Psychology based on the average grade across all core third-year subjects. Students who do not meet the entry requirements for the Honours program will qualify for the award of Bachelor of Psychological Science provided they have successfully completed Years 1-3 of the course.

For further information refer to http://www.monash.edu.au/study/coursefinder/course/3883/

Major studies: Psychology.

Prerequisites: Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL.

Middle-band: None

Selection Mode: CY12: ATAR.
NY12: Educational History including GPA, other. See extra requirements for more information.
SEAS is considered.

Extra requirements:
NY12 applicants who have completed psychology units at tertiary level will be considered.

- Bachelor of Arts (Psychology) and Bachelor of Community Welfare and Counselling: 4 years full time study

About the course: This course allows students to explore the study of psychology, while they acquire the knowledge and skills necessary for competent and ethical community welfare and counselling practice. Students can elect to complete a major in psychology that is accredited by the Australian Psychology Accreditation Council (APAC), which in combination with an honours year and master's program in psychology, will gain them full registration to practice psychology in Australia. Accredited by the Australian Community Workers Association (ACWA), the community welfare and counselling component of the course develops students' skills and knowledge for intervention in different fields of practice, including counselling, child protection, disability, family support, homelessness, youth justice, aged care, and research and policy analysis.

Major studies: Community welfare and counselling, Psychology (off campus only).

Prerequisites: To be confirmed

Middle-band: Satisfactory completion in one but no more than three of Classical Studies, Drama, Environmental Science, Geography, any History, Literature, any LOTE, Media, any Music, Philosophy, Australian Politics, Global Politics, Psychology, Religion And Society, Sociology, Theatre Studies or Texts And Traditions equals 2 aggregate points per study. Overall maximum of 6 points.

Selection Mode: CY12: ATAR and middle-band.
NY12: Educational History including GPA, VTAC Personal Statement (All).
SEAS is considered.

Extra requirements:
VTAC Personal Statement (NY12-All)

Publishing and Editing (Grad)

Monash University

Caulfield: Domestic fee-paying places full-time/part-time Apply: Direct to institution
Caulfield: International fee-paying places full-time Apply: Direct to institution

- Master of Publishing and Editing: 1.5 year full time study

About the course: This course is designed to provide editorial and management skills to those wishing to become involved in scholarly, commercial, educational, academic and corporate publishing, as well as those who want to further their careers and aspirations in publishing, or establish their own small publishing/editing business. The course provides an overview of Australian publishing and its international connections and a variety of vocationally-oriented, special-knowledge and skill-based units. Students have the opportunity to undertake an industry internship or a research project.

Major studies: Communications, Editing, English, Humanities, Journalism, Media, Publishing.

Prerequisites: Bachelor Degree with a credit average or a Graduate Diploma with a credit average.

Middle-band: None
**Selection Mode:** NY12: Educational History including GPA.

**Extra requirements:**
None

Clayton: 2800328053 (IFP) full-time  
Apply: Through VTAC main round

- Bachelor of Radiography and Medical Imaging (with Honours): 4 years full time study

**About the course:** Provides academic and clinical skills in the modes of technology used by radiographers. Graduates are eligible for registration upon completion of the course. Students will study a set structure of units within the major studies areas. Clinical studies are incorporated into each year of the course so that students have access to a range of modalities and clinical placement options.

For further information refer to http://www.monash.edu.au/study/coursefinder/course/1963/

**Major studies:** Clinical studies, Computed tomography, Magnetic resonance imaging, Medical imaging science, Medical ultrasound, Radiographic anatomy and pathology, Radiographic methods, Radiologic biology, Radiologic physics.

**Prerequisites:** Units 3 and 4: a study score of at least 35 in English (EAL) or 30 in English other than EAL; and a study score of at least 25 in one of Biology or Physics; and a study score of at least 25 in one of Maths: Mathematical Methods (CAS) or Maths: Specialist Mathematics.

**Middle-band:** None

**Selection Mode:** CY12: ATAR.

NY12: Educational History including GPA, Supplementary form (All), Interview (Some). See extra requirements for more information.

SEAS is considered.

**Extra requirements:**

Supplementary form (NY12-All): All NY12 applicants must complete and submit the Monash University Supplementary Information Form by 27 September. A copy of the form is available from www.adm.monash.edu.au/admissions/vtac. Applications submitted by non-year 12 applicants after this date will not be considered.

Interview (NY12-Some): Short-listed applicants will be contacted by the University via telephone or email in early December. Interviews are expected to be held on the 11 and 12 December.

SUCCESSFUL APPLICANTS must complete a National Police Records Check and hold a Working With Children Check before undertaking clinical placements. Immunisations policy: Students must comply with the Faculty of Medicine, Nursing and Health Sciences Immunisation Policy (http://www.med.monash.edu.au/current/immunisation/). Failure to hold satisfactory checks or meet the immunisation requirements may result in students being unable to complete this course.

Gippsland: 2800428453 (IFP) full-time  
Apply: Through VTAC main round

- Bachelor of Science: 3 years full time study

About the course: This course is a highly flexible degree allowing students to choose to study in any of the specialist areas on offer. This means that students have the ability to tailor the degree to suit their interests from day one. The course also offers practical employment skills including numeracy, data analysis, information literacy, problem solving, communication and presentation skills, and the capacity to work in teams. Graduates will be equipped for a variety of careers or for honours and postgraduate study, leading to global employment opportunities in any of the traditional and emerging careers for scientists. Please note areas of science specialisation are campus specific. See the Faculty of Science website at http://www.monash.edu.au/science/future/ for further details on course structure and areas of study. The major studies listed below are for the Clayton campus only.

Prerequisites: Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL; and a study score of at least 25 in one of Biology, Chemistry, Geography, Maths: Mathematical Methods (CAS), Maths: Specialist Mathematics, Physics or Psychology.

Middle-band: A study score of 25 in two but no more than three of Biology, Chemistry, Geography, Maths: Mathematical Methods (CAS), Maths: Specialist Mathematics, Physics or Psychology equals 2 aggregate points per study. Overall maximum of 6 points.

Selection Mode: CY12: ATAR and middle-band.
NY12: Educational History including GPA, VTAC Personal Statement (All).
SEAS is considered.

Extra requirements:
VTAC Personal Statement (NY12-All)

Science Advanced (Global Challenges) (HE)

Monash University
- Bachelor of Science Advanced (Global Challenges): 4 years full time study

**About the course:** The Bachelor of Science Advanced (Global Challenges) is a unique science, selective course designed for science students who are passionate about effecting change, transforming ideas into reality and making a difference in an increasingly complex world. It combines the critical underpinnings of a science degree with the tools and businesses acumen to turn ideas into reality; to influence change in an increasingly developed global world; to make a difference.

The four-year program has all the elements of a Bachelor of Science. In addition to specialising in an area of science (selected from the major studies listed below), you will develop skills in leadership, entrepreneurship, governance, policy, finance, international aid and development, communication, ethics and corporate social responsibility. You will graduate with Honours and will develop a rich and diverse set of skills, a strong peer and mentor network and the knowledge to address complex global challenges.

**Prerequisites:** Units 3 and 4: a study score of at least 35 in English (EAL) or 30 in English other than EAL; and a study score of at least 30 in one of Biology, Chemistry, Environmental Science, Geography, Maths: Mathematical Methods (CAS), Maths: Specialist Mathematics, Physics or Psychology.

**Middle-band:** None

**Selection Mode:** CY12: Supplementary form (All), Interview (All). See extra requirements for more information.

NY12: Supplementary form (All), Interview (All), other. See extra requirements for more information.

SEAS is considered.

**Extra requirements:**

Supplementary form (CY12-All, NY12-All): All applicants must submit the online Supplementary Information form (www.adm.monash.edu.au/admissions/vtac) by 6 December for Round 1 consideration or by 5 January for second round consideration.

Interview (CY12-All, NY12-All): Interview (short-listed applicants only): Interviews will be held during the week of 16 December 2013 and must be attended in person. Interstate and IB applicants who are short-listed will be interviewed in January with offers being made in VTAC Round 2.

CY12 students adding the course during Change of Preference will be considered for Round 2. Additional information: Travel for one internship is a requirement of the course. Support will be provided for students to cover the costs associated with travel, accommodation and living expenses.

---

**Science Advanced (Research) (HE)**

**Monash University**

- Bachelor of Science Advanced (Research): 4 years full time study
**About the course:** This course is intended for high-achieving students who seek a degree that provides a strong background in science and research training, with the possibility of continuing on to postgraduate studies. Students gain a sound knowledge of the fundamental science, upon which they develop an advanced level of understanding in a science area of specialisation. Research studies are an important feature of this course, so students engage with research methodologies and training at an early undergraduate stage and then undertake a research project in third year which leads to a full year of Honours research in the fourth year. See the Faculty of Science website at [http://www.monash.edu.au/science/future/](http://www.monash.edu.au/science/future/) for further details on course structure and areas of study.

**Prerequisites:** Units 3 and 4: a study score of at least 35 in English (EAL) or 30 in English other than EAL; and a study score of at least 30 in Maths: Mathematical Methods (CAS); and a study score of at least 30 in two of Biology, Chemistry, Geography, Maths: Specialist Mathematics or Physics.

**Middle-band:** None

**Selection Mode:** CY12: ATAR.

NY12: Educational History including GPA, VTAC Personal Statement (All).

SEAS is considered.

- Bachelor of Science and Bachelor of Computer Science: 4 years full time study

**About the course:** The course aims to provide students with the opportunity to combine the strong communication skills, critical analysis and problem-solving ability of a science degree with mathematical and complex IT skills. Students complete a minor sequence in mathematics, a major sequence in any science field of study and two science core subjects in the science component of the double degree. The studies in computer science are the equivalent of two full years of study, including a major sequence in computer science. High achieving students may apply to participate in the Industry Based Learning (IBL) stream of the Bachelor of Computer Science. See the Faculty of Science website at [http://www.monash.edu.au/science/future/](http://www.monash.edu.au/science/future/) for further details on course structure and areas of study.

**Major studies:** Algorithms and data structures, Applied mathematics, Artificial intelligence, Astronomy and astrophysics, Atmospheric science, Biochemistry and molecular biology, Chemistry, Computational mathematics, Computational science, Computer architecture, Computer graphics, Computer hardware/software, Computer operating systems, Computer programming, Computer science, Databases, Decision support, Developmental biology, Distributed systems and applications, Ecology and conservation biology, Financial and Insurance mathematics, Genetics, Geographical science, Geosciences, Human pathology, Immunology, Information and communication technology, Information systems, Information technology, Marine and freshwater biology, Materials science, Mathematics, Microbiology, Pharmacology, Physics, Physiology, Plant sciences, Programming,

**Prerequisites:** Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL; and a study score of at least 25 in one of Maths: Mathematical Methods (CAS) or Maths: Specialist Mathematics or 35 in Maths: Further Mathematics.

**Middle-band:** A study score of 25 in two but no more than three of Biology, Chemistry, Geography, Maths: Mathematical Methods (CAS), Physics or Psychology equals 2 aggregate points per study. A study score of 25 in Maths: Specialist Mathematics equals 2 aggregate points. Overall maximum of 6 points.

**Selection Mode:** CY12: ATAR and middle-band.
NY12: Educational History including GPA, VTAC Personal Statement (All).
SEAS is considered.

- Bachelor of Science and Bachelor of Education (Primary): 4 years full time study

**About the course:** This double degree is suited to those interested in a primary teaching career and in broadening their knowledge in science disciplines such as biology, chemistry and physics. The course will enhance your career options and deepen your understanding in the science related areas you teach in schools.

The course provides a deep understanding of teaching and learning as well as curriculum and assessment, professional engagement and the development of children aged from 5 - 12 years. Students complete a major in education and curriculum. Education units include: child and adolescent development, professional identity, leadership and engagement and curriculum, assessment and evaluation. Curriculum units include: literacy, numeracy, health, science, technology and environment. Students must study a science major sequence, a minor sequence in a different area of science, two science core units and two additional science units.

Students complete a minimum 80 days of supervised teaching placement in primary and secondary school settings. Professional placements give students vital teaching experience and connect the theoretical components of their studies with the practical aspects of teaching.

This course is accredited by the Victorian Institute of Teaching (VIT). Graduates can seek registration with the VIT to start their teaching career. In addition, graduates can pursue careers in science related fields such as microbiology, chemistry or physics.

This course is equivalent to 4.25 years of full time study but is completed in 4 calendar years. Studies in Science and Education are taken concurrently. Travel between campuses is required. Science units are studied at Clayton. Year 1 of the course will be at Clayton, years 2 and 3 will be taught at Clayton and Peninsula and year 4 will be completed at Peninsula.

For details on optional course information session dates, times and venues visit [www.edu.monash.edu/vtac](http://www.edu.monash.edu/vtac)

Prerequisites: Units 1 and 2: satisfactory completion in two units (any study combination) of General Mathematics or Mathematical Methods or Units 3 and 4: any Mathematics; and a study score of at least 30 in English (EAL) or 25 in English other than EAL; and a study score of at least 25 in one of Biology, Chemistry, Geography, Maths: Mathematical Methods (CAS), Maths: Specialist Mathematics, Physics or Psychology.

Middle-band: A study score of 25 in two but no more than three of Biology, Chemistry, Geography, Maths: Mathematical Methods (CAS), Maths: Specialist Mathematics, Physics or Psychology equals 2 aggregate points per study. A study score of 35 in English other than EAL equals 1.5 aggregate points per study. A study score of 40 in English (EAL) equals 1.5 aggregate points. Overall maximum of 7.5 points.

Selection Mode: CY12: ATAR and middle-band, VTAC Personal Statement (All). See extra requirements for more information.
NY12: Educational History including GPA, VTAC Personal Statement (All). See extra requirements for more information.
SEAS is considered.

Extra requirements:
VTAC Personal Statement (CY12-All, NY12-All) : NY12 applicants must complete a VTAC Personal Statement detailing community involvement and evidence of how they have fulfilled the equivalent mathematics prerequisite.

All: SUCCESSFUL APPLICANTS: Students will be required to complete a Working With Children Check (WWCC).

- Bachelor of Science and Bachelor of Education (Secondary): 4 years full time study

About the course: This double degree is suited to those interested in a secondary teaching career and in broadening their knowledge in science disciplines. The course will enhance your career options and deepen your understanding in the science related areas you intend to teach in schools.

The program provides a deep understanding of teaching and learning as well as curriculum and assessment, professional engagement and adolescent development and learning. Education units include: adolescent development and learning, professional engagement and leadership, and local and global perspectives in education. Curriculum units include: becoming a specialist teacher, curriculum development and innovative practice.

Studies in science and education are taken concurrently. Students must study a major, a minor and additional studies in science. Major and minor sequences in science must be chosen from disciplines that lead to secondary teaching qualifications. For more information visit: www.education.monash.edu.au/units/secondary-specialisms.html.

Students complete a minimum 80 days of supervised teaching placement in primary and secondary school settings. Professional placements give students vital teaching experience and connect the theoretical components of their studies with the practical aspects of teaching.

This course is accredited by the Victorian Institute of Teaching (VIT). Graduates can seek registration with the VIT...
to start their teaching career. In addition, graduates can pursue careers in science related fields such as microbiology, chemistry or physics.

This course is equivalent to 4.25 years of full time study but is completed in 4 calendar years. For details on optional course information session dates, times and venues visit www.edu.monash.edu/vtac

**Major studies:** Astronomy and astrophysics, Atmospheric science, Biochemistry and molecular biology, Chemistry, Developmental biology, Ecology and conservation biology, Education, Education studies, Genetics, Geographical science, Geosciences, Marine and freshwater biology, Mathematics and statistics, Microbiology, Pharmacology, Physics, Physiology, Plant sciences, Teaching (secondary), Zoology.

**Prerequisites:** Units 1 and 2: satisfactory completion in two units (any study combination) of General Mathematics or Mathematical Methods or Units 3 and 4: any Mathematics; and a study score of at least 30 in English (EAL) or 25 in English other than EAL; and a study score of at least 25 in one of Biology, Chemistry, Geography, Maths: Mathematical Methods (CAS), Maths: Specialist Mathematics, Physics or Psychology.

**Middle-band:** A study score of 25 in two but no more than three of Biology, Chemistry, Geography, Maths: Mathematical Methods (CAS), Maths: Specialist Mathematics, Physics or Psychology equals 2 aggregate points per study. A study score of 35 in English other than EAL equals 1.5 aggregate points per study. A study score of 40 in English (EAL) equals 1.5 aggregate points. Overall maximum of 7.5 points.

**Selection Mode:** CY12: ATAR and middle-band.
NY12: Educational History including GPA, VTAC Personal Statement (All). See extra requirements for more information.
SEAS is considered.

**Extra requirements:**
VTAC Personal Statement (NY12-All) : NY12 applicants must complete a VTAC Personal Statement detailing community involvement and evidence of how they have fulfilled the equivalent mathematics prerequisite.

All: SUCCESSFUL APPLICANTS Students will be required to complete a Working With Children Check (WWCC).

- Bachelor of Science and Bachelor of Engineering (Honours): 5 years full time study

**About the course:** This course enables students to complement studies in one of five areas of engineering (chemical, civil, electrical and computer systems, materials or mechanical engineering) with an appropriate selection of units from a range of disciplines offered by the Faculty of Science. First year studies: core engineering subjects and mathematics, and two of biology, chemistry, earth sciences, physics, computer science, astrophysics or additional mathematics. Students undertake a mix of engineering and science subjects over the five years. Vacation employment: Twelve weeks during one or more long vacations between years of study, in approved engineering work.

**Major studies:** Astronomy and astrophysics, Atmospheric science, Biochemistry and Molecular Biology, Chemistry, Computer science, Development biology, Ecology and conservation biology, Engineering (biomedical), Engineering (chemical), Engineering (civil), Engineering (electrical), Engineering (materials), Engineering (mechanical), Genetics, Geographical science, Geosciences, Immunology, Marine and freshwater biology, Materials science, Mathematics and statistics, Microbiology, Pharmacology, Physics, Physiology, Plant sciences, Psychology, Zoology.
Prerequisites: Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL; and a study score of at least 25 in Maths: Mathematical Methods (CAS); and a study score of at least 25 in one of Chemistry or Physics.

Middle-band: A study score of 25 in each of Chemistry and Physics equals 1 aggregate point per study. Overall maximum of 5 points.

Selection Mode: CY12: ATAR and middle-band.
NY12: Educational History including GPA, VTAC Personal Statement (All).
SEAS is considered.

- Bachelor of Science and Bachelor of Laws: 5 years full time study

About the course: The Laws component of this double degree provides an accredited education in law for applicants without a tertiary qualification. The degree offers students an in-depth understanding of the concepts, procedures and reasoning upon which the Australian legal system is founded. Students gain an understanding of basic legal concepts, principles, rules and methods used in legal argument and develop oral and written skills in legal argument, legal research and critical analysis.

The Bachelor of Laws course consists of 12 compulsory units which must be completed by all students enrolled in an LLB program plus a further six ‘quasi-compulsory’ units which must be completed by students who wish to qualify for admission to practice as a barrister or solicitor in Victoria. The remainder of the program consists of law elective units chosen by the student in areas of interest.

This Bachelor of Science course provides a broad, general science education, and specialist training in areas chosen from over 21 different discipline areas. The flexibility of the course allows students to explore new areas, further develop their strengths and to pursue their own interests. The course also offers practical employment skills including numeracy, data analysis, information literacy, problem solving, communication and presentation skills, and the capacity to work in teams.

Prerequisites: Units 3 and 4: a study score of at least 35 in English (EAL) or 30 in English other than EAL; and a study score of at least 25 in one of Biology, Chemistry, Geography, Maths: Mathematical Methods (CAS), Maths: Specialist Mathematics, Physics or Psychology.

Middle-band: A study score of 45 in any English equals 2 aggregate points per study. A study score of 40 in any English equals 1 aggregate point per study. A study score of 40 in Biology, Classical Studies, Economics, Geography, any History, Legal Studies, Philosophy, Australian Politics, Global Politics or Psychology equals 1
aggregate point per study. Overall maximum of 5 points.

**Selection Mode:** CY12: ATAR and middle-band.
NY12: Educational History including GPA, VTAC Personal Statement (All).
SEAS is considered.

**Extra requirements:**
VTAC Personal Statement (NY12-All)

**Social Work (Qualifying) (Grad)**

**Monash University**

| Caulfield: Domestic fee-paying places full-time/part-time | Apply: Direct to institution |
| Caulfield: International fee-paying places full-time | Direct to institution |

- Master of Social Work: 1 year full time study

**About the course:** The Master of Social Work (Qualifying) is a coursework degree with theoretical skill development and supervised professional practice units.

To be eligible for this course the Australian Association of Social Workers requires applicants to have completed prerequisite undergraduate studies that must include two semesters in studies of the individual and two semesters in studies of society. Studies of the individual include units in psychology, human development, genetics, personality, psychopathology, or studies of individual theorists in these areas. Studies of society include subjects like sociology, anthropology, philosophy, history, gender studies, politics, and multicultural studies.

The course includes opportunities for group-based learning, community engagement, practice research and integration of social work theory and practice. Theoretical content builds on knowledge acquired by graduates in previous higher education, while social work skills components and professional practice introduce students to contemporary social work practice. The areas covered in the curriculum meet AASW accreditation requirements, including 1,000 hours of supervised professional practice.

**Major studies:** None.

**Prerequisites:** Bachelor Degree Including 2 semesters each in studies of the individual and studies of society.

**Middle-band:** None

**Selection Mode:** NY12: Educational History including GPA. See extra requirements for more information.

**Extra requirements:**
SUCCESSFUL APPLICANTS must complete a National Police Records Check and hold a current Working With Children Check before undertaking clinical placements. Failure to hold satisfactory checks may result in students being unable to complete this course.

157 of 176 2/08/2013 3:39 PM
About the course: This course produces software engineers specialising in the design and construction of large and complex software systems and their engineering. The four-year program comprises core units in the areas of programming, software engineering, foundations of computing (including mathematics), computer systems and professional practice (including technical documentation and project management). Electives allow specialisation in areas such as games development, networks, security and embedded systems. Students complete a final year group studio project with an industry client. An honours program involving a research project in fourth year is available for high achievers.

Local students may apply for a place in the Industry Based Learning (IBL) program in which they complete a 22-week placement and receive a scholarship. The placement is part of the curriculum and is formally assessed and credited towards the degree. Selection for IBL is based on academic merit and an interview conducted by industry partners prior to entry to the program. Further IBL places will be made available at the completion of the first year of the course. The IBL program is available to CSP applicants only.

An Industry Based Learning (IBL) Information Evening will be held on 27 August 2013 at the Clayton campus.

Major studies: Computer science, Computer systems, Database management, Information technology, Networks and data communications, Programming, Project management, Software engineering, Systems analysis and design.

Prerequisites: Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL; and a study score of at least 25 in one of Maths: Mathematical Methods (CAS) or Maths: Specialist Mathematics or 35 in Maths: Further Mathematics.

Middle-band: A study score of 35 in English (EAL) equals 2 aggregate points. A study score of 40 in English (EAL) equals 4 aggregate points. A study score of 30 in one but no more than one of English other than EAL equals 2 aggregate points per study. A study score of 35 in one but no more than one of English other than EAL equals 4 aggregate points per study. A study score of 25 in Maths: Specialist Mathematics equals 2 aggregate points. A study score of 30 in Maths: Specialist Mathematics equals 4 aggregate points. A study score of 30 in Maths: Mathematical Methods (CAS) equals 2 aggregate points. A study score of 35 in Maths: Mathematical Methods (CAS) equals 4 aggregate points. A study score of 40 in Maths: Further Mathematics equals 2 aggregate points. Overall maximum of 8 points.

Selection Mode: CY12: ATAR and middle-band, Supplementary form (Some), Interview (Some). See extra requirements for more information.

NY12: Educational History including GPA, STAT (Some). See extra requirements for more information.

SEAS is considered.

Extra requirements:

Supplementary form (CY12-Some): Applicants who wish to apply for the Industry Based Learning Program should submit an application online at http://www.infotech.monash.edu.au/ibl by 2 December 2013.

Interview (CY12-Some): Industry Based Learning Program applicants must attend an interview on 11 December 2013.

STAT (NY12-Some): NY12 applicants described under the Admissions Test section are required to sit STAT Multiple Choice.

Sport and Outdoor Recreation (HE)

Monash University

Peninsula: 2800729241 (CSP) full-time Apply: Through VTAC main round

2800729241 Clearly-in % below CY12 offers Total offers
About the course: This course is designed to prepare students with the skills and knowledge to work in the dynamic sport and outdoor recreation industries. This unique study area covers the relationship between sport, recreation, health, well-being and the outdoor environment. The course also has a focus on sustainability, leadership and sports and movement studies.

Sport and outdoor recreation studies focus on: adventure education, aquatic environments, coaching, outdoor leadership and programming, community physical activity and wellness and biophysical foundations of physical activity. Students also complete a sequence in another discipline selected from a range of business, science, arts and education units.

Throughout the course, students undertake exciting outdoor experiences and physical activity fieldwork in a range of settings. Fieldwork placements include bushwalking and hiking, sea kayaking, aquatic activities and camp leadership. Students in the course have access to the new Monash Peninsula Activity and Recreation centre. Visit: http://www.monash.edu.au/campuses/peninsula/facilities/mawc.html for more information.

Graduates will have a unique set of skills in leadership and sport and outdoor recreation. They will be well placed to find employment in a range of areas including sports administration, sports development, event and tourism management, community recreation and leisure, and health and well-being.

For details on optional course information session dates, times and venues visit www.edu.monash.edu/vtac

Major studies: Human movement, Outdoor leadership and guiding, Outdoor recreation, Recreation, Sport, Sport (development), Sport and recreation, Sports (coaching).

Prerequisites: Units 1 and 2: satisfactory completion in two units (any study combination) of General Mathematics or Mathematical Methods or Units 3 and 4: any Mathematics; and a study score of at least 30 in English (EAL) or 25 in English other than EAL.

Middle-band: A study score of 35 in Outdoor And Environmental Studies or Physical Education equals 1.5 aggregate points per study. A study score of 35 in English other than EAL equals 1.5 aggregate points per study. A study score of 40 in English (EAL) equals 1.5 aggregate points. Overall maximum of 4.5 points.

Selection Mode: CY12: ATAR and middle-band.
NY12: Educational History including GPA, VTAC Personal Statement (All). See extra requirements for more information.
SEAS is considered.

Extra requirements:
VTAC Personal Statement (NY12-All) : NY12 applicants must complete a VTAC Personal Statement detailing community involvement and evidence of how they have fulfilled the equivalent mathematics prerequisite.

- Bachelor of Sport and Outdoor Recreation: 3 years full time study
Bachelor of Sport and Outdoor Recreation and Bachelor of Education (Primary): 4 years full time study

About the course: This double degree is suited to those interested in a primary teaching career and in broadening their knowledge in sport and outdoor recreation. The course will enhance your career options and deepen your understanding in the sport and outdoor recreation related areas you teach in schools.

The program provides a deep understanding of teaching and learning as well as curriculum and assessment, professional engagement and the development of children aged from 5 to 12 years. Students complete a major in education and curriculum. Education units include: child and adolescent development, professional identity, leadership and engagement. Curriculum units include: literacy, numeracy, health, science, technology and environment. Sport and outdoor recreation studies focus on sport and physical activity education, aquatic environments, coaching and biophysical foundations of physical activity.

Throughout the course, students undertake exciting outdoor experiences and physical activity fieldwork in a range of settings. Fieldwork placements include bushwalking and hiking, sea kayaking, aquatic activities and camp leadership. Students in the course have access to the new Monash Peninsula Activity and Recreation centre. Visit: http://www.monash.edu.au/campuses/peninsula/facilities/mawc.html

Students complete a minimum 80 days of supervised teaching placement in primary and secondary school settings. Professional placements give students vital teaching experience and connect the theoretical components of their studies with the practical aspects of teaching.

This course is accredited by the Victorian Institute of Teaching (VIT). Graduates can seek registration with the VIT to start their teaching career. In addition, graduates can pursue careers in a wide range of sport and outdoor recreation industries.

This course is equivalent to 4.25 years of full time study but is completed in 4 calendar years.

Major studies: Education, Education studies, Human movement, Outdoor education, Outdoor leadership and guiding, Outdoor recreation, Physical education, Recreation, Sport, Sport (development), Sport and recreation, Sports (coaching), Teaching (primary).

Sustainability (Grad)
Clayton: Domestic fee-paying places full-time/part-time  Apply: Direct to Institution
Clayton: International fee-paying places full-time  Apply: Direct to Institution

- Master of Sustainability: 1.5 year full time study

**About the course:** This interdisciplinary course is designed to meet the needs of graduates from a wide range of backgrounds who wish to enhance their qualifications for careers in environmental governance, corporate sustainability management, or international development. It is also designed for those who wish to broaden and deepen their understanding of sustainability to enable societal, organisational and individual change, and to foster responsible action to support sustainability both domestically and internationally. The course has three streams: Environment and governance; Corporate environmental and sustainability management; International development and natural resource management. All three streams offer an industry internship and/or research project, which provide students with the opportunity to work in real-world contexts and to combine theory and practice in responding to local and global issues.

**Major studies:** Corporate environmental and sustainability management, Environment and governance, International development and natural resource management, Sustainability.

**Prerequisites:** Bachelor Degree with a credit average or a Graduate Diploma with a credit average.

**Middle-band:** None

**Selection Mode:** NY12: Educational History including GPA.

**Extra requirements:** None

**Teaching (Early Years) (GET)**

**Monash University**

Clayton: 2800310041 (CSP) full-time  Apply: Through VTAC main round
Clayton: 2800310042 (DFP) full-time  Apply: Through VTAC main round

- Master of Teaching (Early Years): 2 years full time study

**About the course:** This is a full time, on-campus course for intending early childhood and pre-school teachers. The course prepares students, theoretically and practically to be at the forefront of early childhood education (birth to eight years). You will learn from early childhood education leaders who have extensive experience advising the government on early childhood policy and contributing to curriculum research and development around the world.

Students will complete six core education units which will enable them to form a broad conceptual understanding of the national and international field of education as they actively engage in theoretical learning on child development. Students complete units that focus on: contemporary child development theories, children, families and communities, early years curriculum and assessment, play and pedagogies, and early years literacy and numeracy.

In the final semester students complete two depth units which can be research or coursework focused to extend knowledge across a range of areas. For more information on the depth study options please visit: http://www.education.monash.edu.au/units/depth.html

Students complete a minimum of 60 days of supervised teaching placement in early childhood settings. These placements give students vital teaching experience and connect the theoretical components of their studies with the practical aspects of teaching.

This course is (pending) accredited by the Australian Childrens Education and Care Quality Authority (ACECQA). Graduates will be qualified to teach in early childhood settings.

**Double teaching areas**

212: Early Childhood

**Prerequisites:** Bachelor Degree

- Master of Teaching (Primary): 2 years full time study

**About the course:** This is a preservice, full time, on-campus course for aspiring primary teachers. The Master of Teaching (Primary) prepares graduates from a range of disciplines for a career as a primary school teacher. Students will build on the strengths developed in their undergraduate degree to learn how to plan and deliver educational programs for primary school children. Students will deepen their understanding of primary teaching, research and practice. You will also spend time teaching in primary settings and develop knowledge on how primary-aged children learn and how best to develop and support their learning.

This postgraduate level course is informed by world-class research that links theory to practice. Students complete units in theory and practice of learning and teaching, understanding and investigating our worlds, professional practice and understanding and expressive ourselves. Students also complete a series of units which build skills and knowledge in English, literacies and policy context, mathematics, numeracy and learner engagement.

In the final semester students complete two depth study units which can be research of coursework focussed to extend knowledge across a range of areas. For more information on the depth study options please visit: http://www.education.monash.edu.au/units/depth.html

Students complete a minimum of 60 days of supervised teaching placement in primary school settings. These placements give students vital teaching experience and connect the theoretical components of their studies with the practical aspects of teaching.

The course is completed in 2 years of full time study. Students may exit the course after 1.5 years with a Graduate Diploma of Teaching (Primary) which qualifies students to teach in primary schools.

This course is accredited by the Victorian Institute of Teaching (VIT). Graduates can seek registration with the VIT to start their teaching career.

- Master of Teaching (Primary): 2 years full time study

About the course: This is a preservice off-campus course for intending primary teachers. Students gain an understanding of curriculum development, key learning areas and knowledge about child development underlying professional practice in primary schools. This course can be completed in 2 years of full time, or 4 years of part time study.

This masters course is informed by world-class research based teaching that links theory and practice. Students will complete core education units which will enable them to effectively plan and deliver primary school educational programs. Students will develop deep knowledge of how primary aged children learn and how best to provide opportunities to develop and support such learning. In the final year students complete two depth units which can be research or coursework focused to further develop knowledge across a breadth of areas.

Students complete a minimum 60 days of professional placements which connect the theoretical components of the program with the practical aspects of teaching.

Berwick: 2800194051 (CSP) full-time  Apply: Through VTAC  main round

Berwick: 2800194052 (DFP) full-time  Apply: Through VTAC  main round

- Master of Teaching (Secondary): 1.5 year full time study
About the course: This is a preservice, full time, on-campus accelerated learning course for aspiring secondary teachers. Students will learn how to plan and deliver educational programs through the study of educational theory, development in two specialist teaching areas and placements.

Your completed undergraduate studies will determine your choice of specialist teaching areas. Generally, you must have studied your chosen teaching specialist area at university level for at least two years. A double specialist teaching area requires at least three years of study in that discipline. For more information please visit: http://www.education.monash.edu.au/units/secondary-specialisms.html

The course focuses on adolescent learning, classroom teaching and practice, education and society, and planning, implementing and evaluating the curriculum. Students will complete education units at the Berwick campus and the specialist teaching area units at the Clayton campus. Travel between campuses will be required as the specialist teaching area units are taught via on-campus mode at the Clayton campus. In the final semester students complete two depth units which can be research or coursework focused to extend knowledge across a range of areas. For more information on the depth study options please visit: http://www.education.monash.edu.au/units/depth.html

Students complete a minimum of 60 days of professional placements which connect the theoretical components of the program with the practical aspects of teaching.

This course is equivalent to 2 years of full time study, but is completed in 1.5 years. The fee for the first year of study is 1.5 that of a standard full time one year of study. Students may exit the course after 1 year with a Graduate Diploma of Teaching (Secondary).

This course is accredited by the Victorian Institute of Teaching (VIT). Graduates can seek registration with the VIT to start their teaching career.

- Master of Tourism: 1.5 year full time study

About the course: This is a multidisciplinary course with strong international and industry links, specifically designed to equip students with the skills required to develop a career in tourism and associated industries. It seeks to provide students with a strategic understanding of how the tourism industry operates and how academic theories are applicable to it. Areas covered include marketing and international marketing, cultural tourism, development and
planning, information technology, environmental studies, research techniques, cross-cultural and regional studies, and communications. Students are encouraged to undertake part of their studies overseas in order to broaden their understanding of the international market, and the role that a sustainable tourism industry can play in the development of emerging economies.

**Major studies:** Tourism.

**Prerequisites:** Bachelor Degree with a credit average or a Graduate Diploma with a credit average.

- Bachelor of Science (Veterinary Bioscience): 3 years full time study

**About the course:** The Bachelor of Science (Veterinary Bioscience) is ideal for students who are passionate about animal science careers. Students study a wide range of topics including anatomy, animal health, animal diversity, immunology, physiology, animal ecology and animal biotechnology. The course structure ensures a strong background in core sciences together with a focus on animal health and ecology. The laboratory sessions are supported by fieldwork and case studies at nearby sites such as farming and breeding enterprises, animal health practices, and natural habitats with wildlife populations. The choice of an applied research project or an industry based placement in the final year, will develop the technical expertise and hands-on skills required for higher degrees by research or employment. This degree provides an ideal preparation for entry into veterinary medicine. This course does not qualify students to practice veterinary science. See the Faculty of Science website at [http://www.monash.edu.au/science/future/](http://www.monash.edu.au/science/future/) for further details on course structure and areas of study.

**Major studies:** Animal behaviour, Animal health, Ecology, Veterinary science.

**Prerequisites:** To be confirmed

**Middle-band:** A study score of 25 in two but no more than three of Biology, Chemistry, Environmental Science, Geography, Maths: Mathematical Methods (CAS), Maths: Specialist Mathematics, Physics or Psychology equals 2 aggregate points per study. Overall maximum of 6 points.

**Selection Mode:** CY12: ATAR and middle-band.

NY12: Educational History including GPA, VTAC Personal Statement (All).

SEAS is considered.

- Bachelor of Visual and Media Arts: 3 years full time study

About the course: This course offers a broad education in the visual and media arts. Graduates may practice professionally in one or more art media, or may become involved in art gallery activities, cultural programs, art education, or a range of art and design industry activities.

Students undertake a sequence of studies which form a major specialisation taken over three years. Complementary and other studies are taken in the studio and theory fields from which individual study programs can be formed.

Major studies: Art theory, Creative Arts, Drawing, Painting, Photography, Photomedia, Printmaking, Printmedia, Sculpture, Visual Arts.

Prerequisites: To be confirmed

Middle-band: None

Selection Mode: CY12: ATAR, Interview (All). See extra requirements for more information.

NY12: Educational History including GPA, Interview (All). See extra requirements for more information.

SEAS is considered.

Extra requirements:

Interview (CY12-All, NY12-All): All applicants must telephone (03) 5122 6261 or (03) 9902 6261 to register, by 4 October. Details will be sent to applicants by 4 November. Applicants must attend interview in November. Advisory letters will be sent to applicants by 12 December. Each applicant's final ranking is based on their interview score; applicants must also achieve a minimum ATAR or GPA.

- Honours degree of Bachelor of Visual Arts: 1 year full time study

About the course: This degree can be used to enhance professional qualifications toward a career such as art administration or it can be the beginning of a student’s individual research as a professional artist. The course offers advanced studies in the practice of visual arts and provides students with the opportunity to study intensively areas of specialisation of their own choice. Studies focus on research concepts, strategies, methods, and the skills to apply them in the areas of visual arts. Students study advanced research subjects and complete a major visual arts project. Honours level work is evaluated through peer group activity, both within and external to the University. An honours degree in the visual arts can lead to a career as an artist or teacher, in museums, galleries, community arts
programs, art and design consultancies or conservation organisations.

**Major studies:** Painting, Photomedia, Theory of Art and Design, Visual arts.

**Prerequisites:** Bachelor degree (3 year) or equivalent in an Art and Design field.

**Middle-band:** None

**Selection Mode:** CY12: ATAR. NY12: Educational History including GPA.

**Extra requirements:** None

- Bachelor of Visual Arts and Bachelor of Education (Primary): 4 years full time study

**About the course:** This double degree is suited to those interested in a secondary teaching career and in broadening their knowledge in visual arts disciplines. The course will enhance your career options and deepen your understanding in the visual arts areas you teach in schools.

The program provides a deep understanding of teaching and learning as well as curriculum and assessment, professional engagement and the development of children aged from 5 to 12 years. Students complete a major in education and curriculum. Education units include: child and adolescent development, professional identity, leadership and engagement and curriculum, assessment and evaluation. Curriculum units include: literacy, numeracy, health, science, technology and environment. In Visual Arts first year, students undertake a range of studio disciplines, theory of art and design and drawing. In second and third years, students undertake a major studio in visual practice, complementary studies and theory of art.

Students complete a minimum 80 days of supervised teaching placement in primary school settings. Professional placements give students vital teaching experience and connect the theoretical components of their studies with the practical aspects of teaching.

This course is accredited by the Victorian Institute of Teaching (VIT). Graduates can seek registration with the VIT to start their teaching career. In addition, graduates can pursue careers in visual arts related fields such as drawing, design and visual media.

This course is equivalent to 4.25 years of full time study but is completed in 4 calendar years. Studies in Visual Arts and Education are taken concurrently. Travel between campuses will be required. Visual Arts units will be taught at Caulfield campus. Year 1 of the course will be taught at Clayton and Caulfield. Years 2 and 3 will be at Peninsula and Caulfield. Year 4 will be at Peninsula.

**Major studies:** Art Theory, Creative arts, Drawing, Education, Education studies, Fine art, Painting, Photography, Photomedia, Printmaking, Printmedia, Sculpture, Teaching (primary), Visual arts.

**Prerequisites:** Units 1 and 2: satisfactory completion in two units (any study combination) of General Mathematics or Mathematical Methods or Units 3 and 4: any Mathematics; and a study score of at least 30 in English (EAL) or 25 in English other than EAL; and a study score of at least 30 in one of Art or Studio Arts.
Middle-band: A study score of 35 in English other than EAL equals 1.5 aggregate points per study. A study score of 40 in English (EAL) equals 1.5 aggregate points. Overall maximum of 1.5 points.

Selection Mode: CY12: ATAR and middle-band.

NY12: Educational History including GPA, VTAC Personal Statement (All), Supplementary form (All), Folio (All), Interview (All). See extra requirements for more information.

SEAS is considered.

Extra requirements:

VTAC Personal Statement (NY12-All): NY12 applicants must complete a VTAC Personal Statement detailing community involvement and evidence of how they have fulfilled the equivalent mathematics prerequisite.

Supplementary form (NY12-All): Applicants must complete the online Monash Art Design and Architecture registration form by no later than 11 October. To register go to: www.monash.edu/mada/study/apply

Folio (NY12-All): Applicants will be required to submit a digital copy of their folio.

Interview (NY12-All): Applicants are required to attend an interview, where they will present their folios. Details about the interview process will be sent to applicants by 12 November. Interviews will be hosted from late November to early December. Advisory letters will be sent to applicants by 13 December. Each applicant's final ranking is based on their interview score; applicants must also achieve a minimum ATAR or GPA.

All: SUCCESSFUL APPLICANTS: Students will be required to complete a Working With Children Check (WWCC).

- Bachelor of Visual Arts and Bachelor of Education (Secondary): 4 years full time study

**About the course:** This double degree is suited to those interested in a secondary teaching career and in broadening their knowledge in visual arts disciplines. The course will enhance your career options and deepen your understanding in the visual arts areas you intend to teach in schools.

The program provides a deep understanding of teaching and learning as well as curriculum and assessment, professional engagement and adolescent development and learning. Education units include: professional engagement and leadership, and local and global perspectives in education. Curriculum units include: becoming a specialist teacher, curriculum development and innovative practice.

In visual arts first year, students undertake a range of studio disciplines. In second and third years, students undertake a major studio in visual practice, complementary studies and theory of art. This course qualifies students for the double visual arts teaching specialist area. For more information visit: www.education.monash.edu.au/units/secondary-specialisms.html.

Students complete a minimum 80 days of supervised teaching placement in primary and secondary school settings. Professional placements give students vital teaching experience and connect the theoretical components of their studies with the practical aspects of teaching.

This course is accredited by the Victorian Institute of Teaching (VIT). Graduates can seek registration with the VIT to start their teaching career. In addition, graduates can pursue careers in visual arts, graphic design and visual communication.

This course is equivalent to 4.25 years of full time study but is completed in 4 calendar years. Studies in Visual Arts and Education are taken concurrently. Travel between campuses will be required. Visual Arts units will be taught at
Caulfield campus. Year 1 to 3 of the course will be taught at Clayton and Caulfield. Year 4 will be at Clayton.

Folio (NY12-All)
Moorabbin Flying Services

Moorabbin Flying Services (MFS), established in 1993, has a goal to provide excellence in flight training and specialist instruction to every student pilot from either a domestic or international geographic location. Today, we can confidently say that we have delivered on this goal as we are considered by our students, flight instructors, peers and industry as one of the finest flying schools in Australia.

MFS, based at Moorabbin Airport, has grown to become one of Australia’s premiere commercial pilot and private pilot training organisations. Our commitment to flying training is second to none, fostered by our highly experienced flight & aviation theory instructors and approved flight testing officers, who together amass over 100,000 logged flight hours between them.

The Directors and staff of MFS have a keen desire to ensure the quality of flight instruction and training that students experience at MFS exceeds their expectations. At MFS we are pleased to offer each of our students and customers a guaranteed commitment of service and excellence to assist them reaching their aspirations of a career in aviation.

Open Day

Open Day. 31/08/2013 - 10.00am - 2.00pm. This about getting questions answered, exploring course options speak with staff and current students and take part in Information Sessions, explore our Campus, and our Simulator and have a close up look at our fleet of planes. For more information: www.mfs.com.au

Special Entry Access Scheme (SEAS)

Moorabbin Flying Services believe in every prospective student and feel they should be given every opportunity to succeed in their chosen course of study. At Moorabbin Flying Services we value each and every applicant from a diverse range of backgrounds. Applicants applying to Moorabbin Flying Services are encouraged to apply under SEAS in the following categories:

- Mature age consideration
- Non-English speaking background
- Recognition as an Indigenous Australian
- Women or men in under-represented disciplines

The special entry access scheme (SEAS) enables our selection officers to grant extra consideration for course entry to applicants. It is not however used as a replacement for course entry requirements. Consideration of SEAS allows some flexibility in the entry requirements. For more information: www.mfs.com.au

Credit Transfer

MFS allows you to count previous education or training in this field towards part of the qualification. For more information: www.mfs.com.au

Deferment

New students can apply to defer for 6 or 12 months. Please contact MFS for the appropriate deferment form which needs to be returned prior to the enrolment date. For more information: www.mfs.com.au
Aviation (VET)

Moorabbin Flying Services
Moorabbin Airport: 9430194042 (DFP) full-time/part-time  Apply: Through VTAC main round  mid-year

- Certificate IV in Aviation (Commercial Pilot Aeroplane License): 7.5 months full time study
- Diploma of Aviation (Instrument Flight Operations): 1 year full time study

About the course: The Certificate IV is designed to advance the trainee pilot from total novice to commercial pilot. The night rating allows the pilot to fly day and night. After one year with the required flight skills students can apply for employment with charter companies, domestic regional airlines, or flight school. A further six months of study is required to complete the Diploma and gain a Multi Engine Command Instrument Rating which means enhanced employment opportunities and a pathway into the RMIT degree program. Industry bodies and experts have been extensively involved in the design, development and delivery of the course, which ensures our students possess far more than the bare minimum knowledge and skills. Included are Multi Engine Commercial Pilot’s Licence, Night Rating and Multi Engine Command Instrument Rating. Students are enrolled in the lowest level qualification and progress subject to performance and sufficient flight experience to the higher qualification.

Prerequisites: None

Middle-band: None

Selection Mode: CY12: ATAR, Interview (All). See extra requirements for more information.
NY12: Educational History including GPA, Interview (All). See extra requirements for more information.
SEAS is considered.

Extra requirements:
Interview (CY12-All, NY12-All): Applicants will be asked to attend an interview prior to being given an offer. MFS will contact the applicant with an interview date and time. If this is not suitable it is recommended the applicant contacts MFS to arrange a different date and time.
Established in 1990, the Navitas College of Public Safety (NCPS) is an Australian owned independent tertiary education provider offering a degree in criminal justice. NCPS is part of the Navitas Group, a global education provider offering an extensive range of services for students and professionals including university programs, English language programs and internships.

NCPS teaching staff are highly qualified; many are practitioners in the field who bring their work experience to their teaching and pass on not only the latest information but also real life examples. This means some NCPS classes will be taught by lawyers, police officers, criminologists, psychologists and other criminal justice professionals.

NCPS has a supportive teaching and learning environment. The Student Support Unit offers a range of support services to help students through their studies and to help manage any academic or personal issues they may face. Some of the services offered include student welfare, counselling support, learning and academic support and job readiness.

The NCPS campus is centrally located in Melbourne's CBD at 123 Lonsdale Street. It is easily accessible by public transport and is just a short walk from cafes, shopping districts and Melbourne’s law precinct. The campus is a fully equipped educational facility. It features a number of teaching rooms, student lounges, a course-specific library, a well-equipped IT lab and wireless broadband internet throughout the campus.

The Bachelor of Social Science (Criminal Justice) at NCPS will prepare students for a career in the field of criminal justice and because it is delivered in trimester mode (three teaching periods per year) students can complete their degree after just two years of successful full-time study and enter the workforce earlier.

Graduates of the course have a qualification that is widely recognised by professional agencies and major employers within various fields. Graduates can gain employment in a range of occupations related to the operation and administration of justice and develop careers in areas such as policing and law enforcement, investigations, customs, para-legal work, court administration, youth justice, community services, corrections and much more.

NCPS also includes a work placement as part of the Bachelor of Social Science (Criminal Justice) providing students with the opportunity to practise skills in a work environment, to meet professionals working in the industry and to gain experience before they graduate. NCPS has links with many organisations giving students the opportunity to choose a work placement that matches their interests.

Students who enrol at NCPS will enjoy the benefits of studying in a specialised learning environment.

SEAS

NCPS supports access & equity schemes. SEAS applicants receive additional consideration to provide opportunities to individuals who otherwise may not have access to higher education. For more information: http://www.ncps.edu.au/special-entry-access.html

Admissions Tests
Applicants applying for SEAS Category 1: on the basis of Mature Age who have not met minimum tertiary entrance requirements must sit the STAT Multiple Choice Test.

Fees
For more information: http://www.ncps.edu.au/course-fees.html

Criminal Justice (HE)

Navitas College of Public Safety
City: 9130191302 (DFP) full-time/part-time  Apply: Through VTAC main round

- Bachelor of Social Science (Criminal Justice): 2 years full time study

About the course: "Criminal Justice" is the term used to cover interrelated but diverse disciplines which include criminology, criminal psychology, criminal law, law enforcement, corrections and justice related issues such as ethics, drugs and crime, community safety and support and sentencing.

The Bachelor of Social Science (Criminal Justice) at NCPS provides students with a sound theoretical understanding and practical knowledge of criminal justice systems and associated aspects.

NCPS's Criminal Justice degree will prepare students for a career in the field of criminal justice and because it is delivered in trimester mode (three teaching periods per year) students can complete their degree after just two years of successful full-time study and enter the workforce earlier.

Graduates of the course have a qualification that is widely recognised by professional agencies and major employers within various fields. Graduates can gain employment in a range of occupations related to the operation and administration of justice and develop careers in areas such as policing and law enforcement, investigations, customs, para-legal work, court administration, youth justice, community services, corrections and much more.

NCPS also include a work placement as part of the Bachelor of Social Science (Criminal Justice) providing students with the opportunity to practise skills in a work environment, to meet professionals working in the industry and to gain experience on their resume before they graduate. NCPS has links with many organisations giving students the opportunity to choose a workplace that matches their interests.

To successfully complete the Bachelor of Social Science (Criminal Justice), students must complete 24 subjects made up of both core and elective units.

Prerequisites: Units 3 and 4: a study score of at least 25 in any English.

Middle-band: None

Selection Mode: CY12: ATAR, VTAC Personal Statement (All).
NY12: Educational History including GPA, VTAC Personal Statement (All), STAT (All).
SEAS is considered.

VTAC Personal Statement (CY12-All, NY12-All)
STAT (NY12-All)
Northern College of the Arts and Technology

The Northern College of the Arts and Technology caters for students seeking a specialised education in the arts, trades or technologies.

Industry professionals deliver innovative curriculum designs to meet current tertiary, TAFE and industry requirements. With state-of-the-art facilities and a highly successful track record, the College provides a mature study environment to foster individuality and personal growth.

As a College, we recognise multiple types of intelligence. We reward practical problem solving, creativity, lateral thinking, building, fixing, designing and innovating. Every student benefits from a curriculum designed to encourage individuality and creativity. Our hands-on learning approach develops confidence, teamwork and the necessary skills for students who wish to pursue further study, apprenticeships or employment.

We run post-secondary programs for talented students, including adults who want to concentrate on their passion, whether it be in the performing arts, visual arts, design, media, trades or technologies.

Our students are supported and encouraged by teachers who are experts in their field. Our teachers work alongside students to help them excel in the skills they need to pursue their dreams. Skilled staff and state-of-the-art facilities ensure that our courses are cutting edge and highly valued by industry and tertiary institutions.

Recognition Processes

National Recognition NCAT will recognise nationally recognised Statements of Attainment and Qualifications issued by other Registered Training Organisations. National Recognition will be done at no cost to the student and will not require any further assessment. Credit Transfer. If you can demonstrate that you have completed, or partially completed, relevant training NCAT will undertake an assessment and grant credit transfer for all relevant prior learning. To apply for national recognition or credit transfer, contact the NCAT VET Manager. For more information: http://ncat.vic.edu.au/student-information

Scholarships

The Northern College of the Arts and Technology rewards a different sort of student. We recognise that there are multiple types of intelligence, and as such we reward practical problem-solving, creativity, lateral thinking, making, building, fixing designing and innovating. As an initiative designed to acknowledge and reward excellence in practical fields of study, the College is currently taking scholarship applications for Certificate IV programs. What will the scholarship cover? Scholarships will fully cover the program and materials fees for one full college year. Just as the selection requirement may vary slightly from program to program, so too will the scope of the scholarship: Scholarships will fully cover the program and materials fees for one full college year. Scholarships are available for the following courses in 2014: Certificate IV in Visual Arts Or Certificate IV in Design and Certificate IV in Music Or Certificate IV in Sound Production How do I apply? Please contact us to obtain a scholarship application form. For more information: http://ncat.vic.edu.au/scholarships
Enrolment and deferment

Enrolment

All successful applicants need to follow the enrolment steps indicated in their Offer Letter. All successful applicants will receive an enrolment pack. For more information: ncat.vic.edu.au/student-information

Deferment

Deferment may be granted for some courses. Contact NCAT on 03 9478 133 for further information. For more information: ncat.vic.edu.au/student-information

Student Services

Accommodation

NCAT does not provide student accommodation. Our student services may be able to assist in finding suitable accommodation. For more information: ncat.vic.edu.au/student-information

Student Counseling

Student care The College takes its responsibility for student well-being and the development of student excellence very seriously. If you have any questions about the College Policies & Procedures please contact the College directly. The College has a Youth Worker, a Careers Advisor, Integration teachers, and support teachers available to provide advice and assistance. Some Programs have additional staff with the specific role of Student Wellbeing, and there are Program Managers or Coordinators, responsible for overseeing student progress and wellbeing. For more information: ncat.vic.edu.au/student-information

Design (VET)

Northern College of the Arts and Technology

Northern College of the Arts and Technology: Commonwealth-supported places full-time/part-time
Northern College of the Arts and Technology: International fee-paying places full-time/part-time

- Certificate IV in Design: 1 year full time study

About the course: This course develops the skills and knowledge required to undertake work within the broad design field. Explore and develop practical and conceptual skills across both digital and traditional media, and specialise in specific design areas. Certificate IV in Design is a flexible qualification, designed to meet a broad range of industry needs. It provides a pathway to a career in design.

Led by an experienced staff of dedicated designers and artists, NCAT Folio Preparation is widely respected across the creative industries as a long established, quality contributor to education. This course offers post VCE, VCAL Senior and mature-age students an opportunity to put together a comprehensive portfolio for entry into folio-based university courses.

Develop and refine your practical and conceptual design skills. Become proficient in the use of the Adobe suite, including Illustrator, Photoshop, InDesign & Flash. Create a substantial folio of work for tertiary interview and entrance. Build your creative confidence by creating a tailor-made program that suits your individual needs and requirements.

NCAT Folio Preparation caters for a range of skills and interests, from beginners to advanced creatives. It also enables mature aged students seeking a career change to build their practical and conceptual skills and to create a substantial body of work.

- Certificate III in Fitness: 1 year full time study

About the course: This course is aimed at those seeking a career in the fitness industry and sport and recreation sector. Students engage in practical workplace simulation at the NCAT gym and other fitness and leisure centres. NCAT's industry links enable students to engage in paid employment in areas such as AFL umpiring, pool life guarding and customer service roles. On completion, this certificate qualifies students as Fitness Instructors. AFL Victoria is a support partner of NCAT for the AFL Umpiring study option embedded in this course.

This program has a high practical component including weight training, aerobic training, recreational activities and personal training sessions conducted by industry professionals. It also covers the foundation knowledge in anatomy, physiology, nutrition, resistance training, customer service and occupational health and safety in the fitness industry.

Prerequisites: None

Middle-band: None

Selection Mode: CY12: Supplementary form (All), Interview (All). See extra requirements for more information.
NY12: Supplementary form (All), Interview (All). See extra requirements for more information.

Extra requirements:
Supplementary form (CY12-All, NY12-All): Applicants must complete and submit an Application form available from the NCAT website: ncat.vic.edu.au/applications

Folio (CY12-All, NY12-All): A demonstrated interest in design related areas is preferred. Applicants must be able to demonstrate independence, self-motivation, and good organisational skills

Interview (CY12-All, NY12-All): Applicants will be contacted for an interview. For further enquiries or late applications, telephone NCAT Folio Preparation: 03 9478 1333 or email: NCATfoliopreparation@gmail.com

Certificate III in Media: 1 year full time study

About the course: The Certificate III in Media provides students with a range of skills they would use in a Media based workplace. The course has been tailored to reflect the creation and marketing of a multimedia game. From their original concept ideas and drawings, students produce portfolios that show character development and idea generation and also contain storyboards outlining their ideas for the game, video and web site they intend to produce.

Students also learn the techniques of how to write content for a range of media and create and exhibit the media they produce throughout the year. They will then develop a web site to display and for customers to download the finished game.

The program prepares students to pursue further study in the area of Multimedia or related areas. It runs for one day a week over a year.

Prerequisites: None

Middle-band: None

Selection Mode: CY12 : Interview (All). See extra requirements for more information.

Music (VET)

Northern College of the Arts and Technology

Northern College of the Arts and Technology: Commonwealth-supported places part-time

Northern College of the Arts and Technology: International fee-paying places part-time

Certificate III in Music: 1 year full time study

About the course: This Certificate is delivered around building a repertoire of cover and original material which will be performed live at multiple events both school based and industry based. The recording, and launch of a CD of original compositions, along with a major performance event, will be organised by students as the culmination of the year's work.

Activities/tasks
Seeing live bands and reviewing performances;
Researching an area of music genre/style and presenting to the class;
Acquiring skills in band management and rehearsal techniques;
Playing in various ensembles, in multiple styles;
Re-interpreting popular songs, through the investigation of genre and important historical musical movements;
Song writing workshops for the composition of original material;
Aural and theory training;
Planning, preparing and promoting a gig as part of a group, for the launch of a compilation CD of original compositions.

Major studies: Group Performance, Instrumental Tuition, Music Composition, Music Industry, Music Performance, Music Technology, Occupational Health and Safety, Recording.
Music Technical Production (VET)

Northern College of the Arts and Technology

Commonwealth-supported places

part-time

Apply: Direct to institution

International fee-paying places part-time

Apply: Direct to institution

Certificate III in Technical Production: 1 year full time study

About the course: Live audio, recording and lighting are the major focus areas of the certificate. Students are given multiple opportunities to set up and operate live audio for concerts and other events. Multiple digital audio workstations are available for students to gain and refine their skills on recording programs such as Protools LE and HD, Logic Pro Audio, Garage Band, Rebirth and Reason. Digital and analogue gear is used to teach both audio and lighting. Students will gain the skills required to work creatively and effectively within the music industry. It provides a broad basis of industry knowledge and skills that can be applied in multiple life and work experiences. It runs for one day a week over a year.

Major studies: Audio Engineering, Editing, Music Recording, Music Technology, Production Planning, Recording Processes, Sound Mixing, Sound Recording.

Prerequisites: None

Middle-band: None

Selection Mode: CY12 : Interview (All). See extra requirements for more information.

NY12 : Interview (All). See extra requirements for more information.

Extra requirements:

Interview (CY12-All, NY12-All) : Telephone 9478 1333 or email ncat@edumail.vic.gov.au before November 8th to arrange an interview. Late applicants telephone 9478 1333. Applicants must be able to demonstrate independence, self-motivation and good organisational skills. Application forms are available from the NCAT website: ncat.vic.edu.au/applications

Music Performance (VET)

Northern College of the Arts and Technology

Commonwealth-supported places

full-time/part-time

Apply: Direct to institution

Certificate IV in Music: 1 year full time study

About the course: The course is designed to allow students to focus on Music, covering both performance skills, and technical production skills. Students may specialise in band or solo performance, event organisation or song writing. It encourages self-expression and collaboration, using many different processes and tools, from instruments and computers, to voices and electronic equipment.

There are opportunities for very diverse and inclusive styles of performance, organised in a student-oriented way, in professional venues.

This certificate focuses on preparing students for a career in the music industry and employment as performers in musicals and gigs, gaining work through booking agencies, venue operators or festival organisers whilst establishing themselves as performing artists as well as further tertiary study. While the course has a strong structure it also allows room for students to negotiate and self direct their learning.

The course covers assertive communication, pre-rehearsal skills and techniques for using studio/rehearsal time efficiently; presenting and performing polished musical performances; event preparation and promotion; and applying music theory knowledge to record original compositions and peer performed arrangements.

This course provides pathways into a career or further study for those with a passion for music. It provides a broad basis of industry knowledge, over and above performance, that can be applied in multiple life and work experiences. It helps create and connect a network of like-minded learners, which, aside from expanding potential output, goes on to develop into industry contacts in the future.

Major studies: Group Performance, Instrumental Tuition, Music Composition, Music Industry, Music Performance, Music Technology, Occupational Health and Safety, Recording.

Prerequisites: Year 12

Middle-band: None

Selection Mode: CY12 : Supplementary form (All), Interview (All), Audition (All). See extra requirements for more information.

NY12 : Supplementary form (All), Interview (All), Audition (All). See extra requirements for more information.

Extra requirements:

Supplementary form (CY12-All, NY12-All) : Applicants must complete and submit an Application form available from the NCAT website: ncat.vic.edu.au/applications

Interview (CY12-All, NY12-All) : Telephone 9478 1333 or email ncat@edumail.vic.gov.au before November 8th to arrange an interview. Late applicants telephone 9478 1333.

Audition (CY12-All, NY12-All) : All applicants must present for an audition at which students will be assessed for suitability for this course.

Musical Instrument Making (VET)

Northern College of the Arts and Technology

Certificate IV in Musical Instrument Making and Repair: 1 year full time study

About the course: A career in guitar making is possible through studying VET Musical Instrument Making & Repair at NCAT.

The College's Musical Instrument Making and Repair curriculum is the only qualification of its kind in Australia. The course covers both traditional and emerging digital technologies. Opportunities are available in the guitar industry, practicing repair or instrument set up, manufacture and design. Programs offer both traditional woodcraft, and high volume manufacture techniques.
Students begin by completing an extensive OH&S program, incorporating theory and workshop induction. Over the year, students learn to make a bolt-on electric guitar, a dreadnaught style acoustic guitar and design and construct a custom made instrument of their choice. As part of the course students learn to complete perspective drawings, isometric and concept drawings and use their skills to develop a product range. They also learn to generate computer aided drawings and create custom templates and jigs and develop custom logos and inlays for their instruments. Students learn string instrument setup from guitar to ukulele to violins. The course also covers the development of a business plan, the physics of sound and improving instrument function as well as hand carving. All students must complete a work placement at Maton Guitars as part of the program.

Students learn to make their own guitars or other musical instruments, to repair them and can go on to work in the industry or set up their own business.

**Prerequisites:** None

**Middle-band:** None

**Selection Mode:** CY12 : Interview (All). See extra requirements for more information. NY12 : Interview (All). See extra requirements for more information.

**Extra requirements:**
Interview (CY12-All, NY12-All) : Please contact Bon Nardella, the program Coordinator at NCAT for an interview before December 1st on (03) 9478 1333. Late applications may be accepted. Application forms are available from the NCAT website: ncat.vic.edu.au/applications

---

**Musical Instrument making (VET)**

**Northern College of the Arts and Technology**

- **Commonwealth-supported places**
  - part-time

  - Certificate III in Musical Instrument Making and Repair: 1 year full time study

**About the course:** The course runs for one day a week over a period of two years. The main focus is guitar construction and repair, but other instruments are also possible. Students will complete two instruments, as well as introductory pieces of work. Various repair techniques are also studied. There is a CAD component, which introduces students to modern instrument manufacturing techniques.

**Prerequisites:** None

**Middle-band:** None

**Selection Mode:** CY12 : Interview (All). See extra requirements for more information. NY12 : Interview (All). See extra requirements for more information.

**Extra requirements:**
Interview (CY12-All, NY12-All) : Telephone 9478 1333 or email ncat@edumail.vic.gov.au before November 8th to arrange an interview. Late applicants telephone 9478 1333. Application forms are available from the NCAT website: ncat.vic.edu.au/applications

---

**Sound Production (VET)**
Certificate IV in Sound Production: 1 year full time study

About the course: Students will learn skills required to set up, operate, pack up and maintain professional standard live/studio audio and lighting equipment. The students will be given multiple opportunities to refine their skills in an industry setting such as live music events, studio management, live sound and lighting, recording and maintenance during the year.

The course strongly focuses on providing students with a broad skill set that will enable them a wide range of employment opportunities within the music industry.

This course provides pathways into a career or further study for those with a passion for music technology. It provides a broad basis of industry knowledge that can be applied in multiple life and work experiences. It helps create and connect a network of like-minded learners, which, aside from expanding potential output, goes on to develop into industry contacts in the future.

Major studies: Audio Engineering, Editing, Music Recording, Music Technology, Production Planning, Recording Processes, Sound Mixing, Sound Recording.

Prerequisites: Year 12

Middle-band: None

Selection Mode: CY12: Supplementary form (All), Interview (All). See extra requirements for more information.

NY12: Supplementary form (All), Interview (All). See extra requirements for more information.

Extra requirements:

Supplementary form (CY12-All, NY12-All): Applicants must complete and submit an Application form available from the NCAT website: ncat.vic.edu.au/applications

Interview (CY12-All, NY12-All): Telephone 9478 1333 or email ncat@edumail.vic.gov.au before November 8th to arrange an interview. Late applicants telephone 9478 1333. A Certificate III in Technical Production would be an advantage.

Certificate III in Visual Arts: 1 year full time study

About the course: This program is designed to provide participants with the opportunity to build outstanding skills and knowledge in Art and Design, as well as to prepare a professional portfolio for further study. Classes are run in a simulated work environment where students follow professional practices and OH&S guidelines. Students also have the opportunity to take on additional short courses and work placements, as relevant to their chosen pathway.

Students develop and refine vital skills in drawing, digital imaging and design; learn about history, culture and industry and expertly utilise a range of materials including painting, printmaking, sculpture, photography, jewellery, textiles and fashion. Students apply these skills to independent and group projects in the local and broader community. Students regularly attend galleries & art industry events as well as working with specialists from Melbourne's creative community.

Prerequisites: None

Middle-band: None

Selection Mode: CY12: Supplementary form (All), Folio (All), Interview (All). See extra requirements for more information.

NY12: Supplementary form (All), Folio (All), Interview (All). See extra requirements for more information.

Extra requirements:

Certificate IV in Visual Arts: 1 year full time study

About the course: This course develops the skills and knowledge required to undertake work as a visual artist. Students explore and develop skills across both traditional and digital media, and specialise in specific visual arts areas. It provides a pathway to a career in the creative industries via employment, working as an artist or further training.

Led by an experienced staff of dedicated artists and designers, NCAT Folio Preparation is widely respected across the creative industries as a long-established, quality contributor to education. The Visual Arts course offers post VCE, VCAL Senior and mature-age students an opportunity to put together a comprehensive portfolio for entry into folio-based university courses. Certificate IV in Visual Arts is a flexible qualification, designed to meet a broad range of industry needs.

Develop and refine your conceptual and practical skills in the visual arts. Work across a range of specialisations including drawing, painting, printmaking, sculpture, photography, jewellery, textiles and fashion. Apply visual arts skills to independent and group projects in the local and broader community. Learn about art history, culture and industry. Work with specialists from Melbourne's creative community.

The course caters for a range of skills and interests, from beginners to advanced creatives, with the purpose of helping you to define your future direction. It also enables mature aged students seeking a career change to build practical and conceptual skills and to create a substantial body of work.

Interview (CY12-All, NY12-All): Interviews will be held in November and December. Late interviews may be possible in early February 2014.
Northern Melbourne Institute of TAFE

NMIT's reputation for providing high quality vocational education and training dates back over 100 years when the Institute's history commenced with the opening of Collingwood Technical School in 1912. Since then, NMIT has grown to comprise five metropolitan campuses and a number of specialist training centres throughout Melbourne's north.

NMIT is registered to deliver over 550 nationally recognised qualifications and over 410 Institute accredited courses. Qualifications include pre-apprenticeships, apprenticeship and traineeship programs, certificates, diplomas and advanced diplomas. VET programs (Vocational Education and Training) cover a wide selection of industries from mechanical engineering, building and interior decoration to business studies, hair and beauty, hospitality and many more.

NMIT delivers an established range of higher education programs including specialist bachelor (3 or 4 year) and associate (2 year) degrees that currently include Accounting, Agriculture and Land Management, Business, Early Year Studies, Education (Early Years), Equine Studies, Hospitality Management, Illustration, Information Technology, Music, Music Industry and Writing and Publishing. A higher education Diploma of Tertiary Studies is offered and has been designed to thoroughly prepare students for further tertiary study.

NMIT graduates are work ready and employable with the right combination of knowledge and skills. Many courses include practical placements, industry/community focused assignments or facilities that replicate actual work environments. Students benefit from hands on training in commercial grade facilities located across five campuses plus six specialist training centres in Melbourne's north and a regional campus in Ararat. Facilities include digital design studios, metal working shops, fully operational restaurants, horse stud, wine bottling plant, a 300 hectare farm, television studio, hairdressing salons, IT labs and a meat processing facility.

During 2013, NMIT opened a large new teaching and learning facility on its Preston campus with the latest in teaching spaces. This facility includes a fully equipped fitness centre available for use by all NMIT students regardless of which campus they study at.

Selection policies

VCAL
NMIT will accept students who have attained the senior level of VCAL in lieu of the VCE for VET programs.

Extra requirements:
Some VTAC courses at NMIT have additional requirements as part of the selection process. For example: an interview, folio presentation, audition, proof of previous work experience and qualifications, attending an information session, filling out a supplementary application form, a questionnaire or a combination of the above. Details are contained in the relevant course entries. Please note that if the selection mode includes any of the additional requirements, failure to meet those requirements will result in you not being considered for selection.
November 2014

- **Semester 2 (Higher Education):**
  21 July 2014 - 24 October 2014

### Admissions test
Non-Year 12 applicants applying for the Bachelor of Education (Early Years), Bachelor of Early Years Studies or Associate Degree in Early Years Studies who have not completed Year 12 (or equivalent) must sit the STAT Multiple Choice. For advise on whether you should sit the STAT, please call (03) 9269 1390

### Special Entry Access Scheme (SEAS)
NMIT provides a fair and equitable selection process and provides a range of support services to students affected by adverse circumstances. For more information: www.nmit.edu.au/current-students/student-services

### Credit transfer, pathways and recognition of prior learning

#### Pathways into courses
NMIT can help you on your journey by providing articulation across a variety of pathways into TAFE and Higher Education. In fact, NMIT was the first Victorian TAFE to offer Higher Education programs. At NMIT, you can commence study in a Certificate III or IV, articulate into a Diploma or Advanced Diploma and then articulate into an Associate or Bachelor degree program. For more information: www.nmit.edu.au/pathways

#### Recognition of prior learning
Skills recognition is the general term given for the assessment of an applicant's previous learning or skills development for the purpose of gaining credits or exemptions for a partial or full qualification. The three categories of Skills recognition are: Recognition of Prior Learning (RPL) Recognition of Current Competency (RCC) Credit Transfer (T) For more information: www.nmit.edu.au/pathways/rpl

### Information Evenings:
Check our website throughout the year for details of our Information sessions at www.nmit.edu.au/superthursdays

### Fees:
For further information about fees including information regarding FEE-HELP and VET FEE-HELP for these courses go to www.nmit.edu.au/fees or www.studyassist.gov.au For more information: www.nmit.edu.au/fees

### Study grant awards program
NMIT rewards students demonstrating academic or skills excellence in their studies and who show commitment and a passion for their chosen field of study. Through the NMIT Industry Foundation, financial study grants are offered to assist winners with purchasing school materials or other resources or, perhaps going on a study tour. For further information, email studygrants@nmit.edu.au or phone (03)9269 8461. For more information: www.nmit.edu.au/current-students/awards-program

### Early offers rounds
Not all courses at NMIT participate in Early Round offers for Non Year 12 applicants. For further information, refer to the VTAC website in early November.

### Deferment
At NMIT, you can defer your VTAC offer for up to one year
from the commencement date of the course. Deferment can only be granted for the course in which the applicant received the offer of a place. Please note that courses may change campuses from year to year. Applicants must fill out the VTAC Deferment Form (doc id: B/AR/F/7021). This form can be obtained from the VTAC Liaison Officer on (03) 9269 1247 along with further information about deferment.

**Creative Product Development (VET)**

**Northern Melbourne Institute of TAFE**

Preston: 6900669484 (Fee type determined by provider) full-time  
Apply: [Through VTAC](http://www.wss8.vtac.edu.au/courses-inst/institutions/topdf/nmit.html) main round

- Advanced Diploma of Creative Product Development: 1 year full time study

**About the course:** This is a one-year course for people wishing to extend and deepen their creative practice after gaining a previous qualification in art, design, illustration or photography. Applicants with extensive vocational experience may also be admitted. The course has three main components. Studio Practice is where students develop their visual art or 'product' through studio work, tutorials and feedback sessions. Art Theory is where ideas and concepts of contemporary art and design are discussed. Arts Business is where professional practice is tailored to the individual student. Students are encouraged to develop their work by setting individual projects and working on them throughout the year. These can culminate in exhibitions, portfolios or published works. The study environment reflects an artist's studio and is designed to help graduates make a smooth transition into industry, freelance work or exhibitions.

**Major studies:** Art and design theory, Business skills, Drawing, Illustration, Photography, Research skills, Sustainability.

**Prerequisites:** Diploma Visual Arts, Illustration, Graphic Design or Photo Imaging.

**Middle-band:** None

**Selection Mode:** NY12 : Educational History including GPA, Folio (All), Interview (All). See extra requirements for more information.

**Extra requirements:**
Folio (NY12-All) : Applicants must present a folio at the interview. Interview (NY12-All) : Applicants must book an interview between 1 October and 16 November by logging onto [www.nmit.edu.au/onlinebooking](http://www.nmit.edu.au/onlinebooking) or telephoning (03) 9269 1431. Applicants will receive a confirmation email or letter advising of interview time and details. Letters advising of the interview outcome will be sent by mid December. Applicants with no previous qualification must prove extensive vocational experience in the creative arts or design fields at the interview. Late applicants please phone (03) 9269 1431.

---

**Design (VET)**

**Northern Melbourne Institute of TAFE**
Certificate IV in Design: 1 year full time study

About the course: This one-year course provides a broad base of skills in design, enabling students to make an informed decision about their future direction. Post- secondary students especially gain a foundation in design skills which can lead on to further training in such areas as graphic design, illustration, industrial design and multimedia. Students explore the use of colour, typography, layout and the principles of design through project-based work that combines good technique with creative expression. The course covers graphics, drawing, illustration, 3D design and digital design. In addition these practical areas are linked to design and colour theory and concept development, creating a strong foundation for further study, leading to employment in the design field.

Major studies: 2D and 3D design, Colour theory, Concept design, Design process, Design theory, Digital imaging, Drawing, Graphic design, Illustration, Typography.

Prerequisites: None

Middle-band: None

Selection Mode: CY12 : ATAR, Folio (All), Interview (All). See extra requirements for more information.
NY12 : Educational History including GPA, Folio (All), Interview (All). See extra requirements for more information.

Extra requirements:
Folio (CY12-All, NY12-All) : Applicants must present a folio at their interview.
Interview (CY12-All, NY12-All) : Applicants must book an interview between 1 October and 16 November. Bookings are to be made online at www.nmit.edu.au/onlinebooking or telephone (03) 9269 1431. Applicants will receive a confirmation email or letter advising interview times and details. Late applicants should contact the department on (03) 9269 1431. Letters advising of the interview outcome will be sent by mid December.

Certificate IV in Digital Media Technologies/Certificate IV in Digital and Interactive Games: 1 year full time study

Diploma of Digital Media Technologies/Diploma of Digital and Interactive Games: 2 years full time study

About the course: This is a Pathway Program. You will be enrolled in the lowest qualification and will progress, subject to satisfactory academic progress, to the higher qualification levels. The Certificate IV qualification reflects the role individuals who possess a sound theoretical knowledge base and use of a range of specialised technical or managerial competencies to plan, carry out and evaluate the work of self and team in the digital and interactive media industry. Each qualification comprises core competencies and a selection of electives. The pathway to the Diploma will incorporate the Certificate IV. The course focuses on the practical application of various digital and interactive media technologies based on software packages. Course work culminates in the showcasing of student work in a gallery style presentation at the end of the course.

Applicants are encouraged to attend an information session which will be held at the Collingwood campus Library, Level 2, 20 Otter St, Collingwood on 15 August, 12 September or 17 October. For further information, please phone (03) 9269 8933.

Major studies: 2D and 3D digital animation, 3D modelling, Animation, Audio and video, Authoring, Design principles, Designing an interactive digital media project, Digital art, Digital imaging, Games design and development, Interface design, Managing an interactive digital media project, Motion graphics, Storyboarding, Visual effects, Web design, Web development.

Prerequisites: None

Middle-band: None

Selection Mode: CY12 : ATAR, Interview (All). See extra requirements for more information.
NY12 : Educational History including GPA, Interview (All). See extra requirements for more information.
Early Childhood Education (HE)

Northern Melbourne Institute of TAFE
Preston: 6900669372 (DFP) full-time  Apply: Through VTAC main round

- Bachelor of Early Years Studies: 3 years full time study

About the course: This innovative and progressive three year degree prepares graduates for employment as a Kindergarten Teacher or as a Room Leader in a Children's Service. A unique aspect of this program is its focus on social issues and diversity with children from birth to 8 years. Students attend lectures, tutorials and undergo 133 days of supervised placement. Our Graduates are well equipped with contemporary knowledge and specialist expertise to ensure that all children develop to their full potential. This course is the first three years of Bachelor of Education (Early Years) four year degree. Graduates may articulate through to the final year of the Bachelor of Education (Early Years).

Experience in the Childcare industry will be highly regarded and qualification of either Advanced Diploma or Diploma of Children's Services may contribute to credits towards the course. Applicants are encouraged to attend one of the information sessions which will be held on 15 August, 12 September, 24 October or 5 December in Building F, Room PF104 at the Preston campus at 6.30 pm.

Major studies: Childhood development, Curriculum studies, Early childhood education, Early childhood studies, Teaching (early childhood).

Prerequisites: Units 1 and 2: satisfactory completion in two units (any study combination) of General Mathematics or Mathematical Methods; and Units 3 and 4: a study score of at least 25 in any English.

Middle-band: None

Selection Mode: CY12: ATAR, Interview (All). See extra requirements for more information. NY12: Educational History including GPA, Interview (All), STAT (Some), Successful applicant. See extra requirements for more information.

Extra requirements:
Interview (CY12-All, NY12-All): Applicants must telephone (03) 9269 1390 to make an appointment for an interview by 14 October and for late applicants by 9 December. Interviews will take place from mid October to mid November and during December for late applicants.

STAT (NY12-Some): NY12 applicants who have not completed Year 12 (or equivalent) must sit the STAT Multiple choice. For advice on whether you should sit the STAT, please call (03) 9269 1390.

WWC Check: Students must complete a Working With Children check before commencing the course.

Early Childhood Studies (HE)

Northern Melbourne Institute of TAFE
Preston: 6900669382 (DFP) full-time  Apply: Through VTAC main round

- Associate Degree in Early Years Studies: 2 years full time study

About the course: This innovative and progressive two year associate degree provides graduates with a recognised qualification to work as a Room Leader in a Children's Service. A unique aspect of this program is its focus on social issues and diversity with children, in particular infants and toddlers. Students attend lectures, tutorials and undergo 92 days of supervised placement. Our Graduates are well equipped with contemporary knowledge and specialist expertise to ensure that all children develop to their full potential. This course is the first two years of the Bachelor of Early Years Studies. Graduates may articulate through to the third year of the Bachelor of Early Years Studies and then onto the final year Bachelor of Education (Early Years).
Experience in the Childcare industry will be highly regarded and qualification of either Advanced Diploma or Diploma of Children's Services may contribute to credits towards the course. Applicants are encouraged to attend one of the Information sessions which are being held on 15 August, 12 September, 24 October or 5 December in Building F, Room PF104 at the Preston campus at 6.30 pm.

**Major studies:** Childhood development, Early childhood education, Teaching (pre-school).

**Prerequisites:** Units 3 and 4: a study score of at least 25 in any English.

**Middle-band:** None

**Selection Mode:** CY12 : ATAR, Interview (All). See extra requirements for more information.

**Engineering-Civil (VET)**

**Northern Melbourne Institute of TAFE**

Preston: 6900669414 (Fee type determined by provider) full-time  
**Apply:** Through VTAC main round

- Diploma of Engineering Drafting: 1 year full time study
- Advanced Diploma of Engineering Design: 2 years full time study

**About the course:** This is a Pathway Program. You will be enrolled in the lowest level qualification and will progress, subject to satisfactory academic progress, to the higher qualifications. The course prepares students for a range of para-professional occupations in the civil/structural engineering field. The course is designed to provide students with the knowledge and skills to apply engineering and scientific principles in civil/structural engineering applications. They will be able to manage projects, analyse, diagnose, design and execute judgements with respect to civil engineering.

**Major studies:** Civil design, Civil drafting, Civil engineering, Computer-aided drafting (CAD), Computing, Construction, Engineering (civil materials), Engineering (civil), Engineering (environmental), Engineering (measurement), Engineering (road drawing), Engineering (structural analysis and design), Engineering (survey), Management, Project management, Structural design, Structural drafting.

**Prerequisites:** None

**Middle-band:** None

**Selection Mode:** CY12 : ATAR.

NY12 : Educational History including GPA, Interview (All). See extra requirements for more information.

**Extra requirements:**

Interview (NY12-All) : Applicants must book an interview between 2 September and 11 November online at www.nmit.edu.au/onlinebooking or by telephone on (03) 9269 8333 or (03) 9269 1843. Applicants will receive a confirmation email or letter advising of interview details. Late applicants should contact the department on (03) 9269 8333 or (03) 9269 1843. Advisory letters will be sent to applicants by mid December.

---

**Engineering-Mechanical/Manufacturing (VET)**

**Northern Melbourne Institute of TAFE**

Heidelberg: 6900568444 (Fee type determined by provider) full-time  
**Apply:** Through VTAC main round

- Advanced Diploma of Engineering Technology: 2 years full time study

**About the course:** This course provides students with the knowledge and skills to apply engineering and scientific principles to mechanical and manufacturing engineering applications. Students will be able to analyse, diagnose, design and execute judgements with respect to mechanical and manufacturing engineering solutions.

**Major studies:** Computer-aided design (CAD), Computer-aided drafting (CAD), Drafting, Engineering (metallurgy), Engineering materials, Engineering mathematics, Fluid power, Industrial engineering, Machine design, Machine dynamics, Manufacturing, Mechanical design, Mechanics (applied), Project management, Quality management, Robotics, Thermodynamics, Workshop practices.

**Prerequisites:** None

**Middle-band:** None
Selection Mode: CY12: ATAR.
NY12: Educational History including GPA.

Extra requirements:
None

Equine Studies (Degree, Associate Degree) (HE)

Northern Melbourne Institute of TAFE
Epping: 6900268462 (DFP) full-time  Apply: Through VTAC  main round

- Associate Degree in Equine Studies: 2 years full time study
- Bachelor of Equine Studies: 3 years full time study

About the course: The Bachelor of Equine Studies is a multidisciplinary, three year program that includes basic sciences, equine sciences, equine management, equine facility management and business management. The course focuses on developing the ability to apply learned theory to practical situations for employment in the national and international equine industry.

It is designed for people aspiring to enter a science related discipline or equine management field. Graduates are encouraged to seek career positions as equine nutritionists, agronomists, bloodstock agents and equine facility managers.

Major studies: Anatomy, Business (management), Equine exercise physiology, Equine reproduction, Equine training, Horse behaviour, Horse health, Horse nutrition, Living systems, Pasture management, Physiology.

Prerequisites: Units 3 and 4: a study score of at least 20 in any English; and a study score of at least 20 in any Mathematics; and a study score of at least 20 in one of Biology or Chemistry.

Middle-band: None

Selection Mode: CY12: ATAR, Supplementary form (All). See extra requirements for more information.
NY12: Educational History including GPA, Supplementary form (All). See extra requirements for more information.

Extra requirements:
Supplementary form (CY12-All, NY12-All): All applicants must complete and submit the Equine Supplementary form by 6 December. To obtain a copy of the form telephone (03) 92691060.

Events/Hospitality (VET)

Northern Melbourne Institute of TAFE
Preston: 6900669174 (Fee type determined by provider) full-time  Apply: Through VTAC  main round

- Certificate III in Events: 0.5 year full time study
- Diploma of Events or Events/Hospitality: 1.5 year full time study
- Advanced Diploma of Events: 2 years full time study

About the course: Hospitality stream: This qualification reflects the role of the Event Manager who is responsible for the overall organisation and management of conferences, festivals and events either within a venue such as a convention centre, sporting venue, hotel, theatre or as an external independent event manager. Semester 1 specialises in operational skills for events and hospitality, and a practical focus to training to enable students to enter the workforce in a part time capacity. Students will be provided training in a real life learning environment utilising the NMIT training restaurant and actively involved in organising and participating in real life events.

Events stream: With this events course, you will learn how to plan, market and fund events. The Diploma builds on the Certificate III and focuses on organising and planning. You will take part in real events as a volunteer and organiser, help plan real events considering all aspects of the event industry including clients, running schedules, sustainability and hospitality. In conjunction with running the event you will be completing business, legal, and financial management subjects related to running an event. The Advanced Diploma utilises the skills gained in the diploma and provides a management focus.
Major studies: Administration, Communications, Event management, Feasibility studies, Hospitality operations, Human resources, Leadership, Management, Marketing.

Prerequisites: None

Middle-band: None

Selection Mode: CY12 : ATAR.
NY12 : Educational History including GPA.

Extra requirements: None

Fitness (VET)

Northern Melbourne Institute of TAFE
Preston: 6900669434 (Fee type determined by provider) full-time  Apply: Through VTAC  main round

- Certificate III in Fitness: 0.5 year full time study
- Certificate IV in Fitness: 0.5 year full time study

About the course: These nationally accredited courses provide the skills and knowledge necessary to work as a professional in the field. More and more people are using personal trainers to help them achieve optimum fitness. The Certificate III in Fitness provides all the training necessary to work in the recreation industry and to contribute to the day to day running of recreational facility or organisation. You will complete a 40 hour practical placement in the fitness industry. The Certificate IV in Fitness will allow you to work as a personal trainer in a fitness centre or in your own business. It provides a balance of theory and practice, grounding in scientific research, leadership and supervisory skills.

Major studies: Anatomy and physiology, Circuit and endurance training, Equipment use and maintenance, Exercise for clients with special needs, Exercise programming, Group exercise classes, Nutrition, Plan and prepare exercise programs, Postural appraisal, Risk analysis, Screening and fitness appraisals, Sport and recreation law.

Prerequisites: None

Middle-band: None

Selection Mode: CY12 : ATAR.
NY12 : Educational History including GPA.

Extra requirements: None

Graphic Design (VET)

Northern Melbourne Institute of TAFE
Fairfield: 6900368114 (Fee type determined by provider) full-time  Apply: Through VTAC  main round

- Certificate IV in Design: 1 year full time study
- Diploma of Graphic Design: 2 years full time study
- Advanced Diploma of Graphic Design: 2.5 years full time study

About the course: This is a pathway program. You will be enrolled into the lowest level qualification and will progress, subject to satisfactory academic progress to the higher qualification. The Certificate IV in Design provides foundation design skills. The Diploma of Graphic Design develops skills in both contemporary and traditional design processes, including print and digital methods. The Advanced Diploma provides higher level studies with more complex briefs and design solutions. Interactive design skills are applied in special collaborative briefs with other students which ensure each person is ready for industry. Graduates will have a strong practical portfolio of their work demonstrating broad design ability, with a sense of social and environmental responsibility.
The student's experience of analysing design problems and developing well thought out solutions which are both creative and effective in communicating the client's message ensures their future employability.

**Major studies:** 2D and 3D design, Business skills, Colour theory, Communication and media studies, Computer graphics, Concept design, Design process, Design theory, Digital imaging, Drawing, Fine arts, Graphic and design studies, Illustration, Interface design, Packaging and publication design, Repro press, Screenprinting, Typography, Visual communications.

**Prerequisites:** None

**Middle-band:** None

**Selection Mode:** CY12 : ATAR, Folio (All), Interview (All). See extra requirements for more information.
NY12 : Educational History including GPA, Folio (All), Interview (All). See extra requirements for more information.

**Extra requirements:**
Folio (CY12-All, NY12-All) : Applicants must present a folio at the interview.
Interview (CY12-All, NY12-All) : Applicants must book for an interview between 1 October and 16 November online at www.nmit.edu.au/onlinebooking or telephone (03) 9269 1431. Letters advising of interview outcome will be sent by mid December. Late applicants should contact the department on (03) 9269 1431.

**Holiday Parks and Resorts (VET)**

**Northern Melbourne Institute of TAFE**

Preston: 6900669344 (Fee type determined by provider) full-time **Apply:** [Through VTAC](http://www.wss8.vtac.edu.au/courses-inst/institutions/topdf/nmit.html) main round

- Certificate III in Holiday Parks and Resorts: 0.5 year full time study
- Certificate IV in Holiday Parks and Resorts: 1 year full time study
- Diploma of Holiday Parks and Resorts: 1.5 year full time study

**About the course:** This course provides participants with a broad range of supervisory/managerial skills related to the hospitality and tourism industry with a focus on holiday parks and resorts. The qualification develops skills for planning, implementing and evaluating operations in a wide variety of holiday and resort contexts. Career pathways include operations supervisor/manager, assistant resort manager, holiday park officer, front office manager, holiday park/resort activities co-coordinator and holiday park/resort conference co-ordinator.

The pathway to the diploma incorporates competencies from a range of Certificate III qualifications. Contact the Institute for pathway advice.

**Major studies:** Customer service, Hospitality operations and management, Human resource management.

**Prerequisites:** None

**Middle-band:** None

**Selection Mode:** CY12 : ATAR.
NY12 : Educational History including GPA.

**Extra requirements:**
None

---

**Hospitality (VET)**

**Northern Melbourne Institute of TAFE**
Certificate III in Hospitality: 0.5 year full time study
Certificate IV in Hospitality: 1 year full time study
Diploma of Hospitality: 1.5 year full time study
Advanced Diploma of Hospitality: 2 years full time study

About the course: This is a nested pathway program. You will be enrolled in the highest level qualification and can choose to exit with the lower listed qualification upon the successful completion of the required courses. NMIT prepares students for employment in the operational, supervisory and management aspects of the hospitality industry. Students will be provided with training and education in a real life learning environment with the opportunity to gain hands-on industry experience working in NMIT’s award winning training restaurant, training bars, simulated hotel room and hotel reservation systems.

Major studies: Accommodation management, Administration, Bar management, Business, Communications, Customer service, Food and beverage service, Food handling, Hospitality management, Hospitality sales and marketing, Housekeeping, Leadership, Marketing, Restaurant operations, Tourist information.

Prerequisites: None

Middle-band: None

Selection Mode: CY12 : ATAR.
NY12 : Educational History including GPA.

Extra requirements: None

Hospitality Management (Degree, Associate Degree) (HE)
Northern Melbourne Institute of TAFE
Preston: 6900669292 (DFP) full-time  Apply: Through VTAC main round

- Associate Degree in Hospitality Management: 2 years full time study
- Bachelor of Hospitality Management: 3 years full time study

About the course: The Bachelor of Hospitality Management prepares students for a career in the hospitality industry as managers of hotels, motels, clubs, restaurants, convention facilities, tourist resorts, event management companies, and wineries, amongst others. It provides an academic program with extensive content and theory for real-world industry projects, involving staff from the hospitality, tourism and events industry. The course may include industry visits, industry speakers, and visits to government and industry research sites. Students will have the opportunity to participate in the development and management of actual events and projects to gain hands-on experience. Students can complete the Degree in three years, or exit at the end of year two with the Associate Degree.

Major studies: Accommodation management, Event management, Food and beverage management, Hospitality management, Human resource management.

Prerequisites: Units 3 and 4; a study score of at least 20 in any English.

Middle-band: None

Selection Mode: CY12 : ATAR.
NY12 : Educational History including GPA, VTAC Personal Statement (All).

Extra requirements: VTAC Personal Statement (NY12-All)
Northern Melbourne Institute of TAFE
Preston: 6900669984 (Fee type determined by provider) full-time  Apply: Through VTAC main round

- Certificate IV in Visual Arts: 1 year full time study
- Diploma of Visual Arts: 2 years full time study

**About the course:** This is a pathway program. You will be enrolled in the lowest level qualification and will progress, subject to satisfactory academic progress, to the higher qualification level. The first year provides a solid foundation in creative practices with practical studio subjects in illustration, painting, drawing, printmaking, photography and digital imaging. The second year concentrates on refining these skills with a focus on commercial illustration. The course has a strong vocational focus where students learn how to create original artwork that can be used in both screen and print publishing. Practical talks and project briefs cover a variety of ‘real world’ applications. These include book illustration, advertising, game design, tattoo and street art, web-based and multimedia design, art for film and TV, retail marketing, packaging, animation and technical illustration.

The course is project-based and develops the student's skills through methodical teaching of illustration techniques, research and planning, development of ideas, through to final output in print or digital media. Regular industry visits, seminars and guest speakers are a major popular feature of the course.

Emphasis is placed on the development of a professional portfolio and the acquisition of industry-based knowledge and skills.

**Major studies:** Animation, Arts business, Digital design, Drawing, Electronic publishing, History of illustration, Illustration, Painting, Printmaking.

**Prerequisites:** None

**Middle-band:** None

**Selection Mode:** CY12 : ATAR, Folio (All), Interview (All). See extra requirements for more information.
NY12 : Educational History including GPA, Folio (All), Interview (All). See extra requirements for more information.

**Extra requirements:**
Folio (CY12-All, NY12-All) : All applicants must submit folio at interview.
Interview (CY12-All, NY12-All) : All applicants must attend an interview between the 1 October and 16 November. To book an interview go to www.nmit.edu.au/onlinebooking or telephone contact (03) 9269 1431. The interview time will be confirmed by email or letter. Letters advising of interview outcome will be sent by mid December. Late applicants should contact the department on (03) 9269 1431.

Illustration (Degree, Associate Degree) (HE)
Northern Melbourne Institute of TAFE
Fairfield: 6900368372 (DFP) full-time  Apply: Through VTAC main round

- Associate Degree in Illustration: 2 years full time study

---

**Live Production (Theatre and Events) (VET)**

**Northern Melbourne Institute of TAFE**

Fairfield: 6900368614 (Fee type determined by provider) full-time  
**Apply:** Through VTAC main round

- Certificate IV in Live Production, Theatre and Events (Technical Operations): 1 year full time study

**About the course:** The Certificate IV in Live Production, Theatre and Events provides training for applicants to work in the theatre industry as specialists in the live entertainment fields. The course aims to meet the needs of the live theatre production industry with specific training that prepares technicians capable of working proficiently over a wide range of theatre disciplines. These disciplines include theatre lighting, stage/event management, visions systems and theatre sound. Students will work with professional theatre companies and on professional theatre productions throughout the duration of the course. The course has a strong practical focus with an emphasis in
providing live theatre technical support in other department programs such as degrees and VET courses. The course also provides industry networking and contacts, visits to live theatre productions and events with pathways to future employment in the live theatre industry.

Applicants are encouraged to attend an Information session on 15 August, 19 September or 17 October at the Fairfield campus, Building Q, 4pm to 7pm, Yarra Bend Rd, Fairfield. Please phone (03) 9269 8933 for further information.

**Major studies:** Audio visual, Event management, Lighting, Live production, Multimedia, O.H.& S., Sound production, Stage management, Theatre and events, Theatre industry, Theatre technology, Vision systems.

**Prerequisites:** None

**Middle-band:** None

**Selection Mode:** CY12 : ATAR, Interview (All). See extra requirements for more information.

**Extra requirements:**
Interview (CY12-All, NY12-All) : Applicants must book an interview from 5 August to 13 December online at www.nmit.edu.au/onlinebooking. Applicants must attend the booked interview on the day and time they are given when making the booking.

**Northern Melbourne Institute of TAFE**

Preston: 6900610034 (Fee type determined by provider) full-time  
Apply: Through VTAC main round

- Certificate IV in Mediation: 1 year full time study

---
About the course: Provides vocational education and training for those wishing to pursue a career in mediation, with the view to resolve disputes as a preventative law measure. The course prepares students for a career in mediation or to add mediation as an additional skill to an existing career to be able to assist in mediation disputes in the industry in which they specialise.

Major studies: Dispute resolution, Negotiation, Preventative law.

Prerequisites: None

Middle-band: None

Selection Mode: CY12: ATAR.
NY12: Educational History including GPA.

Extra requirements: None

Music (Degree, Associate Degree) (HE)

Northern Melbourne Institute of TAFE
Fairfield: 6900368432 (DFP) full-time Apply: Through VTAC main round

- Associate Degree in Music: 2 years full time study
- Bachelor of Music: 3 years full time study

About the course: Enrolment in the Bachelor of Music degree at NMIT means more than sitting in classes - it means discovering the many exciting ways your skills can grow and define what contemporary music is today. Designed to prepare students for employment in the contemporary music industry, this course recognises that great music-making requires a solid musical foundation, skills to be able to adapt to current trends, and an awareness of a broad spectrum of music in a global context. You'll find a balance between performance and theoretical study that will expand what you are able to invent, perceive and imagine in the music industry. NMIT facilities include modern rehearsal and recording studios and a theatre. The course provides graduates with skills required for a variety of employment outcomes including: arranger, audio engineer, music director, film composer, instrumental teacher, music business manager, music programmer, performer and recording artist.

Applicants are strongly encouraged to attend an information session on 15 August in Building B, Space Gallery, Fairfield campus between 3 pm and 7 pm. Information Session Registrations phone 9269 8929 or register online: www.supersaas.com/schedule/NMIT/CreativeArtsInfoSession. For further information regarding this course, please visit www.nmit.edu.au/courses/bachelor_of_music or call 03 9269 8929.

Major studies: Arranging, Aural training, Intercultural music, Music and culture, Music business, Music creativity, Music practice, Music practice (ensemble studies), Music practice (solo), Music technology, Music theory, Music writing for film.

Prerequisites: Units 3 and 4: a study score of at least 20 in any Music.

Middle-band: None

Selection Mode: CY12: ATAR, Interview (All), Audition (All). See extra requirements for more information.
NY12: Educational History including GPA, VTAC Personal Statement (All), Interview (All), Audition (All). See extra requirements for more information.

Extra requirements:
VTAC Personal Statement (NY12-All): NY12 applicants must complete a VTAC Personal Statement.

Interview (CY12-All, NY12-All): All applicants must book an interview between the 5 August and 30 November online at www.nmit.edu.au/onlinebooking or telephone (03) 9269 8929. NY12 applicants must bring to the interview evidence of any relevant employment, qualification or other proof of ability to successfully complete the course.

Audition (CY12-All, NY12-All): All applicants are required to audition at interview.
# Music (Foundation) (VET)

**Northern Melbourne Institute of TAFE**

Fairfield: 6900368574 (Fee type determined by provider) full-time

Greensborough: 6900468574 (Fee type determined by provider) full-time

### About the course:
The Certificate III in Music is a performance based course that provides training in basic skills essential for improved musicianship and further studies. Students regularly perform in small teacher directed bands. Lessons on voice or instruments are included in the course. World music is performed in large ensembles. All students participate in Vocal ensemble. Opportunities exist for song writers and accompanying musicians to showcase original work in professional performance settings, resulting in DVD recordings. Training includes use of current music production hardware. Other areas include the development of leadership skills, music theory, aural training, stagecraft skills, music copyright and OH&S. After successfully completing the Certificate III, students can progress to a Certificate IV in Music via a pathway agreement.

Applicants are encouraged to attend an information session on Thursday 5 August, 19 September or 17 October at the Fairfield campus, 4pm to 7pm, Building Q, Yarra Bend Rd, Fairfield. Please phone (03) 9269 8933 for further information.

There is a possibility that this course will run at an NMIT campus other than Greensborough campus in 2014. Applicants will be informed by email when a decision is made on an alternative campus for this program in 2014. For further information, please phone (03) 9269 8933.

**Music Industry (Degree, Associate Degree) (HE)**

**Northern Melbourne Institute of TAFE**

Fairfield: 6900368562 (DFP) full-time  **Apply:** Through VTAC main round

- Associate Degree in Music Industry: 2 years full time study
- Bachelor of Music Industry: 3 years full time study

**About the course:** The music industry is dynamic and in an ever changing environment, it requires well educated creative people to write, perform, record, market and manage music. This degree provides students with a detailed understanding of the contemporary music industry. Further, our ‘state of the art’ production facilities, give them the ‘hands on’ practical skills to be creative and productive participants. Graduates will acquire the skills for a variety of employment outcomes in the music industry, such as, record producer, songwriter, live sound engineer, artist, festival and label manager and arts administrator. The course is structured around two core streams and three specialist streams. The two core streams provide the detailed knowledge of the industry and the social context in which the industry flourishes. The three specialist streams of Songwriting, Record Production and Management all lead to significant final year industry projects.... and they are all real!

Applicants are encouraged to attend an information session on 15 August in Building B, Space Gallery, Fairfield campus between 3 pm and 7 pm. Information Session Registrations telephone (03) 9269 8805 or register online: www.supersaas.com/schedule/NMIT/CreativeArtsInfoSession For further information, please log onto www.nmit.edu.au/courses/bachelor_of_music_industry or www.nmit.edu.au/courses/associate_degree_of_music_industry

**Major studies:** Industry and culture, Management, Record production, Songwriting.

**Prerequisites:** Units 3 and 4; a study score of at least 20 in any English.

**Middle-band:** None

**Selection Mode:** CY12 : ATAR, Interview (All), Audition (Some). See extra requirements for more information.
NY12 : Educational History including GPA, VTAC Personal Statement (All), Interview (All), Audition (Some). See extra requirements for more information.

**Extra requirements:**

VTAC Personal Statement (NY12-All) : NY12 applicants must complete a VTAC Personal Statement and outline any relevant industry experience, qualifications such as VET Advanced Diploma of Music Industry (Business or Sound Production) and other proof of ability to successfully complete this course.

Interview (CY12-All, NY12-All) : Applicants must book an interview between 5 August and 30 November online at www.nmit.edu.au/onlinebooking or phone (03) 9269 8805. Interviews will be conducted late November to early December.

Audition (CY12-Some, NY12-Some) : Songwriters are encouraged to submit or perform two songs at interview.
Music Performance (VET)

Northern Melbourne Institute of TAFE

Fairfield: 6900368314 (Fee type determined by provider) full-time Apply Through VTAC main round
Greensborough: 6900468314 (Fee type determined by provider) full-time Apply Through VTAC main round

- Certificate IV in Music: 1 year full time study
- Advanced Diploma of Music: 2 years full time study

About the course: This course develops music performance skills for the contemporary musician. Central to this course is the development of instrumental skills via practicing and rehearsing towards a number of recitals and other performances on-campus and in venues around Melbourne. Opportunities exist for song writers and accompanying musicians to showcase original work in professional performance settings, including audio and HD DVD recordings. Training includes use of current music production hardware (iMacs) and software including Logic Audio and Sibelius. Sound reinforcement (live sound) principles are also taught. Other areas include the development of leadership skills, music theory, aural training, notation for composition, arranging and music analysis, music teaching methodologies, stagecraft skills, music copyright and OH&S. After successfully completing the Certificate IV, students progress to an Advanced Diploma of Music in their second year of study and then a Bachelor of Music.

Applicants are encouraged to attend an Information session on 15 August, 19 September or 17 October at the Fairfield campus, Building Q, 4pm to 7pm, Yarra Bend Rd, Fairfield. Please phone (03) 9269 8933 for further information.

There is a possibility that this course will run at an NMIT campus other than Greensborough campus in 2014. Applicants will be informed by email when a decision is made on an alternative campus for this program in 2014. For further information, please phone (03) 9269 8933.

Patisserie (VET)

Northern Melbourne Institute of TAFE

Preston: 6900669454 (Fee type determined by provider) full-time Apply: Through VTAC main round

- Certificate III in Patisserie: 1 year full time study
- Diploma of Hospitality: 1 year full time study
About the course: This course enables students to gain the practical skills needed to become a qualified pastry cook working in the specialist area of Patisserie. Taught in our industry standard, production and specialist pastry kitchens, it will take you through basic methods of cookery skills to the high end of pastry and cake production. Essential workplace knowledge such as safe food handling practices, O.H. & S, communication and customer service are covered alongside the production of patisserie goods. You will also learn how to bake artisan breads, produce pastries, gateaux, moulded and filled chocolates and hot and cold desserts. Restaurant classes are undertaken where plating and presentation of food is emphasised. You can elect on completion of the Certificate III in Patisserie to do the Diploma of Hospitality. This course concentrates on the management of people, finances and the restaurant environment. The focus on assessment tasks will be practical learning and assessment.

Major studies: Artisan bread, Cakes, Chocolate, Customer service, Food handling, Gateaux, Kitchen management, Pastries.

Prerequisites: None

Middle-band: None

Selection Mode: CY12 : ATAR.
NY12 : Educational History including GPA.

Extra requirements: None

---

Photography and Photoimaging (VET)

Northern Melbourne Institute of TAFE

Fairfield: 6900368074 (Fee type determined by provider) full-time Apply: Through VTAC main round

- Certificate IV in Photo Imaging: 1 year full time study
- Diploma of Photo Imaging: 2 years full time study

About the course: This is a Pathway Program. You will be enrolled in the lowest level qualification and will progress, subject to satisfactory academic progress, to the higher qualification level. A wide range of photographic skills are developed in the Certificate IV in Photo Imaging which include image capture, lighting, darkroom, digital imaging and printing. It is a solid foundation in photography that establishes technical skills in a creative environment. In addition, excursions, visiting speakers, student exhibitions and real-world briefs help to prepare students for the professional world of photography. Students can work as photographic assistants in the industry or proceed into the Diploma program. The Diploma of Photo Imaging prepares students to become professional photographers working in industry. A sound technical and theoretical knowledge is combined with creative image making capabilities to enable students to become independent photographic practitioners. The qualification applies across a range of industry contexts so that graduates can work in a variety of fields. These include commercial and advertising, wedding, domestic portrait, architectural, media and illustrative photography.

Major studies: Business practices, Colour theory, Darkroom, Digital art, Digital manipulation and printing, Health and safety practices, Photography (alternative techniques), Photography (analogue and digital), Photography (colour management), Photography (commercial), Photography (portrait), Photography (technical), Printing and publishing, Studio lighting, Sustainable practices, Video, Visual expression, Web applications.

Prerequisites: None

Middle-band: None

Selection Mode: CY12 : ATAR, Folio (All), Interview (All). See extra requirements for more information.
NY12 : Educational History including GPA, Folio (All), Interview (All). See extra requirements for more information.

Extra requirements:
Folio (CY12-All, NY12-All) : Applicants must present a folio at the interview.
Interview (CY12-All, NY12-All) : Applicants must book an interview between 1 October and 16 November online at www.nmit.edu.au/onlinebooking or by telephoning (03) 9269 1431. Applicants will receive a confirmation email or letter advising of interview time and details. Late applicants should contact the department on (03) 9269 1431. Letters advising of the interview outcome will be sent by mid December.
Professional Writing and Editing (VET)

Northern Melbourne Institute of TAFE
Collingwood: 6900168194 (Fee type determined by provider) full-time  
Apply: Through VTAC main round

- Certificate IV in Professional Writing and Editing: 1 year full time study
- Diploma of Professional Writing and Editing: 2 years full time study

About the course: This is a pathway program. You will be enrolled in the lowest level qualification and will progress subject to satisfactory academic progress to the higher qualification level. Emerging writers and editors can develop their skills in the Certificate IV which is a one year course, the basis for a future in writing, editing and print production. In the second year, the Diploma refines and deepens these skills with a focus on creative writing in a variety of genres. These can include fiction, journalism, poetry, writing for screen and many others. (see Major studies). Students can choose to specialise in writing for a range of different audiences. The course is a preparation for independent and freelance writing, and for employment in the editing and publishing industries.

Major studies: Applied writing, Feature writing, Fiction writing, Journalism, Non-fiction writing, Performance writing, Poetry, Screenplay, Scriptwriting, Writing (children and young adults), Writing (web), Written communication.

Prerequisites: None

Middle-band: None

Selection Mode: CY12: ATAR, Supplementary form (All), Folio (All). See extra requirements for more information.
NY12: Educational History including GPA, Supplementary form (All), Folio (All). See extra requirements for more information.

Extra requirements:
Supplementary form (CY12-All, NY12-All): Applicants must complete and submit an NMIT Professional Writing and Editing Supplementary application form by logging onto www.nmit.edu.au/pdf/nmit_vtac_pwe.pdf or by telephoning (03) 9269 1431. Late and change of preference applicants should contact the department on (03) 9269 1431.
Folio (CY12-All, NY12-All): Applicants must submit a folio of no more than 5 A4 pages by 31 October. Information regarding the folio requirements are listed on the supplementary application form.

Sound Production (Audio Engineering) (VET)

Northern Melbourne Institute of TAFE
Fairfield: 6900368774 (Fee type determined by provider) full-time  
Apply: Through VTAC main round

- Certificate IV in Sound Production: 1 year full time study
- Advanced Diploma of Sound Production: 2 years full time study

About the course: This course prepares graduates for careers in the Music Industry as studio and live audio engineers. Through practical application, students study audio recording, mixing, mastering and live sound reinforcement. Students will work on a variety of production projects which are supported by theoretical training. The course makes use of a variety of recording experiences ranging from digital studio recording to analogue mixing and recording of live bands. A wide selection of microphones and state of the art audio mixers are used. Students gain considerable experience in audio editing using Pro tools with AVID accredited training embedded in the course.

Applicants are encouraged to attend an Information session on 15 August, 19 September or 17 October at the Fairfield campus, Building Q, 4pm to 7pm, Yarra Bend Rd, Fairfield. Please phone (03) 9269 8933 for further information.

Major studies: Audio production, Electronic music, Film music, Live sound, Mixing and mastering, Music (technical production), Music production, Music technology, Sound, Sound production, Sound recording.

Prerequisites: None
Sound Production (Music Technology and Production) (VET)

Northern Melbourne Institute of TAFE
Greensborough: 6900468634 (Fee type determined by provider)
full-time

- Diploma of Sound Production: 1 year full time study

About the course: The Diploma of Sound Production is for students who wish to work in the field of sound production with a specialisation in producing electronic music and sound design for commercial release, live performance, theatre, film and television. Students will be involved in the creation, recording, arrangement, mixing and management of music and sound design projects. This course explores writing and producing of both original music and/or the work of other musicians, as well as managing the creation and installation of sound designs. The intention of the course is to develop the skills necessary to produce music tracks and sound designs to a professional commercial-release quality. This course is for DJ's, composers, sound designers and/or sound producers with an interest in electronic or non-traditional instruments using specialist music production software and music technology. This course caters for artists working in smaller high quality studios, utilising specialised music technology.

Applicants are encouraged to attend an Information session on 15 August, 19 September or 17 October at the Fairfield campus, Building Q, 4pm to 7pm, Yarra Bend Rd, Fairfield. Please phone (03) 9269 8933 for further information.

There is a possibility that this course will run at an NMIT campus other than Greensborough campus in 2014. Applicants will be informed by email when a decision is made on an alternative campus for this program in 2014. For further information, phone (03) 9269 8933.

Major studies: Audio engineering, Creating sound tracks for TV, Digital media and film, Electronic media, Electronic music, Mixing and mastering, Music analysis, Music arranging, Music composition, Music production, Music technology, Organisation skills, Physics of sound, Project management, Recording, Self management, Self promotion, Sound design, Sound editing, Technology.

### Visual Art (VET)

**Northern Melbourne Institute of TAFE**

- Epping: 6900268944 (Fee type determined by provider) full-time  
  **Apply:** [Through VTAC](http://www.wss8.vtac.edu.au/courses-inst/institutions/topdf/nmit.html) main round
- Preston:6900668944 (Fee type determined by provider) full-time  
  **Apply:** [Through VTAC](http://www.wss8.vtac.edu.au/courses-inst/institutions/topdf/nmit.html) main round

- Certificate IV in Visual Arts: 1 year full time study
- Diploma of Visual Arts: 2 years full time study

**About the course:** This is a pathway program. You will be enrolled into the lowest level qualification and will progress, subject to satisfactory academic progress to the higher qualification. This course is for students who wish to become visual artists working independently or in paid employment in the creative industries.

The Certificate IV is a foundation in the visual arts, with practical studio subjects in illustration, painting, drawing, printmaking, photography and digital imaging. Art history and theory subjects engage students with ideas and concepts, whilst business subjects explain the arts as a professional industry. Safe and sustainable working methods establish ‘best practice’ in each field of study.

The course is for students wishing to focus on their chosen field of visual expression. NMIT offers three streams: an Illustration major, a Painting major and a Photo media major.

In the Diploma year, the specialised streams of Illustration, Painting and Photo media have a strong focus as students develop their own artistic style and concentrate on a personal body of work for graduation. Students develop a professional approach to their artistic practice through studio work and research, exhibitions, community projects, blogs, visiting speakers and excursions.

**Major studies:** Creative practice, Digital media, Drawing, Health and safety and sustainability, Illustration, Painting, Photography, Printmaking, Professional practice.

**Prerequisites:** None

**Middle-band:** None

**Selection Mode:** CY12 : ATAR, Folio (All), Interview (All). See extra requirements for more information.
NY12 : Educational History including GPA, Folio (All), Interview (All). See extra requirements for more information.

**Extra requirements:**
Folio (CY12-All, NY12-All) : Applicants must present a folio at the interview.
Interview (CY12-All, NY12-All) : Applicants must book an interview between 1 October and 16 November online at [www.nmit.edu.au/onlinebooking](http://www.nmit.edu.au/onlinebooking) or by telephoning (03) 9269 1431. Applicants will receive a confirmation email or letter advising of interview time and details. Late applicants should contact the department on (03) 9269 1431. Letters advising of interview outcome will be sent by mid December.

Oceania Polytechnic Institute of Education

Oceania Polytechnic Institute of Education (OPIE) is a private institution established in 1988. It offers courses specialising in the fields of the built environment, architecture, building design, drafting and interior decoration and design. The uniquely structured courses, internationally qualified teaching staff and individual attention given to each student, provides a creative environment of the highest standard for the education of individuals who are seeking a career in the arts, built environment, architecture and design. Aiming to educate and develop leaders in these fields, OPIE courses are designed to equip graduates with a balance between academic knowledge, skills in the art and a practical approach to innovative design. Classes normally contain approximately 15 students allowing coursework to be conducted in friendly studio environments, promoting inquiry and creativity whilst teaching skills essential to successful practice. OPIE is located in the Melbourne CBD and is within walking distance of public transport, the State Library, Melbourne Central, cafes, shops, gyms and student accommodation. Students will benefit from tours to building sites and staff practices. Certain courses offer practical experience allowing students to complete their course of study with industry knowledge and experience. All courses are available on either a full-time or part-time basis. OPIE is a Registered Training Organisation with the Department of Education and Early Childhood Development (Victoria). OPIE's courses are also accredited and nationally recognised.

Over the last 20 years the Photographic Imaging College has delivered an extensive study in photography, with a major emphasis on producing portfolios of technically and conceptually advanced photographic works. Students will develop the necessary skills and knowledge required by fine art photographers and photographic assistants in commercial, industrial, wedding portraiture or scientific photography. We are a public-sector provider and our facilities and equipment are amongst the best and most professional in any Australian educational institution. Our studio equipment rivals that of many professional studios. The Photographic Imaging College has a philosophy of harmonising ‘analogue’ and ‘digital’ technologies so that students learn how the ‘traditional’ and the ‘new’ play an integral role in informing the student experience.

We are a public-sector provider and our facilities and equipment are amongst the best and most professional in any Australian educational institution. Our studio equipment rivals that of many professional studios. The Photographic Imaging College has a philosophy of harmonising ‘analogue’ and ‘digital’ technologies so that students learn how the ‘traditional’ and the ‘new’ play an integral role in informing the student experience.

For over twenty years PIC photographic imaging college, has provided high quality and photographic education, resulting in producing many of our students and graduates who now work around the world in such areas as: photo-journalism, fashion photographers, advertising and travel photographers, freelancers, editorial and magazine photography.

PIC photographic imaging college is a registered training organisation offering the Diploma of Photo-Imaging course. This course offers students the unique opportunity to explore many areas of commercial photography, art photography or other industry related processes and techniques.

As a student at with us at PIC photographic imaging college, you will learn in a small, creative and supportive environment, taught by a talented group of lecturers from the professional image-making industry; a team that offers a great deal of passion, experience, expertise and diversity. From day one of your Diploma of Photo-imaging course, you will learn that photography is about much more than just using a camera or computer, you will learn that it's about seeing, experiencing, then understanding and communicating; that it's about building your voice by having something engaging to say. Each day you'll be challenged to see the world with a fresh perspective, be guided in looking beyond the mundane and find your own interpretations and photographic voice.

Photography-Digital/Analogue/Commercial/Art (VET)

Photographic Imaging College
East Hawthorn: 9500189512 (DFP) full-time  Apply: Through VTAC  main round

- Diploma of Photoimaging: 2 years full time study

About the course: The course reflects the role of photoimaging practitioners who possess a sound theoretical knowledge base and who use a range of specialised and technical competencies to plan, carry out and evaluate photoimaging services. The qualification has application across a range of industry contexts including commercial, domestic portrait, media, wedding, illustrative, and art photography. The first year is a comprehensive progression
through the acquisition of basic skills to a fully professional understanding of Black and White Photography, and in-depth exploration of Digital Imaging. The course provides students with conceptual and visual development by examining such issues as Contemporary Art, Commercial Photography, and other professional areas of photography. The year culminates in a professional Exhibition which enables students to publicly display the best of their portfolios. In second year students will operate an array of professional studio, darkroom and camera equipment. Students, use medium and large format cameras in professional studios as well as colour processing and printing.

**Major studies:** Digital photography, Fashion photography, Photography, Photography (art), Photography (black and white), Photography (colour management), Photography (colour), Photography (commercial), Photography (darkroom techniques), Photography (digital image acquisition), Photography (editing and workflow), Photography (image capture), Photography (manipulation), Photography (post-production), Photography (printing and finishing), Photography (printing), Photography (studio), Photography (visual and conceptual development), Portrait photography, Product photography.

**Prerequisites:** None

**Middle-band:** None

**Selection Mode:** CY12 : ATAR, Interview (All). See extra requirements for more information.
NY12 : Educational History including GPA, Interview (All). See extra requirements for more information.

**Extra requirements:**
Photography Studies College (Melbourne) PSC, is a leading contemporary photography college, located in Melbourne's vibrant arts and cultural scene, 5 minutes walk from Flinders St Station, close to many contemporary galleries and cafes. For over forty years we have delivered specialised, high quality and innovative photographic education, consistently producing graduates of the highest calibre and providing students with an environment in which to explore and realise their creative potential. We are the first choice for students looking for a high quality, specialised, industry relevant and career oriented learning experience. And we have built a leading reputation for producing high quality, creative and award winning students. So much so that for the past two years we have been awarded the top national photography industry awards for educational excellence- the 2012 & 2011 Australian Institute of Professional Photography (AIPP) National Tertiary Institution of the Year for excellence in photographic education and training and the ACMP National Educational Institution of the Year.

We are a dual sector provider offering both the Higher Education Bachelor of Photography course with majors in commercial photography, photojournalism and art photography and the VET sector Advanced Diploma of Photography course. The Bachelor of Photography course is exclusive to PSC and designed to produce distinctive and innovative professional photographers prepared to take on leading roles in this creative industry. The course promotes creative practice, inquiry and career outcomes. The structure of the course links contemporary practice, technique and theory through conceptual folio development and engagement with the meaning of photography. The Advanced Diploma ensures that the technical and specialised skill set necessary for professional practice is built on from foundation to professional level.

PSC students learn with some of the best in the industry; qualified professionals who constantly bring their current practice, expertise and commitment to great educational outcomes to classes. These dedicated teachers are an important factor in the high quality and innovation of the work produced by our students, as are our unique programs. Our well-established mentor program linking final year students to highly respected photographers and artists provides a real world opportunity for students to forge ongoing industry links and networks.

At PSC you benefit from the specialised practical learning environment, the excellent industry specific facilities including the purpose built photography studios and digital imaging learning centre, the specialised information resource hub and the supportive study environment. Our students benefit from a progressive, contemporary environment that offers an excellent student to teacher ratio and a friendly supportive approach that nurtures creative practice, inquiry, career outcomes and the student experience.

Open Day

Course and career information, college tours including specialised facilities, information seminars, how to apply seminars, hear from graduates, current students and staff. See the latest student photography exhibition. For more information: www.psc.edu.au/open day 2013

Special Entry Access Scheme
PSC gives consideration to applicants who can demonstrate they have not been able to reach their full potential due to life circumstances or circumstances beyond their control.

For more information: www.psc.edu.au/course options/full time

Pathways

PSC offers the Bachelor of Photography program that provides a pathway for Advanced Diploma of Photography graduates into a higher education qualification. We also have a pathway arrangement with RMIT for Advanced Diploma of Photography graduates to undertake a degree conversion in the Bachelor of Arts (Photography).

For more information: www.psc.edu.au/pathways

Student Services

The Communications & Students Officer can assist with course information, application requirements, interview requirements including dates and times and enrolment information.

For more information: www.psc.edu.au/student support

FEE-HELP and VET FEE-HELP

Eligible students may choose to pay their tuition fees via FEE-HELP or VET FEE-HELP an interest free Commonwealth Government loan to assist with the cost of tuition fees only.

For more information: www.psc.edu.au/course options/full time/tuition fees

Student Support

The Communications & Students Officer is the initial point of contact for all students from application and enrolment information through to course information, career questions, VET FEE-HELP and FEE-HELP information, other expenses information, referral to learning support and counsellor, accommodation information, personal issues, and general support.

For more information: www.psc.edu.au/student support

Information and tours

Just contact PSC to make a time for a personalised tour of the facilities, the student exhibition and to discuss course information, application and entry requirements.

Photography (VET)

Photography Studies College (Melbourne)

Melbourne: 9100189102 (DFP) full-time  Apply: Through VTAC main round

Melbourne: 9100189103 (IFP) full-time  Apply: Through VTAC main round

- Advanced Diploma of Photography: 3 years full time study

About the course: This course is designed to produce professional photographers and is delivered in a supportive and creative environment where students develop a range of skills relevant to the photography industry. The course reflects the role of practitioners who possess specialist conceptual, technical and theoretical skills. The first year explores print and screen output, while building digital capture and the process and techniques fundamental to photographic practice. Second year photographic craft, lighting and studio are further explored while students begin to define their own style and practice. The choice of one specialisation: commercial photography, art or photojournalism in final year, together with a well established mentor and business program allows students to refine their photography in terms of professional practice. At this level integral to the transition from student to
photographer are the industry links and focus of the course.

**Major studies:** Apply creativity, Art photography, Build creativity, Camera practice, Commercial photography, Digital Capture, Genre photography, Location, Personal style, Photojournalism, Post production, Studio lighting.

**Prerequisites:** None

**Middle-band:** None

**Selection Mode:** CY12 : Supplementary form (All), Folio (All), Interview (All). See extra requirements for more information.

NY12 : Supplementary form (All), Folio (All), Interview (All). See extra requirements for more information.

SEAS is considered.

**Extra requirements:**

Supplementary form (CY12-All, NY12-All) : All applicants must complete the Advanced Diploma of Photography Course Application Form available online at: [www.psc.edu.au/full_time_app_form.html](http://www.psc.edu.au/full_time_app_form.html) by 15 October.

Folio (CY12-All, NY12-All) : The folio should contain a selection of your own work which best demonstrates your aptitude for photography and potential. The selection should include 8 - 10 final images either mounted or in a bound folio flip book and this together with your development work should represent your ideas, processes and abilities.

Interview (CY12-All, NY12-All) : All applicants are required to attend an interview between November and December and they will be notified of their interview date and time by phone or email. At interview applicants are required to show an interest in photography and motivation for study. Applicants should come prepared to discuss and answer questions about their folio including their ideas, processes and inspirations.

**Photography (Commercial/Art/Photojournalism) (Degree) (HE)**

**Photography Studies College (Melbourne)**

Melbourne: 9100191442 (DFP) full-time  Apply: Through VTAC main round

- Bachelor of Photography: 3 years full time study

**About the course:** This course is exclusive to PSC and designed to produce distinctive and innovative professional photographers prepared to take leading roles in the photography and creative industries. The course is delivered in a small, supportive environment that promotes independent critical thinking, creative practice, contemporary technique, and context. Students are encouraged to explore creative and risk taking approaches to the possibilities of photographic imagery, producing conceptual portfolios that are underpinned by meaning and relevant techniques. Students consider the context and communicative effectiveness of their work and apply their learning in both studio and on location in practical and interpretive ways. In the first year students gain a solid foundation in concepts, practice, communicative effectiveness and technique. Second year extends meaning and genre photography while developing a personal aesthetic and context. Studio, lighting and post production are further integrated. Final year students are guided through an independent study in: commercial photography, art photography or photojournalism. Business and mentor subjects provide a further connection to industry networks and career outcomes.

**Major studies:** Art photography, Commercial photography, Creative Industries, Creative practice, Digital capture, Genre photography, Image and concept, Image cultures, Lighting, Photojournalism, Post-production processes, Studio photography, The world around us, Visual thinking.

**Prerequisites:** None

**Middle-band:** None

**Selection Mode:** CY12 : Supplementary form (All), Folio (All), Interview (All). See extra requirements for more information.

NY12 : VTAC Personal Statement (All), Supplementary form (All), Folio (All), Interview (All). See extra requirements for more information.

SEAS is considered.
Extra requirements:

VTAC Personal Statement (NY12-All)

Supplementary form (CY12-All, NY12-All): Bachelor of Photography Course Application Form completed online at: http://www.psc.edu.au/forms/BA_app.html to be submitted by no later than Friday 18 October 2013.

Folio (CY12-All, NY12-All): The folio must show a selection of your own work including 10 - 15 well presented final images either mounted or in a bound folio flip book and should demonstrate your aptitude for photography, originality and creative potential. This together with your back up work (including brainstorming and research) should represent your ideas, inspirations, processes and abilities.

Interview (CY12-All, NY12-All): All applicants are required to attend an interview where they are required to demonstrate an interest in photography, motivation for further study and folio. Applicants should come prepared to discuss and answer questions about their folio including ideas, processes, inspirations and abilities. Timeframe: between mid October and mid December 2013. Applicants will be notified by email or phone of their date and time.
Qantm College was established in 1996 as a joint venture between the Queensland and Northern Territory state governments and several key universities. Since then, it has grown to become the country's premier new media college. Qantm College is a specialist trainer who maintains close industry associations. This ensures that graduates can be confident that they have the most up-to-date, industry relevant skills needed for today's fast paced creative media industries. Qantm offers university-style practical qualifications and educates students across the specialised disciplines of games programming, animation, games design, interactive media and multimedia.

Qantm College's strong involvement with key industry players is demonstrative of the synergy between our College and Industry, as well as guaranteeing mutually beneficial outcomes for both the students and the creative digital media marketplace. This involvement provides a sound platform from which to educate students and ensure the relevancy of the course content and technical infrastructure.

Qantm College provides a supportive teaching environment and college community, combined with state-of-the-art resources that ensure its graduates are consistently sought after within the media industries. Educating across many levels, Qantm College offers students bachelor degrees, diplomas, and certificate programs in face-to-face and flexible teaching environments.

Not only has Qantm College won Best Small Training provider of the Year in 2001, 2003, and 2006 but the students themselves have picked up the Best Unsigned Game trophy at the Game Developers Association of Australia's annual awards in 2004, 2006, 2007 and 2008. Furthermore, Qantm College Australia is excited to announce its first place win as Tertiary Educator of the Year at the 2011 inaugural MCV Pacific Awards. The award goes to the tertiary college or university that is 'the most respected by the industry', and the 'most prolific, highest quality place to learn about making games in 2011'.

Student services

Students with Disabilities

The Institutions are committed to providing equal opportunities for students with disabilities or special learning needs and promotes strategies to develop a flexible teaching and learning environment, which is able to meet the needs of a diverse range of students. If you have a disability or special learning needs, you are encouraged to discuss your requirements with your Student Services Advisor, Campus Academic Coordinator or Campus Manager and to provide information (including medical or other professional advice) regarding the nature of any disability or special needs during your application and enrolment process.

It is important that you provide the Institutions with these details as early as possible so that we can assess your support needs and ensure you are able to succeed in your chosen course of study.

For more information: https://melbourne.qantm.com/en-gb/content/6385/Your_Support_Services

Student Support

At SAE/Qantm we're not only interested in what you're learning but the total experience of student life—from where you stay to how much it will cost to live and eat, how to get from A to B, plus local services and what to do for fun!

And it's not just for students new to the area, we'll help guide and keep you on track from your initial enquiry to enrolment, orientation, figuring out your timetable, navigating the campus, assignments, exams and finally graduation! If you're thinking this all sounds too good to be true - we've got the bumps, hiccups, stumbles, falls and epic fails covered too!

We are committed to providing quality, tailored services and programs that contribute to positive personal, academic and career outcomes for domestic, interstate and international students. We strive to maintain and enhance strategies to assist students from all backgrounds to succeed at all stages of the student life cycle.

For more information: https://melbourne.qantm.com/en-gb/content/6385/Your_Support_Services

Accommodation

Although the SAE Institute Melbourne campus doesn’t provide accommodation for students, we have some great contacts to ensure students find the best possible accommodation for their needs during their stay in Melbourne. When students first arrive, they may initially wish to stay in a hotel, backpackers’ hostels, or nearby student-specific residences. Many students later decide to rent or share an apartment or house.

For more information: http://melbourne.sae.edu/en-gb/content/6757/Your_Campus_-_SAE_Melbourne#info2

Animation (Degree) (HE)
Bachelor of Interactive Entertainment (Animation): 2 years full time study

About the course: Australia has an outstanding and world-renowned reputation in the animation industry. SAE has exceptional industry links and offers market leading, fully accredited courses in animation. Get the skills and industry experience you need to make your mark on the animation world.

Bachelor of Interactive Entertainment (with a major in Animation)

The Bachelor of Interactive Entertainment (with a major in Animation) is a market leading, fully accredited qualification. Throughout your studies, you will get practical, hands-on training and develop critical knowledge and skills in animation.

You will undertake specialised study including:

- 3D modelling
- Texturing
- Lighting
- Animation for games
- Animation and special effects for film and television
- Animation for virtual environments
- Script writing

Our graduates have the skills that the industry demands. Get your dream job.

Be a:

- 2D/3D Animator
- Character Designer
- Concept Artist
- 3D Modeller
- Visual Effects Editor
- Animation Project Manager

Major studies: Animation, Animation (2D), Animation (3D), Animation (games), Animation (modelling), Animation and digital culture, Animation design and production, Animation software, Animation techniques, Character modelling, Computer animation, Digital animation (games), Digital modelling (3D), Drawing and digital art, Drawing and illustration, Games and animation for mobile devices, Games development, Games scripting, Scriptwriting, Storyboard illustration.

Prerequisites: None

Middle-band: None

Selection Mode: CY12: Interview (All). See extra requirements for more information.
NY12: Interview (Some). See extra requirements for more information.

Extra requirements:

Interview (CY12-All, NY12-Some): Interview: Applicants must phone (03) 8632 3450 to arrange an interview. (Interviews will be started in October 2013 to early January 2014). Interview bookings will be available in October.

Creative Media (Graphic Design) (HE)
Bachelor of Creative Media (Graphic Design): 2 years full time study

About the course: SAE graduates enter the industry as proficient visual communicators with high-level creative and technical design skills. Develop your talents, build industry links, and get the competitive edge with our market-leading degree program.

In this course you will use industry standard software applications and work in a studio-based environment to develop your knowledge and skills on a range of graphic design projects. You will also advance your business skills and have the opportunity gain real-world experience through our successful internship program.

You will undertake specialised study including:
- Print and screen based media
- Creative, flexible design principles
- Design competency and visual literacy
- Business, copyright and project management

Our graduates have internationally recognised qualifications and are in demand.

Be a:
- Graphic Designer
- Graphic Illustrator
- Image Re-toucher
- Pre-press Productioner
- Creative Director
- Typographer
- Web Designer

Major studies: 2D animation, Cartooning, Computer illustration, Design communication, Image manipulation, Page layout, Reprographics, Typography, Web design.

Prerequisites: None

Middle-band: None

Selection Mode: CY12 : Interview (All). See extra requirements for more information.
NY12 : Interview (Some). See extra requirements for more information.

Extra requirements:
Interview (CY12-All, NY12-Some) : Interview: Applicants must phone (03) 8632 3450 to arrange an interview. (Interviews will be started in October 2013 to early January 2014). Interview bookings will be available in October.
Bachelor of Creative Media (with a major in Interactive Media)

Develop your skills and kick-start your career in the multifaceted and ever changing world of interactive media. You will learn to design and develop interactive content for a range of platforms and build an extensive portfolio of work to showcase to future employers and clients.

This course offers you specialised study in:
- Web design and development
- Graphic design
- Digital video and audio
- Digital advertising and marketing
- Games and application design (including smartphone app development)
- Animation
- Scripting and content management systems

Our graduates have the skills and knowledge to succeed on the world stage.

Be a:
- Interface Designer
- Interaction Designer
- Web Designer
- Web Programmer
- e-Commerce Designer
- Flash Animator
- Flash Programmer

**Prerequisites:** None

**Middle-band:** None

**Selection Mode:** CY12 : Interview (All). See extra requirements for more information.
NY12 : Interview (Some). See extra requirements for more information.

**Extra requirements:**
Interview (CY12-All, NY12-Some) : Interview: Applicants must phone (03) 8632 3450 to arrange an interview. (Interviews will be started in October 2013 to early January 2014). Interview bookings will be available in October.

- Bachelor of Interactive Entertainment (Games Design): 2 years full time study

**About the course:** Interactive media is an exciting, continuously changing, technology driven industry. Our Games courses have been developed with local industry partners to ensure you get the most relevant skills and knowledge you need, to forge the career you want.
Bachelor of Interactive Entertainment (with a major in Games Design)

Become a leader in the games design industry with an internationally recognised qualification. Complementing design skills development with thorough practical and theoretical work, in this degree course you will undertake specialised study including:

- Games concept design
- Games strategy
- The psychology of game play
- Character development
- 3D design
- Animation
- Game level design
- Business, copyright law and project management

Our graduates are industry-ready professionals and life-long learners.

Be a:

- Character Designer
- Composer
- Games Designer
- Script Writer
- Games Tester
- Concept Artist
- Level Designer

Major studies: Character modelling, Design (3D), Design principles, Drawing and digital art, Drawing and illustration, Games and animation for mobile devices, Games architecture, Games design visuals, Games development, Games programming, Games scripting, Games technology, Project management, Scriptwriting, Storyboard illustration.

RMIT University

RMIT University is a global university of technology and design. RMIT leads and creates change across industry and communities around the world and is one of Australia's top 10 tertiary education institutions. We are a leader in technology, design, global business, communication, global communities, health solutions and urban sustainable futures. The 2012 Quacquarelli Symons (QS) ranked RMIT in the world's top 100 universities in Communication and Media studies, Computer Science and Information Systems, Pharmacy and Pharmacology studies, Engineering (Civil and Structural), and Accounting and Finance. With industry and research partners—including Siemens, Deloitte, L'Oreal, ALCOA, BMW, Rolls Royce, Airbus, Boeing, Nestle and many more—informing the design and delivery of programs, you will be in the best possible position to connect with potential future employers. Most RMIT courses include work placements, internships and clinical experience both within Australia and overseas, as well as opportunities for study exchange and study tours to some interesting global destinations.

A truly international university, RMIT has three campuses in Melbourne, Australia (City, Brunswick and Bundoora), two campuses in Vietnam (Ho Chi Minh City and Hanoi), and a strong presence in South-east Asia. It delivers programs through partner institutions in Asia and Europe and its alumni community reaches across 100 countries. In Melbourne, a $700 million campus investment has transformed RMIT's campuses. State-of-the-art collaborative spaces, equipped with new-generation technology and the latest in sustainability, are set to redefine the way you learn—including Swanston Academic Building on the City campus with its unique student portals and interactive learning spaces. With over 82,000 students studying at RMIT around the world, and a choice of over 900 programs, including degrees, double degrees, associate degrees, dual awards, advanced diplomas, diplomas and apprenticeships and traineeships, RMIT prepares you for a successful global career for today's international workplace. www.rmit.edu.au

Selection policies

Policy on the use of prerequisites

Applicants in the following groups who have not completed the stated VCE prerequisite may satisfy the prerequisite by demonstrating, to the satisfaction of RMIT, that they have achieved an equivalent level of skills and knowledge:

a. Applicants whose highest qualification is Year 12 but who completed year 12 more than two years prior to the date of application to RMIT.

b. Applicants who have completed additional qualifications following Year 12;

c. Applicants who have completed overseas Year 12; and

d. Applicants who have completed non-standard Year 12.

An equivalent level of skills and knowledge may be demonstrated through tertiary study, test results, overseas Year 12 study and/or work experience. The onus is on applicants to demonstrate that they satisfy prerequisites. Applicants must provide supporting evidence, and set out any relevant supporting information in the VTAC Personal Statement.
**Grade Point Average**
For courses that select based on GPA the entire academic record (including Year 12 results) will be considered along with the GPA and other selection criteria, as listed in the Selection Mode or Extra Requirements. Non Year 12 applicants should take particular note of the information provided in these sections.

**Extra Requirements**

**Supplementary forms and kits**
Supplementary forms or pre-selection kits are part of the selection process for some courses. Applicants must ensure that work submitted is representative of their ideas and abilities, shows originality, innovation, imagination, experimentation and competence in the basic skills relevant to the course for which they are applying. Further instructions may be provided in individual forms. A VTAC Course Application will not be considered complete unless the appropriate supplementary information form or pre-selection kit is submitted.

**VTAC Personal Statement**
The Personal Statement is an opportunity for applicants to outline further information about themselves, particularly for non year 12 applicants. In completing the Personal Statement please note the following:

a. The statement of motivation is crucial to your application. Explain your interest and motivation for the course you are applying for, outlining why you have selected the particular area of study. This is particularly important if you have had a change of direction in your education or career.

b. Detail any work, voluntary or community experience you have, particularly in the area you are applying for.

c. Detail any prizes or awards that you have achieved.

d. Explain any poor performance in previous academic or tertiary study, including difficulties experienced that may have disadvantaged you.

e. You may also attach any other documents (e.g. resume, letters of recommendation) to support your VTAC Course Application.

**Interviews**
Interviews are part of the selection process for some courses. The interview process is an opportunity for applicants to demonstrate their understanding, ability and motivation for the course for which they are applying. During the interview, applicants present to a panel consisting of selection staff from the course to which they have applied. Applicants are asked questions about their work and interests in line with the selection criteria.

Interviews are conducted in a friendly and supportive manner and are normally expected to take approximately 15 to 20 minutes.

Applicants will be notified directly by RMIT as to whether or not they have been invited for an interview. This notification will also include details of the interview and any further information.

**Folios**
Where applicants are required to submit a folio, generally the folio should comprise 15 to 30 pieces of original personal work in art, design or media, which demonstrates the interests, creative thinking and conceptual, design and technical skills of the applicant. Examples of work may include drawings, paintings, graphic designs, photographs, digital images, models, sculpture, video, scripting, short
stories and/or 2D and 3D flash animation.

Applicants should include development work as well as finished work. Applicants should provide an explanation of each piece of work to enable the selection officer to understand the purpose and background of the piece. Applicants should contact the course for specific folio requirements.

**Folio presentations**

For design courses folio presentation is an opportunity for applicants to present their folio of original personal work. Applicants may be asked to discuss their pieces of work, outlining why they chose a particular topic, what they were trying to achieve and the process undertaken to achieve the final product. In some cases selection staff may also ask about designers or areas of design that interest or inspire.

Folio presentations are conducted in a friendly and supportive manner and are normally expected to take approximately 15 to 20 minutes.

Applicants will be notified directly by RMIT as to whether or not they have been invited for a folio presentation. This notification will also include details of the folio presentation and any further information.

**Special consideration**

**Special Entry Access Scheme**

RMIT has a learning environment that values and supports the diversity of our student population. We recognise that education has a transformative role in enabling individuals to reach their full potential, and in creating an equal and democratic society. RMIT is committed to the participation and success of students from disadvantaged backgrounds in all our courses. The SEAS application is one way of ensuring that the impact of background and circumstances on your previous educational achievement is understood and taken into consideration in the selection process. At RMIT we encourage you to make use of the SEAS application; if you are Aboriginal or Torres Strait Islander, if you have experienced financial difficulty, if you have a disability or medical condition, are from a rural area, have difficult circumstances or background, are from a non-English speaking or refugee background, are a mature age applicant, are applying for specified under-represented gender courses, or are a year 12 student at an RMIT SNAP School. The SEAS application provides the basis for additional consideration in the selection of students for our certificates, diploma, advanced diploma, associate degree and degree courses. We encourage you to make use of the SEAS application so that we can continue to ensure our student body is diverse and inclusive.

**Credit transfer, pathways and recognition of prior learning**

**Credit transfer**

Credit transfer is the recognition of previously completed formal training and/or qualifications.

Gaining credit can reduce study load, therefore reducing the time taken to complete a course, or can reduce the number of subjects needed for completion thereby reducing the cost of a course.

For more information: [www.rmit.edu.au/students/enrolment/credit](http://www.rmit.edu.au/students/enrolment/credit)

**Pathways into courses**
Different levels of study at RMIT mean you can explore more than one way of getting the qualification you want. For more information: [www.rmit.edu.au/programs/pathways](http://www.rmit.edu.au/programs/pathways)

**Recognition of prior learning**

Recognition of prior learning (RPL) is the recognition of skills and knowledge you have gained through life and work experience and through non-accredited training.

For more information: [http://www.rmit.edu.au/students/enrolment/credit](http://www.rmit.edu.au/students/enrolment/credit)

**Internal transfers**

Current RMIT students and recent graduates can fast-track their application for a new course by applying direct to RMIT as an internal applicant.

**Requirements to undertake work experience/industry**

The opportunity for students to undertake work placements within industry is a cornerstone of RMIT's approach to industry-relevant education and training. Most students will participate in some form of Work Integrated Learning during their study at RMIT. Students are motivated to undertake work placements to enhance their work skills and employability and for many, work placements are a prescribed part of professional accreditation in their fields of study. Students may be required to obtain a successful Police Check, Working with Children Check and/or receive specific immunisations and/or health screenings in order to participate in the work experience/industry placement component of part of their course.

For more information: [www.rmit.edu.au/industry/placements](http://www.rmit.edu.au/industry/placements)

**Australian Qualifications Framework (AQF)**

Many RMIT University undergraduate degree courses are changing their title to include the word 'honours' as a result of the implementation of the new Australian Qualifications Framework (AQF) in July 2011. These four year bachelor degrees are being reclassified as bachelor (honours) degrees. The content of these degrees has not changed significantly: it is just that their learning outcomes level is more correctly classified as AQF level 8 (bachelor honours degree) than as level 7 (bachelor pass degree), because they involve a substantial project or piece of research in their final year. Applicants for these programs may find that the title of the program has changed to include the word 'honours'.

**Apprenticeships and traineeships**

RMIT offers a broad range of apprenticeships, traineeships and pre-apprenticeships. Apprenticeships and traineeships combine paid work with training under a government approved training agreement and lead to many nationally-recognised qualifications. Major shortages are occurring in the trades area and graduates are increasingly in demand.

**Participation in offer rounds**

RMIT will participate in Round 1 and Round 2 offers. Some courses will also participate in Early Round.

**Enrolment and deferment**
Enrolment
Successful applicants will receive an email (at the email address supplied in the VTAC Course Application) with offer information and details about how to enrol. An enrolment pack will also be sent to the postal address supplied in the application. To accept and enrol, carefully follow all instructions in the offer letter and enrolment pack.

For more information: www.rmit.edu.au/students/gettingstarted

Deferment
Most courses at RMIT permit eligible applicants to defer the commencement of their studies. Deferral may be granted up to one year.

For more information: www.rmit.edu.au/students/enrolment/defer

Privacy
Successful applicants will have a record generated on RMIT's student administration system which automatically creates a student email account. RMIT's email system is externally provided by Google on a secure domain and privacy protections implemented to ensure no unauthorised access or use.

For more information: www.rmit.edu.au/students/privacy

Services

Accommodation
Students from all RMIT campuses can get assistance and advice on housing issues from Student Wellbeing Advisors. For information please contact City campus +61 3 9925 2963, Bundoora campus +61 3 9925 7280 or email housing@rmit.edu.au.

Students can also use RMIT's housing database to learn about accommodation options and find rooms and properties.

RMIT Village is a student accommodation complex within walking distance from RMIT's city campus and RMIT students enjoy priority access.

For more information: www.rmit.edu.au/housing

Student Services
As an RMIT student you can get free information and advice on:

- study and learning
- work and careers
- housing
- finance
- scholarships
- legal matters
- counselling
- health
- spirituality
- childcare.

We also have specialist services if you are:

- an international student
- living with a disability, long-term illness and/or mental health condition
- an Aboriginal or Torres Strait Islander.

For more information: www.rmit.edu.au/students/services

International student support
Student Wellbeing services are free to RMIT international students providing information and support. Student Wellbeing Advisors can provide assistance with:

- housing advice
- financial management
- making cultural and social adjustments
- studying successfully.

For more information:  
www.rmit.edu.au/internationalsupport

**Students with a disability or long-term illness**

The Disability Liaison Unit (DLU) can offer:

- assistance with assessment and study conditions
- information and support to better access spaces around RMIT
- arrangement of technology such as reading
- writing and voice-recognition software, zoom text, screen magnification etc

Tel. +61 3 9925 1089

Email: dlu@rmit.edu.au

Visit us at Building 10, Level 4, City campus.

Bundoora campus is by appointment only.

**City:** 3200332443 (IFP) full-time  
Apply: Through VTAC  main round

- Bachelor of Business (Accountancy): 3 years full time study

### About the course

Accountancy involves recording, measuring, classifying and interpreting financial transactions and events. Skills in this field are frequently used by lenders, managers, investors, tax authorities, business decision-makers, as well as by accountants in public accounting firms, and commercial and government organisations.

This three year course offers students the flexibility to choose a second business major or minor studies and electives from business and other disciplines, depending on career or personal development goals. Students who wish to meet the requirements for membership of the professional accounting bodies in Australia should undertake specified accounting subjects.

### Major studies

Accounting, Auditing, Auditing and taxation, Bookkeeping, Business, Business (accounting), Business (economics), Business (law), Business (taxation), Financial accounting, Management accounting, Taxation and auditing.

### Prerequisites

Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL.

### Middle-band

A study score of 25 in Accounting, Business Management, Economics, Geography, any Information Technology, Legal Studies, any Mathematics or Psychology equals 1 aggregate point per study. A study score of 35 in any English equals 2 aggregate points per study. Overall maximum of 5 points.
**Selection Mode:** CY12: ATAR and middle-band.
NY12: Educational History including GPA.

**RMIT University**

City: 3200372314 (Fee type determined by provider) full-time/part-time  
Apply: Through VTAC  
main round

- Certificate IV in Accounting: 0.5 year full time study
- Diploma of Accounting: 1 year full time study
- Advanced Diploma of Accounting: 1.5 year full time study
About the course: This course is designed to enhance career prospects for people currently employed in an accounting role, or to prepare students for further studies. In the certificate IV students will develop an understanding of core business practices in the financial services industry. These include financial records, budgets and tax requirements as well as general business skills and communication. By successfully completing the certificate IV, students will meet the minimum educational requirements for registered tax agent and business activity statement (BAS) services set by the Tax Practitioners Board.

The diploma will further develop students’ knowledge of preparing, implementing and controlling financial budgets, forecasting, reporting, computerised accounting systems, and providing management accounting information. The advanced diploma will extend students’ knowledge of complex tax and corporate governance matters, developing financial strategies and learning about the provision and evaluation of business performance information. Graduates will be prepared for work in accounting, accounting support or accounting technician roles in financial institutions, retail stores and other businesses.

Students will be admitted into the lowest level qualification and will progress, subject to satisfactory academic progress, to the higher qualification levels.

Major studies: Accounting, Accounting and finance, Audit, Bookkeeping, Budgeting, Business (accounting), Business Activity Statements (BAS), Company accounting, Compliance, Computer Accounting, Corporate governance, Financial Performance, Financial reports, Financial Statements.

Prerequisites: None

Middle-band: None

Selection Mode: CY12 : ATAR.
NY12 : Educational History including GPA, VTAC Personal Statement (All), Work experience (All). See extra requirements for more information.

Extra requirements:
VTAC Personal Statement (NY12-All) : NY12 applicants must complete and submit the Personal Statement.
Work experience (NY12-All)

RMIT University
City: 3200372244 (Fee type determined by provider) full-time/part-time Apply: Through VTAC main round

Certificate IV in Business Administration: 1 year full time study
Diploma of Business Administration: 1.5 year full time study

About the course: Students gain administrative and organisational skills and develop the confidence to take on more responsibility in an office environment. During the certificate IV students will learn how to manage complex administrative practices and operate an effective work environment. Students will combine studies in administration as well as electives relating to accounting and records, and workplace practices. The diploma is focused on broadening students’ range of administration skills to meet the expectations of employers. It covers managing meetings, administrative projects and staff recruitment and induction. Students will also learn about using IT and developing and implementing systems and strategies to achieve workplace and customer service goals. Students will learn in a virtual workplace environment. By using a simulated business space to operate RMIT’s virtual enterprise, students work in conjunction with a mentor from a real-life company and develop professional business skills valued by employers.

Students will be admitted into the lowest level qualification and will progress, subject to satisfactory academic progress, to the higher qualification levels.

Major studies: Administration, Business (administration), Information Management, Payroll.

Prerequisites: None

Middle-band: None

Selection Mode: CY12 : ATAR.
NY12 : Educational History including GPA, VTAC Personal Statement (All), Work experience (All). See extra
requirements for more information.

**Extra requirements:**

VTAC Personal Statement (NY12-All) : NY12 applicants must submit a VTAC Personal Statement.

Work experience (NY12-All) : NY12 applicants should also detail any work experience when completing a VTAC Personal Statement.

- Bachelor of Communication (Advertising): 3 years full time study

**About the course:** This course provides professional preparation for a career in advertising. There is a strong emphasis on critical and conceptual thinking. Students learn to use these skills to solve marketing problems, generate attention for brands and products, and build an emotional bond between brands and consumers.

The course combines professional subjects with specialisations in art direction, copywriting, strategy planning and creative management with a grounding in communication theory and practice and a contextual studies specialisation in either Asian media and culture, cinema studies, politics economies and communication, or literature and philosophy. In addition, students can choose a maximum of three subjects from a range of university-wide electives in second and third year.

Further details about this course can be found at [www.rmit.edu.au/visualcommunication](http://www.rmit.edu.au/visualcommunication)

**Major studies:** Advertising communication, Advertising creativity, Advertising media, Art direction, Client management, Communication studies, Copywriting, Design for advertising, Digital creative direction, Professional practice, Strategic planning.

**Prerequisites:** Units 3 and 4: a study score of at least 30 in any English.

**Middle-band:** None

**Selection Mode:** CY12 : ATAR, Information kit (All), Folio (Some). See extra requirements for more information.

NY12 : Educational History including GPA, Information kit (All), Folio (Some). See extra requirements for more information.

**Extra requirements:**

Information kit (CY12-All, NY12-All) : Creative Exercise: All applicants must attend the University to complete a creative exercise. Details will be emailed to all applicants by the University by 5pm 24 October. Applicants who have not received notification must email advertising@rmit.edu.au by no later than 5pm 29 October. NY12 applicants must attend, as assigned, on 31 October. CY12 applicants must attend, as assigned, on 21 or 22 November.

Folio (CY12-Some, NY12-Some) : Folio presentation (short-listed and exempt applicants only): Applicants required to attend will be notified by the University by email. NY12 applicants must attend, as assigned, on 13, 14 or 15 November. CY12 applicants must attend, as assigned, on 4, 5 or 6 December. Advisory letters will be emailed by 5pm 11 December. Applicants living interstate or overseas must contact advertising@rmit.edu.au by 31 October for alternative arrangements.

**Exemption notes:**

(i) Some applicants may be exempt from the creative exercise if they have successfully completed 2 years or more of tertiary study in a creative advertising or design-oriented discipline. These applicants must email details of their
completed study to advertising@rmit.edu.au by 12 noon, 1 November and will receive confirmation of eligibility for an exemption by 5pm, 6 November. Exempt applicants are required to present original transcripts at the folio presentation.

Advertising (VET)

RMIT University

City: 3200372214 (Fee type determined by provider) full-time/part-time  Apply: Through VTAC  main round

- Certificate IV in Advertising: 0.5 year full time study
- Diploma of Advertising: 1 year full time study
- Advanced Diploma of Advertising: 1.5 year full time study

About the course: This course combines studies in traditional and electronic advertising to develop skills in briefing, digital advertising creation, e-marketing, promotion and evaluating the effectiveness of campaigns. Students learn about marketing, creative and production elements, art direction, copywriting and media planning and buying for a career in advertising or integrated marketing communications. In the certificate students will learn about conducting, analysing and presenting market research, understanding consumer behaviour and profiling a target audience. Key elements of advertising such as production and scheduling as well as electronic marketing and promotion will also be covered. In the diploma students will further develop their knowledge of marketing, media types and media planning, campaign presentation and business planning. The advanced diploma builds on previous knowledge and students will learn how to develop and execute marketing and communication plans and campaigns and explore emerging e-business innovations.

As part of the course students will have the opportunity to work with high profile industry partners to work on real projects and campaigns in a simulated communications agency and also develop their skills in team effectiveness, work prioritisation and leadership.

Students will be admitted into the lowest level qualification and will progress, subject to satisfactory academic progress, to the higher qualification levels.

Prerequisites: None

Middle-band: None

Selection Mode: CY12: ATAR.
NY12: Educational History including GPA, VTAC Personal Statement (All), Work experience (All). See extra requirements for more information.

Extra requirements:

VTAC Personal Statement (NY12-All): NY12 applicants must submit a VTAC Personal Statement.

Work experience (NY12-All): NY12 applicants should also detail any work experience when completing a VTAC Personal Statement.

Alcohol and Other Drugs (VET)

RMIT University

City: 3200373064 (Fee type determined by provider) full-time  Apply: Through VTAC  main round

- Certificate IV in Alcohol and Other Drugs Work: 1 year full time study

About the course: Students gain specific knowledge and skills to work with clients with alcohol and other drugs issues and the knowledge to apply appropriate intervention processes within residential and community settings. The course combines workshops, field trips and 240 hours of practical work experience. Students will be exposed to, and educated in, the myriad aspects of working with and supporting people with alcohol and other drug issues. Over the year students will study the underpinning knowledge and principles which support holistic, strength based
practice with teachers who are experienced and highly skilled professionals currently working in the community services and complex-needs sector.

Further details about this course can be found at www.rmit.edu.au/youthwork

**Major studies:** Alcohol and other drugs, Case management, Crisis intervention, Effective communication, Legal and ethical issues, Mental health.

**Prerequisites:** None

**Middle-band:** None

**Selection Mode:** CY12 : VTAC Personal Statement (All), Interview (All), Work experience (All). See extra requirements for more information.

NY12 : VTAC Personal Statement (All), Interview (All), Work experience (All). See extra requirements for more information.

**Extra requirements:**

VTAC Personal Statement (CY12-All, NY12-All) : All applicants must submit a VTAC Personal Statement outlining their reasons for wanting to study in the alcohol and other drugs sector, their intended career path and the personal strengths and attributes they will bring to the course.

Interview (CY12-All, NY12-All) : Applicants who have submitted a VTAC Personal Statement will be contacted by the University in October/November to attend an interview. Interviews will be held in November/December. Applicants who have not submitted a VTAC Personal Statement will not be interviewed.

Work experience (CY12-All, NY12-All) : Applicants should also detail any work experience when completing a VTAC Personal Statement.

SUCCESSFUL APPLICANTS: Police Check: successful applicants must successfully complete a National Police Records Check before undertaking work placements. WWC Check: Students must hold a valid Working With Children card before undertaking work placements that involve working with children.

- Bachelor of Design (Animation and Interactive Media): 3 years full time study

**About the course:** This course provides the skills necessary to manage the dynamic medium of digital technology within art, design, and animation and media industries.

Presented in a creative and supportive environment, the course focuses on intellectual investigation and conceptual development and provides training in animation, interactive media, digital video, electronic imaging, digital compositing, motion graphics, 3D imaging, digital sound, time-based media studies, web authoring, design and visual arts new media.

During the first year students a comprehensive introduction to technique, creative expression and the theory and practice of digital media. In second year students study 2D animation, 3D animation, interactive media and video and have the opportunity to specialise in their chosen areas of interest. In the final year the emphasis is on collaborative and conceptual development.

Further details about this course can be found at www.rmit.edu.au/gamesanimation

**Major studies:** Animation, Animation (2D), Animation (3D), Animation design and production, Computer animation, Concept art, Design, Digital arts, Illustration, Imaging and sound, Interactive media, Motion design, Sound for image, Special effects, Video post-production, Visual effects, Web design.
**Prerequisites:** Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL.

**Middle-band:** None

**Selection Mode:** CY12: Information kit (All), Folio (Some). See extra requirements for more information.

**Selection Mode:** NY12: Information kit (All), Folio (Some). See extra requirements for more information.

**Extra requirements:**

Information kit (CY12-All, NY12-All): All applicants must complete and submit the 2014 RMIT University Animation and Interactive Media pre-selection kit by 4 October. The kit is available in the entry requirements section of www.rmit.edu.au/programs/bp203

Folio (CY12-Some, NY12-Some): Folio presentation (short-listed applicants only): Applicants required to attend a folio presentation will be contacted by the University via email in November. These applicants must attend in November/December. Overseas or interstate applicants who are unable to attend must email baaim@rmit.edu.au by 13 November. Advisory letters will be emailed in December.

- Bachelor of Architectural Design: 3 years full time study

**About the course:** This design course focuses on the social, cultural and technological aspects of architecture. It is designed to articulate into the Master of Architecture on successful completion of the bachelor degree with a minimum GPA of 2.5. The Master of Architecture qualification is required for professional registration as an architect.

The design studios, held at each level, form the core of the course structure, providing the point of integration for all subjects. Students investigate architecture through design, integrating the knowledge gained in history, communications and technology subjects into a total design project.

Throughout the course students will complete a total of five design studios, which allows them to select a large range and diversity of design experiences, contexts, scales and agendas. Students are exposed to architectural practice through staff who are active practitioners and through international exchange opportunities and industry projects.

Further details about this course can be found at www.rmit.edu.au/architecturedesign

**Major studies:** Architecture, Communications, Urban design.

**Prerequisites:** Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL.

**Middle-band:** None

**Selection Mode:** CY12: ATAR, Information kit (All), Interview (Some). See extra requirements for more information.

**Selection Mode:** NY12: Educational History including GPA, Information kit (All), Interview (Some). See extra requirements for more information.
Extra requirements:

Information kit (CY12-All, NY12-All): All applicants must complete and submit the 2014 RMIT University Architecture pre-selection kit by no later than 5.00pm, 15 November 2013. Late submissions will not be considered. The kit is available in the entry requirements section of www.rmit.edu.au/programs/bp250

Advanced level applicants are not required to submit the pre-selection kit. Instead they must submit a folio, CV, academic transcript and letter outlining their reason for applying by no later than 5.00 pm, 18 October.

Interview (CY12-Some, NY12-Some): Short-listed and exempt applicants required to attend an interview will be contacted by the University in writing by 29 November. These applicants must attend, as assigned, between 4 and 6 December.

Notes:

(i) Advanced level applicants are defined as applicants who have completed at least one year of tertiary study in architecture, interior design, industrial design, or landscape architecture or completed an Advanced Diploma of Building Design (Architectural) or Diploma of Drafting/Building Design. Applicants unsure if they are Advanced Level should email bp250selection@rmit.edu.au prior to 5.00 pm, 11 October to confirm.

(ii) Advanced level applicants must submit their folio pack to the Selection Officer, RMIT Architecture, School of Architecture and Design, RMIT University.

---

Audiovisual Technology (VET)

RMIT University

City: 3200372404 (Fee type determined by provider) full-time Apply: Through VTAC main round

- Certificate IV in Audiovisual Technology: 1 year full time study
- Diploma of Audiovisual Technology: 1 year full time study

About the course: Students learn practical and technical skills for work in event production companies, broadcast television, AV installations and educational settings. These skills include lighting, audio, TV production, AV design, installation and event management. Students will also engage directly with the industry.

The certificate IV provides students with a broad range of audiovisual technology skills including audiovisual production, video and presentation equipment operation, television studio production, digital photography, Protocols, location lighting, and equipment maintenance.

The diploma provides students with a range of specialised technical, creative and conceptual skills that may be used in corporate events, education, installation, screen and other sectors of the audio visual industry. Students are trained in home theatre, installation and design, broadcast news camera, video production and editing, lighting and audio, technical direction, DVD and events production. Further career options include event production and technical management. Such work can be of a freelance or contract nature. Skilled workers are currently in high demand in this industry sector and the demand is growing.

Students will be admitted into the lowest level qualification and will progress, subject to satisfactory academic progress, to the higher qualification levels.

Further details about this course can be found at www.rmit.edu.au/media

Major studies: Audio and video production, Audiovisual systems and equipment, Computer animation, Computer graphics, Computer music production systems, Digital audio, Digital photography, Digital television production, Digital video camera techniques, Event management, Event staging, Lighting, Post-production and production management, Production lighting, Production planning, Soldering and equipment maintenance, Sound recording and production, Systems analysis and design, Television/studio production, Video technical direction.

Prerequisites: None

Middle-band: None

Selection Mode: CY12: Interview (All). See extra requirements for more information.

NY12: Interview (All). See extra requirements for more information.

Extra requirements:

Interview (CY12-All, NY12-All): Applicants will be notified by the University via email in late October/November (or November/December for late applicants) to attend an interview. Applicants must attend in early November (late applicants in November/December). Overseas or interstate applicants who are unable to attend the interview must email mctafe@rmit.edu.au by 22 November. Advisory letters will be sent to applicants in December.

- Bachelor of Applied Science (Aviation): 3 years full time study

About the course: Students learn about airport and airline operations, including planning, maintenance and management, taking into account risk, human factors and the aviation industry environment. Operations management and planning roles include airport landside and airside operations, airport planning, airline maintenance management and supervision, and career path options for experienced commercial pilots transitioning to airline operations management. Graduates may embark on professional careers in the following areas: airline management, airline operations, airline maintenance, airport management, airport operations, airport planning, aviation consulting, aviation charter firms and aviation regulation and safety.

Students can select elective subjects and the course includes professional development. Qualified commercial pilots may gain advanced standing.

Major studies: Aircraft general knowledge, Aircraft operations and maintenance, Airline operations, Airport planning and management, Aviation, Aviation quality, Aviation strategy, Human factors, Project management, Safety management.

Prerequisites: Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL; and a study score of at least 25 in any Mathematics.

Middle-band: Satisfactory completion in Business Management, Maths: Specialist Mathematics or Physics equals 1 aggregate point per study. Overall maximum of 3 points.

Selection Mode: CY12 : ATAR and middle-band.
NY12 : Educational History including GPA, VTAC Personal Statement (Some). See extra requirements for more information.

Extra requirements:
VTAC Personal Statement (NY12-Some) : NY12 (some applicants) who wish other information to be considered must submit a VTAC Personal Statement.

Aviation (Pilot) (HE)

RMIT University

City / Point Cook: 3200532931 (CSP) full-time  Apply: Through VTAC  main round

- Bachelor of Applied Science (Aviation): 3 years full time study

About the course: Students gain all the necessary ground theory along with the flying training to become a professional pilot, with a CASA recognised pilot's licence once all relevant training and examinations have been completed. In addition to this, students will learn about airport and airline operations, maintenance, and management, taking into account risk, human factors and the aviation industry environment. Students of this course will be given both pilot specific knowledge, as well as knowledge of the entire aviation industry, preparing them for later operations and management roles. This includes understanding of the functions of operations management and planning roles in terms of airport landside and airside operations, airport planning, and airline maintenance management and supervision. Although primarily intended for students who wish to become professional pilots,
graduates may find career options in the following areas: airline operations, airline maintenance, airport operations, airport planning, aviation consulting, aviation charter firms and aviation regulation and safety.

Contact RMIT University regarding the cost of the pilot training component of this course.

**Major studies:** Aircraft general knowledge, Aircraft operations and maintenance, Airline operations, Airport planning and management, Aviation, Aviation quality, Aviation strategy, Human factors, Project management, Safety management.

**Prerequisites:** Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL; and a study score of at least 25 in any Mathematics.

**Middle-band:** Satisfactory completion in Business Management, Maths: Specialist Mathematics or Physics equals 1 aggregate point per study. Overall maximum of 3 points.

**Selection Mode:** CY12 : ATAR and middle-band.
NY12 : Educational History including GPA, VTAC Personal Statement (Some). See extra requirements for more information.

**Extra requirements:**
VTAC Personal Statement (NY12-Some) : NY12 (some applicants) who wish other information to be considered must submit a VTAC Personal Statement.
SUCCESSFUL APPLICANTS: Must obtain a CASA Class 1 Medical Certificate prior to course commencement.

- Associate Degree in Aviation (Professional Pilots): 2 years full time study

**About the course:** Students gain a high level of knowledge in fixed wing aircraft flight operations. On completion and with sufficient flying experience, employment opportunities exist with charter organisations, flying schools and regional airlines. Graduates are eligible for a full Commercial Pilot Licence. The course includes the theory and flying components of the Commercial Pilot Licence (CPL), Multi-Engine Command Instrument Rating (MECIR) or Flight Instructor Rating (FIR) and the theory components for an Air Transport Pilot Licence (ATPL) (frozen). This course has been designed in consultation with an Industry Advisory Committee consisting of senior pilots/operations personnel from Australia's major airlines and aerospace organisations. Course fees are based on 160 hours of flying training to Commercial Pilot Licence and theory towards the Air Transport Pilot Licence and either Instrument Rating (IREX) or Flight Instructor Rating. Some flying training will take place at Moorabbin Airport.

Fees include the CASA minimum flying hours and theory delivery towards a CPL and MECIR or FIR. Additional flying practicums may be required to meet CASA regulatory standards; these additional flights will be charged at the published RMIT Material Fee rates. Fees exclude books, ancillary equipment, CASA exams and additional flight practicums. For further information relating to fees for this program please refer to www.rmit.edu.au/programs/fees/highered/fullfees

**Major studies:** Aircraft general knowledge, Aviation, Aviation (commercial pilot licence), Aviation (flight rules and air law), Aviation (general navigation), Aviation (instructor rating), Aviation (instrument rating), Aviation (instrumentation and control), Aviation (law), Aviation industry environment, Aviation quality systems, Flight training.

**Prerequisites:** Units 3 and 4: a study score of at least 25 in English (EAL) or 20 in English other than EAL; and a study score of at least 20 in any Mathematics.
Middle-band: Satisfactory completion in Physics equals 1 aggregate point.

Selection Mode: CY12 : ATAR and middle-band.
NY12 : Educational History including GPA, VTAC Personal Statement (Some). See extra requirements for more information.

Extra requirements:
VTAC Personal Statement (NY12-Some) : NY12 (some applicants) who wish other information to be considered must submit a VTAC Personal Statement.
SUCCESSFUL APPLICANTS: Must obtain a CASA Class 1 Medical Certificate prior to course commencement.

- Bachelor of Biomedical Science: 3 years full time study

About the course: Students learn how the human body functions and responds to various diseases, exercise, diet, internal disturbances and environmental influences. Students learn about the roles played by different cell types, neuroscience, cancer, DNA profiling, genetic engineering and using stem cells.

Graduates have advanced theoretical and practical knowledge in areas of biochemical, biological and paramedical sciences. Graduates may undertake research in universities, hospitals and biomedical research institutes and may also pursue postgraduate studies in research. There are job opportunities in medical and pharmaceutical industries, diagnostic laboratories, health promotion and administration. The degree may lead to health science postgraduate degrees such as medicine, physiotherapy, dentistry, pharmacy, osteopathy and chiropractic.

Major studies: Anatomy and physiology, Biochemistry, Bioinformatics, Biomedical science, Biotechnology, Cell biology, Cell physiology, Human physiology, Medical microbiology, Medical science, Molecular medicine and biotechnology, Neurobiology, Pathology.

Prerequisites: Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL; and a study score of at least 20 in Chemistry; and a study score of at least 20 in one of any Mathematics or Physics.

Middle-band: A study score of 25 in one but no more than three of Biology, Chemistry, Maths: Mathematical Methods (CAS), Maths: Specialist Mathematics or Physics equals 2 aggregate points per study.

Selection Mode: CY12 : ATAR and middle-band.
NY12 : Educational History including GPA, VTAC Personal Statement (Some). See extra requirements for more information.

Extra requirements:

City: 3200332343 (IFP) full-time  Apply: Through VTAC main round

- Bachelor of Science (Biotechnology): 3 years full time study
**About the course:** Students gain knowledge as well as hands-on skills in the study of living systems at a molecular level to devise strategies to solve practical problems such as disease intervention, drug and food production, improving food supplies and decontaminating soil and water. Biotechnology covers the areas of molecular biology, bioinformatics, genomics and proteomics, collectively called biomolecular technologies, as well as specific technologies such as fermentation. It uses the core knowledge and techniques of genetics, biological chemistry and microbiology. This course involves significant experimental hands-on skills for diverse careers in industry and public organisations. Graduates have worked all around the world in nearly every area of biotechnology and biosciences, from diagnosing genes that cause cancer to making crops and livestock less vulnerable to disease, to toxin testing in waterways and crop protection.

Further details about this course can be found at [www.rmit.edu.au/appliedsciences](http://www.rmit.edu.au/appliedsciences)

**Major studies:** Biochemistry, Bioinformatics, Biological sciences, Biology, Biotechnology, Cell biology, Cell physiology, Chemistry, Genetics, Microbiology, Plant biology.

**Prerequisites:** Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL; and a study score of at least 20 in one of Maths: Mathematical Methods (CAS) or Maths: Specialist Mathematics.

**Middle-band:** Satisfactory completion in one but no more than three of Biology, Chemistry, Maths: Specialist Mathematics or Physics equals 2 aggregate points per study.

**Selection Mode:** CY12 : ATAR and middle-band.

NY12 : Educational History including GPA, VTAC Personal Statement (Some). See extra requirements for more information.

**Extra requirements:**

VTAC Personal Statement (NY12-Some) : NY12 (some applicants) who wish other information to be considered must submit a VTAC Personal Statement.

- Bachelor of Science (Biotechnology)/Bachelor of Biomedical Science: 4 years full time study

**About the course:** Students develop a fundamental understanding of biotechnology and biomedical sciences. Studies include proteomics, applied biochemistry, anatomy, neuroscience and cardiovascular biology or industrial microbiology, toxicology and chemical safety. This course involves significant hands-on experience for diverse careers in research, production and testing positions in industry and public organisations. Graduates have an understanding of research processes and experience with modern technologies in biotechnology and biomedical research. Career opportunities may include control of plant and animal diseases, research in genomics, molecular biology, proteomics, human disease, health promotion, teaching, quality control and production of vaccines.

Further details about this course can be found at [www.rmit.edu.au/appliedsciences](http://www.rmit.edu.au/appliedsciences)

**Major studies:** Anatomy and physiology, Biochemistry, Bioinformatics, Biological sciences, Biology, Biomedical science, Biotechnology, Cell biology, Cell physiology, Chemistry, Genetics, Microbiology, Plant biology.

**Prerequisites:** Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL; and a study score of at least 20 in one of Chemistry or Physics; and a study score of at least 20 in one of Maths: Mathematical Methods (CAS) or Maths: Specialist Mathematics.

**Middle-band:** Satisfactory completion in one but no more than three of Biology, Chemistry, Maths: Specialist Mathematics or Physics equals 2 aggregate points per study.
Selection Mode: CY12: ATAR and middle-band.
NY12: Educational History including GPA, VTAC Personal Statement (Some). See extra requirements for more information.

Extra requirements:
VTAC Personal Statement (NY12-Some): NY12 (some applicants) who wish other information to be considered must submit a VTAC Personal Statement.

Building and Construction (VET)

RMIT University
City: 3200372014 (Fee type determined by provider) full-time/part-time Apply: Through VTAC main round

- Diploma of Building and Construction (Building): 2 years full time study

About the course: Students will study the principles, techniques and regulations involved in the building and construction industry for all types of medium-rise and wide-span buildings. Hands-on work and project-based learning allow experience of many aspects of building projects.

This diploma provides a qualification for para-professional duties within the building and construction industry, in all building related businesses.

Students completing the diploma may be able to gain employment in a career as a contract administrator, estimator, assistant site manager, junior site foreman, OH&S site coordinator, or building administrator.

Major studies: Building, Building (construction methods), Building (estimating), Building (law), Building (surveying), Building (technology), Building codes and standards (low rise), Building codes and standards (medium rise), Building contract administration, Building law and building practice, Building management, Building regulations, Contracts and tenders.

Prerequisites: None

Middle-band: Satisfactory completion in any Mathematics equals 1 aggregate point per study.

Selection Mode: CY12: ATAR and middle-band, Test (All). See extra requirements for more information.

NY12: Educational History including GPA, VTAC Personal Statement (Some), Interview (All), Test (All). See extra requirements for more information.

Extra requirements:
VTAC Personal Statement (NY12-Some): NY12 (some applicants) who wish other information to be considered must submit a VTAC Personal Statement.

Interview (NY12-All)

Test (CY12-All, NY12-All): Applicants must telephone (03) 9925 4468 to book by 1 October. Applicants must attend in October/November.

Building Design (VET)

RMIT University
City: 3200372034 (Fee type determined by provider) full-time Apply: Through VTAC main round

- Advanced Diploma of Building Design (Architectural): 2.5 years full time study

About the course: Students gain paraprofessional skills and knowledge needed for the design and digital documentation of residential, industrial, commercial and other building projects of architectural complexity. The advanced diploma comprises 24 units delivered over the equivalent of two and a half years. A project based learning approach is used to simulate workplace practices and the projects are coordinated and integrated across connected units of study. Project work is facilitated and integrated through a range of digital platforms and applications to support the architectural production process.
The Advanced Diploma of Building Design (Architectural) is recognised by the Building Commission, Victoria as the academic requirement for the registration category of Building Designer (Architectural).

Further details about this course can be found at [www.rmit.edu.au/designtafe](http://www.rmit.edu.au/designtafe)

**Major studies:** Building (construction methods), Building (design), Building (technology), Digital applications (CAD and BIM), Environmental sustainability.

**Prerequisites:** None

**Middle-band:** A study score of 25 in any Mathematics equals 2 aggregate points per study.

**Selection Mode:** CY12 : ATAR and middle-band.

NY12 : Educational History including GPA, VTAC Personal Statement (All), Work experience (All). See extra requirements for more information.

**Extra requirements:**
- VTAC Personal Statement (NY12-All) : NY12 applicants must submit a VTAC Personal Statement and include their reasons for wanting to study the course.
- Work experience (NY12-All) : Applicants should also detail any work experience when completing a VTAC Personal Statement.

- Associate Degree in Business: 2 years full time study

**About the course:** Students gain professional capabilities and focus on developing business knowledge in the areas of accounting, commercial law, economics and finance, IT, management, marketing, statistics, and supply chain.

Concurrent studies in English and academic learning skills are embedded in course as well as the opportunity to practise and expand business skills in a real or simulated business environment. Business design subjects help students relate their own skills and abilities to the needs of business and organisations. Graduates can pursue pathways into RMIT's Bachelor of Business degrees and/or direct employment outcomes.

**Major studies:** Accounting, Business, Business (management), Economics, Human resource management, Information Technology, Legal Studies, Logistics and Supply Chain Management, Management, Marketing.

**Prerequisites:** Units 3 and 4: a study score of at least 25 in English (EAL) or 20 in English other than EAL.

**Middle-band:** A study score of 25 in Accounting, Business Management, Economics, Geography, any Information Technology, Legal Studies, any Mathematics or Psychology equals 1 aggregate point per study. A study score of 30 in any English equals 2 aggregate points per study. Overall maximum of 5 points.

**Selection Mode:** CY12 : ATAR and middle-band.

NY12 : Educational History including GPA.

- Bachelor of Science (Applied Chemistry)/Bachelor of Business (Management): 4 years full time study

**About the course:** Students develop a deep understanding of business and management practices as well as chemical principles and processes. Students also gain specific knowledge of drug, environmental and food chemistries and choose to specialise from a range of business management electives.

Graduates fill a wide range of roles in industry, business and government. Employment opportunities include product development, quality control, process management, organisational planning and development, and operations management.

Core science and business management subjects include fundamentals of chemistry, mathematics, physics, chemical analysis, management studies, commercial law, organisational culture and politics. Final year chemistry electives provide students with specialist knowledge of the chemistry of drugs, environmental chemistry and food chemistry to further enhance graduates' capability in industry, research or government. Business electives give students the opportunity to specialise in human resources, business computing, marketing, public administration, accountancy or management.

Further details about this course can be found at [www.rmit.edu.au/appliedsciences](http://www.rmit.edu.au/appliedsciences)

**Major studies:** Analytical chemistry, Business management, Commerce, Employment relations, Environmental chemistry, Finance, Food chemistry, Inorganic chemistry, International business, Laboratory chemistry, Logistics, Management accounting, Marketing, Organic chemistry, Physical chemistry, Supply chain management.

**Prerequisites:** Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL; and a study score of at least 20 in Chemistry; and a study score of at least 20 in one of Maths: Mathematical Methods (CAS) or Maths: Specialist Mathematics.

**Middle-band:** Satisfactory completion in Maths: Specialist Mathematics or Physics equals 2 aggregate points per study.

**Selection Mode:** CY12 : ATAR and middle-band.

NY12 : Educational History including GPA, VTAC Personal Statement (Some). See extra requirements for more information.

**Extra requirements:**

VTAC Personal Statement (NY12-Some) : NY12 (some applicants) who wish other information to be considered must submit a VTAC Personal Statement. Relevant employment and experience will be considered.

Participating institution  

20/08/2013 5:04 PM
Bachelor of Science (Applied Chemistry)/Bachelor of Engineering (Chemical Engineering) (Honours): 5 years full time study

About the course: This course offers broad training in theoretical principles and modern laboratory practice, chemical safety and environmental issues. It includes in-depth studies in chemistry and analytical science combined with chemical engineering study areas and significant laboratory and project components.

Graduates are skilled as both engineers and scientists and are renowned for their hands-on experience and practical knowledge. They may find employment in a range of activities and occupy leading roles in a variety of industries including chemical, food, oil, biotechnology and pharmaceuticals, especially in regard to the development and commercialisation of new chemical products as well as large-scale production.

Science and chemical engineering subjects are studied in all years of the course. Later years include a focus on processing and product development, and projects in chemistry and engineering. The course develops leadership, teamwork and communication skills.

Further details about this course can be found at www.rmit.edu.au/appliedsciences

Major studies: Analytical chemistry, Chemical engineering, Computer aided design (CAD), Computer modelling, Environmental chemistry, Food chemistry, Inorganic chemistry, Laboratory chemistry, Organic chemistry, Physical chemistry, Polymer chemistry.

Prerequisites: Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL; and a study score of at least 20 in Chemistry; and a study score of at least 20 in one of Maths: Mathematical Methods (CAS) or Maths: Specialist Mathematics.

Middle-band: Satisfactory completion in Maths: Specialist Mathematics or Physics equals 2 aggregate points per study.

Selection Mode: CY12 : ATAR and middle-band.
NY12 : Educational History including GPA, VTAC Personal Statement (Some). See extra requirements for more information.

Extra requirements:
VTAC Personal Statement (NY12-Some) : NY12 (some applicants) who wish other information to be considered must submit a VTAC Personal Statement.

- Bachelor of Health Science/Bachelor of Applied Science (Chinese Medicine): 5 years full time study

About the course: This is an approved course of study for practitioner registration by the Chinese Medicine Board of Australia. It provides graduates with knowledge and skills for acupuncture and Chinese herbal medicine practice with an emphasis on integrated clinical care through an evidence based approach. The course consists of four and a half years of theoretical studies and clinical training at RMIT and one semester of advanced clinical training at the University Teaching Hospital, Nanjing University of Chinese Medicine, Nanjing, Jiangsu Province, China.
Applicants must be aware that there is high weekly contact throughout the course, particularly in years four and five for clinical training. Students will participate in classes where the use of human cadavers, disrobing and touching of fellow students of both sexes for the purposes of teaching and learning will be required. Students are also expected to follow professional requirements such as behaviour, dress and attendance. Go to www.rmit.edu.au/healthsciences for further information.

**Major studies:** Acupressure, Acupuncture, Anatomy and physiology, Biochemistry, Biomedical science, Chinese herbal medicine, Chinese medicine, Clinical studies, Immunology, Microbiology, Neuroscience, Pathology, Pharmacology and toxicology.

**Prerequisites:** Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL.

**Middle-band:** A study score of 25 in Biology, Chemistry, Health And Human Development, any Mathematics, Physical Education or Psychology equals 1.5 aggregate points per study. A study score of 35 in English (EAL) equals 1.5 aggregate points. A study score of 30 in English other than EAL equals 1.5 aggregate points per study. Overall maximum of 6 points.

**Selection Mode:** CY12 : ATAR and middle-band.

NY12 : Educational History including GPA, VTAC Personal Statement (Some), other. See extra requirements for more information.

**Extra requirements:**

VTAC Personal Statement (NY12-Some) : NY12 (some applicants) who wish other information to be considered must submit a VTAC Personal Statement.

SUCCESSFUL APPLICANTS: Police check: Students must provide evidence of a successful National Police Records Check before undertaking clinical components of this course. Working with Children Check: Students must hold a Working with Children Check before undertaking clinical components of this course. Failure to obtain satisfactory checks may result in students being unable to complete this course.

- Bachelor of Health Science/Bachelor of Applied Science (Chiropractic): 5 years full time study

**About the course:** The course maintains a strong focus on basic and human science subjects such as anatomy, physiology and pathology. These subjects underpin studies in the clinical sciences that include physical examination, differential diagnosis for the chiropractor and clinical practicum. Students will undertake work integrated learning (WIL) from the commencement of their studies. This culminates in year four when they assume patient care duties under the supervision of registered practitioners. Throughout their studies, students will learn to become practitioners who engage in daily critical reflection and lifelong learning. Applicants must be aware that there is high weekly contact throughout the year. Students are expected to follow professional requirements such as behaviour, dress and attendance. Students will also participate in classes where the use of human cadavers, disrobing and touching of fellow students of both sexes for the purposes of teaching and learning will be required. Go to www.rmit.edu.au/healthsciences for further information.

**Major studies:** Chiropractic.

**Prerequisites:** Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL.
**Middle-band:** A study score of 25 in Biology, Health And Human Development, any Mathematics, Physical Education or Psychology equals 1.5 aggregate points per study. A study score of 35 in English (EAL) equals 1.5 aggregate points. A study score of 30 in English other than EAL equals 1.5 aggregate points per study. Overall maximum of 6 points.

**Selection Mode:** CY12 : ATAR and middle-band.
NY12 : Educational History including GPA, VTAC Personal Statement (Some), other. See extra requirements for more information.

**Extra requirements:**
VTAC Personal Statement (NY12-Some) : NY12 (some applicants) who wish other information to be considered must submit a VTAC Personal Statement.

SUCCESSFUL APPLICANTS: Students must hold a valid Working with Children Check before undertaking practical components of this course. Failure to hold satisfactory checks may result in students being unable to complete this course.

- Bachelor of Design (Communication Design): 3 years full time study

**About the course:** This course prepares students for a career in communication design, and related visually creative and strategic design and communication professions. The course offers students a learning program that comprises closely related study sequences. During the first year, students gain a solid grounding and understanding of techniques, theory, creative visual representation and expression, conceptual exploration and strategic visual communication. There is a strong emphasis on critical, conceptual and strategic thinking as foundations of a sustainable design process.

In second and third year, students undertake a specialisation through communication design projects addressing a range of industrial, societal and professional issues. These include corporate and brand identity, digital convergence, publication, packaging, strategic design, sustainability, visual thinking, image making and intercultural design. Students also undertake communication studies in second year and two university wide electives in third year.

Further details about this course can be found at [www.rmit.edu.au/visualcommunication](http://www.rmit.edu.au/visualcommunication)

**Major studies:** Communications, Conceptual exploration and communications, Corporate identity design, Design strategy, Design theory, Digital media, Illustration, Media, Professional practice, Publication design (print), Publication design (web), Typography, Visual communication.

**Prerequisites:** Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL.

**Middle-band:** Satisfactory completion in Art, Studio Arts or Visual Communication Design equals 1 aggregate point per study.

**Selection Mode:** CY12 : ATAR and middle-band, Information kit (All), Folio (Some). See extra requirements for more information.

NY12 : Educational History including GPA, Information kit (All), Folio (Some). See extra requirements for more information.

- Bachelor of Computer Science (Major Study): 3 years full time study

About the course: Students develop a skill set that spans from theoretical and algorithmic foundations to cutting-edge developments in computing.

Students can choose a major study area within computer science. Majors include cloud computing, big data, mobile computing, application programming, security, web systems, and games, graphics and digital media. Students who prefer a general computer science degree without a major can choose elective subjects from a wide range of computer science electives.

Students are taught to readily adapt to new advances in the rapidly changing ICT environment. Graduates are knowledgeable and creative, have excellent programming skills, and are capable of designing, implementing and maintaining complex software systems which drive mobile devices, social media, intelligent robots and more.

Graduates may find work as professionals who are employed across the widest range of industries as part of software and IT teams.

Major studies: Algorithms and data structures, Animation, Artificial intelligence, Computer and network security, Computer architecture, Computer graphics, Databases, Enterprise systems, Internet, Networks and data communications, Object-oriented design, Object-oriented modelling, Object-oriented programming, Operating systems, Problem solving, Programming, Programming (.NET), Programming (C), Programming (Java), Software engineering.

Prerequisites: Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL; and a study score of at least 25 in one of Maths: Mathematical Methods (CAS) or Maths: Specialist Mathematics.

Middle-band: A study score of 35 in English (EAL) equals 1 aggregate point. A study score of 30 in English other than EAL equals 1 aggregate point per study. A study score of 30 in one but no more than three of Software Development, Maths: Mathematical Methods (CAS) or Maths: Specialist Mathematics equals 1 aggregate point per study.

Selection Mode: CY12: ATAR and middle-band.

NY12: Educational History including GPA, VTAC Personal Statement (Some). See extra requirements for more information.

Extra requirements:
VTAC Personal Statement (NY12-Some): NY12 (some applicants) who wish other information to be considered must submit a VTAC Personal Statement.
Computer Systems (VET)

RMIT University

City: 3200372344 (Fee type determined by provider) full-time/part-time  
Apply: Through VTAC main round

- Advanced Diploma of Computer Systems Engineering: 2 years full time study

About the course: Students gain high-level management and technical skills required in the implementation of computer systems, computer networks, internet and intranet infrastructure, design, programming and maintenance, digital systems, and computational solutions.

This course provides the opportunity to gain knowledge and skills towards numerous industry certifications which are highly valued by employers, i.e. CISCO Certified Network Associate (CCNA), CCNA-Security, CISCO IT Essentials, Certified Wireless Network Administrator (CWNA), Microsoft Certified Technology Specialist (MCTS) and Microsoft Certified IT Professional (MCITP). This course distinguishes itself from similar IT courses by putting emphasis on the underlying hardware platforms and engineering aspects of computer systems and networks.

Graduates from this course may be employed in a wide range of computer applications, including installation, commissioning and maintenance of computer systems, software, servers and networks.

Prerequisites: None

Middle-band: Satisfactory completion in one but no more than three of any Mathematics or Physics equals 1 aggregate point per study.

Selection Mode: CY12 : ATAR and middle-band.
NY12 : Educational History including GPA, VTAC Personal Statement (Some). See extra requirements for more information.

Extra requirements:
VTAC Personal Statement (NY12-Some) : NY12 (some applicants) who wish other information to be considered must submit a VTAC Personal Statement.

Computing Studies (HE)

RMIT University

City: 3200332381 (CSP) full-time  
Apply: Through VTAC main round

City: 3200332383 (IFP) full-time  
Apply: Through VTAC main round

- Bachelor of Technology (Computing Studies): 3 years full time study

About the course: This course is designed to give students a foundation in programming and information technology fundamentals, while also offering the chance to engage with topics outside the realm of information technology. The course is comprised of a minimum of 50 per cent computer science and information technology content, with the remainder a combination of non-IT studies and a choice of electives.

Core subjects include introduction to IT, programming, database systems, software engineering, web programming and professional computing practice. Students choose a minor study in one of the following areas: accounting and law, applied communication, economics, finance and marketing, entrepreneurship, logistics, management and
Graduates may gain employment as IT professionals in a number of fields such as business analysis, helpdesk and desktop support, network/systems administration, technical writing and desktop publishing, testing, quality assurance and web development.

**Major studies:** Business (information technology), Computer graphics, Database administration, Database management, Database systems, Games programming, Information technology, Internet and world wide web, Networks and data communications, Object-oriented programming, Operating systems, Problem solving, Professional practice, Programming, Programming (C), Programming (Java), Software development, Software engineering.

**Prerequisites:** Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL.

**Middle-band:** A study score of 35 in English (EAL) equals 1 aggregate point. A study score of 30 in English other than EAL equals 1 aggregate point per study. A study score of 30 in one but no more than three of Software Development, Maths: Mathematical Methods (CAS) or Maths: Specialist Mathematics equals 1 aggregate point per study.

**Selection Mode:**

CY12 : ATAR and middle-band.

NY12 : Educational History including GPA, VTAC Personal Statement (Some). See extra requirements for more information.

**Extra requirements:**

VTAC Personal Statement (NY12-Some) : NY12 (some applicants) who wish other information to be considered must submit a VTAC Personal Statement.

- Bachelor of Applied Science (Construction Management): 4 years full time study

About the course: This course provides a solid academic foundation for the construction management, project management and quantity surveying professions. These professions organise and manage a vast number of people and resources across the building process to ensure the safe delivery of quality buildings to clients, incorporating high rise office buildings and apartments, factories, hotels, houses, complex hospitals or tourist facilities.

Students will gain an understanding of how buildings and assets are created and acquired. Students will learn key construction management skills such as planning, costing and scheduling. Studies in sustainability, law, economics and leadership will culminate in an exciting capstone project that simulates a complex construction project.

Students are encouraged to study overseas for a semester or participate in a two week overseas study tour.

Further details about this course can be found at www.rmit.edu.au/propertyconstruction

Major studies: Building, Construction, Contracts and tenders, Quantity surveying.

Prerequisites: Units 1 and 2: satisfactory completion in two units (any study combination) of any Mathematics or Units 3 and 4: a study score of at least 25 in any Mathematics; and a study score of at least 30 in English (EAL) or 25 in English other than EAL.

Middle-band: A study score of 30 in any English equals 1 aggregate point per study. A study score of 25 in Physics equals 1 aggregate point. A study score of 25 in Maths: Mathematical Methods (CAS) or Maths: Specialist Mathematics equals 2 aggregate points per study. Overall maximum of 4 points.

Selection Mode: CY12 : ATAR and middle-band.
NY12 : Educational History including GPA, VTAC Personal Statement (All). See extra requirements for more information.

Extra requirements:
VTAC Personal Statement (NY12-All) : NY12 applicants must submit a VTAC Personal Statement and include their reasons for wanting to study the course. Preference may be given to applicants who submit the VTAC Personal Statement by 15 November.

Creative Writing (HE)

Bachelor of Arts (Creative Writing): 3 years full time study

**About the course:** Students develop a variety of writing styles, techniques and voices and learn about character, structure, theme, language and visual storytelling to enable successful writing in numerous mediums. Through a variety of subjects and assessment types, students will also gain valuable skills in developing, executing and reflecting on creative writing projects. Students will explore the terrain of the creative writing industry and gain an understanding of publication and production processes of creative work. Subjects such as literature, philosophy and film studies will complement core creative writing subjects, giving students valuable skills in analysis, critique and contextual awareness. This course also features a professional placement and various opportunities to work on student-led publications and productions.

Further details about this course can be found at www.rmit.edu.au/writingcommunication

**Major studies:** Fiction writing, Literary studies, Non-fiction writing, Professional practice, Screenwriting.

**Prerequisites:** Units 3 and 4: a study score of at least 35 in any English.

**Middle-band:** None

**Selection Mode:** CY12 : Information kit (All). See extra requirements for more information.
NY12 : Information kit (All). See extra requirements for more information.

**Extra requirements:**
Information kit (CY12-All, NY12-All) : All applicants must complete and submit the 2014 RMIT University Creative Writing pre-selection kit by no later than 8 November. The kit can be found in the entry requirements section of www.rmit.edu.au/programs/bp257

Advisory letters will be emailed in mid-December.

- Bachelor of Arts (Criminal Justice Administration): 3 years full time study

**About the course:** This course has been developed with industry assistance to provide students with a theoretical and practical education that will prepare them for employment in criminal justice fields such as police, customs, courts, local government, law firms, investigations, corrections, Department of Justice and Department of Human Services.

Students complete the equivalent of eight subjects in each year. Core subjects include criminology, psychology, justice management, crime prevention, crime and information technology, research methods, policing, corrections, cross cultural communications, international human rights, global crime, and ethics. Elective specialisations include criminal intelligence, criminal behaviour analysis, drug-related crime, forensic studies, international policing, customs, women and international justice, youth justice, criminal law, principles of evidence, and terrorism. The final year includes a professional internship in a criminal justice agency.

Further details about this course can be found at www.rmit.edu.au/justice

**Major studies:** Corrections, Crime prevention, Criminal justice administration, Criminology, Forensic investigation, Globalisation, Information security, International law, International studies, Judicial studies, Justice, Law (court processes), Law (criminal), Law (evidence), Legal studies, Management, Police administration, Police studies,
Psychology, Youth justice.

**Prerequisites:** Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL.

**Middle-band:** A study score of 25 in Business Management, any LOTE, Legal Studies, any Mathematics, Australian Politics, Global Politics or Psychology equals 2 aggregate points per study. Overall maximum of 6 points.

**Selection Mode:** CY12 : ATAR and middle-band.
NY12 : Educational History including GPA, VTAC Personal Statement (All), Work experience (All). See extra requirements for more information.

**Extra requirements:**
VTAC Personal Statement (NY12-All) : NY12 applicants must submit a VTAC Personal Statement and include their reasons for wanting to study the course.
Work experience (NY12-All) : Applicants should also detail any work experience when completing a VTAC Personal Statement.

- Bachelor of Arts (Criminology & Psychology): 3 years full time study

**About the course:** This course is fully accredited by the Australian Psychological Accreditation Council and has been designed as a first degree for people looking for a qualification which integrates the disciplines of criminology and psychology. This interdisciplinary approach provides opportunities to develop theoretical understanding, content knowledge and practical skills that go beyond the scope of more conventional psychology courses. Graduates develop an emotional and intellectual capacity to succeed in difficult but rewarding careers in fields such as policing, corrections, human services, youth justice, customs and welfare services. The course also provides the academic foundation for those wishing to pursue a career in clinical, educational, organisational, developmental or forensic psychology.

Further details about this course can be found at [www.rmit.edu.au/justice](http://www.rmit.edu.au/justice)

**Major studies:** Corrections, Crime prevention, Criminal justice administration, Criminology, Customs, Forensic investigation, Forensic psychology, Global justice, Information security, Justice, Law (court processes), Law (criminal), Law (evidence), Law enforcement, Legal studies, Police studies, Psychological testing and assessment, Psychology, Psychology (cognitive), Psychology (developmental), Psychology (personality), Psychology (social), Psychopathology, Youth justice.

**Prerequisites:** Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL.

**Middle-band:** A study score of 25 in Biology, Business Management, Health And Human Development, any LOTE, Legal Studies, any Mathematics, Australian Politics, Global Politics or Psychology equals 2 aggregate points per study. Overall maximum of 8 points.

**Selection Mode:** CY12 : ATAR and middle-band.
NY12 : Educational History including GPA, VTAC Personal Statement (All), Work experience (All). See extra requirements for more information.
Extra requirements:
VTAC Personal Statement (NY12-All): NY12 applicants must submit a VTAC Personal Statement and include their reasons for wanting to study the course.

Work experience (NY12-All): Applicants should also detail any work experience when completing a VTAC Personal Statement.

---

**Dental Technology (VET)**

**RMIT University**

City: 3200372524 (Fee type determined by provider) full-time  
Apply: Through VTAC main round

- Diploma of Dental Technology: 2 years full time study

**About the course:** Students gain the knowledge and practical skills required to perform the entry-level roles and responsibilities of a dental technician. Dental technicians work behind the scenes using impressions taken by a dentist or dental prosthetist and manufacture a range of removable and fixed dental appliances, including full and partial dentures, crowns, bridges mouth guards and other orthodontic appliances.

The course comprises core and elective units essential for dental technicians to undertake work at the technical level in the following four main areas of non-clinical dental technology: denture construction, cast partial denture fabrication, orthodontics, and crown and bridge.

**Major studies:** Dental prosthetics, Dental technology, Denture construction, Denture fabrication, Oral health, Orthodontic appliances, Orthodontics.

**Prerequisites:** None

**Middle-band:** A study score of 20 in any Mathematics equals 1 aggregate point per study. A study score of 20 in any English equals 1 aggregate point per study. Overall maximum of 3 points.

**Selection Mode:** CY12: ATAR and middle-band.

NY12: Educational History including GPA, VTAC Personal Statement (Some). See extra requirements for more information.

**Extra requirements:**

VTAC Personal Statement (NY12-Some): NY12 (some applicants) who wish other information to be considered must submit a VTAC Personal Statement. Relevant employment and experience will be considered.

---

**Design (VET)**

**RMIT University**

Brunswick: 3200172954 (Fee type determined by provider) full-time  
Apply: Through VTAC main round

- Certificate IV in Design: 6 months full time study

**About the course:** Students develop, refine and apply skills in graphic design, product design, digital media and related design studies. Most of the learning involves practical activities in the form of industry style projects and briefs in a studio environment. Students develop and resolve projects using both manual and digital approaches. The course is designed to help each student produce an individual folio of creative work. This folio is directed to the student's preferred design area and can be used to apply for higher levels of design study.

Further details about this course can be found at [www.rmit.edu.au/designtafe](http://www.rmit.edu.au/designtafe)

**Major studies:** Design (2D), Design (3D), Design (aspects of colour), Design process, Design theory, Digital art and design, Drawing, Graphic design, Illustration, Typography, Video.

**Prerequisites:** None

**Middle-band:** None
Selection Mode: CY12: Folio (All). See extra requirements for more information.
NY12: Folio (All). See extra requirements for more information.

Extra requirements:
Folio (CY12-All, NY12-All): All applicants must telephone (03) 9925 9438 by 1 November for details of the folio presentation. Only applicants who telephone by this date will be sent a folio presentation time. All applicants must attend between 11 November and 22 November. Folio specifications are available at www.rmit.edu.au/programs/c4322. Advisory letters will be sent to applicants by mid-December.

Digital Media (HE)

RMIT University
City: 3200310071 (CSP) full-time Apply: Through VTAC main round

- Bachelor of Design (Digital Media): 3 years full time study

About the course: This course combines theory and industry-based knowledge with professional skills in the design and production of digital media.

The course provides a contextual overview of the role of digital media in society, a strong grounding in visual literacy and time-based media and a clear focus on design. These foundations are built on through further study in areas such as the conceptual development and production for online interaction design, screen and non-screen based formats, time-based media, visual effects and motion design.

Through a combination of lectures, studio and production laboratory experiences and the application of industry-standard software, tools and production processes, students will engage in individual and group projects in the design and development of digital media content.

In the final year students will have the opportunity to undertake an internship or major project as a capstone experience, where they apply the knowledge and skills acquired in the course. Graduates of this course will be professional practitioners, with broad knowledge in the design and development of digital media content for the communications, production, and entertainment industries. Graduates will be able to analyse issues, apply creative processes, work with others and communicate informed ideas, and apply independent judgement to problems relating to the design, conceptual development and production of digital media.

Graduates will be prepared for roles, both locally and internationally, within a diverse range of areas such as web and interactive media development, specialised video and film production such as visual effects and motion graphics design, information visualisation, and interface design.

Further details about this course can be found at www.rmit.edu.au/gamesanimation

Major studies: Crowd-funding and production finance, Design, Digital distribution, Digital media, Interactive media, Internet and multimedia, Multimedia design, Special effects, Video post production, Visual effects, Web design.

Prerequisites: Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL.

Middle-band: A study score of 40 in any English equals 2 aggregate points per study. A study score of 30 in Art, Media, Studio Arts or Visual Communication Design equals 2 aggregate points per study. Overall maximum of 4 points.

Selection Mode: CY12: ATAR and middle-band.
NY12: Educational History including GPA, VTAC Personal Statement (All), Work experience (All). See extra requirements for more information.

Extra requirements:
VTAC Personal Statement (NY12-All): NY12 applicants must submit a VTAC Personal Statement and include their reasons for wanting to study the course.

Work experience (NY12-All): Applicants should also detail any work experience when completing a VTAC Personal Statement.

- Bachelor of Business (Economics and Finance): 3 years full time study

About the course: This course builds on strong proficiency in maths and quantitative studies to produce graduates with broad business analytical skills and a technical knowledge in economics and finance necessary for a range of roles in the private sector such as banking, stockbroking, funds management and insurance as well as the public service and other government organisations. Students simulate trading in money and foreign exchange markets using a live market data feed from Bloomberg in the RMIT Treasury Training Facility. Students build skills and knowledge to manage business complexity in a global context by studying a common core in business and major studies and a compulsory minor sequence in economics and finance. Students may also select minor studies and electives from business and other disciplines to suit their career goals.

Prerequisites: Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL.

Middle-band: A study score of 25 in Accounting, Business Management, Economics, Geography, any Information Technology, Legal Studies, any Mathematics or Psychology equals 1 aggregate point per study. A study score of 35 in any English equals 2 aggregate points per study. Overall maximum of 5 points.

Selection Mode: CY12: ATAR and middle-band.
NY12: Educational History including GPA.

Extra requirements: None

- Bachelor of Business (Economics and Finance) (Applied): 4 years full time study
About the course: This course builds on strong proficiency in maths and quantitative studies to produce graduates with broad business analytical skills and knowledge of economics and finance in a global context. Students simulate trading in money and foreign exchange markets using a live market data feed from Bloomberg in the RMIT Treasury Training Facility.

This four year course consists of a common core in business, major studies in economics and finance and two electives from any discipline. In third year, students undertake a compulsory work placement in industry. A business design project completed in the final year is aimed at consolidating the theoretical and work experience components of the course, and preparing graduates for a broad range of occupations across banking, stockbroking, insurance and superannuation industries.

Prerequisites: Units 3 and 4; a study score of at least 30 in English (EAL) or 25 in English other than EAL.

Middle-band: A study score of 25 in Accounting, Business Management, Economics, Geography, any Information Technology, Legal Studies, any Mathematics or Psychology equals 1 aggregate point per study. A study score of 35 in any English equals 2 aggregate points per study. Overall maximum of 5 points.

Selection Mode: CY12: ATAR and middle-band.
NY12: Educational History including GPA.

- Bachelor of Education (Early Childhood): 4 years full time study

About the course: This course prepares school-leavers and childcare professionals wishing to gain or upgrade their qualifications to work as teachers in early childhood settings. This course is also a pathway course for students who have already completed a Diploma of Children's Services who enter into year two of the course.

The course focuses on the theory and practice of early childhood education with an emphasis on indoor and outdoor environments. Students will learn how to assess the individual needs of children from birth to eight years in early childhood settings and link this with programming and planning based on current philosophies of early childhood education drawing on both Australian and international research in the field. Students also learn how to build communities of practice with staff, parents, children and the broader community.

Students undertake a minimum of 100 days of supervised professional placements over the duration of the course in a variety of early childhood settings.

Further details about this course can be found at [www.rmit.edu.au/teachereducation](http://www.rmit.edu.au/teachereducation)

Major studies: Childhood development, Early childhood education, Early childhood studies, Education studies, Professional practice, Teaching (early childhood).
**Prerequisites:** Units 1 and 2: satisfactory completion in one of General Mathematics or Mathematical Methods or Units 3 and 4: a study score of at least 20 in any Mathematics; and a study score of at least 30 in English (EAL) or 25 in English other than EAL.

**Middle-band:** A study score of 40 in English (EAL) equals 1.5 aggregate points. A study score of 35 in one but no more than two of English other than EAL equals 1.5 aggregate points per study. A study score of 30 in one but no more than two of any Mathematics equals 1.5 aggregate points per study.

**Selection Mode:** CY12: ATAR and middle-band.

NY12: Educational History including GPA, VTAC Personal Statement (All), Work experience (All). See extra requirements for more information.

**Extra requirements:**
- VTAC Personal Statement (NY12-All): NY12 applicants must submit a VTAC Personal Statement and include their reasons for wanting to study the course.
- Work experience (NY12-All): Applicants should also detail any work experience when completing a VTAC Personal Statement.

SUCCESSFUL APPLICANTS: WWC Check: Successful applicants will be required to complete a valid Working With Children Check prior to commencing this course.

- Graduate Diploma of Education (Early Childhood): 1 year full time study

**About the course:** This course prepares graduates from other disciplines to teach in a range of early childhood settings. Learn how early childhood education has changed and how to respond to diverse learning needs and engage with relevant stakeholders through practical site-based experiences.

The course focuses on the theory and practice of early childhood education with an emphasis on indoor and outdoor environments. Students will learn how to assess the individual needs of children from birth to eight years and link this with programming and planning based on current philosophies of early childhood education drawing on both Australian and international research in the field. Students also learn how to build communities of practice with staff, parents, children and the broader community.

Students undertake a minimum 60 days of supervised professional placements over the duration of the course in a variety of early childhood settings including international early childhood contexts.

For additional information please see [www.rmit.edu.au/programs/gd108](http://www.rmit.edu.au/programs/gd108)

All offers are provisional pending sighting of an original/certified copy of a recognised undergraduate degree course completion statement.

To teach in early childhood settings in Australia as a graduate of this course, all applicants who did not complete their initial tertiary qualification in English at an approved institution in Australia, Canada, New Zealand, the Republic of Ireland, the United Kingdom or the United States of America need an academic IELTS of 7.5 with no individual band score less than 7.0 with a score of 8.0 in speaking and listening.

**Double teaching areas**

212: Early Childhood

**Prerequisites:** Bachelor Degree

**Middle-band:** None
Selection Mode: NY12: Educational History including GPA, English language test (Some). See extra requirements for more information.

Extra requirements:

English language test (NY12-Some): All applicants who did not complete their initial tertiary qualification in English at an approved institution in Australia, Canada, New Zealand, the Republic of Ireland, the United Kingdom or the United States of America need to complete an English test.

(Minimum scores required for IELTS academic are Speaking=6.5, Writing=6.5, Reading=6.5, Listening=6.5, and Overall=7.0 or for TOEFL are Speaking=22.0, Writing=24.0, Reading=22.0, Listening=22.0, and Overall=100.0)

SUCCESSFUL APPLICANTS WWC Check: Successful applicants will be required to complete a valid Working With Children Check prior to commencing this course.

**Education (Primary and Disability Studies) (HE)**

**RMIT University**

Bundoora: 3200231061 (CSP) full-time/part-time  
Apply: Through VTAC main round

- Bachelor of Education (Primary Education and Disability Studies): 4 years full time study

**About the course:** Students will undertake a sequence of studies that provides a qualification in primary education with a recognised speciality in disability studies.

Students complete eight subjects in each year (full-time) with a focus on contemporary approaches to teaching and learning in primary and special education settings. Subjects within the course promote literacy and numeracy, an appreciation of diversity, an understanding of modern schooling and disability services, evidence-based decision making and reflective practice. Students undertake professional studies in education including discipline-specific curriculum and pedagogical studies, general education studies, and professional experience. A feature of this course is the integration of discipline knowledge with the curriculum and pedagogical knowledge needed to teach at this level.

Professional experience is an integral component in each semester of this course. Students undertake a minimum of 100 days supervised practicum in a variety of educational settings including one with a focus on the use of information and communication technologies to promote learning.

Further details about this course can be found at [www.rmit.edu.au/teachereducation](http://www.rmit.edu.au/teachereducation)

**Major studies:** Education, Language and literacy, Mathematics, Numeracy, Physical education and health, Professional practice, Reflective practice, Science, Special education, Teaching (primary).

**Prerequisites:** Units 1 and 2: satisfactory completion in one of General Mathematics or Mathematical Methods or Units 3 and 4: a study score of at least 20 in any Mathematics; and a study score of at least 30 in English (EAL) or 25 in English other than EAL.

**Middle-band:** A study score of 40 in English (EAL) equals 1.5 aggregate points. A study score of 35 in one but no more than two of English other than EAL equals 1.5 aggregate points per study. A study score of 30 in one but no more than two of any Mathematics equals 1.5 aggregate points per study. A study score of 20 in one but no more than three of any LOTE equals 1.5 aggregate points per study. A study score of 20 in one but no more than three of Drama, Environmental Science, Geography, Health And Human Development, Legal Studies, any Music, Outdoor And Environmental Studies, Physical Education, Philosophy, Psychology, Studio Arts or Sociology equals 1.5 aggregate points per study.

**Selection Mode:** CY12: ATAR and middle-band.

NY12: Educational History including GPA, VTAC Personal Statement (All), Work experience (All). See extra requirements for more information.

**Extra requirements:**

VTAC Personal Statement (NY12-All): NY12 applicants must submit a VTAC Personal Statement and include their reasons for wanting to study the course.

Work experience (NY12-All): Applicants should also detail any work experience when completing a VTAC Personal Statement.

SUCCESSFUL APPLICANTS WWC Check: Successful applicants will be required to complete a valid Working With Children Check prior to commencing this course.

Middle-band: A study score of 40 in English (EAL) equals 1.5 aggregate points. A study score of 35 in one but no more than two of English other than EAL equals 1.5 aggregate points per study. A study score of 30 in one but no more than two of any Mathematics equals 1.5 aggregate points per study. A study score of 20 in one but no more than three of any LOTE equals 1.5 aggregate points per study. A study score of 20 in one but no more than three of Drama, Environmental Science, Geography, Health And Human Development, Legal Studies, any Music, Outdoor And Environmental Studies, Physical Education, Philosophy, Psychology, Studio Arts or Sociology equals 1.5 aggregate points per study.

Selection Mode: CY12 : ATAR and middle-band.

NY12 : Educational History including GPA, VTAC Personal Statement (All), Work experience (All). See extra requirements for more information.

Extra requirements:

VTAC Personal Statement (NY12-All) : NY12 applicants must submit a VTAC Personal Statement and include their reasons for wanting to study the course.

Work experience (NY12-All) : Applicants should also detail any work experience when completing a VTAC Personal Statement.

SUCCESSFUL APPLICANTS: WWC Check: Successful applicants will be required to complete a valid Working With Children Check prior to commencing this course.
Education (Primary) (GET)

RMIT University

Bundoora: 3200298131 (CSP) full-time  
Apply: Through VTAC main round

Bundoora: 3200298132 (DFP) full-time  
Apply: Through VTAC main round

- Graduate Diploma of Education (Primary): 1 year full time study

About the course: This course prepares graduates from other disciplines to teach in a range of primary school settings. Learn how education has changed and to respond to diverse learning needs through practical site-based experiences.

Most classes are scheduled during the day with some offered as intensives during non-teaching periods and/or on weekends. Classes are held on campus and in relevant educational settings.

This course combines theoretical coursework in contemporary issues in education together with integrated discipline and pedagogy studies to support the teaching and learning of the discipline areas offered in the primary school curriculum.

Professional experience is organised in three blocks. Students undertake a total of 60 days of supervised professional practice in primary school settings.

This course is undergoing a review and will be changed in 2015. Due to this, the course is only offered full time in 2014.

For additional information please see www.rmit.edu.au/programs/gd109

All offers are provisional pending sighting of an original/certified copy of a recognised undergraduate degree course completion statement.

To register with the Victorian institute of Teaching (VIT), all applicants who did not complete their initial tertiary qualification in English at an approved institution in Australia, Canada, New Zealand, the Republic of Ireland, the United Kingdom or the United States of America need an academic IELTS of 7.5 with no individual band score less than 7.0 with a score of 8.0 in speaking and listening.

Double teaching areas
210: Primary

Prerequisites: Bachelor Degree

Middle-band: None

Selection Mode: NY12 : Educational History including GPA, VTAC Personal Statement (All), English language test (Some). See extra requirements for more information.

Extra requirements:

VTAC Personal Statement (NY12-All) : Applicants must submit a VTAC Personal Statement and include their reasons for wanting to study the course and details of any teaching, coaching, work or other experience related to children/students.

English language test (NY12-Some) : All applicants who did not complete their initial tertiary qualification in English at an approved institution in Australia, Canada, New Zealand, the Republic of Ireland, the United Kingdom or the United States of America need to complete an English test.

(Minimum scores required for IELTS academic are Speaking=6.5, Writing=6.5, Reading=6.5, Listening=6.5, and Overall=7.0 or for TOEFL are Speaking=22.0, Writing=24.0, Reading=22.0, Listening=22.0, and Overall=100.0)

SUCCESSFUL APPLICANTS: WWC Check: Successful applicants will be required to complete a valid Working With Children Check prior to commencing this course.

Education (Secondary) (GET)

RMIT University
Graduate Diploma of Education (Secondary): 1 year full time study

About the course: This course prepares graduates to teach in secondary schools in at least two discipline areas. Learn how education has changed and to respond to diverse learning needs through practical site-based experiences.

Most classes are scheduled during the day, with some scheduled after hours and/or as intensives on weekends. Classes are held on campus and in school settings.

This course combines theoretical coursework in contemporary issues in education and pedagogy with teaching method studies in two discipline areas. Professional experience is organised as two blocks, one per semester. Students undertake at total of 45 days of supervised professional practice in secondary school settings.

This course is undergoing a review and will be changed in 2015. Due to this, the course is only offered full time in 2014.

For additional information please see www.rmit.edu.au/programs/gd110

Single teaching areas
172: Biology
173: Chemistry
121: English
122: English as a Second Language
162: Health
192: Home Economics
134: Humanities
141: Languages Other Than English (LOTE)
178: Mathematics
135: Media Studies
164: Physical Education
181: Physics
182: Science
138: Studies Of Society And Environment (SOSE)

Notes
1: Applicants must check their eligibility for teaching areas through the Victorian Institute of Teaching Specialist Area Guidelines - www.vit.vic.edu.au

Prerequisites: Bachelor Degree

Middle-band: None

Selection Mode: NY12 : Educational History including GPA, English language test (Some). See extra requirements for more information.

Extra requirements:

English language test (NY12-Some) : All applicants who did not complete their initial tertiary qualification in English at an approved institution in Australia, Canada, New Zealand, the Republic of Ireland, the United Kingdom or the United States of America need to complete an English test.

(Minimum scores required for IELTS academic are Speaking=6.5, Writing=6.5, Reading=6.5, Listening=6.5, and Overall=7.0 or for TOEFL are Speaking=22.0, Writing=24.0, Reading=22.0, Listening=22.0, and Overall=100.0)

SUCCESSFUL APPLICANTS: WWC Check: Successful applicants will be required to complete a valid Working
With Children Check prior to commencing this course.

## Electronics (VET)

**RMIT University**  
City: 3200  
Fee type determined by provider  
full-time/part-time  
Apply: Through VTAC

### Advanced Diploma of Electronics and Communications Engineering: 2 years full time study

**About the course:** Students gain skills and knowledge to design and validate/evaluate electronics and communications equipment and systems, manage risk, estimate and manage projects and provide technical advice at a para-professional level.

The course provides high-level training in embedded controllers, programmable gate array technologies, circuit simulation, printed circuit board design, digital and analogue systems and applications, amplifiers, analogue integrated circuit design, communication systems, mobile phones, global positioning systems (GPS), microwave links, AM/FM, computer programming, engineering software and project management, and computational solutions.

**Major studies:** Analogue integrated circuit design, Analogue systems and applications, Circuit simulation, Computer-aided design, Data communications, Digital and analogue electronics, Digital signal processing, Electronic interfacing, Electronic systems, Electronic technology and instrumentation, Gate array technology, Global positioning systems, Microprocessor control systems, Microprocessors, Object-oriented programming, Printed circuit board design, Programming (C), Project management, Telecommunications.

**Prerequisites:** None

**Middle-band:** Satisfactory completion in one but no more than three of any Mathematics or Physics equals 1 aggregate point per study.

**Selection Mode:** CY12 : ATAR and middle-band.  
NY12 : Educational History including GPA, VTAC Personal Statement (Some). See extra requirements for more information.

**Extra requirements:**  
VTAC Personal Statement (NY12-Some) : NY12 (some applicants) who wish other information to be considered must submit a VTAC Personal Statement.

### Engineering Technology-Civil (VET)

**RMIT University**  
City: 3200  
Fee type determined by provider  
full-time/part-time  
Apply: Through VTAC

- Advanced Diploma of Engineering Technology: 2 years full time study

**About the course:** This course involves the design and construction of roads, airports, railways, buildings, bridges, dams and drainage systems. Students gain practical and technical skills to work as para-professionals in the research, design and construction of infrastructure projects.

This course is designed for students interested in a civil and/or structural design career and comprises 1400 hours. On completion of the first full-time year, or later, employment may be found in the public or private sector in positions such as laboratory technician, research assistant, construction supervisor or CAD draftsperson working under the supervision of a professional engineer.

Students will be admitted into the highest qualification level and can choose to exit with a lower listed qualification.
upon the successful completion of the required courses (subjects).

**Major studies:** CAD computer aided design/drafting, Concrete design, Environmental studies, Foundations, Hydrology, Materials, Mathematics, OHS and management, Site investigation, Steel design, Surveying, Sustainability.

**Prerequisites:** None

**Middle-band:** Satisfactory completion in Physics equals 1 aggregate point.

**Selection Mode:** CY12 : ATAR and middle-band.
NY12 : Educational History including GPA, VTAC Personal Statement (Some). See extra requirements for more information.

**Extra requirements:**
VTAC Personal Statement (NY12-Some) : NY12 (some applicants) who wish other information to be considered must submit a VTAC Personal Statement.

---

### Engineering Technology-Electrical (VET)

**RMIT University**

City: 3200372424 (Fee type determined by provider) full-time/part-time  
Apply: [Through VTAC](http://www.wss8.vtac.edu.au/courses-inst/institutions/topdf/rmit.html) main round

- Advanced Diploma of Engineering Technology - Electrical: 2 years full time study

**About the course:** This course delivers training in electrical projects and design, programmable logic controllers, supervisory control and data acquisition (SCADA) systems, industrial networking and motor control at the technician and para-professional level.

Specialisation streams include industrial automation with use of programmable logic controllers (PLCs), industrial control, motor control, electrical projects and design, and computational solutions.

The course provides students with the skills to work in the electrical industry at the technician and para-professional level. It prepares students to design and evaluate electrical equipment and systems and to provide technical advice and support.

**Major studies:** Computer aided design (CAD), Control systems, Design process, Drafting, Electric motors, Electrical science, Electronics, Electrotechnology, Engineering (electrical distribution), Engineering (electrical), Engineering (process engineering), Industrial automation, Industrial design, Project management, SCADA, Software applications, Technical communication skills.

**Prerequisites:** None

**Middle-band:** Satisfactory completion in one but no more than three of any Mathematics or Physics equals 1 aggregate point per study.

**Selection Mode:** CY12 : ATAR and middle-band.
NY12 : Educational History including GPA, VTAC Personal Statement (Some). See extra requirements for more information.

**Extra requirements:**
VTAC Personal Statement (NY12-Some) : NY12 (some applicants) who wish other information to be considered must submit a VTAC Personal Statement.
Bachelor of Engineering (Advanced Manufacturing and Mechatronics) (Honours): 4 years full time study

**About the course:** The course specialises in major aspects of advanced manufacturing systems, from designing mechatronics equipment and automated systems to system design and quality control. Employment prospects include automotive, aerospace, marine, logistics, mining, asset management, food, beverage, and service industries.

Year one and two are taught at the City campus, years three and four are at the Bundoora campus. Year one subjects develop analytical problem-solving skills and design capabilities including mechatronics basics and an introduction to national and international manufacturing engineering professional best practice. In year two students begin more comprehensive studies in mechatronics. In years three and four studies include design and build of mechatronic systems, advanced robotic systems and automatic and automated systems. Then students perform computer analysis of manufacturing systems, process design and inventory control. A real engineering project undertaken in final year is often performed in conjunction with industry.

Students are expected to obtain at least 12 weeks of vacation work during their study.

**Major studies:** Advanced manufacturing processes, Advanced robotics, Automatic control systems, Autonomous systems, Design for assembly and automation, Embedded systems, Engineering computing, Engineering mechanics, Manufacturing systems, Manufacturing systems modelling, Mechatronic design, Quality management.

**Prerequisites:** Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL; and a study score of at least 25 in Maths: Mathematical Methods (CAS).

**Middle-band:** A study score of 25 in Maths: Specialist Mathematics equals 1 aggregate point. A study score of 25 in one but no more than one of Chemistry or Physics equals 1 aggregate point per study.

**Selection Mode:** CY12 : ATAR and middle-band. NY12 : Educational History including GPA, VTAC Personal Statement (Some). See extra requirements for more information.

**Extra requirements:**

VTAC Personal Statement (NY12-Some) : NY12 (some applicants) who wish other information to be considered must submit a VTAC Personal Statement.
Bachelor of Engineering (Advanced Manufacturing and Mechatronics) (Honours)/Bachelor of Business (International Business): 5 years full time study

About the course: This double degree combines manufacturing/mechatronics engineering with international business to educate a new breed of professionals who have engineering knowledge for developing modern, intelligent manufacturing facilities as well as the economic and financial analytical knowledge for managing global business.

This double degree has a strong emphasis on the latest mechatronics technologies, intelligent systems and new manufacturing processes, and is recognised by Engineers Australia as fulfilling the academic requirements for Graduate Engineer. The International Business degree enables graduates to perform high level financial and economic analyses with a global perspective. Graduates will be qualified to oversee the development of large scale, high value-added manufacturing facilities that have a global operational focus, and may find work in industries such as aerospace, automotive, food, materials processing, mining and electronics.

Students are expected to obtain at least 12 weeks of vacation work during their study.

Prerequisites: Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL; and a study score of at least 25 in Maths: Mathematical Methods (CAS).

Middle-band: A study score of 25 in Maths: Specialist Mathematics equals 1 aggregate point. A study score of 25 in one but no more than one of Chemistry or Physics equals 1 aggregate point per study.

Selection Mode: CY12 : ATAR and middle-band.
NY12 : Educational History including GPA, VTAC Personal Statement (Some). See extra requirements for more information.

Extra requirements: VTAC Personal Statement (NY12-Some) : NY12 (some applicants) who wish other information to be considered must submit a VTAC Personal Statement.

Bachelor of Engineering (Aerospace Engineering) (Honours): 4 years full time study

About the course: Students develop technical engineering and professional skills through problem-based learning and hands-on experience. Students learn how sophisticated aircraft and space vehicles are designed, analysed and managed using aerospace theory and engineering science. Students acquire the analytical, technical and managerial skills to practise aerospace engineering. Students learn to engineer innovative solutions while appreciating the broader social implications. Graduates can work in many industries, notably aerospace and automotive industries. Years one and two are taught at the City campus, years three and four are taught at the Bundoora campus. Students are expected to obtain at least 12 weeks vacation work during their study.

Prerequisites: Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL; and a study score of at least 25 in Maths: Mathematical Methods (CAS).

Middle-band: A study score of 25 in Maths: Specialist Mathematics equals 1 aggregate point. A study score of 25 in one but no more than one of Chemistry or Physics equals 1 aggregate point per study.

Selection Mode: CY12 : ATAR and middle-band.

NY12 : Educational History including GPA, VTAC Personal Statement (Some). See extra requirements for more information.

Extra requirements:
VTAC Personal Statement (NY12-Some) : NY12 (some applicants) who wish other information to be considered must submit a VTAC Personal Statement.

Engineering-Aerospace (VET)

RMIT University
City: 3200372394 (Fee type determined by provider) full-time/part-time Apply: Through VTAC main round

- Advanced Diploma of Engineering (Aeronautical): 2 years full time study

About the course: Students gain hands-on skills and knowledge to install, maintain and design aircraft engines, airframes, airframe systems, electrics, instruments, radio systems and aircraft sheet metalwork at a para-professional level. Some specialist areas include aircraft design, propulsion, materials and layout.

This course provides students with technical and managerial training for technicians and engineers working in aerospace manufacturing, research and development, design and maintenance at a para-professional level. The course is designed to develop the necessary vocational skills and competencies for those who work in enterprises of any size and the defence force. Graduates may be employed as production supervisors, aerospace instrumentation technicians, project managers, and maintenance and design supervisors.

Students will be admitted into the highest qualification level and can choose to exit with a lower listed qualification upon the successful completion of the required courses (subjects).

Major studies: Aerodynamics, Aerospace drafting and drawing, Aerospace engineering, Aerospace industry management, Aircraft design, Aircraft electrical and electronics systems, Aircraft general maintenance, Aircraft instrumentation, Aircraft maintenance, Aircraft materials, Aircraft mechanisms and control, Aircraft operation principles, Aircraft propulsion, Aircraft systems, Aviation systems and documentation.

Prerequisites: None

Middle-band: Satisfactory completion in one but no more than three of any Mathematics or Physics equals 1 aggregate point per study.

Selection Mode: CY12 : ATAR and middle-band.

NY12 : Educational History including GPA, VTAC Personal Statement (Some). See extra requirements for more information.

Extra requirements:
VTAC Personal Statement (NY12-Some) : NY12 (some applicants) who wish other information to be considered must submit a VTAC Personal Statement.

Engineering-Aerospace/Business Management (HE)

RMIT University
City / Bundoora: 3200432041 (CSP) full-time Apply: Through VTAC main round

Bachelor of Engineering (Aerospace Engineering) (Honours)/Bachelor of Business (Management): 5 years full time study

About the course: Students develop engineering, professional and management skills through problem work and hands-on learning. Students learn how sophisticated aircraft and space vehicles are designed, analysed and managed and how managers realise successful business outcomes. Students learn the analytical and technical skills to practise aerospace engineering. The business degree gives students the skills expected of managers in modern organisations.

Graduates can work in different industries, notably aerospace and automotive. Many move to management roles. Likely destinations are in design, manufacture, airlines or defence.

Students are expected to obtain at least 12 weeks of vacation work during their study.

Prerequisites: Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL; and a study score of at least 25 in Maths: Mathematical Methods (CAS).

Middle-band: A study score of 25 in Maths: Specialist Mathematics equals 1 aggregate point. A study score of 25 in one but no more than one of Chemistry or Physics equals 1 aggregate point per study.

Selection Mode: CY12 : ATAR and middle-band.

NY12 : Educational History including GPA, VTAC Personal Statement (Some). See extra requirements for more information.

Extra requirements:

VTAC Personal Statement (NY12-Some) : NY12 (some applicants) who wish other information to be considered must submit a VTAC Personal Statement.

Bachelor of Engineering (Automotive Engineering) (Honours): 4 years full time study

About the course: This course is built on a core program of mechanical engineering and offers specialist subjects that enable graduates to be immediately effective in the automotive industry. There is also the possibility of a one-year industry placement. Students have the opportunity to join the highly competitive RMIT Racing Team involved in FSAE competitions around the world, including building new sustainable hydrogen and electric racing vehicles.

The first two years are taught at the City campus, and years three and four are taught at the Bundoora campus. The degree has a core program in the first five semesters consisting of basic mechanical engineering and science subjects. The final three semesters consist mainly of advanced automotive engineering subjects and a major automotive engineering project. Students are expected to obtain at least 12 weeks vacation work during their study. Graduates may be employed in automotive companies as well as industries that require specialised mechanical
engineering skills with an increasing focus on sustainable principles.

**Major studies:** Computer-aided engineering and design, Dynamics and control, Energy conservation and renewable energy, Engineering mathematics, Fluid mechanics, Industrial aerodynamics and computational fluid dynamics, Mechanics of machines, Mechatronics, Solid mechanics and materials, Thermodynamics, Vehicle handling and control, Vehicle noise and vibration, Vehicle power system and vehicle body design.

**Prerequisites:** Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL; and a study score of at least 25 in Maths: Mathematical Methods (CAS).

**Middle-band:** A study score of 25 in Maths: Specialist Mathematics equals 1 aggregate point. A study score of 25 in one but no more than one of Chemistry or Physics equals 1 aggregate point per study.

**Selection Mode:** CY12: ATAR and middle-band. NY12: Educational History including GPA, VTAC Personal Statement (Some). See extra requirements for more information.

**Extra requirements:**
VTAC Personal Statement (NY12-Some): NY12 (some applicants) who wish other information to be considered must submit a VTAC Personal Statement.

- Bachelor of Engineering (Automotive Engineering) (Honours)/Bachelor of Business (Management): 5 years full time study

**About the course:** This course has been designed to meet the specific demands of automotive engineering and business organisations. The first two years of the course are taught at the City campus. In later years, students may need to travel to both the City and Bundoora campuses. The course consists of core mechanical, automotive and business subjects and in later years automotive and business electives. In earlier years, students also undertake core subjects dealing with professional practice that develop leadership and organisational skills. Business subjects include management, accounting, commercial law, employee relations and marketing. A substantial automotive engineering project is undertaken in the final year.

Students are expected to obtain at least 12 weeks of vacation work during their study.

Areas of employment include transport and petrochemical industries, energy supply, building services, defence forces, government and general engineering, and consultancy organisations. After initially working as automotive engineers, graduates may move to management positions

**Major studies:** Accounting, Business information systems, Computer-aided engineering and design, Dynamics and control, Economics and finance, Energy conservation and renewable energy, Engineering mathematics, Entrepreneurship, Ethics governance and commercial law, Fluid mechanics, Human resource management, Industrial aerodynamics and computational fluid dynamics, International business, Leadership and strategic management, Logistics and supply chain management, Manufacturing, Marketing, Mechanical design, Mechanics of machines, Mechatronics, Organisational behaviour, Solid mechanics and materials, Thermodynamics, Vehicle handling and control, Vehicle noise and vibration, Vehicle power system and vehicle body design.

**Prerequisites:** Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL; and a study score of at least 25 in Maths: Mathematical Methods (CAS).

**Middle-band:** A study score of 25 in Maths: Specialist Mathematics equals 1 aggregate point. A study score of 25 in one but no more than one of Chemistry or Physics equals 1 aggregate point per study.
Selection Mode: CY12: ATAR and middle-band.
NY12: Educational History including GPA, VTAC Personal Statement (Some). See extra requirements for more information.

Extra requirements:
VTAC Personal Statement (NY12-Some): NY12 (some applicants) who wish other information to be considered must submit a VTAC Personal Statement.

- Bachelor of Engineering (Biomedical Engineering) (Honours): 4 years full time study

About the course: Students gain knowledge of the science and engineering behind biomedical and health care applications and practices. Students also learn to design systems such as cardiac monitors, artificial hearts, micro- and nano-sensors, contact lenses, wheel chairs and artificial tendons.

The course is aimed at developing graduates with strong problem solving and communication skills, who can think critically and independently. Topics from many areas of the University are incorporated and a variety of core subjects and technical electives are offered. Students will study electronic and mechanical engineering fundamentals, including biomedical electronics and nano-sensors, as well as a significant component of basic sciences, including biology, anatomy and physiology. Students also take mathematics and physics subjects that are critical for engineers. In years three and four students will undertake major engineering design projects.

For more information please attend an information evening on Wednesday, 4 September 2013. Further details can be found at www.rmit.edu.au/eleceng

Major studies: Bioinformatics, Cell Biology, Chemistry, Circuit Theory, Electronics, Engineering biomechanics and biomaterials, Human physiology, Medical engineering and instrumentation, Physics, Programming, Signal processing.

Prerequisites: Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL; and a study score of at least 20 in any Mathematics.

Middle-band: A study score of 25 in Maths: Specialist Mathematics equals 2 aggregate points. A study score of 25 in Biology equals 2 aggregate points. A study score of 25 in Maths: Mathematical Methods (CAS) equals 1 aggregate point. A study score of 25 in one but no more than one of Chemistry or Physics equals 1 aggregate point per study.

Selection Mode: CY12: ATAR and middle-band.
NY12: Educational History including GPA, VTAC Personal Statement (Some). See extra requirements for more information.

Extra requirements:
VTAC Personal Statement (NY12-Some): NY12 (some applicants) who wish other information to be considered must submit a VTAC Personal Statement.

Engineering-Chemical (HE)

RMIT University
Bachelor of Engineering (Chemical Engineering) (Honours): 4 years full time study

About the course: Chemical engineering is the application of chemical, physical and biological sciences and technology for the improvement of industrial processes.

Students learn to apply science and technology to increase efficiency and minimise environmental impact by using less energy and producing less waste. Technical skills are developed as well as skills in project planning, critical thinking and sustainability through problem-based learning.

The first year of the course develops students' skills in chemistry and mathematics and introduces students to biochemistry, fundamentals of chemical engineering (mass and energy balance) and to the design of chemical processes.

Industries and areas of possible employment for graduates include chemical, petroleum and petrochemical; mineral and metallurgical; water and waste water; research and development; process design and consulting; and environmental management and pollution control.

Major studies: Chemical sciences, Environmental, Food science and biotechnology, Metallurgical, Petroleum, Rheology.

Prerequisites: Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL; and a study score of at least 20 in Chemistry; and a study score of at least 20 in Maths: Mathematical Methods (CAS).

Middle-band: A study score of 25 in Maths: Specialist Mathematics equals 1 aggregate point. A study score of 25 in one but no more than one of Biology or Physics equals 1 aggregate point per study.

Selection Mode: CY12 : ATAR and middle-band.

NY12 : Educational History including GPA, VTAC Personal Statement (Some). See extra requirements for more information.

Extra requirements:

VTAC Personal Statement (NY12-Some) : NY12 (some applicants) who wish other information to be considered must submit a VTAC Personal Statement.

Bachelor of Engineering (Chemical Engineering) (Honours)/Bachelor of Science (Biotechnology): 5 years full time study

About the course: This course has a distinctly practical and vocational basis supported by industry, combining disciplines in biology/biotechnology and chemical engineering.

In years one and two, students develop skills in designing products or processes and gain a foundation in cell biology, biological chemistry and genetics. In year three, advanced biotechnology subjects are undertaken. In years four and five, students complete an industry oriented experimental project and a design project as well as continue...
studies in advanced biotechnology subjects. The course also develops leadership, teamwork and communication skills.

Graduates will be ready for employment opportunities in the research, production and processing of new biomaterials including vaccines, pharmaceuticals, cosmetics and diagnostic agents. They may also work in the food industry or in environment protection and remediation.

Further details about this course can be found at www.rmit.edu.au/appliedsciences

**Major studies:** Biochemistry, Bioinformatics, Bioprocessing, Biotechnology, Cell biology, Chemical engineering, Chemistry, Genetics, Microbiology, Molecular biology.

**Prerequisites:** Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL; and a study score of at least 20 in Chemistry; and a study score of at least 20 in one of Maths: Mathematical Methods (CAS) or Maths: Specialist Mathematics.

**Middle-band:** Satisfactory completion in Biology, Maths: Specialist Mathematics or Physics equals 2 aggregate points per study.

**Selection Mode:** CY12 : ATAR and middle-band.

NY12 : Educational History including GPA, VTAC Personal Statement (Some). See extra requirements for more information.

**Extra requirements:**

VTAC Personal Statement (NY12-Some) : NY12 (some applicants) who wish other information to be considered must submit a VTAC Personal Statement.

- Bachelor of Engineering (Chemical Engineering) (Honours)/Bachelor of Business (Management): 5 years full time study

**About the course:** This course prepares students for chemical process industries including planning, design, operation and research. Students develop technical as well as generic skills in critical thinking, teamwork, and sustainability through a stream of problem-based learning design subjects running throughout the course.

Engineering managers today are involved in large scale capital investment projects and infrastructure policy and planning. The first year of the course further develops students' skills in chemistry and mathematics, and introduces students to fundamentals of chemical engineering (mass and energy balance) and to design of chemical processes. Throughout the five years of study, students develop an in-depth understanding of management alongside their chemical engineering studies.

**Major studies:** Business and commercial law, Business management, Chemical sciences, Environmental, Food science and biotechnology, Metallurgical, Petroleum, Rheology.

**Prerequisites:** Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL; and a study score of at least 20 in Chemistry; and a study score of at least 20 in Maths: Mathematical Methods (CAS).

**Middle-band:** A study score of 25 in Maths: Specialist Mathematics equals 1 aggregate point. A study score of 25 in one but no more than one of Biology or Physics equals 1 aggregate point per study.

**Selection Mode:** CY12 : ATAR and middle-band.

NY12 : Educational History including GPA, VTAC Personal Statement (Some). See extra requirements for more
Extra requirements:
VTAC Personal Statement (NY12-Some) : NY12 (some applicants) who wish other information to be considered must submit a VTAC Personal Statement.

- Bachelor of Engineering (Chemical Engineering) (Honours)/Bachelor of Biomedical Science (Pharmaceutical Science): 5 years full time study

**About the course:** Students learn to work in the pharmaceutical and chemical process industries in planning, design, operation and research and develop a solid grasp of pharmaceutical science alongside engineering studies. A stream of problem-based learning design subjects runs throughout the course, developing technical as well as generic skills such as project planning, teamwork, communication, critical thinking and sustainability.

Engineering managers today are involved in large scale capital investment projects and infrastructure policy and planning. The first year of the course further develops students' skills in chemistry and mathematics, and introduces students to biology and microbiology, fundamentals of chemical engineering and to design. Throughout the five years of study, students develop an in-depth understanding of pharmaceutical science alongside their chemical engineering studies.

**Major studies:** Biochemistry, Chemical sciences, Drug development, Environmental, Human physiology, Metallurgy, Petroleum, Rheology.

**Prerequisites:** Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL; and a study score of at least 20 in Chemistry; and a study score of at least 20 in Maths: Mathematical Methods (CAS).

**Middle-band:** A study score of 25 in Maths: Specialist Mathematics equals 1 aggregate point. A study score of 25 in one but no more than one of Biology or Physics equals 1 aggregate point per study.

**Selection Mode:** CY12 : ATAR and middle-band.  
NY12 : Educational History including GPA, VTAC Personal Statement (Some). See extra requirements for more information.

**Extra requirements:**  
VTAC Personal Statement (NY12-Some) : NY12 (some applicants) who wish other information to be considered must submit a VTAC Personal Statement.

Bachelor of Engineering (Civil and Infrastructure) (Honours): 4 years full time study

About the course: Civil engineering involves planning, design, construction, supervision, management and maintenance of infrastructure projects necessary for the functioning of our modern community. Years one and two introduce key graduate capabilities in sustainability, problem solving, engineering analysis, teamwork and leadership and communication. Years three and four cover important application areas in structures, water, geomechanics and transport. Specialisation and diversification in these years is also available.

Civil engineering has been divided into a number of major fields including structural, geotechnical, water resources and transport. The modern civil engineer must also be capable of working on multidisciplinary projects.

Graduates may be employed as project managers, design engineers, construction managers, environmental engineers and engineering asset managers.

Major studies: Civil engineering management, Computer modelling, Construction management, Engineering (civil), Engineering (environmental), Engineering (geoengineering), Engineering (structural analysis and design), Engineering (transport engineering), Irrigation and water management, Mechanics (structural), Project management, Risk analysis and management, Roads and road design, Software applications, Water quality management, Water resources engineering.

Prerequisites: Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL; and a study score of at least 20 in Maths: Mathematical Methods (CAS).

Middle-band: A study score of 25 in Maths: Specialist Mathematics equals 1 aggregate point. A study score of 25 in one but no more than one of Chemistry or Physics equals 1 aggregate point per study.

Selection Mode: CY12 : ATAR and middle-band.

NY12 : Educational History including GPA, VTAC Personal Statement (Some). See extra requirements for more information.

Extra requirements:

VTAC Personal Statement (NY12-Some) : NY12 (some applicants) who wish other information to be considered must submit a VTAC Personal Statement.

Bachelor of Engineering (Civil and Infrastructure) (Honours)/Bachelor of Business (Management): 5 years full time study

About the course: Civil engineering involves the planning, design, construction, supervision, management and maintenance of the infrastructure projects necessary for the functioning of our modern community.

Early years of the course introduce key graduate capabilities in sustainability, problem solving, engineering analysis, teamwork and leadership and communication. Later years cover important application areas in structures, water, geomechanics and transport. Specialisation and diversification in these years is also available. Throughout the five years of study, students develop an in-depth understanding of management alongside their civil and infrastructure engineering studies.

Civil engineering has been divided into a number of major fields including structural, geotechnical, water resources and transport. The modern civil engineer must also be capable of working on multidisciplinary projects.
This course prepares students for professional employment in civil engineering: planning, design, construction, operation and maintenance of infrastructure, including the business management of such projects and facilities.

**Major studies:** Business (accounting), Business (administration), Business (economics), Business (finance), Business (law), Business (marketing), Civil engineering management, Computer modelling, Construction management, Engineering (civil), Engineering (environmental), Engineering (geomechanical), Engineering (materials), Engineering (structural analysis and design), Engineering (transport engineering), Irrigation and water management, Mechanics (structural), Project management, Risk analysis and management, Roads and road design, Software applications, Water and sanitary engineering, Water quality management, Water resources engineering.

**Prerequisites:** Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL; and a study score of at least 20 in Maths: Mathematical Methods (CAS).

**Middle-band:** A study score of 25 in Maths: Specialist Mathematics equals 1 aggregate point. A study score of 25 in one but no more than one of Chemistry or Physics equals 1 aggregate point per study.

**Selection Mode:** CY12: ATAR and middle-band.

NY12: Educational History including GPA, VTAC Personal Statement (Some). See extra requirements for more information.

**Extra requirements:**
VTAC Personal Statement (NY12-Some): NY12 (some applicants) who wish other information to be considered must submit a VTAC Personal Statement.

---

**Engineering-Civil/Mechanical/Electrical/Computer (Associate Degree) (HE)**

**RMIT University**

City: 3200333661 (CSP) full-time  
Apply: Through VTAC main round

- Associate Degree in Engineering Technology: 2 years full time study

**About the course:** Students study common first year subjects and choose from one of seven majors in the second year. Available majors are Civil, Mechanical, Aerospace, Electrical and Electronics, Computer and Network, Advanced Manufacturing and Mechatronics, and Sustainable Systems. Students gain theoretical knowledge and practical skills to design, install, maintain, analyse and improve a range of devices, systems and infrastructures.

The Computer and Network major focuses on networking, internetworking, IP telephony, network design and network security. The Electrical and Electronics major focuses on devices used in generation, distribution and control of electric power including computing, TV, radio, and robotics. The Civil major focuses on infrastructure such as water systems, roads, bridges, dams, harbours, canals, airports, railways, buildings and factories. The Aerospace and Mechanical majors focus on products such as engines, compressors, wind turbines, solar water heaters and pumps. The Advanced Manufacturing and Mechatronics major focuses on digital system design and computing engineering and the Sustainable Systems major focuses on design for sustainability.

Course delivery includes lectures, tutorials, online reading, practical workshops and laboratory sessions. Assessment may include presentations and projects, experiments, journals, case studies, reports, exams, and critical analysis. An optional major project is available in the second year.

Graduates are eligible to seek membership of Engineers Australia at the Officer level. Graduates of this course who apply, having achieved a GPA of 2.0 or greater, are guaranteed a place with the equivalent of two years credit into the respective Bachelor of Engineering degrees at RMIT.

**Major studies:** Aircraft systems, Civil engineering, Communication systems, Computer application, Computing engineering, Electrical engineering, Electronics, Engineering (materials), Engineering (structural analysis and design), Industrial studies, Mechanics (solids), Microprocessor control systems, Network engineering, Network security, Telecommunications (systems and network).

**Prerequisites:** Units 3 and 4: a study score of at least 25 in English (EAL) or 20 in English other than EAL; and a study score of at least 20 in Maths: Mathematical Methods (CAS).

**Middle-band:** Satisfactory completion in Maths: Specialist Mathematics equals 1 aggregate point. Satisfactory completion in Physics equals 1 aggregate point.
Selection Mode: CY12 : ATAR and middle-band.
NY12 : Educational History including GPA, VTAC Personal Statement (Some). See extra requirements for more information.

Extra requirements:
VTAC Personal Statement (NY12-Some) : NY12 (some applicants) who wish other information to be considered must submit a VTAC Personal Statement.

- Bachelor of Engineering (Computer and Network Engineering) (Honours): 4 years full time study

**About the course:** This course prepares students to work as computer system engineers or network engineers. Students learn to design, implement and maintain telecommunication and computer networks with a focus on embedded systems, mobile networking and cloud computing, information engineering, multimedia signal processing and robotics. Apart from technical engineering skills, students develop personal and business skills through real world problem solving. The course combines hands-on, practical laboratory work with classes that teach the concepts, theories and principles of engineering. In addition, students will learn communication, teamwork and decision making skills. In the first two years students are introduced to the fundamentals of computer and network engineering, as well as areas of mathematics and physics that are essential for engineers. In the final two years students specialise in computer and network engineering by doing technical electives and design projects.

For more information please attend an information evening on Wednesday, 4 September 2013. Further details can be found at www.rmit.edu.au/eleceng

**Major studies:** Computer engineering, Computer networks, Embedded systems, Internet communications, Microprocessor, Microprocessor control systems, Multimedia engineering (audio), Multimedia engineering (image), Multimedia engineering (speech), Multimedia engineering (video signal processing), Network engineering, Network infrastructure and design, Network management and security, Signal and systems, Telecommunications (systems and networks), Wireless technologies.

**Prerequisites:** Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL; and a study score of at least 20 in one of Maths: Mathematical Methods (CAS) or Maths: Specialist Mathematics.

**Middle-band:** A study score of 25 in Maths: Specialist Mathematics equals 2 aggregate points. A study score of 25 in Chemistry equals 1 aggregate point. A study score of 25 in Physics equals 2 aggregate points.

**Selection Mode:** CY12 : ATAR and middle-band.
NY12 : Educational History including GPA, VTAC Personal Statement (Some). See extra requirements for more information.

**Extra requirements:**
VTAC Personal Statement (NY12-Some) : NY12 (some applicants) who wish other information to be considered must submit a VTAC Personal Statement.

---

**Engineering-Computer and Network/Business Management (HE)**

**RMIT University**
About the course: Students gain the skills to work as computer and network engineers and the business knowledge to manage major engineering projects. This combined skill-set can be applied in using information technology to gather and analyse business and technical information.

Graduates of this double degree are prepared in the technical areas of embedded systems, mobile networking and cloud computing, multimedia engineering, robotics, and network engineering. They can take the lead on both management and technical aspects of projects and can work in industries such as telecommunications, manufacturing, information technology, finance, and government organisations. In years one to three students take compulsory subjects in engineering and business management, as well as mathematics and physics, subjects that are essential for engineers. Engineering and business electives are available in years four and five, with a major engineering discipline an option for the final year. Engineering design is compulsory in years two to five.

For more information please attend an information evening on Wednesday, 4 September 2013. Further details can be found at www.rmit.edu.au/eleceng

Bachelor of Engineering (Computer and Network Engineering) (Honours)/Bachelor of Business (Management): 5 years full time study

Major studies: Accounting, Administration, Business, Business (management), Computer hardware, Computer networks, Computer system engineering, Digital and analogue electronics, Embedded systems, Internet telecommunications, Microprocessor, Microprocessor control systems, Mobile networking and cloud computing, Multimedia engineering (audio), Multimedia engineering (image), Multimedia engineering (speech), Multimedia engineering (video signal processing), Network engineering, Network infrastructure and design, Network management and security, Signals and systems, Telecommunications (systems and networks), Wireless technologies.

Prerequisites: Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL; and a study score of at least 20 in one of Maths: Mathematical Methods (CAS) or Maths: Specialist Mathematics.

Selection Mode: CY12 : ATAR and middle-band.

NY12 : Educational History including GPA, VTAC Personal Statement (Some). See extra requirements for more information.

Extra requirements:

VTAC Personal Statement (NY12-Some) : NY12 (some applicants) who wish other information to be considered must submit a VTAC Personal Statement.
About the course: Students learn about hardware and architecture of computer systems and networks as well as the software used to control them. There is a focus on embedded systems, mobile networking, cloud computing and network engineering from both hardware and software points of view. Small computer devices are embedded in a range of items, from implants in a running shoe that talk to an iPod, to intelligent swipe cards and various specialised equipment.

Graduates of this double degree are sought for their ability to design, build and integrate both software and hardware components of these embedded systems and also their ability to design and implement computer networks which evolve rapidly in areas such as, mobile networking and cloud computing. Students complete two full degrees in a five year time span, by integrating core subjects from both. From year three, students can choose technical electives from engineering and computer science streams. The computer science component of this double degree course is accredited at professional level by the Australian Computer Society and the double degree is fully accredited by Engineers Australia. Graduates are therefore recognised as Professional Engineers in all member countries of the Washington Accord.

For more information please attend an information evening on Wednesday, 4 September 2013. Further details can be found at www.rmit.edu.au/eleceng

Major studies: Computer animation, Computer architecture, Computer networks, Computer programming, Computer software engineering, Computer system engineering, Digital and analogue electronics, Embedded systems, Information technology, Internet telecommunications, Microprocessor control systems, Microprocessors, Mobile networking and cloud computing, Multimedia engineering (audio), Multimedia engineering (image), Multimedia engineering (speech), Multimedia engineering (video signal processing), Network engineering, Network infrastructure and design, Network management and security, Signal and systems, Telecommunications, Telecommunications (systems and networks), Web technology, Wireless technologies.

Prerequisites: Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL; and a study score of at least 20 in one of Maths: Mathematical Methods (CAS) or Maths: Specialist Mathematics.

Selection Mode: CY12: ATAR and middle-band.
NY12: Educational History including GPA, VTAC Personal Statement (Some). See extra requirements for more information.

Extra requirements:

VTAC Personal Statement (NY12-Some): NY12 (some applicants) who wish other information to be considered must submit a VTAC Personal Statement.

- Bachelor of Engineering (Electrical Engineering) (Honours): 4 years full time study

About the course: This course prepares students to work as electrical engineers that design, develop and supervise the manufacture, installation, and operation of electrical systems providing efficient electrical power solutions. Electrical engineers work on generation, distribution, utilisation and control of electric power and electronic systems to many industries including the electrical supply, transportation, manufacturing and defence sectors. The course combines hands-on laboratory work with classes that teach concepts, theories and principles of engineering. Students will also learn communication, teamwork, problem solving and decision making skills to prepare them for the move into industry as professional engineers. In the first two years students are introduced to fundamentals of electrical engineering, as well as mathematics and physics, subjects that are essential for engineers. In the final two years, students specialise in electrical energy power systems and control systems
engineering.

- Bachelor of Engineering (Electrical and Electronic Engineering) (Honours): 4 years full time study

**About the course:** Students learn to design, apply and maintain electrical and electronic systems for a range of goods and services, including devices for electrical energy generation and distribution, audio amplifier design, stereos, and scanning equipment. A variety of delivery modes include lectures, tutorials, laboratories and projects that enhance learning. Individual and team-based project work develops skills in communication, teamwork and leadership and prepares graduates for the move into industry. As well as learning and practising technical engineering skills, students develop personal and business skills through real-world problem solving. Years one and two cover the fundamental principles and practices in electrical and electronic engineering, and the areas of mathematics and physics that are critical for engineers. In years three and four students deepen their technical knowledge and skills in their chosen specialisation.

For more information please attend an information evening on Wednesday, 4 September 2013. Further details can be found at www.rmit.edu.au/eleceng

Major studies: Circuits and electronics, Communication systems, Computer engineering, Computer networks, Control systems, Digital and analogue electronics, Electrical systems, Electronic systems, Photonics, Signal processing, Wireless technologies.

Prerequisites: Units 3 and 4; a study score of at least 30 in English (EAL) or 25 in English other than EAL; and a study score of at least 20 in one of Maths: Mathematical Methods (CAS) or Maths: Specialist Mathematics.

Engineering-Electrical and Electronic/Entrepreneurship (HE)

RMIT University
City: 3200332231 (CSP) full-time Apply: Through VTAC main round

- Bachelor of Engineering (Electrical and Electronic Engineering) (Honours)/Bachelor of Business (Entrepreneurship): 5 years full time study

About the course: Students will learn to design, apply and maintain electrical and electronic systems for a range of goods and services, including devices for electrical energy generation and distribution, audio amplifier design, stereos, and scanning equipment. Students will also learn how to be entrepreneurial. Individual and team-based project work develops skills in communication, teamwork and leadership and prepares graduates for the move into industry. The first three years of the degree look at the fundamentals of electrical and electronic engineering, mathematics, physics, and business entrepreneurship. In the last two years of the degree students will specialise in electrical and electronic engineering, and business entrepreneurship.

Graduates will be able to launch and manage new ventures, undertake business practices in firms with a high
degree of competency, and manage and grow businesses using entrepreneurial techniques.

For more information please attend an information evening on Wednesday, 4 September 2013. Further details can be found at www.rmit.edu.au/eleceng

**Major studies:** Business (finance), Business (management), Business (operations), Business development, Circuits and electronics, Communication systems, Computer engineering, Computer networks, Control systems, Digital and analogue electronics, Electrical systems, Electronic systems, Entrepreneurship, Entrepreneurship and innovation, Entrepreneurship in organisations, Global entrepreneurship, New venture creation, Photonics, Regulatory environment, Signal processing, Social entrepreneurship, Wireless technologies.

**Prerequisites:** Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL; and a study score of at least 20 in one of Maths: Mathematical Methods (CAS) or Maths: Specialist Mathematics.

**Middle-band:** A study score of 25 in Maths: Specialist Mathematics equals 2 aggregate points. A study score of 25 in Chemistry equals 1 aggregate point. A study score of 25 in Physics equals 2 aggregate points.

**Selection Mode:** CY12 : ATAR and middle-band.

NY12 : Educational History including GPA, VTAC Personal Statement (Some). See extra requirements for more information.

**Extra requirements:**

VTAC Personal Statement (NY12-Some) : NY12 (some applicants) who wish other information to be considered must submit a VTAC Personal Statement.

- Bachelor of Engineering (Electrical) (Honours)/Bachelor of Business (Management): 5 years full time study

About the course: This course combines knowledge and practical skills in principles of electrical engineering, with essential knowledge of business, economics and organisational structures and relations.

Throughout the course, students learn to design systems and equipment to generate and use electrical power more efficiently. Compulsory study of engineering and management subjects are undertaken in years one, two, and three, and areas of mathematics and physics that are essential for engineers. Engineering subjects in years four and five are more specialised, focusing on energy, power and control systems. Students undertake two major engineering design projects, and business subjects on logistics and operational leadership.

Graduates are often employed by industries that work in power generation, industrial and power electronics, automation systems, computer programming, robotics and water and energy management. Graduates can take leadership roles in system design, maintenance and management for government and private industry.

For more information please attend an information evening on Wednesday, 4 September 2013. Further details can be found at www.rmit.edu.au/eleceng

Bachelor of Engineering (Electrical Engineering) (Honours)/Bachelor of Commerce: 5 years full time study

About the course: Students develop a broad range of skills in order to provide creative solutions to engineering problems along with the business knowledge to implement them. Learning focuses on system design, maintenance and management in the private and public sectors.

Students study compulsory engineering and commerce subjects in years one, two and three, as well as mathematics and physics subjects that are essential for engineers. Engineering electives are available in years four and five, and students have the option to specialise in their final year. Students complete major engineering design projects in the last two years, and broaden their commerce skills to include business leadership, finance and management.

Graduates are often employed by industries that work in power generation, industrial and power electronics, automation systems, computer programming, robotics, resources, and water and energy management.

For more information please attend an information evening on Wednesday, 4 September 2013. Further details can be found at www.rmit.edu.au/eleceng

Major studies: Accounting, Administration, Business, Circuits and electronics, Commerce, Computer engineering, Control systems, Digital and analogue electronics, Electrical engineering, Engineering (electrical distribution), Engineering (electrical transmission), Engineering (electrical), Industrial automation.

Prerequisites: Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL; and a study score of at least 20 in one of Maths: Mathematical Methods (CAS) or Maths: Specialist Mathematics.

Selection Mode: CY12 : ATAR and middle-band.

NY12 : Educational History including GPA, VTAC Personal Statement (Some). See extra requirements for more information.

Extra requirements:

VTAC Personal Statement (NY12-Some) : NY12 (some applicants) who wish other information to be considered must submit a VTAC Personal Statement.

Bachelor of Engineering (Electronic and Communication Engineering) (Honours): 4 years full time study

About the course: Students learn to design and create scientific and engineering products and services using electronic, photonic, electromagnetic and computing devices.

The products and services that electronic and communication engineers innovate make people's lives easier, safer, healthier, more productive and more enjoyable. Products and services include smart phones, computers, robots, high speed internet, digital radio, HDTV, radar, navigation aids, communication satellites, medical and biomedical instruments, and safety, security and control systems for land, sea and air transport.

The course has a substantial laboratory based learning component to put theories into practice. Technical and
design skills are complemented by skills in communication, teamwork, leadership, and project management.

Graduates may work in private industry, scientific and research organisations, or in government organisations such as transport, defence, health and education. They may also set up their own business or continue with higher degrees by research.

For more information please attend an information evening on Wednesday, 4 September 2013. Further details can be found at www.rmit.edu.au/eleceng

**Major studies:** Circuits and electronics, Communication systems, Digital signal processing, Electronic systems, Electronics, Engineering, Engineering (biomedical), Engineering (communication), Engineering (electronics), Engineering (telecommunications), Fibre optical technology, Mobile communications, Network engineering, Optoelectronics, Photonics, Radio communication, Telecommunications, Telecommunications (transmission systems), Wireless technologies.

**Prerequisites:** Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL; and a study score of at least 20 in one of Maths: Mathematical Methods (CAS) or Maths: Specialist Mathematics.

**Middle-band:** A study score of 25 in Maths: Specialist Mathematics equals 2 aggregate points. A study score of 25 in Chemistry equals 1 aggregate point. A study score of 25 in Physics equals 2 aggregate points.

**Selection Mode:** CY12 : ATAR and middle-band.

NY12 : Educational History including GPA, VTAC Personal Statement (Some). See extra requirements for more information.

**Extra requirements:**

VTAC Personal Statement (NY12-Some) : NY12 (some applicants) who wish other information to be considered must submit a VTAC Personal Statement.

- Bachelor of Engineering (Electronic and Communication Engineering) (Honours)/Bachelor of Computer Science: 5 years full time study

**About the course:** Students learn to design and create scientific and engineering products and services using electronic, photonic, electromagnetic and computing devices.

The products and services that electronic and communication engineers innovate make people's lives easier, safer, healthier, more productive and more enjoyable. Products and services include smart phones, computers, robots, high speed internet, digital radio, HDTV, radar, navigation aids, communication satellites, medical and biomedical instruments, and safety, security and control systems for land, sea and air transport.

Computer scientists apply skills in computing and information technology to service business, industry, government and the community; e.g. data processing, accounting databases, mobile computing, web development, computer network design and network security.

Graduates may work in private industry, scientific and research organisations, or in government organisations such as transport, defence, health and education. They may also set up their own business or continue with higher degrees by research.

For more information please attend an information evening on Wednesday, 4 September 2013. Further details can be found at www.rmit.edu.au/eleceng

**Major studies:** Computer and network security, Computer animation, Computer architecture, Computer hardware, Computer networks, Computer programming, Computer science, Computing, Computing (networks), Control systems, Data communications, Data networks, Database systems, Databases (advanced programming),
Electronics, Engineering, Engineering (communication), Engineering (electronics), Engineering (telecommunications), Mobile communications, Radio communication, Wireless technologies.

**Prerequisites:** Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL; and a study score of at least 20 in one of Maths: Mathematical Methods (CAS) or Maths: Specialist Mathematics.

**Middle-band:** A study score of 25 in Maths: Specialist Mathematics equals 2 aggregate points. A study score of 25 in Chemistry equals 1 aggregate point. A study score of 25 in Physics equals 2 aggregate points.

**Selection Mode:** CY12 : ATAR and middle-band.

NY12 : Educational History including GPA, VTAC Personal Statement (Some). See extra requirements for more information.

**Extra requirements:**

VTAC Personal Statement (NY12-Some) : NY12 (some applicants) who wish other information to be considered must submit a VTAC Personal Statement.

- Bachelor of Engineering (Electronic Product Design) (Honours): 4 years full time study

**About the course:** Students develop and combine expertise in electronic engineering and industrial design to be able to develop new and innovative electronic products using modern computer-aided design tools.

Electronic product design is a multidisciplinary engineering field which incorporates knowledge and expertise from electronic engineering, industrial design, and graphics design that is applied to the development of electronic products that meet specific needs, are easy to use and are environmentally friendly. The course has a strong focus on project and studio based subjects. The course produces skilled engineers by combining hands-on laboratory work with classes that teach the concepts, theories and principles of engineering and design. Students develop personal and business skills through real world problem solving. In addition, students will learn communication, teamwork, problem solving and decision making skills to prepare them to move into industry as professional engineers.

For more information please attend an information evening on Wednesday, 4 September 2013. Further details can be found at [www.rmit.edu.au/eleceng](http://www.rmit.edu.au/eleceng)

**Major studies:** Computer-aided design (CAD), Design, Design theory, Digital and analogue electronics, Electronic engineering, Electronic product design, Electronic systems, Electronics circuit design and analysis, Embedded systems, Industrial design, Signal processing.

**Prerequisites:** Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL; and a study score of at least 20 in any Mathematics.

**Middle-band:** A study score of 25 in Maths: Specialist Mathematics equals 2 aggregate points. A study score of 25 in Chemistry equals 1 aggregate point. A study score of 25 in Physics equals 2 aggregate points. Satisfactory completion in one but no more than two of Product Design And Technology, Studio Arts or Visual Communication Design equals 1 aggregate point per study. A study score of 25 in Maths: Mathematical Methods (CAS) equals 1 aggregate point.

**Selection Mode:** CY12 : ATAR and middle-band.

NY12 : Educational History including GPA, VTAC Personal Statement (Some). See extra requirements for more information.
Extra requirements:
VTAC Personal Statement (NY12-Some): NY12 (some applicants) who wish other information to be considered must submit a VTAC Personal Statement.

- Bachelor of Engineering (Environmental Engineering) (Honours): 4 years full time study

About the course: Environmental engineers factor environmental issues into all stages of engineering projects and processes to minimise environmental problems, as well as resolving existing environmental problems through the application of engineering skills. Many site visits and field trips are included in this course to enhance learning and students have the opportunity to plan their study to align with their own interests by selecting a specialisation in civil and infrastructure, chemical or groundwater engineering.

Essential design and analysis skills developed in the course are supported by a strong foundation in relevant science, mathematics, computing and communication skills. Students work on industry based projects as well as laboratory based research projects where the application of environmental engineering technical skills is demonstrated. This course is accredited by Engineers Australia.

Prerequisites: Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL; and a study score of at least 20 in Maths: Mathematical Methods (CAS).

Middle-band: A study score of 25 in Maths: Specialist Mathematics equals 1 aggregate point. A study score of 25 in one but no more than one of Chemistry or Physics equals 1 aggregate point per study.

Selection Mode: CY12: ATAR and middle-band.

NY12: Educational History including GPA, VTAC Personal Statement (Some). See extra requirements for more information.

Extra requirements:
VTAC Personal Statement (NY12-Some): NY12 (some applicants) who wish other information to be considered must submit a VTAC Personal Statement.

Bachelor of Engineering (Mechanical Engineering) (Honours): 4 years full time study

About the course: The course provides graduates with sound technical skills, with a strong industrial and applications orientation.

Years one and two are taught at the City campus, years three and four are taught at the Bundoora campus. The course has a core program in the first six semesters beginning with basic mechanical engineering and science subjects aimed at developing analytical problem-solving skills and design capabilities, progressing to more advanced mechanical engineering subjects. Students select mechanical engineering electives in the final two semesters. A substantial mechanical engineering project is undertaken in the final year.

Students are expected to obtain at least 12 weeks of vacation work during their study.

Graduates are often employed in the design, manufacture and testing of Australian-built cars, the design, specification and installation of massive air conditioning systems used in the building service industry, the design of materials handling systems in the packaging industry, power generation and in construction and maintenance in the petrochemical industry.

Major studies: Computer-aided engineering and design, Dynamics and control, Energy conservation and renewable energy, Engineering and society, Engineering mathematics, Fluid mechanics, Industrial aerodynamics and computational fluid dynamics, Manufacturing, Mechanical design, Mechanics of machines, Mechatronics, Professional project, Solid mechanics and materials, Thermodynamics.

Prerequisites: Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL; and a study score of at least 25 in Maths: Mathematical Methods (CAS).

Middle-band: A study score of 25 in Maths: Specialist Mathematics equals 1 aggregate point. A study score of 25 in one but no more than one of Chemistry or Physics equals 1 aggregate point per study.

Selection Mode: CY12 : ATAR and middle-band.
NY12 : Educational History including GPA, VTAC Personal Statement (Some). See extra requirements for more information.

Extra requirements:

VTAC Personal Statement (NY12-Some) : NY12 (some applicants) who wish other information to be considered must submit a VTAC Personal Statement.

Advanced Diploma of Engineering (Mechanical): 2 years full time study

About the course: Students gain knowledge and hands-on skills to apply engineering and scientific principles to mechanical and manufacturing engineering applications. Learning focuses on analysis, diagnosis, design, execution and evaluation of judgements regarding mechanical and manufacturing engineering solutions.

Specialisations include engineering maintenance, computer-aided design/drafting (CAD), mechanical controls and automation, mechanical design, materials, manufacturing and project management.

Students will be admitted into the highest qualification level and can choose to exit with a lower listed qualification upon the successful completion of the required courses (subjects).

Major studies: Computer-aided design/drafting (CAD), Dynamics, Engineering design, Engineering drawing (manual), Materials technology, Mechanical systems, Mechanics, Mechanics (fluid), Mechanics (solid), Quality management, Statics, Thermodynamics.

Prerequisites: None
Middle-band: Satisfactory completion in one but no more than three of any Mathematics or Physics equals 1 aggregate point per study.

Selection Mode: CY12 : ATAR and middle-band.

NY12 : Educational History including GPA, VTAC Personal Statement (Some). See extra requirements for more information.

Extra requirements:

VTAC Personal Statement (NY12-Some) : NY12 (some applicants) who wish other information to be considered must submit a VTAC Personal Statement.

Engineering-Mechanical/Biotechnology (HE)

- Bachelor of Engineering (Mechanical Engineering) (Honours)/Bachelor of Science (Biotechnology): 5 years full time study

About the course: This course has been designed to meet the needs of engineers working at the interface of mechanical engineering and biotechnology. The course includes core mechanical engineering and biotechnology subjects, and elective mechanical engineering subjects. The electives on offer enable students to develop specialist skills in areas of particular interest. In the mechanical engineering component of this course, students will be prepared to practise as effective, high-level engineers, and will acquire knowledge and skills in sciences and technologies which underpin mechanical engineering. Students will develop suitable design skills and creativity, intellectual discipline, and team working skills. In the field of biotechnology, students will be equipped with skills in genetic engineering, industrial microbiology, molecular agriculture, bioinformatics, and ethical and legal issues in biotechnology.

Students are expected to obtain at least 12 weeks of vacation work during their study.

Graduates will be well-equipped to deal with technical and professional challenges in this growing area.

Major studies: Biological chemistry, Cell structure and function, Computer-aided engineering and design, Dynamics and control, Energy conservation and renewable energy, Engineering and society, Engineering mathematics, Fluid mechanics, Food manufacture, Gene technologies, Industrial aerodynamics and computational fluid dynamics, Manufacturing, Mechanical design, Mechanics of machines, Mechatronics, Microbiology, Molecular biology, Professional project, Solid mechanics and materials, Thermodynamics.

Prerequisites: Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL; and a study score of at least 25 in Maths: Mathematical Methods (CAS).

Middle-band: A study score of 25 in Maths: Specialist Mathematics equals 1 aggregate point. A study score of 25 in one but no more than two of Biology, Chemistry or Physics equals 1 aggregate point per study.

Selection Mode: CY12 : ATAR and middle-band.

NY12 : Educational History including GPA, VTAC Personal Statement (Some). See extra requirements for more information.

- Bachelor of Engineering (Mechanical Engineering) (Honours)/Bachelor of Business (Management): 5 years full time study

About the course: This course has been designed to meet the specific demands of mechanical engineering and business organisations. The first two years of the course are taught at the City campus. In later years, students may need to travel to both the City and Bundoora campuses. The course consists of core mechanical and business subjects and in later years mechanical and business electives. A substantial mechanical engineering project is undertaken in the final year. In earlier years, students also undertake core subjects dealing with professional practice that develop leadership and organisational skills. Business subjects include management, accounting, commercial law, employee relations and marketing. Students are expected to obtain at least 12 weeks of vacation work during their study.

After initially working as mechanical engineers, graduates may move to management positions. Areas of possible employment include transport and petrochemical industries, energy supply, building services, defence forces, government, general engineering, and consultancy organisations.

Prerequisites: Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL; and a study score of at least 25 in Maths: Mathematical Methods (CAS).

Middle-band: A study score of 25 in Maths: Specialist Mathematics equals 1 aggregate point. A study score of 25 in one but no more than one of Chemistry or Physics equals 1 aggregate point per study.

Selection Mode: CY12: ATAR and middle-band.
NY12: Educational History including GPA, VTAC Personal Statement (Some). See extra requirements for more information.

Extra requirements:
VTAC Personal Statement (NY12-Some): NY12 (some applicants) who wish other information to be considered must submit a VTAC Personal Statement.

• Bachelor of Engineering (Sustainable Systems Engineering) (Honours): 4 years full time study

About the course: This course is designed with a continuous thread of systems thinking and sustainable design. Students learn new and holistic approaches to design of sustainable technologies and engineering systems for global sustainable development. They learn to protect, restore and create engineered and natural systems that are socially, environmentally and economically sustainable.

Graduates will have the potential to approach industry problems differently from those educated through traditional specialised engineering courses by utilising a holistic viewpoint and developing engineering solutions that are optimised as a system. Therefore, graduates are prepared for roles in the sustainable development, strategic planning and leadership of future businesses where sustainable systems solutions are required, particularly in the
transportation, renewable energy and logistics industries. All four years of the course are based at the City campus. Students are expected to obtain at least 12 weeks vacation work during their study.

**Major studies:** Chemistry fundamentals, Design and computer aided design (CAD), Electrical energy systems, Infrastructure management, Manufacturing management, Mathematics, Renewable energy, Spatial information science, Statistics, Supply chain management, Sustainable energy systems, Sustainable logistics systems, Sustainable transport systems engineering, Systems engineering.

**Prerequisites:** Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL; and a study score of at least 25 in Maths: Mathematical Methods (CAS).

**Middle-band:** A study score of 25 in Maths: Specialist Mathematics equals 1 aggregate point. A study score of 25 in one but no more than one of Chemistry, Physics or Systems Engineering equals 1 aggregate point per study.

**Selection Mode:** CY12 : ATAR and middle-band.

NY12 : Educational History including GPA, VTAC Personal Statement (Some). See extra requirements for more information.

### Engineering-Sustainable Systems/Business Management (HE)

**RMIT University**

City: 3200333211 (CSP) full-time  **Apply:** Through VTAC main round

- Bachelor of Engineering (Sustainable Systems Engineering) (Honours)/Bachelor of Business (Management): 5 years full time study

**About the course:** This course combines the complementary disciplines of sustainable systems engineering and management.

The sustainable systems engineering component includes a continuous thread of systems thinking and sustainable design. Students learn holistic approaches to design of sustainable technologies and engineering systems for global sustainable development. They learn to protect, restore and create engineered and natural systems that are socially, environmentally and economically sustainable.

The management component provides the background to organisational management, which is an important skill for most engineers during their careers. Business subjects include management, accounting, commercial law, employee relations and marketing.

A substantial project is undertaken in the final year, which provides an opportunity to integrate engineering and management capabilities. It also provides research experiences where real world projects are often undertaken within industry and community organisations.

Students are expected to obtain at least 12 weeks of relevant work experience during their study.

Graduates gain business knowledge to manage major engineering projects and may progress to senior management roles.

**Major studies:** Accounting, Business information systems, Circuit theory, Computer-aided engineering and design, Economics and finance, Embedded systems, Energy conservation and renewable energy, Engineering and society, Engineering mathematics, Entrepreneurship, Environmental chemistry, Ethics governance and commercial law, Fluid mechanics, Human resource management, International business, Leadership and strategic management, Logistics and supply chain management, Marketing, Mechatronics, Organisational behaviour, Professional project, Statistics, Supply chain management, Sustainable energy systems, Sustainable logistics systems, Sustainable systems design, Sustainable transport systems engineering, Systems engineering, Thermodynamics.

**Prerequisites:** Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL; and a study score of at least 25 in Maths: Mathematical Methods (CAS).

**Middle-band:** A study score of 25 in Maths: Specialist Mathematics equals 1 aggregate point. A study score of 25 in one but no more than one of Chemistry, Physics or Systems Engineering equals 1 aggregate point per study.
Selection Mode: CY12 : ATAR and middle-band.
NY12 : Educational History including GPA, VTAC Personal Statement (Some). See extra requirements for more information.

Extra requirements:
VTAC Personal Statement (NY12-Some) : NY12 (some applicants) who wish other information to be considered must submit a VTAC Personal Statement.

### Engineering-Sustainable Systems/Industrial Design (HE)

**RMIT University**

City: 3200333231 (CSP) full-time  **Apply:** [Through VTAC](http://www.wss8.vtac.edu.au/courses-inst/institutions/topdf/rmit.html) main round

- Bachelor of Engineering (Sustainable Systems Engineering) (Honours)/Bachelor of Design (Industrial Design) (Honours): 5 years full time study

**About the course:** This course combines the complementary disciplines of sustainable systems engineering and industrial design.

The sustainable systems engineering component includes a continuous thread of systems thinking and sustainable design. Students learn holistic approaches to design of sustainable technologies and engineering systems for global sustainable development. They learn to protect, restore and create engineered and natural systems that are socially, environmentally and economically sustainable.

Industrial design offers technical, theoretical and applied design opportunities. With a focus on developing innovative, original and ethical designers, the program has four main areas of study: design studies and professional practice, design communications, design technology, and design studio.

A substantial project is undertaken in the final year, which provides an opportunity to integrate engineering and industrial design capabilities. Furthermore, design studio provides research and design project experiences where real world projects are undertaken within industry and community organisations on issues of significance.

Students are expected to obtain at least 12 weeks of relevant work experience during their study.

**Major studies:** Circuit theory, Communications, Computer-aided engineering and design, Design studies, Design studies and professional practice, Design studio, Embedded systems, Energy conservation and renewable energy, Engineering and society, Engineering mathematics, Environmental chemistry, Fluid mechanics, Industrial design communications, Logistics and supply chain management, Mechatronics, Methods in design research and practice, Statistics, Supply chain management, Sustainable energy systems, Sustainable logistics systems, Sustainable systems design, Sustainable transport systems engineering, Systems engineering, Technology, Thermodynamics.

**Prerequisites:** Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL; and a study score of at least 25 in Maths: Mathematical Methods (CAS).

**Middle-band:** A study score of 25 in Maths: Specialist Mathematics equals 1 aggregate point. A study score of 25 in one but no more than one of Chemistry, Physics or Systems Engineering equals 1 aggregate point per study.

**Selection Mode:** CY12 : ATAR and middle-band.
NY12 : Educational History including GPA, VTAC Personal Statement (Some). See extra requirements for more information.

VTAC Personal Statement (NY12-Some) : NY12 (some applicants) who wish other information to be considered must submit a VTAC Personal Statement.

### Entrepreneurship (HE)

**RMIT University**

City: 3200333311 (CSP) full-time  **Apply:** [Through VTAC](http://www.wss8.vtac.edu.au/courses-inst/institutions/topdf/rmit.html) main round

Bachelor of Business (Entrepreneurship): 3 years full time study

About the course: Students gain the confidence and entrepreneurial skills to launch and manage new ventures and grow existing businesses. Students will be exposed to the ideas and strategies of some of Australia's newest and established entrepreneurs, case study work and also work in student teams to develop joint venture concepts. Theoretical subjects covering business principles, global and corporate entrepreneurship, and family business are enhanced by subjects aimed at developing their own ventures and opportunities to work on business development projects within existing organisations.

This three year course offers students the flexibility to choose a minor from another business discipline such as sustainable enterprise, marketing or international business, a foreign language or other minor sequences and electives to suit their career goals. A second major can also be selected from a range of business disciplines.

Major studies: Business (finance), Business (management), Business (operations), Business development, Entrepreneurship, Entrepreneurship and innovation, Entrepreneurship in organisations, Global entrepreneurship, New Venture Creation, Regulatory Environment, Social entrepreneurship, Sustainable Enterprises.

Prerequisites: Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL.

Middle-band: A study score of 25 in Accounting, Business Management, Economics, Geography, any Information Technology, Legal Studies, any Mathematics or Psychology equals 1 aggregate point per study. A study score of 35 in any English equals 2 aggregate points per study. Overall maximum of 5 points.

Selection Mode: CY12 : ATAR and middle-band.
NY12 : Educational History including GPA.

Extra requirements: None

Environment (HE)

RMIT University

Bachelor of Social Science (Environment): 3 years full time study

About the course: Understanding humankind's impact on the earth is vital to creating an environmentally sustainable future. This degree is grounded in a firm tradition of preparing graduates to advocate for and implement environmental action for long-term benefits.

Students study politics, culture, economics, social trends and ecology in order to design and test more effective environmental policies and management strategies. Students tackle real-world projects to develop practical solutions to issues such as climate change, biodiversity loss and pollution management.

There may also the opportunity for overseas study to investigate how other countries are seeking to achieve
ecological sustainability, including embarking on a team research project in Vietnam.

Graduates develop skills in practical communication, problem-solving and research that prepares them for professional environmental and sustainability careers in government, consulting firms, environmental and community organisations, and a range of corporate businesses.

Further details about this course can be found at [www.rmit.edu.au/environmentplanning](http://www.rmit.edu.au/environmentplanning)

**Major studies:** Australian society, Catchment and coastal management, Climate change impacts, Community development, Energy studies, Environmental economics, Environmental impact assessments, Environmental politics and change, Environmental thought and action, Global society, Local government, Policy studies, Politics, Professional practice, Research methods, Resource management, Social research methods, Sustainable development, Urban planning, Water policy.

**Prerequisites:** Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL.

**Middle-band:** A study score of 30 in Biology, Environmental Science, Geography, Australian Politics or Global Politics equals 2 aggregate points per study.

**Selection Mode:** CY12 : ATAR and middle-band.

NY12 : Educational History including GPA, VTAC Personal Statement (All), Interview (Some), Work experience (All). See extra requirements for more information.

**Extra requirements:**

VTAC Personal Statement (NY12-All) : NY12 applicants must submit a VTAC Personal Statement and include their reasons for wanting to study the course, demonstrating awareness of current issues associated with environmental sustainability, and the personal strengths and attributes they will bring to the course.

Interview (NY12-Some) : Applicants required to attend an interview will be contacted by the University via telephone or email. Interviews will be held in October/November. Applicants must note that short-listing for interview will be based on what has been submitted in the VTAC Personal Statement.

Work experience (NY12-All) : Applicants should also detail any work experience when completing a VTAC Personal Statement.

- Bachelor of Environmental Science/Bachelor of Social Science (Environment): 4 years full time study

**About the course:** This double degree brings together science and politics to give students the skills and knowledge to be a leader in sustainability and help protect our natural environment.

Students will learn to address the issues of environmental change and people's adaptation to it by combining the study of environmental science with environmental policy making and management. Students learn through classroom, laboratory and field work activities. Students can specialise in environmental chemistry, ecology or geospatial science, and undertake environmental work practice and projects centred on real-life environmental problems. Students may have the option of studying overseas to compare approaches to environmental management, including embarking on a team research project in Vietnam.

Graduates make a positive difference in a variety of careers; as environmental scientists, policy makers, environmental activists or private consultants.

Further details about this course can be found at [www.rmit.edu.au/environmentplanning](http://www.rmit.edu.au/environmentplanning)

Prerequisites: Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL; and a study score of at least 30 in one of Maths: Mathematical Methods (CAS) or Maths: Specialist Mathematics.

Middle-band: A study score of 30 in Biology, Chemistry, Environmental Science, Geography, Physics, Australian Politics or Global Politics equals 2 aggregate points per study. Overall maximum of 6 points.

Selection Mode: CY12 : ATAR and middle-band.
NY12 : Educational History including GPA, VTAC Personal Statement (All), Interview (Some), Work experience (All). See extra requirements for more information.

Extra requirements:
VTAC Personal Statement (NY12-All) : NY12 applicants must submit a VTAC Personal Statement and include their reasons for wanting to study the course, demonstrating awareness of current issues associated with environmental sustainability, and the personal strengths and attributes they will bring to the course.

Interview (NY12-Some) : Applicants required to attend an interview will be contacted by the University via telephone or email. Interviews will be held in October/November.Applicants must note that short-listing for interview will be based on what has been submitted in the VTAC Personal Statement.

Work experience (NY12-All) : Applicants should also detail any work experience when completing a VTAC Personal Statement.

- Bachelor of Environmental Science: 3 years full time study

About the course: This course develops scientists who identify and solve problems occurring in the environment, and communicate this information to a range of audiences. Students gain practical skills required for laboratory testing and field monitoring across scientific disciplines. Graduates may work in a wide variety of organisations including environmental consultancies, government agencies, water authorities, analytical services for site assessment and remediation, analytical laboratories, manufacturing, recycling and treatment companies, forestry, and mining and service industries. Many companies employ environmental scientists to manage their environmental performance. First year studies include environmental science, environmental management, mathematics and chemistry. In second and third year, students choose one core discipline from environmental chemistry or ecology, and may undertake studies in environmental analysis, environmental engineering, environmental management or geospatial science.

Further details about this course can be found at www.rmit.edu.au/appliedsciences

Prerequisites: Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL; and a study score of at least 20 in one of Maths: Mathematical Methods (CAS) or Maths: Specialist Mathematics.
Middle-band: Satisfactory completion in one but no more than three of Biology, Chemistry, Maths: Specialist Mathematics or Physics equals 2 aggregate points per study.

Selection Mode: CY12 : ATAR and middle-band.
NY12 : Educational History including GPA, VTAC Personal Statement (Some). See extra requirements for more information.

Extra requirements:
VTAC Personal Statement (NY12-Some) : NY12 (some applicants) who wish other information to be considered must submit a VTAC Personal Statement.

- Bachelor of Environmental Science/Bachelor of Business (Management): 4 years full time study

About the course: Students combine specialised scientific skills in ecology and environmental chemistry and an understanding of ecological, physical and chemical processes with skills in business management. Students gain hands-on experience through an environmental industry project.

Students study the ecological, physical and chemical processes in the environment and gain specialised scientific skills in ecology and environmental chemistry, coupled with skills in business management. Graduates may work in a range of fields including environmental management positions within government agencies, consulting organisations or private companies or in manufacturing and production industries. First year includes fundamental studies in chemistry, environmental science, physics, mathematics, organisational behaviour and marketing. Second year includes studies of processes in the natural environment, accounting and macroeconomics. Third year includes environmental chemistry, the natural environment, commercial law, and management. Fourth year includes the degraded environment, strategic management, business and environmental science electives and an environment industry project.

Further details about this course can be found at www.rmit.edu.au/appliedsciences

Prerequisites: Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL; and a study score of at least 20 in one of Maths: Mathematical Methods (CAS) or Maths: Specialist Mathematics.

Middle-band: Satisfactory completion in one but no more than three of Biology, Chemistry, Maths: Specialist Mathematics or Physics equals 2 aggregate points per study.

Selection Mode: CY12 : ATAR and middle-band.

Environmental Science/Engineering-Environmental (HE)

RMIT University

City: 3200332221 (CSP) full-time  Apply: Through VTAC  main round

Bachelor of Environmental Science/Bachelor of Engineering (Environmental Engineering) (Honours): 5 years full time study

About the course: Students study the essential elements of environmental science with engineering applications and gain hands-on experience through science and engineering projects. Graduates have in-depth knowledge of environmental processes and the ability to design and implement environmental solutions, waste minimisation and remediation strategies.

Students study ecological, physical and chemical processes of the environment with engineering applications. Graduates may work in many fields including environmental consultancies, government agencies, water authorities, engineering companies, analytical services for site assessment and remediation, recycling and waste treatment companies, and in forestry, mining and service industries. Early years include studies in environmental science, biology, mathematics, chemistry, geology and engineering practice. Later years include engineering design, environmental issues, and environmental systems and analysis. Students gain considerable hands-on experience through industry and laboratory based science and engineering projects as well as attending many site visits and field trips.

Further details about this course can be found at www.rmit.edu.au/appliedsciences

Prerequisites: Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL; and a study score of at least 20 in one of Maths: Mathematical Methods (CAS) or Maths: Specialist Mathematics.

Middle-band: Satisfactory completion in one but no more than three of Biology, Chemistry, Maths: Specialist Mathematics or Physics equals 2 aggregate points per study.

Extra requirements:
VTAC Personal Statement (NY12-Some) : NY12 (some applicants) who wish other information to be considered must submit a VTAC Personal Statement.

Exercise and Sport Science (HE)

RMIT University

Bundoora:3200231161 (CSP) full-time  Apply: Through VTAC  main round
Bundoora: 3200231163 (IFP) full-time  
Apply: Through VTAC main round

- Bachelor of Applied Science (Exercise and Sport Science): 3 years full time study

About the course: Students will gain knowledge in the principles of exercise prescription, exercise management, exercise reconditioning, sport science, exercise for health and disability and community physical recreation. Students also benefit from staff that are well-connected in the industry and research-active.

Graduates may work as exercise physiologists, sports scientists, exercise specialists, and sports coaches. The three-year course has an industry/work experience component along with work experience scenarios that are presented throughout the course. This provides opportunities to work with members of the general public, sport, fitness and recreation organisations. Elective components give scope for students to extend their knowledge, understanding and skills in many specialised exercise and sport science areas.

Major studies: Anatomy, Behavioural science, Biomechanics, Exercise physiology, Exercise prescription, Kinesiology, Motor control and learning, Sport science.

Prerequisites: Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL; and a study score of at least 20 in one of Biology, Chemistry, Maths: Mathematical Methods (CAS), Maths: Specialist Mathematics, Physical Education or Physics.

Middle-band: A study score of 25 in one but no more than three of Biology, Chemistry, Maths: Mathematical Methods (CAS), Maths: Specialist Mathematics, Physical Education or Physics equals 2 aggregate points per study.

Selection Mode: CY12: ATAR and middle-band, Interview (Some). See extra requirements for more information.
NY12: Educational History including GPA, VTAC Personal Statement (Some), Interview (Some). See extra requirements for more information.

Extra requirements:

VTAC Personal Statement (NY12-Some): NY12 (some applicants) who wish other information to be considered must submit a VTAC Personal Statement.

Interview (CY12-Some, NY12-Some): Interviews may be held by phone or face to face. Details will be provided by telephone or mail by November or December. Applicants must be available for interview in November, December or January.

SUCCESSFUL APPLICANTS: Before undergoing practical components of this course, students must hold a Working with Children Check. Failure to hold satisfactory checks may result in students being unable to complete the course.

- Associate Degree in Fashion and Textiles Merchandising: 2 years full time study

About the course: Students develop skills and graduate capabilities to succeed in the rapidly evolving global fashion industry. The course aims to provide employment in all areas of fashion product development and fashion retail management. This course has a strong emphasis on teamwork within a business environment contextualised for fashion merchandising. There is strong collaboration with leading fashion enterprises over industry projects. Students are prepared for employment through the development of interrelationships and direct contact with industry. In addition, students have access to international exchange programs, scholarship opportunities, international study tours and work placements in Victoria or overseas.
Information sessions will be held in Building 514, Brunswick Campus (25-29 Dawson St., Brunswick) on Wednesday 18 September at 6.00 pm and 7.30 pm. Attendance is highly recommended but not compulsory.

Further details about this course can be found at www.rmit.edu.au/fashiontextiles

**Major studies:** Branding, Computer-aided design (CAD), Distribution and logistics, Fashion mathematics, Fashion planning, Global logistics, Industry research, International marketing, Marketing, Product development (TCF), Visual merchandising.

**Prerequisites:** Units 3 and 4: a study score of at least 25 in English (EAL) or 20 in English other than EAL.

**Middle-band:** A study score of 20 in Business Management, Product Design And Technology, Legal Studies, any Mathematics, Psychology, Studio Arts or Visual Communication Design equals 2 aggregate points per study. Overall maximum of 8 points.

**Selection Mode:** CY12 : ATAR and middle-band.

NY12 : Educational History including GPA, VTAC Personal Statement (All), Work experience (Some). See extra requirements for more information.

**Extra requirements:**
VTAC Personal Statement (NY12-All) : NY12 applicants must submit a VTAC Personal Statement and include their reasons for wanting to study the course.
Work experience (NY12-Some) : NY12 applicants with work experience in fashion and textiles merchandising or other relevant areas must include those details when completing a VTAC Personal Statement.

- Certificate IV in Fashion and Textiles Merchandising: 1 year full time study

**About the course:** Students develop skills and knowledge to succeed in the rapidly evolving fashion industry. The course focuses on the global fashion industry and aims at providing employment skills in areas related to fashion product ranging, fashion production, fashion marketing, quality assurance, visual merchandising and fashion supply chain. Delivery of this course includes a range of methodologies such as workshops, research tasks, case studies, problem solving activities, presentations and group-based learning. Classes are delivered in the evening. Classes run Monday to Thursday night and all classes commence at 6pm. Students can select the number of subjects they enrol into (pending availability) each semester.

Note that this course is only available for part time study.

Information sessions will be held in Building 514, Brunswick Campus (25-29 Dawson St., Brunswick) on Wednesday 18 September at 6.00 pm and 7.30 pm. Attendance is highly recommended but not compulsory.

Further details about this course can be found at www.rmit.edu.au/fashiontextiles

**Major studies:** Computer-aided design (CAD), Marketing, Product ranging, Supply chain management, Textiles product knowledge, Visual merchandising.

**Prerequisites:** None

**Middle-band:** None

- Bachelor of Applied Science (Fashion and Textiles Merchandising): 1 year full time study

**About the course:** This course focuses on fashion and textiles marketing, merchandising and branding, and equips graduates to be technically proficient members of the fashion industry. Students gain the knowledge and capabilities to develop marketing strategies in a competitive global fashion and textile environment. This includes the changing internal and external marketing environments, strategic tools and perspectives, product and customer analysis, qualitative and quantitative market research, the product, price, promotion, distribution and sustainability decisions at a strategic level. Students apply fashion merchandising theories related to consumer demand for apparel and related products. Concepts of market intelligence, merchandising styling, sourcing and the role of buying are researched, evaluated and interpreted. Students also learn to identify and apply industry-relevant software including design, retail, supply chain management and manufacturing.

Further details about this course can be found at [www.rmit.edu.au/fashiontextiles](http://www.rmit.edu.au/fashiontextiles)

**Major studies:** Computer-aided design (CAD), Marketing, Merchandising (TCF), Retail management.

**Prerequisites:** Associate Degree in Fashion and Textiles Merchandising with a Grade Point Average (GPA) of 2.0, or equivalent.

**Middle-band:** None

**Selection Mode:** NY12: Educational History including GPA, VTAC Personal Statement (Some). See extra requirements for more information.

**Extra requirements:**  
VTAC Personal Statement (NY12-Some): Applicants who have not completed the RMIT Associate Degree in Fashion and Textiles Merchandising must articulate their prerequisite equivalence in the VTAC Personal Statement.

---

**Fashion Design (HE)**

**RMIT University**  
City / Brunswick: 3200632561 (CSP) full-time  
Apply: Through VTAC main round

- Bachelor of Design (Fashion) (Honours): 4 years full time study

**About the course:** Students gain the necessary knowledge and skills to be an internationally attuned and creative fashion designer. Students develop design expertise, conceptual thinking, critical analysis and practical skills in fashion. Students are offered diverse studios and electives so as to curate an individual path to suit varied career opportunities. The subjects offered include design, theory, industry practice, communications and technology. Students are exposed to the fashion industry through staff that are active fashion practitioners, and have the opportunity to do internships, international exchange and industry projects. Students develop their individual practice and create unique design propositions through engagement with critical debates in the field. The degree focuses on studio based projects where students engage with a broad range of research and design methods, communication and production techniques. Students are given opportunities to create design ideas in response to social, cultural and environmental issues.
Further details about this course can be found at [www.rmit.edu.au/fashiontextiles](http://www.rmit.edu.au/fashiontextiles)

**Major studies:** Fashion design, Fashion design professional practice, Fashion digital technologies, Fashion theory.

**Prerequisites:** Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL.

**Middle-band:** None

**Selection Mode:** CY12 : ATAR, Folio (All), Interview (Some). See extra requirements for more information.

NY12 : Educational History including GPA, Folio (All), Interview (Some). See extra requirements for more information.

**Extra requirements:**

Folio (CY12-All, NY12-All) : Applicants must contact fashionandtextiles@rmit.edu.au to book a folio assessment session. NY12 applicants must book by 28 September and are required to attend on 12 October. CY12 and late NY12 applicants must book by 31 October and are required to attend on 28 November or 3 December. Interstate or overseas applicants must email fashionandtextiles@rmit.edu.au to make alternative arrangements. Applicants must include their full name and VTAC application number in all correspondence.

Interview (CY12-Some, NY12-Some) : (short-listed and exempt applicants only): Applicants required to attend will be notified by the University via email by 5.00 pm, 6 December. Applicants contacted must attend as assigned on 11, 12, or 13 December.

**Notes:**

(i) Applicants who have successfully completed two years or more of tertiary study in a fashion design-oriented discipline may be exempt from the folio assessment session. These applicants must email details of their completed tertiary study to fashionandtextiles@rmit.edu.au by 12.00 Noon, 1 November.

(ii) Applicants applying for other RMIT Fashion and Textiles courses, which also require attendance at a folio assessment session, will only be required to book once.

(iii) Folio details can be found at [www.rmit.edu.au/programs/bh103](http://www.rmit.edu.au/programs/bh103)

- Associate Degree in Fashion Design and Technology: 2 years full time study

**About the course:** Students gain a broad range of skills and capabilities in both fashion design and fashion technology to work in a professional role within the fashion industry. Students gain capabilities to work in various fields both locally and internationally in areas including design, pattern making, production, quality, and computer-aided technologies relating to fashion technology or specifically to fashion knitwear.

In the first semester of the course there is an elective choice between fashion printing and fashion knitwear. In semester two there is the opportunity to specialise in fashion technology or fashion knitwear for the remainder of the course. Delivery will include a combination of classroom/practical workshops and creating fashion products to meet a client brief. During second year students will work closely with industry partners via design briefs and industry placement.

Information sessions will be held in Building 514, Brunswick campus (25-29 Dawson St, Brunswick) on Tuesday 10 September at 6.00 pm. Attendance is highly recommended but not compulsory.

Further details about this course can be found at [www.rmit.edu.au/fashiontextiles](http://www.rmit.edu.au/fashiontextiles)

• Bachelor of Applied Science (Fashion Technology): 1 year full time study

About the course: This course focuses on fashion design and production and equips graduates to be technically proficient members of the fashion industry. The course will enable students to operate creatively and effectively in the fashion industry. Students will attain advanced knowledge and experience in specialised areas of fashion including evening wear, lingerie, children's wear, menswear and sportswear. Advanced pattern technology is designed to provide students with an advanced knowledge and understanding of pattern design principles, developing the ability to produce complex patterns using manual and computer-aided manufacturing technology including Body Scan technology. CAD/CAM (fashion and textiles) technology gives students advanced knowledge of product design and development within the fashion industry. Management subjects provide advanced knowledge and understanding of social, sustainable and international issues related to production management for onshore and offshore environments.

Further details about this course can be found at www.rmit.edu.au/fashiontextiles

Major studies: Computer-aided design (CAD), Design (Clothing and Fashion), Fashion, Management.

Prerequisites: Associate Degree in Fashion Design and Technology with a Grade Point Average (GPA) of 2.0 out of 4.0, or equivalent.
**Middle-band:** None

**Selection Mode:** NY12: Educational History including GPA, VTAC Personal Statement (Some). See extra requirements for more information.

**Extra requirements:**

VTAC Personal Statement (NY12-Some): Applicants who have not completed the RMIT Associate Degree in Fashion Design and Technology must articulate their prerequisite equivalence in the VTAC Personal Statement.

**Financial Services (VET)**

**RMIT University**

City: 3200372964 (Fee type determined by provider) full-time/part-time  
Apply: [Through VTAC](http://www.wss8.vtac.edu.au/courses-inst/institutions/topdf/rmit.html) main round

- Certificate IV in Banking Services: 0.5 year full time study
- Diploma of Financial Planning: 1 year full time study

**About the course:** Students develop skills in customer/client service, retail financial services, financial planning, and compliance advisory services required for a career in the financial and real estate sectors, or within organisations that deal with the management of money including banks, credit card companies, insurance companies, stock brokerages and investment funds.

The certificate introduces students to customer service, managing client relationships, business operations, and aspects of retail financial products such as savings plans, pensions and insurance and how they are distributed.

In the diploma students will build an understanding of financial markets, the Australian economy and the financial services sector, as well as associated legislation and regulations relating to the provision of financial advice. By successfully completing the diploma, students will meet the requirements of the Australian Securities and Investments Commission (ASIC) regulation 146 relating to the provision of financial services advice and apply for an Australian Financial Services License.

Students will be admitted into the lowest level qualification and will progress, subject to satisfactory academic progress, to the higher qualification level.

**Major studies:** Accounting, Banking, Banking & Finance, Business, Credit Management, Finance, Financial Planning, Personal Financial Planning, Superannuation.

**Prerequisites:** None

**Middle-band:** None

**Selection Mode:** CY12: ATAR.

NY12: Educational History including GPA, VTAC Personal Statement (All), Work experience (All). See extra requirements for more information.

**Extra requirements:**

VTAC Personal Statement (NY12-All): NY12 applicants must submit a VTAC Personal Statement.

Work experience (NY12-All): NY12 applicants should also detail any work experience when completing a VTAC Personal Statement.

Bachelor of Arts (Fine Art): 3 years full time study

**About the course:** This course provides integrated and specialised study in contemporary fine art practice. The course prepares students for a career in the fine art and creative industries, and is grouped into four specialisations to provide focused and interdisciplinary options.

In the Expanded Studio Practice specialisation students will study drawing, media arts, painting, video art, experimental animation and installation practice.

Further details about this course can be found at [www.rmit.edu.au/art](http://www.rmit.edu.au/art)

**Major studies:** Art history and theory, Ceramics, Drawing, Experimental animation, Fine art photography, Gold and silversmithing, Installation practice, Jewellery, Media arts, Music technology, Object design, Painting, Performance, Printmaking, Public art, Sculpture, Sound art, Sound design, Video art.

**Prerequisites:** Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL.

**Selection Mode:** CY12 : Information kit (All), Folio (Some). See extra requirements for more information.

NY12 : Information kit (All), Folio (Some). See extra requirements for more information.

**Extra requirements:**

Information kit (CY12-All, NY12-All) : All applicants must complete and submit the 2014 RMIT University Fine Art pre-selection kit by no later than 27 September. The kit can be found in the entry requirements section of [www.rmit.edu.au/programs/bp201](http://www.rmit.edu.au/programs/bp201). Please ensure that the studio preferences selected on the pre-selection kit are the same as those listed on your VTAC course application. Late submissions of the pre-selection kit will not be considered.

Folio (CY12-Some, NY12-Some) : Folio presentation (short-listed applicants only): Applicants required to attend will be notified by the University via email in early November. These applicants must attend in late November or early December. Advisory letters will be emailed in mid-December.

**Food Technology and Nutrition (HE)**

**RMIT University**

City: 3200333441 (CSP) full-time/part-time  
Apply: Through VTAC  
main round
Bachelor of Science (Food Technology and Nutrition): 3 years full time study

About the course: This course produces professional scientists who can operate effectively in all areas related to the processing and preservation of foods, including production, product development, quality assurance and applied research. Graduates have a sound understanding of the key disciplines that form the basis of food science including chemistry, microbiology, nutrition and sensory perception. Graduates may gain employment in a range of roles in food production plants, consulting laboratories, government organisations and in regulatory bodies. A food technologist or nutritionist may also work as the intermediary between the company and the public. Some graduates also take up careers in technical sales and marketing. Students select either the food technology or nutrition stream in the second year of the course. The first three semesters are common to both streams and include studies in nutrition, introduction to food industry, food microbiology, food science, chemistry and biology.

Further details about this course can be found at [www.rmit.edu.au/appliedsciences](http://www.rmit.edu.au/appliedsciences)

Major studies: Biology, Bioprocessing, Food chemistry, Food manufacturing, Food microbiology, Food preservation, Food technology, Nutrition, Organic chemistry, Product development.

Prerequisites: Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL; and a study score of at least 20 in any Mathematics.

Middle-band: Satisfactory completion in one but no more than three of Biology, Chemistry, Maths: Mathematical Methods (CAS), Maths: Specialist Mathematics or Physics equals 2 aggregate points per study.

Selection Mode: CY12: ATAR and middle-band.

NY12: Educational History including GPA, VTAC Personal Statement (Some). See extra requirements for more information.

Extra requirements:
VTAC Personal Statement (NY12-Some): NY12 (some applicants) who wish other information to be considered must submit a VTAC Personal Statement.

Food Technology/Business Management (HE)

RMIT University

City: 3200333611 (CSP) full-time Apply: Through VTAC main round

Bachelor of Science (Food Technology)/Bachelor of Business (Management): 4 years full time study

About the course: This course combines food science and business education to develop professionals who have the scientific knowledge essential for advancing technological capabilities as well as the international business, economic and financial analytical knowledge to perform high level management analyses with a global perspective. Graduates are equipped with the skills to oversee development of large scale, high value-added food processing companies that have a global operational focus. The first year includes studies in chemistry, biology, mathematics, introduction to the food industry, food preservation and introductory business subjects. The second and third years
include studies in food science and technology, and food microbiology along with business, marketing and economics. The final year comprises advanced food technology and management subjects, and a food and business project that may be linked with a host food company to apply developed knowledge in a real-life context.

Further details about this course can be found at www.rmit.edu.au/appliedsciences

**Major studies:** Accounting and finance, Bioprocessing, Employment relations, Food chemistry, Food manufacturing, Food microbiology, Food preservation, Food technology, Human resource management, International management, Management, Marketing management, Organic chemistry, Product development.

**Prerequisites:** Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL; and a study score of at least 20 in any Mathematics.

**Middle-band:** Satisfactory completion in one but no more than three of Biology, Chemistry, Maths: Mathematical Methods (CAS), Maths: Specialist Mathematics or Physics equals 2 aggregate points per study.

**Selection Mode:** CY12 : ATAR and middle-band.

NY12 : Educational History including GPA, VTAC Personal Statement (Some). See extra requirements for more information.

**Extra requirements:**
VTAC Personal Statement (NY12-Some) : NY12 (some applicants) who wish other information to be considered must submit a VTAC Personal Statement.

- Bachelor of Science (Food Technology and Nutrition)/Bachelor of Engineering (Chemical Engineering) (Honours): 5 years full time study

**About the course:** Students study scientific and engineering principles, product development, large-scale materials processing and issues surrounding food for human consumption. Students gain practical knowledge and hands-on skills through food science and engineering projects.

This course prepares students for professional employment in the food industries as well as other chemical process industries. Graduates can find employment in a range of areas including planning, design, commissioning, operation and research. Career opportunities may include design of food processing lines or factories, project management of capital works, analysis of process capability and efficiency of manufacturing facilities, researching new manufacturing technologies, and management roles in manufacturing companies. Food science and chemical engineering subjects are studied in all years of the course. Later years of the course include a focus on food processing and product development, and projects in both the food and engineering areas.

Further details about this course can be found at www.rmit.edu.au/appliedsciences

**Major studies:** Biology, Bioprocessing, Chemical engineering, Chemistry, Computer aided design (CAD), Computer modelling, Food chemistry, Food manufacturing, Food microbiology, Food preservation, Food technology, Nutrition, Product development.

**Prerequisites:** Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL; and a study score of at least 20 in Chemistry; and a study score of at least 20 in one of Maths: Mathematical Methods (CAS) or Maths: Specialist Mathematics.

**Middle-band:** Satisfactory completion in one but no more than three of Biology, Maths: Specialist Mathematics or Physics equals 2 aggregate points per study.
Selection Mode: CY12: ATAR and middle-band.
NY12: Educational History including GPA, VTAC Personal Statement (Some). See extra requirements for more information.

Extra requirements:
VTAC Personal Statement (NY12-Some): NY12 (some applicants) who wish other information to be considered must submit a VTAC Personal Statement.

- Associate Degree in Design (Furniture): 2 years full time study

About the course: Learn to develop creative and original furniture designs with a strong grounding in design methods, manufacturing technologies and processes, cultural and social factors. Work on an industry partnered project to produce commercially viable furniture.

The associate degree gives students the combination of manual skills and machine technologies in product development and construction methods of contemporary furniture products as well as the higher order critical and conceptual thinking skills used to develop ideas to address issues within society today including sustainable approaches to design and manufacturing.

Students will develop the ability to visualise their ideas through hand and computer documentation, understand the historical and social context of furniture and present their work professionally through industry and private shows.

Further details about this course can be found at [www.rmit.edu.au/designafe](http://www.rmit.edu.au/designafe)

**Major studies:** Computer-aided design and manufacture (CAD/CAM), Design, Design theory, Drawing, Engineering (manufacturing), Furniture design and development, History (design), Product development, Prototyping, Sustainable development.

**Prerequisites:** Units 3 and 4: a study score of at least 25 in English (EAL) or 20 in English other than EAL.

**Middle-band:** None

**Selection Mode:** CY12: Folio (All). See extra requirements for more information.
NY12: Folio (All). See extra requirements for more information.

**Extra requirements:**
Folio (CY12-All, NY12-All): All applicants must telephone (03) 9925 4819 by 22 November to book their folio presentation. Applicants must attend in November/December. Advisory letters will be sent in mid-December.

---

**Games and Graphics Programming (HE)**

**RMIT University**

City: 3200332191 (CSP) full-time  
Apply: Through VTAC main round

---
Bachelor of Information Technology (Games and Graphics Programming): 3 years full time study

About the course: Students write, code or use game-development engines to create computer or video games. Work with artists and producers to create or modify the game to enhance its capabilities, incorporating digital graphics, animation, sound, video, photographs and images.

This course uniquely mirrors industrial games software creation by offering a learning experience where games and graphics programming students work with games design and digital art students in tightly integrated teams in a studio environment. Studies are set in the context of a broader computer science and software engineering framework. Accordingly graduates will be qualified to work in the games industry as well as the IT industry more generally. Students undertake projects in games studio in first year and interactive digital media in third year. In second and third years, students specialise in their area of interest. Elective subjects may be taken from either the School of Computer Science or the School of Media and Communication.

Major studies: Animation (3D), Animation (games), Animation (modelling), Animation software, Artificial intelligence, Computer animation (computer graphics), Computer graphics, Computer programming, Design (3D), Digital animation (games), Digital art and design, Digital imaging, Games programming, Internet and multimedia, Multimedia and digital arts, Multimedia imaging, Networking and multimedia technology, Programming (C), Programming (Java), Software engineering.

Prerequisites: Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL; and a study score of at least 25 in one of Maths: Mathematical Methods (CAS) or Maths: Specialist Mathematics.

Middle-band: A study score of 35 in English (EAL) equals 1 aggregate point. A study score of 30 in English other than EAL equals 1 aggregate point per study. A study score of 30 in one but no more than three of Software Development, Maths: Mathematical Methods (CAS) or Maths: Specialist Mathematics equals 1 aggregate point per study.

Selection Mode: CY12 : ATAR and middle-band.

NY12 : Educational History including GPA, VTAC Personal Statement (Some). See extra requirements for more information.

Extra requirements:

VTAC Personal Statement (NY12-Some) : NY12 (some applicants) who wish other information to be considered must submit a VTAC Personal Statement.

Courses Offered by RMIT University

Bachelor of Design (Games): 3 years full time study
About the course: This course provides focused skills, knowledge and theory for the development of creative vision and expression in interactive design and digital graphics design for the creative industries with specific emphasis on the electronic games industry. Students are provided with theoretical and practical skills with a focus on media specific aspects of art, design, narrative, animation, interactivity and virtual environments. The course prepares students for work in the cross-disciplinary area of the digital media industries.

Students learn about games design and culture, interactive storytelling, cross-media entertainment and broader skills and knowledge required in the digital art and media industries. Students undertake studio projects with students of the Bachelor of Information Technology (Games Graphics Programming) in small collaborative teams. In second and third year students have the opportunity to specialise in their chosen interest areas.

Further details about this course can be found at [www.rmit.edu.au/gamesanimation](http://www.rmit.edu.au/gamesanimation)

Major studies: Animation (3D), Animation (modelling), Arts (contemporary), Computer graphics, Computer programming, Design (3D), Digital animation (games), Digital art and design, Digital imaging, Games design, Games development, Games programming, Games technology, Graphic design, Image making, Internet and multimedia, Multimedia design, Networking and multimedia technology, New media development.

Prerequisites: Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL.

Middle-band: None

Selection Mode: CY12: Information kit (All), Interview (Some). See extra requirements for more information.
NY12: Information kit (All), Interview (Some). See extra requirements for more information.

Extra requirements:
Information kit (CY12-All, NY12-All): All applicants must complete and submit the 2014 RMIT University Games pre-selection kit by no later than 4 October. The kit can be found in the entry requirements section of [www.rmit.edu.au/programs/bp214](http://www.rmit.edu.au/programs/bp214)

Interview (CY12-Some, NY12-Some): Short-listed applicants required to attend will be notified by the University via email in November. These applicants must attend from mid-November to early-December. Overseas or interstate applicants who are unable to attend the interview must email games@rmit.edu.au by 13 November. Advisory letters will be emailed in December.

Apply: [Through VTAC](http://www.wss8.vtac.edu.au/courses-inst/institutions/topdf/rmit.html) main round

- Bachelor of Science (Geospatial Science): 4 years full time study

About the course: This diverse field focuses on the creation, use, analysis and management of geographic data and intelligence to support informed decision making. Practical experience includes field work and 12 weeks professional experience.

Students learn to use location as the key to collecting, managing, analysing and interpreting information. A strong link between theory and practice leads to a variety of professional roles including environmental management, planning, land management, location-based services and emergency management. Graduates may be employed in private consulting firms, government authorities, mining, telecommunication and utility companies, marketing companies, mapping organisations, and scientific research organisations. The first two years provide a foundation in geospatial science. Students can then specialise in areas such as cartography, geovisualisation, spatial information science (GIS), remote sensing, geodesy, satellite positioning, geography and enviro-sustainability.

Major studies: Cartography, Geodesy, Geospatial information science, Information technology.
**Graphic Design (VET)**

**RMIT University**

Brunswick: 3200172044 (Fee type determined by provider) full-time  
Apply: Through VTAC main round

- Diploma of Graphic Design: 1 year full time study
- Advanced Diploma of Graphic Design: 1 year full time study

**About the course:** Students develop the skills and knowledge to enable them to pursue a career in the graphic design industry. The diploma provides students with strong technical expertise in finished art and typography, along with a thorough understanding of design concept development and the design process.

The advanced diploma consolidates and extends design skills developed in the diploma. Students engage in a number of industry set briefs as well as work placement.

Graduates may be employed as graphic artists and designers, Mac operators, and finished artists, and may specialise in a number of fields including corporate identity, book and magazine layout, advertising, branding, packaging, web design and exhibition design.

Students will be admitted into the lowest level qualification and will progress, subject to satisfactory academic progress, to the higher qualification levels.

This course is under review and may become an associate degree in 2014.

Further details about this course can be found at [www.rmit.edu.au/designtafe](http://www.rmit.edu.au/designtafe)

**Major studies:** Design, Design theory, Digital imaging, Finished art, Graphic arts, Illustration, Packaging, Typography.

**Prerequisites:** None

**Middle-band:** None

**Selection Mode:** CY12: Folio (All). See extra requirements for more information.

NY12: Folio (All). See extra requirements for more information.

**Extra requirements:**

Folio (CY12-All, NY12-All): All applicants must telephone (03) 9925 9438 by 1 November for details of the folio presentation. Only applicants who telephone by this date will be sent a folio presentation time. All applicants must attend between 11 November and 22 November. See [www.rmit.edu.au/programs/c5316](http://www.rmit.edu.au/programs/c5316) for folio specifications. Advisory letters will be sent to applicants by 6 December.

---

**Graphic Design (HE)**

**RMIT University**

---

**Prerequisites:** Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL; and a study score of at least 20 in any Mathematics.

**Middle-band:** A study score of 25 in one but no more than three of Geography, any Information Technology, Maths: Mathematical Methods (CAS), Maths: Specialist Mathematics or Physics equals 2 aggregate points per study.

**Selection Mode:** CY12: ATAR and middle-band.

NY12: Educational History including GPA, VTAC Personal Statement (Some). See extra requirements for more information.

**Extra requirements:**

VTAC Personal Statement (NY12-Some): NY12 (some applicants) who wish other information to be considered must submit a VTAC Personal Statement. Relevant employment and experience will be considered.
Associate Degree in Graphic Design: 2 years full time study

**About the course:** This course is designed to develop skills and knowledge required to pursue a career in the graphic design industry. Students acquire strong creative thinking and technical expertise in finished art and typography, along with a thorough understanding of design critical thinking, problem solving, concept development and the design process. Students engage in a number of industry set briefs as well as work placement. Graduates may be employed as graphic artists, designers and finished artists and may specialise in a number of fields including corporate identity, book and magazine layout, advertising, branding, packaging, web design and exhibition design. Students may also progress to higher levels of study in graphic design related programs.

Further details about this course can be found at [www.rmit.edu.au/designtafe](http://www.rmit.edu.au/designtafe)

**Major studies:** Design theory and practice, Digital production, Illustration and image technology, Packaging, Publishing and presentations, Typography.

**Prerequisites:** Units 3 and 4: a study score of at least 25 in English (EAL) or 20 in English other than EAL.

**Middle-band:** None

**Selection Mode:** CY12 : Folio (All). See extra requirements for more information.

**NY12 : Folio (All). See extra requirements for more information.**

**Extra requirements:**

Folio (CY12-All, NY12-All) : All applicants must telephone (03) 9925 9438 by 1 November for details of the folio presentation. Only applicants who telephone by this date will be sent a folio presentation time. All applicants must attend between 11 November and 22 November. See [www.rmit.edu.au/programs/AD022](http://www.rmit.edu.au/programs/AD022) for folio specifications. Advisory letters will be sent to applicants by 6 December.

• Associate Degree in Health Sciences: 2 years full time study

**About the course:** Students study one of two major streams, health promotion or health information management, and develop a range of skills and knowledge used in the health industry. The course also includes a work based project.

The health promotion stream provides students with knowledge and skills to work with individuals and groups to promote health through education and other strategies. Graduates may find employment in government departments, local governments, community health centres, aged care agencies and health promotion organisations. The health information management stream combines an understanding of health and the health system with skills in information management and information technology. Students may become qualified clinical coders and may be employed in public and private hospitals, government health departments, or health insurance companies.

**Major studies:** Anatomy and physiology, Biological principles, Chronic diseases, Evidence based health practice, Health and nutrition, Information management (Health), Law and ethics in health, Multidisciplinary health care in Australia, Understanding disease processes and treatment, Understanding the psychology of health.
Prerequisites: Units 3 and 4: a study score of at least 25 in English (EAL) or 20 in English other than EAL.

Middle-band: Satisfactory completion in one but no more than three of Biology, Health And Human Development, any Information Technology or any Mathematics equals 1 aggregate point per study.

Selection Mode: CY12 : ATAR and middle-band.
NY12 : Educational History including GPA, VTAC Personal Statement (Some). See extra requirements for more information.

Extra requirements:
VTAC Personal Statement (NY12-Some) : NY12 (some applicants) who wish other information to be considered must submit a VTAC Personal Statement. Relevant employment and experience will be considered.

- Bachelor of Business (Human Resource Management): 3 years full time study

About the course: Students develop strategies to manage people and construct workplace arrangements that respond to organisational and human needs. This three year course offers students the flexibility to choose a minor from another business discipline or a sequence of subjects in areas such as international studies, sustainable enterprise, conflict mediation, politics or international and social justice. Alternatively, a second major can be selected from a range of business disciplines.

Through specialised studies in human resource management, students will understand sustainable work practices and how to make organisational decisions within a broader social and economic environment. Students will receive feedback from industry and community clients or practitioners on their ability to explain concepts and present proposals in a coherent and logical manner in selected subjects.

Prerequisites: Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL.

Middle-band: A study score of 25 in Accounting, Business Management, Economics, Geography, any Information Technology, Legal Studies, any Mathematics or Psychology equals 1 aggregate point per study. A study score of 35 in any English equals 2 aggregate points per study. Overall maximum of 5 points.

Selection Mode: CY12 : ATAR and middle-band.
NY12 : Educational History including GPA.

Extra requirements: None

Industrial Design (HE)
RMIT University
City: 3200332361 (CSP) full-time

Apply: Through VTAC

Bachelor of Design (Industrial Design) (Honours): 4 years full time study

About the course: This course offers aspiring designers technical, theoretical, research-led and applied design opportunities in the diverse and changing field of industrial design. This course focuses on developing innovative, original and ethical designers to practice in emerging technological, sustainable and social domains of design.

The course has four main areas of study: Design Studies and Professional Practice explores the contemporary industrial design landscape, its histories, theories, methods and issues. The specialist knowledge and skills stream provides practical and theoretical learning in methods of design visualisation, representation and communication, and the material, manufacturing and technological constructs of Industrial Design practice. The Design Studio Stream, which sits as the central and connective element of the curriculum, provides a diverse suite of applied, industry linked and research integrated design project experiences. The final year courses provide a space for undertaking a large self-directed design research project. The course provides students significant scope to explore real world projects within industry, community organisations and issues of significance.

Further details about this course can be found at www.rmit.edu.au/architecturedesign

Major studies: Automotive design, Computer-aided design (CAD), Design, Design (3D), Design drawing, Design for environment, Design theory, Ergonomics, Furniture design, Industrial design, Materials technology, Product design and development, Service design, Transportation design.

Prerequisites: Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL.

Middle-band: None

Selection Mode: CY12 : ATAR, Information kit (All), Folio (Some). See extra requirements for more information.

NY12 : Educational History including GPA, Information kit (All), Folio (Some). See extra requirements for more information.

Extra requirements:

Information kit (CY12-All, NY12-All) : All applicants must complete and submit the 2014 RMIT University Industrial Design pre-selection kit (see entry requirements section of www.rmit.edu.au/programs/bh104) between 1 October and 5.00 pm 1 November. Applicants who have successfully completed tertiary study in product design, furniture design, architecture or industrial design may be exempt from submitting the pre-selection kit.

Folio (CY12-Some, NY12-Some) : Folio presentation (short-listed and exempt applicants only): Applicants required to attend will be notified by the University via email by 5.00 pm, 18 November. These applicants must attend as assigned between 26 November and 28 November. Advisory letters will be emailed to applicants by 5.00 pm, 5 December.

Notes:

(i) Advanced level applicants must email details of their tertiary study by 5.00 pm 15 October to industrial.design@rmit.edu.au. (ii) Applicants must include their full name and VTAC application number in the subject line of any emails sent to industrial.design@rmit.edu.au.

Information Systems (HE)

RMIT University

City: 3200317511 (CSP) full-time/part-time

Apply: Through VTAC

Bachelor of Business (Information Systems): 3 years full time study
**About the course:** Students develop capabilities to analyse, design and build sophisticated business information systems by merging IT skills with business knowledge and using state-of-the-art methodologies, tools, hardware and software. This three year course consists of a common core in business and major studies in business information systems including networking, business IT development, business databases, e-business systems, and business analysis and design. Students also have the flexibility to choose a minor or electives from business or other disciplines to emerge with a multidisciplinary degree that combines IT skills with business acumen. Graduates are working in roles including business analyst, database designer, systems operations manager, systems analyst, IT consultant, information centre manager, user liaison officer and information systems manager.

**Major studies:** None.

**Prerequisites:** Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL.

**Middle-band:** A study score of 25 in Accounting, Business Management, Economics, Geography, Legal Studies, any Mathematics or Psychology equals 1 aggregate point per study. A study score of 35 in any English equals 2 aggregate points per study. A study score of 25 in any Information Technology equals 2 aggregate points per study. Overall maximum of 5 points.

**Selection Mode:** CY12 : ATAR and middle-band.
NY12 : Educational History including GPA.

**Extra requirements:** None

- Bachelor of Business (Information Systems) (Applied): 4 years full time study

**About the course:** Students develop capabilities to analyse, design and build sophisticated business information systems by merging IT skills with business knowledge and using state-of-the-art methodologies, tools, hardware and software.

This four-year course consists of a common core in business and major studies in business information systems including networking, business IT development, business databases, e-business systems, and business analysis and design. Students also have the flexibility to choose a minor or electives from business or other disciplines to emerge with a multidisciplinary degree that combines IT skills with business acumen. In third year, students undertake a compulsory work placement in industry. A business design project completed in the final year is aimed at consolidating the theoretical and work experience components of the course.

Graduates are working in roles including business analyst, database designer, systems operations manager, systems analyst, IT consultant, information centre manager, user liaison officer and information systems manager.

**Prerequisites:** Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL.

**Middle-band:** A study score of 25 in Accounting, Business Management, Economics, Geography, Legal Studies, any Mathematics or Psychology equals 1 aggregate point per study. A study score of 35 in any English equals 2 aggregate points per study. A study score of 25 in any Information Technology equals 2 aggregate points per study. Overall maximum of 5 points.
**Selection Mode:** CY12 : ATAR and middle-band.

NY12 : Educational History including GPA.

- Bachelor of Information Technology (Major Study): 3 years full time study

**About the course:** In this course students develop skills to solve, support, troubleshoot and design from web sites to business applications, in many types of organisations. Students may chart their own major direction of study within the course and graduate with a specialist information technology degree. Majors include cloud computing, mobile computing, social media, system administration, network programming, business applications, multimedia design, web systems or application programming. This course includes core subjects in programming, databases, software engineering, web, data communication and networks, and professional practice. Students may also choose a minor study of four subjects in one of the following: accounting and law; applied communication; economics, finance and marketing; entrepreneurship; logistics; management or statistics. Students choose the remainder of their subjects from a wide range of IT and general electives.

**Major studies:** Artificial intelligence, Business IT, Data networks, Database administration, Databases, Graphics, Information technology, Internet technology, Networks and data communications, Object-oriented modelling, Object-oriented programming, Problem solving, Professional practice, Programming, Programming (.NET), Programming (C#), Programming (C), Programming (Java), Programming (PHP).

**Prerequisites:** Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL; and a study score of at least 20 in any Mathematics.

**Middle-band:** A study score of 35 in English (EAL) equals 1 aggregate point. A study score of 30 in English other than EAL equals 1 aggregate point per study. A study score of 30 in one but no more than three of Software Development, Maths: Mathematical Methods (CAS) or Maths: Specialist Mathematics equals 1 aggregate point per study.

**Selection Mode:** CY12 : ATAR and middle-band.

NY12 : Educational History including GPA, VTAC Personal Statement (Some). See extra requirements for more information.

**Extra requirements:**

VTAC Personal Statement (NY12-Some) : NY12 (some applicants) who wish other information to be considered must submit a VTAC Personal Statement.

**Information Technology (VET)**

**RMIT University**

City: 3200372294 (Fee type determined by provider) full-time/part-time  
Apply: Through VTAC  main round
Diploma of Information Technology: 1 year full time study

About the course: Students apply IT skills to a business context by learning about programming, website development, operating systems, networking and databases. By working on industry projects for real clients, students will develop their IT techniques as well as gain project management experience. The course offers students a choice of electives to prepare them for a variety of careers in information technology and related industries. It also offers graduates a pathway to more specialised studies.

Prerequisites: None

Middle-band: None

Selection Mode: CY12: ATAR.
NY12: Educational History including GPA, VTAC Personal Statement (All), Work experience (All). See extra requirements for more information.

Extra requirements:
VTAC Personal Statement (NY12-All): NY12 applicants must submit a VTAC Personal Statement.
Work experience (NY12-All): NY12 applicants should also detail any work experience when completing a VTAC Personal Statement.

Information Technology (Associate Degree) (HE)

City: 3200332403 (IFP) full-time Apply: Through VTAC main round

About the course: Students will gain the practical and theoretical skills required to enter the computer industry through a blend of theory and hands-on subjects in hardware and software, networking, database concepts and Java programming. Students learn to solve practical problems with laboratory work as a major component.

Industry relevant, required and recognised vocational units equip graduates for today's industry demand. This course is for those wishing to pursue careers in information technology, networking, system administration, computer programming, database administration, technical support or further study. The course prepares students to sit for the internationally recognised certification exams including CISCO Certified Network Associate (CCNA) and CompTIA's A+.

Graduates of this course, who apply, having achieved a GPA of 2.0 or greater, are guaranteed a place with the equivalent of two years credit into the Bachelor of Information Technology or the Bachelor of Technology (Computing Studies) at RMIT.

Major studies: Data communications, Databases, Information technology, Networking, Programming (Java), Software development, Software engineering, Unix and Windows system administration, Web technology and programming.

Prerequisites: Units 3 and 4; a study score of at least 25 in English (EAL) or 20 in English other than EAL; and a study score of at least 20 in any Mathematics.
Middle-band: Satisfactory completion in Maths: Mathematical Methods (CAS) or Maths: Specialist Mathematics equals 1 aggregate point per study.

Selection Mode: CY12 : ATAR and middle-band.
NY12 : Educational History including GPA, VTAC Personal Statement (Some). See extra requirements for more information.

Extra requirements:
VTAC Personal Statement (NY12-Some) : NY12 (some applicants) who wish other information to be considered must submit a VTAC Personal Statement.

Information Technology Networking (VET)

RMIT University
City: 3200310084 (Fee type determined by provider) full-time Apply: Through VTAC main round

- Certificate IV in Information Technology Networking : 1 year full time study

About the course: Students will gain practical and theoretical skills required to enter the computer industry through a blend of theory and hands-on subjects in computer hardware/software and networking.

This qualification develops skills and knowledge in the installation and management of simple networks in order for the student to be effective in network administration as an independent ICT specialist or as part of a team. The certificate provides skills in the basic use of a range of technologies to provide second and third level diagnostic support to people using ICT. Typical roles include network support, network operations support, network operations technician, network technician, network support technician. Vendor training includes Cisco CCNA, CompTIA A+, Microsoft Server and virtualisation.

Graduates of this course, who apply, are guaranteed a place with advanced standing into the Associate Degree in Information Technology at RMIT.

Major studies: Information technology, Networking, Unix and Windows system administration.

Prerequisites: None

Middle-band: None

Selection Mode: CY12 : ATAR.
NY12 : Educational History including GPA, VTAC Personal Statement (Some). See extra requirements for more information.

Extra requirements:
VTAC Personal Statement (NY12-Some) : NY12 (some applicants) who wish other information to be considered must submit a VTAC Personal Statement.

Interactive Digital Media (VET)

RMIT University
City: 3200372094 (Fee type determined by provider) full-time Apply: Through VTAC main round

- Diploma of Interactive Digital Media: 1 year full time study
- Advanced Diploma of Screen and Media: 1 year full time study

About the course: Students develop a broad understanding of the design, technical and management skills necessary to work within the digital, interactive and broadcast media industries. Strong emphasis is placed on creativity and conceptual development using industry standard software packages and production processes.

The course aims to enable students to become more independent and ready to undertake a wide range of production roles in the digital, interactive and broadcast media industries including areas such as web, interactive and app design, 2D and 3D animation, games design, motion and broadcast graphics, and visual effects. Students
have the opportunity for creative and technical investigation in the undertaking of an individual project, as well as participating in a range of collaborative team projects.

Students will be admitted into the lowest level qualification and will progress, subject to satisfactory academic progress, to the higher qualification levels.

Further details about this course can be found at www.rmit.edu.au/gamesanimation

**Major studies:** Animation, Animation (2D), Animation (3D), App design, Audio and video production, Computer animation, Computer graphics, Design, Digital imaging, Digital media, Games and animation for mobile devices, Games design visuals, Games development, Games scripting, Imaging and sound, Interactive design for games and web, Interactive media, Interactive multimedia, Interface design, Motion graphics, Multimedia, Social media, Video, Web design.

**Prerequisites:** None

**Middle-band:** A study score of 20 in any Information Technology, Media, Interactive Digital Media C or Studio Arts equals 3 aggregate points per study. A study score of 20 in any English, Maths: Further Mathematics or Visual Communication Design equals 2 aggregate points per study. A study score of 20 in Business Management or Psychology equals 1 aggregate point per study.

**Selection Mode:** CY12 : ATAR and middle-band.

NY12 : Educational History including GPA, VTAC Personal Statement (All), Work experience (All). See extra requirements for more information.

**Extra requirements:**

VTAC Personal Statement (NY12-All) : NY12 applicants must submit a VTAC Personal Statement and include their reasons for wanting to study the course.

Work experience (NY12-All) : Applicants should also detail any work experience when completing a VTAC Personal Statement.

**Interior Decoration and Design (HE)**

**RMIT University**

City: 3200333541 (CSP) full-time  *Apply: Through VTAC*

City: 3200333543 (IFP) full-time  *Apply: Through VTAC*

- Associate Degree in in Interior Decoration and Design: 2 years full time study

**About the course:** This course is designed to develop creative design skills and knowledge of workplace practices to industry standards for effective para-professional practice in the design and decoration industry. Students will apply the principles of aesthetics, materials, function, environment and sustainability from concept to final design realisation and presentation of proposed solutions to specific client briefs. Students will investigate and experiment with three dimensional space, structural fit out, design history and contemporary style for domestic and commercial interiors, with an emphasis on the environmental aspects of design. Students will work to provide solutions for client briefs and will select an area of specialisation in the second year, when industry placement will occur. Studio based projects will provide skills and knowledge in the design of large and small scale projects. Students will acquire strong technical skills for 2D and 3D computer modelling of ideas and presentations.

Further details about this course can be found at www.rmit.edu.au/architecturedesign

**Major studies:** 3D modelling, Colour studies, Computer-aided design (CAD), Design, Drawing techniques, Furnishings, Interior construction, Interior environmental design, Lighting, Planning and drafting.

**Prerequisites:** Units 3 and 4: a study score of at least 25 in English (EAL) or 20 in English other than EAL.

**Middle-band:** None

**Selection Mode:** CY12 : Folio (All). See extra requirements for more information.

NY12 : VTAC Personal Statement (All), Folio (All). See extra requirements for more information.
Extra requirements:

VTAC Personal Statement (NY12-All): NY12 applicants must submit a VTAC Personal Statement and include their reasons for wanting to study the course.

Folio (CY12-All, NY12-All): All applicants must submit a folio via email to interiors@rmit.edu.au. NY12 applicants must submit their folio by no later than 31 October. CY12 applicants must submit their folio by no later than 8 November. Folio specifications are available at www.rmit.edu.au/programs/ad020. Some applicants may be contacted by the University in mid-November to present their folio at a folio presentation. Folio presentations will take place in November. Advisory letters will be sent by mail in mid-December.

- Bachelor of Design (Interior Design): 4 years full time study

About the course: Learn to think critically and conceptually about the relationship between people and their environment. This course emphasises interior design as a spatial practice that integrates design, technology, history, theory and communications.

The design studio forms the core of the four year course structure. Offered by practitioners and academics, studio projects range from industry-engaged briefs to theoretical propositions. Skills offered include high-level visual and verbal communication and presentation techniques, model making, technical design documentation, and the ability to work with light, sound, video and computer-based programs.

Graduates are expected to be able to position interior design within a social and historical context, conceptualise new design solutions and technically resolve their designs. Our graduates work in commercial interior design: corporate, retail and hospitality; exhibition, theatre and event design; design publishing, and residential design.

Further details about this course can be found at www.rmit.edu.au/architecture/design

Major studies: Communications, Design, Design theory, Digital technologies, Event design, History (design), Interior design, Spatial design.

Prerequisites: Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL.

Middle-band: None

Selection Mode: CY12: ATAR, Information kit (All), Folio (Some). See extra requirements for more information.
NY12: Educational History including GPA, Information kit (All), Folio (Some). See extra requirements for more information.

Extra requirements:

Information kit (CY12-All, NY12-All): All applicants must complete and submit the 2014 RMIT University Interior Design pre-selection kit (see entry requirements section of www.rmit.edu.au/programs/bp196) by 5.00 pm 18 November. Applicants who have successfully completed tertiary study in architecture, interior design, industrial design or landscape architecture may be exempt from submitting the pre-selection kit. These applicants must email details of their tertiary study by 5.00 pm 28 October to interior.design@rmit.edu.au

Folio (CY12-Some, NY12-Some): Folio presentation (short-listed and exempt applicants only): Applicants required to attend will be notified by the University via email by 5.00 pm, 25 November. These applicants must attend as assigned between 9 December and 13 December. Advisory letters will be emailed to applicants by 5.00 pm, 18 December.
Applicants must include their full name and VTAC application number in the subject line of any emails sent to interior.design@rmit.edu.au.

**Interior Design and Decoration (VET)**

**RMIT University**

**City:** 3200310034 (Fee type determined by provider) **full-time**  **Apply:** Through VTAC main round

- Diploma of Interior Design and Decoration: 2 years full time study

**About the course:** Students develop creative design skills, knowledge and workplace practices for work ready employment in a range of roles in the design and decoration industry. First year of the diploma incorporates the Certificate IV in Interior Decoration.

Subjects focus on the sequential development of fundamental design skills and application to three dimensional space, structural fit out, design history, contemporary style, colour, furnishings, and decorative treatments for domestic and commercial interiors with reference to the environmental aspects of design. The course allows students to select an area of specialisation in second year, where students will undertake industry based briefs and an industry mentor scheme which provides on the job experience.

Students will be admitted into the highest qualification level and can choose to exit with a lower listed qualification upon the successful completion of the required subjects.

An information session will be held on Thursday 10 October.

This course is under review and may become an associate degree in 2014.

Further details about this course can be found at [www.rmit.edu.au/designtafe](http://www.rmit.edu.au/designtafe)

**Major studies:** 3D modelling, Colour studies, Computer-aided design (CAD), Construction, Design, Drawing, Furnishings, Interior design, Lighting, Materials, Planning and drafting.

**Prerequisites:** None

**Middle-band:** None

**Selection Mode:** CY12 : Folio (All). See extra requirements for more information.

NY12 : VTAC Personal Statement (All), Folio (All). See extra requirements for more information.

**Extra requirements:**

VTAC Personal Statement (NY12-All) : NY12 applicants must submit a VTAC Personal Statement and include their reasons for wanting to study the course.

Folio (CY12-All, NY12-All) : All applicants must submit a folio via email to design.tafe@rmit.edu.au. NY12 applicants must submit their folio by no later than 31 October. CY12 applicants must submit their folio by no later than 8 November. Folio specifications are available at [www.rmit.edu.au/programs/c5249](http://www.rmit.edu.au/programs/c5249). Some applicants may be contacted by the University in mid-November to present their folio at a folio presentation. Folio presentations will take place in November. Advisory letters will be sent by mail in mid-December.

**International Business (VET)**

**RMIT University**

City: 3200372024 (Fee type determined by provider)

Apply: Through main round

- Certificate IV in International Trade: 1 year full time study
- Diploma of International Business: 1.5 year full time study
- Advanced Diploma of International Business: 2 years full time study

**About the course:** Students develop skills to effectively compete in all sectors of international business by learning about the exchange of goods and services between countries and understanding the complex world of international trade.

Ideally suited to people currently employed in international business, this course requires sensitivity to different cultures and other personal qualities. Studies are relevant to careers in the government and private sectors where knowledge in marketing, international trade and economics, business and computer applications, importing, exporting, transport and logistics are integral to operational and middle-management activities and success.

Students will be admitted into the lowest level qualification and will progress, subject to satisfactory academic progress, to the higher qualification levels.

**Prerequisites:** None

**Middle-band:** None

**Selection Mode:** CY12 : ATAR.

NY12 : Educational History including GPA, VTAC Personal Statement (All). See extra requirements for more
Extra requirements:
VTAC Personal Statement (NY12-All) : NY12 applicants must submit a VTAC Personal Statement.

- Bachelor of Business (International Business): 3 years full time study

About the course: Students build skills and knowledge to manage, analyse and interpret the complex nature of global organisations. Developed in conjunction with industry leaders, this three-year course offers students the flexibility to choose a minor from another business discipline, a set of international studies subjects or a foreign language to suit their career goals. A second major can also be selected from a range of business disciplines.

Prerequisites: Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL.

Middle-band: A study score of 25 in Accounting, Business Management, Economics, Geography, any Information Technology, Legal Studies, any Mathematics or Psychology equals 1 aggregate point per study. A study score of 35 in any English equals 2 aggregate points per study. Overall maximum of 5 points.

Selection Mode: CY12 : ATAR and middle-band.
NY12 : Educational History including GPA.

- Bachelor of Business (International Business) (Applied): 4 years full time study
About the course: Students build skills and knowledge to manage business complexity in a global context. This four-year course consists of a common core in business, major studies in international business, and the flexibility to choose a minor or electives from business or other disciplines including foreign languages, sustainable enterprise, international studies, indigenous studies, communication, politics, conflict and mediation, and justice and legal subjects for a career in a range of industries. In third year, students undertake a compulsory work placement in industry. A business design project completed in the final year is aimed at consolidating the theoretical and work experience components of the course.

Prerequisites: Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL.

Middle-band: A study score of 25 in Accounting, Business Management, Economics, Geography, any Information Technology, Legal Studies, any Mathematics or Psychology equals 1 aggregate point per study. A study score of 35 in any English equals 2 aggregate points per study. Overall maximum of 5 points.

Selection Mode: CY12 : ATAR and middle-band.
NY12 : Educational History including GPA.

Extra requirements: None

- Bachelor of Arts (International Studies): 3 years full time study

About the course: Learn to understand, analyse and engage a rapidly changing world of opportunities and risk. Be prepared for international and cross-cultural careers in government, business and community organisations. Working with leading global studies scholars students will learn an engaged, theoretically informed approach to making sense of increasing global interconnectedness, inter-cultural communication and cultural diversity, and the rapid social transformations affecting people world-wide.

Develop professional capabilities in cross-cultural management and languages, undertake international research, gain an ethical understanding of global problems and develop strategic leadership skills. Students will have opportunities to undertake a professional internship and research project, usually overseas, and international university study credited to this degree.

Further details about this course can be found at www.rmit.edu.au/globalstudies

Prerequisites: Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL.

Middle-band: A study score of 30 in Classical Studies, Economics, any History, Literature, any LOTE, Philosophy, Australian Politics, Global Politics or Sociology equals 2 aggregate points per study. Overall maximum of 8 points.
Selection Mode: CY12 : ATAR and middle-band.
NY12 : Educational History including GPA, VTAC Personal Statement (All), Work experience (All). See extra requirements for more information.

Extra requirements:
VTAC Personal Statement (NY12-All) : NY12 applicants must submit a VTAC Personal Statement and include their reasons for wanting to study the course.
Work experience (NY12-All) : Applicants should also detail any work experience when completing a VTAC Personal Statement.

- Bachelor of Communication (Journalism): 3 years full time study

**About the course:** This course provides an understanding of the role of the news media and equips students with the skills for a career in journalism.

Students study core subjects in journalism and communication, and combine this with major studies in Asian media, cinema, politics, economies, communication or literature and philosophy.

Further details about this course can be found at [www.rmit.edu.au/media](http://www.rmit.edu.au/media)

**Major studies:** Broadcast journalism, Broadcasting (radio), Broadcasting (television), Online journalism, Print journalism.

**Prerequisites:** Units 3 and 4: a study score of at least 35 in any English.

**Middle-band:** A study score of 35 in any History or Legal Studies equals 2 aggregate points per study. Overall maximum of 4 points.

**Selection Mode:** CY12 : ATAR and middle-band.

NY12 : Educational History including GPA, VTAC Personal Statement (All), Interview (Some), Work experience (All). See extra requirements for more information.

**Extra requirements:**
VTAC Personal Statement (NY12-All) : NY12 applicants must submit a VTAC Personal Statement by 8 November. The statement must include the reasons for wanting to study the course, any attempt to have work published or broadcast, and demonstrate an awareness of the current media landscape, its evolution and effect on the journalism industry.

Interview (NY12-Some) : Short-listed applicants required to attend an interview will be contacted by the University via email or telephone by 30 November. Interviews will be held in December. Applicants must note that short-listing for interview will be based on what has been submitted in the VTAC Personal Statement by 8 November. Interviews are conducted in person or over the telephone if the applicant is interstate or overseas.

Work experience (NY12-All) : Applicants should also detail any work experience when completing a VTAC Personal Statement.

**Justice (VET)**
Certificate IV in Justice: 0.5 year full time study
Diploma of Justice: 0.5 year full time study
Advanced Diploma of Justice: 1 year full time study

About the course: Students are introduced to the role of crime, deviance, social control, social justice and the legal system. The key focus of this vocational course is on the role of law enforcement agencies, courts, correctional agencies and non-government organisations that work in the response and prevention of crime and the administration of criminal justice and social justice.

Students attend a Crime Scene Procedures and Moot Court Camp, which includes a life-like crime scene investigation and exposure to various specialised law enforcement operations. The course also covers interdisciplinary studies in psychology, sociology and cultural diversity to develop analytical skills for understanding and responding to criminal justice processes.

Students develop skills needed to enter a range of careers in state and federal jurisdictions that include Victoria Police, youth service workers, Corrections Victoria custodial and community corrections officers, local law officers, Australian and Border Protection officers, clerks of court, and Sheriff's officers.

Students will be admitted into the lowest qualification and will progress, subject to satisfactory academic progress, to the higher qualification level.

Further details about this course can be found at www.rmit.edu.au/justice

Major studies: Case management, Communication, Correctional services, Crime prevention, Criminal justice administration, Criminology, Cultural diversity, Customs, Ethics, Family violence, Human rights, Investigative processes, Juvenile justice, Law, Leadership, Management, Police studies, Psychology, Risk management, Sociology.

Prerequisites: None

Middle-band: None

Selection Mode: CY12 : ATAR, VTAC Personal Statement (All), Interview (Some), Work experience (All). See extra requirements for more information.

NY12 : Educational History including GPA, VTAC Personal Statement (All), Interview (Some), Work experience (All). See extra requirements for more information.

Extra requirements:

VTAC Personal Statement (CY12-All, NY12-All) : All applicants must submit a VTAC Personal Statement and include their reasons for wanting to study the course, their intended career path, and the personal strengths and attributes that they will bring to the course. Applicants should provide certified documents such as references/testimonials and certificates of personal achievement/attainment with their application.

Interview (CY12-Some, NY12-Some) : Applicants required to attend an interview will be contacted by the University via telephone, email or mail in late November. Interviews will be held in December.

Work experience (CY12-All, NY12-All) : Applicants should also detail any work experience when completing a VTAC Personal Statement and include a detailed resume.

SUCCESSFUL APPLICANTS: Police check: Students must successfully obtain a current National Police Records Check as part of the program before undertaking work placements. WWC Check: Students must hold a valid Working With Children card before undertaking work placements that involve working with children.
Bachelor of Biomedical Science (Laboratory Medicine): 4 years full time study

**About the course:** Laboratory Medicine is the only undergraduate course in Victoria accredited by the Australian Institute of Medical Scientists and the only course in Australia accredited by the Institute of Biomedical Science in the United Kingdom. Students learn to apply scientific investigations to diagnose, treat and better understand disease. Graduates may be employed as medical scientists in hospitals and diagnostic pathology laboratories worldwide. Others may pursue careers in medical research, the pharmaceutical industry and academia or continue into medicine or other postgraduate degree programs. The course consists of three academic years and one year of supervised professional practice in industry, part of which may be undertaken in an approved overseas laboratory. In third year, students major in three discipline specialities and undertake a discipline-focused laboratory medicine project in their final year.

**Major studies:** Biochemistry, Biomedical science, Chemistry (forensic and analytical), Chemistry (medical), Clinical biochemistry, Cytopathology, Diagnostic laboratory operations, Haematology, Histopathology, Immunology, Laboratory medicine, Laboratory technology, Medical laboratory science, Medical microbiology, Medical science, Molecular medicine and biotechnology, Pathology, Professional practice, Transfusion and transplantation science.

**Prerequisites:** Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL; and a study score of at least 20 in one of Biology or Chemistry; and a study score of at least 20 in one of any Mathematics or Physics.

**Middle-band:** A study score of 25 in one but no more than three of Biology, Chemistry, any Mathematics or Physics equals 2 aggregate points per study.

**Selection Mode:** CY12 : ATAR and middle-band.
NY12 : Educational History including GPA, VTAC Personal Statement (Some). See extra requirements for more information.

**Extra requirements:**
VTAC Personal Statement (NY12-Some) : NY12 (some applicants) who wish other information to be considered must submit a VTAC Personal Statement.

---

Laboratory Technology-Biotechnology (VET)

**RMIT University**
City: 3200372104 (Fee type determined by provider) full-time  Apply: Through VTAC main round

- Diploma of Laboratory Technology (Biotechnology): 2 years full time study

**About the course:** This course provides broad-based vocational training towards becoming a technical officer, analyst or undertaking other roles in biotechnology, biological, medical research, diagnostic pathology and scientific laboratories. Students choose between this biotechnology stream and a pathology testing stream in second year. The course comprises core units essential for technical officers plus testing and technical electives relevant to specialisation. The two streams share a common first year. In second year the biotechnology stream focuses on techniques such as recombinant DNA, microbiology, chromatography, electrophoresis and plant and animal tissue culture. The pathology testing stream focuses on pathology disciplines such as haematology and bloodbanking, histology, clinical chemistry and microbiology. Students are provided with a relevant work placement in the second year. Classes are small and delivery includes classroom and online sessions, with laboratories acting as simulated workplaces giving hands-on experience.

**Major studies:** Biochemistry, Chromatography, Electrophoresis, Genetics, Microbiology, Molecular biology.

**Prerequisites:** None
**Middle-band:** Satisfactory completion in Biology, Chemistry or any Mathematics equals 1 aggregate point per study. A study score of 20 in any English equals 1 aggregate point per study. Overall maximum of 3 points.

**Selection Mode:** CY12: ATAR and middle-band.
NY12: Educational History including GPA, VTAC Personal Statement (Some). See extra requirements for more information.

**Extra requirements:**
VTAC Personal Statement (NY12-Some): NY12 (some applicants) who wish other information to be considered must submit a VTAC Personal Statement. Relevant employment and experience will be considered.

City: 3200332103 (IFP) full-time  
Apply: Through VTAC main round

- Bachelor of Design: 3 years full time study

**About the course:** Learn how landscape architects contribute to the sustainable development of dynamic urban and rural environments and develop critical design skills for professional practice in landscape architecture, a key profession in the 21st century.

This design course articulates into the Master of Landscape Architecture on successful completion of the bachelor degree with a minimum GPA. The Master of Landscape Architecture qualification is required for professional registration as a landscape architect.

Through design studios students learn to think critically and to conceptualise design ideas. In core subjects students develop specialised knowledge of contemporary urban and environmental issues and learn how to address these issues through innovative design solutions and applied knowledge in design theory, visual communication and ecology.

The course offers a wide range of exchanges and study tour opportunities as well as hands-on experience in industry partnerships through design studios.

Further details about this course can be found at [www.rmit.edu.au/architecturedesign](http://www.rmit.edu.au/architecturedesign)

**Major studies:** Computer-aided design (CAD), Design drawing, Ecological urbanism, Landscape architecture, Theory of design, Urban design.

**Prerequisites:** Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL.

**Middle-band:** None

**Selection Mode:** CY12 : ATAR, Information kit (All), Folio (Some). See extra requirements for more information.

NY12 : Educational History including GPA, Information kit (All), Folio (Some). See extra requirements for more information.

**Extra requirements:**

Information kit (CY12-All, NY12-All) : All applicants must complete and submit 2014 RMIT University Landscape Architecture pre-selection kit (see entry requirements section of [www.rmit.edu.au/programs/bp256](http://www.rmit.edu.au/programs/bp256)) by 5.00 pm 13 November. Applicants who have successfully completed tertiary study in architecture, industrial design, interior design, fashion design or horticulture or completed an Advanced Diploma in Building Design (Architectural) may be exempt from completing the pre-selection kit.

Folio (CY12-Some, NY12-Some) : Folio presentation (short-listed and exempt applicants only): Applicants required to attend will be notified by the University by email by 5.00 pm, 20 November. These applicants must attend as assigned between 26 November and 28 November. Advisory letters will be emailed to applicants by 5.00 pm, 13 December.

Notes:

(i) Advanced level applicants must email details of their completed tertiary study and attach their transcripts to landscape.architecture@rmit.edu.au prior to 5.00 pm, 28 October and will receive confirmation of their eligibility for an exemption by email by 5.00 pm, 1 November. Exempt applicants are required to present original transcripts at the folio presentation. (ii) Applicants must include their full name and VTAC Application Number in the subject line of any emails sent to landscape.architecture@rmit.edu.au

---

### Languages (HE)

RMIT University

City: 3200317471 (CSP) full-time  
Apply: Through VTAC main round

- Diploma of Languages: 1 year full time study

**About the course:** Students develop practical language and cross-cultural communication skills while proceeding from beginners to advanced level Chinese or Japanese in one year in this full time course. The course also examines the social and cultural aspects of countries where the languages are spoken.

The Diploma of Languages prepares students to apply knowledge of language and culture in a wide range of workplace settings, in addition to specialist positions in language teaching, translating and interpreting, tourism and
hospitality.

The intensive nature of the course provides opportunities to engage in a diverse range of learning activities, using the target language as a practical means of communication. These include off-campus language immersion camps, regular language exchange sessions with native speakers and computer mediated communication with peers in China and Japan. In-country study tours may be available during the year.

This course can also be completed in part-time mode independently of or in conjunction with any other RMIT degree. As the course begins at a foundational level, students who have completed VCE Chinese or Japanese will only be able to study that language in part-time mode.

Further details about this course can be found at www.rmit.edu.au/languages

**Major studies:** Chinese, Japanese, Language and culture studies, Language development, Languages.

**Prerequisites:** Units 3 and 4: a study score of at least 25 in English (EAL) or 20 in English other than EAL.

**Middle-band:** A study score of 20 in Classical Studies, Drama, Environmental Science, Geography, any History, any LOTE, Media, any Music, Philosophy, Australian Politics, Global Politics, Religion And Society, Sociology or Texts And Traditions equals 2 aggregate points per study. Overall maximum of 6 points.

**Selection Mode:** CY12 : ATAR and middle-band.

NY12: Educational History including GPA, VTAC Personal Statement (All), Work experience (All). See extra requirements for more information.

**Extra requirements:**

VTAC Personal Statement (NY12-All): NY12 applicants must submit a VTAC Personal Statement and include their reasons for wanting to study the course.

Work experience (NY12-All): Applicants should also detail any work experience when completing a VTAC Personal Statement.

**About the course:** Developed in consultation with industry, this course provides students with a professional and practical education preparing them for para-legal employment in private law firms, government, corporations, tribunals, community organisations and legal services. The course locates the study of law in its broadest social and political context, focusing upon how the law actually works within Australia and globally.

Streams include alternative dispute resolution and mediation, international human rights, justice, public policy and policy development. In the final year, students are given practical experience through a supervised placement in a legal or para-legal organisation such as the Department of Justice, Department of Human Services, Dispute Settlement Centre, Victorian Legal Aid, law firms and private companies, tribunals, community legal centres and other community based organisations.

Further details about this course can be found at [www.rmit.edu.au/justice](http://www.rmit.edu.au/justice)

**Major studies:** Dispute resolution and mediation, Human rights, Justice, Law, Law (civil), Law (family), Law (welfare), Legal practice, Legal studies, Organisational processes, Social sciences, Sociology.

**Prerequisites:** Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL.
Middle-band: A study score of 25 in any LOTE, Legal Studies, Australian Politics or Global Politics equals 2 aggregate points per study. Overall maximum of 4 points.

Selection Mode: CY12 : ATAR and middle-band.

**Legal Practice (VET)**

**RMIT University**

City: 3200372664 (Fee type determined by provider) full-time  |  Apply: Through VTAC main round

- Advanced Diploma of Legal Practice: 2 years full time study

**About the course:** Students learn how to open and manage legal files, take instructions, provide advice to clients and perform legal work under the supervision of a lawyer. Students will gain a firm understanding of the Australian legal system by undertaking compulsory subjects examining key areas of law including contract law, commercial law, family law, criminal law, property law, wills, probate and administration. Students will also study court procedures and practices, alternative dispute resolution and the law of evidence and examine procedures relating to transactions for the sale and purchase of Victorian land. Electives may be selected from legal, business and technology fields.

The course includes a two week practical placement within a law firm, court registry, government department or other organisation in the legal industry in the final year. In addition, students will be required to demonstrate the specialist legal and administrative skills they have developed throughout the course in the subject Practise in a Legal Environment.

RMIT’s legal practice course satisfies the educational requirements for membership of the Institute of Legal Executives (Vic). Graduates can perform legal work such as interviewing clients, undertaking legal research, preparing documentation and communicating with law firms and other organisations on behalf of clients under the supervision of a lawyer. Graduates may choose to pursue a career as a law clerk or paralegal in specific areas of legal practice in either the private or public sector.

**Major studies:** Business Law, Civil Procedure, Intellectual Property, Land Contracts, Law (administrative), Law (commercial), Law (consumer protection), Law (consumer), Law (contract), Law (conveyancing), Law (criminal), Law (evidence), Law (family), Law (property), Law (torts), Legal Process, Legal Research, Wills & Probate, Word Processing & Practice in a Legal Environment.

**Prerequisites:** None

**Middle-band:** None

**Selection Mode:** CY12 : ATAR.
NY12 : Educational History including GPA, VTAC Personal Statement (All), Work experience (All). See extra requirements for more information.

**Extra requirements:**
VTAC Personal Statement (NY12-All)
Work experience (NY12-All) : NY12 applicants should also detail any work experience when completing a VTAC Personal Statement.

- Associate Degree in Legal Practice (Paralegal): 2 years full time study

**About the course:** Students learn to identify and analyse legal concepts and principles in legal practice and develop high level legal and administrative skills required in the increasingly complex role of a paralegal. The course combines business core courses with prescribed specialised courses in law, legal practice and conveyancing. Students have the opportunity to demonstrate their legal knowledge and their awareness of professional and social responsibilities in subjects like professional skills and responsibility which may involve undertaking tasks such as simulated case studies, work relevant role plays, work placement and attending guest lectures from legal industry professionals.

The course is designed to suit people wishing to enter the profession as well as those already working in the legal industry who wish to build on existing skills in case analysis, file management, writing and drafting, interviewing and negotiating. Graduates can work at senior paraprofessional levels in private and public law firms and conveyancing firms. Paralegals may also be employed in commercial organisations and corporations in the banking, insurance and property sectors, or perform specialised roles in legal fields like litigation, probate administration, criminal law, property and land law, family law, corporate and commercial law.

**Prerequisites:** Units 3 and 4: a study score of at least 25 in English (EAL) or 20 in English other than EAL.

**Middle-band:** A study score of 25 in Accounting, Business Management, Economics, Geography, any Information Technology, Legal Studies, any Mathematics or Psychology equals 1 aggregate point per study. A study score of 30 in any English equals 2 aggregate points per study. Overall maximum of 5 points.

**Selection Mode:** CY12: ATAR and middle-band.
NY12: Educational History including GPA.

**Extra requirements:** None

City: 3200332533 (IFP) full-time  Apply: Through VTAC main round

- Bachelor of Business (Logistics and Supply Chain Management): 3 years full time study

**About the course:** Understand the complexities of logistics, supply chain and trade industries through specialised studies covering purchasing, materials management, warehousing, inventory control, transport and distribution and...
stakeholder management.

This three-year course combines core studies in business and supply chain to establish a solid foundation, plus the flexibility to choose a minor tailored to a specific aspect of the industry including e-supply chain management, global logistics, and transport and logistics. A minor from another business discipline, or a sequence of subjects in areas such as international studies, sustainability or geospatial science can also be chosen. Alternatively, a second major can be selected from a range of business disciplines. Through strong support by professional associations and the transport and logistics industry, students have the opportunity to gain feedback from practitioners on their ability to analyse, resolve problems and communicate effectively in subjects covering supply chain management strategy and procurement and global sourcing. Graduates emerge with the confidence to tackle business problems and be competitive in the global marketplace.

Major studies: Business, Business (logistics), Business (operations), Logistics, Supply chain management, Transport and logistics.

Prerequisites: Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL.

Middle-band: A study score of 25 in Accounting, Business Management, Economics, Geography, any Information Technology, Legal Studies, any Mathematics or Psychology equals 1 aggregate point per study. A study score of 35 in any English equals 2 aggregate points per study. Overall maximum of 5 points.

Selection Mode: CY12 : ATAR and middle-band.
NY12 : Educational History including GPA.

- Bachelor of Business (Logistics and Supply Chain Management) (Applied): 4 years full time study

About the course: Understand the complexities of logistics, supply chain and trade industries and solve business problems. Choose subjects from another business area or a range of other disciplines for career opportunities across the globe.

This four-year course consists of a common core in business, major studies in supply chain and logistics, and the flexibility to choose a minor tailored to a specific aspect of the industry including e-supply chain management, global logistics, and transport and logistics. Alternatively, a minor or electives from another business discipline or in areas such as international studies, sustainability or geospatial science can also be chosen. In third year, students undertake a compulsory work placement in industry. A business design project completed in the final year is aimed at consolidating the theoretical and work experience components of the course.

Students have the opportunity to gain feedback from practitioners through the work placement and subjects covering supply chain management strategy and procurement and global sourcing. These subjects are designed for students to demonstrate their ability to analyse, communicate effectively, address business problems and integrate logistics activities efficiently.

Major studies: Business, Business (logistics), Business (operations), Logistics, Supply chain management, Transport and logistics.

Prerequisites: Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL.
Middle-band: A study score of 25 in Accounting, Business Management, Economics, Geography, any Information Technology, Legal Studies, any Mathematics or Psychology equals 1 aggregate point per study. A study score of 35 in any English equals 2 aggregate points per study. Overall maximum of 5 points.

Selection Mode: CY12 : ATAR and middle-band.
NY12 : Educational History including GPA.

Extra requirements: None

Logistics Management (VET)

RMIT University
City:3200373204 (Fee type determined by provider) full-time/part-time Apply: Through VTAC main round

About the course: In the certificate students will learn in a team environment how logistics supports international business activities and how international conventions, laws and finance are fundamental to global trade.

The diploma focuses on logistics and operations management, international freight transfer including import/export, logistics business planning and use of software to support logistics, advanced international finance and economic forecasting and researching real international opportunities.

Students will develop logistics strategies and plans for real companies, incorporating transport and logistics systems, international distribution and purchasing, contract negotiation and business planning and effectiveness. Strategic management innovations are also explored to ensure relevancy.

Students will be admitted into the lowest level qualification and will progress, subject to satisfactory academic progress, to the higher qualification level.

Major studies: None.

Prerequisites: None

Middle-band: None

Selection Mode: CY12 : ATAR.
NY12 : Educational History including GPA.

Extra requirements: None

Management (VET)

RMIT University
City:3200372084 (Fee type determined by provider) full-time Apply: Through VTAC main round

- Certificate IV in Frontline Management: 0.5 year full time study
- Diploma of Management: 1 year full time study

About the course: One year of full-time study along with successful applied assessment will achieve both the Certificate IV and the Diploma. This course is designed to develop the required skills and knowledge for current or future managers in the workplace. Career opportunities exist in all sectors of the business, including the private and public sectors across a range of industries.

Students will be admitted into the lowest qualification and will progress, subject to satisfactory academic progress, to the higher qualification level.

Prerequisites: None

Middle-band: None

Selection Mode: CY12 : ATAR.
NY12 : Educational History including GPA, VTAC Personal Statement (All), Work experience (All). See extra requirements for more information.

Extra requirements:
VTAC Personal Statement (NY12-All) : NY12 applicants must submit a VTAC Personal Statement.
Work experience (NY12-All) : NY12 applicants should also detail any work experience when completing a VTAC Personal Statement.

- Bachelor of Business (Management): 3 years full time study

About the course: This course prepares students for entry to careers in management in business, industry, and the public sector. This course develops skills and knowledge in key management disciplines. This course consists of a common core of business, major studies in management, minor studies and electives selected from business and a range of other disciplines. A second major may be selected from a range of business disciplines.

Prerequisites: Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL.

Middle-band: A study score of 25 in Accounting, Business Management, Economics, Geography, any Information Technology, Legal Studies, any Mathematics or Psychology equals 1 aggregate point per study. A study score of 35 in any English equals 2 aggregate points per study. Overall maximum of 5 points.

Selection Mode: CY12 : ATAR and middle-band.
NY12 : Educational History including GPA.

Extra requirements:
None

Marketing (VET)

RMIT University
City: 3200372264 (Fee type determined by provider) full-time/part-time  Apply: Through VTAC main round

- Certificate IV in Marketing: 0.5 year full time study
- Diploma of Marketing: 1 year full time study
- Advanced Diploma of Marketing: 1.5 year full time study
About the course: In the certificate IV students learn about building client relationships, profiling the market, e-marketing, consumer behaviour, the marketing mix and conducting market research.

The diploma focuses on creativity, marketing opportunities, planning direct marketing, market research, sales planning, media options, implementing and monitoring marketing activities and the interpretation of market trends and developments.

The advanced diploma is the highest qualification in the marketing TAFE course and involves managing the marketing process, developing business and market plans, evaluating international marketing opportunities, managing international marketing programs and developing workplace policies for sustainability.

Students will be admitted into the lowest level qualification and will progress, subject to satisfactory academic progress, to the higher qualification levels.

Major studies: Advertising & Media Planning, Consumer Behaviour, E-Marketing, Market planning, Marketing, Marketing (contract), Marketing (direct marketing), Marketing (retail), Marketing (small business), Marketing Communications, Marketing management, Marketing Planning, Marketing research, Marketing strategy, Public relations, Retail marketing, Sales marketing, Sales Planning, Sales Presentations, Services marketing.

Prerequisites: None

Middle-band: None

Selection Mode: CY12 : ATAR.

NY12 : Educational History including GPA, VTAC Personal Statement (All), Work experience (All). See extra requirements for more information.

Extra requirements:
VTAC Personal Statement (NY12-All) : NY12 applicants must submit a VTAC Personal Statement.
Work experience (NY12-All) : NY12 applicants should also detail any work experience when completing a VTAC Personal Statement.

- Bachelor of Business (Marketing) (Applied): 4 years full time study

**About the course:** This course prepares students for the global marketplace with a particular focus on careers in marketing and related fields. The multidisciplinary approach involves a broad range of core business subjects including statistics, accounting, management and law plus specialist marketing subjects such as buyer behaviour and marketing strategy.

Electives in fourth year enable students to develop their interests or expertise in other marketing specializations such as retailing, e-marketing and sport marketing.

In third year students undertake cooperative education (on successful completion of 16 subjects) with full-time students undertaking a work placement involving supervised work experience or a professional skills program.

**Major studies:** Business, Business (marketing), Buyer Behaviour, Global Marketing, Marketing, Marketing Communications, Marketing Management, Marketing Principles, Marketing Research, Marketing Strategy, Product Innovation Management, Services Marketing.

**Prerequisites:** Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL.

**Middle-band:** A study score of 25 in Accounting, Business Management, Economics, Geography, any Information Technology, Legal Studies, any Mathematics or Psychology equals 1 aggregate point per study. A study score of 35 in any English equals 2 aggregate points per study. Overall maximum of 5 points.

**Selection Mode:** CY12 : ATAR and middle-band.

Bachelor of Science (Mathematics): 3 years full time study

About the course: This course prepares graduates in the areas of scientific computation, mathematical modelling, resource modelling and statistics for careers in business, commerce, government, teaching, computer, environmental modelling and manufacturing industries.

Mathematicians often work with scientists and engineers on industrial and environmental problems. Examples include managing natural resources more efficiently or modelling environmental processes such as changing weather patterns.

First year provides foundation studies in both mathematics and statistics. Second and third year studies include projects and placements provided by industry; computational mathematics; real and complex analysis; optimisation and control; resource modelling; algebra and coding theory; and mathematical modelling related to engineering, science, finance and business applications. Second and third year students also undertake a specialisation in one of the following: finance, statistics, environmental modelling or information security.

Prerequisites: Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL; and a study score of at least 20 in one of Maths: Mathematical Methods (CAS) or Maths: Specialist Mathematics.

Middle-band: A study score of 25 in Maths: Specialist Mathematics equals 5 aggregate points.

Selection Mode: CY12: ATAR and middle-band. NY12: Educational History including GPA, VTAC Personal Statement (Some). See extra requirements for more information.

Extra requirements:
VTAC Personal Statement (NY12-Some): NY12 (some applicants) who wish other information to be considered must submit a VTAC Personal Statement. Relevant employment and experience will be considered.

- Bachelor of Communication (Media): 3 years full time study

About the course: Informed by critical and theoretical knowledge of evolving social, historical and technological contexts students will develop practical and professional skills in online, radio and film/television production.

In this course students undertake study in three areas: professional media production, communication, and contextual studies. In second year, students specialise in either Film-TV or radio production while continuing study in networked and online media. In third year, students work on major productions, in real-world contexts, building
upon their skills in Film-TV, radio and online media.

Through a range of partnerships, internships and international exchanges students are offered many opportunities to work beyond the classroom on industry-linked projects.

Graduates of this course are creative thinkers and problem solvers employable across a wide variety of media sector careers.

Further details about this course can be found at www.rmit.edu.au/media

**Major studies:** Asian studies, Audio and video production, Broadcasting (radio), Business studies, Cinema studies, Film and video, Film-TV production, Internet and multimedia, Literature, Media communication, Media studies, Philosophy and cultural inquiry, Radio production, Television and broadcasting.

**Prerequisites:** Units 3 and 4: a study score of at least 35 in any English.

**Middle-band:** A study score of 40 in any English equals 1 aggregate point per study. A study score of 35 in Media equals 1 aggregate point. Overall maximum of 2 points.

**Selection Mode:** CY12 : ATAR and middle-band.

NY12 : Educational History including GPA, VTAC Personal Statement (All), Interview (Some), Work experience (All).

See extra requirements for more information.

**Extra requirements:**

VTAC Personal Statement (NY12-All) : NY12 applicants must submit a VTAC Personal Statement by 8 November. The statement must include the reasons for wanting to study the course, any prior experience in the industry and demonstrate an awareness of the current media landscape, its evolution, and its effect on the media industry.

Interview (NY12-Some) : Short-listed applicants required to attend an interview will be contacted by the University via email or telephone by 30 November. Interviews will be held in December. Applicants must note that short-listing for interview will be based on what has been submitted in the VTAC Personal Statement by 8 November. Interviews are conducted in person or over the telephone or Skype if the applicant is interstate or overseas.

Work experience (NY12-All) : Applicants should also detail any work experience when completing a VTAC Personal Statement.

- Bachelor of Applied Science (Medical Radiations): 3 years full time study

**About the course:** Students study a healthcare discipline that involves the application of ionising and non-ionising radiation for the diagnosis and treatment of injury and disease. Advancements in information technology, digital imaging and instrumentation make medical radiations an advanced and dynamic area of clinical medicine. Graduates may be employed in the public or private health care sector as nuclear medicine technologists, radiation therapists or as radiographers/medical imaging technologists. Students select one of three streams; Nuclear Medicine, Radiation Therapy or Medical Imaging (Radiography). Students undertake both common and stream-specific subjects throughout the course. Professional/practical experience: students attend the workplace for clinical practice in all three years. Prior to undertaking clinical placement, students may be required to gain student registration with the Medical Radiation Practitioners Board of Australia.

In this field students will interact and communicate directly with patients. Prospective students should consider the inherent requirements of these roles (see 'Additional requirements for Medical Radiations students' at www.rmit.edu.au/medical-radiations).
Students also undertake clinical placements at regional and interstate sites, and inner and outer suburban areas of Melbourne. The discipline will allocate students to clinical sites.

Additionally, students must fulfill a number of pre-clinical requirements. All arrangements for, and costs associated with clinical placements and pre-clinical requirements are the responsibility of the student.

Graduates will be eligible to apply for provisional registration through the Medical Radiation Practitioners Board of Australia (MRPBA).

**Major studies:** Anatomy and physiology, Clinical studies, Computed tomography, Magnetic resonance imaging, Medical radiations science, Medical radiations technology, Pathology, Ultrasound.

**Prerequisites:** Units 1 and 2: satisfactory completion in one of Biology or Chemistry; and Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL; and a study score of at least 20 in one of Maths: Mathematical Methods (CAS) or Maths: Specialist Mathematics.

**Middle-band:** None

**Selection Mode:** CY12 : ATAR, Supplementary form (All). See extra requirements for more information.

NY12 : Educational History including GPA, Supplementary form (All). See extra requirements for more information.

**Extra requirements:**

Supplementary form (CY12-All, NY12-All) : All applicants must complete and submit an RMIT Medical Radiations Supplementary information form by 27 September; late applicants by 8 November; very late applicants by 6 December; late change of preference applicants, and IB, WA and NZ NCEA change of preference applicants by 3 January 2014. The form is available from the entry requirements section of www.rmit.edu.au/programs/BP148

SUCCESSFUL APPLICANTS: Prior to undertaking clinical placements all students must hold a Working with Children Check; complete a National Police Records Check; and be adequately vaccinated (See www.health.vic.gov.au/immunisation/resources/health-care-workers-guide.htm). Failure to hold satisfactory checks or meet the immunisation policy may result in students being unable to complete the course.

- Bachelor of Arts (Music Industry): 3 years full time study

**About the course**: This course allows students to expand on existing skills and move from music performance, sound recording and production, and music industry business into employment in the performing arts industry. Past graduates have been employed by management agencies, recording studios, promotion companies, teaching institutions, performance venues, and copyright collection agencies. First year subjects include workplace communication, computer sound production, understanding philosophy, sound design, design studio, musical performance, creative industries practice and audio technology. Second year subjects include contemporary and legal issues in the music industry, pathways into music industry practice, the global musician, concept development, music style overview, and performance or business electives. Third year covers a major project and production and an elective. Practical experience is a semester-long industry internship for the second half of final year.

Further details about this course can be found at www.rmit.edu.au/media

**Major studies**: Music, Music (sound production), Music business management, Music industry, Music performance, Music promotion and marketing.

**Prerequisites**: Units 3 and 4; a study score of at least 30 in English (EAL) or 25 in English other than EAL.

**Middle-band**: Satisfactory completion in any Music equals 1 aggregate point per study. Overall maximum of 4 points.

**Selection Mode**: CY12 : ATAR and middle-band.

NY12 : Educational History including GPA, VTAC Personal Statement (All), Work experience (All). See extra
Extra requirements:

VTAC Personal Statement (NY12-All): NY12 applicants must submit a VTAC Personal Statement and include their reasons for wanting to study the course.

Work experience (NY12-All): NY12 applicants should also provide a CV which shows evidence of any performance, sound production or management experience. Evidence may include links via YouTube, websites, etc. Make sure all links are correct and that the materials play on most common browsers. If your work is a collaboration please detail precisely your role and the role of the collaborator/s.

City:3200332113 (IFP) full-time  nbsp;  Apply: Through VTAC  main round

- Bachelor of Science (Nanotechnology)/Bachelor of Science (Applied Sciences): 4 years full time study

About the course: This double degree provides a strong grounding in nanotechnology, the science and engineering of materials less than a micrometer in size, across the disciplines of physics and chemistry, with substantial biology and engineering components. There is a strong emphasis on the laboratory component linked to research work, often conducted in collaboration with external organisations.

Graduates can engage in areas such as designing next generation computing devices, creating innovative materials and developing nanosensors with powerful detection capabilities. This course prepares students for careers in industrial, medical and scientific research and development. Year one includes foundations in physics, chemistry, mathematics and nanotechnology. In years two to four students elect a major discipline (physics or chemistry) and continue with parallel studies in nanotechnology, biology and nano-engineering.

Further details about this course can be found at www.rmit.edu.au/appliedsciences

Major studies: Biology, Chemistry, Electronic technology and instrumentation, Inorganic chemistry, Nano-engineering, Nanotechnology, Organic chemistry, Physics.

Prerequisites: Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL; and a study score of at least 20 in one of Chemistry or Physics; and a study score of at least 20 in one of Maths: Mathematical Methods (CAS) or Maths: Specialist Mathematics.

Middle-band: Satisfactory completion in one but no more than three of Biology, Chemistry, Maths: Specialist Mathematics or Physics equals 2 aggregate points per study.

Selection Mode: CY12: ATAR and middle-band.

NY12: Educational History including GPA, VTAC Personal Statement (Some). See extra requirements for more information.

Extra requirements:

VTAC Personal Statement (NY12-Some): NY12 (some applicants) who wish other information to be considered must submit a VTAC Personal Statement.

Nursing (VET)

RMIT University
Diploma of Nursing (Enrolled-Division 2 nursing): 2 years full time study

**About the course:** Students learn to assist in preventative, curative and rehabilitative care, including administering intravenous medications and medication administration. Graduates contribute to client assessment, wound management and therapeutic, complex and mental health care.

The course is designed to enable students to interact completely and professionally with other health professionals in acute and non-acute environments. The course provides education in communication, client assessment, wound management and providing therapeutic care for clients with chronic health problems, clients requiring complex care and clients with mental health issues. Medical administration and delivering nursing care to clients in a variety of health care settings from culturally diverse backgrounds is also covered. Clinical placement is a significant component of the course.

In order to practise in Australia, graduates must register with the Nursing and Midwifery Board of Australia as an enrolled nurse. To be eligible to register, graduates from countries where English is not the first or only language will be required to provide evidence of English language competence, e.g. minimum IELTS score of 7 in each of the four bands. Applicants should refer to the Australian Health Practitioner Regulation Agency web site for further information www.ahpra.gov.au

**Major studies:** Acute care, Aged care, Anatomy, Anatomy and physiology, Assessment, Biology, Clinical assessment, Clinical studies, Communication, Communication skills, Nursing, Primary care.

**Prerequisites:** None

**Middle-band:** None

**Selection Mode:** CY12 : ATAR, VETASSESS (All). See extra requirements for more information.

NY12 : Educational History including GPA, Supplementary form (All), VETASSESS (All). See extra requirements for more information.

**Extra requirements:**
Supplementary form (NY12-All) : NY12 applicants must submit an RMIT Nursing Supplementary information form by 18 October (timely applicants) or 22 November (late and very late applicants). The form is available from the entry requirements section of www.rmit.edu.au/programs/C5313. Applicants can also request the form by telephone (03) 9925 7381 or at Open Day.

VETASSESS (CY12-All, NY12-All) : All applicants must sit a VETASSESS test (www.vetassess.com.au) and fax "Statement of Test Scores and Outcomes" by 8 November (timely) or 13 December (late and very late). Fax: 03 9925 4144.

SUCCESSFUL APPLICANTS: Prior to practical placements all students must provide certified copies of the following documentation: Commencement of Hepatitis B vaccination; evidence of TB screening; Working with Children Check; and an Australian National Police Certificate issued by the Australian Police (no other Police Checks can be accepted). Students cannot be released for placement without these documents. Students failing to pass these checks will be unable to complete the teaching and assessment requirements of the course.
About the course: This course aims to further develop the enrolled nurse's capacity to be an adaptable and ethical health professional eligible for nursing registration with the Nursing and Midwifery Board of Australia. Registered nurses provide independent and collaborative care to individuals of all ages, families, groups and communities. This course is based on a continuum of care, which encompasses acute care, aged care, child and adolescent health, public health and community care and mental health nursing. Students undertake four subjects per semester. There are five clinical practicums within the course with theoretical and practical components of the course integrated. Clinical placement opportunities will be located in a variety of settings commensurate with the theoretical learning of the student. Learning approaches include lectures, tutorials, simulation, laboratory experience and online learning.

Students must comply with the University and facility professional requirements such as behaviour, dress and attendance while on clinical placement and for on-campus simulation and laboratory sessions. Applicants must be aware of the requisite skills and abilities for prospective students, see www.rmit.edu.au/nursing/programs. In order to practise in Australia, graduates must register with the Nursing and Midwifery Board of Australia as a Registered Nurse. To be eligible to register, graduates from countries where English is not the first or only language will be required to provide evidence of English language competence, e.g., minimum IELTS score of 7 in each of the four bands. Applicants should refer to the Australian Health Practitioner Regulation Agency website for further information www.ahpra.gov.au

Major studies: Acute care, Bioscience - anatomy and physiology, Mental health, Nursing.

Prerequisites: Diploma Nursing within the last five years and Nursing and Midwifery Board of Australia Registration.

Middle-band: None

Selection Mode: NY12 : Educational History including GPA, VTAC Personal Statement (Some), Registration. See extra requirements for more information.

Extra requirements:
VTAC Personal Statement (NY12-Some) : NY12 (some applicants) who wish other information to be considered must submit a VTAC Personal Statement.

ALL APPLICANTS: must hold current registration as an Enrolled Nurse with the Nursing and Midwifery Board of Australia.

- Bachelor of Nursing: 3 years full time study

About the course: This course aims to develop adaptable and ethical health professionals eligible for registration as Registered Nurses with the Nursing and Midwifery Board of Australia. Registered Nurses provide independent and collaborative care to individuals of all ages, families, groups and communities. This course is based on a continuum of care, which encompasses acute care, aged care, child and adolescent health, public health and community care and mental health nursing. Students undertake four subjects per semester. There are five clinical practicums within the course with theoretical and practical components of the course integrated. Clinical placement opportunities will be located in a variety of settings commensurate with the theoretical learning of the student. This course provides a variety of theoretical learning approaches including lectures, tutorials, simulation, laboratory experience and online learning.

Students must comply with the University and facility professional requirements such as behaviour, dress and...
attendance while on clinical placement and for on-campus simulation and laboratory sessions. Applicants must be aware of the requisite skills and abilities for prospective students, see www.rmit.edu.au/nursing/programs. In order to practise in Australia, graduates must register with the Nursing and Midwifery Board of Australia as a Registered Nurse. To be eligible to register, graduates from countries where English is not the first or only language will be required to provide evidence of English language competence, e.g. minimum IELTS score of 7 in each of the four bands. Applicants should refer to the Australian Health Practitioner Regulation Agency web site for further information www.ahpra.gov.au

**Major studies:** Acute care, Bioscience - anatomy and physiology, Mental health, Nursing.

**Prerequisites:** Units 1 and 2: satisfactory completion of any Mathematics or Units 3 and 4: any Mathematics; and a study score of at least 30 in English (EAL) or 25 in English other than EAL.

**Middle-band:** A study score of 35 in English (EAL) equals 1 aggregate point. A study score of 30 in English other than EAL equals 1 aggregate point per study. A study score of 25 in one but no more than four of Biology, Chemistry, Health And Human Development, any Mathematics, Physical Education, Physics, Australian Politics, Global Politics or Psychology equals 1.5 aggregate points per study.

**Selection Mode:** CY12 : ATAR and middle-band.

NY12 : Educational History including GPA, VTAC Personal Statement (Some), STAT (Some). See extra requirements for more information.

**Extra requirements:**

VTAC Personal Statement (NY12-Some) : NY12 (some applicants) who wish other information to be considered must submit a VTAC Personal Statement.

STAT (NY12-Some) : NY12 applicants who do not have an ATAR, or a grade point average (GPA) for tertiary results, must sit the STAT Multiple Choice and achieve a percentile of at least 35 or greater. Other NY12 applicants who wish to supplement their academic record, may choose to sit the STAT test.

SUCCESSFUL APPLICANTS: Prior to undertaking clinical components of the course, all students must be adequately vaccinated (see www.health.vic.gov.au/immunisation/resources/health-care-workers-guide.htm); present evidence of a successful Victorian Police Records Check for each calendar year of enrolment (see www.police.vic.gov.au/content.asp?Document_ID=274); and hold a valid Working With Children Check. Failure to provide all of the above documentation may prevent attendance at clinical venues, resulting in students being unable to complete the course.

---

### Optical Dispensing (VET)

**RMIT University**

City: 3200310094 (Fee type determined by provider) full-time  
**Apply:** Through VTAC main round

- Certificate IV in Optical Dispensing: 1 year full time study

**About the course:** This program will provide students with the skills to perform the role of an optical dispenser who works closely with optometrists, ophthalmologists and other healthcare professionals to provide optimum solutions for eye-care and eye-wear needs. Students will learn about anatomy and physiology of the eye, how to deliver customer service excellence, interpreting ophthalmic prescriptions, ophthalmic optics, how to conduct frame adjustments and repairs, order spectacle lenses and comply with Australian standards for spectacles and sunglasses.

**Major studies:** Anatomy and physiology of the eye, Atypical prescriptions, Dispensing optical appliances and contact lenses, Interpreting prescriptions, Ophthalmic optics and geometrical optical calculations, Optical terminology, Practice administration, Sales and marketing, Spectacle frame adjustments and repairs, Workplace health and safety.

**Prerequisites:** None

**Middle-band:** A study score of 25 in any English equals 2 aggregate points per study. Satisfactory completion in any Mathematics equals 2 aggregate points per study.

**Selection Mode:** CY12 : ATAR and middle-band.

NY12 : Educational History including GPA, VTAC Personal Statement (Some). See extra requirements for more information.
Extra requirements:

VTAC Personal Statement (NY12-Some) : NY12 (some applicants) who wish other information to be considered must submit a VTAC Personal Statement.

**Apply: Through VTAC main round**

- Bachelor of Health Science/Bachelor of Applied Science (Osteopathy): 5 years full time study

**About the course:** Osteopathy is a holistic discipline that focuses on the overall health of a patient by treating through the musculoskeletal system. Students will be eligible to apply for registration as an osteopath with the Osteopathy Board of Australia upon successful completion of this course.

Osteopaths are trained in diagnosis and take a full case history, perform conventional medical testing procedures and use their skills of palpation and motion testing to additionally diagnose a patient's condition. Osteopaths make their choice of treatment depending on the patient and the condition and may give advice on posture, exercise, lifting procedures, and nutrition, as well as in other areas.

The first 3 years of the course concentrate on the enabling knowledge and skills for clinical practice. These are the anatomy, physiology, microbiology, immunology, and pathology subjects and the introductory skills associated with physical examination, diagnosis and osteopathic techniques.

The final two years have a clinical practice focus with most of the clinical training occurring in the on-campus teaching clinic and in external placement in final year. Senior students treat under supervision in the on-campus clinic over a period of 38 weeks per year.

Applicants must be aware that there is a high weekly contact throughout the entire calendar year. Students are expected to follow professional requirements such as behaviour, dress and attendance. Students will also participate in classes where the use of human cadavers, disrobing and touching of fellow students of both sexes for the purposes of teaching and learning will be required. Go to www.rmit.edu.au/healthsciences for further information.

**Major studies:** Clinical studies, Health sciences, Natural medicine, Osteopathic science.

**Prerequisites:** Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL.

**Middle-band:** None

**Selection Mode:** CY12 : ATAR.

NY12 : Educational History including GPA, VTAC Personal Statement (Some). See extra requirements for more information.

**Extra requirements:**

VTAC Personal Statement (NY12-Some) : NY12 (some applicants) who wish other information to be considered must submit a VTAC Personal Statement. Relevant employment and experience will be considered.

SUCCESSFUL APPLICANTS: Students must hold a Working with Children Check before undertaking practical components of this course. Graduates must hold a successful National Police Records Check before being able to register as an osteopath in Australia. Failure to hold satisfactory checks may result in students being unable to complete this course.

Bundoora: 3200231143 (IFP) full-time  Apply: Through VTAC main round

- Bachelor of Biomedical Science (Pharmaceutical Sciences): 4 years full time study

About the course: Pharmaceutical science is the science, research and development of new medicines. Knowledge about the human body, chemistry and action of drugs is applied in the context of the development of new therapeutics, the pharmaceutical industry and to improvements in the healthcare system.

This course has a focus on 'learning by doing' through strong industry engagement and gives graduates an ideal platform for a broad variety of careers in the biomedical sciences. A highlight of this course is a year-long, full-time work placement in the final year for eligible students, giving them job ready career experience in the pharmaceutical and related industries. Job opportunities for graduates include pharmaceutical companies, clinical trial centres, government regulatory authorities, the biotechnology sector, biomedical research in hospitals, universities and research institutes.

Major studies: Biochemistry, Clinical trials, Drug development, Human physiology, Integrated therapeutics, Pharmacology, Regulatory affairs, Toxicology.

Prerequisites: Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL; and a study score of at least 20 in Chemistry; and a study score of at least 20 in one of any Mathematics or Physics.

Middle-band: A study score of 25 in one but no more than three of Biology, Chemistry, Maths: Mathematical Methods (CAS), Maths: Specialist Mathematics or Physics equals 2 aggregate points per study.

Selection Mode: CY12: ATAR and middle-band.

NY12: Educational History including GPA, VTAC Personal Statement (Some). See extra requirements for more information.

Extra requirements:

VTAC Personal Statement (NY12-Some): NY12 (some applicants) who wish other information to be considered must submit a VTAC Personal Statement.

Pharmacy (HE)

- Bachelor of Pharmacy (Honours): 4 years full time study

About the course: This course has Pharmacy Board of Australia approval and prepares students to undertake the internship year required by the Pharmacy Board of Australia to become registered as a pharmacist. Once the program and the intern year are completed, graduates can practise in any area of pharmacy in Australia or New...
Zealand, including community or hospital pharmacy.

Pharmacy plays a central role in the health care system and involves a high-level knowledge of drugs and therapeutics as well as professional care of patients. RMIT Pharmacy has a focus on work integrated learning using on-campus simulations and extensive professional practice experiences in community and hospital pharmacies. Students gain a strong scientific foundation from which to undertake further studies in science or business if desired.

**Major studies:** Clinical pharmacy and therapeutics, Drug delivery, Pharmacology, Pharmacy practice.

**Prerequisites:** Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL; and a study score of at least 20 in Chemistry; and a study score of at least 20 in Maths: Mathematical Methods (CAS).

**Middle-band:** None

**Selection Mode:** CY12 : ATAR, Supplementary form (All). See extra requirements for more information.
NY12 : Educational History including GPA, Supplementary form (All). See extra requirements for more information.

**Extra requirements:**
Supplementary form (CY12-All, NY12-All) : All applicants must submit an RMIT Pharmacy Supplementary information form by 27 September; late applicants by 8 November; very late applicants by 6 December; late change of preference applicants, and IB, WA and NZ NCEA change of preference applicants by 3 January 2014. The form is available from the entry requirements section of www.rmit.edu.au/programs/BH102. Applicants can also request the form by telephone (03) 9925 7075 or by email to medicalsciences@rmit.edu.au

- Bachelor of Arts (Photography): 3 years full time study

**About the course:** This course prepares students for a career in professional photography through practical, theoretical and conceptual investigations. Students develop a broad range of capabilities relevant to the creative and commercial photographic industries. The first year enables students to gain a solid technical grounding in core photographic techniques, materials, concepts, theories and processes. In second year, students choose their studies from a diverse range of genres in professional photography. In the final year of the course, students are guided through their own independent study to develop their ideas and extend their skills within the area of photographic specialisation they have chosen. Graduates can work in a broad range of disciplines across the photographic and communication industries.

Further details about this course can be found at www.rmit.edu.au/visualcommunication

**Major studies:** Digital imaging and workflow, Location photography, Photographic theory, Studio practice.

**Prerequisites:** Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL.

**Middle-band:** A study score of 35 in Media or Studio Arts equals 1 aggregate point per study. A study score of 30 in any Mathematics or Psychology equals 1 aggregate point per study. Overall maximum of 4 points.

**Selection Mode:** CY12 : ATAR and middle-band.
NY12 : Educational History including GPA, VTAC Personal Statement (All), Work experience (All). See extra requirements for more information.
Extra requirements:

VTAC Personal Statement (NY12-All) : NY12 applicants must submit a VTAC Personal Statement and include their reasons for wanting to study the course.

Work experience (NY12-All) : Applicants should also detail any work experience when completing a VTAC Personal Statement.

Photography and Photo Imaging (VET)

RMIT University

City: 3200372074 (Fee type determined by provider) full-time  Apply: Through VTAC main round

- Certificate IV in Photo Imaging: 1 year full time study
- Diploma of Photo Imaging: 1 year full time study

About the course: This course is designed to prepare students for a career in the photographic industry. The certificate IV begins with the foundations in photography and advances to a highly professional standard in the diploma. Within a supportive and motivated environment students are trained in a range of specialised and technical photographic skills including lighting, capture, digital manipulation and printing to produce highly professional folios of work both on location and in studio. The staff are working professionals, focused on developing each student's own individual aesthetic approach and practice.

Study areas include advertising, industrial, portrait, photojournalism, illustrative, fashion, wedding and art photography. Students will initially study all areas of photography in the certificate IV and are encouraged to advance into areas of specialisation in the diploma.

Students will be admitted into the lowest level qualification and will progress, subject to satisfactory academic progress, to the higher qualification levels.

Further details about this course can be found at www.rmit.edu.au/visualcommunication

Major studies: Design theory, Photography, Photography (black and white), Photography (colour management), Photography (colour), Photography (commercial), Photography (digital image acquisition), Photography (editing and workflow), Photography (image capture), Photography (manipulation), Photography (post production), Photography (printing), Photography (studio), Photography (visual and conceptual development).

Prerequisites: None

Middle-band: None

Selection Mode: CY12: Information kit (All), Folio (Some). See extra requirements for more information.
NY12: Information kit (All), Folio (Some). See extra requirements for more information.

Extra requirements:

Information kit (CY12-All, NY12-All): All applicants must complete and submit the 2014 RMIT University Photo Imaging pre-selection kit by 27 September. The kit can be found in the entry requirements section of www.rmit.edu.au/programs/c4312

Folio (CY12-Some, NY12-Some): Folio presentation (short-listed applicants only): Applicants required to attend will be notified by the University by email in October. These applicants must attend in mid-November. Overseas or interstate applicants who are unable to attend the folio presentation must email mctafe@rmit.edu.au by 22 November. Advisory letters will be sent to applicants in December.

Physical Education (HE)

RMIT University

Bundoora: 3200231411 (CSP) full-time  Apply: Through VTAC main round

3200231411  Clearly-in  % below  CY12 offers  Total offers
Bachelor of Applied Science (Physical Education): 4 years full time study

About the course: This course prepares students to be specialist primary and secondary physical education teachers whose responsibilities may include coaching, health and fitness promotion, or sport education for school/community based groups. Students are exposed to a broad study of exercise sciences, sport and physical activity and their application in the teaching of health, physical education and sport in schools, and benefit from teaching practice in each semester of the four year degree. Employment opportunities exist in primary and secondary schools across the government and independent sectors in addition to tertiary institutions. Other employers may include gymnasiums, leisure and recreation centres, fitness consultancies, private companies who contract with schools to deliver physical education and sport, sports coaching and sports management. Fieldwork experience in primary, secondary government and independent schools is incorporated in the four-year course. Students complete an alternative teaching method in addition to physical education, and also have the opportunity to obtain a third teaching method in one of the following areas: advanced health, biology, psychology or mathematics.

Prerequisites: Units 1 and 2: satisfactory completion in two units (any study combination) of General Mathematics or Mathematical Methods; and Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL; and a study score of at least 20 in one of Biology, Chemistry, Maths: Mathematical Methods (CAS), Maths: Specialist Mathematics, Physical Education or Physics.

Middle-band: A study score of 25 in one but no more than three of Biology, Chemistry, Maths: Mathematical Methods (CAS), Maths: Specialist Mathematics, Physical Education or Physics equals 2 aggregate points per study.

Selection Mode: CY12 : ATAR and middle-band, Interview (Some). See extra requirements for more information.
NY12 : Educational History including GPA, VTAC Personal Statement (Some), Interview (Some). See extra requirements for more information.

Extra requirements:
VTAC Personal Statement (NY12-Some) : NY12 (some applicants) who wish other information to be considered must submit a VTAC Personal Statement.

Interview (CY12-Some, NY12-Some) : Interviews may be held by phone or face to face. Details will be provided by telephone or mail in November or December. Applicants must be available for interview in November, December or January.

SUCCESSFUL APPLICANTS: Before undergoing practical components of this course, students must hold a Working with Children Check. Failure to hold satisfactory checks may result in students being unable to complete the course.
Bachelor of Science (Physics)/Bachelor of Engineering (Electronic and Communication) (Honours): 5 years full time study

About the course: Students learn to design and create scientific and engineering products and services using electronic, photonic, electromagnetic and computing devices.

The products and services that electronic and communication engineers innovate make people's lives easier, safer, healthier, more productive and more enjoyable. Products and services include smart phones, computers, robots, high speed internet, digital radio, HDTV, radar, navigation aids, communication satellites, medical and biomedical instruments, and safety, security and control systems for land, sea and air transport.

Physicists use mathematics and scientific methods to study all aspects of nature on earth and in the universe. Discoveries in physics often result in products and technologies that dramatically transform people's lives.

Students will study systems ranging from sub-atomic particles to galaxies and apply this fundamental knowledge to modern technology research areas such as advanced materials, quantum optics and computing.

Graduates may work in private industry, scientific and research organisations, or in government organisations such as transport, defence, health and education. They may also set up their own business or continue with higher degrees by research.

For more information please attend an information evening on Wednesday, 4 September 2013. Further details can be found at www.rmit.edu.au/eleceng

Major studies: Acoustics, Circuits and electronics, Communication systems, Computing (experimental design), Control systems, Digital electronics, Digital signal processing, Electronic systems, Electronic technology and instrumentation, Electronics, Engineering, Engineering (communication), Engineering (electronics), Engineering (telecommunications), Entrepreneurship, Fibre optical technology, Materials science, Mathematical sciences, Mobile communications, Network engineering, Nuclear radiation, Optics, Photonics, Physics, Project management, Radio communication, Science, Telecommunications, Telecommunications (systems and networks), Telecommunications (transmission systems), Wireless technologies.

Prerequisites: Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL; and a study score of at least 20 in Physics; and a study score of at least 20 in one of Maths: Mathematical Methods (CAS) or Maths: Specialist Mathematics.

Selection Mode: CY12 : ATAR and middle-band.
NY12 : Educational History including GPA, VTAC Personal Statement (Some). See extra requirements for more information.

Extra requirements:
VTAC Personal Statement (NY12-Some): NY12 (some applicants) who wish other information to be considered must submit a VTAC Personal Statement.

Product Design (VET)

RMIT University
City: 3200372364 (Fee type determined by provider) full-time Apply: Through VTAC main round

Diploma of Product Design: 2 years full time study

About the course: Create designs for consumer products, experiences and systems. Present ideas through a combination of learnt skills in visual and verbal communication, 3D models and computer based software.

Essential skills in design are built upon through the use of advanced modelling, presentation techniques and digital platforms to create solutions to consumer product needs and address problems associated with sustainable growth in both urban and international contexts.

The course offers industry partnered projects, which enable students to gain hands-on, realistic experience of the consumer product design and manufacturing industry, both locally and globally. Graduates are working in areas including airline interiors, automotive, film and special effects, consumer products, freelance and multidisciplinary design consultancies.

Further details about this course can be found at www.rmit.edu.au/designtafe
**Major studies:** Computer-aided design (CAD), Design 3D, Design drawing, Design for manufacture, Design theory, Ergonomics, Manufacturing principles, Materials technology, Product design, Product development, Rapid prototyping.

**Prerequisites:** None

**Middle-band:** None

**Selection Mode:** CY12 : Folio (All). See extra requirements for more information.

NY12 : Folio (All). See extra requirements for more information.

**Extra requirements:**

Folio (CY12-All, NY12-All) : All applicants must telephone (03) 9925 4819 by 22 November to book their folio presentation. Applicants must attend in November/December. Advisory letters will be sent in mid-December.

main round

- Bachelor of Communication (Professional Communication): 3 years full time study

**About the course:** This course provides theoretical and practical understanding of professional skills required in advertising, journalism, media production and public relations. The course allows specialisation in up to two of these areas combined with studies in communication and humanities.

Throughout the course students undertake a professional specialisation, studies in communications, and a contextual specialisation (cinema studies, Asian media and culture, politics, economies and communication, or literature and philosophy). Students must complete core subjects in communication and also in advertising, journalism, media production and public relations, before choosing up to two professional specialisations in either journalism/media or advertising/public relations.

Further details about this course can be found at [www.rmit.edu.au/writingcommunication](http://www.rmit.edu.au/writingcommunication)

**Major studies:** Advertising, Asian studies, Cinema studies, Communication, Economics, Journalism, Literature, Media production, Philosophy, Politics, Public relations.

**Prerequisites:** Units 3 and 4: a study score of at least 35 in any English.

**Middle-band:** A study score of 40 in any English equals 2 aggregate points per study. A study score of 30 in any History, Media or Psychology equals 2 aggregate points per study. Overall maximum of 4 points.

**Selection Mode:** CY12 : ATAR and middle-band.

NY12 : Educational History including GPA, VTAC Personal Statement (All). See extra requirements for more information.

**Extra requirements:**

VTAC Personal Statement (NY12-All) : NY12 applicants must submit a VTAC Personal Statement by 8 November. The statement must include the reasons for wanting to study the course, demonstrate an awareness of the current media environment and the importance of developing skills across the industry sectors of Journalism, Media Production and Public Relations. Applicants will be assessed on what is submitted in their VTAC Personal Statement by 8 November.
Professional Writing and Editing (VET)

RMIT University
City: 3200373264 (Fee type determined by provider) full-time/part-time Apply: Through VTAC main round

- Diploma of Professional Writing and Editing: 1 year full time study

About the course: This course delivers practical training to those employed, or looking to work, in professional roles that demand strong writing and editing skills. Students learn to write clearly and with confidence across all forms of professional communication including correspondence, reports, proposals, marketing material and funding applications. Students also learn to create web content, to design stylish and professional electronic and print-based documents and to use a range of media effectively, ensuring that the message reaches the intended audience.

The emphasis of the training is on providing broad, transferable writing and editing skills that can be applied within any professional context. The program will provide opportunities for permanent, casual or freelance employment within the corporate, educational, cultural or government sectors.

Further details about this course can be found at www.rmit.edu.au/writingcommunication

Major studies: Business writing, Desktop publishing, Editing skills, Industry knowledge, Managing projects, Professional communication, Writing digital content, Writing for a range of media.

Prerequisites: None

Middle-band: None

Selection Mode: CY12: Information kit (All). See extra requirements for more information.
NY12: Information kit (All). See extra requirements for more information.

Extra requirements:
Information kit (CY12-All, NY12-All): All applicants must complete and submit the 2014 RMIT University Professional Writing and Editing pre-selection kit by 27 September or 8 November (late applicants only). The kit can be found in the entry requirements section of www.rmit.edu.au/programs/c5314

Advisory letters will be sent to applicants in late December.

Professional Writing and Editing (Associate Degree) (HE)

RMIT University
City: 3200333301 (CSP) full-time/part-time Apply: Through VTAC main round

City: 3200333303 (IFP) full-time Apply: Through VTAC main round

- Associate Degree in Professional Writing and Editing: 2 years full time study

About the course: Professional writing and editing is a practical and industry focused course that allows students to explore their creative potential while gaining valuable employment skills. It is built around the understanding that professional writers and editors need to be versatile and proficient across different writing forms and in both print and electronic media.

In first year, students study the craft of writing fiction and non-fiction, the fundamentals of effective communication and editing practice. Students also develop advanced word processing and design skills for producing print and digital material. In second year students specialise in a particular field of interest and focus on preparing for work as
a writer and/or editor and on developing projects that reflect their interests and goals.

Further details about this course can be found at www.rmit.edu.au/writingcommunication

**Major studies:** Editing, Fiction writing, Non-fiction writing, Poetry, Professional practice, Professional writing, Publishing (desktop), Writing (children and young adults), Writing digital content, Writing for print media.

**Prerequisites:** Units 3 and 4: a study score of at least 25 in English (EAL) or 20 in English other than EAL.

**Middle-band:** None

**Selection Mode:** CY12 : Information kit (All), Interview (Some). See extra requirements for more information. NY12 : Information kit (All), Interview (Some). See extra requirements for more information.

**Extra requirements:**
Information kit (CY12-All, NY12-All) : All applicants must complete and submit the 2014 RMIT University Professional Writing and Editing pre-selection kit by 27 September or 8 November (late applicants only). The kit can be found in the entry requirements section of www.rmit.edu.au/programs/ad016

Interview (CY12-Some, NY12-Some) : Short-listed applicants required to attend an interview will be contacted by the University via email in November. Interviews will be held in November/December. Overseas or interstate applicants who are unable to attend must email mctafe@rmit.edu.au by 22 November. Advisory letters will be sent to applicants in late December.

- Bachelor of Applied Science (Project Management): 4 years full time study

**About the course:** This course prepares students for a career in project management. Project management is the coordination and management of projects or events from inception to completion. This course provides a solid academic base for the management of all types of projects.

The first year is common to the property and valuation, construction management and project management courses, enabling students to work collaboratively in activities and assessment around each of the discipline areas in the first year. Years two, three and four have a project management focus.

Further details about this course can be found at www.rmit.edu.au/propertyconstruction

**Major studies:** Management, Project communication, Project leadership, Project planning, Project risk.

**Prerequisites:** Units 1 and 2: satisfactory completion in two units (any study combination) of any Mathematics or Units 3 and 4: a study score of at least 25 in any Mathematics; and a study score of at least 30 in English (EAL) or 25 in English other than EAL.

**Middle-band:** A study score of 30 in any English equals 1 aggregate point per study. A study score of 25 in Physics equals 1 aggregate point. A study score of 25 in Mathematical Methods or Maths: Specialist Mathematics equals 2 aggregate points per study. Overall maximum of 4 points.

**Selection Mode:** CY12 : ATAR and middle-band.

NY12 : Educational History including GPA, VTAC Personal Statement (All), Work experience (All). See extra requirements for more information.
Extra requirements:
VTAC Personal Statement (NY12-All) : NY12 applicants must submit a VTAC Personal Statement and include their reasons for wanting to study the course.

Work experience (NY12-All) : Applicants should also detail any work experience when completing a VTAC Personal Statement.

City: 3200332723 (IFP) full-time Apply: Through VTAC main round

- Bachelor of Applied Science (Property and Valuation): 4 years full time study

About the course: This course provides students with a strong grounding in property studies, achieving skills and knowledge in specific fields such as property investment, funds management, development, property management, valuation, consultancy and property analysis. Students develop competency in identifying, analysing and solving problems relating to property.

The first year is common to the property, construction management and project management courses, enabling students to work collaboratively in activities and assessment around each of the discipline areas over the remaining three years.

Further details about this course can be found at www.rmit.edu.au/propertyconstruction

Major studies: Asset management, Development, Investments, Portfolio management, Valuation.

Prerequisites: Units 1 and 2: satisfactory completion in two units (any study combination) of any Mathematics or Units 3 and 4: a study score of at least 25 in any Mathematics; and a study score of at least 30 in English (EAL) or 25 in English other than EAL.

Middle-band: A study score of 30 in any English equals 1 aggregate point per study. A study score of 25 in Physics equals 1 aggregate point. A study score of 25 in Mathematical Methods or Maths: Specialist Mathematics equals 2 aggregate points per study. Overall maximum of 4 points.

Selection Mode: CY12 : ATAR and middle-band.

NY12 : Educational History including GPA, VTAC Personal Statement (All), Work experience (All). See extra requirements for more information.

Extra requirements:
VTAC Personal Statement (NY12-All) : NY12 applicants must submit a VTAC Personal Statement and include their reasons for wanting to study the course.

Work experience (NY12-All) : Applicants should also detail any work experience when completing a VTAC Personal Statement.

Psychology (Applied Science) (HE)

RMIT University
Bachelor of Applied Science (Psychology): 3 years full time study

About the course: Students explore the science of the mind with a focus on human behaviour, conducting research and providing treatment and counselling. The course has a strong grounding in psychology with minor studies in applied science disciplines such as statistics and human biology.

Graduates may apply psychological knowledge to a variety of occupations and professions. Career options include counselling, human resource management, behavioural research, teaching, or, with further study, graduates may practise as psychologists in a range of areas.

First year covers psychology, statistical computing, disability studies, and electives. Second year covers developmental psychology, social psychology, biological psychology, research methods in psychology, cognitive psychology, and electives. Third year covers psychological assessment and individual differences, philosophy and methodology of psychology, psychopathology and models of intervention, psychology in society and organisations, and electives.

Major studies: Behavioural science, Consumer behaviour.

Prerequisites: Units 1 and 2: satisfactory completion of any Mathematics; and Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL; and a study score of at least 20 in one of Biology, Chemistry, Geography, Physics or Psychology.

Middle-band: A study score of 25 in one but no more than two of any Mathematics equals 2 aggregate points per study. A study score of 25 in one but no more than two of Biology, Health And Human Development or Psychology equals 1.5 aggregate points per study. A study score of 35 in English (EAL) equals 1 aggregate point. A study score of 30 in English other than EAL equals 1 aggregate point per study.

Selection Mode: CY12 : ATAR and middle-band.
NY12 : Educational History including GPA, VTAC Personal Statement (Some). See extra requirements for more information.

Extra requirements:

VTAC Personal Statement (NY12-Some) : NY12 (some applicants) who wish other information to be considered must submit a VTAC Personal Statement.

SUCCESSFUL APPLICANTS: Students must complete a National Police Records Check and hold a valid Working With Children Check before undertaking some of the practical components of this course. Failure to hold satisfactory checks may result in students being limited in the opportunities available in the course.
Bachelor of Social Science (Psychology): 3 years full time study

About the course: This course is fully accredited by the Australian Psychological Accreditation Council (APAC). Combining broad studies in social science with focused training in psychology, the course prepares students for careers in psychology and related fields, including health and welfare, education and training, and human resource management.

The first year of the course introduces students to key ideas in social science and psychology. Second year has a particular focus on developing core research skills. Third year includes a 35 day professional work placement where students gain first-hand experience in an area or organisation they may wish to work once they graduate. Students can use electives in their second and third years to develop further areas of specialisation.

Further details about this course can be found at www.rmit.edu.au/socialstudies

Major studies: Environmental studies, Gender studies, Government process and policy, Human rights and advocacy, Organisations and management, Politics, Psychological testing and assessment, Psychology, Psychology (cognitive), Psychology (developmental), Psychology (personality), Psychology (social), Psychopathology, Social policy, Society.

Prerequisites: Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL.

Middle-band: A study score of 30 in Biology, Maths: Further Mathematics or Psychology equals 2 aggregate points per study. Overall maximum of 6 points.

Selection Mode: CY12 : ATAR and middle-band.
NY12 : Educational History including GPA, VTAC Personal Statement (All), Work experience (All). See extra requirements for more information.

Extra requirements:
VTAC Personal Statement (NY12-All) : NY12 applicants must submit a VTAC Personal Statement and include their reasons for wanting to study the course.
Work experience (NY12-All) : Applicants should also detail any work experience when completing a VTAC Personal Statement.

Public Relations (VET)

RMIT University
City: 3200372284 (Fee type determined by provider) full-time/part-time Apply: Through VTAC main round

- Diploma of Business (Public Relations): 1 year full time study
- Advanced Diploma of Business (Public Relations): 2 years full time study

About the course: In the diploma students will learn how to prepare PR documents and campaigns, project management, write persuasive copy, produce effective presentations, conduct market research, analyse consumer behaviour for specific markets and implement and monitor marketing activities as they develop their knowledge of the public relations industry. The advanced diploma will further develop students PR and general communication skills to develop and manage complex PR campaigns, manage fund raising and sponsorship activities, develop and implement crisis management plans, develop and apply PR industry practice and evaluate campaign effectiveness and manage a budget and organisational communication strategy. Students will benefit from exposure to work placements and live project briefs with our extensive list of high profile industry partners. Students will be admitted into the lowest level qualification and will progress, subject to satisfactory academic progress, to the higher
qualification levels.

**Major studies:** Advertising, Communication Strategy, Consumer behaviour, Copywriting, Fundraising, Fundraising & Sponsorship, Government relations, Law (marketing), Management, Market Research, Marketing, Multimedia, Multimedia production and development, PR Campaigns, PR Documents, Public relations, Writing (media).

**Prerequisites:** None

**Middle-band:** None

**Selection Mode:** CY12 : ATAR.
NY12 : Educational History including GPA, VTAC Personal Statement (All), Work experience (All). See extra requirements for more information.

**Extra requirements:**
VTAC Personal Statement (NY12-All) : NY12 applicants must submit a VTAC Personal Statement.
Work experience (NY12-All) : NY12 applicants should also detail any work experience when completing a VTAC Personal Statement.

- Bachelor of Communication (Public Relations): 3 years full time study

**About the course:** This course teaches students about professional models, concepts and skills relating to public relations and communication management in the private, public and not-for-profit sectors, with emphasis on the roles of globalisation and technology in modern public relations.

The course includes studies in communications and theory, principles and research, and contextual studies that promote analytical and research skills and provide a broader learning experience. Students have exposure to other fields of communication practice such as advertising and journalism, and work with students in inter-disciplinary environments.

Students have opportunities to study overseas, and the course emphasises industry engagement. Students gain practical experience through internships and client projects, with a focus on media relations and writing, PR campaigns and research, and client and project management.

Further details about this course can be found at [www.rmit.edu.au/writingcommunication](http://www.rmit.edu.au/writingcommunication)

**Major studies:** Business practice, Communication research, Leadership, Marketing communication, Professional practice, Public relations, Strategic planning, Writing.

**Prerequisites:** Units 3 and 4: a study score of at least 35 in any English.

**Middle-band:** A study score of 40 in any English equals 2 aggregate points per study. A study score of 35 in Economics, any History or Psychology equals 1 aggregate point per study. Overall maximum of 4 points.

**Selection Mode:** CY12 : ATAR and middle-band.
NY12 : Educational History including GPA, VTAC Personal Statement (All), Interview (Some), Work experience (All). See extra requirements for more information.
Extra requirements:

VTAC Personal Statement (NY12-All) : NY12 applicants must submit a VTAC Personal Statement by 8 November. The statement must include the reasons for wanting to study the course, details of any prior experience in the industry, and demonstrate an awareness of the current media landscape, its evolution, and its effect on the public relations industry.

Interview (NY12-Some) : Short-listed applicants required to attend an interview will be contacted by the University via email in November. Interviews will be held in late November or early December. Applicants must note that short-listing for interview will be based on what has been submitted in the VTAC Personal Statement by 8 November.

Work experience (NY12-All) : NY12 applicants should also detail any work experience when completing a VTAC Personal Statement.

---

**Remedial Massage and Myotherapy (VET)**

**RMIT University**

City: 3200372514 (Fee type determined by provider) full-time  
Apply: Through VTAC main round

- Certificate IV in Massage Therapy Practice: 6 months full time study
- Diploma of Remedial Massage: 1 year full time study
- Advanced Diploma of Remedial Massage (Myotherapy): 6 months full time study

**About the course:** Students learn a range of soft tissue treatment modalities including relaxation massage, remedial and deep tissue techniques, myofascial dry needling and exercise prescription. Students learn to assess, treat and manage acute and chronic pain and a range of musculoskeletal system dysfunctions.

Students learn the required skills and knowledge from industry experts to work independently as a myotherapist in the allied health care industry.

Students learn and practise how to assess signs of dysfunction, provide appropriate relaxation, sports, corporate, remedial massage and myotherapy treatment, communicate effectively with clients and colleagues, and also learn how to manage a practice and grow their business. With a prominent focus on workplace simulated learning as well as innovative teaching and learning strategies, including use of real-time ultrasound, students will be learning from industry experts. Graduates are ready to work in private practice, professional sporting environments and allied health care clinics.

Students will be admitted into the lowest level qualification and will progress, subject to satisfactory academic progress, to the higher qualification levels.

**Major studies:** Anatomy and physiology, Business (management), Health science, Massage practice, Myofascial dry needling, Myotherapy, Pathophysiology, Practical clinical assessment, Principles of assessment and biomechanics.

**Prerequisites:** None

**Middle-band:** None

**Selection Mode:** CY12 : ATAR, Supplementary form (All), Interview (Some). See extra requirements for more information.

NY12 : Educational History including GPA, Supplementary form (All), Interview (Some). See extra requirements for more information.

**Extra requirements:**

Supplementary form (CY12-All, NY12-All) : All applicants must submit an RMIT Massage/Myotherapy Supplementary information form by 27 September. The form is available from the entry requirements section of www.rmit.edu.au/programs/C4319. Applicants can also request the form by telephone (03) 9925 4932 or at Open Day.

Interview (CY12-Some, NY12-Some) : Short-listed applicants may be asked to attend an interview. Details will be provided by telephone or mail by October/November to the applicants required to attend. These applicants must attend in November/early December.

SUCCESSFUL APPLICANTS: Successful applicants may be required to provide the following certified documentation prior to practical placements: commencement of Hepatitis B immunisation; Working with Children check. (depending on external practical placement options).
Science (Applied Science)/Business Management (HE)

RMIT University
City: 3200333041 (CSP) full-time/part-time  Apply: Through VTAC main round

- Bachelor of Science (Applied Science)/Bachelor of Business (Management): 4 years full time study

About the course: This flexible course offers a range of learning experiences including laboratory and practical work, fieldwork, formal lectures, and self-directed projects.

The common first semester provides foundations in chemistry, physics, biology, accounting and management. Students can choose to major in their science degree with one of biological sciences, chemistry, physics, environmental science, biotechnology or food science whilst also studying a Bachelor of Business (Management). The final year of study includes a science project that may be linked to industry.

Graduates may hold positions in public and private sectors, as well as management positions in many areas of life and physical sciences such as fieldwork, teaching, research, environmental consultancy as well as in manufacturing and resource sectors.

Further details about this course can be found at www.rmit.edu.au/appliedsciences

Major studies: Biological science, Biotechnology, Business management, Chemistry, Environmental science, Food science, Nanotechnology, Nutrition, Physics.

Prerequisites: Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL; and a study score of at least 20 in one of Maths: Mathematical Methods (CAS) or Maths: Specialist Mathematics.

Middle-band: Satisfactory completion in one but no more than three of Biology, Chemistry, Maths: Specialist Mathematics or Physics equals 2 aggregate points per study.

Selection Mode: CY12: ATAR and middle-band.
NY12: Educational History including GPA, VTAC Personal Statement (Some). See extra requirements for more information.

Extra requirements:
VTAC Personal Statement (NY12-Some): NY12 (some applicants) who wish other information to be considered must submit a VTAC Personal Statement.

Science (Applied Sciences) (HE)

RMIT University
City: 3200333011 (CSP) full-time/part-time  Apply: Through VTAC main round

City: 3200333013 (IFP) full-time  Apply: Through VTAC main round

- Bachelor of Science (Applied Sciences): 3 years full time study

About the course: Students choose to major in biological sciences, chemistry, physics, environmental science, biotechnology or food science and tailor a range of electives to match their objectives in science. This course provides hands-on experience through field studies and projects.

This flexible course offers a range of learning experiences including laboratory and practical work, fieldwork, formal lectures, and self-directed projects. The common first semester provides foundations in chemistry, physics and biology. Students can choose to major in biological sciences, chemistry, physics, environmental science, biotechnology or food science. Separate named degrees are available for chemistry, physics and biological
sciences majors. Final year includes a science project that may be linked to industry. Graduates may hold positions in public and private sectors in many areas in life and physical sciences such as fieldwork, teaching, research and environmental consultancy as well as in manufacturing and resource sectors.

City:3200332063 (IFP) full-time  **Apply:** Through VTAC  main round

- Associate Degree in Applied Science: 2 years full time study

**About the course:** Students develop a broad range of skills in chemical and biological laboratory techniques commonly used in relevant industries. In second year students begin to specialise in either the food science stream or the biomedical stream. In the food science stream students manufacture, evaluate and test a variety of food products for quality and safety, and study human nutrition. In the biomedical stream students learn to isolate, purify, amplify and characterise DNA and perform techniques like chromatography and electrophoresis. Classes are small and delivery includes classroom and online sessions with laboratories acting as simulated workplaces. Second year includes a work based project with a work placement giving hands-on experience.

Graduates may be employed in biomedical, biotechnology or food industries where there is increasing demand for graduates with industry-recognised training.

Depending on the stream studied, graduates of this course, who apply, having achieved a GPA of 2.0 or greater, are guaranteed a place with the equivalent of two years credit into RMIT's Bachelor of Science degrees in Food Technology and Nutrition, or Biotechnology, or are guaranteed a place into second year in a Bachelor of Biomedical Science degree in Laboratory Medicine, Pharmaceutical Sciences or Biomedical Science at RMIT.

**Major studies:** Clinical biochemistry, Clinical chemistry, Food hygiene and preservation, Food microbiology, Food science, Genetics, Haematology, Health and nutrition, Histopathology, Microbiology, Molecular biology, Nutritional biochemistry.

**Prerequisites:** Units 3 and 4: a study score of at least 25 in English (EAL) or 20 in English other than EAL; and a study score of at least 20 in any Mathematics.

**Middle-band:** A study score of 20 in one but no more than three of Biology, Chemistry, Maths: Mathematical Methods (CAS), Maths: Specialist Mathematics or Physics equals 1 aggregate point per study.
**Selection Mode:** CY12 : ATAR and middle-band.

**Science-Dean's Scholar Program (HE)**

**RMIT University**

City: 3200332251 (CSP) full-time  
Apply: Through VTAC  
main round

- Bachelor of Science (Dean's Scholar) (Honours): 4 years full time study

**About the course:** This is a selective four year course incorporating an honours year for capable and highly motivated students who want research training through hands-on participation in research projects. Majors in biology, biotechnology, chemistry and physics are available. Students will develop a strong background in their major discipline in the first three years. The course includes mentored participation in research projects in a minimum of two different research groups within the School of Applied Sciences in the second year of the program. In the third year, there is an opportunity to participate in a collaborative research project with industry partners. The final-year includes advanced coursework and an advanced research project taking the equivalent of a whole semester. This course is intended as a pathway into higher degree by research studies.

Further details about this course can be found at [www.rmit.edu.au/appliedsciences](http://www.rmit.edu.au/appliedsciences)

**Major studies:** Biological science, Biotechnology, Chemistry, Physics.

**Prerequisites:** Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL; and a study score of at least 25 in one of Maths: Mathematical Methods (CAS) or Maths: Specialist Mathematics.

**Middle-band:** Satisfactory completion in one but no more than three of Biology, Chemistry, Maths: Specialist Mathematics or Physics equals 2 aggregate points per study.

**Selection Mode:** CY12 : ATAR and middle-band.

NY12 : Educational History including GPA, VTAC Personal Statement (Some). See extra requirements for more information.

**Extra requirements:**

---

**Screen and Media (Film and Television Production) (VET)**

**RMIT University**

City: 3200372784 (Fee type determined by provider) full-time  
Apply: Through VTAC  
main round

- Diploma of Screen and Media: 1 year full time study
- Advanced Diploma of Screen and Media: 1 year full time study

**About the course:** The course aims to develop creative, technical and managerial skills and students will actively engage in productions modelled on team-based industry practice. The diploma offers an introduction to practical screen industry knowledge across a range of subjects that develop skills in screen production. These subjects are designed to equip students with a range of practical skills and knowledge relevant to screen, film, television and digital media industries. Students undertake studies in concept and story development, genre, pre-production, directing, television and video production, and post production.

The advanced diploma reflects the role of individuals who analyse, design and execute judgments using wide-ranging technical, creative, conceptual or managerial skills in the film, television and digital media industries.
Subjects are designed to actively encourage students to deepen valuable skills and knowledge in the key areas of concept development, storytelling, pre-production, production and post-production for single camera and multi-camera productions. Throughout the course, there is a strong emphasis on industry knowledge, collaboration, teambuilding, work readiness and professionalism.

Students will be admitted into the lowest level qualification and will progress, subject to satisfactory academic progress, to the higher qualification levels.

This course is under review and may become an associate degree in 2014.

Further details about this course can be found at www.rmit.edu.au/media

**Major studies:** Cinema studies, Computer animation, Computing (audiovisual), Digital audio and video production, Digital media, Digital television production, Digital video, Digital video camera techniques, Directing (Television), Editing, Film and film studies, Film and television, Film and television (production), Film and video, Lighting, Management, Media, Production lighting, Production planning, Production processes, Recording/mixing processes, Screen production, Screen studies, Screenwriting, Scriptwriting, Sound recording and production, Television and broadcasting, Television production, Video, Video technical direction.

**Prerequisites:** None

**Middle-band:** A study score of 20 in any Information Technology, Media or Studio Arts equals 3 aggregate points per study. A study score of 20 in any English, Interactive Digital Media C, Maths: Further Mathematics or Visual Communication Design equals 2 aggregate points per study. A study score of 20 in Business Management equals 1 aggregate point.

**Selection Mode:** CY12 : ATAR and middle-band.

NY12 : Educational History including GPA, VTAC Personal Statement (All), Work experience (All). See extra requirements for more information.

**Extra requirements:**

VTAC Personal Statement (NY12-All) : NY12 applicants must submit a VTAC Personal Statement and include their reasons for wanting to study the course.

Work experience (NY12-All) : Applicants should also detail any work experience when completing a VTAC Personal Statement.

---

**Screen and Media (Television Production) (VET)**

**RMIT University**

City: 3200373224 (Fee type determined by provider) full-time  
Apply: Through VTAC  
main round

- Certificate IV in Screen and Media: 1 year full time study

**About the course:** This course prepares students for technical and operational roles in broadcast television. The course provides students with a broad range of technical skills in audio visual production, television studio production, digital image manipulation, film and video technical direction, broadcast news camera, video and audio editing software and hardware, location lighting and equipment maintenance.

Further details about this course can be found at www.rmit.edu.au/media

**Major studies:** Audio and video post-production, Audio and video production, Audio visual systems and equipment, Broadcast television production, Computer graphics, Digital audio, Digital television production, Digital video camera techniques, Lighting, Location filming, Post-production and production management, Production lighting, Production planning, Sound, Sound recording and production, Studio and location camera operation, Television, Television transmission operations, Television/studio production, Video technical direction, Vision and sound editing.

**Prerequisites:** None

**Middle-band:** None

**Selection Mode:** CY12 : VTAC Personal Statement (All), Interview (Some). See extra requirements for more information.

NY12 : VTAC Personal Statement (All), Interview (Some), Work experience (All). See extra requirements for more information.
Extra requirements:

VTAC Personal Statement (CY12-All, NY12-All) : Applicants must submit a VTAC Personal Statement and include their reasons for wanting to study the course.

Interview (CY12-Some, NY12-Some) : Short-listed applicants required to attend an interview will be contacted by the University in late October/November. Interviews will be held in early November. Late applicants will be contacted by December if short-listed for an interview. These applicants must attend in December. Overseas or interstate applicants who are unable to attend must email mctafe@rmit.edu.au by 22 November.

Work experience (NY12-All) : Applicants should also detail any work experience when completing a VTAC Personal Statement.

---

**Screenwriting (VET)**

**RMIT University**

City: 3200372854 (Fee type determined by provider) full-time/part-time  Apply: [Through VTAC](http://www.wss8.vtac.edu.au/courses-inst/institutions/topdf/rmit.html) main round

- Advanced Diploma of Professional Screenwriting: 2 years full time study

**About the course:** This course delivers practical training to those wanting to work professionally as screenwriters and script editors. Students are encouraged to develop their creative strengths while learning the broad skills required to write, edit and market scripts for film, TV and digital media. In first year students gain a comprehensive grounding in concept and story development, script analysis and writing techniques. Industry forums provide students with an overview of the industry and information on career management. In second year students have the opportunity to work on their own projects and specialise in areas of interest including film and TV drama, documentary, comedy, children's programs and adaptation. Students also gain valuable work experience through completing an industry placement.

Further details about this course can be found at [www.rmit.edu.au/writingcommunication](http://www.rmit.edu.au/writingcommunication)

**Major studies:** Adaptation, Comedy writing, Documentary writing, Feature and short film screenwriting, Script editing, Television scriptwriting, Writing for digital media.

**Prerequisites:** None

**Middle-band:** None

**Selection Mode:** CY12 : Information kit (All), Interview (Some). See extra requirements for more information.
NY12 : Information kit (All), Interview (Some). See extra requirements for more information.

**Extra requirements:**

Information kit (CY12-All, NY12-All) : All applicants must complete and submit the 2014 RMIT University Screenwriting pre-selection kit by 27 September or 8 November (late applicants only). The kit can be found in the entry requirements section of [www.rmit.edu.au/programs/c6125](http://www.rmit.edu.au/programs/c6125)

Interview (CY12-Some, NY12-Some) : Short-listed applicants required to attend an interview will be contacted by the University via email in November. Interviews will be held in November/December. Overseas or interstate applicants who are unable to attend must email mctafe@rmit.edu.au by 22 November. Advisory letters will be sent to applicants in late December.

Bachelor of Social Work (Honours): 4 years full time study

**About the course:** This course has professional accreditation with the Australian Association of Social Workers and prepares students for effective professional practice in social work and related practice areas leading to employment in human service work, health, and community based agencies. The course combines social work theory and practice with foundation studies in social science. Students may also undertake a social policy sequence, a research sequence and policy and practice electives. In years three and four of the course there will be two semester-long field education placements which can be undertaken interstate or overseas.

Further details about this course can be found at www.rmit.edu.au/socialservices

**Major studies:** Community development, Counselling, Cross-cultural studies, Gender studies, Human rights and advocacy, Indigenous studies, International studies, Organisational studies, Politics, Professional practice, Psychology, Research methods, Social policy, Social sciences, Social theory, Social work, Society.

**Prerequisites:** Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL.

**Middle-band:** A study score of 35 in English (EAL) equals 2 aggregate points. A study score of 30 in English other than EAL equals 2 aggregate points per study.

**Selection Mode:** CY12 : ATAR and middle-band.
NY12 : Educational History including GPA, VTAC Personal Statement (All), Work experience (All). See extra requirements for more information.

**Extra requirements:**
VTAC Personal Statement (NY12-All) : NY12 applicants must submit a VTAC Personal Statement and include their reasons for wanting to study the course.

Work experience (NY12-All) : Applicants should also detail any work experience when completing a VTAC Personal Statement.

Bachelor of Social Work (Honours)/Bachelor of Social Science (Psychology): 5 years full time study

**About the course:** This course is accredited with the Australian Psychological Society and the Australian Association of Social Workers. It provides students with undergraduate qualifications in social work and psychology for employment in the public, private and non-government sectors including human service work, health and community-based agencies.

After a foundation first year in social science, there are two streams. Social Work subjects include social work theory and practice, social policy, and research. Psychology subjects include psychological assessment, counselling psychology, developmental, behavioural, social, and cognitive psychology, and elective choices. Field education includes two 70 day placements, and can be undertaken interstate or overseas.

Further details about this course can be found at www.rmit.edu.au/socialservices

**Major studies:** Gender studies, Human rights and advocacy, Indigenous studies, Organisational studies, Politics, Professional practice, Psychological testing and assessment, Psychology, Psychology (cognitive), Psychology (developmental), Psychology (personality), Psychology (social), Psychopathology, Social policy, Social theory,
Social work, Society.

**Prerequisites:** Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL.

**Middle-band:** A study score of 35 in English (EAL) equals 2 aggregate points. A study score of 30 in English other than EAL equals 2 aggregate points per study.

**Selection Mode:** CY12 : ATAR and middle-band.
NY12 : Educational History including GPA, VTAC Personal Statement (All), Work experience (All). See extra requirements for more information.

**Extra requirements:**
VTAC Personal Statement (NY12-All) : NY12 applicants must submit a VTAC Personal Statement and include their reasons for wanting to study the course.

Work experience (NY12-All) : Applicants should also detail any work experience when completing a VTAC Personal Statement.

- Bachelor of Software Engineering: 4 years full time study

**About the course:** Students learn to design, code, test and manage large quality-measured software systems. They work on operating systems, communications, web software, databases and varied applications and undertake studies in analysis and design, coding and testing.

Students spend an internship year with industry, are assisted in this placement and commonly receive a salary during the year. This course is particularly suited to students with strong communication skills who will work at the interface between a software system and a business organisation. Graduates are employable as software developers and testers, software architects and designers, team leaders, project managers, and in executive level positions in development projects. The course includes core subjects in programming, database systems, software engineering, web programming, data communication and networks, computing theory, and operating systems. In fourth year students undertake a major project as well as advanced software engineering subjects.

**Major studies:** Algorithms and data structures, Artificial intelligence, Computer architecture, Computer operating systems, Database systems, Industrial collaboration and experience, Networks and data communications, Object-oriented design, Object-oriented modelling, Object-oriented programming, Object-oriented software engineering, Operating systems, Problem solving, Programming, Programming (C), Programming (Java), Project management, Software development, Software engineering, Software engineering practices.

**Prerequisites:** Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL; and a study score of at least 25 in one of Maths: Mathematical Methods (CAS) or Maths: Specialist Mathematics.

**Middle-band:** A study score of 35 in English (EAL) equals 1 aggregate point. A study score of 30 in English other than EAL equals 1 aggregate point per study. A study score of 30 in one but no more than three of Software Development, Maths: Mathematical Methods (CAS) or Maths: Specialist Mathematics is considered.

**Selection Mode:** CY12 : ATAR and middle-band.
NY12 : Educational History including GPA, VTAC Personal Statement (Some). See extra requirements for more information.
Extra requirements:
VTAC Personal Statement (NY12-Some) : NY12 (some applicants) who wish other information to be considered must submit a VTAC Personal Statement.

Sound Production (VET)

RMIT University
City: 3200372774 (Fee type determined by provider) full-time  Apply: Through VTAC main round

- Certificate IV in Sound Production: 1 year full time study
- Advanced Diploma of Sound Production: 1 year full time study

About the course: Students learn the theory and practice of studio recording, live sound production and sound reinforcement. Subjects provide a wide range of knowledge and skills applicable to a range of careers in sound production within the specialised recording, live entertainment, games, sound design, television and film industries.

The certificate IV focuses on arming students with the knowledge and skills required for current industry practice around audio technology, focusing on music production. The advanced diploma expands on music production and explores sound for film, television and multimedia, and surround sound.

Students will be admitted into the lowest level qualification and will progress, subject to satisfactory academic progress, to the higher qualification levels.

Further details about this course can be found at www.rmit.edu.au/media

Major studies: Acoustics, Audio production technology, Broadcast sound, Computer music production systems, Dialogue editing, Digital audio, Digital media, Digital technology, Electronic music, Film and television sound production, Film music, Live sound, Music industry, Music technology, Radio production, Sound production, Sound recording, Sound recording and production, Surround sound applications.

Prerequisites: None

Middle-band: None

Selection Mode: CY12 : VTAC Personal Statement (All), Interview (Some), Work experience (All). See extra requirements for more information.

NY12 : VTAC Personal Statement (All), Interview (Some), Work experience (All). See extra requirements for more information.

Extra requirements:
VTAC Personal Statement (CY12-All, NY12-All) : All applicants must submit a VTAC Personal Statement detailing their reasons for wanting to study Sound Production and include details of any hardware or software they have used.

Interview (CY12-Some, NY12-Some) : Short-listed applicants required to attend an interview will be contacted by the University via email in late November. Interviews will be held in November/December. Overseas or interstate applicants who are unable to attend the interview must email mctafe@rmit.edu.au by 22 November. Advisory letters will be sent to applicants by late December.

Work experience (CY12-All, NY12-All) : All applicants must provide a CV and detail any work experience when completing a VTAC Personal Statement.

Statistics (HE)

RMIT University
City: 3200332151 (CSP) full-time/part-time  Apply: Through VTAC main round

</table>
Bachelor of Science (Statistics): 3 years full time study

About the course: Students gain skills and knowledge to prepare for a career in statistics and operations research through statistical and mathematical computation and modelling. Students apply problem-solving and data analysis to industry problems ranging from banking and finance to environmental modelling.

Statisticians are employed often as part of multidisciplinary teams in a range of industries and businesses that require decision making based on data. The environmental, financial, marketing, medical and sporting sectors are some such industries. First year provides foundation studies in statistics and mathematics. Second and third year studies include projects and placements within industry; a focus on statistical analysis and computing; linear models and design of experiments; sampling and quality control; statistical inference; multivariate analysis forecasting; operations research methods and sports statistics. Students also undertake a specialisation in one of finance, marketing or environmental modelling.

Prerequisites: Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL; and a study score of at least 20 in one of Maths: Mathematical Methods (CAS) or Maths: Specialist Mathematics.

Middle-band: A study score of 25 in Maths: Specialist Mathematics equals 5 aggregate points.

Selection Mode: CY12 : ATAR and middle-band.
NY12 : Educational History including GPA, VTAC Personal Statement (Some). See extra requirements for more information.

Extra requirements:
VTAC Personal Statement (NY12-Some) : NY12 (some applicants) who wish other information to be considered must submit a VTAC Personal Statement. Relevant employment and experience will be considered.

Surveying (VET)

RMIT University

Diploma of Surveying: 1 year full time study
Advanced Diploma of Surveying: 1 year full time study

About the course: Students learn about collection, management and presentation of information in land surveying and mapping. They measure, interpret and assess land information for use in the planning, development and regulation of the land, the sea and the built environment.

Graduate outcomes may include paraprofessional work in the land surveying and spatial information industry as land or engineering surveyors, surveying or drafting technicians.

Each qualification is from a nationally recognised training package and comprises core competencies and a selection of other competencies based upon the needs of local industry.

Students will be admitted into the lowest level qualification and will progress, subject to satisfactory academic progress, to the higher qualification levels.

Major studies: Computer applications, Engineering (survey), Global positioning systems (mapping), Occupational health and safety, Plan production (CAD), Project management, Spreadsheet computations, Surveying (CAD), Surveying and mapping computations, Terrain modelling.

Prerequisites: None

Middle-band: None
Selection Mode: CY12: ATAR.
NY12: Educational History including GPA, VTAC Personal Statement (Some). See extra requirements for more information.

Extra requirements:
VTAC Personal Statement (NY12-Some): NY12 (some applicants) who wish other information to be considered must submit a VTAC Personal Statement. Relevant employment and experience will be considered.

City: 3200332823 (IFP) full-time Apply: Through VTAC main round

- Bachelor of Applied Science (Surveying): 4 years full time study

About the course: This course prepares students for the surveying profession. Surveyors practise in a range of areas including engineering and mining surveying, topographical and cadastral surveying, hydrographic surveying, land development, and photogrammetry. Students learn to use specialised equipment and software that will allow them to work on a diverse variety of projects from land subdivision and mining exploration, to tunnel building and major construction.

The first two years cover general aspects of surveying and mapping. Students then study specific fields such as cadastral and engineering surveying, GPS positioning, geodesy, survey network design, land development, geographic information systems, remote sensing, photogrammetry, environmental studies, professional practice and business studies. These are supplemented by specialised higher-level surveying subjects. The course focuses on practical skills through field exercises, survey camps, and 12 weeks of professional experience prior to graduation.

Major studies: Cartography, Geospatial information science, Surveying.

Prerequisites: Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL; and a study score of at least 20 in one of Maths: Mathematical Methods (CAS) or Maths: Specialist Mathematics.

Middle-band: A study score of 25 in one but no more than three of any Information Technology, Maths: Specialist Mathematics or Physics equals 2 aggregate points per study.

Selection Mode: CY12: ATAR and middle-band.
NY12: Educational History including GPA, VTAC Personal Statement (Some). See extra requirements for more information.

Extra requirements:
VTAC Personal Statement (NY12-Some): NY12 (some applicants) who wish other information to be considered must submit a VTAC Personal Statement. Relevant employment and experience will be considered.

**Teaching Practice (Primary Education) (GET)**

**RMIT University**

Bundoora: 3200210011 (CSP) full-time Apply: Through VTAC main round

Bundoora: 3200210012 (DFP) full-time Apply: Through VTAC main round

Master of Teaching Practice (Primary Education): 2 years full time study

About the course: This course prepares graduates from other disciplines to teach in a range of primary school settings. Students will undertake a sequence of studies over two years (full-time) that provides a qualification in primary education with options to gain experience in research and/or further, practice-based study.

Students complete eight subjects in each year (full-time) with a focus on contemporary approaches to teaching and learning. Subjects within the course promote the importance of working with colleagues and stakeholders, an appreciation of diversity, evidence-based decision making and reflective practice. Students undertake professional studies in education including discipline-specific curriculum and pedagogical studies, general education studies, and professional experience. A feature of this course is the integration of discipline knowledge with the curriculum and pedagogical knowledge needed to teach at this level.

Professional experience is an integral component of this course. Students undertake a minimum of 60 days of supervised practicum in a variety of primary school settings including one placement with a focus on the use of information and communication technologies to promote learning.

For additional information please see www.rmit.edu.au/programs/mc219

All offers are provisional pending sighting of an original/certified copy of a recognised undergraduate degree course completion statement.

To register with the Victorian institute of Teaching (VIT), all applicants who did not complete their initial tertiary qualification in English at an approved institution in Australia, Canada, New Zealand, the Republic of Ireland, the United Kingdom or the United States of America need an academic IELTS of 7.5 with no individual band score less than 7.0 with a score of 8.0 in speaking and listening.

Double teaching areas
210: Primary

Prerequisites: Bachelor Degree

Selection Mode: NY12: Educational History including GPA, English language test (Some). See extra requirements for more information.

Extra requirements:

English language test (NY12-Some): All applicants who did not complete their initial tertiary qualification in English at an approved institution in Australia, Canada, New Zealand, the Republic of Ireland, the United Kingdom or the United States of America need to complete an English test.

(Minimum scores required for IELTS academic are Speaking=8.0, Writing=7.0, Reading=7.0, Listening=8.0, and Overall=7.5)

SUCCESSFUL APPLICANTS: WWC Check: Successful applicants will be required to complete a valid Working With Children Check prior to commencing this course.

Teaching Practice (Secondary Education) (GET)

RMIT University

Bundoora: 3200210021 (CSP) full-time  Apply: Through VTAC  main round
Bundoora: 3200210022 (DFP) full-time  Apply: Through VTAC  main round
Bundoora: 3205210021 (CSP) part-time  Apply: Through VTAC  main round
Bundoora: 3205210022 (DFP) part-time  Apply: Through VTAC  main round

- Master of Teaching Practice (Secondary Education): 2 years full time study
**About the course:** This course prepares graduates from other disciplines to teach in at least two discipline areas offered in secondary school settings, that is, Years 7 to 12. Students will undertake a sequence of studies over two years (full-time) that provides a qualification in secondary education with options to gain experience in research and/or further practice-based study.

Students complete eight subjects in each year (full-time) with a focus on current issues in secondary schooling and contemporary approaches to teaching and learning for young people. Subjects within the course promote the importance of working with colleagues, an appreciation of diversity, evidence-based decision making and reflective practice. Students undertake professional studies in education including discipline-specific curriculum and pedagogical studies (methods), general education studies, and professional experience.

Professional experience is an integral component of this course. Students undertake a minimum of 60 days of supervised placement in a range of secondary school settings including one with a focus on the use of information and communication technologies to promote learning.

For additional information please see www.rmit.edu.au/programs/mc220

All offers are provisional pending sighting of an original/certified copy of a recognised undergraduate degree course completion statement.

To register with the Victorian Institute of Teaching (VIT), all applicants who did not complete their initial tertiary qualification in English at an approved institution in Australia, Canada, New Zealand, the Republic of Ireland, the United Kingdom or the United States of America need an academic IELTS of 7.5 with no individual band score less than 7.0 with a score of 8.0 in speaking and listening.

**Single teaching areas**
- 172: Biology
- 173: Chemistry
- 121: English
- 122: English as a Second Language
- 162: Health
- 192: Home Economics
- 134: Humanities
- 141: Languages Other Than English (LOTE)
- 178: Mathematics
- 135: Media Studies
- 164: Physical Education
- 181: Physics
- 165: Psychology
- 182: Science
- 138: Studies Of Society And Environment (SOSE)

**Notes**
- 1: Applicants must check their eligibility for teaching areas through the Victorian Institute of Teaching Specialist Area Guidelines - www.vit.vic.edu.au

**Prerequisites:** Bachelor Degree

**Middle-band:** None

**Selection Mode:** NY12 : Educational History including GPA, English language test (Some). See extra requirements for more information.

**Extra requirements:**
- English language test (NY12-Some) : All applicants who did not complete their initial tertiary qualification in English at an approved institution in Australia, Canada, New Zealand, the Republic of Ireland, the United Kingdom or the United States of America need to complete an English test.
  (Minimum scores required for IELTS academic are Speaking=8.0, Writing=7.0, Reading=7.0, Listening=8.0, and Overall=7.5)

**SUCCESSFUL APPLICANTS:** WWC Check: Successful applicants will be required to complete a valid Working With Children Check prior to commencing this course.

---

**Telecommunications (VET)**
A document contains information about the Certificate IV in Telecommunications Networks Technology at RMIT University. The course provides knowledge and skills relating to principles of telecommunication signalling, concepts to evaluate the telecommunication network, design and optical communication, and develops diagnostic skills associated with network cabling. It also includes Cisco Certified Network Associate (CCNA) (Exploration) certification training leading to international recognition. The course is structured to deliver competency units in areas of internet cloud, circuit and packet switching, wireless communications, copper and fibre cabling, customer access networks, customer premises equipment, broadband networks and network functional groups. Some graduates may become technical officers or engineering technicians in telecommunication systems and communication networks.

Major studies: Cabling, Cabling (copper and fibre), Electronic systems, Engineering (communication), Engineering (telecommunications), Fibre optical technology, Internet telecommunications, Internetworking, Mobile communications, Network engineering, Network management and network systems, Networks and data communications, Radio communication, Software applications, Switched internetworks, Technology and communications, Telecommunications, Telecommunications (systems and networks), Telecommunications (transmission systems), Wireless technologies.

Prerequisites: None

Middle-band: None

Selection Mode: CY12: ATAR.
NY12: Educational History including GPA, VTAC Personal Statement (Some), Test (Some). See extra requirements for more information.

Extra requirements:
VTAC Personal Statement (NY12-Some): NY12 (some applicants) who wish other information to be considered must submit a VTAC Personal Statement. Relevant work experience and/or employment in the telecommunications industry will be considered.
Test (NY12-Some): Applicants who do not have a year 12 qualification or relevant work experience and/or employment in the telecommunications industry, must undertake a test. Applicants must telephone (03) 9925 4468 by no later than 1 October to arrange an appointment. Tests will be held in October/November.

---

Tertiary Preparation (Media) (VET)

RMIT University

City: 3200372584 (Fee type determined by provider) full-time Apply: Through VTAC main round

- Certificate IV in Tertiary Preparation: 1 year full time study

About the course: Students develop academic literacies, study skills, knowledge and confidence required to access and participate in higher-level qualifications and enhance further career prospects in screen, media and digital media. Completion of this course can provide pathways into diplomas in interactive media, screen and media, and the Associate Degree in Screen and Media.

Further details about this course can be found at www.rmit.edu.au/programs/c4327

Major studies: 2D animation, 3D animation, Academic reading, Academic research, Animation, Audio sound, Collaborative and independent learning, Digital media, Drawing, Essay and report writing, Film and screen production, Pathways planning, Speaking and presentation skills, Study management, Video editing and production.

Prerequisites: None

Middle-band: None
**Tertiary Preparation (Science) (VET)**

**RMIT University**

City: 3200317554 (Fee type determined by provider) full-time  
Apply: [Through VTAC](http://www.wss8.vtac.edu.au/courses-inst/institutions/topdf/rmit.html) main round

- Certificate IV in Tertiary Preparation: 0.5 year full time study

**About the course:**  Students develop academic literacies, study skills, knowledge and confidence required to access and participate in higher level qualifications and enhance career prospects in the science field. Completion of this course can provide a pathway into diplomas in nursing, laboratory technology (biotechnology or pathology collection), dental technology, conservation and land management for those who may not meet the entry requirements.

Further details about this course can be found at [www.rmit.edu.au/programs/c4327](http://www.rmit.edu.au/programs/c4327)

**Major studies:**  Academic reading, Academic research, Biology, Chemistry, Collaborative and independent learning, Ecology, Essay and report writing, Laboratory, Mathematics, Pathways planning, Speaking and presentation skills, Study management.

**Prerequisites:**  None

**Middle-band:**  None

**Selection Mode:**  CY12: ATAR.

NY12: Educational History including GPA, VTAC Personal Statement (All), Work experience (All). See extra requirements for more information.

**Extra requirements:**  
VTAC Personal Statement (NY12-All): NY12 applicants must submit a VTAC Personal Statement and include their reasons for wanting to study the course.

Work experience (NY12-All): Applicants should also detail any work experience when completing a VTAC Personal Statement.

**Textile Design (HE)**

**RMIT University**

Brunswick: 3200132211 (CSP) full-time  
Apply: [Through VTAC](http://www.wss8.vtac.edu.au/courses-inst/institutions/topdf/rmit.html) main round

Brunswick: 3200132213 (IFP) full-time  
Apply: [Through VTAC](http://www.wss8.vtac.edu.au/courses-inst/institutions/topdf/rmit.html) main round
Bachelor of Arts (Textile Design): 3 years full time study

**About the course:** Students gain the necessary knowledge and skills to be internationally attuned and creative textile designers with the capacity to work across the fashion, interiors and graphics disciplines. Students acquire a range of creative and practical skills for the local and global textile and fashion industries. Specialist areas include fashion for the body and textiles for the home with projects linked to bed linen and home wares, lifestyle, forecasting, and product development.

Digital textile design, studio design and theory-based subjects allow students to develop a passport of professional skills directed towards surface pattern and constructed textile disciplines. Students may also pursue areas of special interest through university elective subjects. Compulsory work integrated learning (WIL) is undertaken in the final year of the course with industry projects starting from year two in the print, weave and knit disciplines.

Further details about this course can be found at www.rmit.edu.au/fashiontextiles

**Major studies:**
- Body space surface and structure projects
- Colour and repeat design
- Design and development projects
- Digital textile design
- Drawing
- Knitting and weaving
- Printing
- Sustainable product development (textiles)
- Team based research projects
- Textile culture and practice
- Textile industry engagement
- Textile materiality and principles

**Prerequisites:**
Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL.

**Selection Mode:**
- CY12: Folio (All), Interview (Some). See extra requirements for more information.
- NY12: Folio (All), Interview (Some). See extra requirements for more information.

**Extra requirements:**
Folio (CY12-All, NY12-All): Applicants must contact fashionandtextiles@rmit.edu.au to book a folio assessment session. NY12 applicants must book by 28 September and are required to attend on 12 October. CY12 and late NY12 applicants must book by 31 October and are required to attend on 28 November or 3 December. Interstate or overseas applicants must email fashionandtextiles@rmit.edu.au to make alternative arrangements. Applicants must include their full name and VTAC application number in all correspondence.

Interview (CY12-Some, NY12-Some): (short-listed and exempt applicants only): Applicants required to attend will be notified by the University via email by 5.00 pm, 6 December. Applicants contacted must attend as assigned on 11, 12, or 13 December.

**Notes:**
(i) Applicants who have successfully completed two years or more of tertiary study in a fashion design-oriented discipline may be exempt from the folio assessment session. These applicants must email details of their completed tertiary study to fashionandtextiles@rmit.edu.au by 12.00 Noon, 1 November.

(ii) Applicants applying for other RMIT Fashion and Textiles courses, which also require attendance at a folio assessment session, will only be required to book once.

(iii) Folio details can be found at www.rmit.edu.au/programs/bp121

---

**Textile Design and Development (VET)**

**RMIT University**
Brunswick: 3200172324 (Fee type determined by provider) full-time  **Apply:** Through VTAC  main round

- Diploma of Textile Design and Development: 2 years full time study

**About the course:** Using simulated industry facilities to undertake textile design briefs, students have the opportunity to develop their colour, drawing, design and computer skills to plan, develop and produce screen printed, machine knitted or woven fabrics. Students will research sustainable practice and create experimental samples using a range of materials and processes including laser cutting, dye techniques and fabric manipulation.

Industry design briefs involve researching a theme, developing a collection and producing a range of textiles to technical specifications for fashion, home wares, interiors and craft applications. The projects also address costing textile production, marketing products and using a variety of methods to communicate design concepts.

This course is offered as full time study only.
Further details about this course can be found at www.rmit.edu.au/fashiontextiles

**Major studies:** Colour studies, Computer-aided design (CAD), Design and production (Textiles), Drawing, Experimental textiles, Fibres and fabrics, Machine knitting, Marketing, Screen printing, Textile design influences, Textile design specifications, Weaving.

**Prerequisites:** None

**Middle-band:** None

**Selection Mode:** CY12 : Folio (All). See extra requirements for more information. NY12 : Folio (All). See extra requirements for more information.

**Extra requirements:**
Folio (CY12-All, NY12-All) : Applicants must contact fashionandtextiles@rmit.edu.au to book a folio assessment session. NY12 applicants must book by 28 September and are required to attend on 12 October. CY12 and late NY12 applicants must book by 31 October and are required to attend on 28 November or 3 December. Interstate or overseas applicants must email fashionandtextiles@rmit.edu.au to make alternative arrangements. Applicants must include their full name and VTAC application number in all correspondence.

Notes:
(i) Applicants applying for other RMIT Fashion and Textiles courses, which also require attendance at a folio assessment session, will only be required to book once.
(ii) Folio details can be found at www.rmit.edu.au/programs/c5213

---

**Textile Design and Development (VET)**

**RMIT University**
Brunswick: 3205172374 (Fee type determined by provider) part-time   **Apply:** Through VTAC   main round

- Certificate IV in Textile Design and Development: 1.5 year full time study

**About the course:** Using simulated industry facilities to undertake textile design briefs, students have the opportunity to develop their colour, drawing, design and computer skills to plan, develop and produce screen printed, machine knitted or woven fabrics. Students will research sustainable practice and create experimental samples using a range of materials and processes including laser cutting, dye techniques and fabric manipulation. Industry design briefs involve developing a collection of textiles designs to technical specifications for fashion, home wares, interiors and craft applications.

This course is offered for part time study only.

Further details about this course can be found at www.rmit.edu.au/fashiontextiles

**Major studies:** Colour studies, Computer-aided design (CAD), Drawing, Dyes and colouration, Experimental textiles, Fibres and fabrics, Industry practice, Machine knitting, Marketing, Screen printing, Textile design influences, Weaving.

**Prerequisites:** None

**Middle-band:** None

**Selection Mode:** CY12 : Folio (All). See extra requirements for more information. NY12 : Folio (All). See extra requirements for more information.

**Extra requirements:**
Folio (CY12-All, NY12-All) : Applicants must contact fashionandtextiles@rmit.edu.au to book a folio assessment session. - Bachelor of Urban and Regional Planning (Honours): 4 years full time study

About the course: Urban and regional planning is more than just creating physical environments - it's a way of sustainably changing and shaping the world.

Students learn to understand all the influences that affect the way we live, work, play and commute and the many other considerations involved in creating sustainable and liveable cities and regions. Students engage in key areas of planning including land use, transport, conservation and policy.

This course is suitable for anyone with a passion for geography, urban design, history, economics, politics or environmental studies.

Students have the option of studying overseas in countries with progressive planning systems and participating in international study tours. In fourth year students undertake a paid employment placement.

As cities continue to grow, so does the need for more planners. Graduates build careers in areas such as urban design, consulting, property development, community health and welfare, housing and transport planning.

Further details about this course can be found at www.rmit.edu.au/environmentplanning

Major studies: Climate change impacts, Community development, Economics, Policy studies, Politics, Professional practice, Property, Regional planning, Research methods, Social research methods, Society, Sustainable development, Transport policies, Urban design, Urban planning.

Prerequisites: Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL.

Middle-band: A study score of 30 in Environmental Science, Geography, Legal Studies, Australian Politics or Global Politics equals 2 aggregate points per study.

Selection Mode: CY12 : ATAR and middle-band.

NY12 : Educational History including GPA, VTAC Personal Statement (All), Interview (Some), Work experience (All). See extra requirements for more information.

Extra requirements:

VTAC Personal Statement (NY12-All) : NY12 applicants must submit a VTAC Personal Statement and include their reasons for wanting to study the course, demonstrating an awareness of current issues in urban planning, and the personal strengths and attributes they will bring to the course.

Interview (NY12-Some) : Applicants required to attend an interview will be contacted by the University via telephone or email. Interviews will be held in October/November. Applicants must note that short-listing for interview will be based on what has been submitted in the VTAC Personal Statement.

Work experience (NY12-All) : NY12 applicants should also detail any work experience when completing a VTAC Personal Statement.

Visual Art (VET)
Diploma of Visual Arts: 1 year full time study
Advanced Diploma of Visual Arts: 1 year full time study

About the course: Students develop the specific knowledge and skills required to undertake work as a visual artist who works independently or within specialised organisations. This course allows students to explore their unique talents and develop their artistic skills, putting them on the path to a successful career in the visual arts industry.

The advanced diploma allows further investigation into the student's own creative practice within a more specialised focus. Students undertake independent studio practice and develop wide-range and highly specialised technical, creative and conceptual visual art skills and knowledge.

The diploma and advanced diploma courses prepare students for a career as visual artists or in other creative fields, as well as for further study in related fields.

Students will be admitted into the lowest level qualification and will progress, subject to satisfactory academic progress, to the higher qualification levels.

Further details about this course can be found at www.rmit.edu.au/art

Major studies: Art theory, Digital imaging, Drawing, Painting, Printmaking, Public art, Sculpture.

Prerequisites: None

Selection Mode: CY12: Information kit (All), Folio (Some). See extra requirements for more information.
NY12: Information kit (All), Folio (Some). See extra requirements for more information.

Extra requirements:

Information kit (CY12-All, NY12-All): All applicants must complete and submit the 2014 RMIT University Visual Art pre-selection kit by 8 November. The kit can be found in the entry requirements section of www.rmit.edu.au/programs/c5308

Folio (CY12-Some, NY12-Some): Folio presentation (short-listed applicants only): Applicants required to attend will be notified by the University by email in November. These applicants must attend in late November/early December. Advisory letters will be sent to applicants by mid-December.

---

Diploma of Visual Merchandising: 1.5 year full time study

About the course: This course prepares students to be work ready for creative roles in the retail, exhibition, event and photo styling industries. Students will learn to design and create dynamic displays and presentations in a hands-on learning environment.

Training focuses on creating stimulating and engaging environments and presentations and displays to enhance the promotion and sale of products and services. Visual merchandising has become an essential element in these industries and is an important part of the creative marketing mix. Many elements are used by visual merchandisers when creating displays and presentations including colour, lighting, space and product information, along with sensory inputs such as smell, touch and sound, and the use of new media and technologies for the creation of digital displays and interactive installations.

The course delivers hands-on curriculum by practicing professionals. Industry briefs and industry mentoring of students are very active in the second year.

An information session will be held on Sunday 11 August and Thursday 10 October. See www.rmit.edu.au/visualmerch for details. Please note this course is undergoing a review in 2013 and may change to an associate degree in 2014.
Further details about this course can be found at www.rmit.edu.au/designafe

**Major studies:** 3D modelling, Colour, Computer-aided design (CADD), Design (3D), Digital imaging, Exhibition design, Illustration, Lighting, Merchandise presentation, Photo styling, Photography, Retail design, Store design, Technical drawing, Visual merchandising.

**Prerequisites:** None

**Middle-band:** None

**Selection Mode:** CY12: Folio (All). See extra requirements for more information.

NY12: VTAC Personal Statement (All), Folio (All). See extra requirements for more information.

**Extra requirements:**
VTAC Personal Statement (NY12-All): NY12 applicants must submit a VTAC Personal Statement and include their reasons for wanting to study the course.

Folio (CY12-All, NY12-All): All applicants must submit a folio via email to design.afe@rmit.edu.au. NY12 applicants must submit their folio by 31 October. CY12 students must submit their folio by no later than 8 November. Folio specifications are available at www.rmit.edu.au/programs/c5325

Some applicants may be contacted by the University in mid-November to present their folio at a folio presentation. Folio presentations will take place in late November. Advisory letters will be sent by mail in mid-December.

- Bachelor of Social Science (Youth Work): 3 years full time study

**About the course:** Study in Australia's longest running Youth Work course. Students acquire knowledge and skills in a professional course based on ethical conduct and a commitment to the development, wellbeing and human rights of young people. They learn about social, cultural, environmental and political factors that impact on young people and their place in society and apply this knowledge to practice in local and international youth work settings. Students do project-based work and supervised placements in agencies that work with young people, making valuable contributions to youth sector agencies and gaining on-the-job and industry-based experience. Our students have worked with project teams in partner organisations in the Asia-Pacific, Europe and the USA. Youth workers are employed in a range of settings including community, youth justice and crisis centres, school support programs, disability services, and education, training and research.

Further details about this course can be found at www.rmit.edu.au/youthwork

**Major studies:** Advocacy, Case management, Community development, Community services, Community work, Counselling, Legal and justice studies, Organisational studies, Politics, Professional practice, Research methods, Social sciences, Society, Sociology, Youth policy, Youth work.

**Prerequisites:** Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL.

**Middle-band:** A study score of 25 in Health And Human Development, any LOTE, Legal Studies, Australian Politics, Global Politics, Psychology or Sociology equals 2 aggregate points per study. Overall maximum of 6 points.

**Selection Mode:** CY12: ATAR and middle-band.

NY12: Educational History including GPA, VTAC Personal Statement (All), Work experience (All). See extra
requirements for more information.

Extra requirements:

VTAC Personal Statement (NY12-All): NY12 applicants must submit a VTAC Personal Statement and include their reasons for wanting to study the course.

Work experience (NY12-All): Applicants should also detail any work experience when completing a VTAC Personal Statement.

**Youth Work (VET)**

**RMIT University**

City: 3200372464 (Fee type determined by provider) full-time  
Apply: Through VTAC main round

- Certificate IV in Youth Work: 1 year full time study

**About the course:** Students gain the skills and knowledge necessary to make a real difference to a young person’s life. The role of a youth worker is diverse, offering many challenging career opportunities. The course combines workshops, field trips and 240 hours of practical experience. Students are exposed to and educated in the myriad of aspects of working with and supporting young people aged 10 to 25. Over the course of the year students are exposed to teachers who are experienced and highly skilled professionals currently working in the youth work sector.

Further details about this course can be found at [www.rmit.edu.au/youthwork](http://www.rmit.edu.au/youthwork)

**Major studies:** Case management, Community development, Crisis intervention, Effective communication, Legal and ethical issues, Mental health, Work placement, Youth work.

**Prerequisites:** None

**Middle-band:** None

**Selection Mode:** CY12: VTAC Personal Statement (All), Interview (All), Work experience (Some). See extra requirements for more information.

NY12: VTAC Personal Statement (All), Interview (All), Work experience (Some). See extra requirements for more information.

**Extra requirements:**

VTAC Personal Statement (CY12-All, NY12-All): All applicants must submit a VTAC Personal Statement outlining their reasons for wanting to study youth work, their intended career path and the personal strengths and attributes they will bring to the course.

Interview (CY12-All, NY12-All): Applicants who have submitted a VTAC Personal Statement will be contacted by the University in October/November to attend an interview. Interviews will be held in November/December. Applicants who have not submitted a VTAC Personal Statement will not be interviewed.

Work experience (CY12-Some, NY12-Some): Applicants should also detail any work experience when completing a VTAC Personal Statement.

SUCCESSFUL APPLICANTS: Police Check: Students must successfully complete a National Police Records Check before undertaking work placements. WWC Check: Students must hold a valid Working With Children card before undertaking work placements that involve working with children.
SAE Institute

Founded in 1976, SAE is unquestionably the world's largest entertainment technology and creative media institute offering courses in Audio Engineering and Digital Film Production. With a global reputation for excellence in professional education at over 55 locations worldwide, SAE's qualifications are recognised internationally. The SAE group also includes Qantm College and some of the largest commercial recording studios in the world, including the world famous 301. SAE students have gone on to work for some of Australia's largest studios, post-production companies and game developers with SAE graduates being in high demand all over the world.

SAE Institute's South Melbourne campus boasts an extensive range of professional audio production suites with seven high-end mixing and mastering studios including Australia's only AMS Neve Genesys, the world's largest TLA Valve console and DigiDesign Control surfaces amongst others. SAE Institute Melbourne also houses three large sound stages and extensive facilities for digital film, including a full-size Green Screen and professional multi-purpose TV Studio.

These days with the entertainment industry constantly changing, and technical equipment becoming more advanced than ever before, budding production staff need access to the best possible training and facilities, and no one offers a more up-to-date and comprehensive training facility than SAE Institute, Melbourne.

SAE qualifications range from Diploma to Degree level and are fully FEE-HELP and AUSTUDY approved. Places in all courses are limited and fill quickly, so it is vital to get enrolments in early.

Services

Accommodation

Although the SAE Institute Melbourne campus doesn't provide accommodation for students, we have some great contacts to ensure students find the best possible accommodation for their needs during their stay in Melbourne. When students first arrive, they may initially
wish to stay in a hotel, backpackers? hostels, or nearby student-specific residences. Many students later decide to rent or share an apartment or house. For more information: http://melbourne.sae.edu/en-gb/content/6757/Your_Campus_-_SAE_Melbourne

Disability Services
The Institutions are committed to providing equal opportunities for students with disabilities or special learning needs and promotes strategies to develop a flexible teaching and learning environment, which is able to meet the needs of a diverse range of students. If you have a disability or special learning needs, you are encouraged to discuss your requirements with your Student Services Advisor, Campus Academic Coordinator or Campus Manager and to provide information (including medical or other professional advice) regarding the nature of any disability or special needs during your application and enrolment process. It is important that you provide the Institutions with these details as early as possible so that we can assess your support needs and ensure you are able to succeed in your chosen course of study.

For more information: http://melbourne.sae.edu/en-gb/content/6385/Your_Support_Services

Student Support
At SAE/Qantm we’re not only interested in what you're learning but the total experience of student life? from where you stay to how much it will cost to live and eat, how to get from A to B, plus local services and what to do for fun! And it’s not just for students new to the area, we’ll help guide and keep you on track from your initial enquiry to enrolment, orientation, figuring out your timetable, navigating the campus, assignments, exams and finally graduation! If you’re thinking this all sounds too good to be true - we’ve got the bumps, hiccups, stumbles, falls and epic fails covered too! We are committed to providing quality, tailored services and programs that contribute to positive personal, academic and career outcomes for domestic, interstate and international students. We strive to maintain and enhance strategies to assist students from all backgrounds to succeed at all stages of the student life cycle. For more information: http://melbourne.sae.edu/en-gb/content/6385/Your_Support_Services

International Student Study
Please feel free to email melbourne@sae.edu or call 03 8632 3400 for further details For more information: http://melbourne.sae.edu/en-gb/content/130/Entry_Requirements_-_International

Audio Production (Degree) (HE)

SAE Institute
Melbourne: 9970199732 (DFP) full-time Apply: Through VTAC main round
Melbourne: 9970199733 (IFP) full-time Apply: Through VTAC main round

- Bachelor of Audio Production: 2 years full time study

About the course: The audio industry is continuously changing, multifaceted and dynamic. SAE has been offering outstanding courses in audio since 1976. We know what the industry demands and we have the expertise to give you the skills you need.

Bachelor of Audio Production

Concentrating on all aspects of audio production this degree is a comprehensive, internationally recognised qualification designed to give you the practical skills and theoretical knowledge to build a successful career in audio.
You will undertake specialised study including:
- Recording
- Mixing
- Mastering
- Acoustics and live sound production
- Applications of current technologies
- Business acumen

You will learn and master all technical and creative aspects of the recording process and work on complex projects in a range of professional studio environments.

Be a:
- Studio Engineer,
- Music Producer,
- Studio Manager,
- Electronic Musician

**Major studies**: Acoustics, Audio technology, Business studies, Communication technology, Digital audio, Electronics, Marketing (promotions), Music promotion and marketing, Music styles, Music theory, Musical Instrument Digital Interface (MIDI), Post-production and production management, Signal processing, Sound recording and production.

**Prerequisites**: None

**Middle-band**: None

**Selection Mode**: CY12 : Interview (All). See extra requirements for more information.
NY12 : Interview (Some). See extra requirements for more information.

**Extra requirements**:
Interview (CY12-All, NY12-Some) : Interview: Applicants must phone (03) 8632 3400 to arrange an interview. (Interviews will be started in October 2013 to early January 2014). Interview bookings will be available in October.

- Bachelor of Film Production: 2 years full time study

**About the course:** The dynamic and multifaceted film and television industry needs talented and creative specialists with high-level skills and in-depth knowledge. SAE offers you specialised courses in Film, taught by a team of dedicated, and highly experienced industry professionals. Get the training you need to launch your career in film.

Bachelor of Film Production

In this intensive 2-year degree you will gain expertise in all aspects of the filmmaking and production processes. You will experience innovative and hands-on learning designed to boost your creative confidence and artistic independence.

You will undertake specialised study in:
- Modern production and directing techniques
- Video post-production
- Digital film editing using industry standard software
- Cinematography
- Camera and lighting techniques

This fully accredited degree will thoroughly prepare you with the skills and knowledge you need to embark on an exciting career in the film and television industry.

Be a:
- Director
- Producer
- Editor
- Cinematographer
- Documentary Filmmaker
- Production Manager
- Production Coordinator

**Major studies:** Audio and video production, Business (marketing), Communication technology, Digital imaging, Directing (Television), Film studies, Marketing (promotions), Music video production, Postproduction for film and video, Screenwriting, Special effects, Television/studio production.

**Prerequisites:** None

**Middle-band:** None

**Selection Mode:** CY12: Interview (All). See extra requirements for more information.
NY12: Interview (Some). See extra requirements for more information.

**Extra requirements:**
Interview (CY12-All, NY12-Some): Interview: Applicants must phone (03) 8632 3400 to arrange an interview. (Interviews will be started in October 2013 to early January 2014). Interview bookings will be available in October.

**Extra requirements:**

Interview (CY12-All, NY12-Some): Interview: Applicants must phone (03) 8632 3400 to arrange an interview. (Interviews will be started in October 2013 to early January 2014). Interview bookings will be available in October.
Sage Institute of Education offers excellence in its courses to its students taught in its various courses by Industry Leaders in their field. The Sage Institute encompasses Sage Institute of Massage, Sage Institute of Aged Care and Sage Institute of Child Care.

Our philosophy is a simple one—we aim to provide world class tertiary education that will empower our students to succeed, become leaders in their industry, and be the very best practitioners they can be in their chosen field. Offering Certificate and Diploma courses that go far beyond the industries minimum requirements we produce graduates that are ready to enter their profession with confidence and knowledge. Our Vision is to transform lives through innovative, rigorous and compassionate approach to education. This means that we continually strive to strengthen and improve the positive impact we have on our students and community: transforming their lives, as well as our own, through our work we will become known nationally as an institution that makes a difference and offers our students not just jobs but rewarding careers. We also continually strive to innovate—finding new and more effective ways to educate and serve students and sustain rigor in our work—holding high standards and expectations for both our students and for ourselves and finally we approach our work with compassion—acknowledging the whole person, working with integrity and caring, accepting people where they are and moving them forward without sacrificing standards or expectations; bringing joy, honesty, and understanding to our work.

The Sage Institute has an unrivalled reputation for the quality of its teaching. Specialising in accelerated learning techniques, our unique approach is designed to fast-track our students to a successful and rewarding career. We also provide ample flexibility to fit with busy lifestyles, offering courses both during the day-time, or evening and weekends.

Applicants with special needs
If you have any special needs, please let us know during your enrolment process. We will do our best to provide you with additional support during your journey and assist you to source external support if required.

Student Services
If you are struggling with part of our program or have any personal challenges that may affect your study, you can make a time with the Training Team Leader to discuss your issues. Sage Institute of Education will provide you with additional support to help you with your studies and/or refer you to an external professional organisation for guidance. All communications will be kept in strict confidence. For more information contact one of the Sage Career Advisors on 1300 833 855.

- Certificate IV in Massage Therapy Practice: 0.5 year full time study
- Diploma of Remedial Massage: 0.5 year full time study

About the course: The Certificate IV provides students with essential techniques of relaxation massage, incorporating sports massage and business practices, teaching the practical foundations of massage practice. Students gain a thorough knowledge of various massage techniques, pain referral and trigger points. The in-house massage clinic allows students the opportunity to practise. This qualification provides graduates with the skills to enter the health care field as a massage therapist. The Diploma focuses on skills in massage therapy through assessment and treatment techniques and the diagnosis and treatment of specific areas. The Certificate IV is the prerequisite to study the higher-level qualification, which provides content likened to the assessment and treatment offered by an osteopath or physiotherapist at the paraprofessional level.

Students learn to apply a range of treatments for relief and can gain full membership with industry associations and private health providers.

Prerequisites: None

Middle-band: None

Southern School of Natural Therapies

Southern School of Natural Therapies (SSNT) is the longest established natural therapies college in Australia. SSNTs mission is to contribute to the optimal health and wellbeing of the community through the design and delivery of professional level courses of the highest standard in complementary and alternative medicine.

Established in 1961, SSNT offers courses in Naturopathy, Nutritional Medicine, Western Herbal Medicine, Chinese Medicine, Clinical Myotherapy and Massage. Our staff include many of the country's leading lecturers and practitioners, all with substantial experience in their respective areas of expertise.

SSNT delivers practical training in a nurturing environment. Students are trained to observe, and eventually practice in our on-campus Wellbeing Clinic, which offers a variety of natural therapies treatments to members of the general public. Students also have the opportunity to experience external placements, broadening their experience and knowledge.

The School has played a leading role in the development of complementary medicine both in our part of the world and internationally and is widely respected within the natural therapies industry.

Student Life

Student Life at SSNT encourages students to interact, participate in fun activities and feel welcomed into the student community. Open communal spaces, including a rooftop garden, provides a relaxed setting for students to study or meet with others. Weekly wellness classes are available to students encouraging health and wellbeing. The SRC lead a number of activities and projects throughout the year, while the School's industry engagement program provides networking, seminars and workshops - allowing students to make contact with industry bodies in preparation for a career in the health industry.

Campus Location

The School is located in the heart of Fitzroy's vibrant Brunswick Street district and is a short tram ride or easy walk to the Melbourne CBD. Ample accommodation options exist in the surrounding Fitzroy area and other inner-city suburbs such as Carlton, Collingwood and Richmond.

Facilities

- Computer facilities - access to computers across campus, as well as broadband and wireless Internet access.
- Massage rooms - High quality, electrically height adjustable massage tables.
- Herb garden - An off campus space for hands-on experience of herbal medicine.
- Student rooftop - a common area for students to socialise, relax and retreat for study breaks. There is also a kitchen and comfortable indoor and outdoor seating for student use.
- Alfred Jacka library - one of the most extensive collections of natural medicine resources in Australia, as well as research facilities and quiet study and relaxation areas.

Selection policies

Entrance Requirements: VTAC Peronal Statement

Applicants submitting a VTAC Personal History online as
part of extra requirements should include details of educational, employment and interests relevant to the fields of study for which they are applying.

For more information: http://ssnt.edu.au/student-info/how-to-apply

**Entrance Requirements: Interview**

All applicants to the Southern School of Natural Therapies (including VTAC applicants) are required to undertake an admission interview prior to successful offer. The purpose of the admissions interview is to assess the applicants suitability and commitment to the course. The interview also gives prospective students an opportunity to clarify details about their course and their enrolment and to receive an application form.

For more information: http://www.ssnt.edu.au/student-info/how-to-apply

**FEE-HELP available**

Most Australian citizens are eligible for Commonwealth Government assistance schemes for Diploma and Bachelor level courses. These schemes allow you to defer part or all of your tuition fees.

Eligible SSNT students can access:

- FEE-HELP loan scheme for SSNT Higher Education Degree courses
- VET FEE-HELP loan scheme for SSNT's Diploma Vocational Educational qualifications

For more information: www.ssnt.edu.au/student-info/how-to-apply

**Scholarships**

The SSNT Scholarship is awarded to a new student who best demonstrates the application criteria. The awarded scholarship will cover their tuition fees for one full year of study undertaken in 2014.

For more information: http://www.ssnt.edu.au/student-info/scholarships

**Enrolment policies**

After an admission interview and receiving your VTAC Letter of Offer, contact the School to request a registration form. Along with your completed registration, certified copies of the following are also required:

- Either: passport, birth certificate or Australian citizenship
- VCE results, certificates, diplomas, degrees, further education
- Passport size photograph
- Copy of driver's licence or Keypass
- Copy of resume if over 21 years

Course credit / recognition of prior learning is available. Certified testamurs/transcripts are required from recognised institutions with your application.

For more information: http://ssnt.edu.au/student-info/how-to-apply

**Services**

**Student Counselling**

In line with the SSNTs approach to holistic health care, it provides confidential, free of charge counselling to all students.

For more information: http://www.ssnt.edu.au/campus
Chinese Medicine (HE)

Southern School of Natural Therapies
Fitzroy: 9250192562 (DFP) full-time/part-time  Apply: Through VTAC main round

- Bachelor of Health Science-Chinese Medicine: 4 years full time study

About the course: The Chinese Medicine degree provides you with the skills to become a sought after Chinese Medicine practitioner, learning skills in both the areas of Acupuncture and Chinese herbal medicine. Students will learn how to assess clients and gain the skills to treat acute and chronic illnesses through Chinese medicine and maintain patients Yin/Yang balance. A holistic approach integrates traditional theory and practice with contemporary medicine. Studies will explore the history, philosophy and diagnostics of Chinese Medicine, with a focus on acupuncture and ancillary techniques (acupuncture points, needling, moxibustion, cupping) and Chinese herbal medicine (herbal identification, dispensing and prescribing).

Students also gain hands on experience at our Wellbeing clinic under the guidance of experienced Chinese medicine practitioners, treating members of the general public. This practical training ensures graduates are able to treat a range of health complaints, as well as prevent future illness with Chinese medicine treatments based on presenting conditions.

Major studies: Acupuncture, Anatomy and physiology, Chinese herbal medicine, Chinese medicine, Clinical studies, Counselling, Dietary therapy, Pathology, Research methods.

Prerequisites: Minimum ATAR of 68.00. Units 3 and 4: a study score of at least 10 in any English; and Units 1 to 4: satisfactory completion of any Science.

Middle-band: None

Selection Mode: CY12 : ATAR, VTAC Personal Statement (All), Interview (All). See extra requirements for more information.
NY12 : Educational History including GPA, VTAC Personal Statement (All), Interview (All), Work experience (Some). See extra requirements for more information.

Extra requirements:
VTAC Personal Statement (CY12-All, NY12-All) : All applicants must complete the VTAC personal statement with their application.
Interview (CY12-All, NY12-All) : All applicants Timeframe : prior to successful offer.Booking Contact our Courses and Careers Adviser - 03 9415 3333.
Work experience (NY12-Some) : No specific area of experience necessary.

Clinical Myotherapy (HE)

Southern School of Natural Therapies
Fitzroy: 9250192532 (DFP) full-time/part-time  Apply: Through VTAC main round

- Bachelor of Health Science (Clinical Myotherapy): 3 years full time study

About the course: Equips graduates with the necessary skills to work as a Clinical Myotherapist. Students will learn to treat pain arising from sporting, recreational or occupational injuries, and alleviate acute and chronic congenital or systemic conditions. Sharing similarities with other manual therapies such as physiotherapy, in the methods of orthopaedic assessment, Clinical Myotherapy has a greater reliance on physical hands on treatment with a greater focus on working in a clinical setting.

Studies include :Biological and social sciences, research, Clinical Myotherapy and clinical studies, alongside study of soft tissue and skeletal mobilisation and advancement of the rehabilitation process through techniques including manual therapies, myofascial dry-needling, prescriptive exercises, electrical stimulation, joint mobilisation, and pain management.

Students will gain hands on experience at the Wellbeing Clinic under the guidance of experienced practitioners in a clinical setting treating public patients. This prepares graduates to confidently and successfully commence practice in the community.
This course meets the professional standards of the industry association ANTA (Australian Natural Therapists Association). Students may also be eligible to join IRMA (Institute of Registered Myotherapists of Australia).

**Major studies:** Anatomy and physiology, Biomechanics, Biosciences, Clinical studies, Exercise prescription, Joint mobilisation, Manual therapies, Myofascial dry needling, Myotherapy, Pain management, Rehabilitation, Soft tissue mobilisation.

**Prerequisites:** Minimum ATAR of 68.00. Units 3 and 4: a study score of at least 10 in any English; and Units 1 to 4: satisfactory completion of any Science.

**Middle-band:** None

**Selection Mode:** CY12 : ATAR, VTAC Personal Statement (All), Interview (All). See extra requirements for more information.

NY12 : Educational History including GPA, VTAC Personal Statement (All), Interview (All), Work experience (Some). See extra requirements for more information.

**Extra requirements:**

VTAC Personal Statement (CY12-All, NY12-All) : All applicants must complete the VTAC personal statement with their application.

Interview (CY12-All, NY12-All) : All applicants. Timeframe: prior to successful offer. Booking Contact: our Courses and Careers Adviser -03 9415 3333.

Work experience (NY12-Some) : No specific area of work experience necessary.

**Diploma of Health Science (HE)**

**Southern School of Natural Therapies**

Fitzroy: 9250192592 (DFP) full-time/part-time  **Apply: Through VTAC** main round

- Diploma of Health Science: 1 year full time study

**About the course:** The Diploma of Health Science allows students to undertake higher education studies equivalent to the first year of a bachelor degree for personal interest, to upgrade knowledge, or to allow a taste of study prior to transitioning into a full degree.

Students choose a specialisation from:
- Naturopathy
- Nutritional Medicine
- Western Herbal Medicine

The one-year Diploma of Health Science explores the foundational sciences required for higher education in complementary medicine.

Study includes the biological and social sciences and research studies that all healthcare practitioners must understand. They form the structure that supports the study of holistic medicine and provide integral knowledge of how the body functions in health, how to communicate effectively with clients and the role of research and evidence based practice in complementary medicine.

**Major studies:** Anatomy and physiology, Biosciences, Natural medicine, Research studies, Social sciences.

**Prerequisites:** Minimum ATAR of 68.00. Units 3 and 4: a study score of at least 10 in any English; and Units 1 to 4: satisfactory completion of any Science.

**Middle-band:** None

**Selection Mode:** CY12 : ATAR, VTAC Personal Statement (All), Interview (All). See extra requirements for more information.

NY12 : Educational History including GPA, VTAC Personal Statement (All), Interview (All), Work experience (Some). See extra requirements for more information.
Extra requirements:
VTAC Personal Statement (CY12-All, NY12-All) : All applicants must complete the VTAC personal statement with their application.
Interview (CY12-All, NY12-All) : All applicants. Timeframe: prior to successful offer. Booking Contact: our Course and Careers Adviser -03 9415 3333.
Work experience (NY12-Some) : No specific area of work experience necessary.

Massage Therapy Practice (VET)

Southern School of Natural Therapies
Fitzroy: 9250192062 (DFP) full-time/part-time  Apply: Through VTAC main round

- Certificate IV in Massage Therapy Practice: 3 months full time study

About the course: The Certificate IV in Massage Therapy Practice enables graduates to work as an entry-level massage therapist. Students will learn a range of massage techniques to reduce muscular tension, aches and pains, improve circulation, relieve stress and provide patients a general sense of wellbeing.

Master a range of massage techniques including Swedish massage and relaxation massage, practices involved with working within a clinic, and applying a massage health assessment. Students will learn to understand the human body and its physiology, providing a deeper understanding behind massage and its ability to provide healing and relaxation. Studies also include first aid and training in professional business practice, including administration, rules and regulations.

Students gain hands on experience at our Wellbeing clinic under the guidance of experienced practitioners, treating members of the general public. Students will see a range of clients and be required to assess and provide massage treatment based on presenting conditions. Recognised nationally, successful completion of this certificate acts as a pathway to the Diploma of Remedial Massage.

Major studies: Anatomy and physiology, Clinic Operations, Communication skills, First aid, Massage assessment and referrals, Massage techniques.

Prerequisites: None

Middle-band: None

Selection Mode: CY12 : ATAR, Interview (All). See extra requirements for more information.
NY12 : Educational History including GPA, Interview (All), Work experience (Some). See extra requirements for more information.

Extra requirements:
Interview (CY12-All, NY12-All) : All applicants. Timeframe: prior to successful offer. Booking Contact: our Course and Careers Adviser -03 9415 3333.
Work experience (NY12-Some) : No specific area of work experience necessary.

Naturopathy (HE)

Southern School of Natural Therapies
Fitzroy: 9250192502 (DFP) full-time/part-time  Apply: Through VTAC main round

- Bachelor of Health Science (Naturopathy): 4 years full time study

About the course: A degree in Naturopathy is ideal for those who want a career committed to improving the health and wellbeing of others. Naturopathy aims to restore vitality through supporting and stimulating the body’s own healing mechanisms.

A degree in naturopathy equips graduates to practice as a naturopath, involving extensive diagnosis to discover the...
underlying cause of a patient's condition. This includes understanding a patient's symptoms, emotional status, diet and lifestyle to treat the patient from an holistic perspective.

Australias first accredited degree of Naturopathy, Southern School of Natural Therapies focuses on the core areas of nutrition and food as medicine, western herbal medicine, homeopathy, flower essences and celloids, and naturopathic diagnostic techniques such as iridology.

**Major studies:** Anatomy and physiology, Biosciences, Clinical studies, Flower essences, Homeopathy, Iridology, Natural medicine, Nutritional science, Research studies, Social sciences, Western herbal medicine.

**Prerequisites:** Minimum ATAR of 68.00. Units 3 and 4: a study score of at least 10 in any English; and Units 1 to 4: satisfactory completion of any Science.

**Selection Mode:** CY12 : ATAR, VTAC Personal Statement (All), Interview (All). See extra requirements for more information.

NY12 : Educational History including GPA, VTAC Personal Statement (All), Interview (All), Work experience (Some). See extra requirements for more information.

**Extra requirements:**
- VTAC Personal Statement (CY12-All, NY12-All) : All applicants must complete the VTAC personal statement with their application.
- Interview (CY12-All, NY12-All) : All applicants. Timeframe: prior to successful offer. Booking Contact: our Courses and Careers Adviser -03 9415 3333.
- Work experience (NY12-Some) : No specific area of work experience necessary.

---

**Nutritional Medicine (HE)**

**Southern School of Natural Therapies**

Fitzroy: 9250192572 (DFP) full-time/part-time  Apply: Through VTAC main round

- Bachelor of Health Science (Nutritional Medicine): 3 years full time study

**About the course:** Nutritional Medicine combines food as medicine traditions and dietary therapy with recent scientific advances in nutritional biocemistry. Graduates will understand the nutritional, dietary and lifestyle factors which impact wellbeing throughout the lifespan, during illness and disease and be equipped to work as a Nutritional Medicine practitioner.

Nutritional Medicine practitioners seek to educate the individual or community on the impact of food choices in the maintenance of wellbeing and management of disease, as well as identify the cause of dysfunction, educate the patient and develop a nutritional treatment and prevention plan to re-establish and maintain wellbeing.

Studies will cover: Biological and social sciences, research, nutritional and clinical studies, alongside study in human nutrition, nutritional science, food packaging and public health nutrition.

Students will also gain hands on experience at the Wellbeing Clinic under the guidance of experienced practitioners in a clinical setting treating public patients. This prepares graduates to confidently and successfully commence practice in the community.

**Major studies:** Anatomy and physiology, Biosciences, Clinical studies, Food packaging, Human nutrition, Natural medicine, Nutritional science, Public health nutrition, Research studies, Social sciences.

**Prerequisites:** Minimum ATAR of 68.00. Units 3 and 4: a study score of at least 10 in any English; and Units 1 to 4: satisfactory completion of any Science.

**Middle-band:** None

**Selection Mode:** CY12 : ATAR, VTAC Personal Statement (All), Interview (All). See extra requirements for more information.

NY12 : Educational History including GPA, VTAC Personal Statement (All), Interview (All), Work experience (Some).
Remedial Massage (VET)

Southern School of Natural Therapies
Fitzroy: 9250192552 (DFP) full-time/part-time  
Apply: Through VTAC  
main round

- Diploma of Remedial Massage: 6 months full time study

**About the course:** The Diploma of Remedial Massage enables graduates to work as a remedial massage therapist. The Diploma builds a higher level of knowledge around massage therapy, developing skills to deliver an advanced range of massage techniques and comprehensive treatment plans. Students will learn remedial massage techniques such as deep tissue, myofascial, trigger points and lymphatics to treat soft tissue injuries, sports massage and Those interested in a career in sports massage, or using massage to treat injuries or underlying issues that arise from a patient's general activity (such as back, joint, or generalised muscle pain) will need to undertake this qualification. Studies also include advanced training in health assessment including movement/postural issues and discovering the underlying cause of problems to provide comprehensive treatment. Students learn clinic management skills required to set up and manage a clinical practice, including legal and ethical compliance.

Students are required to complete a set number of hours in a clinical setting at our Wellbeing clinic, seeing a range of clients and assessing and providing massage treatment based on presenting conditions.

Government accredited, this course meets academic requirements of Australian Association of Massage Therapists (AAMT). Upon completion, students are eligible to apply for a Workcover provider number.

Students applying to the Diploma of Remedial Massage may be required to enrol in the Certificate IV in Massage Therapy Practice to complete all competencies before commencing the next level.

**Major studies:** Anatomy and physiology, Clinic management, Clinical assessment, Deep Tissue Massage, First aid, Lymphatics, Massage in an aging population, Myofascial techniques, Occupational health and safety, Professional practice, Reflexology, Reflexology, Remedial massage, Sports and athlete massage, Sports therapy, Trigger points.

**Prerequisites:** Certificate IV Massage Therapy Practice.

**Middle-band:** None

**Selection Mode:** CY12: ATAR, VTAC Personal Statement (All), Interview (All). See extra requirements for more information.

NY12: Educational History including GPA, VTAC Personal Statement (All), Interview (All), Work experience (Some). See extra requirements for more information.

**Extra requirements:**

VTAC Personal Statement (CY12-All, NY12-All)

Sunraysia Institute of TAFE

Sunraysia Institute of TAFE offers students contemporary and relevant courses that combine theoretical, applied, and practical learning. The Institute provides quality, effective and accessible training and education. SuniTAFE has links to industry which ensure training is relevant to current industry needs. The organisation offers a range of courses including Advanced Diplomas, Diplomas, Traineeships, Apprenticeships, prevocational and VETIS courses, across four campuses in Mildura, Swan Hill, Mallee (Ouyen) and Robinvale.

Mildura, the central hub of Sunraysia, is located on the banks of the Murray River, a part of the Greater Murray Valley in north west Victoria. Mildura is 550 km north west of Melbourne, 400km north east of Adelaide and 1000km west of Sydney. Mildura is linked to major centres by air and road transport. Our Mildura Campus hosts an ELICOS centre, Library and Learning Resources, Student Accommodation, Dulka Yuppata - Koori Cultural Centre, Skills Recognition Services, Child Care Centre, SuniTASTE Training Restaurant and Hairdressing/Beauty Training Salons.

Swan Hill is located in the mid-Murray region of Victoria about 350km north of Melbourne on the Murray River, NSW border and has road and rail connections to major centres. Swan Hill is a vibrant rural community with a strong community ethos.

SuniTAFE partners with several universities to provide a comprehensive suite of pathway options into higher education.

**Children's Services (VET)**

Sunraysia Institute of TAFE  
Mildura: 7600176024 (Fee type determined by provider) full-time  
Apply: Through VTAC main round

Swan Hill: 7600276024 (Fee type determined by provider) full-time  
Apply: Through VTAC

- Certificate III in Children's Services: 1 year full time study
- Diploma of Children's Services: 2 years full time study

**About the course:** Develops the skills and knowledge required to provide programs for infants, pre-school and school aged children in children's services settings.

**Major studies:** Child care, Childhood development, Family and diversity, Health studies, Play and curriculum studies, Program planning.

**Prerequisites:** None

**Middle-band:** None

**Selection Mode:** CY12 : ATAR.  
NY12 : Educational History including GPA.

**Extra requirements:** None
Conservation and Land Management (VET)

Sunraysia Institute of TAFE
Mildura: 7600176754 (Fee type determined by provider) full-time Apply: Through VTAC main round

- Certificate III in Conservation and Land Management: 1 year full time study
- Diploma of Conservation and Land Management: 1 year full time study

About the course: Certificate III participants will gain knowledge and skills in flora and fauna identification, cultural heritage, natural area restoration, water sampling, map reading and many other skills relevant to the conservation and land management industry. The Diploma course will allow the participant in the environmental management industry. This practical and hands-on course provides students with a solid grounding in environmental management. Students gain specialised skills and knowledge, with an emphasis on technical and practical skills for field work. Graduates will have opportunities to work in the sectors of land management, conservation earthworks, community co-ordination and facilitation, indigenous land management, lands, parks and wildlife, natural area restoration and management, weed and vertebrate pest management.

The Diploma of Conservation and Land Management incorporates the Certificate III in Conservation and Land Management. Students may be required to enroll in the Certificate III to complete all prerequisite competencies before commencing the next level.

Major studies: Conservation management (revegetation), Cultural heritage management, Environmental management, Environmental science, Freshwater resources and environmental management, Land and water management, Natural environment and wilderness studies, Natural resource management, Park and wilderness management, Parks and wildlife reserve management, Pest and weed management, Vegetation and wildlife management, Wildlife conservation and ecology.

Prerequisites: None

Middle-band: None

Selection Mode: CY12: ATAR.
NY12: Educational History including GPA.

Extra requirements: None

Electrotechnology (Career Start) (VET)

Sunraysia Institute of TAFE
Mildura: 7600176404 (Fee type determined by provider) full-time/part-time Apply: Through VTAC main round

- Certificate II in Electronology (Career Start): 0.5 year full time study

About the course:

Major studies: None.

Prerequisites: None

Middle-band: None

Selection Mode: CY12: ATAR.
NY12: Educational History including GPA.

Extra requirements: None
Engineering: Fabrication Trade (Non-apprentice) (VET)

Sunraysia Institute of TAFE
Mildura: 7600176344 (Fee type determined by provider) full-time Apply: Through VTAC main round

- Certificate III in Engineering - Fabrication Trade: 1 year full time study

About the course: Students will acquire the skills necessary for entry into engineering and fabrication roles. Basic skills are developed in Occupational health & Safety, use of hand tools, use of power tools, machining operations, fabrication techniques and engineering sketching and drawing.

Major studies: None.

Prerequisites: None

Middle-band: None

Selection Mode: CY12: ATAR.
NY12: Educational History including GPA.

Extra requirements: None

---

Engineering: Mechanical Trade (Non-apprentice) (VET)

Sunraysia Institute of TAFE
Mildura: 7600176334 (Fee type determined by provider) full-time/part-time Apply: Through VTAC main round

- Certificate III in Engineering - Mechanical Trade: 1 year full time study

About the course: Students will acquire the skills necessary for the safe use and maintenance of a wide range of tools and equipment generally used on the job within the engineering field.

Major studies: None.

Prerequisites: None

Middle-band: None

Selection Mode: CY12: ATAR.
NY12: Educational History including GPA.

Extra requirements: None

---

Environmental Monitoring and Technology (VET)

Sunraysia Institute of TAFE
Mildura: 7600176564 (Fee type determined by provider) full-time Apply: Through VTAC main round

- Diploma of Environmental Monitoring and Technology: 1 year full time study

About the course:

Major studies: Environmental monitoring, Natural resource management, Resource efficiency, Solid and hazardous waste management, Water supply.
Prerequisites: None

Middle-band: None

Selection Mode: CY12 : ATAR.
NY12 : Educational History including GPA.

Extra requirements: None

---

**Furniture Making (Non-apprentice) (VET)**

**Sunraysia Institute of TAFE**

Mildura: 7600176384 (Fee type determined by provider)

| full-time/part-time | Apply: VTAC through main round |

- Certificate III in Furniture Making (Cabinet Making): 1 year full time study

About the course:

Major studies: None.

Prerequisites: None

Middle-band: None

Selection Mode: CY12 : ATAR.
NY12 : Educational History including GPA.

Extra requirements: None
### Graphic Design (VET)

**Sunraysia Institute of TAFE**

Mildura: 7600176014 (Fee type determined by provider) full-time  
Apply: [Through VTAC](http://www.wss8.vtac.edu.au/courses-inst/institutions/topdf/sunraysia.html) main round

- Certificate IV in Graphic Design: 1 year full time study
- Diploma of Graphic Design: 1 year full time study

**About the course:** This course combines technical, creative and conceptual skills to create designs that meet client requirements and solve a range of visual communication challenges.

**Major studies:** Design theory, Digital design, Typography, Web Design.

**Prerequisites:** None

**Middle-band:** None

**Selection Mode:** CY12: ATAR.
NY12: Educational History including GPA.

**Extra requirements:** None

### Horticulture (VET)

**Sunraysia Institute of TAFE**

Mildura: 7600176004 (Fee type determined by provider) full-time  
Apply: [Through VTAC](http://www.wss8.vtac.edu.au/courses-inst/institutions/topdf/sunraysia.html) main round

- Certificate III in Horticulture: 1 year full time study
- Diploma of Horticulture: 1 year full time study

**About the course:** The certificate III provides professional education and practical training for the horticulture industry. This course is designed for participants to develop their skills in the gardening, wholesale, retail nursery and general horticultural sectors.

The diploma of horticulture will give the participant the skills and knowledge to run their own business or manage a business in the areas of production horticulture Nursery, parks and gardens.

**Major studies:** Communications, Horticulture, Horticulture (nursery), Horticulture (plant nutrition), Irrigation and water management, Landscape horticulture, Occupational health and safety, Parks and gardens, Soil science.

**Prerequisites:** None

**Middle-band:** None

**Selection Mode:** CY12: ATAR.
NY12: Educational History including GPA.

**Extra requirements:** None

### Hospitality (VET)

**Sunraysia Institute of TAFE**

Mildura: 7600176034 (Fee type determined by provider) full-time  
Apply: [Through VTAC](http://www.wss8.vtac.edu.au/courses-inst/institutions/topdf/sunraysia.html) main round

**About the course:**

**Major studies:**

**Prerequisites:** None

**Middle-band:** None

**Selection Mode:** CY12: ATAR.
NY12: Educational History including GPA.

**Extra requirements:** None
Certificate III in Hospitality: 1 year full time study
Certificate IV in Hospitality: 2 years full time study
Diploma of Hospitality: 2 years full time study

About the course: Prepares students for employment in the operational, supervisory and management aspects of the hospitality industry.

Major studies: Administration, Bar management, Business, Catering operations, Cookery, Customer service, Event management, Food and beverage knowledge, Food and beverage management, Food and beverage production, Food and beverage service, Functions, Hospitality, Hospitality management, Kitchen management, Restaurant operations.

Prerequisites: None

Middle-band: None

Selection Mode: CY12 : ATAR.
NY12 : Educational History including GPA.

Extra requirements: None

Interactive Digital Media (VET)

Sunraysia Institute of TAFE
Mildura: 7600176214 (Fee type determined by provider) full-time Apply: Through VTAC main round

Certificate IV in Interactive Digital Media: 1 year full time study
Diploma of Interactive Digital Media: 1 year full time study

About the course: This course provides a comprehensive foundation in multimedia design and interactive media. You are introduced to the skills necessary to initiate and develop an electronic media career path and work with digital technologies within the arts, screen design and media industries.

Major studies: Animation, Audio and video production, Communications, Computer Animation, Creative processes, Design, Web design.

Prerequisites: None

Middle-band: None

Selection Mode: CY12 : ATAR.
NY12 : Educational History including GPA.

Extra requirements: None

Laboratory Techniques (VET)

Sunraysia Institute of TAFE
Mildura: 7600176124 (Fee type determined by provider) full-time/part-time Apply: Through VTAC main round

Certificate II in Sampling and Measurement: 0.5 year full time study
Certificate III in Laboratory Skills: 0.5 year full time study
Certificate IV in Laboratory Techniques: 0.5 year full time study
About the course: Provides broad based vocational training for technical assistants undertaking a wide range of sampling and testing that requires the application of a broad range of technical skills and some scientific knowledge. Comprises core units considered essential for all technical/laboratory assistants and elective studies that may apply to some personnel according to the size and scope of the operations of the particular enterprise and laboratory.

Major studies: Chemistry (laboratory), Laboratory technology, Microscopy, Occupational health and safety.

Prerequisites: None

Middle-band: None

Selection Mode: CY12 : ATAR.
NY12 : Educational History including GPA.

Extra requirements:
None

Nursing (Enrolled/Division 2) (VET)

Sunraysia Institute of TAFE
Mildura: 7600176674 (Fee type determined by provider) full-time Apply: Through VTAC main round
Swan Hill: 7600276674 (Fee type determined by provider) full-time Apply: Through VTAC

- Diploma of Nursing (Enrolled/Division 2 nursing): 1.5 year full time study

About the course: This course will enable students to interact completely and professionally with other health professionals and clients in acute and non acute environments. Content covered will include education in communication, client assessment, wound management, providing therapeutic care, chronic health problems, complex care needs, mental health, medical administration and delivering nursing care to a variety of patients in differing care settings and from diverse backgrounds. Clinical placement is a significant component of the course.

Major studies: Aged care, Communications, Infection control, Mental health, Nursing, Wound management.

Prerequisites: None

Middle-band: None

Selection Mode: CY12 : ATAR.
NY12 : Educational History including GPA.

Extra requirements:
None

Photography (VET)

Sunraysia Institute of TAFE
Mildura: 7600176634 (Fee type determined by provider) full-time Apply: Through VTAC main round

- Certificate IV in Photo Imaging: 1 year full time study
- Diploma of Photo Imaging: 1 year full time study

About the course: This qualification reflects the role of photo imaging practitioners who possess a sound theoretical knowledge base and use a range of specialised and technical competencies to plan, carry out and evaluate photo imaging services. The qualification applies to a range of industry contexts, including commercial, domestic portrait, media, wedding, illustrative, institutional and art photography.

Major studies: None.
Prerequisites: None

Middle-band: None

Selection Mode: CY12 : ATAR.
NY12 : Educational History including GPA.

Extra requirements: None

Sound Production (VET)

Sunraysia Institute of TAFE
Mildura: 7600176654 (Fee type determined by provider) full-time
Apply: Through VTAC main round

- Certificate IV in Sound Production: 1 year full time study
- Diploma of Sound Production: 1 year full time study

About the course: Develop the skills you need to work in the contemporary music industry in a variety of workplace environments. You will be provided with a basic grounding in live sound, studio recording, production and mixing. This can be completed as a dual qualification with the Certificate IV in Music.

Major studies: None.

Prerequisites: None

Middle-band: None

Selection Mode: CY12 : ATAR.
NY12 : Educational History including GPA.

Extra requirements: None

Sustainable Operations (VET)

Sunraysia Institute of TAFE
Mildura: 7600176574 (Fee type determined by provider) full-time
Apply: Through VTAC main round

- Diploma of Sustainable Operations: 1 year full time study

About the course:

Major studies: Sustainability.

Prerequisites: None

Middle-band: None

Selection Mode: CY12 : ATAR.
NY12 : Educational History including GPA.

Extra requirements: None
Visual Art (VET)
Sunraysia Institute of TAFE
Mildura: 7600176154 (Fee type determined by provider)
full-time/part-time

- Certificate IV in Visual Art: 1 year full time study
- Diploma of Visual Art: 1 year full time study

About the course: This qualification reflects the role of visual artists who combine specialised technical, creative and conceptual skills to prepare for and develop an emerging arts practice providing the opportunity to seek employment in a variety of related industry, or progress on to higher education. The program works across many media, including, digital art, illustration, painting, photomedia, printmaking and sculpture.

Major studies: Design, Design drawing, Drawing, Painting, Print production.

Prerequisites: None

Middle-band: None

Selection Mode: CY12 : ATAR.
NY12 : Educational History including GPA.

Extra requirements: None

Welfare Studies (VET)
Sunraysia Institute of TAFE
Mildura: 7600176114 (Fee type determined by provider) full-time
Swan Hill: 7600276114 (Fee type determined by provider) full-time

- Diploma of Community Services Work: 2 years full time study

About the course: This course includes a field placement and has applied learning components. Study covers client service delivery either through direct and/or community development projects. Students will develop skills suitable for the management of teams and supervision of co workers within industry contexts.

Major studies: Community services, Community studies, Social welfare, Social work, Welfare practice, Welfare studies.

Prerequisites: None

Middle-band: None

Selection Mode: CY12 : ATAR.
NY12 : Educational History including GPA.

Extra requirements: None
Students come first at our university. We equip our students with the knowledge and capabilities they need to establish successful careers through high-quality teaching, modern facilities and industry-engaged learning.

By increasing links with successful business and industry, and further developing international partnerships and collaborations, we ensure that our students graduate with valuable and sought-after skills that help them enter and get ahead in the workforce.

Our rankings - top 400 in the world and top three in Melbourne by the 2012 Academic Ranking of World Universities - prove the success of our focus on and investment in research and research infrastructure. It is why we are leaders in science, innovation, technology, business and design.

Swinburne's campuses offer first-rate facilities in top inner-urban and local locations. We continue to invest in our infrastructure and in 2014 will open the $100 million Advanced Manufacturing and Design Centre. The building will not only provide state-of-the-art facilities for students and researchers, but is emblematic of the study opportunities, innovative thinking and dynamic campus life on offer at our Hawthorn campus.

Studying an undergraduate degree provides options for cross-disciplinary study and engagement. Students might add units from a different study area to their degree or work with students from across the university on projects for real clients in industry. Besides learning from highly qualified teachers in your field of interest, you'll also have opportunities for paid work experience, industry placement and industry-engaged learning.

Swinburne also offers a range of pathway opportunities, whether you're looking for a way to progress to a university degree or preparing for your first job. For students who fall short of direct entry into a bachelor degree, our UniLink diplomas are a great alternative to first-year university. Alternatively, a vocational qualification could be the right choice for you, offering skills for work or credit towards further study.

So whatever you choose to study at Swinburne, you'll be supported by the staff, technology and infrastructure you'll need to reach your education goals.

Selection policies

**Current Year 12 students**

For courses that select by ATAR, applicants usually require a Clearly-in ATAR around the same level as published in the VTAC Guide course index.

Special requirements exist for international students who will be under the age of 18 at the commencement of university studies. Please contact Swinburne International for further advice prior to submitting your VTAC application: email international@swin.edu.au or telephone 1800 897 973. For more information: www.swinburne.edu.au/vtac

**Policy on the use of prerequisite studies**

Admission of students at Swinburne is based on minimum entry requirements and selection criteria. To be eligible for standard entry, applicants must have satisfactorily completed VCE or its equivalent and any specified prerequisites.

</tbody>
</table>

Where the entrance requirements are not met, applicants may be selected for entry in exceptional circumstances, such as:

- consideration of prior qualifications/experience,
- applicant applied under special consideration such as Special Entry Access Scheme (SEAS).

**Non-Year 12 applicants**

Non-Year 12 applicants applying through VTAC need to have completed at least one of the following:

- Year 12 (previously completed)
- Certificate IV, diploma or advanced diploma
- Associate degree

Consideration for admission is also given for partially completed tertiary courses, and programs that are graded and part of a person's employment. Applicants who have not completed any previous study may be eligible to apply under SEAS category 1. Applicants will also be required to meet specific course prerequisites or other selection requirements.

**Admission Test Requirements - STAT**

Applicants for Swinburne courses that list STAT as an extra requirement must sit the STAT Multiple Choice Test if they:

- Do not satisfy the minimum tertiary entry requirements (see Minimum tertiary and institutional requirements section of Swinburne's Institutional Pages); or
- Have no school, TAFE or university results recent enough to be considered for entry (i.e. within the past seven years); or
- Have TAFE or other tertiary qualifications with ungraded assessment (only have pass/fail results rather than actual grades) and no other basis for entry; or
- Have VCAL or other secondary study with ungraded assessment (only have pass/fail results rather than actual grades) but no other basis for entry; or
- Have an ATAR attained in the year of application or prior which is below the Clearly-in ATAR for the course (as listed in this Guide).

For more information: [www.swinburne.edu.au/stat](http://www.swinburne.edu.au/stat)

**Grade point average or (GPA)**

Courses that list Grade Point Average (GPA) in the selection mode for Non-Year 12 applicants, will consider GPAs from previous tertiary studies, in conjunction with other academic results and requirements detailed in the course entry.

**Ungraded results**

Applicants who have ungraded or unscored results should provide additional information showing numerical results or grades and a letter of completion for all ungraded transcripts with their VTAC application.

Applicants who are unable to provide this additional information should complete a Special Tertiary Admissions Test (STAT)

**Extra requirement policies**

Applicants who are required to attend an interview or supply additional information need to demonstrate a range of attributes, such as personal motivation, relevant experience or previous study, an understanding of the course and potential employment opportunities.

Applicants required to submit a folio should ensure the work is representative of their ideas and abilities, shows originality, innovation, imagination, experimentation and competence in the basic skills for the course for which they would like to apply.
are applying.

Applicants who submit a VTAC Personal Statement as part of the extra requirements should include details of relevant education, employment and activities/interests that relate to the fields of study they are applying for. Some courses require completion of the university’s Supplementary Form in addition to a VTAC application. Details are under Extra Requirements in relevant course entries.

Pathways

TAFE to degree

All Swinburne diploma and advanced diploma students are guaranteed entry into a university degree when they successfully finish their TAFE course. Students who have completed a TAFE course at another institution, may be eligible to receive credit towards a Swinburne degree. Refer to: www.swinburne.edu.au/pathways/tafe-to-degree

UniLink

UniLink diplomas are eight-month higher education qualifications that are equivalent to first-year university and provide a direct pathway to second year of a university degree. Refer to: www.swinburne.edu.au/pathways/unilink

Special consideration

Special Entry Access Scheme

Swinburne is committed, through the principles of equity, to increasing and enhancing practices and educational opportunities for students who have been unable to reach their full educational potential or who may have access to the course of their choice restricted because of life circumstances. This commitment is based on a philosophy of inclusion which characterises the university’s approach to service provision for students from disadvantaged backgrounds.

The university will consider applications for special entry categories 1 through 5 of the VTAC Special Entry Access Scheme (SEAS). SEAS allows eligible applicants to be granted extra consideration for course selection.

For more information: www.swinburne.edu.au/seas

Internal transfers

TAFE to Undergraduate

Swinburne TAFE students who wish to transfer to a Swinburne Higher Education course do not need to apply through VTAC. Applications for admission must be lodged with Swinburne by the due date. Late applications will need to be submitted via VTAC.

For more information: www.swinburne.edu.au/pathways/programs

Transfer to Swinburne’s Sarawak campus in Malaysia

Students may be eligible to transfer to the Sarawak campus for the duration of a term, a semester or a full year of their degree under the International Exchange Program or Electives Plus @ Sarawak program.

For more information: www.swinburne.edu.au/abroad

Undergraduate to Undergraduate

Higher Education students who wish to transfer to another Higher Education course prior to completion of their current course, do not need to apply through VTAC. Students are required to lodge an Application for Internal Program Transfer. Applications must be lodged at the academic unit that offers the course by the due date.
**For more information:** [www.swinburne.edu.au/studentforms](http://www.swinburne.edu.au/studentforms)

### Fee structures

For more information: [www.swinburne.edu.au/fees](http://www.swinburne.edu.au/fees)

### Scholarships

Swinburne offers a range of access and equity, and academic merit scholarships to commencing students to assist with fees or living expenses. A number of scholarships are also available to continuing students, including scholarships to enable students to undertake study at our Malaysian campus. Refer to [www.swinburne.edu.au/scholarships](http://www.swinburne.edu.au/scholarships) for a complete list of scholarships and application procedures, or contact Swinburne on 1300 275 794.

For more information: [www.swinburne.edu.au/scholarships](http://www.swinburne.edu.au/scholarships)

### Credit Transfer

Applicants with prior studies undertaken at a university, TAFE or equivalent provider may be eligible for credit and Recognition of Prior Learning.

Application for credit must be made at enrolment, at which time a certified copy, or a photocopy and original, of academic transcripts, detailed outlines of subjects studied and evidence of completion of previous studies will need to be provided.

University policies apply to all credit applications and each application is assessed on a case-by-case basis.

For more information: [www.swinburne.edu.au/credit](http://www.swinburne.edu.au/credit)

### Programs at Swinburne

**Work Integrated Learning / Placements**

Through Swinburne's work integrated learning programs and placements, students develop confidence and skills to graduate with employability skills and professional experience. These opportunities enable students to put classroom theory to practice and to develop a range of professional and technical skills through interaction and engagement with industry professionals. Our commitment to a variety of different program options means students have flexibility to choose a type of experience that suits their time commitments, availability and career plan.

For more information: [www.swinburne.edu.au/iel](http://www.swinburne.edu.au/iel)

**Foundation**

Foundation Studies is a pre-university program designed for students with no equivalent Year 12/senior secondary education certificate. It can help students prepare and meet the entry requirements for a UniLink diploma or direct entry to first-year of a bachelor degree.

**UniLink**

UniLink diplomas are eight-month higher education qualifications that provide a direct pathway to second-year of an undergraduate degree.

### Enrolment and deferment

**Enrolment**

All successful applicants need to follow the enrolment steps indicated in their VTAC Offer Letter. For on-campus enrolment students must bring their VTAC Offer Letter, Tax File Number and photographic identification.
For online enrolment students will need their Tax File Number. Following online enrolment, students will also need to bring photographic identification to obtain their Student ID on campus. For more information: www.swinburne.edu.au/enrolment

Deferment (TAFE)

Deferment for TAFE courses is granted at the discretion of the relevant department manager for up to one academic year. Applicants who wish to defer must complete a Deferral Application form, available at www.swinburne.edu.au/deferment prior to the conclusion of the enrolment time notified in the Letter of Offer.

Deferments will not be granted to allow commencement of another course. For more information: www.swinburne.edu.au/deferment

Deferment (Higher Education)

All new undergraduate students, except for the courses listed below, may defer their studies for up to two academic years. Applicants who wish to defer must submit an Application for Deferral or Leave of Absence form, available at www.swinburne.edu.au/deferment prior to the conclusion of the enrolment time notified in the Letter of Offer. Any deferment will lapse if the applicant enrols in another higher education course during the period of deferment.

Students with VTAC offers in the following programs cannot defer their studies:

- Dean's Scholarships
- Information Technology Industry Scholarship Program
- Vice-Chancellor's Scholarships

Applicants in receipt of a VTAC offer for a Swinburne course who wish to defer must apply directly to the institution prior to the conclusion of the enrolment time notified in the Letter of Offer. For more information: www.swinburne.edu.au/deferment

Services

Accommodation

Swinburne has on-campus accommodation at the Hawthorn campus including Swinburne Residential College and Apartments and UniLodge apartments. Swinburne can also provide advice and assistance to students in obtaining off-campus accommodation such as home-away-from-home, private rental/share housing and local hostels. For more information: www.swinburne.edu.au/housing

Disability or long-term medical condition

Prospective students with a disability or long-term medical condition are encouraged to contact Swinburne's Disability Services to discuss their needs in the university environment before completing their VTAC application. All enquiries are treated confidentially. For more information: www.swinburne.edu.au/disability

International students

Swinburne welcomes international students and provides a number of specialist services and programs to assist students with their academic and personal needs. For more information: www.international.swinburne.edu.au/student-life

Student Services

A range of services are available to Swinburne students including accommodation, careers and employment,
disability, child care, student counselling, health services, sport and recreation, financial services, study support programs, advocacy, student representation, and clubs and social activities. For more information:
www.swinburne.edu.au/stuserv

- Bachelor of Business (Accounting): 3 years full time study

**About the course:** Accounting is the foundation language of business. Accountants inform key business decisions and talented accountants often progress to senior management and board positions. An accounting degree leads to a range of positions in the modern global market. Students learn to use accounting systems to record and analyse business activities, employ financial statements to guide investment decisions, and use information from cost accounting systems to make decisions, price products, develop operating strategies and evaluate business performance. This course prepares graduates for careers in the accounting, investment and finance industries. Graduates may find employment with small or large companies worldwide, including private practices, government-owned entities and banks. Possible roles include graduate accountant, account manager, auditor, fund accounting officer, taxation agent, merchant banker, corporate treasurer, investment banker and financial adviser.

An additional six to twelve months of paid, relevant industry experience may be available through the university's Industry-Based Learning program.

Graduates will be eligible to apply for membership of CPA Australia (CPAA), the Institute of Chartered Accountants in Australia (ICAA), the Institute of Internal Auditors (IIA) and the National Institute of Accountants (NIA).

- Bachelor of Business (Advertising): 3 years full time study

**About the course:** Advertising drives growth for businesses of all types and sizes. This course focuses on the important role that advertising plays in the business environment and teaches students how to be creative in making maximum use of advertising to assist in achieving organisational objectives. They learn the necessary skills to enable them to create and deliver attention-grabbing advertisements and advertising campaigns. Students will have the opportunity to apply their learning to a professionally focused, multidisciplinary project during their final year of study. Advertising can lead to roles in media buying and campaign planning in advertising, marketing and public relations agencies and in the sales, marketing or communication departments of large organisations.

An additional six to twelve months of paid, relevant industry experience is available through the university's Industry-Based Learning program.

**Major studies:** Advertising (issues), Advertising (media planning), Advertising (principles), Commercial law, Communication, Concept development and copywriting, Management, Marketing, Media (advertising), Media (planning), Media (sport).
**Prerequisites:** Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL.

**Middle-band:** Satisfactory completion in Accounting, Business Management, Economics, any Information Technology, Legal Studies, any Mathematics, Global Politics or Psychology is considered.

- Bachelor of Aviation: 3 years full time study

About the course: This course prepares students for a career as a professional commercial pilot. Students undertake their professional pilot training program at CAE Oxford Aviation Academy (COAA), located at Moorabbin Airport, and obtain a Commercial Pilot Licence (CPL) and Multi-engine Command Instrument Rating (MCIR). They also complete a Multi Crew Cooperation and Jet Orientation Course or Flight Instructor Rating, and Frozen Air Transport Pilot Licence (ATPL). Students complete the theory units required by CASA up to and including ATPL standard, as well as studies in aviation human factors, aviation management and aviation technology. Graduates will be able to pursue a professional career as a pilot within the general aviation sector. This may be possible via accelerated entry to an airline pilot cadet scheme.

Costs: In addition to course fees, students undertaking flying training must pay flying training fees. CPL, MCIR, Multi Crew Cooperation and Jet Orientation Course fees in 2013 are approximately $89,700, which is based on scheduled flying hours. Equipment, headset, uniform, CASA documentation and CASA exam fees were an

Certificate IV in Bookkeeping: 0.5 month full time study
About the course: This course provides students with practical training in cash and accrual accounting, business communication, business activity statements (BAS), instalment activity statements (IAS) and computing. It prepares students for work as a professional contract bookkeeper or permanent paid bookkeeper, either under the direction of a tax agent/public accountant for a bookkeeping business or franchise, or for their own bookkeeping business. Successful completion of this course may also allow students to progress to another qualification with advanced standing.

Prerequisites: None

Middle-band: None

Selection Mode: CY12 : ATAR.

NY12 : Educational History including GPA, VTAC Personal Statement (Some). See extra requirements for more information.

SEAS is considered.

Extra requirements:

VTAC Personal Statement (NY12-Some) : Applicants who wish to provide additional information (such as work experience) to support their application must complete the VTAC Personal Statement.

---

**Building and Construction (VET)**

Swinburne University of Technology

Croydon: 3400170124 (Fee type determined by provider)

full-time/part-time

Apply: Through VTAC main round

- Diploma of Building and Construction (Building): 2 years full time study

About the course: This course covers building theory and practice related to residential, industrial and commercial building. Students develop specialist skills and knowledge in plan interpretation, drafting, quantities take-off, estimating, scheduling, construction technology, occupational health and safety (OH&S), site supervisor surveying, cost control and business management. Students also gain general skills in design, problem-solving, construction technology, project documentation and project administration, including quality assurance. Graduates may find employment as a building works supervisor, estimator, contract administration or builder. They have specialist skills and knowledge in running a commercial construction business. Successful completion of this course may also allow students to progress to another qualification with advanced standing.

Note: The Diploma of Building and Construction (Building) incorporates the Certificate IV in Building and Construction (Building). Students will be enrolled in the Certificate IV to complete all prerequisite competencies before commencing the next level.

Major studies: Building, Building (construction methods), Building (estimating), Building (law), Building (surveying), Building (technology).

Prerequisites: None

Middle-band: None

Selection Mode: CY12 : ATAR.

NY12 : Educational History including GPA, VTAC Personal Statement (Some). See extra requirements for more information.

SEAS is considered.

Extra requirements:

VTAC Personal Statement (NY12-Some) : Applicants who wish to provide additional information (such as work experience) to support their application must complete the VTAC Personal Statement.
**Building Design (VET)**

**Swinburne University of Technology**  
Croydon: 3400170194 (Fee type determined by provider) full-time  
Apply: Through VTAC main round

- Advanced Diploma of Building Design (Architectural): 2.5 years full time study

**About the course:** This course covers building theory and practice related to residential, industrial and commercial buildings. Students gain specialist skills and knowledge as well as skills in problem-solving, project documentation and quality assurance. The course satisfies the licensing requirement to become a drafting practitioner. Graduates may take on roles as an architectural technician or building designer. Successful completion of this course may also allow students to progress to another qualification with advanced standing.

**Major studies:** Architecture, Building, Building (construction methods), Building (design), Building (technology), Bushfire attack level (BAL) assessment, Computer-aided drafting (CAD), Design sustainable buildings.

**Prerequisites:** None

**Middle-band:** None

**Selection Mode:** CY12: ATAR.
NY12: Educational History including GPA, VTAC Personal Statement (Some). See extra requirements for more information.
SEAS is considered.

**Extra requirements:**
VTAC Personal Statement (NY12-Some): Applicants who wish to provide additional information (such as work experience) to support their application must complete the VTAC Personal Statement.

---

**Business (HE)**

**Swinburne University of Technology**  
Hawthorn: 3400235103 (IFP) full-time  
Apply: Through VTAC main round

- Bachelor of Business: 3 years full time study

**About the course:** This course will prepare students for a career in the business profession. It provides a solid foundation in the language of business and offers an academically grounded and practical curriculum with options for industry engagement. Students develop a broad understanding of the business and social environment, including its global and complex nature. Students select a major from one of the following specialisations: Accounting, Accounting and Finance, Advertising, Business Analysis, Commercial Law, Entrepreneurship and Innovation, Finance, Human Resource Management, International Business, Management, Marketing, Public Relations or Tourism Management and combine it with other studies to compliment or broaden their desired career outcomes. Graduates typically find employment in areas such as in accounting, communication, finance, human resources, international business, management, marketing, public relations, sales and tourism. Graduates may be eligible for membership of professional organisations depending on their selected specialisation.

An additional six to twelve months of paid, relevant industry experience may be available through the university's Industry-Based Learning program.

Prerequisites: Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL.

Middle-band: Satisfactory completion in Accounting, Business Management, Economics, any Information Technology, Legal Studies, any Mathematics, Global Politics or Psychology is considered.

Selection Mode: CY12 : ATAR and middle-band.

NY12 : Educational History including GPA, VTAC Personal Statement (Some), STAT (Some). See extra requirements for more information.

SEAS is considered.

Extra requirements:

VTAC Personal Statement (NY12-Some) : Applicants who wish to provide additional information (such as work experience) to support their application must complete the VTAC Personal Statement.

STAT (NY12-Some) : Applicants who wish to use a general aptitude test for entry must complete the STAT Multiple Choice.

Business (Dean's Scholarship) (HE)

Swinburne University of Technology

Hawthorn: 3400234781 (CSP) full-time/h2>

Apply: Through VTAC main round

Bachelor of Business: 3 years full time study

About the course: Students accepted into this scholarship program may undertake study in any three-year on-campus Business degree at Swinburne and receive a waiver from student contribution payments for the duration of their course. - Bachelor of Business Administration: 3 years full-time study

**About the course:** This course introduces students to key business concepts and principles. Students develop practical knowledge and skills to gain a comprehensive understanding of the underlying principles of business administration. The course has a clear industry focus and students have the opportunity to work on industry engagement projects. Students select one specialisation from business administration, management or retail management in their first year of study. On completion of their first year, students are eligible to graduate with a diploma in their area of specialisation. Students may graduate with an associate degree on completion of their second year of study. Depending on their chosen area of specialisation, students complete their first year of study at either the Hawthorn or Wantirna campus. Students complete their second and third years at the Hawthorn campus.

An additional six to twelve months of paid, relevant industry experience may be available through the university's Industry-Based Learning program.

**Major studies:** Administration management, Applied data management, Budgeting and inventory control, Business events management, Business planning, Customer relationship management, Human resource management, Introduction to business computing, Marketing, Organisations and behaviour, Project management.

**Prerequisites:** Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL.

**Middle-band:** Satisfactory completion in Accounting, Business Management, Economics, any Information Technology, Legal Studies, any Mathematics, Global Politics or Psychology is considered.

**Selection Mode:** CY12: ATAR and middle-band.

NY12: Educational History including GPA, VTAC Personal Statement (Some), STAT (Some). See extra requirements for more information.

Business Information Systems (HE)

Swinburne University of Technology
Bachelor of Business Information Systems: 3 years full time study

About the course: Information systems address how people, information, computers, networks and processes come together to create cohesive business solutions. This course will prepare students for immediate entry into the management of business information systems in organisations. Students will develop some technical skills, but more emphasis will be placed on business analysis and problem-solving, systems analysis, project management, the provision of information systems services, social networking in organisations, mobile business and connectivity, and the management of information systems in organisations. Graduates may pursue a career in business analysis, business process analysis, business requirements analysis, project management, enterprise systems consultancy, business relationship management or business development.

An additional six to twelve months of paid, relevant industry experience may be available through the university's Industry-Based Learning program.

Major studies: Business (information systems), Business (software applications), Business (systems management), Business systems, Database design and implementation, Database management, Enterprise systems, Information modelling, Information security, Information systems, Information systems management, Management, Marketing, Programming (.NET), Project management, Risk analysis and management, Systems analysis, Systems design and development.

Prerequisites: Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL.

Middle-band: Satisfactory completion in any Business or any Information Technology is considered.

Selection Mode: CY12 : ATAR and middle-band.
NY12 : Educational History including GPA, VTAC Personal Statement (Some). See extra requirements for more information.
SEAS is considered.

Extra requirements:
VTAC Personal Statement (NY12-Some) : Applicants who wish to provide additional information (such as work experience) to support their application must complete the VTAC Personal Statement.

Business Information Systems/Business (HE)

Swinburne University of Technology

Bachelor of Business Information Systems/Business: 4 years full time study
About the course: This double degree combines specialist studies in business information systems (IS) with a full business degree, leading to the choice of a generalist or specialist career using IS and ICT to analyse business problems and develop creative and innovative solutions. Students select one business major from: accounting, commercial law, entrepreneurship and innovation, finance, human resource management, international business, management, or marketing. Graduates may gain employment in business analysis, business requirements analysis, project management solution design, business development and IS/IT consultancy.

An additional six to twelve months of paid, relevant industry experience may be available through the university's Industry-Based Learning program.

Major studies: Accounting, Advertising, Business (information systems), Business (software applications), Business (systems management), Business systems, Commercial law, Database design and implementation, Database management, Enterprise systems, Entrepreneurship and innovation, Finance, Human resource management, Information security, Information systems, Information systems management, International business, Management, Marketing, Programming (.NET), Project management, Public relations, Risk analysis and management, Systems analysis, Systems design and development, Tourism management.

Prerequisites: Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL.

Middle-band: Satisfactory completion in any Business or any Information Technology is considered.

Selection Mode: CY12 : ATAR and middle-band.
NY12 : Educational History including GPA, VTAC Personal Statement (Some). See extra requirements for more information.
SEAS is considered.

Extra requirements:
VTAC Personal Statement (NY12-Some) : Applicants who wish to provide additional information (such as work experience) to support their application must complete the VTAC Personal Statement.

- Bachelor of Business/Communication: 4 years full time study

About the course: This double degree prepares students for a career in business with the ability to take on the challenges of the dynamic communication sector. The business major enables students to think critically and to develop problem-solving skills, research issues, analyse information and apply their learning in an academic or professional environment. The communication major provides grounding in media, media production and public relations. Students also learn about the impact of design on these specialised areas of communication. Graduates will be able to explore opportunities in both the business and communication professions. They will have the knowledge, skills and attributes applicable to a variety of contemporary careers in the private and public sectors, both locally and internationally.

An additional six to twelve months of paid, relevant industry experience may be available through the university's Industry-Based Learning program.

Major studies: Accounting, Advertising, Commercial law, Communication, Entrepreneurship and innovation, Finance, Human resource management, Management, Marketing, Media communication, Public relations, Tourism management.
Prerequisites: Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL.

- Bachelor of Business/Social Science: 4 years full time study

About the course: In this double degree students learn how to gather, synthesise and assess information, as well as conceptualise issues and express them effectively both orally and in writing within a business environment. Students also develop theoretical insight into their chosen discipline, enabling them to understand current developments in society and the workplace, and to adapt and respond appropriately to future developments as they occur, both nationally and internationally. The diverse choice of specialisations within this degree provides graduates with a wide range of career opportunities. Graduates will be prepared for employment or self-employment in the rapidly changing cultural, technological and business environments.

An additional six to twelve months of paid, relevant industry experience may be available through the university's Industry-Based Learning program.

Major studies: Accounting, Advertising, Community health, Criminology and forensic science, Finance, Human resource management, International business, Management, Marketing, Philosophy, Politics and public policy, Psychology, Psychology and forensic science, Psychology and sport science, Sociology, Tourism management.

Prerequisites: Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL.

Middle-band: Satisfactory completion in Accounting, Business Management, Economics, any Information Technology, Legal Studies, any Mathematics, Global Politics or Psychology is considered.

**Children's Services (VET)**

**Swinburne University of Technology**

Hawthorn: 3400278054 (Fee type determined by provider) full-time/part-time

Wantirna: 3401078054 (Fee type determined by provider) full-time

- Certificate III in Children's Services: 0.5 year full time study
- Diploma of Children's Services (Early childhood education and care): 2 years full time study

**About the course:** The certificate provides students with the skills and expertise needed for a career with children aged six years and under. The course is the minimum entry qualification for those seeking work in child care. The diploma is for workers in children's services who are responsible for planning, implementing and managing programs in early childhood services, in accordance with licensing, accreditation and duty-of-care requirements. At this level, workers have responsibility for supervising other staff and volunteers. In most states this is the highest qualification required at director or service manager level for children's service centre-based care.

Note: The Diploma of Children's Services (Early Childhood Education and Care) incorporates the Certificate III in Children's Services. Students will be enrolled in the Certificate III to complete all prerequisite competencies before commencing the diploma level.

**Major studies:** Childhood development, Family and diversity, Health studies, Play and curriculum studies, Professional studies, Program planning.

**Prerequisites:** None

**Middle-band:** None

**Selection Mode:** CY12 : ATAR.

NY12 : Educational History including GPA, VTAC Personal Statement (Some). See extra requirements for more information.

SEAS is considered.

**Extra requirements:**

VTAC Personal Statement (NY12-Some) : Applicants who wish to provide additional information (such as work experience) to support their application must complete the VTAC Personal Statement.

---

**Commercial Law (HE)**

**Swinburne University of Technology**

Hawthorn: 3400234161 (CSP) full-time/part-time

- Bachelor of Business (Commercial Law): 3 years full time study

---
**About the course:** This course is designed to meet the increasing demand for business graduates with expertise in commercial law. Students gain legal problem-solving skills and learn how to assess the impact of law and regulation on an organisation. The course covers the legal aspects of contracts, marketing, intellectual property, taxation and finance, and company law. Graduates will be able to provide paralegal advice and may explore career opportunities in government departments or private entities such as accounting firms, banks, conveyancing companies, financial institutions and insolvency practices. They may also find employment in the not-for-profit sector.

An additional six to twelve months of paid, relevant industry experience may be available through the university's Industry-Based Learning program.

Combining the Bachelor of Business (Commercial Law) degree with an accounting co-major will enable students to apply for membership of CPA Australia (CPAA), the Institute of Chartered Accountants in Australia (ICAA) and the Institute of Public Accountants (IPA). Please note that this degree does not allow graduates to practice as a barrister or solicitor.

**Major studies:** Accounting, Asia business studies, Chinese, Entrepreneurship and innovation, European business, Finance, Human resource management, International business, Italian, Japanese, Law (commercial law), Leadership, Management, Marketing, Organisational behaviour, Small business management.

**Prerequisites:** Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL.

**Middle-band:** Satisfactory completion in Accounting, Business Management, Economics, any Information Technology, Legal Studies, any Mathematics, Global Politics or Psychology is considered.

**Selection Mode:** CY12: ATAR and middle-band.
NY12: Educational History including GPA, VTAC Personal Statement (Some), STAT (Some). See extra requirements for more information.
SEAS is considered.

**Extra requirements:**
VTAC Personal Statement (NY12-Some): Applicants who wish to provide additional information (such as work experience) to support their application must complete the VTAC Personal Statement.

STAT (NY12-Some): Applicants who wish to use a general aptitude test for entry must complete the STAT Multiple Choice.

- Bachelor of Communication: 3 years full time study

**About the course:** In this course students study three distinct but related areas: media studies, public relations and design. They learn about media and media production, public relations and the impact of design on these specialised areas of communication. Students studying on campus at Hawthorn select a Communication major from: Advertising, Communication, Media Communication Studies or Public Relations and combine it with other studies to compliment or broaden their desired career outcomes. Students studying online select a Communication major from: Media Studies or Public Relations. Students also have the opportunity to participate in hands-on projects designed to help them confront the challenges of the dynamic communication sector. Employment may be found in advertising, public relations, journalism, radio, film and television, and communications research.
An additional six to twelve months of paid, relevant industry experience may be available through the university's Industry-Based Learning program.

**Major studies:** Advertising, Communication, Design, Media communication, Public relations.

**Prerequisites:** Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL.

**Middle-band:** Satisfactory completion in any Business, Classical Studies, any History, Literature, any LOTE, Media, Interactive Digital Media C, Outdoor And Environmental Studies, Australian Politics, Sociology, Theatre Studies or Texts And Traditions is considered.

**Selection Mode:** CY12 : ATAR and middle-band.
NY12 : Educational History including GPA, VTAC Personal Statement (Some). See extra requirements for more information.

SEAS is considered.

**Extra requirements:**
VTAC Personal Statement (NY12-Some) : Applicants who wish to provide additional information (such as work experience) to support their application must complete the VTAC Personal Statement.

---

**Communications (Vice-Chancellor's Scholarship) (HE)**

**Swinburne University of Technology**

Hawthorn:3400210041 (CSP) full-time  
Apply: [Through VTAC](#) main round

- Bachelor of Communication (various): 3 years full time study

**About the course:** Students accepted into this scholarship program may undertake study in any on-campus three- or four-year Bachelor of Communication degree listed at [www.swinburne.edu.au/scholarships/vc-scholarship-communications/](http://www.swinburne.edu.au/scholarships/vc-scholarship-communications/) and receive a waiver from student contribution amount payments for the duration of their course (subject to academic performance and other scholarship conditions).

Note: This scholarship is only available to current Year 12 students.

**Major studies:** Advertising, Media studies, Public relations.

**Prerequisites:** Minimum ATAR of 95.00.

**Middle-band:** None

**Selection Mode:** CY12 : ATAR, Supplementary form (All). See extra requirements for more information.

SEAS is considered.

**Extra requirements:**
Supplementary form (CY12-All) : Applicants must complete and submit a Vice-Chancellor's Scholarship - Supplementary Application Form (www.swinburne.edu.au/scholarships/vc-scholarship-communications-apply) by 12 noon 23 December.

Other (CY12-All): Applicants must meet the specific prerequisites for the course they wish to undertake.

Hawthorn: 3400234773 (IFP) full-time
Apply: Through VTAC main round

- Bachelor of Computer Science: 3 years full time study

**About the course:** This course focuses on advanced technologies including software development using C++ and Java, software engineering and software development for the internet. It aims to develop extensive skills in software development, experience in working on team projects and strong communication skills. Graduates may find employment in organisations engaged in medium- to large-scale software development, in technical areas such as web programming, software design and engineering, user-interface engineering, software testing, usability, systems analysis and design, and project management.

An additional six to twelve months of paid, relevant industry experience may be available through the university's Industry-Based Learning program.

**Major studies:** Computer hardware, Computer systems, Computing (mathematical), Data communications, Databases, Information modelling, Internet technology, Operating systems, Programming (C++), Programming (Java), Project management, Security, Software engineering, Systems analysis.

**Prerequisites:** Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL; and a study score of at least 20 in any Mathematics.

**Middle-band:** Satisfactory completion in any Information Technology, Maths: Specialist Mathematics or Physics is considered.

**Selection Mode:** CY12 : ATAR and middle-band.
NY12 : Educational History including GPA, VTAC Personal Statement (Some). See extra requirements for more information.
SEAS is considered.

**Extra requirements:**
VTAC Personal Statement (NY12-Some) : Applicants who wish to provide additional information (such as work experience) to support their application must complete the VTAC Personal Statement.

---

**Computer Systems Technology (VET)**

Swinburne University of Technology
Hawthorn: 3400277344 (Fee type determined by provider) full-time
Apply: Through VTAC main round

- Certificate IV in Computer Systems Technology: 1 year full time study
- Advanced Diploma of Computer Systems Technology: 2 years full time study

**About the course:** This course provides the skills and knowledge needed to coordinate and administer the commissioning, installation and maintenance of a range of networks, enterprise servers and systems. Students gain a solid background in and theoretical knowledge of hardware and software components of modern computing systems. Students will be enrolled in the Cisco Vendor qualifications: IT Essentials CCNA I, II, III and IV as well as CCNP. Employment may be found in roles such as IT administrator or coordinator; IT operations administrator or coordinator; network services, network e-business, network support or network security administrator or coordinator; or network operations analyst. Alternatively, successful completion of this course may allow students to progress to another qualification with advanced standing.

**Note:** The Advanced Diploma of Computer Systems Technology incorporates the Certificate IV in Computer Systems Technology. Students will be enrolled in the Certificate IV to complete all prerequisite competencies before commencing the advanced diploma level.

**Major studies:** Computer and network security, Computer applications, Computer architecture, Computer engineering, Computer hardware, Computer networks, Computer operating systems, Computing, Computing
Conservation and Land Management (VET)

Swinburne University of Technology
Wantirna: 3401070754 (Fee type determined by provider)
full-time/part-time

- Diploma of Conservation and Land Management: 2 years full time study

About the course: In this course students will gain a broad knowledge in environmental science and develop management strategies for the sustainable use of our resources. They will obtain a thorough understanding of the use, maintenance, conservation and management of our natural resources, including flora, fauna, soils and water. Graduates may seek roles in forest, park, water resource and catchment management; ecotourism; environmental science research; revegetation and land rehabilitation; or environmental education. Successful completion of this course may also allow students to progress to another qualification with advanced standing.

Prerequisites: None

Middle-band: None

Selection Mode: CY12: ATAR.

NY12: Educational History including GPA, VTAC Personal Statement (Some). See extra requirements for more information.

SEAS is considered.

Extra requirements:
VTAC Personal Statement (NY12-Some): Applicants who wish to provide additional information (such as work experience) to support their application must complete the VTAC Personal Statement.
Bachelor of Social Science (Criminology): 3 years full time study

About the course: Every society suffers from the consequences of crime. This course equips students with the skills to understand the motivations of crime and prepare them for roles where they implement strategies to combat crime. Using research to identify social issues that lead to crime allows criminologists to develop policy and systems to address these problems. This knowledge makes them valuable contributors to victim support, community safety, rehabilitation, crime prevention and corrections programs.

Note: this course has been reaccredited and replaces the Bachelor of Social Science (Criminology and Forensic Science).

Major studies: Correction systems and process, Policing, Psychology.

Prerequisites: Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL.

Middle-band: Satisfactory completion in any History, Philosophy, Australian Politics, Psychology or Sociology is considered.

Selection Mode: CY12: ATAR and middle-band.
NY12: Educational History including GPA, VTAC Personal Statement (Some), STAT (Some). See extra requirements for more information.
SEAS is considered.

Extra requirements:
VTAC Personal Statement (NY12-Some): Applicants who wish to provide additional information (such as work experience) to support their application must complete the VTAC Personal Statement.
STAT (NY12-Some): Applicants who wish to use a general aptitude test for entry must complete the STAT Multiple Choice.

Design (VET)

Swinburne University of Technology

Hawthorn: 3400278014 (Fee type determined by provider) full-time Apply: Through VTAC main round
Wantima: 3401078014 (Fee type determined by provider) full-time Apply: Through VTAC main round

Certificate IV in Design: 1 year full time study

About the course: This course provides the opportunity to develop and enhance skills in graphic design, interior design, industrial design and related design studies. Students explore the historical and contextual basis for design. The course acts as a foundation year for exploring the diversity of design from both 2D and 3D perspectives. Graduates will be prepared for further study. Successful completion of this course may also allow students to progress to another qualification with advanced standing.

Note: Students applying to study at the Hawthorn campus may be required to commence study at the Prahran campus in 2014.

Major studies: Design, Design (3D), Design (aspects of colour), Design (product design), Design process, Design theory, Graphic design.

Prerequisites: None

Middle-band: None
Selection Mode: CY12: ATAR.
NY12: Educational History including GPA, VTAC Personal Statement (Some). See extra requirements for more information.
SEAS is considered.

Extra requirements:
VTAC Personal Statement (NY12-Some): Applicants who wish to provide additional information (such as work experience) to support their application must complete the VTAC Personal Statement.

- Bachelor of Design (Communication Design): 3 years full time study

About the course: This course offers students a solid understanding of communication design across a broad range of media to prepare them for the challenges of an exciting and evolving industry. Students explore the communication imperative in a commercial environment and learn how to respond strategically and creatively to design problems. They explore an area of specialisation and produce a portfolio that demonstrates diverse idea generation and production skills. The course has a strong technology base and provides the skills and knowledge needed to become imaginative thinkers, refined practitioners and well-informed designers. Swinburne also offers an honours year for this degree. Graduates may find careers in design consultancy, advertising, infographics, publishing, merchandising, packaging design, photography, branding and communication strategy, education and research.

Note: Students may be required to study some units at the Prahran campus in 2014.

Major studies: Branding and identity design, Communication design, Design history, Design principles, Design theory, Digital art and design, Graphic design, Information and interface design, Package design, Publication design, Typography, Visual communication.

Prerequisites: Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL; and a study score of at least 20 in one of Art, Product Design And Technology, Media, Interactive Digital Media C, Studio Arts or Visual Communication Design.

Middle-band: A study score of 25 in Art, Product Design And Technology, Media, Interactive Digital Media C, Studio Arts or Visual Communication Design is considered.

Selection Mode: CY12: ATAR and middle-band.

NY12: Educational History including GPA, VTAC Personal Statement (Some). See extra requirements for more information.
SEAS is considered.

Extra requirements:
VTAC Personal Statement (NY12-Some): Applicants who wish to provide additional information (such as work experience) to support their application must complete the VTAC Personal Statement.

Design (Communication Design) (Honours) (HE)
Bachelor of Design (Communication Design) (Honours): 4 years full time study

About the course: This comprehensive course equips students with high-end strategic and conceptual thinking skills, informed by research, to help them create innovative and refined visual solutions. Students are mentored by experts via industry-focused workshops and encouraged to build strong industry networks through our industry placement program, or through the Swinburne Design Factory or participation in industry projects. Students produce a portfolio that reflects a focused approach to design thinking and practice, positioning them to help shape the future of contemporary design practice. Graduates may find careers in design strategy, advertising, branding strategy, design and management, consultancy, design research, education, information design, publishing, packaging design and way finding.

Note: Students may be required to study some units at the Prahran campus in 2014.

Major studies: Branding and identity design, Communication design, Design history, Design principles, Design theory, Digital art and design, Graphic design, Information and interface design, Package design, Publication design, Typography, Visual communication.

Prerequisites: Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL; and a study score of at least 20 in one of Art, Product Design And Technology, Media, Interactive Digital Media C, Studio Arts or Visual Communication Design.

Middle-band: A study score of 25 in Art, Product Design And Technology, Media, Interactive Digital Media C, Studio Arts or Visual Communication Design is considered.

Selection Mode: CY12 : ATAR and middle-band.
NY12 : Educational History including GPA, VTAC Personal Statement (Some). See extra requirements for more information.
SEAS is considered.

Extra requirements:
VTAC Personal Statement (NY12-Some) : Applicants who wish to provide additional information (such as work experience) to support their application must complete the VTAC Personal Statement.

Bachelor of Design (Communication Design)/Business (HE)

Participating institution http://www.wss8.vtac.edu.au/courses-inst/institutions/topdf/swinburne...
About the course: This double degree provides students with the skills necessary to introduce elements of design into business-related studies and apply sound business principles to design practice to improve commercial outcomes. Students also develop skills highly valued by employers, such as analysis, problem-solving, presentation and communication skills. Students will become well equipped for employment in an increasingly creative and technologically driven marketplace, with the ability to adapt and respond appropriately as change occurs. Graduates may find careers in a broad range of design and business environments such as design or business consultancy, design management, advertising, marketing, publishing, education and design research, business development or in other roles related to their business major.

An additional six to twelve months of paid, relevant industry experience may be available through the university's Industry-Based Learning program.

Note: Students may be required to study some units at the Prahran campus in 2014.

Major studies: Accounting, Advertising, Branding, Commercial law, Communication design, Design history, Design principles, Entrepreneurship and innovation, Graphic design, Human resource management, International business, Management, Marketing, Package design, Public relations, Publication design, Typography, Visual communication.

Prerequisites: Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL; and a study score of at least 20 in one of Product Design And Technology, Studio Arts or Visual Communication Design.

Middle-band: Satisfactory completion in Art, any Business, Media or Interactive Digital Media C is considered. A study score of 25 in Product Design And Technology, Studio Arts or Visual Communication Design is considered.

Selection Mode: CY12 : ATAR and middle-band.
NY12 : Educational History including GPA, VTAC Personal Statement (Some). See extra requirements for more information.
SEAS is considered.

Extra requirements:
VTAC Personal Statement (NY12-Some) : Applicants who wish to provide additional information (such as work experience) to support their application must complete the VTAC Personal Statement.

Design (Digital Media Design) (HE)

Swinburne University of Technology
Hawthorn:3400236001 (CSP) full-time/part-time  Apply: Through VTAC  main round

| Jan   | 62.85 | 46.67 | 18  | 35 |

Hawthorn:3400236003 (IFP) full-time  Apply: Through VTAC  main round

- Bachelor of Design (Digital Media Design): 3 years full time study

About the course: In this course students learn how to develop and deliver a range of digital media applications, including projects for web, digital film and television production, interactive digital media and handheld mobile devices. In doing so, they employ a combination of creative design thinking, industry-relevant technical skills and research. The opportunity to study time-based sequence design provides students with expertise in animation, 3D modelling, digital video, audio media and communication design for electronic media. Swinburne also offers an honours year for this degree. Graduates may find careers in advertising, animation, design consultancy, design management, media and entertainment, music or corporate video production, post-production including post-production special effects, video games entertainment and website design/development.

An additional six to twelve months paid, relevant industry experience may be available through the university's Industry-Based Learning program.
Note: Students may be required to study some subjects at the Prahran campus in 2014.

**Major studies:** Animation (2D), Animation (3D), Design, Digital art and design, Digital audio and video production, Digital imaging, Digital media design, Interactive design for games and web, Interactive multimedia, Multimedia design, Postproduction for film and video, Typography for screen and motion, Website development.

**Prerequisites:** Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL.

**Middle-band:** Satisfactory completion in Software Development, Media, Interactive Digital Media C or Studio Arts is considered. Satisfactory completion in Art, Product Design And Technology or Visual Communication Design equals 1 aggregate point per study.

**Selection Mode:** CY12 : ATAR and middle-band. NY12 : Educational History including GPA, VTAC Personal Statement (Some). See extra requirements for more information.

SEAS is considered.

**Extra requirements:**

VTAC Personal Statement (NY12-Some) : Applicants who wish to provide additional information (such as work experience) to support their application must complete the VTAC Personal Statement.

**Design (Graphic) (VET)**

**Swinburne University of Technology**

Hawthorn: 3400278114 (Fee type determined by provider) full-time

Wantirna: 3401078114 (Fee type determined by provider) full-time

Apply: Through VTAC main round

- Diploma of Graphic Design: 1 year full time study

**About the course:** In this course students learn to create and execute design concepts efficiently and economically. The course teaches the use of traditional media as well as computer technology to assemble camera-ready and digital artwork using graphic reproduction techniques. Web design and production is also covered in this course. Graduates may find employment in advertising agencies, graphic design and finished art studios, publishing (newspaper and magazines), printers, or film and television production houses. Successful completion of this course may also allow students to progress to another qualification with advanced standing.

Note: Students applying to study at the Hawthorn campus may be required to commence study at the Prahran campus in 2014.

**Major studies:** Design, Design theory, Digital art and design, Graphic arts.

**Prerequisites:** None

**Middle-band:** None

**Selection Mode:** CY12 : ATAR, Supplementary form (All), Folio (All). See extra requirements for more information. NY12 : Educational History including GPA, VTAC Personal Statement (Some), Supplementary form (All), Folio (All), other. See extra requirements for more information.

SEAS is considered.

**Extra requirements:**

VTAC Personal Statement (NY12-Some) : Applicants who wish to provide additional information (such as work experience) to support their application must complete the VTAC Personal Statement.

Folio (CY12-All, NY12-All) : Applicants will need to demonstrate their graphic design skills through the submission of an electronic portfolio of no more than 10 images. Visit [www.swinburne.edu.au/extrareqs/graphicdesign](http://www.swinburne.edu.au/extrareqs/graphicdesign) for details.
Information Session (CY12-All, NY12-All): Applicants must attend an information session in late November or early December at the Prahran campus. Visit www.swinburne.edu.au/extrareqs/graphicdesign for session dates/times, venue details and to register.

**Design (Industrial Design) (HE)**

**Swinburne University of Technology**

Hawthorn: 3400236201 (CSP) full-time/part-time  
Apply: Through VTAC main round

Hawthorn: 3400236203 (IFP) full-time  
Apply: Through VTAC main round

- Bachelor of Design (Industrial Design): 4 years full time study

**About the course:** In this course students learn how to develop products that meet human needs and expectations, ranging from personal and household items to commercial and industrial equipment. Materials selection, energy use, human interface and environmental sustainability are some of the design parameters considered in the research and development undertaken to design new products for mass production. Students develop creative and technological aptitude through a user-centred design program supported by business studies, professional practice, consumer knowledge, sustainability and design ethics. They explore materials and manufacturing techniques to create product concepts and learn how to communicate their ideas using industry-standard software and workshop-based prototyping facilities. Swinburne also offers an honours year for this degree. Graduates may find careers in product design, research and development for any type of manufacturing product such as electronic items, consumer goods, transportation vehicles, transportation systems, furniture and fittings, sporting equipment, medical equipment, toys and games.

An additional six to twelve months paid, relevant industry experience may be available through the university's Industry-Based Learning program.

Note: Students may be required to study some subjects at the Prahran campus in 2014.

**Major studies:** Computer-aided design (CAD), Design (3D), Design (product development), Design for environment, Design for manufacture, Design theory, Engineering drawing and specification, Ergonomics, Product design and development, Rapid prototyping, Sustainable design.

**Prerequisites:** Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL; and a study score of at least 20 in one of Art, Product Design And Technology, Media, Interactive Digital Media C, Studio Arts, Systems Engineering or Visual Communication Design.

**Middle-band:** Satisfactory completion in Engineering Studies (VCE VET), Furnishing B, Furnishing C, Furnishing D, Furnishing E, Software Development, any Mathematics or Furnishing A is considered. A study score of 25 in Art, Product Design And Technology, Media, Interactive Digital Media C, Studio Arts or Visual Communication Design is considered.

**Selection Mode:** CY12: ATAR and middle-band.

NY12: Educational History including GPA, VTAC Personal Statement (Some). See extra requirements for more information.

SEAS is considered.

**Extra requirements:**

VTAC Personal Statement (NY12-Some): Applicants who wish to provide additional information (such as work experience) to support their application must complete the VTAC Personal Statement.

**Design (Interior Architecture) (HE)**

**Swinburne University of Technology**

Hawthorn: 3400236031 (CSP) full-time/part-time  
Apply: Through VTAC main round

Hawthorn: 3400236033 (IFP) full-time  
Apply: Through VTAC main round

- Bachelor of Design (Interior Architecture): 4 years full time study

**Participating institution** http://www.wss8.vtac.edu.au/courses-inst/institutions/topdf/swinburne...
About the course: In this course students learn about the environments in which we spend our lives and how they are formed and fabricated. They examine our need to revisit continually the way we create our cities, homes, retail environments and workplaces in a rapidly changing world. Students engage in a variety of projects and learn to capitalise on new technologies and materials in the construction of indoor and outdoor 3D spaces. They develop a broad repertoire of representation and visualisation skills using industry-standard software programs, manual drafting and freehand drawing. Swinburne also offers an honours year for this degree. Graduates may consider a career in an architectural or interior design practice, or as a self-employed designer. Careers may be found in the design of residential, commercial, retail, sporting and government spaces; temporary spaces (such as trade shows and museum displays); public spaces and environments; or in design management.

An additional six to twelve months paid, relevant industry experience may be available through the university's Industry-Based Learning program.

Note: Students may be required to study some subjects at the Prahran campus in 2014.

Major studies: Architecture, Building (construction methods), Building (design), Computer-aided drafting (CAD), Design, Design (3D), Design theory, Interior design, Model making, Sustainable design.

Prerequisites: Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL; and a study score of at least 20 in one of Art, Product Design And Technology, Media, Interactive Digital Media C, Studio Arts, Systems Engineering or Visual Communication Design.

Middle-band: Satisfactory completion in Building & Construction (VCE VET), Engineering Studies (VCE VET), Furnishing B, Furnishing C, Furnishing D, Furnishing E, Software Development, any Mathematics, Outdoor And Environmental Studies or Furnishing A is considered. A study score of 25 in Art, Product Design And Technology, Media, Interactive Digital Media C, Studio Arts or Visual Communication Design is considered.

Selection Mode: CY12: ATAR and middle-band.

NY12: Educational History including GPA, VTAC Personal Statement (Some). See extra requirements for more information.

SEAS is considered.

Extra requirements:

VTAC Personal Statement (NY12-Some): Applicants who wish to provide additional information (such as work experience) to support their application must complete the VTAC Personal Statement.

---

Design (Interior Design and Decoration) (VET)

Swinburne University of Technology

Hawthorn: 3400278274 (Fee type determined by provider) full-time  
Apply: Through VTAC main round

- Diploma of Interior Design and Decoration: 1.5 year full time study

About the course: This course aims to provide students with the skills and knowledge to create plans and undertake projects in interior design and decoration. Students learn how to create and plan furniture, fittings, surfaces and colour schemes for commercial and residential settings. Subjects cover spatial planning, computer-aided drafting and colour design for specialist interior applications. Graduates may find employment as a landscape designer, sustainability consultant, project manager implementing sustainable practice or sales consultant for sustainable landscape products. Successful completion of this course may allow students to progress to another qualification with advanced standing.

Note: The Diploma of Interior Design and Decoration incorporates the Certificate IV in Interior Design and Decoration. Students will be enrolled in the Certificate IV to complete all prerequisite competencies before commencing the diploma level.

Students may be required to commence study at the Prahran campus in 2014.

Major studies: Architectural styles and movements, CAD applications, Interior lighting and fittings, Manage small business operations, Soft furnishings, Structural elements.

Prerequisites: None
Middle-band: None

Selection Mode: CY12 : ATAR.
NY12 : Educational History including GPA, VTAC Personal Statement (Some). See extra requirements for more information.
SEAS is considered.

Extra requirements:

VTAC Personal Statement (NY12-Some) : Applicants who wish to provide additional information (such as work experience) to support their application must complete the VTAC Personal Statement.

Design (UniLink) (HE)
Swinburne University of Technology

Hawthorn: 3400236301 (CSP) full-time Apply: Through VTAC main round
Hawthorn: 3400236303 (IFP) full-time Apply: Through VTAC main round

- Diploma of Design (UniLink): 8 months full time study

About the course: This higher education diploma provides an alternative pathway to the second year of a bachelor degree. It includes study in digital, interactive and 3D design. The units are similar to those offered in the first year of a bachelor degree, but classes are smaller and students have more one-on-one time with teachers. Students extend their creative and practical design skills and develop a modern approach to the role of design in society. With further study graduates may work towards a career in advertising; animation; design consultancy; graphic design; packaging design; publishing; research and development for manufactured products; design of commercial and residential interiors and public spaces; media and entertainment studios; videogames development; or web and interactive digital design.

Major studies: 20th century design, 3D communication, 3D design, Communication for design, Design studio, Digital design, Interactive design for web technologies, Methods of investigation.

Prerequisites: Units 3 and 4: a study score of at least 30 in English (EAL) or 20 in English other than EAL; and a study score of at least 20 in one of Art, Product Design And Technology, Media, Interactive Digital Media C, Studio Arts, Systems Engineering or Visual Communication Design.

Middle-band: Satisfactory completion in Engineering Studies (VCE VET), Furnishing B, Furnishing C, Furnishing D, Furnishing E, Software Development, any Mathematics or Furnishing A is considered. A study score of 25 in Art, Product Design And Technology, Media, Interactive Digital Media C, Studio Arts, Systems Engineering or Visual Communication Design is considered.

Selection Mode: CY12 : ATAR and middle-band.
NY12 : Educational History including GPA, VTAC Personal Statement (Some). See extra requirements for more information.
SEAS is considered.

Extra requirements:

VTAC Personal Statement (NY12-Some) : Applicants who wish to provide additional information (such as work experience) to support their application must complete the VTAC Personal Statement.

Design (Vice-Chancellor's Scholarship) (HE)
Swinburne University of Technology
Bachelor of Design or Film and Television (various): 3 years full time study

About the course: Students accepted into this program may undertake study in any three- or four-year Bachelor of Design or Bachelor of Film and Television degree listed at [www.swinburne.edu.au/scholarships/vc-scholarship-design](http://www.swinburne.edu.au/scholarships/vc-scholarship-design) and receive a waiver from student contribution amount payments for the duration of their course (subject to academic performance and other scholarship conditions).

Note: This course is only available to current Year 12 students.

Major studies: Communication design, Digital media design, Film and television, Film and television (animation), Industrial design, Interior architecture.

Prerequisites: Minimum ATAR of 95.00.

Middle-band: None

Selection Mode: CY12 : ATAR, Supplementary form (All). See extra requirements for more information.

SEAS is considered.

Extra requirements:

Supplementary form (CY12-All) : Applicants must complete and submit a Vice-Chancellor's Scholarship - Supplementary Application Form (www.swinburne.edu.au/scholarships/vc-scholarship-design-apply) by 12 noon 23 December.

Other (CY12-All): Applicants must meet the specific prerequisites for the course they wish to undertake.

---

Digital and Interactive Games (VET)

Swinburne University of Technology

Certificate IV in Digital and Interactive Games: 1 year full time study

Diploma of Digital and Interactive Games: 2 years full time study

About the course: This course is suitable for those who want to learn how to create interactive web-based Flash games, databases for online games, sound for games, 2D characters, backgrounds, animations, and 3D characters, models and animations. Students also learn about games development using a game engine. The course provides students with the skills and knowledge to become animators and game developers for online and mobile platforms. Employment may be found in the fields of game design, multimedia, web design, web programming, video production and post-production, 3D modelling, animation and games development. Students will also be prepared to progress to further studies in information technology.

Note: The Diploma of Digital and Interactive Games incorporates the Certificate IV in Digital and Interactive Games. Students will be enrolled in the Certificate IV to complete all prerequisite competencies before commencing the advanced diploma level.
Major studies: 2D animation, 3D animation and modelling, Digital video production and post production, Games Development, Visual design and imaging, Web programming.

Prerequisites: None

Middle-band: None

Selection Mode: CY12: ATAR.

NY12: Educational History including GPA, VTAC Personal Statement (Some). See extra requirements for more information.

SEAS is considered.

Extra requirements:

VTAC Personal Statement (NY12-Some): Applicants who wish to provide additional information (such as work experience) to support their application must complete the VTAC Personal Statement.

Digital Media (HE)
Swinburne University of Technology
Hawthorn: 3400234271 (CSP) full-time/part-time Apply: Through VTAC main round

Bachelor of Arts (Digital Media): 3 years full time study

About the course: This course incorporates studies in digital media production with an emphasis on practical skills and techniques including web development and programming, animation, digital video and audio, 3D modelling, DVD authoring and video game development. Students also learn the more theoretical areas of experience design, information architecture, multimedia technology and interactive narrative. Graduates will be equipped for careers in web development, video production, 3D modelling, information architecture, CD/DVD production, and multimedia project management. Swinburne also offers an honours (fourth) year for this degree.

An additional six to twelve months of paid, relevant industry experience may be available through the university's Industry-Based Learning program.

Major studies: Animation, Animation (modelling), Audio and video production, Cinema studies, Communications, Contextual and cultural studies, Design, Digital audio, Digital media, Digital video, Internet and multimedia, Internet technology, Media studies, Modelling (3D), Multimedia, Multimedia authoring, Multimedia design, New media development, Professional writing and editing, Radio production, Web design.

Prerequisites: Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL.

Middle-band: Satisfactory completion in Art, Media, Interactive Digital Media C, Studio Arts or Visual Communication Design is considered.

Selection Mode: CY12: ATAR and middle-band.

NY12: Educational History including GPA, VTAC Personal Statement (Some). See extra requirements for more information.

SEAS is considered.

Extra requirements:

VTAC Personal Statement (NY12-Some): Applicants who wish to provide additional information (such as work experience) to support their application must complete the VTAC Personal Statement.
Digital Media Technologies (VET)

Swinburne University of Technology

Hawthorn: 3400277404 (Fee type determined by provider) full-time Apply: Through VTAC main round

Wantirna: 3401077404 (Fee type determined by provider) full-time Apply: Through VTAC main round

- Certificate IV in Digital Media Technologies: 1 year full time study
- Diploma of Digital Media Technologies: 2 years full time study

About the course: This course has been developed with industry assistance to provide a broad range of skills required for entry into the information technology and multimedia industries. Emphasis is placed on practical skills using a hands-on approach. Students learn about multimedia presentations, visual design, web design, web programming, database integration and multimedia project management. Students undertaking the diploma participate in an industry project in their final semester of study. Successful completion of the diploma may allow students to progress to another qualification with advanced standing. Employment may be found in the fields of web design, multimedia, web programming, web game design, video production and post-production, 3D modelling and animation, and project management for web content.

Note: The Diploma of Digital Media Technologies incorporates the Certificate IV in Digital Media Technologies. Students will be enrolled in the Certificate IV to complete all prerequisite competencies before commencing the diploma level.

Students studying at Wantirna campus may be required to study some units at Hawthorn campus.

Major studies: Animation (2D), Animation 3D, Database integration, Games development, Multimedia authoring, Multimedia communications, Multimedia design, Multimedia development, Multimedia imaging, Multimedia production, Website development.

Prerequisites: None

Middle-band: None

Selection Mode: CY12: ATAR.
NY12: Educational History including GPA, VTAC Personal Statement (Some). See extra requirements for more information.
SEAS is considered.

Extra requirements:
VTAC Personal Statement (NY12-Some): Applicants who wish to provide additional information (such as work experience) to support their application must complete the VTAC Personal Statement.

Bachelor of Education (Early Childhood): 4 years full time study

**About the course:** Effective teaching requires professionals who are able to use a range of technologies, subject content and techniques to enhance and extend children's learning. This course provides the skills needed to engage children through visual arts, music, literacy, mathematics and creative assessment. Students will learn how to respond to family diversity, children with additional needs and Indigenous and linguistically diverse children. The course includes six supervised practical units, placing students in early childhood settings and primary schools to develop professional teaching skills. Graduates may find employment as a teacher in primary schools, day care centres and work-based care.

**Major studies:** Child development, Children with additional needs, Guiding behaviour, Imagining the world through visual arts.

**Prerequisites:** Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL; and Units 1 and 2: satisfactory completion of any Mathematics or any Mathematics.

**Middle-band:** A study score of 35 in English (EAL) is considered. A study score of 30 in English other than EAL is considered. A study score of 25 in any Mathematics is considered.

**Selection Mode:** CY12 : ATAR and middle-band.
NY12 : Educational History including GPA, VTAC Personal Statement (Some), STAT (Some). See extra requirements for more information.
SEAS is considered.

**Extra requirements:**
VTAC Personal Statement (NY12-Some) : Applicants who wish to provide additional information (such as work experience) to support their application must complete the VTAC Personal Statement.
STAT (NY12-Some) : Applicants who wish to use a general aptitude test for entry must complete the STAT Multiple Choice.

---

Bachelor of Education (Primary): 4 years full time study

**About the course:** This course equips students with the latest technology and teaching techniques to engage primary school students across a range of subject disciplines. Through collaborative group activities and school-based practical placements students develop the skills to design engaging and effective learning experiences. Students are taught to identify and address diversity; tailoring the learning experience to the needs of their students.

**Major studies:** Arts education, Discovering science, Health and physical education, Mathematics in the primary classroom, Teaching literacy.

**Prerequisites:** Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL; and Units 1 and 2: satisfactory completion of any Mathematics or any Mathematics.

**Middle-band:** A study score of 35 in English (EAL) is considered. A study score of 30 in English other than EAL is considered. A study score of 25 in any Mathematics is considered.

**Selection Mode:** CY12 : ATAR and middle-band.
NY12 : Educational History including GPA, VTAC Personal Statement (Some), STAT (Some). See extra requirements for more information.
SEAS is considered.

**Electrical (VET)**

**Swinburne University of Technology**
Hawthorn:3400271114 (Fee type determined by provider) full-time Apply: Through VTAC main round

- Advanced Diploma of Engineering Technology-Electrical: 2 years full time study

**About the course:** This course provides students with the necessary skills and knowledge to evaluate, design, update and implement industrial automation systems to a technical and pre-degree level. Graduates of the industrial automation and control specialisation may find employment as a technical officer performing planning design supervision, project management and engineering liaison. Successful completion of this course may also allow students to progress to another qualification with advanced standing.

**Major studies:** Control systems, Design process, Drafting, Electrical science, Electronic systems, Electronics, Electrotechnology, Engineering (electrical generation), Engineering (electrical), Engineering (process engineering), Industrial automation, Industrial design, Microprocessor control systems, Programming (PLC), Project management, SCADA (human machine interface controls).

**Prerequisites:** None

**Middle-band:** None

**Selection Mode:** CY12 : ATAR.
NY12 : Educational History including GPA, VTAC Personal Statement (Some). See extra requirements for more information.
SEAS is considered.

**Extra requirements:**
VTAC Personal Statement (NY12-Some) : Applicants who wish to provide additional information (such as work experience) to support their application must complete the VTAC Personal Statement.

**Electronics (VET)**

**Swinburne University of Technology**
Hawthorn:3400277434 (Fee type determined by provider) full-time/part-time Apply: Through VTAC main round

- Advanced Diploma of Electronics and Communications Engineering: 2 years full time study

**About the course:** This course provides students with a foundation in electronics. It emphasises digital technology, gate array technologies and the application of microprocessor-controlled circuitry, communications and analogue electronics. Students learn how to provide technical leadership in the workplace and to design, commission, test, evaluate and diagnose faults in advanced electronic systems and associated apparatus. Graduates may work in paraprofessional positions in the procurement, debugging or design fields; as a servicing and maintenance engineer in industries such as mining, telecommunications, transport, entertainment and medical electronics; as a
technical officer/manager in public services and defence; as a technical consultant; or as a hardware and software field service engineer. Successful completion of this course may also allow students to progress to another qualification with advanced standing.

**Major studies:** Analogue integrated circuit design, Analogue systems and applications, Circuit simulation, Computer programming, Computer-aided design (CAD), Data communications, Digital and analogue electronics, Digital signal processing, Electronic interfacing, Electronic systems, Electronic technology and instrumentation, Gate array technologies, Microcontrollers, Microelectronics, Microprocessor control systems, Microprocessors, Object-oriented programming, Printed circuit board design, Programming (C), Programming (C++), Programming (PLC), Project management, Semiconductors, Technical leadership skills.

**Prerequisites:** None

**Middle-band:** None

**Selection Mode:** CY12 : ATAR.

NY12 : Educational History including GPA, VTAC Personal Statement (Some). See extra requirements for more information.

SEAS is considered.

Extra requirements:
VTAC Personal Statement (NY12-Some) : Applicants who wish to provide additional information (such as work experience) to support their application must complete the VTAC Personal Statement.

- Associate Degree in Engineering: 2 years full time study

**About the course:** This course provides a broad-based point of entry into employment as an associate engineer and offers students the chance to move into study at undergraduate level. Students complete a combination of undergraduate and vocational units. Undergraduate units are the same as those taught in Bachelor of Engineering degrees, but this course offers smaller class sizes and more contact hours to provide students with more individual support.

**Major studies:** Electrical systems, Energy and motion, Engineering (civil), Engineering (electrical), Engineering (mechanical), Engineering management, Engineering mathematics, Materials and processes.

**Prerequisites:** Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL; and a study score of at least 20 in any Mathematics.

**Middle-band:** Satisfactory completion in Chemistry, any Information Technology, Maths: Specialist Mathematics or Physics is considered.

**Selection Mode:** CY12 : ATAR and middle-band.

NY12 : Educational History including GPA, VTAC Personal Statement (Some). See extra requirements for more information.

SEAS is considered.

**Extra requirements:**
VTAC Personal Statement (NY12-Some) : Applicants who wish to provide additional information (such as work experience) to support their application must complete the VTAC Personal Statement.
Bachelor of Engineering (Biomedical Engineering): 4 years full time study

About the course: Biomedical engineering aims to improve human health by integrating engineering with biomedical science and clinical practice. This course emphasises the application of electrical, electronics and systems engineering in medicine and biology. Students learn how to develop and apply a range of medical technologies, including medical imaging systems, prosthetic devices and instrumentation for measuring physiological and bioelectrical parameters. With these skills, students can play an important role in advancing health care and improving the quality of life in communities. Graduates may work in areas such as biomaterials, clinical engineering, medical electronics and medical imaging. Potential employers include the public and private sectors, ranging from hospitals to the medical instrumentation and medical diagnostics industries.

An additional six to twelve months of paid, relevant industry experience may be available through the university’s Industry-Based Learning program.

Major studies: Anatomy and physiology, Biophysics, Circuits and electronics, Computer modelling, Digital systems, Digital technology, Engineering (biomedical), Engineering (computer systems), Engineering (electronics), Exercise physiology, Human biology, Medical imaging, Medical instrumentation, Physiology.

Prerequisites: Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL; and a study score of at least 20 in Maths: Mathematical Methods (CAS).

Middle-band: Satisfactory completion in Maths: Specialist Mathematics or any Science is considered. A study score of 25 in Maths: Mathematical Methods (CAS) is considered.

Selection Mode: CY12: ATAR and middle-band.

NY12: Educational History including GPA, VTAC Personal Statement (Some). See extra requirements for more information.

SEAS is considered.

Extra requirements:
VTAC Personal Statement (NY12-Some): Applicants who wish to provide additional information (such as work experience) to support their application must complete the VTAC Personal Statement.

Advanced Diploma of Engineering Technology: 2 years full time study
About the course: This course equips students with the knowledge and skills required for paraprofessional occupations in civil/structural engineering. It trains students to apply engineering and scientific principles in civil/structural engineering applications. Graduates may find employment in construction engineering as technical support or as a technical officer with a water authority or local council. Successful completion of this course may also allow students to progress to another qualification with advanced standing.

Major studies: Civil drafting, Computer-aided drafting (CAD), Computing, Construction, Engineering (civil), Engineering (environmental), Engineering (structural analysis and design), Engineering (survey), Management, Structural drafting.

Prerequisites: None

Middle-band: None

Selection Mode: CY12 : ATAR.
NY12 : Educational History including GPA, VTAC Personal Statement (Some). See extra requirements for more information.
SEAS is considered.

Extra requirements:
VTAC Personal Statement (NY12-Some) : Applicants who wish to provide additional information (such as work experience) to support their application must complete the VTAC Personal Statement.

Hawthorn: 3400234693 (IFP) full-time  Apply: Through VTAC main round

- Bachelor of Engineering (Civil Engineering): 4 years full time study

About the course: Civil engineers are concerned with the design, construction and improvement of our built environment and sustainability is a key consideration for civil engineers. This degree provides students with the technical expertise and management skills needed to plan, design and maintain facilities such as buildings, bridges, dams, water supply systems, waste treatment systems, road and rail networks, airports and seaports. It teaches comprehensive engineering theory and offers students hands-on practical experience. Graduates may find work as a planner, designer, investigator, research engineer, manager or consultant. Graduates are also prepared for roles in the development of new public and private infrastructure projects; resolution of water availability and salinity issues; using energy and natural resources, and issues of sustainability and green energy; and upgrading ageing infrastructure.

An additional six to twelve months of paid, relevant industry experience may be available through the university's Industry-Based Learning program.

Major studies: Building (design), Civil engineering management, Construction, Cost engineering, Engineering, Engineering (civil), Engineering (environmental), Engineering (geotechnical), Engineering (structural analysis and design), Engineering (transport), Infrastructure management, Project management, Road transport engineering, Urban design, Water resources engineering.

Prerequisites: Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL; and a study score of at least 20 in Maths: Mathematical Methods (CAS).

Middle-band: Satisfactory completion in Chemistry, any Information Technology, Maths: Specialist Mathematics or Physics is considered.
**Selection Mode:** CY12: ATAR and middle-band.
NY12: Educational History including GPA, VTAC Personal Statement (Some). See extra requirements for more information.

Apply: Through VTAC main round

Hawthorn: 3400234703 (IFP) full-time  
Apply: Through VTAC main round

- Bachelor of Engineering (Civil)/Business: 5 years full time study

**About the course:** This double degree offers students technical expertise in civil engineering principles plus business skills that are highly valued in large engineering consulting firms. These skills will also be advantageous for roles in construction management. Students gain the technical expertise and management skills needed to plan, design, construct and maintain facilities such as buildings, bridges, dams, water supply systems, waste treatment systems, road and rail networks, airports and seaports. The course teaches comprehensive engineering theory and offers students hands-on practical experience. In addition, students select one business major in either finance or management. The unique combination of engineering and business skills gained through this course prepares graduates for entry into a wide range of industries, including public authorities, municipalities, consulting firms and private consultancy firms. Graduates will be able to take on roles as a planner, designer, construction manager, administrator, investigation and research engineer or consultant.

An additional six to twelve months of paid, relevant industry experience may be available through the university's Industry-Based Learning program.

**Major studies:** Building (design), Civil engineering management, Construction, Cost engineering, Engineering, Engineering (civil), Engineering (environmental), Engineering (geotechnical), Engineering (structural analysis and design), Engineering (transport), Finance, Infrastructure management, Management, Project management, Road transport engineering, Urban design, Water resources engineering.

**Prerequisites:** Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL; and a study score of at least 20 in Maths: Mathematical Methods (CAS).

**Middle-band:** Satisfactory completion in Chemistry, any Information Technology, Maths: Specialist Mathematics or Physics is considered.

**Selection Mode:** CY12: ATAR and middle-band.

**Engineering (Dean's Scholarship) (HE)**

**Swinburne University of Technology**

Hawthorn: 3400210031 (CSP) full-time  
Apply: Through VTAC main round
• Bachelor of Engineering (various): 3 years full time study

**About the course:** Students accepted into this scholarship program may enrol in any four- or five-year engineering degree listed at www.swinburne.edu.au/scholarships/deans-scholarships-engineering/ Subject to performance, students will benefit from one or more of: a Dean's scholarship of up to $2000 per annum; mentoring and leadership development through the Dean's Scholars Network; a one-year industry placement to the value of approximately $30,000; and entry into a 4+1 masters course with a scholarship to cover the difference between the full fee and HECS in the final year.

Note: This scholarship is only available to current Year 12 students.

**Major studies:** Biomedical engineering, Civil engineering, Electrical and electronic engineering, Electronics and computers systems, Mechanical engineering, Product design engineering, Robotics and mechatronics, Telecommunications and network engineering.

**Prerequisites:** Minimum ATAR of 85.00.

**Middle-band:** None

**Selection Mode:** CY12 : ATAR, Supplementary form (All). See extra requirements for more information. SEAS is considered.

**Extra requirements:**

Supplementary form (CY12-All) : Applicants must complete and submit a Dean's Engineering Scholarship - Supplementary Application Form (www.swinburne.edu.au/scholarships/deans-scholarships-engineering-apply) by 12 noon 23 December.

Other (CY12-All): Applicants must meet the specific prerequisites for the course they wish to undertake.

• Bachelor of Engineering (Electrical and Electronic Engineering): 4 years full time study

**About the course:** Electrical and electronic engineers have played a major role in the development of a wide range of technologies, including renewable energy, electric cars, GPS devices and electric power systems generation. This course develops skills and knowledge relevant to the design and operation of electronics and electrical energy infrastructure. Students learn comprehensive engineering theory and have the opportunity to work on projects to design renewable energy systems, electric batteries, electric motor control with regenerative braking, or an electric car. Graduates may find employment as an electrical/electronic design engineer, project planner, product designer or project manager in a range of industries including automotive, robotics, aerospace, power systems, electronics, manufacturing and industrial research.

An additional six to twelve months of paid, relevant industry experience may be available through the university's Industry-Based Learning program.

**Major studies:** Communication systems, Communications, Control systems, Data networks, Digital and analogue electronics, Digital and microprocessor systems, Electrical circuits, Electrical engineering, Electrical engineering management, Electronics, Embedded controllers, Embedded systems, Engineering (electrical distribution), Engineering (electrical generation), Engineering (electrical), Engineering (electronics), Engineering (telecommunications), Microcomputers, Microelectronics, Microprocessor control systems.
Prerequisites: Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL; and a study score of at least 20 in Maths: Mathematical Methods (CAS).

Middle-band: Satisfactory completion in Chemistry, any Information Technology, Maths: Specialist Mathematics or Physics is considered.

Selection Mode: CY12 : ATAR and middle-band.

NY12 : Educational History including GPA, VTAC Personal Statement (Some). See extra requirements for more information.

SEAS is considered.

Extra requirements:
VTAC Personal Statement (NY12-Some) : Applicants who wish to provide additional information (such as work experience) to support their application must complete the VTAC Personal Statement.

- Bachelor of Engineering (Electrical and Electronic) / Business: 5 years full time study

About the course: Electrical and electronic engineers play a major role in the development of a wide range of technologies such as renewable energy sources, industrial automation and electric power system generation. This double degree develops skills and knowledge relevant to the design, operation and maintenance of electronics and electrical energy infrastructure. In addition, students study a business major in either finance or management. The business major gives students a competitive edge in the workforce and opportunities to expand into future management roles. Graduates may find careers in automotive, robotics, aerospace, power systems, electronics, industrial research and manufacturing industries. Possible roles include design engineer, project planner, product designer or project manager.

An additional six to twelve months of paid, relevant industry experience may be available through the university’s Industry-Based Learning program.

Major studies: Business management, Communication systems, Communications, Control systems, Data networks, Digital and analogue electronics, Digital and microprocessor systems, Electrical engineering, Electrical engineering management, Electronics, Embedded controllers, Engineering, Engineering (electrical distribution), Engineering (electrical generation), Engineering (electrical), Engineering (electronics), Engineering (telecommunications), Finance, Management, Microcomputers, Microelectronics, Microprocessor control systems, Microprocessors.

Prerequisites: Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL; and a study score of at least 20 in Maths: Mathematical Methods (CAS).

**Engineering (Electronics and Computer Systems) (HE)**

Bachelor of Engineering (Electronics and Computer Systems): 4 years full time study

About the course: In this course students learn how to design, construct, develop, test and maintain high-tech products, services and systems. Dynamic high-technology areas are covered, including the overlapping fields of computer hardware and software, telecommunications, electronics and electrical systems. The course teaches science, technology and problem-solving skills and prepares students for professions characterised by the development of new technologies. Students develop design expertise in electronics, computer systems and software engineering. They also select a specialisation focussing on embedded systems, programmable hardware design, analogue and RF electronics, telecommunication systems and systems on chip. The course cultivates logical and lateral thinking through practical hands-on workshops and industry-based projects. Graduates will be able to work in a diverse range of environments designing innovative products for the automotive, aerospace, computer programming, defence, industrial and power electronics, medical imaging systems, power generation, manufacturing, robotics and telecommunications industries.

An additional six to twelve months of paid, relevant industry experience may be available through the university's Industry-Based Learning program.

Major studies: Control systems, Digital and microprocessor systems, Electronics, Embedded controllers, Engineering (communication), Engineering (electronics), Engineering management, Microelectronics, Microprocessor control systems, Software engineering, Telecommunications.

Prerequisites: Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL; and a study score of at least 20 in Maths: Mathematical Methods (CAS).

Middle-band: Satisfactory completion in Chemistry, any Information Technology, Maths: Specialist Mathematics or Physics is considered.

Selection Mode: CY12: ATAR and middle-band.

NY12: Educational History including GPA, VTAC Personal Statement (Some). See extra requirements for more information.

SEAS is considered.

Extra requirements:

VTAC Personal Statement (NY12-Some): Applicants who wish to provide additional information (such as work experience) to support their application must complete the VTAC Personal Statement.

Engineering (Electronics and Computer Systems)/Business (HE)

Bachelor of Engineering (Electronics and Computer Systems)/Business: 5 years full time study

About the course: This double degree teaches students to create sophisticated electronics and computer systems as well as the business skills needed to manage and commercialise projects. It encompasses multidisciplinary and entrepreneurial skills to prepare students for leading roles in engineering corporations or to develop their own business ventures in the fields of electronics and computer systems engineering. Students learn comprehensive
engineering theory and have the opportunity to work on hands-on projects. In addition, students select a business major in either finance or management. Graduates are able to combine engineering skills with business knowledge to design innovative products for industries including automotive, aerospace, computer programming, defence, industrial and power electronics, manufacturing, medical imaging systems, power generation, robotics and telecommunications. The business major provides opportunities for management roles.

An additional six to twelve months of paid, relevant industry experience may be available through the university's Industry-Based Learning program.

**Major studies:** Business management, Control systems, Data communications, Digital and microprocessor systems, Electronics, Embedded controllers, Engineering (communication), Engineering (computer systems), Engineering (electronics), Engineering management, Finance, Internet telecommunications, Microelectronics, Microprocessor control systems, Software engineering, Telecommunications (systems and networks).

**Prerequisites:** Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL; and a study score of at least 20 in Maths: Mathematical Methods (CAS).

**Middle-band:** Satisfactory completion in Chemistry, any Information Technology, Maths: Specialist Mathematics or Physics is considered.

**Selection Mode:** CY12 : ATAR and middle-band.

NY12 : Educational History including GPA, VTAC Personal Statement (Some). See extra requirements for more information.

SEAS is considered.

**Extra requirements:**

VTAC Personal Statement (NY12-Some) : Applicants who wish to provide additional information (such as work experience) to support their application must complete the VTAC Personal Statement.

**Engineering (Electronics and Computer Systems)/Computer Science (HE)**

Swinburne University of Technology

Hawthorn: 3400234821 (CSP) full-time/part-time  Apply: Through VTAC main round

Hawthorn: 3400234823 (IFP) full-time  Apply: Through VTAC main round

- Bachelor of Engineering (Electronics and Computer Systems/Computer Science: 5 years full time study

**About the course:** This double degree lays a foundation for creative and innovative design in the pursuit of solutions to engineering problems. Students develop design expertise in digital and analogue electronics, embedded systems, computer architectures, digital signal processing and software engineering. Students select major studies from programming, artificial intelligence and database systems. Graduates may find careers as an engineer, product manager or designer in the automotive, chemical, defence, electronic appliances, robotics, or telecommunications industries, or in industrial research. They may also find roles in any field where the ability to cope with complexity in electronic design, computer systems and software development is an asset.

An additional six to twelve months of paid, relevant industry experience may be available through the university's Industry-Based Learning program.

**Major studies:** Artificial intelligence, Computer engineering, Computer programming, Computer science, Control systems, Data base management, Digital and microprocessor systems, Electronics, Embedded controllers, Engineering (communication), Engineering (computer systems), Engineering (electronics), Engineering management, Microelectronics, Microprocessor control systems, Operating systems, Software engineering, Software project management, Telecommunications (systems and networks).

**Prerequisites:** Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL; and a study score of at least 20 in Maths: Mathematical Methods (CAS).

**Middle-band:** Satisfactory completion in Chemistry, any Information Technology, Maths: Specialist Mathematics or Physics is considered.
**Selection Mode:** CY12: ATAR and middle-band.

NY12: Educational History including GPA, VTAC Personal Statement (Some). See extra requirements for more information.

SEAS is considered.

**Extra requirements:**

VTAC Personal Statement (NY12-Some): Applicants who wish to provide additional information (such as work experience) to support their application must complete the VTAC Personal Statement.

main round

- Bachelor of Engineering (Mechanical Engineering): 4 years full time study

**About the course:** Mechanical engineers design technologies requiring physical motion and, in doing so, sustain and transform every aspect of life. They have created wind turbines, artificial hearts and limbs, intensive-care equipment, trains, cars, ships, aircraft and mining machinery. Sustainability is a key consideration for mechanical engineers as they develop solutions to engineering problems in a way that efficiently uses energy and natural resources. This course teaches the core concepts of mechanics, kinematics, thermodynamics, fluid mechanics and energy. Graduates may find employment in the aerospace, automotive, biomedical, building services, consulting engineering, defence, finance, manufacturing, maritime engineering, materials processing, mining, power generation, renewable energy, research and development, and transport industries. This may include roles in design, development, testing, innovation, quality control, project management, planning, research and engineering management.

An additional six to twelve months of paid, relevant industry experience may be available through the university's Industry-Based Learning program.

**Major studies:** Computer-aided design (CAD), Computer-aided engineering (CAE), Control systems, Engineering (mechanical), Machine dynamics, Manufacturing, Materials technology, Mathematics, Mechanical design, Mechanical engineering, Mechanics (fluid), Mechanics (structural), Numerical methods, Thermodynamics.

**Prerequisites:** Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL; and a study score of at least 20 in Maths: Mathematical Methods (CAS).

**Middle-band:** Satisfactory completion in Chemistry, any Information Technology, Maths: Specialist Mathematics or Physics is considered.

**Selection Mode:** CY12: ATAR and middle-band.

NY12: Educational History including GPA, VTAC Personal Statement (Some). See extra requirements for more information.

SEAS is considered.

**Extra requirements:**

VTAC Personal Statement (NY12-Some): Applicants who wish to provide additional information (such as work experience) to support their application must complete the VTAC Personal Statement.
Engineering (Mechanical)/Business (HE)

Hawthorn: 3400234663 (IFP) full-time Apply: Through VTAC main round

- Bachelor of Engineering (Mechanical Engineering)/Business: 5 years full time study

About the course: This double degree allows students to enhance their mechanical engineering studies in design, manufacturing and maintenance with fundamental knowledge in the field of business. Mechanical engineering teaches the core concepts of mechanics, kinematics, thermodynamics, fluid mechanics and energy. In addition, students select a business major in either finance or management. With a combination of engineering and business skills graduates will be well positioned for a career in the automotive, aerospace, transport, power generation, manufacturing engineering, materials processing, appliance production, mechanical building services, mining and raw-material conversion industries. This may include roles in design, testing, development, innovation, project management, planning, research, quality control, and engineering management. The business major provides opportunities for management and operational roles.

An additional six to twelve months of paid, relevant industry experience may be available through the university's Industry-Based Learning program.

Prerequisites: Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL; and a study score of at least 20 in Maths: Mathematical Methods (CAS).

Middle-band: Satisfactory completion in Chemistry, any Information Technology, Maths: Specialist Mathematics or Physics is considered.

Selection Mode: CY12 : ATAR and middle-band.
NY12 : Educational History including GPA, VTAC Personal Statement (Some). See extra requirements for more information.
SEAS is considered.

Extra requirements:
VTAC Personal Statement (NY12-Some) : Applicants who wish to provide additional information (such as work experience) to support their application must complete the VTAC Personal Statement.

Engineering (Mechanical/Manufacturing) (VET)

Swinburne University of Technology
Hawthorn: 3400277444 (Fee type determined by provider) full-time/part-time Apply: Through VTAC main round

- Advanced Diploma of Engineering Technology: 2 years full time study

About the course: This course equips students with the knowledge and skills required for a career in manufacturing and mechanical control engineering. The course also provides paraprofessional level-training for the mechanical and manufacturing industry, with a major emphasis on automation systems, as well as structural engineering applications. Graduates may find employment as a tool designer, drafting technician, production supervisor, production planner, production controller, estimator, or plant and equipment sales technical officer. Successful completion of this course may also allow students to progress to another qualification with advanced standing.

Major studies: Computer-aided design (CAD), Computer-aided drafting (CAD), Design (tooling), Drafting, Engineering (fluid power), Engineering (manufacturing), Engineering (materials), Engineering (mechanical), Engineering (process engineering), Industrial engineering, Machine dynamics, Mechanical design, Mechanics (applied).
**Prerequisites:** None

**Middle-band:** None

**Selection Mode:** CY12 : ATAR.

NY12 : Educational History including GPA, VTAC Personal Statement (Some). See extra requirements for more information.

SEAS is considered.

**Extra requirements:**

VTAC Personal Statement (NY12-Some) : Applicants who wish to provide additional information (such as work experience) to support their application must complete the VTAC Personal Statement.

- Bachelor of Engineering (Product Design Engineering): 4 years full-time study

**About the course:** Product design engineers have a unique skill set that enables them to create innovative, sustainable products. This course combines studies in industrial design and engineering, linking the creativity and human-centred approach of industrial design with the academic rigour of engineering science, material and manufacturing process selection, project management and innovation. Students develop skills needed to design and develop competitive products for Australian and international markets. Practical workshops and industry projects are key features of the course. Students may choose a minor specialisation in manufacturing engineering, biomedical engineering or electronic engineering. Graduates may find employment in the engineering or industrial design fields, or in product design engineering. This may include roles in the design, development and manufacture of products for personal, medical or industrial use.

An additional six to twelve months of paid, relevant industry experience may be available through the university's Industry-Based Learning program.

**Major studies:** Aesthetic design, Computer-aided design (CAD), Design, Design (polymer products), Design (product design), Design for environment, Design for manufacture, Engineering (product design), Ergonomics, Human factors, Machine design, Mechanical design, Medical appliance design, Product design and development, Project management, Quality control, Rapid prototyping.

**Prerequisites:** Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL; and a study score of at least 20 in Maths: Mathematical Methods (CAS).

**Middle-band:** Satisfactory completion in Product Design And Technology, Maths: Specialist Mathematics, Physics, Studio Arts or Visual Communication Design is considered.

**Selection Mode:** CY12 : ATAR and middle-band, Interview (All). See extra requirements for more information.

NY12 : Educational History including GPA, VTAC Personal Statement (Some), Interview (All). See extra requirements for more information.

SEAS is considered.
Extra requirements:

VTAC Personal Statement (NY12-Some) : Applicants who wish to provide additional information (such as work experience) to support their application must complete the VTAC Personal Statement.

Interview (CY12-All, NY12-All) : Applicants must submit the online Request for Interview - Product Design Engineering (www.swinburne.edu.au/engineering/pde/interview.php) by 30 September. Late applicants must check the website to find out whether interview places are available.

- Bachelor of Engineering (Robotics and Mechatronics): 4 years full time study

**About the course:** Mechatronic engineers design and develop diverse systems for a range of industries, including manufacturing, medicine and the service industries. The field encompasses exciting advances in technology, from automated assembly plants to driverless vehicles. This course integrates three traditional engineering disciplines' mechanical, electronics and software. Students learn how to use multidisciplinary skills to meet growing demand from an industry that is pushing the limits of technology. Graduates are prepared for roles as a design engineer, project planner/manager or product designer in industries such as robotics, airlines, chemical, automotive, appliance manufacturing and industrial research.

An additional six to twelve months of paid, relevant industry experience may be available through the university's Industry-Based Learning program.

**Major studies:** Computer programming, Computer-aided engineering (CAE), Computing, Control systems, Digital and microprocessor systems, Electronic systems, Electronics, Engineering (mechatronic), Machine design, Mechanical design, Mechatronics, Mechatronics design, Robotics, Software engineering, Systems design and development.

**Prerequisites:** Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL; and a study score of at least 20 in Maths: Mathematical Methods (CAS).

**Middle-band:** Satisfactory completion in Chemistry, any Information Technology, Maths: Specialist Mathematics or Physics is considered.

**Selection Mode:** CY12 : ATAR and middle-band.

NY12 : Educational History including GPA, VTAC Personal Statement (Some). See extra requirements for more information.

SEAS is considered.

- Bachelor of Engineering (Robotics and Mechatronics)/Computer Science: 5 years full time study

**About the course**: In this double degree students learn how to apply advanced computing techniques in the design and operation of robotic and mechatronic systems. Students also study mechanical engineering, electrical engineering, and electronic and software engineering. They learn about the design, development and control of diverse systems used in a range of industries, including manufacturing, medicine and the service industries. Graduates are equipped to pursue a career in the robotics, aerospace, chemical, defence, automotive or manufacturing industries where complex software plays a major role; or in businesses that require extensive computer support, such as banking and commerce. This may include roles as a design engineer, software engineer, project planner, product designer or project manager.

An additional six to twelve months of paid, relevant industry experience may be available through the university's Industry-Based Learning program.

**Major studies**: Computer engineering, Computer programming, Computer science, Computer-aided engineering (CAE), Computing (skills), Control systems, Data communications, Digital and microprocessor systems, Electronic systems, Electronics, Engineering, Engineering (mechatronic), Intelligent systems, Machine design, Management, Mechanical design, Mechatronics, Real-time programming, Robotics, Software development, Software engineering, Systems design and development.

**Prerequisites**: Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL; and a study score of at least 20 in Maths: Mathematical Methods (CAS).

**Middle-band**: Satisfactory completion in Chemistry, any Information Technology, Maths: Specialist Mathematics or Physics is considered.

**Selection Mode**: CY12 : ATAR and middle-band.
NY12 : Educational History including GPA, VTAC Personal Statement (Some). See extra requirements for more information.

Apply: Through VTAC main round

- Bachelor of Engineering (Telecommunication and Network Engineering): 4 years full time study

**About the course:** Telecommunication and network engineers design, implement and facilitate the communication infrastructure of businesses, ensuring information flow is not interrupted or slowed. They are capable of developing sophisticated systems such as cellular mobile communication networks, broadband multimedia computer networks, and radio and television broadcasting systems. This degree provides students with a professional understanding of the science and engineering principles underlying telecommunication and network engineering, and the ability to apply that knowledge. Students also acquire a detailed understanding of relevant engineering methods and techniques, and gain competence in their application. Detailed theoretical learning is coupled with extensive practical experience in various aspects of networking and signal analysis used in telecommunications and networking. Elective units prepare students to obtain both Cisco Systems and Microsoft Industry certifications. Graduates may find employment in the design, installation and commissioning of telecommunications equipment; management of next-generation telecommunications systems; management and optimisation of telecommunications performance; network design and security; network analysis; telecommunications and network product management; marketing; and senior sales management.

An additional six to twelve months of paid, relevant industry experience may be available through the university's Industry-Based Learning program.

**Major studies:** Broadband networks, Computer networks, Control systems, Data communications, Embedded controllers, Engineering (Communication), Engineering management, Internet telecommunications, Mobile communications, Network engineering, Software engineering, Telecommunications, Telecommunications (systems and networks).

**Prerequisites:** Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL; and a study score of at least 20 in Maths: Mathematical Methods (CAS).

**Middle-band:** Satisfactory completion in Chemistry, any Information Technology, Maths: Specialist Mathematics or Physics is considered.

**Selection Mode:** CY12: ATAR and middle-band.

- Bachelor of Engineering (Telecommunication and Network Engineering)/Business: 5 years full time study

**About the course:** This double degree introduces students to engineering principles in electronic and telecommunications engineering, as well as studies in business. It emphasises an in-depth understanding of the technology of the internet and the international telecommunications industry, covering local and global digital networking, and mobile communication systems for broadband-interactive information highways. Detailed theoretical learning is coupled with extensive practical experience in various aspects of networking and signal
analysis used in telecommunications and networking. Elective units prepare students to obtain both Cisco Systems and Microsoft Industry certifications. In addition, students select a business major in either finance or management. Graduates may find rewarding careers in the converging commerce, telecommunications, multimedia, computing and internet information technology industries. They may find roles as an internet applications engineer or manager, telecommunications link designer, embedded computing systems designer, embedded software systems designer, network switching and protocol designer, analyst/designer/manager of internal corporate multimedia networks, or network administrator/webmaster.

An additional six to twelve months of paid, relevant industry experience may be available through the university's Industry-Based Learning program.

**Major studies:** Broadband networks, Business management, Computer networks, Control systems, Data communications, Embedded controllers, Engineering (Communication), Engineering management, Finance, Internet telecommunications, Mobile communications, Network engineering, Software engineering, Telecommunications, Telecommunications (systems and networks).

**Prerequisites:** Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL; and a study score of at least 20 in Maths: Mathematical Methods (CAS).

**Middle-band:** Satisfactory completion in Chemistry, any Information Technology, Maths: Specialist Mathematics or Physics is considered.

**Selection Mode:** CY12: ATAR and middle-band.
NY12: Educational History including GPA, VTAC Personal Statement (Some). See extra requirements for more information.
SEAS is considered.

**Extra requirements:**
VTAC Personal Statement (NY12-Some): Applicants who wish to provide additional information (such as work experience) to support their application must complete the VTAC Personal Statement.

### Engineering (Telecommunication and Network)/Computer Science (HE)

**Swinburne University of Technology**

- Hawthorn: 3400234911 (CSP) full-time/part-time Apply: **Through VTAC** main round
- Hawthorn: 3400234913 (IFP) full-time Apply: **Through VTAC** main round

- Bachelor of Engineering (Telecommunication and Network Engineering)/Computer Science: 5 years full time study

**About the course:** This double degree offers a comprehensive combination of studies in telecommunications and software engineering to prepare students for roles as technical experts in their field. Students gain a professional understanding of the science and engineering principles underlying telecommunication and network engineering, as well as competency in industry-relevant engineering methods and techniques. The course focuses on applications involving multimedia and web-based systems, with an emphasis on the design of effective human computer interfaces. Detailed theoretical learning is coupled with extensive practical experience in various aspects of networking and signal analysis used in telecommunications and networking. Elective units prepare students to obtain Cisco Systems and Microsoft Industry certifications. Graduates may find employment in the design, installation and commissioning of telecommunications equipment; management of next-generation telecommunications systems; management and optimisation of telecommunications performance; network design and security; network analysis; telecommunications and network product management; software engineering; and development of complex software systems.

An additional six to twelve months of paid, relevant industry experience may be available through the university's Industry-Based Learning program.

**Major studies:** Broadband networks, Computer engineering, Computer networks, Computer programming, Computer science, Data communications, Embedded controllers, Engineering (Communication), Engineering management, Internet telecommunications, Mobile communications, Network engineering, Software engineering, Telecommunications, Telecommunications (systems and networks).
**Prerequisites:** Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL; and a study score of at least 20 in Maths: Mathematical Methods (CAS).

**Middle-band:** Satisfactory completion in Chemistry, any Information Technology, Maths: Specialist Mathematics or Physics is considered.

**Selection Mode:** CY12 : ATAR and middle-band.

NY12 : Educational History including GPA, VTAC Personal Statement (Some). See extra requirements for more information.

SEAS is considered.

**Extra requirements:**

VTAC Personal Statement (NY12-Some) : Applicants who wish to provide additional information (such as work experience) to support their application must complete the VTAC Personal Statement.

Bachelor of Aviation or Engineering (various): 3 years full time study

About the course: Students accepted into this scholarship program may undertake study in any three- or four-year Bachelor of Aviation, or four- or five-year Bachelor of Engineering degree listed at www.swinburne.edu.au/scholarships/vc-scholarship-engineering/ and receive a waiver from student contribution amount payments for the duration of their course (subject to academic performance and other scholarship conditions).

Note: This scholarship is only available to current Year 12 students.

Major studies: Biomedical engineering, Civil engineering, Electrical and electronic engineering, Electronics and computers systems, Mechanical engineering, Product design engineering, Robotics and mechatronics, Software engineering, Telecommunications and network engineering.

Prerequisites: Minimum ATAR of 95.00.

Middle-band: None

Selection Mode: CY12 : ATAR, Supplementary form (All). See extra requirements for more information.

SEAS is considered.

Extra requirements:
Supplementary form (CY12-All) : Applicants must complete and submit a Vice-Chancellor's Scholarship - Supplementary Application Form (www.swinburne.edu.au/scholarships/vc-scholarship-engineering-apply) by 12 noon 23 December.

Other (CY12-All): Applicants must meet the specific prerequisites for the course they wish to undertake.

Hawthorn: 3400234283 (IFP) full-time  
Apply: Through VTAC main round

About the course: This vocationally oriented degree helps students to differentiate a business idea from a tangible business opportunity and to use innovation theory and techniques to maximise that opportunity, whether economic, social or political. Students learn about business scenario analysis which is used to develop strategic thinking and planning skills, explore business models, interpret sales and marketing opportunities, construct an effective team and source capital funding. They analyse case studies and learn about frameworks and tools that develop entrepreneurial skills. Student participation is encouraged and guest speakers help students develop, critique and implement business plans. Graduates will be sought in the corporate sector for their entrepreneurial skills, especially among innovative and fast-growing organisations. They may find employment in the areas of business management, innovative business creation or consultancy, or as business owner-operators.

An additional six to twelve months of paid, relevant industry experience may be available through the university's Industry-Based Learning program.

**Prerequisites:** Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL.

**Middle-band:** Satisfactory completion in Accounting, Business Management, Economics, any Information Technology, Legal Studies, any Mathematics, Global Politics or Psychology is considered.

**Selection Mode:** CY12 : ATAR and middle-band.
NY12 : Educational History including GPA, VTAC Personal Statement (Some), STAT (Some). See extra requirements for more information.
SEAS is considered.

**Extra requirements:**
VTAC Personal Statement (NY12-Some) : Applicants who wish to provide additional information (such as work experience) to support their application must complete the VTAC Personal Statement.
STAT (NY12-Some) : Applicants who wish to use a general aptitude test for entry must complete the STAT Multiple Choice.

Hawthorn: 3400278194 (Fee type determined by provider) full-time  
[Apply: Through VTAC main round](http://www.wss8.vtac.edu.au/courses-inst/institutions/topdf/swinburne...)

- Advanced Diploma of Events: 1.5 year full time study

**About the course:** In this course students develop wide-ranging, highly specialised technical event management skills with a strategic research, planning and communication focus. Event organisation and management takes place across the full spectrum of business and community activities. The course has particular relevance in the community, cultural, hospitality, sporting and tourism sectors. Employment may be found in exhibition and event management companies, sporting associations, community organisations, or in hospitality or cultural venues. Successful completion of this course may also allow students to progress to another qualification with advanced standing.

**Note:** The Advanced Diploma of Events incorporates the Diploma of Events and Certificate III in Events. Students will be enrolled in the Certificate III to complete all prerequisite competencies before commencing the next level.

**Major studies:** Administration, Audio visual systems and equipment, Business (management), Communications, Conventions and exhibitions, Environmental management, Event management, Event management (festivals), Financial planning, Fundraising, Leadership, Management, Marketing, Meetings and conventions management.

**Prerequisites:** None

**Middle-band:** None

**Selection Mode:** CY12 : ATAR.
NY12 : Educational History including GPA, VTAC Personal Statement (Some). See extra requirements for more information.
SEAS is considered.

**Extra requirements:**
VTAC Personal Statement (NY12-Some) : Applicants who wish to provide additional information (such as work experience) to support their application must complete the VTAC Personal Statement.

---

**Film and Television (HE)**

**Swinburne University of Technology**
Bachelor of Film and Television: 3 years full time study

About the course: This course provides students with the essential creative skills, technical knowledge and theory to make high-quality cinema, television and digital media productions. Students collaborate to make films through research, screenwriting, direction, project management and production skills such as cinematography, editing, sound design and visual effects. Creative outcomes include narrative films, documentaries, animations, experimental films, music videos and television commercials. Swinburne also offers an honours year for this degree. Graduates will be equipped to explore a career in film and television related industries including cinematography, directing, producing, scriptwriting, editing and sound design. They will also be prepared for advertising, animation post-production, or business roles in the film and television industries.

An additional six to twelve months of paid, relevant industry experience is available through the university's Industry-Based Learning program.

Note: Students may be required to study some subjects at the Prahran campus in 2014.

Major studies: Cinema studies, Cinematography, Digital imaging, Digital media, Digital still photography, Digital technology, Digital television production, Digital video, Film, Film and television (production), Media and technologies, Postproduction for film and video, Scriptwriting, Sound recording and production, Television/studio production.

Prerequisites: Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL.

Middle-band: Satisfactory completion in Art, Drama, Product Design And Technology, Literature, Media, Interactive Digital Media C, Studio Arts, Theatre Studies or Visual Communication Design is considered. A study score of 35 in English (EAL) is considered. A study score of 30 in English other than EAL is considered.

Selection Mode: CY12 : ATAR and middle-band.
NY12 : Educational History including GPA, VTAC Personal Statement (Some). See extra requirements for more information.
SEAS is considered.

Extra requirements: VTAC Personal Statement (NY12-Some) : Applicants who wish to provide additional information (such as work experience) to support their application must complete the VTAC Personal Statement.

Film and Television (Animation) (HE)

Swinburne University of Technology

Bachelor of Film and Television (Animation): 3 years full time study

About the course: This course provides students with a broad understanding of animation, through practice of animation techniques; film, television and animation history and theory, and the development of narrative structures as applied to animation. Students develop creative, analytical and research skills in all aspects and types of animation production with an emphasis on project work. Students are given the opportunity to select an animation specialisation that extends their animation skills and knowledge in a professional form of animation technique and style. Graduates may explore career opportunities in advertising, cinema, games, film and television production, as
well as in emerging digital entertainment and visualisation where animation is increasingly used for highly detailed, conceptual and narrative visual forms such as in architecture, educational areas, engineering, medical imaging, and science areas.

An additional six to twelve months of paid, relevant industry experience may be available through the university’s Industry-Based Learning program.

Note: Students may be required to study some subjects at the Prahran campus in 2014.

**Major studies:** Animation (2D), Animation (3D), Cinema studies, Digital animation (games), Digital audio and video production, Digital imaging, Digital media, Digital still photography, Digital television production, Digital video, Film, Film and television (production), Media and technologies, Postproduction for film and video, Scriptwriting, Sound recording and production, Stop-motion animation, Television/studio production, Typography for screen and motion.

**Prerequisites:** Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL.

**Middle-band:** Satisfactory completion in Art, Drama, Product Design And Technology, Literature, Media, Interactive Digital Media C, Studio Arts, Theatre Studies or Visual Communication Design is considered. A study score of 35 in English (EAL) is considered. A study score of 30 in English other than EAL is considered.

**Selection Mode:** CY12 : ATAR and middle-band.
NY12 : Educational History including GPA, VTAC Personal Statement (Some). See extra requirements for more information.
SEAS is considered.

**Extra requirements:**
VTAC Personal Statement (NY12-Some) : Applicants who wish to provide additional information (such as work experience) to support their application must complete the VTAC Personal Statement.

- Bachelor of Business (Finance): 3 years full time study

**About the course:** Finance has roots in accounting and economics and its own unique framework and knowledge base. Working across a wider field than accountants, finance professionals inform business decision-makers about financing and investment opportunities, and associated risks. Students of this course will learn to analyse and assess financial forecasts and the value of companies, to investigate investment opportunities, and to examine the values of shares and bonds. Graduates may find employment in international banking, broking, credit analysis, funds management, insurance and international finance roles. Other roles include risk management, securities analysis, investment management, consumer finance, financial forecasting, treasury management, corporate finance and economic analysis.

An additional six to twelve months of paid, relevant industry experience may be available through the university’s Industry-Based Learning program.

Graduates will be eligible to apply for membership of the Financial Services Institute of Australia (FINSIA).

**Major studies:** Accounting, Banking and risk management, Commercial law, Corporate finance, Economics, Financial modelling, Financial planning, International trade and finance, Investments.
Prerequisites: Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL.

Middle-band: Satisfactory completion in Accounting, Business Management, Economics, any Information Technology, Legal Studies, any Mathematics, Global Politics or Psychology is considered.

Selection Mode: CY12: ATAR and middle-band.

NY12: Educational History including GPA, VTAC Personal Statement (Some), STAT (Some). See extra requirements for more information.

SEAS is considered.

Extra requirements:

VTAC Personal Statement (NY12-Some): Applicants who wish to provide additional information (such as work experience) to support their application must complete the VTAC Personal Statement.

STAT (NY12-Some): Applicants who wish to use a general aptitude test for entry must complete the STAT Multiple Choice.

Hawthorn: 3400234023 (IFP) full-time  Apply: Through VTAC main round

- Bachelor of Arts (Games and Interactivity): 3 years full time study

About the course: This course focuses on the role of games in contemporary society and how games are developing as a cultural industry. Students undertake a range of projects which focus on analog and digital games, and develop practical and creative research and communication skills in a games lab environment. The course recognises the increasing convergence of games and other forms of media by complementing a core set of games-specific studies with units drawn from the wider field of media and communications. Graduates may find employment in game design, writing for games, producing interactive content, transmedia storytelling, digital content production, online community management, games criticism and digital arts. Students produce a game design portfolio including pervasive and digital games. Graduates will also be equipped to pursue a career outside the games industry in the broader media, multimedia and communications sectors.

An additional six to twelve months of paid, relevant industry experience may be available through the university's Industry-Based Learning program.

Major studies: Animation (3D), Animation (modelling), Animation software, Audio and video production, Cinema studies, Contextual and cultural studies, Design, Digital audio, Digital media, Digital video, Game design, Games development, Internet and multimedia, Media and communications, Media studies, Multimedia design, New media development, Transmedia storytelling, Web design.

Prerequisites: Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL.

Middle-band: Satisfactory completion in Art, Media, Interactive Digital Media C, Psychology, Studio Arts or Visual Communication Design is considered.

Selection Mode: CY12: ATAR and middle-band.

NY12: Educational History including GPA, VTAC Personal Statement (Some), STAT (Some). See extra requirements for more information.

SEAS is considered.
Extra requirements:

VTAC Personal Statement (NY12-Some): Applicants who wish to provide additional information (such as work experience) to support their application must complete the VTAC Personal Statement.

STAT (NY12-Some): Applicants who wish to use a general aptitude test for entry must complete the STAT Multiple Choice.

Hawthorn: 3400234723 (IFP) full-time  Apply: Through VTAC  main round

- Bachelor of Arts (Games and Interactivity)/Computer Science: 4 years full time study

About the course: This double degree provides students with a broad knowledge of game design combined with the skills in software engineering and development required to create games and interactive applications. The course is designed to combine theoretical and practical knowledge and to teach students how to apply these to the development of digital and pervasive games projects. Graduates will be qualified to find employment in the digital media, information technology and games industries, particularly in the rapid prototyping of games and in C++ and Java programming. The digital media skills gained in this degree should place graduates in high demand as the media industry progressively shifts its delivery to high-definition digital platforms.

An additional six to twelve months of paid, relevant industry experience may be available through the university's Industry-Based Learning program.

Major studies: Animation (3D), Animation (games), Animation software, Audio and video production, Computer graphics, Digital audio, Digital video, Game Design, Games development, Games programming, Games technology, Internet and multimedia, Internet technology, Java and C++ software development, Multimedia design, Multimedia programming, Programming (Internet), Programming (Java), Transmedia storytelling, Web design.

Prerequisites: Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL; and a study score of at least 25 in one of Maths: Mathematical Methods (CAS) or Maths: Specialist Mathematics.

Middle-band: Satisfactory completion in Art, any Information Technology, Media, Interactive Digital Media C, Maths: Specialist Mathematics, Studio Arts or Visual Communication Design is considered.

Selection Mode: CY12: ATAR and middle-band.

NY12: Educational History including GPA, VTAC Personal Statement (Some), STAT (Some). See extra requirements for more information.

SEAS is considered.

Extra requirements:

VTAC Personal Statement (NY12-Some): Applicants who wish to provide additional information (such as work experience) to support their application must complete the VTAC Personal Statement.

STAT (NY12-Some): Applicants who wish to use a general aptitude test for entry must complete the STAT Multiple Choice.

---

Games Development (Programming) (HE)
Bachelor of Science (Games Development): 3 years full time study

**About the course:** This course focuses on the design and programming of computer games and other interactive software. Major areas of study include software development using an object-oriented approach and specialist areas in games design and development. Students will also learn about the creative and design aspects of multimedia and internet technologies, particularly as applied to games development. The course also includes units in database, networking and project management, and is good preparation for general software design and development careers, as well as specialist careers in the games industry.

An additional six to twelve months of paid, relevant industry experience may be available through the university's Industry-Based Learning program.

**Major studies:** Databases, Games programming, Multimedia, Network security, Network technology, Programming (C++), Programming (Java), Programming (VB.NET), Software development practices.

**Prerequisites:** Units 1 and 2: satisfactory completion in two units (any study combination) of any Mathematics; and Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL.

**Middle-band:** Satisfactory completion in any Information Technology is considered.

**Selection Mode:** CY12: ATAR and middle-band.

NY12: Educational History including GPA, VTAC Personal Statement (Some). See extra requirements for more information.

SEAS is considered.

**Extra requirements:**

VTAC Personal Statement (NY12-Some): Applicants who wish to provide additional information (such as work experience) to support their application must complete the VTAC Personal Statement.

---

Bachelor of Community Health: 3 years full time study

**About the course:** The focus of this course is on understanding and improving the health status of individuals and communities in different social settings. The first two years includes units in policy, communication and counselling, and community care. Students who complete the first two years will be eligible to graduate with an Associate...
Degree of Health and Community Care. The third year of the course focuses on high-level community health engagement, including evaluating environmental health services, public and environmental health, policy and sociological models relevant to health.

An additional six to twelve months of paid, relevant industry experience may be available through the university's Industry-Based Learning program.

**Major studies:** Advocacy, Community development, Counselling, Environmental health, Occupational health and safety, Professional communication, Sociology, Sustainable communities, Sustainable health.

**Prerequisites:** Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL.

**Middle-band:** Satisfactory completion in any History, Philosophy, Australian Politics, Global Politics, Psychology or Sociology is considered.

**Selection Mode:** CY12 : ATAR and middle-band.
NY12 : Educational History including GPA, VTAC Personal Statement (Some), STAT (Some). See extra requirements for more information.
SEAS is considered.

**Extra requirements:**
VTAC Personal Statement (NY12-Some) : Applicants who wish to provide additional information (such as work experience) to support their application must complete the VTAC Personal Statement.
STAT (NY12-Some) : Applicants who wish to use a general aptitude test for entry must complete the STAT Multiple Choice.

- Associate Degree in Health and Community Care: 2 years full time study

**About the course:** This course provides the skills and knowledge to work in the health and community care sector. It focuses on community health development, policy, law and other aspects of coordination and management. The course has been developed to equip students with the knowledge, understanding and skills for successful employment in the health and/or community care sector at a supervisory or management level. Following successful completion of the course students may choose to undertake an additional year of study (a third year), which will allow them to graduate with a Bachelor of Community Health.

**Major studies:** Community development, Counselling, Health and community care, Managing communication, Managing quality, Organisations and management, Policy, Sociology, Sustainability.

**Prerequisites:** Units 3 and 4: a study score of at least 30 in English (EAL) or 20 in English other than EAL.

**Middle-band:** Satisfactory completion in any History, Philosophy, Australian Politics, Global Politics, Psychology or Sociology is considered.

**Selection Mode:** CY12 : ATAR and middle-band.
NY12 : Educational History including GPA, VTAC Personal Statement (Some), STAT (Some). See extra requirements for more information.

- Bachelor of Health Science: 3 years full time study

**About the course:** This course explores Australian and international health challenges in relation to health promotion, nutrition, psychological wellbeing and sport and exercise. With a focus on assisting and improving the wellbeing of communities and groups, the course examines the physical, psychological and social aspects of health in a variety of settings. These include educating remote communities in the principles of health, applying psychology to sporting teams, creating policies and laws to support healthy choices, and providing advice on food safety to communities and the food industry. Graduates may find employment in government, business and the community, or health service providers, as laboratory or community-based researchers, health promotion and policy roles, or in sporting groups or schools.

An additional six to twelve months of paid, relevant industry experience may be available through the university's Industry-Based Learning program.

**Major studies:** Health promotion, Nutrition, Psychology, Sport science.

**Prerequisites:** Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL; and a study score of at least 20 in any Mathematics.

**Middle-band:** Satisfactory completion in Physical Education or any Science is considered. A study score of 25 in any Mathematics is considered.

**Selection Mode:** CY12: ATAR and middle-band.

**NY12:** Educational History including GPA, VTAC Personal Statement (Some), STAT (Some). See extra requirements for more information.

SEAS is considered.

**Extra requirements:**

VTAC Personal Statement (NY12-Some): Applicants who wish to provide additional information (such as work experience) to support their application must complete the VTAC Personal Statement.

STAT (NY12-Some): Applicants who wish to use a general aptitude test for entry must complete the STAT Multiple Choice.

### Health Science (Public and Environmental) (HE)

**Swinburne University of Technology**
Bachelor of Health Science (Public and Environmental Health): 3 years full time study

About the course: This multidisciplinary course will provide students with the knowledge to assist in the protection of the environment and the health of people living within it. Students will gain expertise in planning and implementing programs in public health and environmental protection, and develop skills in risk analysis, disease prevention and working with diverse communities. Graduates may find employment as an environmental health officer or work in the areas of health promotion, policy development, foreign aid, communicable disease investigation, environmental science, immunisation coordination, sustainability, public and community health planning, food and waste management, private consultancies and research positions. This course is accredited by Environmental Health Australia, qualifying graduates to work in environmental health officer positions.

An additional six to twelve months of paid, relevant industry experience may be available through the university's Industry-Based Learning program.

Major studies: Biology, Chemistry (environmental), Environmental health, Environmental sustainability, Epidemiology, Food handling, Food law, Food preservation and processing, Food quality management, Food safety and regulation, Food science, Health administration, Health policy and promotion, Health sciences, Law (public and environmental health), Microbiology, Occupational health and safety, Public health, Research methods, Risk analysis and management.

Prerequisites: Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL; and a study score of at least 20 in any Mathematics.

Middle-band: Satisfactory completion in Biology, Chemistry or Maths: Specialist Mathematics is considered.

Selection Mode: CY12 : ATAR and middle-band, Interview (All). See extra requirements for more information.
NY12 : Educational History including GPA, VTAC Personal Statement (Some), Interview (All), STAT (Some). See extra requirements for more information.
SEAS is considered.

Extra requirements:
VTAC Personal Statement (NY12-Some) : Applicants who wish to provide additional information (such as work experience) to support their application must complete the VTAC Personal Statement.

Interview (CY12-All, NY12-All) : Applicants must complete and submit a Public and Environmental Health - Request for Interview Form (www.swinburne.edu.au/envirohealth) by 22 November. All applicants will be notified of the interview time and location by 2 December 2013.
STAT (NY12-Some) : Applicants who wish to use a general aptitude test for entry must complete the STAT Multiple Choice.

Health Sciences (Dean's Scholarship) (HE)

Swinburne University of Technology

About the course: Students accepted into this scholarship program may undertake study in any three-year Health Science degree at Swinburne and receive a waiver from student contribution payments for the duration of their course (subject to academic performance and other scholarship conditions). Eligible courses are listed at www.swinburne.edu.au/scholarships/deans-scholarships-health-sciences/
Note: This scholarship is only available to current Year 12 students.

Major studies: Community health, Health science, Public and environmental health.

Prerequisites: Minimum ATAR of 90.00.

Middle-band: None

Selection Mode: CY12 : ATAR, Supplementary form (All). See extra requirements for more information.

SEAS is considered.

Extra requirements:
Supplementary form (CY12-All) : Applicants must complete and submit a Dean's Scholarship - Supplementary Application Form (www.swinburne.edu.au/scholarships/deans-scholarships-health-sciences-apply) by 12 noon 23 December.

Other (CY12-All): Applicants must meet the specific prerequisites for the course they wish to undertake.

---

Health Sciences (Vice-Chancellor's Scholarship) (HE)

Swinburne University of Technology
Hawthorn: 3400210081 (CSP) full-time

Apply: Through VTAC main round

- Bachelor of Health Science (various): 3 years full time study

About the course: Students accepted into this program may undertake study in the Bachelor of Community Health or any Bachelor of Health Science degree listed at [www.swinburne.edu.au/scholarships/vc-scholarship-health-sciences/](http://www.swinburne.edu.au/scholarships/vc-scholarship-health-sciences/) and receive a waiver from student contribution amount payments for the duration of their course (subject to academic performance and other scholarship conditions).

Note: This scholarship is only available to current Year 12 students.

Major studies: Community health, Health science, Public and environmental health.

Prerequisites: Minimum ATAR of 95.00.

Middle-band: None

Selection Mode: CY12 : ATAR, Supplementary form (All). See extra requirements for more information.

SEAS is considered.

Extra requirements:

Horticulture (VET)

Swinburne University of Technology
Wantirna: 3401071044 (Fee type determined by provider)

Apply: Through VTAC main round

- Diploma of Horticulture: 2 years full time study
**About the course:** This course is ideal for students who have a demonstrated commitment to horticulture and who wish to pursue a career in the nursery, landscape, parks and gardens, turf, arboriculture or floriculture industries. Students will learn about plant nutrition, plant health, propagation and recognition of plants, landscape design, products and services, and business management and administration. Employment may be found in the horticulture industry at a technical, supervisory or managerial level. Successful completion of this course may also allow students to progress to another qualification with advanced standing.

**Note:** The Diploma of Horticulture incorporates the Certificate IV in Horticulture. Students will be enrolled in the Certificate IV to complete all prerequisite competencies before commencing the diploma level.

**Major studies:** Collect and classify plants, Design plant displays, Develop a horticultural production plan, Develop workplace policy and procedures for sustainability, Estimate preparation, Irrigation, Manage landscape projects, Manage plant cultural practices and assess trees, Occupational health and safety, Plan a plant establishment program, Plant health, Propagation, Quotes and Tenders preparation, Recommend plants, Restoration of parks and gardens, Soil health and plant nutrition, Supervise landscape project works.

**Prerequisites:** None

**Middle-band:** None

**Selection Mode:** CY12 : ATAR.

NY12 : Educational History including GPA, VTAC Personal Statement (Some). See extra requirements for more information.

**Extra requirements:**

VTAC Personal Statement (NY12- Some) : Applicants who wish to provide additional information (such as work experience) to support their application must complete the VTAC Personal Statement.

---

**Human Resource Management (VET)**

**Swinburne University of Technology**

Hawthorn: 3400277004 (Fee type determined by provider)  
full-time/part-time

Apply: Through  
main round

- Certificate IV in Human Resources: 0.5 year full time study
- Diploma of Human Resources Management: 1 year full time study

**About the course:** This course develops the knowledge, skills and professional practice needed to perform in a human resources (HR) management role. Students learn about workforce planning strategies, HR systems and compliance issues, performance management systems, and organisational culture and change from practising HR professionals. The course can be customised to enterprise requirements for those working in organisations who wish to further develop HR management skills and knowledge. Employment may be found in HR roles such as HR manager, consultant, adviser, project manager or coordinator. Successful completion of this course may also allow students to progress to another qualification with advanced standing.

**Note:** The Diploma of Human resources Management incorporates the Certificate IV in Human Resources. Students will be enrolled in the Certificate IV to complete all prerequisite competencies before commencing the diploma level.

**Major studies:** Employment law, Finance, Human resource management, Human resources functions, Law (industrial relations), Leadership and teamwork, Negotiation and mediation skills, Organisational change, Performance Management, Recruitment and selection, Research and writing, Workforce planning.

**Prerequisites:** None

**Middle-band:** None

**Selection Mode:** CY12 : ATAR.

NY12 : Educational History including GPA, VTAC Personal Statement (Some). See extra requirements for more information.
Extra requirements:
VTAC Personal Statement (NY12-Some) : Applicants who wish to provide additional information (such as work experience) to support their application must complete the VTAC Personal Statement.

**Swinburne University of Technology**

Hawthorn: 3400234171 (CSP) full-time/part-time  
Apply: Through VTAC main round
Bachelor of Information and Communication Technology: 3 years full time study

About the course: This course has a flexible structure that allows students to choose majors in the areas of software development, business information systems and computer networks. Minors and electives may be chosen from any discipline, including arts, business, psychology, science or additional advanced IT units. Graduates may find employment in programming, games development, internet systems development, software development, business analysis, database administration or computer networking.

An additional six to twelve months of paid, relevant industry experience may be available through the university's Industry-Based Learning program.

Major studies: Database management (Oracle), Enterprise systems (SAP), Games programming, Information systems, Multimedia development, Network security, Network technology, Programming (.NET), Programming (C), Programming (Java), Software development, Website development.

Prerequisites: Units 1 and 2: satisfactory completion of any Mathematics; and Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL.

Middle-band: Satisfactory completion in any Information Technology is considered.

Selection Mode: CY12: ATAR and middle-band.
NY12: Educational History including GPA, VTAC Personal Statement (Some). See extra requirements for more information.
SEAS is considered.

Extra requirements:
VTAC Personal Statement (NY12-Some): Applicants who wish to provide additional information (such as work experience) to support their application must complete the VTAC Personal Statement.

---

Swinburne University of Technology

Bachelor of Applied Information and Communication Technology: 3 years full time study

About the course: The focus of this course is on software and web development. The course also includes a range of ICT studies such as databases, networking, computer systems and project management. It has a practical approach with an emphasis on problem-solving and project work. The first year is taught at either the Hawthorn or Wantirna campus; the second and third years are taught at the Hawthorn campus. The first year provides a supportive learning environment with small classes and additional contact hours for each class. Students may apply to be awarded a Diploma of Information Technology on successful completion of the first-year units. The second and final years include elective units that allow students to broaden their focus or specialise in a specific ICT.
discipline.

An additional six to twelve months of paid, relevant industry experience may be available through the university's Industry-Based Learning program.

**Major studies:** Databases, Networking, Programming, Software development, Web and mobile applications.

**Prerequisites:** Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL.

**Middle-band:** Satisfactory completion in any Information Technology is considered.

**Selection Mode:** CY12: ATAR and middle-band. NY12: Educational History including GPA, VTAC Personal Statement (Some). See extra requirements for more information.

**SEAS is considered.**

**Extra requirements:**

VTAC Personal Statement (NY12-Some): Applicants who wish to provide additional information (such as work experience) to support their application must complete the VTAC Personal Statement.

- Bachelor of Information Technology: 3 years full time study

**About the course:** In this course students spend 40 weeks gaining direct experience in the ICT industry by working with Swinburne's industry partners. They also receive a tax-free scholarship totalling approximately $40,000 to be paid in fortnightly instalments over the three-year course. Students develop technical skills in databases and programming, and emphasis is placed on business analysis and problem-solving, business process management, project management, the management of information systems (IS) in organisations, the provision of IS services, social networking in organisations, and mobile business and connectivity. The course also includes business units aimed at developing managerial and leadership skills.

Note: This scholarship is only available to current Year 12 students.

**Major studies:** Accounting, Business (information systems), Business (software applications), Data communications, Database management, Enterprise systems, Information modelling, Information security, Information systems management, Internet technology, Marketing, Organisational behaviour, Programming, Project management, Software engineering, Systems analysis, Systems design and development.

**Prerequisites:** Minimum ATAR of 95.00. Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL; and a study score of at least 20 in any Mathematics.

**Middle-band:** None

**Selection Mode:** CY12: ATAR, Supplementary form (All), Interview (Some). See extra requirements for more information.

**SEAS is considered.**

**Extra requirements:**

Supplementary form (CY12-All): Applicants must submit an Information Technology Industry Scholarship Program -
Interview (CY12-Some): Short-listed applicants must attend an interview in November 2013.

Information Technology (UniLink) (HE)

Swinburne University of Technology
Hawthorn: 3400210021 (CSP) full-time  Apply: Through VTAC main round
Hawthorn: 3400210023 (IFP) full-time  Apply: Through VTAC main round

- Diploma of Information Technology (UniLink): 8 months full time study

About the course: This higher education diploma provides an alternative pathway to the second year of a bachelor degree. The units are similar to those offered in the first year of a bachelor degree, but classes are smaller and students have more one-on-one time with teachers.

Prerequisites: Units 3 and 4: a study score of at least 30 in English (EAL) or 20 in English other than EAL.

Middle-band: Satisfactory completion in any Information Technology is considered.

Selection Mode: CY12: ATAR and middle-band.
NY12: Educational History including GPA, VTAC Personal Statement (Some). See extra requirements for more information.
SEAS is considered.

Extra requirements:
VTAC Personal Statement (NY12-Some): Applicants who wish to provide additional information (such as work experience) to support their application must complete the VTAC Personal Statement.

Information Technology (Vice-Chancellor's Scholarship) (HE)

Swinburne University of Technology
Hawthorn: 3400234621 (CSP) full-time  Apply: Through VTAC main round

Bachelor of Information Technology (various): 3 years full time study

About the course: Students accepted into this scholarship program may undertake study in the Bachelor of Business Information Systems or any three- or four-year Bachelor of Information and Communication Technology degree listed at www.swinburne.edu.au/scholarships/vc-scholarship-it/ and receive a waiver from student contribution amount payments for the duration of their course (subject to academic performance and other scholarship conditions).

Note: This scholarship is only available to current Year 12 students.

Major studies: Applied information and communication technology, Business information systems, Computer science, Information and communication technology, Network design and security.

Prerequisites: Minimum ATAR of 95.00.
**Selection Mode:** CY12 : ATAR, Supplementary form (All). See extra requirements for more information.

SEAS is considered.

**Extra requirements:**
Supplementary form (CY12-All) : Applicants must complete and submit a Vice-Chancellor's Scholarship - Supplementary Application Form (www.swinburne.edu.au/scholarships/vc-scholarship-it-apply) by 12 noon 23 December.

Other (CY12-All): Applicants must meet the specific prerequisites for the course they wish to undertake.

- Certificate IV in Information Technology Networking: 1 year full time study
- Diploma of Information Technology Networking: 2 years full time study

**About the course:** This course provides training in networking, Linux administration, Windows servers, security, client support, e-business integration, testing and project management. Students will also be enrolled in the Cisco vendor qualifications -- IT Essentials and CNAA I, II, III & IV. Students will gain the skills and knowledge needed to install and manage small-scale networks, either as an independent network support technician of as part of a team. Graduates may find employment in the areas of network administration and IT help-desk support. Alternatively, graduates may undertake further study in computing, network design and security, telecommunications and related areas.

Note: The Diploma of Information Technology Networking incorporates the Certificate IV in Information Technology Networking. Students will be enrolled in the Certificate IV to complete all prerequisite competencies before commencing the diploma level.

Students studying at Wantirna campus may be required to undertake some units at Hawthorn campus

**Major studies:** Computer hardware, Network administration, Network design, Network management and network systems, Network protocols, Network security, Networks and data communications, Networks and database concepts, Novell networks, Operating systems, PC support, Project management, Risk analysis and management, Scripting languages, Switched internetworks, System security and controls, Systems testing.

**Prerequisites:** None

**Middle-band:** None

**Selection Mode:** CY12 : ATAR.

NY12 : Educational History including GPA, VTAC Personal Statement (Some). See extra requirements for more information.

SEAS is considered.

**Extra requirements:**
VTAC Personal Statement (NY12-Some) : Applicants who wish to provide additional information (such as work experience) to support their application must complete the VTAC Personal Statement.

---

**Information Technology Systems Administration (VET)**
- Certificate IV in Information Technology Networking: 1 year full time study
- Diploma of Information Technology Systems Administration: 2 years full time study

**About the course:** This course provides the skills and knowledge needed to administer a variety of networked computer systems in a business environment. Emphasis is placed on practical skills using a hands-on approach. Graduates will be prepared for employment in network administration, systems management, and help-desk and IT support. Alternatively, graduates may continue on to further studies at university level in relevant areas of computing. Successful completion of this course may also allow students to progress to another qualification with advanced standing.

Note: The Diploma of Information Technology Systems Administration incorporates the Certificate IV in Information Technology Networking. Students will be enrolled in the Certificate IV to complete all prerequisite competencies before commencing the diploma level.

Students studying at Wantirna campus may be required to undertake industry placements and/or study some units at Hawthorn campus.

**Major studies:** Communication systems, Customer service, Human resource management, Information technology, IT (systems administration), Management information systems, Network management and network systems, Networks, Project management, Risk analysis and management, Systems design and development.

**Prerequisites:** None

**Middle-band:** None

**Selection Mode:** CY12 : ATAR.
NY12 : Educational History including GPA, VTAC Personal Statement (Some). See extra requirements for more information.
SEAS is considered.

**Extra requirements:**
VTAC Personal Statement (NY12-Some) : Applicants who wish to provide additional information (such as work experience) to support their application must complete the VTAC Personal Statement.

---

**International Business (VET)**

- Certificate IV in International Trade: 0.5 year full time study
- Diploma of International Business: 1 year full time study

**About the course:** This course focuses on the various strategies involved in moving into overseas markets and the methods used in engaging in overseas business. Students apply practical marketing and managerial skills to business and commercial enterprises. Graduates are equipped for management positions in shipping, transport, and public and private import/export organisations. Successful completion of this course may allow students to progress to another qualification with advanced standing.

Note: The Diploma of International Business incorporates the Certificate IV in International Trade. Students will be enrolled in the Certificate IV to complete all prerequisite competencies before commencing the diploma level.

**Major studies:** Building client relationships, Business management, Business planning, Consumer behaviour for international markets, Data analysis, eMarketing, Import and export business studies, International law, International market research, International trade and export, Management, Marketing internationally, Transport and
logistics.

**Prerequisites:** None

**Middle-band:** None

**Selection Mode:** CY12 : ATAR.

NY12 : Educational History including GPA, VTAC Personal Statement (Some). See extra requirements for more information.

SEAS is considered.

**Extra requirements:**

VTAC Personal Statement (NY12-Some) : Applicants who wish to provide additional information (such as work experience) to support their application must complete the VTAC Personal Statement.

- Bachelor of Business (International Business): 3 years full time study

**About the course:** The world is one of express global transportation and instant communication. This has increased demand for business graduates who are prepared to tackle the international nature of the contemporary marketplace. International business is a fulfilling career path for those with a love of travel who are diplomatically and globally minded. In this course students discover the importance of culture, politics, trade and business policies, time zones, economic systems, currencies and business customs in an organisation with international interests. Students have the opportunity to participate in study tours to Asia or Europe, or an exchange program to gain international experience. Graduates will be equipped for careers in international trade, finance, marketing, tourism, hospitality, government departments, multinational companies and financial institutions that seek to serve international clients.

An additional six to twelve months of paid, relevant industry experience may be available through the university's Industry-Based Learning program.

**Major studies:** Accounting, Advertising, Asia business studies, Chinese, Entrepreneurship and innovation, European business, Finance, Human resource management, International business, Italian, Japanese, Law (commercial), Leadership, Management, Marketing, Organisational behaviour, Public relations, Tourism management.

**Prerequisites:** Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL.

**Middle-band:** Satisfactory completion in Accounting, Business Management, Economics, any Information Technology, Legal Studies, any Mathematics, Global Politics or Psychology is considered.

**Selection Mode:** CY12 : ATAR and middle-band.

NY12 : Educational History including GPA, VTAC Personal Statement (Some), STAT (Some). See extra requirements for more information.

SEAS is considered.
Extra requirements:
VTAC Personal Statement (NY12-Some) : Applicants who wish to provide additional information (such as work experience) to support their application must complete the VTAC Personal Statement.

STAT (NY12-Some) : Applicants who wish to use a general aptitude test for entry must complete the STAT Multiple Choice.

- Bachelor of Arts (International Studies): 3 years full time study

**About the course:** This degree prepares students for a range of professions in an increasingly globalised world. Students learn about the political, cultural, economic and social contexts of global issues. The course engages a range of disciplines to develop in students a core understanding of global issues and relations in an international business context. Students are encouraged to participate in study tours and international exchange programs to broaden their understanding of global settings. Graduates may find rewarding work in international trade, finance, marketing, tourism, hospitality, government departments, multinational firms and financial institutions; or policy development and research positions in government departments and non-government organisations, diplomatic services, media and education.

**Major studies:** History, International business, Languages, Philosophy, Politics, Sociology.

**Prerequisites:** Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL.

**Middle-band:** Satisfactory completion in any Humanities or any LOTE is considered. A study score of 35 in English (EAL) is considered. A study score of 30 in English other than EAL is considered.

**Selection Mode:** CY12: ATAR and middle-band.

NY12: Educational History including GPA, VTAC Personal Statement (Some), STAT (Some). See extra requirements for more information.

- Bachelor of Commerce (Italian): 3 years full time study

**About the course:** This vocationally oriented degree is designed to equip students with the skills and knowledge to work in, or in association with, Italian organisations. The course assists in the intellectual, social and personal development of students in preparation for a range of specialist and general business professions. The Italian language component is offered at both beginner and advanced levels. Students learn about the structure, grammar, phonetics and phonology of the Italian language, as well as the modern history and business practices of Italy. The commerce component equips students with the skills and knowledge for a career in the business profession, be it starting their own business or contributing to the success of an organisation. Graduates will be able to explore opportunities wherever Italian is spoken, with particular advantages in organisations where there are joint-country business ventures or offices located in Italy. Employment may be found in international business and trade, management, public relations, travel and tourism, social work and journalism.

An additional six to twelve months of paid, relevant industry experience may be available through the university's Industry-Based Learning program.

**Major studies:** Accounting, Advertising, Entrepreneurship and innovation, Finance, Human resource management, International business, Italian, Law (commercial), Management, Marketing, Public relations, Tourism management.

**Prerequisites:** Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL.

**Middle-band:** Satisfactory completion in Accounting, Business Management, Economics, any Information Technology, Languages: Italian, Legal Studies, any Mathematics, Global Politics or Psychology is considered.

- Bachelor of Arts (Journalism): 3 years full time study

About the course: Journalism is undergoing change brought about by new media and the rise of citizen journalism and blogging. This practice-based course combines traditional journalistic skills with online publishing, multimedia production and the skills required for interacting with audiences, social networking and building online communities. It allows students to publish and broadcast their work through a range of outlets including online, television, radio and print. The course also provides students with an understanding of the broad social, historical, legal and moral context of journalism. Graduates will be equipped for roles in journalism, new media, publishing, media research, writing, communications, television, radio, multimedia content production, news agency work and magazine production.

An additional six to twelve months of paid, relevant industry experience may be available through the university's Industry-Based Learning program.

Major studies: Australian politics, Broadcast journalism, Ethics, Journalism, Media, Media (broadcast and print), Media and society, Multimedia communications, Philosophy, Politics, Politics and history, Publishing (print), Publishing (web), Reporting, Shorthand, Writing (media).

Prerequisites: Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL.

Middle-band: Satisfactory completion in any History, Literature, Media, Philosophy or Australian Politics is considered.

Selection Mode: CY12 : ATAR and middle-band.
NY12 : Educational History including GPA, VTAC Personal Statement (Some), STAT (Some). See extra requirements for more information.
SEAS is considered.

Extra requirements:

VTAC Personal Statement (NY12-Some) : Applicants who wish to provide additional information (such as work experience) to support their application must complete the VTAC Personal Statement.

STAT (NY12-Some) : Applicants who wish to use a general aptitude test for entry must complete the STAT Multiple Choice.

Laboratory Techniques (VET)

Swinburne University of Technology
Certificate IV in Laboratory Techniques: 1 year full time study

**About the course:** This course provides scientific and technical education with a strong emphasis on the development of practical skills for the biosciences workplace. Graduates will be competent in meeting the technological and administrative demands of laboratory work. Employment may be found as a laboratory technician, technical assistant or similar support staff to scientists in laboratory-related workplaces in manufacturing, research, education and testing. Alternatively, graduates may pursue further studies in laboratory technology.

**Major studies:** Aseptic and microscopic techniques, Biology, Chemistry, Laboratory computing, Laboratory organisation and safety, Microbiology, Quality procedures, Recording and present data, Sustainable work practices, Teamwork, Workplace communication.

**Prerequisites:** None

**Middle-band:** None

**Selection Mode:** CY12 : ATAR.
NY12 : Educational History including GPA, VTAC Personal Statement (Some). See extra requirements for more information.

SEAS is considered.

**Extra requirements:**

VTAC Personal Statement (NY12-Some) : Applicants who wish to provide additional information (such as work experience) to support their application must complete the VTAC Personal Statement.

Wantima: 3401070094 (Fee type determined by provider)
full-time/part-time
Apply: Through VTAC main round

- Certificate IV in Liberal Arts: 1 year full time study

About the course: This course prepares students for further study in humanities and social sciences or to enter the workforce in a variety of fields. Students explore a range of subjects within these disciplines, including literature, philosophy, anthropology and sociology. The course also provides students with skills to assist their transition into an academic environment and is a suitable foundation for students who have had an extended break from study. Students learn skills and techniques in writing, text analysis, conducting and presenting research, effective communication and making presentations. Graduates may find employment in the fields of arts, communications and social sciences, plus fields where extensive researching, writing and other communication skills are required, or pursue further study.

Prerequisites: None

Middle-band: None

Selection Mode: CY12: ATAR.
NY12: Educational History including GPA, VTAC Personal Statement (Some). See extra requirements for more information.
SEAS is considered.

Extra requirements:
VTAC Personal Statement (NY12-Some): Applicants who wish to provide additional information (such as work experience) to support their application must complete the VTAC Personal Statement.

Library and Information Services (VET)

Swinburne University of Technology
Hawthorn: 3400278804 (Fee type determined by provider)
full-time/part-time
Apply: Through VTAC main round

- Diploma of Library and Information Services: 1 year full time study

About the course: In this course students are provided with the relevant skills and knowledge to work in a variety of technical and customer service positions in the library and information sector. Knowledge gained in this course allows students to register with the Australian Library and Information Association (ALIA), the professional organisation for the Australian library and information services industry. Employment may be found as a library technician or library officer in a range of library environments and information agencies. Successful completion of this course may also allow students to progress to another qualification with advanced standing.

Major studies: Business technology and web maintenance, Customer service, Library (information services), Library studies.

Prerequisites: None
Middle-band: None

Selection Mode: CY12 : ATAR.
NY12 : Educational History including GPA, VTAC Personal Statement (Some). See extra requirements for more information.
SEAS is considered.

Extra requirements:
VTAC Personal Statement (NY12-Some) : Applicants who wish to provide additional information (such as work experience) to support their application must complete the VTAC Personal Statement.

- Bachelor of Business (Logistics and Supply Chain Management): 3 years full-time study

**About the course:** Logistics managers are vital to acquiring the raw materials that organisations need to produce products and services, and ensure they are delivered to the final user. A skilled logistics professional can be instrumental in improving the productivity of an organisation. In this course students learn the skills required to manage the supply chain for an organisation. Students gain project management skills, learn how to deal with external partners and develop skills in sourcing materials and negotiating prices. Graduates will be prepared for roles in business and strategic management, channel relationship management, export and import operations, purchasing and supply chain management.

**Major studies:** Global logistics, Operations management, Risk management, Transportation management.

**Prerequisites:** Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL.

**Middle-band:** Satisfactory completion in Accounting, Business Management, Economics, any Information Technology, Legal Studies, any Mathematics, Global Politics or Psychology is considered.

**Selection Mode:** CY12 : ATAR and middle-band.
NY12 : Educational History including GPA, VTAC Personal Statement (Some), STAT (Some). See extra requirements for more information.
SEAS is considered.

**Extra requirements:**
VTAC Personal Statement (NY12-Some) : Applicants who wish to provide additional information (such as work experience) to support their application must complete the VTAC Personal Statement.

- Bachelor of Arts (Professional Writing and Editing): 3 years full time study

**About the course:** This practical, cross-disciplinary course is designed to provide students with skills in writing and editing in the professional sphere. Students develop practical skills required to meet industry standards and become well equipped to work as a professional writer and/or editor. With a focus on designing and developing text, students gain an understanding of industry laws and regulations, as well as writing and editing skills for novels, non-fiction, creative fiction, scripts, screen-writing, advertising and the web. Graduates will be prepared for roles in advertising agencies, government, business and community groups. They may enjoy careers as writers, editors, and media and communication professionals. Graduates may also find roles in book and magazine publishing, print and broadcast journalism, copywriting, web development, public relations, scriptwriting or administration.

An additional six to twelve months of paid, relevant industry experience may be available through the university's Industry-Based Learning program.

**Major studies:** Australian writing and cultural change, Digital literacies , Editing for publication , Editing for writers, Editing techniques , Novel writing , Reading writing and criticism, Screenwriting for media , Texts and contexts of media literature and film, Writing short non-fiction.

**Prerequisites:** Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL.

**Middle-band:** Satisfactory completion in any History, Literature, Media, Philosophy or Australian Politics is considered.

**Selection Mode:** CY12 : ATAR and middle-band.

NY12 : Educational History including GPA, VTAC Personal Statement (Some), STAT (Some). See extra requirements for more information.

SEAS is considered.

**Extra requirements:**

VTAC Personal Statement (NY12-Some) : Applicants who wish to provide additional information (such as work experience) to support their application must complete the VTAC Personal Statement.

STAT (NY12-Some) : Applicants who wish to use a general aptitude test for entry must complete the STAT Multiple Choice.

Bachelor of Business (Public Relations): 3 years full time study

About the course: Public relations focus on protecting and advancing clients' reputations through effective communication and relationship-building. This course emphasises the importance of communication in reaching corporate objectives. Students learn how public relations supports the implementation of strategic plans, communication planning and campaign development. Project units help students to be work-ready and capable of taking on the challenges of the dynamic professional communication sector. Graduates may find work within event management, community development, public policy, digital media publishing, industrial relations, human resource management or speech writing.

An additional six to twelve months of paid, relevant industry experience may be available through the university's Industry-Based Learning program.

Major studies: Commercial law, Communication, Events management, Marketing, Public relations (campaign planning), Public relations (global practice), Public relations (theory), Public relations (writing).

Prerequisites: Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL.

Middle-band: Satisfactory completion in Accounting, Business Management, Economics, any Information Technology, Legal Studies, any Mathematics, Global Politics or Psychology is considered.

Selection Mode: CY12: ATAR and middle-band.

NY12: Educational History including GPA, VTAC Personal Statement (Some), STAT (Some). See extra requirements for more information.

SEAS is considered.

Extra requirements:

VTAC Personal Statement (NY12-Some): Applicants who wish to provide additional information (such as work experience) to support their application must complete the VTAC Personal Statement.

STAT (NY12-Some): Applicants who wish to use a general aptitude test for entry must complete the STAT Multiple Choice.
Bachelor of Communication (Public Relations): 3 years full time study

About the course: Public relations (PR) professionals frequently work alongside designers of graphics, multimedia, websites, products and events. In recognition of these relationships, design forms the central theme of this course. Students learn the language of design to help them write effective briefs for design colleagues. Students produce portfolios that can serve as academic and professional achievements for employment purposes. This course can lead to roles in event management, public relations, community relations, promotions, investor relations, advertising, government relations, marketing, product publicity, issue management, crisis and risk communication, and media relations.

An additional six to twelve months of paid, relevant industry experience may be available through the university's Industry-Based Learning program.

Major studies: Communication, Design, Events management, Marketing, Media studies, Public relations (campaign planning), Public relations (global practice), Public relations (theory), Public relations (writing).

Prerequisites: Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL.

Middle-band: Satisfactory completion in any Business, Classical Studies, History: Australian History, Literature, any LOTE, Legal Studies, Media, Interactive Digital Media C, Outdoor And Environmental Studies, Australian Politics, Global Politics, Sociology, Theatre Studies or Texts And Traditions is considered.

Selection Mode: CY12 : ATAR and middle-band.
NY12 : Educational History including GPA, VTAC Personal Statement (Some). See extra requirements for more information.
SEAS is considered.

Extra requirements:
VTAC Personal Statement (NY12-Some) : Applicants who wish to provide additional information (such as work experience) to support their application must complete the VTAC Personal Statement.
Graduates can expect to build on and maintain positive relationships with the public by taking on roles as a community development officer, public policy adviser, public policy manager, university administrator, multimedia publisher, ethicist, industrial relations officer, human resource manager, speech writer or event manager.

**Major studies:** Communication, Events management, Marketing, Public relations (campaign planning), Public relations (global practice), Public relations (theory), Public relations (writing).

**Prerequisites:** Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL.

**Middle-band:** Satisfactory completion in any History, Philosophy, Australian Politics, Psychology or Sociology is considered.

- Certificate IV in Renewable Energy: 1 year full time study

**About the course:** This qualification provides competencies to select, install, commission, fault find and maintain multiple renewable energy sources and equipment for control of energy use. These energy sources include, photovoltaic solar panels, solar energised battery systems, wind energy conversion systems and micro-hydro systems. Career opportunities include solar and PV installer - roofer, solar fabrication technician, solar laboratory technician, PV solar designer and solar sales. The course also offers graduates an opportunity to explore Clean Energy Council accreditation.

**Major studies:** Electrical technology, Electronics, Grid connect, Photovoltaic systems, Renewable energy technology, Solar design, Stand alone energy systems.

**Prerequisites:** None

**Middle-band:** None

**Selection Mode:** CY12: ATAR.
NY12: Educational History including GPA, VTAC Personal Statement (Some). See extra requirements for more information.
SEAS is considered.

**Extra requirements:**
- VTAC Personal Statement (NY12-Some): Applicants who wish to provide additional information (such as work experience) to support their application must complete the VTAC Personal Statement.

---

**Science (VET)**

**Swinburne University of Technology**
Certificate IV in Science: 1 year full time study

**About the course:** In this course students will gain skills in the areas of mathematics, sciences, researching and communication. These skills help students to undertake further study, fulfil career aspirations or improve employment opportunities. Graduates may have improved access to roles in fields such as applied science, aviation, information technology, engineering, nursing, paramedical, radiography/radiology and alternative medicine. Graduates may also be well prepared for further study in higher education or related VET programs.

**Major studies:** Biology, Chemistry, Communications, Computing, Genetics, Health studies, Mathematics, Physics.

**Prerequisites:** None

**Middle-band:** None

**Selection Mode:** CY12: ATAR. NY12: Educational History including GPA, VTAC Personal Statement (Some). See extra requirements for more information. SEAS is considered.

**Extra requirements:**

VTAC Personal Statement (NY12-Some) : Applicants who wish to provide additional information (such as work experience) to support their application must complete the VTAC Personal Statement.

**Apply:** Through VTAC main round

- Bachelor of Science: 3 years full time study

**About the course:** This course develops students' capacity to understand complex scientific information from a variety of specialisations and to communicate their knowledge in ways that address the issues facing humanity and the planet. It provides students with a broad science overview with the ability to specialise in a field of their choice through a range of science majors. The course aims to equip students with the skills, knowledge and key theoretical insights required to work in a range of professional scientific environments. A distinctive feature of the course is the practical application of knowledge through project-based units of study. Drawing on the expertise of leading teachers, researchers and a variety of industry experts, the course allows students to tailor their degree and develop a unique range of interdisciplinary skills. Offering a flexible range of unit combinations, the course allows students to select a professionally focused program of study. The topics covered seek to blend a range of key scientific skills and knowledge required by current and projected industry needs. Graduates will enjoy a wide range of employment opportunities in science and technology, determined by their major studies.

An additional six to twelve months of paid, relevant industry experience may be available through the university's Industry-Based Learning program.
**Major studies:** Applied mathematics, Biomedical physiology, Biomedical science, Biomolecular science, Chemistry, Computer science and mathematics, Environmental science, Food science, Neuroscience, Physics, Psychology, Psychophysiology.

**Prerequisites:** Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL; and a study score of at least 20 in any Mathematics.

**Middle-band:** Satisfactory completion in Physical Education or any Science is considered. A study score of 25 in any Mathematics is considered.

**Selection Mode:** CY12 : ATAR and middle-band.
NY12 : Educational History including GPA, VTAC Personal Statement (Some), STAT (Some). See extra requirements for more information.
SEAS is considered.

**Extra requirements:**
VTAC Personal Statement (NY12-Some) : Applicants who wish to provide additional information (such as work experience) to support their application must complete the VTAC Personal Statement.
STAT (NY12-Some) : Applicants who wish to use a general aptitude test for entry must complete the STAT Multiple Choice.

**Screen and Media (Broadcast Journalism) (VET)**

**Swinburne University of Technology**
Hawthorn: 3400278294 (Fee type determined by provider) full-time **Apply:** Through VTAC main round

- Diploma of Screen and Media: 1 year full time study

**About the course:** In this course students develop an understanding of the relationship between the media and community, and society and industry. They learn practical production and presentation skills in multi-platform journalism, including radio, television, print and online. Graduates will possess the skills to work as journalists in radio, television or online settings. They will also be able to write for online media and undertake photojournalism assignments in their chosen field. Successful completion of this course may also allow students to progress to another qualification with advanced standing.

**Major studies:** Conducting interviews, Digital production techniques, Exploring issues on radio, Producing and coordinating television programs, Writing persuasive copy.

**Prerequisites:** None

**Middle-band:** None

**Selection Mode:** CY12 : ATAR.

NY12 : Educational History including GPA, VTAC Personal Statement (Some), other. See extra requirements for more information. SEAS is considered.

**Extra requirements:**
VTAC Personal Statement (NY12-Some) : Applicants who wish to provide additional information (such as work experience) to support their application must complete the VTAC Personal Statement.

Information Session (CY12-All, NY12-All): Applicants must attend a preliminary information session in late November or early December at the Prahran campus. Visit [www.swinburne.edu.au/extrareqs/broadcastjournalism](http://www.swinburne.edu.au/extrareqs/broadcastjournalism) for session dates/times, venue details and to register.

**Screen and Media (Digital Media Design) (VET)**
Swinburne University of Technology
Hawthorn: 3400278984 (Fee type determined by provider) full-time  Apply: Through VTAC main round

- Diploma of Screen and Media: 1 year full time study
- Advanced Diploma of Screen and Media: 1 year full time study

About the course: This course aims to give students the broad-based skills and specialised knowledge necessary for initiating and developing an electronic media career path, and to work with digital technologies within the arts, screen design and media industries. Students study web graphics, animation and games design. Employment may be found in the areas of multimedia design, interface design, web design, new media arts, art direction, film and video post-production, 3D modelling, 2D and 3D animation, visual art studio practice, graphic design and the screen arts industries. Successful completion of this course may also allow students to progress to another qualification with advanced standing.

Note: The Advanced Diploma of Screen and Media incorporates the Diploma of Screen and Media. Students will be enrolled in the diploma to complete all prerequisite competencies before commencing the advanced diploma level.

Students may be required to commence study at the Prahran campus in 2014.

Major studies: 2D animation, 3D design, Digital video and sound design, Exhibition design, Interactive screen design, Media theory, Screen design, Web programming.

Prerequisites: None

Middle-band: None

Selection Mode: CY12: ATAR.
NY12: Educational History including GPA, VTAC Personal Statement (Some). See extra requirements for more information.
SEAS is considered.

Extra requirements:
VTAC Personal Statement (NY12-Some): Applicants who wish to provide additional information (such as work experience) to support their application must complete the VTAC Personal Statement.
Information Session (CY12-All, NY12-All): Applicants must attend a preliminary information session in late November or early December at the Prahran campus. Visit www.swinburne.edu.au/extrareqs/digitalmedia for session dates/times, venue details and to register.

Screen and Media (Film and Television) (VET)

Swinburne University of Technology
Hawthorn: 3400278064 (Fee type determined by provider) full-time  Apply: Through VTAC main round

- Diploma of Screen and Media: 1 year full time study
- Advanced Diploma of Screen and Media: 1 year full time study

About the course: This course provides students with in-depth knowledge of the filmmaking production process and its related technical aspects of camera operation, sound recording, non-linear editing, script development and interpretation, and project management. Students develop productions within a broad cultural and theoretical context through research projects and studies in media theory. Graduates may find employment in the film and television industry or as an independent producer, director, editor or special effects developer. Successful completion of this course may also allow students to progress to another qualification with advanced standing.

Note: The Advanced Diploma of Screen and Media incorporates the Diploma of Screen and Media. Students will be enrolled in the diploma to complete all prerequisite competencies before commencing the advanced diploma level.

Students may be required to commence study at the Prahran campus in 2014.

Major studies: Directing, Editing, Lighting, Management, Production planning, Production processes, Recording/mixing processes, Scriptwriting, Sound recording and production, Television/studio production.
Prerequisites: None

Middle-band: None

Selection Mode: CY12: ATAR.
NY12: Educational History including GPA, VTAC Personal Statement (Some), other. See extra requirements for more information.
SEAS is considered.

Extra requirements:
VTAC Personal Statement (NY12-Some): Applicants who wish to provide additional information (such as work experience) to support their application must complete the VTAC Personal Statement.

Information Session (CY12-All, NY12-All): Applicants must attend a preliminary information session in late November or early December at the Prahran campus. Visit www.swinburne.edu.au/extrareqs/filmtv for session dates/times, venue details and to register.

Security and Counter Terrorism (Arts) (HE)

Swinburne University of Technology
Hawthorn: 3400235811 (CSP) full-time/part-time  Apply: Through VTAC main round
Hawthorn: 3400235813 (IFP) full-time  Apply: Through VTAC main round

- Bachelor of Arts (Security and Counter Terrorism): 3 years full time study

About the course: This course develops students understanding of the political, cultural, economic and social dimensions of challenges facing the world. It explores international security, terrorism and counter-terrorism in the context of understanding and developing peaceful resolutions to world conflict. The course focuses on human rights and the ethical issues surrounding security and counter terrorism policy. Students examine the changing nature of warfare and its justification in the context of the post-9/11 security environment. This includes the role of technology (internet, drone warfare, cyber-security), as well as the legislative changes that aim to protect 'liberty' and democracy. Ideological, interventionist and economic measures to achieve "security" are also critically examined from a range of different perspectives. This course prepares students for work in a culturally diverse global environment.

Prerequisites: Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL.

Middle-band: Satisfactory completion in any History, Philosophy, Australian Politics, Global Politics, Psychology or Sociology is considered.

Selection Mode: CY12: ATAR and middle-band.
NY12: Educational History including GPA, VTAC Personal Statement (Some), STAT (Some). See extra requirements for more information.
SEAS is considered.

Extra requirements:
VTAC Personal Statement (NY12-Some): Applicants who wish to provide additional information (such as work experience) to support their application must complete the VTAC Personal Statement.

STAT (NY12-Some): Applicants who wish to use a general aptitude test for entry must complete the STAT Multiple Choice.

Security and Counter Terrorism (Social Science) (HE)
### Bachelor of Social Science (Security and Counter Terrorism): 3 years full time study

**About the course**: This course develops students understanding of the political, cultural, economic and social dimensions of challenges facing the world. It explores international security, terrorism and counter-terrorism in the context of understanding and developing peaceful resolutions to world conflict. The course focuses on human rights and the ethical issues surrounding security and counter terrorism policy. Students examine the changing nature of warfare and its justification in the context of the post-9/11 security environment. This includes the role of technology (internet, drone warfare, cyber-security), as well as the legislative changes that aim to protect 'liberty' and democracy. Ideological, interventionist and economic measures to achieve 'security' are also critically examined from a range of different perspectives. This course prepares students for work in a culturally diverse global environment.

**Major studies**: Australian foreign policy, Conflict and resolution, Human rights, International politics, International relations, Security and terrorism.

**Prerequisites**: Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL.

**Middle-band**: Satisfactory completion in any History, Philosophy, Australian Politics, Global Politics, Psychology or Sociology is considered.

**Selection Mode**: CY12 : ATAR and middle-band.
NY12 : Educational History including GPA, VTAC Personal Statement (Some), STAT (Some). See extra requirements for more information.
SEAS is considered.

**Extra requirements:**
VTAC Personal Statement (NY12-Some) : Applicants who wish to provide additional information (such as work experience) to support their application must complete the VTAC Personal Statement.
STAT (NY12-Some) : Applicants who wish to use a general aptitude test for entry must complete the STAT Multiple Choice.
**About the course:** This course introduces students to the study of individuals, groups and human societies. It explores how social relationships and institutions shape individuals and how they, in turn, have the capacity to shape these social institutions. Students develop theoretical insight into their chosen discipline and gain an understanding of current developments in society and the workplace. They also learn how to adapt and respond appropriately to future developments in their area of study, both nationally and internationally. Graduates may find employment in policy analysis and development, social research, community development, administration and human services management, planning, welfare, human resources, media relations, public relations, communications research or marketing.

An additional six to twelve months of paid, relevant industry experience may be available through the university's Industry-Based Learning program.

**Major studies:** Community health, Criminology and forensic science, Peace and diplomacy, Philosophy, Politics and public policy, Psychology, Psychology and forensic science, Psychology and sport science, Security and counter terrorism, Sociology.

**Prerequisites:** Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL.

**Middle-band:** Satisfactory completion in any History, Philosophy, Australian Politics, Psychology or Sociology is considered.

**Selection Mode:**

CY12: ATAR and middle-band.

NY12: Educational History including GPA, VTAC Personal Statement (Some), STAT (Some). See extra requirements for more information.

SEAS is considered.

**Extra requirements:**

VTAC Personal Statement (NY12-Some): Applicants who wish to provide additional information (such as work experience) to support their application must complete the VTAC Personal Statement.

STAT (NY12-Some): Applicants who wish to use a general aptitude test for entry must complete the STAT Multiple Choice.

- Bachelor of Engineering (Software Engineering): 4 years full time study

About the course: Software engineers design, implement, test, maintain and manage projects for the engineering of complex software systems. This course covers advanced software engineering with an emphasis on teamwork, problem-solving and practical software engineering skills, including quality assurance, project management and industry-standard development techniques and tools. The course covers both the fundamentals and more advanced topics in software and systems engineering, including design, quality assurance, implementation and deployment. The course also allows students to gain specialised skills in a variety of areas, including telecommunications, robotics and mechatronics, pervasive computing and mobile systems development. Graduates may find employment in a variety of roles, including software engineer, quality assurance engineer, systems engineer, software architect, software design and development, and embedded systems and mobile application engineering.

An additional six to twelve months of paid, relevant industry experience may be available through the university's Industry-Based Learning program.

Prerequisites: Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL; and a study score of at least 20 in one of Maths: Mathematical Methods (CAS) or Maths: Specialist Mathematics.

Middle-band: Satisfactory completion in any Information Technology, any Mathematics or Physics is considered.

Selection Mode: CY12 : ATAR and middle-band.
NY12 : Educational History including GPA, VTAC Personal Statement (Some). See extra requirements for more information.
SEAS is considered.

Extra requirements:
VTAC Personal Statement (NY12-Some) : Applicants who wish to provide additional information (such as work experience) to support their application must complete the VTAC Personal Statement.

Sports Management (HE)
Bachelor of Business (Sports Management): 3 years full time study

**About the course:** This course develops management skills for work in the dynamic sport and leisure industry. Students complete units in sports marketing, administration and events to provide broad career opportunities. This includes exploring the effects of sport on society such as promoting healthy lifestyle choices and supporting communities. Students also develop the skills to manage community relationships and contribute to the sustainability of an organisation. Graduates may find roles in sports administration, sponsorship and marketing, government organisations, sporting and health clubs, and event management. Graduates are also prepared for management positions within the sport and leisure industry.

**Major studies:** Leadership and management, Professional communication, Sports clubs and facilities management, Sports law, Sports marketing.

**Prerequisites:** Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL.

**Middle-band:** Satisfactory completion in Accounting, Business Management, Economics, any Information Technology, Legal Studies, any Mathematics, Global Politics or Psychology is considered.

**Selection Mode:** CY12 : ATAR and middle-band.
NY12 : Educational History including GPA, VTAC Personal Statement (Some), STAT (Some). See extra requirements for more information.
SEAS is considered.

**Extra requirements:**
VTAC Personal Statement (NY12-Some) : Applicants who wish to provide additional information (such as work experience) to support their application must complete the VTAC Personal Statement.
STAT (NY12-Some) : Applicants who wish to use a general aptitude test for entry must complete the STAT Multiple Choice.

---

Bachelor of Business (Tourism Management): 3 years full time study

**About the course:** Tourism affects national and international economies, and demands a new breed of manager with both management skills and a specific tourism focus. This course gives students thorough grounding in both general business principles and the specific discipline of tourism theory and practice. Learning is based on a range of practical exercises and assignments. The course will help students to develop skills in resourcefulness, creativity
and responsibility. Students learn how to operate in diverse environments, confront challenges and find solutions. Graduates may find employment in museums, national parks, airlines, wholesale tour companies, regional tourism offices, tourist resorts, and conference and reception centres. Graduates also have the skills to establish and run their own business within the tourism field.

An additional six to twelve months of paid, relevant industry experience may be available through the university's Industry-Based Learning program.

**Major studies:** Events management, Management, Marketing, Tourism (destination management), Tourism (enterprise development), Tourism (regional issues), Tourism (services and distribution management), Tourism (sustainable practice).

**Prerequisites:** Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL.

**Middle-band:** Satisfactory completion in Accounting, Business Management, Economics, any Information Technology, Legal Studies, any Mathematics, Global Politics or Psychology is considered.

**Selection Mode:** CY12 : ATAR and middle-band.

NY12 : Educational History including GPA, VTAC Personal Statement (Some), STAT (Some). See extra requirements for more information.

SEAS is considered.

**Extra requirements:**

VTAC Personal Statement (NY12-Some) : Applicants who wish to provide additional information (such as work experience) to support their application must complete the VTAC Personal Statement.

**Visual Art (VET)**

*Swinburne University of Technology*

Wantirna: 3401078154 (Fee type determined by provider) full-time  
Apply: [Through VTAC](http://www.wss8.vtac.edu.au/courses-inst/institutions/topdf/swinburne...) main round

- Diploma of Visual Art: 1 year full time study

**About the course:** These courses address the specific knowledge and skills required to undertake work as a visual artist who works independently or within specialised organisations. Course content includes; communicating ideas, creative expression, critical analysis, promotion, project management, industry business practices and application of technologies relevant to the visual arts.

**Major studies:** Digital media, Painting, Photography, Printmaking, Public art, Sculpture, Visual arts.

**Prerequisites:** None

**Middle-band:** None

**Selection Mode:** CY12 : ATAR.

NY12 : Educational History including GPA, VTAC Personal Statement (Some). See extra requirements for more information.

SEAS is considered.

**Extra requirements:**

VTAC Personal Statement (NY12-Some) : Applicants who wish to provide additional information (such as work experience) to support their application must complete the VTAC Personal Statement.

**Visual Merchandising (VET)**

**Swinburne University of Technology**  
Wantirna: 3401078254 (Fee type determined by provider) full-time  
Apply: Through VTAC main round

- Diploma of Visual Merchandising: 1.5 year full time study

**About the course:** This course provides students with an understanding of the visual merchandising industry, including the principles and elements of display, the development and design of language for product presentation, the design and construction of props, and working to an industry brief. It equips students with the skills and knowledge needed to work in the visual merchandising, display and exhibition industries. Students learn about prop design and construction, and styling. Graduates may find employment as a visual merchandiser in retail store visual merchandising or display departments, visual merchandising consultancy and supply companies, retail merchandising, photo styling, display production companies and exhibition design. Successful completion of this course may also allow students to progress to another qualification with advanced standing.

**Major studies:** Advertising, Business (marketing), Computer graphics, Conventions and exhibitions, Design, Digital art and design, Drafting, Drawing and illustration, Event management (festivals), Graphic design, History (design), Internet and multimedia, Marketing, Marketing (retail), Merchandising, Multimedia design, Occupational health and safety, Photo styling, Professional practice, Retail (promotion).

**Prerequisites:** None

**Middle-band:** None

**Selection Mode:** CY12: ATAR.
NY12: Educational History including GPA, VTAC Personal Statement (Some). See extra requirements for more information.
SEAS is considered.

**Extra requirements:**
VTAC Personal Statement (NY12-Some): Applicants who wish to provide additional information (such as work experience) to support their application must complete the VTAC Personal Statement.

Information Session (CY12-All, NY12-All): Applicants must attend a preliminary information session in late November or early December at the Wantirna campus. Visit www.swinburne.edu.au/extrareqs/visualmerchandising for session dates/times, venue details and to register.

Apply: Through VTAC main round

- Certificate IV in Web-Based Technologies: 1 year full time study
- Diploma of Website Development: 2 years full time study

**About the course:** This course is suitable for those who require knowledge and skills in producing and maintaining websites. In this course students will learn how to construct websites and content using internet servers and a range of software applications and digital devices. Employment may be found in the field of website development in roles such as web programmer and web designer. Successful completion of this course may also allow students to progress to another qualification with advanced standing.

**Note:** The Diploma of Website Development incorporates the Certificate IV in Web-Based Technologies. Students will be enrolled in the Certificate IV to complete all prerequisite competencies before commencing the diploma level.

**Major studies:** Database design and development, Database integration, E-business solutions, Project management, Systems analysis and design, Web and mobile applications programming, Web design and development, Website security.
Prerequisites: None

Middle-band: None

Selection Mode: CY12 : ATAR.
NY12 : Educational History including GPA, VTAC Personal Statement (Some). See extra requirements for more information.
SEAS is considered.

Extra requirements:
VTAC Personal Statement (NY12-Some) : Applicants who wish to provide additional information (such as work experience) to support their application must complete the VTAC Personal Statement.
The University of Ballarat (UB) is one of Australia’s newest and most progressive universities, with a history of providing tertiary education and training for more than 140 years. It is predominantly a regional institution, with three campuses in Ballarat and one each in Horsham, Stawell and Ararat. It also has a national and international focus, building extensive partnerships and strategic alliances beyond its immediate region.

Up to 25,000 students are enrolled in TAFE and Higher Education programs which meet the region’s diverse education and training needs.

University schools include Education and the Arts; Business; Health Sciences; Science, IT and Engineering; Industry Skills Centre (with a focus on apprenticeship and skills training); and the UB College incorporating UBTec (technical education for senior secondary school students) and a range of VET and preparatory programs (including Foundation, English Language and VCAL programs).

The University places great emphasis on the quality of its teaching and its expanding, highly productive research capability. Higher Education graduates consistently record amongst the highest levels in Australia of satisfaction with their educational experience at UB. Employment and salary outcomes for graduates are equal to, or better than, the national norms.

In its teaching and research, UB has established strong links with business, industry and the community. In addition, UB has a significant international profile with more than 4500 students from many countries.

UB is harnessing new technologies so that access to its educational programs in the region and for students further afield is increased through flexible delivery and online learning.

Key areas of activity in research, consulting and educational programs include tele-imaging; multimedia; rural health; regional innovation and competitiveness; informatics and applied optimisation; environmental management; electronic commerce; occupational health and safety; and the arts in their many forms.

Research is also complemented by UB’s Technology Park on the Mt. Helen Campus. The Park’s clients include IBM, Ambulance Victoria and the State Revenue Office.

Note: UB is joining forces with the Monash Gippsland campus to form an expanded, regionally-focused university from January 1 2014. As part of this process UB will undergo significant changes including a new name, as well as incorporating a range of new programs for the 2014 academic year. Prospective students should confirm program information by visiting www.ballarat.edu.au and www.vtac.edu.au or by contacting the University directly on 1800 811 711.

Credit transfer, pathways and recognition of prior learning

Pathway Information
If you have an existing TAFE qualification you may be seeking a pathway into a Higher Education course.

For more information: www.ballarat.edu.au/pathways
RPL assesses your current skills and knowledge against the learning outcomes of a course regardless of how or where the learning has occurred. Further details of how to apply can be found at www.ballarat.edu.au/future-students/programs-and-courses

Credit transfer
Credit may be granted for previously successful study at University of Ballarat or another higher education, tertiary or TAFE institute. Further details can be found at www.ballarat.edu.au/future-students/programs-and-courses

Internal transfers
Currently enrolled University of Ballarat students (TAFE or Higher Education) applying for other University of Ballarat courses should follow the application instructions at: www.ballarat.edu.au/apply

Special consideration
Regional bonus
The University of Ballarat (UB) is delighted to continue to support increased access to, and participation in, tertiary education by students from regional and remote backgrounds.

Under UB's Regional Bonus Scheme, eligible applicants who apply through VTAC will automatically be granted up to 10 extra points on top of their aggregate score. For more information: www.ballarat.edu.au/regional-bonus-scheme

Special Entry Access Scheme (SEAS)
The University of Ballarat recognises that VCE results do not always predict success at tertiary level or reflect the ability of students to undertake tertiary study. A number of issues might have impacted on a student during their school years, affecting their ability to do well in assessment tasks. This may also be true for students doing other forms of study e.g. at TAFE or in other attempts at University study. Our goal is to open the doors to study to those who have the ability to succeed. If you believe that your academic potential is not reflected by your achievements to date, and you are eligible to apply under one or more of the SEAS categories, we invite you to submit a SEAS application.

At UB there will be some offers based on the Australian Tertiary Admissions Rank (ATAR). But that is just the start.

For other students, UB selection officers will look at the SEAS application and consider whether you have the preparation needed to be able to undertake the level of study you are applying for. Selection decisions will be based on the information you provide – impact statement, documentation and supporting evidence. Through SEAS we give you the opportunity to give us a full picture of your achievements and ability, and the opportunity to explain the issues that have impacted on you and your studies to date.

For more information: http://www.ballarat.edu.au/seas

Scholarships
For more information: www.ballarat.edu.au/scholarships

Enrolment and deferment
Enrolment
All successful applicants will receive enrolment instructions after offer letters have been sent by both VTAC and UB. For on-campus enrolments students must bring their Tax File Number.
Deferment
Where applicable, students who have been offered a place in a Higher Education program will be granted deferment on application.

Services
Accommodation Services
Accommodation Services provide quality affordable accommodation for students from regional Victoria and interstate. Emphasis is placed on creating a friendly, caring, living and study environment.

Acting (HE)
University Of Ballarat

Camp Street: 3700237243 (IFP) full-time Apply: Through VTAC main round

- Bachelor of Arts (Acting): 3 years full time study

About the course: The acting degree offers an intensive actor training program in which students develop the skills and gain the techniques needed to become a professional actor and performer. Through the exploration of existing repertoire and new work the student is encouraged to explore the relationships between the body, space, time and text. The program is underpinned by a philosophy of blending practice with theory, incorporating workshops, rehearsal and research. Subjects include: Voice, Dance, Acting (for theatre and film), Theatre Practice, Critical Studies and Professional Practice.

Major studies: Acting, Critical studies, Film, Movement studies, Performing arts, Singing, Voice.

Prerequisites: None

Middle-band: None

Selection Mode: CY12: ATAR, Supplementary form (All), Audition (All). See extra requirements for more information.

NY12: Educational History including GPA, Supplementary form (All), Audition (All). See extra requirements for more information.

SEAS is considered.

Extra requirements:
Supplementary form (CY12-All, NY12-All): Applicants must complete and submit an Application for Audition form (www.ballarat.edu.au/apply) by Friday 4 October. Applicants can also request the form by telephone (03) 5327 8808. Late applicants after Monday 7 October must telephone or email info@ballarat.edu.au prior to applying. A late fee may apply.

Audition (CY12-All, NY12-All): Details will be sent to applicants by early November. Applicants must attend in mid to late November.

Arts (HE)
University Of Ballarat
Mount Helen: 3700537301 (CSP) full-time/part-time
Apply: Through VTAC main round

Bachelor of Arts (Humanities and Social Sciences): 3 years full time study

About the course: The Bachelor of Arts (H and SS) provides graduates with a critical understanding of a wide range of Humanities and Social Science disciplines. This degree offers many choices for students and encourages them to tailor their program to meet their interests and career aspirations. Foundation studies offered in first year allow students to experience a range of disciplinary and interdisciplinary studies in humanities, social science and psychology. Students are able to choose from a range of courses to complete their two chosen major sequences of study of 105 credit points each [total of 210 credit points]. The remainder may be chosen from other offerings within the School. There is also some opportunity to take elective studies from other Schools within the University. The degree may also be completed with the option of research-ready or work-ready courses which allow students to more deeply explore an area of their interest.

Major studies: Arts, Creative Writing, Film Studies, History, Indigenous studies, Japanese, Literature, Philosophy, Psychology, Sociology.

Prerequisites: None.

Middle-band: None

Selection Mode: CY12: ATAR, Interview (Some). See extra requirements for more information.
NY12: Educational History including GPA, Interview (Some). See extra requirements for more information.
SEAS is considered.

Extra requirements:
Interview (CY12-Some, NY12-Some): Details will be sent to applicants by 20 December 2013. Interviews will be held in mid-January. Late applicants after 6 December 2013 must telephone 5327 9632 by 10 January 2014.

Arts/Education (HE)

University Of Ballarat
Mount Helen: 3700537351 (CSP) full-time/part-time
Apply:Through VTAC main round

Bachelor of Arts/Education: 4 years full time study

About the course: This program provides a professional qualification for teaching in secondary schools system in the middle years and VCE levels. Education Courses: Introduction to Teaching and Learning, Young People and Learning Environments, Designing for Learning, Transition to Professional Practice, Perspectives on Curriculum and Education, Global Perspectives, Assessment Data and Reporting, Collaborative Research and Evaluation and Major and Minor curriculum courses. Practical experience: A major learning experience for students is the

supervised teaching practicum where students are required to teach a minimum of 80 days in secondary schools. The Psychology major is fully accredited by the Australian Psychology Accreditation Council (APAC).

Prerequisites: Units 1 and 2: satisfactory completion in two units (any study combination) of General Mathematics or Maths: Mathematical Methods (CAS); and Units 3 and 4: a study score of at least 25 in any English.

Middle-band: A study score of 35 in any English or any Mathematics equals 1 aggregate point per study. Overall maximum of 3 points.

Selection Mode: CY12: ATAR and middle-band.
NY12: Educational History including GPA, VTAC Personal Statement (All). See extra requirements for more information.
SEAS is considered.

Extra requirements:
VTAC Personal Statement (NY12-All): NY12 applicants must submit a VTAC Personal Statement
SUCCESSFUL APPLICANTS: All successful applicants are required to apply for a WWCC (Working with Children Check) before commencing their program. A copy of the WWCC card must be supplied to the University prior to completing Professional Experience placements. NY12 applicants may be required to sit a literacy and/or numeracy test to demonstrate equivalent VCE Mathematics and English standards.

- Diploma of Professional Writing and Editing: 0.5 year full time study
- Bachelor of Arts: 3.5 years full time study

About the course: This dual-sector program combines benefits of a degree with skills and industry links of a TAFE qualification. Get both a BA and a Diploma of Professional Writing & Editing in 3.5 years. The BA includes major sequences in Literature and Film and five electives. Study what interests you in Film and Literature. From creative writing to non-fiction, popular culture to innovation, the BA appeals to your interests and broadens your knowledge. It provides research know-how, critical thinking skills and enhanced written and verbal expression. In the TAFE component of the degree, you will progress through the Certificate IV to the Diploma of Professional Writing & Editing. Core and elective units include computer skills for writers and editors, editing, desktop publishing, corporate writing, screenwriting, small press publishing and a placement elective. Some subjects are available for off-campus study. After completion, choose to work in any of a range of media in publishing, editing, journalism, creative writing, production of magazines and newsletters, freelance writing, promotional and publicity roles, research and education.

Major studies: Film, Literature, Professional writing and editing.

Prerequisites: None.

Middle-band: None

Selection Mode: CY12: ATAR, Supplementary form (Some), Folio (Some). See extra requirements for more information.
NY12 : Educational History including GPA, Supplementary form (All), Folio (All). See extra requirements for more information.

**Extra requirements:**
Folio (CY12-Some, NY12-All) : The folio of writing samples should be no more than five A4 pages.

**Beauty Therapy (VET)**

**University Of Ballarat**

*SMB: 3700674284 (Fee type determined by provider) full-time/part-time**  
Apply: Through VTAC **main round**

- Diploma of Beauty Therapy: 1 year full time study

**About the course:** This qualification will develop students practical skills and knowledge to apply the full range of face and body treatments, aromatherapy and the use of essential oils, applying make-up, waxing, relaxation massage, lymphatic draining massage, reflexology and a vast range of other services to provide the students with the capable knowledge to successfully advance themselves in a beauty career. Students will complete a work placement, 1 day a week for 10 weeks. Successful participants may seek work as a Beauty Therapist working in a beauty salon, or specialist business such as a day spa or resort. The Beauty Therapist will be qualified to own or manage a salon or business.

**Major studies:** Advanced facial treatments, Anatomy and physiology, Aromatherapy techniques, Beauty therapy, Body treatments, Business planning, Client services, Cosmetic chemistry, Electricity for beauty treatments, Lash and brow treatments, Makeup application, Makeup design, Manicure and pedicare services, Nail science, Photographic makeup, Reflexology techniques, Safe work practices, Skin biology, Skin science, Spa program, Temporary epilation & bleaching treatments, Treatment plans for beauty services.

**Prerequisites:** None

**Middle-band:** None

**Selection Mode:** CY12 : ATAR, VTAC Personal Statement (All), Interview (Some), Literacy and Numeracy Test (All). See extra requirements for more information.
NY12 : Educational History including GPA, VTAC Personal Statement (All), Interview (Some), Literacy and Numeracy Test (All), Information session. See extra requirements for more information.

**Extra requirements:**
VTAC Personal Statement (CY12-All, NY12-All) : All applicants must complete the VTAC personal statement.
Interview (CY12-Some, NY12-Some) : If required to attend an interview applicants will be informed at information session.
Literacy and Numeracy Test (CY12-All, NY12-All) : Applicants will be required to complete a Literacy and Numeracy test at the information session.
Information Session (CY12-All, NY12-All): All applicants must apply and contact Unistyle on 5327 8437 before 1 October to register for details about the compulsory information session.

- Bachelor of Biomedical Science: 3 years full time study

About the course: Biomedical Science is an interdisciplinary branch of the life sciences that provides the theoretical foundation and scientific skills required to expand and apply our knowledge of human biology and health. Exciting new developments include genome biology, genetic mapping, stem cell research and biological pharmaceuticals. Most courses will incorporate a mix of skills assessment and knowledge development. Study areas include genetics, molecular biology, cell biology, biochemistry, anatomy and physiology, immunology, laboratory medicine and pharmacology. This program will be of particular interest if you wish to take advantage of the growing need for rural and regional medical and health practitioners. This program will prepare you for careers in a variety of health related industries. Further study and specialisation for those graduates that satisfy the selection criteria upon completion of this degree also exist in the areas of medicine, physiotherapy, dentistry, veterinary science and other health professions.

Major studies: Biochemistry, Biology, Biomedical science, Chemistry, General Medicine, Genetic Sciences, Geochemistry, Health sciences, Medical microbiology, Medical science, Microbiology, Pharmacology, Statistics.

Prerequisites:
Units 3 and 4: a study score of at least 20 in any English; and a study score of at least 20 in any Mathematics; and a study score of at least 20 in one of Biology, Chemistry or Physics.

Middle-band: Satisfactory completion in any Science is considered. Satisfactory completion in any Mathematics is considered.

Selection Mode: CY12: ATAR and middle-band.
NY12: Educational History including GPA, VTAC Personal Statement (All).
SEAS is considered.

Building Design (VET)

University Of Ballarat
SMB: 3700674004 (Fee type determined by provider) full-time
Apply: Through VTAC main round

- Advanced Diploma of Building Design (Architectural): 2 years full time study

About the course: Provides to participants professional skills and knowledge needed for the digital design and documentation of residential, industrial and commercial buildings. The course focus is on the practical application of construction technology, sustainable design, building methods and working with clients from design concept through to building approval stage of a project. The course is full time delivered on campus, usually four to six hours per day, four days a week for first and second years with third year studies conducted one day each week for one year resulting in the completion of twenty one units over three years. Students are encouraged to be employed within the industry after completing second year studies. A variety of assessment methods are used, including individual and group projects, site visits, digit presentations, written reports and tests. There are no elective modules.

Major studies: Building (construction methods), Building (design), Building (technology), Computer-aided digital integration, Computer-aided drafting (CAD), History (architecture), Sustainable Design (Environmental Studies).

Prerequisites: None
Middle-band: None

Selection Mode: CY12 : ATAR, Interview (All). See extra requirements for more information.
NY12 : Educational History including GPA, Folio (All). See extra requirements for more information.

Extra requirements:
Folio (NY12-All) : NY12 applicants will be contacted in November to make an appointment for an interview and folio presentation to be held in November (late applicants in December).
Interview (CY12-All) : CY12 applicants must phone 1800 811 711 to arrange an interview. Interviews will be held in November (late applicants in December).

**Building Surveying (VET)**

**University Of Ballarat**

SMB: 3700610044 (Fee type determined by provider) part-time

Apply: Through VTAC main round

- Diploma of Building Surveying: 2 years full time study

**About the course:** This diploma level qualification will allow graduates to work as Building Inspectors. It provides to participants professional skills and knowledge needed for the inspection of residential, small industrial and commercial buildings. The course focus is on the practical application of construction technology, sustainable design, building methods and working with clients from building permit application stage through to completion of a project. The course is part time delivery on campus, usually 3 days every 6 weeks. Completion of twenty-four units over two (2) years is preferred, although students may take up to 4 years in some circumstances. A variety of assessment methods are used, including individual and group projects, site visits, written reports and tests. There are no elective modules.

**Major studies:** Building, Building (Technology), Construction Methods, Design, Sustainable Design (Environmental Studies).

**Prerequisites:** None

Middle-band: None

Selection Mode: CY12 : ATAR, Interview (All). See extra requirements for more information.
NY12 : Folio (All), Interview (All). See extra requirements for more information.

Extra requirements:
Folio (NY12-All) : To be presented at interview
Interview (CY12-All, NY12-All) : All applicants will be contacted in November by UB to make an appointment for interview which will be in November. (Late applicants in December).

Bachelor of Business: 3 years full time study

About the course: Prepares students for careers in competitive and entrepreneurial environments. Twenty-four fifteen credit point courses (or equivalent). These include eight foundation and skills courses, eight advanced business courses and eight elective courses. Areas of specialisation include - Entrepreneurship, Marketing and Tourism. Students are encouraged to take industry project, consulting or placement courses as part of the program. This program is eligible for UB's Regional Education Entry Program (REEP).

Major studies: Business, Entrepreneurship, Marketing, Tourism.

Prerequisites: Units 1 and 2: satisfactory completion in two units (any study combination) of any Mathematics.

Middle-band: A study score of 30 in two of any Mathematics equals 0.5 aggregate point per study. Satisfactory completion in Accounting, Business Management, Economics or Legal Studies equals 1 aggregate point per study. Overall maximum of 4 points.

Selection Mode: CY12 : ATAR and middle-band, Interview (All). See extra requirements for more information.

- Bachelor of Information Technology (Business Systems): 3 years full time study

**About the course:** This professionally oriented program considers modern principles and theories of computing together with the practical applications of IT. It examines the organisational and technological issues that are needed for the analysis and design of business information systems, with a strong emphasis on e-commerce and internet technology. You will manage the impact of technology in organisations, critically evaluate currently existing technology systems and new developments, understand the organisational settings in which information systems are used, recognise the threats and opportunities of technology in business and understand the role of modern information systems in society and business.

Over three years you will study subjects including Project Management, Emerging Technologies, Information Security, e-Commerce, and Management. A major project in final year encapsulates the skills developed throughout your studies. Further information: [www.ballarat.edu.au/programfinder](http://www.ballarat.edu.au/programfinder). This program is eligible for UB's Regional Education Entry Program (REEP).

**Major studies:** Business (systems management), Computing, Computing (skills), Data networks, Database administration, Databases, E-business, E-commerce, Information security, Information systems, Information technology management, Internet and multimedia, Knowledge management, Management, Management information systems, Project management, World Wide Web.

**Prerequisites:** Units 1 and 2: satisfactory completion in two units (any study combination) of General Mathematics or Mathematical Methods or Units 3 and 4: a study score of at least 10 in any Mathematics; and a study score of at least 15 in any English.

**Middle-band:** A study score of 25 in Maths: Mathematical Methods (CAS) or Maths: Specialist Mathematics equals 3 aggregate points per study. A study score of 30 in any English equals 3 aggregate points per study. Satisfactory completion in any Business, any Information Technology, Legal Studies, Maths: Further Mathematics or any Science equals 3 aggregate points per study. Overall maximum of 10 points.

**Selection Mode:** CY12: ATAR and middle-band.

NY12: Educational History including GPA, VTAC Personal Statement (All), Interview (Some). See extra requirements for more information.

SEAS is considered.

**Extra requirements:**

VTAC Personal Statement (NY12-All): All NY12 applicants must complete the VTAC Personal Statement.

Interview (NY12-Some): Details will be provided by telephone or mail to applicants required to attend.

- Certificate III in Children's Services: 1 year full time study
- Diploma of Children's Services: 1 year full time study

**About the course:** These courses develop the skills and knowledge required to provide programs for infants, pre-school and school-age children in children's services settings. Qualified Early Childhood professionals are responsible for developing, evaluating and implementing programs and have responsibility for the supervision of other staff and volunteers. The courses are offered over 18 months full time on campus and/or flexible delivery, with full time and part time modes of delivery. Practical placements form a core part of the course. Successful applicants
should note that this is a Pathway Program. You will be enrolled in the Certificate III in Children's Services and, subject to satisfactory academic performance, will progress to the Diploma. The Certificate III in Children's Services is an accredited training program that will prepare you for work as an assistant in Centre Based Care, Occasional Care, Pre-school Centres and Family Day Care and other Children's Services settings.

**Major studies:** Childhood development, Family and diversity, Health studies, Play and curriculum studies, Program planning.

**Prerequisites:** None

**Middle-band:** None

**Selection Mode:** CY12 : ATAR, Interview (All). See extra requirements for more information.

NY12 : Educational History including GPA, Interview (All), Literacy and Numeracy Test (All). See extra requirements for more information.

**Extra requirements:**

Interview (CY12-All, NY12-All) : Need to book by 28 September 2013 (late applicants by 12 November). Booking Contact : (03) 5327 8163

Literacy and Numeracy Test (NY12-All) : NY12 applicants must attend and complete a literacy and numeracy test on the date booked.

- Bachelor of Engineering (Civil): 4 years full time study

**About the course:** This program aims to produce creative professional engineers. You will gain extensive technical and design skills while at the same time developing a strong knowledge and appreciation of the environment in which you will work and the social, environmental and political aspects that will impact upon your work. A major focus of this program is applied design in a systems context.

The program will provide you with core basic analytical and communication skills common to all branches of engineering. From your second year of study you will commence in depth study of civil engineering including: Engineering Surveying, Fundamentals of Engineering, Geomechanics, Structural Design and Analysis, Transport Infrastructure, Surface water hydrology and Waste and wastewater treatment.

Graduates will find employment as private consultants, with contracting companies, mining and processing industries, or with government organisations. This program is eligible for UB's Regional Education Entry Program (REEP). Further information: www.ballarat.edu.au/programfinder

**Major studies:** Civil systems, Engineering (civil).

**Middle-band:** A study score of 20 in Maths: Specialist Mathematics equals 5 aggregate points. A study score of 20 in Maths: Mathematical Methods (CAS) equals 3 aggregate points. Satisfactory completion in Chemistry, any Information Technology or Physics equals 3 aggregate points per study. Overall maximum of 10 points.
Selection Mode: CY12 : ATAR and middle-band.

NY12 : Educational History including GPA, VTAC Personal Statement (All), Interview (Some). See extra requirements for more information.

SEAS is considered.

Extra requirements:
VTAC Personal Statement (NY12-All) : All NY12 applicants must complete the VTAC Personal Statement.
Interview (NY12-Some) : Details will be provided by telephone or mail to applicants required to attend.

- Bachelor of Engineering Technology (Civil): 3 years full time study

About the course: With a practical approach to learning, this program provides students with the best possible start in a career as an Engineering Technologist. Courses focus on engineering principles that are implemented to solve design problems including Engineering Surveying, Fundamentals of Engineering, Geomechanics, Structural Design and Analysis, Transport Infrastructure, Waste & Wastewater Infrastructure Design, Water and Drainage Infrastructure.

As a Civil Engineering graduate, you will develop technical skills together with a knowledge and appreciation of the environment, sustainable development, social and political aspects that impact upon the work of a civil engineer.

You will work in positions requiring expertise in planning, designing and construction; have the ability to cost and analyse project resources; conduct tests and research; and gather and analyse data to support decision making and reporting requirements. Further information: www.ballarat.edu.au/programfinder. This program is eligible for UB's Regional Education Entry Program (REEP).

Major studies: Civil systems, Engineering (civil).

Prerequisites: Units 3 and 4: a study score of at least 15 in one of Maths: Mathematical Methods (CAS) or Maths: Specialist Mathematics; and a study score of at least 15 in any English.

Middle-band: A study score of 20 in Maths: Specialist Mathematics equals 5 aggregate points. A study score of 20 in Maths: Mathematical Methods (CAS) equals 3 aggregate points. Satisfactory completion in Chemistry, any Information Technology or Physics equals 3 aggregate points per study. Overall maximum of 10 points.

Selection Mode: CY12 : ATAR and middle-band.

NY12 : Educational History including GPA, VTAC Personal Statement (All), Interview (Some). See extra requirements for more information.

SEAS is considered.

Extra requirements:
VTAC Personal Statement (NY12-All) : All NY12 applicants must complete the VTAC Personal Statement.
Interview (NY12-Some) : Details will be provided by telephone or mail to the applicants required to attend.

Commerce (HE)
Bachelor of Commerce: 3 years full time study

**About the course:** Provides graduates with a sound understanding of the principles, concepts and techniques applicable to business-commerce and the opportunity to gain a professional accounting qualification. Twenty-four fifteen credit point courses (or equivalent). These include eight foundation and skills courses, eight advanced commerce courses and eight elective courses. Areas of specialisation include - Accounting, Applied Economics and Finance, Business Law. Students are encouraged to take industry project, consulting or placement courses as part of the program. This program is eligible for UB's Regional Education Entry Program (REEP).

**Major studies:** Accounting, Economics, Finance, Law (business).

**Prerequisites:** Units 1 and 2: satisfactory completion in two units (any study combination) of any Mathematics.

**Middle-band:** A study score of 30 in two of any Mathematics equals 0.5 aggregate point per study. Satisfactory completion in Accounting, Business Management, Economics, Information Technology or Legal Studies equals 1 aggregate point per study. Overall maximum of 4 points.

**Selection Mode:** CY12 : ATAR and middle-band, Interview (All). See extra requirements for more information.

NY12 : Educational History including GPA, VTAC Personal Statement (All), Interview (Some). See extra requirements for more information.

SEAS is considered.

**Extra requirements:**

VTAC Personal Statement (NY12-All) : NY12 applicants must submit a VTAC Personal Statement.

Interview (CY12-All, NY12-Some) : Details will be provided by telephone or mail to the applicants required to attend an interview.
Bachelor of Commerce/Management: 4.5 years full time study

About the course: Students obtain a degree in both Management and Commerce. The course prepares students to be competitive in management and commerce environments. Thirty-six, fifteen credit point courses, of which sixteen must be taken from each of the two separate degree programs. Core requirements for each of the component degrees must be met (refer to the individual course entries). This program is eligible for UB's Regional Education Entry Program (REEP).

Prerequisites: Units 1 and 2: satisfactory completion in two units (any study combination) of any Mathematics.

Middle-band: A study score of 30 in two of any Mathematics equals 0.5 aggregate point per study. Satisfactory completion in Accounting, Business Management, Economics, Information Technology or Legal Studies equals 1 aggregate point per study. Overall maximum of 4 points.

Selection Mode: CY12 : ATAR and middle-band, Interview (All). See extra requirements for more information. 
NY12 : Educational History including GPA, VTAC Personal Statement (All), Interview (Some). See extra requirements for more information.
SEAS is considered.

Extra requirements:
VTAC Personal Statement (NY12-All) : NY12 applicants must submit a VTAC Personal Statement
Interview (CY12-All, NY12-Some) : Details will be provided by telephone or mail to the applicants required to attend an interview.

- Bachelor of Information Technology (Computer Games and Digital Media): 3 years full time study

**About the course:** This program provides you with the necessary skills, knowledge and values to be successful in a variety of computing areas, while specialising in computer games and digital media development. You will develop the strong theoretical and practical skills in games design and development essential to succeed in the dynamic field of computer games. You will graduate with very strong programming and multimedia/digital media design skills. The program embraces the significant impact of games technologies in other areas of industry, providing the flexibility for you to study areas outside of computer games. Dedicated games facilities ensure you are able to fully explore industry standard software and hardware.

Graduates will work in private business and government organisations. Possible career paths include games developer, games designer, games tester and quality assurance, interactive entertainment developer, 2D and 3D artist, project manager, consultant, software engineer, systems analyst, web developer, social media/community manager, interactive educational developer and programmer. This program is eligible for UB's Regional Education Entry Program (REEP). Further information: www.ballarat.edu.au/programfinder

**Major studies:** Animation (2D), Animation (3D), Animation (games), Animation software, Computer animation, Computer graphics, Computer programming, Computing, Databases, Digital animation (games), Games Development, Games programming, Games technology, Information technology, Interactive multimedia, Internet and World Wide Web, Mobile Application Development, Multimedia design, Multimedia technology, Project management, World Wide Web.

**Prerequisites:** Units 3 and 4: a study score of at least 15 in any English; and a study score of at least 20 in one of Maths: Mathematical Methods (CAS) or Maths: Specialist Mathematics.

**Middle-band:** A study score of 30 in any English, Maths: Mathematical Methods (CAS) or Maths: Specialist Mathematics equals 3 aggregate points per study. Satisfactory completion in any Information Technology equals 3 aggregate points per study. Overall maximum of 10 points.

**Selection Mode:** CY12 : ATAR and middle-band.

NY12 : Educational History including GPA, VTAC Personal Statement (All), Interview (Some). See extra requirements for more information.

SEAS is considered.

**Extra requirements:**

VTAC Personal Statement (NY12-All) : All NY12 applicants must complete the VTAC Personal Statement.

Interview (NY12-Some) : Details will be provided by telephone or mail to the applicants required to attend.

**Conservation and Land Management (VET)**

**University Of Ballarat**

SMB: 3700674754 (Fee type determined by provider) full-time Apply: Through VTAC main round

- Diploma of Conservation and Land Management: 2 years full time study

**About the course:** This practical and hands-on course provides students with a solid grounding in environmental management. Students gain specialised skills and knowledge, with an emphasis on technical and practical skills for field work. Graduates will have opportunities to work in the sectors of Land Management, Conservation Earthworks, Community Co-ordination and Facilitation, Indigenous Land Management, Lands, Parks and Wildlife, Natural Area Restoration and Management, Weed and Vertebrate Pest Management. Applicants should note, to successfully complete the course, they must undertake field work components of up to six weeks.

**Major studies:** Aquatic science, Coastal management, Conservation biology/ecology, Conservation management (revegetation), Ecological studies, Environmental management, Environmental science, Freshwater ecosystems, Land and water management, Mapping systems, Marine environment, Natural resource management, Park and wilderness management, Parks and recreation management, Parks and wildlife reserve management, Soil science,
Vegetation and wildlife management, Wildlife conservation and ecology.

**Prerequisites:** None

**Middle-band:** None

**Selection Mode:** CY12 : ATAR.

NY12 : Educational History including GPA, Interview (All). See extra requirements for more information.

**Extra requirements:**
Interview (NY12-All) : NY12 applicants must phone (03) 5335 3700 to arrange an interview. Interviews will be held in December. Applicants must complete and submit a Questionnaire at the interview. Copies of the completed questionnaire will be distributed to all nominated institutes.

| Feb | n/a | - | 5 | 5 |

- Certificate IV in Digital Media Technologies: 1 year full time study
- Diploma of Digital Media Technologies: 2 years full time study

**About the course:** These courses have been developed with industry assistance to provide a broad range of skills required for entry into the multimedia industry. They cover the areas of project management, all aspects of multimedia presentations including web, programming, multimedia management, quality and internet. Successful applicants should note that this is a Pathway program. You will be enrolled in the Certificate IV and, subject to satisfactory academic performance, will progress to the Diploma. At the completion of both the Certificate IV and the Diploma students are eligible for 18 months credit into the University of Ballarat's Bachelor of Information Technology (Computer Games and Digital Media)

**Major studies:** Animation (2D), Animation (3D), Database integration, Digital image processing, Digital imaging, Digital video, Digital video camera techniques, Games development, Graphic Design (2D), Interactive media, Interface design, Mobile computing and applications, Multimedia and internet technology, Multimedia authoring, Multimedia communications, Multimedia design, Multimedia development, Multimedia imaging, Multimedia production, Multimedia production and development, Multimedia programming, Multimedia technology, Network technology, Project management, Sound, Video production, Website development.

**Prerequisites:** None

**Middle-band:** None

**Selection Mode:** CY12 : ATAR.

NY12 : Interview (All). See extra requirements for more information.

**Extra requirements:**
Interview (NY12-All) : Applicants must telephone (03) 5327 8197 to book, by 27 September (Late applicants by November).

---

**Education (Early Childhood) (HE)**

**University Of Ballarat**
Bachelor of Education (Early Childhood): 4 years full time study

About the course: The 4-year full-time program aims to prepare teachers to work confidently and competently with children in early childhood and primary school settings which may include: primary (Prep to 6); kindergarten; pre-schools; occasional care; out of school hours care and long day care centres. The program is delivered with a complement of 32 compulsory courses which include professional teaching and learning experience integrated throughout the program.

Major studies: Childhood development, Early childhood education, Early childhood studies, Education, Teaching (early childhood), Teaching (primary), Teaching and learning.

Prerequisites: Units 1 and 2: satisfactory completion in two units (any study combination) of General Mathematics or Mathematical Methods; and Units 3 and 4: a study score of at least 25 in any English.

Middle-band: A study score of 35 in any English or any Mathematics equals 1 aggregate point per study. Overall maximum of 3 points.

Selection Mode: CY12 : ATAR and middle-band.
NY12 : Educational History including GPA, VTAC Personal Statement (All), Literacy and numeracy test (Some), other. See extra requirements for more information.
SEAS is considered.

Extra requirements:
VTAC Personal Statement (NY12-All) : All NY12 applicants must complete the VTAC Personal Statement.
Literacy and numeracy test (NY12-Some) : NY12 applicants may be required to sit a literacy and/or numeracy test to demonstrate equivalent VCE Mathematics and English standards.
Successful applicants are required to apply for a Police Check and WWCC (Working with Children Check) before commencing their program. A copy of the Police Check and WWCC card must be supplied to the University prior to completing Professional Experience placements.
Bachelor of Education: 4 years full time study

About the course: The four year program will prepare you as a professional educator providing a qualification to teach either primary (P-6) or primary and secondary schools (P-10). NB: P-10 is only offered at the Mt Helen Campus. The program is comprised of Education Studies, Curriculum Studies, Discipline Studies and Professional Experience. Major studies may vary between campuses refer program finder at www.ballarat.edu.au/programfinder

Prerequisites: Units 1 and 2: satisfactory completion in two units (any study combination) of General Mathematics or Mathematical Methods; and Units 3 and 4: a study score of at least 25 in any English.

Middle-band: A study score of 35 in any English or any Mathematics equals 1 aggregate point per study. Overall maximum of 3 points.

Selection Mode: CY12 : ATAR and middle-band.
NY12 : Educational History including GPA, VTAC Personal Statement (All), Literacy and numeracy tests (Some). See extra requirements for more information.
SEAS is considered.

Extra requirements:
VTAC Personal Statement (NY12-All) : NY12 applicants must submit a VTAC Personal Statement.
Literacy and numeracy tests (NY12-Some) : NY12 applicants may be required to sit a literacy and/or numeracy test to demonstrate equivalent VCE Mathematics and English standards.

All successful applicants are required to apply for a WWCC (Working with Children Check) before commencing their program. A copy of the WWCC card must be supplied tothe University prior to completing Professional Experience placements.

Mount Helen: 3700537253 (IFP) full-time  Apply: Through VTAC main round
Diploma of Engineering (Technical): 1 year full time study

About the course: Develops technician level knowledge and skills in the mechanical engineering / engineering drafting field. Typically, mechanical engineering has the widest application of the engineering fields and has increasingly been complimented with computer software tool for design and analysis. On completion, graduates will be able to practically apply their skills in a wide range of contexts within the mechanical engineering industry. Examples include: mechanical systems, mechanical design, and 3D solid modelling. This program provides a credit pathway of up to one year credit toward the University of Ballarat, Bachelor of Engineering Degree, with the successful completion of additional mathematics and engineering science studies.

Prerequisites: None

Middle-band: None

Selection Mode: CY12 : ATAR.
NY12 : Educational History including GPA, Interview (All). See extra requirements for more information.

Extra requirements:
Interview (NY12-All) : NY12 applicants must phone (03) 5327 8117 by Friday 27 September (late applicants by November) to arrange an interview. Interviews will be held in November/December (late applicants in December).

- Bachelor of Applied Science (Environmental Management): 3 years full time study

About the course: This program has a broad scope that prepares you for employment in environmental and natural resource management. You will gain a strong background in the biological, climate, water and earth sciences, as well as a range of technical and applied skills relevant to environmental work. The course has an emphasis on Australian examples including flora, fauna, ecology, landscape processes, environmental research, survey and assessment procedures and legislation. You will build a strong knowledge and understanding of the principles and practices used in the management, conservation and rehabilitation of natural ecosystems. The course has a strong "hands on" component with visits to relevant industries and field trips to the desert and coastal forests. In the second and third years of the degree elective courses such as Mine Rehabilitation, Fire Ecology and Management and Land and Water Contamination allow students to specialise in areas of particular interest. Graduates are highly employable with past students gaining jobs in a range of industries including Government departments (e.g. Department of Primary Industries, Department of Sustainability and Environment, Parks Victoria, Catchment Management Authorities) community groups (e.g. Landcare, environment networks), or in private industry (e.g. environmental consultancies and the mining industry). Many graduates have also gone on to successfully complete higher degree research (honours, Masters or PhD). If you are interested in having a say in the future of our environment and want to study for a degree that is stimulating and will get you a job, this is the course for you. This program is eligible for UB's Regional Education Entry Program (REEP). Further information: www.ballarat.edu.au/programfinder

**Prerequisites:** Units 3 and 4: a study score of at least 15 in any Mathematics or 15 in any Science or 15 in Geography; and a study score of at least 15 in any English.

**Middle-band:** A study score of 20 in Maths: Specialist Mathematics equals 5 aggregate points. A study score of 20 in Maths: Mathematical Methods (CAS) equals 3 aggregate points. Satisfactory completion in Biology, Chemistry, Geography, any Information Technology or Physics equals 3 aggregate points per study. Overall maximum of 10 points.

**Selection Mode:** CY12 : ATAR and middle-band.

NY12 : Educational History including GPA, VTAC Personal Statement (All), Interview (Some). See extra requirements for more information.

SEAS is considered.

**Extra requirements:**
VTAC Personal Statement (NY12-All) : All NY12 applicants must complete the VTAC Personal Statement.

Interview (NY12-Some) : Details will be provided by telephone or mail to applicants required to attend.

- Bachelor of Exercise and Sport Science: 3 years full time study

**About the course:** This program has a strong orientation towards providing vocationally relevant knowledge and skills, encouraging a blend of theory and practice. It includes sub-discipline areas that comprise Exercise and Sport Science, along with the skills to plan, implement and evaluate programs to aid in the development of athlete training, as well as the general population. You will gain knowledge for careers in a range of areas such as sport sciences, community or workplace health promotion, rehabilitation programming and exercise programming. Graduate employment opportunities exist in health & fitness centres, institutes of sport, sporting clubs & local government. Students may select a minor field of study in exercise rehabilitation, sports coaching or health studies. In total, you will be required to complete a minimum of 300 hours practical experience during your three-year program. Placements can be undertaken on an ongoing part-time basis or as a full-time block placement over 2-3 weeks. Throughout the three years you will be encouraged and expected to undertake Professional Practice in a variety of areas and organisations to enable you to identify and develop the appropriate skills and competencies required to work in the different areas of the exercise and sports science industry. The program also provides a pathway for further study leading to accreditation as a clinical exercise physiologist. It is also possible to select a minor stream that will enable entry into a Master of Teaching.

**Major studies:** Aquatic Studies & Exercise Science, Exercise rehabilitation, Exercise science, Health, Health Promotion, Human movement, Rehabilitation Studies, Sport, Sports (coaching), Sports (science).

**Prerequisites:** Units 1 and 2: satisfactory completion in two units (any study combination) of General Mathematics or Mathematical Methods; and Units 3 and 4: a study score of at least 20 in any English.
Middle-band: A study score of 40 in Biology, any English, Health And Human Development, any Mathematics, Outdoor And Environmental Studies, Physical Education or Psychology equals 1 aggregate point per study. Overall maximum of 3 points.

Selection Mode: CY12 : ATAR and middle-band, Supplementary form (All). See extra requirements for more information.
NY12 : Educational History including GPA, Supplementary form (All). See extra requirements for more information.
SEAS is considered.

Extra requirements:
Supplementary form (CY12-All, NY12-All) : Applicants must complete and submit an Additional Details form available from www.ballarat.edu.au/vtac-requirements.

- Bachelor of Visual Arts: 3 years full time study

About the course: The Bachelor of Visual Arts (Fine Arts) integrates studies in a range of specialist studio disciplines and Art Theory. During the first year students are introduced to a range of activities focused on providing a breadth of experience and skills building undertaking courses in 2 and Multi-dimensional studios as well as Drawing, Digital Art and the History and Theory of Art and Design. In second year further in-depth studies are undertaken in Drawing, Digital Art and the History and Theory of Art and Design culminating in self-initiating projects and in the final year, a self-directed project incorporating research and contemporary art practice.

Major studies: Fine Arts.

Prerequisites: None

Middle-band: None

Selection Mode: CY12 : ATAR, Supplementary form (All), Folio (All), Interview (All). See extra requirements for more information.
NY12 : Supplementary form (All), Folio (All), Interview (All). See extra requirements for more information.
SEAS is considered.

Extra requirements:
Supplementary form (CY12-All, NY12-All) : Applicants must complete and submit an Application for Interview Proforma (www.ballarat.edu.au/apply) by Friday 18 October. Applicants can also request the form by telephoning (03) 5327 8605. Late applicants must telephone or email info@ballarat.edu.au before applying.
Folio (CY12-All, NY12-All)
Interview (CY12-All, NY12-All) : Details will be sent to applicants in early November of requirements to attend interview and folio presentation in late November/early December.

Food and Nutritional Sciences (HE)
Bachelor of Food and Nutritional Sciences: 3 years full time study

About the course: Studies cover the food continuum from the raw product to the consumer, including food processing, product development and marketing, and quality assurance. There is a focus on the nutritional implications of food composition and the importance of nutrition to human health, as well as sociological and cultural issues associated with food. The skills covered ensure a thorough understanding of not only how to produce quality foods that are safe and nutritious, but that also taste good. The food industry is currently short of qualified professionals with demand clearly exceeding the number of graduates in Victoria and Australia. The industry is in need of Food and Nutritional Scientists to manage operations, develop new and better products/processes and improve the efficiency and quality of the food industry. Career opportunities include Product management, Community nutritionist, Laboratory analysis, Laboratory management, Quality assurance, Quality control, Product development, Research and development, Food policy officer; and Marketing and technical sales.

Prerequisites: Units 1 and 2: satisfactory completion in two units (any study combination) of any Mathematics or Units 3 and 4: any Mathematics.

Middle-band: A study score of 20 in Biology, Chemistry, Maths: Mathematical Methods (CAS) or Physics equals 3 aggregate points per study.

Selection Mode: CY12: ATAR and middle-band.
NY12: Educational History including GPA, VTAC Personal Statement (All). See extra requirements for more information.
SEAS is considered.

Extra requirements:
VTAC Personal Statement (NY12-All): All NY12 applicants must complete the VTAC Personal Statement.

Certificate IV in Food Science and Technology: 1 year full time study

About the course: Food Science and Technology provides an initial qualification in food technology for leading hands, supervisors, technical assistants (including quality control technicians), and food operators with relevant experience. It offers people employed in the industry the opportunity to improve job satisfaction, gain a formal
qualification and improve career opportunities. It also offers people seeking employment in the food technology industry a stronger base for entry. Students who successfully complete the course can look forward to a rewarding career as a Food Technologist. Food Technologists work in research and development, quality control, laboratory testing, production supervision, technical services, marketing and management within the food manufacturing industry; places manufacturing food on a large scale, e.g. dairies, canneries, abattoirs, wineries, breweries, manufacturers of confectionery, baked goods, frozen foods, dehydrated foods, cereals, poultry and fish.

Major studies: Confectionery technology, Fermentation process, Food additives, Food chemistry, Food packaging, Food spoilage and control, Fundamentals of nutrition, Hygiene and sanitation, Microbiological techniques, Occupational health and safety, Preservation methods, Quality management, Workplace relationships.

Prerequisites: None

Middle-band: None

Selection Mode: CY12 : ATAR, Interview (All). See extra requirements for more information.
NY12 : Educational History including GPA, Interview (All). See extra requirements for more information.

Extra requirements:
Interview (CY12-All, NY12-All) : All applicants must phone (03) 5335 3700 by the end of October (late applicants by end of November) to book an interview.

Mount Helen: 3700537793 (IFP) full-time  Apply: Through VTAC main round

- Bachelor of Applied Science (Geology): 3 years full time study

About the course: This program provides students with the specialised scientific skills required to expand and apply knowledge of geology in their chosen career. Content is wide-ranging but allows students to specialise in Exploration Geology or Environmental Geology. Students will engage in a mixture of lectures, field excursions and laboratory practicals, with the aim of providing a fundamental understanding of the science of geology and practical career skills.

Graduates of the Bachelor of Applied Science program are widely recognised by employing agencies as having excellent applied skills in their chosen field. Graduates of the Geology program have found rewarding careers in the mineral industry, government geoscience organisations and the energy sector, and as engineering and environmental geologists. Further information: www.ballarat.edu.au/programfinder

Major studies: Chemistry, Fieldwork, Geology, Geoscience, Science.

Prerequisites: Units 3 and 4: a study score of at least 15 in any Mathematics or 15 in any Science; and a study score of at least 15 in any English.

Middle-band: A study score of 20 in Maths: Specialist Mathematics equals 5 aggregate points. A study score of 20 in Maths: Mathematical Methods (CAS) equals 3 aggregate points. Satisfactory completion in Biology, Chemistry, Geography, any Information Technology or Physics equals 3 aggregate points per study. Overall maximum of 10 points.

Selection Mode: CY12 : ATAR and middle-band.
NY12 : Educational History including GPA, VTAC Personal Statement (All), Interview (Some). See extra requirements for more information.
SEAS is considered.

Extra requirements:
VTAC Personal Statement (NY12-All) : All NY12 applicants must complete the VTAC Personal Statement.
Interview (NY12-Some) : Details will be provided by telephone or mail to the applicants required to attend.

Graphic Design (VET)

University Of Ballarat
Camp Street:3700274254 (Fee type determined by provider) full-time Apply: Through VTAC main round

- Diploma of Graphic Design: 2 years full time study

About the course: Development of specific knowledge and skills required to undertake work as a graphic designer. The qualification includes units of competency addressing the creative, technical skills and knowledge required by participants for the contemporary design industry. The delivery of the units in this qualification are structured under Design Process, Illustration for Industry, Drawing, Pre-Press, Typography, Photography/Digital Imaging, Design Research and Analysis. Units are delivered primarily in a studio environment similar to what would be experienced in a professional design studio. Students have access to a wide range of sophisticated facilities including design studios, photography studio, drawing studio and digital imaging equipment. The Graphic Design program has close connections with the Graphic Design industry in this region.

Major studies: Communication, Corporate communication, Design business management skills, Design process, Design solutions, Design theory, Digital design techniques and software skills, Drawing, Illustration, Multimedia, Packaging design-3D, Photography, Practical placement, Pre-press, Printing processes, Professional practice, Project management, Publication design, Typography, Web design.

Prerequisites: None

Middle-band: None

Selection Mode: CY12 : ATAR, Supplementary form (All), Interview (All). See extra requirements for more information.
NY12 : Supplementary form (All), Interview (All). See extra requirements for more information.

Extra requirements:
Supplementary form (CY12-All, NY12-All) : Applicants must complete and submit a Diploma of Graphic Design Application Proforma found at (www.ballarat.edu.au/apply) or by phoning (03) 53278605, by the end of October.
Interview (CY12-All, NY12-All) : Applicants will be notified of the date/time of the interview/folio presentation on receipt of the application. Applicants must attend in November (Late applicants by end-January).

- Bachelor of Visual Arts: 3 years full time study
About the course: This program aims to produce graduates who are independent, creative, flexible thinkers supported by the technical skills to express their design concepts, style and philosophies.

Students complete a range of subjects throughout the 3 years including Photography, Drawing, Printmaking and Art History/Theory in addition to Graphic Design and Multimedia. Emphasis is placed on experimentation, innovation, expression, creativity and resourcefulness.

Staff and Graduates have been recognised for their excellence with both national and international awards.

Graduates can also enter other fields such as teaching, however further studies are required.

**Major studies:** Graphic design, Multimedia.

**Prerequisites:** None

**Middle-band:** None

**Selection Mode:** CY12 : ATAR, Supplementary form (All), Folio (All), Interview (All). See extra requirements for more information.

NY12 : Supplementary form (All), Folio (All), Interview (All). See extra requirements for more information.

SEAS is considered.

**Extra requirements:**

- Supplementary form (CY12-All, NY12-All): Applicants must complete and submit an Application for Interview Proforma (www.ballarat.edu.au/apply) by Friday 18 October. Applicants can also request the form by telephoning (03) 5327 8605. Late applicants must telephone or email info@ballarat.edu.au before applying.

- Folio (CY12-All, NY12-All)

- Interview (CY12-All, NY12-All): Details will be sent to applicants in early November of requirements to attend interview and folio presentation in late November/early December

**Health and Physical Education (HE)**

**University Of Ballarat**

- Mount Helen: 3700510011 (CSP) full-time/part-time
  - Apply: Through VTAC main round

- Mount Helen: 3700510013 (IFP) full-time
  - Apply: Through VTAC main round

- Bachelor of Health and Physical Education: 4 years full time study

**About the course:** Preparing graduates for a career as a secondary school Health and Physical Education teacher, you will concurrently study and practice the sub-disciplines of human movement & exercise science, health, professional studies in education and discipline studies in another teaching method during this four-year program, including; English, History, Mathematics, Psychology or Science. On graduating you will be equipped to teach PE, Health and another method in a secondary school and eligible for registration with the Victorian Institute of Teaching. (VIT). You may elect to teach throughout Victoria, Australia and overseas in a range of educational settings. Through an emphasis on practicum placements & 'real life' learning experiences, you will conclude your studies 'job-ready'. The program focuses on practical participation and linking theory and practice. It has a significant Professional Experience component including a minimum of 80 days in school settings and numerous additional teaching experiences in diverse educational settings. This program is subject to internal approval and is currently undergoing and accreditation process with VIT. It is anticipated this program will replace the Bachelor of Education (Physical Education) in 2014.

**Prerequisites:** Units 1 and 2: satisfactory completion in one of General Mathematics or Mathematical Methods; and Units 3 and 4: a study score of at least 25 in any English.

**Middle-band:** A study score of 40 in Biology, Health And Human Development, Outdoor And Environmental Studies or Physical Education equals 1 aggregate point per study. Overall maximum of 3 points.
**Health Sciences (HE)**

- Bachelor of Health Sciences: 3 years full time study

**About the course:** This flexible and multidisciplinary program aims to develop graduates with the knowledge, skills and ethics to be innovative and holistic professionals within the Health Sciences sector. It will give you the opportunity to choose what you want to study, to best suit your interests and career goals. Career pathways include health promotion, community health, allied health industries, health and sport, health policy development, psychology, food science and research. You will study nine Health Sciences core courses, with major streams studies available in Food & Nutrition, Biomedical Science (Health & Disease), Biomedical Science (Molecular & Cell Biology), Nursing or Psychology (the psychology major stream is provisionally recognised by the Australian Psychology Accreditation Council (APAC). Students who successfully complete this stream may be eligible to apply for fourth-year psychology programs). Five elective courses allow you to branch out into a variety of other Health Sciences study areas, or gives you the opportunity to study courses from other areas at the University of Ballarat, including Business, Arts & Humanities, Science, IT and Sport. This program also offers preparation for postgraduate clinical program in medicine, allied health, dietetics and other health disciplines. The exception to this general program structure is the Psychology major stream. This is made up of 10 core Health Sciences courses, 7 major stream courses and 7 elective courses.

**Major studies:** Biomedical Science (Health and Disease), Biomedical Science (Molecular and Cell Biology), Food and Nutrition, Nursing, Psychology.

**Prerequisites:** Units 3 and 4: a study score of at least 20 in any English; and a study score of at least 20 in one of Biology, Chemistry, any Mathematics, Physics or Psychology.

**Middle-band:** None

**Selection Mode:** CY12: ATAR.

NY12: Educational History including GPA, VTAC Personal Statement (All). See extra requirements for more information.

SEAS is considered.

**Extra requirements:**

VTAC Personal Statement (NY12-All): All NY12 applicants must complete the VTAC Personal Statement.

- Bachelor of Information Technology: 3 years full time study

**About the course:** This program focuses on the fundamental concepts which will enable you to become a skilled IT professional. With a balance between specific knowledge of particular development tools (languages, operating systems, development environments) and general lifelong learning skills, completion of this program will ensure that you will remain at the forefront of this vibrant and rapidly developing sector.

Your studies will cover the fundamentals of information technology, such as programming, databases, internet technologies, software engineering, networks, information security and project management. Core courses are complemented by electives which will allow you flexibility to add either breadth or depth to your studies - electives may be taken from both within the IT area, enabling focus in areas including networking, programming, multimedia design and development, or within an area outside IT complementary to your studies, such as management, design, humanities, science, or mathematics. This program is eligible for UB's Regional Education Entry Program (REEP). Further information: [www.ballarat.edu.au/programfinder](http://www.ballarat.edu.au/programfinder)

**Major studies:** Computer applications, Computer programming, Computing, Computing (skills), Database management, Databases, Games programming, Information technology, Information technology management, Interactive multimedia, Internet and World Wide Web, Internet technology, Java programming, Multimedia and internet technology, Networking, Project management, Software development, Software engineering, World Wide Web.

**Prerequisites:** Units 1 and 2: satisfactory completion in two units (any study combination) of General Mathematics or Mathematical Methods or Units 3 and 4: a study score of at least 10 in any Mathematics; and a study score of at least 15 in any English.

**Middle-band:** A study score of 25 in Maths: Mathematical Methods (CAS) or Maths: Specialist Mathematics equals 3 aggregate points per study. A study score of 30 in any English equals 3 aggregate points per study. Satisfactory completion in any Business, any Information Technology, Legal Studies, Maths: Further Mathematics or any Science equals 3 aggregate points per study. Overall maximum of 10 points.

**Selection Mode:** CY12: ATAR and middle-band.

NY12: Educational History including GPA, VTAC Personal Statement (All), Interview (Some). See extra requirements for more information.

SEAS is considered.
Extra requirements:
VTAC Personal Statement (NY12-All) : All NY12 applicants must complete the VTAC Personal Statement.
Interview (NY12-Some) : Details will be provided by telephone or mail to applicants required to attend.

- Certificate IV in Information Technology: 1 year full time study
- Diploma of Information Technology: 2 years full time study

About the course: Provides a breadth of knowledge and skills in the information technology industry as well as the opportunity for students to specialise and attain a high level of expertise in specific areas. Successful applicants should note that this is a Pathway Program. You will be enrolled in the Certificate IV and, subject to satisfactory academic performance, will progress to the Diploma. At the completion of both the Certificate IV and the two year Diploma, students are eligible for 18 months credit into the University of Ballarat’s Bachelor of Information Technology.

Major studies: Animation (2D), Computer hardware, Data warehouse concepts and applications, Database connectivity, Database design and implementation, Database design and management, Databases, Databases (advanced programming), E-business, Information systems management, Information technology, Interface design, IT (client support), Multimedia, Multimedia authoring, Multimedia production and development, Network management and network systems, Networking, Object-oriented design, Object-oriented programming, Programming, Programming (.NET), Programming (C++), Project management, Software applications, Systems and software engineering, Systems design and development, Systems software, Systems testing, Technical support, Web applications programming, Web development.

Prerequisites: None

Middle-band: None

Selection Mode: CY12 : ATAR.
NY12 : Interview (All). See extra requirements for more information.

Extra requirements:
Interview (NY12-All) : Applicants must telephone (03) 5327 8197 to book, by 1 October (Late applicants by November).

Associate Degree in Information Technology: 2 years full time study

About the course: Designed with input from major IT industry partners, the focus of this program is on the fundamental concepts which produce skilled IT professionals. It examines both the organisational and technological issues needed for the analysis and design of information systems and provides an opportunity of branching into either the IT or Business streams. It also facilitates the opportunity of continuous learning; graduates are accepted into the Bachelor of Information Technology or Bachelor of Information Technology (Business Systems) with two years advanced standing. Students study sixteen subjects over two years. Ten core subjects cover the fundamentals of information technology, such as design techniques for multimedia and the internet, programming, databases, networks and project management. Six elective subjects enable students to tailor the degree to their own areas of interest. Alternatively, more business courses can easily be taken in order to pursue a more commercial stream. Further information: www.ballarat.edu.au/programfinder

Prerequisites: Units 1 and 2: satisfactory completion in two units (any study combination) of General Mathematics or Mathematical Methods or Units 3 and 4: a study score of at least 10 in any Mathematics; and a study score of at least 15 in any English.

Middle-band: A study score of 25 in Maths: Mathematical Methods (CAS) or Maths: Specialist Mathematics equals 3 aggregate points per study. A study score of 30 in any English equals 3 aggregate points per study. Satisfactory completion in any Business, any Information Technology, Legal Studies, Maths: Further Mathematics or any Science equals 3 aggregate points per study. Overall maximum of 10 points.

NY12 : Educational History including GPA, VTAC Personal Statement (All), Interview (Some). See extra requirements for more information.
SEAS is considered.

Extra requirements:
VTAC Personal Statement (NY12-All) : All NY12 applicants must complete the VTAC Personal Statement.
Interview (NY12-Some) : Details will be provided by telephone or mail to the applicants required to attend.

Information Technology (Professional Practice) (HE)
Bachelor of Information Technology (Professional Practice): 4 years full time study

About the course: This program was developed in conjunction with IBM to produce graduates with an appreciation of the culture of work as an IT professional. You will combine university studies and practical experience with IBM and possibly other corporate sponsors in an 'Earn As You Learn' program.

Courses cover fundamentals of IT including WWW technology, design techniques for multimedia and interactive media, Java, mainframes, software engineering, networks and project work. Industry awareness and industry application courses are delivered in association with IBM.

From year two, your time will be divided between study and industry experience with IBM. Students receive a scholarship of more than $8,500 in both second and third year. Students who successfully complete three years of the program will be employed by IBM or another major corporation for the first half of their fourth year, and upon meeting the sponsor or IBM's recruitment requirements, will be offered a graduate position at their sponsor corporation or IBM on completion of their studies. This program is eligible for UB's Regional Education Entry Program (REEP). Further information: www.ballarat.edu.au/programfinder

Major studies: Computer applications, Computer programming, Computing, Computing (skills), Database management, Databases, Games programming, Industrial collaboration and experience, Information technology, Information technology management, Interactive multimedia, Internet and World Wide Web, Internet technology, Java programming, Multimedia and internet technology, Networking, Practical placement, Professional practice, Project management, Software engineering.

Prerequisites: Units 1 and 2: satisfactory completion in two units (any study combination) of General Mathematics or Mathematical Methods or Units 3 and 4: a study score of at least 10 in any Mathematics; and a study score of at least 15 in any English.

Middle-band: A study score of 25 in Maths: Mathematical Methods (CAS) or Maths: Specialist Mathematics equals 3 aggregate points per study. A study score of 30 in any English equals 3 aggregate points per study. Satisfactory completion in any Business, any Information Technology, Legal Studies, Maths: Further Mathematics or any Science equals 3 aggregate points per study. Overall maximum of 10 points.

Selection Mode: CY12 : ATAR and middle-band, Interview (All). See extra requirements for more information.

NY12 : Educational History including GPA, VTAC Personal Statement (All), Interview (All). See extra requirements for more information.

SEAS is considered.

Extra requirements:

VTAC Personal Statement (NY12-All) : All NY12 applicants must complete the VTAC Personal Statement.

Interview (CY12-All, NY12-All) : Details will be sent to applicants in early-November. Applicants must attend in late-November. Applicants adding this program at Change of Preference must contact the School of Science Information Technology and Engineering to request an interview.

Applicants must have the right to work full time in Australia in order to complete the work experience component.

- Bachelor of Arts (International Studies): 3 years full time study
About the course: Could you see yourself working on government policy at a domestic or international level? Do you want to better appreciate cross-cultural matters? Would you like to understand international relations and globalisation?

The Bachelor of Arts (International Studies) at the University of Ballarat is an in-depth and vibrant degree program. It is a pathway for careers in both local and international government and non-government organisations. It features studies on Asia, globalisation and working in cross-cultural environments, and examines how geographical, cultural, historical, ideological and social factors impact internationally.

Prerequisites: None.

Middle-band: None

Selection Mode: CY12 : ATAR, Interview (Some). See extra requirements for more information. NY12 : Educational History including GPA, Interview (Some). See extra requirements for more information. SEAS is considered.

Extra requirements:
Interview (CY12-Some, NY12-Some) : Details will be sent to applicants in December 2013. Interviews will be held in December/January. Late applicants after 6 December 2013 must telephone 5327 9000.

**Live Production, Theatre and Events (VET)**

**University Of Ballarat**

SMB: 3700674094 (Fee type determined by provider) full-time Apply: Through VTAC main round

- Advanced Diploma of Live Production, Theatre and Events (Technical Production): 2 years full time study

About the course: Prepares students to work as technical operators in specialist areas in a range of live entertainment fields such as theatre, music, corporate & major events. This course is for people committed to becoming versatile and skilled workers in the entertainment industry. In Year1 you will learn how to operate & supervise the use of a wide range of sophisticated lighting, sound & vision equipment; Year2 students develop these skills while learning how to manage a range of events. Students have access to fully equipped theatres as well as digital and analogue sound studios, offline lighting editors, vision mixers, computers and full production facilities. Teaching and learning takes place during live performance events with 60-100 artists per year & operational & management positions are taken by students. Students are rotated through lighting, sound, vision across the year. Year2 students manage teams and take responsibility for Production Management, OH&S, budgets, design & operation.

Major studies: Audio and video production, First aid, Lighting, Lighting and video production, Live Audio, Multimedia, Production management, Sound, Sound recording and production, Stage management, Staging, Technical drawing, Theatre (theatre technology), Vision systems.

Prerequisites: None

Middle-band: None

Selection Mode: CY12 : ATAR, Supplementary form (All), Interview (All). See extra requirements for more information. NY12 : Supplementary form (All), Interview (All). See extra requirements for more information.

Extra requirements:
Supplementary form (CY12-All, NY12-All) : Applicants must complete and submit the 2014 Performing Arts application form, found at www.ballarat.edu.au/apply or on request by phoning (03) 5327 8606, by the end of October.

Interview (CY12-All, NY12-All) : Applicants will be notified of the date and time of the interview which will take place in the last week of November or Early December. (Late applicants may apply and be interviewed in January).

- Bachelor of Management: 3 years full time study

**About the course:** Provides graduates with a sound understanding of the management of organisations in all sectors, and prepares them for careers at all levels of Management, Human Resources Management and Leadership. Twenty-four fifteen credit point courses (or equivalent). These include eight foundation and skills courses, eight advanced management courses and eight elective courses. Areas of specialisation: Human Resource Management, Organisations and Leadership. Other major areas of study include Tourism. Students are encouraged to take industry project, consulting or placement courses as part of the program. This program is eligible for UB's Regional Education Entry Program (REEP).

**Major studies:** Human resource management, Management, Marketing, Organisational Leadership, Tourism.

**Prerequisites:** Units 1 and 2: satisfactory completion in two units (any study combination) of any Mathematics.

**Middle-band:** A study score of 30 in two of any Mathematics equals 0.5 aggregate point per study. Satisfactory completion in Business Management, Economics or Legal Studies equals 1 aggregate point per study. Overall maximum of 4 points.

**Selection Mode:** CY12: ATAR and middle-band, Interview (All). See extra requirements for more information.

NY12: Educational History including GPA, VTAC Personal Statement (All), Interview (Some). See extra requirements for more information.

SEAS is considered.

**Extra requirements:**

VTAC Personal Statement (NY12-All): NY12 applicants must submit a VTAC Personal Statement.

Interview (CY12-All, NY12-Some): Details will be provided by telephone or mail to the applicants required to attend an interview.

---

About the course: This program provides a strong foundation in the basic principles of mathematics. It develops skills highly valued by employers including strong numeracy, analysis and critical evaluation skills, logical thinking, report writing and communications skills.
Graduates of this program find work in a range of industries, including science, engineering, technology, business, industry and commerce. Recent advances in medical imaging, finance and internet security, for example, also rely on advanced mathematical methods.

There is a high demand for mathematics graduates in engineering and manufacturing industries, planning and logistics, banking, medicine, commerce, forecasting, and teaching.

Graduates of this program could be engaged in research, computing, modelling, finance, project management, consultancy, etc.

This program is also well suited to those who wish to go on to become mathematics and IT teachers at the secondary school level. This program is eligible for UB's Regional Education Entry Program (REEP). Further information: www.ballarat.edu.au/programfinder

Bachelor of Mathematical Sciences/Education: 4 years full-time study

About the course: The Bachelor of Mathematical Sciences/ Bachelor of Education Program provides a professional qualification for teaching in secondary school from middle years and VCE level as a Mathematics and Information Technology or Science Teacher. The Bachelor of Mathematical Sciences component of the program will provide students with a strong foundation in the basic principles and techniques of mathematics and an understanding of how mathematics is applied in the real world. The Bachelor of Education component is aimed at professional educators in the areas of Mathematics and Information Technology or Physics in a number of settings such as: regional and rural and metropolitan schools. The joint degree provides a strong balance of professional studies in education and practicum studies. Education Courses: Introduction to Teaching and Learning, Young People and Learning Environments, Designing for Learning, Transition to Professional Practice, Perspectives on Curriculum and Education, Global Perspectives, Assessment Data and Reporting, Collaborative Research and Evaluation and Major and Minor curriculum courses. Practical experience: A major learning experience for students is the supervised teaching practicum where students are required to teach a minimum of 80 days in secondary schools.

Prerequisites: Units 3 and 4; a study score of at least 25 in any English; and a study score of at least 25 in Maths: Mathematical Methods (CAS).

Middle-band: A study score of 30 in any English, Maths: Mathematical Methods (CAS) or Maths: Specialist Mathematics equals 3 aggregate points per study. Overall maximum of 6 points.

Selection Mode: CY12 : ATAR and middle-band.
NY12 : Educational History including GPA, VTAC Personal Statement (All). See extra requirements for more information.
SEAS is considered.

Extra requirements:
VTAC Personal Statement (NY12-All) : NY12 applicants must submit a VTAC Personal Statement.

All successful applicants are required to apply for a WWCC (Working with Children Check) before commencing their program. A copy of the WWCC card must be supplied to the University prior to completing Professional Experience placements. Applicants may be required to sit a literacy and/or numeracy test to demonstrate equivalent VCE Mathematics and English standards.

Mechanical Engineering (HE)

University Of Ballarat

Bachelor of Engineering (Mechanical): 4 years full-time study

About the course: This program aims to produce creative professional engineers. You will gain extensive technical and design skills, while at the same time developing a strong knowledge and appreciation of the environment in which you will work and the social, environmental and political aspects that will impact upon your work. A major focus of this program is applied design in a systems context.
The program will provide you with a core of basic analytical and communication skills, common to all branches of engineering. From your second year of study you will commence in depth study of mechanical engineering including: thermal engineering, manufacturing methods and systems, machinery design, control and vibration.

You will gain employment in a vast range of industries including: machine design, power supply, transport infrastructure, renewable energy, robotic applications, automotive, quality and process control, and manufacturing systems operation.

Further information: www.ballarat.edu.au/programfinder

**Major studies:** Engineering (mechanical), Mechanical engineering.

**Prerequisites:** Units 3 and 4: a study score of at least 15 in one of Maths: Mathematical Methods (CAS) or Maths: Specialist Mathematics; and a study score of at least 15 in any English.

**Middle-band:** A study score of 20 in Maths: Specialist Mathematics equals 5 aggregate points. A study score of 20 in Maths: Mathematical Methods (CAS) equals 3 aggregate points. Satisfactory completion in Chemistry, any Information Technology or Physics equals 3 aggregate points per study. Overall maximum of 10 points.

**Selection Mode:** CY12 : ATAR and middle-band.

NY12 : Educational History including GPA, VTAC Personal Statement (All), Interview (Some). See extra requirements for more information.

SEAS is considered.

**Extra requirements:**

VTAC Personal Statement (NY12-All) : All NY12 applicants must complete the VTAC Personal Statement.

Interview (NY12-Some) : Details will be provided by telephone or mail to applicants required to attend.

- Bachelor of Engineering Technology (Mechanical): 3 years full time study

**About the course:** With a practical approach to learning, this program provides students with the best possible start in a career as an Engineering Technologist. Courses focus on engineering principles that are implemented to solve design problems including Thermal Engineering, Manufacturing Methods and Systems, Machinery Design, Control and Vibration.

As a Mechanical Engineering graduate you will gain employment in a vast range of industries including but not limited to machine design, generation of power and renewable energy, robotic applications, automotive, quality and process control, and manufacturing systems operation.

You will work in positions requiring expertise in planning, designing and construction; have the ability to cost and analyse project resources; conduct tests and research; and gather and analyse data to support decision making and reporting requirements.

Further information: www.ballarat.edu.au/programfinder

**Major studies:** Engineering (mechanical), Mechanical engineering.
**Prerequisites:** Units 3 and 4: a study score of at least 15 in one of Maths: Mathematical Methods (CAS) or Maths: Specialist Mathematics; and a study score of at least 15 in any English.

- Bachelor of Applied Science (Extractive Metallurgy): 3 years full time study

**About the course:** Extractive Metallurgy is the science and engineering of the extraction and refining of minerals and metals from raw ores. Metallurgists are the crucial link in the metal supply chain and aim to maximise production of valuable resources such as gold, zinc and copper while minimising overall environmental impact using their knowledge of the chemical and physical properties of minerals and metals.

Career prospects in the minerals industry are high and many students are offered employment prior to completing their degree. Often students obtain industry employment during the summer break? enhancing their skills and knowledge and significantly increasing their professional network. Metallurgists typically seek a place in a graduate program before becoming plant or project metallurgists.

In addition to working for mining companies there are opportunities for employment with engineering design companies, consultancies, equipment and chemical suppliers, investment banks, stockbrokers, public service and in research and development laboratories. This program is eligible for UB’s Regional Education Entry Program (REEP). Further information: www.ballarat.edu.au/programfinder

**Major studies:** Chemistry, Environmental geology, Environmental science, Geology, Geosciences, Materials science, Metallurgy, Mineral exploration, Mineral processing and extractive metallurgy, Science.

**Prerequisites:** Units 3 and 4: a study score of at least 15 in any Mathematics or 15 in any Science; and a study score of at least 15 in any English.

**Middle-band:** A study score of 20 in Maths: Specialist Mathematics equals 5 aggregate points. A study score of 20 in Maths: Mathematical Methods (CAS) equals 3 aggregate points. Satisfactory completion in Biology, Chemistry, Geography, any Information Technology or Physics equals 3 aggregate points per study. Overall maximum of 10 points.

- Bachelor of Arts (Music Theatre): 3 years full time study

**About the course:** The Music Theatre degree seeks to develop multi-skilled performers for professional music theatre. The aim of the program is to provide a context for the simultaneous development of skills in singing, acting and dancing. The student is encouraged to create work and explore the history and theoretical basis of contemporary music theatre. Subjects include: Singing, Acting, Dancing, Music Theatre Studio, Music Theory and Critical Studies. Previous study in singing, dancing and/or music is an advantage.

**Major studies:** Acting, Critical studies, Dance, Music theory, Musical theatre, Singing, Voice.

**Prerequisites:** None

**Middle-band:** None

**Selection Mode:** CY12: ATAR, Supplementary form (All), Audition (All). See extra requirements for more information.

NY12: Educational History including GPA, Supplementary form (All), Audition (All). See extra requirements for more information.

SEAS is considered.

**Extra requirements:**
Supplementary form (CY12-All, NY12-All): Applicants must complete and submit an Application for Audition form (www.ballarat.edu.au/apply) by Friday 4 October. Applicants can also request the form by telephone (03) 5327 8608. Late applicants after Monday 7 October must telephone or email info@ballarat.edu.au prior to applying. A late fee may apply.

Audition (CY12-All, NY12-All): Details will be sent to applicants by early November. Applicants must attend in mid to late November. Separate audition details may apply for interstate and overseas applicants.

- Bachelor of Nursing: 3 years full time study

**About the course:** This exciting three-year education experience develops critical thought in students through structured theoretical & clinical learning. As a graduate of this Australian Nursing and Midwifery Accreditation Council (ANMAC) accredited program, you will meet all educational requirements needed to be eligible to apply for registration as a Registered Nurse with the Australian Health Practitioner Regulation Agency (AHPRA). It's not just what you learn, but how you learn. That's why you will engage in an exciting range of teaching techniques. As well as the traditional learning (i.e. face-face contact lectures and tutorials), you get the very best in practical and...
experiential learning through clinical placements (representing 50% of the program) and simulated healthcare environments at our on-campus laboratories, including the new Simulated Home Environment Learning Space (SHELS), which replicates a typical older person's home. You will also utilise web based technologies (i.e. facilitated on-line learning, pod-casting, & video streaming). Further study options, following successful completion of this degree, include Honours, Midwifery and/or Paramedicine.

**Major studies:** Acute and Critical Care, Aged care, Aged care studies, Biology, Community Health, Community Nursing, Disability work, Health Sciences, Human Biology, Nursing, Palliative Care, Pharmacology, Public and health care administration, Public health.

**Prerequisites:** Units 1 and 2: satisfactory completion in two units (any study combination) of any Mathematics; and Units 3 and 4: a study score of at least 20 in one of Biology, Chemistry, Health And Human Development, Physics or Psychology; and a study score of at least 25 in any English.

**Middle-band:** A study score of 33 in two of Biology, Chemistry, Health And Human Development, any Mathematics, Physics or Psychology equals 2 aggregate points per study. Overall maximum of 4 points.

**Selection Mode:** CY12 : ATAR and middle-band.

NY12 : Educational History including GPA, VTAC Personal Statement (All). See extra requirements for more information.

SEAS is considered.

**Extra requirements:**

VTAC Personal Statement (NY12-All) : All NY12 applicants must complete the VTAC Personal Statement.

- Bachelor of Psychological Science: 3 years full time study

**About the course:** The Bachelor of Psychological Science will provide you with an intensive and comprehensive education in Psychology, offering a solid foundation if you are wishing to make a career in the profession after further study. The degree is recognised as an accredited undergraduate program by the Australian Psychology Accreditation Council (APAC). Successful completion of the degree will allow you to apply for accredited fourth-year psychology programs. You may find employment in advance administration and clerical positions in a variety of areas, particularly those involving health and human services. Following postgraduate studies, career directions include a vast array of specialist psychology positions including clinical, clinical-neuro and community psychology, counselling, developmental, forensic, health, organisational, sport and academic psychology. In addition to Psychology, you are able to study in areas such as, philosophy, sociology, politics and anthropology, indigenous studies, literature, film, historical and heritage studies, international studies, and Japanese. You can also pursue further studies in applied statistics. There is also scope for you to undertake up to five elective courses from any degree program at UB including, business, human movement, education, nursing and the health sciences.

**Major studies:** Anthropology Studies, Australian History, Behavioural sciences, Community Health, Community Studies, Gender Studies, Human Society, Human Welfare, Humanities, Indigenous health, Indigenous studies, Language and Literature, Philosophy, Politics, Psychology, Social sciences, Society and Culture, Sociology.

**Prerequisites:** Units 3 and 4: a study score of at least 20 in any English.

**Middle-band:** A study score of 25 in any English is considered.
Selection Mode: CY12: ATAR and middle-band.

NY12: Educational History including GPA, VTAC Personal Statement (All), Interview (Some). See extra requirements for more information.

SEAS is considered.

Extra requirements:

VTAC Personal Statement (NY12-All): All NY12 applicants must complete the VTAC Personal Statement.

Interview (NY12-Some): Details will be provided by telephone or mail to the applicants required to attend an interview, which will usually take place in December or January.

- Bachelor of Arts (Rural Social Welfare): 3 years full time study

About the course: An accredited Australian Community Workers Association (ACWA) program that prepares students for careers in a variety of welfare and social services in government and non-government settings.

Majors in welfare studies, studies of human behaviour and society and fieldwork: two placements in the social and community service industry. Choice of second major from psychology or social science. An Australian Psychology Accreditation Council (APAC) accredited major is possible within this program, enabling students to continue with postgraduate studies in psychology.

Major studies: Community development, Counselling and case management, Psychology, Sociology, Welfare practice.

Prerequisites: Units 3 and 4: a study score of at least 20 in any English.

Middle-band: None

Selection Mode: CY12: ATAR, Supplementary form (All), Interview (Some). See extra requirements for more information.

NY12: Educational History including GPA, Supplementary form (All), Interview (Some). See extra requirements for more information.

SEAS is considered.

Extra requirements:

Supplementary form (CY12-All, NY12-All): Applicants must complete and submit a Supplementary Information and Confidential Reference form: www.ballarat.edu.au/apply by 18 October. Late applicants after 6 December must telephone 5327 9729 before applying. Late applicants must complete and submit an Application form, Supplementary Information and Reference form (www.ballarat.edu.au/apply) during the VTAC Change of Preference period.

Interview (CY12-Some, NY12-Some): Details will be sent to applicants by mid December. Late applicants must attend in December/January.

---

Science (HE)
Bachelor of Science: 3 years full time study

About the course: This program provides a foundation in modern scientific principles and theories with courses touching on all major science disciplines. You will choose from an extensive range of subjects in established, newly emerging, general and specialist sciences which are underpinned by scientific research. The program emphasizes and develops scientific observation, communication, logical thinking, practical skills, analytical talent and above all curiosity. The program provides a strong basis in the fundamentals of science and includes a large practical component.

Work opportunities include roles in Education, Medical Science, Biostatistics, Geology, Environmental Management, Psychology, Health, Environmental Planning, or Consultancy. The Bachelor of Science is commonly required for post-graduate studies in specialised careers (e.g. Doctor, Veterinary Physician, Forensic Scientist, Lawyer, Professor, etc.).

Further information: www.ballarat.edu.au/programfinder

Prerequisites: Units 3 and 4: a study score of at least 15 in any Mathematics or 15 in any Science; and a study score of at least 15 in any English.

Middle-band: A study score of 20 in Maths: Specialist Mathematics equals 5 aggregate points. A study score of 20 in Maths: Mathematical Methods (CAS) equals 3 aggregate points. Satisfactory completion in Biology, Chemistry, Geography, any Information Technology or Physics equals 3 aggregate points per study. Overall maximum of 10 points.

Selection Mode: CY12 : ATAR and middle-band.

NY12 : Educational History including GPA, VTAC Personal Statement (All), Interview (Some). See extra requirements for more information.

SEAS is considered.

Extra requirements:

VTAC Personal Statement (NY12-All) : All NY12 applicants must complete the VTAC Personal Statement.

Interview (NY12-Some) : Details will be provided by telephone or mail to applicants required to attend.
Bachelor of Science/Education: 4 years full time study

About the course: This program provides a professional qualification for teaching in secondary schools system in the middle years and VCE levels. Education Courses: Introduction to Teaching and Learning, Young People and Learning Environments, Designing for Learning, Transition to Professional Practice, Perspectives on Curriculum and Education, Global Perspectives, Assessment Data and Reporting, Collaborative Research and Evaluation and Major and Minor curriculum courses. Practical experience: A major learning experience for students is the supervised teaching practicum where students are required to teach a minimum of 80 days in secondary schools.

Major studies: Biology, Chemistry, Earth sciences, Education, Environmental science, Food science and technology, Science/Education, Teaching (secondary).

Prerequisites: Units 3 and 4: a study score of at least 25 in any English; and a study score of at least 20 in any Mathematics.

Middle-band: A study score of 35 in any English or any Mathematics equals 1 aggregate point per study. A study score of 20 in any Science equals 1 aggregate point per study. Overall maximum of 2 points.

Selection Mode: CY12 : ATAR and middle-band.
NY12 : Educational History including GPA, VTAC Personal Statement (All). See extra requirements for more information.
SEAS is considered.

Extra requirements:
VTAC Personal Statement (NY12-All) : NY12 applicants must submit a VTAC Personal Statement.

All successful applicants are required to apply for a WWCC (Working with Children Check) before commencing their program. A copy of the WWCC card must be supplied to the University prior to completing Professional Experience placements. NONY12 applicants may be required to sit a literacy and/or numeracy test to demonstrate equivalent VCE Mathematics and English standards.

Software Engineering (HE)

University Of Ballarat

Bachelor of Information Technology (Software Engineering): 3 years full time study

About the course: This program will provide you with the necessary skills, knowledge and values to create high quality software in a controlled and cost efficient manner. The program contains many programming and software engineering courses and range of electives that will enable you to add depth or breadth to your studies. Material covered throughout this program reflects the current and future needs of practicing software engineers. In particular, you learn to apply your skills with two courses dedicated to a real life project.

You will cover object oriented analysis and design in depth rather than covering an overview of many methodologies, providing you with a very marketable skill as well as being exposed to other techniques.
Graduates find employment in a variety of industries, with career opportunities including: Software Engineer, Systems Administrator, Systems Designer and Tester, Software Analysis, and Programmer.

Further information: www.ballarat.edu.au/programfinder

**Major studies:** Computer programming, Computing, Computing (skills), Database management, Databases, Information technology, Information technology management, Internet and World Wide Web, Internet technology, Java programming, Networking, Programming, Project management, Software development, Software engineering, World Wide Web.

**Prerequisites:** Units 3 and 4: a study score of at least 15 in any English; and a study score of at least 20 in one of Maths: Mathematical Methods (CAS) or Maths: Specialist Mathematics.

**Middle-band:** A study score of 30 in any English, Maths: Mathematical Methods (CAS) or Maths: Specialist Mathematics equals 3 aggregate points per study. Satisfactory completion in any Information Technology equals 3 aggregate points per study. Overall maximum of 10 points.

**Selection Mode:** CY12 : ATAR and middle-band.
NY12 : Educational History including GPA, VTAC Personal Statement (All), Interview (Some). See extra requirements for more information.
SEAS is considered.

**Extra requirements:**
VTAC Personal Statement (NY12-All) : All NY12 applicants must complete the VTAC Personal Statement.
Interview (NY12-Some) : Details will be provided by telephone or mail to applicants required to attend.

- Bachelor of Sport Management: 3 years full time study

**About the course:** This program is designed to provide theoretical and practical knowledge about the sport industry combined with grounding in business expertise. The program incorporates 150 hours of professional practice throughout the duration of the first and second years and will provide you with opportunities to apply your knowledge and skills acquired in a sporting industry setting. You will also work towards completing a full-time internship placement within the sporting industry in your final semester (14-weeks long). On completion of this program, you will be qualified to pursue a career in sport and recreation related agencies in positions that include management of sport organisations, facilities, programs and events. Graduates have found employment in such a diverse range of areas and occupations including sports administration, sport event management, sports marketing, facility management and sponsorship.

**Major studies:** Business and Management, Communication and media studies, Health Promotion, Health Sciences, Human movement, Legal Studies, Marketing, Sport (leisure management), Sport and recreation management, Sports (management), Sports (marketing), Sports (promotion), Sports Coaching.

**Prerequisites:** Units 3 and 4: a study score of at least 20 in any English.
Middle-band: A study score of 40 in Accounting, Business Management, Economics, Health And Human Development, Legal Studies, any Mathematics, Physical Education or Psychology equals 1 aggregate point per study. Overall maximum of 3 points.

Selection Mode: CY12 : ATAR and middle-band, Supplementary form (All). See extra requirements for more information.
NY12 : Educational History including GPA, Supplementary form (All). See extra requirements for more information.
SEAS is considered.

Extra requirements:
Supplementary form (CY12-All, NY12-All) : Applicants must complete and submit an Additional Details form available from www.ballarat.edu.au/vtac-requirements.

- Bachelor of Sport Management/Business: 4 years full time study

About the course: This program is designed to provide you with theoretical and practical knowledge about the sport industry, combined with an extensive grounding in business expertise. The program incorporates 150 hours of professional practice which provides you with the opportunity to apply your knowledge and skills acquired in a sporting industry setting. You will work towards completing a full-time internship placement within the sporting industry in the final semester of your degree (14-weeks long). A wider variety of employment opportunities await double degree graduates particularly in sport, recreation and fitness organisations in the area of organisational, event and facility management. Positions exist in sport and recreation management, sports marketing, sports development and facility management. Employment opportunities also exist in hotel/resort/tour operations, local government, production management, market research, advertising, public relations, industrial relations, personnel administration and staff recruitment. In summary, your career opportunities will be strengthened by having the additional Business major (i.e. Marketing or Tourism), opening up opportunities in the corporate sector.

Major studies: Business and Management, Business Management, Business Studies, Communication and media studies, Health Promotion, Health Sciences, Human movement, Human Resource Management, Legal Studies, Management, Public Relations, Sport (leisure management), Sport and recreation management, Sport Coaching, Sport Marketing, Sports (management), Sports (marketing), Sports (promotion), Tourism, Tourism Management.

Prerequisites: Units 1 and 2: satisfactory completion in two units (any study combination) of any Mathematics; and Units 3 and 4: a study score of at least 20 in any English.

Middle-band: A study score of 40 in Accounting, Business Management, Economics, Health And Human Development, Legal Studies, any Mathematics, Physical Education or Psychology equals 1 aggregate point per study. Overall maximum of 3 points.

Selection Mode: CY12 : ATAR and middle-band, Supplementary form (All). See extra requirements for more information.
NY12 : Educational History including GPA, Supplementary form (All). See extra requirements for more information.
SEAS is considered.

Extra requirements:
Supplementary form (CY12-All, NY12-All) : Applicants must complete and submit an Additional Details form available from www.ballarat.edu.au/vtac-requirements.
Teaching (Primary) (GET)

University Of Ballarat
Mount Helen: 3700510021 (CSP) full-time/part-time  
Apply: Through VTAC  

Mount Helen: 3700510023 (IFP) full-time  
Apply: Through VTAC

- Master of Teaching (Primary): 1.5 year full time study

About the course: This program is a postgraduate degree that prepares students to teach in primary schools.

General teaching studies: Language and Multiliteracies in the Primary Years; Learning and Teaching Mathematics; Diversity: Children, Families and Communities; Teacher as Researcher; Literacy Education in a Global World; Primary Science Education; Approaches to Teaching in and through the Arts; Learning, Teaching and Pedagogy; Teaching Primary Health and Physical Education; My Place in the World: Primary Social Education and Humanities Curriculum; Assessment, Data and Reporting.

A major learning experience for students is the supervised teaching practicum where students are required to teach in secondary schools for a minimum of 60 days.

Prerequisites: Bachelor Degree

Middle-band: None

Selection Mode: NY12 : Educational History including GPA, Supplementary form (All), other. See extra requirements for more information.

Extra requirements:

Supplementary form (NY12-All) : All applicants must complete a University of Ballarat Additional Details form and Referee's Report form by no later than Friday 8 November. These forms can be downloaded from www.ballarat.edu.au/apply or contact the Program Administrator on telephone (03) 5327 9730 to obtain these forms.

SUCCESSFUL APPLICANTS: Students will be required to apply for a Working with Children Check card before commencing their program. A copy must be supplied to UB prior to commencing placements. Applicants should produce evidence of a passing study score in VCE 1&2 Mathematics (excluding Foundation Mathematics or its equivalent) and Units 3 & 4 English. According to the requirements of AITSL (Australian Institute for Teaching and School Leadership), applicants will require at least one year of full-time equivalent study relevant to one or more learning areas of the primary school curriculum.

Teaching (Secondary) (GET)

University Of Ballarat
Mount Helen: 3700510031 (CSP) full-time/part-time  
Apply: Through VTAC  

Mount Helen: 3700510033 (IFP) full-time  
Apply: Through VTAC

- Master of Teaching (Secondary): 1.5 year full time study

About the course: This is a Master of Teaching program that prepares students to teach in secondary schools in a range of specialist areas. This is an accelerated program normally completed over 1.5 years. Applicants can choose to complete the program over 2 years or over 3 years part-time. Students will engage in blended learning experiences which involve face-to-face workshops, online activities and intensives.

General teaching studies: Education and Curriculum Studies; Learning and Teaching; Youth, Culture and Schooling; Teacher as Researcher; Professional Learning Community. Specialist Teaching Areas: Students choose two single specialist teaching areas or one double specialist teaching area; Visual Art is the only double specialist teaching area offered. Practical experience: A major learning experience for students is the supervised teaching placements where students are required to teach in secondary schools for a minimum of 60 days.

According to the requirements set out by AITSL (Australian Institute for Teaching and School Leadership), entry into...
the Master of Teaching course in 2014 will require the following:

Study undertaken for a major study will be equivalent to a total of three-quarters of a year of successful full-time higher education study, usually comprising sequential discipline study taken over three years. In most programs, this equates to six units, with no more than two at first-year level and no fewer than two units at third-year level.

Study undertaken for a minor study will be equivalent to a total of half a year of successful full-time higher education study, usually comprising sequential discipline study taken over two years. In most programs, this equates to four units, with no more than two at first-year level.

**Single teaching areas**

172: Biology  
173: Chemistry  
102: Dance  
103: Drama  
121: English  
162: Health  
133: History  
174: Information Technology/Computing  
141: Languages Other Than English (LOTE)  
178: Mathematics  
164: Physical Education  
165: Psychology  
182: Science  
138: Studies Of Society And Environment (SOSE)

**Double teaching areas**

207: Visual Arts

**Notes**

1: When completing your VTAC Course Application you must enter two single specialist teaching areas or one double teaching area.

2: Refer to Victorian Institute of Teaching website - Specialist Area Guidelines, to ensure eligibility for proposed specialist teaching methods.

**Prerequisites:** Bachelor Degree

**Middle-band:** None

**Selection Mode:** NY12: Educational History including GPA, Supplementary form (All), Test (Some), other. See extra requirements for more information.

**Extra requirements:**

Supplementary form (NY12-All): Form: All applicants must complete a University of Ballarat Additional Details form and Referee’s Report form by no later than Friday 8 November. These forms can be downloaded from www.ballarat.edu.au/apply or contact the Program Administrator on telephone (03) 5327 9730 to obtain these forms.

Test (NY12-Some): Some applicants might be asked to sit a literacy and numeracy test. Applicants required to attend will be notified.

SUCCESSFUL APPLICANTS: Students will be required to apply for a WWCC (Working with Children Check) card before commencing the program. A copy of the WWCC card must be supplied to the University prior to completing Professional Experience placements. All applicants are advised to refer to the Victorian Institute of Teaching website and access the Specialist Area Guidelines, to ensure that they are eligible for their proposed specialist teaching areas. Applicants, whose degree is older than 12 years, will be invited to submit additional supplementary material related to professional experience.

About the course: The Bachelor of Visual Arts coupled with a Bachelor of Education as a joint degree will prepare graduates for a career as a secondary teacher. The program will provide the education theory and practicum to teach Visual Arts education at secondary school level. The program is designed to provide graduates with a strong foundation in the areas of Arts Theory, Fine Art Studio Practice providing the necessary teaching skills to be effective teachers. Along with good teaching skills acquired in the education courses, the curriculum will prepare students to be skilled, engaging and innovative teachers. Education Courses: Introduction to Teaching and Learning, Young People and Learning Environments, Designing for Learning, Transition to Professional Practice, Perspectives on Curriculum and Education, Global Perspectives, Assessment Data and Reporting, Collaborative Research and Evaluation and Major and Minor curriculum courses. Practical experience: A major learning experience is the supervised teaching practicum where students are required to teach a minimum of 80 days in secondary schools.

Major studies: Education, History, Studio Practice.

Prerequisites: Units 1 and 2: satisfactory completion in two units (any study combination) of General Mathematics or Mathematical Methods; and Units 3 and 4: a study score of at least 25 in any English.

Middle-band: None

Selection Mode: CY12 : ATAR, Supplementary form (All), Folio (All). See extra requirements for more information.
NY12 : Educational History including GPA, Supplementary form (All), Folio (All). See extra requirements for more information.
SEAS is considered.

Extra requirements:
Supplementary form (CY12-All, NY12-All) : All applicants must submit a Pre-selection Proforma (www.ballarat.edu.au/apply) to the University by Friday 18 October. Applicants can also request the form by telephone (03) 5327 8605. Late applicants must telephone or email info@ballarat.edu.au before applying.
Folio (CY12-All, NY12-All) : Details will be sent to applicants in early November of requirements to attend interview and folio presentation in late November/early December.
All successful applicants are required to apply for a WWCC (Working with Children Check) before commencing their program. A copy of the WWCC card must be supplied to the University prior to completing Professional Experience placements.
The University of Melbourne offers a world-standard education recognised globally for our academic excellence and pioneering research. We are consistently ranked as one of the world's leading universities, and our graduates are sought after by employers around the world.

The University of Melbourne has a history of 160 years of leadership in research, innovation, teaching and learning. You will be taught by renowned researchers and industry leaders who are globally recognised for their outstanding achievements.

You will study alongside top students from within and outside Australia and on graduation you will join our distinguished alumni who are leaders in their chosen fields.

The University of Melbourne offers you an education that has moved beyond the traditional Australian education system. The University offers a curriculum that is in line with the best of international universities in North America, Europe and Asia and will give you the skills you need to realise your potential.

Whether you already have your career path mapped out, or are open to new possibilities, you can tailor your education at Melbourne to suit your needs. With nearly 100 major fields of study to choose from, you can select a program that fits with your career aspirations and develop specialised knowledge.

Your studies will be enhanced by the unique Melbourne experience, which provides unprecedented opportunities to enrich your studies through research projects, internships, work experience and volunteering, studying overseas and access to state-of-the-art learning facilities and advanced teaching methods.

After graduating from your bachelor's degree, you can head straight into the workforce, pursue a professional graduate qualification at masters level, or experience the thrill of discovery through a graduate research degree.

The University offers professional entry programs at graduate level, including: Architecture, Dental Surgery, Engineering, Law, Medicine, Music Teaching, Nursing, Optometry, Physiotherapy, Social Work, Speech Pathology, Teaching and Veterinary Medicine. The University of Melbourne also offers a range of other graduate programs over many disciplines in coursework and research.

The University's main campus has been situated in Parkville since 1855. The campus combines contemporary architecture with historic buildings and is a vibrant centre of student life. It's also within walking distance from the centre of the city of Melbourne - a global centre of cultural, social, sporting and business life.

Selection policies

Supplementary application forms

Applicants for Bachelor of Fine Arts (all specialisations), Bachelor of Music and Bachelor of Music (Chancellor's Scholars Program) are required to submit a Supplementary application form directly to the Faculty. These forms are available to applicants via the link included in the VTAC application acknowledgment email, or in the VTAC user account messages. An application will not be considered complete unless the Supplementary application form is submitted and the $65 assessment fee paid. Applicants for the Bachelor of Arts (Extended) are required to submit a
Semester dates

- **Semester 1:**

- **Semester 2:**
  - 28 July 2014 - 26 October 2014

Other institutional dates

- **Master of Teaching information session:**
  - 11 September 2013, Time: 6.00pm
- **Master of Teaching information session:**
  - 23 October 2013, Time: 6.00pm
- **Course Information Day:**
  - 18 December 2013, Time: 10.00am - 2.30pm

Bachelor of Arts (Extended) Supplementary application form directly to the Faculty. This form is available to applicants via the link included in the VTAC application acknowledgment email or in the VTAC user account messages.

**Non-year 12 applicants**

The entire academic record, including the Grade Point Average (GPA), will be used as basis for selection for students who have completed part of an undergraduate course. Transfer/later year applicants are still required to meet the prerequisite subjects and entry requirements for the course they are interested in. For more information: [www.futurestudents.unimelb.edu.au/admissions/pathways/mature-age](http://www.futurestudents.unimelb.edu.au/admissions/pathways/mature-age)

**Non-school leaver entry pathway**

Non-Year 12 applicants who do not meet the standard entry requirements for an undergraduate degree may be eligible for entry using the Non-school leaver entry pathway. You will need to be at least 23 years old, be a domestic student and have no qualifications from the past seven years that could be used as the basis for an application. For more information: [www.access.unimelb.edu.au/nsl](http://www.access.unimelb.edu.au/nsl)

Applicants eligible for the Non-school leaver entry pathway who wish to use a general aptitude test for entry must complete the STAT (both the STAT Multiple Choice and the STAT Written English sections) or the SAT (all sections of the SAT Reasoning Test, consisting of Critical Reading, Mathematics and Writing). For more information: [www.access.unimelb.edu.au/nsl](http://www.access.unimelb.edu.au/nsl)

**Current year 12 students**

To be eligible for entry to an undergraduate degree applicants must fulfil all of the following requirements: Completion of the Victorian Certificate of Education (VCE) or an equivalent qualification; Satisfy each of the prerequisite subjects for the course and any prerequisite tests, interviews or auditions; Achieve the required marks in each of the prerequisite subjects; Achieve the minimum Australian Tertiary Admission Rank (ATAR), or notional ATAR for the degree (with the exception of applicants eligible for a special entry scheme); Meet the English language requirements. For more information: [www.futurestudents.unimelb.edu.au/admissions/entry-requirements](http://www.futurestudents.unimelb.edu.au/admissions/entry-requirements)

**Entry requirements**

Selection into the University of Melbourne is governed by the Academic Board. Eligible applicants are ranked in order of merit as measured against University of Melbourne criteria. Highest achieving applicants are chosen first until the quota of available places available in the course is filled. Australian year 12 students must meet the minimum ATAR (unless they are eligible for a special entry scheme), the prerequisites and other course requirements to be considered for entry. The Clearly-in Rank may be above the minimum ATAR, depending on the demand for the course. The University has set guaranteed academic standards for international student entry for most undergraduate courses - prerequisite studies and other course-specific requirements must be met and no international applicant will be admitted below the published course entry standard. For more information: [www.futurestudents.unimelb.edu.au/admissions/entry-requirements](http://www.futurestudents.unimelb.edu.au/admissions/entry-requirements)

**Special consideration**

**Special Entry Access Scheme (SEAS)**
The University of Melbourne is committed to providing educational opportunities for students from a range of backgrounds. Access Melbourne is the University’s special entry and access scheme. By applying for Access Melbourne, you can be assured that any circumstances that have affected your education will be considered when we assess your application for entry. For more information: www.access.unimelb.edu.au

Fees

Commonwealth supported places (CSPs)

Commonwealth supported students are charged student contributions per subject based on the subject discipline. For more information: www.futurestudents.unimelb.edu.au/admissions/fees/ug-dom

International fee places

Undergraduate international students enrolled in fee places at the University pay tuition fees based on the particular subjects they choose to study. For more information: www.futurestudents.unimelb.edu.au/admissions/fees/ug-intl

Scholarships

The Melbourne Scholarships Program is one of the most generous and comprehensive programs in Australia. Our Program incorporates the Melbourne National Scholarships (for outstanding academic achievement), Melbourne Access Scholarships for students from a range of access groups experiencing ongoing circumstances which impact on their preparation for university study, and Indigenous Commonwealth Scholarships.

Melbourne National Scholarship candidates will be automatically considered once Year 12, or equivalent, results are released in December (January for some states and IB). Offers will be made to all eligible candidates. In order to be considered for a Melbourne Access Scholarship, students must submit a SEAS application and a scholarship application via the VTAC website. To be considered for an Indigenous Commonwealth Scholarship, Indigenous students must indicate that they are Indigenous on the application. Only successful candidates will be contacted. For more information: www.futurestudents.unimelb.edu.au/admissions/scholarships

Studying a concurrent diploma

Concurrent diplomas in the areas of informatics, languages, mathematical sciences, global issues and music allow students to study the diploma alongside their bachelors degree. This will usually add a further year of study unless students take a ‘fast track’ to completion (with the potential to complete the diploma at the same time as their bachelors degree). Applications for concurrent diplomas are made directly to the University once students are enrolled in a bachelors degree. For more information: www.futurestudents.unimelb.edu.au/courses/undergraduate

Progressing to graduate study

Upon completion of an undergraduate degree at the University of Melbourne, students may choose to progress to further graduate coursework or research study. The
University's graduate professional entry programs are endorsed by the Australian Commonwealth Government as pathways to professional practice, and many of the programs offer Commonwealth supported places. Many of these programs are professionally accredited by professional bodies in Australia and internationally. Refer to VTAC Guide 2014 graduate course entries.

For more information: www.coursesearch.unimelb.edu.au

**Completing two undergraduate degrees**

Students completing a new generation degree at the University of Melbourne have the option of undertaking a second, or sequential, new generation undergraduate degree. Applicants who meet the entry requirements for the second degree (including prerequisites) will be granted 100 points of credit (normally equivalent to one full-time year of study). For more information: www.coursesearch.unimelb.edu.au

**Credit transfer**

Transfer applicants must submit an application for credit/advanced standing directly to the University if they wish to apply for credit/advanced standing in an undergraduate degree for previously completed tertiary studies. Credit/advanced standing applications can be submitted once a VTAC offer is made. For more information: www.futurestudents.unimelb.edu.au/admissions/credit_calculator

**Course transfers and internal transfers**

Academic record and the GPA are used as basis for selection if you have done part of your undergraduate course in another tertiary institution. Transfer/later year applicants must meet the prerequisites. This also applies to existing University of Melbourne undergraduate students applying for a course transfer through VTAC. All currently enrolled or deferred undergraduate tertiary students (including current University of Melbourne students) who wish to apply to transfer into a University of Melbourne undergraduate program are required to apply through VTAC for either first or second semester entry. For more information: www.futurestudents.unimelb.edu.au/admissions/applications/other-applications/transferring-course

**Enrolment and deferment**

**Enrolment policies**

All successful applicants will be emailed by the University. Students wishing to enrol must accept their offer and enrol in their course online.

Students will be given the opportunity to meet with a course adviser and/or attend information sessions to complete their academic enrolment.

Due to privacy legislation and contractual requirements the University of Melbourne does not accept enrolment by proxy. For more information: www.futurestudents.unimelb.edu.au/admissions/accept-your-offer

**Deferment policy**

Successful applicants may apply to defer commencement of their studies. Deferrals may not be permitted in all courses, are not granted automatically and will not be
granted to allow the commencement of another tertiary course. To apply for a deferral, students must lodge an online request and receive a written response. Deferrals will typically be granted for one year or six months (availability depends on the structure of the course). Students who successfully defer their studies so they can work towards gaining independent status under Youth Allowance eligibility criteria may have the opportunity to extend their deferral beyond this. Students approved to defer their course will be permitted to defer commencement of their scholarship for one year.

For more information: www.futurestudents.unimelb.edu.au/ugrad-domestic/defer-policy

Services

Counselling and psychological services
Free, confidential counselling for students, as well as a wide range of workshops and seminars.

For more information: www.services.unimelb.edu.au/counsel

Students experiencing disability
The University welcomes applications from students experiencing disability and encourages them to apply for Access Melbourne. It is the University’s policy to take all reasonable steps to enable the participation of students with health conditions and impairments in the University’s programs.

For more information: www.services.unimelb.edu.au/disability

Indigenous students
Murrup Barak Institute for Indigenous Development is the central point of contact for Indigenous people on campus. It provides a range of services, facilities and scholarships to eligible students.

See also the VTAC Guide 2014 course entry for Bachelor of Arts (Extended), which provides a pathway for motivated Indigenous students who may not meet formal entry requirements.

The Wilin Centre for Indigenous Arts and Cultural Development supports Indigenous students in the Faculty of the Victorian College of the Arts and the Melbourne Conservatorium of Music.

Prospective indigenous Bachelor of Fine Arts and Bachelor of Music students are invited to contact the Wilin Centre to obtain further information: www.vca-mcm.unimelb.edu.au/wilin

For more information: www.murrupbarak.unimelb.edu.au

International students
International Student Services provide support services for international students at the University of Melbourne and their families. They can assist with visa-related matters, welfare and general support, as well as supervision of students who are under 18 years old. For more information: www.services.unimelb.edu.au/international

Housing options
There are various housing options available to University of Melbourne students including private rental, share housing, student hostels (rooming houses), student apartments, residential colleges and home stay/private board. Visit our Student Housing website for a full list of services. For more information: www.services.unimelb.edu.au/housing
Residential colleges

Residential colleges are one of the housing options for students attending the Parkville campus. Vacancies are offered at 12 colleges and students should consider which one best suits them. For more information: www.colleges.unimelb.edu.au

Further information

Career pathways

Students are able to tailor their undergraduate studies to focus on a particular vocation whilst also creating pathways into our industry recognised Melbourne professional entry graduate programs. For more information: www.futurestudents.unimelb.edu.au/courses/pathways

Closing dates

Please note that the application closing dates for the following courses differ from the standard VTAC dates:

- Bachelor of Arts (Extended): timely closing date 27 September 2013; final closing date 8 November 2013.
- Bachelor of Fine Arts (Animation, Dance, Film and Television and Screenwriting specialisations): timely closing date 30 August 2013.
  - Animation, Film and Television and Screenwriting - no late applications will be accepted;
  - Dance - final closing date 8 November 2013.
- Bachelor of Fine Arts (Contemporary Music, Music Theatre, Production, Theatre Practice and Visual Art specialisations): timely closing date 27 September 2013; final closing date 8 November 2013.
- Bachelor of Music, Bachelor of Music (Chancellor's Scholars Program): timely closing date 27 September 2013; final closing date 8 November 2013.

Dookie / Parkville: 3800446063 (IFP) full-time  Apply: [Through VTAC]  main round

- Bachelor of Agriculture: 3 years full time study
- Bachelor Degree (Honours) in Agriculture: 1 year full time study

About the course: Agriculture integrates the scientific, environmental, economic and social considerations involved in managing resource systems for sustainable food and fibre production. With a Bachelor of Agriculture, you can help achieve and sustain the enormous harvest required to feed the world in a variable climate. Our industry and government associations ensure you develop the skills employers value. You'll also have access to specialist resources in our Parkville and Dookie campuses.

First year introduces scientific concepts surrounding agricultural production including chemistry, biology, genetics, climate change, water resources, and environmental impacts. Second year emphasis is on agricultural production systems and their interaction with social and natural environments. This allows you to develop an understanding of issues facing industry including water management, agricultural and resource economics, and sustainability. Third year develops expertise in sustainable food and fibre production and students develop their own specialist industry project.

First and second year are held at Parkville campus, except subjects offered in flexible delivery mode.
**Major studies:** Production animal health, Sustainable production.

**Prerequisites:** Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL; and a study score of at least 25 in one of Maths: Mathematical Methods (CAS) or Maths: Specialist Mathematics or 30 in Maths: Further Mathematics.

**Middle-band:** None

**Selection Mode:** CY12 : ATAR, VTAC Personal Statement (Some). See extra requirements for more information.
NY12 : Educational History including GPA, VTAC Personal Statement (Some), STAT (Some). See extra requirements for more information.

**Extra requirements:**
VTAC Personal Statement (CY12-Some, NY12-Some) : Applicants with relevant work experience must submit a VTAC Personal Statement.
STAT (NY12-Some) : Applicants eligible for the Non-school leaver entry pathway who wish to use a general aptitude test for entry must complete the STAT (both the STAT Multiple Choice and the STAT Written English sections) or the SAT (all sections of the SAT Reasoning Test, consisting of Critical Reading, Mathematics and Writing).

**Architecture (Master of) (Grad)**

**University Of Melbourne (The)**

- Parkville: Commonwealth-supported places full-time/part-time
  Apply: [Direct to institution](http://www.wss8.vtac.edu.au/courses-inst/institutions/topdf/unimelb.html)
- Parkville: Domestic fee-paying places full-time/part-time
  Apply: [Direct to institution](http://www.wss8.vtac.edu.au/courses-inst/institutions/topdf/unimelb.html)
- Parkville: International fee-paying places full-time
  Apply: [Direct to institution](http://www.wss8.vtac.edu.au/courses-inst/institutions/topdf/unimelb.html)

- Master of Architecture: 2 years full time study

**About the course:** Architecture is a creative and exciting design-based profession concerned with virtually all aspects of the built environment. It combines art, science and technology with business, social and environmental concerns. Architectural design is conceived in broad terms as the creative invention of architectural futures, integrating aesthetic, technological, programmatic, environmental and social issues in the production of the built environment.

This program has a core of design studios, and technical and professional subjects. The design studios comprise 50% of the course and culminate in a research thesis. The studios are both project focused and research-led with an emphasis on rigorous analysis and creative production of ideas.

On graduation you may find employment in private architectural firms where you can work on residential, commercial and institutional projects. You may also work in government and assist in the development of major projects. You can run your own architectural practice, or move to related careers in industrial design, furniture design, interior design, urban design, urban planning, facility management and development, conservation and heritage management, and public art.

The Master of Architecture offers you flexibility, so you can take the two-year program if you already have a three-year undergraduate degree in Architecture or the three-year program if your first degree is not in Architecture and you are making a career change. Full requirements and prerequisites can be found here: [www.msd.unimelb.edu.au/master-architecture/entry-requirements](http://www.msd.unimelb.edu.au/master-architecture/entry-requirements)

Applicants may be eligible for Graduate Access Melbourne - for more information refer to: [www.gradaccess.unimelb.edu.au](http://www.gradaccess.unimelb.edu.au)

**Major studies:** Architectural production and practice, Architecture, Asia-Pacific architecture, Digital architecture, History and conservation, Practice and sustainability, Social and cultural critique, Society and culture, Sustainable architecture.

**Prerequisites:** Bachelor degree - refer to: [www.msd.unimelb.edu.au/master-architecture](http://www.msd.unimelb.edu.au/master-architecture).

**Middle-band:** None
Selection Mode: NY12: Educational History including GPA, Folio (All), Interview (Some), English language test (All). See extra requirements for more information.

Extra requirements:
Folio (NY12-All): Personal statement and design portfolio: applicants must submit a design portfolio in a format as specified by the selection committee; and a personal statement of up to 1000 words. For more information: www.msd.unimelb.edu.au/master-architecture/entry-requirements

Interview (NY12-Some): The selection committee may conduct interviews and tests and may call for referee reports and employer references. Applicants required to attend an interview, sit a test or submit referee reports will be contacted.

English language test (NY12-All): All applicants must satisfy the University's English language requirements to be eligible for a place. For more information: www.futurestudents.unimelb.edu.au/english-requirements

Parkville: 3800538003 (IFP) full-time Apply: Through VTAC main round

- Bachelor of Arts: 3 years full time study
- Bachelor Degree (Honours) in Arts: 1 year full time study

About the course: The Bachelor of Arts allows you to gain knowledge in humanities and social sciences, and new perspectives on how to approach ideas and problems. It will equip you with essential skills valued by employers, including creative thinking, effective communication and problem solving. This degree offers unique flexibility with the opportunity to focus on one or two majors or minors (specialisations) chosen from a broad range of Arts study options in the humanities, social sciences and languages.

During the three-year degree you'll expand your knowledge, learn new ways of thinking, and experience the value of critical thought in a world-class learning environment. You'll have the opportunity to complement your studies and gain new experiences by completing collaborative learning projects, engaging in internships and possibly participating in student exchange programs.

On graduation you may work in a vast range of industries, locally and internationally. You may also undertake further study in the humanities and social sciences, or to graduate degrees in other areas such as business and economics, teaching, architecture, engineering, nursing, psychology and law.

Major studies: Ancient world studies, Anthropology, Arabic, Art history, Asian studies, Australian indigenous studies, Chinese language, Classics, Creative writing, Criminology, Economics, English and theatre studies, French, Gender studies, Geography, German, Hebrew and Jewish studies, History, History and philosophy of science, Indonesian, Islamic studies, Italian, Japanese, Linguistics and applied linguistics, Media and communications, Philosophy, Politics and international studies, Psychology, Russian, Screen and cultural studies, Sociology, Spanish and Latin American studies.

Prerequisites: Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL.

Middle-band: None

Selection Mode: CY12: ATAR.

NY12: Educational History including GPA, STAT (Some). See extra requirements for more information.
Extra requirements:
STAT (NY12-Some) : Applicants eligible for the Non-school leaver entry pathway who wish to use a general aptitude test for entry must complete the STAT (both the STAT Multiple Choice and the STAT Written English sections) or the SAT (all sections of the SAT Reasoning Test, consisting of Critical Reading, Mathematics and Writing).

- Bachelor of Arts (Chancellor's Scholars Program): 3 years full time study
- Bachelor Degree (Honours) in Arts: 1 year full time study

About the course: The Chancellor's Scholars Program provides an exciting opportunity for very high-achieving students. You will participate in an academic enrichment program alongside your Bachelor of Arts. Domestic students receive a Melbourne National Scholarship, and international students are considered for International Undergraduate Scholarships. In addition, you will be guaranteed access to a Global Scholars Award during your undergraduate studies. You will also be guaranteed a place in the graduate course of your choice (subject to meeting prerequisites). This guarantee includes the University of Melbourne's flagship graduate degrees such as the Juris Doctor (Law) and the Master of Architecture.

Major studies: Ancient world studies, Anthropology, Arabic, Art history, Asian studies, Australian indigenous studies, Chinese language, Classics, Creative writing, Criminology, Economics, English and theatre studies, French, Gender studies, Geography, German, Hebrew and Jewish studies, History, History and philosophy of science, Indonesian, Islamic studies, Italian, Japanese, Linguistics and applied linguistics, Media and communications, Philosophy, Politics and international studies, Psychology, Russian, Screen and cultural studies, Sociology, Spanish and Latin American studies.

Prerequisites: Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL.

Middle-band: None

Selection Mode: CY12 : ATAR.

Extra requirements:
Applicants with an ATAR (or notional ATAR) of 99.90 or above are guaranteed entry. Applicants must have completed an Australian Year 12 or the IB in Australia in the year prior to entry (students must either enrol immediately or be granted a deferral in the year following Year 12).

Parkville:International fee-paying places full-time  Apply: Direct to institution
Executive Master of Arts: 2 years full time study

**About the course:** The Executive Master of Arts (EMA) is designed for graduates who are eager to shape leadership roles for themselves in the 21st century. It is a program that recognises the unique benefits that can be gained by combining traditional Arts strengths in analysis, ethics and critical reasoning, with a skill set appropriate for managing resources, planning projects and delivering results in a dynamic, contemporary workplace. EMA subjects include guest speakers, case studies of prominent leaders, and opportunities for group discussion and critical self-reflection.

This program combines your previous discipline-specific knowledge with strategic and professional skills. It covers areas such as professional communication, leadership, people management, financial management and budgeting, and project management methodology. The EMA is the first program of its kind in Australia and has been developed in consultation with the industry, government and community sectors.

Applicants may be eligible for Graduate Access Melbourne - for more information refer to: www.gradaccess.unimelb.edu.au

**Major studies:** Communication, Creative thinking, Critical analysis, Financial management, Humanities, Languages, Professional leadership skills, Professional management skills, Project management, Social sciences.

**Prerequisites:** Bachelor degree - refer to: www.graduate.arts.unimelb.edu.au/ema.

td>

**Middle-band:** None

**Selection Mode:** NY12 : Educational History including GPA, Interview (Some), English language test (All), Personal statement. See extra requirements for more information.

**Extra requirements:**

Interview (NY12-Some) : The selection committee may conduct interviews and tests and may call for referee reports and employer references. Applicants required to attend an interview, sit a test or submit referee reports will be contacted.

English language test (NY12-All) : All applicants must satisfy the University's English language requirements to be eligible for a place. For more information: www.futuresstudents.unimelb.edu.au/english-requirements

Personal statement: Applicants must submit a personal statement of up to 500 words. For further information refer to: www.graduate.arts.unimelb.edu.au/ema/entry-requirements.html.

- Bachelor of Arts (Extended): 4 years full time study
- Bachelor Degree (Honours) in Arts: 1 year full time study

**About the course:** The Bachelor of Arts (Extended) provides a pathway for motivated and aspiring Indigenous students who do not meet the regular entry requirements for the Bachelor of Arts. The Bachelor of Arts (Extended) is a four-year degree with integrated support and academic skills subjects to ensure your success in our Arts program. You will benefit from targeted support and mentoring, and live on campus in one of the University's residential colleges.

In first year, you will complete six academic skills subjects that are designed to build your academic skills, confidence in preparing and presenting your ideas, leadership potential and teamwork. You will also take two Arts Foundation subjects together with other Bachelor of Arts students. Second year includes one further academic skills subject. You can then choose your remaining units in second, third and fourth years as per the regular Bachelor of Arts.
Major studies: Ancient world studies, Anthropology, Arabic, Art history, Asian studies, Australian indigenous studies, Chinese language, Classics, Creative writing, Criminology, Economics, English and theatre studies, French, Gender studies, Geography, German, Hebrew and Jewish studies, History, History and philosophy of science, Indonesian, Islamic studies, Italian, Japanese, Linguistics and applied linguistics, Media and communications, Philosophy, Politics and international studies, Psychology, Russian, Screen and cultural studies, Sociology, Spanish and Latin American studies.

Prerequisites: Units 3 and 4: a study score of at least 20 in any English.

Middle-band: None

Selection Mode: CY12: ATAR, Supplementary form (All), Interview (All). See extra requirements for more information.

NY12: Educational History including GPA, Supplementary form (All), Interview (All). See extra requirements for more information.

Extra requirements:

Supplementary form (CY12-All, NY12-All): Applicants must complete and submit the Bachelor of Arts (Extended) Supplementary application form by 8 November. This form is available to applicants via the link included in the VTAC application acknowledgment email or in the VTAC user account messages.

Interview (CY12-All, NY12-All): Applicants will be contacted with details about the interview in late November/early December. Applicants must attend in December. Financial assistance will be provided to applicants selected for interview to assist in travelling to Melbourne.

Note: Applicants must be of Aboriginal or Torres Strait Islander descent.

- Bachelor of Biomedicine: 3 years full time study
- Bachelor Degree (Honours) in Biomedicine: 1 year full time study

About the course: If you are interested in health and helping people, come and investigate the systems that create, sustain and threaten life with the Bachelor of Biomedicine. This degree prepares you for the challenges of healthcare delivery and biomedical research. It provides the foundation necessary to prepare you for health-related professional programs, specialised graduate research and more. At the core of the degree is knowledge of the structure and function of the body and consideration of the determinants of disease. You will develop fundamental skills in critical thinking, the analysis of evidence, problem solving and communication.

The Bachelor of Biomedicine is the ideal pathway into the University's health-related graduate professional entry degrees such as the Doctor of Medicine, Doctor of Dental Surgery, Doctor of Optometry and Doctor of Physiotherapy. You can also choose to undertake further study in other professional areas including biomedical engineering, nursing, public health, genetic counselling, speech pathology, clinical audiology and social work or pursue a research pathway with the completion of an additional Honours year.

Graduates of this course will provide innovative healthcare solutions and play leading roles in resolving health and ageing issues and in the management of chronic diseases.

Major studies: Biochemistry and molecular biology, Bioengineering systems (Biomedical engineering), Biotechnology, Cell and developmental biology, Defence and disease, Genetics, Human structure and function, Microbiology infection and immunology, Neuroscience, Pathology, Pharmacology, Physiology.
Prerequisites: Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL; and a study score of at least 25 in Chemistry; and a study score of at least 25 in one of Maths: Mathematical Methods (CAS) or Maths: Specialist Mathematics.

Middle-band: None

Selection Mode: CY12 : ATAR.

NY12 : Educational History including GPA, STAT (Some). See extra requirements for more information.

Extra requirements:

STAT (NY12-Some): Applicants eligible for the Non-school leaver entry pathway who wish to use a general aptitude test for entry must complete the STAT (both the STAT Multiple Choice and the STAT Written English sections) or the SAT (all sections of the SAT Reasoning Test, consisting of Critical Reading, Mathematics and Writing).

- Bachelor of Biomedicine (Chancellor's Scholars Program): 3 years full time study
- Bachelor Degree (Honours) in Biomedicine: 1 year full time study

About the course: The Chancellor's Scholars Program provides an exciting opportunity for very high-achieving students. You will participate in an academic enrichment program alongside your Bachelor of Biomedicine which will involve the allocation of an academic mentor for the duration of your undergraduate degree. The academic mentors are practicing clinicians, researchers or teaching staff drawn from the Faculty of Medicine Dentistry and Health Sciences. Additionally you will be assigned a graduate student mentor who is an alumnus of the Biomedicine degree. Domestic students receive a Melbourne National Scholarship, international students are considered for International undergraduate scholarships and you will be guaranteed access to a Global Scholars Award during your undergraduate studies. You will also be guaranteed a place in the graduate course of your choice (subject to meeting any additional prerequisites). This guarantee includes the University of Melbourne's flagship graduate degrees such as the Doctor of Medicine, Doctor of Physiotherapy, Doctor of Dental Surgery, Doctor of Optometry, Juris Doctor (Law) and the Master of Architecture.

Graduates of this course will provide innovative healthcare solutions and play leading roles in resolving health and ageing issues and in the management of chronic diseases.

- Master of Biotechnology: 2 years full time study

About the course: The Master of Biotechnology provides high-level, specialised scientific learning together with executive skills training in business, communications and management. An industry project in the final year will provide you with project management and networking opportunities.

You will take a combination of core and elective subjects in science and biotechnology, together with subjects in business, communication and management.

The final-year project is an opportunity to work with an industry partner to tackle a real-world, practical issue or challenge. High-achieving students have the option of undertaking a research project in their final year.

On graduation you can find rewarding careers in sectors and occupations such as: product development, project management, pharmaceutical industry, health sector, food and beverage companies, hospitals, education/universities, primary industries and scientific legislation/patent consulting.

Applicants may be eligible for Graduate Access Melbourne - for more information refer to: www.gradaccess.unimelb.edu.au

- Bachelor of Commerce: 3 years full time study
- Bachelor Degree (Honours) in Commerce: 1 year full time study

**About the course:** The Bachelor of Commerce will provide you with the knowledge and technical skills you need to succeed in the career of your choice. It is a flexible course that builds foundation business skills and allows you to explore your options before settling on a path of study. You can wait until the beginning of second year to choose your major, or start specialising in a particular discipline on your first day at university. Depending on your subject choices, you can complete a double major within a three-year degree. You can also complete a breadth sequence in engineering, psychology, property or construction management.

As a Commerce student, you'll have access to a range of activities that complement what you learn in the classroom. You can participate in a case study competition, join a student society, be advised by a peer or career mentor, network with government and industry leaders, consult for organisations in Melbourne and overseas, or work on a community project you are passionate about.

**Major studies:** Accounting, Actuarial studies, Business, Economics, Finance, Management, Marketing.

**Prerequisites:** Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL; and a study score of at least 25 in one of Maths: Mathematical Methods (CAS) or Maths: Specialist Mathematics.

**Middle-band:** None

**Selection Mode:** CY12: ATAR.
NY12: Educational History including GPA, STAT (Some). See extra requirements for more information.

**Extra requirements:**
STAT (NY12-Some): Applicants eligible for the Non-school leaver entry pathway who wish to use a general aptitude test for entry must complete the STAT (both the STAT Multiple Choice and the STAT Written English sections) or the SAT (all sections of the SAT Reasoning Test, consisting of Critical Reading, Mathematics and Writing).

Note: Applicants intending to major in Actuarial studies or complete a breadth sequence in Engineering systems may be required to undertake a bridging subject in mathematics as first year breadth. The bridging subject is equivalent to Units 3 and 4 Specialist Mathematics.

  - Apply: [Direct to institution](http://www.wss8.vtac.edu.au/courses-inst/institutions/topdf/unimelb.html)

- Master of Construction Management: 2 years full time study

**About the course:** The Master of Construction Management is a professional degree which will kick start your career in the construction industry or further develop your expertise to advance your career. You will gain the theoretical knowledge, as well as the practical skills, to manage the social, technological, financial and environmental challenges facing the construction industry today.

Graduate studies in construction management integrate the requirements of professional training and education with the future needs of the industry, locally and globally. Construction Management at Melbourne is understood in the broadest possible way, as a discipline ideally incorporating any area of technical endeavour that seeks to improve our ability to manage the industrial structure, the fabrication and procurement process, and the output of building.

The Master of Construction Management is a professional degree for graduates who want to gain employment in the construction industry, and contribute intellectually to tackling its social, technological, financial and environmental challenges. Graduates work with general construction companies, quantity surveying organisations, project management firms, trade specialists and specialised consultants, institutional and research bodies.

The Master of Construction Management offers you flexibility, so you can take the two year program if you already have a three-year undergraduate degree in Construction or the three-year program if your first degree is not in Construction and you are making a career change. Full requirements and prerequisites can be found here: [www.msd.unimelb.edu.au/master-construction-management/entry-requirements](http://www.msd.unimelb.edu.au/master-construction-management/entry-requirements)

Applicants may be eligible for Graduate Access Melbourne - for more information refer to: [www.gradaccess.unimelb.edu.au](http://www.gradaccess.unimelb.edu.au)

**Major studies:** Building, Building systems and trade specialties, Corporate management, Cost management, Policy, Project management, Research and development.

**Prerequisites:** Bachelor degree - refer to: [www.msd.unimelb.edu.au/master-construction-management](http://www.msd.unimelb.edu.au/master-construction-management).

**Middle-band:** None

**Selection Mode:** NY12 : Educational History including GPA, Folio (All), Interview (Some), English language test (All), Personal statement. See extra requirements for more information.

**Extra requirements:**
Folio (NY12-All) : All applicants must submit a design portfolio in a format specified by the selection committee. For further information refer to: [www.msd.unimelb.edu.au/master-construction-management](http://www.msd.unimelb.edu.au/master-construction-management)
Interview (NY12-Some) : The selection committee may conduct interviews and tests and may call for referee reports and employer references. Applicants required to attend an interview, sit a test or submit referee reports will be contacted.

English language test (NY12-All) : All applicants must satisfy the University's English language requirements to be eligible for a place. For more information: www.futurestudents.unimelb.edu.au/english-requirements

Personal statement: All applicants must submit a personal statement of up to 1000 words. For more information: www.msd.unimelb.edu.au/master-construction-management

- Doctor of Dental Surgery: 4 years full time study

**About the course:** The Doctor of Dental Surgery (DDS) is the first Australian professional-entry, Masters-level dental degree. This innovative program will provide you with advanced, evidenced-based clinical training so you will be well placed to become a leader in your profession.

With state of the art technologies, the DDS uses new infrastructure, including a 50 seat pre-clinical laboratory, 20 haptic virtual reality dental simulators and the new 50 chair Melbourne University Dental Clinic, for advanced clinical teaching. You will be taught by highly qualified academics with qualifications and research experience from leading universities around the world.

The curriculum is based on up-to-date scientific evidence in oral health, imparting advanced philosophies, skills and knowledge related to all areas of clinical dental practice and research. During the degree you will spend significant time in provision of patient care, use advanced materials and clinical methods, and undertake a research project in oral health. In final year you will have the opportunity to experience working in a private practice setting.

All domestic students must submit applications for this course through the Graduate Entry Medical School Admissions System (GEMSAS): www.gemsas.edu.au/applications

Applicants may be eligible for Graduate Access Melbourne - for more information refer to:

www.gradaccess.unimelb.edu.au

**Major studies:** Clinical dental practice, Dental medicine and surgery, Dental research, Oral health, Oral medicine and special needs dentistry, Oral structure and function, Oral surgery and special needs dentistry, Plaque related diseases, Preclinical dental practice, Professional dental practice, Specialist dental practice.

**Prerequisites:** Bachelor degree - refer to: www.dent.unimelb.edu.au/dsweb/future_students/dds/.

**Middle-band:** None

**Selection Mode:** NY12 : Educational History including GPA, GAMSAT (Some), English language test (All). See extra requirements for more information.

**Extra requirements:**

GAMSAT (NY12-Some) : Test: Local applicants must have completed the Graduate Australian Medical School Admissions Test (GAMSAT) before submitting an application (results are valid for two years).

English language test (NY12-All) : All applicants must satisfy the University's English language requirements to be eligible for a place. For more information: www.futurestudents.unimelb.edu.au/english-requirements

SUCCESSFUL APPLICANTS: Policy, form, certificate, police check and working with children check: Successful applicants must comply with the Infectious diseases and immunisation policy and must complete: the Infectious diseases and immunisation declaration form; a first aid certificate; a National police record check; a Working with children check. More information: www.dent.unimelb.edu.au/dsweb/future_students/dds/

- Master of Engineering: 2 years full time study

About the course: The Master of Engineering is an internationally accredited engineering qualification for graduates from a range of disciplines seeking professional entry. The program is also ideal for engineers seeking to upgrade skills or make a career change.

The Master of Engineering is an advanced program with 11 specialisations. Our curriculum was developed in consultation with the industry to respond to its needs and to offer students an internationally competitive qualification. We provide continuous exposure to the industry through lectures, projects and internships. Students gain practical experience through hands-on workshops, design projects, field trips and site visits. Additionally, students participate in research projects involving cutting-edge research in collaboration with world-class researchers. Graduates will gain professional development skills including team work and communication.

The program is internationally recognised, allowing graduates to practice as engineers in many countries around the world. The Master of Engineering is accredited in Europe through EUR-ACE, and provisionally accredited by Engineers Australia. The process for obtaining full accreditation by Engineers Australia is underway and is expected to be finalised in 2013. This dual accreditation is unique in Australia and opens up international employment opportunities for graduates.

Applicants may be eligible for Graduate Access Melbourne - for more information refer to: www.gradaccess.unimelb.edu.au

Major studies: Biochemical engineering, Biomedical engineering, Chemical engineering, Civil engineering, Electrical engineering, Environmental engineering, Geomatics, Mechanical engineering, Mechatronics, Software engineering, Structural engineering.

- Associate Degree in Environmental Horticulture: 2 years full time study
About the course: The University of Melbourne campus at Burnley offers the only Australian Qualification Framework qualification in this discipline at this level in Australia. You will study plants in urban landscape environments, with a focus on issues of design, planning, implementation and management to support the health and wellbeing of the community and the creation of the liveable cities of the future. Our lecturers have strong links with industry and include research leaders. The campus is based on nine hectares of ornamental heritage gardens. You will have access to a green roof and wall demonstration centre, landscape construction areas, a pruning garden and experimental plots, a unique collection of indigenous and exotic plants, container and field nurseries, a horticulture library, research areas, training gardens for design and maintenance, and thousands of plant specimens.

With 150 years of history, Burnley has an extensive and successful alumni network, which provides unrivalled employment and mentoring opportunities for you. Diverse experiences such as field trips to historic and contemporary gardens, production nurseries and urban landscapes are incorporated into the course. The industry internship subject will kick-start your career, helping you to develop your professional networks and apply your new knowledge.

Major studies: Environmental horticulture.

Prerequisites: Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL.

Middle-band: None

Selection Mode: CY12 : ATAR, VTAC Personal Statement (Some). See extra requirements for more information.
NY12 : Educational History including GPA, VTAC Personal Statement (Some), STAT (Some). See extra requirements for more information.

Extra requirements:
VTAC Personal Statement (CY12-Some, NY12-Some) : Applicants with relevant work experience must submit a VTAC Personal Statement.
STAT (NY12-Some) : Applicants eligible for the Non-school leaver entry pathway who wish to use a general aptitude test for entry must complete the STAT (both the STAT Multiple Choice and the STAT Written English sections) or the SAT (all sections of the SAT Reasoning Test, consisting of Critical Reading, Mathematics and Writing).

- Bachelor of Environments: 3 years full time study
- Bachelor Degree (Honours) in Environments: 1 year full time study

About the course: The Bachelor of Environments degree allows you to choose one of 11 majors ranging from architecture, to engineering, environmental science and landscape management, property and urban design and planning. You can explore your ambitions through flexible study options which allow you to choose your major area of study at the end of first year. You will then concentrate on your major for the remainder of your degree giving you a pathway to the workforce or to our professionally accredited graduate programs.

The course takes a multidisciplinary approach to study, giving you opportunities to network and collaborate with inter-related disciplines throughout your degree, and providing you with valuable insights into your future industry. As a student in the Bachelor of Environments, you will be able to gain practical experience through field trips, site visits and design studios as part of your studies.

The Bachelor of Environments degree will equip you with specialised knowledge as well as the broader creative
communication, design, problem solving and analytical skills needed to act on the urban and environmental problems facing our world.

**Major studies:** Architecture, Civil systems (Civil engineering), Construction, Environmental engineering systems, Environmental geographies politics and cultures, Environmental science, Geomatics (Geomatic engineering/surveying), Landscape architecture, Landscape management, Property, Urban design and planning.

**Prerequisites:** Units 3 and 4; a study score of at least 30 in English (EAL) or 25 in English other than EAL.

**Middle-band:** None

**Selection Mode:** CY12 : ATAR.

NY12 : Educational History including GPA, STAT (Some). See extra requirements for more information.

**Extra requirements:**

STAT (NY12-Some) : Applicants eligible for the Non-school leaver entry pathway who wish to use a general aptitude test for entry must complete the STAT (both the STAT Multiple Choice and the STAT Written English sections) or the SAT (all sections of the SAT Reasoning Test, consisting of Critical Reading, Mathematics and Writing).

Note: Applicants intending to major in Civil systems (Civil engineering); Construction; Environmental engineering systems; Environmental science; Geomatics; or Property may be required to undertake a bridging subject in mathematics equivalent to Units 3 and 4 Mathematical Methods.

main round

- Bachelor of Environments (Chancellor's Scholars Program): 3 years full time study
- Bachelor Degree (Honours) in Environments: 1 year full time study

**About the course:** The Chancellor's Scholars Program provides an exciting opportunity for very high-achieving students. You will participate in an academic enrichment program alongside your Bachelor of Environments. Domestic students receive a Melbourne National Scholarship, and international students are considered for International Undergraduate Scholarships. In addition, you will be guaranteed access to a Global Scholars Award during your undergraduate studies. You will also be guaranteed a place in the graduate course of your choice (subject to meeting prerequisites). This guarantee includes the University of Melbourne's flagship graduate degrees such as the Juris Doctor (Law) and the Master of Architecture.

**Major studies:** Architecture, Civil systems (Civil engineering), Construction, Environmental engineering systems, Environmental geographies politics and cultures, Environmental science, Geomatics (Geomatic engineering/surveying), Landscape architecture, Landscape management, Property, Urban design and planning.

**Prerequisites:** Units 3 and 4; a study score of at least 30 in English (EAL) or 25 in English other than EAL.

**Middle-band:** None

**Selection Mode:** CY12 : ATAR.

**Extra requirements:**

Applicants with an ATAR (or notional ATAR) of 99.90 or above are guaranteed entry. Applicants must have
completed an Australian Year 12 or the IB in Australia in the year prior to entry (students must either enrol immediately or be granted a deferral in the year following Year 12). Note: Applicants intending to major in Civil systems (Civil engineering); Construction; Environmental engineering systems; Environmental science; Geomatics; or Property may be required to undertake a bridging subject in mathematics equivalent to Units 3 and 4 Mathematical Methods.

- Bachelor of Fine Arts (Animation): 3 years full time study

**About the course:** The Bachelor of Fine Arts (Animation) is focused on practical screen production with an emphasis on exploration and development of animation screen production, and covers idea development, screenwriting, storyboarding, character design and expression, 2D, 3D, stop motion, experimentation, motion effects, editing, the use of sound and music, and exposure to a wide range of relevant hardware and software. In class you are challenged to respond to set problems, and pursue your own creative thinking to keep the material fresh and relevant to your own experience.

Students also undertake critical studies subjects that introduce them to the practice of critical self-reflection in the context of wider contemporary arts practices, and have the opportunity to choose electives from other specialisations across the Victorian College of the Arts and the University of Melbourne.

Graduates of the Film School have been keenly sought after to produce animated works for television series, short films and feature-length animations; with many applying their animation skills to video art and installation, website, games and educational programs.

Many of our graduates develop high-profile careers in the film, television or allied industries.

**Major studies:** Animation.

**Prerequisites:** Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL.

**Middle-band:** None

**Selection Mode:** CY12: Supplementary form (All), Information kit (All), Folio (Some), Interview (Some). See extra requirements for more information.  
NY12: Supplementary form (All), Information kit (All), Folio (Some), Interview (Some), STAT (Some). See extra requirements for more information.

**Extra requirements:**

Supplementary form (CY12-All, NY12-All): Applicants must complete and submit a Fine Arts (Animation) Supplementary application form. This form is only available to applicants via the link included in the VTAC application acknowledgment email or in the VTAC user account messages. The Supplementary application form must be completed and submitted by 5pm 30 August. Applicants must pay an additional assessment fee of $65 with their Supplementary application form.

Information kit (CY12-All, NY12-All): The selection process involves a test. Information about the selection test will be emailed to applicants.

Folio (CY12-Some, NY12-Some): Shortlisted applicants will be encouraged to bring examples of their creative output to an interview.

Interview (CY12-Some, NY12-Some): Shortlisted applicants must attend an interview.

- Bachelor of Fine Arts (Contemporary Music): 3 years full time study
- Bachelor Degree (Honours) in Fine Arts (Contemporary Music): 1 year full time study

About the course: The Bachelor of Fine Arts (Contemporary Music) with majors in contemporary music performance or interactive composition is dedicated to providing you with the education and training needed to become a professional contemporary musician. This course provides you with core specialist training and the opportunity to participate in an eclectic range of concerts, events and interactive projects reflecting our commitment to music making in a broad range of musical styles and media.

The curriculum reflects the Victorian College of the Arts’ ethos of practical, intensive and performance-focused specialist training. The learning environment is inclusive and encourages initiative, entrepreneurship and creative skills in a contemporary music-making context.

Major studies: Contemporary music performance, Interactive composition.

Prerequisites: Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL.

Middle-band: None

Selection Mode: CY12 : Supplementary form (All), Audition (All). See extra requirements for more information.

NY12 : Supplementary form (All), Audition (All), STAT (Some), Personal statement. See extra requirements for more information.

Extra requirements:

Supplementary form (CY12-All, NY12-All) : Applicants must complete and submit a Fine Arts (Contemporary Music) Supplementary application form. This form is only available to applicants via the link included in the VTAC application acknowledgment email or in the VTAC user account messages. The Supplementary application form must be completed and submitted by 5pm 27 September. Applicants must pay an additional assessment fee of $65 with their Supplementary application form.

Audition (CY12-All, NY12-All) : Details about the audition and (for the Contemporary Music Performance major) a personal statement, or (for the Interactive Composition major) a folio will be emailed to applicants. Applicants from overseas, interstate and regional Victoria may submit an audition recording in DVD format.

STAT (NY12-Some) : Applicants eligible for the Non-school leaver entry pathway who wish to use a general aptitude test for entry must complete the STAT (both the STAT Multiple Choice and the STAT Written English sections) or the SAT (all sections of the SAT Reasoning Test, consisting of Critical Reading, Mathematics and Writing).

Note: The timely closing date is 5pm (AEST) 27 September to guarantee a live audition. The final closing date is 5pm (AEST) 8 November and applicants will not be guaranteed a live audition.
Bachelor of Fine Arts (Dance): 3 years full time study
Bachelor Degree (Honours) in Fine Arts (Dance): 1 year full time study

About the course: The performance-based Bachelor of Fine Arts (Dance) is designed to challenge your technical, creative and artistic abilities and sensibilities through specialist training in: contemporary dance; classical ballet; somatic practices; choreographic projects and performances; dance sciences and safe dance practice. The integrated approach to curriculum delivery develops technically strong, kinaesthetically aware dance artists.

You will also undertake critical and theoretical studies that will introduce you to the diversity of contemporary performing arts practices, and will have the opportunity to choose electives from other specialisations across the Victorian College of the Arts (VCA), or from the University of Melbourne's broad undergraduate subjects.

International exchanges, industry secondments and choreographic opportunities through student works foster the development of autonomous dance artists with strong leadership attributes.

On graduation you can establish a career as a performer, choreographer, artistic director of dance companies, collaborator, community dance project director, curator, producer, teacher, dance researcher or as an artistic leader in a wide range of contexts locally, nationally and internationally.

Major studies: Body mind practices, Choreography, Dance technique: Contemporary dance and ballet, Performance.

Prerequisites: Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL.

Middle-band: None

Selection Mode: CY12: Supplementary form (All), Interview (Some), Audition (All). See extra requirements for more information.
NY12: Supplementary form (All), Interview (Some), Audition (All), STAT (Some). See extra requirements for more information.

Extra requirements:
Supplementary form (CY12-All, NY12-All): Applicants must complete and submit a Fine Arts (Dance) Supplementary application form. This form is only available to applicants via the link included in the VTAC application acknowledgment email or in the VTAC user account messages. The Supplementary application form must be completed and submitted by 5pm 30 August. Applicants must pay an additional assessment fee of $65 with their Supplementary application form.
Interview (CY12-Some, NY12-Some): The selection process involves an audition and, for shortlisted applicants, an interview.
Audition (CY12-All, NY12-All): Details about the audition will be sent to applicants by email. Applicants from overseas, interstate and regional Victoria may submit a certified audition recording in DVD format.
STAT (NY12-Some): Applicants eligible for the Non-school leaver entry pathway who wish to use a general aptitude test for entry must complete the STAT (both the STAT Multiple Choice and the STAT Written English sections) or the SAT (all sections of the SAT Reasoning Test, consisting of Critical Reading, Mathematics and Writing).

Note: To guarantee a live audition you must apply by 5pm (AEST) 30 August. The final closing date for applications is 5pm (AEST) 8 November and applicants applying between 1 September and this time will not be guaranteed a live audition.
University Of Melbourne (The)

Bachelor of Fine Arts (Film and Television): 3 years full time study
Bachelor Degree (Honours) in Fine Arts (Film and Television): 1 year full time study

About the course: The Bachelor of Fine Arts (Film and Television) is focused on practical screen production with an emphasis on screenwriting, direction and editing. Through production-based assignments you will strengthen your individual creative voice and crew on fellow student productions, building an important practical overview while developing valuable peer networks. You are encouraged to be innovative and experimental, explore fresh ideas and develop the expertise to express ideas effectively for an audience.

Students also undertake critical studies subjects that introduce them to the practice of critical self-reflection in the context of wider contemporary arts practices, and have the opportunity choose electives from other specialisations across the Victorian College of the Arts, and the University of Melbourne.

Graduates are successful in local and international film festivals, winning numerous awards with their productions. Graduates, employed in the industry, may work initially in an assistant capacity as freelancers.

Major studies: Actor direction, Film projects, Screen studies, Screen writing.

Prerequisites: Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL.

Middle-band: None

Selection Mode: CY12 : Supplementary form (All), Information kit (All), Interview (Some). See extra requirements for more information.
NY12 : Supplementary form (All), Information kit (All), Interview (Some), STAT (Some). See extra requirements for more information.

Extra requirements:
Supplementary form (CY12-All, NY12-All) : Applicants must complete and submit a Fine Arts (Film and Television) Supplementary application form. This form is only available to applicants via the link included in the VTAC application acknowledgment email or in the VTAC user account messages. The Supplementary application form must be completed and submitted by 5pm 30 August. Applicants must pay an additional assessment fee of $65 with their Supplementary application form.

Information kit (CY12-All, NY12-All) : The selection process involves a test and, for shortlisted applicants, an interview. Information about the selection test will be sent to applicants by email.

Note: Applications close at 5pm (AEST) 30 August 2013. No late applications will be accepted.
Bachelor of Fine Arts (Music Theatre): 3 years full time study

About the course: The Bachelor of Fine Arts (Music Theatre) is designed as an intensive, skills building program across music theatre's principal disciplines of singing, acting and dance. You will develop knowledge and skills to adapt to the various requirements of genre and style, and a spirit of enquiry about the artist's capacity to reflect, respond and contribute to cultural and social debate and understanding through their work.

Music theatre students enjoy regular engagement with leaders in the profession. The course has a strong focus on, and connection to, Melbourne's thriving music theatre profession through daily studio-based training with working artists, and industry masterclasses with international guest teachers. It also encourages the development and performance of new music theatre works.

Many of our graduates have established careers in commercial music theatre, independent music theatre, cabaret, concerts, recording, working on cruise ships, theatre in education and a diverse range of allied performing arts practice.

Major studies: Acting studies, Dance studies, Music theatre combination class, Music theatre contextual studies, New work performance project, Voice studies.

Prerequisites: Units 3 and 4; a study score of at least 30 in English (EAL) or 25 in English other than EAL.

Selection Mode: None

Extra requirements:
Supplementary form (CY12-All, NY12-All) : Applicants must complete and submit a Fine Arts (Music Theatre) Supplementary application form. This form is only available to applicants via the link included in the VTAC application acknowledgment email or in the VTAC user account messages. The Supplementary application form must be completed and submitted by 5pm 27 September. Applicants must pay an additional assessment fee of $65 with their Supplementary application form.

Audition (CY12-All, NY12-All) : Details about an audition will be emailed to applicants. Applicants from overseas, interstate and regional Victoria may submit a certified audition recording in DVD format.

STAT (NY12-Some) : Applicants eligible for the Non-school leaver entry pathway who wish to use a general aptitude test for entry must complete the STAT (both the STAT Multiple Choice and the STAT Written English sections) or the SAT (all sections of the SAT Reasoning Test, consisting of Critical Reading, Mathematics and Writing).

Note: The timely closing date is 5pm (AEST) 27 September to guarantee a live audition. The final closing date is 5pm (AEST) 8 November and applicants will not be guaranteed a live audition.

---

Fine Arts (Production) (HE)

University Of Melbourne (The)

Southbank: 3800638961 (CSP) full-time Apply: Through VTAC main round
Bachelor of Fine Arts (Production): 3 years full time study

About the course: The Bachelor of Fine Arts (Production) will allow you to major in one of three areas (performance technology, stage management or design realisation), while still being exposed to all aspects of performance production - set, costume, lighting, multimedia and sound technology and design, workshop and costume construction, and stage and production management. Intensive delivery of skills and practice takes place through studio based training and direct application of these skills to rehearsals and productions.

You will also undertake critical and theoretical studies that introduce you to the diversity of contemporary performing arts practices, and you will have the opportunity to choose electives from other specialisations across the Victorian College of the Arts, or from the University of Melbourne's broad undergraduate subjects.

Graduates of this course have a tradition of high employment success. Graduates demonstrate capacities for artistic imagination, creativity, transformation and interpretation. They work at various levels, both as an individual and as a team member, in a wide variety of visual/performing arts environments including: work on large-scale events; major festivals; theatre, dance and music theatre productions.

Major studies: Design realisation, Performance technology, Stage management.

Prerequisites: Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL.

Middle-band: None

Selection Mode: CY12 : Supplementary form (All), Interview (All). See extra requirements for more information.

NY12 : Supplementary form (All), Interview (All), STAT (Some). See extra requirements for more information.

Extra requirements:
Supplementary form (CY12-All, NY12-All) : Applicants must complete and submit a Fine Arts (Production) Supplementary application form. This form is only available to applicants via the link included in the VTAC application acknowledgment email or in the VTAC user account messages. The Supplementary application form must be completed and submitted by 5pm 27 September. Applicants must pay an additional assessment fee of $65 with their Supplementary application form.

Interview (CY12-All, NY12-All) : The selection process involves an interview and personal statement and, for shortlisted applicants, a workshop. Details about the interview and personal statement will be emailed to applicants.

STAT (NY12-Some) : Applicants eligible for the Non-school leaver entry pathway who wish to use a general aptitude test for entry must complete the STAT (both the STAT Multiple Choice and the STAT Written English sections) or the SAT (all sections of the SAT Reasoning Test, consisting of Critical Reading, Mathematics and Writing).

Note: The timely closing date is 5pm (AEST) 27 September to guarantee a live interview. The final closing date is 5pm (AEST) 8 November and applicants will not be guaranteed a live interview.

Bachelor of Fine Arts (Screenwriting): 3 years full time study

About the course: The Bachelor of Fine Arts (Screenwriting) is designed for those who have the desire and talent to write audience-driven stories for the screen. This degree is the only dedicated undergraduate screenwriting degree in Australia. It trains students in the many facets of screenwriting through lectures, classes, film screenings, onset experience and intensive modules.

During your studies you undertake units in cinematic writing, TV writing, adaptation and writing for games and web content. You also attend workshops with the Bachelor of Fine Arts (Film and Television) directing students, with a view to developing a wider industry perspective and forming creative partnerships.

At the end of three years you will be equipped to write professionally for screen media and have acquired a solid base in many generic skills such as presenting professional work, giving and receiving feedback and working in creative teams.

Major studies: Adaptation for cinema and TV, Cinematic writing, TV writing, Writing for games content.

Prerequisites: Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL.

Selection Mode: CY12 : Supplementary form (All), Information kit (All), Interview (Some). See extra requirements for more information.

Interview (CY12-Some, NY12-Some) : Shortlisted applicants must attend an interview. Information about the interview will be emailed to relevant applicants.

STAT (NY12-Some) : Applicants eligible for the Non-school leaver entry pathway who wish to use a general aptitude test for entry must complete the STAT (both the STAT Multiple Choice and the STAT Written English sections) or SAT (all sections of the SAT Reasoning Test, consisting of Critical Reading, Mathematics and Writing).

Note: Applications close at 5pm (AEST) 30 August. No late applications will be accepted.
• Bachelor of Fine Arts (Theatre Practice): 3 years full time study

About the course: The Bachelor of Fine Arts (Theatre Practice) is an intensive training program that will develop you into an autonomous actor who is able to interpret established texts as well as generate and perform new material.

In the first year you integrate imagination, voice and body skills and apply these in a range of performance contexts. You explore creating performance from the self and develop strategies for the interpretation of text. The second year continues to develop your kinaesthetic and perceptual awareness in performance. You learn to work within a production process from conception through to rehearsal and performance.

By the third year you will have consolidated a working methodology as an autonomous actor. You will complete performance projects culminating in a festival of new work.

The program is taught in the Victorian College of the Arts' specially designed Performing Arts building in Southbank, next door to the Melbourne Theatre Company. It has seven studio spaces, a studio theatre and graduate study rooms.

Prerequisites: Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL.

Middle-band: None

Selection Mode: CY12 : Supplementary form (All), Audition (All). See extra requirements for more information. NY12 : Supplementary form (All), Audition (All), STAT (Some). See extra requirements for more information.

Extra requirements:
Supplementary form (CY12-All, NY12-All) : Applicants must complete and submit a Fine Arts (Theatre Practice) Supplementary application form. This form is only available to applicants via the link included in the VTAC application acknowledgment email or in the VTAC user account messages. The Supplementary application form must be completed and submitted by 5pm 27 September. Applicants must pay an additional assessment fee of $65 with their Supplementary application form.

Audition (CY12-All, NY12-All) : The selection process involves an audition and, for shortlisted applicants, a call-back audition, interview and/or workshop. Details about the initial audition will be emailed to applicants. Applicants from overseas, interstate and regional Victoria may submit a certified audition recording in DVD format.

STAT (NY12-Some) : Applicants eligible for the Non-school leaver entry pathway who wish to use a general aptitude test for entry must complete the STAT (both the STAT Multiple Choice and the STAT Written English sections) or the SAT (all sections of the SAT Reasoning Test, consisting of Critical Reading, Mathematics and Writing).

Note: The timely closing date is 5pm (AEST) 27 September to guarantee a live audition. The final closing date is 5pm (AEST) 8 November and applicants may be required to travel to Melbourne for their live audition.

**Southbank: 3800638993 (IFP) full-time**  
Apply: Through VTAC  
main round

• Bachelor of Fine Arts (Visual Art): 3 years full time study
• Bachelor Degree (Honours) in Fine Arts (Visual Art): 1 year full time study
About the course: The Bachelor of Fine Arts (Visual Art) offers an immersive, studio-based environment that fosters self-directed studio practice in the areas of drawing and print media, painting, photography, or sculpture and spatial practice.

Students are expected to develop studio projects that require investigation and experimentation with a range of concepts, materials, techniques and processes. In second and third year, students are involved in sustained exploration and experimentation with ideas, procedures and methodologies of practice, culminating in a resolved body of artwork for the graduate exhibition.

Students also undertake critical studies subjects that introduce them to the diversity of contemporary arts practices, and have the opportunity to choose electives from other specialisations across the Victorian College of the Arts and the University of Melbourne.

Major studies: Drawing and printmedia, Painting, Photography, Sculpture and spatial practice.

Prerequisites: Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL.

Middle-band: None

Selection Mode: CY12 : Supplementary form (All), Folio (All), Interview (All). See extra requirements for more information.
NY12 : Supplementary form (All), Folio (All), Interview (All), STAT (Some). See extra requirements for more information.

Extra requirements:
Supplementary form (CY12-All, NY12-All) : Applicants must complete and submit a Fine Arts (Visual Art) Supplementary application form. This form is only available to applicants via the link included in the VTAC application acknowledgment email or in the VTAC user account messages. The Supplementary application form must be completed and submitted by 5pm 27 September. Applicants must pay an additional assessment fee of $65 with their Supplementary application form.

Folio (CY12-All, NY12-All) : The selection process includes an interview and folio presentation. Details will be emailed to applicants.

Interview (CY12-All, NY12-All) : Details about the interview and folio presentation will be emailed to applicants.

STAT (NY12-Some) : Applicants eligible for the Non-school leaver entry pathway who wish to use a general aptitude test for entry must complete the STAT (both the STAT Multiple Choice and the STAT Written English sections) or the SAT (all sections of the SAT Reasoning Test, consisting of Critical Reading, Mathematics and Writing).

Note: The timely closing date is 5pm (AEST) 27 September to guarantee a live interview. The final closing date is 5pm (AEST) 8 November and applicants will not be guaranteed a live interview.

Food Science (Master of) (Grad)

University Of Melbourne (The)

Parkville: Commonwealth-supported places full-time/part-time Apply: Direct to institution
Parkville: Domestic fee-paying places full-time/part-time Apply: Direct to institution
Parkville: International fee-paying places full-time Apply: Direct to institution

- Master of Food Science: 2 years full time study

About the course: Exploring the inter-disciplinary nature of agriculture, food production and food science at an advanced level, the Master of Food Science will provide you with a sound foundation in food chemistry, microbiology, quality and processing, and introduces advanced research topics and their practical application in commercial settings.

With the food science expertise, you will be equipped to support the health and well being of communities worldwide, managing sustainable, safe food production across the entire supply chain.

A qualification in food science will give you the skills to play a key role in Australia's largest manufacturing industry in research and technical divisions within food companies and associated organisations. On graduation, you may pursue diverse careers including nutrition assessment and substantiation of product health claims, health
promotion, food safety and regulation, production, policy, research and development.

Applicants may be eligible for Graduate Access Melbourne - for more information refer to: www.gradaccess.unimelb.edu.au

**Major studies:** Chemistry, Climate change, Food processing, Food safety and quality, Food security and disease management, Microbiology.

**Prerequisites:** Bachelor degree - refer to: www.land-environment.unimelb.edu.au/foodscience.

**Middle-band:** None

**Selection Mode:** NY12 : Educational History including GPA, Interview (Some), English language test (All), Personal statement. See extra requirements for more information.

**Extra requirements:**
- Interview (NY12-Some) : The selection committee may conduct interviews and tests and may call for referee reports and employer references. Applicants required to attend an interview, sit a test or submit referee reports will be contacted.
- English language test (NY12-All) : All applicants must satisfy the University's English language requirements to be eligible for a place. For more information: www.futurestudents.unimelb.edu.au/english-requirements
- Personal statement: All applicants must complete a personal statement of up to 500 words. Curriculum vitae/resume and referee reports: All applicants must provide a curriculum vitae or resume; and two academic referee reports. For more information refer to: www.land-environment.unimelb.edu.au/foodscience

**General Studies (HE)**

**University Of Melbourne (The)**

**Dookie: 3800346001 (CSP) full-time/part-time**  **Apply: Through VTAC**  **main round**  **mid-year**

- Diploma: 1 year full time study

**About the course:** The Diploma in General Studies is a taster of the Melbourne Bachelor Degrees that provides you with the opportunity to study Science, Commerce, Environments or Agriculture. This gives you a year to decide what you want to do next and provides a structured stepping stone to a meaningful outcome -- whether that is employment, or further study in a University of Melbourne degree or TAFE program.

The Diploma in General Studies consists of specialist streams in Commerce, Environment, Science, and Agriculture. Full-time students undertake four subjects per semester for two semesters; part-time students undertake two subjects per semester for four semesters. There are two semesters each year. Subjects are 12.5 credit points each; the course is 100 credit points total. All students must complete the compulsory subject Academic Writing and Communication in their first semester.

**Major studies:** Agriculture, Commerce, Environments, Science.

**Prerequisites:** Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL.

**Middle-band:** None

**Selection Mode:** CY12 : ATAR, VTAC Personal Statement (All), Interview (Some), Work experience (Some). See extra requirements for more information.

NY12 : Educational History including GPA, VTAC Personal Statement (All), Interview (Some), Work experience (Some). See extra requirements for more information.

**Extra requirements:**
- VTAC Personal Statement (CY12-All, NY12-All) : Applicants must complete and submit a VTAC Personal statement detailing their reasons for applying for the Diploma in General Studies.
- Interview (CY12-Some, NY12-Some) : Applicants may be required to attend an interview, complete a selection test, or supply employer references/referee reports as part of the selection process. Applicants will be contacted with details about these extra requirements if applicable.
Work experience (CY12-Some, NY12-Some): Consideration will be given to relevant work experience.

### Information Systems (Master of) (Grad)

**University Of Melbourne (The)**

- **Parkville: Commonwealth-supported places full-time/part-time**
  - Apply: [Direct to institution](#)

- **Parkville: Domestic fee-paying places full-time/part-time**
  - Apply: [Direct to institution](#)

- **Parkville: International fee-paying places full-time**
  - Apply: [Direct to institution](#)

- Master of Information Systems: 2 years full time study

**About the course:** The Master of Information Systems (MIS) is a degree for aspiring and current practitioners and consultants in digital business: professionals supporting, managing and changing business processes through information and communications technology and information systems. The MIS curriculum was designed in consultation with industry and government, to develop graduates with core competencies in demand in the Australian ICT sector.

The degree covers recent developments in IT infrastructure, applications and emerging technologies. It also covers IT strategy, IT governance, IT project and change management, achieving compliance and IT service provision. The program contains a wide range of elective subjects, allowing students to organise their study towards particular careers in IT management and digital business. The degree has significant engagement and involvement from local and international practicing information systems professionals. There is also a pathway to research into the business use of IT.

Depending on your undergraduate qualification and work experience, the MIS is available as a 2 year (200 point), 1.5 year (150 point) or a 1 year (100 point) program.

Applicants may be eligible for Graduate Access Melbourne - for more information refer to: [www.gradaccess.unimelb.edu.au](http://www.gradaccess.unimelb.edu.au)

**Major studies:** Accounting and finance, Business analytics, General management, IS project and change management, IT innovation and interaction design, IT service provision, Operations and marketing, People management, Research studies in information systems.

**Prerequisites:** Bachelor degree - refer to: [www.msi.unimelb.edu.au/study/graduate/master-of-information-systems/](http://www.msi.unimelb.edu.au/study/graduate/master-of-information-systems/).

**Middle-band:** None

**Selection Mode:** NY12: Educational History including GPA, English language test (All). See extra requirements for more information.

**Extra requirements:**

English language test (NY12-All): All applicants must satisfy the University’s English language requirements to be eligible for a place. For more information: [www.futurestudents.unimelb.edu.au/english-requirements](http://www.futurestudents.unimelb.edu.au/english-requirements)

### Information Technology (Master of) (Grad)

**University Of Melbourne (The)**

- **Parkville: Commonwealth-supported places full-time/part-time**
  - Apply: [Direct to institution](#)

- **Parkville: Domestic fee-paying places full-time/part-time**
  - Apply: [Direct to institution](#)

- **Parkville: International fee-paying places full-time**
  - Apply: [Direct to institution](#)

- Master of Information Technology: 2 years full time study

**About the course:** The Master of Information Technology (MIT) will offer you the lifelong technical skills to devise solutions to the problems of today and those of tomorrow. The MIT is ideal for creative students who are passionate about cutting edge technology and its applications in solving real world problems across all areas of business,
The program teaches the fundamental adaptable technical skills that are applicable across a range of IT platforms; skills that will not date, such as applied algorithmics, data mining, distributed computing and programming language design, allowing you to evolve with and adapt to the swift pace of technology.

Depending on your work experience and undergraduate qualification, the MIT is available as a: 2 year (200 point) program for graduates of any discipline, who have studied at least one programming subject as part of their undergraduate course; 1.5 year (150 point) program for graduates with an IT major as part of their 3 year undergraduate degree; 1 year (100 point) program for IT graduates with a four year degree in information technology, including advanced studies in their area of specialisation, or two years of cognate work experience.

Applicants may be eligible for Graduate Access Melbourne - for more information refer to:
www.gradaccess.unimelb.edu.au

Major studies: Computing, Distributed Computing, Health, Spatial.

Prerequisites: Bachelor degree - refer to: www.msi.unimelb.edu.au/study/graduate/master-of-information-technology/.

Middle-band: None

Selection Mode: NY12 : Educational History including GPA, English language test (All). See extra requirements for more information.

Extra requirements:
English language test (NY12-All) : All applicants must satisfy the University's English language requirements to be eligible for a place. For more information: www.futurestudents.unimelb.edu.au/english-requirements

International Business (Master of) (Grad)

University Of Melbourne (The)

| Parkville: Commonwealth-supported places full-time/part-time | Apply: Direct to institution |
| Parkville: Domestic fee-paying places full-time/part-time | Apply: Direct to institution |
| Parkville: International fee-paying places full-time | Apply: Direct to institution |

- Master of International Business: 1.5 year full time study

About the course: The course provides a solid grounding in the foundations of management and strategic thinking in international market operations, and hones your awareness of the policies governing the world trade and investment system.

The program is made up of six compulsory subjects and six electives. The compulsory subjects cover two strategy subjects, HQ-subsidiary relations, cross cultural management, supra-national regulation of the global economy and ethics. The electives are drawn from an extensive list of subjects offered by the Melbourne Business School. These include international marketing, international HRM, Asian business and management, international financial management, and supply chain management. Students enrolled in this program can cross-enrol in selected subjects offered as part of the Master of International Relations.

Subjects provide students with an understanding of how operating across borders impacts on functional areas (such as marketing, accounting, finance, and HRM). Graduates will develop an awareness of policies governing the world trade and investment system, with emphasis on the Asia-Pacific region.

Applicants may be eligible for Graduate Access Melbourne - for more information refer to:
www.gradaccess.unimelb.edu.au

Major studies: Management.

Prerequisites: Bachelor degree - refer to: www.mbs.unimelb.edu.au/programs/master_of_international_business.

Middle-band: None
**Selection Mode:** NY12: Educational History including GPA, Test (All), English language test (All), Personal statement. See extra requirements for more information.

**Extra requirements:**

Test (NY12-All): Applicants must have results in the Graduate Management Admissions Test (GMAT) or Graduate Record Examination (GRE) unless they have met one of the approved conditions for an exemption. GMAT and GRE results are valid for five years. For more information refer to: www.mbs.unimelb.edu.au/apply/graduate

English language test (NY12-All): All applicants must satisfy the University's English language requirements to be eligible for a place. For more information: www.futurestudents.unimelb.edu.au/english-requirements

Personal statement: All applicants must submit a personal statement of up to 800 words.

**Journalism (Master of) (Grad)**

**University Of Melbourne (The)**

**Parkville: Commonwealth-supported places full-time/part-time**

**Apply:** Direct to institution

**Parkville: Domestic fee-paying places full-time/part-time**

**Apply:** Direct to institution

**Parkville: International fee-paying places full-time**

**Apply:** Direct to institution

- Master of Journalism: 2 years full time study

**About the course:** The Master of Journalism is designed by Australia's leading thinkers and practitioners in news media futures, to fit you with the skills you will need to be part of redefining the profession. You will learn the important skills of journalistic research and clear communication, as well as multimedia skills, new media entrepreneurship and cutting edge elements of practice such as Data Journalism and the use of social media to assemble and engage with audiences. You will learn from leading industry practitioners, and engage with important and challenging issues facing the Australian and global media industries.

The program is designed for students who are dedicated to pursuing careers in journalism and journalism-related fields, and for journalists and other professional practitioners working in the contemporary media industry who wish to update their skills, develop additional advanced skills and expand their education.

You will: learn both traditional and emerging practice from leading industry figures; engage with important and challenging issues facing the Australian and global media industries; gain a theoretical and practical grounding in issues such as civics, governance, citizenship, and leadership; investigate key concepts that frame recent developments in fields such as media law, management theory, globalisation, health policy, and climate change; undertake an internship with an external organisation, either in Australia or internationally, and/or complete a journalism project under advanced industry standard supervision; gain valuable practical experience; and extend professional networks.

Applicants may be eligible for Graduate Access Melbourne - for more information: www.gradaccess.unimelb.edu.au

**Major studies:** Journalism.

**Prerequisites:** Bachelor degree - refer to: www.graduate.arts.unimelb.edu.au/mcp/master-of-journalism.html.

**Middle-band:** None

**Selection Mode:** NY12: Educational History including GPA, Interview (Some), English language test (All). See extra requirements for more information.

**Extra requirements:**

Interview (NY12-Some): The selection committee may conduct interviews and tests and may call for referee reports and employer references. Applicants required to attend an interview, sit a test or submit referee reports will be contacted.

English language test (NY12-All): All applicants must satisfy the University's English language requirements to be eligible for a place. For more information: www.futurestudents.unimelb.edu.au/english-requirements

---

**Landscape Architecture (Master of) (Grad)**
University Of Melbourne (The)
Parkville: Commonwealth-supported places full-time/part-time  
Apply: Direct to institution

Parkville: Domestic fee-paying places full-time/part-time  
Apply: Direct to institution

Parkville: International fee-paying places full-time  
Apply: Direct to institution

- Master of Landscape Architecture: 2 years full time study

**About the course:** Landscape architecture acts as a bridge between arts and sciences, design and environment like no other discipline. It engages in the core ecological cultural and social issues in both urban and rural areas, and as such is a pivotal design profession for the 21st century. Landscape architecture at the University of Melbourne is underpinned by a strong grounding in ecology and urbanism and will give you the knowledge and skills to help improve our built and natural environments through innovative design. These strengths are paralleled by a comprehensive history and contemporary theory stream. Core subjects are supplemented by electives from allied disciplines, as well as subjects designed to explore cross-disciplinary and international practice.

Landscape architects are in demand at all levels of government, in metropolitan and non-metropolitan areas, and in landscape architecture, planning, engineering and multidisciplinary consultancy firms. Graduates find employment with groups such as conservation agencies and land development companies, while others run their own landscape architecture practices.

The Master of Landscape Architecture offers you flexibility, so you can take the two year program if you already have a three-year undergraduate degree in Landscape Architecture, or the three-year program if your first degree is not in Landscape Architecture and you are making a career change. Full requirements and prerequisites can be found here: [www.msd.unimelb.edu.au/master-landscape-architecture/entry-requirements](http://www.msd.unimelb.edu.au/master-landscape-architecture/entry-requirements)

Applicants may be eligible for Graduate Access Melbourne - for more information: [www.gradaccess.unimelb.edu.au](http://www.gradaccess.unimelb.edu.au)

**Major studies:** Constructed ecologies, Contemporary landscape architecture theory, Design, Landscape architecture, Landscape architecture history.

**Prerequisites:** Bachelor degree - refer to: [www.msd.unimelb.edu.au/master-landscape-architecture](http://www.msd.unimelb.edu.au/master-landscape-architecture).

**Middle-band:** None

**Selection Mode:** NY12 : Educational History including GPA, Folio (All), Interview (Some), English language test (All), Personal statement. See extra requirements for more information.

**Extra requirements:**

Folio (NY12-All) : Applicants must submit a design portfolio in a format as specified by the selection committee. For more information: [www.msd.unimelb.edu.au/master-landscape-architecture/entry-requirements](http://www.msd.unimelb.edu.au/master-landscape-architecture/entry-requirements)

Interview (NY12-Some) : The selection committee may conduct interviews and tests and may call for referee reports and employer references. Applicants required to attend an interview, sit a test or submit referee reports will be contacted.

English language test (NY12-All) : All applicants must satisfy the University's English language requirements to be eligible for a place. For more information: [www.futurestudents.unimelb.edu.au/english-requirements](http://www.futurestudents.unimelb.edu.au/english-requirements)

Personal statement: All applicants must submit a personal statement of up to 1000 words. For more information: [www.msd.unimelb.edu.au/master-landscape-architecture/entry-requirements](http://www.msd.unimelb.edu.au/master-landscape-architecture/entry-requirements).

Law (Juris Doctor) (Grad)

University Of Melbourne (The)
Parkville: Commonwealth-supported places full-time  
Apply: Direct to institution

Parkville: Domestic fee-paying places full-time  
Apply: Direct to institution

Parkville: International fee-paying places full-time  
Apply: Direct to institution

- Juris Doctor: 3 years full time study
About the course: The Melbourne Juris Doctor (Law) will equip graduates with the analytical skills and intellectual maturity to take a leading role in contemporary legal practice, the business world, and government or community organisations.

Taught at masters level, the Juris Doctor (JD) leads to admission to the legal profession in all Australian jurisdictions and can also be used as a basis for seeking admission in many common law jurisdictions overseas.

The program comprises 24 subjects, including 17 compulsory subjects. The JD is taught over six semesters under the standard three-year structure with options for flexible study (subject to approval by the Law School).

As a JD student, you will have the opportunity to take part in a range of activities beyond the classroom, including a mentoring program, internships, guest lecture series, mooting and competitions, international exchange, dual degree partnerships, and law societies and associations.

Applicants may be eligible for Graduate Access Melbourne - for more information: [www.gradaccess.unimelb.edu.au](http://www.gradaccess.unimelb.edu.au)

Major studies: Law, Legal practice, Legal studies.

Prerequisites: Bachelor degree - refer to: [www.law.unimelb.edu.au/jd](http://www.law.unimelb.edu.au/jd).

Middle-band: None

Selection Mode: NY12 : Educational History including GPA, LSAT (All), English language test (All), Personal statement. See extra requirements for more information.

Extra requirements:

LSAT (NY12-All) : All applicants must have registered to sit the LSAT (Law School Admission Test) prior to applying for the JD, and must subsequently sit the LSAT.

English language test (NY12-All) : All applicants must satisfy the University's English language requirements to be eligible for a place. For more information: [www.futurestudents.unimelb.edu.au/english-requirements](http://www.futurestudents.unimelb.edu.au/english-requirements)

Personal statement: All applicants must submit a personal statement up to 850 words. For more information: [www.law.unimelb.edu.au/jd/future-students/how-to-apply](http://www.law.unimelb.edu.au/jd/future-students/how-to-apply)

Management (Master of) (Grad)

University Of Melbourne (The)

Parkville: Commonwealth-supported places full-time/part-time  Apply: Direct to institution

Parkville: Domestic fee-paying places full-time/part-time  Apply: Direct to institution

Parkville: International fee-paying places full-time  Apply: Direct to institution

- Master of Management: 2 years full time study

About the course: The Master of Management consists of 12 or 16 semester-length subjects comprising four foundation subjects to be taken in the first semester of study, followed by a sequence of compulsory and elective subjects depending on the area of chosen specialisation. The number of electives students may choose varies with each specialisation.

Specialisations are available in the following areas: management, marketing, human resources, accounting, and finance. The course provides an excellent basis for those who wish to pursue a career in commerce or business, and is well suited to recent graduates, early career starters and those with little or no work experience. It is also particularly suitable for those who do not have a commercially oriented undergraduate degree. Students are also offered the opportunity to engage in a ‘capstone’ experience, drawing together the diverse strands of their graduate education, preparing them for professional life.

The 12-subject program can be completed in 1.5 years full-time, while the 16-subject course can be completed in 2 years full-time. For more information: [www.mbs.unimelb.edu.au/programs](http://www.mbs.unimelb.edu.au/programs)

Applicants may be eligible for Graduate Access Melbourne - for more information: [www.gradaccess.unimelb.edu.au](http://www.gradaccess.unimelb.edu.au)

Major studies: Accounting, Finance, Human resources, Management, Marketing.
**Prerequisites:** Bachelor degree - refer to: [www.mbs.unimelb.edu.au/programs](http://www.mbs.unimelb.edu.au/programs).

**Middle-band:** None

**Selection Mode:** NY12 : Educational History including GPA, Test (All), English language test (All), Personal statement. See extra requirements for more information.

**Extra requirements:**

Test (NY12-All) : Applicants must have results in the Graduate Management Admissions Test (GMAT) or Graduate Record Examination (GRE) unless they have met one of the approved conditions for an exemption. GMAT and GRE results are valid for five years. For more information: [www.mbs.unimelb.edu.au/apply/graduate](http://www.mbs.unimelb.edu.au/apply/graduate).

English language test (NY12-All) : All applicants must satisfy the University’s English language requirements to be eligible for a place. For more information: [www.futurestudents.unimelb.edu.au/english-requirements](http://www.futurestudents.unimelb.edu.au/english-requirements)

Personal statement: All applicants must submit a personal statement of up to 800 words.

### Medicine (Doctor of) (Grad)

**University Of Melbourne (The)**

- **Parkville: Commonwealth-supported places full-time**
  - Apply: Direct to institution

- **Parkville: Domestic fee-paying places full-time**
  - Apply: Direct to institution

- **Parkville: International fee-paying places full-time**
  - Apply: Direct to institution

- **Parkville: Commonfund-supported places full-time**

- **About the course:** This masters level course will prepare you for a medical career through an innovative curriculum and interaction with bio-scientists and clinicians in quality facilities on campus and in associated hospitals and community health care services. Designed for students who have completed their undergraduate studies and are committed to professional training, this unique MD recognises both your personal and professional development.

  The program comprises: one year of integrated bioscience and clinical learning featuring new case-based teaching approaches; two core clinical training years which facilitate learning with patients in a wide range of settings; scholarly selective subjects in which each student is immersed in a single medical discipline to complete a research project; and a capstone semester in which students apply their skills for effective and safe clinical practice. Students also attend an annual medical conference to meet leaders in research, policy and clinical health care. The course provides outstanding clinical and academic training that prepares students for the challenges of internship and future vocational training.

  All domestic students must submit applications for this course through the Graduate Entry Medical School Admissions System (GEMSAS): [www.gemsas.edu.au/applications](http://www.gemsas.edu.au/applications)

  Applicants may be eligible for Graduate Access Melbourne - for more information refer to: [www.gradaccess.unimelb.edu.au](http://www.gradaccess.unimelb.edu.au)

- **Major studies:** Clinical placement, Foundations of biomedical science, Medicine, Principles of clinical practice, Scholarly selective program, Transition to practice.

- **Prerequisites:** Bachelor degree - refer to: [http://medicine.unimelb.edu.au/study-here/md/application_process](http://medicine.unimelb.edu.au/study-here/md/application_process).

- **Middle-band:** None

- **Selection Mode:** NY12 : Educational History including GPA, Interview (Some), Test (All), English language test (All). See extra requirements for more information.

- **Extra requirements:**

  Interview (NY12-Some) : Shortlisted applicants are required to attend a multi mini interview. For further information refer to: [www.medicine.unimelb.edu.au/study-here/md/application_process](http://www.medicine.unimelb.edu.au/study-here/md/application_process)

  Test (NY12-All) : Applicants must complete the Graduate Australian Medical School Admissions Test (GAMSAT) or, for international students residing outside Australia, the Medical College Admissions Test (MCAT) before applying (results are valid for two years).
English language test (NY12-All): All applicants must satisfy the University's English language requirements to be eligible for a place. For more information: www.futurestudents.unimelb.edu.au/english-requirements

SUCCESSFUL APPLICANTS Policy, form, certificate, police check: Successful applicants must comply with the Infectious diseases and immunisation policy and must also complete: the Infectious diseases and immunisation declaration form; a first aid certificate; a National police record check. For more information: www.sc.mdhs.unimelb.edu.au/policies

- Bachelor of Music: 3 years full time study
- Bachelor Degree (Honours) in Music: 1 year full time study

**About the course:** The Bachelor of Music offers you a rich range of choices, experiences, career outcomes and graduate pathways. As a Bachelor of Music student you will benefit from a highly flexible degree that can be tailored to meet your interests, skills and needs in preparation for your musical future.

Following a performance-based, common first-year experience, you'll have the opportunity to follow a major pathway, retaining flexibility to move between majors and keeping your graduate study options open. Our wide range of electives allows you to tailor your degree and complement your major, with options including an extensive ensemble program, specialised applied skills, and music culture and context subjects ranging from Early Music and Musics of the World, to Art Music and Postmodernism and Music and Film.

You will learn from some of the most committed, talented and experienced teachers in Australia and play an active part in the musical life of the Melbourne Conservatorium of Music and the city of Melbourne.

**Major studies:** Composition, Ethnomusicology, Music performance, Musicology.

**Prerequisites:** Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL.

**Middle-band:** None

**Selection Mode:** CY12: ATAR, Supplementary form (All), Audition (All). See extra requirements for more information.

NY12: Educational History including GPA, Supplementary form (All), Audition (All), STAT (Some). See extra requirements for more information.

**Extra requirements:**

- Supplementary form (CY12-All, NY12-All): Applicants must complete and submit a Supplementary application form. This form is only available to applicants via the link included in the VTAC application acknowledgment email or in the VTAC user account messages. The Supplementary application form must be completed and submitted by 5pm 27 September. Applicants must pay an additional assessment fee of $65 with their Supplementary application form.

- Audition (CY12-All, NY12-All): The selection process includes an audition and musicianship test. Applicants will be advised of their audition schedule by early November and will attend a live audition and musicianship test in late November/early December. Applicants from overseas, interstate and regional Victoria may submit an audition recording in DVD format. The musicianship test comprises aural and theory components - no preparation is required.

- STAT (NY12-Some): Applicants eligible for the Non-school leaver entry pathway who wish to use a general aptitude test for entry must complete the STAT (both the STAT Multiple Choice and the STAT Written English
sections) or the SAT (all sections of the SAT Reasoning Test, consisting of Critical Reading, Mathematics and Writing).

Note: Late applications will not be accepted after 8 November. Applicants who miss the timely closing date of 27 September will not be guaranteed a live audition. Applicants should check with the Melbourne Conservatorium of Music that tuition is available in their preferred instrument.

Parkville: 3800539043 (IFP) full-time  
Apply: [Through VTAC](http://www.wss8.vtac.edu.au/courses-inst/institutions/topdf/unimelb.html) main round

- Bachelor of Music (Chancellor's Scholars Program): 3 years full time study
- Bachelor Degree (Honours) in Music: 1 year full time study

**About the course:** The Chancellor's Scholars Program provides an exciting opportunity for very high-achieving students. You will participate in an academic enrichment program alongside your Bachelor of Music. Domestic students receive a Melbourne National Scholarship, and international students are considered for International Undergraduate Scholarships. In addition, you will be guaranteed access to a Global Scholars Award during your undergraduate studies. You will also be guaranteed a place in the graduate course of your choice (subject to meeting prerequisites). This guarantee includes the University of Melbourne's flagship graduate degrees such as the Juris Doctor (Law) and the Master of Teaching.

**Major studies:** Composition, Ethnomusicology, Music performance, Musicology.

**Prerequisites:** Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL.

**Middle-band:** None

**Selection Mode:** CY12: ATAR, Supplementary form (All), Audition (All). See extra requirements for more information.

**Extra requirements:**

Supplementary form (CY12-All): Applicants must complete and submit a Supplementary application form. This form is only available to applicants via the link included in the VTAC application acknowledgment email or in the VTAC user account messages. The Supplementary application form must be completed and submitted by 5pm 27 September. Applicants must pay an additional assessment fee of $65 with their Supplementary application form.

Audition (CY12-All): The selection process includes an audition and musicianship test. Applicants will be advised of their audition schedule by early November and will attend a live audition and musicianship test in late November/early December. Applicants from overseas, interstate and regional Victoria may submit an audition recording in DVD format. The musicianship test comprises aural and theory components - no preparation is required.

Note: Late applications will not be accepted after 8 November. Applicants who miss the timely closing date of 27 September will not be guaranteed a live audition. Applicants should check with the Melbourne Conservatorium of Music that tuition is available in their preferred instrument. Note: Applicants must have completed an Australian Year 12 or the IB in Australia in the year prior to entry (students must either enrol immediately or be granted a deferral in the year following Year 12). An ATAR (or notional ATAR) of 99.90 or above is likely to be the academic standard required for entry.

### Music (Performance Teaching) (Master of) (Grad)
Master of Music (Performance Teaching): 1.5 year full time study

About the course: The Master of Music (Performance Teaching) is a specialist coursework degree enabling graduates in Western classical and contemporary music to work as performer-teachers in a variety of situations including community, private provider and further education settings and as instrumental or vocal instructors in schools.

The course includes advanced music performance tuition, second instrument studies, ensemble participation and conducting, alongside performance-teaching pedagogy studies (with associated professional practice) and a comprehensive range of elective subjects. The course also offers the opportunity for primary level Suzuki Teacher Accreditation through an elective subject.

The course will enable you to obtain advanced standing with a range of tertiary education providers, leading to VIT teacher registration after approximately 6 months of further study.

Applicants may be eligible for Graduate Access Melbourne - for more information: www.gradaccess.unimelb.edu.au

Major studies: Music, Performance teaching.

Prerequisites: Bachelor degree - refer to: www.conservatorium.unimelb.edu.au/grad/mmusperfteach/applications.

Middle-band: None

Selection Mode: NY12 : Educational History including GPA, Audition (Some), English language test (All). See extra requirements for more information.

Extra requirements:
Audition (NY12-Some): An audition and interview is required for applicants who have not studied with the Melbourne Conservatorium of Music previously. An audition and interview is also required for applicants who have studied with the Melbourne Conservatorium of Music previously but graduated more than 12 months prior to applying for this course. For further details about the audition and interview: www.conservatorium.unimelb.edu.au/grad/mmusperfteach/applications

English language test (NY12-All): All applicants must satisfy the University’s English language requirements to be eligible for a place. For more information: www.futurestudents.unimelb.edu.au/english-requirements

Nursing Science (Master of) (Grad)

Master of Nursing Science: 2 years full time study

About the course: The Master of Nursing Science is a professional masters degree that will prepare you for a nursing career. It offers a higher level degree with enhanced learning outcomes while meeting the requirements for nursing registration.

The degree is intensive and accelerates your nursing education, allowing for completion in two years. The program includes a high ratio of clinical hours to theory, which means you graduate with plenty of hands-on practice to prepare for employment. Our clinical placements are in major metropolitan teaching hospitals ensuring the best clinical practice opportunities and clinical collaborations.
On graduation you will find career opportunities in general, specialty and advanced practice. You can also work towards a career in management, education and research. Nursing is a portable qualification, ideal if you are interested in working in Victoria, interstate or overseas.

Applicants should preferably have some grounding at a tertiary level in human anatomy before commencing the course. Students without such grounding can take the online subject Human Anatomy for Nursing Students to prepare for the course.

Applicants may be eligible for Graduate Access Melbourne - for more information: [www.gradaccess.unimelb.edu.au](http://www.gradaccess.unimelb.edu.au)

**Major studies:** Clients with acute and chronic illness, Clients with complex health states, Clinical inquiry and nursing research, Contemporary nursing, Foundations of nursing, Mental health and illness, Nursing as practice, Nursing assessment and care, Nursing research, Nursing science.

**Prerequisites:** Bachelor degree - refer to: [www.nursing.unimelb.edu.au/future_students/master_of_nursing_science](http://www.nursing.unimelb.edu.au/future_students/master_of_nursing_science).

**Selection Mode:** NY12 : Educational History including GPA, English language test (All), Personal statement. See extra requirements for more information.

**Extra requirements:**

- English language test (NY12-All) : All applicants must satisfy the University's English language requirements to be eligible for a place. For more information: [www.futuresstudents.unimelb.edu.au/english-requirements](http://www.futuresstudents.unimelb.edu.au/english-requirements)
- Personal statement and referees: All applicants must submit a personal statement; and two professional referees.

**SUCCESSFUL APPLICANTS:** Police check, working with children check, certificate, competency, online learning and vaccination: Successful applicants must comply with the School's requirements for: a National Police Record Check; a Working With Children Check; a Level 2 first aid certificate; and infectious diseases vaccination. For more information: [www.nursing.unimelb.edu.au/future_students/master_of_nursing_science/admission_requirements](http://www.nursing.unimelb.edu.au/future_students/master_of_nursing_science/admission_requirements)

**Optometry (Doctor of) (Grad)**

**University Of Melbourne (The)**

- **Parkville:** Commonwealth-supported places full-time: [Direct to institution](http://www.wss8.vtac.edu.au/courses-inst/institutions/topdf/unimelb.html)
- **Parkville:** Domestic fee-paying places full-time: [Direct to institution](http://www.wss8.vtac.edu.au/courses-inst/institutions/topdf/unimelb.html)
- **Parkville:** International fee-paying places full-time: [Direct to institution](http://www.wss8.vtac.edu.au/courses-inst/institutions/topdf/unimelb.html)

- Doctor of Optometry: 4 years full time study

**About the course:** The Doctor of Optometry is an internationally recognised masters degree that offers substantially more clinical experience than any other optometry course in Australasia. This course is a combination of on-campus teaching, clinical placements and a research project. As a student you can access international and national externship opportunities. Clinical studies commence in first year and gradually increase to full-time in the final year, enabling you to develop your clinical investigation skills throughout the course. Later stages focus on advanced clinical skills and evidence-based practice through on and off-campus placements.

On graduation, you may initially choose to work in an established practice or operate your own practice. Other potential careers include research in academia, research in industry and roles in companies that market and supply goods to the profession.

Applicants may be eligible for Graduate Access Melbourne - for more information refer to: [www.gradaccess.unimelb.edu.au](http://www.gradaccess.unimelb.edu.au)

**Major studies:** Optometry.

**Prerequisites:** Bachelor degree - refer to: [www.graduate.science.unimelb.edu.au/doctor-of-optometry](http://www.graduate.science.unimelb.edu.au/doctor-of-optometry).

**Middle-band:** None
Selection Mode: NY12 : Educational History including GPA, Test (All), English language test (All), Personal statement. See extra requirements for more information.

Extra requirements:

Test (NY12-All) : Applicants must complete the Graduate Australian Medical School Admissions Test (GAMSAT) or, for international students residing outside Australia, the Medical College Admissions Test (MCAT) or the Optometry Admissions Test (OAT) before applying (results are valid for two years).

English language test (NY12-All) : All applicants must satisfy the University's English language requirements to be eligible for a place. For more information: www.futurestudents.unimelb.edu.au/english-requirements

Personal statement: All applicants must submit a personal statement, for more information refer to: www.graduate.science.unimelb.edu.au/doctor-of-optometry

- Bachelor of Oral Health: 3 years full time study
- Bachelor Degree (Honours) in Oral Health: 1 year full time study

About the course: As a Bachelor of Oral Health student, you will develop all the scientific, theoretical and clinical skills required for practice as an oral health therapist (which includes both dental hygienist and dental therapist practice).

The Bachelor of Oral Health trains you to work within a dental team and qualifies you for professional registration with the Dental Board of Australia. Clinical and health sciences start in first year, with practical classes in the Melbourne Dental School and clinical sessions in the Royal Dental Hospital of Melbourne, other community health centres major hospitals in Melbourne and some urban and rural and regional public clinics. Some of the clinical dentistry and vocational practice is undertaken outside the academic semesters.

Major studies: Clinical and preventive dentistry, Dental and health sciences, Social sciences and health promotion, Vocational clinical practice.

Prerequisites: Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL; and a study score of at least 25 in one of Biology or Chemistry.

Middle-band: None

Selection Mode: CY12 : ATAR, Interview (Some). See extra requirements for more information.

NY12 : Educational History including GPA, STAT (Some). See extra requirements for more information.

Extra requirements:

Interview (CY12-Some) : Applicants under the age of 17 as at 31 March 2014 may be required to attend an interview to determine whether their age may adversely affect their ability to successfully undertake the course. The School will contact students directly with further instructions.

STAT (NY12-Some) : Applicants eligible for the Non-school leaver entry pathway who wish to use a general aptitude test for entry must complete the STAT (both the STAT Multiple Choice and the STAT Written English sections) or the SAT (all sections of the SAT Reasoning Test, consisting of Critical Reading, Mathematics and Writing).

SUCCESSFUL APPLICANTS: Certificate, police check, policy and working with children check: Students must comply with the School's requirements for first aid certificates, police checks, the Infectious Diseases and
Physiotherapy (Doctor of) (Grad)

University Of Melbourne (The)

- Parkville: Commonwealth-supported places full-time: Apply: Direct to institution
- Parkville: Domestic fee-paying places full-time: Apply: Direct to institution
- Parkville: International fee-paying places full-time: Apply: Direct to institution

- Doctor of Physiotherapy: 3 years full time study

About the course: The Doctor of Physiotherapy is a three-year entry-to-practice masters-level program. Building on your prior learning at an undergraduate level, the program provides you with a comprehensive, integrated course in the theory and practice of physiotherapy to assess, diagnose and treat disorders of human movement. With highly qualified lecturers, mentors, and connections with leading hospitals, research institutes and the private sector, the program is designed to meet the current and future needs of students, patients and the changing nature of the health workforce.

You will be prepared for the changing roles of the physiotherapist in areas such as acute care, private practice, sports physiotherapy, chronic disease management, health promotion and emergency medicine. Graduates can pursue careers in a range of health settings including hospitals, private practice, sporting and rehabilitation facilities, community organisations, and as advisors to government or industry bodies.

Applicants may be eligible for Graduate Access Melbourne - for more information: www.gradaccess.unimelb.edu.au

Prerequisites: Bachelor degree - refer to: www.physioth.unimelb.edu.au/entry_to_practice/doctor_of_physiotherapy.

Middle-band: None

Selection Mode: NY12: Educational History including GPA, Interview (All), English language test (All). See extra requirements for more information.

Extra requirements:

Interview (NY12-All): All shortlisted applicants are required to attend a multi-mini interview. For more information: www.physioth.unimelb.edu.au/entry_to_practice/doctor_of_physiotherapy

English language test (NY12-All): All applicants must satisfy the University’s English language requirements to be eligible for a place. For more information: www.futurestudents.unimelb.edu.au/english-requirements

Property (Master of) (Grad)

University Of Melbourne (The)

- Parkville: Commonwealth-supported places full-time/part-time: Apply: Direct to institution
- Parkville: Domestic fee-paying places full-time/part-time: Apply: Direct to institution
- Parkville: International fee-paying places full-time: Apply: Direct to institution

- Master of Property: 2 years full time study

About the course: The Master of Property focuses on real-world projects which range across the full property and development cycle, preparing students for the realities of professional life. This program is a professional degree for graduates wanting to gain employment in the property industry.
The Master of Property provides advanced study in property valuation and analysis, development and management of property, and professional practice in a property context.

You can enhance this fundamental knowledge with six property electives and two cross-disciplinary courses from the relevant fields of urban design, urban planning, architecture and landscape architecture. This means you enter the workforce with a well-rounded knowledge base and the skills to work effectively in multidisciplinary project teams. Graduates with a property specialisation find employment as property valuers, land economists, property managers, property analysts, property investment advisers and property development advisers.

The Master of Property offers you flexibility so you can take a two-year program if you already have a three-year undergraduate degree in property or the three-year program if your first degree is not in property and you are making a career change. Full requirements and prerequisites can be found here: www.msd.unimelb.edu.au/master-property/entry-requirements

Applicants may be eligible for Graduate Access Melbourne - for more information refer to: www.gradaccess.unimelb.edu.au

**Major studies:** Advanced property analysis, Facility management, Property agency and marketing, Property development, Property law, Statutory valuation, The economies of cities and regions.

**Prerequisites:** Bachelor degree - refer to: www.msd.unimelb.edu.au/master-property.

**Middle-band:** None

**Selection Mode:** NY12 : Educational History including GPA, Interview (Some), English language test (All), Personal statement. See extra requirements for more information.

**Extra requirements:**

Interview (NY12-Some) : The selection committee may conduct interviews and tests and may call for referee reports and employer references. Applicants required to attend an interview, sit a test or submit referee reports will be contacted.

English language test (NY12-All) : All applicants must satisfy the University’s English language requirements to be eligible for a place. For more information: www.futurestudents.unimelb.edu.au/english-requirements

Personal statement: All applicants must submit a personal statement of up to 1000 words. For more information refer to: www.msd.unimelb.edu.au/property/master-of-property.html.

---

**Psychology (Master of) (Grad)**

**University Of Melbourne (The)**

- Parkville: Commonwealth-supported places full-time Apply: Direct to institution
- Parkville: Domestic fee-paying places full-time Apply: Direct to institution
- Parkville: International fee-paying places full-time Apply: Direct to institution

- Master of Psychology: 2 years full time study

**About the course:** The Master of Psychology (Clinical, and Clinical Neuropsychology) aims to provide students with a strong knowledge base in the theoretical, conceptual and empirical foundations of psychology and in the skills relevant to the various areas of professional practice, supervised practical experience, and research training in the area of professional specialisation.

The academic members of the clinical teaching staff are active in both clinical work and research collaborations in a wide variety of clinical domains and the program provides the opportunity to access a wide range of clinical placement settings and research programs. The range and breadth of expertise of our staff creates an exciting range of placements and research opportunities across diverse and innovative clinical programs. Developing collaborations across health settings allow the possibility of multi-site research.

Applicants may be eligible for Graduate Access Melbourne - for more information refer to: www.gradaccess.unimelb.edu.au
Major studies: Adult neuropsychological disorders, Advanced psychological practice, Basic interventions, Biological psychology and pharmacotherapy, Child neuropsychological disorders, Child psychopathology, Clinical placements, Clinical skills in neuropsychology, Cognitive behaviour therapy, Cognitive neuroscience and disorders, Ethics and professional issues, Graduate research methods, Mental health issues across the lifespan, Neuroanatomy for neuropsychologists, Neuropsychological rehabilitation, Principles of psychological assessment, Psychology of health problems, Psychosocial perspectives on disorders.

Prerequisites: Four-year bachelor degree with accredited Psychology major: www.psych.unimelb.edu.au/study/professional-masters-programs.

Middle-band: None

Selection Mode: NY12 : Educational History including GPA, Interview (All), English language test (All), Referee reports. See extra requirements for more information.

Extra requirements:
Interview (NY12-All) : All shortlisted applicants may be required to attend an interview.
English language test (NY12-All) : All applicants must satisfy the University's English language requirements to be eligible for a place. For more information: www.futurestudents.unimelb.edu.au/english-requirements
Referee reports: All applicants are required to submit referee reports. For more information about extra requirements refer to: www.psych.unimelb.edu.au/study/professional-masters-programs.

- Bachelor of Science: 3 years full time study
- Bachelor Degree (Honours) in Science: 1 year full time study

About the course: The Bachelor of Science is a comprehensive program spanning science, health science, technology and engineering systems at the cutting edge of new technology and knowledge. It provides you with the opportunity to tailor a program of study to suit your individual strengths and career goals.

As well as preparing you for a professional career in science, the Bachelor of Science is also the first step towards a career in fields such as scientific research, engineering, veterinary science or health practice, which can be pursued through further study. This course is an ideal pathway, along with the Bachelor of Biomedicine, to graduate professional entry programs in dental science, medicine, nursing, optometry and physiotherapy. It is also the shortest pathway to the Doctor of Veterinary Medicine at Melbourne.

Major studies: Agricultural science, Animal health and disease, Animal science and management, Atmosphere and ocean sciences, Biochemistry and molecular biology, Bioengineering systems (Biomedical engineering), Biotechnology, Cell and developmental biology, Chemical systems (Chemical/Biomolecular engineering), Chemistry, Civil systems (Civil/Structural engineering), Computing and software systems, Ecology and evolutionary biology, Electrical systems (Electrical/Mechatronics engineering), Environmental science, Food science, Genetics, Geography, Geology, Geomatics (Geomatic engineering/surveying), Human structure and function, Informatics, Marine biology, Mathematical physics, Mathematics and statistics, Mechanical systems (Mechanical/Mechatronics engineering), Microbiology infection and immunology, Neuroscience, Pathology, Pharmacology, Physics, Physiology, Plant science, Psychology, Zoology.

Prerequisites: Units 3 and 4; a study score of at least 30 in English (EAL) or 25 in English other than EAL; and a study score of at least 25 in one of Maths: Mathematical Methods (CAS) or Maths: Specialist Mathematics; and a study score of at least 25 in one of Biology, Chemistry, Maths: Mathematical Methods (CAS), Maths: Specialist
Mathematics or Physics.

**Middle-band:** None

**Selection Mode:** CY12 : ATAR.

NY12 : Educational History including GPA, STAT (Some). See extra requirements for more information.

**Extra requirements:**

STAT (NY12-Some) : Applicants eligible for the Non-school leaver entry pathway who wish to use a general aptitude test for entry must complete the STAT (both the STAT Multiple Choice and the STAT Written English sections) or the SAT (all sections of the SAT Reasoning Test, consisting of Critical Reading, Mathematics and Writing).

Note: Applicants intending to major in Animal health and disease (the shortest pathway to the Doctor of Veterinary Medicine) are encouraged to complete Units 3 and 4 Chemistry.

Science (Master of) (Grad)

University Of Melbourne (The)
Parkville: Commonwealth-supported places full-time/part-time  Apply: Direct to institution
Parkville: Domestic fee-paying places full-time/part-time  Apply: Direct to institution
Parkville: International fee-paying places full-time  Apply: Direct to institution
- Master of Science: 2 years full time study

About the course: The Master of Science is a suite of programs providing options in advanced research training, specialised coursework studies and professional skills development. Designed in consultation with national and international educators, as well as government and industry employers, this course will prepare you for a career in industry and research.

As a pathway to PhD studies, the Master of Science has a key component in the form of a research project. This provides ideal preparation for potential research higher degree studies, or sufficient expertise for graduates to be considered experts in a scientific field.

Applicants may be eligible for Graduate Access Melbourne - for more information: www.gradaccess.unimelb.edu.au

Major studies: Bioinformatics, Biomedical and health sciences, Botany, Chemistry, Computer science, Earth sciences, Epidemiology, Genetics, Geography, Mathematics and statistics, Physics, Vision sciences, Zoology.

Prerequisites: Bachelor degree - refer to: www.graduate.science.unimelb.edu.au/master-of-science.

Social Work (Master of) (Grad)

University Of Melbourne (The)
Parkville: Commonwealth-supported places full-time/part-time  Apply: Direct to institution
Parkville: Domestic fee-paying places full-time/part-time  Apply: Direct to institution
Parkville: International fee-paying places full-time  Apply: Direct to institution
- Master of Social Work: 2 years full time study

About the course: The Master of Social Work prepares you for professional practice in a diverse range of social work contexts, providing a nationally and internationally recognised course of study in the theory and practice of social work.

You will benefit from our research-led teaching, based on up-to-date research that will allow you to apply the most relevant theory to your social work practice.
We offer mixed teaching methods: lectures, tutorials, seminars, collaborative learning and practice simulations. This ensures a rich and diverse learning environment that is inclusive. Our interview simulation rooms will allow you to practice and review your skills in a safe environment before commencing your fieldwork placements.

This program is one of the first masters degrees accredited nationally by the Australian Association of Social Workers (AASW). A masters degree in social work is a portable qualification, enabling graduates to work locally, nationally or internationally.

Applicants may be eligible for Graduate Access Melbourne - for more information: www.gradaccess.unimelb.edu.au

**Major studies:** Assessing risk and vulnerability, Child and family social work, Communication and interviewing skills, Direct practice with individuals, Lifespan risk and resilience, Program planning and evaluation, Researching social work practice, Social policy for social work practice, Social work practice with the elderly, Supervised field placements, The legal and ethical context of practice, Working in human services organisations, Working with families, Working with groups and communities.

**Prerequisites:** Bachelor degree - refer to: www.socialwork.unimelb.edu.au/future_students/master_of_social_work.

**Middle-band:** None

**Selection Mode:** NY12 : Educational History including GPA, Interview (Some), Work experience (Some), English language test (All), Personal statement. See extra requirements for more information.

**Extra requirements:**

Interview (NY12-Some) : The selection committee may conduct interviews and tests and may call for referee reports and employer references.

Work experience (NY12-Some) : All applicants must provide evidence of relevant paid or volunteer work experience of at least 40 hours over a three-month duration. For more information: www.futurestudents.unimelb.edu.au/english-requirements

English language test (NY12-All) : All applicants must satisfy the University's English language requirements to be eligible for a place.

---

**Speech Pathology (Master of) (Grad)**

**University Of Melbourne (The)**

- **Parkville: Commonwealth-supported places full-time** Apply: [Direct to institution](#)
- **Parkville: Domestic fee-paying places full-time** Apply: [Direct to institution](#)
- **Parkville: International fee-paying places full-time** Apply: [Direct to institution](#)

- Master of Speech Pathology: 2 years full time study

**About the course:** Speech pathology is the clinical science concerned with the assessment, treatment and management of communication and swallowing disorders in infants, children and adults. The course is designed to provide comprehensive training in all aspects of the field, making you ready to enter the profession. It offers exposure to Australia’s best academic and clinical teaching across paediatric, adolescent and adult populations.

The first year provides the background in anatomy and physiology, auditory and acoustic phonetics, linguistics, speech and language disorders, clinical practice and processes. The second year builds on the specialised knowledge acquired, develops clinical skills and introduces you to research methods in the field.

The course comprises lectures, seminars, practical work and a substantial clinical component. You will attend approximately 400 hours of supervised clinical work and gain clinical experience at various metropolitan and rural health care and educational facilities.

Applicants may be eligible for Graduate Access Melbourne - for more information refer to: www.gradaccess.unimelb.edu.au
Major studies: Anatomy and physiology, Articulatory and acoustic phonetics, Clinical processes, Communication across the lifespan, Complex case models in speech pathology, Determinants of good health, Disorders of fluency, Independent studies in speech pathology, Introduction to linguistics, Language disorders across the lifespan, Planning and integrating intervention, Professional issues and practice, Research methods, Speech and language disorders, Speech disorders across the lifespan, Speech pathology practice, Swallowing and voice.

Prerequisites: Bachelor degree - refer to: www.coursesearch.unimelb.edu.au/pathways/14-speech-pathology.

Middle-band: None

Selection Mode: NY12 : Educational History including GPA, Interview (Some), English language test (All). See extra requirements for more information.

Extra requirements:
Interview (NY12-Some) : The selection committee may conduct interviews and tests and may call for referee reports and employer references. Applicants who are required to attend an interview, sit a test or submit referee reports will be contacted.

English language test (NY12-All) : All applicants must satisfy the University’s English language requirements to be eligible for a place. For more information: www.futurestudents.unimelb.edu.au/english-requirements

Teaching (Early Childhood/Early Years) (Master of) (GET)

University Of Melbourne (The)
Parkville: 3800596201 (CSP) full-time Apply: Through VTAC main round

Parkville: 3800596202 (DFP) full-time Apply: Through VTAC main round

• Master of Teaching (Early Childhood/Early Years): 2 years full time study

About the course: This course qualifies graduates from any discipline as early childhood teachers. Its innovative curriculum brings together theory and practice to give you powerful insights into children and how they learn. It will prepare you to meet the requirements for working in Early Childhood and Primary settings. Completion of the first three semesters will qualify you with a Postgraduate Diploma in Teaching (Early Childhood) and to work in childcare and pre-school settings. A fourth semester of study is taken to complete either the Master of Teaching (Early Childhood), for an advanced specialisation; or the Master of Teaching (Early Years) focusing on the early years of primary school.

Studies in the first three semesters comprise professional practice (at least 60 days), and academic subjects including child development, curriculum, pedagogy and assessment and the early childhood profession. Options available for fourth semester include an early years program, a professional development program, or a research option. Fourth semester may be available part-time.

Applicants may be eligible for Graduate Access Melbourne - for more information refer to: www.gradaccess.unimelb.edu.au

Double teaching areas
212: Early Childhood

Prerequisites: Bachelor degree - refer to: www.education.unimelb.edu.au/study_with_us/become_a_teacher/early_childhood.

Middle-band: None

Selection Mode: NY12 : Educational History including GPA, Teacher Selector test and questionnaire (All), English language test (All). See extra requirements for more information.

Extra requirements:
Teacher Selector test and questionnaire (NY12-All) : All applicants must complete the Teacher Selector test and questionnaire. The test and questionnaire is only available to applicants via the link included in the VTAC
Teaching (Primary) (Master of) (GET)

University Of Melbourne (The)

| Parkville: 3800596221 (CSP) full-time | Apply: Through VTAC | main round |
| Parkville: 3800596222 (DFP) full-time | Apply: Through VTAC | main round |

- Master of Teaching (Primary): 2 years full time study

About the course: This qualification prepares you for the specialist requirements of primary teaching. Upon completion of the course, you will be qualified for provisional registration with the Victorian Institute of Teaching (VIT) to teach across the primary years, and you will have specialist knowledge in literacy and numeracy education.

Studies in the first three semesters comprise of theory and practice of education, specific studies in how best to promote learning in each of the Victorian Essential Learning Standards (VELS) disciplines (except Languages Other Than English - LOTE), and in physical, social and personal aspects of learning, and at least 60 days of supervised school experience, supplemented by additional work in schools. In the fourth semester, students undertake a specialised in-depth applied study of literacy and numeracy in a school-based program that will include detailed case-studies.

Applicants may be eligible for Graduate Access Melbourne - for more information refer to: www.gradaccess.unimelb.edu.au

Single teaching areas
109: Extended Discipline Studies in Middle Schooling

Double teaching areas
210: Primary

Prerequisites: Bachelor degree - refer to: www.education.unimelb.edu.au/study_with_us/become_a_teacher/primary.

Middle-band: None

Selection Mode: NY12: Educational History including GPA, Teacher Selector test and questionnaire (All), English language test (All). See extra requirements for more information.

Extra requirements:
Teacher Selector test and questionnaire (NY12-All): All applicants must complete the Teacher Selector test and questionnaire. The test and questionnaire is only available to applicants via the link included in the VTAC application acknowledgment email or in the VTAC user account messages.

English language test (NY12-All): All applicants must satisfy the University's English language requirements to be eligible for a place. For more information: www.futurestudents.unimelb.edu.au/english-requirements

(Minimum scores required for IELTS academic are Speaking=7.0, Writing=7.0, Reading=7.0, Listening=7.0, and Overall=7.0 or for TOEFL are Speaking=24.0, Writing=24.0, Reading=27.0, Listening=24.0, and Overall=94.0)

Note: All offers are provisional pending sighting of an original/certified copy of your undergraduate degree course completion statement. This must be presented at the time of enrolment. Deferment is not available.
Master of Teaching (Secondary): 2 years full time study

About the course: This qualification prepares you for the specialist requirements of secondary teaching. Completion of the first year qualifies you with a Postgraduate Diploma in Teaching (Secondary), includes at least 60 days of professional practice and allows you to teach in secondary schools. An additional semester of study can be taken to complete the Master of Teaching (Secondary).

Studies in the first year comprise theory and practice of education, specific studies in how best to promote learning in your chosen teaching areas, and supervised school experience, supplemented by additional work in schools. Options available for the final semester include an induction program, research training, or further specialist study. Some options are available part-time over two semesters.

Applicants may be eligible for Graduate Access Melbourne - for more information refer to: www.gradaccess.unimelb.edu.au

Single teaching areas

Double teaching areas
205: Music
207: Visual Arts

Notes
0: The offering of all teaching methods depends upon viable class sizes.
1: The languages available are Chinese, French, German, Hebrew, Indonesian, Italian, Japanese, Latin or Spanish.

Prerequisites: Bachelor degree - refer to: www.education.unimelb.edu.au/study_with_us/become_a_teacher/secondary.

Selection Mode: NY12: Educational History including GPA, Audition (Some), Teacher Selector test and questionnaire (All), English language test (All). See extra requirements for more information.

Extra requirements:
Audition (NY12-Some): Applicants for the Music teaching method are required to attend an audition and interview. Details about the audition and interview will be sent to applicants in November. Applicants must attend in late November/early December. Interstate and regional Victorian applicants may submit a recorded audition. Interviews will be held during the audition period and it will be necessary for applicants to book. Telephone interviews may be available for some applicants.

Teacher Selector test and questionnaire (NY12-All): All applicants must complete the Teacher Selector test and
English language test (NY12-All): All applicants must satisfy the University's English language requirements to be eligible for a place. For more information: www.futurestudents.unimelb.edu.au/english-requirements

(Minimum scores required for IELTS academic are Speaking=7.0, Writing=7.0, Reading=7.0, Listening=7.0, and Overall=7.0 or for TOEFL are Speaking=24.0, Writing=27.0, Reading=24.0, Listening=24.0, and Overall=94.0)

Note: All offers are provisional pending sighting of an original/certified copy of your undergraduate degree course completion statement. This must be presented at the time of enrolment. Deferment is not available.

Urban Design (Master of) (Grad)

University Of Melbourne (The)

Parkville: Commonwealth-supported places full-time/part-time  Apply: Direct to institution
Parkville: Domestic fee-paying places full-time/part-time  Apply: Direct to institution
Parkville: International fee-paying places full-time  Apply: Direct to institution

- Master of Urban Design: 2 years full time study

About the course: The Master of Urban Design is a collaborative, multi-disciplinary program which focuses on the processes that shape the physical setting for life in urban environments. It involves the design of buildings, groups of buildings, spaces and landscapes, and the establishment of frameworks and processes that facilitate successful development.

In the Master of Urban Design you will get an excellent grounding in urban design theory and complete three intensive design studios to develop expert urban design skills. Through the studios you will explore the importance of place, undertaking fieldwork with professional practice and the wider community to gain practical experience which you can immediately apply in your urban design career.

In this degree you will work closely with fellow students and expert faculty across urban design, planning and landscape architecture, collaborating to come up with innovative urban design solutions.

Graduates work locally and globally in urban design and associated planning roles in: planning authorities such as city councils, architecture practices, landscape architecture practices and planning practices.

Applicants may be eligible for Graduate Access Melbourne - for more information: www.gradaccess.unimelb.edu.au

Major studies: Land use and urban design, Planning law and statutory planning, Planning urban sustainability, Strategic planning, Urban design history, Urban design studios, Urban design theory.

Prerequisites: Bachelor degree - refer to: www.msd.unimelb.edu.au/master-urban-design.

Middle-band: None

Selection Mode: NY12: Educational History including GPA, Folio (All), Interview (Some), English language test (All). See extra requirements for more information.

Extra requirements:

Folio (NY12-All): Applicants must submit a design portfolio in a format specified by the selection committee. For more information: www.msd.unimelb.edu.au/master-urban-design/entry-requirements

Interview (NY12-Some): The selection committee may conduct interviews or tests and may call for referee reports and employer references. Applicants required to attend an interview, sit a test or submit referee reports will be contacted.

English language test (NY12-All): All applicants must satisfy the University's English language requirements to be eligible for a place. For more information: www.futurestudents.unimelb.edu.au/english-requirements

Urban Planning (Master of) (Grad)
Master of Urban Planning: 2 years full time study

About the course: The Master of Urban Planning prepares students to be professionals who will address pressing urban issues, both locally and internationally. It is an accredited professional degree that focuses on Australian and international policy and planning pertaining to human settlements. Planners promote the establishment of economically viable, socially just, environmentally sustainable, safe and healthy human settlements.

This program provides professional training in urban planning with the opportunity to specialise in one of three areas, while maintaining breadth by taking electives throughout the Faculty and University. The program recognises the importance of interdisciplinary learning and, in addition to a wide array of electives, includes interdisciplinary studio options. Many Master of Urban Planning graduates enter the public sector and work in government departments and agencies, or for local councils and regions. Graduates will work with teams of related professionals such as architects, landscape architects, engineers, environmental scientists, economists, property valuers, real estate developers, lawyers and sociologists.

The program also recognises the importance of being able to carry out and communicate research on planning policy and practice, including a compulsory analytical methods subject and a minor research thesis.

Applicants may be eligible for Graduate Access Melbourne - for more information refer to: www.gradaccess.unimelb.edu.au

Major studies: Environmental planning, International development planning, Lands use and urban design, Planning history and theory, Planning law and statutory planning, Planning urban sustainability, Social and community planning, Strategic planning, Urban development and planning, Urban governance, Urban planning.

Prerequisites: Bachelor degree - refer to: www.msd.unimelb.edu.au/master-urban-planning.

Middle-band: None

Selection Mode: NY12: Educational History including GPA, Interview (Some), English language test (All), Personal statement. See extra requirements for more information.

Extra requirements:

Interview (NY12- Some): The selection committee may conduct interviews and tests and may call for referee reports and employer references. Applicants required to attend an interview, sit a test or submit referee reports will be contacted.

English language test (NY12-All): All applicants must satisfy the University's English language requirements to be eligible for a place. For more information: www.futurestudents.unimelb.edu.au/english-requirements

Personal statement: All applicants must submit a personal statement of up to 1000 words. For more information refer to: www.msd.unimelb.edu.au/master-urban-planning/entry-requirements.

Veterinary Medicine (Doctor of) (Grad)
About the course: The Doctor of Veterinary Medicine is Australia's only postgraduate, professional-entry veterinary program. Accreditation by the Australasian Veterinary Boards Council, American Veterinary Medical Association and the Royal College of Veterinary Surgeons (UK) allows our graduates to work in many other countries without further qualification.

Our curriculum is informed by current international best practice in veterinary science, tertiary learning and teaching and provides a practical and hands-on focus, including a final year of lecture-free practical training in our world class Veterinary Hospital and via external placements.

The Doctor of Veterinary Medicine provides employment opportunities in private practice, government, research, tertiary and professional development education, pharmaceutical companies, agricultural industries and animal welfare agencies.

Applicants may be eligible for Graduate Access Melbourne - for more information: www.gradaccess.unimelb.edu.au

Prerequisites: Bachelor of Science degree or equivalent - refer to: www.vet.unimelb.edu.au/futurestudents/dvm.html.

Middle-band: None

Selection Mode: NY12: Educational History including GPA, English language test (All). See extra requirements for more information.

Extra requirements:

English language test (NY12-All): All applicants must satisfy the University's English language requirements to be eligible for a place. For more information: www.futurestudents.unimelb.edu.au/english-requirements
VFA Learning is one of Victoria’s leading Nationally Accredited Training Organisation that specialises in Fitness Training, Outdoor Recreation, Massage Therapy and Childcare Services courses.

We have proven success in delivering high quality and innovative courses, certificates and diplomas and are the benchmark in education in these exciting and rapidly growing industries. Students graduate with all the skills, knowledge and confidence needed to make a difference in people’s lives.

With a combined 15 years experience within the education industry, the people behind the VFA Learning know what is required for students to obtain and maintain work environment in the field they choose to be a part of. It is with this knowledge and experience that students will be job and industry ready.

10 REASONS WHY - THE VFA ADVANTAGE

1. Small class size - each class has a dedicated home room teacher to assist you every step of the way.
2. 15 Years in the education industry - Quality assured
3. Government Funding Available
4. Experiential Learning - Practical applications
5. Industry links - strong industry links combined with our job ready program will assist you to get the job you want.
6. High student completion rate
7. High student satisfaction level
8. Pathways to Higher Education. Our diplomas courses will provide you with a very cost effective way of getting to higher-ed. And give you skills to get a job whilst you study, we understand you need to work whilst you study for that degree!
10. Our trainers are leading industry experts who care!

School-based Apprenticeships/Traineeship

A School based Traineeship allow students to combine their Victorian Certificate of Education (VCE) or Victorian Certificate of Applied Learning (VCAL) with 7 hours a week of paid part-time work in their chosen industry. Work placement times are scheduled around school timetables and industry requirements.

Students are also released from their school timetable one afternoon each week to attend a Registered Training Organisation (RTO) where they complete their formal training. VFA learning offer training out of our 3 convenient locations in Essendon Fields, Geelong and Narre Warren. Successful completion of the traineeship also results in student receiving credits towards either their VCE or VCAL.

Fees

More information about the fees can be found on our website.

For more information: [http://vfalearning.vic.edu.au/about/fee-schedule](http://vfalearning.vic.edu.au/about/fee-schedule)
## Student Services

VFA Learning offer a range of services on offer including disability support, student learning management system, computer laboratory, online media library, gym and massage clinics. Access to Professional counseling support through Headspace.

## Client Welfare, Guidance and Support Services

All clients of VFA Learning are treated as individuals and are offered advice and support services which assist clients in achieving their identified outcomes. Support sessions are offered throughout the duration of your course.

Language, Literacy, Numeracy & Computer Skills Assessment.
When you study at Victoria University (VU) you join a community of more than 50,000 students from around the world studying courses from certificates and diplomas through to degrees, masters and PhDs. We are one of only a few Australian universities to combine higher education and vocational training so you can customise your studies based on your current level of education or next career move.

VU's heritage dates back to 1916 with the opening of Footscray Technical School. Following amalgamations with several tertiary institutes, we became a university in 1990. Today, VU has nine campuses spread across Melbourne's west and CBD as well as a campus in Sydney for international students.

A key part of a VU education is the work experience built into all of our courses, ensuring our students graduate career-ready. We also offer a comprehensive scholarship program that includes our new Chancellor's Scholarships for commencing students with a minimum ATAR of 90.

Each of our higher education colleges focuses on a broad discipline.

- **College of Arts**—offers students courses in arts, cultural studies, communication, community development, creative arts and industries, psychology, social science and social work.
- **College of Business**—has extensive networks with international partners, employers and alumni, making it one of the largest and most progressive business schools in Australia.
- **College of Education**—emphasises workplace experience in teacher education and youth work through its schools and community partnerships. We are one of the few Australian universities to offer a P-12 Bachelor of Education so graduates can teach at any school level.
- **College of Engineering and Science**—offers courses in architectural, building, civil, mechanical, electrical, and sports engineering, as well as in information technology, building surveying and science. Many programs have a team-based Problem-Based Learning approach that uses real-life challenges for teaching and learning.
- **College of Health and Biomedicine**—provides hands-on learning and research in nursing and midwifery, paramedics, osteopathy, nutrition, dermal therapies and beauty therapy. Most courses include learning in simulation labs, training clinics or salons for real-life career preparation.
- **College of Law and Justice**—provides education designed in consultation with legal professionals in all aspects of the law. The Victoria Law School operates from our City Queen Campus in the heart of Melbourne's legal district.
- **College of Sport and Exercise Science**—has been teaching courses in sport, physical education, recreation management, coaching and exercise science for almost 40 years. Courses are based mainly at our Footscray Park Campus, home of our new sport and learning precinct.

VU also has a strong and continuing commitment to trades training in building and construction, engineering and machining, and hairdressing and make-up through its Trades College.

Visit vu.edu.au or ring 1300 VICUNI

**Principles of selection**

Applicants are selected according to merit based on satisfaction of all admission requirements and
Werribee VIC 3030

Open days

- **Open Day (Footscray Park Campus):**
  - 25 August 2013, Time: 10:00am-4:00pm

Semester dates

- **VET - Semester 1:**
  - 10 February 2014 - 27 June 2014
- **Higher Education - Semester 1:**
  - 24 February 2014 - 23 May 2014
- **Higher Education - Winter option:**

demonstrated capacity to complete their chosen course/s. Course admission requirements are provided in the course entries and can be found on our website. Applicants who do not satisfy institutional entry requirements are encouraged to undertake some University study (Preparation for Tertiary Studies) and/or VET study.

For more information: [www.vu.edu.au/courses](http://www.vu.edu.au/courses)

**Current Year 12 students**

It is anticipated that applicants for degree courses that select by ATAR and a two-stage process using middle-band of approximately 20% will have a minimum ATAR consistent with that published in the relevant course entry. The ATAR required for admission may be higher than this minimum.

**Non-Year 12 applicants**

Applicants who are currently undertaking or have undertaken previous post-secondary studies (VET or Higher Education) will be considered based on their performance in these studies.

**Grade point average (GPA)**

Courses that list Grade Point Average in the selection mode for Non-Year 12 applicants, will consider GPAs in combination with the entire academic record and other selection criteria listed.

**Interviews**

Applicants who are required to attend an interview will be required to demonstrate a range of attributes, e.g. personal motivation, relevant experience or previous study, an understanding of the course and potential employment opportunities.

**VTAC Personal History online**

Applicants who are required to submit a VTAC Personal History online as part of the selection mode should include relevant details of their educational and any employment background and interest in the fields of study for which they are applying.

**Folio requirements**

Applicants required to submit a folio should note that work should be representative of their ideas and abilities, show originality, innovation, imagination, experimentation and competence in the basic skills for the course to which they are applying.

**Special consideration**

**Regional bonus**

Under our West +5 Scheme, the University may adjust upwards by 5 points the aggregate score of applicants completing year 12 at schools located in the Western Region. Students at each secondary college in the Western Region Council areas of Brimbank, Hobsons Bay, Hume, Maribyrnong, Melton, Moonee Valley and Wyndham will be eligible for this Bonus Scheme. For more information: [www.vu.edu.au/apply](http://www.vu.edu.au/apply)

**Special Entry Access Scheme**

Victoria University acknowledges that applicants come from a diverse range of backgrounds and life circumstances, including socio-economic, educational, cultural and linguistic, and that these factors affect an applicant's preparation for post-secondary study.

Through lodging a Special Entry Access Scheme (SEAS) application, eligible applicants are provided with the opportunity to apply for additional consideration under one
or more of the SEAS categories recognised by the University. In addition to completing a SEAS application, applicants must also complete and submit a VTAC course application, satisfy all requirements that are published in the relevant course entry and provide appropriate supporting evidence. For more information: www.vu.edu.au/gotovu

Advanced Standing and Credit Transfer

Advanced Standing (formerly described as Recognition of Prior Learning) is an assessment process that applies to individuals who may have prior study, or other relevant experience, but who do not have access to credit transfer arrangements for the chosen course. The Advanced Standing process recognises previous study by matching learning that has been achieved through study, life and work experience against learning that would be covered in specific subjects or modules. Students are encouraged to discuss possible applications with their course co-ordinator at enrolment. Credit transfer recognises a course or courses that a student has previously undertaken and enables the student to gain credit in another course. If eligible, students may receive exemptions from parts of the new course for units they have already studied. For more information: www.vu.edu.au/courses

Course Transfer

Currently enrolled VU students wishing to transfer to another course of study in the same or other College within the University must apply for admission to the intended course using the VU Apply Form, rather than apply through VTAC. The form is available from the website below. Where the course transfer is approved, the student will be withdrawn from the previous course and enrolled in the new course. For more information: www.vu.edu.au/apply

Part time courses

Applicants should check with the relevant College for part-time study availability and arrangements. Please note, part-time study does not necessarily mean that classes are available in the evening. Further information regarding application processes can be found on our website. For more information: www.vu.edu.au/courses

Fees and financial assistance

Students enrolling in Vocational Education and Training qualifications are subject to eligibility criteria for a government subsidised place. Further information regarding fees and eligibility criteria can be found at the Victoria Government website: www.skills.vic.gov.au or the Victoria University website: www.vu.edu.au/gotovu Victoria University sets a range of student contribution rates which will vary depending on the course and units of study that a student undertakes. Applicants are encouraged to visit the VU website below from 1 October 2013 to obtain information regarding the 2014 contribution rates and other course fees and charges. For more information: www.vu.edu.au/courses/fees-assistance

Scholarships

Victoria University offers a range of equity and merit scholarships for prospective and continuing students in all fields of study. If you are an Australian citizen, or holder of an Australian Permanent Residency visa you are eligible to apply. New Zealand citizens and holders of an Australian Temporary/Student Residency visa are not eligible under
the guidelines. For more information:
www.vu.edu.au/study-with-us/scholarships

Enrolment and Deferment policies

Deferment policy

VU guarantees an up to one year deferment for all commencing local students, for Higher Education and VET. Whilst this deferment is guaranteed, all courses will not necessarily be available for commencing students in subsequent years and should this occur the University will negotiate alternative study options with the student. Applications for deferral must be submitted at or before the nominated enrolment session. For more information: www.vu.edu.au/gotovu

Credit transfer, pathways and recognition of prior learning

Pathways

Victoria University is widely recognised as a leader in the development of pathways, which link courses within and between the VET and Higher Education sectors. Pathways specify how previous study (usually in a related field) may be recognised and credited. This means it may take less time to complete a degree. Pathways from university to vocational education and training qualifications are also becoming increasingly popular as a way of gaining the industry experience needed to increase employment opportunities.

For more information: www.vu.edu.au/courses

Accommodation

Accommodation available at Victoria University includes:
Victoria Place, self contained Studio Apartments opposite Victoria University's Footscray Park campus and the Student Village, Maribyrnong. For more information: www.vu.edu.au/housing

Indigenous Services

Moondani Balluk (Wurundjeri for ‘embrace people’) Indigenous Academic Unit provides advice and assistance on enrolment and admissions to VU courses and once enrolled provide a culturally safe environment, student support services and pastoral care to Indigenous people to assist in the introduction and understanding of University life. Applicants who wish to have their status as an Indigenous Australian recognised by Selection Officers should complete the relevant section of the VTAC Special Entry Access Scheme (SEAS) online application. For more information: www.vu.edu.au/indigenous

Disability Services

Victoria University’s Disability Services provides advice and assistance to students with a disability and/or medical condition so they are able to participate in all aspects of University life. This includes providing individualised support services and alternative assessment arrangements as negotiated through a personal Access Plan.

For more information: www.vu.edu.au/disability

Accounting (HE)

Victoria University

Footscray Park: 4301040171 (CSP) full-time/part-time  Apply: Through VTAC main round
Bachelor of Business (Accounting): 3 years full time study

**About the course:** Qualify for membership with CPA Australia and the Institute of Chartered Accountants Australia. You can tailor your learning with a common first year complemented by specialisations in second and third years. You'll gain the necessary skills for a wide range of accounting activities while developing a sound business education.

The course contains 24 units incorporating core business units, specialist units, elective units and a stream of professional development units. Work-integrated learning is an option. You can complete a second area of specialisation in addition to accounting.

**Prerequisites:** Units 3 and 4: a study score of at least 25 in English (EAL) or 20 in English other than EAL.

**Middle-band:** A study score of 30 in English (EAL) equals 5 aggregate points. A study score of 25 in English other than EAL equals 5 aggregate points per study. A study score of 20 in any Business, any Information Technology or any Mathematics equals 5 aggregate points per study. Overall maximum of 15 points.

**Selection Mode:** CY12 : ATAR and middle-band.

NY12 : Educational History including GPA.

SEAS is considered.

**Extra requirements:**

None

SEAS is considered.

Extra requirements: None
Beauty Therapy (VET)

Victoria University
City King: 4300484604 (Fee type determined by provider) full-time

- Diploma of Beauty Therapy: 1 year full time study

About the course: Learn basic and advanced beauty therapy techniques such as facial and body massage, make-up, aromatherapy, and waxing, along with business and management skills to launch a career as a beauty therapist. You'll receive hands-on training in a salon to hone your customer service and retail skills in addition to the technical skills and knowledge required in beauty therapy.

Information sessions will be held at the City King campus on 5 September and 10 October at 6:00pm. Attendance at either of these sessions is recommended but not compulsory. To book, telephone (03) 9919 7854.

Major studies: Anatomy and physiology, Aromatherapy, Biology, Business (operations), Chemistry (cosmetic), Communications, Customer service, Facial treatments, Make-up, Management, Manicure and pedicare, Massage, Nutrition, Occupational health and safety, Retail sales, Skin science, Temporary hair removal.

Prerequisites: None

Middle-band: None

Selection Mode: CY12: ATAR, Interview (Some). See extra requirements for more information.
NY12: Educational History including GPA, Interview (Some). See extra requirements for more information.
SEAS is considered.

Extra requirements:
Interview (CY12-Some, NY12-Some): Details will be provided by telephone or mail by early November to the applicants required to attend. These applicants must attend in November/December.

Biomedical and Exercise Science (HE)

Victoria University
Footscray Park / St Albans: 4301142221 (CSP) full-time

- Bachelor of Science (Biomedical and Exercise Science): 3 years full time study

About the course: Be part of the growing demand for graduates with training in the fields of exercise and biomedical sciences. Our course is a dual-disciplinary degree that covers the fundamentals of biomedical science along with exercise science, as well as chemistry, biochemistry, pathology and physiology. This course also introduces the mechanisms responsible for underlying pathologies in musculoskeletal, mitochondrial and metabolic diseases. You'll learn to apply theoretical knowledge and analytical techniques to a range of practical scenarios including learning in industry and community settings.

You'll gain research experience within specific research-oriented core units, and develop laboratory skills, analytical thinking and problem-solving skills. You'll complete a major research-oriented program in a final semester unit. This course is closely linked with Victoria University's Institute of Sports, Exercise and Active Living (ISEAL) and the Collaborative Research Network in partnership with the University of Melbourne and the Australian Institute for Musculoskeletal Science (AIMSS).
**Major studies:** Anatomy, Biochemistry, Biomechanics, Biomedical science, Exercise biochemistry, Exercise physiology, Medical research, Nutrition and exercise, Pathophysiology and health education, Physiology.

**Prerequisites:** Units 3 and 4: a study score of at least 25 in English (EAL) or 20 in English other than EAL; and a study score of at least 20 in two of Biology, Chemistry, Health And Human Development, any Mathematics or Physical Education.

**Middle-band:** A study score of 25 in Biology, Chemistry, any English or any Mathematics equals 5 aggregate points per study. Overall maximum of 15 points.

**Selection Mode:** CY12 : ATAR and middle-band.

NY12 : Educational History including GPA, VTAC Personal Statement (All). See extra requirements for more information.

SEAS is considered.

**Extra requirements:**
VTAC Personal Statement (NY12-All) : Applicants must complete and submit a VTAC Personal History online.

Building and Construction (VET)

Victoria University
Sunshine: 4301585014 (Fee type determined by provider) full-time  

Apply: Through VTAC  main round

- Diploma of Building and Construction (Building): 2 years full time study

About the course: Develop specialist skills and knowledge to launch a career as a builder or a role in middle-management in the building and construction industry. You'll get real-life experience with practical learning opportunities, as well as industry projects and site visits. You'll gain para-professional skills and knowledge to plan and co-ordinate low and medium-rise residential and commercial building construction, including monitoring, costing systems, scheduling, contractor selection, managing risk and quality assurance. The Certificate IV in Building and Construction (Building) does not offer credit as the first year of this two-year course.

Major studies: Building, Building (construction methods), Building (estimating), Building (law), Building (surveying), Building (technology).

Prerequisites: None

Middle-band: None

Selection Mode: CY12: ATAR, Interview (Some). See extra requirements for more information.
NY12: Educational History including GPA, Interview (Some). See extra requirements for more information.
SEAS is considered.

Extra requirements:
Interview (CY12-Some, NY12-Some): Details will be provided by telephone or mail to the applicants required to attend. Interviews will be held in November/December.

Building Design (VET)

Victoria University
Sunshine: 4301585034 (Fee type determined by provider) full-time  

Apply: Through VTAC  main round

- Advanced Diploma of Building Design (Architectural): 2.5 years full time study

About the course: Open the door to an entry-level design position in the building industry. You'll acquire skills to manage complex projects, design safe and sustainable buildings, and work with construction technology used for residential and commercial buildings.

You'll complete 21 core units involving building design, work safety, small business planning, sustainable construction and more.

Major studies: Building, Building (construction methods), Building (design), Building (technology).

Prerequisites: None

Middle-band: None

Selection Mode: CY12: ATAR, Interview (Some). See extra requirements for more information.

Building Surveying (VET)

Victoria University
Sunshine: 4301585024 (Fee type determined by provider) full-time  Apply: Through VTAC main round

- Diploma of Building Surveying: 1 year full time study
- Advanced Diploma of Building Surveying: 1 year full time study

About the course: Develop specialist skills and knowledge in key industry areas including plan preparation, estimating, scheduling, surveying, work safety and business management. You'll develop sound knowledge of building theory and surveying related to residential, industrial and commercial buildings. The Diploma of Building Surveying or equivalent is a prerequisite for the Advanced Diploma.

Major studies: Building, Building (construction methods), Building (surveying), Building (technology), Building law and building practice.

Prerequisites: None

Middle-band: None

Selection Mode: CY12: ATAR, Interview (Some). See extra requirements for more information. NY12: Educational History including GPA, Interview (Some). See extra requirements for more information. SEAS is considered.

Extra requirements:
- Interview (CY12-Some, NY12-Some): Details will be provided by telephone or mail to the applicants required to attend. Interviews will be held in November/December.

Business Administration (HE)

Victoria University
City Flinders: 4300240741 (CSP) full-time/part-time  Apply: Through VTAC main round

- Bachelor of Business: 3 years full time study

About the course: Develop a solid grounding in business in your first year before customising your degree with a specialisation in areas such as accounting, event management, international trade, marketing, music industry or logistics. You will participate in practical work-integrated learning with international study opportunities. You can also...
combine your specialisation with another study area chosen from legal studies, arts, science, health or engineering for a double degree.

This course involves core units, as well as specialist, elective and professional development units.

Students will be required to undertake seven specialist units of study and seven elective units of study.

**Prerequisites:** Units 3 and 4: a study score of at least 25 in English (EAL) or 20 in English other than EAL.

**Middle-band:** A study score of 30 in English (EAL) equals 5 aggregate points. A study score of 25 in English other than EAL equals 5 aggregate points per study. A study score of 20 in any Business, any Information Technology or any Mathematics equals 5 aggregate points per study. Overall maximum of 15 points.

**Selection Mode:** CY12: ATAR and middle-band.

NY12: Educational History including GPA.

SEAS is considered.

**Extra requirements:**

- Diploma of Business (Enterprise): 1 year full time study

**About the course:** Gain practical skills and knowledge for an entry-level career in the business world. The diploma provides a smooth pathway into the second year of the Bachelor of Business at Victoria University where you can specialise in areas such as accounting, marketing or management. You'll gain practical skills, work experience as well as opportunities for further university study and employment in business management, accounting or marketing. This course provides a solid foundation that will equip you with skills and knowledge of business principles, organisational structures, and the socio-political-legal environment in which businesses operate. If you decide not to continue into the second year, you'll still acquire a range of business skills for entry-level roles.

**Major studies:** Accounting, Business, Business communication, Economics, Information systems, Law, Management, Marketing, Mathematics, Statistics.

**Prerequisites:** Units 3 and 4: a study score of at least 25 in English (EAL) or 20 in English other than EAL.

**Middle-band:** None

**Selection Mode:** CY12: ATAR, Interview (Some). See extra requirements for more information.

NY12: Educational History including GPA, VTAC Personal Statement (All), Interview (Some). See extra requirements for more information.

SEAS is considered.

**Extra requirements:**

VTAC Personal Statement (NY12-All): Applicants must complete and submit a VTAC Personal History online.

Interview (CY12-Some, NY12-Some): Details will be provided by telephone or mail to the applicants required to
Certificate III in Children's Services: 6 months full time study

Diploma of Children's Services (Early Childhood Education and Care): 1.5 year full time study

About the course: Establish your career in children’s services. This course covers the fundamental skills and knowledge required to provide leisure and play programs focusing on childhood development for infants, pre-school and school-age children. You’ll learn in a range of workplace and community settings. Upon completion of the Certificate III, you’ll be qualified as a Children’s Services Worker Level 3 and can continue onto the Diploma of Children's Services. Graduates of the Diploma of Children's Services are fully qualified childcare supervisors with the knowledge of all licensing, accreditation and duty-of-care requirements. You’ll be able to plan, implement and manage programs in early childhood services, as well as supervise staff and volunteers as a childcare supervisor or a director or service manager of a childcare centre.

The diploma comprises 13 compulsory units and five elective units.

Major studies: Child development, Community and diversity, Curriculum studies, Health and safety, Play and learning, Professional and legal, Program planning, Sustainable practice, Well being.

Prerequisites: None

Middle-band: None

Selection Mode: CY12 : ATAR, VTAC Personal Statement (All), Interview (All), Written Literacy and Numeracy test (All). See extra requirements for more information.

NY12 : Educational History including GPA, VTAC Personal Statement (All), Interview (All), Written Literacy and Numeracy test (All), other. See extra requirements for more information.

SEAS is considered.

Extra requirements:

VTAC Personal Statement (CY12-All, NY12-All) : Applicants with relevant industry experience must complete the VTAC Personal History online.

Information kit (CY12-All, NY12-All) : Application kits will be available at the information session.

Interview (CY12-All, NY12-All) : Applicants must telephone (03) 9919 8234 or visit www.vu.edu.au/news-events/events/childrens-services for dates and times. Applicants must attend one information session and pass testing to be selected at either Footscray Nicholson, St Albans or Werribee campus in either September, October, November or December. All sessions will range between 9:30am-2:00pm and 5:00pm-8:00pm. Bookings for information sessions can be made at www.vu.edu.au/news-events/events/childrens-services/.

Written Literacy and Numeracy test (CY12-All, NY12-All) : Applicants must telephone (03) 9919 8234 to book. (Late applicants must telephone before applying). Applicants must attend one session at either Footscray Nicholson, St Albans or Werribee campus in either September, October, November or December. All sessions will range between 9:30am-2:00pm and 5:00pm-8:00pm.
Information session: Applicants must telephone (03) 9919 8674 to book. (Late applicants must telephone before applying). Applicants must attend one session at either Footscray Nicholson, St Albans or Werribee campus in either September, October, November or December. All sessions will range between 9:30am-2:00pm and 5:00pm-8:00pm. SUCCESSFUL APPLICANTS: Police and Working with Children checks: All students will be subject to a Police and Working with Children check before industry placements. It is the student's responsibility to have these completed prior to course enrolment.

About the course: Develop a specialisation in home economics teaching. This course provides a school and community-based approach to teacher education in which you'll develop a broad range of skills and knowledge in classroom practice, as well as teaching and learning.

The course comprises compulsory studies in primary and secondary education, curriculum and teaching practice in each year. It includes general studies electives that enable you to develop major sequences of study for home economics teaching as well as a secondary teaching area. You'll receive a minimum of 80 days teaching practice over the four years of the course.

Non-year 12 applicants who have not met the mathematics prerequisite will be required to demonstrate an understanding of mathematics or complete an additional mathematics study to qualify for teaching in Victoria. Some major studies listed may only be offered at an alternative campus.

**Prerequisites:** Units 1 and 2: satisfactory completion in two units (any study combination) of General Mathematics or Mathematical Methods; and Units 3 and 4: a study score of at least 25 in English (EAL) or 20 in English other than EAL.

**Middle-band:** None

**Selection Mode:** CY12: ATAR, VTAC Personal Statement (All), Interview (All). See extra requirements for more information.

NY12: Educational History including GPA, VTAC Personal Statement (All), Interview (All), other. See extra requirements for more information.

SEAS is considered.

**Extra requirements:**

VTAC Personal Statement (CY12-All, NY12-All): Applicants with relevant work experience and/or study should complete and submit a VTAC Personal History online.

Interview (CY12-All, NY12-All): Details will be provided by telephone or mail to those applicants required to attend.

SUCCESSFUL APPLICANTS: Working with Children check: Students must complete a Working with Children check prior to undertaking teaching placements.

Education Studies (Diploma) (HE)

Victoria University

Footscray Nicholson: 4300843281 (CSP) full-time  Apply: Through VTAC main round
- Diploma of Education Studies: 1 year full time study

**About the course**: Launch your teaching career. This pathway course builds skills in literacy and numeracy while giving you a solid grounding and one-year's credit towards a teaching degree. You may choose to exit after the diploma for a role such as a teacher's aide. You'll develop your knowledge and skills in a range of humanities subjects including English, and gain opportunities for community inquiry in schools around Melbourne's west.

The course includes a range of communication and information technologies such as a digital portfolio to demonstrate evidence-based learning. Once you complete the course you'll be guaranteed entry, with one year of credit, into the Bachelor of Education (P-12) program at Victoria University. Alternatively, you may continue into a Victoria University Bachelor of Arts. You'll complete ten units of study including three year-long studies in mathematics for education, researching literacy and learning, and tradition and modernity, as well as two elective units.

An information session will be held on 12 September at Footscray Nicholson campus. Attendance is recommended but not compulsory. For further information, telephone: (03) 9919 7724.

**Major studies**: Cultural studies, Education studies, History, Humanities, Literary studies, Media studies, Philosophy, Political economy, Politics, Social inquiry, Social sciences, Written communication.

**Prerequisites**: Units 3 and 4: a study score of at least 25 in English (EAL) or 20 in English other than EAL.

**Middle-band**: None

**Selection Mode**: CY12 : ATAR, VTAC Personal Statement (All), Interview (Some), Written test (Some). See extra requirements for more information.

NY12 : Educational History including GPA, VTAC Personal Statement (All), Interview (Some), Written test (Some). See extra requirements for more information.

SEAS is considered.

**Extra requirements**:

VTAC Personal Statement (CY12-All, NY12-All) : Applicants with relevant industry/work experience and other personal history information relevant to a career in teaching must complete and submit a VTAC Personal History online.

Interview (CY12-Some, NY12-Some) : Details will be provided by telephone or mail to those applicants required to attend.

Written test (CY12-Some, NY12-Some) : Written Test: Details will be provided by telephone or mail to those applicants required to attend.

St Albans: 4301342063 (IFP) full-time  Apply: Through VTAC  main round

- Bachelor of Education (Early Childhood/Primary): 4 years full time study

**About the course**: Embark on a rewarding career as an early-childhood or primary teacher in the growing early childhood sector. With substantial practical experience, you'll be equipped to assist children to develop and learn to the maximum of their abilities.

The course comprises 31 units including compulsory studies in early childhood education and primary school education, and curriculum and teaching in each year. You'll also receive a minimum of 115 days teaching practice, comprising 65 days in early childhood settings and 50 days in primary schools.
Non-year 12 applicants who have not met the mathematics prerequisite will be required to demonstrate an understanding of mathematics or complete an additional mathematics study to qualify for teaching in Victoria. Some major studies listed may only be offered at an alternative campus.

**Major studies:** Childhood development, Curriculum studies, Early childhood education, Early childhood studies, Education, Education studies, Teaching (pre-school), Teaching (primary).

**Prerequisites:** Units 1 and 2: satisfactory completion in two units (any study combination) of General Mathematics or Mathematical Methods; and Units 3 and 4: a study score of at least 25 in English (EAL) or 20 in English other than EAL.

**Middle-band:** None

**Selection Mode:** CY12 : ATAR, VTAC Personal Statement (All), Interview (Some). See extra requirements for more information.

NY12 : Educational History including GPA, VTAC Personal Statement (All), Interview (Some), other. See extra requirements for more information.

SEAS is considered.

**Extra requirements:**

VTAC Personal Statement (CY12-All, NY12-All) : Applicants with relevant work experience and/or study should complete and submit a VTAC Personal History online. The completion of this form is highly recommended.

Interview (CY12-Some, NY12-Some) : Details will be provided by telephone or mail to those applicants required to attend.

SUCCESSFUL APPLICANTS: Working with Children check: Students must complete a Working with Children check prior to undertaking teaching placements.

**Education-Early Childhood/Primary (Accelerated Program) (Grad)**

**Victoria University**

St Albans: 4301342091 (CSP) full-time  
Apply: [Through VTAC](#) main round

- Bachelor of Education (Early Childhood/Primary): 3 years full time study

**About the course:** Embark on a rewarding career as an early-childhood or primary teacher in the growing early childhood sector. With substantial practical experience, you'll be equipped to assist children to develop and learn to the maximum of their abilities.

The course comprises 23 units including compulsory studies in early childhood education and primary school education, and curriculum and teaching each year. You'll also receive a minimum of 105 days teaching practice, comprising 55 days in early childhood settings and 50 days in primary schools over the three years of the course.

Non-year 12 applicants who have not met the mathematics prerequisite will be required to demonstrate an understanding of mathematics or complete an additional mathematics study to qualify for teaching in Victoria. Some major studies listed may only be offered at an alternative campus.

**Major studies:** Childhood development, Curriculum studies, Early childhood education, Early childhood studies, Education, Education studies, Teaching (pre-school), Teaching (primary).

**Prerequisites:** Diploma: A two year TAFE Diploma of Children's Services (or equivalent).

**Middle-band:** None

**Selection Mode:** CY12 : ATAR, VTAC Personal Statement (All), Interview (Some). See extra requirements for more information.

NY12 : Educational History including GPA, VTAC Personal Statement (All), Interview (Some), other. See extra requirements for more information.

SEAS is considered.

**Extra requirements:**

VTAC Personal Statement (CY12-All, NY12-All) : Applicants with relevant work experience and/or study should
complete and submit a VTAC Personal History online. The completion of this form is highly recommended.

Interview (CY12-Some, NY12-Some): Details will be provided by telephone or mail to those applicants required to attend.

SUCCESSFUL APPLICANTS: Working with Children check: Students must complete a Working with Children check prior to undertaking teaching placements.

### Electrical (VET)

**Victoria University**

Sunshine: 4301585054 (Fee type determined by provider) full-time  
Apply: [Through VTAC](http://www.wss8.vtac.edu.au/courses-inst/institutions/topdf/vu.html) main round

- Advanced Diploma of Electrical-Technology: 2 years full time study

**About the course:** Expand your career options by gaining the skills and knowledge to design, validate and evaluate electrical equipment and systems, and provide technical or sales advice. This qualification is mapped to several industry certifications to ensure you’re job-ready.

**Major studies:** Control systems, Design process, Drafting, Electrical science, Electronic systems, Electronics, Electrotechnology, Engineering (electrical distribution), Engineering (electrical generation), Engineering (electrical transmission), Engineering (electrical), Engineering (process engineering), Industrial automation, Industrial design, Microprocessor control systems, Programming, Project management.

**Prerequisites:** None

**Middle-band:** None

**Selection Mode:** CY12: ATAR, Interview (Some). See extra requirements for more information.

NY12: Educational History including GPA, Interview (Some). See extra requirements for more information.

SEAS is considered.

**Extra requirements:**

Interview (CY12-Some, NY12-Some): Details will be provided by telephone or mail to the applicants required to attend.

</tr>
</tbody>
</table>

- Bachelor of Engineering: 4 years full time study

**About the course:** Take the first steps towards a career in engineering. This alternative-entry program is for Year 12 graduates who may not have mathematics and/or physics prerequisites, or who haven't achieved the required study scores to enter an engineering course. If you satisfactorily complete the course, you can transfer to an engineering course of your choice. This program is not available to non-Year 12 applicants and all admissions are decided on an individual basis. Some applicants may be required to enrol in one or more foundation year units.

**Major studies:** Building (design), Building (surveying), Building law and building practice, Engineering (architectural), Engineering (building), Engineering (civil), Engineering (computer systems), Engineering (electrical), Engineering (mechanical), Engineering (telecommunications), Microelectronics, Photonics, Robotics.
### Prerequisites:
Units 3 and 4: a study score of at least 10 in any English; and a study score of at least 10 in any Mathematics.

### Middle-band:
None

### Selection Mode:
CY12: ATAR, Interview (Some). See extra requirements for more information.
NY12: Educational History including GPA, other. See extra requirements for more information.
SEAS is considered.

### Extra requirements:
Interview (CY12-Some): Details will be provided by telephone or mail to the applicants required to attend.

SUCCESSFUL APPLICANTS: Applicants accepted may be required to attend an appropriate summer bridging program or enrol in one or more units from the Foundation Year or undertake part or all of an appropriate VET program. For further information please telephone: (03) 9919 4518.

---

### Engineering - Architectural Engineering (HE)

</tbody>
</table>

Footscray Park: 4301040993 (IFP) full-time  Apply: Through VTAC main round

- Bachelor of Engineering (Architectural Engineering): 4 years full time study

#### About the course:
Join our unique multidisciplinary engineering design program which focuses on sustainable building design concepts, and includes an appreciation of architectural design. The initial focus is on basic engineering and science principles and analysis.

Engineering design specialisations in years three and four focus on building environmental comfort and life-safety systems as well as building structural systems, with a common introduction to construction planning management. You’ll be required to complete a major engineering design project in year four. You’ll also have an opportunity to do an overseas study exchange. During the course, you’ll work with other engineers and architects to achieve outstanding results in the design, planning and construction of buildings. You’ll also have the challenge of ensuring the integration of sometimes conflicting requirements of individual disciplines while achieving environmental goals and required energy efficiency

#### Major studies:
Architecture, Building (design), Building (technology), Building law and building practice, Construction, Construction (electrical), Construction (mechanical), Environment and sustainability, Environmental compatibility and life safety design, Green building design, Management, Sustainable building design.

#### Prerequisites:
Units 3 and 4: a study score of at least 25 in English (EAL) or 20 in English other than EAL; and a study score of at least 20 in one of Maths: Mathematical Methods (CAS) or Maths: Specialist Mathematics.

#### Middle-band:
Satisfactory completion in Chemistry, Maths: Specialist Mathematics or Physics equals 5 aggregate points per study. Overall maximum of 15 points.

#### Selection Mode:
CY12: ATAR and middle-band.
NY12: Educational History including GPA.
SEAS is considered.

**Apply:** Through VTAC main round

- Bachelor of Engineering (Building Engineering): 4 years full-time study

**About the course:** Join our unique and highly regarded multidisciplinary program, which focuses on building feasibility, construction planning, and project management. You'll be introduced to sustainable design concepts and gain an appreciation of architectural design. The initial focus of the course is on basic engineering and science principles and analysis.

The course contains an introduction to engineering design specialisations in year three, including building environmental comfort and life safety systems, as well as building structural systems. You can choose to do an industry-based 12-week work experience placement at the end of your third year which is integrated into your program. You'll also be introduced to advanced building construction planning and management techniques, which are reinforced when you complete a major project in year four. You can do an overseas study exchange program as part of your program.

**Major studies:** Building (design), Building (technology), Building law and building practice, Building legal requirements, Building regulations, Computer-aided design (CAD), Construction, Construction management, Design, Engineering, Engineering (building), Environment and sustainability, Project management.

**Prerequisites:** Units 3 and 4: a study score of at least 25 in English (EAL) or 20 in English other than EAL; and a study score of at least 20 in one of Maths: Mathematical Methods (CAS) or Maths: Specialist Mathematics.

**Middle-band:** Satisfactory completion in Chemistry, Maths: Specialist Mathematics or Physics equals 5 aggregate points per study. Overall maximum of 15 points.

**Selection Mode:** CY12: ATAR and middle-band.

NY12: Educational History including GPA.

SEAS is considered.

**Extra requirements:**

None

Engineering - Civil/h1> (VET)

**Victoria University**

Sunshine: 4301585414 (Fee type determined by provider) full-time  
**Apply:** Through VTAC main round

- Advanced Diploma of Engineering Technology: 2 years full-time study

**About the course:** Equip yourself for a career in the engineering industries by improving your existing skills in CAD, robotics, and advanced manufacturing. This flexible course structure allows you to add units of competency to help meet the industry's future needs. You'll gain knowledge and skills to apply engineering and scientific principles in civil or structural engineering applications. You'll be equipped to manage projects, analyse, diagnose, design and execute sound judgment in many aspects of civil engineering.
**Major studies:** Civil drafting, Computer-aided design (CAD), Computing, Construction, Engineering (civil), Engineering (environmental), Engineering (structural analysis and design), Engineering (survey), Management, Project management, Structural drafting.

**Prerequisites:** None

**Middle-band:** None

**Selection Mode:** CY12 : ATAR, Interview (Some). See extra requirements for more information. NY12 : Educational History including GPA, Interview (Some). See extra requirements for more information. SEAS is considered.

**Extra requirements:**
Interview (CY12-Some, NY12-Some) : Details will be provided by telephone or mail to the applicants required to attend.

Apply: Through VTAC main round

- Bachelor of Engineering (Civil Engineering): 4 years full time study

**About the course:** Launch a career as a civil engineer to meet growing demand for effective planning, design, construction and management of major buildings, transport systems, water supply/wastewater/flood protection systems and other essential and sustainable community infrastructure. You'll receive much of your course via problem-based learning and have real-life projects to work on.

The course includes a sound introduction to engineering principles and analysis, and to the role of engineers in society. Later in the course you'll focus on practical applications and case studies with ample scope to undertake projects in the workplace and community. Two major streams of specialisation are offered in environmental and structural areas. You'll be required to undertake a minimum of 12-weeks industrial work experience. You can apply to go on an overseas exchange program as part of your program.

**Major studies:** Computer-aided design (CAD), Construction, Construction management, Engineering (civil), Engineering (environmental), Engineering (structural analysis and design), Engineering (transport engineering), Geosciences, Hydraulics and Hydrology, Land and water management, Management, Project management, Roads and road design, Sustainable development, Water resources engineering.

**Prerequisites:** Units 3 and 4: a study score of at least 25 in English (EAL) or 20 in English other than EAL; and a study score of at least 20 in one of Maths: Mathematical Methods (CAS) or Maths: Specialist Mathematics.

**Middle-band:** Satisfactory completion in Chemistry, Maths: Specialist Mathematics or Physics equals 5 aggregate points per study. Overall maximum of 15 points.

**Selection Mode:** CY12 : ATAR and middle-band. NY12 : Educational History including GPA. SEAS is considered.

**Extra requirements:**
None

Footscray Park: 4301040783 (IFP) full-time  Apply: Through VTAC  main round

- Bachelor of Engineering (Electrical and Electronic Engineering): 4 years full time study

About the course: With this flexible degree, you can position yourself at the edge of electronic design, power generation and communications as you study one of the largest and most established fields of engineering. Gain practical and problem-solving skills working on current workplace projects. You’ll acquire a range of electrical engineering skills and knowledge in areas such as embedded networks, microelectronics, communications systems and power engineering.

The course is delivered using a problem-based learning methodology, which uses real world problems as a significant part of the learning process. Through this method, you’ll be able to apply your theoretical and technical engineering knowledge in real contexts, and learn from the expertise of project partners.

Major studies: Digital and analogue electronics, Electrical engineering management, Engineering (communication), Engineering (computer systems), Engineering (computer), Engineering (electrical generation), Engineering (electrical), Engineering (electronics), Engineering design, Microelectronics, Microprocessors, Telecommunications.

Prerequisites: Units 3 and 4: a study score of at least 25 in English (EAL) or 20 in English other than EAL; and a study score of at least 20 in one of Maths: Mathematical Methods (CAS) or Maths: Specialist Mathematics.

Middle-band: Satisfactory completion in Chemistry, Maths: Specialist Mathematics or Physics equals 5 aggregate points per study. Overall maximum of 15 points.

Selection Mode: CY12: ATAR and middle-band.
NY12: Educational History including GPA.
SEAS is considered.

Extra requirements:
None

Footscray Park: 4301040623 (IFP) full-time  Apply: Through VTAC  main round

- Bachelor of Engineering (Mechanical Engineering): 4 years full time study
About the course: Develop the broad education required for a successful engineering career in such widespread areas as: machine design and industrial processes; machine health monitoring; energy and thermal systems; air, marine and land-based transport systems; aerodynamics and fluid mechanics; creation and design of medical devices; resources and mining; defence; and computer-aided engineering.

The initial focus of the course is on engineering principles and analysis, and the role of engineers in society. In subsequent years, you'll apply your knowledge to real-world engineering projects and problems, as well as engineering management. Your skills and knowledge will be reinforced when you complete a major industry or research-oriented project and at least 12 weeks relevant industry experience.

Major studies: Automotive design, Computer-aided design (CAD), Design (product development), Engineering, Engineering (manufacturing), Engineering (mechanical), Industrial engineering, Manufacturing management, Mechanical design, Mechanical engineering, Mechanics (Fluid mechanics), Mechanics (Solid mechanics), Production processes, Project management.

Prerequisites: Units 3 and 4: a study score of at least 25 in English (EAL) or 20 in English other than EAL; and a study score of at least 20 in one of Maths: Mathematical Methods (CAS) or Maths: Specialist Mathematics.

Middle-band: Satisfactory completion in Chemistry, Maths: Specialist Mathematics or Physics equals 5 aggregate points per study. Overall maximum of 15 points.

Selection Mode: CY12 : ATAR and middle-band.

NY12 : Educational History including GPA.

SEAS is considered.

- Diploma of Engineering Technology: 1 year full time study
- Advanced Diploma of Engineering Technology: 2 years full time study

About the course: Gain the skills and knowledge to apply engineering and scientific principles to mechanical and manufacturing engineering applications. You'll learn to analyse, diagnose, design and solve mechanical and manufacturing engineering solutions. This course is focused on current technology and provides a non-trades pathway into technician and engineering associate qualifications. It also offers an opportunity for tradespeople to upgrade their qualifications, and for entry into technician positions in industry.

Major studies: Computer-aided design (CAD), Computer-aided drafting (CAD), Design, Design (tooling), Drafting, Engineering (fluid power), Engineering (manufacturing), Engineering (materials), Engineering (mechanical), Engineering (process engineering), Industrial engineering, Machine dynamics, Mechanical design, Mechanics (applied).

Prerequisites: None

Middle-band: None

Selection Mode: CY12 : ATAR, Interview (Some). See extra requirements for more information.

NY12 : Educational History including GPA, Interview (Some). See extra requirements for more information.

SEAS is considered.
Extra requirements:
Interview (CY12-Some, NY12-Some) : Details will be provided by telephone or mail to the applicants required to attend.

Footscray Park: 4301040113 (IFP) full-time  Apply: Through VTAC main round

- Bachelor of Engineering Science (Electrical and Electronic Engineering): 3 years full time study

About the course: Become a qualified engineering technologist with strong theoretical and practical training in the areas of electrical and electronic engineering. You'll learn to work with real problems and projects in the workplace and community. The course develops skills and knowledge to work in energy generation, transport, communications, healthcare and entertainment.

In the first and second years, you'll obtain a strong grounding in electrical, electronic, computing, mathematics and physics studies to provide a foundation for higher level specialist units. Our problem-based-learning methods are used throughout the course and provide you with opportunities to solve a range of real engineering problems.

Prerequisites: Units 3 and 4; a study score of at least 25 in English (EAL) or 20 in English other than EAL; and a study score of at least 20 in any Mathematics.

Middle-band: Satisfactory completion in Chemistry, Maths: Specialist Mathematics or Physics equals 5 aggregate points per study. Overall maximum of 15 points.

Selection Mode: CY12 : ATAR and middle-band.
NY12 : Educational History including GPA.
SEAS is considered.

- Bachelor of Engineering Science (Sports Engineering): 3 years full time study

**About the course:** Join the only course in Victoria that emphasises the application of engineering technology to sports. You'll acquire practical mechanical, electronic and software engineering skills and apply that knowledge to human performance, reducing injuries and improving rehabilitation.

In the initial stages of the course, you'll be given a solid foundation in mathematics and physics set against a background of sport. You'll be exposed to further studies in mechanical and electronic engineering to apply these principles to sports products and athlete performance monitoring. You'll be encouraged to use computer and simulation software to solve problems. The course also includes studies of sensors, mechatronics, materials and dynamics, as well as engineering management and a major project involving an industry partner. You'll have significant opportunities to apply engineering methodologies to your projects, which will comprise real sports engineering problems.

**Major studies:** Analogue and Digital, Biomechanics and kinesiology, Biomedical systems, Biophysics, Computer applications, Electronic technology and instrumentation, Engineering (electronics), Engineering (mechanical), Engineering (mechatronic), Exercise science, Human movement, Laboratory instrumentation, Mechatronics, Medical biophysics, Microprocessors, Physics, Physiology, Software development, Systems software, Technology.

**Prerequisites:** Units 3 and 4: a study score of at least 25 in English (EAL) or 20 in English other than EAL; and a study score of at least 20 in any Mathematics.

**Middle-band:** Satisfactory completion in Chemistry, Maths: Specialist Mathematics or Physics equals 5 aggregate points per study. Overall maximum of 15 points.

**Selection Mode:** CY12 : ATAR and middle-band.

NY12 : Educational History including GPA.

SEAS is considered.

- Bachelor of Business (Event Management): 3 years full time study

**About the course:** Drawing upon industry expertise and current academic theory, this course provides a thorough grounding in business and event management and will enhance your capability for careers within the events sector both in Australia and overseas.

You'll complete 24 units comprising business units, specific event management units and a stream of professional development units that culminate in a practical work-integrated learning unit. You'll be given the opportunity to combine your studies in event management with a second specialisation. This course was awarded the Best Event Education Program at the Australian Event Awards in 2010.

Management, Management and Organisation Behaviour, Professional Development Units, Sustainable operations.

Prerequisites: Units 3 and 4: a study score of at least 25 in English (EAL) or 20 in English other than EAL.

Middle-band: A study score of 30 in English (EAL) equals 5 aggregate points. A study score of 25 in English other than EAL equals 5 aggregate points per study. A study score of 20 in any Business, any Information Technology or any Mathematics equals 5 aggregate points per study. Overall maximum of 15 points.

Selection Mode: CY12 : ATAR and middle-band.
NY12 : Educational History including GPA.
SEAS is considered.

- Bachelor of Exercise Science and Human Movement: 3 years full time study

About the course: Become an accredited professional exercise physiologist helping people at risk of chronic health conditions or injuries, or recovering from trauma or surgery, after you complete postgraduate study. The course covers biological science, social science, and career and professional development.

Major studies: Anatomy and physiology, Biomechanics, Clinical studies, Diet and nutrition, Ethics, Exercise physiology, Exercise rehabilitation, Exercise science, Health education, History, Human movement, Kinesiology, Motor learning and performance, Physiology, Psychology (sport and exercise), Psychosocial studies, Research methods, Sociology, Sports therapy.

Prerequisites: Units 3 and 4: a study score of at least 25 in English (EAL) or 20 in English other than EAL.

Middle-band: A study score of 25 in any English, Health And Human Development, Physical Education or Sport And Recreation (VCE VET) B equals 5 aggregate points per study. Overall maximum of 15 points.

Selection Mode: CY12 : ATAR and middle-band.
NY12 : Educational History including GPA. See extra requirements for more information.
SEAS is considered.

Extra requirements:
SUCCESSFUL APPLICANTS: Police Check: Students must complete a National Police Records Check prior to undertaking field placements.

---

**Exercise Science and Human Movement - Exercise and Sport Science (HE)**
Bachelor of Exercise Science and Human Movement: 3 years full time study

About the course: Become an exercise scientist, using exercise interventions for healthy people, including high performance and recreational athletes. This course can lead to professional accreditation. The course covers biological science, social science, and career and professional development.

Major studies: Anatomy and physiology, Biomechanics, Clinical studies, Diet and nutrition, Ethics, Exercise physiology, Exercise rehabilitation, Exercise science, Health education, History, Human movement, Kinesiology, Motor learning and performance, Physiology, Psychology (sport and exercise), Psychosocial studies, Research methods, Sociology, Sports therapy.

Prerequisites: Units 3 and 4: a study score of at least 25 in English (EAL) or 20 in English other than EAL.

Middle-band: A study score of 25 in any English, Health And Human Development, Physical Education or Sport And Recreation (VCE VET) B equals 5 aggregate points per study. Overall maximum of 15 points.

- Bachelor of Exercise Science and Human Movement/Bachelor of Psychological Studies: 4 years full time study

**About the course:** Expand your career options in fitness training, rehabilitation or sport psychology using the latest technology in our state-of-the-art teaching and learning facilities. This double degree focuses on health and fitness, opening career paths in the fields of sport psychology, exercise and health, sport performance or research.

The course is made up of 32 units. Of these, 16 units are taken from the exercise science and human movement degree made up of 14 core units and two electives, and 16 are from the psychological studies degree, including eight core psychology units, two elective psychology units and six arts electives. You'll get practical training with field experience in years two to four of the course.

**Major studies:** Anatomy, Anatomy and physiology, Biomechanics, Ethics, Exercise physiology, Exercise science, Human movement, Kinesiology, Motor learning and performance, Physiology, Psychology, Psychology (sports and exercise), Research methods, Sociology.

**Prerequisites:** Units 3 and 4: a study score of at least 25 in English (EAL) or 20 in English other than EAL.

**Middle-band:** A study score of 25 in any English, Health And Human Development, Physical Education, Psychology or Sport And Recreation (VCE VET) B equals 5 aggregate points per study. Overall maximum of 15 points.

**Selection Mode:** CY12 : ATAR and middle-band.

NY12 : Educational History including GPA. See extra requirements for more information.

SEAS is considered.

SUCCESSFUL APPLICANTS: Police Check: Students must complete a National Police Records Check prior to undertaking field placements.
Exercise Science and Human Movement/Sport and Rec. Management (HE)

Victoria University
Footscray Park: 4301040431 (CSP) full-time/part-time Apply: Through VTAC main round

Bachelor of Exercise Science and Human Movement/Bachelor of Sport and Recreation Management: 4 years full time study

About the course: Kick-start your career in the world of exercise science and sport and recreation management. This flexible program can lead to a wide range of careers in clinical exercise science, rehabilitation, sport science, and sport and recreation event management. You'll be equipped for broad roles in the sport and recreation sector, such as a community and professional sport and recreation manager, or work in exercise and fitness facilities.

The course contains eight semesters or equivalent comprising core units in areas such as kinesiology, exercise psychology, biomechanics and sport psychology, as well as a comprehensive career and professional development program, including practical experience in the human movement, sport and exercise science and sport and recreation management industries.

Major studies: Anatomy, Anatomy and physiology, Biomechanics, Ethics, Exercise physiology, History, Kinesiology, Motor learning and performance, Physiology, Psychology, Research methods, Sociology, Sport (leisure management), Sports (management), Sustainability.

Prerequisites: Units 3 and 4: a study score of at least 25 in English (EAL) or 20 in English other than EAL.

Middle-band: A study score of 25 in any English, Health And Human Development, Physical Education or Sport And Recreation (VCE VET) B equals 5 aggregate points per study. Overall maximum of 15 points.

Selection Mode: CY12: ATAR and middle-band.
NY12: Educational History including GPA. See extra requirements for more information.
SEAS is considered.

Extra requirements:
SUCCESSFUL APPLICANTS: Police Check: Students must complete a National Police Records Check prior to undertaking field placements. Working with Children check: Students may be required to complete a Working with Children check prior to undertaking field placements.

Fitness (VET)

Victoria University
Footscray Park: 4301080264 (Fee type determined by provider) full-time Apply: Through VTAC main round

Diploma of Fitness: 1 year full time study

About the course: Take the first step in a rewarding career as a fitness specialist. Learn to plan and initiate fitness programs, co-ordinate and manage resources, and select and instruct in the technical use of equipment. You'll also learn how to lead exercise in a community venue, and work with a range of clients or with medical professionals in rehabilitation. Upon completion, you'll be eligible for registration with either Fitness Australia or Kinect Australia. This program also has guaranteed pathways to undergraduate degrees in Sport and Exercise Science.

You may be required to enrol in the Certificates III and IV to complete all prerequisites before moving to
diploma-level qualifications.

**Major studies:** Anatomy and physiology, Exercise physiology, First aid, Fitness, Nutrition and exercise, Personal training, Rehabilitation, Sports (science).

**Prerequisites:** None

**Middle-band:** None

**Selection Mode:** CY12 : ATAR.
NY12 : Educational History including GPA.
SEAS is considered.

**Extra requirements:**
None

---

**Gateway to Nursing (Health Science Foundations) (VET)**

**Victoria University**

City Flinders: 4300280594 (Fee type determined by provider) full-time  
Apply: Through VTAC main round

St Albans: 4301380594 (Fee type determined by provider) full-time  
Apply: Through VTAC main round

- Certificate IV in Health Science Foundations: 6 months full time study

**About the course:** Take the first steps towards a career in nursing, para-medicine or another health science. This course prepares you with the knowledge and skills required for entry into further nursing diplomas and degrees. You'll develop general academic and vocationally-specific knowledge and skills that will equip you for higher education and help you prepare for entry into a range of occupations in the health profession.

You'll study units in health-related writing, communication and numeracy (with additional writing support for ESL students), microbiology and infection control, and apply basic concepts from chemistry and physics to health. Upon completion, you can progress to the Diploma and/or Bachelor of Nursing at Victoria University.

Information sessions will be held on Tuesday 10 September and Tuesday 10 December at St Albans campus. Attendance at either of these sessions is recommended but not compulsory. Telephone (03) 9919 2739 for further information.

**Major studies:** Calculations in health mathematics, Human biology, Microbiological and infection control, Sociology of health.

**Prerequisites:** None

**Middle-band:** None

**Selection Mode:** CY12 : ATAR, VTAC Personal Statement (Some), Interview (Some), Written Test (Some). See extra requirements for more information.

NY12 : Educational History including GPA, VTAC Personal Statement (Some), Interview (Some), Written Test (Some). See extra requirements for more information.

SEAS is considered.

---

**Graphic Design (Advanced Diploma) (VET)**
Victoria University
City Flinders: 4300279114 (Fee type determined by provider) full-time  Apply: Through VTAC  main round

- Advanced Diploma of Graphic Design: 6 months full time study

About the course: Forge a career in the exciting graphic design industry. You'll learn how to generate design concepts from a brief and produce quality artwork for commercial purposes using traditional and electronic methods. This course has strong industry links. You'll learn typography, graphics, illustration, digital photography, finished art, new multimedia and design theory. You'll visit printers and design studios, exhibitions and trade shows, and take part in our well-established work placement program. A unique feature of our course is our in-house design studio where you can work with real clients, on real jobs with real timeframes.

The Advanced Diploma of Graphic Design provides you with the specific knowledge and skills to work as a professional graphic designer and is aimed at people who have completed the diploma or those with industry experience.

As this is a pathway course, you will be required to enrol in the VET Diploma of Graphic Design for the first year.

Major studies: Design concepts, Design process, Design theory, Digital media, Finished art, Graphic design, Vocational studies.

Prerequisites: None

Middle-band: None

Selection Mode: NY12: Educational History including GPA, Supplementary form (All), Folio (All), Interview (All), Diploma/experience. See extra requirements for more information. SEAS is considered.

Extra requirements:

Supplementary form (NY12-All): Form: Applicants must complete and submit an Application for Interview form (www.vu.edu.au/courses/advanced-diploma-of-graphic-design-cuv60411) by 26 October. Applicants can also request by telephone (03) 9919 1587 by 19 November.

Folio (NY12-All): Details will be sent to applicants by late November. Applicants must attend a presentation in November/December.

Interview (NY12-All): Details will be sent to applicants by late November. Applicants must attend in November/December.

Diploma/industry experience: Applicants for the Advanced Diploma will have generally completed the Diploma of Arts (Graphic Arts) or Diploma of Graphic Design or have equivalent industry experience.

---

**About the course:** You'll develop specialist skills underpinned by strong theoretical frameworks used in the human resource management area. This industry-focused specialisation has professional recognition by the Australian Human Resource Institute. You'll be well prepared for a broad range of careers in human resource and people management. You'll specialise in human resource management while selecting generic electives in the fields of management, industrial relations or services and operations management.

The course contains 24 units incorporating core business units, specialist units, elective units and a stream of professional development units. Work-integrated learning is an option. You can complete a second area of specialisation in addition to human resource management.

**Prerequisites:** Units 3 and 4: a study score of at least 25 in English (EAL) or 20 in English other than EAL.

**Middle-band:** A study score of 30 in English (EAL) equals 5 aggregate points. A study score of 25 in English other than EAL equals 5 aggregate points per study. A study score of 20 in any Business, any Information Technology or any Mathematics equals 5 aggregate points per study. Overall maximum of 15 points.

**Selection Mode:** CY12 : ATAR and middle-band.

NY12 : Educational History including GPA.

SEAS is considered.

**Extra requirements:**

None
Human Resources (VET)

Victoria University

Certificate IV in Human Resources: 6 months full time study
Diploma of Human Resources Management: 1 year full time study

About the course: Start your career in the world of human resources. You'll develop entry-level skills essential in HR roles such as presentation skills, as well as training in recruitment and performance management processes and effective workplace relations. This course combines generic business with human resource-specific knowledge and skills. After completion of the diploma, you may be eligible for up to one year of credit toward our Bachelor of Business (Human Resource Management).

Prerequisites: None

Selection Mode: CY12 : ATAR, VTAC Personal Statement (Some). See extra requirements for more information.
NY12 : Educational History including GPA, VTAC Personal Statement (All). See extra requirements for more information.
SEAS is considered.

Extra requirements:
VTAC Personal Statement (CY12-Some, NY12-All) : Applicants with relevant work experience and/or previous study must complete and submit a VTAC Personal History online. Applicants must provide a statement advising why they wish to study this course.

Information Technology (VET)

Victoria University

Certificate IV in Information Technology: 6 months full time study
Diploma of Information Technology: 1.5 year full time study
About the course: Develop your skills for an IT career with this pathways program. In first year, you'll use Dreamweaver and PHP to connect to MySQL databases, design databases, write computer programs in Java, schedule ICT development using Microsoft Project, and study towards vendor certifications offered by our partners: CISCO (CCNA Exploration) and ITIL (Foundation v3).

In second year, you can choose between two advanced diploma streams: knowledge management and e-learning. With extra study, you have the opportunity to complete the Diploma of Information Technology (Website Development) and/or the Diploma of Information Technology (Software Development) and/or Diploma of Information Technology (Multimedia) depending on your choice of specialisation. You'll be enrolled in the lowest level qualification and will progress, subject to satisfactory academic progress, to higher qualification levels.

An information session will be held at 6:00pm on Wednesday 30 October in the Telford Building, Room T226 at the Footscray Nicholson campus. Attendance at this session is recommended, but not compulsory. For further information telephone: (03) 9919 6200.

Major studies: Animation (2D), Data warehouse concepts and applications, Database connectivity, Database design and implementation, Databases (advanced programming), E-business, IT (client support), Multimedia authoring, Multimedia production and development, Networking, Object-oriented design, Object-oriented programming, Programming (.NET), Programming (Java), Project management, Systems design and development, Technical support, Web applications programming, Web development.

Prerequisites: None

Middle-band: None

Selection Mode: CY12: ATAR, Interview (Some). See extra requirements for more information.

NY12: Educational History including GPA, Interview (Some), Test (Some). See extra requirements for more information.

SEAS is considered.

Extra requirements:

Interview (CY12-Some, NY12-Some): Details will be provided by telephone or mail to the applicants required to attend.

Test (NY12-Some): NONY12: Test (some applicants only): Details will be provided by telephone or mail to the applicants required to attend.

Information Technology (Diploma) (HE)

Victoria University

Footscray Nicholson: 4300843301 (CSP) full-time/part-time Apply: Through VTAC main round

- Diploma of Information Technology: 1 year full time study

About the course: This course provides broad knowledge and IT-related skills for a range of entry-level careers. You'll design databases, write computer programs in JAVA, schedule ICT development using Microsoft Project, connect MySQL databases to PHP websites, use Linux and study towards popular IT vendor certifications. Completion of the diploma provides guaranteed entry into the second year of our Bachelor of Information Technology (Network and Systems Computing).

An information session will be held at 6:00pm on Wednesday 30 October in the Telford Building, Room T226 at the Footscray Nicholson campus. Attendance at this session is recommended, but not compulsory. For further information telephone: (03) 9919 6200.

Major studies: Data warehouse concepts and applications, Database connectivity, Database design and implementation, Databases (advanced programming), E-business, Internetworking, IT (client support), Linux networking, Networking, Object-orientated design, Object-orientated programming, Programming (Java), Project management, Systems design and development, Technical support, Web applications programming, Web development.

Prerequisites: Units 3 and 4: a study score of at least 25 in English (EAL) or 20 in English other than EAL.

Middle-band: None
Selection Mode: CY12: ATAR, Interview (Some). See extra requirements for more information.
NY12: Educational History including GPA, VTAC Personal Statement (Some), Interview (Some). See extra requirements for more information.
SEAS is considered.

Extra requirements:
VTAC Personal Statement (NY12-Some): Applicants must complete and submit a VTAC Personal History online.
Interview (CY12-Some, NY12-Some): Details will be provided by telephone or mail to the applicants required to attend.

- Bachelor of Information Technology (Network and Systems Computing): 3 years full time study

About the course: Develop the skills and knowledge to gain a graduate-level position in networking and systems computing in the growing IT industry. You'll have opportunities to connect with industry and also be prepared for CISCO/Microsoft industry certifications to fill a growing demand for graduates skilled in systems administration with networking expertise.

The qualification has applications across a range of industry contexts including networking and systems administration, computing and network support, systems security consultancy, database administration, web-based programming, business analysis and project management in government, banking and finance, retail or manufacturing. You'll receive hands-on training and have opportunities to connect with industry, particularly through industry projects. In your final year, you'll undertake relevant work experience combined with an industry capstone project.

Major studies: Communication technology, Computer and network security, Computer networks, Computer operating systems, Computer system networks, Database analysis and design, Database systems, Emerging technologies, Industrial project, Internet technology, IT security, Mobile computing, Network management and network systems, Network routing, Networking (CISCO curriculum), Project management, Systems design and development, Web and mobile technologies.

Prerequisites: Units 3 and 4: a study score of at least 25 in English (EAL) or 20 in English other than EAL; and a study score of at least 20 in any Mathematics.

Middle-band: Satisfactory completion in any Information Technology or any unscored VET Information Technology equals 5 aggregate points per study. Satisfactory completion in any Mathematics equals 5 aggregate points per study in addition to prerequisites met. Overall maximum of 15 points.

Selection Mode: CY12 : ATAR and middle-band.
NY12 : Educational History including GPA.
SEAS is considered.

Extra requirements:
None
Interactive Digital Media (VET)

Victoria University

City: Flinders
4300279244 (Fee type determined by provider)
Full-time

- Certificate IV in Interactive Digital Media: 6 months full time study

About the course: The Certificate IV qualification will help you develop skills and a broad knowledge base in a wide variety of contexts in the digital content industry. You can choose from two streams for completion in a single semester. Games development focuses on developing foundation skills in games art, modelling, animation and programming. Media arts develops foundation-level skills in a broad spectrum of arts practice and creative applications of design and digital media including 2D imaging and design, digital video, interactive design, location and public participatory artworks, art theory and history. Both streams include a major project that serves as a valuable opportunity to produce a substantial folio work, which is essential for entry to further study in creative arts or design, or entry into the workforce.

Major studies: Design studies, Digital Media, Media technologies, Multimedia Design, Video and motion graphics.

Prerequisites: None

Middle-band: None

NY12 : Educational History including GPA, VTAC Personal Statement (All). See extra requirements for more information.
SEAS is considered.

Extra requirements:
VTAC Personal Statement (CY12-All, NY12-All) : Applicants with relevant work experience and/or previous study must complete and submit a VTAC Personal History online. Applicants must provide a statement advising why they wish to study this course.

Interactive Media (HE)

Victoria University

Footscray Park: 4301040981 (CSP) full-time/part-time
Apply: Through VTAC main round

Bachelor of Interactive Media: 3 years full time study

About the course: Turn on your career in the rapidly growing industry of new media with this specialised interactive media program. You'll learn about digital media and graphic design, and gain practical skills participating in roles such as producer, web designer and social media planner. You'll learn in teaching and learning facilities that feature high-end digital equipment and software, professional visual art studios, and modern computer labs.

The course contains 24 units, including a 10-unit specialisation in interactive media, five communication studies units, three information technology units, five general elective units, a third-year career integration unit, and two third-year graduation project units.
Major studies: Animation, Audio and video production, Communication design, Computer graphics, Database management, Digital imaging, Digital media, Imaging and sound, Interactive design for games and web, Interactive multimedia, Interface design, Internet technology, Multimedia authoring, Multimedia production, New media development, Project management, Web design, Website development.

Prerequisites: Units 3 and 4: a study score of at least 25 in English (EAL) or 20 in English other than EAL.

Middle-band: Satisfactory completion in Product Design And Technology, English Language, any Information Technology, Literature, Media, Visual Communication Design or any unscored VET Information Technology equals 5 aggregate points per study. Overall maximum of 15 points.

Selection Mode: CY12 : ATAR and middle-band.
NY12 : Educational History including GPA, Interview (Some). See extra requirements for more information.
SEAS is considered.

Extra requirements:
Interview (NY12-Some) : Details will be provided by telephone or mail to the applicants required to attend.

About the course: Gain legal knowledge in core areas of the law and develop professional skills in advocacy, ethical judgement, communication, legal research and writing, interviewing and negotiation with a combination of core foundation subjects as well as electives that allow you to customise your program. You will gain a broad perspective on legal practice with learning aimed at satisfying academic and professional requirements for admission to practice in Victoria. This course will equip you with the skills and academic knowledge required to be a legal practitioner.

The course combines foundation law subjects, the compulsory 'Priestley Eleven' core areas of legal knowledge required for admission to practice, practical subjects to hone legal skills in writing, drafting, communication and advocacy, as well as a range of law and non-law electives so you can explore your own areas of interest. The program consists of 32 units comprising a law major, and core professional and elective units. It is based and conducted primarily at our historic City Queen Campus but some units may be taught at Footscray Park Campus.
Major studies: Administrative law, Comparative commercial law, Conflict of laws, Constitutional law, Contract, Corporations (company) law, Criminal law, Dispute resolution and civil procedure and litigation, Employment and industrial relations, Equity and trusts, European union law, Evidence, Family law, Financial institutions and securities, Human rights law, Intellectual property (including copyright) law, International trade law, Legal systems (Australian and Asian), Privacy and media law, Professional conduct and legal ethics, Professional legal skills, Public international law, Real property law, Taxation law, Torts, Trade practices and competition, Wills and administration of estates.

Prerequisites: Units 3 and 4; a study score of at least 30 in English (EAL) or 25 in English other than EAL.

Middle-band: A study score of 30 in any English, any Humanities or Legal Studies equals 5 aggregate points per study. Overall maximum of 15 points.

Selection Mode: CY12 : ATAR and middle-band, Test (Some). See extra requirements for more information.
NY12 : Educational History including GPA, VTAC Personal Statement (All), Interview (Some), Test (Some). See extra requirements for more information.
SEAS is considered.

Extra requirements:
VTAC Personal Statement (NY12-All) : Applicants must complete and submit a VTAC Personal History online. Applicants must include details of their interest in the course and any relevant work experience.
Interview (NY12-Some) : Details will be provided by telephone, email or post to the applicants required to attend.
Test (CY12-Some, NY12-Some) : Test (some applicants only): Details will be provided by telephone, email or post to the applicants required to attend.

Law (Graduate Entry) (Grad)

Victoria University
City Queen: 4300641121 (CSP) full-time/part-time Apply: Through VTAC main round

- Bachelor of Laws/Bachelor of Business: 5 years full time study

About the course: Launch your legal practice in Victoria. You'll develop skills, knowledge and professional acumen across a range of business specialisations, providing you with broad and solid grounding for careers in the legal community, business or government. You'll gain specialist business knowledge drawn from areas such as accounting, banking, logistics and transport, information systems, international trade, marketing, music industry, commerce, small business, computer systems management, events, financial risk and human resources. The program combines foundation law subjects, the compulsory 'Priestley Eleven' core knowledge areas required for admission to practice, and training in practical skills such as legal writing, drafting, communication and advocacy with business specialisation units. It also comprises a range of law and non-law electives that you can tailor to your particular interests.

The program comprises 40 law and non-law units, and is held at our historic City Queen and Footscray Park Campuses.

Major studies: Accounting, Administrative law, Auditing, Business, Commerce, Comparative commercial law, Conflict of laws, Constitutional law, Contract, Corporations (company) law, Criminal law, Dispute resolution and civil procedure and litigation, Economic principles, Employment and industrial relations, Equity and trusts, European union law, Evidence, Family law, Finance (including international finance), Financial institutions (including international banking), Financial institutions and securities, Human rights law, Information systems, Intellectual property (including copyright) law, International trade law, Legal systems (Australian and Asian), Management, Marketing, Organisational behaviour, Privacy and media law, Professional conduct and legal ethics, Professional legal skills, Public international law, Real property law, Risk analysis, Taxation, Taxation law, Torts, Trade practices and competition, Wills and administration of estates.

Prerequisites: Units 3 and 4: a study score of at least 30 in English (EAL) or 25 in English other than EAL.

Middle-band: A study score of 30 in any Business, any English or Legal Studies equals 5 aggregate points per study. Overall maximum of 15 points.

Selection Mode: CY12: ATAR and middle-band, Test (Some). See extra requirements for more information.
NY12: Educational History including GPA, VTAC Personal Statement (Some), Interview (Some), Test (Some). See extra requirements for more information.
SEAS is considered.

Extra requirements:
VTAC Personal Statement (NY12-Some): Applicants must complete and submit a VTAC Personal History online. Applicants must include details of their interest in the course and any relevant work experience.
Interview (NY12-Some): Details will be provided by telephone, email or post to the applicants required to attend.
Test (CY12-Some, NY12-Some): Test (some applicants only): Details will be provided by telephone, email or post to the applicants required to attend.

Legal Practice (VET)

Victoria University
Advanced Diploma of Legal Practice: 2 years full time study

**About the course:** Take the first step in your career as a law clerk, paralegal, or legal support staff in the legal practice industry. You'll gain specific knowledge and skills such as interpreting legislation and managing legal practice operation resources. You'll be well equipped as a support member of a legal team with the knowledge and skills you gain in the course. Upon completion, you can get up to one year of credit in VU's Bachelor of Arts (Legal Studies) or Bachelor of Legal Practice Management.

**Major studies:** Administrative law, Commercial law, Communications and media, Computer software, Consumer law, Contract law, Conveyancing process, Criminal law, Law of evidence, Law of torts, Legal practice, Property law, Secretarial and clerical studies, Word Processing.

**Prerequisites:** None

**Middle-band:** None

**Selection Mode:** CY12 : ATAR, Interview (Some). See extra requirements for more information.
NY12 : Educational History including GPA, Interview (Some). See extra requirements for more information.
SEAS is considered.

**Extra requirements:**
Interview (CY12-Some, NY12-Some) : Details will be provided by telephone or mail to the applicants required to attend.

- Associate Degree in Logistics: 2 years full time study

**About the course:** Develop a career in the wide-ranging field of logistics. You'll develop academic and personal skills to facilitate ongoing professional development, including further study at undergraduate or postgraduate level. You can develop a professional career in a wide range of businesses and specialised logistics service organisations involved in inventory management, distribution, warehousing, purchasing, freight, transport, logistics and supply chain operators.

The first year of the course provides a comprehensive introduction to logistics and the role of the logistics professional in business. In year two, you'll deepen your logistics expertise, complete a practical major industry project, and equip yourself with the broader business knowledge required by future managers.

As this is a pathway course, you will be required to enrol in the VET Diploma of Logistics for the first year.

**Major studies:** Accounting, Business (e-commerce), Business (logistics), Business (operations), Business computing, Contract management, Contracts and tenders, Global logistics, Human resource development, Information strategy and decision making, Inventory control, Logistics, Occupational health and safety, Purchasing, Resource management, Supply chain management, Supply chain networks, Warehousing and distribution.

**Prerequisites:** Units 3 and 4; a study score of at least 25 in English (EAL) or 20 in English other than EAL.

**Middle-band:** A study score of 30 in English (EAL) equals 5 aggregate points. A study score of 25 in English other than EAL equals 5 aggregate points per study. A study score of 20 in any Business, any Information Technology or any Mathematics equals 5 aggregate points per study. Overall maximum of 15 points.
Selection Mode: CY12 : ATAR and middle-band.
NY12 : Educational History including GPA.
SEAS is considered.

- Bachelor of Business (Information Systems Management): 3 years full time study

**About the course:** Enter the information systems profession with solid technical and theoretical grounding. This course provides the fundamental concepts, knowledge and skills required for a career in business analysis, project management, data management or e-business in a global economy. It also prepares you to support the strategic use of information systems to facilitate decision-making within an organisation. You'll examine information systems analysis, modelling, development, digital commerce and management techniques and approaches, and apply your learning to develop and deliver an information systems project.

The degree consists of 24 units over three years incorporating seven core business units, seven information systems management specialisation units, seven elective units and three professional development units. You can complete a second area of specialisation or work-integrated learning units as part of your elective studies.

**Prerequisites:** Units 3 and 4; a study score of at least 25 in English (EAL) or 20 in English other than EAL.

**Middle-band:** A study score of 30 in English (EAL) equals 5 aggregate points. A study score of 25 in English other than EAL equals 5 aggregate points per study. A study score of 20 in any Business, any Information Technology or any Mathematics equals 5 aggregate points per study. Overall maximum of 15 points.

**Selection Mode:** CY12 : ATAR and middle-band.

NY12 : Educational History including GPA.

Footscray Park: 4301043383 (IFP) full-time  Apply: Through VTAC main round

- Bachelor of Business (Marketing) : 3 years full time study

About the course: Launch your marketing career. Learn to understand and respond to customer needs in the marketplace by studying the theoretical underpinnings of marketing and how to implement practical marketing solutions. There's a high demand for marketing graduates with career opportunities in marketing management in large and medium corporations or consulting careers in marketing research or advertising agencies. You'll develop key business communications skills such as making presentations, preparing reports, various forms of authorship, and progressively acquire more sophisticated levels of marketing analysis.

The course comprises 24 units incorporating core business units, specialist units, elective units and a stream of professional development units. Work-integrated learning is an option. You can complete a second area of specialisation in addition to the marketing specialisation.

Prerequisites: Units 3 and 4: a study score of at least 25 in English (EAL) or 20 in English other than EAL.

Middle-band: A study score of 30 in English (EAL) equals 5 aggregate points. A study score of 25 in English other than EAL equals 5 aggregate points per study. A study score of 20 in any Business, any Information Technology or any Mathematics equals 5 aggregate points per study. Overall maximum of 15 points.

Selection Mode: CY12 : ATAR and middle-band.
NY12 : Educational History including GPA.
SEAS is considered.

Extra requirements:
None

Massage/Myotherapy (VET)

Victoria University

City King: 4300484004 (Fee type determined by provider)  Apply: Through VTAC main round

- Certificate IV in Massage Therapy Practice (City King): 6 months full time study
- Diploma of Remedial Massage (Footscray Park): 1 year full time study
About the course: Gain hands-on practical skills in remedial relaxation, sports and therapeutic massage, as well as theoretical knowledge. The Certificate IV in Massage Therapy (offered at City King) teaches relaxation, sports and therapeutic massage, and knowledge of anatomy and physiology. The Diploma of Remedial Massage (offered at Whitten Oval, West Footscray) covers myofascial release, trigger-point therapy, lymphatic massage, cupping and more. All courses have strong workplace-simulated learning, including supervised clinics open to the public. You'll also have the chance to work with elite athletes and perform massages in corporate and community settings and public clinics. The diploma course offers the opportunity to study at the Whitten Oval, Footscray, home of the Western Bulldogs. As this is a pathway program, you'll be enrolled in the lowest level qualification and progress to higher levels.

Major studies: Anatomy, Massage, Massage therapy, Pathology, Physiology, Professional practice, Remedial massage, Remedial therapy, Sports therapy, Therapeutic massage.

Prerequisites: None

Middle-band: None

Selection Mode: CY12 : ATAR, VTAC Personal Statement (All), Interview (Some). See extra requirements for more information.

NY12 : Educational History including GPA, VTAC Personal Statement (All), Interview (Some). See extra requirements for more information.

SEAS is considered.

Extra requirements:

VTAC Personal Statement (CY12-All, NY12-All) : Applicants must complete and submit a VTAC Personal History online.

Interview (CY12-Some, NY12-Some) : Details will be provided by telephone or mail to the applicants required to attend.

- Bachelor of Music: 3 years full time study

About the course: Develop your artistic knowledge, musicianship, technical fluency, creativity and critical listening skills in the music, creative arts and education industries. The course focuses on popular and contemporary music with an international perspective through practice, theory, cultural analysis and critical listening and will prepare you for a range of career options beyond that of professional performer including composer, sound designer, music teacher or musical director.

You?ll use cutting-edge music technology in industry-standard facilities for units that explore song-writing and composition for a range of applications including film, TV and multimedia. It also explores the rapidly emerging field of music cognition in the context of developing students? listening and musicianship skills. You?ll have opportunities to study in a range of industry and community projects and assessments. Electives may be taken from additional music units, or creative arts and arts specialisations.

An information session will be held at 7:00pm on Monday 22 October at Kindred Studios, 212A Whitehall Street, Yarraville. Attendance at this session is recommended but not compulsory. For further information telephone: (03) 9919 6196.

Major studies: Arranging, Aural training, Music and culture, Music cognition, Music composition and songwriting, Music creativity, Music history, Music practice (ensemble studies), Music technology, Music theory.

Prerequisites: Units 3 and 4: a study score of at least 20 in any English.

Middle-band: None

Selection Mode: CY12 : ATAR, Interview (All), Audition (All). See extra requirements for more information.
NY12 : Educational History including GPA, Interview (All), Audition (All). See extra requirements for more information.
SEAS is considered.
Extra requirements:
Interview (CY12-All, NY12-All): Applicants must telephone (03) 9919 6196 to book by 29 October. Applicants must attend in November/early December. Confirmation of date and time will be sent by mail.

Audition (CY12-All, NY12-All): Applicants must telephone (03) 9919 6196 to book by 29 October. Applicants must attend in November/early December. Confirmation of date and time will be sent by mail.

City Flinders: 4300243053 (IFP) full-time  Apply: Through VTAC main round

Bachelor of Science (Clinical Sciences): 3 years full time study

About the course: Build your career in osteopathy with this first component of an undergraduate-masters double qualification. You'll study anatomy, osteopathic science, physiology and medical sciences, and undertake fieldwork and clinical practice to prepare for your entry into the Masters of Health Science (Osteopathy). Upon completion of the undergraduate and masters degrees, you'll be eligible to register with the Australian Health Practitioner
The course emphasises evidence-informed practice so that you'll become a skilled, knowledgeable and reflective practitioner.

It contains between eight to 14 units each year, including clinical training, which is undertaken over the three years. The course is held mainly at our City Flinders Campus, with anatomy classes at our St Albans Campus running approximately one day per week during semester.

An information session will be held at the City Flinders campus on Wednesday 4 September from 7:00pm-8:30pm. Attendance at this session is recommended, but not compulsory. For further information, email osteopathy@vu.edu.au or telephone: (03) 9919 1156. Students will need to purchase clinical, laboratory and diagnostic equipment (eg stethoscope) during the course.

**Major studies:** Anatomy and physiology, Biochemistry, Biomechanics, Clinical studies, Medical sciences, Osteopathic science, Pathology.

**Prerequisites:** Units 3 and 4: a study score of at least 25 in English (EAL) or 20 in English other than EAL; and a study score of at least 20 in Chemistry; and a study score of at least 20 in one of any Mathematics or Physics.

**Middle-band:** A study score of 30 in Chemistry, any English or any Mathematics equals 5 aggregate points per study. A study score of 20 in Biology equals 5 aggregate points. Overall maximum of 15 points.

**Selection Mode:** CY12 : ATAR and middle-band.
NY12 : Educational History including GPA, VTAC Personal Statement (All), Interview (Some). See extra requirements for more information.

**Extra requirements:**
VTAC Personal Statement (NY12-All) : All applicants must complete and submit a VTAC Personal History online.
Interview (NY12-Some) : Details will be provided by telephone or mail to the applicants required to attend.

**SUCCESSFUL APPLICANTS:** Police Check: Students must complete a National Police Records Check prior to undertaking field/clinical placements.

**Professional Writing and Editing (VET)**

**Victoria University**

Footscray: 4300880654 (Fee type determined by provider)  
Apply: Through main round

Nicholson: full-time

- Certificate IV in Professional Writing and Editing: 1 year full time study
- Diploma of Professional Writing and Editing: 2 years full time study

**About the course:** Unlock your potential as a professional writer. You?ll gain the knowledge and skills to succeed in the creative writing and publishing industries. The certificate provides theoretical and practical skills in a range of tasks, while the diploma expands your writing and editing skills.

Learn writing, editing and print production skills in a structured and creative environment for emerging writers and editors. Both courses allow you to choose writing specialisations for a range of audiences. They strongly focus on practical activities to involve you directly in the growing publishing and literary life of Melbourne?s west, particularly through the ?Rotunda in the West-Conversations with Australian Writers? activities. You?ll also have the opportunity to write for and produce Platform magazine and other publications.

The course comprises seven core units in areas such as project management, editing and non-fiction writing, and six elective units drawn from four specialisation areas, including desktop publishing, novel development, photo production, and script-writing.

**Major studies:** Comedy writing, Corporate writing, Editing, Fiction writing, Journalism, Non-fiction writing, Poetry, Public relations, Publishing skills, Screen writing, Scriptwriting, Writing for new media, Writing for young children and young adults.

**Prerequisites:** None

**Middle-band:** None

**Selection Mode:** CY12: ATAR, Folio (All), Interview (All). See extra requirements for more information.
NY12: Educational History including GPA, Folio (All), Interview (All). See extra requirements for more information.
SEAS is considered.
Extra requirements:
Folio (CY12-All, NY12-All): Applicants must submit a folio before 22 November.

---

**Project Management (Grad)**

**Victoria University**

Footscray Park: Domestic fee-paying places full-time/part-time  
Applying: [Direct to institution](#)

Footscray Park: International fee-paying places full-time  
Applying: [Direct to institution](#)

- Graduate Diploma of Project Management: 1 year full time study
- Master of Project Management: 1.5 year full time study
- Graduate Certificate in Project Management: 6 months full time study

**About the course:** Expand your project management skills by gaining a thorough knowledge of the principles and techniques of professional project management. Upon completion, you'll be able to manage people, resources, timelines and risks to assume the role of project manager or to be an effective member of a project management team.

You'll develop the ability to apply and evaluate theoretical models and technique in the context of the legal, ethical and accountability requirements. You'll also develop strong relevant professional skills as well as strong personal, interpersonal and organisational attributes. The course is designed to meet the needs of existing professionals in industry. It is offered at our Footscray Park Campus with some units at City Flinders Campus.

The requirement of qualification may be waived in exceptional circumstances on the basis of experience.

**Major studies:** Project Management.

**Prerequisites:** Diploma or Degree in any discipline and a minimum of 2 years post qualification experience.

**Middle-band:** None

**Selection Mode:** SEAS is considered.

**Extra requirements:**
None

St Albans: 4301343343 (IFP) full-time

- Bachelor of Psychological Studies: 3 years full time study

About the course: Study psychology and develop an understanding of human behaviour, motivation, relationships, communication and cognitive processes. You'll conduct analytical research in our state-of-the-art facilities that include interactive labs with video recording, and also undertake a fieldwork placement that enables you to reflect and apply the knowledge you have gained in class in a work setting.

The course is combined with an arts major of your choice, two core social research methods, and two arts electives for a total of 24 units. Upon completion, you'll be eligible to apply for a fourth year (Honours year) of study in psychology. This course has Australian Psychology Accreditation Council (APAC) accreditation.

Tutorials are offered at both St Albans and Footscray Park.

Major studies: Asian studies, Communication, History, Literary studies, Political science, Psychology, Psychology (developmental), Psychology (personality), Psychology (social), Research methods, Sociology.

Prerequisites: Units 3 and 4: a study score of at least 25 in English (EAL) or 20 in English other than EAL; and a study score of at least 20 in any Science.

Middle-band: Satisfactory completion in Biology, Maths; Mathematical Methods (CAS) or Psychology equals 5 aggregate points per study. Overall maximum of 15 points.

Selection Mode: CY12 : ATAR and middle-band.
NY12 : Educational History including GPA, VTAC Personal Statement (Some). See extra requirements for more information.

SEAS is considered.

Extra requirements:
VTAC Personal Statement (NY12-Some) : Applicants with relevant work experience should complete and submit the VTAC Personal History online on or before 15 November. Applicants should provide a statement as to why they wish to study the course.

---

Victoria University

Footscray Park: 4301041491 (CSP) full-time/part-time

- Bachelor of Psychological Studies/Bachelor of Business: 4 years full time study

About the course: Combining psychology and business in a double degree means you'll understand the behaviour of individuals in groups and organisations, and be able to pursue a career in community services, human resources or marketing. This degree is accredited by the Australian Psychology Accreditation Council.

This course contains a total of 32 units: 16 from arts, 10 psychology units plus additional arts electives, and 16 from business and law. Business specialisations can be chosen from accounting, banking and finance, financial risk management, human resource management, international business, international trade, management, marketing, music industry, retail commerce or small business entrepreneurship.
This course has Australian Psychology Accreditation Council (APAC) accreditation.

**Major studies:** Accounting, Banking and finance, Financial planning, Human resource management, International Business, Management, Marketing, Music Industry, Organisational processes, Organisations and management, Psychology, Psychology (development), Psychology (personality), Psychology (social), Research methods, Retail commerce, Small business and entrepreneurship, Supply chain and logistics management.

**Prerequisites:** Units 3 and 4: a study score of at least 25 in English (EAL) or 20 in English other than EAL.

**Middle-band:** Satisfactory completion in Classical Studies, English Language, Geography, any History, Literature, any LOTE, Media, Australian Politics, Global Politics or Psychology equals 5 aggregate points per study. Overall maximum of 15 points.

**Selection Mode:** CY12 : ATAR and middle-band.

**NY12:** Educational History including GPA, Interview (Some). See extra requirements for more information. SEAS is considered.

**Extra requirements:**
Interview (NY12-Some) : Details will be provided by telephone or mail to the applicants required to attend.

- Bachelor of Psychology (Honours): 4 years full time study

**About the course:** Join the popular profession of psychology with this four-year integrated undergraduate/Honours degree designed to give you an understanding of human behaviour, motivation, relationships and communication. Upon completion of the course, you'll be able to apply for registration as a provisional psychologist and seek further career and postgraduate study options.

In the first three years you’ll complete majors in psychology and social research methods, and a minor in areas such as communication studies, sociology, political science, history, gender studies or literary studies. In fourth year, you’ll undertake Honours studies in psychology if you meet academic admission requirements. This includes advanced studies in quantitative or qualitative social research methods, professional practice units (psychological assessment and ethics) and a research thesis. If you successfully complete the first three years of study but have not met academic admission criteria for the Honours year, you'll be eligible to graduate with a Bachelor of Psychological Studies degree.

This course is designed to meet the requirements of the Australian Psychology Accreditation Council (APAC). Progression to the 4th year is dependent on meeting the specific academic standards.

**Major studies:** Psychology, Psychology (developmental), Psychology (personality), Psychology (social), Research methods.

**Prerequisites:** Units 3 and 4: a study score of at least 25 in English (EAL) or 20 in English other than EAL; and a study score of at least 20 in any Science.

**Middle-band:** Satisfactory completion in Biology, Maths: Mathematical Methods (CAS) or Psychology equals 5 aggregate points per study. Overall maximum of 15 points.
Selection Mode: CY12 : ATAR and middle-band.
NY12 : Educational History including GPA, Interview (Some). See extra requirements for more information.
SEAS is considered.

Extra requirements:
Interview (NY12-Some) : Details will be provided by telephone or mail to the applicants required to attend.

St Albans: 4301343153 (IFP) full-time  Apply: Through VTAC  main round

- Bachelor of Science (Psychology): 3 years full time study

About the course: Study psychology and focus on core sciences at the same time. You'll learn about human behaviour, motivation, relationships and communication while acquiring important skills and knowledge in areas such as biology, anatomy, chemistry and wellness.

This course contains two social research methods units and a science major of your choice for a total of 24 units. This course has Australian Psychology Accreditation Council (APAC) accreditation.

Major studies: Biochemistry, Biology, Biosciences, Chemistry, Environmental science, Microbiology, Psychology, Psychology (developmental), Psychology (personality), Research methods.

Prerequisites: Units 3 and 4: a study score of at least 25 in English (EAL) or 20 in English other than EAL; and a study score of at least 20 in any Science.

Middle-band: Satisfactory completion in Biology, Maths: Mathematical Methods (CAS) or Psychology equals 5 aggregate points per study. Overall maximum of 15 points.

Selection Mode: CY12 : ATAR and middle-band.
NY12 : Educational History including GPA, Interview (Some). See extra requirements for more information. SEAS is considered.

Extra requirements:
Interview (NY12-Some) : Details will be provided by telephone or mail to the applicants required to attend.

Purchasing (VET)

Victoria University
Footscray  4300880524 (Fee type determined by provider)  Apply: Through VTAC  main round
Nicholson:  full-time

- Diploma of Purchasing: 1 year full time study

About the course: Launch a career in the high-demand fields of purchasing, procurement, sourcing, contracts and commercial management by acquiring sound theoretical knowledge coupled with managerial skills. By learning to work with all procedures and processes of the procurement life cycle and to perform specialised purchasing
functions such as contract management and tendering, you'll be set for roles in a wide range of industries in large multinational companies, medium and small businesses or government departments.

An information session will be held at the Institute for Logistics & Supply Chain Management on 3 October. Attendance at this session is highly recommended but not compulsory. To book, telephone: (03) 9919 6259.

**Major studies:** Contract management, Contracts and tenders, Finance, Human resource development, Purchasing, Purchasing and materials management, Records management, Risk assessment, Supply chain management.

**Prerequisites:** None

**Middle-band:** None

**Selection Mode:** CY12 : ATAR, VTAC Personal Statement (Some), Interview (Some). See extra requirements for more information.

NY12 : Educational History including GPA, VTAC Personal Statement (Some), Interview (Some). See extra requirements for more information.

SEAS is considered.

**Extra requirements:**

VTAC Personal Statement (CY12-Some, NY12-Some) : Applicants with relevant employment or work experience and or previous study should complete and submit the VTAC Personal History online.

Interview (CY12-Some, NY12-Some) : Details will be provided by telephone or mail to the applicants required to attend. Interviews will be held in November/December.

- Bachelor of Science: 3 years full time study

About the course: Choose one or two science specialisations from biotechnology, chemistry or ecology and environmental management. This is a three-year course with a common first year, and specialisations chosen at second year. You can customise your program by adding sub-specialisations chosen from health, engineering, science, arts, business or law. The biotechnology specialisation will develop your expertise in genetic engineering, microbiology and cell biology as applied to medical, environmental and agricultural science. The chemistry specialisation is analytical chemistry-focussed with studies in forensic chemistry and extensive hands-on training on state-of-the-art analytical instrumentation with an industry placement program. The ecology and environmental management specialisation offers extensive field work in terrestrial, marine and freshwater environments, and interaction with endangered habitats and species.

Prerequisites: Units 3 and 4: a study score of at least 25 in English (EAL) or 20 in English other than EAL; and a study score of at least 20 in any Mathematics.

Middle-band: Satisfactory completion in Biology, Chemistry, Environmental Science, Maths: Specialist Mathematics or Physics equals 5 aggregate points per study. Overall maximum of 15 points.

Selection Mode: CY12: ATAR and middle-band.

NY12: Educational History including GPA, VTAC Personal Statement (Some). See extra requirements for more information.

SEAS is considered.

Extra requirements:
VTAC Personal Statement (NY12-Some): Applicants with relevant work experience should complete and submit the VTAC Personal History online.

SUCCESSFUL APPLICANTS: Police Check: Students must complete a National Police Records Check prior to undertaking Community Science units. Working with Children Check: Students must complete a Working with Children check prior to undertaking Community Science units.

Bachelor of Science/Bachelor of Psychological Studies: 4 years full time study

About the course: Study broad science specialties such as anatomy and physiology along with psychology, behavioural science or counselling for careers in human resources, medical research and others. With an additional year, you'll be eligible for professional accreditation as a psychologist.

You'll study a range of science-based programs, with an emphasis on biomedical sciences linked with behavioural studies and/or counselling. You'll have flexibility after a broad-based first year to choose a science-based specialisation. Second, third and fourth years of the program vary according to the specialisation you choose. You'll have an opportunity to complete a project in the fourth and final year of the course. Upon completion of your studies, you'll have solid employment prospects in the areas of medical research, community services and human resources. With an additional year, you'll be eligible for professional accreditation as a psychologist.

This course has Australian Psychology Accreditation Council (APAC) accreditation.

Major studies: Behavioural studies, Biomedical science, Counselling, Functional anatomy, Genetics, Nutrition, Pathophysiology, Physiology, Psychology (developmental), Psychology (group), Psychology (personality), Research methods, Sociology.

Prerequisites: Units 3 and 4: a study score of at least 20 in any English; and a study score of at least 20 in one of Maths: Mathematical Methods (CAS) or any Science.

Middle-band: A study score of 25 in Biology, Chemistry, Maths: Mathematical Methods (CAS) or Psychology equals 5 aggregate points per study. Overall maximum of 15 points.

Selection Mode: CY12: ATAR and middle-band. NY12: Educational History including GPA. SEAS is considered.

Extra requirements: None

Screen and Media - Games Development (Certificate IV) (VET)

Victoria University

City Flinders: 4300279004 (Fee type determined by provider) full-time Apply: Through VTAC

Certificate IV in Interactive Digital Media: 6 months full time study

About the course: Learn skills and knowledge from industry professionals for wide-ranging careers in this rapidly growing industry. Using the latest technology, and with input from game development studios, you'll develop solid skills in conceptualisation, design and programming.

You'll be prepared with well-developed skills and broad knowledge in a wide variety of contexts in the games development industry.

You'll learn in our industry-standard chroma-key studio, our new wireless motion capture system and out sound recording rooms. Our lectures include industry professionals and recent graduates of the course who have gone on to jobs at leading companies such as Sega and Konami.

Major studies: 3D sculpting and drawing, Animation (3D), Character modelling, Games and animation for mobile devices, Games architecture, Games design, Games design visuals, Games development, Games programming, Games scripting, Games technology, Level design, Modelling (3D), Texturing, Visual design.

Prerequisites: None

Middle-band: None
Selection Mode: CY12: ATAR, VTAC Personal Statement (Some), Folio (Some), Interview (Some). See extra requirements for more information.

NY12: Educational History including GPA, VTAC Personal Statement (Some), Folio (Some), Interview (Some). See extra requirements for more information.

SEAS is considered.

Extra requirements:
VTAC Personal Statement (CY12-Some, NY12-Some): Applicants with relevant work experience and/or previous study must complete and submit the VTAC Personal History online. Applicants must provide a statement advising why they wish to study this course.

Folio (CY12-Some, NY12-Some): Details will be provided by telephone or mail. Late applicants must telephone: (03) 9919 1517 by November/December.

Interview (CY12-Some, NY12-Some): Details will be provided by telephone or mail to the applicants required to attend. Late applicants must telephone: (03) 9919 1517 by November/December.

Screen and Media-Games Development (VET)

Victoria University
City Flinders: 4300279174 (Fee type determined by provider) full-time  Apply: Through VTAC main round

- Advanced Diploma of Screen and Media: 1.5 year full time study

About the course: Learn skills and knowledge from industry professionals for wide-ranging careers in this rapidly growing industry. Using the latest technology, and with input from game development studios, you'll develop solid skills in conceptualisation, design and programming.

The Advanced Diploma prepares you to analyse, design and execute using wide-ranging technical, creative, conceptual and managerial skills in the games development industry. There's also an option to develop iPhone games using the latest Unity software. You'll learn in our industry-standard chroma-key studio, our new wireless motion capture system and our sound recording rooms. Our lecturers include industry professionals and recent graduates of the course who have gone on to jobs at leading companies such as Sega and Konami.

Major studies: 3D sculpting and drawing, Animation (3D), Character modelling, Games and animation for mobile devices, Games architecture, Games design, Games design visuals, Games development, Games programming, Games scripting, Games technology, Level design, Modelling (3D), Texturing, Visual design.

Prerequisites: None

Middle-band: None

Selection Mode: CY12: ATAR, Supplementary form (Some), Folio (Some), Interview (Some). See extra requirements for more information.

NY12: Educational History including GPA, Supplementary form (Some), Folio (Some), Interview (Some). See extra requirements for more information.

SEAS is considered.

Extra requirements:
Supplementary form (CY12-Some, NY12-Some): Applicants must complete and submit an Application for Interview form (www.vu.edu.au/courses/advanced-diploma-of-screen-and-media-cuf60107) by 26 October. Applicants can also request the form by telephone: (03) 9919 1587 by 19 November.

Folio (CY12-Some, NY12-Some): Details will be provided by telephone or mail. Late applicants must telephone (03) 9919 1587 by November/December.

Interview (CY12-Some, NY12-Some): Details will be provided by telephone or mail to the applicants required to attend. Late applicants must telephone (03) 9919 1587 by November/December.

Secondary Education (GET)
Victoria University
St Albans: 4301397501 (CSP) full-time  Apply: Through VTAC main round
St Albans: 4306397501 (CSP) part-time  Apply: Through VTAC main round

- Graduate Diploma in Secondary Education: 1 year full time study

About the course: Become a specialist secondary school teacher after completing your undergraduate degree. You'll develop extensive knowledge and understanding of the teaching and learning process. We emphasise mentoring and support as you learn the practice and theory of education through our school and community partnership program. You'll receive 60 days of experience in schools, including 45 days of supervised teaching practice. Upon completion, you'll be eligible to register with the Victorian Institute of Teaching and teach in secondary schools.

The course is focused on developing teaching practice by linking school experience with theoretical course work. You'll study core units that examine teaching theories and technology, and methods studies that explore teaching and learning approaches that will allow you to teach in specific subject areas. Our Creativity and the Arts in Education method area enables you to develop skills to teach in one or two of the following: dance, drama, visual media and/or visual arts.

Our Extended Discipline Studies - Middle Schooling enables you to extend your first method area. In this extension, pre-service teachers will develop middle school approaches to their teaching practice based on the content knowledge of their first specialist teaching method. Using this specialist area they will focus on theories and learning of middle schooling and development of middle years students' literacy and numeracy.

The provision of method areas is subject to student and College demand.

Applicants must have completed the prerequisite studies for their chosen teaching methods which generally involves completion of at least one sub-major in that subject area. Further information on teaching method requirements is available from the Victorian Institute of Teaching website (www.vit.vic.edu.au) (follow the Teacher Education program link for information about the 'Standards for Initial Teacher Education').

This course commences in February.

Single teaching areas
108: Creativity and the Arts in Education
121: English
109: Extended Discipline Studies in Middle Schooling
162: Health
134: Humanities
174: Information Technology/Computing
178: Mathematics
105: Music
163: Outdoor Education
164: Physical Education
165: Psychology
182: Science
138: Studies Of Society And Environment (SOSE)

Double teaching areas
208: Creativity and the Arts in Education
278: Mathematics
205: Music
282: Science

Prerequisites: Bachelor Degree or equivalent Diploma from a recognised tertiary institution.

Middle-band: None

Selection Mode: span>NY12 : Educational History including GPA, VTAC Personal Statement (All), Interview (Some), English language test (Some). See extra requirements for more information.

SEAS is considered.

Extra requirements:
VTAC Personal Statement (NY12-All): All applicants must complete and submit a VTAC Personal History online indicating why they are interested in a teaching career. They should also explain how their previous studies are relevant to their chosen teaching method/s. Applicants should explain the qualities they bring to the teaching profession, including any relevant experiences in working with young people. Failure to complete and submit this
form may result in the application not being considered.

Interview (NY12-Some): Applicants required to attend an interview will be contacted by telephone or mail between late November and mid January. Failure to attend a required interview may result in the application not being considered.

English language test (NY12-Some)

(Minimum scores required for IELTS academic are Speaking=7.5, Writing=7.0, Reading=7.0, Listening=7.5, or for TOEFL are Speaking=26.0, Writing=26.0, Reading=26.0, Listening=26.0, and Overall=104.0)

Footscray Park: 4306097311 (CSP) part-time  Apply: Through VTAC main round

• Master of Teaching: 1 year full time study

About the course: This two-year Masters of Teaching program includes a one-year nested Graduate Diploma of Education that meets the current VIT requirements for teacher registration for secondary teaching and a further year of professional study. The course will build pre-service teachers understanding of education beyond a graduate diploma level. This is achieved through flexible course design where students are able to select elective units of study to create a range of pathways to explore educational research, educational leadership and/or pedagogical knowledge and curriculum design. The program is focused on developing teaching practice by linking school experience with theoretical course work. You'll study core units that examine teaching theories and technology, and methods studies that explore teaching and learning approaches for specific subject areas. You'll receive 60 days of supervised teaching practice. Our Extended Discipline Studies in Middle Schooling enables you to extend your other method area. In this extension, pre-service teachers will develop middle school approaches to their teaching practice based on the content knowledge of their first specialist teaching area. Using this specialist area they will focus on theories and learning of middle schooling and development of middle years students' literacy and numeracy.

The course commences with an introductory program in February, details of which will be provided at enrolment. The provision of method areas is subject to student and school demand.

Single teaching areas
113: Commerce and Business Studies
121: English
122: English as a Second Language
109: Extended Discipline Studies in Middle Schooling
134: Humanities
174: Information Technology/Computing
141: Languages Other Than English (LOTE)
178: Mathematics
Prerequisites: Bachelor Degree or equivalent Diploma from a recognised tertiary institution.

Middle-band: None

Selection Mode: NY12: Educational History including GPA, VTAC Personal Statement (All), Interview (All), English language test (All). See extra requirements for more information.

SEAS is considered.

Extra requirements:

VTAC Personal Statement (NY12-All): All applicants should complete and submit a VTAC Personal History online, indicating why they are interested in a teaching career. They should also explain how their previous studies are relevant to their chosen teaching method/s. Failure to complete and submit the VTAC Personal History online may result in the application not being considered.

Interview (NY12-All): Some applicants may also be required to attend an interview. Those required to attend an interview, will be contacted by mail or telephone between late November and mid January. Failure to attend the required interview may result in the application not being considered. Failure to complete and submit the VTAC Personal History online or attend a required interview may result in your application not being considered.

English language test (NY12-All)
(Minimum scores required for IELTS academic are Speaking=7.5, Writing=7.0, Reading=7.0, Listening=7.5, or for TOEFL are Speaking=26.0, Writing=26.0, Reading=26.0, Listening=26.0, and Overall=104.0)
105: Music
163: Outdoor Education
164: Physical Education
165: Psychology
182: Science
138: Studies Of Society And Environment (SOSE)

**Double teaching areas**

168: Creativity and the Arts in Education
278: Mathematics
208: Music
282: Science

**Prerequisites:** Bachelor Degree or equivalent Diploma from a recognised tertiary institution.

**Middle-band:** None

**Selection Mode:** NY12: Educational History including GPA, VTAC Personal Statement (All), Interview (All), English language test (All). See extra requirements for more information.

SEAS is considered.

**Extra requirements:**

VTAC Personal Statement (NY12-All): All applicants should complete and submit a VTAC Personal History online indicating why they are interested in a teaching career. They should also explain how their previous studies are relevant to their chosen career method/s. **Social Work (HE)**

**Victoria University**

Footscray Park: 4301041781 (CSP) full-time/part-time  
Apply: Through VTAC main round

Footscray Park: 4301041783 (IFP) full-time  
Apply: Through VTAC main round

St Albans: 4301341781 (CSP) full-time/part-time  
Apply: Through VTAC main round

St Albans: 4301341783 (IFP) full-time  
Apply: Through VTAC main round

- Bachelor of Social Work: 4 years full time study

**About the course:** Establish a career that improves the quality of life and develops the potential of individuals, groups and communities.

You'll study sociology, a first-year foundation unit, and an Indigenous studies unit in first year, and also make a start on professional social work units of study. In years 3 and 4, you'll undertake supervised industry-based placements. In final year, you'll have the opportunity to pursue your own interests in more depth, which includes specialising in research by undertaking Honours study if you want to go on to a postgraduate degree by research. At the end of your course you'll be eligible for membership of the Australian Association of Social Workers.

**Major studies:** Asian studies, Communication studies, Gender studies, History, Literary studies, Media studies, Performance studies, Political science, Professional writing, Psychology, Sociology, Vietnamese, Visual arts.

**Prerequisites:** Units 3 and 4: a study score of at least 25 in English (EAL) or 20 in English other than EAL.

**Middle-band:** None
Selection Mode: CY12: ATAR, Interview (Some). See extra requirements for more information. NY12: Educational History including GPA, Interview (Some). See extra requirements for more information. SEAS is considered.

Extra requirements:
Interview (CY12-Some, NY12-Some): Details will be provided by telephone or mail to the applicants required to attend.

Sound Production (VET)

Victoria University
Footscray: 4300885114 (Fee type determined by provider) Apply: Through VTAC main round
Nicholson: full-time

- Certificate IV in Sound Production: 1 year full time study
- Advanced Diploma of Sound Production: 2 years full time study

About the course: Develop a career in the music industry, either as small business operator or a practitioner in a large production facility. This course will prepare you with the practical training and theoretical knowledge to work in studio, live sound, digital audio editing, and music producing areas.

You'll develop a strong foundation in studio recording, live sound reinforcement and digital audio production for a range of careers in music recording sound production, live entertainment, or work in the television or film industries. The specialisations generally focus on theoretical study and hands-on applications with a strong industry focus on sound production.

An information session will be held at 7:00pm on 22 October at Kindred Studios, 212A Whitehall Street, Yarraville. Attendance at this session is recommended but not compulsory. For further information, telephone: (03) 9919 6193 or email: music@vu.edu.au.

Major studies: Music (production), Music industry, Music recording, Music technology, Sound production, Sound recording.

Prerequisites: None

Middle-band: None

Selection Mode: CY12: ATAR, Interview (All). See extra requirements for more information. NY12: Educational History including GPA, Interview (All). See extra requirements for more information. SEAS is considered.

Extra requirements:
Interview (CY12-All, NY12-All): Applicants must telephone (03) 9919 6196 or email music@vu.edu.au to book by 1 November. Applicants must attend in November/early December.

Specialist Make-up Services (VET)

Victoria University
City King: 4300484024 (Fee type determined by provider) full-time Apply: Through VTAC main round

- Diploma of Specialist Make-up Services: 1 year full time study

About the course: Fast-track your career as a make-up artist, equipped with a range of specialist skills. Learn how to style wigs and hairpieces, and apply specialised make-up for bridal, photographic, theatre, period, special effects, television, film and fashion.

This qualification will give you a sound theoretical base and practical training in a range of specialised, technical and managerial skills to plan, carry out and evaluate make-up services required by the film, television and entertainment industries. You could also find a career coordinating the operations of a make-up department or
business, or operate your own freelance business.

Information sessions will be held at the City King campus (Level 7, 225 King Street Melbourne) on 16 September at 6:00pm, 14 October at 6:00pm, 5 December at 2:00pm and 11 December at 3:00pm. Attendance at one of these sessions is highly recommended, but not compulsory. To book, email makeup@vu.edu.au. Students will be required to purchase a Make-up and Hair student kit.

**Major studies:** Fashion makeup, Make-up, Makeup design, Performance arts makeup, Special effects makeup, Wig and hair styling.

**Prerequisites:** None

**Middle-band:** None

**Selection Mode:** CY12 : ATAR, Interview (Some). See extra requirements for more information.
NY12 : Educational History including GPA, Interview (Some). See extra requirements for more information.
SEAS is considered.

**Extra requirements:**
Interview (CY12-Some, NY12-Some) : Details will be provided by telephone or mail to the applicants required to attend.

- Bachelor of Sport and Recreation Management: 3 years full time study

**About the course:** Develop skills and undertake practical training to administer and manage organisations, events and facilities across the sport and recreation industries. You'll also gain skills to provide leadership and instruction in outdoor pursuits. The course is a comprehensive, flexible program in which you'll develop your professional skills to administer and manage organisations, services, events and facilities across the industry. It includes a significant career and professional development component where you'll get broad practical experience. The outdoor recreation stream develops your knowledge and skills to provide outdoor pursuits (such as bushwalking, rock climbing, canoeing, and mountain-biking) as well as instruction and leadership in a variety of settings such as clubs and camps. With some studies you can obtain industry recognition and/or certification. The course comprises six semesters of nine core, four specialist, 10 stream and one elective units, for a total of 24 units. Students will be simultaneously enrolled in the VET Certificate IV in Outdoor Recreation. Field practicum and programs will incur additional expenses. Some units will be run at St Albans campus.

**Major studies:** Outdoor leadership and guiding, Outdoor recreation, Recreation, Sociology, Sport, Sport (leisure management), Sustainability.

**Prerequisites:** Units 3 and 4; a study score of at least 25 in English (EAL) or 20 in English other than EAL.

**Middle-band:** A study score of 25 in any English, Health And Human Development, Physical Education or Sport And Recreation (VCE VET) B equals 5 aggregate points per study. Overall maximum of 15 points.

**Selection Mode:** CY12 : ATAR and middle-band.
NY12 : Educational History including GPA. See extra requirements for more information.
SEAS is considered.
Extra requirements:
SUCCESSFUL APPLICANTS: Police Check: Students must complete a National Police Records Check prior to undertaking field placements. Working with Children check: Students must complete a Working with Children check prior to undertaking field placements.

Apply: Through VTAC main round

- Graduate Diploma in Primary Teaching: 1 year full time study

**About the course:** Develop your career as a primary school teacher while you get valuable classroom experience through our school and community partnership program. We emphasise student mentoring and you can upgrade to a masters degree with another year of study. Upon completion, you'll be eligible to register with the Victorian Institute of Teaching and to teach in primary schools.

The program focuses on developing teaching practice by linking authentic school experience with theoretical course work. Core education units explore teaching and learning approaches and examine teaching theories in all areas of the primary school curriculum. You'll receive practical training with a minimum of 45 days of supervised teaching practice, plus 15 additional days of experience in schools.

**Double teaching areas**

210: Primary

**Prerequisites:** Bachelor Degree

**Middle-band:** None

**Selection Mode:** NY12: Educational History including GPA, English language test (All). See extra requirements for more information.

SEAS is considered.

**Extra requirements:**

English language test (NY12-All): Applicants who do not meet the English language requirement may fulfil this requirement via the IELTS (Academic) test, with an average score of 7.5 across all four bands, with no score below 7.0 in any band and no score less than 8 in speaking and listening. Alternatively, applicants may meet the English language requirement with an internet-based TOEFL result of 104 with no individual score less than 26.

Selection Mode: CY12: ATAR and middle-band.
NY12: Educational History including GPA.
SEAS is considered.

Extra requirements: None

Visual Art (VET)
Victoria University

City Flinders: 4300279034 (Fee type determined by provider) full-time Apply: Through VTAC main round

Diploma of Visual Art: 1 year full time study

About the course: Study the technical and conceptual skills of a range of classical and contemporary painting and drawing techniques, taught by practising artists. In second year you'll be given your own studio space to help you develop as an artist. The Diploma of Visual Art delivers the specific knowledge and skills you'll need to become a visual artist who works independently or within specialised organisations. You'll take painting as your major study, supported by additional studio-based subjects that focus on developing technical and conceptual skills.

Major studies: Art history and theory, Artspace (gallery studies), Digital imaging, Digital media, Drawing, Life drawing, Painting, Printmaking, Video art.

Prerequisites: None

Middle-band: None

Selection Mode: CY12: ATAR, Folio (All), Interview (All). See extra requirements for more information.
NY12: Educational History including GPA, Folio (All), Interview (All). See extra requirements for more information.
SEAS is considered.

Extra requirements: Folio (CY12-All, NY12-All) : Details will be sent to applicants by late November.
Interview (CY12-All, NY12-All) : Applicants must complete and submit an Application for Interview form available at www.vu.edu.au/courses/diploma-of-visual-arts-cuv50111) by 26 October. Applicants can also request the form by

Interview (CY12-Some, NY12-Some): Details will be provided by telephone or mail to the applicants required to attend.

SUCCESSFUL APPLICANTS: Working with Children Check: Students must complete a Working with Children Check prior to undertaking field placements.
Established in 1998, VIT (Victorian Institute of Technology) is a premier government registered training organization specializing in providing a large range of full and part time accredited nationally recognized qualifications and other short industry oriented courses in leading edge technologies of Automotive, Multimedia, Digital Production, IT, Business Management and Hospitality industries.

As a vocationally focused education provider, VIT (Victorian Institute of Technology) particularly concentrates on providing the training necessary to develop the skills required for potential and existing workers to meet the demands of modern day industries.

VIT (Victorian Institute of Technology) provides quality training to regular clients from leading Australian Companies and Government Departments in addition to overseas students. VIT (Victorian Institute of Technology) has earned a good name as a quality and cost effective training provider both in the domestic and overseas markets.

VIT (Victorian Institute of Technology) is SAP University Alliance Program member and an accredited Microsoft Certified Partner, Registered Training Organization (RTO) and has articulation / credit transfer / advanced standing arrangements in place with leading Universities in Australia. VIT (Victorian Institute of Technology) Diploma holders can directly join the second year of the corresponding Hospitality program at Victoria University. Diploma of IT students will get credits in the corresponding IT programs in Deakin University, Central Queensland University and Monash University.

VIT (Victorian Institute of Technology) operates from multiple locations, located at 123 Queen St, Melbourne; 461 Dynon Road West Melbourne, 413 Johnston Street, Abbotsford.

In 2008 five state of the art commercial kitchens are purpose built for hospitality training at 413 Johnston Street, Abbotsford. The five kitchens are fitted out in accordance with the Service Skills Australia equipment guidelines. These kitchens are built as per the Building Commission Australia specifications and are approved by the City of Yarra Planning Department, Building Department and Health Department as premises for Culinary Training School, Full Functional Café and Restaurant with on premises Liquor License.

### Culinary Management (Degree) (HE)

**William Angliss Institute of TAFE**  
City: 8600186182 (DFP) full-time/part-time  
Apply: **Through VTAC** main round

- Bachelor of Culinary Management: 4 years full time study

**About the course:** The Bachelor of Culinary Management is a unique opportunity to explore your personal passion for food and wine while developing advanced culinary knowledge, critical thinking and management know-how with a cross disciplinary team of food and wine experts. The third year of the program is undertaken in industry as a work placement year. This enriching experience enables students to work in industry on a casual or full-time basis.  
Staff assist students in finding and applying for paid positions. The Higher Education and Research Faculty fosters a lively academic culture where staff engage in research in their specialist fields.

Our flexible academic program includes academic and industry-specific subjects such as: culture and cuisine, contemporary food issues, wine design, culinary artistry and gastronomy, supplemented by a management stream to help you become an innovator in the field. Students have the opportunity to gain real industry experience. The program is based on lectures and tutorials along with experiential learning activities, such as excursions and sensory evaluation, to support academic learning in meaningful ways. Electives may include: training and development, entrepreneurship and gastronomic tourism.

Information sessions: visit [www.angliss.edu.au](http://www.angliss.edu.au) for details.

**Major studies:** Culinary arts, Culture and cuisine, Economics and global Impacts, Food and beverage management, Food Issues in the 21st century, Gastronomy, Hospitality sales and marketing, Management accounting, Organisational behaviour, Research methods, Sustainability and risk management, Wine design, Work integrated learning.

**Prerequisites:** Year 12 or equivalent.

**Middle-band:** None

**Selection Mode:**  
CY12: ATAR, Supplementary form (All). See extra requirements for more information.  
NY12: Educational History including GPA, Supplementary form (All). See extra requirements for more information.

**Extra requirements:**  
Supplementary form (CY12-All, NY12-All): Available at [www.angliss.edu.au/Pre-selection-Forms](http://www.angliss.edu.au/Pre-selection-Forms)

### Events (VET)

**William Angliss Institute of TAFE**  
City: 8600186134 (Fee type determined by provider) full-time/part-time  
Apply: **Through VTAC** main round

- Diploma of Events: 1.5 year full time study  
- Advanced Diploma of Events: 2 years full time study

**About the course:** Do you want to launch a career with global potential? Why settle for walking the red carpet when you can run the whole show? With our events courses you can learn how to plan, fund, market and manage successful events.

The Diploma builds on the solid understanding of the industry, registrations, and food and beverage gained in the Certificate III to focus on organising in-house functions, then progressing to larger event projects. You will work with
real clients to run real events. Alongside the operational skills, you will be introduced to business management
subjects that ensure the success of an event, including legal requirements, financial planning, leadership and
project management.

The Advanced Diploma utilises the skills, knowledge and experiences built on from the Diploma and puts them into
a management perspective. Researching current trends, feasibility studies, innovation, sustainability, and marketing
strategies will allow you to develop your own event proposal.

A qualification in events will provide you with a multitude of career options locally and globally. If you are energetic
and organised then a career in events might be for you.

Information sessions: visit www.angliss.edu.au for details.

**Major studies:** Tourism, Administration, Business (accounting), Communications, Conferencing, Conventions and
exhibitions, Environmental management, Event management, Event management (festivals), Leadership, Legal
requirements for events, Management, Marketing, Meeting and event management, Meetings and conventions
management.

**Prerequisites:** Year 12 or equivalent.

**Middle-band:** None

**Selection Mode:** CY12 : ATAR, Supplementary form (All), Interview (All). See extra requirements for more
information.
NY12 : Educational History including GPA, Supplementary form (All), Interview (All). See extra requirements for
more information.

**Extra requirements:**
Supplementary form (CY12-All, NY12-All) : Applicants must complete a Pre-selection Form and submit it at their
interview. Available at: www.angliss.edu.au/Pre-selection-Forms
Interview (CY12-All, NY12-All) : Please visit: www.angliss.edu.au - Information regarding interview dates and times

Extra requirements:

Supplementary form (CY12-All, NY12-All): Applicants must complete a Pre-selection Form and submit it at their interview. Available at: www.angliss.edu.au/Pre-selection-Forms

Interview (CY12-All, NY12-All): Please visit: www.angliss.edu.au - Information regarding interview dates and times will also be forwarded to all applicants.

Patisserie (VET)

William Angliss Institute of TAFE

Certificate IV in Patisserie/Advanced Diploma of Hospitality: 2.5 years full time study
Certificate IV in Patisserie: 1.5 year full time study

About the course: Become a patissier by enhancing your knowledge and perfecting your artisan craftsmanship through learning innovative patisserie techniques and the fundamentals of pastry construction. Units include gateaux and tortes, pastries, presentation of plated, hot, cold and frozen desserts, yeast/bread production and petit fours. Practical units are delivered collectively with theory that compliments employability skills. You will also make molded chocolates, sugar sculptures, showpieces and learn to understand the principles of special dietary requirements. Theory subjects underpinning the Certificate IV provide knowledge in catering control, sustainable work practices and leadership. After completing the patisserie program, you will be provided with a nationally recognised certificate which will provide opportunities for students to enter into the realm of pastry kitchens in various national and international hospitality enterprises.

Information sessions: visit www.angliss.edu.au for details.

Major studies: Chocolate production, Communication skills, Customer service, Dietary and nutritional studies, Environmental health, Food handling, Food law, Food safety and hygiene, Hot and cold desserts, Mathematical solutions, Occupational health and safety risk management, Patisserie, Patisserie fundamentals, Patisserie products, Quality control, Stock control, Sustainability, Sweets production, Team management.

Prerequisites: Year 11 or equivalent.

With over 13,050 students choosing Wodonga TAFE in 2012, we can find the right solution for you. Wodonga TAFE offers more than just courses. We prepare you for work and for a successful career. Wodonga TAFE’s teachers have close links with industry and understand what employers want from their employees in terms of skills and current, up-to-date knowledge. Real, hands-on industry work experiences and simulated training environments mean that you graduate with work-ready knowledge and skills. Our industry partnerships give you hands-on experience with current technology and processes. Our course programs are developed to meet industry needs and ensure positive employment outcomes for students.

Our class sizes are small, so you will enjoy the benefits of quality contact with your teachers and fellow students and our teaching is flexible, so you can find the mode of study that suits you best. You can study on campus, off campus, online (or a blend of all three). Learning is flexible and can be full-time or part-time.

For many people, Wodonga TAFE is just the beginning of a career journey. Through our comprehensive partnerships with universities, a number of Wodonga TAFE’s diploma and advanced diploma courses are approved for credit towards university degrees.

Wodonga TAFE is located in one of Australia’s largest, most vibrant regional communities. Albury Wodonga and its surrounding area offers great recreational activities including water sports on the Murray River or Lake Hume, bike and walking paths, snow skiing, thriving clubs and pubs, and world-class food and wine. There are employment opportunities across a number of industries including manufacturing, transport and logistics, retail, tourism and hospitality, government, and health. Located three hours drive from Melbourne and six hours drive from Sydney on the Hume Freeway, Albury Wodonga has regular air, rail and bus services to both Sydney and Melbourne and bus services to other major centres.

Wodonga TAFE provides a range of services to support students with academic, financial, and personal needs, including: Aboriginal liaison officer, academic skills and return-to-study support, accommodation (on and off campus), assistance for students studying remotely, careers counselling and job seeker assistance, Centrelink assistance, course information, disability liaison, equal opportunity, financial assistance and student grants, generalist counselling, health and welfare, international student support, skills recognition, VTAC information, youth pathways support. Our facilities also include a bookshop, cafeteria, and library. Further information about these services is available from our Customer Service team on 1300 MY TAFE (1300 698 233) or visit our website at www.wodongatafe.edu.au/learnerservices

Institutional Service/Policy

Skills Recognition

The Wodonga TAFE Skills Recognition Service provides a friendly, supportive service which enables you to explore recognition of prior learning, credit transfer, course information, and the training system at Wodonga TAFE. The main focus of the Skills Recognition Service is promoting Recognition of Prior Learning (RPL), course information and career guidance. You can make an
appointment to discuss your needs with a Skills Recognition Service consultant. This service is free of charge.

For more information: www.wodongatafe.edu.au/skillsrecognition

Special Entry Access Scheme (SEAS)

Wodonga TAFE is committed to providing a fair and equitable process to applicants who may have been unable to reach their full educational potential or who may have access to the course(s) of their choice restricted because of their circumstances. Applicants who lodge a SEAS Application will be granted extra consideration for course entry.

For more information: www.wodongatafe.edu.au/seas

Pathways

There are many choices when you need to make decisions about further education and careers. Sometimes it can be hard to know where to start. Wodonga TAFE provides many services to help you choose which course to study, and also to help you while you are completing your studies.

Educational pathways extend from school through TAFE to university. Start your career with a Wodonga TAFE qualification and also use it to gain credits and entry into a university degree. Our diploma-to-degree program 'careerdirect' offers you the opportunity to complete a diploma or an advanced diploma at Wodonga TAFE and continue to university studies, enabling you to receive credit towards your degree for the studies that you have already completed. This program gives you the choice to complete your studies in Albury Wodonga or you can move to a larger metropolitan area if you want to. By completing your entire diploma-to-degree program with us, you can maintain work, family, or other commitments.

For more information: www.wodongatafe.edu.au/pathways

Enrolment

Before you enrol at Wodonga TAFE, contact the course coordinator of the course you are interested in to find out how to apply. Application requirements vary for each course, and you may need to attend an information session in advance. Some courses require applications to be in well before the course starts (especially if you are applying through VTAC). For more information: www.wodongatafe.edu.au/enrolment

Services

Aboriginal Liaison Officer

Wodonga TAFE is committed to provide opportunities for Aboriginal and Torres Strait Islander (ATSI) learners to successfully complete their chosen courses of study, in an environment that is welcoming and culturally appropriate for them.

The Aboriginal Liaison Officer supports and provides assistance to Aboriginal and Torres Strait Islander learners. This assistance may include helping learners through the enrolment process, supporting learners to stay engaged and get the most out of their studies, and linking them with other appropriate services such as: study skills, disability support, counsellors, financial assistance, accommodation, Centrelink and ABSTUDY information.

For more information: www.wodongatafe.edu.au/al
Accommodation

Once you have decided to study at Wodonga TAFE, you may need to think about where you are going to live. Our Residential Coordinator can help you decide on the type of accommodation to suit you. Options vary and include: renting or sharing a flat, house, or apartment, renting a caravan or cabin in the caravan park that adjoins Wodonga TAFE, accessing private board with a family, or living on campus in the communal residences. Wodonga TAFE offers 26 residential places on-campus for students studying at Albury-Wodonga. You must apply for on-campus accommodation before the end of the year, before you start your studies. Applying does not guarantee you a place. Priority for places in the residential complex is given to full-time, first-year learners who are recent school leavers, and international students.

For more information: www.wodongatafe.edu.au/accommodation

Generalist Counselling

We recognise that a supportive environment contributes to the success and confidence of our students at all stages of study. Most of the time, tertiary study is interesting and stimulating. However, sometimes personal or academic difficulties intervene.

Confidential counselling is available to all Wodonga TAFE students about any issues which may arise and present difficulties during a course of study. The service is free to students. Counselling staff are highly qualified and experienced. Issues which may arise include: adjustment to living away from home, personal and relationship problems, health/mental health issues, study motivation, financial stress, study skills, time management, exam preparation.

For more information: www.wodongatafe.edu.au/support

International Student Support

The International Student Support Officer at Wodonga TAFE understands the challenges that new international students may face and is available to provide assistance through the experience of transitioning to education in a new country.

The International Student Support Officer can assist new students with: using public transport, understanding currency and the banking system, becoming familiar with the community, for example, shopping, clubs and societies, securing adequate accommodation, ensuring ongoing health and wellbeing, linking with appropriate services either at Wodonga TAFE or in the community, connecting to academic services and assistance.

For more information: www.wodongatafe.edu.au/international

Financial Assistance

Wodonga TAFE provides a range of services to support students with academic, financial, and personal needs. As a student of Wodonga TAFE you may be eligible for financial assistance to help with your course fees. Talk to a member of our Learner Services team to discuss the funding options that may be available to you.

For more information: www.wodongatafe.edu.au/financialassistance

Disability liaison

Wodonga TAFE aims to ensure that learners with a disability, a medical condition, or additional learning needs...
can participate fully and equally in all aspects of student life. If you are a student with a disability, you are advised to meet with the disability liaison officer (DLO). The DLO assesses students to determine appropriate ‘reasonable adjustments’ that can be made to support students so that they can successfully complete their studies.

Teaching&bbsp; OTHER = Other Graduate

Applied Fashion Design and Technology (VET)

Wodonga Institute of TAFE
Wodonga: 8800210074 (Fee type determined by provider) full-time Apply: Through VTAC main round

- Certificate IV in Applied Fashion Design and Technology: 1 year full time study

About the course: This program develops your knowledge and skills associated with fashion design so you may pursue a career or further study at a more advanced level in this area.

You will complete specific assignments that focus on developing your skills in the various areas of the fashion industry, including the design process (both illustrative and CAD), garment manufacturing and production methods, pattern-making, and grading/fabric draping.

You will also explore consumer-behaviour related fashion trends, how collections are developed to produce key looks, the cultural and social impact of fashion, brand analysis, and market awareness.

There are no formal requirements for this course, but a background or an interest in art or design is desirable.

You need sound language and literacy skills, and you will be assessed on your suitability for the program during an individual interview process.
Building Design (VET)

Wodonga Institute of TAFE
Wodonga: 8800828034 (Fee type determined by provider) full-time  Apply: Through VTAC main round

- Advanced Diploma of Building Design (Architectural): 3 years full time study

About the course: This course provides the skills and knowledge required to seek employment with architects, builders, building designers, building inspectors or surveyors. You learn to assume the role of project administrator on large jobs or to run your own drafting office as a building designer after you gain appropriate work experience. This qualification leads to your registration as a building designer as required in Victoria by the Building Commission.

The course is full time (3 days a week) 3 years on campus, the last year comprising classes one day a week. Enrolment requirements are: a sound language, literacy, numeracy skill set, completion of year 12 as a minimum; or enrol as a mature age applicant and/or have relevant work experience in the building industry. An interview process is to be undertaken before enrolment.

An information session is held in October to allow prospective students to meet the teachers and see student works to help them make a decision.

Major studies: Architecture, Building, Building (construction methods), Building (design), Building (technology), Computer-aided drafting (CAD).

Prerequisites: None

Middle-band: None

Selection Mode: CY12 : ATAR, Interview (All). See extra requirements for more information.
NY12 : Educational History including GPA, Interview (All). See extra requirements for more information.
SEAS is considered.

Extra requirements:
Interview (CY12-All, NY12-All) : You need to attend an interview as part of the selection process for this course. Applicants must phone Wodonga TAFE on 1300 698 233 for details by 11 November (late applicants by 9 December).
**Wodonga: 8800288444 (Fee type determined by provider) full-time**  
Apply: Through VTAC main round

- Diploma of Engineering Technology: 1 year full time study
- Advanced Diploma of Engineering Technology: 1 year full time study

**About the course:** You learn skills in the design, development, and drafting of components and machinery required in manufacturing industries. You use a range of materials such as metals, non-metals, composite materials, and plastics. The course includes design for manufacture.

The course includes a range of technical modules from various engineering disciplines including civil, structural, automotive, mechanical, and manufacturing engineering. The Advanced Diploma course provides students with a pathway to advanced standing into Bachelor of Engineering programs at university or for those aspiring to the technician level of the metals and engineering award.

**Major studies:** Computer-aided design (CAD), Computer-aided drafting (CAD), Design and detail drafting, Engineering (fluid power), Engineering (manufacturing), Engineering (materials), Engineering (mechanical), Engineering (process engineering), Industrial engineering, Machine dynamics, Mechanical design, Mechanics (applied).

**Prerequisites:** None

**Middle-band:** None

**Selection Mode:** CY12 : ATAR, Interview (All). See extra requirements for more information.

NY12 : Educational History including GPA, Interview (All). See extra requirements for more information.

SEAS is considered.

**Extra requirements:**

Interview (CY12-All, NY12-All) : An interview is required to determine entry into the Advanced Diploma course. Contact us for further details and to arrange your interview time.

---

**Events (VET)**

**Wodonga Institute of TAFE**

**Wodonga: 8800288084 (Fee type determined by provider) full-time**  
Apply: Through VTAC main round

- Diploma of Events: 1 year full time study

**About the course:** This course provides you with the skills and knowledge you need to work across a broad range of event areas including professional conference organisations, event management companies, sporting associations, community organisations, and hospitality and cultural venues.

Possible job roles include working as an event, venue, conference, or exhibitions coordinator. This course may also provide credit towards a bachelor degree.

You learn a broad range of event management skills including significant communication, planning, and organisational skills that enable you to develop a concept and see it through. The course provides you with opportunities for hands-on experience of running an actual event.

Entry into this course may require prior completion of a certificate III in events, hospitality or business, or relevant industry experience in the event industry.

**Major studies:** Administration, Event management, Event management (festivals), Leadership, Marketing.

**Prerequisites:** None

**Middle-band:** None

**Selection Mode:** CY12 : ATAR, Interview (All). See extra requirements for more information.

NY12 : Educational History including GPA, Interview (All). See extra requirements for more information.
SEAS is considered.

**Extra requirements:**
Interview (CY12-All, NY12-All): Applicants must contact Wodonga TAFE on 1300 698 233 by 30 November to arrange an interview as part of the selection process into this course.

### Horticulture (VET)

**Wodonga Institute of TAFE**

*Wodonga: 8800288254 (Fee type determined by provider) full-time  **Apply:** Through VTAC main round*

- Certificate III in Horticulture: 1 year full time study
- Certificate IV in Horticulture: 1.5 year full time study

**About the course:** This course provides you with the skills and knowledge required for employment in the horticultural industry in areas such as local councils, landscape contractors, golf courses or nurseries. Successful completion of this course may also lead to further study at certificate III, IV or diploma level.

This course provides you with an introduction for working within any horticultural enterprise, such as turf management, landscaping, parks and gardens, arboriculture and nursery. This course covers multiple streams.

Enrolment requirements are: basic literacy and numeracy skills are required. You need to wear suitable clothing and footwear, for example, safety boots, broad-brimmed hat, collared shirt. Some other personal protective equipment will be required depending on units of study, for example, earplugs or earmuffs are required when using machinery.

**Major studies:** horticulture, landscape, parks and gardens, retail nursery, turf.

**Prerequisites:** None

**Middle-band:** None

**Selection Mode:** CY12: ATAR.  
NY12: Educational History including GPA.

SEAS is considered.

**Extra requirements:** None

### Interactive Digital Media (VET)

**Wodonga Institute of TAFE**

*Wodonga: 8800288144 (Fee type determined by provider) full-time  **Apply:** Through VTAC main round*

- Certificate IV in Interactive Digital Media: 1 year full time study
- Diploma of Interactive Digital Media: 1 year full time study

**About the course:** Your studies include specialising in popular digital media including the Internet, 3-D animation, electronic games, television, and sound and digital design.

You will develop the skills and knowledge you need to work in a variety of roles including as an animation/visual effects designer, an information architect, an instructional designer, an interactive media developer, or an interface designer.

**Major studies:** Animation (3D), Animation design and production, Design, Design (3D), Digital audio, Digital video, Image making, Image processing, Imaging and sound, Multimedia, Multimedia analysis and design, Multimedia authoring, Multimedia communications, Multimedia production and development, Multimedia programming, Multimedia technology, Project management, Sound recording, Website development, Writing (media).
**Interior Design and Decoration (VET)**

**Wodonga Institute of TAFE**
Wodonga: 8800288054 (Fee type determined by provider) full-time  
Apply: Through VTAC  
main round

- Certificate IV in Interior Design: 1 year full time study
- Diploma of Interior Design and Decoration: 2 years full time study

**About the course:** This course will develop your skills in computer-aided design (CAD), freehand, and manual drawing. You learn about colour theory, product knowledge, advanced communication skills, soft furnishings, business practice and management, lighting design, design history, and principles and elements of the built environment, culminating in project design and management. Residential and commercial projects are also covered.

This exciting course is for you if you want a career in interior decoration and design. You develop the knowledge and skills you need to work in this exciting and growing professional field. The course may lead to a variety of career paths including work as an interior design consultant, interior decorator, or colour consultant in retail, commercial, or residential environments.

**Major studies:** Colour studies, Computer-aided design (CAD), Construction, Design, Drawing, Furnishings, Interior design, Lighting, Materials and Finishes, Planning and drafting.

**Prerequisites:** None

**Middle-band:** None

**Selection Mode:** CY12: ATAR, Interview (All). See extra requirements for more information.
NY12: Educational History including GPA, Interview (All). See extra requirements for more information.
SEAS is considered.

**Extra requirements:**
Interview (CY12-All, NY12-All): You need to attend an interview as part of the selection process for this course. Applicants must phone Wodonga TAFE on 1300 698 233 for details by 11 November (late applicants by 9 December).

---

**Motorsport (VET)**

**Wodonga Institute of TAFE**
Wodonga: 8800210044 (Fee type determined by provider) full-time  
Apply: Through VTAC  
main round

- Certificate III in Motorsport: 1 year full time study
- Certificate IV in Motorsport: 1 year full time study
About the course: Most racing teams see the Certificate III in Motorsport as the minimum point of entry into the industry. Some of our graduates have achieved excellent employment outcomes in the motorsport industry after they have completed this course. You learn to service and repair engines and suspension systems, cooling systems, exhaust systems, diesel fuel systems, engine-forced induction systems, and clutch assemblies. You also learn how to repair and service manual and automatic transmissions, braking systems, hydraulic systems, final-drive assemblies, and steering and suspension systems. Repairs to ignition, electronic engine, and drive management systems are also encompassed in the duties of the mechanic. You learn to discuss problems with drivers and users to discover faults and carry out your own diagnostic procedures.

In the second year of study (following the Certificate III in Motorsport) you will achieve the Certificate IV in Motorsport. You learn about the more advanced technical aspects of motorsport including; vehicle setup including the selection of wheels, tyres, spring rates and aerodynamic settings; 3-dimensional computer-aided drawing (CAD), finite element analysis, CNC machining, shock absorber and engine testing using a dynamometer; overhauling assemblies such as engines, transmissions and brakes; advanced composites including making patterns and moulds; a range of additional automotive competencies including LPG systems, forced induction, ABS brakes and stability control systems.

Theory (classroom activity) is consolidated with hands-on workshops and trackside experience with a range of MTA equipment including a V8 Supercar, Formula Fords, karts, a turbocharged sports sedan, a speedway car and other vehicles from our partner organisations. Students are also offered placement with motorsport teams to assist at trackside events, providing opportunities for students to build networks and contacts.

Major studies: Assemble and prepare a competition vehicle, Carry out diagnostic procedures, Collect and log motorsport data, Conduct non-destructive testing, Follow motorsport event and team safety requirements, Implement and monitor environmental regulations , Inspect and service engines, Load and unload a competition vehicle and support equipment, Manage motorsport data acquisition, Operate in a motorsport environment, Participate in environmentally sustainable work practices, Perform torquing and fastening, Service final drive (driveline), Set up and dismantle temporary work locations and equipment.

Prerequisites: None

Middle-band: None

Selection Mode: CY12 : ATAR.
NY12 : Educational History including GPA.
SEAS is considered.

Photography and Photo Imaging (VET)

Wodonga Institute of TAFE

Wodonga: 8800288024 (Fee type determined by provider) full-time  Apply: Through VTAC main round

- Certificate IV in Photo Imaging: 1 year full time study
- Diploma of Photo Imaging: 1 year full time study

About the course: Within this course you will learn about the vocational and business skills you need to become an independent photographer. You develop skills including the provision of media, wedding, and technical photo images. You also learn how to present your work, manage budgets and financial plans, and how to promote your products and services.

This course will prepare you for a career as a photographer across a range of industry contexts including commercial, domestic portrait, media, wedding, illustrative, and institutional photography.

Major studies: Design theory, Photography, Photography (black and white), Photography (colour management), Photography (colour), Photography (commercial), Photography (printing), Photography (studio), Photography (visual and conceptual development).

Prerequisites: None

Middle-band: None
Certificate III in Printing and Graphic Arts (Graphic Design Production): 1 year full time study

About the course: This course will enable you to launch your career in the graphic design or printing industry. You will develop the foundation skills you need to work as an assistant or junior graphic designer. It can also lead to work in related industries such as printing, interactive media design, or sign writing. This course provides you with creative and practical skills in the areas of graphic design, advertising, packaging, printing, and electronic media.

The course develops your ability to respond to a variety of design briefs. You learn about typography, layout, and design; the production, manipulation, and processing of digital images; drawing techniques; and the preparation of text and graphic files for print processing.

For entry into this course we recommend that you have completed Year 10 as a minimum, or that you enrol as a mature-aged student.

Major studies: Advertising, Design, Digital media, Graphic design, Layout, Packaging, Printing, Typography.

Prerequisites: None

Middle-band: None

Selection Mode: CY12 : ATAR, Interview (All). See extra requirements for more information. NY12 : Educational History including GPA, Interview (All). See extra requirements for more information. SEAS is considered.

Extra requirements:
Interview (CY12-All, NY12-All) : You need to attend an interview as part of the selection process for this course. Applicants must phone Wodonga TAFE on 1300 698 233 for details by 11 November (late applicants by 9 December).

Certificate IV in Sound Production: 1 year full time study

About the course: This course will prepare you for a career as a sound mixer/technician or sound recordist/engineer in the music and associated performance and media industries.

You will learn how to use professional audio recording equipment, mix and record live bands and concerts, and record music demos.
**Sustainability (VET)**

**Wodonga Institute of TAFE**

Wodonga: 8800210024 (Fee type determined by provider) full-time  
Apply: Through VTAC  
main round

- Diploma of Sustainability: 0.5 year full time study

**About the course:** You will gain skills and knowledge to enable you to embed sustainability principles and strategies into your everyday work practices. As environmental issues become more influential on business practices, you will be well equipped to understand the economic, social and environmental implications of different industries. This course will enable you to further develop your own thinking around sustainability practices. This course has been designed to be studied concurrently with studies in another program (diploma level or above), or to complement qualifications already completed. Participants without an existing qualification may still enrol in this course, and will gain a statement of attainment for the four specialisation units completed.

This course explores the concepts and principles of sustainability, enabling you to develop the skills and knowledge you need to implement sustainable practices in the workplace. This course provides you with: an understanding of the key sustainability concepts, principles, and issues, and an introduction to tools used to measure and assess our sustainability impacts; an insight into behaviour-change strategies, and an opportunity to design and implement a program for sustainable behaviour change, and the skills to analyse and prepare a 'triple bottom line' business case to assist with sustainable decision-making.

**Major studies:** None.

**Prerequisites:** None

**Middle-band:** None

**Selection Mode:** CY12: ATAR.  
NY12: Educational History including GPA.

SEAS is considered.

**Extra requirements:**

None

---

**Tourism (VET)**

**Wodonga Institute of TAFE**

Wodonga: 8800288774 (Fee type determined by provider) full-time  
Apply: Through VTAC  
main round

---

**Major studies:** Establish and manage production requirements and resources, Follow occupational health and safety procedures, Implement copyright arrangements, Mix live audio, Mix recorded music, Operate audio equipment, Sound editing, Sound Production, Sound recording.

**Prerequisites:** None

**Middle-band:** None

**Selection Mode:** CY12: ATAR, Interview (All). See extra requirements for more information.
